Testimony:

Aloha,

In alignment with the State's Clean Energy Vision plan by 2045, please consider the following upgrades for the city's wastewater system. In 2020, the city of Hillsboro, Oregon adopted an early version of this technology. Now with a new and improved system, the engineers went to the market and are offering this technology for other cities to adopt. Please consider investing in this technology and spending our revenue bonds with the Clean Energy Vision in mind.
