Written Testimony I wholeheartedly support this wonderful bill that gives our 100 years olds the benefit of free city passes. They reached a milestone and if they are able to walk or roll and enjoy our city amenities, then they deserve a break from fees and a special "medallion".

Mahalo for your kind consideration and may we all reach that ripe old age to enjoy our city!

Written Testimony My husband and I think it is a wonderful idea to honor centenarians who have lived to such a happy age and contributed to our island growth and economy. At a time in life where finances might be tight, it would be wonderful if they could have these helpful benefits. My uncle is 101 and served as a WWII translator on the Military Intelligence Service. It would be lovely if he could be honored in this way.

This is a nice thought. It's good to recognize our kupuna. I used to have a friend who lived to 106. He was of a keen mind but physically, he was limited in his walking up the stairs or in a fast pace environment. He was a medical doctor and so he was very careful about taking a fall as it could lead to complications.

I would think that the city rail system would have to be more cognizant of the Centernarian residents and other kupuna.

Someone would have to drive them to the stations, park somewhere, help them navigate the steps and so on.
