Representing Self  
Organization

Aloha,

Written  
Testimony

I am writing this today in strong opposition to vaccine passport mandate. At the core it is unconstitutional and disregards individual freedom to chose for ones self. On July 4th 1776, our founding fathers signed a document called the Declaration of Independence. This document stated that we the people, have the right to Life, Liberty, and the Pursuit of Happiness. A vaccine mandate would take an unvaccinated persons right to Liberty and the Pursuit of Happiness. This vaccine passport mandate stands against the values on which this nation was founded.

Mahalo and thank you for your time,  
Landon

### Written Testimony

I oppose any mandate to supply a business, person, official, etc., with a vaccine passport or anything like it. We have an inalienable right to privacy. Demanding proof of test or vax is a massive overreach of government and completely uncalled for. People who cannot or will not get vaccinated and can't afford, or gain access to tests will be outcast from society. Businesses will suffer. Mental health and relationships will suffer. The fabric of a peaceful society will be torn. I stand for freedom.

To Whom This May Concern:

I strongly OPPOSE  
RESOLUTION 21-194. It is both in violation of Human Rights and the Rights of  
Indigenous People.

I am writing to ask you to oppose  
RESOLUTION 21-194 swiftly and without considering any amendments as there is no  
Written Testimony amendment that justifies the separation of the citizens of the United States.

We all have the right to freedom of movement (Right to Travel)  
Rights shall NOT be converted into privileges.

“We hold these truths to be self-evident, that all men are created equal, that they are  
endowed by their Creator with certain unalienable Rights, that among these are Life,  
Liberty and the pursuit of Happiness.”

Due to COVID-19 we in the State of Hawaii find ourselves in the middle of a pandemic but in reality I believe we are in the middle of a war. I say this because when I look around me I feel I am observing firsthand the slow and systematic taking down of a once free society. Because of COVID-19 and the issues surrounding the vaccine I am having to fight - for freedom of choice, for freedom of speech, for freedom of my most basic inherent rights.

I oppose the vaccine passport because it discriminates. Also the discrimination appears to be based on a one dimensional narrative - that the vaccine works and that the vaccinated are protected. Note that the CDC has had to come out in recent days to correct itself in its' ever changing narrative. The onset of the booster shot also begs the question - is the vaccine still effective? But rolling out a vaccine passport would seem to affirm the efficacy of the vaccine I'm guessing.

### Written Testimony

I oppose the vaccine passport because it elevates the vaccinated to the level of a protected class. Can you tell me that the vaccinated do not feel a sense of entitlement as they walk into establishments where their lesser unvaccinated brothers and sisters used to go? There are reports of forged vaccine cards too - people willing to risk stiff penalties in order to maintain their social status and social proclivities.

I oppose the vaccine passport as a form of government overreach. I have heard where the unvaccinated in France have been turned away from being able to purchase groceries in the grocery store. I have heard where children are being separated from their parents who choose to remain unvaccinated. How long will it be before the restrictions under the vaccine passports extend to the more basic universal needs? Time will tell.

In the meantime the fight continues. You will not find the vaccinated before you - for they have made a decision which is in lockstep with the establishment. But the unvaccinated who

---

stand before you do so because they can no longer remain silent. We stand for liberty. We stand for justice. But most of all we stand for the truth even if it is a hard pill to swallow.

Thank you

### Written Testimony

I strongly oppose this bill, because it is taking away my right to choose for myself. This virus has NOT changed the death toll in this country. We are just calling these deaths by a different name. We have a right to choose to get the flu vaccine, and this should be no different. I am currently pregnant, and claiming that enough research has been done to make me take a vaccine knowing it could have a life threatening effect on my unborn child is outrageous. If we all have to continue to wear mask, and they work, then why do you need to know if I'm vaccinated or not? I have the right to go out to dinner and enjoy a meal without being required to prove I'm not "sick" and the worst part is, you can still get the virus if you have the vaccine. So maybe I don't want to be near vaccinated people because they could spread it to me just as easily? Any of this making sense as to why this is so ludicrous? I sure hope so because it is all completely nonsense.

I am extremely opposed to this bill!  
This is discrimination. How can you discriminate towards a person who has contracted Covid and recover. Their immune system is now stronger against Covid than anyone with their 2 shots and a booster.  
Written Testimony This is discrimination against healthy asymptomatic unvaccinated US citizens. WHO is against testing healthy people.  
There are other treatments for Covid. Vitamins A, C, D, zinc. This state could be using the Covid relief Funds to give proper medication to the public.  
Do not put this bill through. This is against America!

### Written Testimony

Given the evolving science on the virus as well as the efficacy of available treatments and vaccines, why are we not putting more energy and resources into access to quick and accurate testing for events/settings of concern? This policy is inequitable, anti-aloha and anti-ohana as it fosters and breeds division in our families, communities and further mistrust of government leaders. Please stop polarizing our community. The fact that three cities in the entire U.S. have implemented similar policies does not mean this is right for our Hawaii. There has to be another way and I implore you as OUR to think beyond these types of divisive initiatives.

I am opposed to this bill. Currently many people who are not willing to take this vaccine are not anti-vax or against vaccinations. Most people are afraid because of the lack of data and research surrounding this vaccine. Vaccinations usually go through 10-15 years of testing and research before being released to the public. Whereas this vaccine has been developed in less than a year.

Instead of punishing citizens and pushing them into a corner where they have to inject something they're not comfortable with into their body, why not be transparent with the data and allow people the freedom of choice. If the data can show it is effective and will pose little to no medical risk, imagine how many more citizens would get vaccinated. But when all you do is bribe and punish us, why would we feel more confident in taking this experimental drug.

### Written Testimony

There is no reason people should be denied work for not taking this vaccine. There's no reason anyone should be turned away from any business or why any business should have to turn away a customer due to their vaccination status.

The excuses that are given to support this bill are shallow and not based on fact. The CDC Website states they are still undergoing research to see how the vaccine affects transmission rate. If we can't even prove that this vaccine is effective in stopping the spread of COVID-19 why should we be punishing our people for not getting it. If we have seen that many people who have already been vaccinated are still getting Covid how can you say it stops the spread.

I am vaccinated. But I am appalled at this bill and how anti-American it is. Stripping us of our rights and our freedoms is a disgrace. If we continue down this path, pick up a history book, read about how corruption like this leads to tyrannical governments and watch it unfold once again.

To: Mr. Waters and Ms. Kia'aina  
and all City Council members

Written  
Testimony

This is a very sad day for our island state that we have to come to the so called table to give testimony on something that is so blatantly anti-Aloha. As a state that has a high population of many people of color this Resolution boggles the mind. Upon hearing Mr. Blangiardi's press conference yesterday, I realized that you, the elected officials have learned nothing from our historical past. As a person of color, born and raised in this state it brings me great sorrow that my children and I will be living in the same type of Segregation that my grandparents marched almost 60 years ago to obliterate.

When an elected official comes out speaking about future policies that will separate the population based on something one has or doesn't have... those policies can only be classified as SEGREGATIONIST! Is this where we've come?

You all say that this is about "public health" but I beg to differ. As a mother of a childhood cancer survivor, I know a thing or 2 about fighting for health and survival. In my daughters case, I exhausted every tesource and avenue to strengthen her immune system from the battle she had to fight. Chemotherapy was tough and we watched many of her friends suffer ill effects of it on their little bodies. But, again we used every tesource available to preserve her health. Have you used every resource to help the public preserve their health? I think not! The only option that you all have espoused is vaccination.

I'm not a scientist, but I am literate enought to read and understand facts. 1. Recent studies out of Israel are showing that the fully vaccinated are being infected w/ the Delta variant at a higher rate than those who have not taken the vaccinations. 2. If you've already had and recovered from Covid, the Israeli study also found that you have 13x more ROBUST Immune response than those who are vaccinated. 3. As Michigan Microbiologist Christina Parks testified that the vaccines were not "designed" to prohibit/ prevent infection and transmission, rather only attenuate symptoms.

---

With these facts, and with your concerns about public health, ALL TOURISTS should be tested before entering our islands. Vaccinated individuals should basically be considered unvaccinated, and we should be searching for ALL methods of treatment to deal with Covid 19, NOT JUST VACCINATIONS!

So based on what you think the vaccines should do, you are willing to bring back SEGREGATION! DHAME ON YOU ALL!

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I am writing my testimony to oppose RESOLUTION 21-194. As a vaccinated person, I am here to speak about the Covid-19 Mandate. Mandating any vaccine, including Covid-19 should always be a health/medical choice. Nobody should be walking around with a Covid-19 passport to show proof of their private medical record in order to participate in society. Especially when many of these places are beneficial for ones mental and physical health. Suicide rates will increase, depression will Increase, and mental instability will increase. That will be on your hands. You will be responsible for causing segregation within our island and community.

Written  
Testimony

While it was my choice to get vaccinated, I can still catch Covid and pass it to someone else who is also vaccinated!! Vaccinated or not... both can catch Covid so how does showing vaccine passport decrease Covid from spreading when vaccinated people are still able to give it to another person. Why is it that we have to show a Covid-19 vaccination passport OR Negative test? Everyone should be showing their negative test due to vaccinated still being able to pass Covid to another person. This does not make any sense!

This is also unsustainable as many will order take out which means more and more trash filling our planet. All the hard work that nonprofit sustainable organizations have done to decrease trash is all thrown out the door.

In addition, now small businesses are going to be punished for not complying as if they weren't punished enough already due to shutdowns. This mandate will destroy many local hard working small businesses while big companies like Target, Walmart, & Costco will thrive! Thrive with money, thrive with packed people, and thrive with Covid being passed around like wild fire.

---

I oppose RESOLUTION 21-194 as a vaccinated person living in America... living in a FREE country.

### Written Testimony

It is abhorrent for me to think that anyone in a free state, in a supposedly free country, would have the audacity or stomach to propose "a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation." Not only does this support forcefully, in order for citizens not to lose their livelihood and freedom of movement, getting injected by an experimental, not-approved-by-the FDA chemical substance into the citizens of Hawai'i, but it intends to create a segregated society. It is the equivalent of branding a portion of the population with a star or other symbol or depriving them of rights based on the maintenance of their God-given, Universal and Constitutional right to bodily integrity and the freedom to decide how to safeguard their own health and what substances to allow into their own bodies. This has historically and in today's well-known dictatorships like the PRC been the standard operating procedure to keep citizenry obedient, docile, and bereft of basic freedoms and human rights. Is THIS the kind of state we live in now??? A dictatorship? Anyone who has the gall to propose segregating and controlling the population in such a manner, while taking away the individual liberties of citizens living in a Constitutional Republic should be ashamed of themselves.

The CDC showed with its own numbers that the current variant infects vaccinated people, and vaccinated people “have measurable viral loads similar to those who are unvaccinated and infected with the variant.” Vaccinated people get and transmit the virus. Studies from Israel seem to suggest that those with natural immunity — having contracted and survived COVID — have more protection from serious illness than those who are vaccinated, especially those who were vaccinated early. Other studies from Israel show a waning effect of the vaccines, thereby boosters are needed. And how will that be monitored.

### Written Testimony

These findings seriously complicate the medical rationale for segregating people based on their vaccination status alone. Australia’s government had hoped that a vaccine passport “would give us all confidence to actually engage in a lot of these broader activities that maybe we’re a little bit nervous about at the moment.” But arguably a person with natural immunity — even if unvaccinated — is safer to be around. If vaccinated people can become infected rather easily and spread just as widely, the vaccine passports don’t contain the spread. Vaccinated people will likely get less sick and overcrowd hospitals — though the waning effect of vaccination is worrisome on this note — but vaccinated people may go from their roped-off events and spread among the unvaccinated in other, less-restricted contexts.

### Written Testimony

I oppose anything that keeps me from being a free citizen of what should still be a free country. Yes Covid has affected us all, some to their ends. Yes people can protect themselves if they feel they're at risk. But when did it become a law or mandate that individuals **MUST COMPLY** in effort to save the next person? Why aren't we mandating education on the immune system & how to properly care for ourselves. If the "at risk" are **AT RISK**, then they need to take their own precautions. Stop making me responsible for someone else's health. If people are fearful, let them stay home, let them take the shots & be fooled (the shots aren't keeping anyone from getting sick). That is the biggest codependent act ever brought about in the history of time. Furthermore, no one should be restricted to travel freely, **EVER! OR LIVE** freely unless they take this shot which contains **KNOWN TOXIC** chemicals. I am allergic to the toxins & the serums. See attachment from a chemical in the shot, SM-102. It's the safety data sheet for that Chemical. If a chemical can cause the things outside of the body, imagine what it does once injected into the body & penetrates the cell membrane. I'm allergic to PEG, another chemical in the shots. It's the chemical that opens up the cell wall to allow the other chemicals to absorb. Freedom of choice. Vaccine Bill of rights (which mysteriously is hidden now from google searches). Freedom of bodily autonomy. The CDC said 2 week to flatten the curve. They said masks work. They said the shots work & would create herd immunity. They said 6 ft would work...wash hands etc. None of it is working because this is a bio weapon in the form of a parasite... Why else would Ivermectin be curing more people than the hospitals?? This resolution is anything but. It's tiereny, a crime against humanity, human & civil rights. Its plainly, wrong. No to mandates or laws governing our health. Its an individual choice & should stay that way. For the love of all that is sacred to humanity. Please no. Freedom to move freely, traveling & for viaiting & working in business establishments of all kinds.

I whole heartedly oppose resolution 21-194. Restricting who can participate in daily living activities, including the ability to earn a living, exercise, and eat where we choose, due to their beliefs impedes on each of our freedoms as citizens of this community and this country. America is not a country that takes away its citizens' rights to participate freely in society because those in a position of governance do not agree with the choices that individuals are making.

Written Testimony This mandate to restrict access to OUR businesses is punishment because those in power are furious that some of us are not willing to comply with things we believe are wrong. We as American still have the right to freedom to choose how to live our lives. Eliminating our freedom to participate freely in society unless we "comply" is dangerous, and sets us down a path that is difficult to come back from. Do not take away our freedom. Our right to have autonomy over our bodies and choices is a fundamental part of being an American. Taking away public freedoms leads to dangerous outcomes. Please oppose this resolution, and uphold our right as American citizens to participate freely in the community that WE have built and WE support.

This is enough!

The "vaccine passport" initiative is a violation of our constitutional rights. The entire government system including the governor, lieutenant governor, mayor and now City Council members Waters and Kia'aina are using fear, abuse of power and ignorance to segregate, discriminate and alienate our community. This is NOT what your constituents want or need!

Written  
Testimony

Vaccinated or not, this is not the way to go about solving this crisis. Banning unvaccinated individuals from employment, access to establishments, or the right to live without discrimination is not the correct answer. This is not pono, this is fear. This is fear manifesting itself as control. As in if we implement "control" over these individuals then maybe we can solve the problem or better yet make them go away. Instead of trying to implement yet another law that drives people apart, stop and think what should we do to bring the community together and bring back pono. It's easy to make a law that puts one group of people over another - people have been doing it for centuries (slavery, voting rights, land ownership, water rights); but where has it gotten us. Worse off, what are we teaching our keiki. I don't know what the answer is to this covid-19/delta variant issue is. But I do know it's not the continual injustice and outright discrimination of a group of people.

I oppose this resolution! I'm saying this enough. Find another solution!

I am vaccinated. I believe it's part of me loving my neighbor and being good citizen.

However, I firmly believe that what we put in our bodies is the personal domain of the individual, and cannot and should not be mandate by the government, federal or state.

Written Testimony I firmly opposed the covid health card measure suggested by resolution 21-194 as it would violate individual freedoms protected by our constitution. If such changes to come into effect I will oppose them with all available means so that the rights of my fellow citizens are not infringed.

Thank you for your consideration.

Written Testimony I oppose with my family against this mandate  
I choose freedom of choice of what I think is good for my family  
Government can't tell me how to take care of my health  
This whole mandate doesn't make sense  
People with the vaccine are still getting covid and transmitting covid... it's crazy to me  
that people that have the vaccine don't need to get tested only the ones that don't have the  
vaccine  
Thousands of tourists are arriving everyday to the islands if they are vaccinated they don't  
need to get tested and can be carrying the virus and contaminating us here but that's okay  
If the hospitals are getting overwhelmed then maybe it's time for another lockdown not  
just for the residents but also it means no tourists arriving  
But not make mandatory to everyone to get vaccinated or they won't have a life anymore

### Written Testimony

I grew up in the Chinese communist regime and eyewitness how Chinese people suffer emotionally, physically and financially when the government controls everything and people's right and freedom are not respected. My worst nightmare is US one day become like China. Therefore, I strongly oppose the vaccine mandate and vaccine passport. Those were already carried out in China. It is already proven that this kind of policy only help increase the control of the government over the people and make people feel more belittled and powerless. This kind of policy is equivalent to force the jab on people and violate their consciousness. America who has been upholding the torch of the democracy should not operate just like the communist country. The government, which is elected by the people, should not take away, but protect the right and freedom for them. Vaccine passport should not happen in a democracy country.

### Written Testimony

As a Citizen of the United States of America our ForFathers saw such an invasion attempt from within. As a result they wanted to keep "We The People" safe from this kind of invasion, and in this case from WITHIN. The First Amendment protection of privacy is greatest when the invasion of privacy occurs in the home or in the other places where an individual has a reasonable expectation of privacy.

What is the right of privacy in law? The right NOT to have one's PERSONAL MATTERS DISCLOSED OR PUBLICIZED; the right to be left alone. The right against undue government intrusion into fundamental personal issues and decisions.

Why? The result of this kind of operation(digital vaccine passport) will cause an automatic prejudice towards others, isn't that right. It is divisive, it is instigating conflict and chaos, right(is this the goal?).

And we know, and that includes you legislators, Governor, Mayor, State Health Leader, ... that the "shot" is not safe. We the people know that the legislators are exempt from taking the shot, WHY? Because they know the shots are not safe.

\*Over 12,000 people have died(no autopsy is being done=science, real data, real examination) from and counting(all ages), inflammation damages in the heart with children that scars the heart for life, over 100,000 people have side affects that are non recoverable.

\*It is not needed" - there are protocols that are being successfully used by we the people. Supports like Vit. D3, Zinc, C, Ivermectin, Hydroxy, that helps to keep peoples immune system strong so that they have not succumb to the C when they get/got it. I know people including children, who survived the C attack w/o any support including Doctors/Govt. Leaders, who spoke to them on the phone, who told them go home and stay quarantined.

Hmmmmmm

\*It is not working - if the shots worked then why has the C not stopped and please do not say because it has morphed into something else. If it has morphed(delta variance has escaped the vaccine) then your shots will NEVER resolve the problem, will it. It will be like chasing a rainbow, thinking you will get to the end of it ... chase all you like BUT YOU WILL NEVER

---

REACH THE END OF THE RAINBOW (large for emphasis-not yelling), so stop this  
invasion of privacy now because we all see & know what you are really doing ...  
Remember the 5th Commandment is - Thou shalt not KILL  
Mahalo nui

Written  
Testimony

I write you today with grave concerns regarding the potential mandate of so-called “vaccine passports” in the nation and possibly in our state. Today we ask that you do everything in your power under the law to prohibit “vaccine passports” from being required to enter, enjoy, and move about our beautiful state. It’s a violation of our freedom and our medical privacy

Written Testimony I am strongly opposed to this bill!  
This is discrimination! This is how the Nazis got started. Nazi Germany called the Jews dirty. This bill is calling the unvaccinated dirty. Same/Same!  
What about US citizens who have had Covid?  
Their immune system is now stronger than a vaccinated person. You are discriminating against people who have a strong immunity.  
Show your papers is wrong!!!!

Written  
Testimony

I'm speaking on the behalf of MANY. You are committing an unlawful act against the citizens of Hawaii. Numerous community members have spoken about the challenges and damage we have done to the everyone in the community through coercion - masking, testing and vaccinating. You chose to ignore us all. This is no longer about covid. This is about the trampling of our rights and your criminal actions. We've also fought against the state wide mask mandate which grants no authority to the director of the Hawaii Dept of Health to issue or enforce mandatory mask orders. And yet you persisted and enacted a mask order (though you call it guideline) and threatened families with no access to school or sports - or isolation if they don't comply. Now you are trying to restrict access to other other recreational (and eventually to essential) businesses. By doing so you have denied our unalienable rights as a person and as an American. You have committed a crime against the constitution and it's laws and you have defied your oath of office. Any official who willingly contributes to the act of creating, presenting or enforcing statutes that appear as law that violate the natural and fundamental rights of the people is guilty of waging war against the people and is in violation of their constitutional vote. In addition, any statute presenting as law that violates our fundamental rights is in fact a no law from the moment it is written - no one can enforce it and no one has to abide by it. You - in an unlawful act perpetrated abuse on the people of our community and ignored the mental health consequences. We all know that you have no intention of lifting this unlawful mandate. As an official of a governing body your job is to protect our rights not take them away. We are submitting this testimony to address your having violated our constitutional rights and the criminal activity you have done as you've ignored national and state laws as well as your own internal board polices - along with the oath that you've desecrated. The remedy is that you cease all further efforts to restrict movement and social engagement of people and oppose vaccine passports.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

### Written Testimony

This Resolution is discriminatory toward those who do not want to get the vaccine for whatever reason. When in history was government ever used to coerce people to do some thing, like this. Especially when employees are so hard to get right now, this would make it even harder for businesses to hire. If the government is mandating vaccination, which I totally disagree with, on the other hand it should provide for testing for those who do not want to be vaccinated, and without punishment and impugning behavior. There should also be a way for those who have had Covid to prove that they now have antibodies. This resolution would further destroy our economy which is already weak.

Written Testimony Aloha,  
I hope this is the correct forum.  
Thank you for taking testimony.  
Regardless of what you think about the safety and efficacy of the vaccine, mandating it, and creating health passes, is a massive overreach of your power.  
You will be sued by businesses, residents who are forced to move, and other concerned parties.  
You swore an oath to the Constitution, and this would be in direct opposition to that oath.  
Look up what Benjamin Franklin said about safety and liberty.  
Think deeply about what you are proposing. When you are in doubt, you must err on the side of individual liberty.  
Do not attempt to force your ideas of right and wrong on the populace.  
Let. Freedom. Ring.  
This is still the USA.  
Thanks,  
Victoria Ng

Written Testimony A Vaccine Passport is a violation of our United States Constitution al rights as well as a violation of the Nuremberg Code. Hawaii will be severely damaged by a dictatorial mandate such as this . There has been NO consideration of the outrageous number of deaths and horrific adverse affects caused by this vaccine. The choice to take the vaccine or not should be just that, A CHOICE. You will be held responsible by the people of Hawaii for the extreme economic disaster that this Vaccine Passport will cause and the devastating health issues and deaths that this vaccine will cause by mandatory action . This is still America. We are free people not controlled by dictatorial decrees.

### Written Testimony

This is unethical and illegal to mandate a vaccine passport. How can you propose a vaccine passport for private industries to restrict individual access to employment , certain business establishments, and other venues and places of public accommodations when there are so many individuals who have never received a vaccine in their life? It's hard to comprehend how no other vaccine is mandatory, and the Covid19 vaccine is. Whether you are vaccinated or unvaccinated you can spread Covid. Whether you are vaccinated or unvaccinated you can die from Covid. What I don't understand is vaccinated or not you can spread and die from covid, but if you have the vaccine you get privileges and if you don't, you get your rights taken away from you. Vaccines need to remain voluntary or you will be committing a crime against humanity.

What happened to the "My body, My choice?"

I, David Cunningham STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

This Resolution moves us one step closer to biomedical apartheid, infringeing on the rights, responsibilities, and liberties of a free and independent people and society. The blatant government overreach disrespects and disregards the sovereignty of our individual freedoms, including the basic freedom of movement, while doing little to nothing to prevent the spread of COVID-19.

### Written Testimony

Businesses have the freedom to create and enforce their own COVID-related policies at their discretion, leaving it up to the citizens to vote with their dollars, exercising their right to patronize these businesses, based on their own preferences and judgments regarding the establishment's COVID-related safety measures and mitigation policies.

While the vaccines are widely available to those who want them, these experimental shots have proven to be ineffective at stopping the contraction or transmission of the virus. Restricting asymptomatic, unvaccinated people while allowing vaccinated people to move and interact more freely, has led to spikes in cases and breakthrough variants among the vaccinated, with many of them demonstrating little to no concern for those who they may be spreading the virus to. Restricting asymptomatic, unvaccinated people from participating in society will do nothing to reduce cases, while directly infringing upon their rights.

It is scientifically well established that the broad-spectrum, natural immunity of those who have had COVID-19 is far more effective than the fragile, single-spike-protein-specific "immunity" provided by the experimental vaccines, yet this Resolution ignores the science,

---

and provides no provision for those who poses broad-spectrum, natural immunity. This glaring omission further demonstrates the blatantly discriminatory nature of this unconstitutional Resolution.

Let the people manage their own risks per their own preferences. With growing evidence of the rapidly failing efficacy of these experimental vaccines, a mandatory vaccine passport does nothing but damage our economy and undermines our trust in local government.

The city of Honolulu must allow the citizens to make decisions for themselves, their families, and their businesses. Let the people and local markets determine the response to this pandemic. This Resolution represents an unconstitutional overreach of the government that will severely damage the community, while providing no protection from a rapidly mutating COVID-19 virus.

Written  
Testimony

The information that I have is that the vaccines have caused deaths and a multitude of health problems including paralysis, blood clotting, myocarditis, stroke, parkinson's disease, heart attacks. Information Congress from the CDC site for vaccine adverse events reporting system, VAERS. These vaccines have the effect of poisons in the body. You have no right to require me to poison myself to fulfill a public agenda. You do not have my consent to inject and experimental drug.

No Vaccine Passports. I oppose our Government mandates that remove our rights to choose. This is all about government control and power over the people. You represent us and took an oath of office. Look into successful treatment of Covid. Stop promoting a vaccine that requires multiple shots, boosters with harmful side effects and possible DEATH. Instead find a treatment that will combat and fight Covid with drugs that's been proven success.

### Written Testimony

As a medical professional I vowed an oath to do no harm. I strive to have a patient centered approach and make medical decisions with patients informed consent, increasing patient knowledge and respect the patients decisions.

I serve an underserved population and discuss risks and benefits with patients daily, allowing them to make an informed decision with them knowing I support their decisions.

However, as a medical provider my right to informed consent is being stripped or face termination and social isolation. Or to buy my social freedom and my job at the cost of losing my right to informed consent and personal medical decision making.

I am being forced to choose taking a vaccine that I strongly believe is not for my body and the risk of harm out weights the benefits. However, in order for me to keep my job, provide for my family and be able to simple daily activities such as workout at the gym or eat lunch at a restaurant I have to succumb to a mandate that violates everything I stand for as an American and a medical provider in order to buy not only my social freedom but but my job, my livelihood by taking a mandated vaccine.

I strongly oppose this mandate as it violates our constitutional rights.

### Written Testimony

Aloha,  
I am in opposition of this vaccine passport mandate. I have a friend who died after taking this shot, and my sister in law has had to wear a heart monitor every since she took the shot, three months ago.. It is unjust and promotes segregation, discrimination and public shaming. This is not the "Aloha" way of life. It is not pono and no one should have to face an ultimatum for basic human rights. This bill is forcing people to inject themselves with an experimental shot that has no guarantee of true benefits against the virus, yet risking the chance of major life changing side effects with no accountability or responsibility of those enforcing this mandate. I am not pro or anti vax, I believe in free choice. If someone feels safer taking the vaccine and are aware and ok with the risk, then they have every right to do so. If someone chooses not to get the vaccine because they want to wait for enough evidence of its safety and benefits, they shouldn't be forced to go against their will or values. This is a dangerous bill that will impact the future peace and Aloha of this beautiful place we get to call home.  
Respectfully,  
Linda

Written Testimony

This vaccine passport is not constitutional. I have the right to not only chose the place I want to go, but to have the ability to access and go in those places at my own free will during hours of operation. This vaccine passport requirement is tyranny. I strictly oppose this vaccine passport. I shall not be denied my basic constitutional rights.

Organization

I wholeheartedly and strongly oppose this mandate. It is shameful we've required our first responders, the ones who put their lives on the line each and every day, to take a none FDA approved vaccine or risk losing a job they have dedicated their heart and soul to. They've committed themselves to the betterment of our community and we meet them with an ultimatum; take an experimental drug or your job, regardless of all your hard work and dedication to our people, is gone.

The real problem is that we have multigenerational family living situations that have nowhere to quarantine as they did last year. Hotels were closed last year and made available for those who tested positive to properly quarantine themselves. Now that we've opened up the state to visitors, those quarantine options have been stripped.

Written  
Testimony

Not to mention the Lt. Governor aggressively and publicly demonizes those who are not vaccinated (literally saying they are "deeply disturbed") and continues to strike blame on those who have not gotten the vaccine. He does, however, leave out the possibility that those who are vaccinated and the over 900,000 visitors that came this summer may also be responsible for the spreading of COVID (since none of the vaccines prevent transmission).

It is a federal offense to ask why someone needs a service animal, but now we are to demand to see physical proof of the medical choice you made or were forced into by our own state. All of this, and we have some of the lowest numbers in the country.

This mandate serves to divide the people of Hawaii. It serves to create fear and hate. We will not be made to be afraid of one another and we will come together to overcome this.

### Written Testimony

Aloha Honolulu City Council Members,  
I humbly ask you to reconsider passing this vaccine passport bill. I am devastated that our government is on the verge of instituting such a law that would harm our Hawaii in so many ways. A vaccine passport will create a two-tiered society, with first class and second class citizens. And there should never be any second class citizens! That is pure discrimination and is legally and morally wrong. This will rip our community apart ever more than it already is. This will also psychologically damage our children to believe that they are not “good enough” or “clean enough” or “healthy enough” to enter into certain places. And that is a heinous thing to do to anyone, especially children. Do not push good citizens to the verge of frustration and desperation. If you institute a vaccine passport and limit people’s freedoms, I envision a major uprising and civil disobedience in our city and around our state. People are getting beyond angry and this will light a fire that will not be able to be extinguished. Freedom is worth fighting for and even worth dying for. Heed the warnings from so many concerned citizens - good and decent people who could be your neighbors or fellow parents from your children’s sports teams. Right now, we need unity and wisdom from you, our elected leaders - not coercion, tyranny and more division. There are other, more free and fair ways to handle the virus. The people of Hawaii are creative and smart! With God’s help, we can find a way forward that will benefit everyone. Be bold and courageous. Please hear the heart of your people.  
Mahalo,  
Max Fowler

### Written Testimony

I strongly oppose vaccine passports of any kind. Vaccine passports would be discriminatory especially because we now know the vaccinated can and do spread this virus. Vaccine passports will only serve to hurt and destroy small and local businesses that have been the foundation of the Hawaiian islands and keep the culture alive. Please reconsider vaccine passports before you destroy these islands and force Hawaiians off their own land.

I, Mike Wong STRONGLY OPPOSE Resolution 21-194;  
URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO  
IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER  
RISK OF TRANSMISSION OF COVID-19.

Written Testimony The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Written  
Testimony

I am strongly pro vaccine and I think we as a society should encourage its citizens to educate themselves on the benefits of the covid-19 vaccines. That being said, resolution 21-194 is overstepping the scope of power of our government and is a dangerous and slippery slope. We need to focus our efforts on positive education and positive incentives for the public to get vaccinated, and not oppressive and difficult to enforce laws that challenge the spirit of American freedom. This law, if passed will only exasperate the growing movement of distrust in our government, and enrage a growing group of citizens who feel like the government is leaving them behind.

### Written Testimony

Medical choices should be just that, a choice. It shouldn't be a mandate and the government shouldn't be scaring businesses and employees into getting a vaccine. You will ruin the economy with this, worse than it already has been. Stop trying to take away our freedom and our natural rights. Stop trying to make it so hard for people to work and feed their families and just LIVE! Although you, Mayor, have already spoken at us with your decision, I oppose. I hope that you find it in your heart to figure out another way. Vaccine passports will NEVER be okay.

### Written Testimony

My children and I are not able to have these vaccines. Vaccines, medically speaking, do not prevent transmission of the diseases (the amount of vaccinated people in the hospital proves this). Since the vaccine does not prevent transmission, then unvaccinated individuals pose no threat to the general public. To pass this bill will be needlessly discriminating against those who are medically or religiously unable to vaccinate. This bill will not protect anyone- but be a dividing factor in our community, and discriminate against the vulnerable (those not medically approved to take the vaccine).

**Written Testimony**

Not my words but saying exactly how I feel. Pease oppose this resolution.  
"I strongly oppose this bill. This bill will violate civil rights laws protecting someone from discrimination especially the 14th Amendment. The 14th Amendment to the US Constitution states..."No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."  
This law violates my right to liberty, abridged my privileges as a citizen, and deprives me of my right to due process of law, and denies the people who do not want the vaccine equal protection of the laws.  
This bill egregiously violates the basic fundamental rights guaranteed by the highest law in our land. If the City of Honolulu proceeds to pass this bill, YOU will be acting in direct opposition to the vows you have taken to uphold the Constitution of the United States. This is unconscionable and you should be brought up on charges if you pass this bill"

I strongly oppose this bill.

It's a terrible idea that deprives American families of basic choices. My view of the vaccine is simple: I'm thrilled we have it. But the truth is that we don't know the long-term risks, or effects.

Note:

Harvard Epidemiologist: The Case for Vaccine Passports Was Demolished

A newly published medical study found that infection from COVID-19 confers considerably longer-lasting and stronger protection against the Delta variant of the virus than vaccines.

Written  
Testimony

"The natural immune protection that develops after a SARS-CoV-2 infection offers considerably more of a shield against the Delta variant of the pandemic coronavirus than two doses of the Pfizer-BioNTech vaccine, according to a large Israeli study that some scientists wish came with a 'Don't try this at home' label," the Scientific American reported Thursday. "The newly released data show people who once had a SARS-CoV-2 infection were much less likely than vaccinated people to get Delta, develop symptoms from it, or become hospitalized with serious COVID-19."

Put another way, vaccinated individuals were 27 times more likely to get a symptomatic COVID infection than those with natural immunity from COVID.

Written Testimony I believe in the freedom of choice. The Bill of Rights of the US Constitution guarantees individuals like me the right to personal autonomy. The decisions on my personal life is none of the government's business.  
Mandating a vaccine for government and city workers and eventually everyone for the welfare of society sounds good at first glance. But it starts to chip away at the individual's fundamental right to choose which has made the USA the standard bearer for freedom. So what is the next mandate? Forcing everyone to take boosters every 2, 3, 6 months? Make it illegal to enter a grocery store for the unvaccinated? Depriving the unvaccinated their basic human right to feed themselves because they are not allowed to enter a grocery store to purchase food?

My name is Anuhea Maeda and I strongly oppose this resolution. I understand the councils' desire to protect the citizens of Hawaii but this is not the way to do it. This is segregation and discrimination at its finest. How can we be the Aloha State and not treat everyone, including our own citizens, with aloha?

### Written Testimony

The CDC director and the WHO have put out statements acknowledging the spread of the Covid-19 virus through vaccinated people. There was even a paper put out by the Oxford University Clinical Research Group that found that vaccinated individuals carry 251 times the viral load of Covid-19 viruses in their nostrils compared to the unvaccinated, making vaccinated individuals virus super spreaders. This is not to say that no one should be vaccinated, this is just to show that the vaccinated are just as capable of spreading the virus as unvaccinated, so to discriminate against one group is unfounded, bigoted, oppressive and will not produce the results you desire.

Mandating that businesses enforce these regulations puts an added burden on an already struggling economy and makes private businesses, that have already suffered from the shut down, an uncompensated arm of the government.

The resolution has no credible studies to back up its proposal. It is oppressive, discriminatory, tyrannical and violates the oath you swore to protect when you entered into office. Wherever there is risk, there must be choice.

I urge you to vote NO to Resolution 21-194.

Thank you

### Written Testimony

My dad was diagnosed with A.D.E.M in 2001. At the time he was not sick and in very good health; an athlete. His doctors never concluded how this happened. He did receive a meningitis vaccine one month prior to slipping into a near death coma and waking up paralyzed and with brain damage.

A.D.E.M. is the second item listed on possible adverse reactions from covid-19 vaccine via FDA website. (page 16) I hold sacred my CHOICE in deciding what is right for my body and I should not be discriminated and now segregated from society because of that choice. Medical freedom is a must. Please respect everyone's right to choose by not segregating them. History has surely taught us no matter the reason, it is never okay.

### Written Testimony

Dear Honolulu City Council. I am **STRONGLY OPPOSED** to Resolution 21-194, The City and State Administration of Hawaii request to develop, implement, and "mandate by Executive Order if necessary" a digital vaccine passport program for public or private industry to restrict access to employment, businesses, establishments, other venues and places of public accommodation. Vaccine Passport information is stored in a central database and the managers of the data can track people's location, finances, communications, and private health information. It is not a secure platform. It will be used silent people and restrict your movement. It violates the Americans with Disabilities Act, as well as the 1st and 4th Amendments of the Bill of Rights. In summary, it violates our civil liberties under the Bill of Rights and U.S. Constitution. Thank you for the opportunity to testify. Respectfully, Cisco Rillon

Written Testimony

I oppose this bill for several reasons. First off, it's discriminatory. Secondly, vaccine passports don't guarantee a Covid free environment because vaccinated people can still catch, spread, and become sick from Covid. Third, these mandates are going to cause unvaccinated, unmasked individuals to gather that much more in protest, which means these mandates are going to cause the exact effect that they're trying to prevent.

Thank you for reading my testimony. I just want to make sure I've got this right. So, If Oahu residents want to participate in society, they will be forced to take an experimental mRNA gene therapy every 5-months into perpetuity.

This comes after the CDC Director has said that the vaccine does not stop infection or transmission and the CDC's own data shows that the mRNA experiment has killed more people than all other vaccines combined over the last 30-years.

In Hawaii, which has 600-deaths per influenza season, there have been 589-deaths in total from COVID-19 over the last 17-months with 39-deaths under the age of 50 and 0-deaths under the age of 18.

Written Testimony 97% of those deaths have had an average of 4-comorbidities according to the CDC.

Governor David Ige announced a "successful vaccination program" on July 30, 2021 after 60% of residents were fully vaccinated.

One month later, the average daily cases are 351% higher than the previous all time high in 2020. Therefore the increase can be correlated to those who have subjected their bodies to an experimental medical intervention that requires regular follow-up interventions for life. The same intervention you are trying to mandate in order to have access to constitutional rights...

I think I've got it now, and I AM OPPOSED!!!!

Nathan Patry  
Father, husband, year- round employed tax-paying resident, environmental scientist, teacher, property owner

### Written Testimony

The mandate of vaccine passports infringe on the privacy of medical choice and is a human rights issue. It's not constitutional. No one should be forced to put something in their bodies that they don't want to. They has not been enough time to make discovery on VAERs reports. You would be taking rights, freedom, and liberty with a chose away. There will be a uprisings of American people the likes in what you have never seen before!

Written  
Testimony

This is against our constitutional rights. We are not a communist country. The fact that people are vaccinated but can still catch and spread covid shows how miseducated officials are. The fact that those vaccinated can show their card and go into establishments without being tested and knowingly/unknowingly spread covid, but the blame and punishment goes to those unvaccinated makes absolutely no sense at all. I am for medical freedom. And this is the start of taking that freedom away.

**Written Testimony**

This is not right it is an individual's choice to be vaccinated or not to be vaccinated I chose to be vaccinated yet my sister chooses not to be vaccinated and you would require her to force a choice upon herself and her family that she does not agree with, To make it mandatory to be vaccinated just that she could survive by having to go to a job or eat somewhere is unconstitutional and not right and shame on everyone that believes this when did our society become one of liberty and freedom to one that is Communist or controlled by governments? it used to be the government was dependent upon the people now it seems like you guys change it around to make it the people need to be dependent on the government!

Written Testimony I oppose this! I will stay on the right side of freedom but standing firm on the freedom to choose. America was built on values that reflect free choice, I say we stick to those beautiful values. Many people have crossed borders, seas and mountains for such values. Others have even paid the ultimate price. May we honor them.

Name: Amber Bonnici  
Phone:  
Email: amber\_rootness@yahoo.com  
Meeting Date: 09-02-2021  
Council/PH Committee: Transportation, Sustainability and Health  
Agenda Item: Resolution 21-194  
Your position on the matter: Oppose  
Representing Organization: Self

Committee,

I would respectfully ask the committee to oppose the mandate to require vaccine passports in Hawaii.

Here's why:

1. The state should not have the power to decide what does or does not go in my body or that of my family. This is one of my rights as an American, as a human. This is part of the foundation of our country- life, liberty and choice.
2. Should mandates go into effect, it will discriminate against one group of people. The state, nation, world is already divided. This will only further separate people instead of bringing them together.
3. There is no allowance for people with natural immunity, those who have had COVID. People who have already had it are being encouraged to get the vaccine even though it only works against the latest variable.
4. Those vaccinated can still transmit the disease.
5. The economy has already been hit hard by mandatory shut downs. By mandating people get vaccines, employers will lose employees as well as customers who choose not to get the shot.
6. In Hawaii state we have had 599 total people die from COVID. Annually in this state, we have more people die from the flu. In 2016 we lost 637 people to the flu (CDC website).

---

Current data about deaths from Covid-19 and other major causes of death do not support the panic taking place among our policymakers.

Please choose to stand for freedom.

Written  
Testimony

Aloha, I strongly oppose resolution 21-194.  
The CDC and Dept of Health have concluded that vaccinated AND unvaccinated individuals can equally carry, spread and be ill with the covid virus. Natural immunity is proven to be better than "immunity" from a vaccine. We do not want to be forced to inject a vaccine into our bodies and we do not want to have to show proof of our vaccine status to enter establishments or travel. This feel like a violation to my person!

### Written Testimony

I, Leilani Diga, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

### Written Testimony

We do not need to segregate ourselves now. We need each other to survive on this island. This passport will create hostile environments, unneeded stress and increased company costs. We've done it once. We can do it again, please see the bigger picture of other countries.  
Israel is one of the most vaccinated places in the world, yet they are seeing a large spike in hospitalized cases.  
To have a valid Israeli vaccine passport the holder must receive a third dose of Pfizer-BioNTech vaccine otherwise they lose their passport (8/31/21, 12:10PM ET, TD Ameritrade)

Re mandate vaccination cards

Mr. blangiardi

I'm writing this letter today to voice my opposition to your decision to require everyone to show vaccination cards to enter business, not only is it discrimination, a violation to privacy and it's also irrational!

Written  
Testimony

This will only bring division between vaccinated and unvaccinated. This will also bring financial hardship to businesses owners that are to ask for the vaccinations cards, most businesses don't want to be caught up in this division they simple are just trying to provide a roof over their heads and provide for their families.

We voted for you as many others that thought you was for us the people, I am truly disappointed that you have come to support this vaccination cards. Please reconsider the vaccination card requirement, it's truly not in the best interest of the people of Hawaii.

Sincerely,  
Unvaccinated K.M

I oppose Resolution 21-194.

The proposed digital health card is a violation of the HIPPA Privacy Rule which protects individuals' medical records and other personal health information.

The digital health card is a proposed solution to prevent the transmission of COVID-19. The digital health card, should not be supposed not be supported because;

### Written Testimony

- 1) Persons who have taken the COVID-19 vaccination are still able to contract COVID-19 and/or its variants.
- 2) Person who have taken the COVID-19 vaccination are still able to transmit COVID-19 and/or its variants.
- 3)WHEREAS, the first death of a fully vaccinated person in Hawai'i was reported on July 12, 2021, as listed in 21-194 Resolution, proving that the vaccination does not safeguard individuals from COVID-19 and/or its variants.

Written  
Testimony

I'm speaking on the behalf of MANY. You are committing an unlawful act against the citizens of Maui. Numerous community members have spoken about the challenges and damage we have done to the everyone in the community through coercion - masking, testing and vaccinating. You chose to ignore us all. This is no longer about covid. This is about the trampling of our rights and your criminal actions. We've also fought against the state wide mask mandate - as you have no authority as the director of the Hawaii Dept of Health to issue or enforce mandatory mask orders. And yet you persisted and enacted a mask order (calling it guideline) and threatened families with no access to school or sports - or isolation if they don't comply. Now you are trying to restrict access to other other recreational (and eventually to essential) businesses. By doing so you have denied our unalienable rights as a person and as an American. You have committed a crime against the constitution and it's laws and you have defied your oath of office. Any official who willingly contributes to the act of creating, presenting or enforcing statutes that appear as law that violate the natural and fundamental rights of the people is guilty of waging war against the people and is in violation of their constitutional vote. In addition, any statute presenting as law that violates our fundamental rights is in fact a no law from the moment it is written - no one can enforce it and no one has to abide by it. You - in an unlawful act perpetrated abuse on the people of our community and ignored the mental health consequences. We all know that you have no intention of lifting this unlawful mandate. Either you had no idea about the depth of the oath you took - or you made a conscious decision to ignore it. As an official of a governing body your job is to protect our rights not take them away. We are submitting this testimony to address your having violated our constitutional rights and the criminal activity you have done as you've ignored national and state laws as well as your own internal board polices - along with the oath that you've desecrated. The remedy is that you make this right.

Written Testimony I am strongly opposed to this bill. The vaccines come with warnings that your heart may be negatively affected. I personally know people who now suffer from heart issues after receiving covid-19 vaccinations. How can you force something that can permanently affect my health?  
In addition, this bill openly discriminates against the unvaccinated. According to the CDC, vaccinated individuals can still contract and spread covid-19 and it's variants. Therefore vaccine passports are useless.  
It is extremely unethical to move forward with this bill.

**Written Testimony**

I strongly disagree with the proposal for a vaccine passport. There is an abundance of information regarding & questioning the long term safety of this vaccine. Most pointedly, results from Israel showing that even amongst those who have the vaccine there has been a surge in cases as reported in the New York Times. Why are we proposing restricting mandates that limit the sovereignty of not only our individual health choices but also risk the well-being of the larger community in the name of a vaccine that does not have proven results in creating health nor any long-term studies on potential negative effects? This is a generational concern and we must not act from a place of immediacy or fear. We must consider future generations and act from careful consideration of the validity of this vaccine for the true well being of the people. It is in my opinion that a for-profit pharmaceutical company has questionable intentions in its push for this vaccine. There are more viable and sustainable solutions regarding health and immune support that need to be discussed before creating vaccine mandates. I urge our community representatives to research and seriously consider alternatives before passing a harmful vaccine passport mandate that will further divide our islands. Thank you for your time.

### Written Testimony

This is an unconstitutional measure that goes against human autonomy and the right to choose ones own structure of treating their health. There are too many recent studies that have shown that these guidelines are inconsistent and overreaching. There are no scientific studies that reflect whether masks are truly a benefit indoors; why would the CDC recommend the "15 Minute Rule" if masks actually truly protected. Also, these vaccines do not stop infection or the actual spreading of the virus; it makes absolutely zero sense to discriminate and or strip anyone of their rights to healthcare, their livelihood, or public services should they decide the vaccine is not in their own personal interest of health. There are good reasons not to take the vaccine, there have been severe reactions, injuries and deaths from these specific vaccines and not anyone could tell you if you would or would not have an adverse reaction upon inoculation. There was even a study from Israel from June 1st to August 14th, during the heat of the Delta wave; that showed people with a previous COVID infection were 13 times more protected against the Delta variant than if you were vaccinated; proving natural immunity is a reality. Just to point out how ridiculous the guidelines have been; The CDC was forced to announce that the vaccinated must wear masks at large events and indoors, because they were not accurately reporting breakthrough cases due to gaps in reporting and their own admitted focus on severe breakthrough cases and hospitalizations only. Previously, from Jan to May, the CDC openly admitted they were including all hospitalizations even unrelated to COVID during a time when a majority of vaccines hadn't even been distributed to the public to show their was a "Pandemic of the Unvaccinated" even though worldwide numbers were showing an increase in the fully vaccinated breakthrough cases and hospitalizations. Despite this information, airlines do not require any test result to get on a domestic flight, international flights only require a negative antigen (the least reliable test), concerts allow vaccinated entry without a negative test result (even though the can carry heavy viral loads and infect others) while unvaccinated have to provide negative tests within 48 hours to enter but only to be in jeopardy of being infected by the vaccinated who could be positive... if it was truly about keeping people out of the hospital

---

and grave sites then it would require negative tests. No, this is an agenda to push for a vaccine that is waning in defense; when natural immunity can be dominant along with medical treatments that have been suffocated. Please, let's discuss the giant elephant in the room; that the only ones being hospitalized and or dying f this virus are the immunocompromised, unhealthy, and elderly due to a myriad of concerning habits in a horrible diet and or exercise. This passport is nothing more than a power grab for information that demands privacy.

The science does not back this sort of medical discrimination. It has been shown:  
A. Vaccinated people still contract and transmit (spread) the virus  
B. People who have had the virus have equal immunities to vaccinated people  
C. Death rate for people under the age of 60 is less than 1% from the virus  
D. Over vaccination of the population can lead to Antibody Dependent Enhancement and viral escape thus leading to more resilient variants  
E. Though Pfizer has been approved they still have 2 more years of safety trials

Written Testimony I recognize Hawaiians have a historical trauma around outsiders bringing viruses to the island. I respect the people and wish good health for all. I recognize that the state receives significant impact from tourists and wants to protect the people. I am opposed to these passports because they are an infringement on privacy and are a form of discrimination against those who do not need or choose this vaccination.

If the vaccines had shown to literally stop the spread that might be a different story, but they do not!

Please do not pass this legislation!

We should not be forced "mandated" to take a vaccine. There is a high survival rate and instead of just quarantine, allow doctors to also offscript what other doctors have found to work. Instead of censoring doctors who have been trying to share what's been working for them, collaborate with them instead. Natural immunity I believe is the best way to get us to herd immunity.

### Written Testimony

I oppose the Vaccine Passport as the Experimental Drug in which some refer to as the Vaccine does not prevent the spread of Covid-19 or any variants. In addition many unvaccinated people have built in natural immunity in which even Josh Green stated is valid as a Vaccinated individual. Like wise it is advised by medical professionals that if you have had the Covid-19 Virus and over came it you have natural immunity and medical experts advice that you should not get Vaccinated. So by trying to force people to become Vaccinated you are exposing people to undue harm. And that is an illegal crime.

### Written Testimony

The lockdowns, mask mandates and now proposed vaccination mandates have done more damage to my family's lives than you can ever imagine, more than covid. The family wide long-term depression, threats of teen suicide as a result of lockdowns, masks and now school segregation, mental anguish, fear, division amongst family members and vaccinated vs unvaccinated, job loss, financial anguish, etc. has been for 19 months long! These are real families and humans suffering here!!! Not because of covid, but because of the mandates and unnecessary fear the government has placed upon us!!!! No human was meant to be in a state of fear and anguish for this long! YOUR MANDATES ARE KILLING US!! Our government is ruining our lives and dividing our people, not making us safer. You have NO AUTHORITY to make me put an EXPERIMENTAL medicine in my and my children's body that is killing and doing more more damage by getting people sick, killing some and spreading the disease worse. Don't you know the FDA discontinued PCR tests are that's what's creating false high numbers that are causing major fear and panic and irresponsible decision making from the top government officials. Masks (scientific studies show) do not work and are making kids sick! My sons can't breathe all day long in school! The FDA discontinued PCR test isn't even able to test for covid 19 nor the delta variant so how is it even being used to get these false numbers we see in the fake news everyday for variants it can't even test for?? Those false numbers are then used to create a narrative which gives the hospitals and governments perceived authority/permission to implement illegal mandates and kill people all under the guise of "public safety." Statistics show that it is those with underlying conditions that are getting sick with covid and being hospitalized, not healthy individuals, so why are we putting in crazy tyrannical mandates? They don't work. Why have we not looked into therapeutics (Ivermectin and Hydroxychloroquine)? Japan recently approved the use of Ivermectin and worldwide studies show it is working for people with covid! It's is inexpensive and doesn't make Pharma rich, that's why. Studies also show that unvaccinated people have a better chance of surviving covid than someone who is vaccinated and their immune system works. Learn from Israel: they have a vaccination rate of 80% a

large majority getting sick with delta are vaccinated! The vaccinated are super spreaders spreading covid, yet they get all the rights?? Does any of this make sense?? That is what is happening here in Hawaii. Why are red states without mandates and lockdowns thriving and are also providing therapeutics? Mayor Blangiardi's meeting yesterday revealed to me that our governing authorities are making decisions that govern our lives without even knowing the reality and truth for themselves. This is completely irresponsible and tyrannical. I'm scared for my life and for my children's lives and future. I feel like I'm living in the days of Nazism and the Jews being required to wear yellow stars because I don't want to get vaccinated, except it's the UV instead of the yellow star. We can't have the same rights to go into a restaurant, museum, bar or gym. What's next, grocery stores? My biggest fear is they will mandate vaccines and then not allow us to shop in grocery stores next. How will I feed my family??? My kids have to get segregated in school from the vaccinated if there's a covid case my sons have to leave school and quarantine, but the vaccinated kids go back to class. This makes no sense. The vaccinated are spreading it. I can't even access my kids' school information until I fill out a form disclosing their personal medical information. I have many friends who are being discriminated at work and threatened that they will lose their job because they won't get the vaccine. I pulled my kid out of public school because of the threat of vaccine mandate. When will this nightmare end? No masks mandates. No vaccination mandates. No testing. Treat sick people with therapeutics if ivermectin and HQ. Makes decisions based upon solid scientific research. Those at risk with underlying conditions should stay home and wear masks if they do choose. We have right to bodily autonomy to make medical decisions for ourselves. Please do your research and make these changes. Please govern with aloha not tyranny.

## Written Testimony

Name Teresa Chao  
Phone  
Email javanut418@gmail.com  
Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I oppose this resolution. This is the grossest overreach of government thus far under the false and unending guise of public health. Once you start collecting health data on the public it becomes a privacy issue and worse. It also becomes a discrimination issue which could potentially be used in other harmful, clandestine ways unbeknownst to the public.

Further, you will have the capability to identify specific "violators" and target them, prevent them from entering any business at your discretion just as the Nazis did in Germany. Of course you will deny this but the capability will exist and become a possibility if the City decides more draconian measures must be taken. The Mayor has already threatened the public with mandatory vaccination in 2 months. What will be next, FEMA camps and illegal quarantine?

Written Testimony Whether you believe in the Bible, it doesn't matter. Your proposed resolution is on the path already foretold;

In the Book of Revelation 13:17, ESV it says: "so that no one can buy or sell unless he has the mark, that is, the name of the beast or the number of its name."

The modern day mark is the vaccine. Even recovery from a prior covid status is not considered while the end result, the creation of antibodies, is NOT accepted while a serology test for measles IS acceptable for schools and college. Your resolution is completely illogical and will set a dangerous precedent.

There are millions of viruses in the world and you are proposing to spend \$200 million on a SINGLE virus. Be honest. This is no longer about public health. We all know it. It is about control.

This proposal will also have detrimental consequence on tourism. Negative publicity is already circulating to the broader media. This will mark the beginning of the end of everything good in Hawaii and will create despair, violence, untimely deaths, discrimination, hatred, division and utter chaos not to mention further erosion of your tax base and mass migration to other states.

Please consider the consequences of this resolution. It is unnatural, illogical and completely based on irrationality and fear, not on any science.

For these reasons, I vehemently oppose this resolution.

### Written Testimony

I'm a 21-year-old essential worker strongly opposed to this bill. I've worked frontline since the start of covid-19 in February 2019, the last time I was sick (for 10 days) was October 2019 and my first covid test was last week, results were negative. The fact that forcing anyone to do something without or with their body isn't right. We all have human rights. If the state of Hawai'i really cared about the residents safety, the airport would be shut down or at least cut the amount of people traveling. Furthermore there isn't enough evidence behind the vaccine, everyone's symptoms vary, there could be short-term & long-term effects.

Agenda Item Vaccine passport  
Your position on the matter Oppose  
Representing Self  
Organization

### Written Testimony

Requiring a vaccine passport is a gross misuse of government power and against my right to privacy and medical freedom. Since when does “my body, my choice” pertain only to abortion? Why does HIPAA not apply to this medical choice? The ability to travel within my own state and country is not a privilege, it is a right and asking me to “show my papers” is a disgusting demand, regardless of my vaccination status. Yes, Covid is a terrible thing, but this proposal is not about public safety, it is about government power and control. Find another way. You serve the people, all of them, not just the ones you agree or disagree with. What’s the greater good here? I believe my freedom, a tenet on which this country stands, is the greatest good we can defend. My freedom to care for my family and my body, my freedom to travel within my own country without providing medical and travel documents, my freedom in all things, which, with this single decision, could be affected forever. I vehemently oppose a vaccine passport.

I am strongly opposed to this bill!

Too many affected by vaccine side effects listed from various sources to be mandated to the people of Hawaii.

Written Testimony Also the World Health Organization's report of a high percentage of false positives from the PCR test, as well as the presence of Ethylene Oxide in the swabs does not make for a viable alternative and runs the risk of causing lymphoma, leukemia, stomach and breast cancer.

Therefore both options presented in this bill would be detrimental to the people of Hawaii.

I am in opposition of a medical procedure document to grant access to businesses or any establishment. This is a violation of HIPPA and medical privacy.

Especially if denied access to establishments for basic living essentials.

To have a card validating a medical procedure to allow entry into an establishment is segregation at best. It has nothing to do whether it is safe and the virus won't be spread. People with the vaccination are getting sick and transferring the virus. So why would people who have a card be any different then people who don't when both sides are still responsible for transmission and also a risk for getting it.

This will only lead to larger community issues and potential violence. If people are denied access for basic needs and quality of life it will have a detrimental effect on our islands.

Written  
Testimony

I would have a different perspective if people who have not received the vaccination we're the only ones putting others at risk or the only ones sick. This is not the case. Everyone vaccinated or not are struggling. And this is only going to add the the emotional and mental breakdowns that are already being witnessed in our communities.

Please take into consideration the long term effects of societal breakdown through segregation and shaming one another over a virus that has a high success rate of healing even naturally. I understand some are not making it through which is sad, however the numbers do not reflect sending communities through emotional and mental distress at the slight chance of being sick. Many of us have already had it. We are healthy and building antibodies naturally.

Having a health card is actually more dangerous giving people false sense of security from contracting the virus and adding a status quo for negative behavior towards others that in fact

---

they are also still susceptible and can spread the virus.

This will create more harm than support to our communities.

I am oppose to this resolution because it is UN-AMERICAN, violates our rights under the constitution and bill of rights.

Secondly the science is not settled on these experimental vaccines which come without any liability if there is injury.

Written Testimony Thirdly only one side of the argument is making decisions with severe impact to all members of the community.

Lastly, on Aug. 25th a new research article was published titled, "US COVID-19 Vaccines Proven to Cause More Harm than Good Based on Pivotal Clinical Trial Data Analyzed Using the Proper Scientific Endpoint, "All Cause Severe Morbidity". Please take a look at the attached PDF.

### Written Testimony

I strongly oppose vaccine mandates because some people cant get the vaccine due to medic issues or religious beliefs. Mandating it would bar some people from particatpating in society because of religious beliefs and medical issues. Also the vaccine doesn't prevent covid it just weakens the symptoms, so vaccinated people can still spread the virus. Dr. Fauci recently stated that we should be getting booster shot every 5 months. So from some of the rhetoric I have heard it seems like covid is here to stay and we have to take our OWN lives in our hands and choose if we want to take the vaccine or not. My body my choice.

### Written Testimony

As a Black American I cannot express enough how even contemplating segregating our state based on personal medical choices is criminal and unAmerican in nature. I will be watching this closely as it affects many that I love and life on the island in general. Government needs to stay out of our individual rights as citizens of a free country and allow us to continue govern our own bodies. as we have done since the inception of our nation. I will NEVER, nor will any member of my family vote for or support any person or persons who vote in support of this measure. Not only that but I will actively contribute to the campaigns of those who run against them and I am not alone in this. Thank you for your time and I pray you will do the right thing as God is your witness, Aloha

Written  
Testimony I oppose Resolution 21-194 because vaccine passports are an act of segregation that goes against our medical freedom. It exempts the vaccinated from needing to get tested, but it has been proven that both unvaccinated and vaccinated individuals are getting covid. This is dividing people to support a corrupt agenda. Why have a state motto: "Ua mau ke ea o ka 'āina i ka pono - The life of the land is perpetuated in RIGHTEOUSNESS" and not implement it? Do what's pono, what's right and choose people over profit because we, the people, have the right to choose what is right for our health! Stop choosing profit over people and using the "safety" card to justify your illegal actions of mandating our rights. We, the people of Hawai'i, have the right to choose! We have the right to fight for our medical freedom!

I strongly oppose this proposed "Covid health card" based on simple scientific and medical facts. Dr.'s, PhD's and scientists have come out and said that this Vaccination does not ward off Covid-19 or the delta variant that's run rampant and doesn't always lessen the symptoms. It doesn't make any sense to mandate something that needs boosters now because it's simply not working how it was intended to. Also, it's still a trial until at least 2023 and if some CHOOSE to be a part of the trial then that's wonderful for them, but if some CHOOSE not to be a part of the trial and wait and see how this all pans out, that should be their constitutional right. You cannot mandate an experimental drug. It is against the Nuremberg Code of 1947 that was established after WWII. HIPPA is still in place and that states that people have the right to keep their medical records private. That is a law. Getting vaccinated doesn't make you immune to the disease and you can still spread it, so doesn't that defeat the purpose?

Written  
Testimony You simply cannot mandate the vaccine. Please find the CDC quote against Vaccine Mandate Page 56, 3rd paragraph: <https://www.cdc.gov/vaccines/acip/meetings/downloads/min-archive/min-2020-08-508.pdf>

Vaccines take 7-8 years to test, not 7-8 months. This vaccine is for emergency use only and is not fully tested and approved by the FDA. FDA approved a different similar test that's not available in the USA. They do not know the short and long-term effects of the vax and many people still get sick and die even after taking the vax.

There are many vax injuries reported on VARES. This link is from the CDC website and will show you the vaccine injuries from the covid vax <https://www.openvaers.com/covid-data>

Cases are not deaths. Most people with a positive test have no symptoms. Plus, covid deaths, in the state, are less than the regular flu.

Our main issue started once more and more people started getting vaccinated and when you stop testing all incoming travelers into the state of Hawaii.

Please hear us and do not implement this “health passport”. This is discriminatory and unconstitutional.

### Written Testimony

This vaccine passport initiative would be a violation of our constitutional rights. This virus is treatable, but that is not being reported. The government is hiding the factual evidence regarding actual Covid cases, and who out of those cases were "vaccinated" or not, manipulating Covid case numbers, and withholding proper treatments to make the public fearful and pit vaccinated against unvaccinated. In truth, vaccinated can both catch and spread the virus just as much as an unvaccinated person could, therefore having a mandate such as this is unscientific and not beneficial in stopping the spread of the virus. Firing hospital staff such as nurses and doctors who refuse to get vaccinated is counterproductive to actually helping treat this problem. Besides the fact that having to show a vaccine passport or health card to be employed, or have access to basic establishments being unconstitutional, it is also a HIPAA violation. This initiative should NOT be passed. Listen to the people who have valid concerns. Study the science. Do the PROPER RESEARCH.

### Written Testimony

This is an oppressive and dictatorial proposal. I am strongly OPPOSED to this to this digital health passport bill. I am an American and as our Constitution states, "We hold these truths to be self evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among them are life, liberty and the pursuit of happiness." This tyrannical bill prohibits all these rights as a free American citizen.

i oppose 100 percent. I ask that our mayor take a seat or Stand up and fight for the humble people of Hawaii. Right now people all over are starting to really question the decisions being made. We understand now this is not about our public safety. So we are kindly taking our power back and saying no to the tyranny. No to lockdowns and no to vaccine identifications, no to invasion of privacy, and no to over reach in power. Sit down or Stand up and fight for us.

Written Testimony Vaccine passports make no sense as the virus can still be transmitted by the vaccinated. The science is being ignored which is incomprehensible and alarming. If one of the reasons for this passport is to get more people vaccinated that will backfire, as it will only cause more distrust and resentment in our government. In addition, this will cause more division and discrimination within our society. Say "NO" to vaccine passports!

We all deserve a choice!! Since when we need a vaccine passport?? Why don't the sex offenders, murders etc carry a passport to identify them as that. This is segregation and discrimination!!!! It's SAD!!! You are not doing the right thing for the people. Especially if we have to take a shot we know nothing about. Not enough testing! Which it's still in its testing state. The side effects are off the wall. This is definitely how you are killing the people of!!!!

I am writing to **STRONGLY OPPOSE** your mandate for all residents to get the covid-19 vaccine. As a substitute teacher I have been forced to quit because of the weekly covid testing mandate. I hope that you will reconsider this decision because it is unfair to make the unvaccinated population feel coerced into getting vaccinated. You are showing disrespect to all the unvaccinated people and clearly your mandate is one way to bully us into getting vaccinated! I have never been so ashamed of our Aloha State until now. How dare you manipulate the local people of Hawaii! Please **DO NOT** take our personal rights away and bully us into getting vaccinated.

### QUESTIONS:

#### Written Testimony

1. Did you know that the Pfizer vaccine contains “Graphene Oxide”, which is poisonous for humans? According to Karen Kingston, former Pfizer Pharmaceutical Analyst, she says the vaccine is harmful because it has the toxic Graphene Oxide. I urge you to research this and then decide whether or not as the leader of our state, if you would still choose to inject poisons into Hawaii’s residents.

2. Did you know people have died from the vaccine? One occupational therapist went online to say he has seen people **DIE** right after getting vaccinated! Doesn’t this bother you? How dare you advocate injecting poisonous substances into our bodies.

3. Are you aware that the chemical on the swabs used for the covid tests can cause cancer? So taking weekly covid tests increases your chances of getting cancer.

4. Iceland’s population reached 80% vaccination and supposedly you need 70% to reach herd immunity, but their cases are higher now than before. Proof that the **VACCINE DOESN’T WORK!**

You are ripping Hawaii's Aloha spirit to shreds, because you are making this a battle between vaccinated and unvaccinated people. Please put an end to this, use your wisdom and position for UNITY not division!

Written Testimony I Duane Vos oppose this resolution because it goes against our rights that were given to us in the constitution. This will only cause more pain and suffering for everyone. The restaurants will suffer, as will the workers and their families. we do't need more people on un-employment or worse, because of a mandate on wether or not a person is vaccinated. This resolution that is up for a vote can not be good for our economy. Please vote against the resolution.

Mahalo a concerned citizen of Hawaii.

Duane Vos

I am strongly opposed to this Bill. It is so frustrating to see how much we the people are fighting just to have our voices heard.

### Written Testimony

Mandates are unconstitutional in a free country and last I checked we still live in America. I support freedom of choice and no where in the constitution states that the Government can force people to get an experimental warp speed vaccine whose trials end in 2023. Please listen to the People of Hawaii, the people you work for, the people who put you in office. God placed you in the positions you have for this time and it can move us forward as a state or it could completely destroy us. We shouldn't have to beg to live our lives. No more mandates! No to vaccine passports. We need transparency and we need options. Let's work together as one to figure this all out not just for the present but because our future generations are depending on us to. This will impact them greatly. The Bible says our bodies are sacred and when we loose the freedom to our bodies. We've lost all freedom completely.

Right to choose! No to vaccine Passports.

Written Testimony This forces people to make decisions they shouldn't HAVE to make in order to go on living their daily lives, in order to go to work and provide for their families. It causes so much distrust between the people it is forced upon and the people blatantly entitled enough to force it upon us while not following the same rules they're trying to make people follow, all the while we continue to let tourists come and go as they please based on what an honor system? Why is it the people who love and respect the land the most are the ones constantly fighting to continuously protect the land and all the other people who share the same love and passion for the land from people who are only here for a good time. It's truly heartbreaking, when all the tourist are gone again and the locals turn their back on those who swore to protect them what happens then ?

### Written Testimony

As a sovereign human being protected under the Constitution of the United States I have the right to choose any and all medical interventions to my own body. I have the right to medical autonomy. In addition, existing treatments for covid have been PROVEN effective compared to the EU experimental shots that have already way surpassed the cumulative death and adverse effects numbers of all vaccines in history combined. The efficacy of these shots are unethically based on false information using relative risk reduction and not absolute risk reduction to promote its use. This is blatantly evil and flat out deception to the people. Why would you create a discriminatory situation that promotes segregation based on medical status when it's against the law and all moral values to discriminate on race, religion and other choices. I highly oppose this bill and would ask you to do what is right. Don't we here in Hawaii promote "pono"? I ask you to to what is right. :-)

Written Testimony Imposing vaccine passports is a clear violation of the rights of American citizens. Furthermore, as an individual of Hawaiian ancestry, I find it appalling that individuals who have, according to the popular agenda, been discriminated against throughout history, are now being coerced to put something into their body that they do not want to.

Written Testimony Aloha,  
I strongly opposed to this bill because it is an infringement of freedom to choose. We live in the United States of America. We are are free country. This vaccine passport will only create more division among our citizens. We are the Aloha State. We should not discriminate based on skin color, race, and vaccination status. Not only is this passport a form of discrimination, it also infringes on our privacy. We are Americans and we have our individual rights. Having a vaccine passport will remove these rights. We should never allow that to happen. That is why I strongly opposed to this bill.

Thank you,

Rommel Pacba

Written  
Testimony

I oppose of this because I feel it makes no sense to divide the vaccinated & unvaccinated into these categories in the first place. And because it isn't right to exclude the unvaccinated because people who are still vaccinated can still catch and spread covid. Just because people decide to not get vaccinated because of many important reasons it don't make it right to exclude and restrict them in these ways that I don't feel is even going to help stop the spread.  
Thank you!

Written  
Testimony I maintain my God-given right to choose what enters and does not enter into my own body. I have authority over my body. I maintain that others have the same right and authority over their own bodies. Mandates that segregate those who exercise their autonomy over their bodies violate our God-given rights. I absolutely oppose any governmental mandate requiring proof of vaccination of any kind.

### Written Testimony

Nothing good can come of vaccine passports. Business will suffer it will create divide in our communities and resentment towards one another. Not to mention all of the information coming out about the negative side effects of the vaccine. It's only proven to be at best 60 percent affective at this point. Not to mention the fact that some people cannot receive the vaccine due to religious or health problems. This is unlawful and unconditional. Countries have already gotten rid of the vaccine passport system because it does not work!

Written  
Testimony

This is a violation of citizen rights. This resolution will not help the public along with the people having to carry a digital passport to determine if person is vaccinated. What this does is label people's health choices and literally display them in public. Retaliation will be made and the people who work hard will pay for this. I oppose Resolution 21-194 and ask this idea to be removed from any futures discussion,

Reminder: In Nazi Germany, Jews were segregated into ghettos and relocated because they were demonized in the public eye for a deadly outbreak of typhus. Their relocation was "for their own good" and "the protection of the public".  
Please let that sink in!! What side of history do you want to be on as a politician. This policy is a slippery slope. A door that you may not be able to close.

On a scientific note, it is widely known that the vaccination does NOT prevent an individual from infection or transmission of the virus. Hawaii's own Dept of Health Director and other medical professionals readily acknowledge this fact. This bill based on a false premise with the intent to punish those that choose another avenue for their well-being.

Written  
Testimony

Additionally, the vaccine passport also raises valid concerns about the privacy of personal health data and their potential to exacerbate racial and socioeconomic inequities. If implemented without needed privacy protections, the vaccine passports could foreclose economic and social opportunities for those without immunization proof.

Therefore discriminating against those that are unvaccinated or who have already had the virus is unreasonable, discriminatory and provides a sense of false security at best.  
Privacy rights are inherently now open to violation. Can we now ask our server about their HIV or Hepatitis status etc?  
On so many levels this resolution goes against every grain of decency and morality in my being.

A. The very premise upon which this resolution begins is flawed - the use of the PCR test was discredited/withdrawn by our federal government months after it was used to establish a devastating lockdown whose ancillary effects - economic, psychological, etc. - may well outweigh any alleged effects of SarsCov2, whose overall death rate was in the area of 0.2%, similar to influenza, etc.

B. It also assumes that only a "vaccine" can address the infection, whereas we have a growing list of medical experts who have successfully TREATED Covid-19. Here is a short list of some of those skilled, experienced professionals -

1. FLCCC (Front Line Covid-19 Critical Care Alliance). See MATH+ protocols.

2. Dr. Vladimir Zelenko. See Zelenko protocol.

3. Dr. David Brownstein. See case paper on Nebulized Hydrogen Peroxide.

4. Dr. Thomas Levy. See Rapid Virus Recovery (also a free e-book).

5. America's Frontline Doctors. [www.americasfrontlinedoctors.org](http://www.americasfrontlinedoctors.org)

C. It sets the stage for a more fascist, less constitutional, society, mirroring what happened in Germany in the years leading up to WWII. Slippery slope legislation/resolutions like this are setting the stage for shocking consequences to the very foundation of our democratic republic.

D. "Vaccination" is an incorrect term, since this is experimental genetic manipulation technology. These injections are the deadliest in the history of VAERS, a system which is acknowledged by a Harvard "Pilgrim" study to dramatically underreport impacts. In the

Written  
Testimony

months since the release of Covid-19 injections, they have been dwarfing the adverse events and deaths of ALL other injections combined for the last THIRTY YEARS. In the past, this would instantly have shut down any further use of these products. Dr. Robert Malone, an inventor of the mRNA vaccine technology platform, does not recommend these injections, now that the adverse impact statistics are pouring in, especially for anyone 40 and younger, and has gone on the public record to so state.

E. We now see that "vaccination" does not prevent infection, transmission, or death, so the vaccinated join the ranks of those who have not yet developed natural immunity in their ability to spread the virus. Vaccine passports become meaningless in the context of supporting the alleged intention of this resolution.

F. In addition, the issue of the vaccines worsening clinical disease is completely ignored. The lowered neutralizing antibody levels versus the heightened binding antibody levels after vaccination appears to be a significant factor. Post-injection, the potential for ADE (antibody-dependent enhancement), cytokine cascade, etc. - basically the phenomenon of the vaccinated becoming highly susceptible to a massive OVER-reaction (and a "pandemic" of vaccine-induced death) upon their next exposure to a "wild" coronavirus - has been routinely ignored. Yet, it was the reason that vaccine development never made it past animal trials in previous coronavirus vaccine development attempts... animal trials which were bypassed this time, so that the human population became the experimental animals. An NIH publication stresses the need to inform people of this risk (and noted that informed consent had NOT been typically given) - that publication is: Informed Consent Disclosure to Vaccine Trial Subjects At Risk of Covid-19 Vaccines Worsening Clinical Disease - by Cardozo and Veazey.

G. Also left unaddressed is the conflict of interest and corruption involved in both the rollout of these products and in the Pfizer "approval" by the FDA, an approval given AFTER the control group was eliminated, after ignoring the shocking VAERS statistics, after cutting short the length of the experiment by TWO YEARS, after failing to follow any of the usual procedures for a product requesting approval. Bill/Melinda and the Gates Foundation's influence has been documented by investigative journalists. Massive funding has flowed from the Gates into these conflict-of-interest connections:

1. Pfizer (Gates are major shareholders). Also Biotech (but no shares purchased until Sept, 2019, shortly before the Covid situation was publicized. Hmm.).
2. FDA.
3. Britain's version of our FDA. The MHRA: Medicine & Healthcare Products Regulatory Agency.  
The Daily Expose August 20, 2021 - <https://dailyexpose.co.uk/2021/08/20/investigation-bill-gates-has-major-shares-in-both-pfizer-biotech-and-an-foi-has-revealed-he-is-the-primary-funder-of-the-mhra/>
4. A wide variety of media organizations, including NPR. <https://www.cjr.org/criticism/gates-foundation-journalism-funding.php>
5. Institute for Health Metrics and Evaluation (IHME).
6. Event 201 (October 2019).

### Written Testimony

Given that the vaccine is not an immunization, it cannot prevent vaccinated individuals from contraction OR transmission. According the the CDC there is "...no significant difference in the viral load present in the breakthrough infections occurring in fully vaccinated people and the other cases, suggesting the viral load of vaccinated and unvaccinated persons infected with the coronavirus is similar." Therefore, to require a health card from the unvaccinated is ineffective and will serve to deteriorate whatever little trust vaccinated constituents have in our elected officials.

### Written Testimony

I oppose resolution 21-194 for the City Administration and state of Hawaii to develop, implement and "mandate by executive order" if necessary, a digital vaccine passport program for private industry to restrict individuals access to employment, certain business establishments, and other venues and places of public accommodation.

Vaccine passports have significant implications for privacy and autonomy, freedom of movement and association, equity and discrimination.

### Written Testimony

Thank you for taking the time to hear each individual testimony, my hope is that these messages do not fall on deaf ears who already made up their own minds, but that you are willing to open your view and understand and respect the definitive action you would be forcing on another's free will. I oppose this bill, and frankly I am shocked that I would have to explain why. There are life-saving early treatments to covid that are being ignored. I have heard from the mouth of a doctor in Waimea that hospital staff and doctors are not allowed to treat patients outside of strict and minimal protocols, "to treat them they way they want to", they told us to leave as soon as possible or we would die there. The majority of the rising numbers of cases we have been fearing have not been life threatening. A "health pass" to prove vaccination is reflective of nazi Germany, forcing us to show our papers to live our simple lives. Even under the guise of public health, it is tyrannical and to have the government govern over our bodies. Please let the people be responsible for their health. This bill is unconstitutional, and risks obstructing our right to life, liberty, and the pursuit of happiness.

### Written Testimony

Resolution 21-194 is ridiculous. You are not only harming the people, you are harming the businesses. You are also segregating people from each other. It is the businesses and the peoples choice. It's a business owners choice if they want to not serve anyone without the shot. People with the shot can get Covid and pass it to others with the shot or without the shot, so why would we mandate something that doesn't stop this new flu. Also, this flu has a high recovery rate. It needs to runs it course, just like all the other flus.

Common sense here is to stay home if you are sick. Also, the government should be pushing exercise, eat healthier, and take care of yourself so your natural immune system can do it's job.

Written  
Testimony

I am strongly opposed to this bill. It strips away the rights of our citizens if one chooses not to put a biological agent in his/her body. There are other ways to keep us safe and I believe that this is not the way. People who are vaccinated against COVID-19 can still acquire and transmit the virus just as much as the unvaccinated, so allowing only them to go to public places does NOT prevent spread. It makes no sense to single out the unvaccinated. A vaccine pass leads to segregation, discrimination, and an end to basic human rights. I understand the focus to protect our healthcare system, namely our hospitals. But there are therapeutics for early intervention that would contribute to keeping our hospitals from reaching over capacity. I urge you to consider the short term and longterm harm this vaccine passport/proof of will cause socially, economically, and ethically. Thank you for your time.

### Written Testimony

Given that the vaccine is not an immunization, it cannot prevent vaccinated individuals from contraction OR transmission. According the the CDC there is "...no significant difference in the viral load present in the breakthrough infections occurring in fully vaccinated people and the other cases, suggesting the viral load of vaccinated and unvaccinated persons infected with the coronavirus is similar." Therefore, to require a health card from the unvaccinated is ineffective and will serve to deteriorate whatever little trust vaccinated constituents have in our elected officials.

Written Testimony This is an abuse of power over the peoples' right to have freedom to choose their own health and safety. Internationally renowned doctors and other qualified experts including the CDC have admitted the vaccine is not safe or in the least have not approved of the safety of the vaccines. People are dying within days of receiving their vaccine shots. This is an experiment I am not willing to submit to.

### Written Testimony

I oppose digital vaccine passports. Passing this passport is unconstitutional and a complete infringement to our rights and freedoms as American citizens. It's so sad and suspicious to watch our freedoms being taken away over a virus that has a 99.97% survival rate. I am a responsible adult who can make responsible choices about my body and health, however, I now have government telling me what is right for my body and health and if I don't do what they say, I cannot go to a restaurant, etc...??? I have watched our democracy crumble over the last 1.5 years and this vaccine passport will be the complete abolishment of whats left of it. This whole C19 agenda and implementation of what we've seen follow in the name of "safety" is heartbreaking and deceptive. May God help and protect us all.

	"There is no justification in taking away individuals' freedom in the guise of public safety" - Thomas Jefferson
Written Testimony	Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!  Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

Written Testimony I vehemently oppose this resolution as an infringement on my rights in keeping my health private. This is a government over reach in the extreme. People who have had covid have the Antibodies already so the need for a controversial vaccine is unnecessary. Recent Israeli government study showed 60% of those hospitalized with covid over 50 years old were vaccinated which shows minimal difference to getting vaccinated. The people should not be monitored by the government for their health performance PERIOD. Those that are not vaccinated shouldn't be discriminated against in terms of their freedoms to participate in society.

### Written Testimony

I oppose this bill in it it's entirety. With vaccinated people getting sick and spreading the virus, this proposed bill does nothing more than act as discrimination and a method of bullying people into getting the vaccine. There is a preponderance of scientists and doctors with studies and research showing that the vaccine is neither safe nor effective, with as yet unknown risks, and serves primarily the profits of the pharmaceutical companies themselves. These same companies have given money to government officials, even here in the islands and the documents are public information and to businesses to promote their agenda. This bill does not have public safety or health as its goal or possible impact. The only impact will be a diminishing of human and constitutional rights, probable injury and death to people and the collapse of people's personal finances and our local economy when too many people have to leave the jobs that keep our economy going.

Written  
Testimony

I am opposed to mandatory vaccine passports, masks and social distance requirements. This is not about health, and it never has been. It is about control, division and an effort to ruin the economy. Those of us not living in fear are very much awake and aware of what is going on. What or who gives these elected public servants the authority to make these mandates? It's not too late to reverse this forward marching and illegal tyranny. The truth always rises to the surface, and those responsible for perpetuating this lie will be held accountable by man or by God. I urge our elected officials to listen to the people they are supposed to represent, and stand on the right side of history. It's not too late. Do the right thing.

Written Testimony Vaccine Passports are a very bad idea on many levels. First: Vaccines have proven to be far less effective than originally thought. Evidence from Israel with highest vaccine rate in world proves vaccinated are getting ill at much higher rate than non vaccinated. Second: It would rip the freedom of our right to choose from us. This is a foundational principle of our country's establishment. This law would also violate established laws guaranteeing our rights to medical privacy, HIPA Laws.

### Written Testimony

As a caring member of our community, I've seen firsthand the detrimental effects of the coronavirus on the physical health of our people and also the wellness of our economy. There is nothing more important than stopping the spread of the virus. However this resolution is not the way to do it. While it may not be best in every situation, we live in the land of freedom. This resolution directly violates the rights of our people and businesses. The overreach in the government is creating a segregation of the vaccinated and unvaccinated. There are far better ways to address the situation as vaccinated individuals are still able to transmit COVID-19. An overwhelming amount of people in this community oppose the COVID-19 vaccine. Whether they are wrong or not is besides the point. The vaccine passport clearly favors one side and though it may be for good reason that doesn't mean it won't have huge repercussions. As a small business owner of a commercial retail store I know what it is like to have customers fear to come outside. I know how long it's taken to build trust in our customers and ensure a clean and safe environment for them. And I know that this resolution will destroy so many business, livelihoods, families, and they may not be able to recover. The government should not have the power to tell businesses to have mandatory vaccines. It directly harms their business, sales, and customer trust. Most businesses are already taking extreme measures to sanitize, social distance, and keep everyone safe. This vaccine passport isn't worth the cost to our community. It does more harm than good.

If anything, tourism should be more regulated. Not the locals.

Written Testimony I vehemently oppose this digital vaccine passport. It is a violation of our constitutional rights to life liberty and the pursuit of happiness. It is extreme government overreach to address a virus that is 99.7% recoverable. There are many ways to stop the spread that are not totalitarian mandates. This vaccine has not been thoroughly tested and was rushed to approval. Let others take it if they wish but we should never as a society force vaccinations on citizens.

Written Testimony Strongly oppose the requirement of vaccine passports to be needed to enter into business establishments of any type. This is extremely over reaching for a government to mandate such things and against the freedoms of individuals and Businesses of this country. The USA constitution protects everyone's freedom of choice and liberties. The proposed bill is in violation of the superior law of our county.

Written  
Testimony

Please research for yourselves and take into realistic account that this virus is now mostly being spread by vaccinated people who take no other social distancing precautions due to believing they themselves are no longer infectious. We found out that's not the case. This resolution will not affect spread of disease nor minimize covid outbreaks. This is only a final blow to local business and restaurants. THINK FOR THE PEOPLE ONCE. Maybe you guys never missed a single paycheck since the pandemic started but your reckless decisions are killing us.

Written Testimony I strongly oppose vaccine passports!!! I have personally witness harmful effects on family members from taking this "vaccine". This is supposed to be a free country! We have only seen forced vaccines and medical dictatorship, when the Nazis were trying to take over. And Hitler was creating segregation in the communities, just as YOU are doing now with the vaccinated and unvaccinated. This is not right, especially in Hawaii where we are supposed to have and show Aloha and yet we cannot even embrace our Ohana without the vaccinated scrutinizing us. The survival rate of COVID does not compute to losing freedoms!!! KEEP HAWAII FREE!

Written  
Testimony

I am adamantly opposed to the imposition of a vaccine passport in the state of Hawaii. As a very basis, I am certain that this will destroy businesses in an already challenging economy. Beyond that, vaccines, while helpful to the prevention of covid are proven to NOT be fully effective in the spread or prevention of covid. To mandate something that is new and still in the process of being studied is not only irresponsible, it is a nonsensical infringement on basic human rights.

Written Testimony I strongly oppose this bill.  
Some people have allergies to medications. But your saying now that those people cannot participate in society now because they cannot take the vaccine. Also what you are trying to do is illegal!  
And the vaccine makers and vaccine administrators and MANDATORS (you) are immune from liability in the event of adverse reaction including death, how convenient. If the vaccine was so safe, you wouldnt need to be immune from liability would you? And if the Mrna injection was so effective, it would prevent transmission. Instead its hurting more people than its claimed to help.

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

My whole family is covid recovered.  
Acknowledge prior infections and natural immunity.

We oppose the vaccination and testing because they violate our Religious beliefs.  
It is medical apartheid and violation of the Nuremberg code to forbid us to work or participate in society unless we violate our deeply held Religious beliefs by vaccinating or testing constantly.

Per your testing within 48 hour rule, my 14 year old daughter will be forced to test 3 times every week in order to participate with her indoor sports team. This testing will cost a family \$1,800 every month per person. That is unsustainable for anyone.

Written  
Testimony

Per the Manufacturers: Vaccinated people can still catch and spread covid.  
Breakthrough cases are happening worldwide. The vaccines do not stop infection, they only lessen symptoms. This is dangerous because vaccinated can be infected unknowingly and be spreading it while feeling perfectly fine. Israel is a perfect example of this. They are the most vaccinated country in the world, yet their cases are currently soaring much higher than less vaccinated countries.

Why should you test an unvaccinated person, who will show symptoms, but not test a vaccinated person whose symptoms are masked by the vaccine and hidden, a silent spreader. This does not make sense on any level.

Acknowledge the death count compared to other illnesses in Hawaii:

17 months of covid = 589 deaths (includes comorbidities)

12 months of flu = 524 deaths

12 months heart disease = 3,000 deaths and 18,000 hospitalizations

Are you planning to ban junk foods and make people exercise? Maybe you should, it truly looks like we have more of a heart disease epidemic in Hawaii!

Only 17 people have died from covid in Hawaii with no underlying health conditions. This was reported on Hawaii News Now 8,31,2021.

Establish and distribute Early Treatment Protocols.

Telling people to stay home and self isolate until they need an ambulance will undoubtedly result in more hospitalizations and deaths. Why hasn't there been an easy at home guidance for people? This is outrageous that no medical help is being distributed after 1.5 years!

Most covid patients are Vitamin D deficient. This is an easy vitamin for people to take that can potentially help.

Zinc is a vitamin that can boost immune response, another easy help.

Have a nurse hotline that people can call to talk to if they're not feeling well, before they need an ambulance.

Promote the monoclonal antibody treatments, have walkin clinics that people can go to before they need hospitalization.

Promote Aloha and help within our state, do not punish and segregate. My family is being singled out at school, at work, in the community. We are being considered "dirty" or potentially harmful. Stop blaming the unvaccinated for all of the spread, it is a blatant lie and it is harming people and promoting discrimination and hate within our community!

Thank you for your time

### Written Testimony

Gov IGE PLEASE OPPOSE this resolution that will only create mass division and unrest amongst the citizens of this State. You will NOT have my VOTE for reelection if you attempt to create such a dystopian medical dictatorship as this resolution would do. This is NOT the will of the PEOPLE. It is clear that the covid vaccines are NOT preventing the spread of disease. Fully vaccinated countries and cities are having the highest Delta rates of infection if you have not noticed, all after the vaccine rollout. Experts worldwide (getting censored) are claiming that the vaccine is actually churning out the variants that are now resistant to the vaccine. It is clear that the EUA tests are often false positives. I personally know 3 vaccine injured persons and 1 healthy person who has DIED from the vaccine, even her doctor confirms this. I know also plenty folks who "had Covid" and got over it easily, never were hospitalized or died. I know several who never even contracted covid even tho they were living in the same home as someone who was positive for it. All the cases worldwide were going down before the vaccine rollout began. Stop injecting folks with experimental drugs and start treating them with safer therapeutics that actually work, like IVERMECTIN, which is proven to inhibit viral activity of sars-cov-2, yet its still being downplayed and censored by the same officials pushing the experimental vaccine agenda. Ivermectin is now successfully being used in Japan and is safe and affordable. It was approved for humans by the FDA in 1996. <https://pubmed.ncbi.nlm.nih.gov/32251768/>

**Written Testimony** Going down this path of segregation is a slippery slope that we should not be treading on. The fact that you think you can control what individuals do to their own body is atrocious. Threatening their livelihood is tyrannical. Hawaii's people are sick and tired of all this bullshit. If you push them too hard, they will rise up together in response to the hate they feel toward you, the ones mandating these things.

Agenda Item Vaccination Passports  
Your position on the matter Oppose  
Representing Self  
Organization

Written Testimony I highly OPPOSE the vaccination passports. It proven that both vaccinated and unvaccinated persons are able to contract and spread Covid-19. But vaccinated individuals are allowed to bypass quarantining and other safety measures. Bill Gates who has supported this vaccine financially stated that he and his family will not take it.

**Written Testimony**

Hawaii has always been known as the most pro-choice in the country. Let's keep it this way. You are only forcing more small businesses to close their doors. Why ruin our economy when less people have died from COVID over the last 18 months than the average flu season. Do you realize that 600-700 Hawaii residents pass away every year from the flu/pneumonia per CDC website? The numbers don't equate to the discriminatory legislation of Resolution 21-194. Mahalo.

Written  
Testimony

-This proposed Vaccine Passport is discriminatory in many regards.  
-Mandating this 'vaccine' which has not undergone proper testing is a violation of the Nuremberg Code.  
-A Vax Pass mandate for businesses will further cripple Hawaii small businesses as would another unethical, unscientific lockdown.  
- The Vax Pass ignores natural immunity which is more effective than the 'vaccine'  
- Public service announcements and announcements from our elected leaders should be focused on preventative and immune boosting protocols as well as other therapeutics that have been proven to keep people out of hospitals  
-The emergency orders have long expired.

I say 'vaccine' because it is actually a gene therapy, not a vaccine.

For all of these reasons I strongly oppose this resolution 21-194

Written  
Testimony

The purpose of the vaccines, as outlined by the CDC and the WHO, is to minimize the severity of symptoms in individuals caused by COVID-19 — the purpose is NOT to eradicate or stop the transmission of COVID-19. Therefore, whether one receives the vaccine or not is primarily consequential to the individual and not the community at large. I believe that in such a case where the consequence of an action lays solely on the individual, no mandate by the government should intervene. We do not mandate healthy eating habits, we do not mandate exercise, we do mandate continued education, we do not mandate therapy, all of which would contribute to a healthier and happier society. The vaccine only effects the individual, therefore, it should under no circumstances be mandated by the government. I therefore oppose Resolution 21-194.

I strongly oppose the coercion of the population to receive a vaccine that is. Ring currently proven through studies AROUND THE WORLD- that its efficacy and safety are in question.

The CDC Director has reported her own concerns in what they are seeing with the Delta Variant and the vaccinated, and yet we keep pushing a vaccine that isn't working against transmission or contraction. It's only working to lessen symptoms which in turn is hosting a silent epidemic of transmission.

Written  
Testimony        Just like the government cannot control other health choices by individuals such as eating and exercising- they should not be able to dictate health choices such as vaccination. Especially when the possible side effects and potential future related health consequences- would be solely the responsibility of the patient (myself) with no help or assistance from any governing agency!!

You force something upon my Ohana, and then in the even something goes wrong.... I'm the only one left to pick up the pieces!

Regardless of if the vaccine works or not, choosing what goes in someone's body- violates the very essence of Basic Human Rights.

If I have zero control over my own body- what freedom do we truly have?

I strongly oppose Resolution 21-194.

Vaccine passports are an act of segregation that goes against our medical freedom. It exempts the vaccinated from needing to get tested, but it has been proven that both  
Written Testimony unvaccinated & vaccinated individuals are getting covid.

This is dividing people to support a corrupt agenda. We, the people, have the right to choose what is right for our health! This bill does NOT respect nor protect our agency & autonomy in healthcare. Our body, our choice!

### Written Testimony

To whom it may concern: I do not support a vaccine passport mandate for a number of reasons, #1 the Nuremburg Code made it a crime to ever experiment on human subjects again, and here we are, humans are the guinea pigs. I hear from a friend of mine in Hilo, a local guy that he has lost 5 friends and family in one month. 5 funerals. All 5 had recently been vaccinated, one dropped dead right away, the other 4 in weeks following. Most of them had co-morbidities, but one was very healthy!! This is terrifying, to say the least!!! People who have already had covid have their own antibodies, when they are vaccinated, their immune systems are super-revved up by the shot, this can cause the body to attack it's own cells, (auto-immune diseases). I hope you folks will consider the long-term ramifications of this mandate. We won't really know the full impact and long term effects of this procedure for years to come. It has never in the history of humanity been a requirement for healthy people to be inoculated for something with a less than 1% fatality rate. Yes the immuno-compromised need to be treated, and others who feel they need it, but people who build their immune system and practice good health measures daily are able to easily go through this virus and build herd immunity. In my humble opinion, there are many more things people can do to build immunity and good health as a defense against covid. This would save many lives. It is always people with several co-morbidities that succumb to covid. I hope and pray that this council looks at all the facts and ramifications of this move, including the possible and likely Constitutional infringements. For the first time, I am preparing to leave Hawaii, an island I love very much. Thank you for your time and consideration, Mahalos and Aloha! Sincerely, John Kochiss.

### Written Testimony

Nobody should be forced into doing anything! Whether it's mask wearing, taking tests, taking a vaccine. Everyone has the medical freedom and individual freedom to choose what is best for them. It's against our civil and constitutional rights. Not even a healthy individual should be tested. How deadly can this virus be if you have to take a test to know that you have it??? That makes zero sense! How are our Keiki forced to wear masks daily in a hot classroom but we can go out to a restaurant and sit at a table and be unmasked? Again, where's the logic in that? There's so many inconsistencies in all of this. My 12 year old son has to wear a mask to run 1 mile everyday for P.E. He tried to take off his mask to breathe, the teacher pulled him on the side asked if he was vaccinated, he replied no, she told him to put it back on for the safety of others, then separated him from his classmates!!! How is that right?!!! You politicians are encouraging these teachers to openly discriminate against children! MY CHILD! For one, she doesn't belong asking my child that. For two, why does it matter if he's vaccinated? When vaccinated and unvaccinated can still give and get covid?! We know the risks! It's been two years already and majority of the population is a walking miracle, right?! With a 99.8% survival rate why is this still being hyped up to be something that it is NOT. Mask wearing is doing more harm than good. It's been proven that masks do absolutely nothing for any virus! It's just a face decoration that harbors germs on your face. You know what can grow on your face? A staff infection from wearing a mask! And who foots the bill? Not you guys! You guys keep throwing out numbers but don't even tell us how many fully recovered. You don't report on how many have underlying medical conditions. It has been proven by many health directors nationwide that if you're in the hospital for your underlying medical condition and you test positive for covid and later die, they mark your death as dying "FROM" covid instead of dying from their medical condition "WITH" covid!!!! How is that even right! You're scaring the public into thinking they're automatically gonna die when there's MANY preventable measures that can be taken to get healthy and remain healthy in order to have the best natural immunity against covid. So why is that not being pushed on MSM?! Why is this vaccine being pushed?! You're making some

family and friends turn against eachother because now everyone is pointing fingers at the vaxxed and unvaxxed. And it all stems back to the root of this huge problem, which is The mayor, The governor, and the Lieutenant Governor. We the people do NOT work for you public servants. YOU ALL WORK FOR US! You can make recommendations about what you think is best for us as individuals, but you DO NOT get to mandate anything against our personal beliefs, religion, medical status, and most importantly our INDIVIDUAL FREEDOMS and our God given right to choose! This is government overreach. There's approximately 800,000 sex offenders. Why don't they have some paperwork identifying their status to the public? Why are they offered privacy but the vaxx AND unvaxxed have to show their papers in public in order to access public places?! That is ridiculous! Nobody should know who is backed or unvaxxed. That's personal information and should be kept private so nobody has the knowledge and power to discriminate and segregate anyone! This goes against what hawai'i stands for. This is NOT Aloha. This is not showing any Aloha to our neighbors, our traveling guests, our children, and our communities. It is doing the complete opposite and inciting hate and anger towards eachother. But we will not give in! We will not give up. We will stand up to this tyranny and dictatorship. WE THE PEOPLE are no longer asleep. We are aware of what's been going on for decades. Our voices will be heard and you will cease and desist ALL mandates.

Organization  
Written Testimony I strongly oppose the implementation of the Safe Access Oahu program. It is unethical, discriminatory, and not taking into account all scientific angles. We know vaccinated people can still get and transmit the virus, so there is no valid public health purpose that this decision is rooted in.

Written Testimony I strongly oppose resolution 21-94. It is our human right to have a choice. This vaccine doesn't stop the spread of covid so why would it be mandated. Especially for a flu with a high recovery rate.  
Also during such unknown times where businesses are struggling to make ends meet. You would like to cut their income in half by enforcing this new mandate.

Please for once think of the people of Hawaii and not the tourist that fill up our politicians pockets.

### Written Testimony

It is clear that the current Covid 19 vaccines cannot be counted on to prevent the spread of this virus and it's variants. If the State truly wants to reduce the spread of the virus it must stop promoting the vaccines as the solution. Not to mention the numerous civil rights violations this mandate would create and the increase social unrest and fragmentation it would cause.

Although I have already been vaccinated I oppose Resolution 21-194. Our country is founded on democratic principals that give individuals the right to make decisions that affect what goes on to and into their body.

### Written Testimony

Throughout my 77 years, and most certainly during my educational years I have read and history tells us of what took place in the countries where these freedoms have been lost. I also have witnessed through the media the affects of mandated changes. All of us have painfully watched the recent removal of these choice for the people of Hong Kong and the girls and women of Afghanistan.

If an individual chooses not to be vaccinated they should for the safety of others follow the temporary mandate of mask wearing, social distancing and washing hands. Please carefully consider this resolution because of the lasting affects.

I Oppose RESOLUTION 21-194 due to the fact that we, as American citizens, should have the FREEDOM to make any and all health decisions in regards to our own individual health and safety. It is unconstitutional and unethical to not even suggest but to MANDATE medical decisions upon us as individuals. On top of not being able to make our own health decisions it infringes on our privacy.

Written  
Testimony

Mandating this would not benefit the community but divided the community, as I know you feel or think this would solve the spread (problem) but it won't. ONLY JESUS CAN !So REPENT AND TURN FROM YOUR WICKED WAYS FOR GOD HAS HIS ARMS OPEN WITH SUCH LOVE AND GRACE! LOOK TO HIM AND HE WILL GUIDE YOU. SEEK HIS WILL AND WAYS which are RIGHTEOUS AND PURE! YOU DO NOT HAVE OUR COMMUNITY BEST INTEREST AT HEART! You are forcing many to go hungry and homeless think about it. YOU ARE NOT FOR THE PEOPLE! YOUR FOR THE TOURIST AND MONEY!

On top of that, stated by CDC, healthcare workers, and other health organizations, the vaccine does not prevent either the spread of Covid or catching Covid. Alternative treatments, preventative measures, and testing for all should all be the main focus if we are all capable of catching and spreading Covid. This invalidates the vaccine passport. If a vaccinated person is asymptomatic and does not need to be tested, they will spread the virus within restaurants, bars, gyms, etc. IT DOESNT MAKE any SENSE!

I STRONGLY OPPOSE this resolution due to the reasons stated above.

### Written Testimony

I strongly oppose vaccine passports. The proposed infringement on personal liberties and medical autonomy is unprecedented. Businesses will suffer as a result. The vaccinated transmit COVID. Why do you think numbers went up after you stopped testing incoming vaccinated travelers. Please do your research and look at studies out of Israel. Why is natural immunity not being considered?

Written Testimony I am writing to oppose "vaccine passports". This is segregation, discrimination, and completely wrong!! To tell citizens where they can and cannot go based on a medical procedure is ridiculous, and to tell businesses who they can and cannot let into their businesses will cause shut downs of many small businesses. And let's not forget the VACCINATED STILL CAN CATCH COVID AND SPREAD IT!! So why are you discriminated against the unvaxxed?! Please shut this idea down!

### Written Testimony

I oppose this resolution. Forcing otherwise healthy people to take a vaccine for a virus that they have a 98% survival rate from is immoral. For young people under the age of 30 that percentage is probably closer to 100%. Like all medical decisions that are protected by HIPA regulations, this should be a personal choice. We know the population that is most at risk, older, obese, and those who are metabolically unhealthy. Target those groups.

I strongly oppose the digital vaccine passport program.

Not only is it a gross overstep of constitutional rights it also lacks common sense. Mandating proof of this inoculation will do nothing but hurt local businesses and local people.

### Written Testimony

These inoculations do not fit the accepted medical definition for a vaccine. They do not provide immunity! While fully vaxxed, an individual can still contract COVID , transfer it to others, and become ill and symptomatic. Even if it can “reduce” symptoms there have been no studies supporting that claim. Both the WHO and the CDC have acknowledged and are on record highlighting these points.

Bottom line a virus with a 99% survival rate doesn't require a mandated inoculation that has contributed to the highest reported adverse events that the VAERS catalog has ever seen.

Please reconsider this unconstitutional approach.

### Written Testimony

I, Sky Johnston, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

### Written Testimony

I strongly oppose to health cards or vax pass.  
It will prevent healthy people from participating in society, affecting the economy hugely.  
Business will die because whoever is not getting the shot, will not get the shot anyways! and they will figure out ways to live without these luxuries.  
This is going to affect tourism hugely! therefore affect the livelihood of the majority of people who sustain themselves from tourism.  
Vaccinated people does not mean healthy people. Someone can be vaccinated and be sick.  
Health cards or vax pass are discriminatory and violate the constitution. Stop the fear and educate people on how to remain healthy sustainably. The shot does not create healthy individuals, does not prevent anything. NO VAX PASS OR HEALTH PASS!!!! It makes no sense. Stop destroying the economy and the livelihoods of the people of HAwaii!

Organization

Written  
Testimony I am opposed to being forced to take a vaccine because I believe God created our body with the ability to maintain itself. We have the right to care for our body as we see fit. Women contemplating abortion have the right to choice, and that is to kill a human. I demand the same right of choice over my body.

### Written Testimony

I oppose this bill in it's entirety. With vaccinated people getting sick and spreading the virus, this proposed bill does nothing more than act as discrimination and a method of bullying people into getting the vaccine. There is a preponderance of scientists and doctors with studies and research showing that the vaccine is neither safe nor effective, with as yet unknown risks, and serves primarily the profits of the pharmaceutical companies themselves. These same companies have given money to government officials, even here in the islands and the documents are public information and to businesses to promote their agenda. This bill does not have public safety or health as its goal or possible impact. The only impact will be a diminishing of human and constitutional rights, probable injury and death to people and the collapse of people's personal finances and our local economy when too many people have to leave the jobs that keep our economy going.

**Written Testimony**

I oppose the vaccine passport because it is discriminatory and modern day segregation. I believe in medical freedom and an individuals right to choose what is best for them as there is no "one size fits all solution." When there is risk of death or injury with the vaccine, a person should always have the right to choose if they want to take that risk. A person should not be punished and have their basic human rights taken away, especially when the vaccine does not provide immunity and it has been scientifically proven that the vaccinated are still carrying and transmitting the virus. Let's learn from history for once and NOT echo the mistakes of our past.

Written  
Testimony

This goes against all our constitutional rights, and I strongly oppose. I understand trying to protect the people, but why are we not looking to some of these early treatment protocols that are actually working vs the only way out of this is a vaccine, that has harmed more people than all the other vaccines in history?! That doesn't even stop transmission?? There is zero logic behind this. It is appalling to see the companies that stand to gain billions of dollars by having everyone get vaccinated fund the campaigns of our elected leaders. You have an obligation to do what is right for the people. And the right thing is freedom!! I ask you to consider what your legacy will be?! Taking away people's rights?! Or standing up to the corruption that is taking place?!

Written Testimony I strongly oppose this bill. Restaurants, bars and other businesses are still trying to recover from lock downs. Limiting their customers will have a negative impact on their recovery. This bill will limit the businesses target audience to the 61% of the population that is vaccinated. Possibly less if vaccinated people stop visiting these places in protest.

### Written Testimony

Haven't we been shown time and time again the consequences of rushed, fearful and lack of in-depth researched solutions? No matter how well intended, we can not know the long term impact this will have on the long term health of we the people. History has taught us that band-aid solutions always come back to haunt us. From the introduction of a foreign solution to mitigate the effect of a perceived threat has never worked, it's only hindsight we wish we had the foresight to choose different. Do we really wish to take that gamble with our health? What we need is an opportunity to allow our bodies the natural god given ability to build an immunity, one that will naturally adapt to the variants. The vaccine have already been show to be in effective and the mutation of strain is to be expected just as with any flu. It will only keep adapting and un-tested, un-proven vaccines will have no end in sight and be an endless band-aid. Other states have chosen to stand behind the constitution our FREE county was founded on and are writing laws to secure that freedom, are you really going to take it away?

When will this type of forced action end? If we allow this, it's just the beginning!

The fact that this is even on the board is absolutely disgraceful to humanity. This crosses the biggest line of all and that is human rights. I'm starting to feel like I live in a communist country with all these mandates and that's because I was born and raised with freedom to make choices that I want weather they be good or bad. But this changes everything. There is no science to back this and there is so much proof going against it. Just look at Israel

Written Testimony I oppose vaccine passports. If you guys truly cared about the health of our citizens and the root of the problem which is overcrowded hospitals. You folks would address all your efforts into expanding hospital beds and coming up with more solutions and therapeutics for those who are sick. Vaccine passports are not about health it is about segregation. How does that make any sense? Essentially taking away the rights of us as citizens over a vaccine That data shows it does not prevent transmission

I, tiare faivela STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I, tiare faivela STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

### Written Testimony

I oppose any & all mandated invasive medical procedures. I believe in the sanctity of an individual's human body & the right to make our own health choices. Blocking access to essential services based on if a person has had an experimental injection, this is wrong? Please refer to the United States constitution & the Nuremberg code of medical ethics. Please respect human rights & freedom to choose.

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!  
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

### Written Testimony

I Am Vaccinated. And I OPPOSE this for the simple fact that it outrightly crosses the line of FREEDOM. I can't even believe this is on the table. I allowed my 17 year old to decide for herself because this is her body and she chose to vaccinate as well. What is freedom if one is not allowed the simple right to choose what they inject into their body?  
Its not freedom. Its dictatorship.

Written Testimony I strongly oppose further division of our people with an unconstitutional vaccine passport. This is not the way forward! We all have a choice over what we put into our bodies. That is our god given right, protected under the First Ammendment to the US Constitution. Wherever there is risk, there must be choice. No one wants this in Hawaii!

### Written Testimony

I am a native k  naka maoli resident of Kailua, Oahu and I oppose Resolution 21-194. We have seen the economic response of the pandemic as citizens. This Safe Access program is unconstitutional for those who decide to not get Vaccinated for personal, religious, or health reasons. There wasn't an issue before with those dining in or visiting gyms without the vaccination, why now? Community outlets such as restaurants, coffee shops, gyms, and other indoor activities are vital for the health and well-being of communities and families. It is also the majority of both employers and employees are able to afford our already over-priced living situations. I oppose this unconstitutional program and believe as native to this land strongly urge all in the power to do so to reconsider the ways to make our islands safe that doesn't jeopardize the family owned businesses. I humbly ask you to consider the long-term effects of what this would do to local businesses, instead of trying to reach for a quick fix to a problem that several other solutions at hand to ensure the safety of all Hawaiians and those who call Hawai'i home. We are driving a civil war by pointing fingers at unvaccinated. It will get worse. People will fight back in response to all of this going on.

A vaccine passport is not the answer to our community's problems. The facts are in: the vaccinated are catching Covid, the vaccinated are spreading it, and the vaccinated are not immune from the virus any more than those who are not vaccinated. The countries with the highest vaccination rates (Israel, Seychelles, Uruguay, Bahrain, Maldives, to name a few) are having the highest covid case numbers and deaths. Therefore, proof of vaccination does not prove that you are healthy or free of covid. A vaccine passport would only discriminate those who choose to not get the new and experimental medical procedure and would only be used as a form of government control.

The Covid vaccine is very new. The data is still coming in. There have not been any long-term studies on its safety or efficacy. It is not a cookie-cutter vaccine that is right for everyone. There have been thousands of deaths and hundreds of thousands of adverse events already caused by the vaccine during its short roll out, according to the government's Vaccine Adverse Events Reporting System.

Written  
Testimony

The government should never be given the authority to mandate personal medical procedures to participate in society. Hawaii has no place for leaders who want to implement policies akin to Nazism. It should be every person's right to make decisions for themselves personally on how they should manage their own health. The government should not coerce or strong-arm people into any medical procedure in order to participate in a society in which they are a part of. This is nothing short of Nazism exactly akin to what the Nazi regime did to pass laws against the Jews because they were deemed dirty and germ-ridden with no real proof or reasoning other than the intent to discriminate.

If the government thinks that it is in their duty to make mandates based on personal medical decisions for reasons relating to the greater good, where will it stop? This Vaccine Passport would set a precedent for the government to mandate more and more medical requirements to participate in society. Will forced sterilization be next? Will our future men need to show proof of circumcision to enter a restaurant? Just because we are in a pandemic now, you cannot give

the government a free reign on our personal medical choices. Our future depends on the choices that are made today. There are other ways to help us through this pandemic, but this not it. Proof of vaccination does not prove that you are healthy. If we do not have liberty over our own bodily choices, then what freedom do we actually have? Do not let Hawaii fall into the leadership that is akin to Nazism. We are a strong community built out of love and respect for one another. A vaccine passport would only discriminate and further divide our community. The outcome would be disastrous. Violence and crime would rise as well as division and hate. Please uphold Hawaii's aloha. Do not pass any resolutions to implement a mandatory medical procedure to participate in society. The vaccine passport is not the answer. Hawaii is a state in the free nation of the United States of America. Draconian and tyrannical laws do not belong here. Do what is right for all. Together we will overcome this pandemic. It is not your duty as a member of government to dictate medical choices for individuals, it is your duty to protect us from any harm that is caused by government overreach.

Aloha and thank you for reading my written testimony OPPOSING the proposed vaccine passport.

A vaccine passport is not the answer to our community's problems. The facts are in: the vaccinated are catching Covid, the vaccinated are spreading it, and the vaccinated are not immune from the virus any more than those who are not vaccinated. The countries with the highest vaccination rates (Israel, Seychelles, Uruguay, Bahrain, Maldives, to name a few) are having the highest covid case numbers and deaths. Therefore, proof of vaccination does not prove that you are healthy or free of covid. A vaccine passport would only discriminate those who choose to not get the new and experimental medical procedure and would only be used as a form of government control.

The Covid vaccine is very new. The data is still coming in. There have not been any long-term studies on its safety or efficacy. It is not a cookie-cutter vaccine that is right for everyone. There have been thousands of deaths and hundreds of thousands of adverse events already caused by the vaccine during its short roll out, according to the government's Vaccine Adverse Events Reporting System.

The government should never be given the authority to mandate personal medical procedures to participate in society. Hawaii has no place for leaders who want to implement policies akin to Nazism. It should be every person's right to make decisions for themselves personally on how they should manage their own health. The government should not coerce or strong-arm people into any medical procedure in order to participate in a society in which they are a part of. This is nothing short of Nazism exactly akin to what the Nazi regime did to pass laws against the Jews because they were deemed dirty and germ-ridden with no real proof or reasoning other than the intent to discriminate.

If the government thinks that it is in their duty to make mandates based on personal medical decisions for reasons relating to the greater good, where will it stop? This Vaccine Passport would set a precedent for the government to mandate more and more medical requirements to participate in society. Will forced sterilization be next? Will our future men need to show proof of circumcision to enter a restaurant? Just because we are in a pandemic now, you cannot give the government a free reign on our personal medical choices. Our future depends on the choices that are made today. There are other ways to help us through this pandemic, but this not it. Proof of vaccination does not prove that you are healthy.

If we do not have liberty over our own bodily choices, then what freedom do we actually have? Do not let Hawaii fall into the leadership that is akin to Nazism. We are a strong community built out of love and respect for one another. A vaccine passport would only discriminate and further divide our community. The outcome would be disastrous. Violence and crime would rise as well as division and hate.

Please uphold Hawaii's aloha. Do not pass any resolutions to implement a mandatory medical procedure to participate in society. The vaccine passport is not the answer. Hawaii is a state in the free nation of the United States of America. Draconian and tyrannical laws do not belong here. Do what is right for all. Together we will overcome this pandemic. ### Written Testimony

I'm a business owner and resident of East Honolulu and strongly oppose the vaccine mandates in Res 21-194. It unnecessarily restricts commerce and the freedom of people who have many different reasons why they do not want the Covid vaccine. My reason is that my uncle died within three days of receiving the vaccine and another close family member with an autoimmune disease went to the ER immediately after the vaccine because of a life threatening flare up caused by the vaccine. A close family friend is struggling with blood clots after the vaccine. As a young very healthy adult I would rather take my chances with an over 99% survival rate of Covid than the possible risks of the vaccine. Furthermore, the vaccine does not stop transmission and many vaccinated people are getting Covid, so it's not even helpful to stop the spread of the virus to mandate the vaccine. There's a huge number of people who are opposed and will not support this.

Written Testimony This bill will have disparate impact on NHPI and the young. 60% of native Hawaiians are not vaccinated. My son (17 yo) and his friends are losing their jobs over a vaccine for a virus with a 99.987 survival rate for his age group. CDC acknowledges that this vaccine does not prevent infection nor transmission. This bill is both discriminatory and unscientific.

Written Testimony This vaccine mandate is very unfair to those with natural immunity. There have been studies released, including Lt. Governor green who stated on social media prior to editing his post, that states; those who have suffered from this disease and had the blessings to survive, maintain equal or higher immunity to the virus. Therefore a vaccine, or testing should not be required.

### Written Testimony

i don't believe this is legal. it fringes our rights as a citizen of the united states. it discriminates small businesses to show vaccine card where as BIG businesses don't have too. Businesses should be able to choose. vaccinated and unvaccinated people should have the same right. whatever happen to the HIPPA??? So think about this and please reconsider and listen to the people.

### Written Testimony

I STRONGLY OPPOSE any mandates requiring any vaccine passports of any sort. This is unconstitutional and a form of racism and segregation against the people of Hawaii. This does more harm than good even with right intentions based off of bad, partial, and carefully selected data to make decisions. With over 80% of people living pay check to pay check in America the potential of not being able to afford the tests needed and the risk of not being able to work can potentially be devastating to the people of Hawaii. Reconsider your position on this decision as this will greatly hurt the state of Hawaii.

Written  
Testimony

I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution. Registered sex offenders are not required to carry a passport because it violates their privacy; vaccine passports are a violation of privacy.

Written Testimony  
This is not about being vaccinated or unvaccinated. I support anyone who chooses to get vaccinated. There is proof that whether you are fully vaccinated or not you still can contract and transmit COVID-19.  
This is about our freedom of choice. I oppose to this vaccine mandate because it is violating our human rights, the constitution and the Nuremberg code. This is an unnecessary mandate! The requirements that the unvaccinated must undergo is inherently unlawful and unjust.

Aloha Chair Cordero and Committee Members,

I am writing in support of Freedom.

Resolution 21-194 COVID-19 HEALTH CARD is in opposition of Freedom. We must fight for every bit and piece of Freedom. If you vote to take away a piece of Freedom it may support you this time, but the he next time it may not. The next time it may be taking your Freedom. We can just look at history, the taking of people's Freedom has not been positive. Taking Freedom has resulted in tyranny.

Second, if we review the scientific data from the highly vaccinated country of Israel:

- The vaccines do not prevent infection.
- The vaccines do not prevent transmission.
- The vaccines may or may not mitigate the effects of infection,
- Persons who have recovered from COVID derive little or no enhanced protection from vaccination.

I support Freedom, implementing Resolution 21-194 COVID-19 HEALTH CARD will take our Freedom away and very negatively affect people's lives. It will also empower segregation at a level we have not seen since before the 60s.

Please don't take Freedom away.

Sincerely,  
Erik Eck

Written Testimony This bill will have disparate impact on NHPI and the young. 60% of native Hawaiians are not vaccinated. My son (17 yo) and his friends are losing their jobs over a vaccine for a virus with a 99.987 survival rate for his age group. CDC acknowledges that this vaccine does not prevent infection nor transmission. This bill is both discriminatory and unscientific.

Written  
Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 ( only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidityes with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization ( which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - ( vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported ,

combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debilitated and suffering. It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the RIGHT thing for the people of Hawaii , and vote NO to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for taking this heart felt testimony into consideration.

Written  
Testimony

Why is it that unvaccinated people have to test before going into bars, restaurants, etc but the vaccinated people who can catch and carry the delta variant just like the unvaccinated can go into these establishments without a test? How are you rationalizing this and how does this make any sense?

It's discrimination! If unvaccinated needs to test all vaccinated needs to be tested as well because they can spread the virus as well, it's simple solution!

### Written Testimony

My name is Shen Kai Gandolfo, and I was born and raised here in Hawaii and am a current citizen of Oahu. I speak for myself and so many of my people from this island. We OPPOSE this bill and are outraged by what is going on and the ways the government is imposing more and more difficulty and control on our lives and freedoms. This mandate/requirement is an infringement of our constitutional rights and is UNACCEPTABLE. We the people have the right to choose what is best for our health and do not grant our elected officials the right to force your ideas of "safety" on us.

We will not stand this. We will not comply.

Written Testimony I am adamantly opposed to the imposition of a vaccine passport in the state of Hawaii. As a very basis, I am certain that this will destroy businesses in an already challenging economy. Beyond that, vaccines, while helpful to the prevention of covid are proven to NOT be fully effective in the spread or prevention of covid. To mandate something that is new and still in the process of being studied is not only irresponsible, it is a nonsensical infringement on basic human rights.

I strongly oppose this bill. Where does it end? People who are vaccinated are also getting it and passing it. These vaccines aren't 100% effective and we still don't know how long they are effective for. I encourage you to read this article

Written Testimony <https://www.google.com/amp/s/www.nationalreview.com/2021/08/the-bitter-truth-theres-still-no-rhyme-or-reason-to-covid-19/amp/>

No matter what side you choose to be on, vaccinated or unvaccinated, no one knows how this is going to play out. Instead of being divided we should respect each other's choices and rely on God to see us through as He is the only One that knows the outcome. In the end, to get vaccinated or stay unvaccinated, it is by Faith each of us individually makes a choice. Because none of us truly knows what is best. Read the article...if you choose...

**Written Testimony** I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose

Written  
Testimony

This Bill is unlawful. It violates one's Constitutional Rights, among them, the 14th Amendment and others. We have the God-given right to enjoy bodily autonomy, the right to choose. If you abridge our rights you will be sued both in your personal and official capacity. Do check again with your lawyers. Many people are suing across the nation and they will win! DO NOT PASS RES. 12-194, Thank you.

Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization Absolutely NO.

Written Testimony Extensive studies have shown CONCLUSIVELY that IVERMECTIN IS AN EFFECTIVE TREATMENT AND PREVENTATIVE FOR COVID-19. It is LOGICAL to deduce that the MONEYED INTERESTS promoting the mRNA vaccines which ALTER human cellular tissue to produce the spike proteins that ARE NOT CONCLUSIVELY SHOWN TO BE EFFECTIVE, have a nefarious agenda. WE SHOULD NOT BE SUPPORTING THIS!!!

Written  
Testimony

This bill would not only hurt our economy, but it would hurt our people as well. This bill is not in support of human rights and the basic freedoms we have as a principal in America. This would be the worst thing you could do in response to a flu, we are not Nazi Germany please realize what you are doing. What you are doing is wrong and I know you know that, think about all the children and kids that won't grow up with a life so beautiful as we were blessed to have. As we sit and watch our kids and families be muzzled and required to get a poisonous vaccine that doesn't even work or help stop the spread, Our freedoms are being taken away in front of our very eyes. Wake up

Written Testimony	I strongly oppose the un-constitutional implementation of vaccine passports here in Hawaii. This supports harmful segregation and division in our communities. As a farmer this would detrimentally limit the way I could interact with, serve, support, and feed my community. NO VACCINE PASSPORT OF ANYKIND.

Written  
Testimony

I am in strong opposition of this. This is a complete infringement on the rights and privacy of our people. The vaccine does not stop transmission or infection rates and is holding up poorly against the Delta variant and likely the many variants to come. Those who have natural acquired immunity are faring much better than those who have been vaccinated, and somehow they are being told they need a shot to go to work or participate in society. This is ludicrous. This is discriminatory against people who choose not to get a vaccine or cannot get a vaccine. This agenda is based on compliance rather than actual science. There are other safe and effective ways to prevent and treat COVID with the use of specific supplements and other pharmaceutical therapeutics that have been around for a long time. Digital passports have no place in a free society and if Hawaii so chooses to implement this it will not only cause segregation, but it will hurt the economy and many good tax paying citizens will leave the state. Many of them are our frontline workers and health care professionals, such as my myself, who favor medical freedom and body sovereignty. I urgently plead reconsideration of this. This is not a world we want for ourselves or our children. Mahalo nui loa.

Governor Ige, please oppose this resolution., Res 21 -194. We the people of Hawai'i want to retain our freedoms and support the local businesses without being FORCED to vaccinate/covid test, in order to eat with our families at a restaurant or to attend my gym. The restaurants have already put in place the 6 feet apart as per CDC and paid for changes. Please, do not take away our freedom to live and choose what is right for our bodies. I live a very healthy fit life at 66 years old eating clean from all the fresh produce we have at our fingertips. Please hear all sides, pray for the people you took an oath to protect. It's not just one vaccine anymore... it's about two, with a booster and another... Aloha for Hawaii and its people.

Written Testimony Segregation and special privileges due to vaccination status is WRONG! Especially when it hinders one to provide for their family, prohibits basic freedoms! Also, it's proven that these vaccines doesn't prevent spread or one catching it. It's our body and we should have the ultimate say as to what goes in it for personal medical decisions! We have to live with the risks etc not the government! The government is crossing the line! We need to find a more healthy realistic FAIR, RESPECTFUL way!

Written Testimony I strongly oppose this resolution. This resolution has been put in place to curve infections. There is no data to support the idea that community spread is occurring in these businesses. It is widely believed that community spread occurs in large gatherings. The limitation of patrons to these businesses should adequately achieve the intended goal.

I strongly oppose this resolution. This is a slippery slope if you are allowed to Segregate American citizens based on vaccine status or any other status for that matter. Where does this end?

Written Testimony Increasingly, there is more evidence that shows the vaccination does not prevent spreading or catching Covid so why segregate? This is not to find. I watched the CDC state that fact. It does no good and serves no purpose.  
Do not destroy my home with this bill.

Written Testimony I never thought I would live through the reincarnation of the genocidal agenda of Nazi Germany. It has become obvious that covid -19 and all the government responses to covid-19 are a reincarnation of the genocidal agenda of Nazi Germany. Anyone pushing so called public health measures such as this should be held accountable for this genocide agenda.

### Written Testimony

Although I am a proponent of vaccination, I adamantly oppose this resolution as it infringes upon our rights and encourages the segregation of citizens based on in their rights to choose whether to receive the vaccine or not for whatever reason. I strongly feel that this is an extreme overstep of our government and worry about the direction that a mandate like this could lead to. I encourage our state leaders to take this into consideration and oppose Resolution 21-194.

“There is no justification in taking away individuals freedom in the guise of public safety” - Thomas Jefferson  
Written Testimony Our founding fathers believe in it. I STRONGLY OPPOSE VACCINE PASSPORT!  
Vaccine passports are not the answer to Stop the spread of Covid. I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. I’m addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

Written Testimony We the people of Maui, who have elected YOU to be our voice, are asking you to say  
NO TO THE VACCINE PASSPORTS! THIS IS SEGREGATION!!  
Our businesses have been through enough! Our citizens have been through enough!  
We have the rights to FREEDOM of choice!  
Do you want to inhibit tourism? Do you want small business owners to leave the island?  
What is the agenda here? When will the control stop?  
We the people do NOT consent!

Written  
Testimony I am adamantly opposed to the imposition of a vaccine passport in the state of Hawaii. As a very basis, I am certain that this will destroy businesses in an already challenging economy. Beyond that, vaccines, while helpful to the prevention of covid are proven to NOT be fully effective. To mandate something that is new and still in the process of being studied is not only irresponsible, it is a nonsensical infringement on basic human rights.

Written Testimony I am highly opposed to a digital passport system for vaccinations. This is beyond what is necessary to keep the community safe and it is an undue burden on citizens and businesses. It will be harmful to business and industry in Hawaii and be discriminatory to citizens/visitors that are not able to get the vaccine. Please oppose this. Thank you.

Written  
Testimony

The hospitalization rate is less than 3%, the survival rate is well over 99%. Logically, this is simply not worth forcing medical procedures on the public to participate in society. There are countless residents who simply do not trust big pharma companies. Please don't slip down the slope of tyranny for this. Please. It will upset so many people. If someone is vulnerable and worried about covid, they can take precautions but the rest of us are very much over all this.

### Written Testimony

I wholeheartedly oppose this vaccine passport because it is an absolute infringement on our God-given rights as Americans. There is no allowance for this type of mandate and loss of freedom within the Constitution. Practically speaking, there is still way too much information coming out about the vaccines (regarding their low rates of safety and efficacy) for you to be demanding that we inject ourselves with it at this time OR face discrimination! The possible damage these vaccines may cause could likely be irreversible. Please hear our voices as you are here to represent us to the government not the other way around. Thank you and aloha!

### Written Testimony

I oppose the vaccine passport. This is discrimination. This is bad for business and the economy. This disease has over a 99% survival rate meaning if you catch it odds are in your favor that you will survive (it is not 99% fatal like much of the world would have you believe) For most people this is nothing more than a common cold. The majority of people with covid do not end up in the hospital.

This is an attempt to COERCE people to get vaccinated with an experimental vaccine. The FDA has put their stamp on it but that does not prove its safe and effective. Many drugs have been recalled after the almighty FDA approval. This product is so new that there is NO long term data. The short term data is less than impressive. High chance of adverse reaction including death, 0.84% -1.3% Absolute Risk Reduction after vaccination for a disease that already has a 99% survival rate, boosters required after 8 mos meaning the vaccine is much less effective then they want you to believe. This seems like a plan for profit, power, control. The business's will suffer more than I.

COERCION IS NOT CONSENT, I DO NOT CONSENT

The vaccines don't work...people who took it are getting the covid-19, not the unvaccinated. There are many death and side effects from taken the vaccines. If people are healthy why would you want them to get vaccinated? What's in the vaccines? There are cures like hydroxychloroquine, Ivermectin and many more. Instead of forcing people to take the vaccine, why not show them the cures etc. Thank you.

**Written Testimony** I strongly oppose to this passports as it is against our constitutional rights. Division will only make things worse and if you take away our right to travel outside of Hawaii just because we're not complying to your forced injection that has been proven to kill people and still catch covid badly and still be hospitalized than you have not heard the people. There are so many other ways you can prevent this spread but forcing a vaccine passport instead of testing all traveling visitors will not stop this spread.

### Written Testimony

I strongly oppose to this Health passport!  
Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: "Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product"  
Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States.

### Written Testimony

I vehemently oppose this resolution. Mandating a vaccine not only violates the public's rights but in this case it may also prove to be deadly. The Covid-19 vaccines currently available to the public have not been FDA approved. The only vaccine approved is not widely available. According to VAERs reports there are many adverse reactions being reported including death. To restrict the public's ability to conduct normal activities by requiring them to inject themselves with an unapproved and insufficiently tested vaccine is at best irresponsible and at worst criminal.

To force business to card for a vaccination card is discrimination amongst those who are unvaccinated. We are reliving an action that was implemented during WWII!

### Written Testimony

Vaccinated and unvaccinated people can spread COVID-19. Just because businesses allow vaccinated people into their establishment this does not mean COVID will not spread!

Written Testimony In view of the fact that COVID-19 “vaccines” do not infer protection from getting sick with a variant or spreading the illness, there is no good reason to mandate vaccine passports. I oppose this infringement of my rights.

Written  
Testimony

I'm a resident of Kaaawa and am EXTREMELY DISAPPOINTED in our elected officials for this agenda. It is very discriminating to force an experimental vaccine upon anyone. The fact that you are not taking into consideration the fact that over 45,000 people have died directly from Covid vaccines is very alarming! And, with all the new data showing that people who get the shot are still catching the virus + spreading it. It makes NO SENSE. This is an infringement on our rights and goes against our constitution. An absolute criminal agenda. I'm ashamed to live in the state of Hawaii currently, our elected officials are as corrupt as can be.

### Written Testimony

This resolution is against our freedom of choice, is controlling to "We the people of the United States", unfair and no justice for all. Forcing citizens to make a choice to be vaxed or will not be allowed to travel anywhere is greedy, discriminating and racist. Choosing not to get vaxed should be our choice. We do not want the chemical carcinogen toxins in our bodies which is dangerous to us all. These chemicals are harmful, can cause a variety of allergic reactions yet you insist on everyone taking this vaccine. Plus those who have been vaxed can become asymptomatic and can spread this virus. Why havent the ingredients been told to the public? What are you trying to hide from us?

Those not choosing the shot have worked effortlessly to educate, rally and discuss the consequences of the vaccine. Plus there are doctors who have advised patients to not take the shot. I am one of them due to my family history. This would be detrimental to my health. What you are trying to do is social control. These groups who enforce the vaccine are pressuring society with threats. You think we are problematic, and a threat to those who have been vaxed. We are taking a stand to protect ourselves from the poisons in the shot. We are not idiots instead medically aware of the dangers of these shots. What if someone on a neighbor island needs medical help in Oahu and has not been vaxed. Are you saying they will not be allowed to fly to get the support from the necessary doctors which our island (big island) does not have? So we therefore will be penalized, unable to get the necessary care? This is an infringement of our civil liberties. This crazy mandate will return our United States to the times of the Nazi practices, forcing all to do what they are told otherwise suffer the consequences. I am totally opposed the vaccine passport and will stand up for my rights.

"There is no justification in taking away individuals' freedom in the guise of public safety"  
- Thomas Jefferson

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!  
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

I AM strongly opposed to this bill!!!!!!!

I AM a citizen of the United States of America! This is not a communist country! My ancestors and nephews fight for my freedom to choose. This is my RIGHT and not for others to dictate what I do with my life.

Written Testimony If you are so scared of the COVID virus then go live in a plastic bubble! You can't make me take the COVID shot or isolate me from others. We'll all die one day. You can't run from death. Your life and my life is already predestined by our maker Jesus Christ.

I choose to live not recklessly but numbering my days that I can make magical moments with my loved ones and not wither away in isolation and die lonely. We only have one life to live so live it full, live it well and live it free.

Aloha,

Written  
Testimony

I oppose a vaccination passport. The discrimination and division within our community over the vaxed and unvaxed is appalled and absolutely ridiculous. It hard for me to understand how a vaxed person who is potentially covid positive will be able to come and go as they please but an unvaxed covid free person's rights are taken away?? I never thought a time would come when I would not have the right to make my own personal health choices for myself and my family.

Furthermore, how dare people say " well if you don't get vaxed then don't go to the hospital " we pay for our health insurance, that is our right to seek medical care if needed! What's the difference with some how smokes and get lung cancer, their choice to keep smoking or a unhealthy person with a poor health that continues to make more choices, their choice too so maybe they shouldn't seek medical care for a heart attack or any other issues they may have??

My family takes extra precautions to keep ourselves safe.we don't gather in large groups, we don't go out to the malls, theaters, gyms and rarely restaurants but that doesn't mean we should be restricted because we fail to show a damn vaccination card!! What next, we can't go to the grocery store to feed our family?? To add to this my family doesn't get the flu shots either, so why would we subject ourselves to this new covid vaccination?

I truly hope you can put the financial gains from these vaccination and truly listen to the people!!

Ke Akua pu me kakou a pau🙏

Me ka ha'aha'a,  
Li'i'Anela Napoleon

### Written Testimony

I am writing today in strong opposition to Resolution 21-194. Not only does this resolution infringe on the civil liberties of private citizens, but it threatens the very core of our democracy, or whatever is left of it. Let me remind you that without choice we have no democratic process. By way of the CDC's own statistics they report that 99.98% of healthy individuals recover from COVID-19 without issue. It has also been documented that natural immunity is by far more robust in producing protective antibodies than the vaccine, this remains true for all viral infections. So why are we not talking about health and immunity? You are not taking anyone's right away to smoke cigarettes and this is a respiratory infection, you are not advising people to stop eating fast food or drinking sodas and alcohol all of which play a fundamental role in overall health. As I look around our state today, I see chronic illness as much more a pandemic than any virus. Whether it be Type 2 Diabetes, obesity, or cardiovascular disease, it is no wonder hospital beds are full, these people are dying regardless, and by their own lifestyle choices. But that's their right, isn't it? Therefore, is it not my right to choose what is best for my body? Is it not my right to choose what is best for my children's body? In Fauci's emails that were released he admits that masks will not prevent transmission and that asymptomatic persons are most likely not spreading the virus. And yet here we are masking our children up and lining up to get a vaccine that has "waning" efficacy. Which is why the government is pushing for a 3rd booster shot, it doesn't work. My sister was monetarily incentivized by her place of work (which should be illegal) to get fully vaccinated in order to come back to work. Not only did she have vaginal bleeding for 3 months, she is presently quarantined because she has COVID-19. This is not a pandemic, I do not know 1 person who has died from COVID, by definition of a pandemic I would statistically have to know someone who has died, and I don't know 1. If you know someone that has succumbed to COVID, what else were they suffering from? Were they beacons of health? Most likely not. The media also wants to pulverize GOP states for pushing back. Thank goodness some states have the leadership to do so. My family and I just moved back from Alabama. We lived there for 4 years and it was blessing to be there during COVID, in a

place that upholds individual rights, in a place that will not allow big government to interfere with the personal lives of private citizens. When I look at Hawai'i leadership all I see is slaves. All of you need to be told what to do, when to do it, how high to jump. Always following others, never trailblazing a new distinctive path. Now you want to follow New York with this ridiculous resolution. I strongly oppose this resolution on the basis of unlawful discrimination.

### Written Testimony

No business or organization, including any governmental agency has the authority to force me or anyone else to take any and all COVID-19 vaccines, as well as any other vaccine. No business or organization, including any governmental agency, has the authority to deny me any and all services provided to COVID-19 vaccinated individuals. Denial of any such services, will be a violation of our God-given, Natural, Common Law, state and federal constitutional and international rights not to be vaccinated in any way or form without our consent, this includes our right not to be tracked based on our vaccination status. Any such government agency, business or organization, person's acting as offices of such entities, man and/or woman, violating our right not to vaccinate against COVID-19 will be liable under tort law and for deprivation of rights under color of law, and will be subject to lawsuits, accordingly.

A tort, in common law jurisdiction and otherwise, is a civil wrong that causes a claimant to suffer loss or harm, resulting in legal liability for the person who commits the tortious act. It can include intentional infliction of emotional distress, negligence, financial losses, injuries, invasion of privacy, and many other things. In summary, no COVID-19 vaccination can be required in order to operate in community and social life, whether it is to go shopping, to work, to visit recreational areas, to visit persons in medical establishments, to travel, to visit restaurants or any business, or to enjoy are God-given right to go about our lives without government or corporate interference.

Failure to respect this, and any intent to violate anyone's right not to receive any vaccine for COVID-19 or any other disease may and will result in legal action against those involved: In the case of government officials, coercing and forcing any person to take such vaccines is a violation of your Oath of Office, your obligation to protect our constitutional rights, and will strip you of any and all governmental immunity for acting outside of your authority.

In the case of any business and organization, man or woman, coercing and forcing any person

to take such vaccination in order to provide any services or to provide access to your establishment, will be considered a violation of constitutional rights, subjecting your business or entity, and you as a private citizen, a man or a woman, to legal action against all of your assets. Business and organization policies are not above the law.

If I am compelled or forced to vaccinate to receive your services and I am injured, it will be considered coercion, duress and against our will, and you will be held liable for any such injury. I note here that we are not refusing vaccination, we are simply declining such vaccination for the reasons noted herein, and as mandated by God, the highest legal authority.

Written  
Testimony        Please put emotional feelings aside and govern our community by the laws and constitution. If you are truly following actual science, the CDC has acknowledged that vaccinated individuals are just as likely to transmit the Covid virus. This would mean that unvaccinated individuals are being discriminated against solely because of a choice that they are not comfortable with the research done yet on this test trial vaccine. Also studies now show that individuals who have recovered from Covid are more immune than those who have received the vaccine. So why are we forcing those individual to vaccinate as well? The logic does not make sense.

### Written Testimony

As God is my witness, I testify that I strongly OPPOSE, completely AGAINST Resolution 21-194.

These draconian mandates needs to END right now. Clearly, this is NOT what the people want, and I don't know what fantasy island you all are living on but this is completely against our constitutional rights. Obviously you are all operating by strings being pulled by someone. This whole pandemic has been nothing but fear-mongering. For what reason?! To usher in these vaccines that you know our bodies do not need?

What's in these vaccines that, we the people, are being bribed, coerced, and threatened to take? This "virus" has a 99% survival rate. Not too mention there are cures and therapeutics for covid-19. Why is it that some countries like Japan is recommending, Ivermectin as a cure? But here in the U.S, the CDC/FDA is completely banning it. There has been countless of testimonies from individuals that used that medicine and felt better within a few hours. So my question is, did people really have to die? Or is there another demonic agenda behind these absurd decision making that this ridiculous leadership is trying to implement? With all due respect, please listen to the voices of the community. Please listen to real frontline doctors whom mainstream media is censoring and discrediting. Please give the people a CHOICE. Let us have a free will. All of you in this government is showing your true colors, and clearly you all are only for profit and not for the people. You can blow a smoke screen on tv and say that you're concerned for the community, but all we hear is lies. If you really cared about the community like you all say you do, then you WILL NOT pass this Bill. WE DO NOT WANT IT! WE DO NOT WANT ANY VACCINATION PASSPORTS. WE DO NOT WANT ANY FORCED VACCINATIONS. WE DO NOT WANT ANY MASK MANDATES. WE DON'T WANT ANY COVID TESTING. WE DO NOT WANT ANY SOCIAL DISTANCING. WE JUST WANT OUR VOICES TO BE HEARD. WE JUST WANT FREEDOM OF CHOICE.

### Written Testimony

I strongly oppose implementing a health pass restricting access to any locations for individuals choosing not to take a covid-19 vaccine. We have never done this in the past for any other disease, let alone one with such a low fatality rate. And with good reason. Creating a caste system for the citizens of a free country is not a good idea. History has given us multiple examples of the violence and injustice that occur when government sponsors discrimination and division. Once implemented, where will it stop? Israel is now requiring three shots for entrance. Every shot adds risk. Where there is risk, there must be choice. It is a short road to medical tyranny and totalitarianism. And most importantly, a non-sterilizing vaccine such as this one doesn't even prevent transmission, so the logic is completely absent, uncovering this for what it really is because it's obviously not about public health. Do not be complicit.

I strongly disagree with Hawaii and for that matter the whole United States going to this "passport" for entry into venues. This will create a segregated society that we have worked so hard to overcome plus it's discriminatory!!!! We also will lose dollars from the economy because people will just stay home! Especially if they have an unvaccinated family member. This issue will tear the people of Hawaii apart as well as the whole United States!

**Written Testimony**

Aloha, Committee Members--

I am writing to oppose this resolution. I have a number of objections. First, this is a violation of civil rights of individuals to have autonomy over their own bodies and health. It violates the Nuremberg Code, that states no one can be forced to participate in a medical experiment. These vaccines--Moderna, Pfizer, and Johnson & Johnson/Janssen are all experimental, and have not received full FDA approval. As a mental health professional, I object on the grounds that forcing people to receive an unwanted vaccine in order to participate in society is detrimental to mental health. It creates an atmosphere of "us vs them," which is unhealthy. The resolution does not take natural immunity into consideration. Research shows that immunity from natural Covid infection is much more robust and effective than any vaccine can confer. Further, it does not make allowances for those who are medically unable to receive this vaccine, nor does it allow for religious exemptions. Freedom of religion and the free practice thereof are encoded in the Constitution of the United States. I would support a resolution that corrected all of these concerns and included a way to show documentation of natural immunity, medical contraindication, and/or a religious exemption. Thank you for your time and attention.

### Written Testimony

Not that any councilperson cares to challenge the narrative, but passing Reso 21-194 would be another economic blow to local small businesses and struggling families. Their viability is being sacrificed again with this proposed initiative that is clearly known for restrictions that promote hardship, not community health. "Cases" are an artifact of deceptive viral spread numbers among the population by utilizing the "emergency" mandated test known to inflate to any variant false-positive. Councilpersons' own exemption from vaccine mandate is example of governance by selective rule.... Inevitable disappointment here.

### Written Testimony

I am opposed to vaccine passports. It is segregation and an invasion of privacy. Vaccines are supposed to protect a person from acquiring a disease. This is not the case with these inoculations. How many boosters, that don't work, are you going to push? In Israel 78% of those 12 and over are vaccinated yet have approximately 650 new cases daily per million. Nearly 60% of patients who are ill are fully vaccinated. Gibraltar has a 99% vaccination rate yet COVID cases are spiking. The vaccine doesn't work so why a push for passports? Who's making money from all this? Who's twisting your arms? We all know that whether vaccinated or not a person can catch COVID and spread it. So it's okay that small businesses have and will shutter while magnates thrive?

People's livelihoods are at stake. You strip our unalienable rights under the guise of "safety". I wonder how you keep a clear and pure conscience. I wonder how you sleep at night.

As an individual who has lived in post-Communist Russia, I have personally witnessed the deleterious effects of the overreach of the state. While living in Moscow, I was frequently stopped for my papers by the police and couldn't help but think how thankful I was to be a citizen of the US, where we experienced great personal freedom to step outside our homes without being questioned about our documents unless there was justifiable reason for doing so.

I see great danger in allowing the State of Hawai'i to proceed with a Vaccine Passport. This would essentially strip a significant part of the population of its God-given human rights and lead to a medical apartheid. We have a right to bodily sovereignty, especially as it relates to the administration of a completely experimental new therapy that is still in phase III clinical trials, has a questionable risk-benefit ratio and which has seen thousands of adverse events including severe injury and death.

Written  
Testimony

I am greatly alarmed by the silencing of many renowned scientists and doctors who have been speaking out publicly about the lack of scientific evidence to justify such extreme measures for our society. There is simply not enough solid scientific data to support implementing such measures against a virus that has been shown to have virtually no long term consequences for the under 60 population without pre-existing conditions. The risks of administering this experimental therapy with unknown consequences to the entire population clearly outweigh the benefits and doing so is simply unconscionable.

The Nuremberg Code of 1947 clearly states that in the case of medical experiments, "the voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to exercise free power of choice, without the intervention of any element of fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient

knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision."

Quite frankly, implementing mandates of an experimental "vaccine" and vaccine passports is a gross violation of human rights and a violation of the Nuremberg Code, the UNESCO Universal Declaration of Bioethics and Human Rights (art. 6), the UN International Covenant on Civil and Political Rights (art.7), the UN Universal Declaration of Human Rights (art.3) as well as the WMA Declaration of Helsinki. If you support this, I can only conclude that you support the violation of human dignity and bodily autonomy.

Also, as Dr. Naomi Wolf, the CEO of a tech company, points out, this type of technology may start out with health tracing but can later easily be used to control not only our health data, but anything else the State chooses to place under its control. This is a complete overreach of power and a violation of human rights with potentially dire consequences for the future of humanity. I ask you to please pause these "warp speed" decisions and think about future generations and as yet unforeseen consequences: Do we really want our children and grandchildren to grow up in a world of totalitarian control?

Please, I implore you as a mother to say NO to mandated experimental vaccines, vaccine passports and the accompanying technology. To say yes is to agree to violating human rights on a very basic level and to run head-long into the barbaric dark ages where consent and freedom had no place in society. Ask yourself: Are we moving forwards or backwards?

Thank you again for your careful consideration of this potentially disastrous decision. This is not Aloha. This is not who we are. Our entire world's future is at stake.

Faith Seim

Written Testimony I strongly oppose this bill even though I am young and vaccinated. The freedom to choose is being taken away and that is a slippery slope. I hope and pray that the State of Hawaii doesn't harm itself more by implementing this law. I love this State but it is becoming very hard to live in and it breaks my heart.

### Written Testimony

I can't even believe I'm writing this! How can anyone think that it is OK to force an experimental injection on anyone else? Besides the fact that it's just plain wrong, diligent research will tell you that the ingredients of this so-called injection is toxic! It's a huge red flag that the pharmaceutical companies have absolutely ZERO LIABILITY- so if Someone gets an adverse reaction, even crippling them for life or death, no one is accountable for them! But yet they want to force it on others? Does anybody else see the crime that is being committed here?

### Written Testimony

To require someone to show proof of vaccination is **DISCRIMINATORY** and an infringement on our Civil Rights. This is modern day segregation and I'm very **UPSET** that these council members (Tommy Waters and Esther Kia Aina) that were voted into office to uphold and protect our basic human rights came up with this idiotic resolution. This will only cause division amongst the people of Hawaii. This is **NOT** what "We The People" (that you represent) condone in any way. There are many facts that prove that the COVID-19 vaccine **DOES NOT** prevent the transmission or prevent any person from contracting the virus. FYI these facts are confirmed by the CDC (Centers for Disease Control and Prevention). Look it up.  
For these reasons I **OPPOSE** this resolution.

**Written Testimony**

It is unconstitutional and appalling to mandate and require a human being to put something in their body, or so withhold basic access. It is pure discrimination. We should hold human beings accountable and capable and allow them to make their own decisions for their own health. Restricting access to businesses will affect the economy, small business and the well-being and livelihood of individuals in Hawaii. I wholly oppose the resolution.

I oppose this vaccine passport, due to the fact that it feels like unvaxed is being discriminated on, also it shows how our constitutional right is being strip from us, us the people. This doesn't feel like America anymore, why is it that the White House don't need a vaccine passport and can travel wherever and whenever. But US the people have to have vaccine passports. AMERICAN PEOPLE WAS NEVER FORCE TO GET A VACCINE that required us to be FREE.

I strongly oppose vaccination passports because I believe everyone should have a choice over their own medical decisions, and have privacy over their medical history. Nothing should be forced!

Our ancestors fought for our freedom, Freedom of choice, freedom speech and so on...

We have now been lead in fear led by bad leadership, forgetting the past. Forgetting history.

The government should never have control over the people.

This is,

"America the land of the free and the home of the brave"

Written  
Testimony

\*\*The Fourteenth Amendment provides that no State shall "deprive any person of life, liberty, or property, without due process of law." The principle that a competent person has a constitutionally protected liberty interest in refusing unwanted medical treatment may be inferred from our prior decisions.

\*\*Every competent adult has the right to refuse unwanted medical treatment. This is part of the right of every individual to choose what will be done to their own body, and it applies even when refusing treatment means that the person may die.

### Written Testimony

I serviced in the USMC years ago, and proud to do it. Back in the late 1990s I received a letter stating there was over 200 military bases that had contaminated water supply. And this was hidden and covered up for years. As Are military men and women drank this water. I didn't service are greates states to be told I need a vaxx, that's not even proven to be effective. Why can't all items be put into vacanines be disclosed to all. One question I do have is how can unvaxxed get vacined people sick. That right there is telling me its not effective. Mabye If this same effort to get everyone vaccinated was put into other types of cancers, heart, lung, kidney, etc. My parents, my sister, niece great nephew would still be a life today. Theres no profit in a healthy world for big pharma. Mabye start by closing all fastfood restaurants. Getting healthier foods to all. And good exercise. Its nice to make a billon month and not be held accountable. Wake up or one day you will be held accountable.

### Written Testimony

God Given, Civil Rights are not something the government can ever take away no matter in what name. There are people, many very healthy, who do not wish to be compromised by a foreign man made substance to combat a virus that has not even been isolated. The PCR tests produce too many false positives, contain poison/ carcinogenic substances, and all mandates instilling fear only cause lower immune systems to rise in our communities. It is not okay to condition our youth to these kinds of regulations, and even worse, letting them become a part of this global experiment. The proper safety of this injection will not be known for years to come. Freedom to choose what is best for ones own body is a must. Remember that the government is for the people and by the people, vaccinated and unvaccinated, or it will cease to exist. It is never okay to take away a man's free will. We are the home of the brave.

Aloha Mayor Rick Blangiardi,

I strongly oppose any vaccine mandates, vaccine passports, and policies related to vaccines. I write to you today as a free Hawaiian American, who holds dearly the right to freedom of speech and freedom of assembly. A Hawaiian American who has the freedom to conduct my life without being denied access to grocery shop, gather in public places and dine in restaurants without having to show a medical certificate. Requiring vaccinations will impact all the people of Hawaii's lives and have little effect on "controlling or suppressing" the continuing mutating CoVid virus. Your decision to mandate vaccines and require vaccine passports are methods of coercion and force to make residents comply with your ideas or loose our rights to participate in civil society. An all or nothing approach.

Written Testimony These mandates and vaccine passports without allowing the public a hearing and discussion on these measures is wrong. It is my God given right to be allowed to voice my concerns and be able to hear all sides and non biased information and vote on discussed measures. There were no town hall meetings regarding vaccine mandates and vaccine passports.

I urge you to let go of any mandates and vaccine passports that will impact me, my family, and future generations of families and residents of Hawai'i and our future liberties. It is causing much division, fear, and hate from both sides and it must be stopped. This does not reflect the Spirit nor the people of Hawai'i.

Thank you for your time and service.

Aloha,  
Chanelle Cadiz

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

I would like to say that I oppose this resolution as it would single out those of us have chosen not to have the vaccine. It is discrimination, it isolates and divides the community. At a time when people should be coming together, something like this is making it "us vs them". I have been a voting member of Honolulu for over 30 years and I have heard it repeatedly that everyone running for office is "for the people" but this time it seems as if the politicians, especially Tommy Waters and Ester Kia'aina are for the large pharmaceutical companies out for a huge government payout.

Written Testimony It is things like this have the public distrust in our leaders and a view that the end is not in sight as everyone in office seems to want this to continue for as long as they can. I agree that this is a serious virus but I think we all have done what we could and now have to be responsible for ourselves. A lot of us are not children who need someone to hold our hand. We all know that coming in too close to stranger is dangerous, washing your hands often, covering your mouth when you cough/ sneeze and to stay home when we are sick.

How much more do we have to endure?  
No any passports and vaccines.

Written Testimony I strongly oppose this action by our government. I do not believe it should be the right of our government to force people to take an injection of vaccine, especially one that has not had time for long term study of adverse affects. Since the vaccine does not prevent transmission it is wrong to divide the people and deny those that do not wish to be injected with this new vaccine the same rights as everyone else. This denies us of the right to life, liberty and the pursuit of happiness.

**Written Testimony**

Enacting a passport goes against personal choice. People should be able to choose what is put into their bodies. The flu vaccine isn't even mandated and it kills many people every year. A passport also violates privacy act because it disclosing medical information about vaccination status. If someone is unvaccinated, they have to make an effort to get tested which doesn't make sense because vaccinated individuals can also catch and transmit the virus. If you want to make a passport, make everyone get tested if you really want to stop the spread. Tourism should be limited if you want to stop the spread to Hawaii. If the government really cares about Hawaii's economy, they wouldn't pass a vaccine passport program because it'll force those unvaccinated to stay home and businesses will not make as much as money. Also those employees who aren't vaccinated will not be able to work. You are forcing people to inject themselves with a vaccine by inconveniencing them. This is wrong. We as a country and a state are suffering already as it is amidst a pandemic and suffering economy, is this really the best choice on saving the people?

Representing Self  
Organization

You have no right to tell anyone what they need to do for their body and health. That is against every American citizen's CONSTITUTIONAL RIGHTS.

Written  
Testimony

I have family members who took the jab and now, they have heart problems and two of them are dead. This is a result of your "vaccines."

What will you do about the homeless? They are gathered in public everyday and they're not social distancing, nor do they have the best hygiene practices— and they are thriving. Why? Because their immune system is working at max capacity.

How dare you force this vaccine on the people of Hawaii. My body, my choice.

### Written Testimony

I, Sarah Schwarz STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

**Testimony to the Transportation, Sustainability and Health Committee**

I am strongly opposed to this bill. Freedom of movement within our State and country is a fundamental right not to be restricted by such regulation.

The rationale behind the approach has fundamental flaws:

- According to the CDC's own data, the vaccine itself has resulted in a disproportionately high (among vaccines) 95 hospitalizations and 25 deaths in Hawaii alone (13,000+ deaths nationwide) after just 18 months.
- Attempts to force the vaccine upon others (e.g., employer mandates, youth sports restrictions) has resulted in heart problems, miscarriages and other adverse effects, including death, among our kama'aina.
- There are many who have medical or religious exemptions to the vaccine.

It would therefore be unethical (and totalitarian) to impose a passport mandate that basically forces others to accept these unreasonably high risks and be vaccinated or be segregated from society as "unclean". And, as we are now learning, without a true benefit:

- The long term effects of the COVID vaccines are yet to be discovered, and emerging studies reveal that the vaccine actually increases susceptibility to infection in the vaccinated and increases the spread by the vaccinated.
- Highly reputable studies also show that the natural immunity of those who have recovered from COVID is more powerful than the vaccine.

Please look critically at the data - Governor Ige claimed victory when Hawaii attained 60% vaccination, and although we are now 2/3 vaccinated the spread is not contained. Israel is 85% vaccinated and the spread is not contained. Likewise in other countries with high vaccination rates.

The vaccine serves one purpose - the sole purpose for which it was tested - to reduce the symptoms of COVID. Thus its one potential usefulness is for those of advanced age with comorbidities, in order to reduce the burden on hospital ICU capacity.

Mahalo for your consideration and service to our State.

Sincerely,

Jeri El-Swaify

### Written Testimony

Mandated proof of an individuals health records is illegal and is a disgusting new form of segregation created by the very people who are supposed to be protecting us. This pandemic is not about the health and safety of the native and local people of this island, its about controlling the existing population and setting nonsensical and unnecessary restrictions in favor of a vaccine that isn't even a cure to the overall problem. Regardless if someone is pro vaccine or not, we have a choice. It is not your responsibility to decide what goes in and out of another individuals body. The fact that this vaccine has zero studies on the long term affects of the body (of all ages) and is still being forced on people is appalling beyond all belief. And this is definitely being forced, to stand there and say "well, everyone has a choice, you can opt to do weekly testing" is not right and you know full well and good it isn't because at the end of the day who's responsible? It's not you. You're leaving it to the employers to be responsible for the outcome, you're leaving it to the individual who is trying to survive the last 2 years, of being in and out of a job to provide for their families, to deal with the physical AND financial effects. As a native Hawaiian, so much has already been stripped away from us and now our freedom to choose and our voices are trying to be silenced once again. This bill is a repulsive example of a resolution and absolutely has no right to further restrict us from access to OUR island.

I am in opposition of Resolution 21-194. I oppose the COVID Health Card because for one, I do not feel it will be effective in slowing the spread of COVID-19 and/or all of its variants. The COVID vaccine does not prevent one from getting infected with the virus, it could potentially prevent one from being hospitalized. Even the CDC has stated that breakthrough cases are becoming more common and "silent carriers" are still spreading the virus.

Written Testimony Studies are also now starting to reveal that people who have been infected with the virus have durable memory of the virus, making them immune for up to 8 months. If this is the case, individuals who have been infected should be able to rely on their own immune response.

Furthermore, I oppose this measure because it is a violation of HIPAA, it is a violation of citizens' privacy and rights and it will further drive a dividing line in this beautiful state. I believe that it promotes segregation, discrimination and hate. In my opinion, it will do more harm than it does good.

Written Testimony I oppose this resolution as it puts undue hardship on local businesses and turns them into policing losing customers. I also Ap poses as it discriminates against those who are unable to get the shot. My own mother has severe allergic reactions and cannot take it. This means she will not be able to enjoy the simple pleasure of a meal at a restaurant or going to her favorite museum. She also is a recovered from Covid and now has antibodies  
These three considerations need to be there as well as the freedom to choose.

Written Testimony I oppose the vaccine mandates, we should all have our freedom of choice to have something put into our bodies. I feel like we are all being violated of our rights as tax paying Americans. We were not allowed to stay home when there was no vaccines and now we need the vaccine to provide for our families. I took the vaccine but stand together with people that do not want to get it. BTW stop counting probable cases it is really annoying and confusing to people.

### Written Testimony

To whom it may concern,  
I am adamantly opposed to any kind of vaccine passport. I feel it is eroding our civil liberties and creating a divided society that further limits and oppresses certain groups of people for noncompliance of certain ideologies. I implore upon our elected officials to stop this destructive measure from being implemented.  
Thank you,  
Ron Dias

### Written Testimony

I strongly oppose this measure and view it as an overreach of government authority. I believe each business should have the freedom to conduct itself and serve the community as it sees fitting. That each business should have the freedom to choose and not be forced into the binary of shutting down and losing their livelihood or requiring papers to verify customers vaccination status. I believe the government should be for the people and hope that all the opposition to this bill will cause officials to take note of the constituents who are feeling bullied and stripped of freedoms we hold valuable.

### Written Testimony

Why the push so hard to get people vaccinated? Everyone who wants it has gotten it. Why not push for people to be healthier, exercise and eat right, increase their own metabolic health so they don't need to rely on a vaccine. A CDC study released in March 2021 found that 78 percent of patients admitted to the ICU for COVID were overweight or obese. Why no talk about that? I think the government has gotten sick with power. Every death is tragic, however in the state of Hawaii what like 18 people have died that had 0 underlying conditions because of Covid? CDC data even says 6 percent of COVID deaths are purely from COVID. Stop trying to make the people live in fear. Each "emergency proclamation" inches us one step closer to a dictatorship. And the mayor threatening mandatory vaccinations, what kind of world do we live in where that can be threatened with a straight face? I'm disappointed in so many members of this government and many should be ashamed. Trying to segregate people from daily lives because they don't want a shot. Maybe if yall did try so hard to push and give incentives more would get it. Dangling our basic rights and freedoms and saying "If your good and get your shot you are ALLOWED to do things." We have GOD given and natural rights that you are supposed to protect not black mail us with. Shame on you. Shame on you

### Written Testimony

It is so saddening to watch the immaturity being shown by our so called leaders, putting money and energy into everything that kills the people and their freedom instead of the things that fuel and bring positive change and growth. So many natives not able to get onto their own land to start sustaining for themselves. No effort in trying to get young mahiai onto their own pieces of land so they can feed the community with healthy and affordable produce. I wish the powers that be either wise up and deal with this like adults or step aside and let the younger generation make some changes. Our current legislation has proven time and time again their incompetence to strategically manage and enhance the vigor of the people and the environment. It's depressing and it needs to change yesterday.

### Written Testimony

I strongly oppose vaccine passports. You can still get and transmit Covid being vaccinated. It is a violation of our freedoms to force people to get a "vaccine" that does not stop transmission. For you to tell us otherwise is lunacy. This is ridiculous if more than 60% are vaccinated then why the spike in numbers? Please do not blame the unvaccinated. Blame yourselves for being deceitful and not mandating that everyone test upon arriving in Hawaii or quarantine for 10 days. Please stop inflating numbers to force vaccinations.

Aloha good people,

My family and I oppose RS 21-194

Let's be fair. Both the vaccinated and unvaccinated people can catch, carry and transmit the virus. Eliminating one group from circulation will not stop the spread of the illness as is the stated intention of the Green Pass.

### Written Testimony

Beyond they vaccine we need to concentrate on other aspects of everyday health, exercise, nutrition, eliminating stress and grief and so much more. Preventive medicine for the long term always wins.

For the people and our freedom for healthy choices.

Mahalo nui !!

I strongly OPPOSE this bill. This is a violation of our constitutional rights. Hawai'i is NOT a hospital floor where we all collectively checked in to. This is wrong to be segregating/discriminating people according to their medical choices. It is our GOD given right to make our own choices and what's best for our bodies and our families, not the Govt.

Whatever happened to the true meaning of ALOHA? Where Hawai'i was such a unique place that welcomed everybody with open arms. I guess the money is real good and everyone has a cost.

The more these mandates, rules and restrictions are in play, you are driving our communities and small businesses, your own place that you call home to the ground; Causing more problems, violence, homelessness and chaos. Hopefully you care just enough for your families sake to think about things.

Written  
Testimony

By forcing everyone to get vaccinated with the ultimatum of losing their jobs with this experimental jab, for a virus with a 99% survival rate. Get real! You say science this science that. You look at the graphs from the last 5 years till now in the state of Hawaii health dept deaths. And the numbers do not fluctuate much from any other previous years or are even better.

On top of that, people that is Vaccinated can still catch and transmit covid. So why treat people who choose not to get vaccinated any different. The PCR tests that you are charging people for or are making people take, isn't even designed to test covid, let alone its testing for the Delta or other variants that are coming. And that was coming from the man who made the test himself before he died.

So hear me say it again. I strongly OPPOSE Resolution 21-194

Written  
Testimony

This resolution is causing segregation and discrimination, which is against the law to discriminate or segregate according to race, religion or health reasons. Have you already forgotten about Kalapapa on Molokai? There are more resources available for treating Covid. You need to do more research before trying to segregate the people of Hawaii. The “Experimental” vaccine has not proven to stop the virus and there is evidence to show it has adverse affects on some individuals. Why would you require someone to get the ineffective vaccine if they already have natural immunity because they had Covid? I oppose this resolution.

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

Resolution 21-194 is a violation of basic constitutional rights and a HIPAA compliance violation. No one should have access to my medical and personal information and data without my informed consent. The shot has been known to cause many serious and fatal side effects including death. Covid 19 virus is highly treatable. The City should report on how many people contract and recover from the virus. The City and news media should report on the vaccine injuries from this shot. We personally know people who have received this shot and DIED within 3 days of receiving the shot.

People who receive the shot can still contract and spread COVID 19. How is this fair?????

This bill infringes upon the basic human rights of U.S. citizens. Last time I checked Hawaii is a state in the United States of America.

Written Testimony I DO NOT CONSENT to the shot after understanding VERY CLEARLY all the possible side effects and with the knowledge that tens of thousands of deaths have already occurred due to this shot.

New data is coming out that the shot's not effective against contracting and spreading the virus, only possibly assist in fewer symptoms, and its effectiveness does not last long and requires boosters every so often. Your bill means you would allow people who are vaccinated into businesses but they can still spread and catch COVID 19, but you won't allow access to unvaccinated individuals.

HOW IS THIS EVEN LOGICAL???

What about the people who cannot get the shot due to allergic reactions to vaccine shots?  
What about people who already had COVID 19 and recovered and have natural immunity?

This bill would be FORCING someone to take the shot in order to live life normally even to

---

go to restaurants and museums or even grocery stores soon.

What about all the businesses who will suffer from this?

This is MEDICAL DISCRIMINATION.

I strongly oppose Resolution 21-194 COVID-19 Health Pass Card.

-This violates health privacy laws and sets dangerous precedent that could, in the future, require other private medical information to be disclosed.

- This would violate the many people of hawaii who have medical or religious exemption or who simply wish not to get vaccinated for personal reasons.

- Many have natural immunity. Many contracted COVID-19 and were completely asymptomatic... they have a robust immune system and reasonably have no need for the vaccine.

Written Testimony - This is a divisive resolution that disproportionately targets Native Hawaiians and other Pacific Islanders as they are the largest unvaccinated group.

- this resolution will only further divide the people of our beautiful island, severely impacted our relationships with one another.

- this will have profound negative effects socially through tout community. AND will do very little to stop the spread of COVID-19.

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!  
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

### Written Testimony

I Valerie Buisson, Doctor in Physical Therapy oppose this bill as it is an infringement on HIPAA and constitutional rights. There should be testing of all individuals vaccinated or non vaccinated as both are carriers of very contagious delta variant. Those previously infected may be the most protected and non contagious. The state should do its research prior to mandating such harsh regulations. This will close businesses down. You are not only demonstrating tyranny but this is a direct attack to your peoples mental and material health. This must end for the sake of all.

Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

### Written Testimony

I strongly oppose this resolution. I oppose mandates that restrict the freedom of all law abiding citizens. Especially restrictions that may cause individuals to lose their livelihoods. Many of the individuals this resolution seeks to restrict are COVID recovered. These are individuals who have a natural and more robust immunity to COVID-19 than a fully vaccinated individual.

I STRONGLY OPPOSE the SEGREGATION of our SOCIETY, and putting the burden of enforcing this unconstitutional resolution upon the backs of the local business owners. All of your constituents are equal under the law, and need to be treated as such. The key to saving lives is not segregation, it's early testing and treatment.

Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

### Written Testimony

To require someone to show proof of vaccination is **DISCRIMINATORY** and an infringement on our Civil Rights. This is modern day segregation and I'm very **UPSET** that these council members (Tommy Waters and Esther Kia Aina) that were voted into office to uphold and protect our basic human rights came up with this idiotic resolution. This will only cause division amongst the people of Hawaii. This is **NOT** what "We The People" (that you represent) condone in any way. There are many facts that prove that the COVID-19 vaccine **DOES NOT** prevent the transmission or prevent any person from contracting the virus. FYI these facts are confirmed by the CDC (Centers for Disease Control and Prevention). Look it up.

For these reasons I **OPPOSE** this resolution.

Your position on the matter Oppose  
Representing Self  
Organization

### Written Testimony

In regards to the 21-194 on the agenda, I, Li'anokeola Mora-Duquette, as a Hawaiian Latina, oppose this bill. Requiring a Covid 19 "Health Card" (very much like a Vaccine passport) is unconstitutional and discriminatory to the point of racism of the most acute kind. To inhibit and restrict freedom of movement and freedom of choice over \*personal\* medical choices is so anti-Aloha and anti-hawaiian. It is shameful that we are even discussing this. By supporting this bill, you will be killing our once thriving communities and businesses by depriving the people of the ability to fellowship together and support one another in accepting each other as we are. Those who choose to be vaccinated and those who choose to remain unvaccinated do each for the same reason; safety. What safety means to each person is their own business but to demonize and punish those who choose not to participate in the receipt of a drug that has not been on the market long enough to be studied at length for its potential side effects is NOT PONO. The risk to go out and give local businesses BUSINESS in the midst of a pandemic is each individual's to own. I'm pretty certain that NO ONE wants to get sick and NO ONE wants to infect anyone. To perpetuate Aloha does not mean to force anything on anyone or to shame and punish them for their personal decisions on their own bodies, Aloha is being inclusive. Inclusive of everyone no matter who they are or what they believe is right for them.

Please be pono and mindful of the divide, dishonor and disservice you would be doing to the people of Hawaii by segregating us in this way and depriving our communities from thriving economically, socially and spiritually.

Agenda Item Covid Card  
Your position on the matter Oppose  
Representing Self  
Organization

Aloha,

I oppose the covid card.

With the majority of our island adults vaccinated, it seems really counterproductive.

If vaccines work, why would we need to separate vaccinated and unvaccinated?

Written Testimony Is masks work, why aren't they suitable to enter a business as they have been for the last 18 months.

Covid cards are absolutely unnecessary and are a violation of our medical freedom.

I hope you consider my testimony.

Thanks,  
George

Written  
Testimony

These health cards and covid testing for travel are a sham to deny the people their inalienable rights .these vaccknations are harmful and do not prevent transmission or infection and never did promise it nor was that how the trial was studied.

You know this Governor. Do not further destroy our economy by making it miserable annoying and expensive to travel.

Isreal Vaccinated everyone and they are having 10x the deaths as last year.and are on their third booster.

No doctors or media will talk about all the horrendous side effects. Some have analyzed the vaccine and found it contains 900x the harmful level of graphene oxide

And a live parasite in a moderna vaccine. Japan is having problems with it too and it all hush hush .

You cannot mandate injection its rape and will be met with fierce resistance . We are natural human beings unless you force us to be altered by Pharma.

And that will never happen voluteerily and may cause war.

I truly believe if you do this you will be making this the mark to buy and sell. Rev 18:23 By thy Pharmakiea all Nations were deceived..

When they own the media and the science is paid for

Your wisdom to defend freedom is needed now.

Force our hospitals to try the ivermectin and hydroxy chlroiquin and other treatments that are shown to work end the trial here and protect Hawaii's Children from this medical tyranny. WE ARE THE CONTROL GROUP BY CHOICE WE DONT TRUST PHARMA ESPECIALLY PHIZER WHO HAS BEEN FINED FOR FALSIFUKNG STUDIES AMD TRIAL RESULTS AND BRIBING DOCTORS ...THEY PAID 340 BILLON. TO PUT ANY TRUST IN THEM IS ABSURD AND IGNORING THEIR RECORD MASKS MAKE PEOPLE SICK THEY STARVE PEOPLE FOR AIR. PROMOTE PNEUMONIA AND IF TOU CAN SMELL A FART IT WILL NOT STOP A VIRUS . WE HAVE NATURAL IMMUNE SYSTEMS THAT WILL BEAT THIS .

NO VACCINE IS NEEDED ...JUST A BIT OF TREATMENT DELIVERD TO THE SICK  
AT HOME.CHANGE THE PROTOCOL CHANGE THE PARADIGM

This is highly treatable.

Thank you

Susan Barrackman

### Written Testimony

I oppose this horrible bill that tramples on people's basic human rights. Recent evidence has shown that people who have received C19 vaccines can still become infected and transmit the virus to others even to the extent that vaccinated people have 251x the viral load of unvaccinated people. Natural immunity has been shown to be stronger and more long lasting than vaccine induced immunity which is already waning at 6 months. All people deserve access to society and our amazing small businesses especially our restaurants. Thank you for standing up for freedom and terminating this bill.

Written  
Testimony

I oppose this resolution " resolution 21-194" because it is Base on lies, it is Discriminatory and Is inflights on our freedoms. Working in the hospital along side doctor and nurses that our medical system being stressed by covid 19 patients is not true. Because we are under staff which was caused by the lockdown which the government impose on the state. Which resulted a lot of staff being let go. So this more Self inflicted damage.

Having a card just be allowed to go anywhere in the United States is Discriminatory and it breaks Federal laws. Also something like this have a bad history behind it. Like how the jews needed papers to go anywhere in 1940s Germany or backs when they need papers signed by their slave masters to go anywhere or else they would be Punish.

If want to follow the Experts look at Josh Green he had a party with his buddies having no masks on and acting like it was nothing at all. So with that it is not as bad as they make out to be.

Absolutely disgusting to even consider an agenda that violates the constitution, The Nuremberg code and promotes mass genocide! Treason is punishable by death! Mandates are absolutely stupid, ridiculous, ineffective as much as this whole hoax has been for the past 2yrs now. You people are going to hell regardless, God sees all, karma is a bitch and you will be punished for these evil draconian illegal mandates! We the people are a much larger number of people than your group of idiotic, sell out clowns who have ZERO leadership. Stop working for the devil. Listen to the people, we will not comply with your lousy opinions sponsored by big pharma and other corrupt and criminal organizations! Your time is coming to an end very soon. Gitmo awaits you all unless you have a soul to listen to the people who know better than you! You are literally going to lose everything if you don't listen to the people. Play stupid games, win stupid prizes!

I strongly oppose the vaccine passports for the citizens of Hawaii and the United States of America in general. A vaccine passport is against our constitutional rights as citizens. It is also medical tyranny.

Not only do people who have previously had covid-19 have strong immunities against future variants of the virus, they will fare better in the long run than citizens who are being forced and coerced to take vaccine after vaccine to try and appease their tyrannical government.

If you don't take the vaccine then you will lose your job! Your pensions! Maybe soon you will not be able to fly to visit your loved ones in the mainland. Next you won't be able to feed your children because you won't be able to go to the grocery store. WHERE DOES THE TRYANNY END? When we give a little you go for the throat!

### Written Testimony

The public can clearly see at this point that this has less to do with our health than the government trying to take complete control of our rights as American Citizens. You try and force an experimental vaccine on our KEIKI who have a higher risk of dying from the FLU than they do of COVID-19! Look it up and FOLLOW THE SCIENCE! In my own personal life experiences, I have witnessed far more harm done to friends and loved ones from the vaccine than covid. Our Government and the main stream media continue to turn a blind eye to it. WHY?

I have always been proud of being Hawaiian and living as a free citizen in the beautiful state of Hawaii. Today I am ashamed of my local government. I am ashamed of our Mayor and Governor Ige. You have disappointed the people of Hawaii.

I think in time the lies about covid 19 that the media and our government have spread over the last two years will come to light. To pretend, at this point, that this Vaccine passport is

---

not fueled by your own political agendas is fruitless. If you think the people of Hawaii cannot see thru the agenda you have in store for us you are wrong. I hope that those who have willingly committed these crimes against humanity will pay a heavy price for it.

Representing Self  
Organization

Written Testimony I oppose the vaccine passport. I am a kind and caring citizen. I am immunocompromised and unable to receive the vaccine. Why should people like me be punished? This all hurts more that it protects. Vaccine passports segregate people and strip them of their freedom. Please, all voices must be heard.

### Written Testimony

I strongly oppose this discriminatory resolution. The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms. Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own. The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice. Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local

---

government.

We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people. I make this testimony of my own free will with no undue influence. Thank you for your consideration

### Written Testimony

There is no part of this resolution that reasonably addresses The health or safety of the public. A “health card” suggests the card signifies your Good health Standing. This is blasphemously inaccurate in this situation. Just because a person is vaccinated does not mean they are healthy or do not pose a Risk to others. Current research and numbers show that a Cvd19 vaccinated person can carry and transmit The virus. This resolution would do nothing to promote health or safety. It has every reason to promote discrimination and divisiveness and spread of the virus through a false sense that someone with a vaccine card is healthy and not carrying the virus. Additionally there is no doubt this resolution would kill many local Businesses that have just barely survived 2020’s emergency proclamations that closed or massively restricted them. The fact that this resolution is even on the table is a disgrace for our community, the city and state. Please use your common sense and basic reasoning skills to see the uselessness at best of this resolution and at its worst - The major public health threat it poses alongside its blatant discriminatory nature.

### Written Testimony

To whom this may concern:

I strongly oppose the use of a vaccine passport ever. Here is why- 1. Vaccinated people can still acquire Covid-19 and spread the disease with the same viral load in the first stages of transmission. So spread will still occur even with this proposed safeguard. 2. Medical freedom and the ability to run your own risk/benefit assessment to what goes in your/your family's body is paramount to a healthy community. 3. Against bullying from the government! When State Representatives like Jeanne Kapela are writing to Governor Ige and proposing to induce social pressure to attain conformity by limiting access to amenities in the community it tells me that the state is lacking evidence based data to back those decisions. I prefer FACTS over FEAR and TRUTH over FEELINGS. 4. This is complete government overreach and unconstitutional even in these times. I am saddened by the many lives lost over this pandemic but many unethical decisions to not treat patients prophylactically and with guided early treatment from primary care physicians has gotten us into this bigger mess. This is a virus with a 99.5+% survivability rate and now you want to impose unnecessary extra responsibilities to businesses who are already struggling from your illegal mandates that shut them down. When will these power hungry actions stop?!? 5. Segregation is a bad thing, history says so. 6. Our government is also forgetting about a large subgroup of people. People who have already had Covid-19. According to the NIH, National Institute of Health, studies show a strong antibody presence of up to 8 months in people who have contracted Covid-19. The NIH is hoping that the vaccines can even get close to matching this natural immunity. Why would they need a vaccine to enter a restaurant, bar, gym or museum. A lot of people, including myself, mitigated and kept our family healthy for the last eighteen months. Now our Aloha, using that term loosely, State wants to segregate families (some vaccinated some not) and punish their ability to work, live and move freely throughout together. This social experiment will fail in the end. The lockdowns already proved that.

I feel that a large part of the community understands as a whole the importance of mitigating this virus through proper hand washing, social distancing, mask wearing when needed, and

staying home when feeling ill especially with a fever. People got a medical 101 education this last 18 months and are better for it. Trust your constituents that we will make good choices without your overreach. I compel you to do away with this idea and am strongly opposed to this bill.

Signed

Maren Cantrell

I oppose resolution 21-194 for the following reasons:  
- the vaccine can't guarantee contracting to transmitting COVID-19 to others.  
- those who are vaccinated vs. unvaccinated CNA equally spread the COVID-19, so why would those who are unvaccinated to be subject to more restrictions and penalties

Written Testimony "After December 31, 2021, CDC will withdraw the request to the U.S. Food and Drug Administration (FDA) for Emergency Use Authorization (EUA) of the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, the assay first introduced in February 2020 for detection of SARS-CoV-2 only."

### Written Testimony

I wholeheartedly disagree that persons should be excluded from any public services or businesses, or private businesses receiving ANY government subsidies, based on their private medical status. It is a violation of HIPAA, and the 14th amendment, and our medical right to autonomy and self-determination, and arguably Roe v. Wade. And, while there is legal and historical precedent in other states for mandatory vaccination, it was not in the instance of an experimental vaccine for a disease with a 98% recovery rate. We know that the vaccine for smallpox is effective. We know that measles and polio were all but eradicated due to mass vaccination. Many of us have religious beliefs, personal convictions, or underlying medical conditions that preclude vaccination (see Title VII). To exclude someone from participating in society based on these things is discriminatory. To cite the greater good is flawed and outright dishonest, as Hawaii has the second highest number of homeless persons in the United States, which should have in theory been eradicated by Covid-19 due to lack of social distancing and sanitary practices. I'm certain many of the businesses complying with this mandate will suffer as well, as they continue to lose patronage that has already declined due to prior restrictions on indoor dining, etc. Breakthrough cases of COVID-19, especially of the Delta variant seem to be prevalent among the vaccinated as it were. Anyone can read the research, especially that recently coming from Israel, where 78% of the population over 12 years old has been fully vaccinated, yet account for 59% of those hospitalized for Covid. So, on whom then, shall you lay blame when the unvaccinated are pariahs, and nature continues to act as it always has? Certainly not the vaccine manufacturers who are protected by the PREP act and the VICP, and certainly not the employers whom OSHA will no longer be holding accountable. And, what of the employees, for many of whom these "high risk establishments" are their livelihood? Will they be forced to choose between providing for themselves and their families and compulsory vaccination? Or, subjecting themselves to invasive daily testing, which will certainly be costly and likely end in their eventual termination when daily testing becomes too costly? It's time our representatives exit their echo chambers, and realize that the citizens are tired of chasing a metaphorical carrot-

---

freedom, guaranteed to us as free Americans by our Constitution. The most undue suffering has not been caused by COVID-19, but by government overreach.

### Written Testimony

I strongly oppose resolution 21-194 it is ridiculous this is even being thought of this is very discriminatory for all people there is so many people that cannot get this vaccine for medical or religious reasons and this is how they will be punished? This is tearing our community apart we need to work together not be divided everyone can get and spread covid vaccinated or not no matter where you are gym bar restaurant school or beach so why do we need a restriction like this? This needs to be rethought there is a lot of things we can do but this is not going to be the right option! This will not bring aloha back to our state this is take it away!

Written Testimony I STRONGLY oppose this communistic bill. We are Americans! We have the right to life, Liberty and the pursuit of happiness. This stops us from having that. Stripping us from our rights that so many envy.  
This hideous bill goes against everything our founders wanted for us.  
Please. Keep America great. Give us freedom to choose. To live happily, to see movies with friends, go on dates to restaurants. Oh yeah, and WORK!  
Freedom.  
We demand it.

I strongly oppose Resolution 21-194

The pressure, manipulation, coercion, and medical mandates in the name of social responsibility, science, and public safety is at odds with our personal sovereignty and our human right to choose what we do (or don't do) with our own bodies.

### Written Testimony

The fact that many people are now being forced to choose between their livelihood (and in some cases their education) and a medical procedure that a.) does not stop transmission and b.) has no reliable long term evidence of efficacy or safety is not ok. This makes no sense, especially for low risk individuals.

Regardless of your personal or political perspective on this vaccine or any other medical procedure, please consider the implications of removing, or denying personal medical choice.

Written Testimony I strongly oppose this bill. I'm so disappointed and appalled that these measures are even being attempted on our island, our people, our businesses. Not only are they not necessary, they are dividing and segregating the special atmosphere that Hawaii holds. This is not science, this is not going to "stop the spread" and this no longer makes sense.

Written  
Testimony

I have survived COVID and strongly believe that I have the antibodies against COVID. I feel discriminated against by the push of vaccine to all. I have allergies problem and a constant probe into my nose for COVID testing will only trigger the issues and cause me to sneeze all day. I have learned to be more extra careful since the beginning of this pandemic. I hope that we would at least consider the facts and value of natural immunity. Mandate leaves me no choice and takes away from my right as a n individual.

Written Testimony I am not anti vax or pro vax, but I believe people should have the freedom to choose for themselves whether they want to get vaccinated or not. We shouldn't be forcing people to get vaccinated, and/or making it difficult for them and for their livelihood. This will only divide the community. This is not the way to make people work together.

### Written Testimony

As an individual who strongly believe in freedom and body autonomy, I strongly oppose any form of forced vaccination by cohorting people through limitation of choice, it's a form discrimination and not constitutional. Not everyone can get the vaccine due to their personal health, injuries and underlying conditions, those people will be the first tier who's going to be discriminated against if such bill take effect.

Any individual should have the right to choose what to put into their body. The covid vaccine is still an ongoing study, and the result of this mass vaccination can only be revealed after years, let alone all the surge of new cases from vaccinated people, because the vaccine doesn't stop transmission but doesn't protect against new variant either. Let those who's willingly get their vaccine take theirs and respect those who doesn't with humility and dignity. This is all about the respect for one's choices for his life and health and shouldn't be punished for doing so.

Medical freedom should be a right not a political opinion concocted with science and biases... This Bill will have a devastating affect on the community and will create a even greater division because we will fight for our right for freedom.

This bill should be eliminated right here, right now!! Live and let live is the only path to freedom.

### Written Testimony

Aloha, Committee Members--

I am writing to oppose this resolution. I have a number of objections. First, this is a violation of civil rights of individuals to have autonomy over their own bodies and health. It violates the Nuremburg Code, that states no one can be forced to participate in a medical experiment. These vaccines--Moderna, Pfizer, and Johnson & Johnson/Janssen are all experimental, and have not received full FDA approval. As a mental health professional, I object on the grounds that forcing people to receive an unwanted vaccine in order to participate in society is detrimental to mental health. It creates an atmosphere of "us vs them," which is unhealthy. The resolution does not take natural immunity into consideration. Research shows that immunity from natural Covid infection is much more robust and effective than any vaccine can confer. Further, it does not make allowances for those who are medically unable to receive this vaccine, nor does it allow for religious exemptions. Freedom of religion and the free practice thereof are encoded in the Constitution of the United States. I would support a resolution that corrected all of these concerns and included a way to show documentation of natural immunity, medical contraindication, and/or a religious exemption. Thank you for your time and attention.

Written  
Testimony

I strongly oppose this resolution as it is an assault on freedom, promotes segregation and is detrimental to our economy. We should be progressing and not regressing and repeats the mistakes of the past. The vaccinated are protected by the vaccine, many unvaccinated have recovered and possess natural immunity which is not addressed in this bill. Passports would do nothing to increase safety as vaccinated people can still contract and spread the virus, all it does is provide a false sense of security as in the "safe travels program". Haven't we learned that not testing the vaccinated left an open door to the situation we are currently dealing with?

### Written Testimony

I have lived in Hawaii now for 20 years and truly enjoy the peace and unity of the state. I am hoping that this mandate to travel freely from and to Hawaii is rejected, denied, and deleted from any form of proposals to the state representatives. The Constitution is the law and all bills should be in direct reflection of the Constitution and the Bill of Rights. FREEDOM is why people migrate to the United States and Hawaii being the 50th state is part of that FREEDOM!!! I or anyone should not be restricted to fly, drive, or go anywhere due to FEAR or because of a mandate. A mandate is not the LAW. The law of the land is FREEDOM!! PLEASE uphold the LAW & let the people choose. I am in OPPOSITION of this resolution. Completely against this RESOLUTION. PLEASE OPPOSE this resolution.

### Written Testimony

I am strongly opposed to this bill. There should be other ways to minimize the spread of COVID-19 without dictating that individuals show vaccine cards or negative tests to enter establishments. If anything, this should be completely up to the businesses to implement as they wish. This is harming the local residents and have a minor impact on the tourists traveling to the island. Please reconsider.

Written Testimony Our nation is built on freedom. Restricting freedom in this manner is wrong. I am all for public health and keeping people safe. I am not anti-vax or anti mask, but I must raise my voice against measures like this which impinge upon the freedom of our citizens. This resolution is shameful and anyone considering support of it should search their soul before casting their vote. Putting your name on this is standing against freedom, the most important concept our country was founded on.

### Written Testimony

I oppose the vaccine mandates. I believe that these types of medical procedures should be 100% voluntary and not determine the amount of public and health services for an individual. I also believe that such choices are private information. It's a violation of my personal and family privacy for these types of medical treatments to be asked by public businesses or governing bodies.

Written  
Testimony  
Vaccine passports are discriminatory and have no place in a free society. Ones medical status should remain personal information and not used as a ticket to participate in everyday life. This resolution is an overreach of government powers that will do more harm than good. Since both the vaccinated and unvaccinated can catch and spread the Covid virus, passports are useless in preventing its spread. It is merely a tool used to further division among us when there are other proven, scientific ways to handle the virus. Frankly, if these other proven ways had been implemented over a year ago we would not be in the situation we are today. This problem lies solely on the Hawaii government.

As a small business owner I know this Bill will further hurt our small business community. How can you justify segregation? We have come so far, yet by passing this unconstitutional bill you will set us back 60+years! Guys do your homework and find solutions in early intervention and real-time cures!! You will see a huge decline in your GET collections by putting a choke hold on businesses. Freedom is not free, it was paid for by the blood and sacrifices of all our soldiers and those who fought for freedom. Know your history. This is how Hitler started, stripping away our rights a little by little. What's next? Our own water fountain? "FEMA camps"? Remember the tool of the enemy is division, why would you want your memory as a public servant to be remembered in such a way? I know you can do better just do the right thing

I oppose Governor Ige's request that the City Administration and State of Hawaii develop, implement, and "mandate by executive order if necessary" a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation (Resolution 21-194).

We the people have the right of medical privacy.

It is proven that people who are vaccinated can and do spread the co-vid 19 virus. This resolution will unfairly segregating the vaccinated from the unvaccinated.

Governor Ige is dictating his will over the people of Hawaii and I say "No. We are free Americans and we choose freedom of choice and Medical Privacy".

Written  
Testimony

I sincerely hope you do not take the same steps Hitler took which are dictator decisions of, madates, proof of papers, and yellow star segregation and shame.

Put time money and energy into supporting health care facilities, workers and resources.

Govenor Ige had over a year to plan for another flu/co-vid19 like season. Do not punish and segregate the Hawaii people because he failed to plan and prepare.

Sincerely,  
Pua Monell

### Written Testimony

Both vaccinated and unvaccinated can contract and transmit the virus so enforcing passports is only discriminatory and an infringement on human rights. A passport will have a crippling effect to local businesses and residents. How can businesses be held accountable or enforce this passport when just about every business local and corporate is currently hiring and understaffed, not to mention the backlash that will come with that position I doubt many will be keen on hiring in to work like that. Hard working citizens of our communities are being backed in to a corner, threatened with their livelihood, treated like second class citizens and being blamed for a pandemic that has nothing to do with the unvaccinated aka healthy bodies over an experimental vaccine and that is not right.

Written  
Testimony

I feel that resolution 21-194 is a violation of my rights under the 14th amendment of the constitution, equal protection of the law. I had a confirmed case of covid 19 in December of 2020. I have natural immunity that new research is showing is durable and has protected me from further covid infections. At this point the covid vaccination would put me in higher risk of injurie then covid does. thank you for your consideration a representing my interest in this important issue.

Written  
Testimony I am an airline employee..traveling for 39 years..healthy, happy and not afraid. But the vaccine mandate is wrong. There are health protocols to take to keep one healthy, there is immunity if you've had CoV before. And I don't need vaccines to keep me or anyone healthier for that matter. Ive never taken the flu shot..why should i take the vaccine?? It's a bunch of lies....and I stand by my word and believe that I have a freedom of choice on what I do to my body ...my temple of God.

### Written Testimony

To require someone to show proof of vaccination is **DISCRIMINATORY** and an infringement on our Civil Rights. This is modern day segregation and I'm very **UPSET** that these council members (Tommy Waters and Esther Kia Aina) that were voted into office to uphold and protect our basic human rights came up with this idiotic resolution. This will only cause division amongst the people of Hawaii. This is **NOT** what "We The People" (that you represent) condone in any way. There are many facts that prove that the COVID-19 vaccine **DOES NOT** prevent the transmission or prevent any person from contracting the virus. FYI these facts are confirmed by the CDC (Centers for Disease Control and Prevention). Look it up.  
For these reasons I **OPPOSE** this resolution.

I strongly oppose a digital vaccine passport program in Hawaii. There are good, loving kind families who don't want to take this vaccine and will never take it no matter what is mandated.

The vaccine passport program will greatly affect their life here in Hawaii. And you can think, "Good for them. Let them suffer." But really? Families that will never be able to eat out together or go to a movie or visit the aquarium because you're afraid they might get you sick?

Are we all really that afraid? Is this virus with a >99% survival rate really that scary?

Written Testimony If it is, why is it that the unvaccinated are discriminated against when the vaccinated can still get the virus and spread it to other people?

If it's such a scary virus wouldn't you want to make sure that everyone you're around doesn't have it? Because you're more likely to catch it from someone who's vaccinated and is sick but doesn't know it.

I ask you to look past your goal of getting more people vaccinated and look into the reasons some families are choosing not to do it. We aren't being selfish. We feel we're making the best decision for our family.

The vaccine passport program will hurt a lot of families and won't put an end to your fears about the virus.

Written  
Testimony

I Strongly OPPOSE this resolution which is not even based on truthful science or data. Honolulu does not need anything that will cause discrimination and division amongst a culture that embraces inclusiveness and 'ohana. This resolution is totally illogical and will cause even more hardship and harm. Why would you even want to teach separation and segregation as being acceptable to our future generations?!! This resolution is detrimental economically, socially and morally to our community and future generations.

Agenda Item: RESOLUTION 21-194 Position: Oppose

### Written Testimony

Aloha City Council Members,  
According to the most recent CDC data, Resolution 21-194 to develop and implement a digital “vaccine passport” system, is medically unjustified. The director of the CDC, as well as our own Director of DOH, Dr. Libby Char, have recently reported that the Covid-vaccinated can contract and spread Covid, just as easily as unvaccinated patrons. Segregating Hawaii’s people based on vaccination status will do absolutely nothing to enhance public health, nor will it decrease hospital burden.  
It will only serve to further destroy Hawaii businesses.  
The solution is to promote prevention, and known, effective, early intervention therapeutics ( Ivermectin & HCQ) to keep people out of the hospitals. Denying people of this care is medical malpractice.  
A digital system to monitor medical status and limit free movement does not belong in America. If you are in favor of these types of control systems, Communist China’s “social credit score” is there for you.

Representing Self  
Organization

I'm not old enough to have lived during World War II and witnessed the horrors of Nazi Germany, but I'm witnessing a similar thing right here in our State. We don't deserve to be called "The Aloha State" anymore. We're more like "The Deep State" now.

This whole Covid-19 pandemic narrative is wrought with fraud and deception. It's been nearly 2 years, and no country, government, laboratory or hospital has ever been able to provide material evidence of an isolated, purified Covid-19 virus from an infected person. We are also using bogus testing methods like the RT-PCR Test that is not suited to diagnose any disease. Yet, we are being mandated, coerced and put under duress to receive an experimental mutagenetic jab that has injured or killed thousands of people, or endure weekly tests that are physically invasive and discomforting that resembles torture methods used by ancient civilizations.

### Written Testimony

This is being initiated by 2 men wearing aloha shirts occupying Governor and Mayor's Offices, and another who wears hospital scrubs and took the Hippocratic oath to do no harm. None of them had the wherewithal to do a little bit of independent research to learn what We the People know or challenge the Department of Health officials with the simplest of questions that would have spared this State from the ravages of idiocy.

Aside from hospitals and government grossly inflating statistical data and using bogus tests to support life destroying mandates that support pharmaceutical companies that operate with impunity, they heavily censored and dismissed those who questioned the lack of science and those with different views. The government neglected to invest any resources to examine the real cause of this "mysterious" illness.

The vaccine passport initiative not only lacks the core scientific basis to even exist, it is downright evil and will honor the 3rd Reich in all its glory.

Allow me to close with this- Any medical professional prescribing and/or administering the “Vaccines Against Covid-19” to their patients without clearly informing them of the potential side effects and that they are experimental medical treatments is committing a serious crime. When patients aren’t being informed that they are volunteering to be part of a clinical trial, a crime and violation of the Nuremberg Code of 1947 is being committed.

When parents or health care professionals administer any of these “Vaccines Against Covid-19” to a ‘minor’, they are committing a crime against a ‘minor’, because they are not of age to give their consent to clinical trials.

Violations of the Nuremberg Code may result in long prison terms and even death sentences. Ignorance is no excuse, and neither will the argument that, “I was just following orders”, be accepted.

Vaccine Passports will be the death of democracy.

Written  
Testimony

I oppose this push to mandate a proof of COVID vaccination. There is much documented evidence of the dangers and possibility of death after receiving the vaccination. Likewise, there is much documentation and testimony of alternative/effective approaches to combating COVID, which are mostly ignored by the federal government and Hawaii government. The medical professionals and scientists that I listen to and agree with are also ignored by these same governments. It is not the government's job to force feed a liberal agenda but rather uphold the constitution. You should respect the personal health choices I make as I respect yours. No to vaccine passports!!!

### Written Testimony

I, Shannon Thiessen STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

### Written Testimony

I oppose resolution 21-194. The government does not have a say or can force what goes into my body or any human body. Taking away our freedom is unconstitutional. We are Americans, the land of the free. A vaccine passport is discrimination against those that choose to live a natural life style. The vaccinated are super spreaders and more of a threat to society than an unvaccinated person. An unvaccinated person can't spread a disease that they don't have. Stop with the lies. Stop calling those that got only one dose of the covid vax unvaccinated. I do not consent to this tyranny. No vaccine passport!

This is an infringement on our freedom.

**Written Testimony** But it's also highly impractical. As someone who manages covid exposure risk in my business daily, I can tell you first hand that the people who are creating the risk and exposure issues are fully vaccinated and infecting others who are also fully vaccinated. No unvaccinated person has been the cause of exposure nor the victim in any cases I've handled in the last 6 months. So there is fundamentally no less risk in a vaccinated person and therefore no need to distinguish between vaccinated and unvaccinated and infringe on freedom of those who don't meet this political agenda. You should all be ashamed of yourselves for even considering this let alone trying to pass it.

### Written Testimony

I, Jerrid K. Ham Young STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

### Written Testimony

To require someone to show proof of vaccination is DISCRIMINATORY and an infringement on our Civil Rights. This is modern day segregation and I'm very UPSET that these council members (Tommy Waters and Esther Kia Aina) that were voted into office to uphold and protect our basic human rights came up with this idiotic resolution. This will only cause division amongst the people of Hawaii. This is NOT what "We The People" (that you represent) condone in any way. There are many facts that prove that the COVID-19 vaccine DOES NOT prevent the transmission or prevent any person from contracting the virus. FYI these facts are confirmed by the CDC (Centers for Disease Control and Prevention). Look it up.  
For these reasons I OPPOSE this resolution.

### Written Testimony

I oppose government over-reach. It is clear to me as a physician that the vaccine is not the only, nor the best solution to this current situation and we need to focusing on improving the general health of the people of Hawai'i instead of mandating something that is not in the best interest of all. I support individuals in deciding for themselves whether the vaccine is best for them and their community. I strongly oppose these mandates.

Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I, Kristin Cunningham STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately drop the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

Written  
Testimony

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Transmission has widely occurred in the vaccinated people, therefore being vaccinated does not stop the spread of Covid-19. Furthermore, the vaccinated population sheds virus whereas healthy unvaccinated populations do not. The unvaccinated are not springing forth with Covid-19 and should not be limited in their movements, prevented from participating in everyday society or be subject to frequent testing. The CDC acknowledges that asymptomatic positive Covid-19 patients do not spread the virus, therefore there is no need to test and retest if a person is not exhibiting symptoms. Protocols, such as temperature checks, are already in place and used by many businesses. Freedoms should not be infringed upon in the name of a 'health crisis' with a 99% recovery rate for the general population. The citizens and businesses of Oahu are weary of the many restrictions we have had thrust upon us. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not

addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice. Someone who has suffered through and survived Covid-19 has much better broad spectrum immunity than whatever limited immunity vaccines may give. Subjecting Covid-19 survivors to testing endlessly in order to participate in everyday life is nonsensical and hypocritical to the very purpose of this resolution! Let us be in charge of our own health! We are willing! Let the People Decide! Let us take responsibility for our own health and frequent whatever businesses or restaurants we would like. Mandatory vaccine passports do nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Written Testimony I oppose a mandatory experimental mRNA gene therapy and vaccine passport. It is against the Nuremberg Code to mandate or coerce an experimental vaccine that has no long term studies of the adverse reactions to it. Over 10,000 people have died from this gene therapy and over 2 million people have had adverse reactions including heart attacks, strokes, blood clotting, myocarditis and nerve damage. With over 14,000 of those injured, now permanently disabled. I DO NOT CONSENT.

### Written Testimony

We, small businesses, oppose this resolution for digital vaccine passport” as it will put further insult to many small businesses by reducing the number of current customers we currently service. The key is appropriate ventilation to reduce the spread of small particulates that are recycling in enclosed areas. I personally have moved my business from an air-conditioned office building to my open air garage with two medical grade hepa air filters. With wind blowing, hepa filters, a 3'x5' plexiglass partition, and constant 6 foot social distancing, the idea of me requiring a digital passport is insulting. NO ONE coming to my current office can possible catch or spread covid. I urge you to not punish small businesses by potentially reducing our client base by over 25%.

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I oppose the current order which in essence is a forced vaccination order for many of Oahu's residents who can face the loss of their jobs if they don't comply. This order also creates a second class of citizenship for the unvaccinated with respect to their ability to dine, drink and recreate with no study or data offered to justify it. For example, there hasn't been a single case of covid spread linked to the UFC gyms on Oahu. These gyms must now exclude unvaccinated who haven't spread the disease there in the last almost two years. Why?

A recent preprint of an Oxford University study shows that asymptomatic vaccinated people can carry over 200 times the covid load compared to asymptomatic non vaccinated people. This is a high risk of spread in the health care community yet will be made worse with this order by forcing them to vaccinate or lose their jobs. The frequent test alternative is not really a viable alternative. It's clear that forcing vaccination on the unwilling is the goal.

Written  
Testimony

Now you will be aware that two top FDA officials just resigned over the vaccination policies of our government. You should examine what their concerns are before forcing vaccination here.

Now for the supposedly safe and effective vaccine. The vaers system indicates that it has killed more people (over 12,000) in the last 9 months than all the other 70 or so vaccines have killed together in the last 3 decades. Does that sound safe? How about effective where it was developed to prevent transmission of the Wuhan strain which is no longer circulating. You should know that it has shown to be ineffective in preventing transmission of the delta variant. It does appear to reduce the severity of disease from delta but at what cost? You should be aware that the vaccine derived immunity is much narrower than natural immunity and that effect is permanent. Consequently vaccinated will have poorer immune response to future variants like lambda out of Chile than non vaccinated that have developed natural immunity. This order makes no distinction for this group with superior immunity and instead

is intended to force them to vaccinate as well. There is growing evidence that vaccinating after developing natural immunity is harmful to those individuals.

The FDA-approved Pfizer vaccine is not available yet. Consequently you are forcing people to take the experimental vaccine with no right to sue if it injures them. The approved vaccine doesn't have this immunity to sue but it is not available at this time.

Reject this poorly designed solution to a real problem. Don't bungle this like the withdrawal from Afghanistan was bungled. The problem is real so develop effective policy to deal with it.

Effective policy would include the treatment protocol people should use if they think they have been exposed and the home treatment they should pursue with their doctor if they test positive to keep them out of the hospital. While this is so obvious, it seems like this approach is being suppressed solely in order to promote this ineffective and potentially harmful vaccination. The second shot almost killed my younger brother with a large blood clot in his lung . It was reported to Vaers.

Respectfully submitted,  
Philip Pearson

### Written Testimony

This vaccine passport is the end of America freedoms. It is discriminatory in many levels. Where people could be marginalized, ostracized and be under constant surveillance. This kind of Technology can be lead to totalitarian state and become a communism era here in America . This App could potentially add more features where people can be eliminated from participating in society . I opposed to this vaccine passport .

Organization

Given that vaccination does not prevent individuals from carrying or transmitting the SARS-CoV-2 virus, a vaccine health card creates unnecessary medical segregation and discriminates against those who cannot or will not receive vaccination. Additionally, these health cards fail to take into account the population with higher immunity received by recovery from Covid-19.

Written  
Testimony

Vaccine health cards fail to solve the problem that they are alleged to do. Creating a queue of patrons in front of an establishment awaiting approval for entry just moves the issue to a different location. Preventing individuals from getting exercise when exercise and health have been shown to greatly improve survivability from the virus does not solve the problem.

Residents of Hawai'i should not be required to share their private medical information. The White House concurs with this, and has decided not to mandate "vaccination passports", stating citizens' privacy and rights should be protected.

I respectfully submit my opposition to this resolution, and request that our council members and government officials look to countries like Sweden as an example of how to successfully recover from this pandemic.

### Written Testimony

I am writing to oppose Resolution 21-194 that would mandate COVID vaccinations or implement a COVID vaccine passport. I very much so respect the choice of those who have decided to get vaccinated & support those who have come to the conclusion that it was the best choice for their personal selves. I have not been vaccinated due to many very personal reasons & feel disheartened & disrespected to know that there's potential that in the nation that prides itself on freedom, my right to simply go get something to eat could be robbed from not only me, but all of the others out there that have their own personal reasons for choosing not be vaccinated (or those who are not eligible). Hawaii is an island of aloha & nothing says aloha more than allowing the residents here to make their own decisions about something so very personal involving their own bodies. Not to mention, asking for medical information from someone is a breach of privacy in general.

Additionally, as someone who was unemployed throughout COVID & is so thankful to finally be able to work again, my heart aches for all of the small businesses that I will be unable to support if this vaccination mandate goes through. After the struggles throughout COVID already, it's time we give these small businesses a break & stop impacting their ability to make money & stay afloat. I want to see my fellow working people succeed & thrive, not struggle further.

I kindly thank you for taking my words into consideration when reviewing this resolution today. Much aloha.

### Written Testimony

I vehemently oppose any and all attempts to require proof of vaccinations or test results to participate in normal life. I am vehemently opposed to the mayor, governor or any other public servant's overreaching the scope of their duties by mandating ANY vaccination or mRNA jabs. The draconian measures proposed by the mayor and governor are illegal and violate the United States Constitution. Be sure that the people WILL NOT ACCEPT and WILL NOT COOPERATE in any such measures which further the lie of COVID COMMUNISM.

Written  
Testimony

This is unconstitutional and sets precedence for discrimination. Those who want the vaccine will get it, those who don't for whatever their personal reasons would be, should not be forced to take it, or be kept from public accommodations. Do the sponsors of this bill: Tommy Water and Esther Kia'aina, not know covid can be spread by people that have been vaccinated? If so, what is the rationale behind this bill? This will not stop the spread, but it will divide the people. I strongly oppose to this bill.

### Written Testimony

Thank you for taking the time to read my written testimony. It took some time for me to put my testimony together because everything I wanted to initially write down is passionate and heated because of everything that has been happening since 2020. Since last year, I've been watching decisions made for the citizens of Hawaii that have not been beneficial to individuals and businesses. In most recent events, the local government has been making (in my opinion), rash decisions that continues not to consider ALL the locals in Honolulu such as mask mandates, limited gatherings, mandatory vaccines (when all health choices should be a personal choice NOT government choice), etc. And now, vaccine passports with a proclamation on 9/13 that only vaccinated people can enter certain establishments or if unvaccinated, a negative test. Please do not use science as a justification because there are no successful outcomes in segregating vaccinated from unvaccinated. Our local government is going down a dark, toxic hole if you all allow vaccine passports that will cripple our overall economy. I implore you to reconsider and not allow vaccine passports. Continue to let the people of Hawaii make their own informed decisions. Before making a decision on your own without presenting it to Hawaii, discuss with all the local representatives as well as listen to the local people to understand and work with all of us. Please stop making decisions regarding our health that will hurt our islands. Right now, we are losing faith and trust with our government officials and I hope my testimony as well as many others who oppose will be heard, respected and considered.

#### Recommendation:

1. No vaccine passports but continue the contact tracing information for all businesses.
2. Maintain masks recommendations for all businesses regardless of vaccination status.

Again, thank you for this opportunity to allow me to submit my testimony and for considering what I have shared.

### Written Testimony

To require someone to show proof of vaccination is **DISCRIMINATORY** and an infringement on our Civil Rights. This is modern day segregation and I'm very UPSET that these council members (Tommy Waters and Esther Kia Aina) that were voted into office to uphold and protect our basic human rights came up with this idiotic resolution. This will only cause division amongst the people of Hawaii. This is NOT what "We The People" (that you represent) condone in any way. There are many facts that prove that the COVID-19 vaccine DOES NOT prevent the transmission or prevent any person from contracting the virus. FYI these facts are confirmed by the CDC (Centers for Disease Control and Prevention). Look it up.

For these reasons I OPPOSE this resolution.

### Written Testimony

I strongly oppose vaccine passports! I'm all for getting vaccinated if that is what you want to do and would strongly recommend it to those that have compromised health and who are in their later stages of life. I myself am not worried about catching COVID and I'm not worried about my young children getting COVID. My 70 year old father I would recommend getting it, my 96 year old grandmother I would recommend she get it. There is no way in hell I'd give my young daughter and son an experimental vaccine that has no long term study for a disease that doesn't affect children as much as the common flu which I've also never feared. Vaccine passports are unconstitutional.

**Council/PH Committee** Transportation, Sustainability and Health  
**Agenda Item** Resolution 21-194  
**Your position on the matter** Oppose  
**Representing Organization** Self

By signing a digital vaccine passport into order you will be forcing people to get an unproven vaccine still in clinical trials. There have been numerous adverse reactions including death and people who have gotten the shot are still getting COVID. This is unlawful, and against our God given rights. There are other ways to heal from a virus with a 99% survival rate than using an experimental vaccine.

Recently a close friend of ours committed suicide because she lost hope in the freedoms we once knew. Two friends died a month after getting both of their shots due to strokes and these vaccines are what was causing blood clots in healthy people. Do you know if anyone who has died of a stroke recently who had been vaccinated?

**Written Testimony**

If one suicide isn't enough, just watch what happens when you mandate a V Passport and on top of that, just realize you are putting everyone at risk by forcing them to take something they have every reason to not trust.

Will you be paying people's medical bills if there is failure? For some reason doctors and the vaccine manufacturer won't...

When thinking of signing this into order, just ask yourself, who do you serve? God is always watching and pay attention, do you understand you're playing the part in the Book of Revelation?

May God bless your hearts in making the right decision. Luckily the God I serve gave me the right to Free will.

Aloha.

Written Testimony Both vaccinated and unvaccinated can contract and transmit the virus so enforcing passports is only discriminatory and an infringement on human rights. A passport will have a crippling effect to local businesses and residents. How can businesses be held accountable or enforce this passport when just about every business local and corporate is currently hiring and understaffed, not to mention the backlash that will come with that position I doubt many will be keen on hiring in to work like that. The vaccine is experimental using brand new science never before used on humans, it's not proven effective and it's not proven safe; we do not know the consequences of this science in our bodies down the line or in our future generations. Hard working citizens of our communities are being backed in to a corner, threatened with their livelihood, treated like second class citizens and being blamed for a pandemic that has nothing to do with the unvaccinated aka healthy bodies over an experimental vaccine and that is not right.

To whom it may concern,

Written  
Testimony

I strongly oppose the mandate on vaccine passports. It is against our civil and constitutional rights as America. No one has the right except the individual to choose what to put in their own bodies. This is still in its experimental stage. When you look at all the other vaccines in history it takes about 12 years to get to the general public. Vaccines are meant to prevent you from getting it. This is not a vaccine. It is of course for you to make their own decision and should be respected. Taking away our own rights to make that decision sincerely feel there is no other way of looking at it. There are other factors like our own natural immunity that should be considered. Keeping our children from schools and sports because they have not received an injection is not healthy for them. Their bodies are still growing and to mandate this shot is unconstitutional you!!! Please Please open up your eyes.

## Written Testimony

Name Kumiko Pathela  
Phone  
Email kumikop@comcast.net  
Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item 21-194 Covid Health Card  
Your position on the matter Oppose  
Representing Self  
Organization

I am opposed to this bill that violates our individual privacy and rights. Our health information is personal and private and protected by HIPAA and our Constitutional Rights. Besides, this COVID-19 Health Card will be ineffective as the vaccine does not prevent one from being infected by the virus, it does not prevent one who is vaccinated from transmitting the virus, and the PCR tests report false positives 97% of the time when it's dialed up to run at 35+ cycles, as documented by the CDC and reported by many doctors and scientists around the world.

Do not pass such a ridiculous bill that only serves the political agenda of corrupt politicians. This is not following true science about the virus and vaccines.

Written  
Testimony

First present evidences that are peer reviewed and authentic about the effectiveness of the 1) PCR tests to accurately identify covid-19, Delta, lambda -specific viruses (not all flus, Influenza A/B, and Corona viruses), 2) each experimental vaccines, 3) the masks that people use (and there are many forms and fashion for these), and 4) the FDA-approved Comirnaty vaccine that will only be available for distribution in 2024. Also make sure the CDC and FDA and Hawaii State government are legally liable for the damages done to individuals that are required to be vaccinated.

Kind regards  
Kumiko

### Written Testimony

This bill's purpose seems to be more about pushing the vaccines than it is about public safety. It does nothing to address the fact that vaccinated individuals can just as easily catch & spread COVID-19 as someone who is unvaccinated. And if a vaccinated person has COVID, they are more likely to have mild symptoms or to be asymptomatic. Subsequently, compared to an unvaccinated person, they are more likely to be carrying & spreading COVID out in public. Vaccine passports will not stop the spread of COVID.

This bill also does not account for the fact that those who have recovered from COVID-19 are better protected than those who are vaccinated. Israel has published a study showing that natural immunity is 13 times more effective than vaccine-conferred immunity. We can also observe this locally when we compare the number of re-infections to the number of breakthrough cases. Someone who has already had COVID and recovered would be less of a threat to public health than someone who is vaccinated, but would be excluded from the businesses covered under this bill (restaurants, gyms, etc.) unless they also get vaccinated. This is dangerous because those who have recovered from COVID are 2-4 times more likely to have adverse reactions to the vaccines compared to those who have never been infected with COVID.

Again, this bill seems to be aimed more towards persecuting those who have chosen not to receive the vaccines than it is toward protecting the public. Science & common sense just don't support this course of action.

### Written Testimony

I strongly oppose this resolution as it is biased and unconstitutional to force businesses to comply with an illegal mandate to force the public to supply proof of a certain private health status based on a perceived threat and unfounded effusiveness of an experimental vaccine that neither prevents contracting a so-called virus, neither prevents spreading the same virus. Therefore violating civil rights based on perceived threat is coercion on the part of a governmental entity and will be subjected to both lawsuit and criminal action against the governmental entity.

### Written Testimony

Covid has taken away to much from me & my family. Covid has taken away, loved ones, special occasions, financial stability, health, humanity, civil rights & freedom. I've had loved ones that passed on & vaccinated ones that battled covid that hasn't fully recovered. My sister has diabetes & is vaccinated she contracted covid and was in the hospital for weeks. The doctors were so focused on just covid that the failed to properly diagnose & treat both of her foot. What was gangrene they diagnosed as covid feet. Which resulted in amputation of 8 toes. While in the hospital they failed to recognize her existing medical conditions to properly diagnose her dead tissue toes as gangrene. Instead the discharged then she seeked a specialist, who in 1 visit diagnose it as gangrene and NOT COVID FEET. Implementing this covid passport is creating more segregation amongst the people. Your mandating proof of vaccination for restaurants, movies, bars, etc.. Yet, our schools are over the capacity per classroom. Covid or no Covid, everyone's rights to choose should be honored and not be treated differently.

As a resident of Hawaii and frequent visitor to Honolulu (where both of my parents were born and raised and many of my family members still currently reside), I strongly oppose the implementation of any vaccine passport.

We are tired of being punished with mask and vaccine mandates, and limits on social gatherings, etc. while tourism goes unchecked. Many adults residing in Hawaii have decided to decline vaccination. New coercive tactics presented as "public health measures" will not change many opinions, but they will certainly foment more anger and mistrust between citizens and their "representatives."

Many of us are acutely aware that the case numbers only exploded once test-free travel was opened up to vaccinated individuals. The science shows that the vaccinated still carry and spread coronavirus. We are sick of being blamed for "community spread" when 1.2 million visitors enter the state each month - without being tested.

Written  
Testimony

We are also acutely aware that we had a tier system for a reason. We were told that certain measures would be implemented if case and positive test numbers fell into a certain range. Now it seems that all of those parameters have been abandoned. New "tiers" have been invented instead. Now the focus is solely on vaccination. You are moving the goal posts - yet again. First it was "two weeks to slow the spread", then it was "just until the venerable get vaccinated", then it was "just until everyone who wants to get vaccinated has a chance to get the vaccine", then it was "just until case numbers get to a certain threshold", then it was "just until 70% of you agree to be vaccinated" and now? Now it's "comply or lose your ability to work or participate in society". We have no faith in your ability to keep your word. It also seems that the more we comply - the more demands you make.

The last few months have proven that tourists will gladly comply and jump through many

---

hoops to experience their “dream vacation”. Many businesses simply don’t need patronage from locals, they could indefinitely survive solely on the support of tourists. This will only deepen the bitterness many locals have about the double standard our government is showing by giving visitors preferential treatment. Are you also in a position where you don't need us, our money, or our support? This is how it looks from the outside.

Implementing this vaccine passport is a mistake. We don’t want it. It is totalitarianist and discriminatory. We are tired of being blamed, gaslit, and ignored.

Enough already.

### Written Testimony

In the greatest country that the world has ever known and in the state called the Aloha state, it pains me to have to write testimony to our government officials to show some Aloha to those individuals, who thought that they had the freedom to make their own choice regarding their own personal health. Our country is based on individual freedoms and self responsibility, this resolution violates both of those rights that were endowed by our creator. It takes away a number of rights and freedoms for those unvaccinated individuals. This bill treats them as second class citizens and effectively discriminates against them. I thought that in this age of diversity and accepting differences amongst people, why are we picking and choosing who this idea applies to. I strongly oppose Resolution 21-194. I am against anything that takes away our personal freedoms. I will also work against any elected official that votes in favor of this resolution and gather all of my family, friends and anyone that will listen to do the same.

Written Testimony We do not consent and shall not comply.  
As sovereign beings under natural law we shall prevail.  
Free will grants all humans the ability to choose decisions for our own bodies and to travel freely.  
These agendas are not truthfully in the best interest of our personal health are they? So we stand in truth and love and self mandate that these agendas not be untruthfully imposed upon the people of the aina. We stand in power truth and love. We are the Ones. In gratitude, peace, love & Aloha. Blessed Be!

Written Testimony  
Aloha!  
I am writing this testimony because I strongly oppose any type of Health Pass, Vaccine passport or any other name referring to prohibiting "free" people from entering an establishment without such pass.  
I believe this is an extreme over reach of local government which will ultimately destroy our community and our economy. It will destroy our community by segregating groups of vaccinated versus unvaccinated. I am already seeing this behavior in my workplace. Then it will destroy our economy as it further limits the number of people that are allowed to enter. At this point either people who are for getting the vaccine have already had at least one shot which is over 70% now in Hawaii. This is a much higher number than most of the country. Please allow people to continue to be free and do not pass this bill.  
Mahalo!

### Written Testimony

To whom it may concern;  
I am in opposition of vaccine passports because it resembles what is being done in China which had caused segregation to its citizens. This type of program will ruin our Aloha state. We are the melting pot of the world with so many different races. Having a vaccine passport will divide us by discrimination of the unvaccinated. It is the same as being discriminated by race or skin color. We should not let this happen in the "Aloha State". We have to remember that we are a free country and each citizen should have the freedom of choice. In addition, vaccine passport is a violation of privacy. In order to protect our privacy, we must stay in opposition of this bill.

Sincerely,  
Rizalyn Pacba

### Written Testimony

I strongly oppose vaccine passports and the violation of our constitutional freedoms. If this was truly about health the effective medication to treat covid would be utilized and the world would not have experienced this unnecessary 'pandemic'! Please stop suppressing healing treatments and the truth! The full effects of these experimental injections are unknown! How can any 'health' professional recommend them and declare them safe when that information is not available?! Let's uplift true health and support our immune systems!

### Written Testimony

I oppose the City implementing a health card. 1)This violates HIPAA on so many levels! You would be mandating personal health information be shown to employees of all these establishments and they are not even HIPAA trained and have no business knowing people's personal medical information. 2)It has been proven that the vaccinated as well as the unvaccinated can catch and spread covid, therefore requiring 1 segment of the population to get tested and distributing "health cards" is discrimination and promotes segregation 3)The PCR test has been declared faulty by the CDC and they have said that another test must be implemented 4)This is a violation of our Constitutional right to move about freely as well as operate our businesses without interference of government. 5)Requiring a test of only the unvaccinated to be able to use our tax payer owned public facilities such as pools, an outdoor venue, and gyms is again discrimination as well as segregation. There have been no covid cases resulting from our public pools and if clorox wipes and soap and water hand washing can erase the virus then how much more does the chlorine and other chemicals in the pool kill? You are destroying our economy, our health, our families and governing out of fear. There are therapeutics that wipe this virus out faster and better than any vaccine but you refuse to admit that.

Health cards are discriminatory, illegal and violate our Constitutional rights

As one who works closely with people with disabilities, the vaccine passport violates the Americans with Disabilities Act. I have spoken with people who are allergic to some of the active ingredients found in these shots and thus are unable to take it. For those who choose not to take these shots due to religious reasons, the approval of this vaccine passport will only serve to alienate and discriminate against them.

Written Testimony This passport is not merited on logic, as the "vaccinated" can also be COVID carriers and are yet not required to take weekly tests and will thus not experience such persecution. For a state that totes itself upon inclusivity and progressiveness, such a restrictive implementation teeters upon the fascist ideologies that are universally frowned upon.

The implementation of the vaccine passport is an insidious way to disguise discrimination under the guise of "public health and wellness". It is a slippery slope that is contrary to inclusion, equality, and liberty.

I do not support forced medical decisions. I believe in privacy related to health and the right to make personal health decisions. It is beyond the role of both government and small business owners to be coerced into discriminating customers based solely on vax status, especially while tourism continues to remain open without any new restrictions or mandates (such as testing for all regardless of vax status since it is widely reported that vax can still contract and spread) that could also contribute to managing and minimizing visitors who have COVID circulating our community on their nonessential vacations to local business establishments.

I am not anti-vax, I have been vaxxed! I respect everyone's right to do what they feel is right for their bodies. I understand the need to minimize hospitalizations and the burden it has placed on hospitals and healthcare.

### Written Testimony

Please use more of the COVID relief money towards addressing the need to support the healthcare system. Please create PSA campaigns that empower the community by promoting lifestyles that support and build strong, healthy immune systems (healthy eating, exercise, good sleep, mindfulness practices, outdoors, etc) as the FIRST and most critical step towards protecting themselves and the community. Provide unbiased and objective information about the risks and benefits to the vax so that people can be confident about informed consent in making the decision that is best for them and their families.

As a business owner in the fitness industry, it makes no sense to tell people they can't come to my business to do something proactive and productive for their physical and mental health solely on the basis of vax status.

We need to educate and empower people to take charge of their health so that they are not vulnerable to succumb to bad outcomes of this or any virus for that matter.

It makes no sense to spend resources incentivizing people with prizes to get vaxxed, especially with prizes that are detrimental and contradictory to good health, such as fast food gift certificates.

There is no magic pill, vaccine, or other quick fix to the nature of a virus. We must understand and think critically and objectively with how to move forward and do our best as a community to mitigate unnecessary lethal outcomes and overrun hospitals. We must accept the fact that not all lives can or will be preserved, while at the same time know that the percentage of those who had a mild response to infection and positive outcome/recovery now have natural antibodies that protect them. There are several published reports from credible sources that cite this fact.

This mandate will only further polarize the community, creating division and burdening small businesses with forced mandates. We have worked so hard to continue to serve our communities, and we want to continue to offer aloha to them.

We have all cooperated through the various shut downs, mandates, and measures. When is enough enough? Mask wearing, social distancing, etc. We were told 30 days to stop the spread. It turned into 60. Then one year. Now two. Now we are told this mandate is to be in effect for 60 days. Whose to say this won't also be extended? And to what benefit versus the cost and damage it creates to the community, the spirit of aloha, and the local economy? It is my opinion that it is negligible at best.

We need to take the politics out of this and come together to find productive solutions that address the root of the issues we are looking to manage. This mandate is not the only way (nor the best way) to decrease hospitalizations.

Mahalo. We look to you to look out for the best interest of your constituents.

### Written Testimony

I oppose the disgraceful idea that the government of the state of Hawaii would implement communist rule such as a vaccine passport. The recent Hawaiian admin has been walking the thin line of dictatorship for the last 2 years. You are no longer following the science. Out ICUs are not being overwhelmed. With nearly 75% being full and only 18% of that being covid related you are just bending the data to meet your agenda. Communist Russia actually just reversed there vaccination passport because the citizens decided that they would no longer shop no longer eat out to preserve there health. All that happened what there economic situation worsened. And that is all that will happen here. Your going to continue to destroy our economy while you let in hundreds of thousands of tourists. You let them come all while threatening us with more lockdowns. You destroy the lives and business of all residents when you try to implement communism like this. People deserve the right to choose. You have given them an ultimatum, they can comply and risk their health with an experimental drug. Or they can no longer work and be healthy. You are segregating the people of Hawaii. Casting them away for having there own views and opinions on how they would like to live. I would like to note that we are done. We are done being trampled on by you. You are acting as a tyrannical government and you have forgotten you work for us. We're elected be us. And answer to us. Oppose this government overstep. Oppose oppressing the people that gave you your seat at the table. Remember that this is a free country and fellow Americans and myself intend to keep it that way. Do away with the idea that you may trample on our rights. The people are tired of your overstep. Oppose the disgusting resolution 21-149.

Written Testimony I strongly oppose this bill. This takes away our constitutional rights. This should not even be on the table. I am a hard working, tax paying, community service volunteering, non social services receiving, and neighborhood contributing citizen. If this bill passes, I will move my family to Utah. Many of my friends, family, and neighbors are saying the same thing. We will leave. Then who will pay taxes to keep this state afloat! Listen to the people. We are making our making our wishes known. Listen to the people.

Written  
Testimony

I strongly oppose this Bill because it VIOLATES my Constitutional rights as a citizen of the United States of America, as well as my medical privacy rights (HIPPA). You have no business proposing this tyrannical Bill against the will of the people. Why don't you make yourself relevant and useful and fix our crumbling infrastructure instead of this draconian nonsense of yours!

Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RES21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I strongly oppose RES21-194. As written, it serves to strip citizens of even more of their rights, and reeks of totalitarianism.

As witnessed throughout the pandemic, government intervention in the name of "health and safety" has done little more in the state of Hawaii than decimate the economy, erode personal freedoms, destroy lives and livelihoods, and accelerate the "brain drain" this state is experiencing. If anything, this resolution and the vaccine passport system will create a further divided society, a two-tiered class system of those with "papers" and those without.

### Written Testimony

It places an unreasonable burden on businesses and employees. It places barriers between people who need food (you know, to eat so they can stay alive) and places to eat or buy groceries. It places financial burdens on those who cannot take the covid19 vaccination for health reasons and will be required to test often. It likely won't do anything to stop the spread of covid, which has been demonstrated to be carried and transmitted quite effectively by vaccinated persons.

Most sinister of all, it supports the notion that the government (or anyone else at all) has the right to mandate what an individual must PUT INTO THEIR BODY! Barring those with a legal guardian (children and the infirmed), every legal adult has and MUST HAVE the right to make such decisions for themselves. Otherwise, we all become de-facto "wards of the state", just like prisoners, invilids, or the insane. We are NOT prisoners. We are NOT invilids. We are NOT insane. Those people who choose not to be vaccinated often have very good reasons for such decisions. And the ultimate responsibility for that decision rests upon the individual who makes it. My health is ultimately my responsibility and mine alone, no one else's. My health is not the property of the state, nor is my body.

If you implement the vaccine passport then you are an enemy of liberty.

### Written Testimony

The handling of this pandemic by our state leadership has been shameful. Instead of bringing people together, you have divided us. You have created fear, anger, and prejudice, rather than courage, love, acceptance. You turned this healthcare crisis, into constitutional crisis, I have no doubt this nation will survive this pandemic as it has in the past. But I promise you this if take basic Civil Liberties away from the People. This nation will not survive.

### Written Testimony

I strongly oppose the implementation of a health card to enter establishments. This is a clear form of discrimination and segregation. Having a vaccine and vaccine card does not mean you will not transmit COVID-19. So the very basis of this practice is flawed. It will not stop the spread of Covid and it will only serve to create a modern day culture of segregation. Do not allow vaccine passports!!

I strongly oppose the vaccine passport. It is medical discrimination, and government overreach. No one should be denied entry into public spaces based on their personal decision to not take an investigational, ineffective and unsafe vaccine. Covid vaccines do not prevent transmission. They were never designed to do that.

Written  
Testimony

Based on Pfizer's clinical trials, they expressly say they are measuring the "vaccines" effectiveness at attenuating symptoms. This only applies to the first variant, which is essentially gone. We are primarily dealing with the Delta variant in the US. The CDC director even stated these vaccines have no ability to prevent infection by and transmission of the Delta variant.

Policies should not be built on the "hope" of what we want these vaccines to do, but what the data actually tells us. Recent studies show that vaccinated (especially with the Delta Variant) and the unvaccinated have similar amounts of virus on their nose and throat. To mandate a vaccine to enter public spaces that could actually make people more sick to the virus, is a crime against humanity. To segregate and discriminate against over 1/3 of unvaccinated Hawaii residents is tyranny. I strongly hope you reconsider your stance to imitate the vaccine passport. Local businesses and the people will suffer because of these policies.

Written  
Testimony When the government thinks it has the right to require from its citizens proof of a "vaccine" that is still considered experimental there is definitely something wrong. This is not a public health issue this is an overreach issue. We are a free people with the right to decide what we put into our own bodies and our government should be protecting our right to keep those personal decisions private.

### Written Testimony

NO WE DON'T WANT ANOTHER STUPID MANDATE! Please stop with the government overreach. Stop creating division in our communities. Stop segregating people and especially our children. The vaccines were created for a COVID variant that is no longer an issue. They were not created to be beneficial for Delta or Lambda or the thousands of other variants that will eventually come along. These mandates are NOT good for our families, for our economy, for Hawaii or for anywhere else in the world. We need to learn to live WITH covid not hide from it.

### Written Testimony

This is against our constitutional right to make our own choices for our bodies. There is so much evidence to support that they're are other treatments like ivermectin that effectively treat this virus. Instead of mandating that we inject our bodies with an experimental substance with unknown ingredients, how about we offer holistic wellness practices and fresh clean produce for all. Let our bodies naturally take care of this.

Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and “mandate by executive order if necessary” a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written Testimony I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you.

This is an infringement on our constitutional rights and God given rights as human beings. Specifically this resolution infringes on Article 1. Sections 2, 5, 6, 7 and 8 of the Constitution of the State of Hawaii.

“Section 2. All persons are free by nature and are equal in their inherent and inalienable rights. Among these rights are the enjoyment of life, liberty and the pursuit of happiness, and the acquiring and possessing of property. These rights cannot endure unless the people recognize their corresponding obligations and responsibilities. [Am Const Con 1978 and election Nov 7, 1978]

Section 5. No person shall be deprived of life, liberty or property without due process of law, nor be denied the equal protection of the laws, nor be denied the enjoyment of the person’s civil rights or be discriminated against in the exercise thereof because of race, religion, sex or ancestry. [Ren and am Const Con 1978 and election Nov 7, 1978]

Section 6. The right of the people to privacy is recognized and shall not be infringed without the showing of a compelling state interest. The legislature shall take affirmative steps to implement this right. [Add Const Con 1978 and election Nov 7, 1978]

Section 7. The right of the people to be secure in their persons, houses, papers and effects against unreasonable searches, seizures and invasions of privacy shall not be violated; and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the persons or things to be seized or the communications sought to be intercepted. [Am Const Con 1968 and election Nov 5, 1968; ren and am Const Con 1978 and election Nov 7, 1978]

Section 8. No citizen shall be disfranchised, or deprived of any of the rights or privileges

secured to other citizens, unless by the law of the land. [Ren Const Con 1978 and election Nov 7, 1978]”

Requiring a domestic vaccine passport is a blatant act of discrimination of persons and a DIRECT violation of HEPA. Every individual has a right to due process under the law.

If you pass this resolution, you are spitting on the graves of everyone who served this country for the cause of liberty.

Vaccine mandates for experimental covid shots are against the law in the US.

The opening frame of the Nuremberg Code—written after WWII to make sure no one is ever again forced to participate in medical interventions without their consent—states this:  
"The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision."

### Written Testimony

-Residents have NOT been supplied with sufficient information regarding what protocols will be in place once this passport exists or how it will work. It is the duty of the state, city and all oblique officials and address the concerns of its citizens and offer clarity and long term plan of action regarding said passport.

Mandates such as this create all sorts of problems with HIPAA (medical-privacy) law –check list of ongoing lawsuits that have arisen when people’s HIPAA rights are violated, The state will be next.

-The public has never been informed or educated on who is responsible/ liable should there be adverse reaction or death from said mandated vaccinations.

-These passports create further division & discriminate against the countless citizens who cannot receive these shots for health including children or who choose not to for religious or

personal reasons. How are our children protected in this?

-How can this even be considered we have seen statistically & scientifically that trying to replace testing & other safety measures with these vaccinations DOES NOT WORK. In fact our State cases rose dramatically immediately when Hawaii stopped requiring testing for those vaccinated arriving to the Islands BECAUSE THEY DO NOT STOP TRANSMISSION. How & why then are we already implementing this?

-How can such mandates be imposed legally or conscientiously when residents have not been provided with long term results of the long-term safety studies, (because there aren't any. ) - Clinical Trials for these "vaccines" have not ended and will not end until end of 2022 or sometime in 2023.

-There is large scale unease with concerns of personal safety, that of our children, that of our community which have not been addressed and have in fact been ignored.

-This is another sad reminder that this government continues to put profit before people. Doing this only furthers the distrust of our officials and the systems meant to serve us.

-This is gross abuse of power, control, and profit. The residents of Hawaii deserve better and will NOT STAND for further abuse of our rights, our livelihood, our safety, and our medical sovereignty.

### Written Testimony

This bill will do irreparable harm to individuals that for many reasons do not have a COVID vaccine card. Increasingly it is being shown that the vaccines which were developed against the alpha strain are far less effective than natural immunity yet this is not even mentioned in this bill. Why not? Antibody tests are readily available and emerging studies are showing that natural infection and recovery provides far better and longer lasting immunity than the vaccines. Fauci had stated in interviews that fully vaccinated individuals not only can still catch COVID, carry a similar viral load as unvaccinated individuals, but also can spread the disease. Moreover those that have had COVID and get the vaccine may be more likely to suffer from vaccine induced Antibody Dependent Enhancement. Individuals must maintain the right to choose whether or not to take any vaccine or medical treatment, this is a fundamental American principal. Taking away this right would do no less than destroy America and everything it stands for aside from the scientific argument against vaccine mandated passports.

I strongly oppose this bill that will mandate vaccine cards upon entry to various places because I oppose the vaccine. It is against my religious beliefs to vaccinate and I believe I should have the right to choose what goes into my body. I have never vaccinated my children and we never take medications of any kind. I see a naturopath and chiropractor for a healing but trust in God to heal us according to his plan. I will defend my belief to my death. . I am strong and healthy and never get sick. I believe God designed our bodies to build natural immunities.

**WE WILL NOT COMPLY!!!**

This is NOT even a vaccine it is nothing more than an experimental drug. It our right and responsibility to manage our own health, NOT YOURS!! You preach to follow the science, but yet you don't! Nothing that you are TRYING to mandating is scientific, mask, social distancing, or the arm injection. Show us that you can isolate this so called virus....you can't. It's influenza A and D, NOT a virus. Show us science wearing a mask or distancing works to stop a virus. You can't, because it does NOT!! You will be accountable for ALL the TYRANNY you are TRYING to enforce on the people of Hawaii. You WILL be responsible for the most harmful side effects and death of this experimental arm injection DRUG! You could not even fake the number of deaths from this so called CV-19, to make anyone who can THINK to get this injection!! Wake the heck up!! This is NOT a pandemic, I'm sure you politicians know that this rollout of CV-19 has been PLANNED for over 20 years. If you didn't know this you should not and WILL NOT be in a leadership roll for long. The long term effects of YOUR psychological child ABUSE to my children and yours, are going to be astronomical!! YOU WILL directly PAY for your negligence, mark my words!! I honestly do not know how you can sleep at night! Do not step on OUR rights, because you and your children WILL lose YOUR rights too!! Do the right thing and VOTE NO to this ridiculous vaccine passport program!

Written  
Testimony

As Americans we have our freedom of choice, that so many have fought for and are still fighting for!  
Segregation needs to STOP this is 2021. There is now a division between the two. Vaccinated & Un-vaccinated makes no difference in the persons.  
I will not support any establishment, venue, airlines etc that will continue to make a "thing" out of segregation. So many others will as well. Business will lose profits and will shut down. Hawai'i isn't where it needs to be in numbers for the vaccinated population, hence financial struggles for many of those businesses.  
I OPPOSE THIS BILL and will NOT SUPPORT ANY ESTABLISHMENTS THAT WILL SEGREGATE & DISCRIMINATE AGAINST ONES RIGHT!

Written  
Testimony This is an absolutely unnecessary step and a huge overreach for government, especially for an illness with a 99.7% recovery rate. We have no right forcing anyone to take a vaccine for any reason, especially a vaccine that has killed over 13,000 and injured over 500,000 according to the VAERS database. I strongly oppose any form of vaccine passport.

I do not agree with this because it simply does not align with reality. The numbers projected and information about the virus on the news/media from the governor, mayor, and Josh Green do not reflect with those of the cdc nor are they accurate.

Written  
Testimony

Please review the CDC's website for accurate information. Letting 30K tourists in every day while oppressing and pushing segregation on the people of Hawai'i is not just wrong it doesn't make sense. Vaccinated people carry and transmit more than unvaccinated/or previously infected. Previously infected individuals have a higher immune response than vaccinated. There is no need to mandate the digital vaccine passport. The vaccinated need to be held equally responsible for their actions and the people need to be informed properly. The information is on the CDC's website. Vaccinated individuals carry and transmit excessively more the unvaccinated. Also- the 99.6% chance of survival does not reflect the hospital numbers. Please understand- we all care about every one's well being. The people of Hawai'i have been through way too much to endure more oppressive governing and segregation. What is the purpose of this? Making the very healthcare workers needed to assist in this surge, have to quit due to the mandate is not helping the overcrowding in the hospital. The people of Hawai'i need to come first. The tourists are a major part of this issue and the numbers reflect so. The last two months have been the out of control everywhere on Oahu. And it is NOT locals. It's tourists overcrowding everywhere and they need to be tested if they are to come here. This is the ALOHA state and It needs to be handled as such. The people come first. Mahalo for your time and ALOHA.

As a sovereign natural living woman I vehemently oppose the implementation of any limitation to free movement within Hawaii; our society, businesses, places of employment or recreational spaces, related to vaccine passport. There is strong scientific data suggesting the vaccines actually contribute to symptoms of illness, not the lawful unvaccinated citizens of Hawaii. How dare anyone attempt to tell the people of Hawaii what to put in their bodies, or be denied access to good...shame on whomever proposes such unwarranted cruelty. How dare piliticians attempt to cut off the unvaccinated, perfectly healthy, residents of Hawaii, the kama'aina, from income and resources....and then insist that, regardless of religious, cultural or spiritual beliefs, people must take an 'experiential drug' which has not gone through normal, standardized testing. It's an absolutely absurd notion!

Written Testimony Its pathological to attempt to exact such dominion, control, and oppression over the free people of the Federation of the USA. Hawaii has not previously been known as an oppressive, facist state...but a safe haven, a home where it's citizens are not subjected to tyranny from their hired l government representatives....however, if this mandate is allowed to pass then it will clearly show how the state wishes to oppress the very people it is assigned to care for.

Besides, haven't I seen a document showing multiple campaign contributions from Pfizer to a particular Hawaii state politician? Conflict of interest perhaps!!!

Politicians who believe they get to make such decisions on behalf of the people are MISTAKEN...SIT DOWN!

We The People say hell NO to this mandate!

Written Testimony This act prohibits local residents from participating in society. I believe it's a strong overstep of government power. Trying to exclude people from society because of not getting an injection or testing every two days is not a representation of the liberty and freedom our nation stands for.

### Written Testimony

I oppose Resolution 21-194. People should not be forced to take an experimental COVID shot just to participate in society. We all have freedom of choice. This so called "vaccine" has been proven to be a failure especially here in Hawaii since there are now more positive cases in Hawaii today compared to last year when there was no COVID shot available. Based on VAERS, there have been tens of thousands of deaths and hundreds of thousands of serious and life-threatening adverse reactions from this shot here in the United States. I personally have an uncle in his 50s that had a stroke a day after taking the shot, and a close family friend in her 60s that has suffered prolonged (possibly permanent) weakness of her right side of the body after taking this shot. My wife has co-workers in their 30s that now have myocarditis. The worst part is that they are on their own since there is zero liability to the vaccine manufacturers. Why does the state of Hawaii want to mandate this shot if there are already known treatment options that are safer such as hydroxychloroquine, ivermectin, vitamin C and D in high doses which does not have the toxic ingredients of the COVID shot. You politicians proposing this should be ashamed of yourselves. We have elected you and you have a duty to serve the public, not to serve the great reset agenda.

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

Aloha,  
Please oppose RS 21-194 because the precedence this sets is far larger than the virus or the vaccine.

Yes, we have a serious health crisis, but it will not be effectively solved by creating a second class citizen to be shamed or blamed for the urgency we face. We must be careful to never repeat the kind of mistake that happened with our local Japanese in WWII.

Both the vaccinated and unvaccinated people can catch, carry and transmit the virus. Eliminating one group from circulation will not stop the spread of the illness as is the stated intention of the Green Pass.

Written  
Testimony

Working to help all of those testing COVID-19 positive to follow known pro-active steps to strengthen their health immediately is where our focus needs to be placed to keep our hospitals from being overwhelmed. Our DOH guidelines emphasize isolation until there is difficulty in breathing, at which point going to the hospital is recommended. Much can be done for both the vaccinated and unvaccinated prior to the escalation of the illness. Presently, the only option being suggested is a vaccine. It is clear there are those who will not cross that threshold.

Effective leadership would be to place guidelines, signs, and most of all begin to emphasize earlier therapeutic care. That exists. It is a large reason why 98% of the unvaccinated are not ending up in the hospital. Encourage solutions.

Today, the green card is about COVID. Tomorrow, it could be about anything else. In my family's past it was a yellow Star of David.

The authoritarian over-reach of the possibly welling ended Green Pass is frightening. Please think to the implications of the future, rather than the immediacy of this week.

Mahalo for thoughtfully considering my testimony,

Darci Frankel

I strongly oppose resolution 21-194 that was introduced by Tommy Waters and Esther Kiaiaina.

This resolution will further divide a city that is already so divided. It is not necessary.

Written Testimony It will also continue to hurt small businesses that have already been hit hard over the last 18 months.

Please hear the voices of the people and vote NO on this resolution.

### Written Testimony

I do NOT support this bill as this bill is taking away our rights and freedom that we have been given as an American Citizen. This bill is set to punish these free citizens who choose NOT to be vaccinated. The last time I checked, America was and still is a free country meaning that American Citizens have the freedom to choose what establishments they visit as well as what is injected into their bodies. To take away one's freedom to choose sounds a lot like when the Nazi's passed laws and decrees that segregated the Jews which in today's situation it would be the vaccinated from the unvaccinated and the prohibition from entering establishments if they have not been vaccinated. This all proceeded the horrors to follow, the concentration camps. I urge those in leadership who are creating these mandates to take a step back and analyze what is taking place as it is history repeating itself once again. To this, nothing good will come from it.

### Written Testimony

Vehemently opposed to Hawaii implementing a vaccine passport. The government needs to provide solid data - SCIENCE - that this strategy will truly mitigate the spread of covid. If you look at Israel's data, an entirely different picture is presented. Using a fear tactic like this to get more people vaccinated with a drug we still know very little about is morally and ethically wrong. I thought better of Hawaii. We & many community members we know will leave this state & gladly take our businesses elsewhere before we subject ourselves to such violence. There are thousands of other proven ways we can promote health and build strong immune systems in the meantime. Shame on the government for having such a corrupt relationship with big pharma. This has to stop.

### Written Testimony

This bill is illegal. It violates health privacy. If, as a restaurant host or a gym owner, or whatever, I was to ask a patron their HIV status (or any other non-covid status), I would likely be fired, and the establishment fined or even sued for violation of civil rights. If I refused to allow the person in, based on either their answer or refusal to answer, I would likely suffer the same fate. As an employee of an establishment of any sort, a person has no right to another person's HIV status, so also they do not have the right to know their vaccination or covid status. You do not ask for flu status. Or cold or measles or tuberculosis status even (a far more contagious and deadly disease). Only a health professional has the right to ask, outside of personal, sexual relationships. And this 'passport' does not apply to the last. I must strongly insist you stick to the actual law, and stop trying to stick other peoples' noses where they do not belong, and, in most cases, do not want to be.

### Written Testimony

I strongly oppose RESOLUTION 21-194. It is a doorway for discrimination and persecution. Denying people access to society based on their vaccination status will bring our communities to a level so low, we may never recover. Families, friendships, and communities will suffer as division grows between the vaxxed and the unvaxxed. For the sake of my children and the generations to come, I oppose this initiative that will lead us down a path of social destruction and compromised integrity. This bill is detrimental to humanity and the spirit of compassion that has always thrived in this beautiful place I have called home for all my life. Again, I strongly oppose RESOLUTION 21-194.

Written Testimony fear and separation of our people. This is a real totalitarian move. And we are a democracy. Makes this grandma very sad to see what our elected officials are trying to mess in private health issues and choices.. no hope for better life then to serve in the visitor industry and stay home locked up. Mental health of constituents has been taken a toll on our people. Separation is not an answer.

Organization

### Written Testimony

I strongly oppose this resolution and any other resolution pertaining to a covid-19 health card or any other similar program related to mandating and/or providing proof of vaccination in exchange for access to services, facilities, businesses, goods, and other such establishments, etc. This resolution is too vague and leaves opportunity for personal interpretation, which is dangerous. I urge you all to reconsider your stance on this resolution and truly consider the potential devastating impacts that may occur if this resolution were to pass. It has the potential to negatively impact this generation and all of the generations to come. It sets a dangerous precedence for those who wish to segregate people based on vaccination status.

Regards,  
Hi'iaka Jardine

### Written Testimony

I oppose vaccine passports.

1. Since vaccinated and unvaccinated can both be equally infected and spread the virus what exactly is the point if all persons are equal in that regard.
2. It's wrong to create two classes of people.
3. We are at 64% vaccinated but the state is not taking into account that a huge percentage of people have had the virus and now have natural immunity. The latest study from Israel shows those with naturally acquired immunity have a more robust and long lasting immunity. Much better than the vaccinated. Why waste vaccines on those who don't need it. The state should be testing people to see if they have immunity already.
4. There is an abundance of evidence that there are alternative treatments. Currently if a person tests positive they are told to wait at home until their symptoms require hospitalization. Our hospitals are over crowded so any alternative treatment is better than no treatment. By ignoring the evidence the state is condemning people to die needlessly and making the state libel for future claims of needless death.

### Written Testimony

This discriminates against and punishes people who can not be vaccinated for health reasons, parents of children who can't be vaccinated, and the many people who are already naturally immune from previous SARS-Cov-2 infection. Furthermore this will greatly decrease income for small businesses across Hawaii and create more economic hardship for small business owners and their employees.

Written Testimony Thank you for allowing testimony to be submitted on this matter. I strongly oppose the idea of vaccine passports.  
I understand the number of covid cases is climbing but it has been proven that vaccinated individuals carry and spread the virus, and can fall ill to covid. Knowing this, what benefits would a passport have? If vaccinated individuals are equally at risk to catching covid as an unvaccinated person, why are we focusing on being vaccinated or not?

### Written Testimony

I strongly oppose the vaccine passport. It is medical discrimination, and government overreach. No one should be denied entry into public spaces based on their personal decision to not take an investigational, ineffective and unsafe vaccine. Covid vaccines do not prevent transmission. They were never designed to do that.

Based on Pfizer's clinical trials, they expressly say they are measuring the "vaccines" effectiveness at attenuating symptoms. This only applies to the first variant, which is essentially gone. We are primarily dealing with the Delta variant in the US. The CDC director even stated these vaccines have no ability to prevent infection by and transmission of the Delta variant.

Policies should not be built on the "hope" of what we want these vaccines to do, but what the data actually tells us. Recent studies show that vaccinated (especially with the Delta Variant) and the unvaccinated have similar amounts of virus on their nose and throat. To mandate a vaccine to enter public spaces that could actually make people more sick to the virus, is a crime against humanity. To segregate and discriminate against over 1/3 of unvaccinated Hawaii residents is tyranny. I strongly hope you reconsider your stance to initiate the vaccine passport. Local businesses and the people will suffer because of these policies.

### Written Testimony

I strongly oppose this resolution as it is unconstitutional and discriminatory. You will segregate and divide the community to resist more C&C initiatives. This bill works against the community not with or for our community. I am the main bread winner in my family if I am denied access to your said businesses I will not be able to feed or take care of my family properly. There are two handicap people I must take care of and need free access to certain business in order to keep them alive. This resolution will greatly prevent and impact my needs to freely access businesses. Therefore I strongly oppose this resolution. The unfounded need for testing of only those who are in vaccinated is unfair if that is the case all should be tested as even those who are fully vaccinated can spread Covid. This is totally discriminating.

To whom this may concern:

Forcing us to take these vaccines goes against our Constitutional Rights and takes away our Freedoms!

As a retired RN for over 35yrs I am appalled by the way our Health Institutions-Government have handled the Covid 19 Outbreak!

Written  
Testimony

No one can choose what we put into our bodies! These vaccines are experimental and in all actuality are not vaccines at all.... They contain MRNA which will affect our DNA! They contain Graphine oxide which is a poison that will affect every cell of our bodies with the spike proteins!

There have been many injuries and deaths according to VAERS and CDC! As of July 2021 it was reported over 6,000 deaths! Why hasn't this experimental vaccine program been shut down?

There are other remedies out there!

India and Latin America reduced their COVID deaths after using Ivermectin, and the Fact Checkers are desperately trying to cover this up...

[https://www.thedesertreview.com/news/national/ivermectin-obliterates-97-percent-of-delhi-cases/article\\_6a3be6b2-c31f-11eb-836d-2722d2325a08.html](https://www.thedesertreview.com/news/national/ivermectin-obliterates-97-percent-of-delhi-cases/article_6a3be6b2-c31f-11eb-836d-2722d2325a08.html)

Tokyo's Medical Assoc. Chairman holds live press conference recommending ivermectin to all doctors, for all Covid patients.

Japan's government is one of the most conservative and cautious in the world. Data is clear.

### Written Testimony

I am opposed to this bill. Americans and Hawaiians have already given up too much. Our way of life has changed drastically. We must not totally lose our freedom of choice. This resolution, if passed, will hurt individuals and business alike. It will undermine any confidence the public has left, that our local government or national government has any consideration for its citizens and business.

Please do not cater to just one side of the situation. Mahalo for your attention, Gay H

Written Testimony I support a bill that requires people to show a vaccination card or negative Covid test result to enter shared spaces in order to reduce the spread of covid-19 so that we can return to business as usual sooner and safely.  
Mahalo for your time and consideration.

### Written Testimony

This proposed bill is not only an infringement on personal rights, and security, but it also has no background in keeping our community safe or healthy. Monitoring, restricting, and policing segregation based mandates on the people of Hawai'i will not stop our community from being affected by covid-19, nor will it protect anyone in any real long term way.

I beg that you think smarter and with your hearts on how to really service our communities, not as dictators and through coercion and fear, but through actually helping our community create long lasting sustainable health and security in our own home.

### Written Testimony

I oppose vaccine passports because they are UNCONSTITUTIONAL! We live in the United States of America, land of the FREE. Mandating vaccinations, vaccine passports and even testing violates the civil liberties of citizens. Why would someone need to show proof and reveal personal medical information to enter a business, restaurant, gym, etc? Vaccinated people can still contract and transmit Covid-19 to others, just the same as unvaccinated people. If you want a vaccine passport, go move to a communist country. This is pure government over reach and it must stop now.

### Written Testimony

Aloha!  
As a law abiding citizen, I would like to formally voice my strong opposition to resolution 21-194. It is my right to choose what I put in my body, and do not have to disclose to anyone the reason why. I am not willing to take a chance of putting this vaccine in my body or my children. It is very unethical to discriminate daily activities to those who choose not to get the vaccine. If this virus is so deadly, why are you firing or putting our first responders who choose not to get the vaccine? It is a disgrace that Hawaii politicians are choosing to use this pandemic to satisfy the obvious present political agenda. You are hurting the people of Hawaii, especially our children! So I wholeheartedly ask that you do not pass resolution 21-194.

Mahalo!  
Jessica Chun

Aloha Kakou,

I am a mother, wife, daughter, sister, and teacher.

I oppose mandatory vaccine passports because of the health conditions of my loved ones who are unable to receive this vaccination at the moment. Vaccine passports will discriminate against minors who already don't have a voice in what's happening around them—better yet what's happening to them (socially and emotionally) for a virus they have a 99% chance of surviving. Research shows there is a mental health crisis and rise in suicide rates amongst our youth. This is not due to them being physically sick, this is due to these unlawful mandates.

Written  
Testimony

It's important we allow folks to make their own medical decisions and not discriminate based on whether or not they've been vaccinated—especially since data confirms the vaccinated are still getting the virus, ending up in the hospital, and dying.

Not only is this mandate unconstitutional, it doesn't make any sense. Medical freedom is for the "pro-vax" AND "anti-vax." It benefits both groups to make their informed decision without being discriminated against.

I urge you to make your decision based on the actual science and for the sake of ALL people—not just in favor of one group.

I pray this reaches you well.

May God Bless you & your family through these trying time.

Mahalo

Written  
Testimony It doesn't feel like a personal choice anymore, it is more of an ultimatum. I do not feel comfortable taking a vaccine that has barely any years of clinical studies. There are so much adverse reactions from taking the vaccine that I myself could possibly have a bad reaction, then who is responsible? There is no one who is held accountable Incase any adverse reactions occur to myself if I took the vaccine. Then who shall take care of my family?!

### Written Testimony

Enforcing a vaccination passport card violates human rights. There have been plenty of fully vaccinated people who have still become infected. Including myself. Sure the symptoms are mild and it lowers hospitalization, but what's to stop and infected, fully vaccinated person with a passport card from exposing others when they are visiting a business that requires a passport card. Fully vaccinated or not the risk is the same. What's the point? It doesn't make sense. Nobody on this planet should ever be segregated or shut out because they don't want to be vaccinated. It should always be our right to make the best health choices for ourselves and families. If that means not to be vaccinated it shouldn't mean they get cut off from places in their communities. If this passes it will bring about a whole new set of issues. I just don't agree with forcing something like this. We live in the USA. Land of the free?

### Written Testimony

What makes the United States the most desirable country to live in is freedom. The freedom to choose is the law of this land. Mandating a generalized medical requirement for every single citizen is absolutely outrageous. I am a man in his mid 20s, I eat extremely healthy, exercise, sleep well, hydrate, take vitamins and treat my body as something important to protect. I take accountability for my health on a daily basis. Any sort of vaccine mandate is downright preposterous. It is an outright assault on my civil rights. The argument that it is my responsibility to protect the health and safety of others beyond wearing a mask is a logical fallacy. We are all individuals that must take absolute ownership for our own health and well being. If someone has the freedom to eat so poorly that they end up with diet related health issues such as heart disease, obesity, cancer, or diabetes, I have empathy and compassion and will do my part by wearing a mask, but that does not mean I must comply with an inoculation that I myself do not need. I find it strange that every pharmaceutical company has complete legal immunity from any adverse events related to this experimental new vaccine technology. The messaging is that I must take care of my fellow man by subjecting myself to a certain level of risk by taking the shot, yet the makers of the shot assume no responsibility for negative outcomes themselves? This is disgusting. This is tyranny. It is anti-American. This is a very slippery slope we're heading down. How dare any elected politician propose something that so many of their constituents disagree with. Our body, our choice.

Written  
Testimony

I strongly oppose the imposition of a "covid-19 health passport".  
Establishing a vaccine passport to access businesses and employment represents a severe violation of fundamental human freedoms and is an overreach of government power.  
In a free society, individuals must be allowed to make our own decisions and to practice responsibility by our own free will, especially when it involves private medical decisions.  
The covid-19 vaccines that are currently available have been demonstrated to be ineffective in preventing the spread of the disease and the safety of the vaccines are in question, so a mandate which will negatively affect nearly half of the population does nothing but to further hurt our businesses and to unfairly discriminate people on a division that has no scientific merit.

Aloha State Officials,

I write to remind you that you took an oath to the Hawaii State Constitution to protect the rights of the people. We the People have the power, you are servants to us.

It is not your place, or within the lawful constitution to restrict individual freedoms or discriminate against we the people. We are granted rights to self-determination.

Do NOT pass a Health passport/card, this is unlawful.

Hawaii State Constitution  
The Bill of Rights  
Article 1

Written  
Testimony

**POLITICAL POWER** Section 1. All political power of this State is inherent in the people and the responsibility for the exercise thereof rests with the people. All government is founded on this authority. [Am Const Con 1978 and election Nov 7, 1978]

**RIGHTS OF INDIVIDUALS** Section 2. All persons are free by nature and are equal in their inherent and inalienable rights. Among these rights are the enjoyment of life, liberty and the pursuit of happiness, and the acquiring and possessing of property. These rights cannot endure unless the people recognize their corresponding obligations and responsibilities. [Am Const Con 1978 and election Nov 7, 1978]

**EQUALITY OF RIGHTS** Section 3. Equality of rights under the law shall not be denied or abridged by the State on account of sex. The legislature shall have the power to enforce, by appropriate legislation, the provisions of this section. [L 1972, SB No 1408-72 and election Nov 7, 1972; ren Const Con 1978 and election Nov 7, 1978]

### Written Testimony

We still live in America with free choice especially over what goes into our bodies. Would you let your child ingest something that can harm them. I think not! This card would restrict employment and people would lose jobs. The very people who voted for you! Create more poverty and homelessness. People would have to leave the "Aloha" state because they have no choice. This can destroy the state. Please make the right decision to NOT mandate the card. Thank you!

Your position  
on the matter Oppose  
Representing  
Organization Self

### Written Testimony

This would greatly effect my life and my core beliefs around health and wellness. Passing this Bill would compromise my freedom to choose what I deem healthy for myself and my family. I strongly oppose this Bill and if it passes, will move out of the state of Hawaii. My husband and I are both educators and stewards here on island. We are college educated, have master's degrees and teaching credentials. With that said, we know how to discern information. We have conducted our research on the COVID vaccines and have found several reasons to not get vaccinated. It is not right for us. However, if it makes others feel safer, than by all means, but please do not force this on us.

Email Lavernegaviola@gmail.com  
Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I oppose RESOLUTION 21-194 due to the fact that we, as American citizens, should have the freedom to make any and all health decisions in regards to our own individual health and safety. It is unconstitutional and unethical to not even suggest but to MANDATE medical decisions upon us as individuals. On top of not being able to make our own health decisions it infringes on our privacy.

As a DOE employee I already have to test weekly in order to keep my job. Many in education, health care, public safety do not want to receive the vaccine. Whether it's medical, religious, or strong personal beliefs, it should not matter.

Written  
Testimony

On top of that, stated by CDC, healthcare workers, and other health organizations, the vaccine does not prevent either the spread of Covid or catching Covid. Alternative treatments, preventative measures, and testing for all should all be the main focus if we are all capable of catching and spreading Covid. This invalidates the vaccine passport. If a vaccinated person is asymptomatic and does not need to be tested, they will silently spread the virus within restaurants, bars, gyms, etc.

I oppose RESOLUTION 21-194 due to the fact that we, as American citizens, should have the freedom to make any and all health decisions in regards to our own individual health and safety. It is unconstitutional and unethical to not even suggest but to MANDATE medical decisions upon us as individuals. On top of not being able to make our own health decisions it infringes on our privacy.

As a DOE employee I already have to test weekly in order to keep my job. Many in education, health care, public safety do not want to receive the vaccine. Whether it's medical, religious, or strong personal beliefs, it should not matter.

On top of that, stated by CDC, healthcare workers, and other health organizations, the vaccine does not prevent either the spread of Covid or catching Covid. Aloha Kakou,

I am a father, husband, son, brother, and Native Hawaiian.

I oppose mandatory vaccine passports because of the health conditions of my loved ones who are unable to receive this vaccination at the moment. Vaccine passports will discriminate against minors who already don't have a voice in what's happening around them—better yet what's happening to them (socially and emotionally) for a virus they have a 99% chance of surviving. Research shows there is a mental health crisis and rise in suicide rates amongst our youth. This is not due to them being physically sick, this is due to these unlawful mandates.

Written  
Testimony

It's important we allow folks to make their own medical decisions and not discriminate based on whether or not they've been vaccinated—especially since data confirms the vaccinated are still getting the virus, ending up in the hospital, and dying.

Not only is this mandate unconstitutional, it doesn't make any sense. Medical freedom is for the "pro-vax" AND "anti-vax." It benefits both groups to make their informed decision without being discriminated against.

I urge you to make your decision based on the actual science and for the sake of ALL people—not just in favor of one group.

I pray this reaches you well.

May God Bless you & your family through these trying time.

Mahalo

Written  
Testimony

We the people, should not for any reason be required to take any vaccines for any reason whatsoever, especially one which has not gone thru the 5-7 years of testing typical of all vaccines. Proof is mounting that vaccinated people can still get virus and spread it so it is not proven to be effective. Teaching how to take better care of their health and practice cleanliness and consideration and how to eat healthy, exercise and be healthy should be the focus. We should not require such a mandate ever. Medical Freedom is our constitutional right as citizens of the country and sovereign right as human beings under God. Let our voices be heard and heeded. Thank you for your consideration.

### Written Testimony

The vaccine passports and mandates are an atrocity and a violation against my 1st and 14th amendment. The United States of America is a country build to exemplify liberty and democracy. Due to COVID-19 The United States of America is now losing these essential values. In history we have seen civilians fighting against the state due to a vaccine mandate. 1905 Jacobson vs Massachusetts. The Supreme Court ruled in favor of the State of Massachusetts based on the conclusion that the vaccine was keeping citizens from harm. The COVID -19 vaccine lacks the proper trials and time frame to give that assurance. In addition there are thousands of registered cases of civilians that have taken the COVID-19 vaccine and have suffered severed reactions leaving them with chronic health issues as well as death. The COVID 19 vaccine can not and will not eradicate the virus. As a matter of fact the only vaccine that has done such job was the smallpox vaccine which started to be developed in 1798 and was not globally administered till the 20th century. If this is a matter of safety then please keep in consideration that citizens of The United States of America that are opposed to the vaccine passports and mandates are simply fighting for their safety due to the lack of studies, data, and efficacy of the COVID-19 vaccine.

### Written Testimony

I am writing in opposition to resolution 21-194 Covid-19 Health Card. Although I have seen/experienced first hand how Covid has impacted the hospital, it's staff, patients and their families, I believe people should still have the right to choose. People shouldn't be forced to put something into their bodies just so that they can keep their job to provide food and shelter for their families.

If this mandate is passed, there may be no end. What will be next?

### Written Testimony

I absolutely oppose a vaccine passport. There are other scientifically proven ways to treat Covid, therefore, mandating vaccines under an "emergency" proclamation is untruthful, harmful and down right unconstitutional. The amount of censorship from the government and media and large corporations is disgusting and you should be ashamed of yourselves.  
Government FOR THE PEOPLE BY THE PEOPLE.

Written  
Testimony

There is too much scientific evidence confirming that the “vaccines” are unsafe and according to the Nuremberg Code we should not be forced or coerced into getting an experimental substance injected into our bodies especially for something that has a 99% + rate of recovery. Makes absolutely no sense! And it also appears that the people who got the initial injection are actually the ones creating and spreading the new variants. My body, my choice!

### Written Testimony

I strongly oppose resolution 21-194. Forcing people to take a toxic substance that potentially jeopardizes their short term and long term health is unacceptable. Forcing people to vaccinate in order to keep their jobs and go about daily life is unacceptable. These vaccines are not safe for everyone. They are not one size fits all. Everybody's body reacts differently to them. Thousands of severe side effects have been reported, including death. Long term safety studies have not been completed. The government needs to take their blinders off and release themselves from the tunnel vision of vaccines being the only answer. The people want alternative treatments at the onset of symptoms. They want a choice about what they put into their bodies. I don't want to be raped with a needle. I will one thousand percent leave this island and take my income and tax money with me. I will disenroll my children from public school and take their funding with me. I will not put one dime into any industry that either chooses to be part of forced vaccinations or is forced to be part of forced vaccinations. This is unAmerican. This is a complete overstep of government power. You have two resolutions that you are reviewing at this meeting, 21-193 and 21-194. 21-193 confirms that vaccination status makes no difference and that testing needs to be done no matter what. 21-194 wants to force a vaccine that clearly does not stop anyone from contracting it or spreading it, otherwise why would you want to require testing for vaccinated??? Hospitalization can be dealt with in other ways: Increasing hospital size, beds, and staff or also a more proactive approach in early treatments like monoclonal antibodies. Stop letting doctors tell people to just go home and rest and take some Tylenol. Be more proactive for people who test positive. Treat the sick. Stop forcing the healthy to take a product that is not safe, is not effective, barely received a fast-tracked fda approval, and that skipped years and years of thorough testing. This resolution that is being proposed does not have enough valid science to back it up. I strongly oppose 21-194!

Written Testimony I strongly appose resolution 21-194. There are others ways to fight COVID that are a lot safer then a vaccine that isn't effective. Even if your vaccinated in an establishment you can still spread COVID. By just that fact alone this should be thrown out because it doesn't make any sense!

Written  
Testimony Please oppose this bill. This does not represent the people of Maui. Every American should be able to maintain medical autonomy and should not have their freedom to support local business stripped because the local government makes that decision for vaccines for them. This is coercion, not consent. This will hurt the local businesses and does not represent the people of Maui.

### Written Testimony

I oppose Resolution 21-194. As a health care worker, I have seen the damage of this COVID shot not only physically but also mentally. As a mom, I deeply care about my kids futures as they are now growing up in a community that continues to be divided by these false narratives by the media and the government. The dangers of this COVID shot are immense and there is no reason for this to be mandated to society using vaccine passports.

I strongly oppose this Bill. It does not take into consideration a big chunk of the Hawaii population and their needs. It is discriminatory, divisive, threatening, and against our rights under the US Constitution.

Written  
Testimony

To give an example, handicapped persons are a small percentage of our population, yet we have created handicapped accessible streets, buses, businesses. So you must accommodate the population that can not follow a mandate that is scientifically unsound.

### Written Testimony

I strongly oppose this resolution. This is discrimination and there is no argument to be made that would convince the public that it is not! Our country has fought for years against discrimination of race, gender, disability, etc. only for our very own government to implement it in their policies? You people are supposed to be protecting the people of Hawaii, not dividing and forcing (coercing) people into doing what they don't want to do! Vaccines may be dangerous to some, but we don't know the full list of long term effects for certain types of people because THERE IS NO LONG TERM STUDY possible at this point in time. If this resolution is passed you're giving authority for someone to FORCE this onto us. The word "force" and the word "mandate," doesn't sound like words our government should be using on a FREE PEOPLE. You are ILLEGALLY implementing these policies that go directly against our individual freedoms and rights that men have fought and died to give to us. Remember who you work for, you work for the people. And the people do NOT want to be forced to get a vaccine. The people do NOT want to "show their papers" in order to enter into any establishment. The people do NOT want to prove to their employers their vaccination status in order to come to a job that they've obtained through their hard work. The people do NOT want a vaccine passport!

I do not agree or believe any form of government should be on a position to tell the people they serve what they should put into their body. For those who choose not to get the vaccine we should not be punished or strong armed by your so called "choice"

Written  
Testimony

If this was really about health we would be discussing the obesity epidemic and discussing ways to boost natural immunity.

If this was about safety we wouldn't be letting hundreds of thousands of tourists into our islands to exploit our home, while we are threatened with another lockdown.

This is about power over locals and the local government should be ashamed. You do not represent us.

Written Testimony I oppose Resolution 21-194 because vaccine passports are an act of segregation that goes against our medical freedom. It exempts the vaccinated from needing to get tested, but it has been proven that both unvaccinated and vaccinated individuals are getting covid. This is dividing people to support a corrupt agenda. Why have a state motto: "Ua mau ke ea o ka 'āina i ka pono - The life of the land is perpetuated in RIGHTEOUSNESS" and not implement it? Do what's pono, what's right and choose people over profit because we, the people, have the right to choose what is right for our health! Stop choosing profit over people and using the "safety" card to justify your illegal actions of mandating our rights. We, the people of Hawai'i, have the RIGHT to choose! We have the right to fight for our medical freedom!

### Written Testimony

First you suggested, than requested, than tried to bribe, now you are on a FULL SCALE ATTACK on our FREEDOMS as HAWAIIANS and AMERICANS. I oppose these mandates 100 percent. You are willing to force and strong arm the community to comply or face RESTRICTIONS such as travel, shopping, entertainment, and other activities. WE DEMAND A CHOICE on what goes into our bodies..we have rights...concerns....be it for religious reasons...or what it might do to our health! NO ONE CAN PREDICT what kind of side effects can occur with these vaccines!! Stop these FORCED vaccinations and FOOLISH god like rules that strip us of our freedoms. SHAME ON ALL OF YOU WHO SUPPORT THIS!WHAT YOU ARE EXTORTING US IT DO IS TRULY EVIL!

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

My name is David Story. I am 71 years of age and a retired Hawaiian Airlines pilot. I have called Hawaii and Oahu my home for over 46 years. I have studied health all of my adult life. The Covid-19 vaccine is an unproven serum that could very well cause more harm than good. I am adamantly opposed to having mandatory vaccine passports. It is important to note that the death rates in the state of Hawaii and in Honolulu county (Oahu) for 2018, 2019, 2020 and the first half of 2021 have not risen significantly during this supposed "pandemic". From hawaii.gov Vital Statistics The total deaths on Oahu for 2018, 2019, 2020 and the first six months of 2021 are as follows:  
2018 - 8,161 total deaths  
2019 - 8,161 total deaths (yes the same as 2018)  
2020 - 8,492 total deaths  
2021 - 4,138 total deaths for first six months of 2021

### Written Testimony

From hawaii.gov Vital Statistics The total death rates for the entire State of Hawaii for 2018, 2019, 2020 and the first six months of 2021 are as follows:  
2018 - total deaths 11,556  
2019 - total deaths 11,744  
2020 - total deaths 12,089  
2021 - total deaths 5,940 for first six months of 2021  
These statistics alone show there is no Pandemic!

The CDC says the Covid-19 vaccine does not prevent getting Covid or of spreading Covid. Requiring a passport for a vaccine that by the CDC's own admission does not work makes absolutely no sense. In addition requiring a vaccine passport for anyone to fully participate in a free society is the worse kind of discrimination. You would be dividing our community into two groups. It is as though you want to tattoo our community as vaccinated and unvaccinated. This kind of discrimination is what Martin Luther King. Mahatma Gandhi, and

Nelson Mandela fought their entire lives against. A law of this magnitude will go down as one of the most egregious crimes against humanity in Hawaii's and the United States history.

Written  
Testimony

Aloha I am here to oppose the mandatory covid vaccinations. I have lived in Hawaii my whole life and have always cared for my island and my people including children, elderly, foreigners and locals alike as well as our beaches and our mountains and forests. I am healthy and Practice safe principles everyday including masking and social distancing myself along with not putting bad things into my body such as alcohol, tobacco, drugs or medications in my body to help prevent the spread of this virus both at work and in my everyday life. I go to work, go home, go to the store, go home, go to the beach, go home, take my kid to school , go home, all while practicing safe principles and have been doing this since the start of this pandemic. I work for hawaiian airlines and have been exposed to passengers who have snuck through the system and there are many that get by yet we keep bringing in load after load and then the locals and unvaccinated get blamed when vaccinated passengers can also transmit and catch this virus. Lockdowns and mandatory vaccinations are not the answer. This government is turning the people on each other, family, friends, neighbors and strangers alike at near war. We deserve better than this and this will create nothing but hate amongst everyone especially when many of us lose our jobs because we refuse to get the vaccine. You are gonna put thousands of people who've been working for some of their jobs a very long time including many first responders which I also was for many years an ocean safety lifeguard and have rescued way more people than the total death count of Covid 19 here in Hawaii. We need real solutions not communist style regime tactics like Adolf Hitler. This is exactly in my and many citizens opinions what has happened in previous regimes in Germany, communist China, North Korea, etc. these are movements against the people that were also practiced by revolutionaries including Adolf Hitler, Stalin, Che'Guevara, Mao Zedung, Kim Jeong Un, just to name a couple in which these early revolutionaries turned dictators punished their people by enforcing radical rules and forcing the people to do things they believed were best for them and to keep them in line. Punishing myself is also punishing my child and if I lose my job you will be putting us out on the street homeless along with

many other families, as the previous leaders have done such a horrible job in keeping the cost of living down many of us live paycheck to paycheck and one missed check can make us homeless. Our people deserve better and if this virus is as bad as it is why haven't the people of Hawaii's ideas been included as we are being affected too. This is my idea please take it for what it's worth: Take the gestation period of 1) Covid 19 multiply it by 2 and then create a stay away order to our islands from visitors for that many days sending anyone and everyone who doesn't live here home (except sick people who we must treat first) to wherever they came from no questions asked working with the airlines to allow the people to rebook tickets to another date when we can safely open. 2) Locate any and all patients by testing anyone with symptoms and assist them if needed in isolation (using hotels as emergency shelter in place areas) By the end of a one month period most of not all cases should be able to be tracked and treated. 3) keep all businesses open continue to use social distancing and masking protocols statewide- this will keep businesses making money and our people able to eat out and order in and no businesses need to go out of business as we kept many of these businesses alive even during the pandemic 4) Allow for Inter-island travel For our residents during this 30 day stay away order So working commuters can still do their jobs and people who live here and are Covid free can take a much needed vacation to another island and keep our hotels in business. 5) After the 30 day stay away order, work with our hotels and transportation companies to bring people from the mainland "Directly" from hotels on the mainland or other countries after quarantining at that hotel for 3 days Straight to the airport on clean transportation vans and then escort them to the gates and directly board them after checking temperatures etc., bring them straight to the affiliate hotels we have working here and have them isolate another 3 days just to be sure they aren't experiencing symptoms, give them a quick swab test to verify they are Covid free and then give them a scannable QR code wristband with all their info including what hotels they are and were at, what flight they took, what stores they visit, can all be scanned for contact tracing. If they cannot provide a HAWAII State ID then they will need this band with the QR code to purchase Anything. These visitors once quarantined on the island and tested negative can travel unrestricted among any island which will keep tourism strong and the traffic will be lighter and these tourists will be able to see more sights, and visit more shops and spend more money cause our islands won't be so crowded-quality over quantity 6) Before leaving us it would be our responsibility to make sure they are Covid free so they would need to quarantine for 3 days before returning home or take and pass a Covid test At their cost, so we can be assured we are not sending sick people back to wherever they came from. While this is just my general idea and don't wanna drag this out any longer than I already did, and this idea can be fine tuned, our people deserve more than mandatory lockdowns and mandatory vaccines we need real ideas and real solutions not communist regime tactics. Let's bring some HA back to the AIOHA state.

Written  
Testimony

I oppose a Covid vaccine mandate. I believe in choice. I will choose what goes into my body. 1/2 my family has had Covid including my 83 year old mother in-law with symptoms less than normal flus and now they all have better antibodies than the Covid vaccine could ever give and the yearly booster shots each year after ... I don't understand why doctors don't teach good health and keeping immune systems high instead of all the vaccines. People should have the right to choose. I want to keep my right to choose. Mahalo. ### Written Testimony

I am in complete opposition of Resolution 21-194 because of two reasons, the first is Resolution 21-194 states the digital health card would be "For establishments with a higher risk of spreading COVID-19, such as restaurants, bars, gyms, clubs, and indoor events". Resolution 21-194 will restrict these places mentioned to only card holders, non-card holders will need to go elsewhere for food, exercise, and recreation. This in turn will create more "establishments with a higher risk of spreading COVID-19" that will be restricted to only card holders. This will go on until there is no where non-card holder can go for basic human needs such as food, exercise, and recreation.

The second reason is, Resolution 21-194 is a bullying tactic to coerce the good people of Hawaii to take a vaccine that neither prevents anyone from catching or spreading the COVID-19 virus. Resolution 21-194 itself states "the first death of a fully vaccinated person in Hawai'i was reported on July 12, 2021". This statement alone should prompt anyone to ask, "What good is a vaccine that will not protect me from catching, spreading, or dying from COVID-19?"

### Written Testimony

The bottom line is a vaccine mandate would be a massive government overreach on our fundamental freedom of choice. There is simply not enough proof to justify subjecting perfectly healthy people to a pharmaceutical jab that we cannot even call a “vaccine” as it does not prevent contraction OR transmission of the virus. Time will tell the impact for both vaccinated and unvaccinated people, and it is their choice! If the statistics are accurate, more than 60% of Hawaii residents have opted to take the shot. The balance of the population are principally putting themselves at risk and run the possibility of developing natural immunity which is considerably more effective than any vaccine. Furthermore the survival rate of this virus is over 95% and we will coexist with this virus—like mankind has done for centuries. I vehemently oppose any vaccine mandate or passport and will make sure to align my votes only with elected officials who also stand for this freedom of choice.

Written  
Testimony I oppose vaccination passports as this encourages a greater divide in the Aloha State. Community and Unity should be what is encouraged in these hard times. This resolution would hurt many businesses especially small and local businesses. This resolution for vaccine passports is going to hurt the hard working citizens of this state. Vaccine passports will not help with Hawaii's economy recovery instead it'll stifle it. We should be all helping and uplifting each other. This passport will again show that Hawaii's elected leaders do not place their constituents over tourism, the visitors to the islands. Also, in many studies coming out recently and reiterated by Dr Libby Char of DOH and Dr Rochelle Walensky of CDC that vaccine effectiveness is decreasing and vaccinated individuals are able to catch and spread SARS Covid-19.

### Written Testimony

This is absolutely absurd. Forcing people to provide proof of vaccination and limiting employment based on vaccination status is tyranny. If the state wants to identify people for the purpose of access restriction, why don't they just force unvaccinated individuals to wear yellow stars on their clothing, that way it's at least transparent that the government is acting no better than the Germans during the 1940s.

This mandate is discriminatory and unconstitutional. Allowing it to pass will be a devastation to our human rights and will only pave the way for further abuse of power. I can only imagine the world our keiki will live in if government continues to trample on civil liberties. Furthermore, permitting only vaccinated citizens into establishments will NOT reduce covid infections as the vaccines currently available DO NOT stop infection or transmission of the virus. I urge you to protect the future our keiki will inherit. They must be granted the same freedoms we all grew up with, otherwise tyranny and oppression will be ubiquitous. We should be encouraging healthy lifestyles to prevent covid hospitalizations and deaths, not pushing fear and control as it will only increase stress which will lead to greater illness.

### Written Testimony

I am submitting this testimony in strong opposition to the proposed vaccine passports. When this pandemic first began, there was a lot of uncertainty and fear. I was afraid that myself or a loved one might contract it and possibly die. As is the case with many Hawaii residents, I live in a multi-generational household. I am the youngest in the household and while I was concerned for my own health and safety, I was even more concerned about the health and safety of the elders in my household. I was totally onboard with “2 weeks to bend the curve” and I think the majority of Hawaii residents were, too. Given how little was known about Covid then, it seemed like a reasonable thing to do. However, as time went on, the only thing that happened was an increase in mandates and a decrease in personal freedoms. And let’s not fail to point out that it has become clear that the only people whose freedoms don’t matter are locals. Maui Mayor Victorino recently asked residents to voluntarily refrain from non-essential activities yet thousands of visitors are flowing through the gates of OGG airport every day. I guess in his eyes, locals only do their part to stop the spread of Covid by going to work every day and catering to the thousands of tourists who are spending top dollar to treat the islands like their own Disneyland. Yes, he did ask that visitors also voluntarily refrain from leaving their hotels but you tell me whether you would dole out thousands of dollars on a Hawaiian vacation just to see the inside of your hotel room? That is just the most recent of many examples I could give but my point is, here we are, a year and a half later, facing an increasing number of even harsher restrictions than were issued at the very beginning of Covid, despite the statistics from the last year and a half showing that 98% of individuals who contracted Covid survived. Time and time again, government officials have overextended their power under the guise of “protecting public health and safety” but the residents of Hawaii have had enough! Your policies are not enhancing the health and safety of the public. You are simply trying to control our lives. You are now proposing vaccine passports as a way to stop the spread of Covid but I have yet to hear any one of you politicians explain exactly how passports will accomplish this. A year and a half of social distancing and mask wearing, a complete

shutdown of tourism for months, and the rollout of vaccines to over 55% of everyone ages 12 and older in Hawaii did NOT stop Covid. But you politicians think showing a piece of paper stating you've been vaccinated at every restaurant, grocery store, gym, and recreational attraction will stop Covid? How dumb do you think the residents of Hawaii are? And what will be the next power grab you try to impose on us when this vaccine passport does not stop the spread of Covid? The tyranny ends now!!

### Written Testimony

Implementing the vaccine passports is not with the best interest of Hawaii people and our safety. It is discriminatory and unconstitutional. It's burdening the unvaccinated population with added stress and anxiety as if this pandemic itself and multiple months of struggling to pay rent and put food on the table for their families due to being furloughed from Covid-19 isn't already a burden enough for them. On top of being without a job, many of them haven't even gotten paid their share of unemployment money yet. Many unvaccinated people are acting and working just as safe as a vaccinated person by following all of the previous guidelines such as wearing masks, proper hand sanitization, social distancing, etc. So why should they be treated any differently when many vaccinated people are acting recklessly gathering to large parties without masks and they can still catch and spread Covid by doing so? Dividing the people into categories and taking away privileges and accessibility from one group of people just because "science" and "doctors" tell you to do so, does NOT make this the right thing to do. This mandate proposed already has and will continue to divide this state and be a huge burden on the already-hurting community of our island. There are other solutions to alleviating the hospital capacities and this is not the only "solution". Please look at alternative solutions rather than simply stripping unvaccinated persons of their rights and accessibilities. Please consider to not implement this vaccine safe pass mandate for the many people of Hawaii opposing it in mind. Thank you for your time in reading my testimony which was written from the bottom of my hurting heart.

### Written Testimony

I strongly oppose any sort of “pass” that discriminates against age race gender health or vaccination status.

If people are scared of a virus with a 99.9% recovery rate, then they should stay home, ask for work from home options and online shopping etc. The rest of us (the majority who are NOT scared of a virus with a 99.9% recovery rate) should be free to live as we please- mask or no mask, vax or no vax. We do not want to be forced into doing things with our body that are uncomfortable or harmful, or that go against personal health goals or beliefs. If the government is scared of “overflowing hospitals”, then they should focus on encouraging a healthier lifestyle, and not fire health professionals for refusing the shot. And if they are still scared they should spend money on building extra hospital beds instead of wasting money on ridiculous nonsense measures such as caution-taping public park pavilions.

### Written Testimony

No matter how many doctors and healthcare professionals say that covid CAN be spread and caught by the vaccinated as well, the unvaccinated are blamed for everything. My family has been extremely cautious, we wear our masks, we don't go out at all (groceries have been via delivery and curbside), we sanitize everything, we haven't had a get together since 2/2020 (and it's very sad as we haven't even seen my husband's family). We have done our part, to blame us and punish us for being "selfish" is just horrible as we've gone above and beyond to keep ourselves and others safe. Friends and family know how cautious we are wonder why we aren't covid vaccinated, but it's because we ARE so cautious and are careful of what we put in our bodies. We are not hypocrites that eat horrible then refuse to put a vaccine in us. We don't eat fast food, we eat organic, we try to prepare all our meals ourselves. We are not anti-vax, but we are not comfortable with this vaccine. This passport probably won't affect us much as we don't go out, but it's still a slap in our face. We do have a toddler and when cases go down we do like to take her to open air places like the zoo and the community pool (during non peak non crowded times), but now we won't even be able to take her there. We strongly oppose this mandate.

### Written Testimony

I am opposed to all mandatory vaccination, vaccine passports; be it paper or digital, absolutely opposed to the restriction of individuals to access businesses/establishments/venues or public places of any kind. I am opposed to the segregation and discrimination of vaccinated vs unvaccinated persons. Vaccines are a personal health choice and should never be forced upon the people. This is an infringement on the rights of the American people and an enormous step in the direction of Communism! This will destroy the business and economy of Hawaii and severely damage the beautiful people of these islands. The people have a right to keep their medical history and medical choices private. Do not pass the vaccine/vaccine passport mandate.

Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

### Written Testimony

I have no confidence in our government imposing vaccine passports due to the lack of information provided to the public of the long term or probable effects of being vaccinated/injected with experimental/rushed concoctions. Imposing a mandatory injection to be free to enjoy simple freedoms is unconstitutional and impedes on my religious freedom to believe in my God. My question to leaders in government who are considering this mandate is, If the scientists and doctors who oppose to this vaccine because of the adverse effects are right, are you willing to accept the consequences? Are you willing to give up everything you own and your future? Show us your confidence. Don't just tell us to take a shot. Tell us if we get sick after we take it, tell us you'll cover us, what's so hard??!

I oppose the Governor, Lt. Governor and Mayor to have control of our freedom of choice!

This is tyranny.

Why is the unvaccinated being punished and segregated from vaccinated people when vaccinated people are also highly contagious and can spread the virus per CDC and our Department of Health Director also said it herself at the news conference. The vaccine does not stop transmission which is the problem! The media continues to ONLY show the positive results, deaths and the percentages of unvaccinated vs. the vaccinated. The media nor the Governors and Mayor will not show the public the recoveries of the unvaccinated and vaccinated. WHY? We deserve to know exactly what is going on with COVID related cases, don't you think? Is this a tactic to scare the people of Hawaii and convince us to believing the only way the COVID will disappear is by getting vaccinated? That is the wrong answer.

Written  
Testimony

Businesses and establishments also have no CHOICE to determine their own policy of who they welcome into their establishment which is completely wrong. You continue to say you are not for a "Lockdown" yet you are putting businesses at risk of losing financial income to support their business by mandating vaccinations for employees and patrons! This is WORSE then a SHUTDOWN Major Blangadri and Governor Ige!

This is clearly segregation and the government is falsely using the Emergency Proclamation as an excuse to have control of peoples choices!

Lt. Governor Green received funds from Pfizer dating back years and is aligned with this company and now in a "pandemic" he is pushing for this particular vaccine like no other. This type of government overreach is setting dangerous precedence to in oppressive type government. It is our body and our choice.

Why should government workers who stand frontline through hard times be mandated to get vaccinated when they are the very ones who decided this would be their career to protect the public and knowingly know they may not come home to their families because of their line of work that they do. Instead they are being insubordinate because of self choice when they are the ones who put their lives on the line for all of us including protecting the Governor, Lt. Governor, and Mayor families. It appears that a workers work ethic, performance and professionalism is no longer important to hold a job, it's either your vaccinated or fired.

My vaccine status should not dictate what I can and cannot do!

What if you Lt. Governor Green and Mayor Blangardi did not have a choice to decide for yourself because the government mandated you to do it or you would lose your high paying position because of your choice not to do it? How would you feel? You just lost your entire career because of a personal choice that had nothing to do with your performance, or professionalism but just because you chose not to. You no longer can provide for your families and all the dedication you had given to be in your career today was thrown away because of SELF CHOICE. Do you all ever put your shoes in others? You are supposed to be for the people, yet your against and creating segregation.

You also say listen to your physicians and theres science behind the facts. Well there is doctors all over the world who say vaccination is not the only cure and there is ALTERNATIVES if you don't want to get vaccinated. Why are you not offering alternatives? Now who do the people believe if there's doctors who say otherwise? This does not make sense and is not the American way.

Written  
Testimony

I, Lianne Blas \_\_\_\_\_ STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Written Testimony I STRONGLY OPPOSE THIS ILLEGAL PROPOSAL. IT IS A GOVERNMENTAL COERCION TO FORCE AN EXPERIMENTAL VACCINE ON THE PUBLIC WHICH HAS PROVED TO BE INEFFECTIVE IN BOTH IN IT'S INABILITY TO PREVENT INFECTION AND SPREAD OF THE VIRUS BOTH ON THE ORIGINAL VACCINE AND ALL VARIANTS. IT CLEARLY VIOLATES CIVIL RIGHTS AND CONSTITUTIONAL RIGHTS OF THE PUBLIC. ALSO IT VIOLATES FREE TRADE AND BUSINESS ON BOTH THE PRIVATE AND COMMERCIAL SECTORS. IN ENFORCING SUCH ILLEGAL MANDATES BY THE ACTING GOVERNMENT ENITY, THIS ENSURES THE RESPONSE OF LAW SUITS AND FILING CRIMINAL ACTION PROCEDURES AGAINST SUCH GOVERNMENTAL REPRESENTATIVES VIOLATING THESE CIVIL RIGHTS OF THE PUBLIC UNDER THE FALSE ASSUMPTION OF AN UNFOUNDED THREAT.

Written  
Testimony

This totally unconstitutional bill does not accomplish anything, because fully vaccinated people are catching covid anyway, and being hospitalized, even dying. These fully vaccinated people are contagious, after catching covid, even though they are fully vaccinated. What point is it in placing this type of ridiculous restriction on our community? The fully vaccinated people in the restaurants, and other public venues, will still spread covid to each other!!!

### Written Testimony

I oppose vaccine passport. This is discrimination against people who make the choice for their own health to not get the COVID-19 vaccine. Based on research past and current there are many reasons why your natural immune system that God blessed us with is a much better protectant than an experimental drug. People have medical and religious reasons to not want to be injected with an unknown substance. This is wrong to require this and also a giant HIPPA violation. We should all be respectful of each other and respect people's medical privacy as well. In addition we need informed consent as to what was used in the making/production/testing/manufacturing of these "vaccines" and transparency on their actual function - gene therapy not vaccination. This is wrong to mandate people to get injected and even more wrong to mandate people to show proof of such an abomination. I oppose vaccine passport.

Written  
Testimony

As an American patriot and believer in Jesus Christ as the living Son of God, I cannot with good conscience support this resolution. It is my duty as an American to participate in opposing this resolution on the firm grounds of personal freedoms not to be infringed or limited by state or county government. We all have the right to follow the higher laws of truth and faith. My faith is in the Lord Jesus, and He is my protection from all things seen and unseen. To require proof of vaccination for entrance into essential businesses would directly discriminate, segregate, and persecute those who will not get the vaccination. Greater than the threat of this disease is the threat of our government mandating that, we the people be restricted from natural and basic freedoms; such as the choice to medicine and health, the participation in commerce and amenities, and the God-given right to reason and abide in Faith. It is your duty to protect the American people's choice and to furthermore amplify their concerns through proper representation. I urge that we safeguard those citizens who in their full standing will not take the Covid-19 vaccine. I believe in freedom, and would rather live with the danger of too much liberty than too little.

Representing Self  
Organization

Written  
Testimony

WHEREAS, The CDC has acknowledged those who are vaccinated can get and spread covid.  
WHEREAS, Rates of infection and hospitalization among the vaccinated continue to grow in Hawaii and the rest of the US.

WHEREAS, the rate of covid spread in Hawaii increased with the rate of tourism, is most prevalent in the higher vaccinated cities where tourists frequent and we are not testing vaccinated tourists who arrive to the island.

WHEREAS, Covid infection represents a small risk to a majority of the population and recovered persons are 20 or more times less likely to get covid again and spread it compared to vaccinated. See Israel studies.

WHEREAS, a one size fits all strategy does not make sense, the young have the least risk from covid and the highest potential risk from the vaccine.

WHEREAS, Israel one of the first to widely vaccinate and the one of the highest vaccination rates now has the highest per capita rate of infection and the largest spike of covid infections in the countries history, deaths increasing in proportion.

BE IT RESOLVED that we need to look at the science and the statistics, herd immunity is not possible with vaccines per the CDC and it appears the vaccines are not effective with Delta and losing effectiveness weekly. Little is known about the long term effects of the vaccine and the potential side effects, of which we already know there are many more than traditional vaccines with well over ten thousand deaths in the CDC database. If the vaccine does not do what it was claimed to do and the side effects continue to grow then mass vaccination and government policies to encourage this by restricting freedoms will be in error, people will be held accountable.

BE IT FURTHER RESOLVED that we must be careful, especially political leaders who are not scientists, do not understand vaccines or virology. ignorance is no excuse to make such

sweeping assaults on our god given liberties. Where the vaccine by itself can injure or cause death, it is an individuals choice if they should take it, in consult with their doctor, not by political decree. Be careful what you support and the responsibility that will be on you in public record.

### Written Testimony

- 1) This mandate is unconstitutional as it violates an individual's right to his/her own body.
- 2) This type of system in any government never turned out well. Look at the North Korean government.
- 3) This mandate will be detrimental to Hawaii residents as it will inevitably increase unemployment, which I thought the state was trying to lessen. This mandate is the last thing Hawaii residents need. There is NO aloha in saying "show me proof of your vaccination status and/or negative test OR ELSE be denied the right to enter/continue working." Aloha means allowing the residents of Hawaii to continue working in FREEdom, not fear. We will never be free of sickness no matter the time and place we live in. Let's STOP the mandates NOW.
- 4) If you're goal is to get the state 100% vaccinated, it will never happen. Realistically, it's going to take a war before you reach 100% vaccination. Hawaii will simply cease to exist if you continue on in this direction of force and mandates.

### Written Testimony

I and many others are strongly opposed to vaccine passports! For one thing it is completely wrong to force anyone to get any vaccine especially one that is so new and lost efficiency against the Delta. This will also hurt are economy and definitely be devastating to small businesses and long time mom and pop stores as more people will be purchasing online ect. It also will make it difficult for single parents of children who cannot be vaccinated yet or children and adults who cannot get the vaccine for medical reasons. It does not exempt those who have already gotten COVID and fought it off just fine and built up immunity. Covid still remains to be a very low percentage of death and we really have no reason for a forced vaccine program. Those that are worried can get the vaccine and take necessary precautions. Hawaii is overrun with tourists who have run of the place while you punish the locals, It's not right! What happened to Hawaii strong! Now you punish the very front line workers who worked through the pandemic with no vaccine! You will lose teachers our children will suffer. You will lose life guards, firefighters, police officers and many more. It will do the state more harm then good.

Meeting Date 12-08-2002  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I oppose RESOLUTION 21-194 because

1. As stated by CDC, all healthcare workers, and all health organizations, the vaccine DOES NOT prevent BOTH the SPREAD of Covid and DOES NOT prevent a vaccinated person from CATCHING Covid; Therefore there is no purpose or benefit of Mandating Vaccinations If the point or mandatory vaccinations is to "Stop the Spread" So the vaccinated can catch and spread JUST LIKE an unvaccinated person. Making Vaccines mandatory does absolutely nothing to stop or help in anyway with the spread of Covid because the only benefit of COVID Vaccines is the PERSONAL/INDIVIDUAL benefit, the vaccine only help THAT individuals immune system, that when they catch Covid "They are less likely to have worsened symptoms." Which is proven to not even do that.

Written  
Testimony

2. Hawaii should be focusing on alternative preventative measures. Why is it that the unvaccinated have to test but the vaccinated don't, when the point of testing is to find out who has Covid? And if yes the point of testing is to find out who has COVID the the vaccinated people should have mandatory testing as well since like I said they can still catch and spread Covid. Testing should be mandatory for the vaccinated as well.

3. As American citizens, we should have the right and freedom to make any and all health decisions in regards to our own individual health and safety. It is unconstitutional and unethical to not even suggest but to also MANDATE medical decisions upon us as individuals. On top of not being able to make our own health decisions infringes our privacy.

Again, I strongly oppose this resolution due to the reasons stated above.

Written Testimony I am stunned that Waters wants to force people to get vaxed and turn neighbors against each other by demanding business compliance. He will never get my support again. He and the Mayor are deep disappointments. To say their condescending attitude is counterproductive is an understatement. They only foster more distrust of any and all government agencies.

### Written Testimony

I strongly oppose any sort of “pass” that discriminates against age race gender health or vaccination status.

If people are scared of a virus with a 99.9% recovery rate, then they should stay home, ask for work from home options and online shopping etc. The rest of us (the majority who are NOT scared of a virus with a 99.9% recovery rate) should be free to live as we please- mask or no mask, vax or no vax. We do not want to be forced into doing things with our body that are uncomfortable or harmful, or that go against personal health goals or beliefs. If the government is scared of “overflowing hospitals”, then they should focus on encouraging a healthier lifestyle, and not fire health professionals for refusing the shot. And if they are still scared they should spend money on building extra hospital beds instead of wasting money on ridiculous nonsense measures such as caution-taping public park pavilions.

### Written Testimony

I am thankful for this opportunity to practice my freedom of speech; to be able to say that I am against this Bill/ resolution that is being put in effective 9/13. This is discrimination against the unvaccinated and business that want to serve and cater to all people regardless of their religions beliefs, ethnicity or their medical stance on vaccines. If business were to deny service to HIV positive patients or others with medical condition as they force them to disclose their medical history wouldn't this be considered unethical and violation of HIPA?

How is it that our state is coming to this? It is so sad to see how quickly vaccination mandates are being forced upon our community. I firmly believe in the freedom of choice and believe that that is the foundation that our country was built upon. Not to mention the mandate to serve vaccinated individuals to decrease the spread of Covid scientifically this does not make sense. The vaccinated can still transmit the virus yet only the unvaccinated are punished and taken away our civil rights. This will crush small businesses in Hawaii and also become a pathway to all other mandates and regulations to become normalized. Please stop this and hear the voices of the residents of Hawaii!!!!

I oppose vaccine passports! The constitution does NOT allow for the government to tell citizens what they can or can not put in their bodies. It's my body, it's MY CHOICE. That is freedom. These mandates and emergency rules have long surpassed their justification for public safety and have instead become so politicized that we the citizens do not trust that the government has our best interests in mind.

How about actually considering alternative treatments to help with the hospitalization overwhelm? Monoclonal antibody treatment centers are being used in Florida. Why not try it here? There were other treatments that came out last year but again were politicized and rejected, perhaps too quickly, perhaps not. How about we do some actual research of our own to see what else can help the Covid situation because lockdowns evidently are not the solution!!! We can not keep doing this. Not to the entire population (like last year), and most certainly not to a segregated part of the population, which is exactly what vaccine passports do.

Written  
Testimony

Stand up for freedom. Let the buck stop with you. Stop allowing medical options to be politicized. Fight for your constituents to make their own personal choice for their own and their children's health.

Stop propagating the proven false narrative that the unvaccinated are the only ones carrying and sharing the virus and it's variants.

Stop propagating the obvious fallacy that we can get control of this or stay ahead of it. We are only human. We do not have the capacity to harness and control a virus, only mitigate. Segregating the population is not going to help any part of this problem, but it will create a thousand more.

Written Testimony Vaccine passports will be ineffective due to the issue of not being able to stop the spread of a virus. It will also create an issue and a divide between citizens of Hawaii and the government, due to the focus being on segregation than community. The domino effect will create an issue with not only the community, but the tourism industry.

### Written Testimony

I am strongly opposed to this bill. What happened to our freedom and right to choose what we want into our bodies. You cannot force us. Further more you need to worry and care more about the people of Hawaii (LOCALS) instead of catering to the tourists money and their every need. This is our home, our island. Have a damn heart and wake the hell up. You guys should be ashamed of yourselves. You wouldn't want someone to force you with anything in general why would you ever think it would be ok to force another human. It's an embarrassment to know that our island is runned by crooks like you all. Do better because in the end Heavenly Father sees/hears all that you do. And karma will definitely catch up to you.

### Written Testimony

I strongly oppose this bill. This bill will violate civil rights laws protecting someone from discrimination especially the 14th Amendment. The 14th Amendment to the US Constitution states: "No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

This law violates my right to liberty, abridged my privileges as a citizen, and deprives me of my right to due process of law, and denies the people who do not want the vaccine equal protection of the laws.

This bill egregiously violates the basic fundamental rights guaranteed by the highest law in our land. If the City of Honolulu proceeds to pass this bill, YOU will be acting in direct opposition to the vows you have taken to uphold the Constitution of the United States. This is unconscionable and you should be brought up on charges if you pass this bill

### Written Testimony

Whether you are vaccinated or not anyone can contract give and spread covid. The only thing the vaccine can possibly do is to hopefully make contracting covid an easier experience for one's self. It's not to protect your loved ones, friends, business colleagues, your kids or neighbors. Being vaccinated is dangerous because of a false sense of security. You could still contract covid and walk around the malls, restaurants, churches and family parties and infect people with the virus. The unvaccinated people could be hospitalized or die because of someone's misunderstanding of what the purpose of the vaccine is. I had covid. My whole family did. We all went into quarantine for 14 days. Everyone else was Asymptotic but on day 13 my body shut down. I was hospitalized, put into a coma, had a tracheotomy done, intubated was put on a ventilator and when I finally woke up I had lost sensation in my feet. I was in the hospital for 3 months and a year later I'm still recovering. I can't take the shot because my lungs can't handle it the doctors say. My father took the vaccine because he was old school and believed you do as the doctor says. He died from the vaccine. My son has an underlying condition and while his doctor has assured me that "according to the CDC he will be ok to get the vaccine" his doctor also reluctantly admitted that as his physician she just doesn't know for certain what will happen because of his underlying condition there just isn't enough data. And that is the problem. Nothing is for sure because there isn't enough data those of us who survived covid ARE the data. There are some who believe in the vaccine, there are those that don't. Then, there are those who can't or shouldn't. BUT we ALL can be responsible, we ALL can wear a mask, social distance and sanitize. When the island closed down and we ALL did our due diligence the numbers went down. When we stopped and divided the community into segregated groups of vaccinated and unvaccinated the numbers went up. It's basic common sense, it's not one groups fault or problem it's OUR problem as a WHOLE.

**Council/PH Committee** Transportation, Sustainability and Health  
**Agenda Item** Resolution 21-194  
**Your position on the matter** Oppose  
**Representing Organization** Self

**Written Testimony** I oppose the proposed resolution for vaccine passports. I believe this will only serve to hurt our local businesses who are still in recovery mode. As a health care worker, I see both vaccinated and unvaccinated individuals getting COVID-19. Therefore, preventing unvaccinated individuals from entering these businesses will not stop the spread of the virus. It is unfair to discriminate against those who are unvaccinated.

### Written Testimony

I oppose this resolution. It would be a tragedy to mandate vaccines ...it essentially strips away individual's freedom/rights to make personal decisions that affect personal property...namely one's body and overall health. There are better alternatives to handling the covid situation. Please do not pass this resolution.

Mahalo,  
Lisa Shorba

### Written Testimony

I believe this is wrong. I believe in freedom. I believe in my body my choice. It is unjust to push these vaccinations on people who have legitimate concerns with long term effects. I also question why people with natural immunity should be pushed to take the covid vaccine as well. I also have concerns for people with legitimate health problems who may not be able to take the vaccine without higher risks. I do not believe in segregating and discriminating people in these ways. I oppose resolution 21-194 and I will not support this agenda.

### Written Testimony

Dear Honolulu City Council. I am **STRONGLY OPPOSED** to Resolution 21-194, The City and State Administration of Hawaii request to develop, implement, and "mandate by Executive Order if necessary" a digital vaccine passport program for public or private industry to restrict access to employment, businesses, establishments, other venues and places of public accommodation. Vaccine Passport information is stored in a central database and the managers of the data can track people's location, finances, communications, and private health information. It is not a secure platform. It will be used silent people and restrict your movement. It violates the Americans with Disabilities Act, as well as the 1st and 4th Amendments of the Bill of Rights. In summary, it violates our civil liberties under the Bill of Rights and U.S. Constitution. Thank you for the opportunity to testify. Respectfully, Chelsey Rillon
