Agenda Item 21-122
Your position on the matter Support
Representing Organization Self

Aloha,

Written Testimony

As a fellow lifeguard in Hawai'i, I highly support this purposely that lifeguards and ocean safety should have their own department. This would save so much time and give them the resources they truly need to do the selfless job of risking their lives to save many people in the waters of Hawai'i. Lifeguards, in my opinion, are the "elite" on the island because of the way they selflessly will put their life on their line just like police or/and fire department does for the residents and guests of Hawai'i. It would only make sense to give them their own department. Mahalo nui loa.

Written
Testimony

Aloha
Council member Heidi Tsuneyoshi is proposing a resolution that urges the Mayor to create our own department for Ocean Safety. This is a huge opportunity for us a lifeguard organization. Becoming our own department will not necessarily improve things overnight, but it means Ocean Safety will be at the same level as Fire, Police, and EMS. I believe each of the city's 4 emergency responder organizations deserve this level of respect. Our own department will streamline budget requests for facilities, equipment, more personnel. I am in full support and need your help!

Mahalo,
Jenny

Written Testimony In the transferring of EMS from State to C&C, please do not be tempted to fast track two distinct emergency entities under one dept. Both Ocean and EMS are different in their expertise and operation, therefore needing very distinct protocols and leadership.

Written Testimony Ocean Safety operates in a work environment that is consistently as hazardous as fire/police and should be recognized as such. This includes granting them governance of resources to ensure fast, safe, and consistent service for the public.

Written
Testimony

Ocean Safety is in integral part of everyday life living here in Hawai'i and it should be its own department. Having its own department will ensure larger budgets and more support so our lifeguards can continue to save and protect local residents and tourists who flock our beaches all year long. Please pass Resolution 21-122.

Written Testimony As someone who sustain a major injury while photographing surfers at Waikiki on March 26, 2021 shortly after lifeguards ended their shift, I cannot support this resolution any more emphatically. I am lucky I did not lose consciousness, but if I had, with no lifeguards present, the outcome may have been much more dire.

I believe if the Lifeguards have their own department they will be able to do so much more to help keep the oceans safer for everyone. They will be able to have more lifeguards apply and be on duty, that way they won't be short handed. It would also give them the opportunity to start sun up to sun down shifts which will mean an on duty lifeguard for a longer period of time throughout the day. That would help with accidents that happen before and after the lifeguards normal on duty hours. There are so many benefits to them having their own department and to not give it to them could be potentially hazardous for the safety of beach goers, when there is no lifeguard on duty.

Written Testimony This Department for ocean safety should of been made 20 years ago. Please get it done. For the good of the public, residents and tourists alike. It's way overdue for the life savers of our oceans of Hawaii to have their own DEPT. Stop stalling.

Water Safety Officers are critical first responders in a field where time is everything. The dynamic emergencies that occur in the ocean and on the shoreline are best handled by the specialists in that area. They know the ocean and shoreline better than any other agency and with the combination of tower lifeguards, mobile units and rescue watercraft their knowledge skills and abilities lead to countless lives being saved. The fire department no longer has rescue watercraft to assist in offshore rescues, and more importantly cover the hours outside of the pre- existing operating hours of ocean safety. They only have two rescue boats that respond sometimes from great distances. Time is critical in rescuing a child, or anyone who is drowning. Let's not waste any more time and give Ocean Safety an opportunity to govern their operations and maximize their effectiveness. This is of the utmost importance to put this into motion as tourism is returning, social media is ever present and often places people in perilous situations.

Let's give the experts that protect our ocean and shorelines the chance they deserve to keep all residents and visitors as safe as possible.

I am in support of Bill 21-122 because Honolulu county is in need of a separate department for our ocean safety. Residents and tourists alike come to our beaches year round and we need to make sure our beaches are safe so we can minimize the drownings especially as our incoming tourists numbers rise. Due to Covid-19 slowly becoming eradicated we are seeing an incoming number of tourists at the same time the country faces a lifeguard shortage. Providing the funds to create a new ocean safety division would lead to more money available to train and hire new lifeguards. It would also provide our current ocean rescue teams with better training equipment for practicing their skills and better lifesaving equipment that will ensure safety when performing rescues and keeping our beaches safe. Please consider this bill in order to benefit Hawai'i and keep people safe

The Honolulu City and County Ocean Safety Division, deserve to have an autonomous First Responder organization here in Hawaii. These men and women are some of the best "watermen," in the world and to have these professional ocean rescue personnel working out of substandard facilities with a less than mediocre training and operational is embarrassing. The City and County of Honolulu representatives must modernize this Ocean Safety organization. Beyond being elite watermen they are tourism's frontline. These men and women are true ambassadors of Aloha

As a lifelong Oahu citizen and avid beach goer I have come to recognize the true unmeasurable value of our Ocean Safety civil servants. They are life savers, bastions of immense knowledge to our community as well as our visitors, they are the true ambassadors of aloha and should be elevated to that status with their own department. I am a civil servant with the DOH and emphatically support the measure to create a separate department for Ocean Safety. The time has come to let them develop the atmosphere, policies and procedures that will create an incalculably rewarding, safe and healthy beach experience for kamaaina and visitors alike. Our beaches and oceans are the main draw for the number one industry to our state-tourism. So do the right thing and give these honorable men and women their own department to take our island state to the next level. A level that only those in Ocean Safety can develop and maintain. Thank you. Sincerely, Craig Hoffmann

I've seen the lifeguards save so many people before and after their hours. They work around the clock and risk their lives without hesitation to help. They are heroes who probably save more lives than any other department. Please give them our tax dollars for what they deserve and need to continue their work.

Save Ala Moana Beach Park Hui

Aloha kākou,

My name is Bruce Lum and out of great interest in the continued delivery of excellent service by the Ocean Safety and Lifeguard Services Division, to the people of the City and County of Honolulu, I am testifying in strong support of Resolution 21-122. I respectfully urge Mayor Blangiardi to exercise his executive reorganization authority to create a separate Ocean Safety and Lifeguard Services Personnel Department for the City and County of Honolulu.

Written Testimony

In light of the State Legislature passing House Bill 1281 HD1 SD2 CD1, which divests the state's lead duties, for establishing and funding emergency services, from the state to the City and County of Honolulu, I believe that it is critical for the city to effect a transition that improves administrative effectiveness and prioritizes taxpayer health and safety. The three year transition of emergency medical services burden from the state to Honolulu County is highly troubling, because state funding will be completely phased out in 3 years without a clear plan about how Honolulu County will find the funding needed to support and deliver emergency medical services solely with county generated dollars. HB 1281 HD1 SD2 CD1 phases out funding from state general revenues for emergency medical services in the city and county of Honolulu before 7/1/2024!

HB 1281 HD1 SD2 CD1 Description:

Establishes a three—year transfer of certain duties, functions, and powers relating to emergency medical services for the city and county of Honolulu from the department of health to the city and county of Honolulu. Begins transition on 7/1/2021. Appropriates general funds to

the city and county of Honolulu for emergency medical services for fiscal years 2021—2022 and 2022—2023. Appropriates moneys in the emergency medical services special fund to the city and county of Honolulu for fiscal years 2021—2022 and 2022—2023. Phases out funding from general revenues for emergency medical services in the city and county of Honolulu before 7/1/2024. (SD2).

So here is the urgency in my eyes. Currently the State reimburses the City for costs incurred by the City for the provision of emergency medical services, estimated to be \$49,671,411 for Fiscal Year 2022. the Department of Emergency Services ("DES") of the City and County of Honolulu ("City") is comprised of the (1) Emergency Medical Services Division ("EMS"), the (2) Ocean Safety and Lifeguard Services Division ("Ocean Safety"), and the (3) Health Services Branch. This \$49,671,411 reimbursement of costs incurred for the provision of emergency medical services is separate and apart from the budget and costs associated with the operations of Ocean Safety.

EMS and the Health Services Branch are by definition similar in administration, staffing, education and training. Revenue can be generated by Emergency and Medical Services provided by the EMS and Health Services Branch, but Ocean Safety lacks opportunity to bill for services rendered. Ocean Safety is the least similar of the three EMS Division's in operational and fiscal ways!

I see Ocean Safety's focus as being a blend of proactive and reactive disciplines applied constantly and consistently to provide peace of mind and safety to all of Oahu's ocean users and beach goers. Because Ocean Safety is uniquely defined by its operational environment (the ocean), Ocean Safety is constantly challenged to be ready for the extreme demands of the unpredictability of the ocean and the ways in which people engage the ocean environment. Ocean Safety officials are constantly endeavoring to improve their delivery of services through rigorous and consistent programs for staff education, training, staff fitness, staff use of tools, staff versatility, emergency skills, ocean knowledge, extreme ocean survival skills, and the unique list of qualities goes on and on.

From a purely practical standpoint, separating Ocean Safety out of the current EMS organization would allow Ocean Safety and Lifeguard Services greater autonomy, with respect to its budget and increasing demands on employees, to ensure that taxpayers can continue to receive the high level of service and safety they are accustomed to.

Please support Resolution 21-122.

Mahalo,

Bruce Lum

Written Testimony Please create an ocean safety division this will provide more jobs and will help improve the safety and opportunities for Hawai'i's people. We have the best surf in the world. We need a dedicated ocean safety team to protect our shores and to better educate the many visitors and weekend surfers visiting our Island home. Also, having more junior guard opportunities and camps will help Hawai'i's youth.

Written Testimony This truly should be a no brainer. The guards need funding, Hawaii depends on tourism especially as it pertains to surfing-based tourism, and a north shore with underfunded guards would make fewer people feel safe in the water. Fewer people feeling safe leads to a decrease in surfing-based tourism; investing in our guards is investing in Oahu's economy.

Written Testimony Ocean safety and ocean safety training programs are cornerstone to the wellbeing of those participating in ocean activities and those who dedicate their lives to protecting others. We need resources to train our Keiki to be the next generation of lifeguards and our current lifeguards to receive the support they deserve.

Written Testimony water safety so so very important
that the creation of the (department for Ocean Safety) must be
added so should have a say in how the best
use of funding for water safety programs is used and allocated
and to develop the five /ten year plan for the department

Written Testimony

As a local person who has had to be rescued by the lifeguards once in my life, I would not be to write this testimony. The dangers of our local waters to locals and tourists is the whole reason a specific department has to be kept or created. I honestly can't believe this fact needs to even be a discussion.

I guess we should also do away with air traffic controllers too. The planes will just fly around and not get into trouble. No make sense.

Written Testimony

As a resident of Pennsylvania, The department of Ocean Safety in the State of Hawaii deserves to be on their own. This would not only highly increase salaries and provide better benefits for these guards it would also allow them to live more comfortably in this expensive area. Giving people from out of state more of a reason to be interested in this career path.. Especially guards that come from other states interested in moving there, would provide them a huge benefit. The salaries need to be much higher than 20 bucks an hour and should reflect guards who are experienced in EMS and who hold EMT and Paramedic certifications. Offer a major promotional ladder as well so guards can move up and feel appreciated for the work they do. Provide a professional atmosphere and career for them.

Written Testimony Please consider giving Ocean Safety their own department. They keep people safe even on their days off, when they're in the water. There is no such thing as a day off for them, because that is the way they were trained; to help no matter where, no matter what. It would be such a blessing for them to get this. Mahalo!

Written Testimony Once again the powers that be are out of touch with what's best for our community. I think OCEAN SAFETY should be their own entity. Who knows better to use the funds for training, equipment, etc. than the people doing the service. I hope you see how important it is for them to have their own separate funding. Thank you,ALOHA.

Written Testimony Ocean Safety is an integral part of our city and county's first responder system, keeping both residents and visitors alike safe in one of Oahu's most popular recreational environments - the ocean. They need to be their own department! Let's make it right for the men and women who risk their lives to keep us safe on the beach and in the water. Mahalo.

Written Testimony Ocean Safety needs to be it's own specialized department because ocean safety, lifeguards, water safety, training & education is all to keep our Hawaiians waters safe as possible for all. Only the professional lifeguards and water safety personnel are the only ones that truly know what is needed and how the department in prioritize and run.

Written Testimony I believe Ocean Safety should be their own department due to their importance on keeping the public safe here in Hawaii. Giving them the power to have extended hours and higher pay will help them provide safety to the community more efficiently and will allow those apart of Ocean safety to make more successful careers out of a their very impactful job.

Written Testimony Life-saving is a critical piece to our lifestyle in Hawaii. Honolulu county lifeguards are saddled with the additional responsibility of keeping tourists as well as ocean going locals safe in our waters. They need our support through the creation of their own department. This is just the first step in getting them the autonomy, respect, and budget that they have deserved for decades.

Written Testimony I have witnessed off duty lifeguards make saves way before and way after current hours of operation. Dusk til dawn is needed given the lethal consequences at many beaches and reefs. This is a no brainer for Hawaii in general.

Ocean safety needs its own department. It provides such an important service on Oahu on a scale that is worthy of its own department. This would be a small step toward the full recognition, respect and budget that our lifeguards deserve. Please support them so we can continue to enjoy the ocean safely.

Aloha! Our company has the honor of working with our local lifeguards. We see the invaluable work that they do everyday and always look for ways we can best support them. Our brand is the official swim
Fin of the United States Lifesaving Association (USLA) and we travel the globe to lifesaving competitions and conferences. Our local lifeguards consistently set the standard for best practices internationally. They manage such a variety of risk in our ocean from inexperienced and often stubborn tourists to fishermen to professional surfing to our local keiki and more. They should have their own department so that they can start to see some of the upgrades, improvements and support that they deserve and need. We must find the budget and framework to support them because they show up every day for the rest of us.

Written Testimony I strongly agree that Ocean Safety should have their own division so they can be effective and serve our island at their best while supporting the men and women who have long been underpaid and undersupported as highly skilled and qualified watermen and waterwomen. They are the best in the world and deserve to be supported as professionals

Ocean Safety needs to be able to operate as their own department in order to streamline processes and procedures to improve public beach safety.

Written
Testimony

I have noticed that it does not look like the 'Dawn to Dusk' program has been approved yet. This has been in the works for nearly a year from what I can tell and has not happened yet. I am seeing lifeguards close up the towers when their shift is over and the beaches are still completely packed and plenty of surfers and swimmers in the water for 2+ more hours. With the uptick in new tourists arriving daily, this is very dangerous at many of the beaches where lifeguards are not staying till dusk. In addition, residents are out in the water hours before lifeguards open up their towers. Even the most experienced swimmers and surfers are still prone to accidents, usually happening before and after the lifeguards are on duty.

There are many more programs, such as Jr. Lifeguards that play a huge role in our community. These programs need the proper funding and attention they deserve. I believe if Ocean Safety was able to operate as their own department, they would have the resources to do this.

HAWAII GOVERNMENT EMPLOYEES ASSOCIATION

AFSCME Local 152, AFL-CIO

RANDY PERREIRA, Executive Director • Tel: 808.543.0011 • Fax: 808.528.0922

**City Council
City and County of Honolulu**

**Testimony by
Hawaii Government Employees Association**

June 2, 2021

**Resolution 21-122 (2021) – Urging the Mayor to Exercise His Executive Reorganization
Authority to Create a Separate Department of the
City's Ocean Safety and Lifeguard Services Personnel**

The Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO supports Resolution 21-122 (2021), which provides the Mayor to exercise his authority to reorganize the departments within the executive branch pursuant to Charter Section 4-202, and propose the establishment of a new Department of Ocean Safety within the City, to be independent of the Department of Emergency Services.

As the exclusive representative of the Water Safety Officers of the City and County of Honolulu, we believe it is in the best interest to create a separate department. This group of employees recently became its own bargaining unit 15, certified by the Hawaii Labor Relations Board. Establishing the Department of Ocean Safety together with its own bargaining unit, allows for greater autonomy and ensure the needs of the employees are met.

Thank you for the opportunity to provide testimony in support of Resolution 21-122(2021).

Respectfully submitted,

**Randy Perreira
Executive Director**

I believe lifeguards are a critical piece of public safety and the job they do is paramount to protecting the lives of all who spend time in the water. The training and skills highlight the values of Aloha... The dedication makes a difference in lives and creates a back up for when things go wrong in the water. Please vote to support lifeguards and enhanced pay, training and programs. The next life the lifeguards save may be yours or someone you love.

Written Testimony I'm writing in support of Resolution 21-122. Although a major part of a lifeguard's job is to provide emergency response, there are many added functions that make a lifeguard's service unique: giving directions, explanations and advice; informing beachgoers of dangerous ocean conditions; educating the public on ocean safety; and more. Their presence and demeanor are key in maintaining beach safety. Their training is therefore significantly different from EMS staff, and their budget should be directed toward their unique function.

Ocean Safety is paramount to keeping tourist safe. Unless and until we have another means to support our counties, we need to ensure tourists are safe. By allowing lifeguards to have their own branch (like fire and police) they will be able to concentrate all resources on lifeguarding--it is what they do best! They should be able to have a department solely dedicated to that pursuit. Think about it, Councilmembers, and do the right thing.

Written Testimony - I am in support of this measure. As an island community we rely on the lifeguards for many functions. Their presence on our beaches provide not just life saving services, but an atmosphere of general safety and a feeling that someone is in charge, someone is watching to keep order, supply information when needed, and just be a presence.

Written Testimony I have witnessed Honolulu County Lifeguards save multiple peoples lives all over Oahu. I have also had to help save peoples lives when life guards were not present (after sunrise and before sunset). Having lifeguards at our beaches from sun up till sun down would save many peoples lives, as well as protect our beaches for longer periods.

Written Testimony I support this because it will allow ocean safety to receive the funding it deserves for protection of residents and visitors, as well as education of younger kids growing up in Hawaii.

Written Testimony

I 100% support resolution 21 -122 that grants our heroic arms selfless lifeguards their own department under Ocean Safety. They protect locals and tourists alike to keep our beaches safe and help our economy by promoting ocean safety and education. How many millions of tourist dollars do they protect? How many young kids end up choosing the right path over the wrong one because of junior lifeguards and the great influence of the guards.

Written Testimony Honolulu needs to have Ocean Safety and Lifeguard Services as a separate entity. With tourism ramping up again, more than ever they need be in control of their training and services.

Written Testimony Dear council members, I respectfully urge you to approve resolution 21-122. Hawai'i is truly blessed to have such a talented and strong Ocean Safety division. The amount of people that are saved from harm are beyond counting. This is due to the exceptional job done by the men and women that work for public safety. Ocean Safety should've been its own department years ago. The longer that Ocean Safety remains a division, and not its own department, the more it is a disservice to residents and visitors.

Written Testimony

I am in full support of Resolution 21-122. I feel we need to be looked at from the public's view as parallel to police, fire and medics and not below. Being under another agency has made our bureau's moral decrease below record level, has proven that our Operations do not work the same (two different elements) which brings me to miscommunication or NO communication, inconsistency and financial discrepancies. We need to become our OWN!!!!
