Written
Testimony

I oppose Resolution 21-194 because vaccine passports are an act of segregation that goes against our medical freedom. It exempts the vaccinated from needing to get tested, but it has been proven that both unvaccinated & vaccinated individuals are getting covid. This is dividing people to support a corrupt agenda. Why have a state motto: "Ua mau ke ea o ka 'āina i ka pono - The life of the land is perpetuated in RIGHTEOUSNESS" and not implement it? Do what's pono, what's right and choose people over profit because we, the people, have the right to choose what is right for our health! Stop choosing profit over people and using the "safety" card to justify your illegal actions of mandating our rights. We, the people of Hawai'i, have the right to choose! We have the right to fight for our medical freedom!

Written Testimony I strongly oppose to this bill due to its enforcement overreaching the capability of the State government. It's is in violation of human rights and the Constitution as well as the HIPPA and Privacy act of 1974. Also, vaccine passports disassociate the minorities who have the lowest vaccination rates and in fact enforce a racial segregation. The impact on State structures, facilities and businesses will be unrecoverable as people will refuse to go to work or spend money at businesses. I refuse to have a vaccine that is rushed through development, cut through red tape, has many breakthrough cases and possibly be worse than the disease it tries to prevent.

Written Testimony

Aloha counsel I would like to express my belief regarding 21-194. This is a clear violation of HIPAA whether I have had the vaccine or not. It is my personal and private information. The RNA in the vaccine is questionable regarding its long term effects. In the short term it seems to be working but we do not know the effects of the unborn and long term results. To push the vaccine on people should be a choice and not a requirement. I am against 21-194. I have underlying medical conditions and I am 71 years old and have made this choice for me only!!!! I have built my immune system and eat properly and have not asked for your help.

Written Testimony I oppose the introduction of vaccination passport because there are effective treatment strategies that exist and while the most vulnerable population like elderly is already vaccinated for the most part, the rest of us can either isolate when necessary or get access to treatment. Enforcing vaccination passport is an application of undue force on the part of the government and it is not acceptable within the light of options that are proven to be effective for the treatment of Covid-19.

I Devin Anduha already caught covid at my work Waiawa correctional facility. I Survived covid and now have natural antibodies. There's no scientific data showing any second covid reinfection of patients dieing or infecting or reinfecting others. Also, as an American the government has NO right to force ME to get any medical procedures including vaccinations. The mandate is unlawful and is not science based. It is led by fear and opinions.

Sincerely,

Mr. Devin Anduha

Written
Testimony

I would like to deeply express how I feel that our lives, our state, our entire world is spiraling towards a total totalitarian system. We the people, in a democracy, place representatives to support all people and not certain groups or classes and yet here we are being "mandated" with an iron fist to do whatever the government feels like "is best". This passport is pushing modern day segregation and separating the people. I myself now feel singled out and imprisoned in my own life. COVID is not a good thing but is now apart of our lives and in order to move on, we need to accept that. COVID will not go away by making people separate themselves or hide within their homes. COVID will not go away especially by firing and barring mass amounts individuals from doing important jobs that keep Hawaii safe and operating. There is so much to say but on short notice this is what I will provide, a "tip of the iceberg" of what a racist disaster this current regime of Hawaii government has created. I love and grew up in Hawaii and always planned on living out my entire life in my island home. Now, I don't feel safe, nor do I have any clue on where to turn for my own safety and prosperity...

Written Testimony

I Ronald E, Wuestefeld oppose to resolution 21-194 for the City Administration and state of Hawaii develop. Implement and “mandate by executive order” if necessary, a digital vaccine passport program. For private industry to restrict individuals access to employment, certain business establishments, and other venues and places of public accommodation.

Vaccine passports have significant implications for privacy and autonomy, freedom of movement and association, equity and discrimination and shame individuals who are not eligible to underline health restrictions do to being allergic to compounds in the vaccine.

This is imposed segregation on a matter of choice in medical treatment that is still in it's infancy. Vaccinated individuals are STILL getting sick and spreading this virus. How does allowing vaccinated parties of people to gather within established businesses, operations, and schools avoid the spread of Covid? I strongly oppose RESOLUTION 21-194, I believe it's unethical and still placing individuals in harm's way.

Vaccine passports are a direct violation of freedom. Using the philosophy that making people take the vaccine against their will is being done for the benefit of the greater good is a philosophy that can be manipulated and applied to many other circumstances. Once we start using this philosophy to justify violating individual rights, we slide into a very dangerous world and the line between "protecting the greater good" and having individual rights is lost.

Written Testimony

I, Wayne Nakamura, **STRONGLY OPPOSE**, Resolution 21-194, urging implementation of a covid-19 health card ("vaccine passport") for establishments at higher risk of transmission of covid-19 for the following reasons:

(1) The "vaccines" for covid-19 were never intended to reduce the risk of contraction of covid-19 or transmission of covid-19, by the creators. Therefore, all covid-19 "vaccines" do not protect the person who has taken the "vaccine" from becoming ill from the virus. It was designed solely to reduce the symptoms caused by the virus. Since this, **INVALIDATES** the entire premise for Resolution 21-194, I request that Tommy Waters and Esther Kia'Aina produce the data and statements from the companies that created the covid-19 "vaccines" that their "vaccines" were designed and therefore actually reduce the risk of contraction or transmission of covid-19, if these two individuals disagree with the statement.

(2) These "vaccines" **DO NOT** have **APPROVAL** by the Food and Drug Administration (FDA). They only have an emergency use authorization, because these are not true vaccines, but experimental treatments. There is scientific evidence that these experimental treatments contain harmful ingredients. However, the creators of these experimental treatments have withheld the ingredients. It is unethical and illegal to try to coerce a citizen of the USA to take a harmful substance into their bodies. I request that Tommy Waters and Esther Kia'Aina produce the data of the ingredients contained in these "vaccines" they are pushing for residents of Hawaii to take.

(3) The proposed "vaccine passport" denies "we the people" the rights to protect our privacy regarding our medical choices.

(4) The proposed "vaccine passport" will harm the businesses who are being coerced to be the governments enforcement arm by denying service if the proper documentation is not provided. The USA still a country of laws which are our Constitution and Bill of Rights and these cannot be denied by over reaching politicians.

I am strongly opposed to this Health Passport.

Written
Testimony

1. Vaccine makers and vaccine administrators and mandators are immune from liability in the event of adverse reaction including death
2. Pfizer paid out billions for bribing doctors and suppressing adverse trial results in 2009
3. Moderna has never brought a vaccine to market
4. Every previous coronavirus vaccine has failed.
5. Every previous mRNA vaccine has failed.
6. Anecdotal friends and family have had adverse reactions including death after vaccination.
7. ZERO long term safety testing and the short term trials that were conducted were abandoned because all the lab rats were dying.
8. Censorship of scientific debate
9. Censorship of Fauci funding gain-of-function
10. Censorship of Covid Treatments and the use of early treatment
11. Censorship of adverse reactions and deaths
12. Ignoring natural immunity. Got Covid and developed immunity.
13. 99.95% chance of survival if below age of 50
14. Bloated case counts and death numbers
15. The virus will continue to mutate
16. Vaccinated can still catch the virus.
17. FDA, CDC, WHO are captured institutions
18. Virus and vaccine efficacy measured by faulty PCR test
19. Never solved lipid nanoparticle delivery problem
20. Japanese Pfizer data shows LNP accumulating in organs
21. Vaccines must give you antibody immunity. This "vaccine" does NOT do that.
22. The doctors and nurses administering the inoculation are required by law to give informed consent and they cannot do this if they themselves are not informed

23. the 14th Amendment to the US Constitution explicitly directs states not to “deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws”
24. Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
25. Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: “Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product”
26. Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment
27. It is neither feasible nor safe to mandate experimental vaccination given the large number of COVID-19 recovered patients in the general population and the FDA/Pfizer/ Moderna protocols which excluded COVID-19 recovered patients
28. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States
29. Administration of the experimental COVID-19 vaccines according to guidelines established by the CDC’s Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations
30. The public is entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials
31. The SARS 2 Covid19 virus has never been isolated and there is no proof of it's existence.

According to the State's website at health.hawaii.gov updated 9/1 the positivity rate is 7.9% with 858 new cases STATEWIDE which calculates to 68 Positive cases STATEWIDE according to the website's definition and formula.

68 Positive cases Statewide with a total population of 1.46 million people is really 0.0004% chance of being positive with a 99.995% chance of survival.

Additionally, there were more flu deaths in 2017 than there are Covid deaths since April of 2020 and miraculously flu deaths disappeared.

The numbers don't make sense! Neither do your "New Case Count" numbers that are reported daily which include "Probable Cases." By definition on the State's website, "Probable case are cases that either have a positive antigen* test result (without a follow up confirmatory test) or were symptomatic and had known exposure but did NOT get tested."

WE THE PEOPLE DEMAND THAT YOU PROVE THAT A PANDEMIC EXISTS by presenting material evidence of the isolated SARS-COV2 virus and data of actual deaths (FROM Covid, NOT with Covid)and Number of Positive cases Statewide.

Agenda Item Resolution 21-194
Your position on the matter Oppose
Representing Self
Organization

I strongly oppose Resolution 21-194.

Are we in the United States or are we in Nazi Germany? Or maybe the Soviet Union? Or perhaps North Korea? Venezuela? China? NO, we are in the United States of America and this resolution is an infringement on our rights. It's an infringement on the businesses' rights too to make them require their customers to have the COVID-19 (C-19) Health Card especially when there is no obvious danger out there.

First of all, let's be real. THERE IS NO PANDEMIC! If it were a pandemic, why would we have to be told over and over again that there is a pandemic over media (the news)? I think we wouldn't need to be told especially in the cities. We would know just from our neighbors. Hawaii is so small that we would KNOW. We have friends around the world, we would KNOW. There would be more videos going around social media of people falling sick and dying from C-19 as compared to all the videos of adverse reactions from the COVID "vaccines." If it were a real pandemic, why would first responders lose their jobs if they don't take the C-19 shot?

I know the rise in supposed cases are being used as an excuse to require these health cards. It's obvious that the numbers are being doctored. It is known that the people who have yet to receive their second shot is still considered unvaccinated so if they have an adverse reaction or get sick from the shot, they're included in the "unvaccinated" count. Those who received both their shots are not tested at all even if they have the supposed COVID symptoms (unless you work DoD but we know those numbers are not given to the state nor would they be used either). Only those considered "unvaccinated" are tested and therefore OF COURSE used so that the media can technically say that the unvaccinated are in the hospitals...whether or not they're at the hospital due to COVID. I won't get into the misuse of the PCR test that the inventor, Kary Mullis, said that it doesn't indicate that one is sick. It's pretty obvious that the

rise in cases started rising because of the rollout of AN EXPERIMENTAL “vaccine.” I also know about the guidelines that the American Medical Association gave out to the doctors on how to further push this so-called pandemic. We all know majority of the people here in Hawaii who ended up in the hospital had underlying health conditions like obesity. It is known that obese people have a higher risk for COVID complications. How many people in Hawaii are obese?

The “vaccine” is EXPERIMENTAL. It is also NOT a vaccine. It’s only called that so that it can have the same NO LIABILITY as tradition vaccines. Since forcing the vaccine IS an infringement on our rights, especially our right for informed consent, these C-19 health cards are an indirect way to ‘mandate’ these so-called vaccines. What would happen if the businesses realizes that they have the right to sue the Hawaii State Government? What would happen if employees realize that they can sue their places of employment for discrimination as well as for responsibility for any adverse reactions to the “vaccine.” Are you purposely trying to hurt Hawaii’s economy? Who do you really work for? Are you working for the Hawaii people or the same people that Fauci and Gates work for? Does America really want to be part of the New World Order? What about the Hawaiian Kingdom? I think NOT. What were you promised for pushing these? Are you all “Useful Idiots?” Are you so out of touch that you’re willing to sell out the lives of the people of Hawaii? Are you willing to sell out Hawaii? How many times has the mayor mentioned New World Order? What are you all trying to turn Hawaii into?

Now, these C-19 Health Cards are now infringing on our rights as a human being and as an American. It’s infringing on our security as well as our privacy. It’s infringing on our right to choose. We have the right to informed consent and it’s very telling that all the information that shows the adverse affects of the COVID-19 vaccines have been concealed or censored. All the information being put out by controlled media is one sided. The science you all are basing your information on is one sided. How can the masses make an educated decision if one side is censored? It is NOT science if there is no opposing data. Remember who you serve. Yes, you are servants of the people. You work for us, not for whomever has been paying you to push these so-called vaccines and health cards/passports.

Do you even know the laws you’re supposed to protect?

This is a violation of the US Constitution’s fourth amendment, Title III of the US Civil Rights Act, and the 1947 Nuremberg Code. It is also a violation of Hawaii’s Consitution Article I section 6 and 7. There is NO compelling state interest as I mentioned earlier, there is NO pandemic.

Lastly, why are you ignoring the various ways to stay healthy? Is the money the state or hospitals for COVID patients more important than the patients’ recovery? Why not use what has been working for people around the world? Anyone with a quarter of a brain can tell that something is not right if no health official is recommending natural ways to stay healthy such as getting enough exercise or getting enough sun, ignoring natural immunity, drugs like HCQ and Ivermectin are being banned, doctors professionally threatened if they give out too many medial waivers, that First Responders may lose their jobs for refusing this experimental “vaccine,” and everyone who speaks against the “vaccine” or offers alternative solutions are censored.

Remember who you really work for. You may say you’re doing it for your constituents who are crying for this but you know they too are making the decision based from faulty

information from the media. You also know that media has been purposely omitting all the information I mentioned earlier. How about including in the media reports on the adverse reactions to the “vaccines?” Oh what, there’s none? Maybe because many sites where people posted their own experiences have been deleted. That’s OK though, people like me know where to find them. I can send you screen captures and videos if you or anyone else who wants it. Everyone has the right to choose whether to take the “vaccine” or not. Everyone has the right to informed consent. It’s a shame that majority of the people who took the “vaccine” took it out of fear and false or lacking information instead of informed consent. Stop pushing what Bill Gates is pushing for.

I strongly oppose resolution 21-194.

Written Testimony

Each individual deserves and is required the freedom of choice and ownership over their own body. Everyone needs to be able to decide what is best for their own bodies based upon their own unique and very personal health history, values, religion, risk etc without being punished or excluded for doing so. Natural immunity is stronger than a vaccine anyways. Also, if vaccinated people can still get sick and pass along the virus just the same as unvaccinated people, there really is no valid reason to segregate them and discriminate. Most people I know who are very healthy and practice holistic health and herbal medicine don't need a vaccine.

The risk of the vaccine injury is way more riskier than not receiving it at all.

A passport will function to coerce individuals to go get a medical procedure done they don't want or need in the first place or they will lose their job. A healthy lifestyle, exercise, sunlight, herbs, community, and freedom to make your own decision is extremely important and will trump solely using hand sanitizer, injecting aborted fetal tissues into your body, wearing a mask, and living in fear any day.

None of the community should be punished for deciding what's best for themselves.

Especially when it involves a trillion dollar industry that profits off of one of the sickest and unhealthiest first world nations around.

The leading cause of death by the way isn't from the virus but heart health which is from unhealthy lifestyles including poor diets, lack of exercise, sleep, stress, etc. I studied holistic medicine for the past 4 years at UH and am in awe of how the government is choosing to turn against its own people and attempt take away our rights while claiming its for safety. Nothing is safe in regards to this proposal. Thank you for your time and consideration on this very personal matter.

Written Testimony I am strongly opposed to this bill. Ask yourselves if you truly want your children living in a police state. Even as the overall agenda starts moving toward one world globalism, as many politicians, including John Kerry ("They're going to dissolve these borders in a few years anyway."), have stated, that blood shed you do not want on your hands. These losses of freedom are always under the guise of safety & cures, but inevitably more blood is spilled than is saved. Is this not a foreshadowing of the Mark of the Beast where one cannot buy or sell without it? "It is essential that the people should be United in the Federal government, to withstand the common enemy, and to preserve their valuable rights and liberties." - Samuel Adam's, 1788

*Adams also duly noted that if safety is more important than freedom, let the chains sit upon your shoulders, lick the hand that feeds you, but forget you were ever our countrymen. US

I strongly and urgently oppose RESOLUTION 21-194. The creation and implementation of a digital vaccine passport program is an unwise and hurried request that is not supported by up-to-date data/research. This bill is a form of governmental overreach and is wrong.

The possibility of a digital vaccine passport program is so concerning and troubling. Not only could it foster discrimination against unvaccinated persons, but it could foreseeably cause segregation in the community. The premise of a digital vaccine passport program is in itself a great violation. In referencing the Nuremberg Code, the voluntary consent of a human subject in a medical experiment is absolutely essential. The person involved should be able to give consent without the intervention of any element of overreaching, or other ulterior form of constraint or coercion.

Written Testimony

As time goes on, data is being collected and the efficacy of COVID-19 vaccines across many populations is showing a great decrease in the context of infection. CDC Director, Rochelle Walensky, has recently stated that data internationally has demonstrated a worsening of infections amongst vaccinated people over time. The CDC is closely watching the experience of other countries carefully in concern that the US too will see the worsening of infections amongst vaccinated individuals.

Research is showing that the COVID-19 vaccines have no ability to prevent infection by and transmission of the Delta variant. Studies are being reported that vaccine efficacy against the Delta variant has declined from 91% in April to 66% last month (August 2021). Hawaii Department of Health Director, Dr. Libby Char, recently stated that the chances of an individual becoming positive for COVID even though they're fully vaccinated is quite significant. UH scientists are now reporting to the public that vaccinated people make up 66% of the silent, undetected cases on Oahu.

All this concerning, to mandate a digital vaccine passport program does not make sense and is very dangerous. To deny people rights for their choice to not take a vaccine, while awarding people rights for taking a vaccine is wrong and is not reflective of good judgment based on most recent developments and the constant updates by medical professionals in the fight against COVID-19. As pointed above and made available through up-to-date research, encouraging our community to get a vaccine that could actually make them more sick when exposed to the virus, is awfully irresponsible and dangerous. Please carefully consider this opposition to RESOLUTION 21-194.

Alohakakahiaka,

Dr David Martin, American chairman of M-CAM International Innovation Risk Management is the worlds largest underwriter of intangible assets (e.g. patents, biological weapons, etc) EST since 1988. He has compiled ALL documents connected to the creation of SARS-COV2 & the vaccines currently FDA approved. This virus is far from novel, as it was pre-meditated 21 years ago. The first patent application was submitted by Miller, Klepfer, Reid & Jones January 28, 2000 as US patent 6372224.

Just a few of the many patents:
<https://patents.justia.com/patent/6372224>
<https://patents.justia.com/patent/7220852>
<https://patents.justia.com/patent/7151163>
<https://patents.justia.com/patent/9193780>

Written
Testimony

Most importantly, according to Dr David Martin, these vaccines do not provide protection from SARS-COV2. The vaccines create this virus in the bodies of the vaccinated.

To mandate an emergency vaccination, you need to be able to isolate the virus. To date, no one in the world has ever been able to isolate this virus even with a reward of 1 million euros.

With regards to the wisdom of the NUREMBERG CODE, these vaccines are illegal & it is immoral to offer them to the public, let alone MANDATE TO ALL.

VAERS has reported over 30,000 deaths, making these vaccines the most dangerous & fatal item in 30 years worth of data.

The legitimacy of the PCR test is questionable.

The legitimacy of case numbers is infallible; doctors, nurses, PTs, nurse assistants & more have come forward (though silenced via main stream media) to point at all the deaths witnessed that were labeled Covid when patients clearly had other more serious complications that they obviously died from. These patients often weren't treated for their main health concerns, as the agenda to push Covid treatment as the top priority became apparent. The CDC publicly advised health care professionals to label uncertain cases as Covid cases & incentivised hospitals for their Covid cases (I testify as a witness to this publication in 2020).

My last note is to plea to your Humanity. Do not push Genocide & Biological Warfare onto our Community.

There are answers to this problem: unsilence/uncensor effective pharmacuetical treatment, anchient healing herbs vitamins minerals & elements, food as medicine & PEACE - the fear & terror is tantamount. We need to shed light & truth on this matter. The only thing to fear is fear itself. Get rid of the 3 main vaccines. Get rid of testing. Other countries didn't give an power away to Covid & they didn't have a problem. We need to change our mindset to the truth, face our fears & use known safe/ethical methods to combat the viruses & diseases to come.

Best Regards,
Karah Creekmore

Written Testimony
My Name is Diana Bingo. I have lived in Hawaii for 49 years. I oppose the request for the Mandate for a digital passport program. It is not right to mandate and force the people of Oahu to take the "Vaccine" that is experimental and has not been proven to be beneficial when there is plenty of Science to prove that it is dangerous and even deadly for some people.
I am elderly and will not take the "vaccine" in question for the passport. The "vaccine" is not only against my religious beliefs, but would be a health risk for me. I have already had the Covid-19 virus and survived. My body should be full of antibodies and I would not need the "vaccine", as if it really worked of which it does not. It is against my Constitutional Rights to force me to inject unknown and or dangerous materials into my body. Everyone should have a right to refuse the shot just as everyone has the right to refuse the flu shot.

I strongly oppose the implementation of COVID-19 Health Cards. Not only does this requirement violate basic human and constitutional rights, it won't provide the results the authors of this resolution are looking for.

Proof of vaccine to enter a business will not mitigate, eliminate, or even reduce the incidence of COVID-19, or it's spread. We will never have enough vaccines to chase down the potential 100's of mutations the vaccines will trigger, each one worse than the next. Will that passport need a new stamp every 5 months for the new vaccine du jour?

There is absolutely no scientific evidence that an unvaccinated person spreads a virus, Covid-19, or any other virus, any more than a vaccinated person. In fact, the opposite may be true. Show us the proof, then maybe we can have a discussion.

Vaccines are not working elsewhere in the world, either. Cases are on the rise with breakthrough illness from the Delta variant and several others. More will follow. The vaccinated population isn't exempt from being potent carriers of COVID virus, also the Delta variant, and can just as easily transmit these viruses, infecting others.

Forcing business owners to implement this mandate will also instigate economic downturn, cause the loss of employees by prejudicial judgement based on a personal medical choice, loss of customers (all of the unvaccinated) etc. For these reasons and more, many businesses will not survive. What did we learn from the previous lock down?

We should be focusing on preventative strategies, and allowing additional alternative methods of health supporting treatments, to work as integrative methods with the current medical system, instead of shutting out completely viable options and choices. Because what we are currently doing isn't working! And you can't keep doing the same thing and get different results. Vaccines aren't working.

We should be focusing on preventing vaccine injuries, which is way under reported with this current offering, and what I see on a daily basis, devastating side effects, heart events, miscarriages, neurological disorders, psychotic breakdowns, and even death. Shouldn't we have a choice for risking these possibilities?

Yes, we should have a choice. Our constitution supposedly guarantees our right to this. Yet we are bullied, blamed, treated like 2nd class citizens. And if this resolution is passed, then we are now outcasts? Seriously. I object. And I absolutely oppose this resolution!

My Name is Diana Bingo. I have lived in Hawaii for 49 years. I oppose the request for the Mandate for a digital passport program. It is not right to mandate and force the people of Oahu to take the "Vaccine" that is experimental and has not been proven to be beneficial when there is plenty of Science to prove that it is dangerous and even deadly for some people.
I am elderly and will not take the "vaccine" in question for the passport. The "vaccine" is not only against my religious beliefs, but would be a health risk for me. I have already had the Covid-19 virus and survived. My body should be full of antibodies and I would not need the "vaccine", as if it really worked of which it does not. It is against my Constitutional Rights to force me to inject unknown and or dangerous materials into my body. Everyone should have a right to refuse the shot just as everyone has the right to refuse the flu shot.

Alohakakahiaka,

Dr David Martin, American chairman of M-CAM International Innovation Risk Management is the worlds largest underwriter of intangible assets (e.g. patents, biological weapons, etc) EST since 1988. He has compiled ALL documents connected to the creation of SARS-COV2 & the vaccines currently FDA approved. This virus is far from novel, as it was pre-meditated 21 years ago. The first patent application was submitted by Miller, Klepfer, Reid & Jones January 28, 2000 as US patent 6372224.

Just a few of the many patents:
<https://patents.justia.com/patent/6372224>
<https://patents.justia.com/patent/7220852>
<https://patents.justia.com/patent/7151163>
<https://patents.justia.com/patent/9193780>

Written
Testimony

Most importantly, according to Dr David Martin, these vaccines do not provide protection from SARS-COV2. The vaccines create this virus in the bodies of the vaccinated.

To mandate an emergency vaccination, you need to be able to isolate the virus. To date, no one in the world has ever been able to isolate this virus even with a reward of 1 million euros.

With regards to the wisdom of the NUREMBERG CODE, these vaccines are illegal & it is immoral to offer them to the public, let alone MANDATE TO ALL.

VAERS has reported over 30,000 deaths, making these vaccines the most dangerous & fatal item in 30 years worth of data.

The legitimacy of the PCR test is questionable.

The legitimacy of case numbers is infallible; doctors, nurses, PTs, nurse assistants & more have come forward (though silenced via main stream media) to point at all the deaths witnessed that were labeled Covid when patients clearly had other more serious complications that they obviously died from. These patients often weren't treated for their main health concerns, as the agenda to push Covid treatment as the top priority became apparent. The CDC publicly advised health care professionals to label uncertain cases as Covid cases & incentivised hospitals for their Covid cases (I testify as a witness to this publication in 2020).

My last note is to plea to your Humanity. Do not push Genocide & Biological Warfare onto our Community.

There are answers to this problem: unsilence/uncensor effective pharmacuetical treatment, anchient healing herbs vitamins minerals & elements, food as medicine & PEACE - the fear & terror is tantamount. We need to shed light & truth on this matter. The only thing to fear is fear itself. Get rid of the 3 main vaccines. Get rid of testing. Other countries didn't give an power away to Covid & they didn't have a problem. We need to change our mindset to the truth, face our fears & use known safe/ethical methods to combat the viruses & diseases to come.

Best Regards,
Karah Creekmore

I strongly and urgently oppose RESOLUTION 21-194. The creation and implementation of a digital vaccine passport program is an unwise and hurried request that is not supported by up-to-date data/research. This bill is a form of governmental overreach and is wrong.

The possibility of a digital vaccine passport program is so concerning and troubling. Not only could it foster discrimination against unvaccinated persons, but it could foreseeably cause segregation in the community. The premise of a digital vaccine passport program is in itself a great violation. In referencing the Nuremberg Code, the voluntary consent of a human subject in a medical experiment is absolutely essential. The person involved should be able to give consent without the intervention of any element of overreaching, or other ulterior form of constraint or coercion.

Written Testimony

As time goes on, data is being collected and the efficacy of COVID-19 vaccines across many populations is showing a great decrease in the context of infection. CDC Director, Rochelle Walensky, has recently stated that data internationally has demonstrated a worsening of infections amongst vaccinated people over time. The CDC is closely watching the experience of other countries carefully in concern that the US too will see the worsening of infections amongst vaccinated individuals.

Research is showing that the COVID-19 vaccines have no ability to prevent infection by and transmission of the Delta variant. Studies are being reported that vaccine efficacy against the Delta variant has declined from 91% in April to 66% last month (August 2021). Hawaii Department of Health Director, Dr. Libby Char, recently stated that the chances of an individual becoming positive for COVID even though they're fully vaccinated is quite significant. UH scientists are now reporting to the public that vaccinated people make up 66% of the silent, undetected cases on Oahu.

All this concerning, to mandate a digital vaccine passport program does not make sense and is very dangerous. To deny people rights for their choice to not take a vaccine, while awarding people rights for taking a vaccine is wrong and is not reflective of good judgment based on most recent developments and the constant updates by medical professionals in the fight against COVID-19. As pointed above and made available through up-to-date research, encouraging our community to get a vaccine that could actually make them more sick when exposed to the virus, is awfully irresponsible and dangerous. Please carefully consider this opposition to RESOLUTION 21-194.

Written Testimony I am strongly opposed to this bill. Ask yourselves if you truly want your children living in a police state. Even as the overall agenda starts moving toward one world globalism, as many politicians, including John Kerry ("They're going to dissolve these borders in a few years anyway."), have stated, that blood shed you do not want on your hands. These losses of freedom are always under the guise of safety & cures, but inevitably more blood is spilled than is saved. Is this not a foreshadowing of the Mark of the Beast where one cannot buy or sell without it? "It is essential that the people should be United in the Federal government, to withstand the common enemy, and to preserve their valuable rights and liberties." - Samuel Adam's, 1788

*Adams also duly noted that if safety is more important than freedom, let the chains sit upon your shoulders, lick the hand that feeds you, but forget you were ever our countrymen. US

Written Testimony

Each individual deserves and is required the freedom of choice and ownership over their own body. Everyone needs to be able to decide what is best for their own bodies based upon their own unique and very personal health history, values, religion, risk etc without being punished or excluded for doing so. Natural immunity is stronger than a vaccine anyways. Also, if vaccinated people can still get sick and pass along the virus just the same as unvaccinated people, there really is no valid reason to segregate them and discriminate. Most people I know who are very healthy and practice holistic health and herbal medicine don't need a vaccine.

The risk of the vaccine injury is way more riskier than not receiving it at all.

A passport will function to coerce individuals to go get a medical procedure done they don't want or need in the first place or they will lose their job. A healthy lifestyle, exercise, sunlight, herbs, community, and freedom to make your own decision is extremely important and will trump solely using hand sanitizer, injecting aborted fetal tissues into your body, wearing a mask, and living in fear any day.

None of the community should be punished for deciding what's best for themselves.

Especially when it involves a trillion dollar industry that profits off of one of the sickest and unhealthiest first world nations around.

The leading cause of death by the way isn't from the virus but heart health which is from unhealthy lifestyles including poor diets, lack of exercise, sleep, stress, etc. I studied holistic medicine for the past 4 years at UH and am in awe of how the government is choosing to turn against its own people and attempt take away our rights while claiming its for safety. Nothing is safe in regards to this proposal. Thank you for your time and consideration on this very personal matter.

I oppose the use of vaccination cards as a mandatory requirement for patronage or use of establishments for business or other activities on Hawaii Island. I believe that business should have the right to voluntarily opt in or out of a vaccination card program. I also this the vaccination card program as-is does not appropriately account for those people who have already contracted COVID19 and have acquired a level of natural immunity comparable to the protection offered a vaccinated individual.

Aloha, I am writing to oppose all vaccine mandates as it pertains to Covid 19. These are NOT vaccines and are experimental gene altering toxins. Requiring experimental therapies with out full informed consent with coercion violates the Nuremberg Code and is highly akin to Nazi Germany and what was done to the Jewish people. Requiring a Vaccine Passport is discrimination and just like the yellow stars Jews were required to wear to access public places and services. This policy will serve to divide the community even more and will not help flatten the curve at all. We were told in March 2020, 2 weeks to flatten the curve and look where we are now! Worse off because of restrictions that are absurd and NOT backed by sound honest science. Please listen to the people who put you in office. That is why you were chosen to serve. Mahalo

Dear government of hawai'i,
I am a nurse assistant and currently work in a Covid unit. Covid-19 has taken many lives and continues to do so but creating a mandatory vaccination requirement is taking it too far. We should not place blame on either party vaccinated or not vaccinated. Blaming residents of the state is not the answer either because a large majority of cases are caused by tourism influx. With many different COVID-19 variants coming to hawai'i, the vaccine protection will decrease over time. I was fully vaccinated on January 18th, 2021 and I got Covid 3 weeks ago. I am thankful that the side effects were not that bad but setting the precedent that if you're vaccinated you will not get COVID-19 is a lie. My team has seen people die left and right from this virus and it is extremely depressing. That is no excuse to take peoples rights away when knowing that the vaccine will lessen the symptoms and not stop the virus infection. I agree that the vaccination is best to fight this virus but we cannot make people inject something into their bodies that they don't want. Again please listen to your people.

Dear Honolulu City Counsel Public Safety Committee,

Written Testimony

I am strongly opposed to the Digital Health Passport bill. The citizens of Hawaii should not be forced to put something into their bodies if they don't want to. Freedom to choose is one of the significant characteristics of this great nation of the United States.

Mahalo nui for your time and consideration.

With Aloha,

Patrick Rorie (resident of Hawaii since 1987 currently residing in Aiea, tax payer and voter)

Written Testimony This is not about Covid. This is about freedom of choice. Not to mention the push of a vaccine that is in a trial period. I personally know too many people who has gotten injured by it. This is not safe.

First of all just to be clear, I am not an Anti-Vaxxer like how the Main Stream Media(MSM) is portraying vaccines if they have gone through the proper testing and trials. I don't appreciate being an experiment if it's without my consent. Now that that's out of the way I will explain why I am against these mandates.

Written
Testimony

I am opposing all the vaccine mandates including the passports. This is not the solution to our Covid against my constitutional rights. I should have the freedom to choose what I put into my body. This is not else but the person that wants the vaccine. There are overwhelming evidence that lockdowns do not work, vaccine doesn't protect you from the Delta variant, the viral loads are no different between vaccinated and unvaccinated, entire quarantine rules do not make any sense which doesn't stop the spread. The list goes on and on in so many degrees. Why aren't the adverse effects of this vaccine talked about on the MSM? Why do they lie to us for a virus that has over a 99% survival rate? Places that have the highest number of vaccinated have the highest number Covid cases. Why are the Covid cases higher now after we have a vaccine than before we got it? We already have had Covid considered to be vaccinated with natural immunity. Studies are now showing that you live longer and better than the vaccine, which also includes other variants of Covid. Why aren't you hearing about early treatment discussed in the MSM? Early treatment seems to be the best way to keep people healthy. People that catch Covid are told to go home, rest, drink fluids and take Tylenol for aches and pains and stay in hospital. There are things that can be prescribed to keep people from getting worse while waiting to get into hospital instead. Here are some links aside from what you're hearing on the MSM.

These vaccine mandates need to stop immediately. The threats of “get the jab or lose your job” needs kids play sports and do not ruin one of the most important times of their lives. Especially over a virus called vaccine that could do more harm to them than protect them. Don’t we still live in the United S

Written Testimony

I am shocked that I have to write this testimony to inject some reason into this session. My mother recently had a heart complication as a result of getting the moderna vaccine and my auntie also went to the hospital for a similar condition. I am 37 and would prefer to take my chances with covid then be forced to take a medication that I do not believe has been fully tested. On top of that, the logistics of this proposal trample my fundamental right to medical privacy and lastly I feel that the vaccine mandate serves no purpose. To elaborate, Vaccinating people has proven to not actually stop them from spreading the disease, so to say that I am helping my community by being vaccinated is a subjective statement. Furthermore, the statement that me being vaccinated will help keep hospitals clear. Yes, in the short term there might be some validity to that statement, however the long term data has not come in yet and by staying UNVACCINATED I may well be keeping space in the hospital beds in the future if long term side effects begin to appear.

To end my testimony I would like to remind this governing body that your job is to represent your constituents and their rights. I'm letting it be known that I strongly oppose this proposal and I will be very disappointed in any official who chooses to stand against my fundamental right to self determination.

Thank you for your consideration on this issue.

Aloha.

I oppose this. It is unconstitutional and forcing people to participate in a medical experiment violates international law. Section one of the Nuremberg code. Please do not go down this path. Also this mRNA experiment is dangerous and has killed more people in the last 4 months then the last 20 years of all vaccines combined. People who have this experiment can still contract covid and spread it. Your rules make no sense. PCR Tests have a class one recall. Safe cheap effective treatments exist no matter how much the FDA and media try to squash them. Ivermectin works and a number of countries are implementing this with great success. The world is waking up to your games. Stop being puppets and paid pharma schills. Wake up

I oppose mandating vaccine passports for establishments that service the public. Lt Gov Josh Green, Mayor Blangiardi and Gov Ige are not being transparent with the data. They have added 10 days of cases into one day totals to increase the fear of this virus that is spread majority by the vaccinated not the unvaccinated. I've served our country in our armed services for 36 years and I will not sit by while you tyrants strip our liberties under the guise of public health. Vaccine passports is the same as the Nazi papers for the Jews. Why are you elected officials not holding public hearings so the people can see your faces and address this group of dictators directly. Instead, you all hide behind COVID so you don't have to see your constituents grill all of you on your over reach on our Constitutional rights. If this vaccine Nazi passport is permanently implemented, you will wake up the Lions who would prefer to be left alone until you kept poking at them until they had ENOUGH.

I oppose the Vaccine Passport because it is illegal and unethical. Asking someone for proof of vaccination is a HIPPA violation! It is an invasion of private health records! MY BODY ! MY CHOICE!! If you allow this Vaccine Passport to pass you are saying as our elected officials that you are ok with causing segregation and discrimination in our community! Segregation and discrimination is already happening because of the ingnorant narrative you continue to spread! Dr's office only seeing vaccinated patients, hospitals denying access to loved ones if unvaccinated! People are at risk for loosing their jobs! Their livelihood! The Vaccine Passport cannot pass!
THIS IS ILLEGAL! THIS IS UNJUST!

Organization

Written Testimony

This Resolution is discriminatory and creates segregation based on personal choices. Segregation based on race, religion or medical status is wrong!! Bodily autonomy is an important aspect of the right to privacy. Compulsory vaccination, as an involuntary medical treatment, amounts to an interference with the right to a private life. Health decisions should be left up to individuals. Furthermore, there are existing treatments already available to treat Covid patients, making it unnecessary to mandate experimental new "vaccines". In addition, research shows that those with natural immunity to Covid (they already had it) will see a 2 to 3 fold increase risk of adverse reactions from the Covid shots. Furthermore, there is no evidence to show the vaccine prohibits transmission of the virus, nor protects an individual from contracting the virus. Studies have shown the high viral load in those already vaccinated; thus they continue to transmit the virus regardless of being fully vaccinated.

Written Testimony

Aloha Council members, my name is Sarah Perez, and I oppose Resolution 21-194-COVID - 19 Health Card. I do not believe in forcing people to take the vaccination against their personal and religious beliefs. This idea of a vaccine passport presents a serious threat to freedom of one own private medical decisions regarding the vaccination and should not determine whether they can work, shop, dine, or worship. The government is overreaching and overriding Americans religious beliefs and it violates individual liberties and freedom. The Constitution and all its rights it enumerates still stands, even in a time of a health emergency. These rights include the right to be free of forced vaccination. I strongly oppose the decision that the City Council, and Mayor Blangiardi wants to pass.

I am opposed to both Resolutions 21-193 and 21-194.
Aloha, 'O Marc Naval ko'u inoa. No Waimanalo mai au. Ke noho nei au i Ka'a'awa.
I was born and raised in Waimanalo and now reside in Ka'a'awa where my wife is from. I am a Captain for a major airline. Like many, I left the state of Hawaii for college and work. Although Hawaii is very expensive and many locals being forced to live on the mainland, I chose to return here to the islands with my family to raise my daughter in the islands to be around our 'ohana. I truly believe that it is a person's individual right to choose to be vaccinated or not. Those that choose not to be vaccinated accept the cons of not being vaccinated and vice versa. Resolution 21-193 will impact many, such as myself, that are in the travel industry and thus revert to how we were about 1 ½ years ago with high unemployment rates. Resolution 21-194 will take away my freedom to go into many establishments. Thus, will hurt businesses that will not receive my business. Resolution 21-194 will also add an added cost to businesses that have to implement this program. But unlike others, I have a career that I can move my family back to the mainland. Sadly, more and more I contemplate moving my family back to the mainland where there are no restrictions that are on the table like these 2 resolutions that we have today. Resolution 21-193 and 21-194, in my opinion does not resolve any of the problems, they are going to create them. Those that have chosen (for whatever reason) not to get vaccinated won't get vaccinated just because of these 2 resolutions. We live in the United States of America, our ancestors before us fought for our freedom to do what we are able to do today. And these 2 resolutions are taking away that freedom, that right, that choice.

I am against the Vaccine Mandate coming up for vote.
I have done much of my own research and though knowing that COVID is serious, so is our freedom to choose to not take the vaccine and to not feel like outcast. There are reasonable measures to help protect yourself plus other medications to treat COVID. Testing should be made readily available, looking forward to home testing options that are trustworthy.
PLEASE DO NOT APPROVE THE VACCINE MANDATE. I am concerned about our rights to make decisions for our own bodies.

I strongly oppose a vaccine mandate and vaccine passport. I am a firm believer in the constitutional rights of every United States citizen. To mandate a vaccine and infringe on a persons liberty to choose is un-American and tyranny of health. Trust your fellow Americans to be responsible to help beat the spread not oppress them with mandates and passports. More restrictions and fear does not create compliance, it creates division and uprising.

To Whom It May Concern;

I oppose anything that makes unvaccinated people second class citizens. This isn't just people who refuse to take this vaccine, this also injures those that are unable to get the vaccine. If you decide to exempt people who are medically unable to take the vaccine, then your logic is not scientific at all. Add to the fact that you will exempt 12 years and under is ludicrous. Do they have a magic bubble that makes Covid bounce off of them? No. This is not scientific at all.

Forcing vaccination by denying us our basic rights is a complete violation of the Nuremberg Code. The one thing in history we do not want to repeat would be the travesty that the Nazis committed on the Jews. It starts with good intentions, and then it degrades to division of the people, government overreach and finally persecution of those who do not comply to the accepted rhetoric of the government.

COVID-19 and all its variants are here to stay, and I'm sure there will be soon to be vaccine resistant variants. Just like how the overuse of antibiotics resulted in strains that are antibiotic resistant, so to will this come about with COVID-19 variants. I can foresee that there will be a push to force booster shots upon people in the future to maintain their passport. This is nothing but a travesty, especially since currently the EUA shots are liability protected and we will be responsible for caring for ourselves should we be injured.

As much as people say the shots are "safe and effective" the manufacturer insert shows that there is risk. And since there are no long term studies yet, we do not know if something will really injure us. But you will insist that we get boosters to keep our passport. Where there is risk, there should always be choice. And forcing us through this type of harassment is historical. The people in the future will wonder why human rights were trampled and how it

got this far just like we do now for the Nazis and the Jews.

Please. Please do not do this. Stand up for the people and do not make us flash our papers to get access to basic human rights. Do not make us sew yellow stars to our shirts so people will treat us differently.

Sincerely,
Heather Ramirez

I am strongly opposed to this bill. I do not believe that people should be monitored. I strongly believe that this "passport" violates my privacy. I also believe that it will take away our freedom. For example if officials decide that in order to go to the grocery store or bank and etc. I'll need an official approval of my vaccine status-that's my rights/freedom being taken away.

Written
Testimony

I oppose RESOLUTION 21-194. The fact this is even being considered is ridiculous and un-American. Medical freedom must be protected. This proposed mandate is government overreach. I will not work anywhere where a mandate is in place. I will not support any business with vaccine mandates. This will sink the Hawaii economy even more. My and my family's medical records are nobody's business.

Written Testimony

This resolution is discriminatory and misinformed and not well thought out. All of the recent studies demonstrate that vaccinated people contract and spread COVID as well as create variants. The CDC and Dr. Fauci have both made statements that the vaccinated actually carry higher viral loads than the unvaccinated. I strongly oppose this resolution. It goes against every American right we have. It's not any place of the government to tell people how to medically care for themselves or family nor should they mandate other businesses to do the discrimination for them.

Having vaccine mandates and passports goes against everything this country was founded upon. It was founded upon having basic human freedoms. Yes, I understand this is a pandemic and people are sick and some are dying. It is very sad but if we give in to this medical tyranny, when does it stop? It is all too familiar to what the Jews endured during the Holocaust. It's is frightening. One survivor described it as "they started with one restriction, then two, then three and we all just went along thinking it would blow over, once they (the SS) made us have a badge on ourselves to indicate we were Jews, that's when we knew we were in trouble"....

Written Testimony To require a special card to obtain services in the community is very nazi like, it takes away basic freedoms. There are multiple reasons people do not want or can not get the vaccine. It is after all a free country and we SHOULD have that god given right to choose. To segregate and discriminate based on a health status makes you no better than slave owners or nazis. It is also becoming a known fact that the vaccinated CAN become infected AND spread it. These passports are NOT going to stop the spread. It only draws people apart more than they already are. Last year with "two weeks to slow the spread" we found lockdowns only destroyed the economy, not the virus. I pray to my god above you as the city counsel will listen to us. We are not antivaxxers, we are pro freedoms. If we don't fight now, who knows where this tyranny will take us.

I am opposed to this bill that violates our individual privacy and rights. Besides this passport will be ineffective as the vaccine does not prevent one from being infected by the virus and it does not prevent one who is vaccinated from transmitting the virus, as documented but the CDC and reported by many doctors around the world.

Do not pass such a ridiculous bill that only serves the political agenda of corrupt politicians. This is not following true science about the virus and vaccines.

Written Testimony First present evidences that are peer reviewed and authentic about the effectiveness of the 1) PCR tests to accurately identify covid-19, Delta, lambda -specific viruses (not all flus and Corona viruses), 2) each experimental vaccines, 3) the masks that people use (and there are many forms and fashion for these), and the FDA-approved Comirnaty vaccine that will only be available for distribution in 2024. Also make sure the CDC and FDA and Hawaii State government is legally liable for the damages done to individuals that are required to be vaccinated.

Thanks
Vivek Pathela

From watching our country go in dangerous directions of government, I speak up to oppose the common opinion of covid shots driven by the basis of fear into vulnerable community members. My country was founded on freedom and common sense. Segregation and discrimination is not the healthy direction for our state. This may seem a small step and perhaps obvious to you to vote yes, however I vote no because I want to see America and Hawaii preserved with its natural freedom. It is immoral for our people in power to vote for individuals uncomfortable to take the shot or tests for any reasons, to be denied basic necessities of life such as food from local grocery stores. You are deciding the fate of our civilization and the world chooses to follow what America does. Please remember the larger picture as you make world changing decisions that lead us to danger and restriction of freedom.

Mandatory digital vaccine passports to restrict individual access to employment, businesses, venues, and public accommodation or an infringement of basic human rights, and makes zero sense based on recent science.

Covid vaccines do not prevent infection or transmission as confirmed by the CDC, and were never designed to do so! Natural immunity is far superior and longer lasting compared to vaccine immunity as explained in several recently published peer reviewed scientific journals, and as shown in real world data throughout the world.

This bill is a violation of privacy and freedom.
I strongly oppose this bill. Government cannot tell me what I put in my body. You do not own my body. Studies prove natural immunity is 13x better than the shot. Stop pushing a vaccine on the people that is NOT proven to stop the spread of Covid. If you really care about public safety and keeping our hospitals from being overrun you would allow early treatment PROVEN to work like ivermectin. Please do the right thing and kill this tyrannical bill.

Written Testimony I strongly oppose vaccine passports! People are getting and transmitting Covid-19 after getting the vaccine. We have prophylactic and early treatment for Covid which we should be looking into, that are actually working and we need to be looking into these ! Rather than taking away human rights and forcing a vaccine that clearly doesn't work.

I strongly oppose vaccine passports and vaccine mandates. As someone who believes vaccines caused my autoimmune diseases, why would I want to risk injecting myself with more toxins? My son already had adverse reactions to vaccines so when he turns 12 next year, I don't want him taking it either. People should have a choice on what is put into their bodies and it is segregation to discriminate based on vaccine status.

Written Testimony I am also a Christian and don't believe that vaccines, especially ones that are derived from aborted fetal cells line up with the Bible. Nor do I believe that injecting our bodies with toxic chemicals and heavy metals lines does either.

Please hear us out. These are just a few reasons I don't want the vaccines and am anti mandate. People should have the right to choose.

Thank you.

Agenda Item RESOLUTION 21-194
Your position on the matter Oppose
Representing Self
Organization

“All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.”

Written Testimony The US Constitution, Amend. 14, section 1

Government overreach does not solve problems, it only creates them. It causes division and discrimination. I respect everyone, no matter what kind of choices they make - even if I disagree. The least I expect is the same. Making it hard to live for a particular group because they don't see things the way you do is not giving people a choice. Give the people of Hawaii a choice.

Written Testimony Rolling out the digital health card mandate will only divide people and community, and it certainly violates the personal privacy. Once a law like this takes effect, it will lead to further privacy violations in the name of public health and safety. I think this idea itself is very short sighted and it is a very sly and manipulative way of forcing people into compliance.

Written Testimony

The overwhelming evidence given by medical doctors from around the world explain the dangers associated with the side effects and or lack of long term studies to confirm that the Covid vaccines are effective or safe. Vaccinated persons are capable of transmitting the virus and due to return to work guidelines in place they return to work after having close contact and out others in danger.

A vaccination mandate will undoubtedly create separation and continue to drive a wedge between people who are not comfortable taking a shot that does not provide immunity and could potentially harm them. I am against any vaccine mandate.

Written
Testimony

I STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I make this testimony of my own free will with no undue influence. Thank you for your consideration.

Written Testimony This resolution is discriminatory. All of the recent studies demonstrate that vaccinated people contract and spread COVID19 as well as create variants. The Center for Disease Control and Dr. Fauci have both made statements that the vaccinated actually carry higher viral loads than the unvaccinated. Yet only the unvaccinated will be forced to complete Covid19 testing. I strongly oppose this resolution.

Aloha,

Written Testimony

I am at a loss of where to begin. The proposal or resolution blows my mind. On the Basis alone of freedoms and liberties, this is beyond comprehension that anyone would see this resolution as moral or legal!
The deprivation of basic life and civil rights for the sake of “perceived possibility of illness or worse, inevitable death from COVID” is a lie and a gross exaggeration!
(Every year) 500 local people on average die from the flu alone. We are almost two years into COVID and it’s about the sake with those years combined.
This is a overreach is a crime. This is not justified in the least.
You are hired to administer services and protect the rights of the citizenry, not delegate life choices or restrict basic civil rights for no valid reason.

-Micah Mussell

I strongly oppose this bill and its infringement on our constitutional rights. This outrageous bill only serve to destroy more local businesses who will never survive such draconian restrictions. You cannot bankrupt more local businesses and further restrict the rights of tax-paying citizens. Stop copying what California and New York are doing. People are leaving those states in droves to escape the social and economic disaster created by out of touch politicians more interested in furthering their careers and creating sound bites than truly serving the people who elected them.

Written
Testimony

The looming threat of this vaccine passport reflects some of the most shameful moments of recent history. We cannot let these policies continue that are taking us down a one way road toward discrimination, segregation, and only much worse things from there. This dehumanizing, "show me your papers" brand of population control echoes the darkest recesses of the human experiment.

My family lived in Russia during the pogroms. Hardly a soul knows what that is anymore and what happened to the people. The scenario was exactly the same. One group of people discriminated against another. Soon the personas non grata were not allowed to own businesses, then they were not allowed to work jobs. Society shunned them. My family just managed to leave. Returning to the town after WWII, those who had been discriminated against were all dead. All of the family and friends left behind, every single one, had been killed.

Please don't dismiss my grave reminder about history. Roll your eyes, ignore my words, tell me "This is America, that could never happen, or "Oh common, give me a break", or "Are you crazy?" But somewhere inside, you know that something is very wrong. You thought Covid would go away and it hasn't. You see that things simply don't make sense. It's because we're moving toward the edge of something awful that can't be undone. Lives depend on these words. When you take this situation lightly, history ushers back in its darkest social hour. There will be a blot on humanity that can't be washed or forgotten.

As our leaders, it's up to you to draw the line, in your own heart, in your own mind ... are you willing to make a decision that will weigh on your conscience for the rest of your life, and that will affect the future of your own family, of all of the children of Hawaii? Or are you prepared to stand apart and do the right thing? To be courageous beyond measure and do the thing that you know to be right in your mind and heart?

Covid this and covid that ... all we hear is terrifying health statistics. Fear is distracting and when people act in fear, they give up their rights too easily. Covid has sidetracked the fact that much government control comes into play when mandates are allowed to run rampant.

To mandate this vax passport is unnecessary and a breach of our individual rights and dignity.

I am a journalist, I know that stories can be spun, and the covid narrative is a real mess of a complicated web. It's just that, a web to capture and hypnotize us.

Shake of that illusory web and remember what's at the core, our humanity. Let us CHOOSE to quarantine ourselves. Let us CHOOSE to vaccinate ourselves. Let us CHOOSE to exercise, eat well, sleep well so that we maintain robust antibodies.

But please don't doom humanity to a certain terrible future by going through with this discriminatory measure. This slow removal of our rights has been happening in increments, so much of the public is not aware. But those of us who know history, who are haunted by the rotten roots of prejudice know that a future that upholds such injustice only ushers in something putrid that reeks of decay. We must NOT let that be the fate of our wonderful island ohana who we love, and who we must protect and live in harmony with. NOT discriminate against.

The proposed mandate is a violation of our constitutional rights. Even a vaccine that protects people from disease and transmission should be a personal choice. This failed experimental vaccine is what brought the Delta variant to Hawaii when vaccinated travelers no longer had to test. Look at the dates of the spike in Covid cases in relation to opening Hawaii to the untested vaccinated travelers, and you have your evidence. The U.S. constitution should not be violated because some of the people in charge unquestioningly accept authority that is far removed from the scientific process. No on this mandate, yes on human rights!

Written Testimony

I oppose the vaccine passports mandates. An article on Bloomberg on 08/26/21 entitled "Previous COVID Prevents Delta Infection better than Pfizer Shot" says "people who recovered from a bout of Covid-19 during one of the earlier waves of the pandemic appear to have a lower risk of contracting the delta variant than those who got two doses of the vaccine from Pfizer Inc. and BioNTech SE." I understand that you are worried about the public health, and the way to move forward is by allowing people who who choose their way of life during this time by allowing each individual to assess their own decisions and move forward from there.

Written Testimony

My name is Evander Faletogo and I oppose this bill. To be honest, its ridiculous the lengths our government have gone to to force this vaccine on its citizens. Vaccinations should be a CHOICE, not MANDATORY. The only thing you're doing is segregating the people of Hawaii. Now you're treating the unvaccinated like theyre garbage, saying only the vaccinated can travel and eat in at restaurants etc.? The vaccine does NOT protect against covid. Vaccinated individuals are still getting sick. Thats not right and you "leaders" should really start thinking about the citizens of our state instead of yourselves. God bless Hawaii and its people. There are other solutions.
Evander

Written Testimony

Aloha, I am a born and raised Native Hawaiian resident here on the windward side of O'ahu and mother of two Kamehameha Schools students. My family and I strongly OPPOSE this bill for a vaccine passport. This bill is completely unethical and violates our God-given rights to have the CHOICE in how we govern the health over our own bodies, families, and lives. The government and authorities have no place here, and mandating anything upon people with such diverse makeup and unique circumstances and needs is WRONG. There is no one size fits all to health and medical intervention. Where there is a risk, there MUST always be a choice. Please consider this crucial message and LISTEN to majority of Hawai'i when we say this is not pono, and we DO NOT CONSENT to any mandates or passports. Please do the right thing and offer solutions that will serve us all. Mahalo nui!!

Written Testimony I oppose against vaccine passports! It is SCIENTIFICALLY proven that even vaccinated people are carriers of Covid and are able to spread virus while being completely Asymptotic. Along with our Rights being slowly stripped away, this passport will surely cause division in our communities and Hawaii state.

Written Testimony

Absolutely Horrific Bill and it is CRIMES AGAINST HUMANITY to enforce an experimental gene therapy otherwise known as DNA MUTATION/modification upon anyone. This is against actual true science that is being suppressed by media, many religious beliefs and common sense. There is ZERO validation as Both Vaccinated and Unvaccinated can still catch, transmit and die from Covid-19 or the Delta variant. Mark of the Corporate Beast is NOT an immunization from COvid19 as no one is immune. There are successful PROVEN therapeutic remedies that have become unavailable for the billion dollar benefit of big pharma. According to the CDC and VAERS site there have been more adverse reactions and deaths then any other vaccine in history. Phizer doesn't even have legit site or ingredient insert avail to the public and the founder says MRNA is not for Human injection. The tyranny of this bill is sickening and a mere reflection of the desperate last attempt for control.

Aloha,

First off, thank you for your time to read this email and your willingness to listen to my concerns. My name is Ashley, and I have been a teacher here in Oahu for over 10 years now. I absolutely love teaching our keiki and teaching them the importance of inclusion, being a lifelong learner, and what it means to take care of your Ohana.

Written
Testimony

I am writing to you today, and asking that a change be made in regards to these new vaccine/testing mandates and passports. There is a new form of segregation and discrimination happening right now, the vaccinated versus the unvaccinated. Unfair and unjust treatments are getting put in place, such as the vaccine passports, required weekly testing, and vaccinations. This is furthering the divide within our community and breaking our Ohana into two as we speak. As a community, an Ohana, we need to be here for one another during these challenging times. Everyone is suffering loss and grievances, vaccinated or not. People and businesses are struggling. We need to be here for one another, not tearing each other apart. The hatred I am seeing towards the unvaccinated and the lack of respect given towards one another is disgusting. Please read this with an open mind and put yourself in my shoes for a moment.

There are many people who have moral, ethical, religious, and medical reasons for not wanting to take the vaccination or be succumb to required weekly testing. I personally have religious reasons for refusing the vaccination and medical/religious reasons for not wanting to take the nasal swab tests. While waiting for the CRCB to process my exemption, I was given only one option from my supervisor, which was to take leave without pay until I comply. It has been said to me that even if I do get an exemption to not have to test that I would still not be able to come to work and would have to take leave without pay. In the end, leading to

disciplinary actions taken from my higher ups and possible termination. I just received notice today from the CRCB that my exemption has been denied due to these reasons, "The exigent circumstances caused by the COVID-19 pandemic, we are unable to grant your requested accommodations because doing so would pose a direct threat to the health, safety, and welfare of our students and employees, and would therefore pose an undue hardship on the Department." Please tell me how being willing to go through daily wellness checks and temperature readings pose a threat to my school community and would pose hardship on my department? They are making us out to be some sort of terrorist and us being on campus is lethal. I am an extremely healthy individual and haven't had any health concerns. I take care of myself, wash and sanitize my hands regularly, and stay home when I am sick. Why is it okay for thousands of other people to walk on campus or in a store but not have to take a test? However, a healthy woman who is unvaccinated, showing zero signs of symptoms may not enter without a negative test result. How do you see this to be constitutional?

Just for the sake of keeping my job, I have looked into saliva testing; however, they are over \$100 per test. That is over \$400 a month, the kind of money I do not have and don't get paid enough to afford. The only place offering free saliva testing, for now, is an hour away from where I live. The results take 2 to 3 days to come in. So, if I were to meet the timeline of these requirements, I would have to take 2 hours out of family time during the weekend and a lot of gas money to meet these expectations. This is not sustainable for anyone, my small family included. To have to tell my 2 young keiki that mommy will be gone for 2 hours during the time I am supposed to be playing with them and watching them grow is not right! Those who are not vaccinated should not be the only ones to take these tests. Vaccinate individuals are known to carry the virus as well. What about those who don't have all their boosters? There are more coming out even as we speak? Please put a stop to this!

It is unconstitutional to force a segregated group to have to undergo these tests. Why aren't the vaccinated having to test as well? Since this is being required from our employer and state, why isn't this getting paid for by them and done on company time? Why does it have to come out of our own pockets and on our own family time? Why aren't accommodations being made more available, for example free saliva testing on site? None of this is sustainable the way that it is now. There is a lack of teachers already, in Hawaii, why punish those who are still willing to teach, still willing to care for our keiki. The ones who still taught face to face during a global pandemic. We are willing, so please just let us teach without all of these restrictions and hoops to jump through. Please just let us live our lives and take our own precautions to a healthy life style.

Thank you again for taking the time to listen and hope to hear back from you soon. Much Mahalo!

Sincerely and with deep concern,

Your Local 4th Grade Teacher,
_Ashley Contreras

I am oppose to this resolution because it is UN-AMERICAN, violates our rights under the constitution and bill of rights.

Secondly the science is not settled on these experimental vaccines which come without any liability if there is injury.

Written Testimony Thirdly only one side of the argument is making decisions with severe impact to all members of the community.

Lastly, on Aug. 25th a new research article was published titled, "US COVID-19 Vaccines Proven to Cause More Harm than Good Based on Pivotal Clinical Trial Data Analyzed Using the Proper Scientific Endpoint, "All Cause Severe Morbidity". Please take a look at the attached PDF.

I strongly oppose mandates that impose restrictions on individuals rights to freely go about their daily routines. The use of emergency orders to push forward rules and regulations on the population has gone too far. I am by no means a anti vaxxer but am afraid of how far we are taking this and setting precedent for our future. I fear what kind of restrictions will be imposed on future generations based of where we have gotten with a disease that primarily affects individuals with underlying health conditions. Hospitalization issues are clearly out of control but these measures are extreme and impose on our civil rights. Unfortunately this disease isn't going away for years to come. Please re-think your decision

I am against the vaccine passport and vaccine mandates because I refuse to share my medical choices with the public. I don't share my medical records with my close family and friends either so I am appalled by this bill. Our Constitution of the United States protects us and we know our rights.

Written Testimony

My son is a Junior in High School and he can't play sports of the vaccine mandates. I refuse to inject my son with an experimental jab when he has a 99.97% survival rate. My son is healthy and physically fit. He doesn't take the flu shot and when he has a cold he's back on his feet in a few days. My son suffers from depression. He played sports 6 days a week until 2020. Let our kids play! They are not at risk. There's hundreds of testimony's from Doctors and Scientists that DO NOT support this experimental jab.

Written Testimony

I, Dayana Minor STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I strongly oppose Resolution 21-194

The proposed Digital Health Card is a violation of the HIPPA Privacy Rule, which protects individuals' medical records and other personal information. It is also a violation of the basic Human Rights.

Written Testimony I grew up for 8 years of my life in a harsh dictatorship, while my late father (an internationally renowned Bishop) fought hard for Human Rights and to protect the people from all the atrocities that the government was committing.
I promised myself that I would never allow my kids to experience what I had. This proposed Resolution is a major step towards a dictatorship regime, which will oppress the beautiful people of Hawaii.

I strongly urge you to vote this down!!!

Written Testimony I oppose this mandate of the vaccination passport health pass into our "Aloha Stare" because already in our divided nation all we need is a creation of a "Divisive State!". We should at least wait until tourism decreased since the numbers visiting the state should be coming down . I don't think it's our mindful local people spreading the virus, but the disobedient hundreds of thousands of tourist that has infected our aina in a short time that had spread the variant.
.Even though I do care of people's health , there will be greater liabilities to the economy, division among people, and mental health stability.

Written Testimony

I strongly oppose Resolution 21-194. This is segregation, discrimination, and completely wrong!! To tell citizens where they can and cannot go based on a medical procedure is ridiculous, and to tell businesses who they can and cannot let into their businesses will cause shut downs of many small businesses. And let's not forget the VACCINATED STILL CAN CATCH COVID AND SPREAD IT!! So why are you discriminated against the unvaxxed, the people with natural immunity and people with religious and medical exemptions?! Please shut this idea down!

Knowing the seriousness of our situation and that so much unknown creates fear, please consider:
-long term effects of taking away freedoms
-long term effects of the vaccine weighed with long term effects of COVID
-amount of time required to approve vaccines and reasons such guidelines were put in place
Written Testimony -proven strength of natural immunity compared with vaccine
-effectiveness of early treatment options
-putting as much money and energy into researching and educating about those as methods of mandating vaccines
-if getting the vaccine makes people more safe, they don't have to worry about unvaccinated people making them sick and it is those choosing to be unvaccinated only put themselves at risk.

Written Testimony This resolution restricts our civil liberties and our rights as American citizens. Every person should have the freedom to make their own choices about their health and their body and their decision should not impact their ability to do every day things like eat at a restaurant. I oppose this resolution.

Written Testimony I strongly oppose a digital vaccine passport for the state of Hawai'i and its counties for the following reasons:
-this is blatant discrimination
- the covid-19 vaccine fact sheets provided by the FDA, clearly state "IT IS YOUR CHOICE TO TAKE OR NOT TAKE THE VACCINE", you therefore cannot force or coerce vaccination (see Comirnaty fact sheet attached, page 6) and no, restricting people's employment and use of public spaces does NOT constitute a "choice"
- this will result in further loss of income and potential bankruptcy for local businesses already devastated by mandates/restrictions over the past 18 months
- private businesses should not be made to uphold unlawful mandates for the government
- this mandate will not curb the spread of covid-19 since per the CDC, the covid-19 vaccines have a low efficacy rate against the Delta and Lambda variants
- this proposed measure is unconstitutional, as well as against the Americans with Disability Act

Written Testimony We, small businesses, oppose this resolution for digital vaccine passport” as it will put further insult to many small businesses by reducing the number of current customers we currently service. The key is appropriate ventilation to reduce the spread of small particle that are recycling in enclosed areas.

I, Deborah Umiamaka, hereby submit valid data that supports my opposition to COVID-19 HEALTH CARD and vaccine mandates.

There is no space more sacred than our bodies. This truth is enshrined in American law. "No right is held more sacred, or is more carefully guarded by the common law, than the right of every individual to the possession and control of his own person, free from all restraint or interference of others, unless by clear and unquestionable authority of law." This notion of bodily integrity has been embodied in the requirement that informed consent is generally required for medical treatment." -Supreme Court Justice William Rehnquist
American citizens hold dear the Constitutionally protected right to make informed choices about medical interventions. These natural laws and human rights have been reaffirmed by our Supreme Court time and time again.

Written Testimony Ten reasons why the jab must never be mandatory
By Abir Ballan | TCW Defending Freedom | August 21, 2021
COVID-19 presents a high risk of severe illness and death to a few and a negligible risk to the majority of the population. This epidemiological reality lends itself to a focused vaccine approach: offering a safe and efficacious vaccine to high-risk individuals (mostly people above 50 who already have health problems) when the benefit of the intervention clearly outweighs the risk.
Mandatory vaccination has no place in a free society. Public health policy should never be coercive and should always be participatory. Decisions must be made by those who have 'skin in the game' and not by bureaucrats or a conflicted elite who will never have to live with the consequences of their actions. The role of public health agencies is to provide the public with accurate information and allow individuals and communities to make their own decisions. Seven ethical principles of public health should be at the heart of any public health intervention: non-maleficence, beneficence, respect for autonomy, health maximization,

efficiency, justice, and proportionality. Human rights, scientific facts, and common sense should also be applied.

Ten reasons why Covid-19 vaccination should never be mandatory:

1. Non-maleficence – the Hippocratic duty of ‘first, do no harm. There is mounting evidence of serious adverse events, particularly myocarditis in the young, following Covid-19 vaccination. Adverse events reporting systems act as a signaling system so immediate action can be taken to prevent greater harm. There are currently strong enough signals to warrant an investigation. Vaccines are also contraindicated for individuals with certain health conditions. Vaccination of pregnant/breastfeeding women must be approached with great care – pregnant women were excluded from the vaccine trials; Covid risk is low in healthy women of child-bearing age, while vaccine risks to the fetus/infant cannot be determined yet.

2. Beneficence – the duty to produce benefit for the individual. Health interventions should be based on individual needs. Vaccination is indicated only when the intervention clearly represents a greater benefit than the risk for the individual.

This criterion is not met for children and young people, individuals below 60 with no existing health problems, and individuals with past SARS-CoV-2 infection (including asymptomatic infection).

3. Respect for autonomy – allowing individuals to pursue their wellbeing as they perceive it. Every person has a high value and cannot merely be treated as a means to the end of others’ good. This entails seeking the individual’s informed consent before any medical intervention: informing them of the risks and the benefits of the intervention and getting their voluntary consent without any element of force, fraud, deceit, duress, overreaching, or other ulterior forms of constraint or coercion. Currently, individuals cannot be provided with full information on vaccine side effects as no long-term data exists yet. The results of the vaccine trials should be replicated by independent scientists prior to vaccine rollout to the high-risk group. Public transparency of all efficacy and safety data is necessary.

4. Health maximization – maximizing the health of all members of the general public requires a holistic and multi-layered approach: educating the public about a healthy lifestyle to improve their chronic illness, the importance of Vitamin D in fighting respiratory infections, the importance of home-based early treatment, the availability of life-saving treatment protocols, safe and effective drugs (such as ivermectin), as well as vaccines for the high-risk group. Vaccinating individuals who incur greater risk from the vaccine than benefit increases total harm.

5. Efficiency – the duty to produce as many benefits to as many people given limited resources. Vaccinating individuals who do not benefit from the intervention diverts valuable resources away from the vulnerable as well as from far more devastating global health issues like TB, HIV, diabetes, cancer, and cardiac diseases.

6. Justice – all humans have equal worth and no one should be discriminated against based on their health choices. Unfair practices such as denial of services, requirements for employment, restrictions on travel, the higher insurance premium for the unvaccinated create a two-tiered society. It breaks social solidarity and cohesion.

7. Proportionality – the reasonable balance between benefits and costs of an intervention in terms of individual welfare versus collective benefit. Vaccines are designed to confer protection to the vaccinated. It is unethical for a person to incur any vaccine risk or lose personal freedoms for the sake of somebody else.

8. Transmission of SARS-CoV-2 can result from both vaccinated and unvaccinated individuals. The virus can also be transmitted among animals. Even if everyone is vaccinated, the transmission will continue and variants will keep on evolving. A Zero Covid strategy is unrealistic and unachievable.

9. Herd immunity can be reached through a combination of natural infection and vaccination. Natural immunity to SARS-CoV-2 is broad and long-lasting – more so than vaccine-induced

immunity, especially in combating variants. Recovery from infection prevents serious illness if reinfected. It is not necessary to vaccinate the entire planet for the 'greater good of society.

10. Non-derogable rights, as stated in Article 58 of the Siracusa Principles on the Limitation and Derogation Provisions in the International Covenant on Civil and Political Rights (1958), apply under all circumstances, even under threat of 'national security' :

'No state party shall, even in time of emergency threatening the life of the nation, derogate from the Covenant's guarantees of the right to life; freedom from torture, cruel, inhuman or degrading treatment or punishment, and from medical or scientific experimentation without free consent . . . and freedom of thought, conscience, and religion. These rights are not derogable under any conditions even for the asserted purpose of preserving the life of the nation.'

We face two scenarios. Either the vaccines work, delivering protection to the vaccinated and eliminating the claim that everyone needs to be vaccinated. Or the vaccines don't work, and therefore no one should get vaccinated.

On both counts, vaccine passports are a pointless 'public health' tool that will undermine trust in the medical profession and vaccination programs. They seem to serve economic, financial, political, and ideological agendas. Most fundamentally, they are unethical. They swing the gate wide open for totalitarian rule through a digital social credit system.

Vaccine passports represent the epitome of the greater evil of society. This is the inch we must not yield.

Abir Ballan holds a master's degree in public health and a background in public health, psychology, and education. She's a member of the executive committee at PANDA (Pandemics—Data & Analytics).

Hawaii

(Pending Legislation):

House Resolution 123 and House Concurrent Resolution 146 request that the Civil Rights Commission declare that it does not support any person or entity treating an individual differently from others based on their COVID-19 vaccination status or immunity test results. The Resolutions also state that no entity in the state should discriminate against individuals based on their vaccination or immunity status in the following ways: (i) provision of services, financial aid, or benefits, (ii) segregation or separate treatment, (iii) restriction of enjoyment of any advantage or privilege, (iv) denial of opportunities, or (v) determination of admission, enrollment, quota, eligibility, or membership. The Resolutions were referred to the House Pandemic and Disaster Preparedness Committee on March 15, 2021.

House Bill 241 would amend a statute governing discriminatory practices in employment to prohibit certain discriminatory practices based on an individual's test or vaccination status. Under the Bill, vaccinations would fall within the definition of an "invasive medical test" because they require "puncturing or incising an individual's skin or inserting a foreign material into an individual's body." The Bill was referred to the Committees on Judiciary & Hawaiian Affairs, Labor & Tourism, and Finance on January 27, 2021.

<https://www.huschblackwell.com/newsandinsights/50-state-update-on-pending-legislation-pertaining-to-employer-mandated-vaccinations#linktojump12>

<https://childrenshealthdefense.org/wp-content/uploads/notice-for-eua-vaccines.pdf>

"Federal law, Title 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(I-III) of the Federal Food, Drug, and Cosmetic Act, states the following about products granted emergency authorization usage:

Individuals to whom the product is administered are informed—

- (I) that the Secretary has authorized the emergency use of the product;
- (II) of the significant known and potential benefits and risks of such use, and of the extent to which such benefits and risks are unknown; and
- (III) of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks.

Any entity or organization that requires EUA COVID-19 vaccinations, COVID-19 tests or masks are in violation of federal law, and will likely face lawsuits if they don't allow exemptions or alternatives.

The three prerequisites for informed consent

For consent to be valid you need 3 things:

It must be given voluntarily— without coercion or deceit.

It must be given by an individual who has mental capacity.

BEFORE giving consent, a person needs to have been fully informed about the issue. That includes being informed about what the risks and benefits of the treatment or vaccination are, as well as the risks and benefits of going without the treatment or vaccination, and what alternate options might be available.

Do health authority vaccine claims constitute deceit?

Health authorities around the world continue to claim that COVID-19 vaccines are “safe.”

However, according to the Collins dictionary, this means that:

“Something that is safe does not cause physical harm or danger.”

“Safe” claims are routinely made by organizations like the UK NHS, the Centers for Disease Control in the USA and the World Health Organization.

VAERS published data released August 6th by the CDC showed a total of 545,338 reports of adverse events from all age groups following COVID vaccines, including 12,366 deaths and 70,105 serious injuries reported between Dec. 14, 2020 and July 30, 2021.

It is then arguably deceitful to refer to these experimental vaccines as “safe.” Given the lack of vaccine transparency, vaccinators themselves are not properly informed so are generally not in any position to offer accurate information that might be available in the public domain, but is generally not well known. Information that should be freely communicated includes the fact that the vaccines are experimental and unproven. Those considering giving consent should be told about the vaccines’ reliance on synthetic biology that has never been tested at scale. But it also includes information on known risks and benefits from Phase 3 trials, and that these trials are still under way and some won’t be complete for over 18 months (e.g. Jan. 31, 2023, for Pfizer.

From Dr. Mercola

According to the Centers for Disease Control and Prevention, As of August 18, 2021, VAERS had received 1,339 reports of myocarditis or pericarditis in people under the age of 30 following COVID injection, with a majority of these cases being associated with the Pfizer shot.

Pfizer’s new Comirnaty package insert also clearly states at the top of its first page under “Warnings and Precautions” that “postmarketing data demonstrate increased risk of myocarditis and pericarditis, particularly within seven days of the second dose.”

Then, under Section 5.2 of the insert, Pfizer has added an entire section explaining the details of those adverse effects, and directing readers to a CDC webpage that addresses those effects in adolescents and young adults.

Heart Inflammation Study Won’t End Until 2025

In its approval letter for Comirnaty,²¹ the FDA orders Pfizer/BioNTech to conduct research to investigate the risk of inflammation in and around the heart, as voluntary reporting mechanisms are insufficient:

“We have determined that an analysis of spontaneous postmarketing adverse events reported under section 505(k)(1) of the FDCA will not be sufficient to assess known serious risks of myocarditis and pericarditis and identify an unexpected serious risk of subclinical myocarditis. Furthermore, the pharmacovigilance system that FDA is required to maintain under section 505(k)(3) of the FDCA is not sufficient to assess these serious risks.

Therefore, based on appropriate scientific data, we have determined that you are required to conduct the following studies: 4. Study C4591009, entitled ‘A Non-Interventional Post-Approval Safety Study of the Pfizer-BioNTech COVID-19 mRNA Vaccine in the United States,’ to evaluate the occurrence of myocarditis and pericarditis following administration of COMIRNATY.”

The FDA accepted Pfizer’s suggested timetable for the post-approval study to evaluate incidence of heart and heart sack inflammation, which includes the submission of an interim report at the end of October 2023, a study completion date of June 30, 2025, and submission of a final report October 31, 2025.

In July, America’s Frontline Doctors filed a lawsuit to halt not only the Emergency Use Authorizations of the experimental COVID vaccines, but also full FDA approval, citing faulty CDC data about safety, efficacy and much more. Without trustworthy data, Americans cannot truly give their full informed consent, nor properly exercise their protected right to refusal. A whistleblower with access to government websites and data collection on vaccine injuries and death provided sworn testimony that the Vaccine Adverse Events Reporting System (VAERS) reported COVID shot death count is far too low, and according to the whistleblower under penalty of perjury, the number of people who have died is 45,000 or more, due to the COVID experimental vaccines.

Stand for Health Freedom Executive Director and Co-founder Leah Wilson interviews Attorney Tom Renz, of Renz Law, whose mission is “Serving Justice with Integrity.”

In this powerful breaking interview, Tom discusses that there are more whistleblowers coming, and that COVID vaccine deaths are “likely north of 100,000.”

Dear Honolulu City Council. I am STRONGLY OPPOSED to Resolution 21-194, The City and State Administration of Hawaii request to develop, implement, and "mandate by Executive Order if necessary" a digital vaccine passport program for public or private industry to restrict access to employment, businesses, establishments, other venues and places of public accommodation. Vaccine Passport information is stored in a central database and the managers of the data can track people's location, finances, communications, and private health information. It is not a secure platform. It will be used silent people and restrict your movement. It violates the Americans with Disabilities Act, as well as the 1st and 4th Amendments of the Bill of Rights. In summary, it violates our civil liberties under the Bill of Rights and U.S. Constitution. Thank you for the opportunity to testify. Respectfully, Renee Rillon

Written Testimony

Aloha, I am a born and raised Hawai'i resident here on the windward side of O'ahu and father of two Kamehameha Schools students. My family and I strongly **OPPOSE** this bill for a vaccine passport. This bill is completely unethical and violates our God-given rights to have the **CHOICE** in how we govern the health over our own bodies, families, and lives. The government and authorities have no place here, and mandating anything upon people with such diverse makeup and unique circumstances and needs, is **WRONG**. There is no one size fits all to health and medical intervention. Where there is a risk, there **MUST** always be a choice. Please consider this crucial message and **LISTEN** to majority of Hawai'i when we say this is not pono, and we **DO NOT CONSENT** to any mandates or passports. Please do the right thing and offer solutions that will serve us all. Mahalo nui!!

I OPPOSE Resolution 21-194. I OPPOSE Vaccine passports. Vaccine passports violate our religious rights and/or for people who cannot get vaccinations for medical reasons.

Vaccines need to be tested for years to see the long term side effects. See below from VAERS (Vaccine Adverse Event Reporting System) what side effects are already happening.

VAERS COVID Vaccine Data through August 20, 2021
100,966 Office Visits with COVID Vaccine
74,368 Urgent Care with COVID Vaccine
55,821 Hospitalizations with COVID Vaccine
13,627 DEATHS with COVID Vaccine

Written Testimony
VAERS ID: 1231560
AGE: 17| SEX: F|State: NJ
On 4/17/21 (ie within 48 hours of receiving COVID 19 Pfizer Shot #2 (4/15/21), my daughter began experiencing chest pain in the PM (PM of 4/17). It was initially mild so we did a watch and wait overnight but when it did not go away by morning of 4/18/21 we went to Urgent Care . Upon presentation at urgent care, she had an irregular EKG, we were advised to immediately do to a Hospital ER , upon arrival she presented with same EKG findings from urgent care, BW was run and her troponin level was a 7, this hospital recommended (after consultation with their cardiologist) that based on her age and urgency of the heart condition, we should be transported to a pediatric hospital with cardiology expertise. She was transported by ambulance to another Hospital, Cardiology Unit. . After a scary 24 hour overnight stay at the hospital she was released on 4/19/21.

VAERS ID: 1141993
AGE: 19| SEX: M|State: NV

At 2-8-21 at approximately 1:00pm I recieved my 2nd shot. At 5:00am on 2-9-21, I woke up experiencing an extreme headache, nausea, body aches, and severe chest pain. I checked my heartrate with a PulseOximeter and found it to be elevated at 105-115. I called out of work and rested in bed for the day. On 2-10-21 most of my symptoms had subsided however the chest pain persisted through 2-11-21. On 2-11-21 at 2:00pm, I visited the Urgent Care. While there, the provider ran an ECG, Chest X-Ray, and bloodwork. Test results showed Troponin levels in my blood had reached critical levels of 7.72ng/ml. I was immediately transported to the ER at the Hospital, where upon arrival they did an EKG and bloodwork. I was then admitted and seen by a cardiologist, who ordered an CT Angiogram, more bloodwork, and an Echocardiogram. After I was admitted, my mother contact the nurses station to check on me and asked what was wrong. She was then told the hospital was treating me for an NSTEMI and Myocarditis. This resulted in a 3 day hospital stay where the results of the tests showed there was nothing wrong with my heart other than the increased Troponin levels. It should be noted that I have had ZERO previous cardiac issues, or any other significant health issues. I was discharged from the hospital with lower but still elevated Troponin levels, and told to follow up with my primary care doctor. I had no health issues and felt fine until I had my second dose of the Covid-19 vaccine. I have copies of my hospital records detailing all of this.

VAERS ID: 1310120

AGE: 16| SEX: M|State: OH

The patient developed severe chest pain on the 4th day after the vaccine, he presented to the local emergency room and had the abnormal tests as described below. His symptoms improved rapidly but due to active

I am deeply saddened that our city is proposing to make legislation that is discriminatory. There is there no data to support the effectiveness of such measures for the health and safety of the community, The delta variant is spread by those who are vaccinated as well. there is no exemption for those who are able to prove they have immunity from natural infection. There is data around the world that suggests those with natural immunity are less likely to contract, spread, or become seriously sickfrom the delta variant. There are many people who are medically unable to receive the vaccine and to ask a resident to show proof of a negative test is not okay

I oppose vaccine passports. The CDC acknowledged during an interview that vaccinated people in Israel are now experiencing worsened symptoms and they are monitoring this and expect that we will be experiencing it here in the United States. Also, although the vaccine may reduce the chances of the virus we are still experiencing spreads by vaccinated people.

Written Testimony This vaccine hasn't been around long enough to prove that it's safe. It is government overreach, not to mention unconstitutional, to mandate putting anything into anyone's body. You were voted in to serve the people. We don't serve you. If you cannot comprehend that concept, then maybe you're not the right person for this privilege to serve Hawaii's people.

Written
Testimony

First and foremost, I can not stress how opposed I am to the idea of vaccine passport program. Not only would this program ostracize many people who do not want to be vaccinated but it also directly infringes on our rights as Americans, and even more than that as humans. Many are choosing to refrain from the vaccine due to religious beliefs and personal convictions. How does our government who works for us, even begin to think that they have the authority to decide what is best for the people of their communities. You don't get to decide for us. We decide for ourselves. You do not get to take our inalienable rights as humans. Even in the midst of a so called pandemic. The fact that this is even being entertained is just plain evil. Many local businesses will lose income. Many employers will lose employees. Many will no longer be able to care for themselves or families due to not being able to go into businesses and all the above. We, the people are already hurting due to Covid and you have the audacity to hit the last nail in the coffin. You all have proven you are not for the people and never have been. Stop this nonsense now! A'ole to the proof of vaccination to enter businesses and get employed!

Written Testimony

If vaccinated and unvaccinated than what is the oassport for?? If we both get it and spread it then what is the point? It has 99% survivability still. Why is the focus on cases and it being contagious when what realky matters is the death rate. I looked inside one of the emergency makeshift tents in front of queens and it was completely empty. Not even a chair. If they are so worried then why is it not even set up with supplies state/ queens has? Nothing. Also its been brought out to the public that hale nani and avalon are changing codes from non covid codes to covid. When " investagtirs called witness with massive evidence they did ask for ANYHING proof, evidence , nothing. Kept it short and sweet. Green admitted online that he has gotten 1 million from ptizer then added he gotten money from several ! You look at ige, grrren and blangardis facebook replies to posts you will have an overwhelming proof that 90% do not approve of this. And facebook is a democratic majority site. What is really going on? Many see and voice that this is not about something that has 99% survivability but control. Whats next lockdown again then a food shortage ?? Bet im right unless you guys get a consciousness and treat it as 99 survivability which is the only data on cdc, WHO, hhs and hiena!!! If youbreally cared you would use ivermectin like japan now is, give pretreatments and early treatment NOT wait at home til the virus is really set in then go to hospital. Germany has stopped using vax !! Saying side affects worse than 99% survivability covid!!! We arnt this stupid. Lawsuits started already and?

Written Testimony

I strongly oppose Resolution 21-194 that will require digital vaccine passports because it violates our constitutional rights. It violates our privacy having to disclose medical information. And it will cause undue harm to people exercising their rights to their body and prevent them from gainful employment. The vaccine although now FDA approved still has much to be studied and it is unsafe and negligent to force it upon citizen of this country, state and county who will assume 100% of the risk should they suffer any rare side effects of the vaccine which lists numerous ones on the CDC website. The vaccine has proven to not be as effective as is being claimed as we have surpassed the threshold of over 74% vaccinated with at least one shot and our numbers are still not under control, furthermore, our numbers are considerably MORE than the peak of the ENTIRE pandemic. There are many citizens of this state that for one reason or the other CANNOT get the shot. People won't be able to making an income if this is passed. Unemployment numbers will go up. Children will suffer and not have food because their parents can't work. Mental health cases will rise. Homelessness will rise. It's a domino effect that will have a HUGE impact on the community.

Where the focus should lie is on EVERYONE taking precautions vaccinated or not because even vaccinated can get and give the virus no matter if the vaccine significantly decreases transmission. All it takes is ONE point of contact. Vaccinated people may not even know they have the virus because their symptoms are minimal to none and they are carrying the virus and spreading it to others. EVERYONE needs to take precautions. Requiring a digital vaccine record will not protect us. Taking precautions will.

Written Testimony

I oppose this bill. As someone with an autoimmune disorder with little to no research done on how this vaccine affects someone like it, it should not be mandate. Just as every other vaccine is not mandated. I am not an “anti-vaxxer”, but I am anti anything that could disrupt my health further. On the CDC website they state that there are trials occurring but no data is available for us. They say we can get the vaccine and participate in a trial but that gives me no security. I do not want to be the trial. The pain vaccines have caused me in the past is not something I will subject myself to just to dine in at a restaurant or go to a movie.

There are many other ways people can choose to deal with their personal health, but mandating one way we all must follow is like mandate a way cancer should be cured, or how spinal surgery should always go no matter the issue. There is no one right avenue. Everything the state of Hawaii has done has failed expect decreasing tourism. At first it was rumored that the vaccine passport mandate would begin on the 6th however it is now occurring on the 13th. Is that because thousands of tourists were supposed to arrive that day? It is never about the health and safety of the residents the kanaka. If it was, people like me would not be getting forced to manage my health in a way that would damage it.

Everything in life is a choice and every choice has consequences. I never want anyone’s right to choose taken away, especially mine, especially the native Hawaiians. This is not working on the mainland. It failed in Russia as well. Forcing mainland standards upon these islands further perpetuates colonization of the people. If you wish to keep us safe keep tourism out. Keep the local business thriving. So many have closed in the last year. Those people are trying to live and survive on an island where barley anyone can pay rent. You will drive residents off this island.

I read 17 people in island died of covid with out underlying health conditions. I ask, did they have insurance? Did they have the time to go get their bodies checked? How are we sure? What about the folks that cannot afford health insurance? Do you do a physical in an autopsy? Perhaps proving more affordable health Care would mitigate the problem more than a vaccine mandate.

How about we give people the choice to do what they wish with their bodies. I study psychology, I am almost finished with my degree. I see the marking manipulation occurring right now. I see the reward system you are creating to control a problem that will only create new problems for people like me with an auto immune disorders. People will retaliate and push back the more you tell them they have to do something. That is simple. I again loose this bill because I support choice. I support people managing their own health on their own terms. I support the state going to the root of the problem (obesity, lack of health care, tourism, hospital expansion, understaffed workers, limited resources,etc.) there are plenty course of action to take, but this is the wrong choice.

Testimony of John Kuran to Hawaii Transportation, Sustainability & Health Committee

First and foremost is that a vaccine mandate is the forcing of a free citizen of the United States of America to take an injection of a substance known to have a risk of serious injury or death into their body against their free will. This is a risk that is not necessary to take because a person who is gotten natural immunity to this virus poses no threat to the community. This is a clear violation of the First, Fourth and Fourteenth Amendment of the Bill of Rights

Why are we not working toward attaining natural immunity to this Coronavirus? This is the way things used to be. There was a researcher who estimated that possibly around 70% of the public is not capable of getting the virus in the first place. They already have natural immunity to it. Why would we want to be spending millions and millions of dollars to do something that may not be necessary for millions of people in the first place? This makes no economic sense. There is no research that has ever proven a person with natural immunity can infect another person. It's impossible.

Natural immunity is way better than any vaccine that has ever been made! They found out in Israel that it is way better than a shot. <https://newsrescue.com/delta-variant-natural-immunity-700-greater-protection-than-shot-data-from-israeli-govt-shows/>

People who are immune to COVID-19 do not pose any threat to anyone in society. A healthy human being poses little danger to anyone else. The same cannot be said about someone taking these experimental drugs. A "vaccinated" person can sluff off spike proteins that CAN make other around them sick. It is the spike protein that is the deadly protein in COVID-19. So now you have a person that is being injected with spike proteins and this can cause a myriad of health problems. Already this is showing up in the Vaers data that there is something extraordinarily wrong with these vaccines that is causing a spike in the data like nothing in the last 20 years.

How are the 8 states (UT, WY, ND, SD, NE, IA, OK, AR) doing that are not locked down? How about Sweden? Any worse than anywhere else who did lockdowns, and every other thing that the most restrictive states have done? No. Absolutely nothing according to the data shown by Tucker Carlson. The USC study showed that 320,000 people had already gotten the virus when the government thought that only 8000 people had gotten it

<https://www.youtube.com/watch?v=MuuA0azQRGQ>

Someone needs to stop and explain the reason that it would be even considered. This is a man-made virus that has many patents associated with it. You cannot be issued a Patent for something that occurs in nature. The fact that there are hundreds of Patents around this virus shows that there are many parties involved who have patented this virus for over 15 years .

<https://undercurrents723949620.wordpress.com/2021/07/24/patents-prove-etiology-of-sars-cov-2/>

These so called "vaccines" are not really vaccines in the traditional sense at all. They do not keep you from getting COVID-19, and we have never seen the likes of these vaccines that kill people. The chart of

the VAERS mortality rate should stop any organization from doing anything but stopping all of these vaccinations until someone can explain this. <https://www.openvaers.com/covid-data/mortality>

This is a global disease. Therefore the word pandemic is thrown around like it means something special. It does not. The mortality rates are well within the rates of similar Coronaviruses that have come and gone. Why is this one so different? It all comes down to money.

If the government really wanted to stop people from getting this virus, then they would inform people that they should be taking Vitamin D3 and other supplements like zinc and Vitamin C. There are several other preventative measures and treatments like Ivermectin that are available. A vaccine is NOT AT ALL NECESSARY... Vaccines have a very sordid history. Sometimes you get more people who are taking the vaccine and infecting others at a greater rate than anything else. Even the WHO has been forced to acknowledge that. <https://nationalpost.com/health/more-polio-cases-currently-caused-by-vaccines-than-the-wild-virus-who-report>

Pharmaceutical companies producing these "vaccines" are not accountable for any liability for any injury or death. There are plenty of shady cases of Pfizer using humans in Africa to do human experiments that killed many. To them it's just a cost of doing business. <https://www.washingtonpost.com/world/2021/03/20/nigeria-pfizer-kano-coronavirus-trovan/>

This is about controlling people like the Chinese Communist Party does with a social credit system. This sounds like a Marxist or Communist country. It is NOT the USA...

Finally I'd like to end this with the fact that the last time experimenting on people against their will was this was Nazi Germany. The Nuremberg trials were created so that this would never happen again in history. Well all of those involved in forcing this "vaccine" on people should be held accountable this time just as those were at Nuremberg. Trials for Crimes against Humanity.

I believe that the very act of mandating something, especially something that has not had any real scientific testing done, is both unconstitutional and actually dangerous. I oppose any form of mandating or coercion to comply with something that goes against the very nature of my soul. My body is a sovereign vessel, and I choose what I put into it and what I do not put into it. At this point, it has not been proven to me that this experimental drug is safe.

This is unethical in so many ways. You are “FORCING” a vaccination on the people of Hawaii. This is wrong and you know it. It is our right to freedom of choice and it is so states in the U.S constitution. You have no valid information regarding what this vaccine can do to you long term but then again it’s all about greed and money.

Written Testimony You can’t force Andy one to take this vaccination and now making a “safe pass” program that will basically segregate the unvaccinated against the vaccinated! Fear mongering the public into taking a vaccination where countless amounts of people have been already affected. Shame on you for not protecting the Hawaii people. This bill should not be passed and there should not be any mandations for the people of Hawaii.

If you implement the vaccine passport then you are an enemy of liberty.

Written Testimony The handling of this pandemic by our state leadership has been shameful. Instead of bringing people together, you have divided us. You have created fear, anger, and prejudice, rather than courage, love, acceptance. You turned this healthcare crisis, into constitutional crisis, I have no doubt this nation will survive this pandemic as it has in the past. But I promise you this if take basic Civil Liberties away from the People. This nation will not survive.

I absolutely oppose of a vaccine passport the freedoms that I was lucky enough to group up with will literly be taken away.

Written Testimony

The movies and pictures That grew up seeing and cringing over of nazi Germany will literally be coming to life right in front of my door on the land that I love and was born and raised on.

This is not right and I know that if any one of the people enforcing or pushing for this to happen would take a second to take a deep breath and actually use their brain they would realize deep down that this is sooooo wrong on so many levels to let this happen.

There is NO way this will make Hawai'i better.....

Written Testimony

To the City Council,
I am **STRONGLY OPPOSED** to Resolution 21-194. This resolution if passed allows unwanted, unjustified government control over people's lives. It will control if and how we travel, where we are allowed to eat, where and if we can even work, etc., etc., etc.. Never in a million years could I have imagined that our nation and especially my own home, our ALOHA State, could draft a resolution this evil, one that by requiring vaccine passports will attempt to completely strip us of our rights as US citizens as written in the United States Constitution. Please speak up for the freedoms and rights of the people of Hawai'i and stand **AGAINST** this resolution. It will only destroy and devastate this state and our people to possibly a place of no return. Thank you for doing what is right and pono.
Respectfully yours,
Jodi Liu

I very strongly OPPOSE RS 21-194.

The precedence this sets is far larger than the virus or the vaccine.

Yes, we have a health crisis, but it will not be effectively solved by creating a second class citizen to be shamed or blamed for the urgency we face. We must be careful to never repeat the kind of mistake that happened in WWII.

Both the vaccinated and unvaccinated people can catch, carry and transmit the virus. Eliminating one group from circulation will not stop the spread of the illness as is the stated intention of the Green Pass.

Written Testimony Working to help all of those testing COVID-19 positive to follow known pro-active steps to strengthen their health immediately is where our focus needs to be placed to keep our hospitals from being overwhelmed.

Our DOH guidelines emphasize isolation until there is difficulty in breathing, at which point going to the hospital is recommended. Much can be done for both the vaccinated and unvaccinated prior to the escalation of the illness. Presently, the only option being suggested is a vaccine. It is clear there are those who will not cross that threshold.

Effective leadership would be to place guidelines, signs, and most of all begin to emphasize earlier therapeutic care. That exists. It is a large reason why 98% of the unvaccinated are not ending up in the hospital. Encourage solutions.

Today, the green card is about COVID. Tomorrow, it could be about anything else. In our history, it was a yellow Star of David.

The authoritarian over-reach of the possibly well intended Green Pass is frightening. Please think to the implications of the future, rather than the immediacy of this week.

I strongly oppose this bill.

Mahalo for considering my testimony,
Yvette Kurtgis

Written Testimony

To propose qualified individuals be restricted from employment for reason of non-vaccination status is a MASSIVE HUMAN RIGHTS CRIME! Please don't try to use the rationale that this pandemic is a "State of Emergency", because CLEARLY the State government had chosen to turn a blind eye to acknowledge their Plan A to re-open didn't work, so rather than implement a SWIFT & EFFECTIVE Plan B, you guys instead point the finger at the COMMUNITY! Auwe! If stopping the spread was truly "Our Kuleana", WITH State mandates we did a pretty good job. Y'all already know that getting the CURRENT situation under control requires "unpopular" government backing/mandates, but rather than do just that, y'all would instead ostracize a portion of our community & inherently EXILE them with this ridiculous proposal. This proposal does NOT model what this beautiful state is known for- HARMONIOUS Living w/o Political Unrest. A'ole SEGREGATION of Hawaii! FIND A BETTER WAY!

Hawaii State Constitution Sec. 8
Since when did personal beliefs become null and void?
Since when was it okay to discriminate based on beliefs?
Since when was it okay to coerce people?
Since when was it okay to shame people?
I have been a Hawaii resident for over 12 years, and I have the right to be heard. Where is the Aloha spirit? Not in your offices! If you over rule personal rights to peoples own bodies we are no better than slaves to you. How can you not see this? What is the next thing you will force us to do? Forced abortions to controll population? You are on the wrong side of history with these mandates and will forever be remembered as a villan if you pass this. Please reconsider.

Hawaii State Constitution RIGHTS OF CITIZENS Section 8. No citizen shall be disfranchised, or deprived of any of the rights or privileges secured to other citizens, unless by the law of the land. [Ren Const Con 1978 and election Nov 7, 1978]. This bill goes against our very own Hawaii State Constitution. This is a vaccine passport that only allows those vaccinated to enter a business. Disenfranchising those that can not based on medical or religious reasons. Those that have already had covid do not need this vaccine. This is an experimental shot Authorized under the EUA Emergency Use Authorization. These vaccines are not FDA approved and are still in trial phase 3. Please DO NOT PASS THIS BILL OR ANY BILL LIKE OR SIMILAR TO IT.

Written Testimony I oppose mandating a vaccine that does not prevent the spread (see Iceland as an example- 70% vaccinated but highest count to date) and has significant health risks (including death) even if at a low probability. What happens when 100% of the population is vaccinated but people continue to get infected? Will the city apologize and admit it made a huge mistake? Will the city be liable if a vaccinated person becomes ill or dies because it was forced upon that person? Why not allow unvaccinated people to wear a mask and do social distancing since that is part of the CDC recommendation. Some people like the Illinois department of health director allegedly said masks are just as effective as the vaccine.

I OPPOSE MANDATORY VACCINES AND VACCINE PASSPORTS.

Written
Testimony

This is medical apartheid. Segregation. And due to the fact, according to the CDC, that all of the COVID-19 shots that are CURRENTLY available on the market to use are still only approved under EUA, and NOT FDA approved, means that any government, and and government officials creating mandates for an experimental medical injection is in violation of the Nuremberg code, and should not only be held liable for death and damages caused to those who take the said experimental injections, they should also be tried for crimes against humanity and justice should be served to such people.

We, the people of Hawaii DO NOT CONSENT TO MANDATORY VACCINES OR VACCINE PASSPORTS and we assert our freedom to live freely under our God given rights!!!

Written Testimony

I OPPOSE VACCINE PASSPORTS!!!!!!!!!!!!!!

This is discrimination at its worst!!! It is in violation with our rights as well as our health privacy. NO ONE should need to be treated differently for their choice to take the jab or not and mandatory passports ostracize those that want to support local businesses. Do you want people to have to shut their business down due to lack of support? Our economy is already hurting and I WILL NOT support any business who openly discriminates against anyone. We are a small state and even though almost 60% are vaccinated, most locals will tell you that they support freedom of choice. There will be boycotts to many of these businesses who are in support of vaccine mandates and passports. Putting these businesses in an awkward position to choose who their patrons are will scar them and they will eventually be sued and shut down due to discrimination. Having these mandates will only make our struggling economy worse and leave everyone suffering at the end. We the people are who makes the money and spends our money and believe you me, any business who participates in this vaccine passport will not get any of mine. Especially if they receive any monetary incentives for this. Stop coercing the vaccinated and unvaccinated and quit if you want our state to get ahead. Do what's pono.

Regarding the City & County of Honolulu RESOLUTION 21-194 – COVID-19 HEALTH CARD

I stand in strong opposition to this resolution. There's a saying that goes like this: "If the foundations are destroyed what can the righteous do."

Our own state motto says, ua mau ke ea o ka aina i ka pono, the ea or life and sovereignty of our land is perpetuated in righteousness. Unfortunately, and as illustrated in this council resolution at the most basic level of government, our basic and foundational rights of life and sovereignty are under attack.

At the heart of this is the erroneous foundation and basis of the resolution, the COVID-19 Pandemic. While COVID-19 is undeniably real, in the broader picture nationally and internationally, it is being politicized, utilized and manipulated to control us through fear.

Written
Testimony

A recent Star Advertiser article was titled, "Hawaii flu season sees only 1 death amid coronavirus precautions."

Can the flu miraculously disappear in Hawaii and the nation? Read that article and it's not hard to realize that something is very fishy. The article's description of erroneously inflating flu death numbers in previous years sounds familiar, doesn't it? And how can it be that the whole nation in 2020-2021 had less flu deaths than in Hawaii alone in 2017? 'Auwe, do you really believe that the shutdowns and mandates wiped out the flu? Really? It's not hard to see that they replaced flu deaths with COVID-19 deaths, especially when the total number of deaths over the past few years have remained status quo. Yes, the flu and COVID-19, another nasty type of flu, is real and deadly, but this fear mongering and power grab is deadlier and even demonic as it's being used to change our political status quo of freedom to tyranny. Believing in God is much easier than believing any huMAN MANeuvering and MANdates got rid of the flu! I do, however, believe in MANipulations.

Though the main topic of this resolution is the aforementioned and politicized pandemic and its related vaccine passport and mandates, at its core, it is more so about ke ea o ka 'aina i ka pono, and IT IS NOT PONO! The resolution should instead be the exact opposite, urging the banning of such draconian measures!

I recently became aware of an effort to use Hawaiian culture and history as another attempt to support such mandates under the guise of "What would our ali'i do?" and using the historical anecdote of their support of vaccines. We must not, however, forget that the same western civilization and forces that used our ali'i to promote vaccines also coerced and manipulated them for a land grab and eventual overthrow of the Hawaiian Kingdom! This is a good place to also encourage all those who stood in opposition to kū'ē construction on Mauna Kea to kū'ē this attack on our personal ea / sovereignty. Isn't our choice of what we put on and in our kino, our body, as important, if not more important, than the right to choose what we put on or in our 'āina? (mahalo to my wife for this admonition.)

A concerned citizen recently posted this: "To those of you cheering for the mandates and passports: One day they will come to force something on you that you aren't comfortable with. And you won't be able to say a word because you supported our freedoms being taken away today." Just like after the Kingdom of Hawai'i was overthrown and they banned our 'olelo makuahine, Hawaiian language. The genocide of colonialism, authoritarianism, socialism or communism is many times more worse than any pandemic.

Our freedom of speech, thought, and religion are other foundational components of ea being destroyed, which contributed to this ill advised resolution. Media and government censorship has led to skewed and unbalanced info that has instilled fear and withheld viable and fundamental treatments that could significantly reduce COVID-19 / flu hospitalizations. Yes, our health care workers are to be appreciated and overworked. Unfortunately, they can't see the forest for the trees and how they are being exploited and used as political pawns to further the narrative of doom and gloom.

Think about it, before COVID-19, was there ever a time where you went to see a doctor for an illness where he'd send you home or even refuse to see or treat you? Or, how about being told to quarantine in your home without a treatment plan and to just stay home and go to the ER if it gets so bad that you no can handle?! Instead, to this very day, they continue to refute the work of frontline doctors successfully treating their COVID-19 patients despite the opposition. They disparage these heroes along with their treatment protocols and medicines that would alleviate the stress on hospitals. They suppress research, science and treatments that go against their narrative while also cherry picking ones that support it. By the way, such censorship is also promoting an immense amount of ignorance where many people don't even know what's happening in Australia or about the many people around the world pushing back and fighting against this attempted power grab as world governments are using the pandemic to drag its citizens to authoritarianism, socialism and communism.

The song Ka'ulana Na Pua about Hawaiian pride and resilience in the face of great injustice has two key words to identify the root of such injustice, pākaha, to cheat, plunder and rob, and nunu / 'ānunu , greed, covet and take by force. Those same issues are really at the heart of this current state of affairs where billions and even trillions of dollars are to be made for a vaccine, PPE and other related things for a manufactured illness that ironically replaces about the same amount of flu deaths which miraculously disappeared!

The manipulated virus used to breed fear has also been used to cause division, so much so that it is really not a case of republican versus democrat, black versus white, haole versus local, but vaccinated versus unvaccinated. While most unvaccinated don't want to force their point of view and are championing ea and freedom, many of the vaccinated are being used to breed an unimaginable level of animosity and hate, loko 'ino, another key word in that Kaulana Na Pua song.

Though this resolution and its supporters are promoting it under the guise of kuleana, care, and concern for others, at its core is really loko 'ino and vindictive hate to force and punish those who stand in opposition to them. It's very palpable, tangible and real; though hidden within a nicely packaged veneer, it's there; you can see, feel and hear it.

Finally, the very core of the issue is spiritual, truly a fight between good and evil, light and darkness. God is so patient, and it is said that His long suffering and patience is salvation. But there will come a time where He will need to intervene at the very last moment before we destroy ourselves. I hope and pray that we can halt this slide to destruction to prolong our ea and postpone this final destruction.

Over 2000 years ago it was prophesied that there would come a time where no one can buy or sell in the whole world without a mark. Over the past few decades, technological advances have made this somewhat plausible. Now, however, it's as clear as day, not only technologically, but politically, as clearly seen in this resolution.

I vehemently oppose it and hope you will too...

Written Testimony

I am a registered voter in Kauai, a mother and a Realtor. As a mother I feel nauseated to see this New World Order 1984 agenda that has taken over so many children's world. At this point it is important that you listen to those scientists who are not for sale. There are THOUSANDS of testimonies confirming that the issue called Covid is treatable with cheap generics if used early enough. We know this is a 99.99% recovery rate issue. We all know people being injured or DYING because of the experimental shots. A few days ago I met yet another person who tragically lost her mom to the shots. NUREMBERG determined that it was a CRIME to perform medical experiments on unwilling and /or uninformed humans. We have had ENOUGH. You work for us. You are public servants and you owe it to us to listen to the THOUSANDS of doctors telling us that this lock downs don;t work and that this so called vaccines , actually a never used in humans before, RNA technology shots are inuring and killing thousands and thousands of people. Non censored platforms are showing us the devastating results of this shots. You are trying to mandate this aberration. You have no right whatsoever to do this. It is clear that the intention is to enslave and control us as if you would really care about health and the good of the community you would close fast food restaurants for example or stop the sale of sodas in schools. How about dealing with the horrific fact that Hawaii ranks 6th on child TRAFFICKING? 800,000 children BANISH every year in the USA and what is being done about that? The most disgusting pedophiles are free and trading their degenerate merchandise on the the same platforms silencing the honorable doctors who truly want to save lives instead of just push shots to make a profit. We have seen so many new billionaires as a result of this lock downs and new shots and it is clear that the health of our families is not the focus,instead, their criminal pursue of profits is.

The Vaccine Passports AKA Health Pass are unacceptable. This is not Germany in the 1930s. We all know what happened to those demonized by the State by then and the NEVER AGAIN applies to this situation as well. Let it be. Those who had the shot made their choice .

The rest will use the immunity that God gave them. Discriminatory measure are amoral and unacceptable.

Aloha,

I am a mother of 3. I am a Registered Nurse. I am a wife to a Honolulu Police Officer. We were both born and raised here in Hawaii and I am the first college graduate in my family. I am proud to be from Hawaii, and proud of my husband and I for working hard from the bottom up to accomplish both personal & career goals that allow us to raise our family here.

I have worked as a nurse in one of Honolulu's largest hospitals throughout this entire pandemic. My husband has worked as an HPD patrolman throughout this entire pandemic. We haven't been staying home collecting unemployment or stimulus checks. We haven't been hiding under a rock and relying on Hawaii News Now or Instagram to tell us how the pandemic is going. WE HAVE SEEN IT. FOR OURSELVES. EVERYDAY. SINCE THE START OF THIS.

We have worked harder than ever before. We have worked more hours than ever before. We have worked under more risky and uncertain conditions than ever before. We have sacrificed more time spent with each other and with our children than ever before *because* of the work we do. And we continue to work through it every day because we, like most in our fields, are DEDICATED, COMMITTED, & PASSIONATE about our mission – Serving others, protecting our community, improving the health and quality of life for the people of Hawaii.

I believe that EVERYONE should have the right to choose whether to accept or refuse medical therapies. But *this* population... this population of healthcare professionals and first responders who we've all relied so heavily on throughout this pandemic.... this population who are well aware and capable of making educated risk analysis assessments based off their *very own* experiences with COVID in both the hospital and community settings. How can this population be told they don't have the right to refuse a vaccine? To threaten our careers, families, livelihoods at a time like this is a complete slap in the face. We are essential workers. We are ESSENTIAL in getting our State, our Country, our Planet out of this pandemic. And we are EXHAUSTED.

As soon as the vaccine mandates for healthcare/city/state workers were announced, there was an instant prevalence of discrimination, judgment, and division in the workplace. People from both sides became heavily opinionated and over the past few weeks, this has negatively impacted the team dynamic and communication in a line of work where strong teamwork is a vital safety issue. This, in turn, dangerously impacts our own mental and physical health, as well as the care provided to the patients/community members we serve. As this continues, it will result in more adverse events, more harm done, prolonged hospitalizations, increased use of resources, and even more deaths.

We cannot ignore the fact that COVID is real and that it is a terrifying and widespread issue. Our hospitals are full, our frontline workers are burnt out, and people who should never have been so sick are dying. But we also cannot pretend as though the division these vaccine passports will create in our community will not become the even larger pandemic as its effects may negatively impact more lives than COVID itself.

I wholeheartedly disagree with implementing a vaccine passport program. In a State where so many local people are already distrusting of the government, forcing more power does not seem a wise tactic. Most people are not against the vaccine itself. They are against feeling blackmailed or forced into doing things they were already suspicious of. We have to remember that we all have the same goal at heart: to end this pandemic. Hawaii has the opportunity to share ALOHA and be an example to the rest of the world. We can prove that differences in opinions don't have to be threats. They can be opportunities to learn, collaborate, and overcome. Respect and understanding are what's essential for the wellbeing of us all.

Mahalo for your time and consideration.

Written Testimony I adamantly oppose this Resolution. This resolution violates citizens' constitutional rights. This is gross overreach of government authority and does not represent the citizens that you are called to serve. In addition, I would urge you to consider the following: Vaccination is a personal choice and government is in no position to tell free people how to be healthy. I urge our State and County leaders to oppose this resolution and to allow people to make their own health decisions.

Written Testimony

I strongly oppose any mandatory policies regarding what we put and do not put in our bodies. I am not anti vaccine, but I am very anti forced vaccine. As a healthcare professional, mandatory vaccines are not about health. Hawaii news now just published that 97% of people dying of covid had pre existing conditions. I'm sure those conditions involved heart disease, hypertension, and diabetes among others. In most cases these are preventable. Why are we pushing for only mandatory vaccines? Where are the mandatory supplements? Or exercise requirements? Fast food, processed foods, smoking, soda, sugar, etc should also be banned. There is the argument that those who don't take the vaccine are being selfish. People who are not living healthy lifestyles as a whole are selfish for making their immune systems weak! How about everyone just worry about their own health? Covid is a respiratory disease, yet smoking and vaping are still fine. The FDA once said thalidamide was safe and effective for pregnant moms. Then we found out after the fact that tons of babies were being born with no limbs. You cannot push something to be the cure all and promise it is safe. In the medical field, that is not a legal informed consent. People have to be given all the facts, good and bad. At that point they should be the ones to choose. Medicine has never been a one size fits all, and it will never be.

During the flu season Oct 2, 2017-Sep 30, 2018 526 people died of flu/pneumonia. During the 2016-2017 flu season 589 people died. No pandemic or state of emergency was declared. Why now? The number of deaths in Hawaii from COVID with no underlying causes is only 17 out of 589, which is lower than the national average. According to the CDC most adults have a greater than 99% chance of survival from COVID. We have one of the lowest death rates due to COVID per capita in the US. So why the mandate?

The morgue is filling up because people cannot bury their dead, not because of COVID deaths. According to Charlotte Carter at the morgue they have about 68 bodies and only 12 had COVID. She says they're anticipating holding more bodies because funerals will have to be delayed because of the restrictions. That's the real reason they are using the containers.

Written Testimony

As for the delta virus spreading, what are the exact numbers of people diagnosed with delta? Are we doing genomic testing on all positive cases? Because that is how to differentiate the variants. PCR tests do not test for variants. The US is far behind the rest of the world in genomic testing. The Federal government has set its goal for COVID genomic testing at dismal 5% of all positive cases. And this will still require huge funding, more labs, and more training for more lab technicians. Where is Hawaii on genomic testing? If at best we only test 5% then we don't know what 95% of the positive cases are. So how can you claim the delta variant is increasing or most positive cases are delta? You can't.

Many countries around the world have given up on vaccine immunity because the vaccines don't work. Iceland had over 70% of the population vaccinated and they had a huge surge of COVID. Israel has a vaccination rate of 60%, yet most of the people hospitalized with COVID are fully vaccinated.

So why are you so willing to take away the rights and freedoms of the people of Hawaii for a

vaccine that doesn't work to prevent an illness that most people would survive? Why are willing to take away jobs from people, income from families, the right to move about freely? These are constitutionally protected rights. This is not Nazi Germany where we have to show our papers in order to do business.

Do not pass this resolution.

Safe Access Oahu is a violation of personal freedoms. If individual businesses want to restrict access to their businesses to only the vaccinated and recently tested then so be it. However, the government should not force businesses to do so. The government is for the people and by the people, but Hawaii's government is dictating to the people. The Hawaii government is taking the stance of protecting the people of Hawaii from themselves which is not required nor desired. The people of Hawaii are free to make their own risk assessments and take upon themselves whatever level of risk that they deem appropriate. The government needs to address the issue of hospital capacity and leave free people to be free!

I am writing in strong opposition to Resolution 21-194 and I am urging the City Administration and the State of Hawaii to not impose a COVID-19 Health Pass.

However, I am in favor of the equal treatment of all people regardless of their vaccination status. Hasn't it been shown that a vaccinated person can still catch, carry, mutate and transmit COVID? So why would they be treated any different? Safety precautions and or restrictions should apply to all. It is a dark and scary day when we are forced to publicly declare our personal and private health status, by displaying a "badge", to enter a restaurant to eat or to enter a gym to exercise. What happened to our constitutionally protected freedoms?

Why not create a "health pass" to reward, incentivize and provide special accommodations to those who have chosen to live healthy lifestyles, have good immune systems, who exercise, eat nutritionally balanced meals and stay out of our health care systems because they are not suffering from chronic conditions such as diabetes, obesity or heart conditions? Sounds absurd to discriminate against anyone who is sick, but wouldn't that reduce the strain on our hospitals and health care systems too? There has to be a better way to deal with this whole COVID situation.

According to a report by Johns Hopkins University & Medicine, Coronavirus Resource Center (<https://coronavirus.jhu.edu/data/hospitalization-7-day-trend/hawaii>), the weekly hospitalization trends for the week of Aug 30, 2021 – Sep 5, 2021, are as follows:

- Inpatient Capacity:
 - Inpatient Beds Occupied: 77%
 - Total Inpatient Beds: 2,416
 - Inpatient Beds Unoccupied: 23%
 - **Non-COVID inpatient Beds Occupied: 59%**
 - COVID inpatient Beds Occupied: 18%
- ICU Capacity:
 - ICU Beds Occupied: 82%
 - Total ICU Beds: 226
 - ICU Beds Unoccupied: 18%
 - **Non-COVID ICU Beds Occupied: 42%**
 - COVID ICU Beds Occupied: 39%

Based on these numbers, it's apparent that Hawaii is suffering from serious health concerns that are mostly non-COVID related. It would never be Pono to discriminate against those suffering from non-COVID diseases just because they are overwhelming our hospital's capacity. I believe that the \$193 million in American Rescue Plan Act Fiscal Recovery Funds received June 7, 2021 would be better used by supporting the hospitals, health care workers and first responders who are providing lifesaving services to all of the people in our State.

I respect a person's right to choose what is best for their own body and total well-being and do not support a system that segregates, bullies or ostracizes them for their personal choices. I hope that together we can bring back the Aloha Spirit.

I oppose vaccine passports and mandated vaccinations. If a person DOES NOT want to be vaccinated, then that is THEIR choice. Funny thing about America...we all have the freedom of choice. By mandating a vaccination and instilling vaccine passports you are taking that freedom of choice away. Who are you to dictate how people choose to live their life. If they opt not to vaccinate and get sick. That's on them and their choice. There are enough people who are vaccinated.

Aloha City Council,

Written Testimony

I am 30 weeks pregnant. Many online articles addressing pregnant women receiving the COVID-19 vaccine are based on the CDC's VAERS/v-safe pregnancy survey program. The v-safe program requires participants to report adverse side effects of the COVID-19 vaccine via text message. The CDC labels information from this program as "early data" and states that it will continue to follow pregnant vaccinated women to "better understand the effects [of the COVID-19 vaccine] on pregnancy and babies". The lack of clinical trials and evidence (especially for third trimester mothers) has not convinced me of the effectiveness of the COVID-19 vaccination for pregnant women. I do not have any health issues (prior to or during pregnancy) and do not wish to take the vaccine at this time for the health and safety of my child. I also feel that other individuals (pregnant or not) have the right to choose whether to be vaccinated or not.

Mahalo,
Alisha Pace

Aloha All,

Written
Testimony

I'm writing to you today to say that I **STRONGLY OPPOSE** the Mayor's Proclamation to implement a Vaccine Passport. It's flat out wrong to make it difficult for people that choose not get the vaccine. Unvaccinated or vaccinated it doesn't matter right? Both parties can still catch CV19 and spread it. Even the CDC Director stated in an interview that the vaccine is having a decrease effect. So why push so hard to get people to take the jab? Forcing something will not hold up well and it will create division for sure. Not to mention more distrust towards the Government.

Once again I **STRONGLY OPPOSE** to Vaccine Passports..

Thanks for listening,
Travis N

Written Testimony I, Kimo Galon
Highly oppose 21-194 relating to vaccine passport aka covid health card for entry to businesses, gyms and eateries of the sort.
This resolution is blatantly discriminatory against healthy, pro-choice adults and children who choose and cannot receive inoculation.
Our leaders have failed to listen to their constituents and feel they have the right to choose for us. Our voices of opposition shall be heard and our freedom of choice shall reign and set precedent constitutionally over anything else. We shall not be discriminated for what we believe in and shall not be shunned as the lesser to those with inoculation.
Again I oppose and please follow suit with everyone who also oppose 21-194

Written Testimony

Aloha,
My name is Samantha and I oppose RESOLUTION 21-194. The vaccine does not stop transmission. It's efficacy is lower with the delta variant. To enforce a vaccine passport is unnecessary and unethical. Whether you are vaccinated or not you can still get covid and pass it to another person. Yet we do not test the vaccinated. The vaccine reduces symptoms of covid and/ or shows no symptoms. So now you are an asymptomatic carrier. It makes no sense to enforce a vaccine pass when you can still get it and transmit it whether you are vaccinated or not.

Written Testimony

MRNA gene therapy is not a vaccine. Pfizer, Moderna, Johnson & Johnson, AstraZeneca and Comirnaty are all MRNA gene therapies; they are not vaccines. Over 90 % of Israel is vaccinated and they are the country that has the most Covid deaths from the mRNA "vaccine" gene therapies. Taking any one of the previously mentioned mRNA therapies do not prevent the spread of SARS-Cov2 (Covid). That means vaccinated individuals spread the virus. How does it make sense to implement a vaccine digital passport to keep the community safe if vaccinated individuals are spreading Covid to others especially from the spike proteins. Scott Gottlieb who was the former FDA commissioner from 2017-2019 is now on the board of directors for Pfizer. This is a direct conflict of interest and perfect illustration of the corruption behind this supposed virus that has never once been isolated ever. The inventor of the PCR test Kary Mullis said that the PCR test he invented does not detect viruses. Robert Malone the inventor of MRNA technology has said that none of the animals survived clinical testing and that no human should take the mRNA gene therapy "vaccine" because they will die in 3months to 3-6 years. Also, we are aware of the corruption behind the local politicians of this state and they have been put on notice. In addition to this, we are aware that members of the CCP are on the board of directors for Pfizer. Also Pfizer has had to pay out 2.3 billion for bribing doctors.

Written Testimony

I'm in opposition on having vaccine cards. For many years personal health records on individuals are private, and we have the right for that privacy... For the last months we have been informed and we have seen that the covid vaccine doesn't avoid the spread of this virus; so we should have the freedom on choosing if we decide to receive the covid shot or not. I have a family and I'm expecting my third child, there is no studies regarding pregnant women being vaccinated, we don't know the effects that this can cause to a child; one, three or five years from now, this hasn't been studied for a decade or so as other vaccines had in the past.

I'm aware that covid vaccines have fetal cells in them, as a Christian, I live according to the standards of the Bible, Jesus is my King, and I will be partnering on the murdering of the unborn if I put this vaccine in my body. Unborn babies are human beings as well and they deserve us to protect them. Sadly we live in a culture that allows women to say "my body my choice" and they can go and kill their own offspring with the help of a doctor, but we are not allowed to say "my body my choice" with a covid shot, and our rights start to get compromised if we don't.

This is the reason I'm in opposition of this issue, but I'm not the only one, and many others have concerns; maybe different than mine about this situation... Please hear the voice of the people of this beautiful place we all live in... Hawaii...

Vaccine cards are NOT equivalent to a negative covid 19 test. Please treat everyone equal. Vaccinated or unvaccinated we all need to do our part. You cannot keep giving incentives to vaccinated and treat the unvaccinated like diseased selfish individuals. So wrong. Stop creating divide and hate to our people. Everyone should be tested ... all businesses should do take out for 60 days. Close major big box companies for 60 days!

Committee members,

I strongly oppose vaccine mandates, vaccine passports, and any further lock downs. Scientific research has proven these to not be helpful, but rather harmful. Please reconsider your position. Please read the article I've included below.

Harvard Epidemiologist Says the Case for COVID Vaccine Passports Was Just Demolished
New research found that natural immunity offers exponentially more protection than COVID-19 vaccines.
Monday, August 30, 2021

Written
Testimony

A newly published medical study found that infection from COVID-19 confers considerably longer-lasting and stronger protection against the Delta variant of the virus than vaccines.

"The natural immune protection that develops after a SARS-CoV-2 infection offers considerably more of a shield against the Delta variant of the pandemic coronavirus than two doses of the Pfizer-BioNTech vaccine, according to a large Israeli study that some scientists wish came with a 'Don't try this at home' label," the Scientific American reported Thursday. "The newly released data show people who once had a SARS-CoV-2 infection were much less likely than vaccinated people to get Delta, develop symptoms from it, or become hospitalized with serious COVID-19."

Put another way, vaccinated individuals were 27 times more likely to get a symptomatic COVID infection than those with natural immunity from COVID.

A Death Blow to Vaccine Passports?

The findings come as many governments around the world are demanding citizens acquire “vaccine passports” to travel. New York City, France, and the Canadian provinces of Quebec and British Columbia are among those who have recently embraced vaccine passports.

Meanwhile, Australia has floated the idea of making higher vaccination rates a condition of lifting its lockdown in jurisdictions, while President Joe Biden is considering making interstate travel unlawful for people who have not been vaccinated for COVID-19.

Vaccine passports are morally dubious for many reasons, not the least of which is that freedom of movement is a basic human right. However, vaccine passports become even more senseless in light of the new findings out of Israel and revelations from the CDC, some say.

Harvard Medical School professor Martin Kulldorff said research showing that natural immunity offers exponentially more protection than vaccines means vaccine passports are both unscientific and discriminatory, since they disproportionately affect working class individuals.

“Prior COVID disease (many working class) provides better immunity than vaccines (many professionals), so vaccine mandates are not only scientific nonsense, they are also discriminatory and unethical,” Kulldorff, a biostatistician and epidemiologist, observed on Twitter.

Nor is the study out of Israel a one-off. Media reports show that no fewer than 15 academic studies have found that natural immunity offers immense protection from COVID-19.

Moreover, CDC research shows that vaccinated individuals still get infected with COVID-19 and carry just as much of the virus in their throat and nasal passage as unvaccinated individuals

“High viral loads suggest an increased risk of transmission and raised concern that, unlike with other variants, vaccinated people infected with Delta can transmit the virus,” CDC Rochelle Director Walensky noted following a Cape Cod outbreak that included mostly vaccinated individuals.

These data suggest that vaccinated individuals are still spreading the virus much like unvaccinated individuals.

The Bottom Line

Vaccine passports would be immoral and a massive government overreach even in the absence of these findings. There is simply no historical parallel for governments attempting to restrict the movements of healthy people over a respiratory virus in this manner.

Yet the justification for vaccine passports becomes not just wrong but absurd in light of these new revelations.

People who have had COVID already have significantly more protection from the virus than

people who've been vaccinated. Meanwhile, people who've not had COVID and choose to not get vaccinated may or may not be making an unwise decision. But if they are, they are principally putting only themselves at risk.

It is essential that our freedom as residents of our beautiful islands is preserved.

Please focus instead on reducing spread of Covid by once again requiring negative testing of all tourists.

Mahalo!
Lisa Reeder

Written Testimony I adamantly OPPOSE this Resolution as it is a direct violation of citizens' Constitutional and medical rights. This is a dangerous step that will only lead to the destruction of Hawaii and of America as we know it. The citizens call on our government to represent our voice and we urge our State and County leaders to oppose this Resolution. We are smart and creative people and together we can come up with a better solution that will benefit all of us as a whole without the need for such extreme measures of outcasting and penalizing one group while rewarding the other. This would negatively impact all of us and would only perpetuate division and damage to humanity.

Written Testimony

I, Dylan Kaulukou-Chang, oppose this resolution because it violates my freedom and civil rights. All humans are created equal. Forced vaccination violates the right to privacy, which is protected, secured and guaranteed by the 4th Amendment of the US and the constitution of this state. Forced vaccination is unlawful and discrimination. Citizens have free and equal access to all public accommodations. Please do not mandate vaccine passports. This has causing me to have a lot of anxiety. I do not consent.

Written Testimony

I am strongly opposed to this bill. This is a form of discrimination, it's medical tyranny and it is a direct violation of HIPPA. I don't need to explain to anyone, especially the state, how this medical procedure inoculation will harm my and my kids health, that is between my family and their doctor. Speaking on behalf of myself and my two daughters we are extremely susceptible to adverse reactions We have a history of adverse reactions. We can't be forced to take an inoculation of any type. Doing so would risk neurological damage, permanent disabilities and even death. I will not permit the state to sanction these draconian measures on myself or my family.

Written Testimony I am steadily against this bill.
This is going to drive down our economy further... and if you are we requiring such a requirement how can you guarantee it is 100 percent safe? If someone has adverse reactions to the vaccine can they hold the providers responsible and have them pay for their medical bills? What are the long term side effects ?
What about those who can not take the vax because of other underlying conditions where it will further compromise their current health?

Written Testimony

At this time, I am not vaccine comfortable and have chosen not to get the vaccine for myself or my family. In my opinion, the way this pandemic has been handled by our leaders has very little to do with science. The push for a vaccine that no one knows anything about is very suspicious. The push, has turned into force. Mandates based on what science? I am the owner of an essential business. In December 2020 my husband, 11 year old daughter, and my brother in law all tested positive for COVID-19. In the last month I have four employees who contracted COVID. Currently two of my office girls are positive. One is fully vaccinated, the other not vaccinated at all. My employee who is not vaccinated was positive as well as his girlfriend who is fully vaccinated. He reported she was much more ill then him. Covid is running wild with many people testing positive vaccine or not. I am in disbelief at the choices our elected officials are forcing upon us. I know multiple people who have taken the vaccine and reported the flare up of autoimmune issues. Why is that being denied? What will a vaccine mandate do? If vaccinated people are testing positive just as often as unvaccinated, what is sense of a discriminatory separation. The people sitting in the restaurant will still pass the virus to each other, or pick it up at the restaurant and take it home. The small businesses can not afford another shut down. It is unethical to force the small business to not be able to make a profit.

Written Testimony

Aloha, I stand in opposition to resolution 21-194, the vaccine passport that is on today's agenda. This is not Aloha, it is not Pono, it discriminates one from another. I am neither pro or anti Vax. I am for people of Hawaii the personal right to choose. Personal choice to decide what to put into their bodies. There are those who have had severe reactions to these shots, even those who have died. On the CDC website they list approximately 6900 people who have had the shot that have died. We have a few people who get sick from tainted produce or meat and it is pulled from the shelves, recalled. Why not this shot? This pits one family member against another, neighbor against neighbor. Anyone who receives the shot can get the Covid-19 virus, can still transmit or pass on the virus, still have to wear a mask, still have to social distance. This whole thing makes no sense at all. There are treatments for this virus if you catch it, why not let the people of Hawaii know the treatments that work, why not give them the treatments, tell them how to prevent it, help them prevent it? Instead of letting them get to the point of hospitalization or even death. That is not PONO.

Sincerely,
Vanessa Belen

“There is no justification in taking away individuals' freedom in the guise of public safety”
- Thomas Jefferson

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

I am strongly opposed to this bill because Medical Apartheid should never rule over our lives. This bill will create segregation and prejudices towards those who choose not to get the vaccine because of their highly religious held beliefs, medical issues or for those of us who value our sovereignty. We should have the right to choose our health care. The government should never rule over our bodies. This bill goes against everything that America stands for.

In addition to my earlier statement, I would like to urge you to look at charts reflecting the vaccination rate in the USA vs other countries and the infection rate in the USA vs other countries. You will see that we are (not surprisingly) one of the most widely vaccinated countries yet we have one of if not THE highest infection rate. I wonder how much of this disparity is due to the false sense of security the vaccine provides.

These other countries without access to the vaccine have had to rely on frequent testing, masks, distancing hygiene, etc. Our country has one of the lower testing rates per Capita. Testing helps people be more aware and careful. Many of these rely on home tests. See the univ of Nebraska study on how effective these are. This is something Hawaii could focus on. Let's think analytically about this. We do not need to resort to a mandate of vaccine.

Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and “mandate by executive order if necessary” a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written Testimony I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you.

You are crippling the economy.
It's already hard for me to get to work now I have to test once a week.you are going to make so may people homeless it's absolutely terrible. Not including the people that are going to contemplate suicide.that blood is on your hands which is avoidable.Not everyone that works in a restaurant has access to get tested catching the bus ?? Also I can't get vaxed because when I was a kid I had a bad reaction to vaccine. I oppose this because it violates my rights to freedom. It's pure evil. I have anxiety every day and am very sad .
You need to test at the airport before people fly in.
Please I pray that this resolution does not pass because it will cripple our business that have bearly survived the pandemic.

Written Testimony

I am writing this testimony in hopes that it will find a listening ear. Please, do not pass resolution 21-194. Requiring vaccine passports to enjoy and support local businesses is completely unnecessary and down right shameful. Please lead with your heart and do right by the people of Hawaii and the businesses that have struggled so much during these hard times. It is your time to shine and stand up for the people. You will be rewarded if you do the right thing, and oppose this resolution. Thank you for your service. Please make the right choice for our businesses, families, and our keiki.

Mahalo,

Matt Hoyme

Written Testimony

Our country's democracy is threatened by this resolution. Our democracy was created to give citizens the right to choose. The right to choose what goes into our bodies, our medical freedom is what is being threatened and taken away by this unconstitutional proposed resolution. My job is threatened if I decide that I don't want to get the vaccine for CoVid 19. Is the vaccine without side effects? Is there even the slightest possibility that my health could be negatively affected by this Vaccine? If the answer is Yes to both of these questions, than it should not be mandated and it should be a choice. Has natural immunity been proven to be a more effective way to be protected from the virus? Yes. Does the vaccine protect you from getting CoVid? No. Does the vaccine stop you from spreading CoVid? No. Why are we being forced to be vaccinated from a virus that has a 99% recovery rate? This is wrong & I strongly oppose this resolution!

Written Testimony

The CDC, FDA and the Hawaii Health Director are all on record stating the scientific fact that vaccinated individuals carry the same viral load as the unvaccinated. This will not prevent transmission and will cause massive financial hardships for businesses. This nefarious attempt to force people into vaccination by segregation is unconstitutional. The long term affects of this will have serious implications to our society and will prove to be as much of a disaster as the "safe travels" program. Vaccinated individuals unknowingly transmitting the virus to others in enclosed spaces. This is anti science. Time to focus on outpatient therapy treatments to keep people out of the hospital.
Best Regards
Pancho

Written Testimony The vaccination can still spread the virus and discriminating against the non vaccinated makes no sense at all. I believe in personal choice and freedom of choice. This is illegal to force people to take the vaccination. I hope this does not pass. Thank you

Written
Testimony

I am in opposition to this because it is an overstepping of government authority to demand that I place an experimental drug in my body. The consequences of choosing what I think is best for my body (and my children's body) in refusing an experimental drug is creating segregation, division, shame and is evil at the core. I am not anti-vaccine, but there is no "one-size-fits-all" cure to this pandemic, and the government should never have the control of the individual thinking they know what is best for every human.

Written Testimony

Dear Honolulu City Council. I am **STRONGLY OPPOSED** to Resolution 21-194, The City and State Administration of Hawaii request to develop, implement, and "mandate by Executive Order if necessary" a digital vaccine passport program for public or private industry to restrict access to employment, businesses, establishments, other venues and places of public accommodation. Vaccine Passport information is stored in a central database and the managers of the data can track people's location, finances, communications, and private health information. It is not a secure platform. It will be used silent people and restrict your movement. It violates the Americans with Disabilities Act, as well as the 1st and 4th Amendments of the Bill of Rights. In summary, it violates our civil liberties under the Bill of Rights and U.S. Constitution. Thank you for the opportunity to testify. Respectfully, Jamie Detwiler

The “vaccine passport” resolution is a violation of basic constitutional rights and a HIPPA compliance violation. Mandating vaccine passports impedes on an individuals privacy, taking away basic needs and access to individuals is not what our government was intended for.

Every individual should have the right to choose what is best for their self and family along with access to basic needs etc without the fear of having to provide proof of vaccination.

How can you mandate a vaccine that can possibly cause harm to an individual regardless how small or big of a percentage. The fact is that there are individuals who could have adverse reactions and mandating the vaccination/ need of a vaccination passport will ultimately force individuals into it, I ask, will the city take on the responsibility if these adverse reactions takes place since the companies are not? Will the city take responsibility?

Written Testimony

I urge the city council to look at helping to find solutions that can make an impact on the people of Hawaii such as over flow facilities for beds for patients, strengthening our infrastructure, help in communities where individuals are being affected. Communicate and promote Healthy habits / life styles that can strengthen ones immune system etc.

The vaccine passport initiative will only hurt our small businesses further forcing more closures.

You may say this isn’t about constitutional rights and that it’s about public safety? But how can you really note public safety when the state/city continues to allow thousands of tourists into the islands without testing? It has been stated that the vaccinated can still catch and spread the virus yet nothing is being done to mitigate these issues.

Continued segregation of communities and Forcing mandates is not the answer!

Aloha,
Please oppose RS 21-194 because the precedence this sets is far larger than the virus or the vaccine.

Yes, we have a serious health crisis, but it will not be effectively solved by creating a second class citizen to be shamed or blamed for the urgency we face. We must be careful to never repeat the kind of mistake that happened in WWII.

Both the vaccinated and unvaccinated people can catch, carry and transmit the virus. Eliminating one group from circulation will not stop the spread of the illness as is the stated intention of the Green Pass.

Written Testimony

Working to help all of those testing COVID-19 positive to follow known pro-active steps to strengthen their health immediately is where our focus needs to be placed to keep our hospitals from being overwhelmed. Our DOH guidelines emphasize isolation until there is difficulty in breathing, at which point going to the hospital is recommended. Much can be done for both the vaccinated and unvaccinated prior to the escalation of the illness. Presently, the only option being suggested is a vaccine. It is clear there are those who will not cross that threshold.

Effective leadership would be to place guidelines, signs, and most of all begin to emphasize earlier therapeutic care. That exists. It is a large reason why 98% of the unvaccinated are not ending up in the hospital. Encourage solutions.

Today, the green card is about COVID. Tomorrow, it could be about anything else.

The authoritarian over-reach of the possibly well intended Green Pass is frightening. Please

think to the implications of the future, rather than the immediacy of this week.

Mahalo for thoughtfully considering my testimony,
Paula Johnson

Written Testimony As a free people we should milt be forced to inject out bodies with things that are not safe and that have no long term research that support they accurately do what they say they will. Forcing people to get them and then also forcing them to have to show passport proof is a over step of our constitutional rights. This is not ok and I am completely opposed!!

This is a total infringement of our constitutional rights and human rights . People should not have to show medical information to strangers to access gyms , restaurants , school, churches etc .Everyone should have a choice to be vaccinated or not and government should not be forcing anyone or penalizing people for their choice to treat their body how they wish. Let the businesses decide what's best for them , but fining them for not upholding these ridiculous mandates is also wrong . Government is supposed to be for the people , that includes people who don't want the vaccine .

Written Testimony

It is our elected officials responsibility to allow their constituents the greatest amount of freedoms as the constitution provides. Government is to ensure citizens' rights are protected.

The freedom of choice as an individual to be vaccinated or not is their choice, a business owner's choice to open for business or not, is their choice, minimal government intervention with the US Constitution and the Hawaii Constitution in mind is critical for our elected officials.

If we need greater capacity at our hospitals due to people's choices, hospital capacity should grow as part of Honolulu's need for increased capacity. That would be Government's responsibility to serve constituents.

Infrastructure to sustain life and it's maintenance is government's responsibility because the people are setting direction by their choices! You will NEVER control people's free will. Let people choose and let businesses choose. They will also need to take responsibility for their own choices.

I know both sides of the story and both have legitimate concerns. This is an issue clearly government should not touch.

Respectfully submitted.

It is appalling to me that, you, the government and leaders of Hawaii have failed us so terribly. How could you consider such an unconstitutional bill? I'm a young mom with a 9 month old son. What will his childhood look like with bills like this in place? You want him to have to live in fear on our islands unless he injects an experimental drug into his body? Think our YOUR keiki. This is not fair to them, but most of all it is unconstitutional. Please reconsider. Mahalo.

Don't panic and make impulsive decisions. Don't create a classist system where vaccinated people look down on the unvaxed. We're one community and we should come together not lock people with different values and beliefs in their homes forbidding them to work or procure food.

Written Testimony House arrest for not getting the vaccine is criminal. I work in service I have 400 people in my current group. If we can tolerate that unvaccinated should be able to enjoy their life's without interrogation and interference.

Also if restaurants are at half capacity the island should be. Cap the tourists for now and you'll get less push back on all these policies. We just don't want to be treated like second class citizens in our own home.

Written
Testimony

There is substantial evidence that the vaccine only helps with the symptoms of the first variant of covid19 and that it does not protect against transmitting covid19. This mandate will also have adverse affects on the economy of the whole state with people loosing jobs and companies loosing employees. While the state is still widely open for tourism with higher numbers than the previous lock down. So why is it that we have to close off and discriminate against people who are willing to risk there own health for not wanting to put things in there bodies when they are against it? It should be a freedom of choice whether or not to be vaccinated just like the flu vaccine.

Mandating the vaccine to get into restaurants, gyms, bars, etc is flat out wrong and makes zero sense. Those who are vaccinated can STILL get Covid-19 and SPREAD it.

The risks of the vaccine - short term & long term outweigh the so-called "benefits" of getting it. It has been said that getting the vaccine can prevent you from dying, but that's not a guarantee?? Stop putting all your faith in a vaccine!! The vaccine will not save you from death!!

There is proper treatment for Covid-19 without getting the vaccine, so why are you mandating people to get the vaccine??

Written
Testimony

Please don't force people to get a vaccine that they don't feel safe with.

Also, instead of focusing on Covid so much, why don't we focus on staying healthy instead?? Like daily exercise, eating balanced meals, going out for sunlight, staying in community and being connected with each other. These will help our immune systems to stay strong!!

Isolating ourselves from each other is the worst thing to do to a society! God made us to have human connection. AND He also gives us a choice to choose whatever we want to do. That is called freewill. Yes, with each choice, there's a consequence. However, Please give us that same choice to choose too.

Representing Self
Organization

Written Testimony

As a resident, a mother, an involved community member, and a teacher, I strongly oppose mandatory vaccines and vaccine passports. Teachers and state workers have worked tirelessly throughout this entire pandemic and being forced to comply with this mandate is unfair and unjust. So we put our lives at risk the past year and a half only to be (threatened to be) fired now simply because we won't comply with taking a shot that hasn't even been proven to be effective or have any long term studies? The people of Hawaii are speaking out, it's time for you all to listen. You are supposed to represent US, THE PEOPLE OF HAWAII. You are suppose to protect us, this is not the way. We do not want this, we will continue to stand against this, and we will not comply with your scare tactics, fear mongering, and mandates. I oppose!

Written I strongly oppose 21-194. It violates all constitutional rights and freedoms. Where does this
Testimony government over reach end? It doesn't. This resolution only hampers already struggling
 business and takes away all human rights and freedoms.

Agenda Item Vaccination Card Mandate
Your position on the matter Oppose
Representing Organization Self

Written Testimony

I am personally vaccinated but my brothers and sisters who have never been vaccinated or choose not to get vaccinated should not be discriminated against. They may have health reasons or personal non religious reasons to not be vaccinated. This mandate will take away their rights to move freely and do the only "normal" things that are left to do. This is not about health. This is about control. The people of Hawaii should have more than one choice that doesn't cost them anything/low cost out of pocket unlike the weekly testing, which is also very hard to get now. Also, this mandate will violate the HIPAA laws which makes me wonder what else is this government willing to violate to gain perceived control? Please listen and stop this vaccination card mandate.

I am 72 years old and I live in Waialua. I have never worn a mask, hardly ever wash my hands, I touch my eyes nose mouth regularly. Why am I, in the age group most at risk supposedly, not Dead? I am deeply saddened that you people, working for us, know so little about health and why this is an issue at all. DEEPLY SADDENED AND WORRIED. You are doing EVERYTHING WRONG. You continue to DESTROY Hawai'i and the health of it's citizens because of your lack of knowledge. When will it end? How will it end? TRAGIALLY if we continue on the path you are on. There are answers. You obviously do not know them, and or, you do and for whatever reason you are not using them. Good God ask someone who knows, ME. 831 227 1919

Written Testimony

I am strongly opposed to this bill. Discrimination based on medical health status is illegal. The State of Hawaii does not ask for any other vaccination status, to enter places of business, except for COVID. Per Anthony Fauci (interview with CBS's Face the Nation, dated 8/1/31) vaccinated individuals carry the same viral load for the Delta variant of COVID, as unvaccinated individuals. This was his reasoning to changing the mask mandates for vaccinated individuals. If this is the basis for the recommendation, vaccinated individuals are no different than unvaccinated individuals and should be treated the same. As a State of Hawaii resident, protected by Constitutional freedoms, the elected officials, in favor of this bill, are violating those rights and illegally imposing these restrictions. If this bill is passed, it will set a very dangerous precedent to an individuals medical freedom.

Written Testimony I oppose this bill based on my freedom of choice. A freedom that is being taken away from me. There is no accountability by our govt, FDA, etc if I have an adverse reaction that I may have to live with for the rest of my life. I don't care that the percentage of that happening is small, just like the percentage of dying from covid are just as small. It is still my body my choice, and u are trying to take that away from me. After that, what's next? What will you tell me to do to my body in the future if this resolution is passed. I am opposed to this a 1000%

Written
Testimony

I, Justin Young, strongly oppose the vaccine passport. I feel it is a reckless decision that is lacking proper scientific data to properly protect the population of Hawaii from the spread of the Covid-19 virus.

It is well documented now that the vaccinated spread the virus, so the virus and its variants will be carried around by people with this proposed passport. This in turn will keep the virus in our population indefinitely. So if a non vaccinated person by their own free will wants to go out and possibly become infected that is their choice. This state is part of the United States federation, therefore, subject to its constitutional law. It is my right as a citizen of the United States to have a free choice to be vaccinated or not. Especially because both the vaccinated and nonvaccinated spread the virus equally there by equally putting the population at risk. So this comes down to personal choice and not the decisions of the city and county.

I oppose this bill!!

I strongly oppose this bill. Although you hope to protect the public, you are instead taking away people's rights and segregating the community, you are creating a "black vs white" environment, us vs them. Vaccinated and unvaccinated alike are capable of spreading viruses. I urge you to consider our constitutional rights rather than propagate segregation.

This goes against our freedoms in our own land. Furthering discrimination and segregation. I lost a son because he was pressured to take the vaccine for a new job. He died of cardiac arrest 40 days after taking the 2nd Pfizer shot. We lost family and friends who caught COVID even though fully vaccinated with Pfizer and J&J.

I agree with wearing masks indoors whether vaccinated or not. We did better as a community to keep our numbers down before the vaccinated were given the false sense of immunity and entitlement. Though I oppose vaccination passports I support mask wearing indoors and awareness of health.

Written Testimony I oppose this mandate. I feel this would seriously impede businesses from operating and thriving. There needs to be another solution. This is not the only way. Let's help our small businesses survive. Mandate temperature checks on patrons. Some businesses do this but not all. Customers need to be more responsible. Don't put the negligence of people on businesses.

Written
Testimony

I STRONGLY OPPOSE any mandates requiring any vaccine passports of any sort. This is unconstitutional and a form of racism and segregation against the people of Hawaii. This does more harm than good even with right intentions based off of bad, partial, and carefully selected data to make decisions. With over 80% of people living pay check to pay check in America the potential of not being able to afford the tests needed and the risk of not being able to work can potentially be devastating to the people of Hawaii. Reconsider your position on this decision as this will greatly hurt the state of Hawaii.

Vaccine mandates are wrong. You are punishing businesses that are already struggling. It is scientifically proven and documented that the vaccinated can still spread covid so mandates. Also, people who have had covid have natural immunity that is more robust than the vaccine. Why is there no push for prevention and treatments to keep people out of the hospitals when frontline doctors have had success using proven drugs? Follow the doctors that know and not the CDC who has been wrong so many times.

I'm strongly opposed to this Bill.

Exposing medical information to those who do not have a need to know is unlawful and unjust, and doesn't support American freedom. To add, it's sick to understand that vaccines are used in human cells from aborted babies.

As a Christian and believing God's word, which never comes back void, the Word of God says:

Psalm 139:13-14 NIV

For you created my inmost being; you knit me together in my mother's womb. [14] I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well.

Written
Testimony

How can we play God and abort babies, isn't that murder? Then to use those cells for profit to inject others in these so called vaccines being used today.

On top of that, many have already received this gene therapy mRNA and still contracting COVID-19. They're not subjected to being tested in airports because they carry a vaccine card but are still carriers as proof has shown to infect others. This doesn't make sense at all. God designed our bodies to heal itself as long as we get the proper nutrition in. There are proven studies as well as eating raw garlic that kills viruses. Why are we so focused on injecting healthy people? That is not right.

Under the CDC site it states the following:

MRC-5 cells Including DNA and protein, sucrose sorbital, monasodium l - glutamate, sodium phosphate, sodium barcarbonate, potassium phosphate monoba, phosphate dibasic, neodymium, bovine calf serum.

This matters to me because, I Believe that human beings are created by God and his image. Therefore every person, from conception to natural death, possesses inherent dignity and immeasurable worth - Including preborn children, elderly individuals, those with special needs and others marginalized by society. Christians, then, are called to defend, protect, and value all human life.

Jeremiah 1:5 NIV

"Before I (God) formed you in the womb I (God) knew you, before you were born I (God) set you apart; I appointed you as a prophet to the nations. "

Please watch the "Are fetal cells used to make vaccines? Under the Children's Hospital of Philadelphia website.

<https://www.chop.edu/centers-programs/vaccine-education-center/video/are-fetal-cells-used-make-vaccines>.

The vaccines are also in EUA not approved status per FDA. Corporations and service members are mandating individuals to get vaccinated when they are in Emergency USE Authorization and not at all approved plus do not prevent getting covid. We have a 99% of surviving the virus and only a 94% of making it through after being vaccinated. My brother n law had adverse effects from the vaccine along with my sister and unfortunately my brother n law passed away recently with a heart condition that his doctors started he never had heart issues prior in all his medical records. Whistle blowers have come forward from Pfizer and CDC reporting the 1000's of deaths from getting the vaccine and 100s of 1000s who have had an adverse reaction.

God will take down evil and has proven that many times in the Bible with Truth.

Please Fear God and not the world!

Agenda Item RESOLUTION 21-194
Your position on the matter Oppose
Representing Self
Organization

I firmly oppose the proposed digital vaccine program and any similar intrusive testing methods mandated by Executive Order or laws.

This Resolution violates my constitutional rights for liberty and freedom to choose what medications or foreign (unnatural, synthetic, potentially toxic) materials are put into my body, especially and including procedures that may/will alter my innate God-given DNA structure or body functions.

There have been tens of thousands of adverse and deadly effects of the covid vaccines—too much for comfort, too many for anyone to guarantee safety because every person's body is unique. Countless scientists, doctors, and specialists have come forth citing the dangers of the vaccines AND the swab tests due to the carcinogenic chemicals contained in them. Frequent exposure to such chemicals could prove deadly in the long term. No one has properly ascertained the long-term effects on humans.

In light of the health impact unknowns, the extraordinary high number of deaths and adverse reactions of inoculated people, the ineffectiveness of this "vaccine" from granting true immunity from the disease, the permanent effect of altered DNA, and the lack of liability to guarantee 100% safety; thus it is criminal and irresponsible for the government to force the people to vaccinate or to do invasive tests against their will. The science and current testimonies of injured people AND the availability of existing drugs and treatments do NOT support the need to vaccinate against a disease that has a 97%+ recovery rate. All persons have the right to weigh for themselves the risks and benefits of taking the vaccine and tests, and to choose for themselves what treatments to take or not take.

My request is for our elected government officials to properly represent the people in protecting our constitutional rights and God-given liberty to choose how we care for our own

bodies, to not segregation in our society, and to not discriminate anyone based on his/her choice. It is a fundamental basis for democracy. Healthy people cannot infect others. Seek and promote healthy lifestyle solutions.

Please hear the cry of the people. Do NOT pass this bill.

I oppose the bill for Vaccine Passports . Also you guys need to realize it's not about taking the shot cause guys are still getting sick asi if you realize the numbers when this vaccine was not mandate a year from today the counts was way low and now with this mandate for some reason the counts are high so why are you guys pushing something that the numbers don't make since it's a freedom of everyone to make there own choice . If they have a choice to take the fu shot then why can't this be a choice not mandatory and even to eat or go into bars is the most stupidest rule . Open your eyes on all of this .

Written Testimony Requiring this effectively creates two classes of citizens. One class of the vaccinated that get to enjoy all of the benefits of society, and the half that does not yet still pays into the system that will have access denied. Not to mention that all Americans have the right to choose their own path when it comes to their own health.

Meeting Date 09-02-2021
Council/PH Committee Transportation, Sustainability and Health
Agenda Item RESOLUTION 21-194
Your position on the matter Oppose
Representing Self
Organization Aloha City Council,

I want to encourage you to oppose any vaccine passports in Hawai'i. As elected officials you have taken an oath to uphold and defend the US and Hawai'i Constitutions. Such a passport would fundamentally restrict the freedoms of a certain class of citizens. This goes against the idea of equality under the law and thus the constitution. It is an act of violence and coercion against the rights of the people you serve. Please do not support such tyrannical and fascist measures.

Written Testimony Further, while I can acknowledge that the hospitals are strained, the idea that we are under a true emergency is not warranted if we use the metric of deaths. In 2019, there were about 532 deaths due the flu/pneumonia. Since the start of the "pandemic" there have been around 600 deaths and only 1 death from the flu. We never shutdown or had passports due to the flu, so why are we considering it now?

Lastly, I want to encourage the Council to resist fear and any actions motivated by fear. True leaders act from a place of wisdom and courage, which are the diametric opposites of fear. Wisdom and fear cannot coexist. Mahalo for your kind consideration.

Josh McDaniel

Written Testimony I understand that we want to take care of each other and keep everyone healthy. But mandating a vaccine that has no long term studies, does not accomplish this. We should be pushing and promoting healthy living (Comorbidities are the main causes of complications with Covid.) You cannot punish people and take away their freedoms for not wanting to get this vaccine. It is unconstitutional and goes against everything America stands for.

I oppose the development and implementation of a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation. It is being exercised out of a spirit of fear, control and manipulation of the masses completely ignoring and devaluing the individual's right to choose. Our state is already experiencing much division and conflict over the vaccination mandate and implementing this program will further divide individuals, families, and communities.

Written Testimony I oppose this resolution. We already see too many Hawaii-born residents moving away due to difficult living conditions here. This vaccine passport will take many others away due to loss of employment or restricted living conditions. I was born and raised in Hawaii and I don't want to move but feel like I need to make plans to leave Hawaii if I might lose my job or my freedom to enjoy life here!

As a medical professional at one of O'ahu's finest hospitals, I, Bridget Lenahan, am strongly in opposition of RESOLUTION 21-194 – COVID-19 HEALTH CARD for a multitude of reasons. First, To what extent can the government mandate vaccines?
Can government forcibly require you to get vaccinated in the U.S.?

The reality is, legally, no, you can't be forced to take a vaccine. You're not going to be physically restrained and given a vaccine by any legitimate public health authority in the U.S. at the federal, state, tribal and local levels.

There are people who have read the research and have chosen not to receive the shot and for very good of reason. There are too many what if's and the long term consequences seem to lead only to many complications such as autoimmune disorders from cytokine storm. A fellow colleague received her Covid shot and at 18 weeks, miscarried. Also, many people are allergic to vaccine components and hence are unable to receive the shot-I am included in this category.

Another issue is the handling of people who can't get vaccines because, for example, they have certain medical conditions or simply don't have access to the vaccine. Will the system distinguish between such people and those who have simply decided they won't get vaccinated? If so, how will people obtain a certification that they are medically contraindicated?

I also worry that a vaccine passport will encourage over-use. The issues around passport design are separate from the question of where and when people can be required to furnish proof of vaccinations, but if a passport system makes it very easy to ask for and to provide proof of vaccination, it's likely that such requests will become over-used as people get asked for credentials at every turn. We don't want to turn into a checkpoint society that outlasts the danger of COVID and that casually excludes people without credentials from facilities where

vaccine mandates are not highly justified.

Given the compromises and failures that are likely to happen along the way, I am wary about the side effects and long-term consequences RESOLUTION 21-194 could have. My family and I oppose RESOLUTION 22-194.

This bill is an increase in government power over our lives. We live in a country where the foundation is built on freedom. Freedom for the individual to choose what they believe is best for themselves, their family and their own health. This bill is diametrically opposed to the foundation of our country.

Vaccine "passes" will only create division in our society. It will create "classes" of people. The vaxed versus the unvaxed. I do not support any bill or resolution or law that will create further division.

Written
Testimony

More must be done to make the public aware of early treatment options. In February, the Chairman of the Tokyo Medical Association announced that he recommended the use of Ivermectin as an effective treatment for Covid-19. Doctors all over the world are reporting the safe and effective use of this drug. Also, raise the awareness of having a healthy immune system. Dr. Fauci himself said that he is taking Vitamin D to support a healthy immune system. Why isn't more being done to educate people on these options? Why are you so focused on a "one size fits all" solution?

Thank you for your time.

I am incredibly disappointed in Council members Kia`aina and Waters regarding this!

This is evil! This is tyranny and the people of Hawai`i deserve better leaders who would NOT impose such "hewa" (sinful crimes) against those who do not feel safe taking an experimental shot that is the first of its kind that can kill/severely injure/permanently debilitate us and our children (with no liability to manufacturers/government/Drs./leaders/etc.). This is incredibly dangerous and discriminatory, especially for those who hold religious tenets against vaccination. Remember our 1st Amendment Right? You must vote to uphold them!

This is in violation of the:

- 1) Nuremberg War Crimes Code
- 2) Geneva Convention
- 3) UN Charter
- 4) International Court Laws
- 5) US Constitution
- 6) (Original) Declaration of Geneva (not the substitution)

Written
Testimony

You must not ignore your constituents! We are not communist China and if you push this through with the MANY people and business who are opposed, it is clear who you are serving and that you do not care to uphold righteously the office in which you were elected to SERVE (the PEOPLE).

What Hawai'i's leaders are doing is not even logical/based on true data/science!

1) FDA has already issued a CLASS I recall for all PCR test, since it can be 80-90% false positive and is NOT a diagnosing test. You can make anything positive with the PCR test, with enough rotations. Dr. Fauci stated this himself.

Thus, why is HI still using the PCR test? What purpose does false positives serve in this

narrative and high case #s accomplish for those making decisions?

2) Experts have already said that the vaccinated both transmit and get Covid-19. In other places, the vaccinated make up 50+% of the covid infections and hospitalizations (including Israel where they have very high vaccination rates and breakthrough rates). Therefore, if the vaccine does not prevent covid (and can cause spreading through known/unknown shedding) , what is the TRUE purpose of segregation and discrimination for those who are unvaxxed? This is NOT logical or "pono" (right/righteous). Thus, vaccine passports are not even relevant unless they serve another ungodly purpose.

If you require people to get vaccinated (especially through coercion), you should be liable for any injuries! You should have to stand trial for crimes of humanity. Are you willing to?

3) Natural immunity is the BEST and longest lasting immunity and those who are already immune should also not be forced to take a vaccine that data shows is dangerous to those who already have immunity.

I agree with the vast majority of Hawai'i who is AGAINST this type of division, segregation and trampling of freedoms that our state and city is creating and perpetuating.

In the words of our beloved Kauikeaouli (Kamehameha III):

"E Mau Ke Ea O Ka Aina I Ka Pono!"

The Life of the Land is Perpetuated in RIGHTEOUSNESS!!! Not Tyranny! Not Dictatorships or Communism or Authoritarianism. Righteousness is what we need. Righteous leaders. "Auhea `oukou?" (Where are you?) Please do what is pono (right and righteous). It is the ONLY way we will THRIVE and be BLESSED!

We must have choice, especially if there is risk. I completely OPPOSE this as does my `ohana! I implore you, do not thrust this upon our people and our home!

I am writing to oppose the vaccine passport being introduced under Resolution 21-194.

This vaccine passport violates my rights and my freedom to choose. I feel like I'm being "deprived or punished" simply because I choose not to inject something into my body that I don't want.

Being that this is an experimental vaccine, I have no idea how it will affect me. It has not gone through the normal time of testing that a vaccine usually goes through in order to receive accurate findings of how it might affect me physically. I do not want to take a chance that this vaccine may cause permanent damage to me. I want more data to determine if there's a chance that I will have an adverse reaction based on my medical history.

I should have the right to make that decision without the state/government or any private business forcing me to do it. There have been cases where fully healthy people have died from this vaccine, let alone an adverse reaction, such as myocarditis, Bells Palsy Syndrome, rashes, and much more. Based on these reactions which are reported in VAERS, how does the state or anyone expect me to trust what it will do to me? How is it that the state can be allowed to force someone to intake something into their body that they don't trust? When did we lose our freedom of choice? No one has the right to do anything to my body that I don't want. This is MY Body, not anyone else's.

If someone rapes someone, they would be jailed because they're doing something against a person's will. That is a crime punishable by law. Any act committed against someone's will is a violation so the same goes for the mandate of the vaccine. Being forced to vaccinate is against my will. The government/state is violating my body when they force me to vaccinate.

Now because I choose not to be vaccinate, you hold it against me by not allowing me the same freedoms of a vaccinated person. It makes me feel like the blame is put on me, or all the unvaccinated people. I have never had COVID-19 so why am I being punished for something that happened to somebody else? It's not my fault that the numbers are increasing. The fact

is, is that vaccinated people also can spread the virus. So why if the state is discriminating against me for something I did not cause? This is not fair and it's unjust. Now, you want to put a vaccine passport out so only the vaccinated can enjoy places such as the restaurants, gyms, or bars. Why should the vaccinated have the freedom to enjoy these establishments when they can easily spread the virus just as well. What proof does the state have that shows that all the cases of Covid-19 were caused by unvaccinated people. Are there any cases that prove a vaccinated person caused another person to have the virus? Where are the facts?

For these and other reasons, I oppose the vaccine passports.

Vaccine passports are medical tyranny! They discriminate against citizens that uphold their right choose not to take an experimental vaccine for numerous personal, medical or religious reasons. To divide citizens based on private medical information is discrimination and unconstitutional. It will also cause hardship for local businesses and therefore local families in a time when we have enough strife. Please let's not tear Hawaii apart, we need to overcome this together. Let's focus on getting people healthy mind and body and not perpetuate the divide.

Written Testimony

I strongly oppose resolution 21-194, What I do with my body is between me and my body. It is not between me and my mayor, me and big city diner, me and my job, etc. Where I go and what I do is no one's business and neither is my health. If people can go to the bar and drink why do you need to tell me what to take to be healthy. How much people are high on drugs and they are allowed to go anywhere and everywhere? My freedoms are given to me by God and not the city and county of Honolulu. If a woman can have an abortion without a mans say in the matter, my body my choice, then why can't I choose to do what I want with my body. I already had Covid in the last 6 months, I have natural immunity of the virus yet that is not discussed.

Written
Testimony I oppose vaccine passports, they are fascist and endanger small businesses. The vaccine was never meant to stop transmission, it only is meant to attenuate symptoms. Therefore this legislation is bias against those who choose not to be vaccinated without conferring any real benefit to those that are.

Written Testimony

I am a city and county worker who loves my job. I go to work every day ready to work, to be my best for the community I serve. I am an individual who truly wants to do the right thing for my family, my community, and myself. I have been reading up and doing my research and at this point I'm not of the opinion that having the vaccine is the right thing to do. However, to me this is not about doing research and educating myself, my family, to to make an informed decision but this is about our individual rights as American citizens. We have earned (by the many brave individuals who have served to protect our country and our freedoms) the right to make a choice for ourselves. To have any entity, let alone our government force us to do something against our wills. I am truly concerned the precedence that this creates for our future! Very disappointed employee! I will stand what ith many other individuals who live with integrity and respect. I choose to live PONO! To do what is right!

Written Testimony I oppose to resolution 21-194 for the City Administration and state of Hawaii develop, implement and "mandate by executive order" if necessary, a digital vaccine passport program for private industry to restrict individuals access to employment, certain business establishments, and other venues and places of public accommodation.

Testimony Attachment Vaccine passports have significant implications for privacy and autonomy, freedom of movement and association, equity and discrimination. This will cause a new wave of segregation.

I am strongly opposed to a vaccine passport which would prohibit unvaccinated individuals from patronizing local businesses and attending public events. I am concerned that the exemptions broadly noted in the resolution will not sufficiently address the myriad of reasons individuals would remain unvaccinated and unduly exclude many. Thank you for this opportunity to submit testimony in strong opposition.

I believe my constitutional freedoms are being violated.

I had covid in April 2020, my natural immunity helped me recover. I was exposed multiple times after my initial infection and did not contract. I recently was vaccinated because I felt an obligation to those around me and the pressure, harassment from my government and individuals. I now feel like I was very misled.

Now you are demanding a vax passport. Out of Israel the standard of highest vax population is now stating those with natural immunity have more protection than the covid vax and required booster shots. Vaccinated are still infecting, must take booster shots. Now we are on the third booster!

Written
Testimony

Do you not find this whole thing to be beyond belief?

What is going on? Is it the money? big business trying to gain control and jeep the people down, make them fearful?

You will not break me down in this governmental game of control.

I live by my forefathers and the constitutional rights they set forth for us. I ask that you do the same and obey the constitution set forth!

Medically discriminating against one group of people is unconstitutional. Never before have we required a "vax" passport, what are the reasons now? Last year Hawaii did a great job of containing cases by requiring testing for ALL groups of people - tourists and returning residents. Why are we not testing everyone since we know that vaccinated can also catch and transmit covid?

This is a very poor solution to the issue at hand. I oppose this resolution.

Written Testimony

I, Emily Acevedo, strongly oppose the implementation of vaccine passports and all vaccine mandates in the State of Hawaii. These vaccine mandates are a complete medical discrimination against unvaccinated individuals. It has been proven that the covid vaccine does not prevent transmission of the virus. Please see this link to Dr. Christina Parks discussion of the covid vaccine: https://youtu.be/XGqH1L6E_fY. Dr. Parks, Phd in cellular and molecular biology from Univ. of Michigan School of Medicine states "Do the vaccines for covid prevent transmission? No, in fact, they were never designed to do that. (Minute 0:53)" That being said, why do unvaccinated individuals need to receive the vaccine if they only person they are affecting with this decision is themselves? If the vaccine works as the CDC and media states, then unvaccinated individuals should not affect the health of the vaccinated. We live in a country of many freedoms by which we are given the right to make our own medical decisions. Enforcing this mandate will not change the decision of unvaccinated and will cause a major uproar. Vaccine mandates will have a major negative effect on Hawaii's businesses. I expect our state's government to treat everyone equally. Every citizen deserve to see our constitutional rights through. When the State of Hawaii dares to go against these rights, there will be major consequences down the line and will forever lay a dark mark in our history books. This pandemic has brought so much hurt to our community, but turning into a communist government is not the answer. We are living through a pandemic, there will be sickness and there will be death. There is no way around it. But the answer is not by segregating those who do not choose to be vaccinated or tested. After all, covid-19 should not be considered a pandemic with a 99.75% survival rate. That being said, I strongly oppose all vaccine mandates and beg for all future proof of vaccination or negative test to be banned in the State of Hawaii.

Written Testimony

I strongly oppose health passes. People who possess a "health pass" are still capable of transmitting and spreading the virus. Research is showing that vaccine efficacy "may wane overtime". Research is also showing that natural immunity is comparable to vaccine induced immunity yet there is no recognition for that in your "health pass". Creating this "health pass" will only create further division between people and will provide a false sense of security.

Written Testimony

I oppose the use of vaccine passports. Restaurants, bars, and gyms have done everything to comply with guidelines and now you want to further penalize them with nonessential passport. Vaccinated or not, everyone can still pass and catch the virus. It makes no sense to card someone based on their personal health status. If you want to do something test everyone!!! Also, we shouldn't have to suffer because hospitals are "overwhelmed." They're the ones benefiting from taking in all the cases. Instead, come up with treatment plans for Covid.

This will never end. There will be variant after variant and we will need booster after booster. The economy will collapse from shut downs, lockdowns, mandates, guidelines.. The entire class of hard working individuals will have nothing. The people who have nothing will be worse off than before. We will be a socialist country... Look hard.. look around . This is not something called a conspiracy anymore. It's happening all around us. The people who are really in charge do not care about us or our kupuna . All they care about is depopulation and control.

Also, our frontline first responders that are city employees deserve waaayyy more honor than the treatment they are receiving. Their dedication and service to our community is set aside with a request to do something that may or may not be their choice. I think what you are doing to our city workers is not PONO.

Our state is better than this. We are smart enough to figure out that this is not about the vaccine. Please do NOT implement the vaccine passport.

Written Testimony please don't mandate vaccinations for businesses, these businesses are not where clusters are happening so it makes no sense. We do not need to treat everyone like they are sick until proven well. This vaccine is still experimental regardless of FDA status, people are wise to wait it out if they are not high risk. This is not how we want to live our lives. If the hospitals are overwhelmed, you've had a YEAR to add beds in case of surges. This virus is not going away. If people want to vax let them, if they want to mask let them, but the government is not good at managing health care. If you'd like to prove you are then feel free to share your healthy eating plan + workouts you use each day. If you want to mandate anything please mandate healthy eating + exercise so that when people do get sick, any sickness, they recover much quicker.

Placing societal mandates based on vaccination status is coercive and best and a violation of human rights at worst.

This policy is reminiscent of China's former one-child proxy, where abortion was forced on citizens to comply with a government dictate.

This policy is further reminiscent of the activities of the Third Reich. They too violated human rights under the auspices of public health efforts.

Written Testimony This is sanctioned segregation. When in history has segregation ever been a good idea.

Furthermore, given that the virus can be passed by the vaccinated and the unvaccinated alike (with some recent studies indicating the vaccinated potentially carry a much higher viral load than the unvaccinated) what does this mandate accomplish?

Not one of COVID vaccines stops infection or transmission. Not ONE. It has further been argued that vaccinated people are in fact more prone to spread because the vaccine has prevented them from having symptoms so they are not aware they are infected.

I strongly oppose this measure.

I testify against this mandate. RES21-194 COVID-19 HEALTH CARD

I am one of the many who have a PRE-EXISTING medical condition and such use of any vaccine is detrimental if not fatal to my human body. As a living human being I opposed this considered mandate.

The truth is this virus has a 99.5% survival rate, with treatments such as Vitamin C IV, Zinc, Vitamin D, hydroxychloroquine and ivermectin so I ask you... why are you silencing the doctors who want safe inexpensive preventative treatments?

Written
Testimony I wrote the CDC and this is what I was told. See attached screenshot for proof. "Currently all viral diagnostic tests for SARS-CoV-2, the virus that causes COVID-19, are able to detect every variant of the virus; however, these tests will not be able to tell you which specific variant you (or a patient) might have. To tell which variant might be present in a specimen, scientists must perform whole genome sequencing (WGS) on that specimen. At this time, WGS is available for surveillance purposes only, not for individual diagnostic purposes."

I followed up with a question, "How is this new variant then determined to be called DELTA when there is no individual genome sequencing, where are these numbers coming from?" There was no answer. Perhaps even this information was accidentally shared with me.

Maybe it would help you to know India with the lowest number vaccinated is also the lowest in cases. You can see the graphs <https://www.worldometers.info/coronavirus/country/india/>. We call this HERD IMMUNITY.

Use your higher level critical thinking skills and ask why we are seeing an increase in cases?

Could it be that the PCR tests are incorrect? YES, we know, we have that proof.
Could it be that those vaccinated are shedding more spike protein and therefore infecting more people? YES We know this also and have proof.
Could it be you don't want to test the vaccinated people on the island because this would PROVE WHAT WE KNOW?

Here is an eye opening video on what is happening to the blood cells of those who were vaccinated? Does this concern you? If you were lucky you may have been lucky enough to be part of the placebo group during phase 3 trials, or perhaps bribery was in your favor.

<https://rumble.com/vlmkreb-new-german-vaxxed-blood-vax-serum-microscope-analysis-exhibits-and-finding.html>

We know what will happen to those vaccinated in 6month to 4 years so what will you do then, when you have no more workers, teachers, nurses, doctors, cooks, waiters, pilots, hotel workers or visitors? Who will make money for your state then? Who will take care of you?

We know... we just wonder why you are willing to destroy this community which makes everything work for YOU.

Who are you really supporting? Will the money you are getting from BIG PHARM be worth it when those corporations go bankrupt or are shut down for crimes against humanity?

This is not the first time, Hawai'i and it's people have been used as testing ground. We still remember.

You can't silence or censor all of it, all the time. The internet moves way too fast and many of us know how to save and download important information.

Certainly, you can keep attempting to run your scripted narrative. Just know the number of those who are aware are growing every day. This is why we call it the "Great Awakening."

I pray for all of you because when it is all said and done, when you need water, food and shelter, please know the community which you are disregarding now will disregard you in your time of need.

Peter 3:3 Above all you must understand that in the last days scoffers will come, scoffing and following their own evil desires. They will say, "Where is this 'coming' he promised? Ever since our ancestors died, everything goes on as it has since the beginning of creation."

Corinthians 4:5 Therefore judge nothing before the appointed times; wait until the Lord comes, He will bring to light what is hidden in darkness and will expose the motive of the heart. (this is why I pray for you because at that time you will be met with your own karmic redemption).

And we know Roman 8:28
GOD BLESS

I am opposed to the mandate requiring individuals to be vaccinated to go to certain establishments which is in the guise of public safety. The fact that CDC released the fact that vaccinated individuals carry the same viral load as an unvaccinated person. The vaccinated individuals who go the establishments may be carriers and transmit the virus. This will impact business to operate once again at half capacity but the danger is to ultimately force everyone to put something foreign into their body to participate in society. It appears segregation is coming up.

Written Testimony

To institute a vaccine passport of any kind is completely discriminatory and illegal. First, you cannot require people to inject any drug into their body. Then, to not allow them to participate in activities that are open to the public because they have chosen not to do so goes against every right we have as human beings. There are also many reasons why a person would not be vaccinated, some for religious beliefs, and others for medical reasons. There is no reasonable basis for implementing such a draconian restriction. You can expect to face legal actions en masse already, just for mandating a vaccine that isn't even a vaccine by definition, and doesn't even prevent people from getting and spreading the virus that is already 99.89% survivable in the majority of people.

Written Testimony

I oppose Bill Resolution 21 194; It is tyrannical, segregational & ineffective way to approach Covid 19 pandemic as Vaccination has been proven to not be affective. I have survived covid 19 with very minimal symptoms, thus developed natural antibody, as have many in my community that I know personally. I know others who cannot receive vaccination because of health problems. I don't agree that anyone should have to be segregated because of the personal health choice they make based on the individual needs, situation, and beliefs. I also am aware that these vaccinations are proven to be not so affective. Those who are vaccinated can carry and transmit the virus still. Recent studies from Israel (the most vaccinated population in the world) have shown that natural immunity works 13X more affective than the vaccines. I believe in God who created the heavens and the earth, and created our body with amazing immunity to be able to fight virus. I believe that solution is not one size fits all, but it depends on each individual, and that right to choose should never be taken away. Thank you.

I strongly oppose Resolution 21-194 at the highest possible level.

This coercive action to make persons get vaccinated for Covid-19, beyond their will, by having services and business' enforce this draconian mandate, will divide our wonderful State and create a new subset of minorities in our islands.

It will create distain and distrust of our local government by usurping our State and National Constitution and take away one more freedom from the people. The freedom to seek and use freely, all types of services and business'.

Our State is well on its way to meet the arbitrary goal set by Gov. Ige of 70% vaccination, which should make vaccine passports a moot point.

Trust in the people, who voted for you, to know what is best for themselves.

Vaccine passports = Gold stars on Jews

Steer clear of the fear.

Written Testimony

Aloha,
I am very concerned with the measures proposed in this resolution. Our country was founded upon freedom of speech, and within the constitution, the right to life, liberty, and the pursuit of happiness. This comes from the ideal a free will. Every person possesses the desire and ability to choose for themselves. This is democracy. I oppose this resolution because it mandates a vaccine card that directly stops peoples ability to pursue life, liberty, and the pursuit of happiness. The requirement of vaccine status would affect livelihood as well as recreation. You can look at history in many countries; including Germany, China, Russia, and Cuba and see that this is the way that dictatorships begin. When the government begins to mandate the individual choices of the Citizen it is concerning, Please do not support this resolution.

Mahalo for listening,
Mrs. Lehmann

NO WE DON'T WANT ANOTHER STUPID MANDATE! Please stop with the government overreach. Stop creating division in our communities. Stop segregating people and especially our children. The vaccines were created for a COVID variant that is no longer an issue. They were not created to be beneficial for Delta or Lambda or the thousands of other variants that will eventually come along. These mandates are NOT good for our families, for our economy, for Hawaii or for anywhere else in the world. We need to learn to live WITH covid not hide from it.

Written Testimony

Aloha,
I'm coming to you with the upmost respect and hope that you might consider my concerns. I'm a new Hawaii resident, I moved here 6 months ago from the mainland. I'm self employed and work online over Zoom and I do very well financially. All the money that I earn online is generated from other states and countries and I inject 100% of that money into the Hawaii economy with every good and service that I buy including my living expenses and will be paying HI income taxes when the time comes. I do not want to be forced to leave this state but I have concerns. I'm very concerned that if the vaccine passports are created and implemented that this will not only violate personal privacy but also unconstitutionally violate human rights, creating discrimination and even more segregation within our community. We need unity right now and this will only create more division. I do not want to be forced to relocate to a state that doesn't impose unconstitutional vaccine mandates and vaccine passports. I would love to stay in this beautiful state with my beloved Ohana and friends and continue to support the economy and the lovely businesses and local government that I know are benefiting from my patronage. I also know many others that feel the same way and we all want to stay here and continue to help this amazing state bounce back economically. Please take these concerns into account when you are making decisions for all of our futures. Thank so much for taking the time to read this request!
Mahalo,
Heather Williams

I oppose vaccine passports. First off, everyone should have a choice. You're segregating our people. Vaccinated or not, we're all the same. We're all people. Just because a person chooses not to get vaccinated shouldn't mean that they will suddenly be cut off from society. There has to be a better way to go about this.
Don't forget that both vaccinated & unvaccinated can catch & spread the virus the same exact way. Please don't do this, don't separate us.

Thank you for your time,
Leycia

Written Testimony This seems another route being used to coerce not vaccinated individuals into getting the jab. Punish them by way of exclusion and take away luxuries and conveniences. Who will pay for the manpower it will require small businesses to implement this?

This proposed bill is discriminatory and infringes on my freedom to choose. We live in America, not a third world country. Since when does the government have the right to force policies on their citizens? You are punishing the small businesses and causing even more economic woes, people will not eat out as often or enjoy outings. Why can't we be like other cities and let the people decide? There are other courses of action to take, but because it isn't a "money maker" for the drug companies we don't even give it a chance, like using Hydroxychloroquine. How about following Florida and Texas? At least they're trying to help their citizens and not forcing them to take the vaccines. You all need to do more research and listen to ALL sources and not just the "paid off" organization's that only report what they want you to know. Please stop this madness, you are only creating more division and chaos.

I strongly oppose this bill. For one, it's discrimination. Who's to say that the vaccinated are not spreading the virus? They are! Just like any other flu, yes, I'm hearing this one is more potent, but no one can see where the virus is coming from. It could spread to anyone. Vaxxed or unvaxxed. To say that the unvaxxed are spreading it more is wrong. Can we tell where the virus came from? Was it on a surface at a restaurant? Was it from the barbell at the gym? It's spreading to whoever just like a normal cold or flu does. The person just has to take responsibility in taking precautions like washing hands, coughing in your arm, stay home if u feel sick, see the doctor, etc.

Why aren't the vaxxed being tested even though they can spread the virus? If u really want to stop the spread and be fair, test everyone!

Written Testimony

The unvaxxed people have rights as citizens to freely do what others can do. Just because our values don't agree with the majority we can be treated differently? We are making educated decisions and looking at the possible side effects of these vaccines. Some say that women/men may be infertile if they take the vaccine. Some want to use wisdom and give it time to see what the long term effects are. Some know people who were healthy...dying. Could it be related to the vax? Could very well be! There are no options for the unvaxxed. There are other alternatives other than the vaccine that's not being offered. It's banned in fact. Why? It has been proven. Does one size fit all? Take a look at those advertisements on TV with other prescription medications. They tell you the side effects...you can die or have these side effects. People take that into consideration and make a choice. Risk it or not.

It's morally and ethically wrong to not allow citizens to freely enter establishments where once it was open to everyone? Not to bring race into this, but will this lead to a vaxxed and unvaxxed segregation? One store vaxxed can enter and another store for the unvaxxed ?

The unvaxxed follow and comply with the rules and procedures of the businesses. The owner has a right to refuse service if they don't comply. We are responsible citizens who respect the rules. If the gym says to wipe down the equipment after it's used then that's what we do we wipe it down. If the restaurant says take a temperature check and hand sanitize before you enter, that's what we do, we follow the rules.

Also, why is the media so lop-sided? Why create fear in the people? Yes providing information is great, but be balanced. Why is the media not saying how many of the people who had covid are recovered? Why are there so many false positives? Why is the PCR test still being used if it's known that it's inaccurate? Do u know that false positives affects peoples' potential income? They may lose 10 days of pay if they're paid on a daily basis just because of this false positive.

I urge you to not allow this vaccine passport mandate to pass. It's restricting our rights as citizens to freely do what we normally do. Give us a choice and freedom to choose what's best for US, not the majority.

Thank you.

"There is no justification in taking away individuals' freedom in the guise of public safety"
- Thomas Jefferson

Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!

Written Testimony Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.
The fact that vaccinated people can still contract and TRANSMIT the virus wouldn't it be more prudent to TEST EVERYONE!!!

Written Testimony

I strongly OPPOSE RESOLUTION 21-194. A vaccination passport is intended to severely limit transportation, sustainability, and health for many of the population. I personally am allergic to some of the ingredients, notably poly ethylene glycol a.k.a. PEG and polysorbates. I'm responsible in my awareness of the community. I hardly go anywhere, I social distance, I wear a mask even when many many people are not and I wash my hands almost constantly. It is coming to public awareness that the vaccinations effectiveness is wearing off and boosters are required perhaps ongoing booster shots for a long time. I think there are other measures that can be done to mitigate the spread of SARS COVID-19 in the Hawaiian community. Most importantly bring back pre-travel testing for ALL travelers to Hawaii. Even the vaccinated. They're all running around without masks not social distancing not being respectful of the fragile Hawaiian community. This measure is coercive and heavy-handed control. Where is this all going? Are the horrible in vaccinated are going to have to wear armbands or yellow stars? Are people to be in an apartheid society? This is very very concerning. I know many people are for it, thinking a passport is making everyone safe. Apparently the vaccination which is not working. The vaccinated are spreading the virus. I oppose this resolution 21-194 extremely strongly. Thank you very concerned constituent of this state of Hawai'i for 28 years. Thank you, Karen Joy Backinoff

LET THE PEOPLE DECIDE!

I, Bruce Barham

STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

LET THE PEOPLE DECIDE!

The Committee on Transportation, Sustainability, and Health should immediately remove the above Resolution as it infringes on the rights, responsibilities, and liberties of a free and independent people.

The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

LET THE PEOPLE DECIDE!

The last time a government told the people to ...

"SHOW ME YOUR PAPERS"

It did not end well!

A mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families, or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Remember you were elected by the people to govern not to RULE!

LET THE PEOPLE DECIDE!

Bruce Barham

I'm strongly opposed to this Bill.

Exposing medical information to those who do not have a need to know is unlawful and unjust, and doesn't support American freedom. To add, it's sick to understand that vaccines are used in human cells from aborted babies.

As a Christian and believing God's word, which never comes back void, the Word of God says:

Psalm 139:13-14 NIV

For you created my inmost being; you knit me together in my mother's womb. [14] I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well.

Written
Testimony

How can we play God and abort babies, isn't that murder? Then to use those cells for profit to inject others in these so called vaccines being used today.

On top of that, many have already received this gene therapy mRNA and still contracting COVID-19. They're not subjected to being tested in airports because they carry a vaccine card but are still carriers as proof has shown to infect others. This doesn't make sense at all. God designed our bodies to heal itself as long as we get the proper nutrition in. There are proven studies as well as eating raw garlic that kills viruses. Why are we so focused on injecting healthy people? That is not right.

Under the CDC site it states the following:

MRC-5 cells Including DNA and protein, sucrose sorbital, monasodium I - glutamate, sodium phosphate, sodium barcarbonate, potassium phosphate monoba, phosphate dibasic, neodymium, bovine calf serum.

This matters to me because, I Believe that human beings are created by God and his image. Therefore every person, from conception to natural death, possesses inherent dignity and immeasurable worth - Including preborn children, elderly individuals, those with special needs and others marginalized by society. Christians, then, are called to defend, protect, and value all human life.

Jeremiah 1:5 NIV

"Before I (God) formed you in the womb I (God) knew you, before you were born I (God) set you apart; I appointed you as a prophet to the nations. "

Please watch the "Are fetal cells used to make vaccines? Under the Children's Hospital of Philadelphia website.

<https://www.chop.edu/centers-programs/vaccine-education-center/video/are-fetal-cells-used-make-vaccines>.

The vaccines are also in EUA not approved status per FDA. Corporations and service members are mandating individuals to get vaccinated when they are in Emergency USE Authorization and not at all approved plus do not prevent getting covid. We have a 99% of surviving the virus and only a 94% of making it through after being vaccinated. My brother n law had adverse effects from the vaccine along with my sister and unfortunately my brother n law passed away recently with a heart condition that his doctors started he never had heart issues prior in all his medical records. Whistle blowers have come forward from Pfizer and CDC reporting the 1000's of deaths from getting the vaccine and 100s of 1000s who have had an adverse reaction.

God will take down evil and has proven that many times in the Bible with Truth.

Please Fear God and not the world!

Written
Testimony

I strongly oppose the vaccine passport. There is nothing even logical about the vaccine passport rules. Employee testing once a week but then requiring patrons to have a negative test within 48 hours makes no sense. An employee can't be exposed within the week? Patrons can't be exposed within the time frame from when they took the test to when they received results? If I walk in for 15 minutes to pick up take out I'm not being exposed to others or exposing?! You want us to "look at the science" all the time but none of this requirements make any sense even based on YOUR SCIENCE. Somehow even science is relative now. Also this is blatant discrimination. There are many people who have legitimate reasons as to why they do not want to take an injection (medical procedure). I would never ask another person to have a medical procedure for my sake that carries any risk just to make me comfortable. You aren't asking. You are FORCING! There is no guarantee that the injection will cause absolutely no harm to an individual so therefore it requires informed consent. The very premise of informed consent is that you may also make an informed refusal. Stop taking that away. We have the right to bodily autonomy. I am a nurse and have given and received many vaccines in my life but I will always stand for a persons right to choose.

Written Testimony

Our economy has been hard hit by the covid lockdown Just as it is beginning to recover, another method of making it suffer comes into play. It has been stated by Dr. Anthony Fauci, the CDC, and WHO that those vaccinated still pose a threat to the community by being super spreaders of covid. Many hospitalized cases of covid have been fully vaccinated individuals. Please do not ignorantly support the vaccine passport This is only designed to further divide a community. Rather, help the community move on to better things instead of breaking it down further & causing more derision, segregation, hate, suspicion, & fear. If this passport usage is approved it only proves to the community that your ultimate goal is this great divide. If so, by all means, imua. It is between you & God

This vaccination pass will discriminate against certain group in the community. We are Ohana, we don't punish them and dictate where they can and can't go because they don't trust the vaccine. Instead of understanding and working with the community that are hesitant to BETTER SERVE them, you just want to slap them with vaccination pass.
I am vaccinated and I chose to take it.
The right I exercised not because I trusted the vaccine but because I am willing to take the risk.

Written Testimony I strongly oppose resolution 21-194. I think it's insane that a mandate is being considered. We live in a free country to do as we please with our bodies. To divide the citizens this way is disgusting. For many reasons people don't want the vaccine and should not be forced just to eat out or use a gym. We should have a choice as to what is put in our bodies and our children's bodies. I rather myself and my children build immunity to anything period.

As a first responder for the City I oppose the vaccine passport. I have first handed treated and witnessed patients who have received the vaccine still getting AND transmitting COVID-19. It would be discriminatory to treat someone based off of their vaccination status differently especially when it has been shown that the vaccinated and unvaccinated can transmit it just the same. You're telling me that someone who has their two shots can go into a restaurant, bar, or gym and be free to use their services even tho they can also get others sick?? How is this logically sane? It's not! If you truly care about keeping other healthy and safe, you would not try to segregate us. There are so many people opposed to this and yet you continue to turn a blind eye to science, the community, and your moral conscious.

I am strongly opposed to this bill, I believe in peoples ability to choose to keep themselves and their families healthy without the overreach of the government to mandate that they do so.

Written Testimony These restrictions cause division among the people, and take us back to era of segregation. It hurts the local businesses and economy.

I pray that you all would listen and work with the people of Hawai'i to find a better solution - that can bring unity to the Islands.

Written Testimony We the people of Maui, who have elected YOU to be our voice, are asking you to say
NO TO THE VACCINE PASSPORTS!
Our businesses have been through enough! Our citizens have been through enough!
We have the rights to FREEDOM of choice!
Do you want to inhibit tourism? Do you want small business owners to leave the island?
What is the agenda here? When will the control stop?
We the people do NOT consent!

I STRONGLY oppose vaccine (technically gene therapy) passports. One can still get and transmit Covid being vaccinated. I have intimate and close friends who both "vaccinated" and un"vaccinated" that have contracted and/or tested positive for Covid. The Delta variant is a result of the jab. Had this jab not been created into the monster that it has we would not be in this situation. The math that is out there is a mess and manipulated in reporting to the advantage of those financially prospering from it. Yes Covid is real, but so is the non-covid flu that that has taken more lives in a given time.

Written Testimony

I strongly oppose this measure seeking to mandate covid vaccinations on citizens and others who have religious exemptions to the vaccines. Both federal and state law prohibit discrimination in public accommodations on the basis of religion. Hawaii law provides for a maximum fine of \$10,000 for each occurrence. Hopefully the public accommodations in Hawaii will have to defend their compliance in federal and state administrative actions as well as in court. Perhaps the establishment owners will decide that your bill is too expensive. The First Amendment to the Constitution of the United States of America broadly and strongly protects religious liberty and these federal and state statutes restricting religious discrimination simply enforce those protections specifically against public accommodations. So does the Hawaii Constitution.

In addition, mandating injection of a covid vaccine violates the bodily integrity almost universally protected by the federal courts, including:

"individuals possess a constitutional right to be free from forcible intrusions on their bodies against their will, absent a compelling state interest." Planned Parenthood Sw. Ohio Region v. DeWine, 696 F.3d 490, 506 (6th Cir. 2012).

This begs the question, what is the compelling state interest? Since COVID19 began to be the basis of public policy in 2020, the number of positive test results has been one of the most significant driving forces. Since February, 2020, those positive test results have resulted from clinical laboratories and testing sites that have been using the CDC 2019-nCoV RT-PCR. However, on July 21, 2021, the CDC issued its "07/21/2021: Lab Alert: Changes to CDC RT-PCR for SARS-CoV-2 Testing" (https://www.cdc.gov/csels/dls/locs/2021/07-21-2021-lab-alert-Changes_CDC_RT-PCR_SARS-CoV-2_Testing_1.html) which:

1. Notified Laboratories testing for COVID 19 that after December 31, 2021, CDC will withdraw the request to the U.S. Food and Drug Administration (FDA) for Emergency Use Authorization (EUA) of the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel (why withdraw its request? is there something wrong with it? does that

invalidate all the test results previously relied on?);

2. Suggested that in place of the RT-PCR test, the labs adopt a multiplexed method that can facilitate detection and differentiation of SARS-CoV-2 and influenza viruses; apparently the RT-PCR test is not able to make that differentiation, which means all the public policy driven by the RT-PCR test was also based on the same bad data; this is born out by this CDC release in August, 2021: <https://www.cdc.gov/coronavirus/2019-ncov/lab/testing.html>

3. The multiplexed method that can facilitate detection and differentiation of SARS-CoV-2 and influenza viruses can facilitate continued testing for both influenza and SARS-CoV-2. It appears there may be no compelling state interest to justify this intrusion into the religious liberties of people in Hawaii.

The City and County of Honolulu will likely be included as a defendant in litigation to protect and preserve religious liberty in the face of this resolution should it pass and the State of Hawaii issue a vaccination mandate. The Jacobson v Massachusetts case from 1905 (Jacobson v. Massachusetts, 197 U.S. 11 (1905)) predates the constitutional jurisprudence of compelling state interest and least restrictive means to justify government infringement on constitutional rights. It would be quite risky to depend on the cover of that outdated decision. Finally, there is no available FDA approved covid vaccine even today. The only way for a person to obtain a vaccine is to voluntarily participate in the ongoing experiment which law prohibits be taken by compulsion.

This is a very bad idea and I so strongly oppose the bill that I will gladly name the C&C of Honolulu as a defendant in litigation over its unlawful implementation.

Entrusted Leadership,

Written Testimony

I am born and raised here in Honolulu, HI. and I am in complete disagreement with the government's plan to impose mandatory vaccine requirements, as well as vaccine passports. I believe this is an infringement on our rights and freedoms as US citizens. Doing so will reflect on those of you who we have entrusted with the power to speak for the people. It is not the government's choice. It is the people's choice. While there are thousands of doctors and scientist who are in favor of the vaccine, there are just as many who are against it. THESE DOCTORS AND SCIENTIST ALSO NEED TO BE CONSIDERED.

Sincerely,
Concerned Hawaii born Citizen and Registered Voter

Mandating a vaccine goes against our freedom and birth given rights to make our own informed choices for OUR health. You cannot take those rights away.

Written Testimony Mandating a vaccine passport also sets a precedence for discrimination and is unlawful and immoral to force anyone into that type of dictatorship. You cannot take away the rights of the people. You cannot drive people from living a free life for them and their families. You cannot make an informed decision for what is best for some one else's LIFE! You are not God and you don't have that right.

I do not agree or consent to mandates or passports!

Opposed. Aloha. This is so wrong and to say that we all who don't take the vaccine for religious or medical reasons will lose our rights to freely travel and be admitted to our destination who are residents here and Covid negative, over broad and extremely punitive. Ige letting the tourists do anything and we as responsible Hawaii residents stay home so they can frolic on holiday. The vaxed people are spreading the delta variant. A scientific fact. But the "state" will not admit it and have a massive campaign to demonize us with our god given free choice to choose to not to be vaxed. Now many losing their jobs. Mahalo Uncle Kaimi for fighting for our rights. Lots of sacrifices being made. I am opposed to this decision. Mahalo

Mandating the vaccine passport is segregation. Separating the people. Dividing and discriminating. Vaccine should NOT be mandated. Let the people choose. The flu shot is not mandated. Yet it spreads the same, is highly contagious, people die from it. Vaccinated or not, we all share the same chance of transmitting covid! Vaccinated or not we all still have a chance of getting covid! So why is it being mandated? How can you make businesses do modern day segregation amongst the people NOT based on if they actually have covid, but based on a vaccination card?! These people with the card may still have/be transmitting covid!

As a vaccinated front line worker I am firmly advocating AGAINST vaccine passports. The state is absolutely failing it's citizens right now on every level. The governments choices, lack of planning, lack of advocating for early treatments are the reason our positive cases & hospitalization are where they are today. The mayor and governors should have been advocating for antibody treatments on every island as well as taking advice from our leading Dr. The state wants to continue to push for vaccines with little interest in anything other then push push push for vaccines. The citizens of this state are now being punished because of the states poor planning and management. The vaccine has been proven to be less effective in controlling and spreading Covid. Why do you want to continue to segregate, discriminate and publicly shame those that choose not to get the vaccine. Hawaii is full of extremely health conscious, natural living, homeopathic and organic people. This mandate will ruin so many business because the state can NOT and WILL NOT bully people into giving up their moral rights as a human being. This is a small state and I can tell you, people will not be coerced. This is not going over well and this is going to prove to be extremely destructive to our state as a whole. I will fight, rally, protest and continue to advocate for freedom of choice. This ends today!!!! I am ready to fight. This state is only as good as it's citizens and get ready for this push back. We stand, in arms, one nation under God with our God given right to put what we want into our bodies and have the freedom to go where we choose. I refuse to support any business that follows these ridiculous mandates.

Written Testimony vaccine passports have no place in our county or state. Currently there are numerous vaccinated individuals who are covid infected and are also hospitalized. I personally know of several and some of them my family members. Vaccination has never insured being immune to covid infected, nor does it stop you from transmitting covid. The level of discrimination and coercion this entire vaccine passport is creating in our community is disheartening. I urge you emphatically to reconsider the purpose and efficacy of such an order.

Written Testimony

I oppose Resolution 21-194. I do not agree with implementing a COVID-19 Health Card for restaurants, bars, gyms, clubs, and indoor events. I especially do not agree with including employees physically present at the respective establishments to be required to have a vaccination, required to get a Health Card. It has been shown that being vaccinated does not stop one from spreading or contracting COVID-19. We have the right to determine what we put into our bodies; and this should not be a determining factor to where we are permitted to go; or a requirement for employment. I strongly disagree with Resolution 21-194 and oppose it from being implemented.

The use of “vaccine passports” to restrict commerce is a threat to both personal liberty and medical privacy. The government has no authority to enforce mandates of a “vaccine passport” to restrict Hawaii residents from being able to engage in normal, everyday activities in commerce constitutes a violation of the privacy of each person, and specifically a likely violation of the federal HIPAA law. Also, I believe the privacy concerns of a “vaccine passport” could create more division & segregation to all whether you've been vaccinated or unvaccinated. We The People have medical freedom to choose, not to be forced or coerced into doing something we don't feel comfortable doing to our autonomy (body), the choice should always be ours not the government. I believe it's government overreach .

Written Testimony There should be no mandatory vaccine passport, as that is not doing anything to stop the spread of covid In public places because vaccinated Individuals are getting and rapidly spreading COVID and the delta variant. Masks have been proven not to be effective against this airborne virus... and vaccines are to be at each individuals discretion. Especially women who are pregnant or trying and children / teens / young adults who have a 99.99% survival rate!!

Dear Committee,

Written
Testimony

I would like to provide a written testimony to voice my objection to the digital vaccine passport. This passport is is unjustified, unproven to be effective, and a violation of my privacy. Why is Hawaii trying to emulate what other cities are testing, when the program was based on the original COVID-19 and not on the Delta variant? In which the current vaccines this resolution is based on are not effective in preventing carrying or transmitting the Delta variant as proven by science. The rationale behind this resolution is not based on science, but merely what other three other major cities are doing to prevent community spread, which happens to be our largest contributor.

Please reconsider this resolution, as the impacts and rights are not guaranteed by the constitution. The city of Honolulu is trying to force people who are not medical professionals make a medical based decision. We need to the bottom of this, by canceling this/any resolution while this will require someone to bring the best equipment which also hides a new wave of medical privacy issues.

I strongly oppose this mandate. The covid shot is not designed to prevent transmission as stated by the CDC. The state of Hawaii Health director has gone on the news and reported that 60% of vaccinated people are spreading the virus. Enforcing mandated vaccines to the Hawaii residents are a violation to our civil liberties and is unconstitutional. Not being truthful with the deaths and side effects related to the shot. This is an individual choice to made by each person. Not the government. I have lived in Hawaii for 33 years. I always believed that our beautiful unique way of life was special. And what made it that way was our people our leaders, our government cared for all the people. Hawaii has an opportunity to turn covid around. To offer preventive alternatives solutions to the peopled. To be better and do better. This is not a one size fits all. So stop acting like this is the only solution. It's not, there have been many Drs. and scientists that have proven otherwise. Let Hawaii shine and offer more to its people. Everyone getting vaccinated is not the answer. The shot will not stop it..its been proven.

We do not know the long term effects of these various untested and rushed vaccines will have on the population. The vaccines continue to be proven ineffective as people I know still got very sick and are still able to spread the virus even after receiving the vaccine. This also is in conflict with our basic sovereignty over our own body's and will force people who do not want foreign substances, that have not been tested or proven safe , to be injected into their body's. This is a clear infringement on our basic human rights and is in conflict with the constitution this country was built on.

Written
Testimony

These mandates violate the inherent rights as American citizens. The government (our local government) forcing its people to get vaccinated or have its rights hindered is unacceptable. The mayor says we have a choice but instead only offers ultimatums. Think about the negative effects that small businesses have already had to endure and some no longer exist due to Covid-19 restrictions. These mandates will only have negative effects on Hawaii's economy as well as its people; such mandates will only open a flood gate of other issues.

Written Testimony

I strongly oppose the vaccine passport program.
It goes against all our constitutional rights!
And there is so much Censorship happening:
Censorship of scientific debate. Censorship of Fauci funding gain-of-function. Censorship of Covid Treatments and the use of early treatment. Censorship of adverse reactions and deaths.
And.....virus and vaccine efficacy measured by faulty PCR test! Also, the 14th Amendment to the US Constitution explicitly directs states not to “deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws”
Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: “Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product”
Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment.
I strongly oppose these vaccine passports. Its a crime against humanity!

Written Testimony I just said that I am not anti-vaccines but a vaccine passport is not something I can support. People should not be forced to inject something into their bodies that is not reversible and should not be ostracized if they do choose not to. It's public record so I'm making my voice heard without being hostile. You never know if they'll use it against you one day. And if they do, oh well!

Written Testimony

During my time in Hawaii, I have felt safer from the Covid-19 and the Delta variant than I have on the mainland. People here follow and respect the socially distancing mandates and I do not believe we need to have the vaccine in order to stay safe.
As someone who has had Covid-19 in December 2020, while on the mainland, I know that I am not afraid of Covid and do not believe I need the vaccine to keep me from getting it again. I also want to wait before getting the vaccine as I hear from my loved ones who have had it and become injured from it, especially after they have had the virus.

Written Testimony

It is my understanding that COVID-19 as well as the Vaccinations for COVID-19 (and recent variant) are all still under much study and honestly, much mystery. Now knowing, people with vaccines can still carry and spread COVID-19 is a big understanding and should greatly be considered in any decision made on this "health pass". New findings, new understanding and new reports are happening daily. I strongly oppose strict mandates and restrictions on the people of Hawaii based on personal choice in how to deal with a virus and vaccines that are still so unclear to us all. This seems completely irresponsible to place an amendment that can effect and impact the lives of virtually every resident of Hawaii based on so much unknown. On 2018, the entire Nation faced one of the worst flu seasons in years. We did not shut down our island, we did not shut down small businesses, we did not keep our children out of school for an entire year, we did not place tyrannical medical mandates on free American citizens, we did not let the government tell us how to live our lives and provide for our families. Instead, people got sick, some very sick and needed professional care. Others, stayed home from work and school, they took care of themselves, recovered and went back to normal life. Life went on, our State did not miss a beat. We as humans get sick! There are viruses everywhere and we have immune systems to fight them and carry on with life. I STRONGLY OPPOSE RES21-194 based on not enough study or facts collected by our elected officials that are put in place to serve our communities. This is a reckless proposal and the long term effects NEED to be considered before further damage is done to our small businesses, our economy and most importantly to our children. Mahalo for your time and consideration.

Dear Honolulu City Council. I am STRONGLY OPPOSED to Resolution 21-194, The City and State Administration of Hawaii request to develop, implement, and "mandate by Executive Order if necessary" a digital vaccine passport program for public or private industry to restrict access to employment, businesses, establishments, other venues and places of public accommodation. Vaccine Passport information is stored in a central database and the managers of the data can track people's location, finances, communications, and private health information. It is not a secure platform. It will be used silent people and restrict your movement. It violates the Americans with Disabilities Act, as well as the 1st and 4th Amendments of the Bill of Rights. In summary, it violates our civil liberties under the Bill of Rights and U.S. Constitution. Thank you for the opportunity to testify. Respectfully, Raylette Dacosin

Written Testimony I strongly oppose this bill. First of all, medical information has always been and should continue to be confidential. This information is between a patient and their health physician. Secondly, if we are not careful as a nation and learn from history, we will repeat some of the horrific discriminatory actions of the past. Please do not pass this bill. It will do more harm than good.

Vaccine mandates are a violation of our rights as citizens. There also needs to be antibody testing before any vaccine issuance because natural immunity is PROVEN to be more effective and you should never force a person to get a vaccine, especially if they already have natural immunity from catching the disease itself. Also if workers and public health and safety is truly the goal, then you would be mandating TESTING for EVERYONE since vaccinated people CAN catch covid and spread it. It states plainly on the FDA and CDC websites that vaccinated people produce just as much of the virus in them as an unvaccinated person so going by that FACT, testing everyone is actually more effective in preventing spread and transmission. It is also common sense.

Written
Testimony

I think it is irresponsible to impose a vaccine passport for a virus that is transmissible whether you are vaccinated or unvaccinated. To take away people's rights in order to coerce them into taking an experimental drug goes against our rights. The FDA did approve the Pfizer vaccine however it is a version that is not readily available. Their original product is still under EUA. I invite you to do the research on this. Basing tiered safety levels based on vaccination rates doesn't make logical or scientific sense - specifically due to the fact that the vaccine has been proven not to prevent infection. I ask that you DO NOT pass this legislation. Thank you for reading my testimony.

I strongly oppose the concept of a vaccine passport, health pass or any program in which will discriminate against human beings based on their health status when entering public spaces.

Written Testimony
Autonomy is a patient's right to self determination and to make their own decisions to accept or refuse a medical procedure. No longer allowing a person to choose freely is cohesion. It is essential to stand up now and let our politicians know that this is not supported by our community.

I think it should be an individual's right to decide if they should be vax and the idea of closing off services is really not giving the people the choice. It's starting with these places and just as in the past more and more types of places will be added pretty soon won't be able to get groceries without vax.

Written Testimony This needs to be stopped before it gets even more out of control please reconsider. It's creating a division amongst the people of Hawaii

Mahalo

I oppose vaccine passports. We all have a choice as to what medical treatments we seek and accept. Trying to force those who do not want or medically cannot get is coercion and not consent. While these have been given FDA approval and you may try to use that to your advantage to try and trick people into taking a very new medical product those of us that are very aware that medical errors are the 3rd leading cause of death will not be so easily convinced. Medicine is not a one size fits all. Everyone is entitled to their own bodily autonomy and their right to do their own risk - benefit- analysis when deciding to inject a product into their body that contains known carcinogens and other toxic substances. My family of 5 has not once been sick during this whole "pandemic" nor have we been vaccinated. Those that have been vaccinated are already told they need a booster. This seems like a very profitable business plan, create a toxic product that is 0.84% effective (absolute risk reduction), that gives you terrible side effects many times requiring medical treatment, it does not protect me from catching or transmitting, and requires boosters every 8 months. Not only are people making money on the vaccine, but testing and medical treatments. Thanks but, No Thanks!. I will continue to eat healthy, exercise, and take supplements to boost immune function.

This is discrimination, bad for business, bad for Hawaii

Written Testimony I'm not against getting vaccines but what I am against is the government pushing and making it mandatory for people who do not wish to take it. Furthermore this so called passport that we have to show when going out, This is an absolute violation of my privacy. What goes on between a person's and their physician is between them and NO ONE else. You the government are takin away our freedom of choice and freedom of privacy.

Written Testimony I oppose vaccine mandates. It's a persons right to deny a new vaccination because of their own health choices. My doctor advised that I wait fo get the vaccine as I'm pregnant. So now I can't participate in society even though the CDC said that vaccinated can spread the disease just as much if not more than unvaccinated? That's cruel.

September 2, 2021

Authorities who produced the covid shot stated that:

It is **NOT KNOWN**:

1. If it (the shot) will give you Antibodies and Immunity to Covid
2. If it will protect you from viral infection
3. If it will prevent you from Hospitalization, Death or Severe Illness because it was not tested in the trials.

It may, may, reduce some of the symptoms, if you get severe acute respiratory syndrome Covid 2.

- a. **It didnt prove** that it would stop the transmission between one another and,
- b. **It didnt prove** that one would stop carrying the virus.

The above statements is the "Criteria" of a vaccine.

BIONTech, Fosun Pharma, Pfizer "Vaccine" now being promoted as Comirnaty, was authorized by FDA, "recommended" by CDC for use in the U.S. for a **"LIMITED POPULATION"**

***Note "A limited Population"** Not for everyone! Have we conveniently overlooked these statements?

***This week alone, in Hawaii, at a significant place of employment, 6 employees tested positive, ALL VACCINATED, 1 of them died. (an acquaintance our my ohana)**

I reference the above statements

It is **NOT** known

1. If it (the shot) will give you Antibodies and Immunity to Covid
2. If it will protect you from viral infection
3. If it will prevent you from Hospitalization, **Death** or Severe Illness because it was not tested in the trials.

Again, *This week, in Hawaii, High Schools, athletes, VACCINATED by mandate to participate, 7 positive.

I reference the above statements:

- c. **It didnt prove** that it would stop the transmission between one another
- d. **It didnt prove** that one would stop carrying the virus.

Numerous doctors around the world; "Medical Scientist" who have been silenced by Pharma, Hospitals, and Politicians, have been tirelessly trying to get people educated on their findings. Not conspiracy, there are testimonies in archives of interviews, documentaries, etc.

Just last week Hawaii politicians silenced one of our own Doctors here in Hawaii, Dr Lorrin Pang, with an extensive medical history and credentials. Extensive! I encourage you to look it up . They silenced him on "his opinion and findings" on an alternative option to Covid – therapeutics. I asked Senator Bakers office, "what her your medical background was? How many medical papers has she written and researched? How did she come to this conclusion that a career Medical doctor that has been regarded for years, all of a sudden has an nothing important to share about the health and well being of the people of Hawaii. But she does? I might add that this Senator , received \$4000.00 campaign contribution from Pfizer. Again not conspiracy, Fact. Its on her website.

This testimony is by no means to defame an political figure, but rather to bring to light that "WE" the people and "YOU" the Leadership have halted at the possibility of alternatives, based on instruction and dictation of a very well financed entity.

Therefore, We have to ask ourselves " Have we really tried to eliminate this virus? Have you asked patients who have taken these known therapeutics if it helped them recover? Do you know of anyone who has? I do!

If our city will introduce a 60 day "Safe Access Oahu" program with an "experimental" shot, why not encourage/allow a consenting individual, along with their physician, to administer therapeutics that have been around for years, tested and proven, to control this virus? Without ridicule! And document it!

Youre taking a chance with the shot...why not meds? For years, patients who had the flu...called their doctor...they were given meds: Tamiflu. In about 3-5 days they were on the road to recovery. They were NEVER told to go home and quarantine, and wait and see if you need hospitization! Never! Why did the government do this for COVID 19?

People are talking, and researching: the "shot" does not prevent one from spreading the virus. Vaccinated people will not stop the spread or reduce the numbers of positive tests.

This is a fallacy

I am not putting light to the severity of the situation. I recognize and agree that the Hospitals are overwhelmed, the medical workers are over worked, People are sick, loved ones have died, but have we considered that fact that a covid positive patient could very well and "HAS" recovered with therapeutics? Not by a "shot" that does not meet the Medical criteria of a vaccine, simply put "It Is not Proven".

It all comes down to , Who do you want to take care of?

The people or the Hospitals?

Resources: Various articles of interest from Human vaccines and Immunotherapeutics (Human Vaccines & Immunotherapeutics is an **international journal of vaccinology and immunotherapy that publishes novel and experimental vaccine research.**, Dr. Lawrence Palevsky, NYC Pediatrics and Archived Testimonies to many to mention.

Written Testimony

Where is the proof that Covid is being spread by people in restaurants and other businesses? Are tracers still being used? Why don't you provide statistics on this tool that prove this is the cause?

But most important, I am in fear that whatever restaurants "are" left. ALL of my favorites have already bit the dust and others will never survive this new mandate if passed. The businesses are the victims and Hawaii cannot allow this to happen. We will not recover this time because you all well know the 2 week lockdown has lasted 18 months. Last year, my husband's business had to toss over \$45,000 worth of food products with the lockdown. The tourist industry was just bouncing back and hotel orders were finally increasing and he breathed a sigh of relief and he has a shipment coming in that will once again be of no use if not bought by the restaurants! We will not survive another mandate. Businesses will go under and I plead with you to not let this happen! Small businesses need your support and this bill will be the final nail in the coffin to put our economy underwater and drown us all in Hawaii. Thank you.

This is tyrannical use of power over we the people of Hawaii USA

I strongly disagree with this pending action

This is communism

You are doing this in the name of a supposed pandemic that you people have controlled with what you and your “experts” think according to “science” and what? So many people getting these shots and pandemic is worse

Using testing not meant for this not treating patients to the fullest extent

Why don't you people seek guidance from other doctors, experts, scientists???

Written Testimony

I don't feel this is about safety of the people

This is about power over the people using fear to control and taking away our rights.
Separating the people.

God help us and help you to see the truth in this whole situation

I pray you will come to your senses and do what is right for we the people
And not for your own glory

Let we the people choose for our selves
And be free in our beautiful Hawaii

God bless you all in peace and harmony

Restricting access to employment and resources via a vaccine passport is laughably unlawful, unconstitutional, inhumane, un-human, un American!
What are you getting paid by China to push this insane agenda?

I have witnessed grocery store employees walking around with these absurd "Health Check" stickers.
I thought to myself "this must be what it was like in Nazi Germany when the Jews where made to where the star patches and be degraded and dehumanized"

Written Testimony Health check... like they where an animal that wasn't going to bite me.

So you all think its a good idea to let anyone vote with no identification and yet you're going to require me to prove ive been medically experimented on to eat in a restaurant with my friends and family?

You all are way passed due on letting this fraud go and stepping down from your positions.

Written
Testimony

I, Alaine Conobre STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAI'I TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

As a businessman and restaurateur, I strongly oppose this kind of bill. Our industry has already been picked on and decimated during the pandemic and this will only further put people out of business. We do not want to be responsible for verifying peoples private medical documents. I am not anti vaccines, but I cannot support this kind of legislation that infringes on people rights like this and prevent my customers from patronizing a place of business. It is not right.

Written Testimony I appose all topics that do with vaccinations or anything that encroaches upon ones unalienable rights to the freedom of travel. This bill is egregious to the constitution and by implementing this bill would be against all civil servants oath that was given and this is a friendly reminder that was said to protect and defend the constitution!

Written Testimony I strongly oppose any bill that takes away my freedom to choose what I put in my body, that may affect my health and the health of my family. I also oppose because it will have negative impacts on so many local businesses. Mandating vaccines is not the answer. Use common sense and recent studies to guide your decisions, not outdated studies that have proven to be inaccurate.

Written Testimony We the people of Maui, who have elected YOU to be our voice, are asking you to say
NO TO THE VACCINE PASSPORTS!
Our businesses have been through enough! Our citizens have been through enough!
We have the rights to FREEDOM of choice!
Do you want to inhibit tourism? Do you want small business owners to leave the island?
What is the agenda here? When will the control stop? We the people do NOT consent!

After witnessing my wife go through Chemotherapy and Radiation last year to treat her Stage 2 Breast Cancer, I oppose ANY and ALL Vaccine Mandates and Vaccine Passports.

My wife still feels the side effects of her drugs after completing Chemo earlier this year. Researching alongside with her on the affects of each of the vaccines offered, is the reason why WE CHOSE to not vaccinate because of her heart. My life, my wife's life, and the life of my children are important to me.

Written Testimony

The Vaccine Passport will not help the community stop the spread of the COVID virus. This virus is just like the Flu. Every year, up until 2020, people have been dying from the Flu. Every year the Flu shot is offered to help combat the virus. The Flu has not gone away. It has only been replaced by the COVID virus to manipulate and control the community into complying ridiculous mandates that destroy the community in the State of Hawai'i.

Explain to me how the Vaccine Passport will stop the spread of COVID. Explain to me how the numbers of the affected with COVID have gone up tremendously this year with access to the vaccine compared to last year September 2020 when the vaccine was not around.

I oppose the Vaccine Passport.

Written Testimony No one needs to know what's in me or not, if I'm vaxed or not, it's my body. You can inform me that it's helpful but ultimately it should be my say for me and my family, the government is reaching to far to play daddy and mommy, let us be good citizens and protect each other the best way we see fit. There's too much going on in the world that the idea of not being able to travel because of a card is simply too much, already have a passport and drivers license, why need more.

I believe in keeping the right to choose vaccination or not to vaccinate. To get the injection or not to be injected.

The pharmaceutical corporations have much to gain with the implementation of the vaccine passport.

NO damages are they liable for at all connected to the use for their drug.
Their ATTORNEY paperwork each individual signs prior to being injected means the human has no protection should they be harmed.
Which is really telling because, if it's going to be good for us, why not stand by the product and make thing right should something adverse happen?

Written Testimony Eight months ago a close friend who I consider a sister took the 2nd Modern Vaccine injection. Three days later at the elementary school where she's a teacher she collapses and an ambulance took her to the hospital.

Doctors did not test her for blood clots right away. It took 2 more incidence of her collapsing and 2 more times to be rushed to the hospital in ambulances, that's a total of 3 emergency trips. Several miss diagnosis later after calling what she had stress and another time anxiety, her nurse friends told her she showed all the signs for PE (Pulmonary Embolism).

PE is when a blood clot develops in the leg, travels to the lungs and kills off the lung tissue, stopping the body taking in Oxygen.

On the 3rd emergency trip she advocated for herself and insisted that she be tested for PE. She was released from hospital because the doctor had no concern about her having PE. However, within 20 minuets after she arrived home she received the call that she needed to

go to the ICU right away and they confirmed that she indeed had PE.

She was immediately placed on blood thinners.

Eight months on, she is still suffering and has experienced many medical difficulties and many more over night stays at the hospital.

This is alarming to me because my friend is one of the fittest people I know. She was not only a marathon runner, she was a winning marathon runner and did several of these competitions a year. She was one of those individuals with an active healthy lifestyle. Her doctor concluded she was injured by the vaccine. She has been unable to work and entered her claim at VERS for compensation. Her family struggle financially because of this situation and has still not received compensation.

She has two young children. We were at her son's 8 year old birthday party where her friends witnessed her being weak and could barely walk. She said "I am so lucky I get to see my son turn 8". She thought she was going to die.

Now she is experiencing heart failure.

She and her husband will pay out of pocket to get treatment from the Mayo Clinic on the mainland.

Prior to the vaccine her doctors advised "The benefits outweigh the risk". She says she took it knowing there was risk.

She cannot have known how little support she would get if she was harmed.

This is all in hindsight for her.

But I hope my testimony serves and foresight for others.

My other woman friend caught COVID along with her 3 month old baby.

They recovered. There are treatments that another friend took who's in her 60s after learning there are cures for COVID.

Ironically my injured friend would have likely recovered from COVID on her own because she was strong and had a good immune system.

Covid recovery stories are not heard in the mainstream media.

Why?

Nor is the story of my injured friend.

Why?

I have vaccinated friends who caught COVID

3 months after they received their shots and were very sick.

Factually no one can say what these injections will do months or years from now.

Pharmaceuticals companies continue to make billions.

I ask the question

How about making the pharmaceutical companies care for people who are adversely affected

by their drugs?

Or to put it another way, how about the accountability for the people who's lives are completely uprooted and destroyed. Where once they were getting on with life and being active members of our society, now they are barely functioning because the drug has damaged them.

LET THE THING SPEAK FOR ITSELF

When will we see Government holding the pharmaceutical companies' accountable?

Instead the Government is proposing a "MOVEMENT PASS" called "VACCINE PASSPORT" where the Government imposes restricts on the people!

WHAT?

HOW AND WHO could allow this?

This is immoral

I oppose this for everyones sake.

NO to the so called "VACCINE PASSPORT"

Written Testimony I oppose this resolution because a vaccine is not a one-size-fits-all-solution to our Covid problem. As with all medicine, the vaccine does not affect everyone the same + therefore cannot be taken by everyone. This health pass or whatever you decide to name it, discriminates against many people medically.

I oppose this bill because my rights are protected by the 9th and 10th amendment of the constitution that the government does not have conservatorship over my body. Everyone's health is private as it should be. Remember the saying health is wealth. You all took the oath of office that you would uphold the laws of the constitution of the Republic of the United States. Are you willing to commit treason by trampling over people's rights?
<https://vaccineimpact.com/2021/military-doctor-the-covid-vaccine-program-has-killed-more-young-active-duty-people-than-covid-did/>
<https://civilianintelligencenetwork.ca/2021/08/03/breaking-hiv-confirmed-in-vaccinated/>
Also the Lancet just published that the vaccinated carry 251 viral load.
<https://nationalfile.com/study-fully-vaccinated-carry-251-times-the-normal-viral-load-of-covid-19-may-be-super-spreaders/>
Let's not forget that Dr. Char head of dept of health stated that the vaccinated can contract and spread the virus so the mandates are medically unjustifiable.
Thank you.

Written Testimony

To require vaccine passports is absurd. Just because you have been vaccinated doesn't give you immunity and a free pass. Vaccinated people can test positive for covid and transmit disease just as easy as an unvaccinated person. This is a violation of our constitutional rights of being able to move freely about the country and to conduct commerce when and where i choose. You are discriminating against unvaccinated people. The vaccines have proven to be ineffective against the delta variant because the more people get vaccinated the more resistant the virus becomes and further mutates into different variants. That being said, the delta variant may be highly contagious but it has proven to be not as lethal. These vaccines were developed too fast and not enough long term research has been conducted to prove their safety and efficacy. Most vaccines take 10-15 years to get FDA approval. Not enough is being done by governments, health officials and doctors to promote healthy lifestyles to prevent getting the covid virus. Eating healthy, exercising, getting proper sleep and reducing stress are far more effective at preventing diseases. So, are we to ignore these others factors, go get our vaccine shots and carry on with our unhealthy lifestyles? The human body has its own built in immune system to prevent virus and infections if its maintained correctly. Also, not enough is being done to promote early intervention once a person tests positive for covid. This would prevent alot of hospitalizations. Instead, if you test positive, you are just told to go home quarantine for 10-14 days and hope you do not develop severe symptoms. I urge you do more research regarding early intervention. This vaccine passport program is an infringement on our rights as tax paying citizens of this country. Our founding fathers warned us against government control and infringements of citizens rights. You are heading down a slippery slope on this one and I feel its only the tip of the iceberg. Businesses and the economy will be hurt by this policy. You are disenfranchising more and more people on this issue and this will not persuade any person to change their mind into getting the vaccine, its only going to make us stronger to stand up to this type of tyranny.
May God Bless America

Written Testimony I believe the vaccination passport is unconstitutional. I believing freedom of choice, free choice is free choice and those who want to vaccinate should, by all means, go ahead and vaccinate.
To impose a vaccine as a condition of traveling — is to suggest that government knows best what is best for an individual's health and therefore has the right to strip that individual of the power to self-determine. That is not constitutional, it is dictatorial. This is the United States of America not China!
Government should not require any person to show proof of vaccination and reveal private health information just to go about their daily lives!

Dear representatives ,

Written
Testimony

I strongly oppose this bill as it is a total discrimination toward our freedom to choose how we take care of our individual health , for a virus that still as science facts , has a 99% recovery rate , and therapeutics that many doctors and scientists have been successful with and avoiding hospitals, why are they being censored? I am ashamed to see such lack of integrity and disregard to the CDC reports on thousands of vaccines injured and 45000 death within 2 weeks of inoculation .

So I am asking you dear fellow human

How many more lies and lives it's going to take before the inevitable coming truth of this medical political tyranny cPF3L5omes to light ?

I do pray that the light will shine some humanity and consciousness to our fellow humans that lost their ways.

Respectfully,

A child of God

As a COVID-vaccinated person, I completely OPPOSE vaccine passports. I am extremely uncomfortable with unknown persons asking me for my personal medical information; I should not be forced to give out any personal medical information to participate in society. Or is it now acceptable to ask someone for their TB status? Their HIV status? Their Hep B or C status?

Where is the evidence of significant COVID spread at bars, gyms, restaurants, etc? Most of these places have very strict mask and social distancing rules. Instead, lawmakers making arbitrary rules is like throwing darts at a wall and hoping that they stick. This is not a way to govern.

Written
Testimony

In fact, ignoring and discriminating against a large percentage of your constituents (vaccinated and unvaccinated alike) is extremely disappointing to see. You are a PUBLIC SERVANT; you work for us, not the other way around. These vaccine passports will discriminate against, and create undo hardship for, those who cannot receive a vaccine due to religious beliefs or medical reasons. Are you ok with discrimination for religious or medical reasons?

Furthermore, discriminating against a large percentage of the population will have negative impacts on everyone, and especially businesses. Local businesses have already struggled enough and forcing people to chose what they believe is right and supporting local businesses will be detrimental to the local economy.

Agenda Item Resolution 21-194
Your position on the matter Oppose
Representing Self
Organization

Written Testimony Our elected officials are removing our individual freedoms every day instead of insuring them. The people are capable of researching and making informed , personal decisions. You are taking that away from us. We see other States protecting their citizens while insuring their constitutional rights and in Hawaii we are doing the opposite. This is illegal.

Written Testimony I am strongly opposed to vaccine passports although I am vaccinated. I believe it is a personal choice based on medical history and personal conviction.

Please consider not moving forward with this.

I don't like being forced to do things against my will especially when nothing is wrong with me and why take the vaccine when there's already a treatment and cure, all natural prevention programs for we the people and whose name should we fear more than the Covid-19, Jesus! We need to pray to Jesus!
The vaccine passport is not the answer for the people of Hawaii it will do nothing but damage the economy and the aloha that no cannot be found anywhere in the world. Freedom of choice!!!

Written Testimony

This is not right it is an individual's choice to be vaccinated or not to be vaccinated I chose to be vaccinated yet my sister chooses not to be vaccinated and you would require her to force a choice upon herself and her family that she does not agree with, To make it mandatory to be vaccinated just that she could survive by having to go to a job or eat somewhere is unconstitutional and not right and shame on everyone that believes this when did our society become one of liberty and freedom to one that is Communist or controlled by governments? it used to be the government was dependent upon the people now it seems like you guys change it around to make it the people need to be dependent on the government!

Written Testimony I do not support a vaccine passport. I urge the state to find other ways to work with the community then to trample on our rights. I personally made the choice not to get vaccinated due to lung issues from catching covid last year, and should not be punished by this decision by having to take a covid test every 2 days just to go to the gym and better my health.

Mandate Free Hawaii:

I just spent 13 years in the People's Republic of China. It was appalling to return to America and have it feel as if I was still in China.

We are coming before you today just as Moses stood before the pharaoh in Egypt 3,000 years ago; saying "Let My People Go!"

You have no legal authority; only physical power. Read the Constitution, recite your oath and remember who you are: "You are the SERVANT of the People of the United States of America."

What you are presently doing, (creating mandates), and planning is criminal! You are not above the LAW!

As "leaders" You can and must stop the insane pharmaceutical SCAM and not continue down their path of illegal, unthinkable and immoral actions!

You will be judged by Man and God! This is not about a virus; the FACTS make us realize this is about "Good and Evil!" Which are YOU?

Choose to do what is moral, good and truly legal.

Written Testimony

I, _____ STRONGLY OPPOSE Resolution 21-194; BEGGING YOUR ADMINISTRATION AND THE STATE OF HAWAII TO NOT HAVE VACCINE MANDATES. To enforce these vaccines on its citizens and businesses are against our rights! It took heartaches, blood, sweat and tears to get where we are. Now that will be all taken away if we choose not to get vaccinated. My ex Mother inlaw Royleen Kunewa Cordeira took the vaccine last Thursday, started feeling sick the 1st and 2nd day. On the 3rd day she passed. These vaccines are not for everyone. Just like peanuts, some ppl are allergic to certain ingredients. We do not know what's in these vaccines. My cousin Paul Alferez Sr. also took the vaccine and his body started shutting down. He passed on the 10th day. I am begging you to investigate why some ppl are dying and to please not mandate it. We do not know the long lasting side affects it will have on us.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. Large populations of Honolulu have contracted COVID-19 and recovered.

Please Let the People Decide! Mandatory vaccine passport does nothing but hurt our economy and trust in our local government. This is hurting us more than it is helping!

Written Testimony

It is illegal under the fourth amendment and the civil rights act to create laws against our rights as citizens of the United States of America. It is also morally wrong to create laws to pressure people to do harm to their own bodies which is what vaccines do. The science shows they do not work and are causing physical harm. Countless people are in the ER's in this nation that have been vaccinated and they are the ones spreading the virus. The Fourth Amendment, "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures shall not be violated. Also, it needs to be made know to business that they can be prosecuted if they abide by such illegal "laws" if passed. Title 3 of the US Civil Rights Act. Any "law" that goes against the constitution of the United States is illegal! We are watching and those of you who plan to take away our rights and cause harm physically or financially will not be reelected.

Written Testimony Aloha, I Jennifer Abounader oppose the proposed vaccine mandate. This is an unethical from a business perspective and logistical nightmare to maintain for every single business. Also there is not enough studies on adverse effects. Something that people will have to live with for the rest of their lives. Pfizer might not be liable for the bad outcomes but you will be.

Written Testimony

This is nothing more than discrimination, It's a medical apartheid, akin to Jim Crow, and clearly unconstitutional! This virus has upwards of a 99.97% survival rate. The recent data trickling out about the efficacy of the vaccine shows that it doesn't even work! Certainly not as well as they claimed when they were seeking Emergency Use Approval. We are at nearly 70% vaccinated and the virus is spreading worse now than ever before. Data shows natural immunity seems to be a thousand times better than the "immunity" provided by the experimental vaccine. Yet you aren't considering the numbers of people who have already had the virus when you're making these fear-based decisions. Think about it for one second! You want to implement a blatant discriminatory policy mandating an experimental vaccine that doesn't work. That has the highest record of adverse and life debilitating effects; including death, then all other previous vaccines combined! So as to deny services to citizens for a virus that is upwards of 99.97% survivable! If the morality of implementing such a policy escapes you then think of the monetary consequences this will have on the local business and your ultimate tax revenue.

I do not agree with this bill. This is detrimental to Hawaii and it's businesses. This virus is everywhere, vaccinated and non vaccinated you can't hide from it. Business already suffered in 2020. Hawaii and it's people are suffering more now and to segregate and create more of a divide is just incomprehensible. Focus on cleaning up Waikiki, a litter bugs me program, help the homeless...These issues are way more important.

Written Testimony I strongly oppose this measure based on this simple premise. The Covid vaccine does not prevent catching or transmitting the virus. Apparently, it can lessen the symptoms. The long term risks of the vaccine are not known.
If someone chooses to risk more severe symptoms instead of adverse reactions of this shot, that is always their right and choice.
Coercion, bullying and strong arming the public Is the opposite of what happens in a free society. Public officials must do the right thing and choose freedom.

Written Testimony Strongly oppose segregation and discrimination against those who cannot take vaccinations that go against their religion and their right to bodily autonomy. There are also people who are medically fragile who cannot take vaccines. This is discrimination. If you approve this, where does it end? This tyranny must stop here.

I firmly believe Vaccine passports are not necessary in Hawaii businesses for they can create and enforce their own safety protocol. Let everyone exercise the right to support their own local business without fear , intimidation or discrimination. Let everyone decide! Let the Mayor and council support the will of the people. I make this testimony of my own free will outside of anyone's influence. Looking for your kind consideration. Thank you!

I strongly oppose this bill. If what you want is a return to Dachau or Auschwitz, gold star armbands, brown shirts and neighbors who turn on each other for a pat on the head or a crust of bread, congratulations, you are almost there. You surely have members of your own family who will be destroyed by this, and yet you misguidedly feel protected against the next tier of this monstrous wave of totalitarianism crashing over Hawaii. Have you lost your heart in order to stand against your own child's health, the livelihoods of our first responders, or even parolees? Do not do this!

Written Testimony

I am the Community Director and a Minister at King's Chapel Oahu. I oversee our agency partnership with the Hawaii Foodbank for both Ohana food distribution and the TEFAP food program. In the past year and a half, we have fed over 20,000 families with roughly 1,200 volunteers from both the church, other non-profit organizations and the community. We have been able to do so because we have practiced and implemented safety protocols of questions, temperature checks, masks, gloves and closed toed shoes. To this day, although we have prayed and delivered food and resources to many who have contracted Covid-19 during this time because of our consistent practice we have not increased the spread or seen people die from this virus. We know of over 400+ who have contracted and recovered from the corona virus.

Most importantly, we have not discriminated against anyone who has not taken the vaccine or asked for any proof of doing so to determine whether they can volunteer or not. We simply have been consistent in our practice and implemented the same rules for everyone. We have not turned people away for food or those who wish to serve. We have advocated for everyone to be self-determined and to make wise decisions for themselves. Allowing people to be vigilant about their own health and any medical conditions they may have is both proactive and preventive. Food distribution is an essential life line to many including our homeless populations we continue to service in Waimanalo and Sandy beach. I strongly oppose the mandate for vaccine passports and any type of discriminatory behavior that separates or prevents individuals to have and maintain their personal freedoms and what this country stands for.

Written
Testimony

I strongly oppose this tyrannical approach to dealing with something that has been blown out of proportion. The health passport is unconstitutional. It's bad enough that we are not allowing a rapid test approach to travel or allowing those to show that they have had Covid. we have no more cases than anywhere else that has relatively the same per capita. San Diego California is the perfect example. Why does this state think they are special and why does the state and government continue to hurt the economy further than it's already been? Our freedoms are being severely restricted and as an American I find it to be truly offensive that this would even be proposed. You all should be ashamed.

Written Testimony

I strongly oppose resolution 21-194. I feel the correct data has been strongly altered regarding the safety of vaccinations and also regarding the access to alternative care and early treatment. I am a young healthy woman and would rather take the risk of having covid again that willingly inject a vaccination into my body that I could possibly have an adverse reaction to. there is a risk either way between contracting corona virus or getting a new vaccine, I need to be the one who is able to decide which risk I would like to take. I do also a believe the government has too much person stake into the vaccine and data is being altered strongly in the favor of vaccine safety which is not the case. I will be waiting several years to Analyze the risk of the vaccine and proactive with my preventative and early treatment if I do contract corona virus again.

Written Testimony

I am strongly opposed to this bill! It should be a personal choice to accept any foreign vaccine into your body, and not cause division or prejudice based on what someone chooses. Especially for a virus that many have 99%+ survival rate and because safe inexpensive medication that has been shown to significantly improve health of those who got covid exists! Many people are experiencing severe adverse side effects from the vaccine that aren't relayed to the public nearly as much as the promotion to take it. To know that many friends and family will have to go through the added stress of abiding to a mandate versus to do what they feel is right for THEIR body and health, is WRONG. Those who took vaccine made a personal choice to do so and if the vaccine is performing as intended (lessen chance or getting covid and lessen symptoms), then why should it matter that someone is not vaccinated. DO NOT FORCE or MANDATE Americans to comply just to save their job, play a sport or simply go into community and support the local businesses. Right now our community needs unity and compassion, not threats on our freedom and disregard to the many voices who are clearly opposing this mandate.

I'd like to deliver my voice to strongly oppose on this bill. We all should have a choice to choose whether or not to be vaccinated, and it should not be mandatory.

Also, there has been a new vibrant called "mu" which has too unknown and predictable potential for the effectiveness to previous COVID19 vaccine. If the purpose of this bill is to prevent spreading the disease and protect public health, everyone should get tested. In that way, we will have more specific tracing since covid-19 virus could be still contiguous to those who have been fully vaccinated. This is still an emergency proclamation and the city and county should discuss further to pass the bill. Thank you very much for your attention.

Written Testimony

I oppose this program on the basis that it is discriminatory against individuals unable to vaccinate due to immunodeficiencies that make vaccination a higher risk for complications, as well as for individuals religiously or philosophically opposed. There is also with this program no accounting for valid peer reviewed science that there is likely robust long term natural immunity from previously infected unvaccinated individuals, who pose low risk for reinfection or for future spread of infection and help raise herd immunity. There is continuous analysis of the efficacy of the vaccines given and at this point there are indicators that these vaccines may not last long term and therefore how could a vaccine card keep track of who is truly protected, (especially if additional boosters may soon be required). It would be a public health measure that aims to protect in name only, without actually providing any protection, while at the same time being unprecedentedly highly discriminatory in a state where so far, with vaccinated and unvaccinated people co-mingling , the state has done relatively well keeping mortality extremely low and hospitals not overwhelmed . Again, I wholeheartedly oppose this measure.

As a father and grandfather of residents of Hawaii I STRONGLY OPPOSE RESOLUTION 21-194. This will only create more hardship and pain to your citizens and their extended families. This would be government overreach, a curtailment of medical freedom over your own sovereign body with a controversial injection. This is America, we have freedom to work, travel, choose our medical treatments and enter any and all public accommodations without discrimination. This "passport" would be DISCRIMINATION plain and simple. This is illegal and immoral and must be OPPOSED. Do not divide our people further, cause aggression, segregation and possible violence. It is pure and simple INTIMIDATION, UNDER DURESS AND IS COERCION - all outlawed under the Nuremberg Code. This must be opposed.

Written Testimony

I strongly oppose the new passport. As a born and raised local in Hawaii I've never seen Hawai'i become so corrupt in my life. Also with this country who is known to be the land of the free to now having our freedom of choice being stripped away from us. It's completely wrong to be forcing a vaccine on people let alone threatening their lives and their families on losing your job or access to things that will provide in a place such as Hawaii where it's already a struggle to live in financially! There has to be another alternative instead of forcing vaccination upon people! I am a local who respects the mask mandate and social distancing to its fullest! I am always making good decisions when it comes to avoiding getting sick and possibly catching this virus. Yes I see in this world many have died and have gotten sick from this virus but I also believe it's because of hidden background health problems they weren't sure of that helped cause the virus to cause them to be even more ill or unfortunately fatal. I respect everyone's decision to be vaccinated or not as well I'm sure there's many others who respect the decisions too. What I don't understand is why everyone can't be on this same page of respecting everyone's personal decisions? If people only looked at it as if it was the other way around or of a different topic to be forced upon then they could understand the struggle that the unvaccinated people are currently in! Again, I strongly oppose all of this. The forcing of being vaccinated and for this passport and anything else relatable. I'm a strong believer of Christ and I stand firm in it , saying that God is in control and will make a way through this darkness.

Personally, me and my children have been advised by our doctor NOT to take the Covid vaccine due to our underlying health conditions like a PROTHROMBINMUTATION and an auto immune disorder. People like us would be secluded from public spaces and society which is a severe discrimination. A mandatory vaccine passport goes against our law and medical science, thus against your people and democracy.

Written Testimony I stand for my rights. I stand for choice. I stand for a government that isn't paid off. The proof is in alternative methods, the proof of corruption in government exists, and I'm tired of being controlled while paying absurd amount of taxes to the ones trying to suppress us. Fix the damn roads and leave us alone!

Written Testimony

This is in opposition to our legal rights. It is NOT in the name of safety, but is an oppressive act of governmental control. The covid "vaccines" have NO long term safety data! The agenda is clearly in the name of pharmaceutical financial benefit and NOT in the name of public health and safety. There are FAR more effective and SAFE ways to help prevent and treat cases of covid and hundreds of doctors are willing to testify to that. Every human has a choice to decide what's best for their body when it comes to medicine. To threaten our livelihood in order to try to coerce this "vaccinate everyone" agenda is WRONG and manipulative! Do what is humane and fair if you want peace and cooperation from Hawaii residents in the name of public health and safety.

Written Testimony

I am opposed to this bill for digital or any type of health passports here in Hawai'i. It forces people of this great State to be treated unfairly and it is against our US Constitution. Forcing people to take an experimental vaccine and to be forced to have documents showing proof of having taken an experimental vaccine is wrong! The main item that prevents me from taking the covid vaccine is the use of aborted fetal cell lines. (See avoicefortruth.com/covid-19-vaccines-using-aborted-fetal-cell-lines/) These covid-19 vaccines are extremely concerning in both the fast-tracked development and testing and the use of aborted fetal cell lines which pose serious risks. It's as though all the million aborted/murdered babies are speaking up through us who are opposing tyrannical bills that force us to use their cells! One last thing, the Holy Bible in Revelation 18:23, it states, "...by your pharmakeia, all nations of the world were fooled." I and many thousands of others will be praying this bill will not pass and may God have mercy on us if it does.

I oppose due to vaccine is not guaranteed. Many people have died from taking the shot. Other people have been disabled from it. They were healthy and now they are unable to work, they have to depend on their families to care for them and top of that, their medical don't cover their illness caused by the shot. Their bills are piling up. Also, don't know the long term effects. Why don't you promote the healthy and natural way through boosting your immune system through vitamins etc.

We have seen in the country of Isreal where a majority of the people have taken the vaccine the clinical evidence that it would be a disaster for everybody including the government. Those who had vaccine were 27 times more infected by the Delta variants than those who had natural immunity from having covid. In otherwards, the vaccines are increasing infections now. This is reported by a Harvard epidemiologist. Dr. Martin Kulldorff who says that this finding demolishes the case for vaccine passports. Published August 30, 2021.

Resolution 21-194 is a violation of basic constitutional rights and a HIPAA compliance violation. No one should have access to my medical and personal information and data without my informed consent. The shot has been known to cause many serious and fatal side effects including death. Covid 19 virus is highly treatable. The City should report on how many people contract and recover from the virus. The City and news media should report on the vaccine injuries from this shot. We personally know people who have received this shot and DIED within 3 days of receiving the shot.

People who receive the shot can still contract and spread COVID 19. How is this fair?????

This bill infringes upon the basic human rights of U.S. citizens. Last time I checked Hawaii is a state in the United States of America.

Written
Testimony

I DO NOT CONSENT to the shot after understanding VERY CLEARLY all the possible side effects and with the knowledge that tens of thousands of deaths have already occurred due to this shot.

New data is coming out that the shot's not effective against contracting and spreading the virus, only possibly assist in fewer symptoms, and its effectiveness does not last long and requires boosters every so often. Your bill means you would allow people who are vaccinated into businesses but they can still spread and catch COVID 19, but you won't allow access to unvaccinated individuals.

HOW IS THIS EVEN LOGICAL???

What about the people who cannot get the shot due to allergic reactions to vaccine shots?
What about people who already had COVID 19 and recovered and have natural immunity?

This bill would be FORCING someone to take the shot in order to live life normally even to

go to restaurants and museums or even grocery stores soon.

What about all the businesses who will suffer from this?

This is MEDICAL DISCRIMINATION.

I oppose this plan to implement a vaccine/health pass system because I believe in a free America and a free Hawaii. By requiring a vaccine or health pass to enter any type of public establishment, it will only create a greater divide between people. In a pandemic or crisis, unity is the greatest power we have to overcome challenges and adversity. By creating division through this health pass system, it'll hurt both the vaccinated and the unvaccinated. I have witnessed and personally experienced discriminated within my family and the family of my closest friends, due to our stance on the vaccine.

Written Testimony

This system is a punitive measure aimed to punish those who choose to not relent to getting this vaccine. It will isolate and alienate half of the population of Hawaii, and turn those who are "privileged" enough, into individuals who feel superior and elite among the population. This goes against everything we have known and believed about the culture of our islands. It will kill the Aloha spirit and replace it with a judgmental and discriminatory outlook on those who choose not to get the vaccine.

If this health pass system is implemented, it will not only hurt those people who are unable to enter those establishments, but it'll negatively impact small businesses. It may cause a boycott of those businesses by people who are opposed to this measure. In the long run, Hawaii's small businesses will experience even greater negative impacts as they are still trying to recover from the initial shutdowns a year ago. I love Hawaii and I love my country. Hawaii is truly a special place where 'Ohana always means family...not just blood-related, but we ALL are 'Ohana. We're in this together. Let's leave the personal medical decisions up to each individual, which is how it has always been. And let's begin to come together in unity, without discrimination or judgment, to help each other through this time by taking care of our bodies, living responsibly, and honoring the right to choose.

September 2, 2021. Your form would not allow that date.

Representatives, senators and elected officials representing the public,
I strongly oppose this bill. This is an illegal, discriminatory and unnecessary bill. There are safe effective and fda approved treatments for covid 19, therefore vaccines can not be mandated but must remain optional.

Written Testimony If any of you pass this bill, you will be committing crimes against humanity according to the Nuremberg code. Do the right thing...and not what the media or your big pharma money bag pals are telling you to.

Thank you for hearing my testimony.

Aloha, Angela Rathyen

Written Testimony

This resolution is a violation of constitutional and civil rights. It mandates a form of prejudice and discrimination. It is NOT supported by science which clearly shows that the so-called vaccine does not prevent transmission or protect against infection. In fact, the majority of serious illness and hospitalizations are occurring among the vaccinated. The vaccinated are the super-spreaders as revealed in a recent article appearing in The Lancet. Scientists concluded that the vaccinated carried 250 times the viral load in the nostrils compared to the unvaccinated. All competent virologists agree that it is the vaccine itself that is causing the variants just like antibiotics create antibiotic resisted super bugs. Do not support fake science and ignorance. Do not be guilty of violating people's constitutional and civil rights.

Written Testimony

A vaccine passport is only going to disadvantage the local populace while leaving tourists relatively unscathed. This idea is the latest in a series of proposals that will only serve to impugn the people who live here while the unchecked number of tourists remain unphased. If you are serious about fighting the climbing numbers of cases then you need to address the volume of people that are frequenting the state from elsewhere. The hundreds of thousands of people a month are bringing with them germs and ailments that have contributed to the recent spike. As we live on an island and are relatively isolated, it is evident that we were safe and numbers were among the lowest in the country, if not the lowest.

It was only once we open the doors to tourists did the number start to spike and it is only by throttling the flow of people into the state will those numbers be arrested. A passport will only serve as another thing to incite the local populace into protest and quite frankly, the idea that you cannot do something unless you have a shot is simply appalling. The freedom and liberty to do something should not be dependent upon a medical process such as receiving a shot. By approving this extreme measure you are setting a precedent that will rapidly grow out of control and evolve into other, equally dangerous concepts for the sake of "safety."

Resolution 21-194 is a violation of basic constitutional rights and a HIPAA compliance violation. No one should have access to my medical and personal information and data without my informed consent. The shot has been known to cause many serious and fatal side effects including death. Covid 19 virus is highly treatable. The City should report on how many people contract and recover from the virus. The City and news media should report on the vaccine injuries from this shot. We personally know people who have received this shot and DIED within 3 days of receiving the shot.

People who receive the shot can still contract and spread COVID 19. How is this fair?????

This bill infringes upon the basic human rights of U.S. citizens. Last time I checked Hawaii is a state in the United States of America.

Written Testimony I DO NOT CONSENT to the shot after understanding VERY CLEARLY all the possible side effects and with the knowledge that tens of thousands of deaths have already occurred due to this shot.

New data is coming out that the shot's not effective against contracting and spreading the virus, only possibly assist in fewer symptoms, and its effectiveness does not last long and requires boosters every so often. Your bill means you would allow people who are vaccinated into businesses but they can still spread and catch COVID 19, but you won't allow access to unvaccinated individuals.

HOW IS THIS EVEN LOGICAL???

What about the people who cannot get the shot due to allergic reactions to vaccine shots?
What about people who already had COVID 19 and recovered and have natural immunity?

This bill would be FORCING someone to take the shot in order to live life normally even to

go to restaurants and museums or even grocery stores soon.

What about all the businesses who will suffer from this?

This is MEDICAL DISCRIMINATION.

Written Testimony

I strongly oppose any type of pass and requirement thereof in order to move freely amongst the state I live in. This infringes on my constitutional rights to have freedom of choice of medical treatment and right to deny any treatment as well. This is not a health issue. There are several proven effective treatments to prevent covid and to drastically reduce hospitalization and death with early treatment. Ivermectin is being used in many countries like Japan, Africa, and in South America. There is also many states that are treating early using antibodies-- none of these are promoted. This is not about health. If it were about health we would use ALL treatments available to fight this and save lives-- you are not.

You violating my freedom of religion. I am a faithful Christian. I deeply believe that if ever I were forced to have to alter my body in anyway in order to buy, sell, work, and move freely through out society, that is the mark of the beast. The devil. The anti-Christ. I can't ever participate or accept it or I will face eternal damnation. By passing this resolution you will be infringing on my freedom of religion. You would be oppressing me and removing my freedom to roam, my freedom to have bodily autonomy, and my freedom of religion--you would be singling me out and punishing me for my beliefs. As a government, you are causing so much trauma to our community. So much division and unwilling to listen to the will of the people who voted you into office. You have forgotten that we voted you there and you work for us and ONLY us. Not the federal government, not the tourist industry, not big pharma, or the military. You work for us the people. We hold you accountable for the wrong you do to our community by these harmful policies. These vaccines have been proven to be contaminated in Japan, many countries are not halting its use for further investigation that they are not harming their people. But not you. I watch Mayor Blagiardi himself say that he was not aware the FDA had recalled the use of the PCR tests and that they were inaccurate-- that is unacceptable, when many people in our community know about it. Many of whom have been silenced and dismissed for spreading misinformation. If we know about it, you should know about. You should sure as hell know about if you are making policy around it that removes our civil liberties. I strongly oppose this with all of my being--mind, body, and spirit. I will never be able to

comply with these mandates. you are discriminating against my religious beliefs.

Medical FREEDOM. My body my choice. We are in the land of the free and the home of the brave. No government should decide that I have to put an experimental drug into my body. No government should be able to shut down businesses that people worked their whole lives for over a “ vaccine passport”. We are in The UNITED STATES OF AMERICA. This is my body, not yours. I gave birth to my children, NOT YOU. You do not get to decide what goes into my body or my children’s, our children’s, Hawaii’s children. Medical Freedom, freedom of CHOICE.

Written Testimony

I strongly oppose this resolution. I am deeply concerned, as we all are, for the health of our aina and our community. However, mandating vaccination or continuous out of pocket testing infringes on the rights of local citizens and native Hawaiians to participate freely in society, work and provide for their keiki. Research clearly shows that vaccination does not stop the spread of this virus, has serious potential side effects and those who do not want to risk their personal health for those reasons should not be segregated from culture. This is about civil liberties and maintaining a culture that values life as well as freedom.

Written Testimony

-How can this even be considered we have seen statistically & scientifically that trying to replace testing & other safety measures with these vaccinations DOES NOT WORK. In fact our State cases rose dramatically immediately when Hawaii stopped requiring testing for those vaccinated arriving to the Islands BECAUSE THEY DO NOT STOP TRANSMISSION.

-Residents have NOT been supplied with sufficient information regarding what protocols will be in place once this passport exists or how it will work. It is the duty of the state, city and all oblique officials and address the concerns of its citizens and offer clarity and long term plan of action regarding said passport.

-The public has never been informed or educated on who is responsible/ liable should there be adverse reaction or death from said mandated vaccinations.

-These passports create division & discriminate against the countless citizens who cannot receive these shots for health including children or who choose not to for religious or personal reasons. How are our children protected in this?

-This is another sad reminder that this government continues to put profit before people. Doing this only furthers the distrust of our officials and the systems meant to serve us.

-How can such mandates be imposed legally or conscientiously when residents have not been provided with long term results of the long-term safety studies, (because there aren't any.) - Clinical Trials for these "vaccines" have not ended and will not end until end of 2022 or sometime in 2023.

-There is large scale unease with concerns of personal safety, that of our children, that of our

community which have not been addressed and have in fact been ignored.

-This is gross abuse of power, control, and profit. The residents of Hawaii deserve better and will NOT STAND for further abuse of our rights, our livelihood, our safety, and our medical sovereignty.

First of all, this cannot be backed up by our amazing Constitution and the Bill of Rights. Secondly, This is still an experimental vaccine, one elderly, healthy, local man got his second shot and within 3 days was admitted into Kaiser and died within a month-no news coverage! I have several friends and family that have had injuries. My brother got his in April and has had severe joint pain ever since. My cousin had it in March, went to the hospital, almost had a stroke and now has had continual joint pain. My neighbor has had continual migraines, a friend on Kaua'i has had shingles every month since she received hers. Another neighbor and her cousin both have autoimmune disorders within months of their shots. My old roommate has blood clots and now has to be on meds forever. A nurse I know had her entire GI tract collapse and was in the hospital for weeks. She got it in January and still has major challenges. A neighbor's roommate hemorrhaged for 4 months. I know more people that have similar stories. The fact that I know ONE with a challenge is too many. This must be voted down.

I, as a private woman, do not consent to the unconstitutional practice of segregation against any members of society, be they residents of Hawaii or visitors to Hawaii. Science proves natural immunity is a viable and often stronger option for protection from the COVID-19 variants. As well, barring people who are healthy from businesses will seriously harm local businesses. The Chamber of Commerce, Honolulu branch, survey showed that 60% of business owners did not want vaccine cards or mandates stopping unvaccinated customers from spending money at their businesses. (<https://www.kitv.com/story/44610851/chamber-of-commerce-hawaii-survey-reveals-almost-60-of-businesses-wont-mandate-vaccination-for-workers>)

You are creating division and hate within our communities. You preach Aloha but this passport places one group of people over another and that is segregation. My family alone spends between \$150-\$200 each week at our neighborhood restaurants and shops. If you pass this, we will NOT eat out and will go back to cooking everything like we did in 2020. Once again our businesses will suffer. As leaders, you should be working for all people, not just the ones who agree with you. Please stop the madness NOW.

Mahalo for the opportunity to have my viewpoint recognized. I've been a health and wellness practitioner and teacher for more than 30 years. I'm a father, business owner and contributor to the Maui community.

I am deeply troubled by the proposed discrimination and effective implementation of segregation, invasion of privacy and forced medical procedures. Of course that's all the worse by the fact that I and my family have so little chance of being seriously affected by Covid.

Written
Testimony

Of course, there's also the fact that the experimental injection is clearly not stopping people from getting Covid or transmitting it.

Not only is there no benefit, there is potential harm. Worse than that, Hawaii is leaning into the possibility of Nuremberg style forced medical procedures in order to live normal life.

I write on behalf of myself and my family.

Thank you.

I oppose a digital or written health passport for participating in society for many reasons. One it lays down the framework for returning to a segregated society, where some people are privileged and others are excluded. Two it excludes those who have health reasons to not get vaccinated such as auto-immune diseases. Three it does not acknowledge those who have already had covid abc recovered like myself and who have active IgG antibodies. Four we are tax paying citizens contributing to our communities and do not deserve to be some excluded. I strongly oppose this measure. Give these vaccines do not prevent infection or transmission so those people can actually get sick and get others sick too. The choice to get a medical procedure, drug or a vaccine should be by choice not government force. Please do not do this. Limit tourism in barracks and go back to testing everyone including the vaxed.

This is unconstitutional and goes against my religious beliefs. I do not feel that this is right in any way. I should not be required to be taking any experimental drug. It goes against my freedom of choice. It violates my civil right.
It is unfair that pedophiles walk freely without having to carry any type of identification acknowledging their sex offender status but people must carry proof of vaccination passport! Does that really make any sense?

I am a single mother of 3 boys, I work at a dental office for 15 years. This mandate is out of control and people are being segregated. This is discrimination, a violation of constitutional rights, and HIPPA Compliance violation. There is Scientific evidence that the "vaccinated" hold a higher viral load, causing majority of the spread, why implement these segregation mandates ? if "non vaccinated" need to be tested so should the vaccinated NEED TO BE TESTED. EQUAL RIGHTS !!!! THERE SHOULD NOT BE A VACCINE PASSPORT EVER ...

Written Testimony

I am deeply troubled that our city is proposing to make legislation that is discriminatory by nature. Not only is there no data to support the effectiveness of such measures for the health and safety of the community, but it goes against data that clearly show that the delta variant is indeed spread by those who are vaccinated. Furthermore, there is no exemption for those who are able to prove they have immunity from natural infection. There is much data around the world that suggests those with natural immunity are less likely to contract, spread, or become seriously ill from the delta variant. There are many people who are medically unable to receive the vaccine and to ask a resident to show proof of a negative test is simply unreasonable and unrealistic. Additionally, this proposed mandate is not backed by any data showing that these places are in fact responsible for significant spread of covid in our communities. What is clear based on the data provided by the DOH, as well as other sources such as covidactnow.org, our hospitals are not overwhelmed due to space issues, but due to staffing issues. The hospital administrators and our state leaders and legislators have had ample time to solve this problem of staffing and there has been a major failure on their part. Rather than taking responsibility, or figuring out how to solve this problem, they are blaming the unvaccinated, and punishing the residents and business owners with unscientific mandates that will not solve the problem. It is also disappointing that our public health officials, and even Dr. Josh Green continue to push for vaccines (which will require regular boosters), rather than spreading information about the demographic of people who are at highest risk from the disease, namely, overweight and obese people, or those with other largely controllable health issues. I do not see these people encouraging healthy activities such as regular exercise and healthy eating patterns. Instead, they push vaccines without encouraging individuals to talk with their doctors first. We don't know how many people had an adverse reaction to the vaccine because of a health condition that would prevent them from taking it, but I personally know of two. You are asking, nay, demanding your constituents trust and obey you, but you are not acting in trustworthy ways. It is disgraceful to shame people publicly, and legislate discrimination against these people for having a

different opinion and personal Healthcare strategy. As long as we still live in a free country, we should have the freedom of choice. You are stripping away our freedom in the name of health and safety while doing nothing to address the underlying issues that got us here in the first place. I hope you will use common sense and scientific data in this decision as doing so will certainly demonstrate that this is not only unnecessary, but harmful and destructive to our community.

I strongly oppose this proposed "Covid health card" based on simple scientific and medical facts. Dr.'s, PhD's and scientists have come out and said that this Vaccination does not ward off Covid-19 or the delta variant that's run rampant and doesn't always lessen the symptoms. It doesn't make any sense to mandate something that needs boosters now because it's simply not working how it was intended to. Also, it's still a trial until at least 2023 and if some CHOOSE to be a part of the trial then that's wonderful for them, but if some CHOOSE not to be a part of the trial and wait and see how this all pans out, that should be their constitutional right. You cannot mandate an experimental drug. It is against the Nuremberg Code of 1947 that was established after WWII. HIPPA is still in place and that states that people have the right to keep their medical records private. That is a law. Getting vaccinated doesn't make you immune to the disease and you can still spread it, so doesn't that defeat the purpose?

Written Testimony You simply cannot mandate the vaccine. Please find the CDC quote against Vaccine Mandate Page 56, 3rd paragraph: <https://www.cdc.gov/vaccines/acip/meetings/downloads/min-archive/min-2020-08-508.pdf>

Vaccines take 7-8 years to test, not 7-8 months. This vaccine is for emergency use only and is not fully tested and approved by the FDA. FDA approved a different similar test that's not available in the USA. They do not know the short and long-term effects of the vax and many people still get sick and die even after taking the vax.

There are many vax injuries reported on VARES. This link is from the CDC website and will show you the vaccine injuries from the covid vax <https://www.openvaers.com/covid-data>

Cases are not deaths. Most people with a positive test have no symptoms. Plus, covid deaths, in the state, are less than the regular flu.

Our main issue started once more and more people started getting vaccinated and when you stop testing all incoming travelers into the state of Hawaii.

Please hear us and do not implement this “health passport”. It is discriminatory and unconstitutional.

I believe we should have a choice on our own health and it is unconstitutional to take that choice away from individuals. I don't understand why Hawaii doesn't count vaccinated individuals from only the eligible population, but instead we are counting from the whole population. We are way above 70% vaccination rate from the eligible population and it sounds like it is not a fault of unvaccinated people for the recent spike of the covid cases. Hawaii government should not punish unvaccinated individuals.

Written Testimony

I strongly oppose this digital vaccine passport program. This is a violation of human rights and there are already laws in place that protect us and our medical information for a reason.

My son is missing out on playing volleyball due to these vaccine mandates. He is not comfortable getting this vaccine and feels he will be singled out for not being vaccinated and having to test every week.

We already know vaccinated individuals can have and transmit the virus with out knowing because they may not show any symptoms. If you are requiring unvaccinated individuals to show a negative test, shouldn't the vaccinated individuals have to be tested as well to keep everyone safe?

How is it that our elementary schools are still open and operating at 100% capacity with all unvaccinated children being surrounded by vaccinated adults? If this vaccination passport was so important for our health and safety then wouldn't the schools be the FIRST to close and require distance learning again?

We should still have the freedom to choose to be vaccinated or not without discrimination and without having to release that personal information. It is our God given right to choose what we put in our bodies. I pray you look to Him when making your decisions today.

There is no long term data on the new Covid-19 vaccine because this is the first time it's been used on humans. My body my choice. Not every body is the same so there is no one size fits all medical treatment a or procedures. My medial status, history of medical status or anything to do with my body should be my choice. If I have some sort of health problems following a vaccine that is brand new, the maker of the vaccine can not be held liable.

Written Testimony

Aloha all. My name is David Jones and I am both a firefighter with the Honolulu Fire Department and a paramedic with American Medical Response. I have also worked at C&C EMS Honolulu and Queen's Emergency Department. Although I am neither a virologist nor epidemiologist, I have transported and treated many patients with communicable respiratory diseases such as tuberculosis, Covid-19, and influenza, and have participated in drills to transport & treat patients with Ebola Zaire, MERS, and SARS.

We are dealing with a respiratory virus where the majority of the viral load dwells in the upper airways. The current variant can be carried and spread by both vaccinated and unvaccinated parties because of this, and a "vaccine passport" would not only give those with it a false sense of safety, but segregate from society those that cannot take the vaccine due to religious or medical reasons. Furthermore, recent data shows that while the delta variant is more transmissible, it is also less lethal. The funds for developing and enforcing this system would be better suited in other areas as the majority of Covid-19 fatalities occur in people with comorbidities such as diabetes and obesity. If these people were to receive medical care and education to possibly reverse these issues, survival rates for Covid-19 and other infections would likely rise as well as the quality of life. I agree that we do need to keep looking for a solution, but the one being presented is not, in my opinion, the answer. Please reconsider.

Written
Testimony I am opposed to this because I do not believe that people should be treated as outcasts in society simply because they do not want to put an experimental, unproven drug in their body. If the vaccine was truly effective, then the vaccinated persons should have no concern if another individual is not vaccinated, therefore it seems unreasonable to me for vaccine passports to be a requirement.

First and foremost, I would like to thank our governor, lieutenant governor, and mayor for their service during these trying times. I believe you do not take your responsibilities lightly as you make decisions to improve the health and well-being of our communities.

Written Testimony

I am writing to you as a vaccinated speech-language pathologist in the Department of Education. I stand for the rights and freedom for all Hawaii residents to have a choice and access to vaccination. With schools back in session, the upsurge of COVID cases in the past month have been startling and alarming; however, I urge you to uphold your fellow neighbors' rights to decline the vaccine. With approximately 60% of our community vaccinated and the highest incidence of COVID cases in the state, there is no concrete evidence that the vaccine is helping to diminish COVID or the new Delta variant. Additionally, it is possible for vaccinated individuals to contract COVID. I do not believe the answer to establish safe and healthy communities is through vaccines. People may choose to protect themselves from COVID through other lifestyle changes to boost their immune system (ex. vitamins, exercise, adequate sleep, reduce stress, etc). It is up to each individual to decide how one will combat COVID. Coercion and instigating fear in the hearts of the people of Hawaii will only hinder people further from taking the vaccine. Our communities are stricken with fear and distrust in our government institutions. With contradictory information in the media regarding vaccines, it is no surprise our vaccination rates have increased modestly in the past months.

With that being said, I urge you to support the people of Hawaii by preserving their freedoms and choice to the vaccine. Implementing vaccine passports will not encourage people to take the vaccine nor is it the answer to slowing the spread of COVID. I appreciate your time and consideration.
