Agenda Item 21-194
Your position on the matter Support
Representing Self
Organization

I write in strong support of Resolution 21-194 Urging the City Administration and the State of Hawai'i to implement a COVID-19 health card for establishments at higher risk of transmission of COVID-19.

The past year of this public health crisis, combined with the threats of over-tourism and the extreme political divisiveness that dominates public life, brings to mind the need for government action for the common good as articulated by President Lincoln in the 1860s:

Written Testimony "The legitimate object of government, is to do for a community of people, whatever they need to have done, but can not do, at all, or can not, so well do, for themselves – in their separate, and individual capacities."

With transmission rates rising in most communities on Oahu and across the islands, and the threat of additional, potentially more infectious and lethal, variants rising, if the time for such measures is not now, then when?

Council Members,

Written
Testimony

My name is Daniel Nakamitsu & I am writing in support of a healthpass or similar digital card to protect the community from increased spread of COVID-19. I believe this measure will reassure those employed by and those who patronize higher risk establishments while also having the effect of increasing vaccination rates. As our case counts rise, we must be proactive and multi pronged in our approach to keeping our community safe. Please consider the adoption of this resolution. Thank you.

HOUSE OF REPRESENTATIVES

STATE OF HAWAII
STATE CAPITOL
HONOLULU, HAWAII 96813

August 30, 2021

Re: Resolution 21-194
Hearing Date: Sept 2, 2021

Aloha Members of the Committee on Transportation, Sustainability and Health

As State Representative of District 22, Ala Moana – Waikiki, I am writing in strong support of Resolution 21-194, urging the City Administration and the State of Hawaii to implement a COVID-19 Health Pass.

The recent surge of Covid-19 cases in all counties of Hawaii, brought on by the more contagious Delta variant coinciding with significantly relaxed restrictions for both visitors and residents, is of grave concern. Hospital capacity is quickly being overrun, our medical personnel are exhausted and stressed, and our ability to access health care for both emergency and preventative needs is in jeopardy.

A health pass is not a new policy and we would not be the first to implement one. Jurisdictions in New York and San Francisco have already implemented this with success. This would not only serve as an incentive for unvaccinated individuals, but also potentially increase revenue, as patrons would feel safer to enter an establishment or business knowing that the environment is safer.

Sincerely,

A handwritten signature in black ink, appearing to read "Adrian K. Tam".

Adrian K. Tam
Representative, House District 22

Testimony of Danny de Gracia, Th.D., D.Min.
in SUPPORT of the measure
Resolution 21-194, "Urging the City Administration and the State of Hawai'i
to implement a COVID-19 health card for establishments at higher risk of
transmission of COVID-19"

before the
Committee on Transportation, Sustainability, and Health
Thursday, September 2, 2021, 10:30 a.m.

Chair Cordero, Vice Chair Elefante, Honorable Members of the Committee:

Thank you for the opportunity to submit testimony in the strongest support for the passage of Resolution 21-194. The purpose of this measure is to urge the City Administration to work with the State of Hawai'i to develop, implement, and mandate by executive order if necessary, a program for the use of a digital health care to increase overall vaccination rates and to reduce the spread of COVID-19 on Oahu. I deeply appreciate the initiative and leadership of City Council Chair Tommy Waters in taking this step to protect our residents, and I believe that this will give us a strategic advantage in lowering the risk of infection and severe illness or death in Honolulu.

Last year, during the initial breakout of COVID when no vaccine was yet available, SARS-CoV-2 infections claimed the lives of several of my friends and also left a number of my family members who survived in very poor health with long-term damage to their brain, lungs, kidneys, liver, and other vital organs. All of these individuals took the requisite precautions and CDC-recommended non-pharmaceutical interventions ranging from social distancing to mask-wearing and making use of the stay-at-home orders to avoid exposure and infection, but what they did not have at the time was a vaccine to give their immune system the means by which to efficiently defend against the novel coronavirus. Today, by no small feat of humanity's titanic scientific and moral resolve, we now have multiple vaccines which significantly increase the survivability of exposure to SARS-CoV-2, to where one may avoid hospitalization or, in some instances, not even develop a high enough viral load to even develop COVID.

It has always been implicitly understood that the major shutdowns and restrictions of 2020 were aimed at buying time for healthcare systems to build capacity to resist the virus, as well as to allow scientists to produce a working vaccine to push back the pandemic. We have accomplished that. I choose to believe that those who perished in 2020, either working on the frontlines as first responders or healthcare professionals, or as ordinary persons caught in the line-of-fire of an invisible viral enemy, did not die in

vain but helped buy all of us who remain alive today time to learn more about the virus and experience to fight and defeat this terrible pandemic. So long as we all take the vaccine, we honor the sacrifices of those who lost their lives who died to ensure that we could make it to a day when a working defense against this modern plague is available. For that reason, I regarded it as no small matter to take the vaccine, as well as the third booster shot, which I received two weeks ago.

Madam Chair, this pandemic has claimed the lives of almost 639,000 people in the United States of America and more than 4,500,000 people across the globe since the virus first escaped from Wuhan. When I and others say that we support the vaccine and support this resolution for a COVID-19 health card, we are not alone as 4.5 million gray ghosts stand beside us survivors of 2020 in spirit, and cry out for our elected officials to remember our losses, honor our fallen, and to preserve the future by taking decisive action, now.

The matter before us is not one of personal liberty or individual choice. The SARS-CoV-2 virus, which is able to spread like a wildfire looking for human wood to burn, has denied all of us the right of choice and left us only with the solemn duty of fighting – fighting for ourselves, fighting for our loved ones, fighting for our country, and fighting for the future of humanity itself which is so terribly threatened by this deadly disease.

Eight decades ago, as the world began to be consumed by war, President Franklin D. Roosevelt told the delegates of the Democratic National Convention by radio that in times like these – in times of great tension, of great crisis – the compass of the world narrows to a single fact, and that fact was one that one could no longer doubt and no longer ignore, that “Today, all private plans, all private lives, have been in a sense repealed by an overriding public danger. In the face of that public danger, all those who can be of service to the Republic have no choice but to offer themselves for service in those capacities for which they may be fitted.”

Today, the highest act of service is to get the vaccine, not just to protect one’s own life, but to protect the lives of every single man, woman, and child in this great gathering place we call Oahu. We will get our individual freedoms back for a future worth living in when we as a united humanity come together to fight and win this war against COVID-19, today.

I strongly urge the passage of this measure, and look forward to the day when we can all breathe a sigh of relief, together, holding hands in person as victors of this war. Now may God bless all of you, may He

lead and guide us in these days to come, and may God forever bless the city and county of Honolulu and all those who serve in it.

I am writing in support of Resolution 21-194, Covid-19 Health Card, Urging the City and County of Honolulu and the State of Hawai'i to implement a Covid-19 health card/digital health card. I believe and State of Hawai'i health card will be useful for all residents to prove vaccination status in a variety of ways now and in the future, including interisland travel, restaurants, schools, and other activities/establishments.

Written Testimony Please see the State of CA vaccination card already in use for residents (interfaces with State of CA, Department of Health Covid-19 vaccination records) who have been vaccinated in CA to use at work (state workers are required to use for employment) and other activities.

I think this would be a good use of CARES funds for all State residents.

Aloha,
Susan I. Polanco de Couet

City and County of Honolulu
c/o Committee on Transportation, Sustainability and Health
Honolulu, Hawaii 96813-3077

Aloha Chair Cordero and Committee Members

I'm writing in OPPOSITION to resolution 21-194 COVID-19 HEALTH CARD.

After 20 months or more of dealing with the COVID situation, this much I know and believe you know:

Written
Testimony

- COVID-19 can be deadly for some people. Older adults and people with existing health conditions are more at risk of serious complications, which can be life threatening.
- The vaccines do not prevent infection.
- The vaccines do not prevent transmission.
- The vaccines induce viral mutation.
- The vaccines may or may not mitigate the effects of infection.
- Persons who have recovered from COVID derive little or no enhanced protection from vaccination.
- Masks presently being used do not filter out the virus.
- There is no scientific evidence whatsoever supporting the claim that non-vaccinated individuals are risking the public's health in any way more than vaccinated people.
- PCR testing should not be used with high Cycle Threshold (CT) level >35, due to the high likelihood of generating false positives.
- PCR is not a diagnostic test and should not be used.

- PCR test does not distinguish between SARS & influenza.
- On July 21st, the CDC announced it was withdrawing emergency use of PCR tests in the U.S. beginning December 31 2021.

Implementing a vaccine passport to participate in society is not only discriminatory, violates our individual rights, this is medical tyranny.

Restriction of individual rights based on potential threat to them leads to a regime of darkness and evil. Beyond lacking any scientific basis, it is disgraceful, immoral and an opening of a very sinister and slippery slope. A person's right to their body is a sacred value in medicine, and the denial of that right empties this basic right of any real meaning. Patient autonomy is not only an ethical matter, but is also enshrined in the Patient Rights Act, and is derived from the Human Dignity and Liberty Act. One shall not put any pressure on a person to receive treatment, beyond providing explanations and access to information – be it chemotherapy, antibiotics – or vaccinations. Vaccine passports are coercion by another name!

When it comes to daily activities, a vaccine passport results in a trade-off. It very modestly changes the risk to vaccinated individuals and those who do not have a vaccine option. It changes the places unvaccinated individuals can congregate, which may or may not curb or fuel viral spread, depending on what they do instead. It will be met with opposition and may result in unanticipated, unpredictable, harmful outcomes, fraud, and will perpetuate discrimination by creating “haves” and “have nots.”

I urge you to vote NO on resolution 21-194, and instead demand answers from the Mayor and Governor:

1. What evidence proves vaccine passports work?
2. DHS and the private hospitals explain why they didn't prepare for the increase in cases? They knew there would be another variant, but did nothing to increase bed capacity in preparation for our current wave.
3. Why Governor and DHS are not promoting alternative medicines that have been proven to work. Not only as preventive medicine, but also as treatment for those infected. Everything should be on the table.

As Thomas Jefferson said, “I prefer dangerous freedom over peaceful slavery.”

Dear Transportation, Sustainability and Health Chair Cordeiro and Members of the Committee:

Written Testimony

I support Resolution 21-194 because the digital health card will provide consistency, uniformity and confidence for businesses, patrons and the public-at-large that proper screening has taken place. This new norm will help return our communities to a better quality of living.

From keiki to kupuna, COVID-19 and taken it's toll in ill health, death, financial and personal losses. I live and work in Kaimuki. So many are struggling to grasp a better life during the pandemic. Taking action now through Resolution 21-194 will help in the overall effort to makes lives better.

Thank you for the opportunity to voice my support of this resolution.

Written
Testimony This is completely against our constitutional rights as American citizens. You have no right to discriminate based on a personal medical choice. I personally cannot take the vaccine for health reasons, so I'm going to be punished? People with the vaccine can still spread Covid. This is a proven fact so agenda makes absolutely zero sense. I pray for your souls.

This is against our constitutional rights. There are reasons why some cannot vaccinate, and to discriminate against these is unjust. Stop causing the hate and division among our people. Please research newest studies proving those who attain natural immunity have stronger and longer lasting immunity than those who have been vaccinated, and never got COVID. If you truly follow science, antibody testing would also be allowed in lieu of vaccination. Studies also prove vaccinating one with strong natural immunity is not necessary.

I believe we are all equal and that is the founding principle of our great nation. It is what sets up apart from the rest of the world. With that said the Government Here in Hawaii has over reached on the rights of citizens for the sake of "Health and Safety" beyond their jurisdiction. You have no authority to require forced vaccination upon any individuals ! You have no authority to excluded the population that refuses vaccination. You have no authority to discriminate against my health and my children's health. You have no authority to cause the inability for myself to get an education to provide for my children. You have not authority to keep me from attaining a job because of vaccination status! You have no authority you manipulate the system to strong arm the public into vaccination. And if you so believe that you have this authority. Than tell me how it isn't medical discrimination to implement a vaccination card. Explain how it isn't discrimination to fire employees who so choose to not vaccinate...? Explain how being isolated from social society based off of vaccination isn't discrimination? Explain how this doesn't create discrimination against the unvaccinate? Because I've already seen and heard it! You are to blame for creating this discrimination and segregation. How about instead of trying to control people we except the reality and be honest with the people that you don't have the answers and the fact that yes some people will die from covid 19 and some people with die from the vaccine. And just face the reality that you cannot ethically require or mandate vaccination it is unconstitutional to discriminate against the right to choice and to inhibit from being apart of society.

You have not authority to keep me from attaining a job because of vaccination status! You have no authority you manipulate the system to strong arm the public into vaccination. And if you so believe that you have this authority. Than tell me how it isn't medical discrimination to implement a vaccination card. Explain how it isn't discrimination to fire employees who so choose to not vaccinate...? Explain how being isolated from social society based off of vaccination isn't discrimination? Explain how this doesn't create discrimination against the unvaccinate? Because I've already seen and heard it! You are to blame for creating this discrimination and segregation. How about instead of trying to control people we except the reality and be honest with the people that you don't have the answers and the fact that yes some people will die from covid 19 and some people with die from the vaccine. And just face the reality that you cannot ethically require or mandate vaccination it is unconstitutional to discriminate against the right to choice and to inhibit from being apart of society.

I believe we are all equal and that is the founding principle of our great nation. It is what sets up apart from the rest of the world. With that said the Government Here in Hawaii has over reached on the rights of citizens for the sake of "Health and Safety" beyond their jurisdiction. You have no authority to require forced vaccination upon any individuals ! You have no authority to excluded the population that refuses vaccination. You have no authority to discriminate against my health and my children's health. You have no authority to cause the inability for myself to get an education to provide for my children. You have not authority to keep me from attaining a job because of vaccination status! You have no authority you manipulate the system to strong arm the public into vaccination. And if you so believe that you have this authority. Than tell me how it isn't medical discrimination to implement a vaccination card. Explain how it isn't discrimination to fire employees who so choose to not vaccinate...? Explain how being isolated from social society based off of vaccination isn't discrimination? Explain how this doesn't create discrimination against the unvaccinate? Because I've already seen and heard it! You are to blame for creating this discrimination and segregation. Aloha

I thank you for your time I oppose vaccines and passports , we the people of Hawaii are and have been all about unity I'm heart broken that our leaders are ignoring our constitutions and freedom. This idea of a passport will only promote division and physical and mental stress. I work for the Department of Public Safety for the pass twenty four years putting my life on the line every day. From the beginning of this pandemic never knowing what I could bring home to my family I served with all my being , and now We are forced to take a shot that is not proven and to date causing over thirteen thousand death as well as thousand side effects reported by the CDC. Israel was a motto country mandating and achieving over 80% vaccines only to now have the highest rate of COVID now only to be forced to take a third shot . Stop the madness when the Swine Flu struck America the emergency vaccine was stopped after 25 deaths just 25.this is a genocide shot that needs to be stopped .The threat by not having a vaccine pass will enable me to feed my family and or be a part of society has gone on for way to long stop the lies and miss information. I will ask Gods forgiveness on you all and pray that you do what is right. You can see what real doctors are saying on Bitchute/ Brighteon and Freedom Force Battalion remember the CDC are not scientist

Blessings Ronny Lopez

Written Testimony According to the CDC's VAERS data, the covid vaccines are causing great harm ... there have been more than 10,000 reported post-vaccine-related deaths, and hundreds of thousands of serious adverse events (vaccine injuries) ... this vaccine roll out must cease until further safely studies have been done.

I hereby testify that I'm adamantly apposed to taking an experiment drug in my body where the pharmaceuticals hold no liability for any fault. It's unconstitutional & not legal in any form. By the admission of the CDC it's experimental & you can still get & transmit Covid. They have never isolated COVID-19! If so, prove it!! It's still has a 99% survival rate and that alone will s NOT a pandemic.

Aloha, I am writing on behalf of myself and my ohana of 7.

We firmly oppose covid cards for several reasons.

They violate our medical freedom. There has never been a time that it is okay to ask people about their private medical matters, to do so in public would be a violation of HIPAA.

Second, everybody should have the right to decide what to put in their bodies. You can't possibly understand why some are choosing not to get the vaccine. Maybe they are pregnant and uncertain, maybe because there are no proven long term studies, maybe they've had covid, maybe their doctor advised not to get it because they have a heart condition. Those people are to be shunned from civilization?

Written
Testimony

This virus that has a 99% survival rate should NEVER be an excuse to take away our personal choice and medical freedom.

We need LESS government intervention, we do not require your "safety".

Last, you will obliterate local businesses if you pursuit this. After an already challenging year, these covid cards would single handedly be the nail in their financial coffin. The doors will shut and locals will be forced into bankruptcy or leave the islands at record pace.

Please reconsider the covid cards.

Thank You,
Karin

I oppose the mandate of the vaccine passport/proof of vaccination in any form and any invasive testing. Costco, Sam's Club, and any retail/grocery store is able to have patrons in their place of business longer than 15 mins with hundreds of people and do not require vaccination proof/testing. Also, children 12-17 should be exempt as this will encourage people oppose visiting businesses with the mandate requirements causing loss of revenue. How do you take one or some of your children and leave the rest at home? Children do not need to be included in this mandate at any age.

I am a Native Hawaiian. I am a Veteran of the Marine Corps. I am an everyday local trying to survive to feed my family. But I am against any form of segregation. I did not fight a war and sacrifice so much for God, country and corps to come home and live under tyrannical government rule because of failed leadership. I am not anti vax. I am not anti mask. I am pro choice and pro freedom. Hawaii is not a testing ground for experimental drugs, mandates or tyrannical government over reach. If this was about health, science or community, then why isn't our politicians listening to the science, listening to the community and allowing the people to make healthy decisions like we do with every other medical problem we face. The science says the vaccines are waning. The science says that because I have gained natural immunity I am more protected and for much longer than those who are vaccinated. The science doesn't have any long term data to analyze lasting affects. But the community has spoken. Those who want the vaccine got it. Those who don't want it, don't. If I go into the doctors, they cannot tell me what treatment to take for my ailment. They can only advise me. So what gives the government the right to tell us how to take care of our own bodies? They can advise us. They can give us tips. But what they are doing is forcing people to choose between a medical procedure they don't want, or suffer by losing your job, losing your livelihood or forcing you to leave your home. This is uncalled for. This is not pono. This does not follow the science. This does not follow the constitution. This is not what Hawaii is or what America is about.

All of these mandating is taking away the 1 thing U.S. stand for... Our freedom. Why don't the people have a choice in this matter? How is all our rights regarding the vaccine being taken away? How are you guys segregating the public? This is just like the segregation of the Colored and not Colored people that we seen in our history, and till now. Government has just segregated the public, but instead of color and non-color, we have vaccinated and non-vaccinated. How do you guys don't see that this resolution will only enhance that segregation??

I oppose the VACCINE passports because this is the UNITED STATES OF AMERICA and you should never have to show medical records for any reason. Covid has a mortality rate of .03 percent (CDC) That means 99.7 percent of people will SURVIVE.. Denmark just did away with their covid everything. This is medical tyranny and should not go thru. This will impact the islands negatively by impacting business, travel, and everyday life. We should not have a vaccine passport because we have the right to keep our medical records to ourselves. PER FEDERAL HIPPA LAW AND THE CONSTITUTION!! Look at Dr. Robert Malone, the inventor of the Mrna vaccine. Do ur research before passing this! This is not right!!

I strongly and stringently oppose this bill. Not only has it, apparently, been clandestinely produced promoted and voted upon but it is abhorrent to the US Constitution and to me personally! Do NOT pass this bill!

Additionally, there is strong scientific evidence through no less than 16 studies including in Israel with the world's highest vaccination rate that demonstrates that someone who has had COVID-19 has a MUCH higher antibody level than someone who has been fully vaccinated. If we are going to ask for any papers, we should ask for proof that someone has contracted COVID-19 as they are safer than any vaccinated individual.

Aloha!

I am in opposition for vaccine passports to be implemented here in the "ALOHA" state. Vaccine passports is the modern form of segregation and it will cause a division amongst all residents in the state that we all love so much. Hawaii is known for its melting pot of people that has come together to live in harmony. I want to ensure that Hawaii's people continue to show LOKAHI to each and every person. In order to do that, we must stay in opposition of this dangerous bill to be passed.

Very Respectfully,
Debbie Duldulao

I oppose this mandate as there is insignificance between vaccinated and unvaccinated spread. We all have a right to choose what goes in our bodies and we should not be mandated what we must do. Additionally, those that have been covid positive should not be included in this as we have our own immunity which is better than a vaccine.

I strongly opposed this law. It is discriminatory and removes our liberties to choose not to be vaccinated. The government is to protect our liberty that many people have died and fought for. Having this will hurt businesses and will give animosity to those that chooses to not vaccinate. Please look at the stats. Many people have recovered from the Covid-19, including my family of 6. To add, we have not stepped into a hospital for this illness.

The Constitution and our founding principles decry this type of totalitarianism. A vaccine passport is a complete and total violation of human liberty.

The latest (July 2021) data from CDC/VAERS (U.S. Centers for Disease Control and Prevention's Vaccine Adverse Events Reporting System) provides overwhelming proof that the vaccines are injurious and often lethal products that should be taken off the market immediately:

Written Testimony 9,048 deaths
520,747 adverse events
7,463 permanent disabilities
7,822 life-threatening injuries
26,812 hospitalizations

CDC/VAERS is a passive surveillance system that records fewer than 1% of deaths and adverse events, according to a 2010 US Department of Health and Human Services/Harvard Medical School study.

Therefore, a reasonable estimate is:

9,048 x 100 = 904,800 deaths from the vaccines
52,074,700 adverse side effects
746,300 permanently disabled
782,200 life-threatening injuries
2,681,200 hospitalizations

In their first four months, the experimental COVID-19 “vaccines” have racked up more deaths and severe adverse events than all other vaccines combined in VAERS's entire 30-year history.

Adverse reactions to the COVID-19 vaccines reported on CDC/VAERS include:

Death
Blindness; permanent vision loss
Blood clots in the brain, heart, and lungs
Cardiac disorders—heart attacks, strokes, cardiomyopathy, arrhythmias, etc.
Thrombocytopenia (extremely low blood platelet count)
Permanent paralysis
Brain inflammation
Brain tumors
Neurodegenerative diseases
Uncontrollable tremors
Cerebral thrombosis
Immune system impairment
Miscarriages, stillbirths, birth defects
Spinal damage
Anaphylactic shock
Facial paralysis painfully lasting weeks or months
Loss of hearing
Multiple organ system failure
Difficulty breathing
Damage to liver, lung, kidneys, pancreas
Neoplasms
Muscle and tissue damage
Endocrine and gastrointestinal disorders
Guillain-Barre syndrome
Profound permanent fatigue

The vaccines do NOT prevent transmission of the COVID-19 virus.

The vaccines do NOT confer immunity on those who got the jab. Countless people who were vaccinated have been subsequently diagnosed with COVID-19 disease.

The vaccines only claim to be 95% effective in reducing symptoms in persons suffering from COVID-19 illness. But independent analysis of the vaccine companies' claims have proven them to be grossly exaggerated.

And you will need a booster shot next to be considered fully vaccinated.

I DO NOT want a vaccine passport.

We the people oppose any madate that does not give us our freedom. Freedom to chose for our own health. This is our god give right. The choice to choose. Amercia was built on GOD, in GOD we trust!. GOD gives us the freedom to choose, he never forced anything on his people. Government should NEVER force anything on the people who makes up this community. Never force people & local buisness owners who pays taxes, taxes that help to pay the higher up people, paying HPD to ensure safety & making differences. Taxes that are used to better our communities and state. To close everything and force mandates will only made things worse. ITs us Hawaiian people who bring value to this state. We should have a choice over our own health and not have a dictaor tell us what they feel is best. There are much more deadly thing our there, other focuses that need attention however all the focus is on a virus with high survival rates. This is a state of ALOHA & for the past year we have been shown none by our government. Things need to change for the sake of our children.

This passport is the epitome of discrimination. You are preventing United States Citizens from completing basic tasks like going to a grocery store because they choose a different personal medical choice. This will have very serious outcomes for all parties involved. You should all be ashamed of yourselves for even suggesting such a thing! You are acting like this is helpful to everyone, however, this will hurt the local people trying to get into things as well as the business owners who are trying to make a living. Every one of you need to think long and hard about these decisions before you vote on them. The people of Hawaii are not going to be peaceful much longer when you are taking away their livelihoods and their basic freedoms like buying food for their families! Wake up elected government! You work for all your constituents, not just some of them!!

The "vaccine passport" initiative is a violation of basic constitutional rights. It is also a HIPAA compliance violation and Lt. Governor Josh Green is very aware of this. The Government has created its own distrust with the people of Hawaii and it's malicious practices.

"FORCING" an agenda is not going to build any trust with the people which you have already lost.

Businesses have already been crushed by your "mandates" in 2020 continuing into 2021. Yet you don't report that data accurately.

Report that the virus is treatable.

Written
Testimony

Report that 99.6% of people who catch it survive it.

Report that you can still catch covid and spread it if you CHOOSE to get the shot. (I say shot because it is not a "vaccine").

If this is implemented the government will most likely create a mass exodus of Hawaii's citizens and more businesses will be forced to shut their doors.

MANDATE IS NOT LAW.

AND YOU KNOW THIS!

That is why you're pushing "EMERGENCY PROCLAMATION" because you know it will never hold up in the judicial system.

You were voted in by the people so listen to the people. Care for the people. The people are your reason.

Aloha,
My name is Sierra Mahin. I was born and raised in Hawaii. I have been a public school teacher for over 20 years. I oppose the vaccine passport for many reasons. The vaccine is an experiment that I would not put into my body for all the money in the world. I am a Christian and this goes against all of my religious beliefs. Please let me chose what makes me feel safe. My body; my choice. I will still need to work and buy food from public places. I may literally have to live in my truck at the beach if this bill passes. Please allow me to be the amazing teacher that I am. Please allow me to buy food to survive. Mahalo

Vaccine mandates are NOT the best way to mitigate covid 19 infections. Recent research has shown that those who have had previous covid 19 infections have greater immunity against covid 19 than fully vaccinated individuals
(<https://www.science.org/content/article/having-sars-cov-2-once-confers-much-greater-immunity-vaccine-vaccination-remains-vital>).

Written
Testimony

This finding shows that vaccinated individuals do NOT have special rights and are NOT safer for the community. In addition, this research also found that those with a previous covid infection and just 1 vaccination shot are even better protected against Covid. Again, showing that fully vaccinated people are NOT superior in ANY way to previously infected individuals and those with 1 vaccination + previous infection.

The city and county, or state, will unduly discriminate against unvaccinated people for no scientific reason, other than just the fact that they received two shots.

If this decision is truly based on the safety of the community, then those aforementioned groups should also be included.

Despite these FACTS, any restriction on businesses and residents based on medical status goes against the constitution that this state agreed to follow on August 21, 1959.

Follow the science, that is ever changing, and listen to your

constituents. A vaccine passport will cause much more havoc than good.

This vaccine passport is absurd. There are so many reasons why people may not be vaccinated ranging from immuno compromised, natural immunity from previous infection, religious beliefs or simply not ready to do it. You are creating a two class system, pressuring people to get a vaccine in order to participate in society. You are alienating people and forcing them off island. This is not a solution. Bring back testing at the airport, test all incoming passengers and state employee regardless of vax status and encourage the community to boost their immune system so they have a fighting chance.

My opposition to a vaccine for Covid being mandated In its experimental stage is simply that it is still experimental and there are less invasive and more productive options for treatment without undisclosed ingredients for something that has an extremely high rate of survival without any vaccine to begin with.

In fact, there have been more deaths from the vaccine than many other vaccine experiments that were shut down for the number of deaths they caused in their experimental stage.

IF the vaccine works, why are people that have volunteered for the experiment getting extremely ill or dying and infecting others? Why do they still have to wear masks? Why is there concern they can catch the virus if they are vaccinated against it, AND the vaccine works?

Written
Testimony

And IF THE VACCINE DOESNT WORK, why would it be mandated at all?

And if masks don't prevent infection, why are they mandated as well?

The answers to all these questions is: we don't know. So tell me again, why should I have to submit to an experimental drug testing? Or worse, subject my beloved children to such experimental medicine? You don't know?

Because nobody knows what the short term or long term side effects of these experimental drugs are, no one should ever be coerced or forced to take them for any reason. Especially at the threat of loosing

their ability to provide for their families and protect their communities as they have committed their lives to do. To do so is unethical, illegal, and unlawful. It is treason and crimes against humanity. Anyone acting in any capacity in coercing anyone to take an experimental vaccine is held personally liable even if acting in their professional position.

This bill goes again say EVERY human right we in the this country being the UNITED STATES OF AMERICA. A continuation of manipulation of the Hawaiian population. Little by little this government is trying to rip apart the constitution. It's saddens me to think we the people will not be able to CHOOSE, to have an opinion? Our ancestors fought for us to have this America, the land of the FREE!!! That is the keyword, FREE!! To do as we please, to live how we want, enjoy freedom whether it be medical, physical or mental! This is why our country is so strong, we believe in our rights as human beings! We ran away from tyranny and here we have all these government elects trying to implement the very thing America DOES NOT stand for. So let us choose, let us keep our freedom& rights! Too many lies coming from this government & so many testimonies to attest to that. Ask the people!! We are willing to stand together!

Aloha,
I strongly oppose the vaccine passport. For those who are medically unable to get vaccinated. Not allowing them into public places is discrimination against disability. Would Hawaii say that special needs individuals couldn't go into stores because of their medical condition? I think not. For those who choose not to take the vaccine for religious reason. That is their right and freedom. They should not be discriminated against just because of their deep rooted beliefs. Hawaii wouldn't say "no Jews aloud in public places", would they? I think not. "Show me your papers" was a world war 2 term that is becoming scarily familiar in our present time. Show me your vaccine passport. It's a tactic to segregate the people of this island and it is unjust. For those who chose not to take the vaccine based off of personal choice and preference for whatever reason. Should be allowed that freedom in this great country. We are not a communist state. Demanding a vaccine passport for entrance into public places is tyranny.
Demanding that business follow the mandate is horrible. You are mandating that people discriminate and segregate it's customers otherwise go to jail or face \$5000 fine. That is not for the people that is against the people.

Written Testimony

I am opposed to the vaccine passport because it is polarizing and misleading. It will exacerbate racial and socioeconomic inequities, and further divide of an already divided society. I'm saddened to see the separation of Hawaii's residents into two classes, the vaccinated vs. unvaccinated. In order to "flatten the curve," we must unite as ONE. Only then will we be able address the real problem and stop fighting each other. WE MUST work together!! If the overall goal is to reduce the number of cases in the State, a vaccination passport is not the answer, will not stop the spread. Existing data and Dr. Libby Char (very recently) made it very clear that vaccinated individuals are able to contract and transmit the virus. Vaccination passports will further promote a false sense of security among the vaccinated. Thank you for your time and consideration.

The vaccination passport is unfair and unjust for the following reasons:

1. Vaccinated people can have or get cover at anytime.
2. Vaccinated people are better at being asymptomatic, which makes it worse.
3. Vaccinated people will not be tested and simply walk into bars, restaurants, facilities, etc. They could have been to a super spreader within 72 hrs of entering a business.
4. This is like the current testing for tourists or visitors. Vaccinated do not have to be checked before coming to Hawaii. But the unvaccinated HAVE to take a test to show a negative. How do we know NONE of the vaccinated are not cover positive? As we know the vaccine efficacy drops after months, or we are also told are ineffective against a new variant.

Written
Testimony

I do not oppose the vaccine, I just think the laws are not lawful and fair to all.

Written
Testimony

I a 29 year old citizen of Hawaii and native Hawaiian I strongly oppose the need for vaccine passports for two reasons. The vaccine does not prevent the spread of the virus, a better solution is stopping the mass amounts of tourists coming to Hawaii, and two vaccine passports or better known as health records is a confidential matter. Freedom to choose what we put in our body should always be a choice. Thankyou for listening. Mahalo

Mandating experimental medical treatments or drugs is not only unconstitutional, it's inhumane. Each individual has the God given right to choose what they put in their body, and we do not know enough about these injections to make an informed decision. Government cannot mandate these injections, as it is a violation of human rights and civil rights. This overreach must stop now before irreversible damage is done to our community.

Written Testimony Mandating by executive order a vaccine passport goes 100% against my religious beliefs as well as personal beliefs. I feel that this matter takes away my medical freedom and ultimately my rights as a human! At the end of the day you our government were elected to uphold our constitutional rights and execute it 109% not take advantage of a system for corruption and financial gain. Do what's right for us as a whole. Our state motto states clearly that righteousness is what upholds our land but by you adhering to this is not righteous.

Written Testimony

-This proposed Vaccine Passport is discriminatory in many regards.
-Mandating this 'vaccine' which has not undergone proper testing is a violation of the Nuremberg Code.
-A Vax Pass mandate for businesses will further cripple Hawaii small businesses as would another unethical, unscientific lockdown.
- The Vax Pass ignores natural immunity which is more effective than the 'vaccine'
- Public service announcements should be focused on preventative and immune boosting protocols as well as other therapeutics that keep people out of hospitals
-The emergency orders have long expired.

I say 'vaccine' because it is actually a gene therapy, not a vaccine.

For all of these reasons I strongly oppose this resolution 20-194

So it is with the vaccine Health Pass, Green Pass or Digital Health Card System or whatever you are going to call it. The free citizen is declared a 'Covid risk', a danger to others; the person with a Green Pass 'Covid status' is declared clean, of no risk to others.

Agreeing to the vaccine passport means that you have sold your freedom. You may be able to go to the restaurant, bar, movie theater, sports events, gyms or any public indoor activity but this will be a privilege and not a right. The vaccine status check on the door is not a formality; it tells you that your right to go to the restaurant, bar, movie or any other indoor event, to participate in civic life, has been taken away, and you can enter only with official approval. Today it is Covid, but tomorrow it might be another illness, or something else entirely.

Written Testimony

The problem with vaccine passports is that they create a 'second-class' citizenry, who for medical or other reasons are unable to prove their 'Covid-secure' status. There would be two lines of people, two sets of rules, two different sets of rights. This is a real concern. It is also the case that vaccine passports violate medical ethics, pressuring people to undergo a medical procedure in order to participate in civic life.

But the larger point is that vaccine passports will have changed the nature of citizenship and freedom for all citizens, including those with Covid Green Pass status. It would be the final victory for 'permission slip' officialdom; it would revoke any presumed rights of citizens to participate in civic life. We would have sold our freedom for a measly

price, and would find out the consequences of this deal in the months and years ahead. This is not acceptable today or ever.

Written
Testimony

I don't not agree with this bill. It is absolutely disgusting behavior and wrong. We have already implemented in proper procedures to prevent the spread of a virus that is 99.9% survivable! The only way to create herd immunity is by allowing it to do its thing and allow people to recover from it. A vaccine will not create natural immunity and you are playing God by forcing these vaccines upon others! You will destroy the economy for hawaii and many lives here by enforcing something that is absolutely not needed and unnecessary. There are many people that can't be vaccinated for there personal and religious beliefs a that is not your choice to force them to do something that is dangerous for their health! You need to stop trying to control the people and start acting like you Care! The distrust you have created is bad and will get far worse if you keep trying to take away our rights and freedom. You will not take care of me or my kids if we have issues from this vaccine that isn't even FDA APPROVED! ITS OUT UNDER A EUA AND HAS NEVER PASSED THERE TESTING STANDARDS. WHICH WE KNOW FOR AMERICA IS EXTREMELY LOW!!!! Let's also discuss the fact that CDC had already stated how the VACCINATED CAN GET COVID AND STILL BE SPREADING IT!!!! IT ISNT THE UNVACCINATED ITS THE VACCINATED SPREADING THIS VIRUS! WHICH WE KNOW TO BE TRUE BASED OFF YOUR PUSHING IN JUNE AND JULY RIGHT WHEN THE NUMBERS WENT THROUGH THE ROOF! ALSO WE KNOW THE UNVACCINATED HANDLE THE COVID VIRUS BETTER THAN THE VACCINATED. That would be because there immunity is strong than the ones with vaccines. Vaccines weaken the immune system. There for allowing the body to catch said virus they were just injected with. So please.

Stop trying to destroy everyone's livelihood, lives, health and income
for your sake. Not the well being of everyone else!

I vehemently oppose vaccine passports. It unfairly targets and discriminates against a group of people which is antithetical to our constitutional rights of "equal protection under the law". Only recently, the CDC has admitted that vaccinated individuals can still transmit the disease, so why is it assumed the unvaccinated are the only carriers? What are the rights of the owners of restaurants, bars, and gyms that have been unfairly targeted by the state throughout this pandemic? They have continued to have restrictions on their businesses from capacity limitations to tracking all customers. What is the data that show that these types of businesses are "dangerous" to the public? Number of cases, hospitalizations, and deaths that can all be traced back to these businesses? Creating a two-tier society to openly discriminate against people has never fared well in history. The state is saying this will only be temporary for 60 days, but as we have seen this past year and a half, Hawaii continues to move the goalposts.

The sars-v2 "virus" has NEVER BEEN ISOLATED. Neither have any variants. Many scientific papers have proven this. Without an isolated virus, there is no pandemic and no need for an EUA. No EUA, no vaccine mandates. The lies need to stop. You all need to stop assisting in the vaccine deaths that are being disguised as other reasons.

I feel like this is taking away our American rights to choose what we want to put in our body and the freedom to live/work/participate like any other human in America. We have a choice as Americans and that's what makes America the home of the free!!! I appose mandating vaccine passports, mandating vaccines and I appose public separation by means of publicly showcasing your medical history and choices! This is un American, unjust and illegal to rule with out vote!

Aloha everyone. This is all moving too fast. Many of us have concerns and still many unanswered questions. Some of us have had vaccine injuries in the past and aren't ready to just accept this fast made vaccine as safe. I don't believe any vaccine should be considered a one size fits all situation. Please don't make vaccine passports a thing. Think about your people. Think about what you're asking people to do.

This bill will kill small business and will divide the community. I know many people in the ICU now who have been fully vaccinated. My small business has finally gotten off it's feet and this will put us back down to Ground Zero again and maybe even put us out of business. I have gotten Covid twice and a month ago I was around two very sick people who had Covid and my antibodies worked great and I did not get sick there is a lot of strong science behind this! Please think about hawaii small business. My wife and my business is Native Hawaiian owned and we appose this measure.

Aloha, If you want to mandate testing for unvaccinated , it's only fair you make testing for vaccinated also . They can get infected and spread the virus too . So a unvaccinated person who gets tested prior to going to restaurant will not be safe if a vaccinated person can just show their vaccination card n possibly be carrying the virus . That's a very east way to continue to spread the virus . Also employees should have the right to test their employees weekly rather than mandate them to have to be vaccinated . Because the state wants to push this . The state should offer free testing to employees that need to test for their employers . This is America !! We should all the choice whether or not to be vaccinated . Aloha and thank you for hearing me out. God bless Hawaii

**KNIGHTS OF ALOHA
PUBLIC TESTIMONY ATTACHMENT
SEPTEMBER 2, 2021
RESOLUTION 21-194
COMMITTEE ON TRANSPORTATION, SUSTAINABILITY, AND HEALTH**

I, Channey Tang-Ho **STRONGLY OPPOSE** Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should **immediately defer** the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports **ARE NOT** necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals **must** retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I make this testimony of my own free will with no undue influence. Thank you for your consideration.

Additional testimony:

Aloha. I am a very healthy person and have been healthy my whole life. this includes working out at least 5x a week. I believe in my God-given immune system, fresh air and I am pro freedom, that includes medical freedom. I have heard / seen both sides of this argument and this makes more sense to me. Besides the masks not even really working, the vaccines are not FDA approved - human trials don't finish until 2023. I do not feel safe putting something like the covid vaccine in my body. Thank you for listening to the people. God Bless

It is wrong for our Government to oppose vaccines upon our body. In the past I have taken vaccines that have done long term damage to my body. I no longer take vaccines. I have caught Covid back in Dec 2019-Feb 2020 my whole household caught the virus. We used natural means to remedy the illness and we all did well.

Written
Testimony

Recently my in laws got sick 5 of them. Out of the 5 of them 4 were vaccinated and caught Covid 19. I provided personal care for one of them and am unvaccinated and was in close contact as well had to handle the family member who was sick and I did not catch Covid.

Many times on the media they state that the unvaccinated are the ones causing all of this spread and that is not true. 4 of my family members all were vaccinated and they all caught Covid and my unvaccinated family did not.

We should be given the right and freedom to choose what is right for our bodies, and vaccinations fo not prove with 100% that you will not catch the virus.

There are many who live in this state who are not able to take the shot for health, for religious beliefs and other reasons!!! We are not a communist state!!! People who had the shot will have to have another for every single strain that comes along. How will you manage and control this. Issue new "passports every six months to residents??? I haven't even received my replacement drivers license that I applied for in April!!!! This is a nightmare waiting to happen. As a Hawaii resident I vote a resounding NO!!!!!!

I heard it on local radio of all places this morning that the number of people in Hawaii who died purely from CoViD-19 is 17. Let's start here.

17 equates to 0.001% of the total population (1.419m) in Hawaii

17 equates to 0.02% of all the positive cases (61,800) in Hawaii.

17 equates to 2.8% of all the CoViD-19 related deaths (599) in Hawaii.

US Inc., LLC patent #7279327, filed April 19th, 2002, listing University of North Carolina at Chapel Hill as the assignee, is titled "Methods for producing recombinant coronavirus". Take what you will from it but know that they've known how to CRISPR the hell out of coronaviruses for almost two decades now.

US Inc., LLC patent #7220852, filed April 12th, 2004, listing the United States of America as represented by the Secretary of the Department of Health and Human Services, Centers for Disease Control and Prevention as the assignee, is titled "Coronavirus isolated from humans". Take what you will from this one (and its younger twin #7776521) but know that patent law is seemingly out on lunch break for this one. That, or the isolate has been modified from its original form as nothing naturally occurring can be patented.

There are two ways you can take this. You can take it as the accidental release of an experiment and the powers that be are simply not letting this crisis go to waste so to speak or you can take it as the intentional release of a developed bioweapon making the entire thing a well-planned (and quite illegal) assault no matter how much it looks like no one knows what they're doing in this mess.

Because you cannot take this is a naturally occurring thing. SARS-CoV is patented by the Department of HHS & the CDC. CoViD-19, the 7th coronavirus to have infected humans on a mass scale, is caused by a variant of SARS-CoV which they aptly named SARS-CoV2. It isn't hard to realistically speculate that there may well be dozens of variations in petri dishes right now because the gain of function research hasn't yet stopped.

And there was no vaccine for the previous six dating back several decades, nor has there ever been such an insane push for what they're calling a vaccine. It isn't a vaccine. Sure, the official sites will lump Adenovirus vector & mRNA technologies as "vaccine" technologies alongside dead & live virus vaccines, but there is one key difference that they can't get around. I'll explain...

Dead & live virus vaccines use isolated virus injected into your body in order to trigger an immune response. This is proper because the trigger is truly a foreign agent. The preservatives used are highly questionable in most cases, but the concept is sound. And yes, I'm current on all my dead & live vaccines.

Adenovirus vector & mRNA technology work quite differently. Both directly alter cellular function. Although it is claimed that neither become a permanent part of the host genome, long term study results are still at least a year away. mRNA infects your cells with RNA instructions which make your cells extrude spike proteins. Adenovirus vector goes a tiny bit further by having your cell transcribe the RNA instructions from DNA, but the result is essentially the same; spike proteins extruded by the cell.

Now...when your immune system is triggered by something your own cells are extruding, the condition is called AUTOIMMUNE DISEASE. Look it up in a medical dictionary if you must. And this is what you people want mandated? Are you insane or just not letting this diabolical crisis go to waste?

The Covid Vaccine is for people who are afraid for their health and are willing to take the risks of these experimental and strong vaccines to protect themselves from covid. It is not for everyone. Many have natural immunity that will fight this virus without aid. So not everyone should be mandated to take the vaccine. It is well known that vaccinated people can catch and spread the covid/delta virus. In fact, I was recently exposed by a VACCINATED coworker who tested POSITIVE for covid. Mass Vaccinations to achieve herd immunity is a faulty solution, as evident in the current surge and my own experience of being exposed by a vaccinated person. Again, the vaccines are good only for those who have health issues and who want to take the chance with side effects of these experimental vaccines. Covid will continue to mutate in the future, as all flu viruses do. It is also well known that the efficacy of the vaccine reduces by maybe 40% with EACH month that passes from shot day. So why would you give passes to people who have been vaccinated with OBSOLETE vaccines and who are known to catch and pass on the delta variant? Mass vaccination is a PROVEN FAILED solution of this pandemic. The current surge of covid cases in Hawaii, far beyond what we've ever experienced, is proof of this. So we should NOT have a Vaccine Pass or passport.

Teaching people how to boost their immune systems (with Vitamin treatments, etc) and using early treatment meds (when covid positive) that smart and courageous doctors have been using to help covid sickened people should be actively offered, where now, it is discouraged. Many doctors here in Hawaii are telling their patients to go home without meds that may help, they are told to go home and

wait to see if they get bad enough to go to the hospital. THIS is cause of the economic shutdown and full hospitals. I personally know of people who were covid positive and went home and worried because their doctor declined when asked to prescribe known and safe drugs (though off label) that MAY help them. I also know personally of people who were offered treatment and they got better pretty quick after that. Why are you forcing us to take vaccines but not allowing us to choose to take off label, safe drugs known to help others, when we are sick with Covid? The death count and full hospital beds would definitely go down, the pandemic would possibly even have ended, and we would not have the current surge that is threatening Hawaii's economy, lifestyle and freedom today.

God does give us wisdom when we ask Him. This is the smartest thing to do. I would expect if you lead the people to turn to God for help in this pandemic, we would see cases and deaths flatline. Please lead us in wisdom, not foolishness.

We oppose this mandate on the basis its un constitutional as well as not based on correct science. My Ohana has already went through Covid and our immune systems are well more able to combat through Natural immunity than the man made vaccine. We denounce and rebuke this fraudulent bill that's before you for what it is in Jesus Name.

Written
Testimony

Our body our right, for those who want to take a vaccine that does not even work as good as our natural immunity is completely up to them, and God Bless them, but for this who choose to make their own constitutional decisions for their own bodies, God Bless them as well ! You do not have the right to make these unconstitutional decisions on our behalf.

We are the land of the Brave, Land of the Free. One Nation Under God, with Liberty and Justice for All. You are Straight up attempting to steal that Liberty & Justice right now.

So Ke Akua we declare your justice over this fraudulent bill, ABBA we ask that you would expose all of the corrupt actors in all levels of our government, we ask for your swift justice to be served, loud, publicly and we ask for you to heal our land. We repent on behalf of our Aina for the people of these islands. We ask that you deliver us from this evil today King Jesus. We ask this in your amazing heavenly Name Jesus and in your Name we pray Jesus Amen !

An attempt to divide Hawaii people by medical health decisions are clear violation of the American Civil Liberties Act as well as Unconstitutional.

The fact is that there always has been viable remedy and treatment for this Flu episode that has been blown out of proportion for your use as a political weapon. Remedies which have been FDA approved and used for decades, as well as new treatments such as the Antibody IV are being offered by over 20,000 sites in Florida with great success.

Your choices show a great disdain for actual science and hunger for monetary gain thru Pfizer gift and Federal monies and the only way you have to hide this is to instill fear by way of Corporate Bought Media.

Written
Testimony

Many in Hawaii are scared due to lack of knowledge to care for themselves properly, but this State is by and far made of super healthy and health conscious individuals who know better, and are now here to call for you to hear our voices.

No Vaccine Mandates are nor were ever needed.
FACT, SEVERAL Remedy, and Treatments are Available to Treat this Flu Episode.

FACT, Due to the CDC changing statistics for death count and infection number several times, the data is skewed and Unreliable.
FACT, Due to the fact Hospitals were offered incentive to treat "covid" patients these numbers were faked and bumped up in several states.
(We cannot be certain if this is the case here too but Time and

Research in the Aftermath WILL REVEAL TRUTH).

FACT, Persons whom have had an Covid Vaccine carry 27 times the Virus Load than Unvaccinated persons with a previous flu infection.

Making The Vaccinated Superspreaders.

FACT, By masking, humans are likely to inhale more unhealthy amounts of bacteria making them more susceptible to infection.

FACT, Breathing used O2 does lead to brain function loss and lower healthy blood oxygen levels.

Give up the charade. We the People Do Not Consent to Your Draconian Lockdowns or GASTAPO SHOW ME YOUR PAPERS, BS!

FYI , YOU ARE OUR PUBLIC SERVANTS!

We Do not Have to be Civil To You! Today we are, tomorrow depends on you.

So it is with the Health Pass, Green Pass or Digital Health Card System or whatever you are going to call it. The free citizen is declared a 'Covid risk', a danger to others; the person with a Green Pass 'Covid status' is declared clean, of no risk to others.

Agreeing to the vaccine passport means that you have sold your freedom. You may be able to go to the restaurant, bar, movie theater, sports events, gyms or any public indoor activity but this will be a privilege and not a right. The vaccine status check on the door is not a formality; it tells you that your right to go to the restaurant, bar, movie or any other indoor event, to participate in civic life, has been taken away, and you can enter only with official approval. Today it is Covid, but tomorrow it might be another illness, or something else entirely.

Written Testimony

The problem with vaccine passports is that they create a 'second-class' citizenry, who for medical or other reasons are unable to prove their 'Covid-secure' status. There would be two lines of people, two sets of rules, two different sets of rights. This is a real concern. It is also the case that vaccine passports violate medical ethics, pressuring people to undergo a medical procedure in order to participate in civic life.

But the larger point is that vaccine passports will have changed the nature of citizenship and freedom for all citizens, including those with Covid Green Pass status. It would be the final victory for 'permission slip' officialdom; it would revoke any presumed rights of citizens to participate in civic life. We would have sold our freedom for a measly

price, and would find out the consequences of this deal in the months and years ahead.

- 1- violation of human rights
- 2- HIPAA compliance violation
- 3- Hawaiian officials have misled and misrepresented Hawaiians
- 4- small business cannot survive this again unless public officials who have been getting kickbacks or "donations" start buying up businesses. (that would shock no one)
- 5- Report still indicate a 99.6 survival rate
- 6- too many amazing, authentic, and contributing Hawaiian citizens have been forced to leave their homeland
- 7- people will never forget what you have done. You won't be remembered in history as a hero, you will be remembered as puppets and tyrants
- 8- you were elected to represent what the people want. We want our freedom of choice!
- 9- remember, my body, my choice. For men, women, children or how ever individuals identify

Listen up or I'm sure a lot of Hawaiians/locals/transients will choose to rise up. We don't want you making our personal choices!

This will only serve to harm/damage the small businesses and healthy citizens of Hawaii.

Please OPPOSE THIS MEASURE AND repeal the mandatory "vaccine"/48-hour testing" clause and reinstate the "Safe Travels" mandatory testing for ALL OFF-ISLAND VISITORS to Hawaii REGARDLESS OF VAX STATUS.

We know this works!

Written
Testimony

It seems the governor and mayor are more concerned about getting people "vaccinated" than the safety of our islands and Ohana.

We know that "vaccination" WILL NOT STOP THE SPREAD OF THIS VIRUS and is only serving to reduce symptoms and keep people out of the hospital.

WE KNOW WHAT IS PROVEN TO WORK, LET US REINSTATE THE SAFE TRAVELS PROGRAM, MANDATORY TESTING FOR ALL VISITORS AND STOP THE SPREAD OF COVID-19.

The vaccine passport segregates and punishes those who do not want to be vaccinated. Requiring a vaccine passport is a strong arm way of forcing people to be vaccinated. It is denying basic human rights of being included. it is rewarding vaccinated people with a free life but denying others that same freedom. I Strongly oppose this vaccine passport.

I am a registered nurse of many years. You isolate the sick person, not the world just because there is a germ out there. This has nothing to do with health. This is all about bringing in the communist new world order. You have no right ordering people to put something in their body. You say nothing about all of us who had covid and have real immunity with no need for a booster shot. People that took the shot are still getting and spreading covid. There is less than 1% death rate but you are pushing fear to get people to comply. What about Fouchi and Gates, they are all about cutting down the number of people on planet earth, not saving lives. We the people are awake and have done our own research. We know where this is headed.

Aloha,

Written Testimony

I just want to express my opposition to the vaccine passport. I believe everyone should have the right to choose. It has been alarming how law abiding citizens have been penalized by emergency mandates. Yet those incarcerated, those who violated the law, have been released from our prisons? The very core of democracy and our identity as a democratic state may be obsolete with Resolution 21-194. I understand we are in a health crisis, yet little else has been done by government and local media to advocate about boosting immunity even in conjunction with receiving the vaccine. If no one focuses on building immunity in conjunction to the vaccine, how will we survive the next variant? A quick fix for a long term problem will only erode trust in government if a mandate such as the vaccine passport comes into play. I realize we are all doing the best we can in these unprecedented times, and the sooner everyone realizes this by acknowledging both perspectives and offering choice, the sooner we can work together. Let me be clear, I believe people should be able to choose if they want/do not want the vaccine and this should be kept a private matter that is protected. Mahalo for your time!

This is absolutely absurd !! How can you make us take a vaccine that doesn't work? The people that get covid have been vaccinated, the good lord above gave us an ample body to fight the "flu" if we had just let it run its course in 2019 we would have been done with this so called pandemic! Sure people die, but look at the percentages!!!! There are more people dying of strokes, heart attacks, car accidents, suicides, but yet none of them are being counted! If you allow this to happen, we are a sorry state of human beings! Just put your head in the sand for the next variant! Put your big girl panties on and stand up!!

Written Testimony

I strongly oppose the vaccine passport, as it is unconstitutional, unlawful, and misguided. The people who are vaccinated with the covid 19 shots are still carrying and contracting as well as spreading the virus. It is unfair and illogical to push an experimental drug that has not shown to be effective upon a whole population in a mandate. To force people to comply or be excluded from society is discrimination and not democratic. My grandmother died one week after receiving the covid vaccine, I will never get the shot and for you to make it mandatory is taking away my rights as a human being.

This proposed resolution would be a nail in the coffin of local businesses. Excluding those who choose not to receive the vaccine from even the basic functions of society is cruel and twisted. Particularly when the vaccine has proven to not even be as effective as it was marketed.

Written Testimony

As we're all aware, vaccinated people still carry and transmit the virus, as well as become hospitalized from Covid. So what good exactly are these vaccine mandates supposed to do? Or is killing Aloha and local business the goal because that is certainly what this feels like.

Blangiardi said the current vaccine passport was to be in effect for 60 days, so why is this proposition on the table to make them permanent? Or is this another "2 weeks to flatten the curve" lie?

Be careful with how far this violation of rights and privacy goes. It only a small step next to banning people with AIDS, or high BMIs, or any other risk of disease from establishments. How long before it is you?

Written
Testimony This is completely unnecessary as there is no pandemic. Vaccines are unnecessary and dangerous for some people who have had bad reactions and even died after being injected. The recovery rate for covid is 99.5% for people under the age of 70 y/o. With alternative treatments, independent clinical research has seen 100% recovery in all age groups. Covid vaccines are NOT NECESSARY!! FURTHER, THEY ARE DANGEROUS!!

Written Testimony

I am fully against bill 21-194, vaccine passport. It is unconstitutional, unlawful, and ineffective. The covid 19 vaccine does not prevent individuals from contracting or spreading the virus, and even with a successful vaccine program the numbers continue to rise. How can you force unwilling people to take an experimental drug against their free will in a democratic country especially when it is not even working? It is my body, my right to choose what goes in it. To mandate a vax passport is wrong, unlawful discrimination against a medical condition. It is segregation and social control that is Undemocratic, unlawful, and wrong.

Five reasons vaccine/immunity passports should not be established

As a virologist and subject matter expert on respiratory viruses, the institution of immunity/vaccine passports is scientifically meaningless. Along with the authors of this insightful article printed in Nature, a top tier scientific journal, "Ten reasons why immunity passports are a bad idea" I agree that "instituting something that limits freedoms based on biology risks becoming a platform for restricting human rights, increasing discrimination and threatening — rather than protecting — public health." (<https://www.nature.com/articles/d41586-020-01451-0>) The following is a list of at least 5 reasons why a vaccine passport program should not be established.

1. There are no FDA-licensed (approved) vaccines to prevent infection with SARS-CoV-2.

Since these vaccines are Emergency Use Authorized they cannot be made compulsory (mandatory). "In the same vein, when Dr. Amanda Cohn, the executive secretary of the CDC's Advisory Committee on Immunization Practices, was asked if Covid-19 vaccination can be required, she responded that under an EUA, "vaccines are not allowed to be mandatory. So, early in this vaccination phase, individuals will have to be consented and they won't be able to be mandatory." Cohn later affirmed that this prohibition on requiring the vaccines applies to organizations, including hospitals."

<https://www.fda.gov/media/142749/download>

<https://www.statnews.com/2021/02/23/federal-law-prohibits-employers-and-others-from-requiring-vaccination-with-a-covid-19-vaccine-distributed-under-an-eua/>

2. What about those who already had actual COVID-19? We know that those who had been infected with SARS-CoV-2 and developed disease will have immunity and therefore it is medically irrelevant to vaccinate them.

(<https://science.sciencemag.org/content/371/6529/eabf4063>,

<https://www.nih.gov/news-events/nih-research-matters/lasting-immunity-found-after-recovery-covid-19>)

There is also a big difference between total antibodies and neutralizing antibodies. Neutralizing antibodies are those antibodies which specifically bind to the virus and prevent infection. While we don't yet know the correlates of protection meaning what titer of antibodies is considered protective or if cell-mediated immunity is the measure of protection, we know that with SARS antibodies maxed out 3 to 4 weeks after infection and declined to undetectable by 6 years. With MERS another coronavirus similar to SARS-CoV-2, neutralizing antibodies remained at 3 years after infection.

If for some reason a person who had COVID-19 would like to receive the vaccine, while vaccine supply remains limited, people with documented SARS-CoV-2 infection should temporarily delay vaccination. In addition, if a person with COVID-19 received antibody therapy or convalescent plasma as part of treatment vaccination should be deferred for 90 days. <https://www.cdc.gov/vaccines/covid-19/info-by-product/clinical-considerations.html>

3. **What about those who cannot receive the vaccine?** Those who have had an allergic reaction after a dose of COVID-19 vaccine or those who have an allergic reaction to any component of the vaccine are not able to receive a second dose of the vaccine. The number of adverse events and deaths being reported after vaccination continues to climb with over 260,000 and over 2,300 deaths after vaccination to date in the U.S. alone (<https://www.openvaers.com/covid-data>). People need to be able to make an informed decision that will be the best for themselves and their family without feeling coerced.

There is limited safety data for vaccination of people who have weakened immune systems due to HIV infection of autoimmune conditions and those individuals must consult with a physician for recommendations on receiving the COVID-19 vaccine. Finally, the vaccine is not authorized for use in adolescents (16 years and younger). Marginalized groups and those without access will face increased scrutiny at a time when racial tensions are at an all-time high in the U.S. Instituting a vaccine passport policy be discriminatory for those populations for which vaccination is contraindicated.

<https://www.cdc.gov/vaccines/covid-19/info-by-product/clinical-considerations.html>

4. **The vaccine does not prevent infection with SARS-CoV-2.** The CDC states that “Vaccinated people could potentially still get COVID-19 and spread it to others.” Dr. Fauci also stated that people who have been vaccinated should continue to follow recommendations and guidance for preventing infection even after vaccination because ‘breakthrough’ infections are expected. There has been story after story of those having gotten vaccinated and still getting symptomatic COVID-19. In Hawaii we now have reports of 94 cases of people testing positive for COVID-19 with 40 cases in people at least two weeks after their second dose of vaccine to date with over half of those being symptomatic. There are many similar reports from other states such as Washington, Oregon, Michigan, and California to name a few. The best we can hope for with the COVID-19 vaccines is decrease in the length and severity of the disease.

<https://www.registerguard.com/story/news/2021/04/09/coronavirus-updates-oregon-reports-678-new-covid-cases-5-new-deaths/7150760002/>

https://www.youtube.com/watch?v=fo9htB_kXxA

<https://wwmt.com/news/state/246-fully-vaccinated-michigan-residents-test-positive-for-covid-19-3-died>

<https://www.hawaiinewsnow.com/2021/03/26/covid-cases-reported-fully-vaccinated-individuals-hawaii-doh-says/>

<https://www.nejm.org/doi/full/10.1056/NEJMc2101927>

5. **What are the continued Public Health consequences?** Over the last year we have seen the devastating effects of implementation of stay-at-home orders, school closures and physical distancing. The health benefits of social distancing measures are obvious, with a slower spread of infection reducing the risk that health services will be overwhelmed. But they may also prolong the pandemic and the restrictions adopted to mitigate it. The economic impacts have been far reaching with business closures and income loss for workers. Those in the

lower economic bracket have been the hardest with the poor becoming poorer. With school closures there has been an increase in suicide and depression among youth.

([https://www.thelancet.com/journals/lanchi/article/PIIS2352-4642\(20\)30109-7/fulltext](https://www.thelancet.com/journals/lanchi/article/PIIS2352-4642(20)30109-7/fulltext)).

Not to mention again the social stratification has led to many children without access to any form of education in addition to access to healthy food and support services.

(<https://news.yale.edu/2021/01/05/covid-school-closures-most-harm-students-poorest-neighborhoods>) These are just few examples of the broader public health

impact the mitigation efforts have had on communities. Institution of a vaccine/immunity passport would further widen the divide of health disparities and impact those already hardest hit by mitigation efforts. Institution of vaccine passports would further limit an individual's access to meaningful work, insurance, hospitality and leisure, and other parts of life. Policy makers need to balance these considerations while paying attention to broader effects on health and health equity.

I oppose this vaccine health card to enter restaurants etc because people that have had the vaccine can still get and give the virus per the health department. Some people such as 2 of my family members cannot take it for health reasons. This vaccine mandate card is also a violation of privacy and will very much so affect already suffering businesses. Please reconsider this decision. Hi is already suffering mahalo

Written Testimony I oppose vaccine passport mandate. It won't work it will hurt businesses and create a mas exodus of Hawaii myself included, other states with success are offering alternative treatments and have great success. The difference now from last year is 60% vaxxed the people I know that are sick or have died this year is 8 and continuing all vaxxed. Prove that there is a cover 19 virus! It has never been isolated. Therefore this vaccine and this resolution is unconstitutional and will further hurt the people of hawaii.

Dear Mr Blangiardi,

I am HORRIFIED by the vaccine passport. I am saddened and this defies logic from everything we have learned in common sense and history. The vaccinated or unvaccinated can still contract and transmit covid. Have you thought about me / us with natural immunity, documented vaccine injuries, or those who have allergies to ingredients, religious beliefs? I'm concerned that the fact that clinical trials are not over and I'm an example that one size does not fit all. Have you thought about the psychological ramifications of this decision on individuals, families and businesses?

Written
Testimony

It's crazy the studies from Israel the pinnacle of vaccinations are now publishing information that natural immunity is showing more protection.

I'm a flight attendant for United Airlines, 29.5 years. I worked thru the pandemic. I contracted covid April 2020, while in Colorado, my natural immunity got me thru. And since that time I have worked, been around many friends, family, passengers some who unknowingly had covid. Again, MY NATURAL IMMUNITY PROTECTED ME.
What is really going on?

What about therapeutics to keep people out of hospital? They are proven to work! But the\$\$\$\$\$ train is not part of that equation so move on to where the money train is.

What is next ? What freedoms will be taken next? It's not about covid

and vaccinated or unvaccinated. It's our constitutional right! Stand up for the people who supported you. I believed you to be an honorable man who would stand side by side with his fellow man.

God bless you,
Jennifer Crum

I am completely and utterly 100% against the vaccine Passport. It is a violation of our rights and the freedom to choose. How can it be that a few leaders get together and think that they can force things on the people of Hawaii and make decisions on behalf of our families. Have any of the leaders really thought this thru and the ripple affect it will have? What about our children haven't they suffered enough? Where, please tell me where has the ALOHA gone? To say that you will now need a vaccine Passport to have access to restaurants, bars, gyms, what's next you gonna need one to get basic medical care, to get food, to get an education???? A'ole think of a better plan!!!!

Anything that will take my freedom to choose I will oppose. Forcing a vaccine at these early stages is wrong and unconstitutional. I'm very healthy for my age and the risk of taking a experimental drug is too great for me. Mandating passports or proof of vaccination for any reason is taking my right to choose, to work, to eat out, and to live. I believe we can live a normal life without the need to force an experimental drug.

Written Testimony

Aloha,
I'm coming to you with the upmost respect and hope that you might consider my concerns. I'm a new Hawaii resident, I moved here 6 months ago from the mainland. I'm self employed and work online over Zoom and I do very well financially. All the money that I earn online is generated from other states and countries and I inject 100% of that money into the Hawaii economy with every good and service that I buy including my living expenses and will be paying HI income taxes when the time comes. I do not want to be forced to leave this state but I have concerns. I'm very concerned that if the vaccine passports are created and implemented that this will not only violate personal privacy but also unconstitutionally violate human rights, creating discrimination and even more segregation within our community. We need unity right now and this will only create more division. I do not want to be forced to relocate to a state that doesn't impose unconstitutional vaccine mandates and vaccine passports. I would love to stay in this beautiful state with my beloved Ohana and friends and continue to support the economy and the lovely businesses and local government that I know are benefiting from my patronage. I also know many others that feel the same way and we all want to stay here and continue to help this amazing state bounce back economically. Please take these concerns into account when you are making decisions for all of our futures. Thank so much for taking the time to read this request!
Mahalo,
Heather Williams

Written Testimony I do not support the vaccine passport mandates as they are DISCRIMINATION on the people. There is absolutely no reason for these especially since both vaccinated and unvaccinated can carry the virus. Let us choose what WE want to put in our bodies. You have no right to decide that for us. You do not own us!

I oppose the vaccine passport as it grossly oversteps our privacy and rights as citizens with freedom of choice.

Written
Testimony

I also highly disagree with not testing vaccinated people as they very well may be the reason we have such high numbers. They are infecting others as asymptomatic or mild symptom holders. Since they are free to do as they please with no testing or ramifications, they act as if they are immune. I have seen more people with the vaccine act in such disregard to others because they misunderstand what the vaccine provides them. I feel this vaccine passport gives a "free ticket" for vaccinated to do as they please

Without worrying about what they may be affecting or whom they may be infecting.

Aloha,
There is no case study or current working example of a vaccine passport program in the World that I am aware of that actually works as a deterrent to spreading Covid. If there is, please provide this as an example showing that this policy is effective.
All this resolution will do is divide the people of Hawai'i and is a form of segregation.
There is ZERO medical precedent in America where to have certain social liberties it was necessary to have taken a certain medication. And for a disease with a 99% survival rate, this measure is uncalled for.
Please also provide evidence that having the vaccination reduces the spread of Covid-19. From the data available from the CDC and the WHO, those who have received the vaccination are able to transmit the virus just like the unvaccinated, which makes the resolution a complete and utter farce.

You act like leaders who are taking big money from big pharma, bill sponsors Waters and Kiaaina. The tone-deafness you demonstrate with this bill is staggering. Look at the facts of the virus. Look at the infringement on personal liberty and individual's rights in this bill, in the name of a highly-survivable virus.

I am using this case to educate my children about authoritarianism, and show them what freedom does not look like. This bill is a poster child for government overreach and I hope there are 5 or more votes AGAINST.

I am not against vaccines as our family is vaccinated with vaccines that have proven efficacy and safety. This new vaccine is just that NEW. No one should ever be forced to inject themselves with known carcinogens to a vaccine that doesn't even work. I personally know several people hospitalized with vaccine injuries and disorders that are permanent. I am not willing to sign myself or my family up to take anything that should technically still be in trials for long term safety. Also I have had COVID and I know my antibodies are keeping me safer than any vaccine ever could. please consider that this is my body and my choice.

Written Testimony

The vax passports are not ok, not here not now, not ever. It is discrimination and in violation of our rights on all levels. These vax's are killing people world-wide, causing sterilization, and many terrible damaging effects that can never ever be reserved, and this is just the short term. They literally mutate the DNA. The people at the top of this whole covid thing have an EVIL agenda and will stop at nothing. Hawaii will also lose a lot of income from those of us that will never given in to taking it; and a lot more from potential visitors who will choose to go elsewhere instead. This is all so damaging to the children and a horrible horrible example Our hospitals here are not full of dying people! We are being lied to and we've had enough

Aloha,

Written Testimony

My name is Malia Luis-Mateo, and I am against the government trying to force this vaccine on to us! You are taking away basic rights from us for what? The constant force makes me feel uncomfortable in my own home. I have young children And I am truly scared for their future because of the way this government has been running this state. I don't want this Vaccine Passport to be passed and I hope you agree to dismiss this mandate and let our people be free!

Written Testimony I oppose the vaccine passport for a plethora of reasons, the most important to me is the direct violate of human rights and freedom of choice. If this passes it would be directly discriminative to anyone who doesn't have this vaccine and that is 100% unjust and flat out not right.

This is medical segregation. You cannot tell people what they can and cannot put in their own bodies. What ever happened to "my body, my choice"? If people are at high risk, they may take extra precautions. It should not be legal to tell someone they cannot go to an establishment because they choose to not put something they're unsure of in their body. Something that has not had years to be tested for long term effects. This is ridiculous and complete government over reach. I oppose this

Aloha,
Thank you for your time and effort in protecting the peoples of Hawaii, I oppose the vaccine passport to travel freely amongst the community and travel. As we've seen in the current news, people with vaccines are still capable of spreading covid. I understand the push for vaccines and I believe everyone who wants to get one should have the freedom to get one, but I also believe that people should be allowed the freedom to not get one based on their own beliefs. All that can be done is to provide access, information, and allow people the choice. It's only when you start stripping people of their freedoms, that you will have people protesting against and fighting against the very thing you're trying to provide them access to. All that will happen is a protest against businesses and governments in order to protect people's rights to choose. We've been seeing this all over the world. Learn from other's mistakes and do not try to implement a vaccine passport.

I firmly oppose vaccine passports along with lockdowns. Harvard Epidemiologist Martin Kulldorf has weighed in on vaccine passports and lockdowns stating they are completely unnecessary. We are not following protocols and the central tenets of public health. The state and city officials are perpetuating widespread panic and fear instead of understanding science.

Let's get the science straight.

#1) The vaccine is meant to confer reduced risk of severe disease and hospitalization

#2) The VACCINATED and the unvaccinated can both carry, transmit, and be infected with the virus

#3) The risk of severe disease and death in those who are not being vaccinated in the population <65 years old in those not immunocompromised or with Co-morbidities is extremely low (Ioannidis, 2021)

#4) There are studies, that confer what we know in science, that natural immunity offers longer lasting protection and does not necessitate vaccination in those with antibodies to the virus (yet, I'm sure the proposed vaccine passports won't even allow for documented immunity to waive the potentially mandated vaccine)

#5) Poor science, censorship, political agendas, and vaccine mandates SEGREGATE, ALIENATE, and CREATE PUBLIC DISTRUST IN THE SYSTEM THAT SHOULD BE PROTECTING US.

Written
Testimony

Understand the science. COVID will not go away, it will continue to mutate. The current vaccines will not continue to confer immunity on future strains just as the annual influenza does not have a single

vaccine that confers immunity on each year's strains. The answer is not locking down Hawai'i. The answer is not vaccine mandates. The answer is not segregation between vaccinated and unvaccinated. There will still be infections amongst both populations. Servellita et al. (2021) found breakthrough infection in previously vaccinated persons carried similar viral loads to those unvaccinated.

Please consider the collateral damage you are perpetuating. You are not following the tenets of Public Health, which is to consider the totality of the burden of ALL conditions.

Childhood obesity has skyrocketed, diabetes in children and adults skyrocketed, mental health crises are on the rise, many citizens are in financial ruins, children are suffering from lockdowns and gaps in academic support leading to a potential generation of COVID students left behind, citizens are not seeking medical care leading to delays in cancer diagnoses, and the list can go on. Do the statistics make sense to you? Harvard Epidemiologist Martin Kulldorff, PhD and Jay Bhattacharya, MD, PhD of Stanford do not seem to think so.

Let people choose according to what is right for the individual. The science shows it doesn't matter if we have the vaccine or not when it comes to transmission, WE ALL TRANSMIT IT AND CAN BE INFECTED. Make the vaccine available to the vulnerable populations who need and want it. Do not force it on the populations that are proven by science to not be at increased risk for severe disease or death. More people died in Hawai'i of influenza and pneumonia (a total of 637) in 2017 than the 2 years of COVID in Hawai'i combined, yet there was not this mass hysteria. According to the CDC Hawai'i had 2,575 deaths from heart disease in 2017 but I do not see mandates for fast food chains to shut down or mandated vegetable consumption to increase yet we know that heart disease is mainly a disease of the Western diet. According the World Health Organization (2021), 41 million people die from non-communicable diseases annually, yet what are you doing about it?

You have lost confidence and trust in many people. You have evoked fear and perpetuated dismay by enforcing mandates and lockdowns that are in opposition of world leaders in epidemiology and public health. How can we trust you?

Please choose to see the collateral damage being caused by your decisions.

People have died from the vaccine and people have suffered adverse reactions because of the vaccine yet you are choosing to ignore the cries of your constituents who placed you in your positions that they have a right to choose what will be put in their body. I personally know more than 3 people who have died within days to a month of obtaining the vaccine they were told is completely safe and effective, some of whom had no pre-existing conditions under the age of 50. Yet, the

public continues to be told it is completely safe and effective. Who is going to be held legally responsible for the potential damages of a mandated vaccine when adverse reactions up to and including death occur? What precedent are you setting by segregating the population? Family's and children are being discriminated against for practicing their right to choose and make medical decisions they feel are right. You are going to deny citizens of America and Hawaiians on whose land you reside access to food and other necessary services because they are choosing not to get an unproven intervention that received FDA approval against the cry of many in the scientific community including previous Pfizer Chief Scientist Michael Yeadon?

Respect all, perpetuate aloha, EDUCATE but not intimidate, practice safety and precautions with solid science as your base for decisions, and lastly please do not threaten my job as a medical professional who worked since the beginning of the pandemic to provide medical care to my community or anyone else with their livelihoods because of a choice to be fully educated and versed in the risks and benefits of an intervention.

Written
Testimony

STRONGLY OPPOSE vaccine passports as it directly violates medical discrimination laws. There is viable early and active treatment that has proven successful, affordable, and widely available. Individuals who have contracted Covid have more robust natural immunity. Medicine is NEVER a one-size fits all, and the freedom to choose must always be protected. Incentivizing the passport with the ability to move about freely in society and participate in societal norms is a form of coercion and it illegal. You can still contract and transmit Covid even when vaccinated, so giving vaccinated individuals the golden pass to participate in society while stifling the freedoms of those who choose not to vaccinate is illogical, as both statuses can contract and spread the virus. It is MORE responsible for a healthy individual to experience their symptoms so that they know they are sick and can make the call to stay home, distance themselves from others, and recover. The vaccine only masks and reduces symptoms, which put the vaccinated individuals in the very asymptomatic state that healthy people were being demonized for being at the start of this pandemic. Data from countries ahead of us with the highest vaccinated populations are proving to also be the places with the highest outbreaks of cases of variant, according to the Rochelle Walensky, director of the CDCs. Antibody Dependent Enhancement that was theorized to take place, is clearly doing so in those countries. END VACCINE PASSPORTS. There is no logic to granting admission and liberties to the side of medical status that is no less capable of spreading illness than the other. It creates tension and polarization in the community and will greatly affect our local businesses and economy. Mandating or requiring proof of vaccination is extreme government overreach.

I firmly oppose mandatory vaccinations. This is an experimental vaccine. I don't even call it a vaccine . It is a gene therapy. Many scientists all over the world are saying that the the so called vaccine is a Bioweapon and it's intended for depopulation. There is graphene dioxide which is a poison and the jab would create spiked protein to the vaccinated that if there is virus in the wild, the vaccinated will develop hyper inflammatory response, cytokine storm attacking all the organs in the body and will eventually die . The reactions could be immediate or months from now . Japan halted the vaccines because metals and parasites were found . Israel got the most vaccinated and they also have the most Covid cases this means the so called vaccines don't work and matter of fact , the vaccinated are shedding their spiked proteins to the unvaccinated. There are already 500,000 deaths recorded by VAERS and thousands of adverse reactions that are not fully recorded including strokes , heart attacks , paralysis, myocarditis. Pushing these vaccines is a crime against humanity and will be subject to Nuremberg trial which by the way is on the process. The International Tribunal has enough evidence. We are being lied to by the CDC , the Big Tech, the Big Pharma and the media. There are already effective treatment protocol for Covid, like HCQ, Ivermectin which is being suppressed, so they can push their vaccine mandates that don't work, instead are inflicting harm. Pregnant women suffers miscarriages. Kids who were with their vaccinated grandparents were reported to suffer from bleeding, possibly from the spiked proteins. Knowing all these adverse reactions and mortality, these vaccines should be halted right away instead of being mandated. There should be transparency, instead of coverup. There should be an informed consent and the vaccine pushers should explain and make sure that

people know what is in it . We have freedom of choice according to the constitution of the United States of America, otherwise we already live in a fascist, Communist regime. So, help us God!!

Written Testimony

Governor Ige, please oppose this resolution. We, the people of Hawaii, want to retain our freedom, to support the local businesses, and be able to work without being FORCED to vaccinate. It's completely against our rights to be forced to put something in our bodies OR take a test every time we want to go to a restaurant, gym, etc. Please leave this decision up to the individuals and give the people the freewill that our country and soldiers have worked so hard to get and keep. This resolution will inevitably shut down multiple businesses, people will lose their jobs, and families will be put out on the streets. PLEASE, we're begging you, don't do this.

Written Testimony I am strongly opposed to this bill!
This is discrimination! This is how the Nazis got started. Nazi Germany called the Jews dirty. This bill is calling the unvaccinated dirty. Same/Same!
What about US citizens who have had Covid?
Their immune system is now stronger than a vaccinated person.
You are discriminating against people who have a strong immunity.
Show your papers is wrong!!!!

Written Testimony

I strongly oppose this bill. This bill will violate civil rights laws protecting someone from discrimination especially the 14th Amendment. The 14th Amendment to the US Constitution states..."No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

This law violates my right to liberty, abridged my privileges as a citizen, and deprives me of my right to due process of law, and denies the people who do not want the vaccine equal protection of the laws. This bill egregiously violates the basic fundamental rights guaranteed by the highest law in our land. If the City of Honolulu proceeds to pass this bill, YOU will be acting in direct opposition to the vows you have taken to uphold the Constitution of the United States. This is unconscionable and you should be brought up on charges if you pass this bill.

Written Testimony

Dear Council members, Honorable Tommy Waters, and Honorable Esther Kia"aina. My name is Sarah Perez, and I oppose Resolution 21-194-COVID -19 Health Card. I oppose mandatory vaccination that is against ones personal and religious beliefs. The government cannot steamroll Americans religious beliefs. The Constitution, and all the rights it enumerates still stands, even in a time of a health emergency. Those rights include the right to be free of forced vaccinations. I strongly oppose this decision that the City Council and Mayor Blangiardi wants to pass.

Written Testimony

I am opposed to all mandatory vaccination, vaccine passports; be it paper or digital, absolutely opposed to the restriction of individuals to access businesses/establishments/venues or public places of any kind. I am opposed to the segregation and discrimination of vaccinated vs unvaccinated persons. Vaccines are a personal health choice and should never be forced upon the people. This is an infringement on the rights of the American people and an enormous step in the direction of Communism! This will destroy the business and economy of Hawaii and severely damage the beautiful people of these islands. The people have a right to keep their medical history and medical choices private. Do not pass the vaccine/vaccine passport mandate.

Written
Testimony

This is an addendum to a written testimony I just submitted. Over 30% of residents of Hawaii are unvaccinated. By passing such a resolution, you are jeopardizing the jobs, businesses, and all other entities you have listed in your resolution. There are other ways to keep our community safe not to mention you are ignoring the several thousand people in our State who have contracted and survived Covid and have probably more protection from the Covid antibodies than the 63% who are vaccinated. Where are their rights? I believe that if not illegal, this resolution is definitely not well thought out and is definitely not in the spirit of freedom that our Country was founded on.

Written
Testimony

Dear Council Members,
I am writing to state my opposition to imposing vaccine passports/cards. Even those vaccinated could be shedding more virus than unvaccinated per the CDC that is why they are still having to mask. Mandating a card/passport is implying that the vaccinated cannot transmit the virus which is false. I had two co-workers, fully vaccinated already test positive this past week. If testing is going to be required as well then everyone should be tested. Implementing this is not going to slow spread it will only hurt businesses that are already struggling to get back.

Sincerely,
Michele Nakamura

Written Testimony

I, Debra A. Fugitt, strongly oppose this treacherous bill 21-194. This bill will violate civil rights laws protecting someone from discrimination, especially the 14th Amendment. The 14th Amendment to the US Constitution states..."No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

This law violates my right to liberty, abridged my privileges as a citizen, and deprives me of my right to due process of law, and denies the people who do not want the vaccine equal protection of the laws. This bill egregiously violates the basic fundamental rights guaranteed by the highest law in our land. If the City of Honolulu proceeds to pass this bill, YOU will be acting in direct opposition to the vows you have taken to uphold the Constitution of the United States. This is unconscionable and you should be brought up on charges if you pass this bill.

The state government leadership has continued to let down the people of Hawai'i. The mandates that has been issued upon the people of Hawai'i is unlawful and divisive. The government has plenty COVID money to set up temporary hospital beds to provide for patients. Use doctors and nurses from military to help support medical facilities. Same set up military have during war time and this state has many of the armed forces medical teams within these islands. Please use the resources that are on these islands for a time such as this. Please don't put the pressure on our civilian healthcare workers and since our country is in peace time, the medical staff from the military would be very helpful.

This is the biggest slap in the face of the men and women who fought not only in uniform for our freedom especially the freedom of choice but also in the face of the men and women who endured the tyranny of discrimination due to their race, religion, sexual preference, now medical choice! Are these passports also going to notate the STDs one has been treated for or are if they are a convicted sexual predator? Because that affects the community at large too.

Written
Testimony

This is absolutely unnecessary and ridiculous. BOTH vaccinated AND unvaccinated people are getting COVID so being vaccinated doesn't make you any safer than if you're not vaccinated. Most of all, this is absolutely unconstitutional: to ostracize and shame people because they choose not to put an unknown substance with unknown long term effects in their bodies. THIS IS A VIRUS. This is like the flu and not even as virulent as the flu. You aren't going to get rid of it by getting vaccinated and studies have shown that those who have gotten it and recovered have stronger antibodies than those who are vaccinated. The way to end this over control by the government is to do the real science and follow the research in early treatment methods which are actually seeing 98% cure rate. Tired of the fear mongering and lack of viable options because of the elite vested interest groups at the top trying to usurp our rights and freedoms. Stop handing over our freedoms to people who are bowing down to the dollar sign and clearly not giving a damn about people and their rights to make medical choices for themselves. And tell the media to start telling stories from people who have had adverse reactions to the vaccine and are now permanently damaged and debilitated because of it. We need laws that promote freedoms not usurp them if we are going to remain a free, prosperous country. And we need laws based on TRUTH, not lies, hidden agendas, and dollar signs. It's insanity that we give women the right to kill babies in defense of freedom to choose , but you are taking away our right to choose so that you can force us to harm our own bodies? We can kill babies but we don't have the right to preserve our own lives? This is insanity and if you have any sense of morals left in you, you will not pass this bill for the sake of ALL people. You underestimate the people if you think you can do this, but more so,

you may force the hand of God who is the true source of freedom and rights.

Sincerely,
C. Newman

Vaccine mandates/passports inhibit our rights to life, liberty, and the pursuit of happiness. They are a violation of HIPAA laws of confidentiality. These are invasive and divisive and people will not tolerate them. Many are already protesting vax passports worldwide. I believe vaccine passports will result in an increase in crime, protest, and vandalism as businesses that require them may become targets of aggression. I do not think this policy will end with the result you hope for. Note: I am not advocating violence but it's my belief Draconian measures to mandate your health policies on adults who manage capable of taking care of themselves will not end well.

Written Testimony I strongly oppose the vaccine passport for citizens to be able to go to restaurants, stores, private business. The government has no business telling private business owners and citizens that the need to get a vaccine to participate in everyday life. As an Eagle Scout I know this is wrong on so many levels. The government needs to respect people's personal decisions and they need to know that making the vaccine passport happen is a violation of hipa laws.

This mandate is dividing us all. Vaccinated or not is not the issue. It's unconstitutional to mandate something against peoples Will. Every human being has the right to chose what's right for their bodies and health. I am against from Mandatory vaccines on people especially young people. This is hurting peoples minds as well. Not only is this going to hurt the American people , it's going to hurt tremendously the restaurant's and businesses that are trying to come back from this last year government shot down. Hawaii economy will hurt even more with people being force to this mandate and hurt peoples lives! Thank you for listening and I'm praying for you to not do this mandate and hurt peoples lives.

Written Testimony I am STRONGLY opposed to this bill. We have been faithful, taxpaying citizens of this great state for over 30 years. However, passage of this bill will cause me - and a great number of other productive citizens to seriously consider moving. Even though the Pfizer vaccine is FDA approved, there are NO long term safety studies. Moreover, you can not overlook the fact that there have been adverse reactions to the approved vaccines, including death.

I was tested positive with covid beginning of Aug 2021, along with my 3 children. I don't feel that everyone should be vaccinated especially being that our bodies has already built antibodies toward the virus which our natural antibodies is much safer and our immune system from our creator Jesus Christ is stronger than any man made vaccine.

Written
Testimony

aloha! i am writing this testimony to oppose vaccine passports. i strongly disagree with the way things are being handled in our state and believe that it should be our own personal choice to make these medical decisions. i am a mother of one and am so disturbed with the way things are unfolding. Mandating such things for a survival rate in the 90's and pushing a vaccine that doesn't even keep this virus away. I stand stern with my decision and WILL NOT do such thing to my body when i know it will not protect me. I know healthy eating, exercising and vitamins are the only things i need to maintain my health. Mahalo for your time

Written
Testimony

This bill is a violation of privacy and freedom.
I strongly oppose this bill. Government cannot tell me what I put in my body. You do not own my body. Studies prove natural immunity is 13x better than the shot. Stop pushing a vaccine on the people that is NOT proven to stop the spread of Covid. If you really care about public safety and keeping our hospitals from being overrun you would allow early treatment PROVEN to work like ivermectin. Please do the right thing and kill this tyrannical bill.

Your position on the matter Oppose
Representing Self
Organization

To whom it may concern,
Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and "mandate by executive order if necessary" a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written
Testimony

I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194!
Mahalo for your time,
Matthew Tamme

I oppose the vaccine passport system in Hawaii.

The vaccine has not proven to prevent transmission or disease in regards to Covid 19.

This is an unnecessary push for power and unacceptable burden on business owners.

Choice for individual medical procedures is a fundamental freedom and has been protected until this point. What has changed? Who is getting paid to push this?

Written Testimony

Stand up to your colleagues! Stand up for what you know is right in your gut.

If this basic freedom is taken away, we are on a slippery slope to our own demise.

Hawaii has been voted one of the healthiest states in the United States for decades. Our people lead by example and our success relies on ancient cultural and wellness practices that are unique to Hawaii. BE THE EXAMPLE OUR PEOPLE ARE BEGGING YOU TO BE! WE ARE UNAFRAID, AND OUR BUSINESSES WILL NOT SUPPORT THIS SYSTEM FOR DISCRIMINATION.

Written Testimony I oppose the vaccination passport. It is an individuals choice if they do or do not wish to be vaccinated. Since vaccinated people can still contract and spread covid, I believe the only way to know is by testing. Also, by putting a cap on tourist arrivals with confirmed departures would really help. Please don't lock us down either.

I strongly oppose this resolution. It has been proven to have ill effects on the economy everywhere it has been implemented. We should not be segregating individuals who wish to not get the vaccine or simply cannot. Medical decisions should never be forced. Pushing this will only make those opposed even more wary of why it is being pushed so strongly and will in turn discourage vaccinations.

As a life long resident of Hawaii and a proud American I never thought I would be pressured, bribed, coerced or manipulated into making personal health choices. I have always tried my best to live a healthy lifestyle and take care of my body. But now the government is trying to tell me what is best for MY health.

Implementing a one size fits all strategy is reckless and does not account for an individuals health choices. As far as the vaccine passport goes, trying to give certain freedoms to one group of people who listen to the government while simultaneously denying those same freedoms to those who disagree is a violation of our constitutional rights. These mandates are forcing people to make difficult decisions between freedom and doing what they feel is right. I pray you will listen to the people you serve and do away with these unconstitutional vaccine passports and mandates.

I do not support the vaccine passport, as it discriminates against those who do not want the vaccine. It also goes against my confidentiality of my medical choices and decisions. No one should be obligated to show a stranger their medical history. It goes against our rights. Hawaii is apart of America, the home of the free. Lately, it feels like our freedoms are being stripped away little by little and I do not comply! There has to be another way! Forcing people to vaccinate, when you can still spread and contact the virus fully vaccinated, makes no sense and should be up to the individual to decide. They also shouldn't be discriminated against for making such choices.

I strongly oppose any verification of the vaccine or vaccine passport. Governments cannot mandate medical procedure on something that is 99.95% overcome by a healthy immune system...you want to highlight the cases because the death toll has been no different in the last 2 years in Hawaii than the 2 years previous. We know the Covid 19 virus cannot be isolated...we know there is no test for the delta variant. We know the PCR tests don't work and are not accurate as shared by the creator of the PCR test Kary Mullis. We know that doctors all over the world are being censored for speaking the truth about the vaccine being a bio weapon. We know about the Graphine oxide in the vaccine. We know that thousands have died and will be dying in the upcoming months. You cannot suppress the truth. Your global totalitarian plan is failing and you have violated constitutional rights and Nuremberg codes. The vaccines are not safe nor effective as seen by those vaccinated getting sick and by the 13,000 deaths and thousands of adverse reaction and still you push your wicked agenda. If you do not change this trajectory right now you will suffer in court because we the people will come after you for the harm you have committed. Liberty Counsel law firm has repeatedly won against these cases and you will be next if you mandate a vaccine passport. You will pay for your crimes against humanity.

I am currently an educator and employee of the Department of Education. As an employee of the state, I would like to oppose the current resolution being set in place. To reiterate what others have said, vaccination should be a choice, especially a vaccine such as this one, that has only been out for a certain amount of time without a substantial amount of time for testing. There are valid reasons why many are skeptical. It has been a troublesome year for all of us, and that should be something that should be understood, not ignored, by our leaders. Bottom line, it should ultimately be one's decision what is put in their bodies. Many argue that this vaccine passport is for the greater good and our health as a community. There are two reasons why I disagree. First, this is promoting an already present divide in our community between the vaccinated and unvaccinated. From my own personal experience, I have witnessed friends and family members who are being discriminated against, by those closest to them, because they choose to not take the vaccine. Now, I want to make it clear that I am not against having a vaccine. But I still believe it is a choice. I know many, unvaccinated, who do their part to wear their mask, wash their hands, keep their distance, and support the community however they possibly can. I believe they are making a difference and that deserves to be recognized as well. However, instead, this vaccine passport is punishing them for not putting something into their body that they are not comfortable with just yet. Unemployment and refusal of basic services will further alienate those who are doing everything they can, and there are many. They are losing not only money, but lifestyles as well. In addition, this resolution will prevent them from doing their jobs that we as a community need them to do. We NEED them and they need us. This vaccine passport is NOT bringing unity in the way it should, it's bringing the wrong and artificial type of unity that I refuse to accept. We need to uplift each other, support each other's choice, and encourage the fact that this is still a free country, and we want it to continue to move forward that way, with that luxury we've been blessed to have. These mandates are a way of trying to manipulate that choice, and that is morally wrong and appalling. My second reason, there ARE other ways to bring down our numbers. We have proof of it from this last year. As a state, when the mask mandates and social distancing were in place, it was working. Our numbers were decreasing. I do believe that along with the vaccine, those who don't wish to get it, CAN STILL HELP by masking, social distancing, and keeping clean, as we've been asked to do from the beginning. That has not stopped. If it worked last year, WHY ALL OF A SUDDEN IS IT NOT AN OPTION? Just because the vaccine came out, is masking now suddenly no longer an option that works? Especially for those unvaccinated? That makes absolutely no sense. I stand by the fact that it STILL works, and should be an alternative for those who aren't vaccinated. I believe there are other routes that we can take instead of trying to force a vaccine on everyone. FORCE will never work, FORCE will never bring unity. We need choice, we deserve choice. And yes, I understand that this COVID virus is real, and it's scary. I am doing my part to prevent myself and others from getting it as best I can. Many both vaccinated and unvaccinated are. But I do believe there are better ways we can help each other and support one another without mandating this vaccine on every person. It can't happen with threats. That will only bring more turmoil and anger. I advocate for both peace and health in our society, and I believe we can achieve that. But this is not the way. Mahalo nui loa.

The vaccine passports and mandated vaccines are pure discrimination, segregation and a violation of our civil rights and our privacy. There is absolutely no evidence that those who are vaccinated are any more immune to getting the Covid virus or spreading it than the unvaccinated. Preventing people from holding their jobs, going to the grocery store or getting services from private or public entities based on their vaccine status is NOT going to keep the virus from spreading. Everyone can get it and spread it, symptomatic or not. And we are leaving out an entire population of people who have already had the Covid virus. According to the CDC, there is no reason or indication that taking the vaccine is necessary for those who have had Covid -19 and recovered. This is because they have true immunity, their bodies have made antibodies to fight it off. They are more immune than those who are vaccinated. So should this population be forced to vaccinate or be denied services? Then there is the population of people who cannot get the vaccine for various medical reasons. Should they have to suffer both ways by either risking death to take the vaccine, to appease the fear mongers or should they suffer in being denied services or not being able to hold a job to support their families or go to the grocery store to buy food? This is absolute discrimination, absolute tyranny and a violation of our rights. It is no one's business what another person's vaccine status is. Those who are vaccinated and forcing this are just as much the problem. We need to stop pushing these vaccines that don't work and start focusing on treatments. I vehemently oppose the vaccine passports.

The vaccine passport is a nonsensical agenda backed by no science. Mandating a required vaccine to enter many businesses is a pressurized bullying of a person, with the target being their health. Science shows that to reduce the spread of covid, people should become more active, partake in a healthy diet, and get plenty of sunshine and exercise. Being in Hawaii, we have one of the best sun-exposures in the world...why isn't outdoor activity pushed instead of staying indoors to hide from society? Why isn't the state incentivizing healthy lifestyle giveaways instead? By mandating a vaccine passport, many healthy residents will lose access to the places which have allowed them to stay healthy and maintain a high immunity (gyms being a specific example). Statistically, people who have severe complications, vaccinated or not, all have underlying health conditions and/or a very unhealthy lifestyle. Put restrictions on these people and direct them to a healthier lifestyle; but don't take away from and punish those of us who live healthy and have bodies which are prepared to fight viruses that come and go with the seasons. Let the fearful stay home, but let those of us who have done nothing wrong continue to live our lives.

Vaccine passports are medical discrimination, segregation and absolute TYRANNY!!!

As one of your constituents and neighbors on Koko Head Ave, I am so very disappointed to see you would introduce something so horrible.

Written
Testimony

I strongly oppose this along with many thousands of other Oahu residents. The vaccine is NOT safe or effective! If people want the vaccine, they can get it. If we don't want it, we should not be punished or segregated if we choose not to get it. I choose not to put an experimental pharmaceutical product in my body made by companies with no liability for a virus with a 99.97% recovery rate.

And what about those of us (like me) who had covid and recovered and now have natural immunity that is 6-13 times stronger than these vaccines?? We should ALWAYS have a choice of what we want to put in our bodies with no consequence.

The people of Oahu do not want this.

NO VACCINE PASSPORT!!!

The vaccine passports and mandates are an atrocity and a violation against my 1st and 14th amendment. The United States of America is a country build to exemplify liberty and democracy. Due to COVID-19 The United States of America is now losing these essential values. In history we have seen civilians fighting against the state due to a vaccine mandate. 1905 Jacobson vs Massachusetts. The Supreme Court ruled in favor of the State of Massachusetts based on the conclusion that the vaccine was keeping citizens from harm. The COVID -19 vaccine lacks the proper trials and time frame to give that assurance. In addition there are thousands of registered cases of civilians that have taken the COVID-19 vaccine and have suffered severed reactions leaving them with chronic health issues as well as death. The COVID 19 vaccine can not and will not eradicate the virus. As a matter of fact the only vaccine that has done such job was the smallpox vaccine which started to be developed in 1798 and was not globally administered till the 20th century. If this is a matter of safety then please keep in consideration that citizens of The United States of America that are opposed to the vaccine passports and mandates are simply fighting for their safety due to the lack of studies, data, and efficacy of the COVID-19 vaccine.

I strongly oppose the vaccine passport concept. This is not going to help the situation. This will cause more harm than good. I believe that most people just want what is best.. but we have to be able to make choices. This will damage businesses, it will rip apart relationships, and it will turn people against each other. We need to incentivize good health. We need to teach people that exercise and eating right will help extend your life. We also need not forget that death is the most inevitable part of life. People die, and it's hard for us that are still here. I've lost many friends and family. Several, way too soon. That is part of life. At the end of the day though, we need to be able to make our own choices. FREEDOM!!!

I oppose this bill of mandatory vaccine passports. It is unconstitutional to mandate medical procedures to people against their will. Your businesses and tourism will suffer and you will run a lot of people off the island. Being forced to inject something into a persons body other than your own is immoral.
Segregating people based on cultural, religious or political beliefs is modern day Jim Crow-ism.

Your position on the matter Oppose
Representing Organization Self

Written Testimony

Dear Honolulu City Council. I am STRONGLY OPPOSED to Resolution 21-194, The City and State Administration of Hawaii request to develop, implement, and "mandate by Executive Order if necessary" a digital vaccine passport program for public or private industry to restrict access to employment, businesses, establishments, other venues and places of public accommodation. Vaccine Passport information is stored in a central database and the managers of the data can track people's location, finances, communications, and private health information. It is not a secure platform. It will be used silent people and restrict your movement. It violates the Americans with Disabilities Act, as well as the 1st and 4th Amendments of the Bill of Rights. In summary, it violates our civil liberties under the Bill of Rights and U.S. Constitution. Thank you for the opportunity to testify. Respectfully, Raylette Dacosin

Written Testimony I strongly oppose resolution 21-194. The Covid-19 vaccine does not stop people from catching the virus, nor does it stop them from transmitting it to others. Therefore, vaccinated people will not be safe from the virus just because unvaccinated people are not allowed to participate in society. This resolution does not make any sense and it will be very harmful for Hawaii's economy and businesses and will further divide society. Please do not pass this resolution!

I vehemently oppose this extraordinary overreach of our local government. It's Hard To imagine that we are living in a time that parallels Nazi Germany, but here we are. I'd like to remind our representatives that Jewish people in Germany were sent off to concentration camps because they were considered dirty and carriers of disease.

You all need to do the right thing here or you will severely regret your decision on the future because we the people and defenders of freedom will be Victorious in the end and no one will ever forget what you did. You will live the rest of your lives in shame, That is a promise. You may not see it yet but that will be reality. You have been warned. I'd like you all to pay extra attention, to this excerpt of the Declaration of Independence.

Written Testimony We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the Pursuit of Happiness—That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its Foundation on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient Causes; and accordingly all Experience hath shewn, that Mankind are more disposed to suffer, while Evils are sufferable, than to right themselves by abolishing the Forms to which they are accustomed. But when a long Train of

Abuses and Usurpations, pursuing invariably the same Object, evinces a Design to reduce them under absolute Despotism, it is their Right, it is their Duty, to throw off such Government, and to provide new Guards for their future Security.

Written Testimony This bill is introduced from a position of fear, not safety.
Personal health status of an individual is private unless that
information is volunteered. This bill is discriminatory,
unconstitutional, dangerous and should never see the light of day.

Whoever sponsored/introduced this should be ashamed of themselves and their generations in decades to come will be ashamed of them as well. Vaccination passports are the Jim Crow laws of the present day. This enacting of vaccine proposal spits in the face of civil liberties and is a violation of constitutional rights. The absolute worst part of this is it is created off of science that is shady at best. Are we actually willing to bet the liberties/freedom of others that being vaccinated means you are protected and "safe." This is an OUTRIGHT LIE and the science PROVES vaccinated people are spreading and catching COVID 19 and will CONTINUE to do so as more variants come out. The FDA just stated in the past few days that vaccines will continue to be ineffective at stopping Covid 19. Are our government representatives a confederacy of dunces??? Are we part of an idiocracy ??? Are we prepared to align ourselves with the likes of California and New York who the rest of our nation sees as a complete clown show? Stop this madness NOW. Stop creating fear and divisiveness. The people who believe in freedom, liberty and the pursuit of happiness which is our INALIENABLE RIGHT will not stand for this.

Aloha Mr. Rick Blangiardi,

I am writing to you to express my disagreement with your decisions regarding the vaccine passports. I understand that you may believe this is the only way to fix things. It is not. It's senseless, and there are other solutions that doesn't further divide our communities. Growing up in Hawaii, we've never experienced racism or discrimination as we are culturally mixed. That was also the beauty of Hawaii. With the rhetoric from the media, specifically the fear-mongering of "statistics" between unvaccinated and vaccinated, there have been ugliness and division like I've never experienced, and it's so sad.

Written Testimony It doesn't make sense to discriminate against the unvaccinated when the transmission capability between unvaccinated and vaccinated are the same. Both are still getting covid and able to pass it, and it's just not right to keep just the unvaccinated out of businesses. If you're going to do it, do it across the board. If we want to lessen the numbers, shut down tourism. We cannot just isolate the solution towards the unvaccinated. It's discriminatory. Every individual has freedoms and rights, and with every risk (vaccines), there ALWAYS MUST be a choice.

Thank you for your time.

Written Testimony Most current data states that Israel has the highest daily Covid-19 infection rates despite having fully vaccinated 78% of people 12 years and over. Also, CDC stated that the vaccinated can contract & spread the disease. In Hawaii we are at over 70% vaccinated & cases are the highest compared to a year ago with NO vaccine rollout & hardly any cases.

Written Testimony

I STRONGLY oppose a digital vaccine passport here in the city and county of Honolulu and in the state of Hawaii.

It is a disgusting idea to segregate our community between the vaccinated and the unvaccinated. It is horrible to think that an individual must pay for a test in order to enter certain businesses and establishments.

My heart is broken that this is even a conversation our leadership is having and I am incredibly disappointed in the way the city and county and the state is handling this pandemic.

Be better, Honolulu.

Written Testimony A vaccine should be one's personal choice. No one should have authority to mandate a vaccine or testing in order to enter any establishment or to be kept employed. This is creating a separation on so many levels. It is bad for Hawaii's economy, trust in government, employment/businesses, and social well being. What is happening to our freedom in the U S. and especially this beautiful State of Hawaii?

Written Testimony

I strongly oppose this bill, as it violates the medical freedom and medical privacy to which I am entitled and have a right. I know many people who are local and/or long-term residents of Hawaii and, despite being fully-vaccinated, even they do not support this mandate.

To force a medical decision of this magnitude— or any decision — is a direct violation of individuality liberty and is a threat to the democratic society.

Not only will such a mandate result in lost revenue for small and local businesses that are already suffering, it will undoubtedly result in the downfall of our already suffering economy as residents will likely consider living elsewhere.

To enforce something of this sort would be devastating.

I oppose this bill because it is an infringement on our privacy and freedom. The vaccines don't stop the spread or increase immunity, so the mandate of something that doesn't really work based on safety is illogical. This is an unproven, experimental drug.

Written Testimony Having to show proof of vaccination to enter business' does not stop the spread because the vaccinated can spread it too.

The government has no place mandating what drugs they think should go into my body. This also goes against the Nuremburg Codes because voluntary consent is need to participate in medical experiments, which this is, and I DO NOT CONSENT.

I oppose this bill! As a lifelong resident of Hawaii and a taxpayer, I strongly feel that your mandates are infringing upon my rights! FORCING someone to take an drug that hasn't been tested for long term side effects is bottomline, EVIL!! ESPECIALLY if lawmakers are gaining financially from doing this. God is watching you. You will be held accountable before our Maker for every human that is injured or dies from your mandates! There are safer alternatives that have been proven to work! Hydroxychloroquine, monoclonal antibody treatment and antibiotics to name a few. Let us, the tax payers- the people who put you into office decide what we want to put into our own bodies! I WILL NEVER CONSENT TO TAKING THE MRNA DRUG!!!

Written Testimony Vaccination passport of any kind is discrimination. It is not a health concern especially if fully vaccinated people can still contract and spread Covid-19.
This bill goes against our constitution.
Want people to be healthy? Encourage a healthy lifestyle.
The other file attached states the EUA can be used if there are no other option to eliminate a disease. There have been other methods to do this without the vaccine. According to one of the files posted, it proves this is still in the experimental period when leaders are saying otherwise.

Dear Governor Ige please oppose this resolution. We the people of Hawaii want to retain our freedom to choose what we do with our bodies and still support the local businesses without being FORCED to vaccinate. There is no long term data for this vaccine which we could base an educated decision at this time. We love our state and want to keep it safe. However, it is ridiculous to be forced to take a covid test every time I go to a restaurant, go to my gym, stores. They need our revenue to stay in business. You need the taxes you get from these business. We DO NOT NEED THEM! I am sure you have received many emails regarding the vaccine mandates that you, as acting Governor recently issued for all high school athletes and county employees. I wanted you to hear from a family that proudly serves in your state.

Written Testimony My husband is a police officer for the County of Kaua'i (KPD). He has chosen to not get the vaccine at this time. FDA approved or not. I believe being mandated/forced/coerced into putting something in our body that does not have sufficient long term data is completely against our constitutional rights and our religion freedoms to do so. He does not wish to be vaccinated even if that means giving up his career to serve and protect the citizens on the island of Kaua'i. Our 15 year old daughter, McKenna is a committed and outstanding student athlete, who is also being told she needs to vaccinate in order to participate in high school sports. We have given her the choice to be vaccinated or not. Her body, her decision! She feels completely intimidated, but stands strongly on her right not to get the Covid vaccine. She is willing to give up her dream to be an Olympic runner and make a stand that she fears others will not have the courage to do. She also brought up that if unvaccinated students feel intimidated,

bullied, or discriminated against that the rise in teen suicide could be a strong reality. I am a teacher who came to Kaua'i to teach and serve the youth of Kaua'i. The safety and protection of our community is our highest concern. Both my husband and I have chosen careers that put others above ourselves. So we are not selfish! We are asking for the freedom to choose what we put into our bodies and when. We are not a family against vaccines. We just like to be educated and have enough data to make informed decisions for ourselves. After doing some research, it is proven by healthcare professionals that vaccinated people can still contact and share the virus with others. So why are non vaccinated students being discriminated against? Have you ask yourself, the Lieutenant Governor Green, and other city council members what the state's plan is when those teachers, police officers, fire fighters, lifeguards, essential county workers who choose to NOT be vaccinated are forced to leave their jobs? Thank you and your staff for protecting our freedoms and our wonderful community.

Sincerely,
Sheryl M Kerry

Written Testimony Please no vaccine passport requirement.
It will effect many people's jobs.
We have no proof the establishments we are entering are entirely safe either.
Vaccine passports are overkill, reduce our freedom & should not be used.
They will not change any of the numbers.
I'm a health care professional for 42 years & have followed "the science", it doesn't add up.
This is a political agenda. The virus is real, but the rest of this is not.
It's so contradicted & ludicrous.
No Vaccine Passport!,

Written Testimony Governor Ige please oppose this resolution. We the people of Hawaii want to retain our freedom and support the local businesses without being FORCED to vaccinate. It is ridiculous to be forced to take a covid test every time I go to a restaurant or go to my gym. ETC

Why can someone go to Home Depot, Costco or a retail store and touch everything and bump shoulders but can't go to a restaurant that has tables 6' apart where they are wiped in between groups.

The vaccine does NOT stop transmission. You have had a year and a half and nearly 1 Billion Dollars to equip the state. Not one cent went to preparation for a spread. THIS WAS PREDICTED! YOU FAILED! The mandate to force vaccination holds no merit. I repeat. It does not stop transmission. And, as a clinician I was told to stop testing the vaccinated due to HIGH FALSE POSITIVES. Your numbers are faulty. And, you are blocking actual, science backed treatments. You should be jailed for crimes against humanity FOR BLOCKING TREATMENT. Force the vaccine, and you'll have even more lawsuits on you, and they will wipe you out. Period.

Written Testimony The vaccine will go down in history as the greatest crime against humanity in history. Take the time to examine what India was able to accomplish using Ivermectin. The FDA says that it's for horses but the FDA has approved it for humans and it is widely used worldwide. The FDA lied. Check Wikipedia

I strongly oppose the vaccine passport for so many reasons. A few of those reasons include, my body, my choice. It is like raping a person to force them to put this vaccine in their body. It invades my privacy to disclose my medical choices just to be able to enter an establishment where I live and pay taxes. All the while, rapists and pedophiles can't be blatantly identified or carry ID stating so because it invades their privacy. I feel that mandating this will do more harm then good to our economy because people will choose to not spend their dollars in the communities therefore pay less taxes. We should be focusing our energy and efforts to unite instead of divide and throw the energy where it's needed into health care. Hold more classes for CNA's and Med Assistants to assist in the health field, look at locations to use as hospital overload areas. Also maybe more transparency from the government instead of constantly covering one lie with the next, hear your people, meet with your people...just because we are all in masks doesn't mean ALOHA is out of the question. Mahalo for listening and I pray that this resolution of this vaccine passport stops here!!

Anyone contracting coronavirus will test positive if they take a PCR test within 90 days of recovering from their symptoms. This faulty accounting system deceptively inflates the number of cases in the state and will disproportionately affect local residents needing or wanting to travel interisland. If, instead of focusing on the number of (inaccurately reported) cases, the number of deaths as a result from taking the experimental shot bearing the misnomer 'vaccine', the general public may be forced to take preventive measures for their health. The laws of the land apply to commerce. Individual travel is a right, not a privilege and any obstacles to such rights are a violation of Constitutional law. Additionally, if money can be allocated to provide free access to covid shots, that same pool of money should provide access to free testing.

This is a violation of the freedoms America was founded on. The segregation of groups of people is wrong, no matter the category. Also no one has the right to ask for private medical information. The vaccine should be widely available, but vaccine passports are going to kill the Hawaiian economy, and any remaining small business. If I wanted to live in a communist country I would move to North Korea.

I oppose this bill because it is an infringement on our privacy and freedom. The vaccines don't stop the spread or increase immunity, so the mandate of something that doesn't really work based on safety is illogical. This is an unproven, experimental drug.

Written Testimony

Having to show proof of vaccination to enter business' does not stop the spread because the vaccinated can spread it too. I personally know over 5 people who have been vaccinated and have still tested positive for Covid.

The government has no place mandating what drugs they think should go into my body. This also goes against the Nuremburg Codes because voluntary consent is need to participate in medical experiments, which this is.

Where is the logic in the presenting the idea of a vaccine passport?

I DO NOT CONSENT.

Written Testimony

I whole heartedly oppose this resolution on the grounds of discrimination toward not only those who wish to not get vaccinated, but our most vulnerable and poorest populations to include our homeless. Just 2 years ago, homelessness was the state's top priority and it has fell to the wayside. Many homeless people don't have ID, get robbed of their possessions and have immediate needs (food and shelter) that take precedence over even Covid, as important as it is. This resolution will become a barrier and in the end will not reduce Covid numbers. Let's focus our time and resources on creating Covid-response health facilities and quarantine stations. Lets get into communities and work with leaders in those communities who are most hit by Covid. Let's not try to put a bandaid on a bullet wound because that's what this resolution is. We need inclusion not exclusion to face this epidemic. I am fully vaccinated as is my family, but I stand by those who make the choice not to. Please listen to the voices of the people. This is not the right thing to do and if passed, will forever change who we are as local people. We will no longer be the Aloha State and that is something we will forever regret. Yes, Covid is serious and needs to be taken seriously, but so is preserving our culture and way of life. There are common sense solutions for Covid. Let's work together!

Written
Testimony

There is no way this follows our constitution or is legal. It is an insult to the republic to believe that the people are blind enough to see that there is a narrative in place that has nothing to do with stopping the spread of covid. Vaccinated people are proven to spread covid 19. Passports would be irrelevant and further segregate the people, which is obviously what this state is trying to do.

I strongly oppose the mandatory vaccine. It has not been approved by FDA but has merely been extended as an experimental vaccine. Per <https://amg-news.com/archives/13856>, "Supreme court has cancelled universal vaccinations in the U. S."

Written Testimony

According to the analysis of many scientists and doctors, these so-called vaccines contain graphene oxide which is causing COVID symptoms. If so, "...then haven't the vaccines been weaponized in two ways? First through graphene, and second through causing massive spike protein production, which is also toxic. Graphene oxide is a toxin which triggers thrombi and blood coagulation. Graphene oxide accumulated in the lungs can have devastating impacts. Of significance, (acknowledged by national health authorities) graphene oxide is also contained in face masks...There is evidence that the vaccine has resulted in a pattern of deaths and injuries worldwide...should be cancelled and discontinued immediately." I grew up in Hawaii Kai, Oahu and currently live in Haiku, Maui. As someone who believes strongly in the Aina and community here in Hawaii I strongly oppose the health passport for many reasons but above them all it is because this is true discrimination. You are asking businesses to participate in a segregation compliance program. This is not pono. This is not the aloha way! This is not what Hawaii is about. Stripping away the rights of a particular group of citizens based on their private medical choices is completely unjust and unconstitutional! We are all humans with the right to make informed medical decisions. This will hurt businesses, this will hurt the Aina, this will hurt our communities. This will create a massive divide and will create an uprising. You cannot oppress perfectly healthy individuals.

Written Testimony The CDC has stated that vaccinated people can carry and spread the virus just as easily as an unvaccinated person. The vaccine is waning and becoming more ineffective against new variants as time passes when you look at the data of countries who have started vaccinating before us. The same thing is already happening here. Why are there more deaths from covid this year than there was when no one was even vaccinated. A decent amount of people are vaccinated and yet nothing has gotten better? How is that possible? It is possible because the vaccine is failing! The health pass does not guarantee the safety of anyone in any specific establishment. We have already seen covid spread in environments where a majority of the cases were breakthrough cases. This will happen here even if the health pass is mandated. The passport does not designate that someone is actually healthy.

My family takes care of our health. We eat well, we eat organic, as much unprocessed as we can, we stay away from toxic ingredients, we take our vitamins and supplements, we limit our sugar intake and stay away from soda. We get outside and stay active. Our household has not been sick in almost 2 years and when we do get sick it passes quickly and without the need for medication. We've been exposed to Covid-19 virus at least twice last year that we know of and our family has never experienced a symptom nor have we ever treated positive. We do not get sick because we are responsibly healthy people. People like us do not deserve to be segregated nor classified as "non-healthy" or "high risk" or "disease spreading" just because of a personal medical choice. We have the right to walk into any business establishments. We are responsible over our health!

Please this is not a solution for the people where anyone wins. You cannot segregate the public especially when you can't even guarantee their safety from the virus. Outbreaks will happen no matter what. Cases will happen in those who do not take care of their health whether vaccinated or not. Please this will ruin and divide the great people of Hawaii.

Written Testimony I strongly oppose any mandate that requires a vaccination to travel in Hawaii.
There is new evidence coming out now by the scientific community, showing the people who have the vaccine are equal to or more likely to pass the virus to other people.
The only thing this Mandate accomplishes is Blatant discrimination against those people who do not want to be injected with what is being called the Covid vaccine.

I am writing to oppose "vaccine passports". This is segregation, discrimination, and completely wrong!! To tell citizens where they can and cannot go based on a medical procedure is ridiculous, and to tell businesses who they can and cannot let into their businesses will cause shut downs of many small businesses. And let's not forget the VACCINATED STILL CAN CATCH COVID AND SPREAD IT!! So why are you discriminated against the unvaxxed?! Please shut this idea down!

Written Testimony

I am strongly opposed to this bill! Vaccine passports go against my constitutional rights that I have a right to as an American Citizen. It also impedes on my right to medical privacy as well as oversteps the rights to exercise my own genuinely held religious freedom in which by law, that I should never be discriminated against. Not only do these things cause pain, loss, and tremendous financial stress on my entire family but it goes against the actual campaign in which you claim to serve which is for the health and safety of the entire public. With these vaccine passports and mandates, we are not able to access proper resources that serve our own health and families on a daily basis at any given time given our own individual circumstances and situations. In fact, it does the very opposite of making your fellow Hawaii residents feel safe. This needs to stop or else businesses, families, children, schools, public resources and facilities will all suffer and fail at some point. You need to kuleana and do your part in upholding your part as the government who works for the people and their communities. To unite with them and NOT to go against them.

Written Testimony Forcing people to obtain a vaccination that regardless of their health or religion. or made to suffer numerous testing for a virus that can still be transmitted by the vaccinated is not only pointless but immoral and inhumane Further more implementing theses restrictions on locals while allowing free passages for tourist becomes a violations of our rights.

Using a vaccine passport in order to mandate what the government sees is the best way to combat covid 19 is not something I agree with. Being an American, I know it is our right to choose and when something as crazy as this emergency use vaccination is made a mandate, it is something all of us in America must question and be concerned about. Covid is real and there are so many other ways to combat the spread including promotion of healthy living, vitamins and supplements, sleep, exercise, and other means of boosting our own systems.

All these mandates are sadly dividing our island. There is no more Aloha. It's completely ridiculous to mandate anyone against their own beliefs or religion. It's illegal. You are taking away all our rights as humans, as Americans! So many people have a hard time making ends meet and this will just add to stress factor of being able to live here in Hawaii as we should be able to do. Why do you all fell you have the right to treat so many with discrimination. This needs to stop NOW!

Show your Aloha. Bring that back! It is embarrassing the way our own people treat us.

This is deeply unwise policy that comes from a place of fear. We've had enough isolation and separation - we need to trust people to do what's right for them. One size does not fit all - and this oppressive approach is an atrocity. Segregation will not make this better - it will be an ugly, heavy handed overreach that will weaken trust in government and undermine our shared sense of community. The land of the free and the world's beacon of Aloha is no place for a government-mandated caste system. Tommy and Ester - this will hurt so much more than it will help. The unvaccinated are not your enemies - they are your neighbors and friends and family. They are humans with God-given rights and you are sworn to protect their rights. You are no better - and no worse - and we need to come together, focus on protecting the vulnerable, and abandon the broken "the vaccine will fix everything" narrative. There is a much kinder and wiser path forward. Stop the hate - and stop this dystopian bill.

I want to say if this is about health why are you not exhausting all avenues to slow the spread of COVID instead of taking away my constitutional rights to choose what goes into my body. Also the right to work and provide for my family. Also the right to go to restaurants, movies, ect. This is called segregation. Before the vaccine came out the state tested every visitor for COVID and our numbers were way down, Now you only test un-vaccinated and our numbers are uncontrollable. We all know that vaccinated can contact and spread COVID just like un-vaccinated. So you allow thousands upon thousands of visitors every day in to the islands spreading COVID, that's why our numbers are crazy. You not keeping us safe or stopping spread. Stop the mandates and use common sense.

I want to write to let you know that I oppose the new mandate that the mayor wants to put into effect. It is ridiculous to force businesses that are only starting to recover from the lockdowns of 2020 to now have to turn away patrons because of their vaccination status. Many businesses will be forced to close.
I also believe that this is taking our rights away. We live in a America! This is a free country but you are not treating us as free citizens

My body is the temple of the one true GOD.
My GOD has blessed this nation and state with the rights through the constitution.
This is not morally or ethnically right to force people to get the vaccine. It is not morally or ethnically right to discriminate against people, or me for my religious beliefs. There is no reason to disrupt and destroy people's lives over fear of death when no one can stop death except for the one true GOD. Who died on the cross for the sins of this world and was resurrected. JESUS has given me an amazing Amune system. I haven't been sick in twenty years and have never had a flue shot. Quit pushing your own fearful agenda onto the people of this wonderful state! Please look up the definition of moral and ethical you might learn something. Stop being afraid of people and stand up for what is moral and ethical!

Thanks,
Michael Jordan

Ps. Read our constitution you might Learn something if you actually listen. Stop taking my freedoms!!

When are we going to wake up from this nightmare where humanity is divided among the vaccinated and the unvaccinated?!? This proposed vaccine passport is only going to make this worse. The vaccine doesn't stop anyone from catching the virus so what exactly is the point of a passport? Let's call it what it really is - segregation, division, the opposite of egalitarian and a stripping of basic human rights.

Written Testimony

I am greatly opposed to this vaccine passport and I do not believe that any of it is for the welfare of our health. Provide individuals the knowledge and power to make informed decisions and provide resources that are helpful to a healthy lifestyle as opposed to creating division, separation and unequal treatment of individuals.

The vaccine passport is terrifying, wrong and so unnecessary!

Written Testimony I don't think it's fair that the people (including myself) who aren't vaccinated can't enter specific places just because they refuse to take a vaccine that we don't even have full information on. Either way we still can catch covid so there's no point in taking it I believe, but that doesn't mean you stop us from going where we want.

Your position on the matter Oppose
Representing Self
Organization

Written Testimony

I would like to express my strong opposition to the "safe access" program as outlined by the mayor's office.

The covid shots efficacy has been lowered with the delta variant and with new variants on the horizon the efficacy will likely continue to drop. The cdc now says that even fully vaccinated individuals can contract and transmit covid. It renders the need for mass vaccination pointless.

As citizens we have a right to choose what medical interventions we take, and many Hawaii residents, including myself, choose to opt out of these covid shots in favor of my own God-given immune system and faith in Jesus Christ. I will not be forced to partake of a medical intervention pushed by giant corporations that continue to be enriched by the wrongful forcing of the shots upon the populations of the world. Prohibiting me and my children from patronizing local restaurants, movie theaters and museums is cruel and authoritarian. I will opt to boycott any and all participating businesses and entities of the safe access program. I will not be forced to submit to invasive nasal swabs in order to patronize any place.

The mayor is over-stepping his boundaries in the name of the "greater good" during a "public health crisis". I will not forego my freedom as an American citizen.

Safe access program is morally wrong and scientifically unsound based on transmissibility of covid from the vaccinated and pcr testing being inaccurate. The mayor cannot stop the transmission of an increasingly contagious virus and its emerging variants with the use of bureaucracy and authoritarianism. Lockdowns have failed to slow the spread and so have masks and covid shots. This virus will continue to

spread as it has in the highly-vaccinated country of Israel, and the mayor should be focusing on managing the crisis with additional health workers and hospital beds and access to covid therapeutics.

I am strongly opposed to this bill! Vaccine passports go against my constitutional rights that I have a right to as an American Citizen. It also impedes on my right to medical privacy as well as oversteps the rights to exercise my own genuinely held religious freedom in which by law, that I shouldn't never be discriminated against. This should never be used to coerce people into doing things that they have a right to refuse. We are the people of these communities that help our island thrive. We love our home and it's people. We are the Aloha state yet there is no Aloha given. You think this will help keep everyone safe when really it is going to tear people apart. Everything will fail at the hands of careless planning and reckless mandates that do not serve the safety and well being for ALL. This needs to stop.

I strongly oppose the states suggestion to implement vaccine passports. I'm not antivax but am a retired/disabled Air Force vet who understands the importance of freedom and medical autonomy. What a disgrace it would be to all those that served and gave their lives so that we can have the freedoms we have today. Implementing a vaccine passport is anti American and unconstitutional. This cannot happen. Give people the freedom to choose! The government should never be given authority over a person's body. Stop the tyranny, stop the mandates. You are killing freedom, killing America, our constitution and all that has established this great country. God bless America!

I strongly oppose this bill. The premise of this bill is discriminatory in nature and relies on bad science and fear to achieve its goal. This bill violates our God given inalienable rights mentioned in the United States constitution and will open up the floodgates for many more losses of freedoms and government overreach.

This makes me sick to my stomach that this is even something "free" Americans need to talk about. What if scientists are wrong? How do we have so many pharmaceutical products get recalled?? Accutane the acne medicine for example, approved drug used since 1982 until 2009. It was causing birth defects, bowel disease, etc they paid (Roche company) and stopped selling the drug. My point is this experimental vaccine that has not been properly tested, may have negative reactions or side effects not established yet because it is so new. I don't feel comfortable with or have faith that the evidence and results that have been provided by the FDA or CDC and especially not the Hawaii Government officials are true and validated. We are supposed to be the land of the free I feel like I'm trapped with people that don't care making decisions for me.

I oppose this vaccination passport mandate. I am vaccinated but feel strongly that a mandate is government overreach and an authoritarian in nature. This mandate would be an infringement on our liberties! Besides, science does not support anything the city and state have been doing for the past year. Promoting therapeutics, health and ways to strengthen the immune system should have been the focus, along with expanding hospita capacity in case of a spike.

As this vaccination passport is a ridiculous form of discrimination, I strongly disagree with it. Not to mention, as a living person here in Hawai'i, I am always wanting to go out and have fun (safely, of course). However, with these wrongful requirements, I'll no longer be able to be included within many activities that I've been looking forward to all my life. Sadly, today's society is such a severe train where everyone follows a role model - well I'm here going and staying on my own path. I am opposing against this, especially because of the terrible act of unwanted breaking of my civil rights.

I kept some how erasing my message trying to do it on my phone.
After 4 tries I got it thru:
After being forced for one and a 1/2 years to mask up, lock down and basically stagnate why would we even think a vaccine passport will help. We do not need the government to tell us what to do when we have done what we have been asked to do and there has been little change except for policies. No vaccine passport. Only the businesses will suffer, not the people

I strongly oppose this bill! If you pass this bill you are inflicting hardship on tax paying citizens, the well being of their families and livelihood of there homes and community.

As well as adding additional pressure to locally small businesses, whom have already suffered enough from the lockdowns. We have had more death to businesses then COVID (99.97 survival rate) related deaths from the past year and half. In 2017 this state had 623 deaths from the flu, that is more the deaths in the past year and half. This bill will continue to push more small business to shut down their doors and dreams. This bill does not support "we the people". This is tyrannical and it is against the oath you took as public servants to uphold the constitution, you work with us and for us. I humbly request that you will take into account the damage that will be unable to be undone if you vote to pass this. Thank you for your reconsideration.

Denying entry to businesses based on vaccination status is unlawful and an abuse of government power. Will you deny HIV or HEP B positive people? The vaccinations have proven to be ineffective as people are still getting and transmitting Covid even after. The flu mutates constantly. It is insanity to think you can separate and shut out people based on their private medical decisions. This is tyranny at the highest form and should be opposed by all rational thinking people.

Health passports are unconstitutional and violate the civil rights of Individuals of this great country. This is segregation, but now based on a injection that does not even prevent one from getting Covid. This is a slippery slope to the power the government is given to track and trace your daily routine. Who's to say this will not turn into China, where if you're not on your best behavior your life can be turned off. All those in government need to be aware of the laws of this country. The 10th amendment states, the powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people. The people have the power at this point, best listen to what they say. As well, have you thought of the economic repercussions? Businesses will go under, unemployment will skyrocket, homes will be lost, all over an injection that is not fool proof. I feel like we are introducing ourselves Nazi Germany and one group go left and the other right and many are following along to. Or buck the trend but in the end the truth will come out and those who instigated this will pay the consequences, just like the officers in Nazi Germany. Wake up!!!

As a law-abiding US Citizen, the current proposal of Vaccine Passports and Covid mandates, are in direct violation of my 1st and 14th amendment rights. Our Four Fathers founded the United States on Liberty and true Democracy. We have been the model to follow for other countries the last 200 years. Unfortunately, due to the tyrannical Covid-19 mandates we are seeing roll out around the country, the United States of America is quickly losing its way and the essential values this nation was established on is crumbling before our very eyes.

Written Testimony

Unlike, other tested and approved vaccines we see in the medical industry, the COVID-19 vaccine has not withstood the proper timeframe of testing and trials that meet the criteria for administering. The assurance of safety is lacking. Therefore, we can term this COVID-19 Vaccine (aka Gene Therapy) as experimental. So then, the vaccine being experimental, we have to take into consideration the Nuremberg Code which was instituted to protect human life after the atrocities that occurred in World War II. Following, are a few highlights in the Nuremberg Code that would prove crucial when deciding to implement and enforce any Covid-19 related mandates:

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an

understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.[13]

2. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

There have been recorded cases of people having taken the experimental Covid-19 vaccine and had dire affects: temporary ailments, life-long and handicap trauma, and even death. As an infringement on my liberty and medical privacy, I OPPOSE "Resolution 21-194." Thank you for your time and consideration. I know you will do what is Pono, and execute utmost Aloha as you make your decision.

I am writing to express my opposition to the Covid passport proposal. It is unamerican to even suggest this as an option. They say it is for safety, but this is far from the truth, it is a fact the vaccine is ineffective in protecting people from contracting and then spreading covid. The passport is only being used as a way for politicians to push their agenda. As a voter I will be watching who is in support of it and will remember this when it is time to vote.

Written Testimony I truly feel like this vaccine passport is only segregating us as a community. It's creating tension amongst neighbors and now it will hurt our local businesses as well. I believe there are other measures that could be in place to help combat this surge. I know time seems of the essence with this but focusing on our healthcare system and providing them with more resources and support is the best way to go.

I oppose the vaccine passport. I believe as an American citizen, we have the right to choose what goes into our body. Separating the vaccinated and unvaccinated is racist, and segregation. This will only add flames to the fire and cause a great amount division. Per CDC 637 people died from the flu. As of today 591 people had died from covid, many with underlining conditions. Flu deaths are still greater compared to covid deaths. Where was all this mandates during 2017. Are we really in a pandemic? The number one killer is heart disease which killed over 2500 in a year. Why are we not mandating closures of all this fast food restaurants? How about we mandate gyms? Oh but we must show a passport in order ti work out? Help me makes sense I'd this please. How about we focus on healthy lifestyles. This vaccine passport is ridiculous and to me is more about control. You need to do what is right, and shut this down immediately.

I would just like my right to choose like the constitution states and what this nation was built on freedom! Why are Hawaii state officials trying to force the people of Hawaii to mandate unsafe vaccines? Moderna is not safe for kids under 18, Pfizer states unsafe for kids under 16 but under this emergency proclamation it's ok? Kids having enlarged hearts, dying 5 hours after taking a vaccination shot, this is something that everyone should take? Accutane the acne medicine was recalled in 2009 causing birth defects it was distributed since 1982 imagine how much lives we're affected. The effects of this vaccine may be positive if your looking at strictly numbers and stats but I see one kid die, one person have a negative side effect and that tells me this is not a safe vaccine. You want to make people have to get a vaccine that has so many potential risks and the fact that it's not a tested drug just as accutane was discovered to be unsafe almost thirty years after the fact. If I'm vaccinated I could still be infected as well as transmit the virus. If the vaccine doesn't prove you don't have it or aren't sick from it what is the point! Mandate everyone to be tested if you need to mandate something you are creating more of a problem by giving vaccinated people the affirmation that they can do things unvaccinated people can't. Everyone is a carrier, everyone's at risk this is taking away Americans right to choose!

I am against vaccine passports. There is so much efforts being ignored before such a mandate is needed! Test all travelers! CDC announced that vaccinated and unvaccinated can carry and spread covid. How would a proof of a vaccine help with that? Transparency between departments and the public! Currently I am keeping my kids home from school. My sons teacher told me she tested positive for covid. Its been 6 days since she felt sick, 4 days since she got her results and no one (DOE or DOH) has notified her students who she dealt with face to face daily. Mask enforcement! We supposedly have a mask mandate but no enforcement in place! There are some stores that enforce this mandate and others that turn their heads. Who will enforce this vaccine passport? Privileges with a vaccine passport will encourage those who are vaccinated to feel safe, superior and cause misinformation, unsafe situations, and a divide in our community.

Written Testimony

I, Prema Tanaka, am in opposition of vaccine passport mandates for Hawai'i. Based on the scientific research these mandates are a government overreach. Both vaccinated and unvaccinated can spread the virus, and natural immunity for those with no underlining conditions is better for future COVID variants.

This is discrimination, unconstitutional, and absolute tyranny. If public health is the government's concern, then why are you not mandating healthy eating, regular exercise, and shutting down fast food restaurants, and bars? Why is COVID getting so much attention when there are other preventative measures that can be taken to improve public health?

Israel is the top vaccinated country in the world at 68% vaccinated, and yet the covid numbers are higher then ever. Please consider the collateral damage that this virus has incurred on our country and the world based on misleading information. Children have been the most affected in areas such as diabetes, mental health, and a generation of academically oppressed students. Children are the least susceptible and yet on every level they have been the most affected.

These mandates are going to have a drastically negative impact on Hawai'i economy and business. This segregation is creating divide amongst communities and family members for nothing that guarantees actual protection or non transmission of COVID.

I oppose this mandate and vaccine passports 100% and good science does not support it either.

I oppose the safe access oahu passport. It is a direct violation of my constitutional rights as an American citizen and taxpayer. Furthermore, I do not support medical segregation of people who chose to forego an experimental DNA altering "vaccine." Hawaii small businesses have been struggling to stay a float during the past 18 months. Forcing businesses to discriminate against their patrons, customers and clients is wrong. We are all been hurting from the tyrannical decisions made by our government. Listen to the voices of your custituents who voted you in office. We do not want to disclose our medical information just to be able to eat, shop, workout, watch a movie etc. We demand freedom!

By allowing this card, you will be coercing us to vaccinate, or we risk our livelihood to provide for our families. Sadly, vaccinated or not you can still spread covid-19. This will create a great divide amongst us all. Promote hand washing, mask wearing for ALL (not just unvaccinated) please stop this divide, make it known EVERYONE whether vaccinated or not can still catch and spread this. we must ALL be careful but not all be forced to vaccinate.

While I understand some elected officials think this will help solve the case count and over crowding of hospitals it will only continue to create distrust and divide our Ohana. If the issue is over crowding then let's work towards buying more beds and needed equipment. What is needed is to treat everyone with respect, Oahu has been my home for over 18 years, my whole adult life. Oahu is the only place that welcomed me home when I came back from my deployments when I was in the Military without treating me like I was a horrible person for defending our Constitution. I simply desire that we come together and see that a vaccinated person can still spread the virus just as an unvaccinated person. Are we now going to go down the road of discrimination. We should not show discrimination to individuals for any reason. If you pass this vaccine passport you will not only be discriminating on an individual due to their choice of what should go or not go into their bodies you will take us back down the path of discrimination we were on back in the 60's and 70's. This will also do nothing to bridge the gap of mistrust people have with our local government. It will serve for younger generations to leave because many young kids believe that they have no voice already. This vaccine passport will only serve to prove that power and corruption is still running rapid. I have spoken with many people in my community and they feel they have no freedom of choice when it comes to vaccine because it is required for their keiki to attend schools or even for them to have a job and this is shameful.

Many of you claim to be followers of Christ and for yall I pray and emlore yall to remember where your authority comes from. The authority you have comes 1st from God, Everyone must submit to governing authorities. For all authority comes from God, and those in

positions of authority have been placed there by God.

Romans 13:1 NLT

<https://bible.com/bible/116/rom.13.1.NLT>

Those that are believers need to remember God is the person you should seek for counsel. I can tell you he would not say segregation and discrimination is the way to go. Remember he went to the lepers. We have tried the world's way for over a year now, how about we try God's way.

In conclusion we should not continue to divide our communities, we should push truth that all individuals can pass the virus to one another and that it has a 97% survival rate. Encourage HOPE NOT DISCRIMINATION. HOLD OUR GOVERNOR ACCOUNTABLE FOR NOT BEING PREPARED FOR THIS ROUND OF HOSPITALS BEING OVER RUN NOT THE PEOPLE.

I 100% oppose this forced mandate vaccination by utilizing a passport system to go to restaurants, gym, bars ect, when you know the vaccinated can spread it to other vaccinated people to. This passport makes no sence and is irrelevant. We should be given reasonable accommodations by either taking vaccine, testing, use of therapeutics, or wearing a mask. You have been preaching masks work for 18 months now and why is this not a reasonable option? Lastly, you all seem to discount the thousand of hawaii residents who have had Covid and survived before and vaccine was rolled out. Why are you not putting us in the exempt group because our immune system has worked and will continue to work better than any vaccinated person to any variant that come down the pike! It makes zero sense to make me vaccinate when I already had it and I am protected by it naturally? Quit using Political Science and start looking at real science! Your agenda is killing the people of Hawaii.

Written Testimony Aloha,
Thank you for taking testimony.
Regardless of what you think about the safety and efficacy of the vaccine, mandating it, and creating health passes, is an overreach of your power.
You will be sued by businesses, residents who are forced to move, and other concerned parties.
You swore an oath to the Constitution, and this would be in direct opposition to that oath. Look up what Benjamin Franklin said about safety and liberty.
When you are in doubt, you must err on the side of individual liberty. Do not attempt to force your ideas of right and wrong on the populace.
Let. Freedom. Ring.
Thanks,
Victoria Ng

I oppose having a vaccine passport I believe that it goes against our constitutional rights to be able to CHOOSE freely what is best for our families not to be coerced into doing something so that we may be able to do the things we once did/enjoyed. This vaccine passport would be a branch off of segregation EXCEPT now you get to choose if you black or you white— AOLE PONO!! Oppose oppose oppose!!!!!! DO NOT pass this! It is wrong all around!!

Written Testimony I OPPOSE the vaccine PASSPORT as it seems to be corralling people to have to take the vaccine. I oppose any imposed vaccine on an American citizen as it is a violation of my constitutional and human rights. Withholding an americans livelihood and means to force them to do anything they dont want to do is clearly black mail and bullying

Written Testimony I oppose this with all my heart! This will affect my whole family in a negative way financially, emotionally and spiritually. This is America and we have freedoms that are not being held up to the laws that our founding fathers fought for. Please do not approve this .

Written Testimony

Aloha, I viciously against this passport. This pose Huge infringements on our alienable rights. We don't need our government to take care of us. It wasn't design for that.it was design to protect it. Hawaii is the most progressive state in the union. We have alot government funded programs. This passport will not be one them. We never needed it for you flu that has claim 63million deaths that was reported 2019 on cdc website. Why now? Covid has flu like symptoms other then respiratory affection. Once this medical choice it will trickle to our other rights ..this has to stop.

I strongly oppose the vaccine passport in Hawai'i.

It is the United States Government's job to protect my inalienable rights, not to give or take away my basic human rights.

It is also illegal under the Health Insurance Portability and Accountability Act (HIPPA) for employers, law enforcement or others to ask for information about me without my authorization.

Written Testimony

Medical treatments cannot be forced without personal consent, especially when there are other treatment options available such as Ivermectin which is being used successfully around the world like in Japan as well as Hydroxychloroquine which Dr. Vladimir Zelenko treated President Donald Trump with when he had Covid 19, not to mention other natural remedies which are being used successfully around the world. There are many risks of adverse reactions from the mRNA Covid vaccines, some well known and reported such as blood clots and Myocarditis which the Pharmaceutical companies are not held liable for. Who then will care for me if I am adversely affected? Hawai'i is being coerced/forced against their will to receive a medical treatment in order to keep their livelihoods and provide for themselves and their families.

A vaccine mandate goes against the Nuremberg Code, which resulted from the trials after Nazi doctors experimented on prisoners against their consent. Under the Nuremberg Code, responsibility for violations of informed consent rests upon individual doctors, government officials – and their aiders and abettors – each of who can be prosecuted for

crimes against humanity.

On March 1st Isaac Legaretta, a New Mexico Detention Center Officer filed the first US Lawsuit Over Mandatory Covid Vaccines. DOCKET: No. 2:21-cv-00179

His attorney Ana Garner told Bloomberg News: "You can't be forced to be a human guinea pig. We have the right to bodily integrity."

Enforcing mandatory vaccinations to the people of Hawai'i through coercion is totalitarianism and fascism. This is not Nazi Germany, the Soviet Union, North Korea or the People's Republic of China, this is the United States of America!

Vaccine Passports are unconstitutional according to the Constitutional Amendments, a violation of my HIPPA rights and a crime worldwide under the Nuremberg Code.

It is not up to you to give the people freedom to choose what they inject into the blood of their own body and children, that decision is up to each individual and up to God our creator.
