Adamantly oppose this bill. How incredibly unethical to coerce and force people to relinquish the right to body autonomy by stripping them of basic privileges unless they comply. Those supporting this bill should be ashamed of themselves. I hope they look back in several years and realize they were on the wrong side of history. I hope they carry that burden forever. Shame.

We've been having viruses for hundreds of years there was never a lockdown or vaccine mandated or passports. There are many therapeutics out there. We need to protect the vulnerable.

Written Testimony As Americans we should have the choice whether to get vaccinated. Vaccine passports are a bad idea. When will it stop? The tracking of us all doesn't seem right. Please prevent the mess this would create
Thank you for your time

Written Testimony

I am strongly opposed to this bill. There are people who are advised by their doctors to not get this vaccine for a variety of legitimate reasons. These people would be discriminated against.

There are effective early treatment options that can help take the strain off of the hospitals. Order pharmacies to allow prescriptions to be filled. Go to [Http://ivmmeta.com](http://ivmmeta.com) to view a meta analysis of 63 studies of ivermectin for covid-19. It is a water pill of it doesn't work and can save people trips to the hospital if it does. Ivermectin and can help bridge the gap between vaccinations and boosters and those who can not get the vaccine or are waiting for clinical trials to be complete. Without having to close down the state to a quarter of the population.

Not allowing unvaccinated individuals into businesses will negatively impact their livelihoods by limiting the amount of customers that are allowed to enter their establishments. And most importantly, government should have absolutely zero say in what is injected into someone's body. Especially with death as a possible side effect. With mandates, there will be unrest.

Agenda Item RESOLUTION 21-194 – COVID-19 HEALTH CARD
Your position on the matter Oppose
Representing Self
Organization

Aloha, as a first responder I understand the safety of the public better than anyone. I do also know that every person is an individual and has a different level of health. I do know some are in much need of this vaccination and I know others that have 99.8% chance of survival even if they catch Covid as the CDC has stated. Regardless of the situation people deserve choice of medical freedoms.

Written Testimony This will not stop spread of any virus and will lead to the biggest civil rights abuse in history.

I'm sure the council is aware of history and should be acutely aware of how they will be looked upon as history unfolds.

The bill of rights is not something that should be dismantled due to an illness nor should the constitution which as councilmen and council women you have a oath to uphold.

Written
Testimony

I oppose this bill. This vaccine has been proven over and over to not be effective in contracting, carrying or spreading this disease. If anything in my opinion it is more dangerous because being vaccinated you are less likely to know if you are infected and more likely to spread it. This bill is divisive and will destroy our state as we know it. Keep in mind as of 9/1/2021 there is an overall survival rate of 99.1% in the state. That's based on the REPORTED positive cases. The survival rate is likely much higher than that.

Written Testimony I oppose the vaccine mandate for entering business or employment. What happened to medical freedom? Anyone should have the right to choose what they feel is in the best interest of themselves. You already have a homeless issue in this state and it will only get worse if you keep people from working if they do not feel comfortable with this shot. The government doesn't have the right to decide what is best for my family and my body.

Written Testimony

I'm not sure exactly where to start because there are so many reasons I oppose this resolution. Today, my husband came home from work and said to me "I feel like a Jew living in Germany in the 1940's at work anymore. Everyone treats the unvaccinated like we're beneath them." I almost cried because although he said it casually it felt like a gut punch. What world are we living in? How did we get to this point? The idea of a vaccine passport restricting people's every day lives and treating those who chose not to get this vaccine like they're some third class citizen, someone diseased, someone not deserving of the same accessibilities that others have is not just wrong it's outright disgusting. Those who have introduced and support this measure are palpable in the wrongdoing and I urge you to reconsider the ramifications of this action. I don't have all the answers but I do know that THIS isn't it. Get alternative solutions, create other options, give people choice, do not strong arm anyone into anything. This is the land of the free, but that is only because it is the home of the brave. Be brave, don't cower to this "new normal" because it is anything but. Aloha, Chelsea Genova

Written Testimony

I have received 2 letters from 2 physicians advising it is best for me to not get the covid vaccine. In an effort to meet the "standard" set by the governor, I have ordered home tests, set appointments at Walgreens & requested for my physician to order tests 3x/week. I have to enter fitness facilities for my children to participate in sports programs and will need a negative test to do so. The test needs to be within 48 hours. At this time, no facility or home test is able to provide rapid results. Home tests 7-10 days for results due to mailing times from Hawaii. Walgreens has advised it will take 5 days & my physicians office stated they can not order 3 tests per week.

As someone who is medically exempt from the vaccine, I currently can't find a way to meet the standard for testing in order to carry on with my life and be able to attend fitness and recreational areas for myself and my children:

No logic, no common sense! Natural immunity is best, yet those are still required to get the jab? Vaccines do not work against viruses. Neither do shutdowns. Only symptoms can be treated. The fact that therapeutics are being suppressed is a huge red flag. The hospital protocol is what is killing people. I'd rather believe that our elected officials are ignorant, than to believe they are complicit in eugenics. I regret voting for Blangiardi! Is the Big Pharma funding you?

I strongly appose to this bill! This is an infringement on the rights of the people. We have had many struggles through our country's history yet freedom still rings! This bill would take away the very freedoms our country was founded on.

The Pledge of Allegiance reads: "I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all."

Written
Testimony

Here it is defined:

This nation was founded with a commitment to secure liberty and justice for all. ... Justice is generally interpreted politically as "equal protection under the law" or the absence of discrimination by government in protecting "life, liberty, and property"—as described in the 14th Amendment to the U.S. Constitution.

With this bill liberty would be lost. One group would be free to travel, enter into shops and another denied. Today it is a vaccine passport. In the past it was a yellow star in Nazi Germany. Please appose this bill, holding to the freedoms and liberty which our country was founded on.

Thank you.

Mandates are a violation of rights. Even to ask is a violation of HIPA. Vaccines and shutdowns do not, have not worked. Therapeutics work. Listen to the positive testimonies of success, not the bureaucrats who have been shown to lie. My nephew caught covid from a vaccinated person, as have many others. If testing is required for unvaccinated , it MUST also be required of the vaccinated. A friend got a stroke in her left eye and is now blind in that eye. My son-in-law had a stroke after the vax. STOP with the case ticker! It is not valid. The PCR test is not valid!

Written Testimony

I, Alissa Tuumalo, strongly oppose vaccine mandates and vaccine passports. My medical decisions are my own to make. People should not have to seek validation of their beliefs or values from anyone to justify their reasons to make a medical decision that will affect their health and their future. Inforcing "vaccine verification" is in violation of my constitutional rights, medical freedom, and religious beliefs. Hawai'i officials are forcing the residents of Hawai'i to take the Covid-19 shot and if an individual does not comply then they must face repercussions such as forcing Covid test, or losing their jobs and freedoms to participate in society. These officials state, "We value freedom of choice" and "You have a choice". THIS IS NO CHOICE. This is cornering citizens to decide between their health or livelihood. This is clearly discrimination and unlawful.

Here below is a testimony that I 100% stand by and do not think I could have said it better.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution. Registered sex offenders are not required to carry a passport because it violates their privacy; vaccine passports are a violation of privacy.

Written Testimony

I am strongly opposed to the vaccine health passports. VEARS data shows that there are more deaths and injuries from the current available covid-19 vaccines compared to all injuries and deaths from all vaccines over the last 30 years combined. Pushing this will be blood on your hands. There are more flu deaths annually per season in adolescence than covid deaths and covid vaccine deaths. This is a step toward nazi type rule with healthy people not being able to attend normal life activities. Healthy people that have natural antibodies have scientifically been proven to have more protection from covid 19 then vaccinated people. This is a fact. There is no added benefit by vaccination for people with natural antibodies. This is a fact. There are adverse reactions to people that have natural antibodies but get vaccines. That is a fact. Vaccinated people can have NO symptoms but carry the VIRUS while having over 250 times more viral activity in their nasal cavity. This is a fact.

Please reconsider this vaccine passport as it is a devide in the population. I believe the push of this gene therapy type of vaccination is going to damage the reproductive chances for native Hawaiians to continue their gene pool. This is a sad truth to push on to the local community. We love our community and want to se it continue in a positive fashion.

With all aloha and respect please reconsider.

Written Testimony I strongly oppose the vaccine passport. As a pregnant teacher I am not willing to put my baby and my body at risk to be forced to get the vaccine that hasn't even had all of their conclusive studies done. If you implement this passport, my whole family will be affected. I won't be able to provide for my son if I can't go to the store. Please let people make the choice for themselves and don't mandate the vaccine passports. Businesses and families will suffer because of it.

I oppose RESOLUTION 21-194 due to the fact that we, as American citizens, should have the freedom to make any and all health decisions in regards to our own individual health and safety. It is unconstitutional and unethical to not even suggest but to MANDATE medical decisions upon us as individuals. On top of not being able to make our own health decisions it infringes on our privacy.

Written
Testimony

As a Christian and American, I cannot in good conscious take the vaccine. My consciousness and the Holy Spirit convicted me not to take it and I will not be disobedient to my God. Many in education, health care, public safety do not want to receive the vaccine. Whether it's medical, religious, or strong personal beliefs, it should not matter.

On top of that, stated by CDC, healthcare workers, and other health organizations, the vaccine does not prevent either the spread of Covid or catching Covid. Alternative treatments, preventative measures, and testing for all should all be the main focus if we are all capable of catching and spreading Covid. This invalidates the vaccine passport. If a vaccinated person is asymptomatic and does not need to be tested, they will silently spread the virus within restaurants, bars, gyms, etc.

Again, I am strongly oppose this resolution due to the reasons stated above.

I am against COVID mandates requiring vaccination, mask wearing, and shutting down of non-essential activities.

I love and care about our community. I know that some people are getting sick and a very small number of those people are dying. The COVID survival rate is extremely high, thank God.

The COVID vaccine is experimental even if the FDA has approved it. 344 dangerous, FDA approved drugs were recalled in 2020 alone! I have been given so many reason not to trust the pharmaceutical companies that are offering this vaccine at a massive profit for a disease that is completely treatable.

I home school my little boy so that he doesn't have to deal with the health repercussions of wearing a mask all day. Nobody is talking about how damaging this is on their lungs. Home schooling is a massive undertaking as I work full time. The lockdowns shut my bricks and mortar business down for good so now I only operate online. This slashed my families income in half. I watched multiple family members of mine, including children spiral into depression sitting home day after day, month after month not able to connect with loved ones or peers. Nobody can get in to see a counselor or psychologist because the demand is so high. And now I'm being told I may not be able to travel, have a job, grocery shop, or live in any normal way without agreeing to be injected with a shot that has killed 45,000 people and left many others injured. When did we start vaccinating for diseases that are curable? Ever since politicians started taking bribes from Big pharma to turn a blind eye. These pharmaceutical companies are making billions of dollars and enjoying complete impunity. They are gangsters and murderers and if they want to inject me it will be in my cold, dead arm.

You must hear the voices of the people. No mandates. Honor the people's choice.

Thank you for your time.

In June 2021 over 700,000 vaccinated tourists were welcomed into Hawaii, without any testing protocols in place to insure the safety of Hawaii's people. This resulted in a significant increase of covid-19 cases gravely endangering our community.

Unvaccinated people should not be punished and forced to pay for our Lawmakers mistakes, by being segregated and marked unworthily to join society, by being kept out of restaurants, gyms and public gathering places.

Written Testimony

This crisis is not over and it's not just half the population's problem. We are in it together and must fight it together, if we hope to ever see the end of this long, terrible nightmare.

CDC has clearly stated that vaccinated people can still catch, carry and transmit covid-19

Everyone should wear a mask indoors and in public spaces regardless of vaccination status.

No one should be treated differently and discriminated against for their personal health care choices.

To whom this may concern;

After reading res21-194, as an individual who lives in Hawaii, concern is what was left on my heart. The goal and main job description for our governor and mayor and council members, is to protect its people, not just a percentage; but ALL OF ITS CITIZENS. There is a large percentage on Hawaii that is NOT vaccinated for various reasons- health, religious beliefs, fear, doubt, the facts and scientific publications and evidence being shared about the vaccine(s), and more. Yet, RES21-194 seems to have an agenda- to make sure 95% of its population must be vaccinated to reach « herd immunity » when the percentage scientists had prior was 70%.

Written
Testimony

The Johns Hopkins University has published an article in vaccines and more specifically about COVID-19 mRNA vaccines are INEFFECTIVE in stopping transmission and have not been successful in those who have voluntarily been vaccinated from receiving the virus or a variant strain. It also states that the cause of these new strains are due to the fact people are taking a vaccine and not allowing for a natural immunization and creating new antibodies themselves. Why isn't this scientific data being used, shared, and understood. Why is the agenda of getting vaccinated forced upon the +15% who either are naturally immune or wish to become so, with a experimental injection that is fabricated with technology that has never been used before? If we don't wish to be someone's guinea pig or pétri dish to later discover five years down the road we could develop serious symptoms of something far worst, why are our rights being oppressed? Why isn't there an agenda being pushed for the people who wish to be protected from those who volunteered in being a scientific experiment ? Why aren't we being protected by our Governor, mayor, or council members?

As a newly married woman, I was pregnant and had a miscarriage due to the vaccine. No one, to this day, can prove it or will even care in trying to. Why? Because we've created a survival timeline where the only concern seems to be about the hopes that this vaccine is the one-

saves-All solution.

Not only that, if our elected officials truly cared about our well being, why are we not trying to make sure this virus isn't a bioterrorism tactic to harm our economy, our education, our health, and our mental well-being?

I believe we are distracted in placing these laws and mandates, that divide the people instead of help us feel safe. By passing this mandate, you are allowing fear, prejudice, and taking away rights from the people. You are not taking into accounts all the lives that make up Hawaii, and are only rewarding those who follow a deceptive plan. When did we allow ourselves to live with so much fear and confusion?

If you take a moment to be in the streets and with the people, people ARE getting sick, and are having reactions to this virus. But, we've kept working, we've kept moving forward. There are incredible natural medicines being used to help with the recovery and they are working! Why aren't we pushing those to be used and help our people?

I urge you to please, please, please, hear all sides, pray for the people you took an oath to protect and help US ALL SEE the truth and UNIFY us! Please help us All. We love you, we trust you, and we believe you can pass a mandate that will protect ALL OF US. That's why the majority HAS taken the vaccine, in good faith and in trust of our leaders! But now it's not just about a vaccine, it's about two, with a booster and then another? Will 9 suffice? 13? When will enough be enough?

As Milton Friedman, the Nobel Laureate economist, said we must be free to choose. You wish to get vaccinated, that is a choice, but for those who do not wish to be vaccinated, they too should have a choice.

Know that I am praying in Jesus' mighty name for Him to guide you in love, peace, and righteousness. Amen. Mahalo nui Loa.

I OPPOSE this tyrannical bill for digital health passports here in Hawaii. I don't want to be around people protesting or a meeting as, I do want to stay safe and away from people. This passport is not American it's more communist like a social credit system. The start of the path the way of the beast. Also many people don't want this vaccine. I'm scared of it some people I know friends, teachers nurses, student athletes, and parents are upset and wouldnt get the shot as well but have to to keep there job. This is so wrong and not American. The state is already over 80% vaccinated and the vaccinated spread it to. There are some dark forces in the government changing our rights and laws and protections at unjust speed.

I strongly oppose vaccine passports! There is scientific data that proves that vaccinated people can catch and spread the covid 19 virus the same as unvaccinated. These mandates are a tyrannical abuse of power! America is the land of the free! You are not a dictator! We are free Americans protected by the constitution of the United States of America. You should read it sometime!

I am strongly opposed to this bill. The segregation and discrimination this bill aims to make lawful in the guise of safety is shameful. Those who have religious or medical exemptions to the COVID19 vaccination are also denied entry with the vaccine passports. Thus is coercion to increase vaccination numbers. Vaccinated folks can still get and spread COVID. Dividing us and treating us differently based on vaccination status is medical tyranny and segregation.

We can talk about a lot of things but At the heart of this resolution is very alarming issue : Medical freedom vs medical tyranny.

Medical freedom means that people have the right to make choices for their health based upon knowledge, individual beliefs, and health needs that are to be discerned between themselves and their health care providers.

Medical tyranny means a political government makes your health choices for you by relying upon judicial force. This tactic is beyond the scope of your individual health needs, beliefs, or American freedoms.

I do not condone any one person or any agency making my health choices for me. Health
Written Testimony choice are intimate and private and need to be protected.

Further more this mandate comes with the reintroduction of segregation into our society, further dividing our country.

Not segregation for race or religion as done in the past but segregation based upon the vaccinated or the unvaccinated.

Make no mistake, it is a type of discrimination is a violation of human rights.

This mandate is dangerous door to open and everyone should be wary of any government becoming agency over human rights in the name of fear.

Please council members, protect our medical freedom, now and always.

I strongly oppose vaccine passports. I am disgusted that this discriminatory practice is even an option for the residents of Hawai'i. There are many reasons that someone may choose not to get the Covid vaccine. Discriminating against people due to a medical decision is disgusting and wrong.
Futhermore the economic hardship these businesses will have due to this will be catastrophic

Please do the right thing and vote no to this resolution.

I strongly oppose Bill HR 21-194 - Health Passport. It is a measure that completely removes our freedom of choice as an American citizen. It black mails us into putting a foreign substance in our body in order to enter an exercise class, dine out, travel and work in the jobs that serve the public and provide us with our incomes.

Fear and the one sided voice of the media has torn common sense from the hearts and minds of our community members.

I can't believe how you, our elected leaders can not foresee the trickle effect of this type of measure. You have already turned friends, family and co-workers against each other by pushing vaccinations.

Instead of "Aloha" you have created an atmosphere of mistrust, anger and even hate among our people.

Written Testimony When workers are fired due to no vaccination, your work force will suffer. I worked for the State at one time and it will be laughable when you find yourself stuck with the 80% that come to work and do less than minimal and perhaps lose more of the 20% that do most of the work. Just be honest. You know exactly what I mean.

When people are left jobless what will be the cost to taxpayers when the need for welfare increases? You and I know there will be more social, financial and even emotional repercussions.

Last of all I know first hand that there are safe alternative treatments for COVID that the medical community has turned their backs to because of ego, pride or pressure from big pharma. If this is truly a Pandemic then why not at least try other ways of healing people? I am sickened by the way you would push non FDA approved gene therapy "vaccines", that have not been fully tested for long term effects, yet close your eyes to proven and safe ways

of healing individuals with COVID just because it is labeled “natural” or “holistic”. Shame on all of you!!

I vehemently oppose this bill. This is total government overreach... it's clear now with many studies that even vaccinated people can transmit and get COVID-19. This bill will further divide those who are vaccinated and those who are not. Many of us are extremely skeptical of the vaccination and it's harm(over 5000 people in the US have died from it and over 10,000 in Europe).

The FDA was rushed by the current administration to approve the vaccination. Even the CDC continues to move the goalpost relative to the boosters from earlier in the year to have that every 10 months and most recently citing seven months now five months(even the booster shots have minimal trial studies that have been revealed)

Written
Testimony

The irony that our government initially incentivized people to get the vaccination now practically forcing them. I'm sure your next step will be to prevent those not vaccinated to even go into grocery stores to get food.

Another reasons I oppose This bill is it will influence many travelers not to come to Hawaii As the challenges it will take for those not vaccinated just go out to have dinner.

It's easy to make these decisions as a government employee when you're guaranteed a paycheck and pension. The for-profit sector it's a little bit different. The net effect of the spell will be less tour zone, less jobs, less overall economic impact, and more importantly for you less tax dollars.

I can continue to go on with a litany of reasons and provide you with many medical studies of the negative affects about the vaccination. Plus contradictions about the benefits of what has been imposed from masks, negative affects of children who are vaccinated etc

I'm sure even completing my thoughts with my comments is a waste of time as you probably won't even read this!

Your position on the matter Oppose
Representing Self
Organization

As offspring in the US military, a concerned citizen, and taxpayer, I am requesting you vote No and Stop the VAX Passport.

It is against our constitutional rights, which my father, brother, uncles, cousins, grandfathers, and great-grandfathers fought for defending the United States of America.

Written Testimony

Mahalo for your consideration and for being pono by honoring our free will and the freedoms we all deserve.

With Aloha,
Donna "Davina" Dufault

Written Testimony I am strongly opposed to this bill. This is bill is unjustly discriminatory against those who are unvaccinated. Those who have been vaccinated are still susceptible to contracting COVID so there is no grounds to segregate people based on their vaccination status.

As physicians, we all take the Hippocratic Oath, to 'first, do no harm.' One of the ways that we commit to uphold this oath is to offer informed consent before administering any medicine, procedure or treatment. Part of informed consent is explaining the short & long-term risks. They are different for every individual. We cannot offer proper informed consent when this 'vaccine' experiment has been going on for less than a year. The Pfizer shot is NOT fully approved by the FDA, but the FDA has just extended its emergency use authorization (see attached FDA document).

Written Testimony
VAERS shows that there have been more adverse events including deaths with the mRNA shots than all previous vaccines put together. Any physician who administers these experimental shots is breaking the Hippocratic Oath. Worse yet, people are expected to get injected from untrained workers, pharmacy staff or medical assistants in non clinical settings. Informed consent is not being upheld amidst this most critical time in which we need the highest standards of medical ethics upheld.

Medicine is not 'one size fits all.' Pregnant women face an 8 times increase in risk of miscarriage after these shots. Strokes, cardiac arrest, heart attacks, myocarditis & pericarditis are more likely among diabetics, the obese & the elderly. Seizures are more common among those with neurological and auto immune diseases. People who already recovered from COVID are 5 times more likely to have severe side effects from the jab but already have 13 times stronger immunity than those who are fully vaccinated. The vaccines aren't providing long term protection. Now boosters are coming out to compensate for the fact that the vaccines are not effectively blocking infections or transmission of the virus. More of the same that isn't working? Mandated? This cannot happen.

There will always be another strain coming. Herd immunity is not supported by vaccination because it only reduces severity of symptoms, not the number of infections or the rate of

spread. Natural immunity comes from exposure & recovery by a functional immune system. Promoting health should be the focus, not breaking medical ethics & forcing risk of death on all people, as if they are all the same.

We also have effective & inexpensive, low risk generic drugs for prophylaxis & elimination of the virus. These can support the chronically ill & high risk patients when natural immunity isn't enough. We don't need a 'leaky' vaccine.

Healthy people recover from this illness in just a few days. Health doesn't come from an injection. Let's promote true health & natural immunity. It's the only way we can gain traction against this virus. Mandating workers & enforcing vaccine passports creates division, segregation & medical apartheid. It doesn't block transmission. We cannot take basic rights & privileges away from those with strong natural immunity and from those who have medical conditions that are incompatible with these risky gene therapy injections.

Everyone has a different risk to benefit profile. Whenever there is risk, there must be a choice. It's the way of freedom & the standard that has always been upheld in this country. Vaccine passports set a precedent that leads to more futures losses of civil rights without considering nuanced individual circumstances.

No one should ever be forced to undergo a medical procedure that poses substantial risks. The fact this is even being proposed is a dark & regrettable point in our society. People could lose their livelihoods, their homes & their ability to feed their family, all because this experimental procedure isn't right for them. Please stop RES21-194. Thank you.

Please listen to some scientific facts if you dig just a little bit you will see that there are millions of people throughout the world and thousands in our state of Hawaii that have recovered from Covid and have natural immunity. It is so much better than the vaccine which the percentage of inoculation to keep from getting the virus has decreased to approximately 58%. Why would you disallow people that have been sick and have great natural immunity from carrying on with life as normal or as those that have been vaccinated?

Please please do a lot of research, I know you will realize you were penalizing people that are completely safe and should be allowed to be a part of our society.

If you can look at Israel where approximately 85% of the population has been vaccinated and they have more new Covid cases than the unvaccinated.

MIND & BODY

Who's Really Being Hospitalized?

Breakthrough cases reach majority levels in some jurisdictions but numbers elude CDC
By Jennifer Margulis August 30, 2021 Updated: September 1, 2021 bigger smaller Print
"I'm not going to arm wrestle with the administration about where to put you," Dr. C., a
highly skilled gastroenterologist, said gently to my friend who was in bed in a triage room in
the ER. "We just want to get you into a bed so we can figure out what's wrong and get you
treated."

We were at our small town's hospital. No one was sure why, but my friend had not been able
to keep anything more than a handful of raspberries down since a complicated surgery for a
chronic health condition three weeks before. Dehydrated and unable to eat, my friend had been
violently vomiting after taking just a sip of water or sucking on an ice chip, and had lost nearly
twenty-five pounds.

I was by my husband's side when he had a gallbladder attack so severe that it left his hands
shaking. I've had three unmedicated childbirths and attended many more, both as a journalist
and a patient advocate. Still, I've never seen a human in so much pain.

Diagnosed with a Pancreas Disorder, Admitted as a COVID Patient

After a battery of testing, my friend was diagnosed with pancreatitis. But it was easier for the
hospital bureaucracy to register the admission as a COVID case.

Let me explain. This patient had none of the classic symptoms of COVID: No shortness of
breath, no fever, no chills, no congestion, no loss of sense of smell or taste, no neurological
issues. The only COVID symptoms my friend had were nausea and fatigue, which could also
be explained by the surgery. However, nearly three weeks earlier, a COVID test had come
back positive.

The mainstream media is reporting that severe COVID cases are mainly among unvaccinated
people. An Associated Press headline from June 29 reads: "Nearly all COVID deaths in US
are now among unvaccinated." Another, from the same date: "Vast majority of ICU patients
with COVID-19 are unvaccinated, ABC News survey finds."

Is that what's really going on? It's certainly not the case in Israel, the first country to fully
vaccinate a majority of its citizens against the virus. Now it has one of the highest daily
infection rates and the majority of people catching the virus (77 percent to 83 percent,
depending on age) are already vaccinated, according to data collected by the Israeli
government.

After carefully reviewing the available data, including the safety and efficacy profiles of the
mRNA vaccines, my friend had taken a cautious approach. Though a medical doctor who
gives vaccines in the office every day, my friend opted to wait and see. According to WebMD,
a "huge number" of frontline hospital workers have also chosen not to get the vaccine. Indeed,

various news reports, from California to New York, confirm that up to 40 percent of health care workers have decided the risks of the vaccines do not outweigh the benefits.

After admission, I spoke to the nurse on the COVID ward. She was suited up in a plastic yellow disposable gown, teal gloves, and two masks underneath a recirculating personal respiratory system that buzzed so loudly she could barely hear. The nurse told me that she had gotten both vaccines but she was feeling worried: “Two thirds of my patients are fully vaccinated,” she said.

Israel confirmed cases table

Data Limitations

How can there be such a disconnect between what the COVID ward nurse told me and the mainstream media reports? For one thing, it is very hard to get any kind of accuracy when it comes to actual numbers. In fact, the Centers for Disease Control and Prevention (CDC) have publicly acknowledged that they do not have accurate data.

As reported by the Associated Press, “The CDC itself has not estimated what percentage of hospitalizations and deaths are in fully vaccinated people, citing limitations in the data.”

At the same time, data collection is done on a state by state basis. In most states, a person is only considered fully vaccinated fourteen days after they have had the full series of the vaccine.

This means that anyone coming into an American hospital who has only had one dose, or who has had both vaccines but had the second one less than two weeks prior, will likely be counted as “unvaccinated.”

So when the South Carolina’s Department of Health and Environmental Control released a report about COVID severity on July 23, 2021, they reported higher morbidity and mortality rates in the “not fully vaccinated.” Are these people who have had one vaccine and gotten sick, two vaccines and gotten sick, or no vaccines at all? Without more details, it is impossible to know what is really going on.

“We don’t have accurate numbers,” insists Dr. James Neuenschwander, an expert on vaccine safety based in Ann Arbor, Michigan.

But what we do know, Neuenschwander says, is that the vaccines are not as effective as public health officials told us they would be. “This is a product that’s not doing what it’s supposed to do. It’s supposed to stop transmission of this virus and it’s not doing that.”

Overcounting COVID

Then there is the problem of attributing severe illness and deaths from other causes to COVID, like in my friend’s case. Health authorities around the world have been doing this since the beginning of the COVID crisis. For example, a young man in Orange County, Florida who died in a motorcycle crash last summer was originally considered a COVID death by state health officials (after Fox News investigation the classification was changed.) And a middle-aged construction worker fell off a ladder in Croatia and was also counted as a death from

COVID (whether having COVID played a role in his death is still unclear.)

To muddy the waters further, even people who test negative for COVID are sometimes counted as COVID deaths.

Consider the case of 26-year-old Matthew Irvin, a father of three from Yamhill County, Oregon. As reported by KGW8 News, Irvin went to the ER with stomach pain, nausea, and diarrhea on July 5, 2020. But instead of admitting him to the hospital, the doctors sent him home.

Five days later, on July 10, 2020, Irvin died. Though his COVID test came back negative two days after his death and his family told reporters and public health officials that no one Irvin had been around had any COVID symptoms, the medical examiner allegedly told the family that an autopsy was not necessary, listing his death as a coronavirus case. It took the Oregon Health Authority two and a half months to correct the mistake.

In an even more striking example of overcounting COVID deaths, a nursing home in New Jersey that only has 90 beds was wrongly reported as having 753 deaths from COVID. According to a spokesman, they had fewer than twenty deaths. In other words, the number of deaths was over-reported by 3,700 percent.

Who's Suffering from Severe COVID, Vaccinated or Unvaccinated?

In countries with the highest numbers of vaccinated individuals, we are also seeing high numbers of infections. Iceland has one of the most vaccinated populations in the world (over 82 percent) and is reporting that 77 percent of new COVID cases are in fully vaccinated Icelanders, according to Ásthildur Knútsdóttir, Director General of the Ministry of Health.

According to news reports, over 85 percent of the Israeli adult population has been vaccinated. But a July report from Israel's Ministry of Health found that Pfizer's vaccine is only 39 percent effective. Though Israeli health officials are telling the public that the cases are more mild in vaccinated individuals, this upsurge in COVID cases and deaths is leading Israel's prime minister to issue new restrictions.

Dr. Peter McCullough, an academic internist and cardiologist in practice in Dallas, Texas, says that a large number of people in the hospitals right now have, indeed, been fully vaccinated. "Fully vaccinated people are being hospitalized, and ... 19 percent of them have died," McCullough says. "This is not a crisis of the unvaccinated. That's just a talking point. The vaccinated are participating in this."

Other physicians are seeing the same thing. "In my practice multiple patients who are fully vaccinated have been admitted to local hospitals," says Dr. Jeffrey I. Barke, a board-certified primary care physician based in Newport Beach, California. Barke believes part of the problem is exaggeration of the efficacy: "If the vaccine works so well, why are we now pushing a booster?"

As an Officer for HPD I have worked through this pandemic and voluntarily on my own accord made the choice to get vaccinated. And that is what it should be, a personal choice. To have my brothers and sister in the First Response world who choose to not get vaccinated be threatened with losing their livelihood is an utter overreach of the Government. I know firsthand that all the necessary precautions are always taken on the frontlines. I am opposing this mandate that takes away basic human rights to choose what goes in their bodies. The Government has NO PLACE dictating what to put in anyone. Don't be a Dictatorship, Hawaii is built on Aloha please live it!!

I oppose this bill. This bill is discriminatory towards those who are unable to get the COVID-19 vaccine either for medical, allergic, or religious reasons. It is also discriminatory to those that have already survived the COVID -19 virus, thus already having antibodies and no need for inoculation. This bill will further suppress herd immunity since people will not be able to gather. Although dining in a restaurant is not a constitutional right, private business should not be forced by the government to choose who they're able to serve or in what capacity to serve their customers. That has been a freedom in America and what makes America great.

We live in the USA where the citizens have constitutional rights. Vaccine passports and mandates are in complete violation of constitutional rights. In addition, the covid vaccines are not effective as expected. Even the CDC has said that vaccinated Covid positive people are as likely to get and spread covid as the unvaccinated. Most vaccines have had at least 12 years of research before being approved. These Covid vaccines are proven to be dangerous and have killed and hurt many as seen on the VAERS reporting site. Please do your research. You are elected officials, not dictators.

Written Testimony

vaccines are not working, i know many vaccinated people who have covid and their symptoms are bad, not less like you are being told if you get vaccinated your symptoms will be less, not true. I personally know people that died from the vaccine also those that are now permanently disabled, some as young as 17. Their lives are now ruined, and who is going to pay for all their medical costs! We gave 800 nurses in the hospital ivermectin, not one of them got covid as opposed to other hospitals , 67% of nurses got covid, i can show you many clinical studies from reputable doctors with this data. you say in 2 months will be mandatory if rates dont go down, getting people vaccinated will not make rates go down, what will is wearing masks, not letting tourists in, social distancing, keeping your immune system healthy with zinc, d3, quercetin etc, the virus stays in your nose throat 4 days, so everyday everyone should be gargling with peroxide, and swabbing their nostrils with iodine, this will 100% kill the virus and it will never reach the lungs, thats the cure! not vaccines, vaccines are killing people within 5 years most who took the vaccine will have health problems! I implore you to listen to this, i can show you all the studies, also do you want the phone numbers of those whose lives are ruined now bc of the vaccine, what would you say to them. Thank you, Janice please im begging you, at least let me show you the data, so you can make an informed decision listen to the doctors and scientists not the politicians, you and your families lifes are at stake here to, please lets beat this, enough already, vaccines are not the way. thank you,

I am strongly opposed to this bill! America is a free nation! This is not Nazi Germany were you need papers to move about the streets that we pay for! Our medical decisions are ours and ours alone to decided upon. As a free nation the government does not own our bodies, nor can they make the decision of what we do with it. Remember you work for the people and as public servants we have the right to remove you from you position if you continue to indoctrinate mandates that stop our civil rights to provide food and shelter for our families.

I oppose all vaccine passports or requirements .. This goes against our constitutional rights and freedom to choose what we can do with our own bodies ! I will not support such disgrace!!! This vaccine is still in its research phase I will not be a lab rat. Also there is no proof that this vaccine prevents covid-19. Also those being vaccinated are the ones who are getting the variant sans spreading! Please stop this bill!

Written
Testimony

I oppose RESOLUTION 21-194. Implementing this is implementing segregation. To not allow a certain group of people to have business at a place because of who they are. This also is infringing on our civil liberties as citizens of the United States. This would impose on and go against many peoples seriously held religious beliefs to get vaccinated which they would be required to do to be in the facilities listed. Not only that, but this also negatively puts those who medically can't get the vaccine. Specifically people who have guillain barre syndrome. Next to that, getting the covid vaccine puts anyone in danger to possibly get a negative effect from the shot(s). The CDC has posted that the Johnson and Johnson vaccine can cause Guillain Barre Syndrome. There has even been a death reported because of the severity of the reaction to the vaccine. This goes for all Vaccines provided. People are having negative reactions, even to the extent of death. I oppose. Not only personal harm will be caused because of this atrocious plan but economical harm. In 2020, 10.8 out of 1,000 business's were closed because of the harsh stay at home order. Implementing this will again cause much harm to families because of those who can't and those who won't be vaccinated to have business in many stores. To get tested and have that be valid for 48 hours is limiting and unfair to those who don't have the means or access to the tests. Again I oppose.

Written Testimony This is an absolutely unnecessary step and a huge overreach for government, especially for an illness with a 99.7% recovery rate. We have no right forcing anyone to take a vaccine for any reason, especially a vaccine that has killed over 13,000 and injured over 500,000 according to the VAERS database. I strongly oppose any form of vaccine passport.

I oppose this vaccine passport program and possible mandate.

I know that this is not healthy way to control this “virus” that you speak of. This is not a healthy way to “control” a population of people to comply with governments orders.

I, Bianca Antonio one of the people (as found in Hawaii State Constitution Bill of Rights, Article 1 Section 2), Sui Juris, bring the following claims, that you and your agents may provide due care;

Written Testimony

Please take notice, as stated in the Constitution of the United States of America and The Hawaii State Constitution, that all living men and women are endowed by their creator with certain unalienable rights. And by these, no Man, government, corporation, organization, agency or agent appointed or elected has authority to trespass thereon. All people have the right to self-determination. Self-determination necessitates full disclosure of information free of coercion and censorship.

As one of the People, I affirm to be in the private realm, and not part of any government office.

As one of the People, I affirm that the Governor of the State of Hawaii has no authority to write orders, rules, or mandates which enforces taxes or duties which are binding to the living people. Rules and orders are not laws and cannot be enforced upon the People as such (see Cruden v. Neale, 2 N.C. 338 May Term 1796).

Whereas, Article 1 of the Hawaii State Constitution Rights of Individuals, precludes restrictions of access to public accommodation and work (see HRS489-3). The Government,

its agencies or agents have no authority to create artifices which hinder access to work, employment, traveling or education without the consent of the People.

it makes zero sense to have a vaccine passport when its been proven that getting vaccinated doesnt stop people from getting the virus or transmitting it to other people.

also, this move will crush the local economy and all these eateries will lose a lot of money and potentially go bankrupt.

If vaccinated and unvaccinated than what is the oassport for?? If we both get it and spread it then what is the point? It has 99% survivability still. Why is the focus on cases and it being contagious when what realky matters is the death rate. I looked inside one of the emergency makeshift tents in front of queens and it was completely empty. Not even a chair. If they are so worried then why is it not even set up with supplies state/ queens has? Nothing. Also its been brought out to the publuc that hale nani and avalon are changing codes from non covid codes to covid. When " investagtirs called witness with massive evidence they did ask for ANYHING proof, evidence , nothing. Kept it short and sweet. Green admitted online that he has gotten 1 million from ptizer then added he gotten money from several ! You look at ige, grren and blangardis facebook's replies to posts you will have an overwhelming proof that 90% do not approve of this. And facebook is a democratic majority site. What is really going on? Many see and voice that this is not about something that has 99% survivability but control. Whats next lockdown again then a food shortage ?? Bet im right unless you guys get a consciousness and treat it as 99 survivability which is the only data on cdc, WHO, hhs and hiena!!! If youbreally cared you would use ivermectin like japan now is, give pretreatments and early treatment NOT wait at home til the virus is really set in then go to hospital. Germany has stopped using vax !! Saying side affects worse than 99% survivability covid!!! We arnt this stupid. Lawsuits started already and?

I oppose of any vaccine mandating. There's absolutely no reason for this. A vaccinated person can carry and spread the virus the same as a unvaccinated person. I am a salon owner. I have owned businesses in Hawaii for 24 years. All of these businesses have gone through enough. Your trying to impose vaccines that are still in a trial stage. The FDA approved vaccine is not even available yet. Even if it is there's many people who cannot get the vaccine for several reasons. No one not even the scientists know the long-term effects of these vaccines. I personally know many people who have major side effects from the vaccine including blood clots, leg amputation and heart problems. I know that you're thinking that you're doing this to save people. You are not God nor can anyone play the role of God. You would be taking away our civil liberties.

There has also been a recent study showing that vaccinated people can mutate (called antibody enhancement) and make the virus stronger. Vaccinated people still will spread the virus. We could argue that all vaccinated people need to not enter businesses with the new study showing the mutation and ability to spread. Please educate yourself. This spike is going to drop fast if you look at the data from India and UK.

The vaccine is also not holding up as well with Delta and expected to not hold with all the coming variants.

Don't lead our Island with fear!!!

Myself along with my household are Covid survivors, no symptoms before during or after plus 2 asthmatics. Both myself and my husband are essential workers. Him providing service to the community and myself providing the air travel safety for passengers. We both have worked diligently through this pandemic and successfully and naturally beat Covid along with our 3 children. I am opposed to the vaccine for the reasons as stated. If a vaccine was able to prevent transmission of a virus then I would support it. This one does not. Therefore restricting those in the state who chose not to get it is not fair, against our freedom of choice and rights. A vaccine that still allows a person to catch the virus with or without symptoms and transmit it. So how does enforcing this vaccine passport actually create a safe Hawai'i? It doesn't.

I highly oppose this vax passport! For one, it segregates people and is highly immoral to force people to comply with ANY health code, leaving zero room for personal choice in what we want for our own health and safety. These laws and mandates have been sneaking into our Island and so iety as "normal" and this is just a blatent lie. This is not normal, it is complete communim, wirh zero choice or vote from the people on any of these issues. I would like to state as well, that I have a vaccine injured son, know many friends and relatives suffer terrible side effects from the poisons contained in the current formulas. And another note, they arent even working for those who have had them. They are not safe, or effective. This is genocide masked as "good for the people". And to mention, the effect on the economy, when no one goes to those places enforcing "Nazi arm bands". Its bad enough that masks are forced on our children, upon entering school, taking their prescious smiles and right to breathe away☹️ Take a look around you, this is not a good choice for the people, businesses, or any living being. Thanks for hearing me.

Written Testimony I am a local Hawaiian resident and I oppose resolution 21-194. This is unconditional, against HIPPA laws and freedom of choice. It will affect the small business significantly and cause segregation that will be detrimental to our communities and our children. This is wrong in so many ways. I oppose vaccine mandates and passports

Written Testimony I strongly oppose a vaccine passport in any form or fashion. It is an experimental drug and even if it wasn't violates our God given and constitutional rights of autonomy over our bodies and is medical tyranny. Nuremberg trials eminent for this and other violations concerning covid and the mandates which are unconstitutional.

Written
Testimony

Vaccine passports are discriminatory against those choosing to not vaccinate or are unable to due to medical reasons. Mounting evidence also shows that vaccinated people carry the same if not more about of viral load and are just as able to transmit covid to others and may be more likely due to asymptomatic transmission. I believe that both vaccinated and unvaccinated travelers should be tested before coming to the islands. Please refer to Israel where they are the most vaccinated country with Pfizer vaccine and have the highest amount of infections. The vaccines are not effective at preventing contracting or transmission of covid. Countries and states that initially adopted the vaccine passport have already stopped it due to it not being effective. Please do not allow vaccine passports in our beloved state. Mahalo for your time.

Written Testimony

Mandatory vaccines are instilling a fear into the people. The fears not about Covid-19 it's about living in the United States and not having freedom. There are fatal side effects from this vaccine and I'm supposed to be on board with taking this shot. I'm human and I have rights. Why has the state stopped requiring tourists be vaccinated or have a negative test to enter our Island? Now to go to the grocery store I must be vaccinated or have a negative test within 48 hours. Please make it make sense. Take care of your people before tending to these tourists. Show that you actual care about your people and not just the money.

Written Testimony I fully oppose any form of vaccine passports. This is straight up discrimination & a violation of people having the choice on what they want or don't want in their bodies. None of these vaccines have been out long enough to do any real testing on potential long term side effects & some people have already died or developed damaging side effects just from taking the vaccine. Stop this now.

Written Testimony

I strongly oppose this bill because the vaccine has already been proven to not stop the spread of Covid-19. So why mandate? It's ineffective. The risk of the vaccine far out weigh the rewards. It's still in its experimental stage and shouldn't be forced upon anyone. Some negative reactions after the vaccine include heart attack, heart complications, blood clots, seizures, ball palsy, death, etc. If you catch Covid you will have a 99% chance of survival, I'm not about to play Russian roulette for a 99% chance survival rate. We the people should be able to chose what we put in our bodies and not forced by the government and big pharma. This is ridiculous.

This is unconstitutional. My family all doing her and died in war for our freedoms, and it's sacred to keep our promised right instated. You can still contract ab spread with the vaccine. I understand the advantages as well. I'm not standing on either side but I do honor the commitment and sacrifices my family and all other families made to give us this choice. If you take this from us, we dishonor all the fallen and the human race. I am allergic to metals and almost lost my life with a injection a few years ago and the stress of having this haunt me, as a mandate is beyond invasive, stressful, and is becoming a big divide. Our country is falling apart, and this will completely dismantle society and our economic impact forever. This is wrong.

Written Testimony I am strongly opposed to this bill. This discriminates against those who had made a researched and educated decision not to take the vaccine due to the well documented cases of injury and even death. Those with the vaccine are still getting Covid and dying and are still being allowed to enter places of business where they may potentially spread this illness to others in the community. Why is it that only the unvaccinated are being discriminated against by not being allowed to enter certain businesses?

I DO NOT SUPPORT the mandatory vaccine passport! Anything mandatory takes away the freedom as Americans.

We have higher chances of dying in everyday activities than covid. Data from the very beginning showed that the obese, the sick, and elderly were the only high risk to this.

My freedoms shouldn't be stripped because of this as a young, healthy female. MY BODY MY CHOICE!

Written Testimony This is America not China , not Australia, not Europe. AMERICA. WE HAVE OUR INDIVIDUAL FREEDOMS.

This runaway train we are on with government overreach and mandates has gone way too far now. I complied out of respect the first time awaiting more data , but now that we have data that proves alternative medicines work and I am not at high risk I am NOT AFRAID of it so I choose to trust my god given immune system.

Do not bully the people here! Lots of us will no comply and see this as a dictatorship where the American dream is taken away. Fuck you for trying to do so!

I strongly oppose vaccine passports.
My friend died 32 hours after her shot! It never makes the news the public doesn't have full constant and know if these dangers!
It also discriminates against its citizens and separates the people. We are human beings and the government shouldn't say what goes into our blood! Nor the blood stream of our children!! Japan pulled moderna vaccines due to contamination to force this on hawaii people is criminal and malpractice!

To whom it may concern,

Written Testimony Vaccine Passports goes against our U.S Constitution Bill of Rights! Amendment #1, freedom of religion, speech, assembly, & petition. It's my right to petition this law, as this goes against the policy of HIPAA.

Written Testimony I strongly oppose the vaccine passport being used in Hawaii. It is our human right to choose what medical procedures we do. We also have a right to privacy when it comes to sharing our medical information. I actually believe vaccines can be valuable and do not oppose them at all. What I do oppose is our right to choose being slowly taken away from us.

Written Testimony Israeli people are getting sick. It is highly likely this is due to the highly vaccinated population (see ADE). It's too soon to decree vx passports in the US. Covid Survivors are the greatest hope in quashing variants. (See sars-1 antigen longevity studies.)
Keep our community safe by waiting for longterm studies.

Written Testimony As someone who is vaccinated, I strongly oppose this as I feel Everyone should have a choice to be vaccinated or not and this will be even more of a step to take away that choice from individuals. This would leave are already fragile “freedoms” in danger of further loss.

Written Testimony Vaccine passports are unlawful and is unconstitutional. This method does not solve anything yet causes hostility, divide, exploitation, financial disaster, negative impact of all deficits, turmoil, high probability to permanent closure of many business, and all at the cost of the public's livelihood. Approaching today's infection control with a blind plan, of implementation of a vaccine passport, will prompt for failure beyond any chance of recovery.

Written
Testimony

Since when does the City and County and government officials force a free nation to do anything against their will and then mandate it's people free access to any establishments. This is not going to stop the spread of Covid-19. I live in a home of half vaccinated/half unvaccinated so we are being forced to NOT patronize any kind of family entertainment/establishments. More businesses will go out of business. More unemployment. More rivalry amongst communities. How selfish of the powers that be. Most people don't plan 2 or more days ahead to go out so getting a covid test w:in 48 hrs won't work every time we want to go out. The only ones making money are the big 5 pharmaceuticals and I guess you people that we have voted for snd support to take care of our needs are financially backed by them. Even the Almighty gives us choices.

First off, I am not against vaccines. However I do not feel comfortable taking a vaccine that has no studies to prove there will be no long term side effects or hasn't been around very long. I also believe as human being in AMERICA the land of the free we should have freedom of choice to do what we want with OUR BODIES. If someone believes taking the vaccine is best for them, that's fine. But don't force and manipulate people who aren't ready or do not trust it due to lack of studies.

As an American citizen, I believe we have the constitutional right to life, liberty and the pursuit of happiness. If the state government mandates where I can and cannot go in clear violation of HIPPA regulations, I see it as an infringement of my rights as a citizen. I do believe private businesses have the right to enforce entry requirements as they deem necessary for their own business, but for the government to establish as law what has not been voted on is to overstep their boundaries in being a government for the people by the people.

I strongly oppose this resolution. It is without reason and makes no sense. It's totalitarian in nature and is a dangerous and ineffective measure for your desired goal. What is the purpose? To minimize the spread? It will not be effective. All you are doing is creating a 2 tiered society and breeding a culture of hate from vaccinated individuals directed towards unvaccinated. It's what they did in Nazi Germany: convince an entire nation to not associate with one group of people (Jews) that they managed to make people believe were sickly and less than. We all know how that ended. If the vaccine works, then why do we need all this? If the vaccine doesn't work, then why enforce it?

Written
Testimony

The CDC reporting system for Vaccine related injuries (VAERS) records over 13,000 deaths associated with the vaccine. A Harvard study conducted in 2009 concluded that the events recorded in VAERS represents only 1-10% of actual events. That's between 1.3 Million and 130,000 deaths. Injuries from the vaccine are much greater in number. The vaccine is dangerous. People need to be able to make this choice of whether to receive the shot or not by their own voluntary free will, not because they're being put in an impossible situation of choosing between their own conscience and being able to work, study, leisurely enjoy life, etc.

We've had the vaccine for over 6 months, and cases are spiking, likely having to do with the study showing that fully vaccinated individuals can carry up to 251 times the viral load than an unvaccinated person. We've done masks and distancing and lockdowns for 18ish months now, and cases are spiking worse than before, because these measures are ineffective.

Not only are they ineffective, but they're unnecessary. We have treatment that is cheap and effective whether it be HCQ, Ivermectin, or both. I know a plethora of people who have used them in combination with vitamin D and zinc for either early treatment or as prophylactics...no one has been hospitalized, let alone died. All have recovered, no side

effects. They work. I also personally know a family doctor who has been practicing for 40 years, I've known him my whole life (34 years), he uses these medicines for treatment...he hasn't had one patient end up in the hospital, let alone die. There are hundreds if not thousands of other doctors that have the same testimony. The overwhelming majority of people dying have underlying conditions, per the CDC, and those that don't aren't being given treatment in the early stages. I know a few people who went to the hospital and they said go home and call an ambulance when you can't breathe. One of them died because he couldn't get treatment in time. This is what is happening. It is criminal. You say you want to save lives, then start listening to both sides of the aisle, search for the truth, and stop pencil pushing ineffective totalitarian tyrannical control measures upon the people of Hawaii.

Also, we're Americans. And we have the constitutional right to live freely and to make our own health choices. If you're vaccinated then you shouldn't care about anyone else's status because you're covered. And if you're unvaccinated, then you likely don't care whether I am. If you're using the argument about the unvaccinated using up the hospital beds then you should consider that most of them have underlying conditions and you should consider banning fried foods, sugary drinks, and pastries/desserts as well because they clearly lack the ability to exercise self control to have good health and not end up in the hospital. I hope you are catching on to my sarcasm here. I am being facetious because it would be ludicrous to do such a thing. We are responsible for our own health and it is not your job to keep us out of the hospital. This virus has over a 99.5% survival rate for most of the population. Hawaii News now just reported that there was a study showing 1 in 3 Americans have had Covid, that would put the IFR at .0058%, the flu is .1%. We are not dealing with a disease like Smallpox or Measles. This is a respiratory virus that has a very high survival rate and we have effective and cheap treatment available for it. Receiving the vaccine should be a matter of free will and a private decision between you, your doctor, and anyone else you personally want to talk to about it. It's not for public discourse.

Lastly, I find it strange that recovered Covid patients aren't included in this because their immunity is greater than that of the vaccinated and are less likely to spread the virus, even Lt. Governor Josh Green admitted to that. That alone tells me this really has nothing to do with saving lives or minimizing the spread of Covid.

City council, your job is not to intrude upon our personal health decisions. Your job is to protect our rights given to us by our constitution to ensure that we still have those rights.

Please do not do this.

Mahalo for taking the time to read and consider this testimony.

Aloha I am a manager at a restaurant on the North Shore. I agree that I want our employees and customers to be safe. We are short staffed to begin with. To require a vaccination it just makes us lose 50% of our staff (I gave all staff an \$100 bonus if they got vaccinated).

A Big Fat NO to Digital 'Vaccination' Cards
And/or Forced 'Vaccinations'

My name is Christie Adams. I am a fifth-generation resident of Hawaii from a family with eight generations here dating back to the Kingdom of Hawaii.

I STRONGLY OPPOSE digital 'vaccination' cards and/or forced 'vaccinations.'

I never have consumed a Pepsi Cola.

I never have downed a beer.

Written Testimony I never have taken even one puff of a cigarette, cigar, pipe, marijuana or anything else that can be smoked.

I never have taken an illegal drug.

I haven't consumed any alcohol for about 35 years.

I haven't eaten any red meat for about 35 years. That means no steak, no hamburgers, no hot dogs, no ham, no lamb, no bacon, no spam!

I haven't eaten any ice cream for about 17 years.

Following two hip replacement and pipe implantation major surgeries that were necessitated following a freak accident, I never took any opioid drugs.

I DO try to eat a healthy diet of whole foods, and take vitamins and supplements, such as a multivitamin, vitamin C, vitamin D3, zinc, selenium, apple cider vinegar capsules, etc.

I frequently wash my hands with soap and water.

I'm very careful about what I put in my body. Perhaps that's why at nearly 72 years of age, I never have had to wear eyeglasses or contact lenses, never have had cancer, never have had heart trouble, never have had diabetes, etc., and I still have all my teeth.

And now you want to FORCE me to put a POISON in my body, allegedly to protect me? No thank you. I already am protected by my immune system.

Any proposal to mandate digital 'vaccine' cards and/or mandatory 'vaccines' is a blatant violation of my personal rights, including my right to medical privacy!

Thank you for considering my viewpoint.

Aloha and thank you for taking the time to hear my concerns.

I would first like to share that I am fully vaccinated with the Moderna vaccine. I got my vaccination the moment that it was open for me to do so. I am not an anti vaxer or in opposition of offering vaccinations that may aide in slowing down illnesses and the burden that they may carry on our community. I am very aware of the fact that the vaccine may have side effects and that those side effects are probably not well documented, as there is a much bigger dragon to slay currently. I was ok making the choice for the benefits that I may gain.

Having shared my personal stance on the vaccine and my willingness to get the vaccine, you may wonder why I strongly oppose the vaccine passport. And I very strongly oppose it, I will list my reasons here.

Written Testimony

Asking us to share our medical information is unconstitutional and in violation of HIPAA.

Forcing or coercing a community or group to make any kind of change to their body or take a substance that they are not comfortable with is raping them of their rights as Americans.

Placing the burden of this mandate on already struggling businesses and communities is counterintuitive to a government that is trying to reestablish a flourishing economy.

Forcing one group to comply with the view of another group under the guise of public safety is dividing community and families. Our government should be working toward building communities not tearing them down. - in the last 24 hours after announcing the passport, I have personally witnessed 3 heated altercations in public between both friends and strangers alike, as well as heard neighbors fighting passionately, I have seen my own children crying about if they would be forced to vaccinate, I have come into work where a working senior

citizen is crying because they worry if they will lose her job because they've chosen not to vaccinate. - this is wrong.

You, our government, are not listening to your people, and we are scared. We need you to listen, yes to science, but also to your communities and to common sense and life's realities.

The vaccine may be a way to bat down Covid, but mandatory testing on incoming flights and forced quarantines for those who are Covid positive, can work too.

People who are vaccinated (like myself) are much more likely to unknowingly carry (and therefore spread) Covid, as we are much more likely to be asymptomatic.

Allowing vaccinated individuals (that potentially carry the illness) leniencies will increase the spread. And while vaccinated individuals are less likely to fall ill and take up a hospital bed, if they are the ones carrying the illness, they must also be mindful and minded.

Look at the date that we allowed vaccinated travelers to come to Hawai'i without negative testing, compare that date to when cases began rising.

The state, the city, and businesses should be more responsible. Our government should be sharing information that will truly keep our communities safe; those who are infected with Covid (vaccinated or not) should quarantine until they get a negative test result. This is not happening. Vaccinated individuals can fly without testing, therefore we can fly with covid. We can also return to work without testing negative as long as we feel well. And if this mandate goes through, we will be able to dine out, exercise, shop, gather, all while having covid. If we spread it, it will likely be our unvaccinated counterparts that will fall ill. And while, in my self interest, I got vaccinated, I am very aware of the risk I pose to others by being vaccinated and I take it seriously by wearing my mask and practicing social distancing. I cannot say that duty is clear to others, and I blame the government for sharing misinformation & demonizing those who choose to wait until they are comfortable with their choice to vaccinate.

I can speak to many instances of Covid spread from a vaccinated individual, some of which traveled here knowing they were Covid positive. I can first hand tell you that there are businesses that do not require their employees test negative to return to work after being Covid positive (and it is not required that businesses enforce a negative return to work test- yet they will now insist a test just to visit or... the vaccination). I know individuals that have had Covid and are ashamed to share that information. I know some that go out in public, a community threat. We all have to research and research to find out about viral loads and proper testing, and being outdoors for health, and air movement and circulation assisting in minimizing spread, and voluntary lock downs to help make it safe. We have to seek out the information and so often, it's not great information, they don't know, it's inconclusive, they haven't worked it out yet. All of this is shameful to me, it is infuriating. There is much work to be done by ourselves, our community, and most importantly our government.

The reason I most strongly oppose this passport? Because our government has not done everything in its power, much less, the simple things that can make such a huge difference. We are owed that by our government. When those things are done, when they are looking for all answers not just the ones at their feet, that is when I can support decisions that start to strip one of their freedom. Only then should it even be an option, when all else has been exhausted.

I beg and plead that you dig deep and do the hard work, be responsible, to us all, not just those that are in line with your beliefs. If we educate, mandate easy to follow practices, are transparent and caring, we can beat this together. We have a lot more to loose to than just Covid; freedoms and communities are being torn apart right now. Do what you're called to do. Serve your people and lead.

Humbly
Kanani Oury.

Written Testimony The implementation of any sort of "Vaccine/digital passport" is utterly abhorrent. This type of segregation should never even be considered. I am extremely disappointed by Tommy Waters and Esther Kiaaina for the introduction of this bill. I whole-heartedly oppose this bill and I call upon our public servants to do the right thing by standing against it as well,

I strongly oppose this bill for many reasons. This is extreme government overreach. You are supposed to represent the people who voted for you And you are failing to do so. You are stripping us of our constitutional rights by trying to implement such a heinous bill!

Since the very beginning of this Covid fiasco we have been warning that all of this was leading up to mandatory vaccinations in a totalitarian fashion. Those in the know have seen it coming for years. Now, just as we warned, the "Vaccine Passport" is here in Hawai'i and our mandate happy dictators are pleased to announce that September 13th will be the beginning of the "papers please" era for all slave citizens. Of course, those who refuse to take the mark will be marginalized, segregated and shunned.

Written Testimony
You may have heard how governments keep blaming the unvaccinated for "continuing the pandemic" by their "selfish" refusal take the experimental fake-vaccine or "clot shot." But did you also know that the CDC is counting people who test positive or die within 14 days of the vax as "unvaccinated"? This is yet more definition trickery and fraud which paints a picture that the unvaxxed are to blame, when in reality it is the toxic COVID vaccine which is causing the damage.

We keep getting told to trust the science, yet a recent study from Israel just came out which demonstrated the power of the human immune system over vaccines. It compared SARS-CoV-2 natural immunity to vaccine-induced immunity and concluded that natural immunity was 13 times more powerful than vaccine-induced immunity! This is an important reminder for those who are lost in the official narrative, which springs from a denial of the amazing immune system we are all born with.

We are offering one on one guidance and access to legal resources for our members who sign up for paid member content. You may also consider becoming a paid member of For Our

Rights as a way to offer monthly support and gain access to exclusive content and discounts.

All across the country people are dying. They will blame it on "COVID" but the truth is, it is the standards of care in the hospitals that are to blame, and even more so, it is the lethal injection that is loaded with toxic POISON. This is genocide!!! Shame on you Tommy Waters!

Written Testimony

This Resolution is immoral and unproductive to stop the spread of Covid-19. If you're going to take away an unvaccinated persons privilege it should be their privilege to seek hospital care for Covid-19. If the argument against unvaccinated is that they are taking up hospital beds. People who have natural immunity from surviving the virus should also be exempt. What's the point of a two day old test to walk in an establishment that could be full of infectious Vaccinated individuals and individuals who contracted the virus since their 48hr test?!?! Craziness!!!!

I strongly oppose this bill as it impedes on my rights as a free citizen. To be able to go about my business to conduct work and play in society is a right not a privilege. We are not children in a classroom asking permission for a hall pass to go to the restroom, I am a healthy adult of sound mind who take responsibility for my own body and the decisions I make for it. Do not pass this bill.

I strongly oppose the digital vaccine passport program.

Not only is it a gross overstep of constitutional rights it also lacks common sense. Mandating proof of this inoculation will do nothing but but hurt local businesses and local people.

Written
Testimony

These inoculations do not fit the accepted medical definition for a vaccine. They do not provide immunity! While fully vaxxed, an individual can still contract COVID , transfer it to others, and become ill and symptomatic. Even if it can “reduce” symptoms there have been no studies supporting that claim. Both the WHO and the CDC have acknowledged and are on record highlighting these points.

Bottom line a virus with a 99% survival rate doesn't require a mandated inoculation that has contributed to the highest reported adverse events that the VAERs catalog has ever seen.

Please reconsider this unconstitutional approach.

This is in direct violation of our civil liberties our right to privacy of our health records and our constitutional rights not to mention our God-given rights as sovereign beings. Whether or not someone chooses to get a vaccine is no one else's business but their own.

Written Testimony This is not a decision that some overreaching government officials can decide for any individual. I strongly oppose any such mandates. Mandates are not laws. Stop this government overreach now. Any government official works for we the people not the other way around, as many of you controlling oligarchs are trying to convince us is the case it is not, stop trampling our constitutional rights

I strongly OPPOSE this bill!

Whether vaccinated or not contracting and transmission is happening with the total population. A digital vaccinated passport does not solve the outbreak problem.

If the Healthcare Industry uses either, Hydroxychloroquine, Budesonide, Symbicort or Ivermectin people will live.

Written Testimony A passport is "hate" against the unvaccinated who are not the problem. It is discrimination and a misplaced fear.

Again, I STRONGLY OPPOSE digital vaccine passports or any vaccine passport for that matter.

Aloha ke Akua, Roxanne Jim

Greetings,

I am writing as a concerned resident, citizen of US, and voter because I am strongly opposed to the proposed vaccine passport and any form of vaccine passport hereafter.

Freedom of movement is among the most basic of human rights. I strongly believe that the people of Hawai'i and all U.S. citizens should be free to make their own decisions without rearictions and intrusive mandates. Restricting access to certain establishments or services based upon vaccination status is not only a violation of civil rights and discriminatory but will also negatively impact Hawai'i's already troubled economy.

Written
Testimony

We shouldn't shut down society in the face of adversity. While there have been 602 covid deaths to date recorded by the Hawaii DOH, CDC statistics from 2017 alone recorded 637 flu/pneumonia deaths in Hawai'i. The state did not lock down or put capacity restrictions in place, and residents were not mandated to get flu shots.[1&2]

As the intention is to reduce the strain on the healthcare system, I implore our leaders to seek other solutions that do not infringe on civil liberties. This is crucial considering that the available covid vaccines do not stop the spread of covid. Our state should explore alternative treatment options such as the use of ivermectin-a medicine that is being studied in Japan and has shown great efficacy in the prevention of covid infection in India. According to a medical journal published in the NIH National Library of Medicine "Ivermectin prophylaxis was taken by 76 controls and 41 cases. Two-dose ivermectin prophylaxis (AOR 0.27, 95% CI, 0.15-0.51) was associated with a 73% reduction of SARS-CoV-2 infection among healthcare workers for the following month."[3]

With great concern I ask you, our appointed leaders to reconsider how they are going to

address this public health crisis, and I implore them to seek solutions that respect the rights of all residents and visitors to our islands while pursuing effective treatments.

Respectfully,
Thomas Moriyasu

This proposed Resolution is a heinous overreach by the government. These mask, vaccination, and vaccination status mandates are just a proposed “means to an end” that doesn’t exist...COVID is NOT going anywhere, any time soon. Vaccinated people can still contract and spread the virus so, instead of hurting the civil liberties of our citizens and business owners, the local government should be focusing on early treatment of COVID, and keeping patients OUT of our severely overworked/overcrowded hospitals. As our elected representatives, you should be WORKING FOR and REPRESENTING your constituents, NOT imposing your will on us.

I am in opposition of the vaccine passport as it is an over reach of government in the name of health and safety. Requiring a vaccine passport to dine in a restaurants, go to the movies, or go to any business without a covid vaccination is discriminatory. It is also in violation of HIPAA laws to request medical information to enter a business.

Written
Testimony

If the government truly cared for the health and safety of our community, the government would then encourage a healthy lifestyle that requires a minimal pharmaceutical approach and focus on building the immune system naturally. Also mental health has become more prevalent this last year, and more establishments that help people with mental health should be more easily accessible to the public.

Punishing people in opposition to the vaccine is unjust. Not everyone needs to have the vaccine because (1) they have natural immunity (2) the current vaccine has not been tested for long term effects & has many side affects (3) some people are unable to take the vaccine due to medical issues (4) Majority of the population does not require it because they are not in the age or health bracket that would cause hospitalization if they were to catch Covid-19.

Written Testimony

I'm writing to oppose the tyrannical government overreach of the Hawaiian leadership in regards to the vaccine mandates and passports. I'm honestly quite shocked to see Hawaii, of all places, to impose such tyrannical overreach. Hawaii is a proud state that houses the most diverse culture that embraces and honors nature, history and oneness with the earth. Yet, against all history of the culture and of world wars, Hawaii is pushing to strip Americans of their God given rights to free choice, religion, and movement. Not only are you making yourself liable for years of lawsuits due to deaths and side effects of the vaccines, you're also dishonoring your own people and their cultural heritage. On top of that, you will destroy your people, your economy, and future health. The lasting consequences of these actions will be felt for generations. I urge you to respect human dignity, freedom, and choices that have been given at birth from God. The government doesn't bestow or take away rights, they are given by God. In the name of Jesus Christ, I condemn this sinful behavior and I urge you to stop the bastardization of the constitution and the humans you swore an oath to protect.

I am against this mandate because it goes against my right to choose what goes into my body. This rushed vaccine should not be forced on anyone as it has killed thousands of people already including my grandmother. After she got her second shot, her heart gave out and she passed away earlier this year. Also, it is against my religion to support a vaccine that contains aborted fetal tissue, let alone inject it into my body. Please respect my choice and my rights. The vaccine doesn't even stop someone from contracting the virus and also doesn't prevent one from spreading it, but I respect those who chose to get it. So I expect the same respect in return.

You can NOT override my unalienable rights & liberties via mandates, ordinances, or laws. You all took an Oath and you are NOT upholding that Oath, therefore you are committing treason. You should be fully aware of the consequences of treason.

Written Testimony I and many others are aware that Hawaii government officials have puppet masters to answer to. You need to emphasize to your "puppet masters" that Hawaii will NOT tolerate tyranny and we did NOT CONSENT TO BEING SOLD TO CHINA!!! We will NOT tolerate or conform to a social credit score system as China and Israel have implemented!!! You literally sold your souls to the devil, I hope it was well worth it!!!

Written Testimony

I am opposed to this resolution. Sadly "herd" immunity was a flawed "science based" based objective from the beginning and unfortunately the flawed usage is still part of this resolution target. It should be apparent from within this resolution that the references to vaccinated individuals getting COVID even at a lower percentage, should negate the target of herd immunity should be removed from this language. 100% COVID vaccination will not prevent COVID, therefore the only immunity we should be targeting or measuring is anti-bodies and trying to ascertain the effectiveness within the body over time. I am opposed to the burden of another Resolution or edict from the City county which does nothing but make those sponsoring the bill "feel" like they have done something which is only again cherry pick businesses as to impact. If it is truly an emergency then this Resolution should authorize all emergency procedures, such as immediate permission of an individual to use therapeutics (monoclonal antibody treatment) as necessary at the time the person(s) has tested 'positive for COVID, not waiting to see what happens to the the person's response to the virus. This then "might" reduce the load on our hospitals - no guarantee, but at least in an "EMERGENCY" we do treat COVID positive cases & survival as an emergency.
Thank you for reading.

Written Testimony

This is America where we have freedom of speech and the right to say 'no'. Your forced vaccine mandate is not democracy, this is exactly what Hitler did and the whole world opposed it. That's why America wanted Trump out of office (hopefully forever) but we didn't expect Ed Case, David Ige and Joe Biden all wanting to become the next Hitlers of this world. You, the politicians and CDC are misinterpreting and misinforming the American public about covid. There is definitely a strong agenda going on to launch this new messenger drug technology. As a professional healthcare provider I am seeing clients with mild to severe side-effects from receiving their mRNA shot/s and two clients recently were admitted to hospital. When I asked them to inform their doctors they were told that the vaccine was absolutely not the cause of their hospitalization. This really raises the question what selective data is being gathered by the doctors, VAERS and CDC, and how this is presented to the American public to fulfill the Big Pharma and World Power agenda of vaccinating the whole world. It's like you're promoting this new mRNA drug (shouldn't even be called a vaccine) with your political immunity and Big Pharma is completely free from future legal liability. Then FDA is fast-tracking this new drug at a record speed under the excuse that we're in a world pandemic. We need decisions made on scientific-fact rather than political agendas. Shame on you all. Stop your power trip and drop the vaccine and mandates. Our keiki need to play sports without you forcing them to have an experimental vaccine, our State and Government workers need to work without being forced into your vaccination program and our travel industry should not be chocked with policy which they then have to enforce to tourists coming to Hawaii. Mandating a digital passport program is absolutely not acceptable and America needs to return to being a democracy that abides by it's own constitution of rights. But don't get me wrong, I'm all for vaccination if people are correctly informed and willing to consent. Please go ahead and get yourself vaccinated as many times as you wish, and lets then see how you are in several years time. Some of my clients loaded Agent Orange onto planes during the Vietnam War, no one told them of the dangers, now they're dying because of cancer. Bitter-sweet medicine that the VA is giving them 100%

medical coverage. Are we the public going to receive medical coverage from our government or the American drug companies when we become conically or acutely sick ? No, because with covid our Government and Big Pharma have made yourselves free of liability. If the mRNA vaccine is safe and effective then you wouldn't need to bribe the public with incentives to vaccinate and you definitely shouldn't need to be mandating vaccinations and digital vaccine passports. This mRNA drug technology is clearly proving not to be safe in the last 8 months of experimental use. CDC have already reported over 12,000 deaths because of these covid vaccinations which means that this is a dangerous drug and FDA should be pulling this drug out of circulation and the American mRNA vaccination program stopped immediately. Rather than mandating us with this new RNA drug technology why not instead mandate smoking, alcohol, misuse of prescription medicine, GMO foods, artificial convenience foods, petroleum pollution, plastics ... the list just keeps going on. From a health perspective America is a weakened society, just walk Kuhio Beach and you'll see that 90% of the people are very unhealthy and sick. No wonder we are susceptible for disease. If you really care about public health then please ask Congress for 1 trillion in health-care education. Our society needs healthy foods and lifestyle choices so they can build, strengthen and maintain their own natural immunity. This is the greatest viral protection that we can all manufacture in our bodies without relying on artificial drugs, forcefully injected in us, to so-called "save us". Do the right thing, stop the vaccine and digital passport mandates. Aloha, Tedd Surman

We are on islands and alienated from services and medical care which are not available in all counties. These islands are in a different situation than the mainland. We cannot drive somewhere to get what we need. We are stranded. Therefore there is a different level of responsibility attached to the “vaccine passport” issue that other states on the mainland do not have and there is an additional moral and legal liability attached to this decision.

Written Testimony

It is extreme to require one to receive a vaccine that has not undergone normal safety trials and is considered experimental. We all know the FDA approval is fraudulent, the only one approved is not available. I personally called Phizer and they said it is NOT approved. To date these vaccines not have a higher fatality rate and adverse reaction rate than all other vaccines combined. Additionally, there are places where there has been many cases of covid19 positive people who were fully vaccinated. This is because these vaccines DO NOT provide immunity, they only lessen they symptoms (by 39%) if one contracts the disease.

Therefore it makes no sense to require these to reduce the spread or to reach any sort of herd immunity.

For the above stated reasons which can easily be confirmed with data and facts, there would be an extreme legal liability to the state, and to state representatives in a personal capacity, if any of these vaccines are made mandatory or if freedoms are denied in any way as extortion to compel citizens to get the vaccines against their will.

To whom it may concern,

Despite everything going on in our world, I wish you well. I love Hawaii and the island community that I grew up in.

There's no other place like Hawaii, where people show respect, love, and aloha to one another. Recently, I'm very saddened to see the ongoing division taking place in our local community due to vaccine mandates.

Whether you choose to be vaccinated or not, I believe one's health decisions is ultimately up to oneself. We shouldn't villainize one another because we do not agree on a stance. I believe both sides have equally valid points and neither shouldn't be discredited or penalized.

Written Testimony Vaccine mandates should NOT be a way to encourage people to get vaccinated. Coercion is not consent. By threatening the livelihoods of many innocent people, you are doing more harm than good. You will realize that force does not bring and will not bring the results that you want.

There are people such as myself cannot and choose not to be vaccinated due to medical conditions. Others are uncomfortable putting new and unfamiliar substances in their bodies. Both reasons are valid. You cannot force people into submission, we're all different and have the right to choose for ourselves.

When you give people the freedom to choose, you will see that people often make rational decisions rather than decisions based on fear and resentment. The government response to this pandemic has done more harm than good. I hope that you choose to hold up your oath and serve ALL the people of Hawaii. Thank you for your time.

I am in opposition of the vaccine passport as it is an over reach of government in the name of health and safety. Requiring a vaccine passport to dine in a restaurants, go to the movies, or go to any business without a covid vaccination is discriminatory. It is also in violation of HIPAA laws to request medical information to enter a business.

Written Testimony

If the government truly cared for the health and safety of our community, the government would then encourage a healthy lifestyle that requires a minimal pharmaceutical approach and focus on building the immune system naturally. Also mental health has become more prevalent this last year, and more establishments that help people with mental health should be more easily accessible to the public.

Your position on the matter Oppose
Representing Self
Organization

I adamantly oppose Resolution 21-194 because it violates the Constitutional and medical rights of men and women to chose concerning their own body. This Resolution is an absolute overstep in governmental authority. I am completely appalled at the consideration of this. This Nation is a nation founded on freedom of choice, freedom of speech, and freedom to govern one's self. This is a nation by the people and for the people; therefore, the government is in place to serve the people. This would be completely abusing and overstepping in that authority.

Written
Testimony

Currently, we have no long term studies concerning the vaccine and its effectiveness, side effects, or injuries due to it. Additionally, it is well known by now that this vaccine does NOT prevent transmission, but helps prevent severity of symptoms. Therefore, it will not stop the spread of the virus itself. Furthermore, the current surge being seen is due to the delta variant making it completely illogical and against science to believe the vaccine will bring case numbers down as the vaccine itself was created to prevent severity of symptoms (not prevention of transmission) of Covid-19. Additionally, Ivermectin is currently successfully being used to treat Covid-19, as well as the variant. There is treatment available for the virus for those who's bodies are needing additional assistance, therefore to mandate a "health card" is again, not only against science and logic, but completely overstepping in governmental authority. This Resolution is not about health, but about control.

I firmly believe it is a complete violation of constitutional rights of citizens to require a "health card". I stand in opposition to Resolution 21-194.

The vaccine passport goes against all of my rights. As a Hawaiian and a citizen that does my due diligence it is going every bit of my belief and my rights. The segregation that you folks are proposing NEEDS TO STOP! I birthed carried my children and is trying to raise the to my best ability i should have every right to choose how my body will be and what will go in my body and my families. THIS NEEDS TO STOP

The “vaccine passport” initiative is a violation of basic constitutional rights. It is also a HIPAA compliance violation and Lt. Governor Josh Green is very aware of this. The Government has created its own distrust with the people of Hawaii and it’s malicious practices.

“FORCING” an agenda is not going to build any trust with the people which you have already lost.

Businesses have already been crushed by your “mandates” in 2020 continuing into 2021. Yet you don’t report that data accurately.

Report that the virus is treatable.

Written
Testimony

Report that 99.6% of people who catch it survive it.

Report that you can still catch covid and spread it if you CHOOSE to get the shot. (I say shot because it is not a “vaccine”).

If this is implemented the government will most likely create a mass exodus of Hawaii’s citizens and more businesses will be forced to shut their doors.

MANDATE IS NOT LAW.

AND YOU KNOW THIS!

That is why you’re pushing “EMERGENCY PROCLAMATION” because you know it will never hold up in the judicial system.

- You were voted in by the people so listen to the people. Care for the people. The people are your reason.

Written Testimony

I strongly oppose any form of vaccine passports being required for a person to patronize a business. You are putting undue pressure on businesses to uphold this requirement and enforcing it with threats of closure. It is literally strong arming businesses and infringing on the civil rights of customers and employees alike. This is unfairly showing prejudice against certain industries and will put some people out of business. Personal health or exemptions or peoples medical decisions are just that, personal choices. The government should never be interfering in these kinds of policies.

Organization

Written Testimony

Good day sir/Madame. I am In absolute opposition of any “emergency approved” vaccine mandate denying my right to choose.
My livelihood is at stake.
My health is too.
Everything I’ve worked for & earned is potentially at risk.
This is completely unacceptable.
I voluntarily walk into our prison daily that has yet to see any positive covid inmate cases. We took early precautionary measures and continue to do so. Minimal to no social distancing as a Cook in the prison kitchen with extremely close proximity - that if I was asymptomatic, we would’ve had an outbreak. Respect to our leaders for early prevention. Rather than trying this or that, what is the real resolve here? It’s proven that regardless vaxed or not you can carry & contract. Again I pose the question, what’s the remedy? It’s not a vaccine mandate. I am in absolute opposition. Thank you for your time.

I declare this resolution to be against the natural rights of the citizens of Oaho. This goes against the Hawaii State Constitution by infringing on the peoples access to resources and medicine needed for life. This goes against civil rights laws. This is medical cohersion with no sound science backed conclusions. The statistics are being manipulated through faulty PCR testing and there is no real pandemic beyond a bad flu season. What is the true motivation behind these lockdowns that suppres business our economy and people's rights and medical liberties. The vaccines are not helping stop spread, in only enhances a depressed immunes system antibody count. Most healthy people do not benifit from the vaccine and the risk factors involved are high. Over 15000 recorded deaths and over 500000 recorded injuries. Do you want this blood on your hands? It is if vote for this resolution.

This is ridiculous! You pass this it literally takes away complete freedom of people of Hawaii! You'll have some that comply but also a lot who won't. You're basically gonna start a civil war of the vax and unvaxxed. Which is very childish. I've talked to state representatives of other states and gave them the so called facts about Hawaii's covid statistics and basically they've said Hawaii is treating it elementary just like most of the western states. My stepdad was senator Michael O'Pape of PA and even said that was is horrific! You have such a strong group of people who have lived a certain way here and you want to take that from them. Do it and see what happens. Not gonna be what you expected. Think about the people. Also do research on influenza virus of the early 20th century. This doesn't even compare.

Written Testimony

It is absolutely unacceptable to make me show any of my medical records in order to go anywhere in public.
I am confused as to how David Ige and Rick Blangiardi feel that they have any rights to turn the State of Hawaii into a Police State.
This is incredibly anti-democracy, and a definite HIPAA violation.
The fact that this government are attempting to interfere with my daily fitness routine is obvious proof that this vaccine mandate has nothing at all to do with health. They are attempting to make it exceedingly more difficult for those of us who lead a healthy lifestyle to participate in physical exercise. I have had to FIGHT to keep going to the gym to pursue my fit lifestyle due to the city & state attempting to close down any forms of physical fitness. I am a public servant, and it is part of my JOB to maintain my fitness. The fact that Caldwell/Ige, and now Blangiardi/Ige are pushing against health and fitness illustrates the lack of concern the Hawaii government have for the health of the citizenry.
Your government should be tried by the US courts to force you to let us pursue our healthy lifestyles.

I think this is just absurd. If this is really about protecting the people then the Vaccinated should also be tested as they can be a symptomatic. What about people with medical exemption or kids? If they were to go into an establishment what's protecting them from a vaxxed person that's A symptomatic? If your gonna do this mandate then mandate testing for all people. Not the vaxxed vs the unvaxxed.

Written Testimony

A vaccine passport is unwarranted as it has been acknowledged by the CDC in a recent report that those who are vaccinated can get Covid and can spread it to others. Excerpt rom the CDC report: The viral load of vaccinated people with breakthrough cases is the same as in unvaccinated people, the CDC said Friday"High viral loads suggest an increased risk of transmission and raised concern that, unlike with other variants, vaccinated people infected with Delta can transmit the virus," CDC Director Rochelle Walensky said in a statement. "This finding is concerning and was a pivotal discovery leading to CDC's updated mask recommendation. The masking recommendation was updated to ensure the vaccinated public would not unknowingly transmit virus to others, including their unvaccinated or immunocompromised loved ones." So as you can see those who are unvaccinated are not more likely to spread Covid to others. This is a way to punish people who either can't or don't want to accept a Covid vaccine. As it has been established that those who have gotten the Covid vaccine can still get it and spread it, why is it not proposed that the vaccinated get tested within 48 hours of entering an establishment? Is it because this isn't about public health, but instead is about trying to force everyone to get a vaccine whether they want it or not? This is unconstitutional! I am in firm opposition to this resolution! DO NOT PASS IT!

Written
Testimony

I strongly oppose vaccine passports for the state of Hawaii. The vaccinated and unvaccinated are carrying the same viral load - this is well documented science. Therefore it makes no sense to allow the vaccinated but not the unvaccinated in establishments. The vaccines are leaky vaccines, in which this study shows that leaky vaccines do not prevent spread or contagion, but instead cause the virus to mutate into a more harmful strain, which we've seen exactly this happen with the delta variant <https://pennstate.pure.elsevier.com/en/publications/imperfect-vaccination-can-enhance-the-transmission-of-highly-viru-2>. We cannot allow this state to make medical decisions for the citizens by taking away their freedoms to go into businesses because they do not want a vaccine that clearly isn't working, has no long term safety testing (especially when it comes to fertility), and has many known risks associated with the vaccine. The bottom line is there cannot be mandates where there are risks. Please do not allow this to happen in this state, please.

Written Testimony I work in a restaurant and to require employees to be vaccinated and to check every customer is unrealistic and goes against medical privacy. I strongly oppose this bill and it should not be allowed to be passed because one mayor thinks he has the right to make health decisions for tens of thousands of people. He is not a doctor.

I am vaccinated but do not support this approach to the pandemic. Vaccination does not make you covid proof. Encouraging people to improve their health in general is much better and should be a public health issue regardless of covid. During lockdown people actually gained weight and became less healthy. This passport will further divide us as a community. Let's work together.

vaccine passport mandates: Why are you forcing people to do this if we don't want too? Both vaccinated and unvaccinated and get sick. Not once have we stopped tourism over the last year and a half and now we are requiring vaccine passports? The science is conflicting - the CDC has confirmed that you are still likely and able to both contract and transmit coronavirus being vaccinated. It has given people a false sense of security and vaccination passports do nothing to further the welfare of the community in Hawaii. It will shut down small businesses, it will hurt patients economically, psychologically, socially. These are the repercussions of faulty mandates. Please follow your heart for what's write for people and not money.

SHAME ON our government trying to discriminate and segregate the people of HAWAII.. stop allowing non-locals to travel here!!!! Don't mandate a vaccine for locals, and workers!!! It's unlawful on so many levels!! Our country was built off freedom, close the state down to foreigners traveling here. BTW A FOREIGNER IS ANYONE WHO DOESNT LIVE HERE, which means if you fly here from AMERICA YOU ARE FOREIGN. Being foreign one should have no rights to travel to our local state unless they live here and are returning home... we DO NOT, I repeat DO NOT need to vaccinate ourselves we need to close our state to this foreign disease which is HAOLEs coming here HELPING TO SPREAD THIS VIRUS... keeping Hawaii open to the foreigners allows this virus to keep multiplying and mutating.. what's next the Z variant? STOP MANDATING THE V let our local economy go back to locals supporting locals, tourism is killing our way of life, and are STRAINING OUR NATURAL RESOURCES!! Look at the inflation for homes in Hawaii, anything getting bought in the market is foreign desire in our native lands. Locals can't afford to live here and now your trying to fire us for choosing what's right for ourselves. I DO NOT SUPPORT THE MANDATING VACCINE POLICY. It violates our human rights!!!

Taking away the rights of the residents of Hawaii based on their choice not to get vaccinated for a virus sets the stage for a program that YOU will eventually be in opposition to. This is targeting and removing the rights of specific individuals that are not in step with the state agenda.

This is a perilous move.

As Martin Niemöller, a German Lutheran pastor, wrote in confessional prose post-war WWII:

Written
Testimony

First, they came for the Communists, and I did not speak out because I was not a Communist. Then they came for the socialists, and I did not speak out because I was not a Socialist. Then they came for the trade unionists, and I did not speak out because I was not a trade unionist.

Then they came for the Jews, and I did not speak out because I was not a Jew. Then they came for me, and there was no one left to speak out for me.

Taking away your citizen's freedoms by mandating, with executive order if necessary, a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation is a violation of the freedom of this country and state.

I stand in absolute opposition to RESOLUTION 21-194.

I am ADAMANTLY opposed to any and all legislation that discloses personal, private medical information as well as discriminates and divides the community. As public service businesses and entities, you are required to provide accommodation and cannot discriminate against people based on their medical preferences. It is a proven fact that vaccinated individuals catch and spread covid. What is the purpose of this passport other than to divide and alienate a portion of the population? Spend time and resources on supplying and equipping the medical centers as you told the public you were doing during the time you shut down the state. Again, I urge you to reject this divisive piece of legislation. It is wrong and immoral to segregate people based on their own personal medical decisions.

Our founding fathers would be ASHAMED of how you are taking away basic liberties. Remember the law, Roe V. Wade, my body my choice. What happened to that basic right??? You are essentially blackmailing people to take a drug that has not proven to do what a basic vaccine needs to do, prevent this illness. The data shows you can still get hospitalized from COVID, you can still transmit COVID, despite being fully vaccinated. So what you are doing is a crime against humanity!!!!

Written
Testimony

We still live in the United States do we not??? The land of the free, but yet we are being downright strong armed into taking a drug that no one knows the long term effects (long as in more than 2 years which is the minimum that the FDA usually takes to do any kind of drug approval) for a disease that is 97% SURVIVABLE!

I strongly oppose these mandates that are stripping citizens of their basic right to live free and choose what's best for their bodies!!!

I do not agree with the vaccine passport bill. I am vaccinated and I do not agree with this mandate as it goes against our rights. This mandate will hurt business already trying to recover from COVID. First off all it makes no sense, because the vaccinated can get COVID and spread it too. So what difference does it make who is vaccinated or not? The only person protected from the vaccine is the vaccinated. This vaccine has not been tested long enough to be forced on people ? Is the state going to be held liable for adverse affects or late long term side effects of this vaccine so forcing people to take it? The vaccine companies are waiving their liabilities, so who is going to be held liable?

This bill is against my constitutional rights as an American citizen and I strongly oppose of it. The government should not keep its citizens from entering a place of business or public accommodation based on their personal medical decisions. Nor should the government pressure its citizens into injecting into their body, a substance that does not have research on the long term side effects of the mRNA in humans. Also, I've talked to many people that received the vaccine and they have done so without informed consent. They do not know the ingredients in the drug, what mRNA does to the structure of DNA, side effects, and deaths reported on VAERS, CDC. Lastly, I have natural antibodies from already having COVID so there is no need for me to get an experimental drug put into my body. I will also add that I GOT COVID FROM A VACCINATED INDIVIDUAL so obviously, this entire passport idea is not about keeping the American people safe. I will restate that I am strongly opposed to this bill. Thank you!

Written Testimony I am strongly opposed to this bill as it is an infringement on my personal liberty and my religious beliefs. This bill is also deeply saddening and upsetting to me and how it will threaten to separate our families and communities - we have already seen fruit of that here in the islands. Furthermore, I think the vaccine has been rushed and there is a lot more research and scientific data that needs to be collected before vaccines are mandated. I think this is a rash decision by our government officials -- I pray that you hear your citizens concerns.

A vaccine passport is totalitarian, segregation, and unconstitutional. You prove all suspicions of corruption right when you make moves like this—measures that have nothing to do with science and public safety, and everything to do with taking bribes from companies with trillion dollar budgets to pull government strings. Those of us who have survived COVID would like the simple respect of also being considered vaccinated, but that would make too much sense scientifically and makes zero money for you and your stakeholders. Your first responders worked FEARLESSLY all last year when there was no vaccine, just a need for them to be brave and professional. Now you threaten/bully those very professions? Telling them that they have no choice on what to do with their health when they are all quite capable of making informed decisions. You are not dictators. You are public servants PAID FOR BY US, THE PEOPLE—a complex collective that does not have one size fits all health. Those of us who still want to see the results of the longterm study, ready in May 2023, have the right to do so. Shutting us out of society will only crash your economy and cause chaos, riots, and mental health issues with subsequent violence and riots that you cannot even fathom. Also, you don't have the bandwidth or the police force to oversee these mandates. In sum, your vaccine passport suggests an Orwellian reality that you might want to rethink.

Written Testimony

Aloha,
I would like to oppose this resolution mainly because this creates massive segregation and division within our local community. There are many who do not wish to take an injection with contents that have not been approved nor transparent with possible side effects. Hawaii is not currently offering the Pfizer FDA approved vaccine yet, which makes this very inconsiderate to expect everyone to meet these expectations to participate in life when there is a proven Survival rate of 99.8%. Before implementing more mandates I think we should revisit how we got here in this panic to begin with. I would beg that my tax dollars be spent to pay someone to look into the testing Hawaii is using to test for covid-19. Do we have a diverse and wide range of testing? What are these tests really testing for? What does a positive result mean on these tests? What is one positive of if they get a positive result? I believe we have based this emergency on one static method that has not been questioned or refreshed now that we have 18 months of new information to work with. I urge you to recheck your work before overreaching into the private business sector and causing damaging division in this very chaotic time.

As a law-abiding US Citizen, the current proposal of Vaccine Passports and Covid mandates, are in direct violation of my 1st and 14th amendment rights. Our Four Fathers founded the United States on Liberty and true Democracy. We have been the model to follow for other countries the last 200 years. Unfortunately, due to the tyrannical Covid-19 mandates we are seeing roll out around the country, the United States of America is quickly losing its way and the essential values this nation was established on is crumbling before our very eyes.

Written Testimony

Unlike, other tested and approved vaccines we see in the medical industry, the COVID-19 vaccine has not withstood the proper timeframe of testing and trials that meet the criteria for administering. The assurance of safety is lacking. Therefore, we can term this COVID-19 Vaccine (aka Gene Therapy) as experimental. So then, the vaccine being experimental, we have to take into consideration the Nuremberg Code which was instituted to protect human life after the atrocities that occurred in World War II. Following, are a few highlights in the Nuremberg Code that would prove crucial when deciding to implement and enforce any Covid-19 related mandates:

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the

consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.
2. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

There have been recorded cases of people having taken the experimental Covid-19 vaccine and had dire affects: temporary ailments, life-long and handicap trauma, and even death. As an infringement on my liberty and medical privacy, I OPPOSE "Resolution 21-194." Thank you for your time and consideration. I know you will do what is Pono, and execute utmost Aloha as you make your decision.

The Resolution for a Health Pass is a waste of money. It is misdirecting funds away from more critical needs. How many people will die due to the insufficient supply of oxygen or the lack of a hospital bed because we deferred funds from the American Rescue Plan to this initiative instead of much more pressing needs? Every dollar spent should be going towards supplies, equipment, and staffing of hospitals and first responder agencies; or towards developing a home treatment plan for early onset of the virus. Those areas are being neglected by elected members of the State and City, and no more monies should be spent anywhere else until we shore up those shortcomings.

Written Testimony

Page 3, Paragraph 3 of the Resolution states that Governor Ige intended for the Health Pass to be VOLUNTARY. These two members of the Council wish for the pass to now be mandated against the Governor's original intent and against the wishes of most restaurant owners. In an August 17, 2021 news story by Hawaii News Now titled, "Survey of restaurant owners reveals most don't support an employee vaccine mandate", 90% of restaurant owners that responded to the survey opposed mandating a Health Pass that would force their employees to take the vaccine shots.

Page 3, Paragraph 2 contends that similar health pass programs in France and Italy led to increased numbers in vaccinations. When you tell scare people into thinking that they won't be able to shop for basic needs and necessities for themselves and their families unless they participate in such programs, that is coercion, not voluntary participation. This far-left agenda to make life difficult in order to increase vaccination rates is un-American. Vaccinations in Italy and France may have increased with the introduction of the green pass, but so did civil unrest and protests. When will you learn that the people will not bend to the will of the government? Government is supposed to bend to the will of the people. If you cherish your jobs, you will remember that. If you want to sit in those seats for another term, you will remember that.

The Health Pass is an attempt to create legal segregation. It does not guarantee the safety it claims to provide. It cannot guarantee to save any businesses. In fact, there are many of us in Hawai'i that simply will not go to a restaurant that embraces the Health Pass. Therefore, by passing this Resolution, you will have effectively killed many businesses. Too many decisions by the Council, by Councilmembers, by the Mayor, the Lieutenant Governor, and the Governor have resulted in the death of businesses in Hawai'i. Spending money on this Health Pass instead of on ventilation equipment, early treatment medicines for Covid-19, oxygen reserves, and increased hospital space will result in the death of people in Hawai'i.

Written
Testimony

I oppose the vaccination card for these reasons

1. The vaccine card is another step toward loss of freedom and choice. If you chose to get the vaccine to feel protected from getting Covid, or you choose to take a risk of getting Covid by not getting vaccinated, why is it necessary to invade people's privacy with proof of vaccination or a vaccine card?
2. The use of a vaccine card is a form of coercion, a pressure to conform by reducing liberties for those who choose not to or cannot get the vaccine due to preexisting conditions. The first item in the Nuremberg code states that voluntary consent is needed for an experimental drug/vaccine. We should not be punishing people who choose not to take the vaccine.
3. We should not be advocating the use of a vaccine that causes more harm than good. Based on the CDC's VAERS report as of June 16, 2021, there have been 5,993 deaths reported and 358,379 adverse events related to the Covid-19 vaccine. These adverse events include myocarditis/pericarditis (inflammation of the heart) in 15-24 year olds, dementia, Bell's Palsy, brain bleeding, miscarriages. Over a 16 year period between July 1, 1997 to December 31, 2013, VAERS received 666 death reports for ALL vaccines. See: <https://www.c19vaxreactions.com>, <https://www.bbc.co.uk/news/health-57766717>
4. Covid is not a pandemic. The death rate is less than 1%80% of the people who "died of Covid" had preexisting conditions. Hospitals were financially incentivized to report Covid deaths. Miraculously, no one died of the flu last year. Children have a 99.997% survival rate. For information on doctors successfully treating Covid, and other information not found in main stream media, see: www.americasfrontlinedoctors.org
5. Small businesses will suffer with a reduced amount of customers. We have already seen a number of small business close down. We don't need to force more of them to close.

Written Testimony

This bill is completely unfounded. People have been Following the vaccination protocol blindly without waiting for the studies to actually follow through. We are actually in a state of experimentation and we are finding out what's happening after the fact so it is wrong to divide people and when there's already such a huge gap between the rich and the poor and the Hawaiian and non-Hawaiian communities. There also is coercion happening where people that wouldn't normally get the vaccine but are forced to just survive. There are new studies coming out where people who have gotten Covid and survived have a 13% higher resistance to Covid variance which is stronger than those that have been vaccinated. People who have been vaccinated also can't be infected asymptotically and still spread the virus. It is morally apprehensible that this is even happening and it will cause even more divide within the state. I suggest slowing down tourism in order to catch up with what is happening with the health demands of the state. As opposed to forced vaccinations, which do you have side effects that the media is not talking about, but we can meet these people online and there is research from other countries that have stopped vaccinations like Germany because of what happens with the side effects that the united states governmental agencies are not looking at. They think that so many deaths and neurological disorders and heart conditions that are arising within children that get vaccinated are OK when they are not. For the health and well-being of the people I do not recommend mandating vaccine passports for access. This isn't going to go away overnight realistically and how many booster shots it's not going to prevent people from becoming infected. I suggest we have a healthy state and focus on strengthening any immunity so that we do survive this and show the rest of the world what real Aloha looks like.

I'm strongly opposed to this bill.

First of all, it is unconstitutional to discriminate individuals based on one's vaccination status.

Written
Testimony

Moreover, this bill can have a highly detrimental impact on our community. It has NOT been proven that people who are vaccinated against COVID-19 does not catch the virus and spread it to others as an asymptomatic carrier. (There are significant numbers of breakthrough cases globally with Delta variant, and it is very possible that vaccinated individuals who catch the virus show less or no symptoms and become asymptomatic carriers). Thus, allowing vaccinated individuals dine-in in restaurants without social distancing would cause more cases of COVID-19 infections in our community.

For these two important reasons, I strongly opposed this bill. As an alternative, I suggest 1) mandating COVID-19 testing to incoming tourists regardless of their vaccine status and 2) enforcing both vaccinated and unvaccinated individuals to practice social-distancing in indoor spaces. Thank you very much for reading my testimony. I hope our community will overcome this crisis and stay as a warm and healthy place where everyone is well respected.

Written Testimony

A person of political position must respect the nature of the constitution. It is in place to preserve individual freedoms and limit government powers. It is an act of war to violate human rights by forcing the administration of any substance under duress. Political Authorities have no jurisdiction over the health of individuals nor are they licensed, bonded or insured to practice medicine.

Any Emergency Mandate past 30 days of this pandemic is a violation of state law and demonstrates dishonor of law.

This agenda violates my constitutional rights and my human rights. I know of more deaths by vaccine than from covid19 and as a immune compromised individual and have already had covid19 I am immune. Herd immunity is the goal, not 100 % vaccination. Eliminating individual rights based on compliance of authoritarian dictators is an example of communism. Laws are a contracts between parties who agree. This is not law. Nor lawful. Creating a dictate by order is in fact, a dictatorship.

Cease and desist from your aggressive power grab and allow the medical professionals do their job as health care providers. This issue is not within the scope of your licensing, training or liability. Each individual has rights and your first duty is to uphold the constitution. The constitution has no clause that Eliminates our God given rights if there is an emergency.

Written Testimony

According to the CDC, both vaccinated and unvaccinated people can transmit new variants of COVID-19 equally. However vaccinated individuals are less likely to be symptomatic, which means they'll feel well enough to go to restaurants, gyms, etc. potentially spreading the virus to those who can't be vaccinated. A vaccine passport would work in a situation where only unvaccinated could spread the virus, but that's not the case.

Written Testimony

I oppose this bill for many reasons, but mostly because it will not stop the spread of Covid. Vaccinated persons still carry, and spread the virus just as unvaccinated people do, so to allow them to move freely does not make sense. We need to think of better more constructive ways to fight this disease. Most unvaccinated people have heart issues, religious beliefs, or are downright afraid of the vaccine. It should Be their right to make medical Decisions for themselves, based off their individual history and experience. A vaccination passport will only create more divide between our community, which is truly the LAST thing that we need.

Written Testimony

I strongly oppose this bill.
I love Hawaii. I have called it home for over 20 years. I moved here because of the rich history, beautiful lands, and diverse people. We are free because of our freedoms. Requiring passports, sharing our personal medical choices and beliefs, does not support freedom. The dictionary describes freedom as...
free•dom frē'dəm ►
n. The condition of not being in prison or captivity.
n. The condition of being free of restraints, especially the ability to act without control or interference by another or by circumstance.

Written Testimony

In January of 1983, a handful of businessmen staged an uprising to overthrow Hawaii's lawful reigning queen. Will we again allow the interests of corporate entities trample upon the rights of the Hawaiian people? Because the ecosystem without has already been invaded and destroyed, does the government now have dominion of the ecosystem within, that is our body and blood? If I should, as a native Hawaiian daughter, determine that vaccination is not in my best interests based on my personal medical history, my conscience, or my culture, will I now be systematically discriminated against by a government that has determined that the decisions and concerns of businesses are more important than my own? What is being proposed is flat out discrimination. I may have a history of myocarditis that puts me at increased risk of complications. I may have watched a loved one endure complications caused by the vaccine. I may object to the ethics of deploying a vaccine prior to long term studies and making the first wave of people to take it effectively a part of an experiment. I may have objections of conscience to a vaccine that was tested using human fetal cell lines. I may already have natural immunity through a prior infection. But will any of these private considerations have any weight when I am denied access to a gym, a restaurant, or a theater? In that moment my complex, weighty decision has been reduced to a mere check mark on a page, and in the same token my very personhood has been reduced to a vaxxed or unvaxxed individual. Meanwhile the complicated science behind viral dynamics has been reduced to an oversimplified calculus of vaccinated and unvaccinated spaces. This is unscientific for multiple reasons, first it gives an undue sense of security to vaccinated people, who we know can spread and be infected with the virus as is evidenced by the cape cod outbreak that happened in Massachusetts. Furthermore we know that there are unvaccinated people who currently have greater protection than vaccinated people, whether through prior infection or viral resistance. It is also unscientific because physical activity has shown to reduce poor outcomes from COVID-19, while anxiety, obesity and related comorbidities have shown to incur some of the most significant risks. So restricting access to gyms and entertainment venues could truly have a very negative impact on precisely the outcomes that are supposedly

the target of this resolution.

Ultimately it is yours to decide whether to be on the side of history that wrested the rights of the individual to determine what their own best course of action is and vested that awful authority instead with corporate and government interests, or to stand with those who would like to choose what is best for themselves and their ohana.

Written Testimony I cannot believe how the people of Hawaii has allowed this tyranny to continue! Forced vaccinations are unconstitutional, unethical and plain out wrong!
And then on top of it to be forced to show papers Ludacris also against privacy act laws!
Whatever happened to my body my choice! Only when the government wants to kill your babies then it's your body and your choice!!! This is straight madness and you all that follow the one world agenda will be judged for you wicked and evil deeds!
The real pandemic is child trafficking, tyranny and all the fake fear That the government advertise to the people to keep them trapped and addicted to fear!

Aloha Committee,
I write in strong opposition to RESOLUTION 21-194.
I suggest you kill this Resolution that infringes on the rights, and liberties of a free,
independent people and society of Hawaii. This breach of trust is discriminatory and
unlawful. Allow each business to create their own health policies and leave the govt out. At
this juncture, there are cures and recovery for covd and there is insufficient evidence that the
covd shots are effective or safe as they are currently experimental and under EUA. Let the
people decide.

I am in opposition to this resolution because it is punitive in nature and single focused on the false notion that the vaccine is the only possible way to combat Covid. It does not take into consideration that numerous treatments and preventative measures are readily available and working. Nor does it consider those who are recovered or may have a legitimate reason to not get the vaccine. It appears that the aim is to simply bully the unvaccinated public and further divide our community by restricting access, employment, goods and services and to taxpayer funded public accommodations until all succumb to this tyranny.

The Safe Travels Program should be testing everyone, unvaccinated and vaccinated. The Safe Travels Program as proposed is only incentivizing compliance for getting the vaccine.

Written Testimony What is the goal of the Safe Travels program?
Ending the spread of Covid-19?
Or the vaccination of the entire traveling population?
These are two different things.

Based off research performed, experts in the field of Epidemiology have stated that vaccine mandates “are not only scientific nonsense, they are also discriminatory and unethical,” Kulldorff, a biostatistician and epidemiologist”. This is based on the fact that “Prior COVID disease (many working class) provides better immunity than vaccines (many professionals)”.

In addition to these facts, the various iterations of the COVID vaccines do not prevent infection and transmission as per the current status of Israel, who has the largest percentage of their population that has been fully vaccinated, and yet just a few days ago, reported the COVID Infection count at 11,000, for just one day.

Written Testimony With that being said, why would Hawaii push for mandatory vaccinations? Somehow this equation does not add up. Why would you risk placing your population in harms way?

I agree, COVID is troublesome, but is it worth risking the health and safety of a healthy population, and it's youth?

Respectfully.

Dear Decision Makers of Hawaii,

Written Testimony

I, Numela Makinano, hereby oppose Resolution 21-194. The main issue for me here are the actions that the City is taking with these COVID-19 vaccinations. We have a right to choose what we put into our bodies and by passing bills such as Resolution 21-194, it is another form of force, to be vaccinated or here are the automatums. Another reason that I oppose this bill is due to the fact that this bill is promoting these COVID-19 vaccinations that does not work, that does not prevent the spread of COVID-19 and that may very well have toxins that I do not want in my body. Please consider other ways to keep Hawaii safe and let us people have the choice to put what we choose to put into our bodies.

Thank you very much for hearing me out and I pray that we can come together with a better plan that is both safe and responsible.

Ke aloha nui,
Numela Makinano

Why is it that your forcing those who chose to not get vaccinated to be treated like criminals? You have no scientific proof that this vaccination works. And we know that you have been given lots of information on why this vaccine is dangerous & not preventive. I personally got infected/exposed from a tourist who was fully vaccinated that tested positive for covid! So why again are the unvaccinated rights taken away when the very people you are allowing to go on in life are affecting people around them with covid! Never before in history has this government over step & forced people to do something against their will. We are Americans & proud of our fore fathers who have sacrificed their lives for our freedom to choose. You have been placed in these positions by the people of Hawai'i to represent us & protect our rights. Do the right and honorable thing by hearing the people of Hawai'i & allowing us to chose what we want to do with our own bodies.

I oppose the vaccine passport. I believe as an American citizen, we have the right to choose what goes into our body. Separating the vaccinated and unvaccinated is racist, and segregation. This will only add flames to the fire and cause a great amount division. Per CDC , in 2017, 637 people died from the flu. As of today 591 people had died from covid, many with underlining conditions. Flu deaths are still greater compared to covid deaths. Where was all these mandates during 2017. Are we really in a pandemic? The number one killer is heart disease which killed over 2500 plus people in a year. Why are we not mandating closures of fast food restaurants? How about we mandate gyms? Oh but we must show a passport in order to work out? Help me makes sense of this please. How about we focus on healthy lifestyles. This vaccine passport is ridiculous and to me is more about control. You need to do what is right, and shut this down immediately.

There are a lot of governments out there that are corrupt but Hawaii's government is treating their people like stupid uneducated, when government let thousands of tourists arrive everyday vaccinated that are carrying the virus and government mandating residents to take the vaccine or they will have to live
Does that make sense
People that are vaccinated are still catching and transmitting the virus covid and they are okay to go everywhere untested
We have and should always have the right to our own choices of how to live and choose for our life and our family
I choose for my freedom of my rights and I oppose to this mandate that does not make any sense

This is unethical and illegal to mandate a vaccine passport. How can you propose a vaccine passport for private industries to restrict individual access to employment , certain business establishments, and other venues and places of public accommodations when there are so many individuals who have never received a vaccine in their life? It's hard to comprehend how no other vaccine is mandatory, and the Covid19 vaccine is. Whether you are vaccinated or unvaccinated you can spread Covid. Whether you are vaccinated or unvaccinated you can die from Covid. What I don't understand is vaccinated or not you can spread and die from covid, but if you have the vaccine you get privileges and if you don't, you get your rights taken away from you. Vaccines need to remain voluntary or you will be committing a crime against humanity.

What happened to the "My body, My choice?"

I strongly OPPOSE Resolution 21-194. I strongly OPPOSE digital health (Vaccine) passports. Vaccine passports violate our religious rights and/or for people who cannot get vaccinations for medical reasons.

Vaccines need to be tested for years to see the long term side effects. See below from VAERS (Vaccine Adverse Event Reporting System) what side effects are already happening.

VAERS COVID Vaccine Data through August 20, 2021

100,966 Office Visits with COVID Vaccine
74,368 Urgent Care with COVID Vaccine
55,821 Hospitalizations with COVID Vaccine
13,627 DEATHS with COVID Vaccine

Written
Testimony

VAERS ID: 1231560

AGE: 17| SEX: F|State: NJ

On 4/17/21 (ie within 48 hours of receiving COVID 19 Pfizer Shot #2 (4/15/21), my daughter began experiencing chest pain in the PM (PM of 4/17). It was initially mild so we did a watch and wait overnight but when it did not go away by morning of 4/18/21 we went to Urgent Care . Upon presentation at urgent care, she had an irregular EKG, we were advised to immediately do to a Hospital ER , upon arrival she presented with same EKG findings from urgent care, BW was run and her troponin level was a 7, this hospital recommended (after consultation with their cardiologist) that based on her age and urgency of the heart condition, we should be transported to a pediatric hospital with cardiology expertise. She was transported by ambulance to another Hospital, Cardiology Unit. . After a scary 24 hour overnight stay at the hospital she was released on 4/19/21.

VAERS ID: 1141993

AGE: 19| SEX: M|State: NV

At 2-8-21 at approximately 1:00pm I recieved my 2nd shot. At 5:00am on 2-9-21, I woke up experiencing an extreme headache, nausea, body aches, and severe chest pain. I checked my heartrate with a PulseOximeter and found it to be elevated at 105-115. I called out of work and rested in bed for the day. On 2-10-21 most of my symptoms had subsided however the chest pain persisted through 2-11-21. On 2-11-21 at 2:00pm, I visited the Urgent Care. While there, the provider ran an ECG, Chest X-Ray, and bloodwork. Test results showed Troponin levels in my blood had reached critical levels of 7.72ng/ml. I was immediately transported to the ER at the Hospital, where upon arrival they did an EKG and bloodwork. I was then admitted and seen by a cardiologist, who ordered an CT Angiogram, more bloodwork, and an Echocardiogram. After I was admitted, my mother contact the nurses station to check on me and asked what was wrong. She was then told the hospital was treating me for an NSTEMI and Myocarditis. This resulted in a 3 day hospital stay where the results of the tests showed there was nothing wrong with my heart other than the increased Troponin levels. It should be noted that I have had ZERO previous cardiac issues, or any other significant health issues. I was discharged from the hospital with lower but still elevated Troponin levels, and told to follow up with my primary care doctor. I had no health issues and felt fine until I had my second dose of the Covid-19 vaccine. I have copies of my hospital records detailing all of this.

I, Kehau Bellefeuille, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I oppose all covid-related mandates. People have the right to autonomy and self-determination, medical choice and informed consent, and health care information privacy.

The testing is invasive and under EUA, making it experimental. The PCR test does not determine infectious disease and can not differentiate between Covid, pneumonia, or the flu. The EUA PCR test was developed from "various fragments" and NOT a separately isolated SARS-CoV-2 sampling. The PCR test can be manipulated to detect almost "anything" if amplified enough times, again not reflective of any infectious disease.

Written
Testimony

The EUA covid vaccines are experimental and people have the right to choose to not be a part of human clinical trials. There is zero long term safety data and the vaccine manufacturers have been given blanket immunity from injury or death. The WHO and the CDC acknowledge that these biologicals do NOT prevent disease transmission, provide MAYBE 6-8 weeks of immunity (thus the global breakthrough infections we are now seeing), and those vaccinated can still catch Covid and transmit Covid. The vaccines do not provide community protection and therefore the vaccines provide limited immunity to the vaxed individual only. Per the WHO and the CDC, they also state that the viral load between the vaxed and unvaxed is the same. Yet you, our government, plan to give social freedoms without restrictions to the vaccinated only and exempt the vaccinated from testing while discriminating against and punishing the unvaccinated for making an informed choice to refuse to participate in a biological experiment and clinical trial and to rely on their body's natural immunity ability. You further plan to discriminate against the unvaccinated population by subjecting them to frequent EUA invasive testing if they continue to refuse the EUA vaccines. Instead why don't you help us with target population treatments and screening and make ALL treatment options available to the community so we can focus on prophylaxis and early intervention. This would mitigate illness, prevent severe disease, and decrease hospitalizations. Support the physicians who support prophylaxis and early intervention as

adjuncts to vaccination for those who want it. Do not impugn good physicians like Dr Pang in Maui.

For these reasons, I stand for freedom, liberty, and oppose all covid-related mandates.
Mahalo Nui Loa for your and attention. Cory Lee

Written Testimony

You are violating our God given and constitutional rights, the Nuremberg Code (1947), Declaration of Helsinki (2000), Belmont Report (1979), CIOMS (2002), U.S. Common Rule (1991), and Protection of Human Subjects in Medical Experimentation Act (Sections 24170-24179.5). The COVID-19 “vaccine” is a gene therapeutic and does not meet the definition of a vaccine. Despite receiving FDA approval for Pfizer, clinical trials were never completed therefore the “vaccine” is still experimental. Other vaccines are still under emergency use authorizations. There have been no studies of short and long term effects associated with the “vaccines” therefore we the people cannot give informed consent. According to VAERS, there have been more people die from the vaccine than those who have died of COVID excluding those with comorbidity and the elderly. The COVID-19 virus has never been isolated therefore there is no proof that it even exists. The PCR tests were never intended to be used for diagnosis of Covid or any other virus per the inventor Kary Mullis. The PCR test provides false negatives when cycled above 20 and cannot differentiate between other viruses like the flu and common cold. If Covid does exist there are medications available to treat it which removes the need for a vaccine. The “vaccines” have also not proven to be effective in preventing the spread of Covid. Dr. Robert Malone is the inventor of mRNA technology and is currently speaking out about the dangers of mRNA “vaccines”. You will be held accountable for your decisions. I recommend that you choose wisely. Your tyrannical decisions violating our God given and constitutional rights will have consequences. You will be held accountable for your decisions. I recommend that you choose wisely. We the people have the power to remove you and we will use that power if you continue to violate your oath of office.

Written Testimony

I strongly oppose this resolution. Mandating a vaccine and now regulating where people can and can't go in the name of "public health"?!

If the public's health was a real concern, why has there been no discussion on preventative health measures like supplements, prophylactics, or at the very least, early treatment. Surly this would have created better outcomes than "stay home until you can't breathe".

And IF our hospitals are overwhelmed, then bring in reinforcements. Isn't that what the fire department does when it's overwhelmed by a large forest fire.

But no, the response here is only talk about masks, social distancing and coercing/forcing/shaming people into getting an unproven, untested experimental-only allowed because of an emergency order- "vaccine" and if you don't get it, you're a danger and you now will be stigmatized and have your freedom to work, play sports and move around your community freely monitored and/or revoked. If you taught actual prevention and treated actual symptomatic, positive tested (with a reliable test) early, our hospitals would be able to handle. But instead, you are choosing to steal our freedoms. How un-American of you.

I oppose Vaccine Passports because it infringes on our constitutional rights as citizens of the United States of America.

For the record, I am not anti-vaxx, anti-face masks, anti-social distancing. I'm all for it. I get it, COVID is a real threat to us and our communities. I am, however, anti-forced government regulations that go against the rights our fore fathers fought to protect.

United States of America
Bill of Rights
Amendment XIV
Section 1

Written
Testimony All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. NO STATE shall MAKE or ENFORCE ANY LAW which shall ABRIDGE the PRIVILEGES or IMMUNITIES of CITIZENS of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

The part that is most important here is, " NO STATE shall MAKE or ENFORCE ANY LAW which shall ABRIDGE the PRIVILEGES or IMMUNITIES of CITIZENS of the United States".

Constitutionally speaking, it's illegal, this is going too far, and we have had enough.

I strongly oppose vaccine passports!!! This is supposed to be a free country! We have only seen forced vaccines and medical dictatorship, when the Nazis were trying to take over. And Hitler was creating segregation in the communities, just as YOU are doing now with the vaccinated and unvaccinated. This is not right, especially in Hawaii where we are supposed to have and show Aloha and yet we cannot even embrace our Ohana without the vaccinated scrutinizing us. The survival rate of COVID does not compute to losing freedoms!!! KEEP HAWAII FREE!

Written Testimony It is illegal to mandate an experiment. Nuremberg Code.
FDA-EUA is not approved it's authorized.
Since it's not approved it's therefore an experiment. The vaccine is still in a minimum of a 2 year testing trial.

America, Hawai'i it's a free nation and a free state we are a free people and this counsel has no right to ask anyone under our constitution for a vaccine passport. It is not your position nor were you elected to office for such a matters.
The Pandemic Is Over! No one gave this Governor almost 2 years of emergency power.

We have constitutional rights to be free from Tierney, free from oppression.

Written
Testimony

You will not turn Hawai'i and the People a Hawai'i into a communist nation.
If you read the FDA letter to Pfizer you will see that the Covid vaccine now being used has NOT been approved only the EUA was extended. I have attached the FDA litter for your review. The vaccine authorization new name is Comirnaty. This vaccine has not be manufactured and is NOT available.

The people of Hawaii know the Covid count numbers are skewed the PCR test is flawed and there is no test for the so-called Delta Variance. You have used fear and emotional manipulation to get the people of Hawaii to comply with your Tyanny. When people are afraid they follow the leader. Well the people of Hawaii are no longer afraid of you. We have constitutional freedoms and we intend to keep them I hope your vote no on this vaccine passport nonsense. And keep in mind the Hawai'i no longer sleeps we know that it's "We The People" not "We The Government"

The passports condone segregation, discrimination, and divide amongst citizens and does NOT promote opportunity for ALL citizens to remain mentally, physically, and socially healthy. We are a people who understand the connection of our land to our bodies and forcing anyone to do something they are not pono with is not in our culture. We need to have everyone be sovereign over their own bodies and that of their families while promoting healthy regimens to proactively care for themselves. Learn to boost their immunities and keep themselves healthy overall. The city and county is voted by its people to speak and act on behalf of its people.
It is irresponsible to criminalize our people and let non-residents freely roam the city. Passports are another chain of colonialism we should not participate in.

Testimony

I OPPOSE THE VACCINE PASSPORT! This is unconstitutional and goes against everything American. To discriminate based on medical information is appalling and has no place in a free society. The psychological impact that this pandemic has already placed on the people, families and businesses of Hawaii is still fresh and recovery from this will take years. Businesses are still trying to overcome the first shutdown and this passport will only continue to place burdens on all. When we should be working together to get through the hardest years of our lifetime this will only divide Hawaii, continue to build distrust in our government and resentment towards the leaders who are supposed to work for ALL the people not just the vaccinated. I am absolutely disgusted to be living in a time where we are openly segregating against American based on their medical information. It is the job of our leaders to lead with fairness and find a common ground so all can thrive in our islands. NO TO THE VACCINE PASSPORT!

Written Testimony In accordance to the vaccine passport. This is completely unconstitutional, and a violation to health. I as a tax paying American have the right to control what goes into my body. It goes against all rights for proof to live as a citizen with a "passport of health" I am healthy and I do not need an app to tell me. This is discrimination and one step closer to becoming nazi Germany.

Written
Testimony

I Oppose this Vaccine Card.. this "Resolution".. I believe God gave me something called an IMMUNE SYSTEM..and I have lived for 42yrs thanks to it..i have not taken ANY vaccine since I was 13yrs old..and I refuse to take THIS covid vaccine. I have my Human Rights...and by passing this Resolution ..where you need a card to get into a store..buy food..travel..THATS not FREEDOM...so I'm going to be discriminated against because I don't have a card and refused to take some vaccine shot?? THAT'S NOT BREAKING ANY LAW..i should be able to buy food..travel and live my LIFE the way I did prior to 2019 without some CARD..

I caught COVID!! was totally fine . .like catching the cold/flu! Date..08/29/21..never Died..never needed Hospitalization...so am I a walking MIRACLE??? Because the media is saying how deadly this virus is! NOPE...its because my immune system has protected me all my life..and will continue to do so. WE have a CHOICE to take or not take some stupid shot...thats the way it's been for decades..I won't live in FEAR..even though thats all the MEDIA is trying to portray, and I refuse to let anyone take away my Human rights and Constitutional Rights as a American citizen. I strongly oppose such a disgusting card that will make everyone's life HARDER and cause more stress and anger among the people of Hawaii.. I don't want it here on Maui and even if it passes..you better believe I will Fight..WE will fight back at the injustice!
Mahalo for hearing my testimony.

Dear Members of the Transportation, and Health Committee,

I was born, raised and currently live on O'ahu in Nu'uano. am writing in **STRONG** opposition for Resolution 21-194 on vaccine mandates. This is a gross violation of our civil liberties and the principle of my body my choice.

Beyond that, it is **not** following the science. I'm including below a 10 minutes of an interview (first link) with Robert Malone, the inventor of mRNA vaccine technology and a vaccinologist with a ton of experience in FDA approvals. He articulates it better than I can though I will try to summarize below in case you do not watch the video.

Written Testimony I believe firmly that history will not be kind of legislators who push Covid 19 vaccine mandates given what we know at this point in time. Even mainstream media outlets and some top medical journals are pointing out how concerning the FDA's approval process and newer data on delta and the vaccine. And how unscientific Biden's push for the booster is. Ignorance will not be accepted as an excuse. Any elected official who even things about signing their name to this legislation/resolutions like this has the responsibility to really know their stuff. And top scientists are saying we don't know this is safe and it is far, far less effective with delta, the now-dominant strain. Below I'm including the video I mentioned and a handful of articles that provide further support from the British Medical Journal, New York Times, Stat News and NPR.

1) Video (only video) of Robert Malone on how poorly supported/unscientific these mandates. Which is one reason I think people will be slow to forgive legislators who support mandates. Because we have a lot of information already that it does not make scientific sense. This will get more obvious over time:

<https://odysee.com/@AlisonMorrow:6/cdc-director-says-hope-but-no-data-yet:8>

- 2) A few articles by the British Medical Journal on how shoddy the Covid vaccine approval process was:
<https://blogs.bmj.com/bmj/2021/08/23/does-the-fda-think-these-data-justify-the-first-full-approval-of-a-covid-19-vaccine/>
<https://www.bmj.com/content/374/bmj.n2086>
- 3) An article from NPR on how 30% of FDA-approved drugs were recalled or black-box labels were added...an average of 4.2 years later:
<https://www.npr.org/sections/health-shots/2017/05/09/527575055/one-third-of-new-drugs-had-safety-problems-after-fda-approval>
- 4) A scathing New York Times article from Juen titled “The FDA has reached a new low” demonstrates the poor judgment and bias of the FDA approval board at this point in time:
<https://www.nytimes.com/2021/06/15/opinion/alzheimers-drug-aducanumab-fda.html>
- 5) Stat news on how Biden is not following the science:
<https://www.statnews.com/2021/09/01/biden-pledged-follow-the-science-but-hes-fallen-short/>

Malone lays out how lacking the safety studies have been as well as how with what we know about delta and the vaccine’s declining efficacy against it, there’s no way we’re stopping the spread with the vaccine. Both Israel and the UK, who are ahead of us with their delta data are seeing 40-50% of their beds filled by vaccinated patients according to Malone. He says the 99% number being bandied around by Biden, Walensky and Fauci is not true. Given that, in his words it’s “crazy” that government officials like yourselves are drafting authoritarian bills and mandates to force us to take this novel gene-based vaccine (that doesn’t act like traditional vaccines btw). Again, this is the inventor of mRNA vaccine technology. A man who has spent his career in vaccine development and on FDA approval boards.

And he doesn’t even get into how new this gene-based technology is (previous vaccines’ safety tell us little or nothing about mRNA vaccine safety) or VAERS (Vaccine Adverse Events Reporting System) being off the charts. But they are. Over 10,000 deaths and hundreds of thousands of injuries. Maybe the government’s safety system is unreliable as some argue, but obviously warranted at least a discussion. The burden of proof should be that they are unrelated. That burden has not been met. In light of the concerning VAERS signal, the fact the FDA disregarded their own protocol to hold an independent safety review board or public comment is beyond unacceptable. It’s also kind of suspicious. And now you’re trying to mandate it on people as a condition to participate in normal society? It is hard for many of us to wrap our heads around. Such a gross violation of our bodily autonomy. If we are injured, are you willing to be personally and financially liable? You will certainly be morally responsible.

Again, NPR reported in 2017 that 1/3 approved drugs the FDA approved they later had to recall or add black box warnings for serious adverse side effects they missed. It took an average of 4 years for these actions to be taken. In the video, Malone says there is a recent study from the New England Journal of Medicine finding more adverse events than reported in the clinical trials. The FDA recently approved an Alzheimers Drug that didn’t prove efficacy, had brain bleeds as a side effect and which their entire independent panel voted against (except one who was neutral). And that costs \$50K/year. There are serious questions about their judgment and priorities. Even the New York Times says they have hit “a new low”. You think it’s okay for you to force us

Given this and the fact with delta we know the vaccine doesn’t stop the spread, it makes no sense how you think you have the right the force this on people by threat of essentially barring them from society. Making a medical apartheid state. Dr. Malone articulates the madness of this better than I can. Please watch the video of him. It’s only 10 minutes and it is powerful.

Again, since this information is out there and even in mainstream news. I believe you will regret voting for this measure if you do. I believe those who resist the pressure will be grateful they did and rewarded in the end.

Thank you for listening,
Lauren Paer

I oppose to resolution 21-194 for the City Administration and state of Hawaii develop, implement and "mandate by executive order" if necessary, a digital vaccine passport program for private industry to restrict individuals access to employment, certain business establishments, and other venues and places of public accommodation.

Vaccine passports have significant implications for privacy and autonomy, freedom of movement and association, equity and discrimination.

Vaccine passports is a discrimination against unvaccinated individuals! Why treat unvaccinated individuals so poorly when it has been proven time & time again that fully vaccinated individuals can catch & transmit the virus as easily as unvaccinated. I believe EVERYONE should be tested!

Written Testimony

As a young Hawaiian citizen, I strongly oppose Resolution 21-194. As a twenty-one year old woman I was raised with the belief that “no” meant “no”. I was taught that no one had the right to coercion or force me do something with my body that I deemed against my health, will, and morals. I’d like to ask; when a policy regarding vaccine passports is based on a “take it or suffer the consequences” mentality, how does that differ from rape? In what free society are the citizens forced to be the lab rats in an experiment that goes against their health, will, and morals? Some may say this is an issue of public health and safety. However, if this truly was for the public’s health why have our state officials not exhausted every option? Why are the people of Hawaii pigeonholed into only one option? Why are many prominent scientists and doctors who are considered experts in their field being ignored by our state officials? This is governmental coercion and medical rape! The people have not been fully informed, therefore cannot give full consent! This shot is still experimental! And even when full testing has been done I reserve the right to choose what does and does not go into my body! I am beyond disgusted with with the Hawaii state government! Shame on any state official that allows this Resolution to be passed.

Thank you.

Getting straight to the point; this is my body, my choice! I do my best to keep my body healthy and clean of toxins. I'm not standing in front of the hospital telling everyone who comes in with lung cancer that they deserve it for smoking or people who come in with a diabetic stroke that they deserve it for eating too much sugar so PLEASE do not tell me that I have to take a vaccine to keep others safe and healthy. Everyone has to do their own part in keeping themselves healthy! Stop focusing on the vaccine and start focusing on how many unhealthy people we have on our islands. Instead of shutting down the beaches and parks, we should be shutting down fast food! Freedom of choice is a basic human right. It is a civil liberty. Unhealthy people getting sick does not justify discrimination and segregation. We have come to far and fought to hard to give up our basic civil liberties. I greatly oppose the vaccine passport!

I oppose vaccine passports. This is not in the interest of our people of Hawaii. Families have mixed vaxxed and unvaxxed and testing every 48 hrs is not feasible or logical. Hawaii does not have the testing capability to keep up. The current vaccines are only 39% effective against Delta. Vaxxed can get it and spread it just as much as the unvaxxed. This will also cause extreme hardship for the workers as you seem to be blackmailing our people for their jobs and requiring them to be vaccinated. This is not pono. This is evil.
VOTE NO!

It is our God given right to freedom and choice, the government has no right to tell the people of Hawaii what they should put in their body nor do they have the right to discriminate against people. Everyone who wants the vaccine has had the chance to get it and everyone else realizes the choice they are making. People are not being forced to change their lifestyle to a healthier one nor or they being forced to take vitamins. Small businesses and the people of Hawaii are the ones who will suffer if people are segregated and discriminated against. There will always be sickness in the world, some people will suffer more than others but we need to focus on the real consequences and that is on the long term of people's well-being and the youths mental health. Our youth will suffer the most if this bill passes.
I stand for our FREEDOM

I STRONGLY OPPOSE RESO 21-194.

Cease and desist with your tyrannical apartheid measures compelling local businesses to illegally enforce violations of civil liberties of the people of HI and to block people's access to public accommodations. Shame on you! How much are you and others being paid to commit crimes against humanity under color of law? History and true justice will not be kind to pushers of such totalitarian rules. Show us the science you rely upon as rationale, and give us an independent audit and transparent definition of "COVID cases" and "deaths". Why are COVID-injected individuals not counted as such until two weeks past their last gov't-recommended injection, and how has this skewed our hospital "case" statistics dictating our virus mitigation rules, while potentially concealing actual adverse events due to the injections?

Written
Testimony

PCR tests as diagnostic tools are NOT scientifically grounded according to PCR inventor Kary Mullis and many tests are being recalled, while still in use until December. This is fraudulent. There will be accountability for tyrants and sell-outs. How is it that hypocrite LT GOV Green can have a recent private soirée in a restaurant on camera, unmasked and not at social distance with his multiple guests at a table (with kitchen and service staff all masked), while he daily with the fawning local media calls upon all others in HI including the vaccinated to follow those protocols as a safety measure? Why no enforcement against his transgression? Then he has the gall to namecall critics as "anti-Semites"?

These are not vaccines, but rather are experimental gene therapy shots with no demonstrated ability to stop transmission of the virus, nor are they demonstrated to be safe; the effects on fertility, mutagenicity and carcinogenicity are unknown, with an ominous report of accumulation of toxic spike protein in ovaries and testes. You are putting the health and wellbeing of people and our future in Hawai'i in jeopardy and will not attain your stated goal

of preventing spread of SARS-CoV2 by ignoring the fact that vaccinated individuals just as easily can shed and spread the virus. We know this isn't really about stopping spread but rather is about controlling human behavior and coercion of medical procedures and medical experimentation. Media is not covering and is censoring reportage and mention of adverse events after the shots. <https://www.openvaers.com/covid-data>

You will FAIL in this endeavor, and will be held accountable for violating people's right to informed consent under the Nuremberg Code and other US laws...

Where there is risk, there MUST be CHOICE!

Written Testimony

First of all, it is unconstitutional to mandate a vaccine, much less a vaccine passport for a drug that has not been thoroughly tested . In fact, it is a poisonous bioweapon. A CDC whistle blower claims there have been 45,000 American deaths already from the deadly poison death vaccines. Another thing is that the virus has never been isolated. The CDC and FDA faked 'CoVID' testing protocol by using human cells mixed with common cold virus fragments. Like I said before, this mandate, which is a **STRONG** suggestion, nothing more and it is **NOT A LAW!!**

Another thing to consider is that these "vaccines" contain deadly viruses and the so-called Delta virus, which is transmissible to **UNVACCINATED** people. So you are actually putting unvaccinated people in danger. The jabs should have never been authorized because there are lots of inexpensive treatments that work very well, like Ivermectin and Hydroxychloroquine.

Written Testimony

I should have a right to my medical privacy and a right to Freedom. There are still many unknowns about the vaccine and I live a healthy lifestyle and I am also pregnant and there are still many unknowns. It should be my choice! Why should I be forced into taking a vaccine when you can still get Covid, can still pass on to other people, and you have to apparently keep taking booster shots after getting the 1st 2 shots. It does not make sense. Those like myself that choose not to get the vaccine feels like we will always be judged, looked down upon, segregated. This is affecting my job because if they mandate it, I would be forced to find another job which is going to be hard if everywhere mandates it and I won't be able to pay any of my bills or live life. These unnecessary mandates are also bad for businesses trying to survive this as well, with so many places short staffed and trying to constantly follow and keep up with all these changes it will be hard for them to bounce back. Again it should be our choice, not mandated or mandatory!

Written
Testimony

STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I make this testimony of my own free will with no undue influence. Thank you for your consideration.

Please hear the voice of reason. I strongly oppose the implementation of a mandated digital vaccine passport. To restrict access for individuals based on their status is not going to solve the public health crisis. Vaccinated individuals can still carry the virus and have a greater chance of suppressed symptoms. During times like these we need to come together to work on resolutions, not allow ourselves to be divided. Some of us have serious medical concerns with the vaccine and are doing everything in our power to stay as healthy as possible. Thank you for your time.

I strongly oppose imposition of your covid 19 "health card." You're scientific evidence is lacking. Covid 19 has never even been isolated in order to be tested by the PCR tests currently in use. Further (and current) restrictions imposed by this government are unconstitutional, an abuse of power, and false imprisonment. I think we need a forensic audit.

To Whom It May Concern,

Written
Testimony

You are attempting to destroy more businesses and people's lives with your draconian, authoritarian and tyrannical proposed resolution. You are "othering" those that won't go along with the forced vaccination push. You are infringing on our god-given and constitutionally protected freedoms. There aren't massive outbreaks or "super-spreader" situations of Covid-19 originating in gyms, in stores, or in restaurants, etc.... A more common sense approach to the virus would be to start using proven drug treatments to help curb the severity of infections, hospitalizations, and deaths. Many other countries have seen great successes with Ivermectin, Hydroxychloroquine and other treatments. Even Japan, the country of origin of Ivermectin, is calling for its use to treat Covid-19. It's not right what you all are trying to do to us. Your proposed resolution is dangerous and threatens the cohesion of our community. I urgently request that you please make the right decisions for "all" of us. I respectfully oppose Resolution 21-194.

Organization

Dear Council,

Written Testimony

I strongly oppose the resolution to mandate a vaccine passport that will only allow those who are vaccinated to be served or to serve in public places or private businesses. This is an outrage and a step closer back to segregation the likes of which we have not seen in decades. This doesn't even follow the so called science when even the CDC has explained that the vaccinated are more likely to carry and spread Covid-19 than those who are not vaccinated. I urge you to take politics out of our well being, and vote nay on this resolution. We are not a communist nation, and we should never adopt policies like this that mirror communism. Mahalo for your time and consideration.

Written Testimony

The majority of US states are protecting individuals and businesses. Only a few are looking at covid cards and other ways of identifying vaccinated individuals. Thankfully, California passport bill, AB 455, is dead for another year. This resolution is an abuse power and of our fundamental rights. It is discrimination. In the USA, individuals still have the right to decide what we put in our bodies. There are laws that protect our health records and how they are to be shared. So far, there are only two exemptions allowed: medical and religious and those individuals may not be permitted the FREEDOMS bestowed on the vaccinated public. There are many more valid reasons for not getting vaccinated (personal choice being at the top of the list.) There is also a large portion of the population that have had covid and have natural immunity. Many individuals have lived a life of healthy choices that has strengthened their immune system. There are others that are concerned about the ingredients and the side effects. I have friends with relatives whose menstrual cycles are off just by working on clients and another who got headaches, rashes+ so stopped working. Another friend still has a rash all over her body. Sadly, I have friends whose relatives (cousin, aunt, sister) that have died after the second dose. Bloodclot, coma, death. A local doctor shared about two new moms who passed bloodclots to their babies. I had a conversation this past weekend with a new acquaintance. She shared about her driver knowing someone who died. She also said one of her regular clients stopped coming and when she called his wife, she said he died. There are still too many unanswered questions so I don't intend to get a shot. I have paid taxes and always been a law abiding citizen. I have visited third world countries and always felt Blessed to live in the USA but I don't think history will look kindly on all that has/is being imposed. We have fought countless wars to secure our FREEDOM and sadly it seems to be crumbling from within.

Written Testimony

I oppose this bill because it would segregate people based on their personal health choices which are protected under HIPPA law. It is nobody's business to know my health history and I resent being required to prove whether I have taken an experimental drug that is being questioned and discouraged by health officials around the world. Requiring a vaccine passport is discrimination of the highest form. Do the owners and employees of the government and other establishments have to show proof that they've been tested for TB as well as other communicable diseases? What about hepatitis? HIV? Influenza? The common cold? NO, they do not. And all of those diseases are just as dangerous as, if not more than, COVID. Either everyone has to prove everything or no one should have to prove anything. Singling out COVID like it's the only communicable disease in the world is ridiculous. As a citizen of the United States of America, I am protected under the Constitution to have autonomy over my personal body. I am also promised the right to life, liberty (freedom!) and the pursuit of happiness. Telling me where I can shop, dine, do business is an infringement of my rights to move about freely and participate in society. As a law-abiding, taxpaying, citizen of Hawaii I take issue with any resolution challenging my inalienable rights. Therefore, I strongly oppose Resolution 21-194.

This Resolution is discriminatory. I am not able to get the vaccine due to an auto-immune disorder.

Segregation based on race, religion or medical status is wrong. Medical information is an important aspect of the right to privacy. Compulsory vaccination, as an involuntary medical treatment, amounts to an interference with the right to a private life. Health decisions should be left up to individuals.

Written Testimony

Furthermore, there are existing treatments already available to treat COVID patients, making it unnecessary to mandate a certain treatment such as a vaccine. In addition, research shows that those with natural immunity to COVID will see a 2 to 3 fold increase risk of adverse reactions from the COVID shots.

Furthermore, there is no evidence to show the vaccine prohibits transmission of the virus, nor protects an individual from contracting the virus. Studies have shown the high viral load in those already vaccinated; thus, they continue to transmit the virus regardless of being fully vaccinated.

Written Testimony

I have been a dental hygienist for 24yrs, a dental hygiene instructor for 19 yrs. I was deadly afraid to go back to work in May so I got my health up to par in August & returned we had our second shutdown. I didnt qualify for unemployment because I was still getting paid for my instructor job however most of my income was from my dental hygiene job. I am a single parent with a very complex health history and surgeries along with many allergies due to taking medications. I was always sick however decided to research natural holistic meds and now I take alot of vitamins and dont even remember when I was last sick. I believe certain vaccines work however also believe everyones body is different which is why I have not taken the vaccine. I was told by my functional medicine dr that there would be a great chance I would get an adverse reaction. I dont ever take the flu shot and I never get the flu. I hope we can find a better way to make Hawaii safe because it is very unfair to force people to put something in their body they are comfortable with. Also I dont gather, I always wear a mask even at home. because we have a blended family, I social distance at work, I am diligent about washing my hands and have respect for others around me. Please do not mandate vaccines its going to cause more harm than help especially because we know now vaccinated people can still spread COVID. I also think it gives them a false sense of protection and they let their guard down which is why this virus has gotten out of hand. Dental hygienists are #1 high risk for catching COVID because we create alot of aerosols during procedures however I have done above and beyond to be sure my patients, my coworkers and I are protected.

I am NOT against vaccines, however I am extremely against any vaccine mandate. In the name of public health, this bill discriminates against the personal health choices of individuals. It is directly against our rights as humans to make very personal decisions without the government dictating our choices. In addition to stripping Hawaii residents of personal rights, it will further exacerbate distrust in the government. There are other ways to encourage people to make the best health choices for themselves, but mandating it, is not the way.

Written Testimony I feel the vaccine has too many risks to mandate people must get it in order to have free access. Surely there must be other ways to provide safe conditions for the public, than forcing people to get a shot that might cause ill effects. I understand Covid is dangerous and we need to control access to a greater degree now. Thank you.

Written Testimony I don't not want me or my children to be forced into taking a vaccine that no one knows what the long term side effects. And now my job and way to provide for my family is in jeopardy because I refuse to get vaccinated. And trying to ban people who are not vaccinated from traveling, entering restaurants and stores is not the direction Hawaii need to go. I would be hurt I anything would happen to me or my family if we did take vaccine. So please reconsider this

Thank you

Written Testimony It is very unfair to mandate vaccines. It is actually seperating families, friends, coworkers and Hawaii. It is almost discrimination seperating vaccinated vs unvaccinated. People of Hawaii should have a choice and if you want to keep Hawaii safe you should have everyone test regularly until this virus is gone.

Written Testimony I personally believe in freedom of choice. This vaccine is not a vaccine , it's a new technology called mRNA that has zero studies about long term effects to our body . I do not want any government officials telling me what I can do to my body or not . Every one should have the freedom of choice when it comes to health . This is not constitutional at all and I strongly oppose to this . It will creat a huge gap new the community, and will hurt a lot of people .

I oppose this resolution. While mask mandates are acceptable because they are external, a vaccine requirement is not. It involves injecting serum into your body. There is still too much disagreement about the safety of the vaccine but my main objection is the government requiring people to inject themselves with the serum in order to carry on daily life. We DO NOT NEED this kind of interference in our personal lives.

Meeting Date 09-02-2021
Council/PH
Committee Transportation, Sustainability and Health
Agenda Item Resolution 21-194
Your position
on the matter Oppose
Representing Self
Organization Aloha,

I am writing as a concerned resident and voter because I am strongly opposed to the proposed vaccine passport and any form of vaccine passport hereafter.

Freedom of movement is among the most basic of human rights. I strongly believe that the people of Hawai'i and all U.S. citizens should be free to make their own medical decisions without being bullied or coerced by authoritarian and intrusive mandates. Restricting access to certain establishments or services based upon vaccination status is not only a violation of civil rights but will also negatively impact Hawai'i's already struggling economy.

Written
Testimony

While there have been 602 covid deaths to date recorded by the Hawai'i Department of Health, CDC statistics from 2017 alone recorded 637 flu/pneumonia deaths in Hawai'i. The state did not lock down or put capacity restrictions in place, and residents were not mandated to get flu shots.[1&2]

As the intention is to reduce the strain on the healthcare system, I implore our leaders to seek other solutions that do not infringe on civil liberties. This is crucial considering that the available covid vaccines do not stop the spread of covid. Our state should explore alternative treatment options such as the use of ivermectin-a medicine that has shown great efficacy in the prevention of covid infection in India. According to a medical journal published in the NIH National Library of Medicine "Ivermectin prophylaxis was taken by 76 controls and 41 cases. Two-dose ivermectin prophylaxis (AOR 0.27, 95% CI, 0.15-0.51) was associated with a 73% reduction of SARS-CoV-2 infection among healthcare workers for the following month."[3]

With great concern, I ask our leaders to reconsider how they are going to address this public health crisis.

I implore our leaders to seek solutions that respect the rights of all residents and visitors to our islands while pursuing effective treatments.

Respectfully,
Ian Shields

Written
Testimony

1. Vaccines don't work as well as first stated, fully vaccinated individuals can still transmit disease just as much as an unvaccinated person.
2. You are discriminating against those law abiding/tax paying citizens who are not vaccinated.
3. The government should be more pro-active in the health of this community. More information needs to be shared with the community on what to do to stay out of the hospital once someone is tested positive. There are so many alternatives to the vaccine that are readily available but yet you don't hear one single word about it on the mainstream media stations here in Hawaii. I have to search for it on my own. You think you would have a committee doing all they can to research such alternatives. If anyone is listening how about paying attention to what they are doing in Florida and Texas who have one of the highest numbers....they are making progress in bringing the hospitalizations down.
4. This is against our constitutional rights to move freely among this country and conduct commerce anywhere we choose to.
5. You need to come up with a back-up plan when the vaccines don't work. Do you have a plan?
6. Studies have shown the more people get vaccinated the more the virus seems to mutate because it's an unstable virus and is always trying to escape...
7. Also, regardless of the FDA approval...clinical trials are not even complete on this vaccine...usually it takes 10-15 years for the FDA to approve..
8. Finally, I just want to say that you have created such animosity between the citizens of these Islands...Turning people against each other instead of coming together to fight this..we could do so much better

All I'm asking is for you to have an open mind and just think of the possibilities that are there for everyone.

This virus is not going anywhere so the sooner we can figure out how to live with it the better...

Aloha! Absolutely not & no thank you. This is against any scientific evidence or support that it will stop any spread any further. It is illegal on your part to require such a "mandate" passed so quickly without the proper checks & balances in place to allow WE THE PEOPLE to voice our concerns and give input. You are not representing the best interests of the people. You are forcibly coercing this against the will of many citizens. It is direly concerning that you have no solid plan in place after all this time and what you are fast-forwarding through is risky at best. Please stop and desist from any vaccine passport mandate. Thank you & Godspeed!

The first amendment gives US residents FREEDOM OF SPEECH. This should also include freedom of choice. I am still breastfeeding my 14 month daughter and would rather NOT be vaccinated, as there is not enough research that states the vaccination will NOT transfer to my daughter and give her an adverse reaction. The flu shot has been around for decades, and I fully support that vaccine. The covid vaccine, however, is still relatively new, and should not be mandated across business! This is a violation of our rights!

Written Testimony

I vehemently oppose any type of vaccine passport program implemented in Hawaii.

I urge you as leaders to put all of your resources and efforts into a multi-faceted defense against this virus and the unknown potentials of the future. We need UNIFYING (not divisive) actions that will immediately address spread caused by both vaccinated and unvaccinated individuals, such as testing every traveler and organizing community engagement to provide direct volunteer support to both the healthcare system and to DOH.

I believe that our leaders have the ability to call all of our community members together with positive and supportive action that won't create division and instigate unacceptable blaming, segregation, and loss of physical autonomy and civil rights.

Please make decisions that support both the immediate need and our future with empathy and full representation of the people of Hawaii. Let's show the world how living with aloha makes the difference.

I oppose this resolution. This country holds a foundational belief in freedom and inalienable rights. Individuals and private industries currently have the freedom to conduct themselves and operate as they see fit. Other individuals or private parties who oppose them, can exercise their freedom as well in response. We do not need government to intervene. Government intervention like this is an overreach. It will tear and weaken those values and beliefs that sustain our island and state. I believe this will cause division. This will cause livelihoods to be in jeopardy. This will cause more mistrust in our leaders and mistrust in one another.

This is the Aloha state. There is no aloha in Resolution 21-194.

Aloha council members
I write to you in opposition of resolution 21-194. This resolution is tyranny disguised as Public health and safety. As a someone who has suffered from chronic health conditions in the past I have experienced first hand how fear is used to manipulate and paralyze someone into compliance. How many doctors told me that "I would die if you I didn't take this medication for the rest of my life or remove this organ." As a parent I also experienced first hand pediatricians use guilt, fear and shame to coerce me into making decisions that left my children injured and sick. I am thankful because these experiences have helped me to discern when decisions are caused by manufactured fear and when decisions are born out of love.

Written Testimony

Mandating a liability free medical procedure on free people is criminal and unjust. Mandating or forcing people to show their medical history in order to work, travel, bank, or have access to food is discrimination. Please think of the children, their future, their freedom and their right to refuse without fear. May Gods will guide all wills of men. May Gods love stream forth into the hearts of men. May Gods light stream forth into the minds of men. May the door to evil be sealed and may freedom survive. Thank you.

Written Testimony The vaccination passport does no purpose but confirm one is vaccinated.
Being vaccinated does NOT prove immunity.
Being vaccinated STILL can spread the virus.
Being vaccinated can STILL cause death.
There is no difference between being vaccinated or not because either way you can spread it so discriminating against those who oppose due to religious beliefs is against our right.
Taking away rights to fly or as simple as eating dinner out with our families and friends because we didn't get a shot is the beginning of communism.
We shouldn't be penalized for not conforming to "CONTROL."
It ISN'T right.

To whom it may concern,

I just want to say that I strongly oppose this bill. I am a City & County of Honolulu employee, have been for the last 6 years! This is my career! I do not agree with a vaccine passport limiting my entry to my place of employment. This passport would hinder my ability to provide for my family. I'm a single mom of 2, one school age child and one toddler. With the cost of living here in Hawaii, it would be IMPOSSIBLE to care for and provide for my keiki.

This vaccine "mandate" has already split our entire community! Everyone has the right to make choices for their health; a medical or religious exemption should NOT be the only way around the vaccine. Had this vaccine gone through all the vigorous testing that all other vaccines have, it would be a different story. But it wasn't!

Written
Testimony

I should not be discriminated against because I'm unvaccinated. Effective September 13, I will no longer be able to enter a grocery store, restaurant, gym, etc. however you being vaccinated doesn't mean you cannot contract COVID. You being vaccinated doesn't mean you cannot spread COVID. You being vaccinated does not mean you cannot be hospitalized or die from COVID. There is no justifiable reason why the unvaccinated should not have the same access as the vaccinated.

We are not a communist nation. We should not need a passport of any kind stating where we are allowed to go. This will not help the community, this will further divide us. The only way this will be better, is if both sides vaccinated and unvaccinated & elected politicians and community respect one another's right to choose. You would be preventing thousands of people the ability to provide for themselves and their families, you were elected to serve the

community, so please I ask that you serve the community as a WHOLE and NOT pass this bill.

Written Testimony

I oppose resolution 21-194 as it further divides and discriminants the people of this island. This promotes social divide and discrimination. When it is proven that people who are vaccinated still can contract the virus and spread it. Tell me how this makes any sense to discriminate the unvaccinated as both people can spread and contract the virus. This does nothing to solve the problem but is only making the problem worse amongst the people and businesses who have to follow these mandates, you are hurting their business!!This is not the answer to the problem at hand, you are taking away our freedoms and rights!

Written Testimony

I oppose the mandate coming for September 13th. Businesses have been operating since the reopening of Hawaii. We need them to stay open and with no digital passport, this will crush some businesses. This is discrimination. Those who are choosing to take the vaccine is their choice. Those who are choosing to not take the vaccine is also their choice. We live in a free country and it is incredibly sad and terrifying to watch the government strip our rights away. Other states in the country are not allowing this type of vaccine passport. Please reconsider, for the people of this land!

Written
Testimony I am vaccinated, I believe in the science of vaccinations and I think people should get vaccinated. I do not think discriminating against people who decided not to get vaccinated is the answer. I think that breeds more fear and mistrust. I also think it will negatively impact businesses, as less people will decide to eat out and thru the "hassle" of bringing their vaccine cards, uploading their vaccine cards, etc. I oppose this bill and the intent to discriminate people based on their personal choices.

Written Testimony I strongly oppose this illegal, inhumane and unjust request for vaccine passports. Restricting any individual on the basis of vaccination status is not only immoral and unamerican but ethically stepping over the line of bodily autonomy and our God given rights. I oppose this and so do many many many many other residents.

I absolutely oppose 'health cards', 'vaccine passports', and frankly any other nicely dressed buzz-phrases that go against our constitutional rights. These 'health cards' are not the solution and are creating bigger problems within our community. It is never okay to segregate and/or discriminate based on medical choices. These 'health cards' violate MANY state and federal laws. Your job is to uphold the constitution!

I oppose the proposed resolution mandating a digital vaccine passport program of any kind especially for private industry to restrict access to employment, certain business establishments and other venues and public places. I also opposed a vaccine passport for travel in and out of Hawaii or out of the country. Families and communities are being torn apart with these mandates. It's hurtful and sad for our children to experience these restrictions. Living in fear that our freedoms will be stripped from us... AUWE Honolulu - our poor children!

Written Testimony Why mandate something that is exempt from liability? The PREP Act as well as the NCVIA of 1986 give these vaccine companies immunity from liability & a no-fault system for compensating vaccine-related injuries or death. What is the benefit of vaccination besides the fact that it lessens symptoms of COVID-19? Does it prevent the spread of the virus? No it doesn't. There's is a big push for this vaccine, for no good reason but, to get as many people vaccinated as possible. The more people oppose, the more free incentives go out by companies to try & win people's interests with trips & gifts. When that doesn't work, then freedoms are taken away. When our freedoms are threatened for the simple reason that we the people aren't following a narrative, then it doesn't become a matter of health, it is a matter of compliance. I oppose this RESOLUTION 21-194 because it goes against our First Amendment Right & has absolutely nothing to do with the health & well-being of the people living in our state.

Written Testimony

I am opposed to the vaccine passport. I am for people's choice. This is wrong and it goes against our rights. I am social distancing. I am wearing a mask. I am only going out when I need to. I have not been going to parties nor participating in planning in parties. I am doing all that I can to stay healthy and safe. I feel that it is wrong to mandate a vaccine and have a vaccine passport. People who are vaccinated can still catch COVID and still pass it. I know people who had symptoms who were vaccinated and came home from the mainland but did not test until they lost their sense of smell. They were carrying on with fatigue and runny nose but did not realize it until they lost their sense of smell. How many people have they spread COVID to because they were advised they did not need to test unless they had symptoms. I have survived COVID myself. My first symptom was fatigue and I shut my entire household down as soon as I started feeling fatigued. I know that it COVID is very real, however, I am doing everything in my power to stay safe and keep my family in my household safe, so why am I punished because I am not vaccinated. This is inhumane and wrong ethically and morally. The vaccine passport is not the answer especially since you can still catch COVID and pass it. I have a friend whose father is in a care home. A vaccinated staff member had COvId and passed it to multiple vaccinated residents there. Why is this not being talked about? It is my choice and my body. When does this stop? The vaccine passport may be a choice but will eventually turn into a mandate. When does this stop? You may think this question is ridiculous but it's not. People with mental health issues are not forced into taking medications to keep them stable. They have a choice! Why don't we? People with HIV/AIDS are not forced to discuss their medication regimen. Why are we? You are making it very difficult to live in Hawaii. Maybe politicians should have to air their mental health and medical records so that the public knows you are capable to be a politician. So, where does this end? Where are our rights and choices. How can it be "my body my choice" when it comes to abortions but not vaccinations. Please, think about this implementation. I implore you to take this away. It is not right and inhumane especially being the the vaccine does not completely eradicate COVID

I STRONGLY oppose the implementation of a vaccine pass(port), Health Card, or any other form of proof of vaccination. Medical and scientific experts have testified the vaccine is NOT designed to, and real-life examples have shown, the vaccine does NOT prevent transmission of the virus and its variants. Despite being vaccinated, a vaccinated person is STILL able to contract the virus AND transmit the virus while being asymptomatic. The ONLY thing the vaccine does is lessens the effects of the virus in a vaccinated person. Also, the efficacy of this vaccine is very low with regards to the Delta variant because as we learned in school - viruses mutate (that is the nature of a virus). Vaccines do not mutate.

The other reason I am STRONGLY opposed to this "pass" is because of the future implications it has. This "pass" opens the door to expand, thereby including other places of business such as grocery stores or outlets, hardware stores, banks, post offices, medical clinics, to name a few.

Written
Testimony

As it stands, there is an unanswered question of how this will affect businesses, employees and consumers alike when it comes to enclosed shopping centers that have food and bar establishments within their building. Shopping centers such as the Windward Mall and the Pearlridge Shopping Center could be affected as well as other places of business.

Thirdly, this "pass" infringes upon an individual's privacy to his/her/their health and medical condition. The implementation of this "pass" destroys a person's right to medical privacy through such a blatant display. It strips away at one of the foundational freedoms that we, as United States Citizens, are afforded.

By implementing this "pass", you are punishing people who are either (medically) unable to receive the vaccination or choose to not receive the vaccination (for personal or religious reasons). You are punishing citizens, residents and visitors alike over false medical claims.

Decisions are being rushed on emotions rather than due diligence and common sense. I STRONGLY oppose Resolution 21-94, the implementation of a COVID-19 Health Card for establishments.

Written Testimony

The effectiveness of covid vaccine is not fully proven since CDC many times admitted that vaccinated people do not stop spreading of Covid 19 especially in reference to DELTA, nor does the vaccine prevent people from getting covid especially DELTA. Just because someone is vaccinated, it does not mean that they are not sick or spreaders, so health passport is pointless and only makes people less cautious in regards to theirs or someone else's health. Also, it discriminates against those who cannot get vaccine for medical or even religious reasons. I thought we are against discrimination, why are we continuing creating it in other layers of our lives and government? It must be stopped.

Also, there was research done in other countries which showed people who acquired natural immunity through actually getting covid and running the course of the virus are naturally immune to it and less likely to get it again which is even more strong than the immunity from the vaccine itself. People should be allowed to use their natural immunity blood counts as well.

Creating this mandate is wrong! It is unconstitutional and against natural rights of people. You can't simply ignore it; unless, of course the health of the people as not much of your concern as actual love of control and creating mandates. In this case, may God be your judge and may He bring His justice upon you and free us from the tyranny. Amen.

Written
Testimony

Aloha, I will keep this as short and sweet as possible.

I STRONGLY oppose this resolution.

- It further divides an already fractured community, creating an "us vs. them" mentality.
- It destroys my trust in you. Destroys.
- It further creates an environment that is even more challenging for small business owners. (The choice is comply with this policy or risk closing my doors for good.)
- There is no specified timeline. The Mayor may have said "60 days," but no timeline is for this order to end is stated. In addition, if the timelines regarding the delta variant continue here, cases and hospitalizations will decrease before 9/13. If that happens, which we all hope does, there will be no need for this order to be implemented.
- There are zero exemptions. Particular conditions should medically be exempt from this (i.e. pregnant women).

Anyone who previously had covid should also be exempt. Studies are revealing that, shocker of shockers, natural immunity is stronger than the immunity you receive after receiving the vaccine.

<https://www.science.org/content/article/having-sars-cov-2-once-confers-much-greater-immunity-vaccine-vaccination-remains-vital>

<https://www.news-medical.net/news/20210801/Antibody-responses-following-SARS-CoV-2-infection-more-potent-than-vaccine-elicited-ones.aspx>

<https://thefederalist.com/2021/08/05/study-finds-greater-antibody-response-in-recovered-covid-19-patients-than-vaccinated-ones/>

- This sets a precedent for government reach and overreach that is alarming.

I am not for or anti the vaccine. I am for an individual's right to make their own choice. There are a thousand factors that a person might consider: their health, the health of their family, age, lifestyle, having recovered from covid already, waiting until clinical trials are complete (2023), religion, the list goes on.

If you want to make this voluntary for businesses, fine. Individual business owners can decide what is best for their business, their staff, customers and the community at large. Forcing this on businesses is the wrong move.

It wil do more harm than good, now and in the future.

Written Testimony

A vaccine passport will cause segregation and hate crimes. Per the CDC and our Department of Health Director, vaccinated individuals are just as contagious as unvaccinated individuals. Business establishments should have the CHOICE to determine their own policy of who they welcome into their business. They are owners of their OWN business and the government should not have power to control how they run their business! This is WORSE then a SHUTDOWN! Controlling what and where we go!!!! This is tyranny to its fullest! With all the VALID research coming back that anyone can get covid, whether you are vaccinated or not, is enough to stop anyone from continuing to push towards vaccine passports and mandates.

I oppose to have the governor or mayor control our freedom of choice. My vaccination status should not be held against me where ever I decide to go!

The vaccine does NOT stop transmission which is the problem! So a vaccine passport will not help stop the transmission of covid, the cases will remain high until this variant runs through the people of Hawai'i.

Research how viruses work and how to accept that covid will never go away! Figure out ways to live with what is happening plus fix our very broken healthcare system that is improperly treating covid!

Written Testimony I oppse the digital passport or any vaccine passport. It will encourage discrimination and separation amongst the people. Please, you legislators are supposed to fight for our FREEDOM! NOT TAKE IT AWAY! Remember who you represent, THE PEOPLE, even if we are a minority. And if you have had COVID, we just be tested for antibodies and be counted as those with immunities. Like LT Gov SAID but erased and edited it. Please did you all not take an oath to protect our rights?

Written Testimony

How could this government enforce a passport mandate if the vaccine does not protect you from a virus that is 99.95% survival rate without treatment.... There's a lot of information going around and a lot of it is being suppressed by the media and politicians. It is our right as US citizens to be able chose whether or not we want to take a vaccine that has not been fully tried. With the VAERS reporting system only capturing 1% of data makes me question how much more worse the vaccine is and that's according to the CDC which you folks are following. I do not support the tyranny of this bill that strips the tax paying people who pay for your salaries of our rights just because you think you know what is right. Showing a vaccine passport is stupid and does not make any sense if people who has this passport can catch the virus and still pass on the virus as well. You officials left out all people who has recovered from the virus and according to the CDC the people who develop immunity from catching the virus are far better off then someone taking the vaccine. I am one who caught the virus recovered and against the stupidity of officials wanting to mandate a vaccine passport of a vaccine that has no immunities towards a virus that people have a 99.95% survival rate without treatment. Stop highlighting the .05% and be open and show every aspect of this.

Aloha. My name is Tyffiny Keliiaa. I am a native Hawaiian mother, a special education teacher for the Hawai'i State Department of Education, a co-owner of R Fit, LLC, a boutique fitness gym in Honolulu (which is about to close for good due to the pandemic), and a youth minister for St. Elizabeth of Hungary Catholic Church in 'Aiea.

I am writing to you in opposition of Resolution 21-194 which proposes that the City Administration and State of Hawai'i develop, implement, and "mandate by executive order if necessary" a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation.

I understand COVID-19 may have a severe impact on individuals in our community, and I say "may," because I have personally seen how COVID-19 affects people of different age groups and lifestyles in a variety of ways, from having no effects at all to dying. I do not understand, however, how I need to be forced to discriminate against co-workers, students, parents, patrons, and my brothers and sisters throughout the islands depending upon their vaccination status. This discrimination and "needing to know" personal medical decisions is ridiculous, nonsense, and completely uncalled for. I have taught my most vulnerable special needs students through worse flu seasons, and no one cared. Not one administrator, Department of Health or Education speaker, no union representative, and definitely no mainstream media, let alone mayor, cared. Not one bit. Yet somehow, you believe that in order to go about our daily lives, vaccination and discrimination is necessary in order to serve the community. I believe in a different definition of community service and that the implementation or mandates proposed in this resolution would cause an entirely different type of pandemic--poverty and distress. I must ask the City Administration and State of Hawai'i if it is willing to kill the Hawaiian community from the inside out by taking away its ability to work, care for and provide for its families, and give back to the community through the circulation of money, goods, and services. Do you intend to stop all taxes being placed on these individuals? Do you intend to feed these families and pay for their monthly bills? Let me ask these final questions. If all teachers that are unvaccinated were to step off of the job tomorrow, what would you do with all of the children left behind, with an already diminished population of educators and no substitute teachers? If all small businesses such as farms and gyms were to close tomorrow, who would keep the community healthy and moving, taking preventative measures to stay out of the hospitals? Would you prefer the children of Hawai'i to stay behind academically? Would you prefer Hawai'i continue to be obese, diabetic, and unhealthy so you can profit off of their disease through pharmaceutical means? That may be your unfortunate goal as a public servant, but my goal as a mother, teacher, and person of faith, is to empower the people to be active, educated, and prosperous. This Resolution will bring the exact opposite, and I am terrified of what it will do to our people and economy.

I humbly ask that Resolution 21-194 be voted down and the people of Hawai'i be given the freedom to decide their personal medical treatments, to open and run their businesses as they see fit, to work and provide for their families, and to go to school to become educated individuals. Mahalo.

I strongly oppose the use of vaccine passports. It is unconstitutional for those who decide to not get vaccinated for personal, religious or health reasons.

Written Testimony

As a native Hawaiian i strongly urge all in the power to do so to reconsider the ways to make our islands safe that doesn't jeopardize families and local business.

Written Testimony This resolution goes against our god given rights. It will put us back to an era of segregation, discrimination, division, and more. I ask you as a born and raised native Hawaiian, City and County First Responder, U.S. Army Veteran to please oppose these measures and any like them. Please remember what the U.S. Constitution affords its citizens and do not allow such government overreach.

Mahalo,
Jacob Char

Written Testimony

Requiring a "health passport" to enter establishments is unconstitutional and discrimination. Health looks differently on different people. Freedom to choose what we do/put in our bodies is crucial. It also does not make sense since vaccinated or not you can spread covid. It has also been proven once you have had covid you have better immunity then any vax can give you. In which majority infected have already overcame this disease. condolences to those who have not. each person needs to choose what is best for their body and their family without discrimination.

Written Testimony Please do not move forward with vaccine passports in Hawaii. There is nothing moral, ethical, or logical about them. These are experimental vaccines, even if one does have fda approval, they are still experimental. This will cause deep division and segregation. Every human being should have the god given right to choose what they put into their body. If you give take away this freedom, there is no endpoint. It will never end. It will prolong this nightmare indefinitely. Please do the right thing and oppose this terrible bill! Mahalo

Written Testimony I am writing in opposition to the resolution. I understand the need to implement some type of system to slow the spread of covid but a vaccine passport will only cause further complications. 14 states have banned or made attempts to stop vaccine mandates so far. What you are doing is causing greater division and only perpetuating the reason most people distrust the government. At this point we are learning that these vaccines may not be as effective as we thought and there are over 200 other vaccines in the works including nasal sprays that will be more effective. Rushing this vaccine passport thru is not the way to go and will only cause more conflict and segregation. Please do not allow this to go through.

Mahalo, Joshua Kaina

The Law Enforcement Oath of Honor from the International Association of Chiefs of Police states, "On my honor, I will never betray my badge, my integrity, my character, or the public trust. I will always have the courage to hold myself and others accountable for our actions. I will always uphold the Constitution, the community, and the agency I serve, so help me God."

Written
Testimony

My name is Korey Harris, I am a husband, a father, and a six year law enforcement veteran. There has never been a single day in my six years of service where I have questioned that being a police officer is my purpose in life. I didn't question my purpose when I was spit on, berated, or hit by arrestees. I didn't question my purpose when I responded to fatal car accidents, drug overdoses, or child abuse cases. I didn't question my purpose when called to perform CPR on babies who'd been victims of SIDS and their mothers were screaming in agony. I didn't question my purpose when the entire world exploded with 'Defund the Police' rhetoric and police officers were being murdered simply for wearing a badge and a uniform. Throughout all I've encountered during my career, I have never questioned my purpose. That was until earlier this month, when Governor Ige hosted a press conference stating he would be implementing a 'Vaccine Mandate' for the Covid-19 vaccine. A mandate that, to put simply, would have the implications to terminate someone if they chose not to comply with being inoculated with an experimental drug. I'd never questioned my purpose, I'd never questioned if I would be a police officer for the rest of my life, until that moment. And I am not alone, there are many who felt the same emotions.

Now, a 'Vaccine Health Pass' system is being implemented allowing only vaccinated individuals to enter gyms, restaurants, and bars. A similar system has been implemented in New York as well as San Francisco. You are very well aware of the extreme division in our community surrounding the vaccine mandates within the Department of Education as well the mandates on first responders and other county and state employees. A vaccine health pass

would only continue to divide our community further and I ask you to truly consider the long lasting damage this would cause. Government supported segregation is not only an extreme overreach but a violation of an individual's personal freedoms. My grandparents fled communist Cuba during the rise of Fidel Castro, they saw and experienced first hand what it was like to have their individual freedoms stripped away from them. Fidel, like many other communist leaders promised prosperity to all in exchange for some of their individual freedoms. As we all have seen, the Cuban people have been enslaved by a communist regime that has lasted over sixty years. My grandparents gave up everything so that they could pursue a better life for their children, and the next generations to come. And if they were willing to sacrifice everything in order to provide a better life for future generations, I certainly will not allow their efforts to be for nothing. I will do everything in my power to continue to fight for the freedoms of each and every individual for generations to come.

I'm writing this letter to you today in hopes that you would reflect on history, that you would reflect on the mistakes of other leaders, and that you would avoid those same pitfalls. However, if you choose to still implement this vaccine health pass system, I speak for the majority of Police Officers and say, we will not enforce these mandates.

At the beginning of this letter I spoke on the Law Enforcement Oath of Honor. In that oath it states that I will never betray my badge, my integrity, my character, or the public trust. And I will always have the courage to hold myself and others accountable for our actions. I will not betray that Oath and I will not betray the people for whom I serve and protect.

Will you stand on the side of personal freedom and denounce these discriminatory mandates?

I strongly OPPOSE any mandatory vaccines that do NOT have any proof or studies that show it has long term safety. COVID has a high survival rate over 99%, so the risk of long term health effects is not worth it. Once taken, the impacts of the vaccine cannot be reversed. What moral right does the government have to force people to choose between their long term health or their livelihoods? It doesn't! Even the CDC admits that the vaccinated are just as susceptible to get and TRANSMIT COVID. If the goal of the mandate is to prevent transmission, then why aren't the policies addressing their transmission? Why is there no policy addressing COVID survivors who have natural immunity? You may argue that natural immunity doesn't have the same protection as the vaccinated, but no one has said that they are equal to the unvaccinated. Why then are the unvaccinated and COVID survivors with natural immunity treated the same? If the government wanted to make serious policies, then treat this issue with some integrity. Please also address the reason why in the first time in medical history the leaders of the medical community, the CDC, NIH, FDA, AMA, have NO interest in finding cures or ways to treat COVID? Every possible cure gets suppressed so the only solution is the vaccine? It's been 18 months since this started and yet there are no treatment protocols that the medical community can follow. If the government was serious about keeping the hospital occupancy low, why not promote treatment that nips COVID in the bud? You cannot eliminate COVID by vaccination alone. Thank you.

Written
Testimony

I oppose the “vaccination passport” mandates. These mandates are unnecessary and inappropriate. Unnecessary because these will not be effective in preventing the spread of Covid-19. Vaccinated people can still contract and spread the virus, and do so with little to no symptoms. Inappropriate, because it is the right of private business owners to choose who they will provide service for. It is inappropriate for business owners to ask for your health information. This mandate will cause division in our communities. This mandate will hurt individuals and families who work hard to provide for the basic needs of their families. For these reasons and more, I oppose the the mandates being laid upon our people. We ask for those in authority to hear our concerns and make the right choices that will enable us to continue to move forward and not backward through this pandemic.

The drug companies have zero liability if anything goes wrong, and cannot be sued. Same for the politicians who are pushing this treatment. I will not inject myself with a new, experimental medical device when the people behind it accept no liability or responsibility if something goes wrong. I will not risk my health and my life when they refuse to risk anything. Database of all ivermectin COVID-19 studies. 113 studies, 73 peer reviewed, 63 with results comparing treatment and control groups. FLCCC provides treatment recommendations. that are being IGNORED by IGE, GREEN, Blangiardi. and DOH! In fact being conflated with horse medicine when in fact it has been used for over 40 years with 200 million noises and one of the SAFEST medicines ON THE PLANET!!!
<https://c19ivermectin.com>

Written Testimony <https://c19protocols.com>
I see all the lies, corruption, propaganda, manipulation, censorship, bullying, violation of medical ethics, lack of integrity in the scientific process, suppression of inconvenient adverse reactions, dismissal of legitimate concerns, hysteria, cult-like behavior, ignorance, closed-mindedness, fear, medical and political tyranny, concealment of protocols, lack of true concern for human life, lack of respect for basic human rights and freedoms, perversion of the Torah and common sense, demonization of good people, the greatest medical experiment of all time being conducted by greedy, untrustworthy, godless people, the lack of liability for those who demand I risk everything...I see all this and I have decided they can all have my place in line. I will put my trust in God. I will use the mind He blessed me with and trust my natural instincts. Which leads to the final reason which sums up why I will not get "vaccinated."

Written
Testimony

Aloha,
I am oppose to Resolution21-194 because I refuse to support anymore division in our community/ country. Requiring individuals to prove their medical status is unconstitutional, and medical racism. I'm sure there is a way to compromise with the citizens of Hawaii. One suggestion could be to require businesses to keep health check, temperature check and face coverings upon entering a indoor establishment such as restaurants, gyms, stores, theaters etc.... For employees and patrons. It's not fair that Hawaii people have all these rules and requirements to just make a living but tourist are flowing in more than ever. What is gonna happen when visitors have no where to go on vacation because all the small and local businesses go out of business?? People are not trusting of the vaccine yet. There hasn't been enough time to show proof that this vaccine is safe. That's a common concern especially if there is no one to hold liable for any long term effects someone could encounter. I am not an "Anti-Vaxxer", myself and my family are all vaccinated. I am however "Anti- discrimination. Hawaii has always been a place of peace, love and diversity. Now we are living in a place where people are divided. When people are divided there is no community. Proposing a vaccination passport will take away the freedom for people to earn income for their families, put food on the table, or for our children to be able to attend school and play sports. What kind of life will our children have? We are stripping them of a future! Ultimatums are not choices! People should choice what's best for them and their families and everyone is entitled to that when God put us here on earth. Please stop this segregation, please allow people to choose for themselves, please stop the force! This will be devastating for the people of Hawaii.

I could sit here and write all the reasons why I personally oppose this bill but the # 1 main reason why is that this bill is absolutely illegal. This is against our constitutional rights on every level....including those of you who are trying to put this bill into place. This is against the law!!! There will be a lot of lawsuits headed your way if this passes. I absolutely oppose this bill!

Written Testimony

I Ian E. Ortiz see this as a direct attack on the people and business's here on islands to push us further away from unity & healing to segregation & tyrannical behavior! There's absolutely zero data that supports this! This isn't needed at all & is more wanted to create money for corporations not located here! This resolution curtails absolutely nothing! Masks don't work if they did we wouldn't be here! If the experimental inoculations worked we wouldn't be here! Now if I had a job for 18 months and knew what we needed to get the job done & not to burden the health care system and took zero steps to ensuring we had enough oxygen for all medical purposes and I didn't lock that up I would be fired & would resign out of pure dishonor ! Governor, LT governors, mayors, councilmen & woman have an oath to uphold to we the people! You've gone against this oath time & time again putting the blame everywhere else except yourselves to take accountability and formulate science driven solutions, this is a complete failure! PCR tests have been recalled! They do not know the difference the flu & covid! SARS cov 2 hasn't been isolated any where by any lab on the planet let alone a test that provides information on variants ! Flu cases have disappeared & the symptoms of covid 19 are cold & flu symptoms! Again no ones talking natural immunity with all the case numbers suggested we have been at herd immunity & with a 60-70 percent inoculation rate discussed by LT governor! The islands must immediately return to normal & a cest & desist order must giving to all schools & work places mandating masks and experimental inoculations must end immediately ! This is complete anti science the governor even stated we are not going to follow the science here & a witch hunt being fueled by the ones claiming there is a witch! Save face admit you are wrong & have been mislead by projections that never occurred! Begin to follow the science like other states Florida, Texas, and Arizona ! It's funny the only mode added to the equation here over the last 18 months was Pfizer vaccines we had minimal quote on quote surges and pedestrian postive & probable cases maybe look into alternative flu & virus fighting remedies & open up one of the viles of the Pfizer biontech and make sure they're safe & not spreading unknown nano particles causing illness to themselves and others with more transparency on a subject that effects all

the families & livelihoods of our islands commerce & communities! Less NDA's from the hospitals & staff which we should be listening too & less bureaucracy pretending to be versed in virology & micro biology!

Written Testimony I feel the vaccine is too dangerous as there have been numerous side effects from it including deaths. No other vaccine has ever been allowed with this bad a track record. I do not feel I should be discriminated against because I do not choose to be part of this experiment as no one knows what the long term effects will be.

Written Testimony Vaccine passports are modern day segregation. Rather than focusing on the color of our skin, you want to determine our access to society by the status of a vaccine. As elected and appointed officials, your responsibility is to serve and represent the people. This isn't a plan to support safety or the local economy. This resolution strips citizens of rights and stifles small businesses. You were not elected to dictate our lives and choices! No to Resolution 21-194!

Written Testimony I am vaccinated and I support the right of people to choose whether they get vaccinated or not and do not agree with the vaccine passport mandate. While I agree the current state of positive covid numbers and hospitals ICU at or near capacity is at or near critical, I don't think this legislation is the answer. I think this type of legislation can be a slippery slope and set precedent for other types of legislation limiting personal choices for one's own health. Additionally, and probably more importantly, this mandate will likely hurt locally-owned small businesses already struggling from covid impacts, and potentially push already struggling local families over a financial edge they may not come back from. Ultimately the big mainland businesses and corporations will likely be fine, and the local small business will bear the brunt of the impact of this legislation.

Written Testimony

This vaccine is not a one size fits all. Not everyone is healthy enough to even take this vaccine. Doctors are advising certain patients with underlying conditions to not take this vaccine. However these doctors are telling patients that they cannot write something in black and white to employers that they cannot take the vaccine. I am not in support of the Covid mandate or restrictions put on unvaccinated people. It is a fact that vaccinated people are the people spreading Covid and giving it to unvaccinated people. If restrictions are to be done the stricter guidelines need to be placed on the vaccinated people just as much as the unvaccinated people.

I plead with you to not take away privileges or make it harder for people to enjoy doing the things they want to by enforcing testing or mandating this vaccine.

This hits close to home for me. Last week a family member was advised by their PCP to NOT take the vaccine due to her health problems. However her specialist doctor told her she has to take the vaccine because he did not want to get Covid. She got the vaccine and that night she ended up in the hospital and 2 days later she died. She was sickly but not sick. Not sick with Covid, not on hospice, she was walking, talking and vibrant. So full of life still. Had she listened to her PCP she would still be here today. So please don't mandate or place restrictions on something that may not be safe for all people. Think of something else for the safety of us all like keeping your germs to yourself and promote exercise and healthy eating and staying home when sick. There are other solutions to keeping the public safe. Thank you.

Written Testimony

Our government officials continue their assault on our constitutional freedoms and are attempting to legislate vaccination segregation and discrimination with this resolution. This is an egregious abuse of governmental powers that is attacking our individual civil liberties. It is an intimidation tactic to force vaccinations on the people of Hawaii under the guise of being for public health. In reality...it does nothing to help public health when the vaccines are known to not keep you from getting COVID-19 nor keep you from transmitting it to others. I demand freedom of choice and will not allow elected officials to trample on our rights. This will only further divide our state and hurt local businesses. Stop this insanity now! This is America!

Say NO to vaccine passports!

“Those who would give up essential Liberty to purchase a little temporary Safety, deserve neither Liberty nor Safety.” Benjamin Franklin

Written
Testimony

I am strongly opposed to Resolution 21-194 and I urge you to say NO to vaccine passports. People may have various reasons for being unable or unwilling to receive the vaccines currently available. Do not be complicit in creating a two-tier society, a medical apartheid in which an underclass of people who decline vaccination are excluded from significant areas of public life, lose their job, are prohibited from eating in a restaurant, or face permanent closure of their small business due to draconian governmental overreach.

Our restaurants and essential workers have kept us fed these last 18 months. Do not further damage our restaurants by forcing them to fire the unvaccinated. Don't force them to police who enters their establishments with a greeting of “Show us your papers”. Remember when we welcomed all with “Aloha”?

Freedom, including Medical Freedom is of paramount importance if our democracy is to survive. “There is no justification for taking away individuals’ freedom in the guise of public safety”. Thomas Jefferson

I feel really upset about this MANDATE decision. Everyone has their human rights and choices. Especially separating the vaxx and unvaxx people when it's still contagious no matter what. To me it's another strain of flu and it just needs to run it's course. So why is this so important people die from other illnesses like cancer, diabetes, heart attack but nothing you folks do and no cure for it.

Written Testimony We know by the CDC's own definition, this is not a vaccine. We also know we have been lied to, and the numbers have been altered, and fudged. How can a vaccinated person who dies of covid not be counted because they received only one jab, or their death came before two weeks of their two jabs, not be counted. Every person is free, by US Code, and International law to make their own choices without being coerced. Shame on you. You will be held accountable for your crimes against humanity. NO!

I am writing to voice my opposition to the vaccine mandates issued by Mayor Blangiardi to go into effect 9/13/21. This is not the way to go about resolving this situation. This decision is will only further divide and promote discrimination throughout our already fragile community.

Written
Testimony

The people are tired and frustrated. Since March 2020, the people have been bending and folding to the constant changes the State and Federal government have been enforcing. All to no avail. Jobs have been stripped away, children robbed of proper education and a fair chance at a solid future. Business have permanently shut down, families are being torn apart, all because of this division and Major Blangiardi, Governor Ige and LG Green have been promoting. Have you weighed the cost of those who will be inflicted by this decision? After what they've already endured for over a year? There is ZERO ALOHA in this decision.

This virus is real, and it is indeed wreaking havoc. The vaccine is a great tool that we have been given. And to the ones who have chosen to take it are well to do so. And the ones who haven't are equally well to do so. The blatant disregard for acknowledgment and respect to those on latter side is appalling. I am urging you to reconsider taking such drastic, emotionally measures by enforcing this vaccine mandate. This will not end well. Work with the people of Hawai'i! With ALL of them. At a common, equal ground. It can be done if you are willing to seek peace, equality and solutions for our beautiful island.

Mahalo for your time and consideration.

To The Council,

Written
Testimony

I absolutely, unequivocally oppose the mandating of a vaccine passport. This resolution goes against our constitution and is completely unlawful. This said, if passed, there will be an onslaught of lawsuits. As you all know, It's been proven that the vaccinated still carry and spread the virus. I'm sure you're also aware that the CDC recently admitted that the PCR test is not at all accurate and that it's producing a huge rate of false positives. As you also must be aware, Gary Mullis, the developer of the PCR test, said that it was never intended to be used to diagnose a virus. The test is also being used at twice the cycle threshold that Gary Mullis intended it to be used which is why there are so many false positives. So why then is it still being used? We also know that the FDA didn't really approve the Pfizer shot, but rather a product that isn't even available yet.

This is America...land of the free, and we must retain our freedom to choose.

I ask you to do the right thing and veto this resolution. Thank you.

Written Testimony Discrimination is a negative term referring to the practice of unfairly treating a person or group of people differently from other people or groups of people. Discrimination can be based on disabilities, race, ethnicity, intelligence, or any number of factors that make human beings different. To try and use the vaccine passport to enter a state, restaurant, gym, bar or anything else is singling out a group of people and treating them unfairly. For someone to choose not to be vaccinated could be for medical reasons, religious reasons, or simply because they have the freedom to choose not to. Either way, allowing this is discrimination.

Written Testimony

I Strongly Oppose the Vaccine passport and mandates. This is discrimination against my freedom and liberties to be able to patronize businesses of my choosing. This is telling me that you are treating me like a second class citizen and quite frankly it's like racism but worst. This is unacceptable and I will not support this. It is sad to see that science has become politicized and this is no longer an issue of Health and Safety anymore. This is an issue of how to control the masses. This does nothing to stop the spread of covid but fuel the frustrations of many people who is trying to make a living and keep ourselves healthy and safe. The vaccine passports, mandates, restrictions will destroy our economy and also our pride of living Aloha here in the islands. You cannot take away my freedom to choose how to live my life. Each day your leadership is disappointing because you keep working against the people and not with the people who put you in the positions that let you have your freedom to still choose.

Written Testimony Governor Ige, Please oppose this resolution. We the people of Hawaii want to retain our freedoms and support the local businesses without being FORCED to vaccinate. It is ridiculous to be forced to take a COVID test in order to go to a restaurant or go to a gym. Plus the restaurants have already changed to 6 feet apart as per CDC.

The "vaccine passport" initiative is a violation of basic constitutional rights. It is also a HIPAA compliance violation and Lt. Governor Josh Green is very aware of this. The Government has created its own distrust with the people of Hawaii and it's malicious practices.

Businesses have already been crushed by your "mandates" in 2020 continuing into 2021. Yet you don't report that data accurately.

Written
Testimony

Report that the virus is treatable.

Report that 99.6% of people who catch it survive it.

Report that you can still catch covid and spread it if you CHOOSE to get the shot. (I say shot because it is not a "vaccine").

If this is implemented the government will most likely create a mass exodus of Hawaii's citizens and more businesses will be forced to shut their doors.

I, Jonathan Wilkins, oppose this resolution 21-194 that is going to discriminate against those who choose not to be coerced into being injected with an experimental "vaccine", which does neither, prevent infection nor stop the spread of Covid-19. This resolution would allow government overreach to continue eroding our God given rights to freedoms that are protected by the Constitution of the United States of America. A vaccine passport will destroy the small businesses and families whose livelihood depends on these jobs to survive. Haven't the people of Hawaii sacrificed enough in the name of "safety"? All this so that the pharmaceutical companies can continue to profit off peoples fear and false hope?! If this was truly about our safety and health then therapeutic treatment options would be explored instead of being censored. People die from bad diets and unhealthy lifestyles every day. Shouldn't have the DOH been promoting eating well, exercising, and boosting your immune system since this plandemic began? The solution is not to force/mandate citizens to show their papers everywhere they go while they're trying to make a living and live their lives the best way THEY see fit. How we choose to live our lives is not up to you, the politicians, that were put into place by us, the People. Our voices are growing by numbers and strength and we will not be ignored and stepped on any longer! End the tyranny

I strongly oppose vaccine mandates imposed by the government.

I understand my HIPAA laws. I also understand they may be manipulated as well.

It is my choice whether or not to vaccinate with the narrowly designed COVID Vaccines of all types. Even with an approval they are still undergoing CLINICAL TRIALS with some not being complete until 2022 and 2024. (cited example: <https://clinicaltrials.gov/ct2/show/NCT04904471>)

Written
Testimony

I do not consent to the government dictating or by tactics by way of coercion to manipulate me and my family to either vaccinate with covid vaccines and/or force covid testing every single time I want to buy food, exercise, or even get services. Once we give you permission to do so who decides where the line is drawn? If you mandate testing for "unvaccinated"... vaccinated would have to be tested as well. Because we all know the vaccine is not designed to keep you from getting covid. It's designed to help lessen the effects of it.

I STRONGLY OPPOSE COVID VACCINATION MANDATES.

It's my choice. The government has NO RIGHT to take away that fundamental freedom.

To whom it may concern:

A vaccine passport is NOT a solution or a help to what is happening today with this virus that has YET to be isolated. Per the CDC and our Department of Health Director, vaccinated individuals are just as contagious as unvaccinated individuals. Business establishments should have the CHOICE to determine their own policy of who they welcome into their business. This is tyranny and completely goes against my human rights.

Written
Testimony

With all the VALID research coming back that anyone can get covid, whether you are vaccinated or not, is enough to stop anyone from continuing to push towards vaccine passports and mandates. The vaccine does NOT stop transmission which is the problem! So a vaccine passport will not help stop the transmission of covid, the cases will remain high until this variant runs through the people of Hawai'i. Research how viruses work and how to accept that covid will never go away! Figure out ways to live with what is happening plus fix our very broken healthcare system that is improperly treating covid!

I oppose to have the governor or mayor control my freedom of choice. My vaccination status should not be held against me where ever I decide to go! My kids should also not be a victim of pure hate and discrimination because of our freedom of choice when it comes to our body. There absolutely should NOT be any kind of vaccine passport, it goes against complete privacy and is in fact against the HIPPA law. Reconsider and put an end to these mandates hanging over our Hawaii people.

I strongly oppose vaccine passports. Officials have not offered any public knowledge on how to stay healthy other than an experimental drug that has not gone through sufficient testing. You are taking away constitutional rights and forcing people to become social pariahs if they do not get vaccinated.

Has there been testing done on how vaccines affect autoimmune conditions, autism or gene variants? No.

I know many people that are deathly afraid of vaccines. Some people have had no reactions so far thank goodness. Some people have. Some have died within 24 hours of the vaccine. At least 4 deaths just in small Kula Maui have occurred within 24 hours after the vaccine, reported by a fireman I personally know that went to each call. These people were healthy with no underlying conditions. Those deaths are not being reported as a vaccine related death because one is not officially "vaccinated" until 2 weeks after the last shot.

Isn't it also convenient that pharmaceutical corporations have no liability for vaccine injuries or death? That should put up a red flag in everyone's minds.

I understand how you might think this vaccine is the only answer to Covid. People are scared and people have died. But forcing the public to inject an MRNA gene altering substance that can transform the basic building blocks of life into their bodies is not the answer.

At least open your mind and heart to have a constructive conversation with doctors that are offering effective alternatives. Isn't that the very least you can do as an elected official?

Please be reasonable, open minded and remember that even the CDC says vaccination does NOT stop transmission.

Mahalo.

This is not about vaccines. It is about PRO CHOICE, Human Rights, and SEEing the Truth behind all appearances when it comes to "protecting" the public from a highly questionable "vaccine". Thousands of very competent, very experienced physicians, and scientists from all over the world have expressed their concern for ANY form of enforced action that requires people to be exposed to ingredients that will ultimately compromise, if not destroy the human immune system, as has already been proven IN THE DEATHS OF THOUSANDS OF PEOPLE, who died AFTER receiving the shot. Please REconsider your position and your INTEGRITY in this urgent matter. BE AWARE that more people are waking up to the Truth, FASTER than laws can be passed to suppress the desire to SEE what is really happening. Mahalo for taking the time to change your mind.

Written
Testimony This is medical tyranny and medical segregation to insist healthy people get an experimental gene therapy to go about their daily lives. It's like offering people chemotherapy on the off chance they might get cancer. Absurd. Children are 50 X more likely to die of the COVID vaccine than of COVID. Know that! Anyone who endorses this is endorsing genocide. Plain and simple..

"There is no justification in taking away individuals' freedom in the guise of public safety"
- Thomas Jefferson

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!

Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

Written Testimony I have been working in community service for over a decade. Corona virus has stopped virtually all our business. In order to make money to provide for my family I had to get a job with one of the businesses I've worked along side with for 5 years. It was a very disruptive change to my life and right when I feel I was just starting to get adjusted, my job tells me they may mandate the vaccine. Even with a minister's license and a letter of good standing they are unsure how they will recognize religious exemptions. It's been a stressful covid experience, and to think that going against my religious beliefs seem like the only way to survive makes it worst. I hope we can find a way through this.

Aloha & thank you for the opportunity to provide testimony.

I'm not a medical professional. My physics degree, albeit science, doesn't provide any additional credibility to my passionate plea for some basic common sense & civility. I strongly oppose a vaccine mandate or the requirement for establishments to discriminate against individuals who are not vaccinated.

The debates throughout the pandemic have, for most people, been aggressive, emotional, frustrating, and **divisive**. In March 2021, the British Medical Journal published an editorial that decried the "erosion in civility" among scientists, researchers, and healthcare professionals during the covid-19 pandemic. The personal attacks and unprofessional communications on social and mainstream media reduced public trust in experts and damaged their reputation. There are bullies on both sides.

An example is the controversy of the Great Barrington Declaration, which advocated "focused protection" in response to the pandemic rather than population-wide lockdowns. The authors, three public health experts from Harvard, Stanford, and Oxford, have become targets for abuse, accusations of pseudoscience, efforts to undermine their professional and academic credentials, and the insinuation affiliated to or financed by the right-wing lobbyists. None of which is true. The GB Declaration is a balanced approach, essentially put those at high risk in lockdown (~40% of the population), allowing the other 60% to go on with "normal life" while establishing herd immunity. They have over 850K and growing signatures in support worldwide, with the most considerable approval being from the USA.

COVID-19 can be a one-two-day illness if caught early and treated with antibodies, e.g., Regeneron, approved by the FDA. Regeneron is what many high-level politicians received when infected. As it is, those with healthy immune systems often experience only mild symptoms. Per John Hopkins <https://coronavirus.jhu.edu/data/mortality>, the fatality rate in the US is 1.6%. Or 98.4% live when infected with COVID-19. **Zero children** under the age of 12, without underlying health conditions, have died with COVID-19. **False Evidence Appearing Real** is an acronym used for the word **fear**. Please stop making fear-based decisions and use common sense!

Great power requires great responsibility. Take actions that bring our community together, not segregate it into "vaccinated" and "not-vaccinated".

Vaccinations are not recommended for those highly allergic, pregnant, compromised immune system, and under a certain age. In addition, a new study out of India implies those with natural immunity should also not be vaccinated.

Written
Testimony

I oppose vaccine passports, as they are a violation of human rights, and will not stop covid or help the economy. Why is Hawaii forcing people to take a vaccine that can kill them or harm them adversely. I personally know someone who has taken the vaccine and is very sick cannot work, she was a healthy fit person now she is very sick. Where does this intrusion into peoples lives end? leave us alone! let people decide if they want to risk taking a vaccine or getting sick by covid or non of the above,. No one knows the long term effect of this vaccine, and if you die or get sick taking it no one is liable how in Gods name is this right, there are alternatives to treating covid other than vaccines, but this is never talked about by main stream media of politicians. Vaccine passports are a tool of oppression and control it is an intrusion into peoples private medical records and freedom to move and gather without having to explain themselves to the government or anyone else.. All you hear on the news and from politicians is take the jab, never hear about those who have died or made sick from taking it, WHY..they do exist and this vaccine passport is wrong wrong wrong. If you cannot guarantee that this vaccine is not going to cause any harm, stop you from getting covid , then you have no right to force it on anyone..blood is on your hands. Go ahead tell me or anyone else that you cannot die from blood clots or other deadly reactions to the vaccine, go ahead tell me and the public you know the long term effect of the vaccine, You don't know so forcing people to take it is unethical. and a disgusting head long rush into absolute tyranny.

Written Testimony Aloha,
I am here to state that I oppose this vaccine passport program. It is unconstitutional! It is discrimination!! It is wrong! You are costing the people of our islands their livelihood!! Local businesses are finally thriving again after having to recover from last years shut downs and now they are stuck again, between a rock and a hard place, having to force their employees to be vaxxed or tested and customers as well? Let it be up to the business owners on how they chose to run THEIR business. This is no better than another lock down. Enough is enough!

Written Testimony

I STONGLY oppose this resolution. Vaccine passports are unethical, unfair, and unwise. They create a lower class of citizen, are discriminating and divisive. My son had a vaccine injury. He will not be vaccinated, but cannot qualify for a medical exemption under CDC guidelines. We would no longer be equal citizens under your resolution, in order to protect our son from further injury. Our family possess natural immunity from previous infection and have better protection than vaccinated people (according to data from Israel and numerous studies), but we will not be allowed to go where vaccinated are allowed to go. We will be discriminated against. Vaccinated people are also catching and spreading covid. More so than naturally immune people are. That makes no sense to exclude those with natural immunity.

Lets have a resolution that really helps people. Not one that divides and discriminates. If you support this resolution I will no longer support you.

Written Testimony

I am absolutely opposed to this ridiculous resolution. COVID 19 is easily caught and spread by both vaccinated and unvaccinated people. There are 10s of thousands of people with acquired immunity who recovered from COVID. This resolution does nothing but create discrimination and a two tiered society. Some people are medically unable to be vaccinated. All these people should not be prevented from living a normal life. Plus restaurants should not bear the burden of enforcement. They've barely survived as it is. If Walmart, Safeway, Lowe's, and Home Depot and many other stores have survived fo 18 months with no clusters and no rash of dead employees and shoppers, why just punish restaurants. Restaurants and bars have never been the major source of outbreaks. Why don't you spend time, effort and money on creating enough beds and staffing for our historically understaffed hospitals. Plenty of Federal Money has been available to work on this for 18 months. Vax passports are not the answer. Hawaii is one of the top three states in highest rate of vaccination. Almost every state in the USA is open and operating at full capacity at all restaurants, sporting events and concerts. Hawaii bases everything on what could possibly happen. We were told hospitals were going to overflow last year. And now again?. I heard CEO of Maui Memorial Hospital say they have 200 additional bed capacity but they haven't had a need to use them. Our hospitals have always been short staffed. Our ICUs are almost always busy. Nothing new. Why create a system that could destroy the economy? Most people recover. We aren't having mass death. Please rethink this resolution and work on other solutions. Do not create another problem. Create a solution that addresses the specific problem.

When did we become the United States of Nazi Germany? "Can I see your papers please?". "Where's your yellow star?". Vaccine passports are an agent of division, discrimination, and segregation. Stop being science deniers. The "vaccinated" can still catch and transmit covid. In fact, a recent study came out that showed the vaccinated carried a higher viral load in their nasal passages. The stupidity of a mass vaccination campaign during the middle of pandemic is the reason we have viral break outs (ie variants). Read the science. And not just the stuff that confirms your bias or the media narrative.
Here's one to start.

Written Testimony

I am a native k  naka maoli resident of Kailua, Oahu and I oppose Resolution 21-194. My family has been in the restaurant business for over 70 years providing quality meals and experiences for locals and visitors. We have seen the economic response of the shutdowns, and have implemented all guidelines to ensure a safe and healthy environment for patrons and staff. This Safe Access program is unconstitutional for those who decide to not get Vaccinated for personal, religious, or health reasons. There wasn't an issue before with those dining in or visiting gyms without the vaccination, why now? Community outlets such as restaurants, coffee shops, gyms, and other indoor activities are vital for the health and well-being of communities and families. It is also the majority of both employers and employees are able to afford our already over-priced living situations. I oppose this unconstitutional program and believe as native to this land strongly urge all in the power to do so to reconsider the ways to make our islands safe that doesn't jeopardize the family owned businesses. I humbly ask you to consider the long-term effects of what this would do to local business, instead of trying to reach for a quick fix to a problem that several other solutions at hand to ensure the safety of all Hawaiians and those who call Hawai'i home.

Aloha
Putting more mandates that divide our community is not what everyone needs now. You need to listen to the people of Hawaii and we don't want mandates we want transparency. what about natural immunity that is supposed to be better at fighting the variants of the virus? What about people that don't believe the government and business have the right to tell you what to put in our bodies.

This is against our constitutional rights. There are reasons why some cannot vaccinate, and to discriminate against these is unjust. Stop causing the hate and division among our people. Please research newest studies proving those who attain natural immunity have stronger and longer lasting immunity than those who have been vaccinated, and never got COVID. If you truly follow science, antibody testing would also be allowed in lieu of vaccination. Studies also prove vaccinating one with strong natural immunity is not necessary.
Mahalo!

Written
Testimony

I strongly oppose the implementation of a covid passport. This is America and we are endowed unalienable rights not by you, but by God and the constitution. Vaccinated people are still getting and transmitting covid. Therefore, this doesn't create any safety at all and is solely about coercion and segregation. Many of us have recovered from covid and have antibodies, but we would not benefit from that in any way although it's been recently shown in studies that natural immunity is much greater, (up to 13 times!!) than vaccination. These shots have not been thoroughly tested, as the soonest trials won't be complete until at least 2023. Therefore where there is RISK THERE MUST BE CHOICE. Many documented cases of adverse reactions and deaths have been recorded and verified. There are MANY people who are not medically able, or advised to get this shot. Myself included. What then? We just lose all access to public spaces with the pass? That's not right. There should never be rights taken away from the citizens of the United States, or anywhere for that matter again. We have seen how that went in history, and it's never been good. Also please refer to the research being done in Israel, the most highly vaccinated country, currently with surging with covid cases. IT DOESN'T WORK OT STOP THE SPREAD. Why are our numbers higher now than ever with such a high rate of vaccination in our state? Why are we not making all tourists test to come here when we KNOW that vaccinated still carry and transmit the virus, per the CDC? THERE IS NO LOGIC in a Covid Passport of any kind. Only division, segregation and TIERany. The people of Hawaii already suffer enough to have jobs- and taking away employment opportunities, peoples livelihoods and health outlets would not make any sense if all you elected leaders are truly working for the people. PLEASE VOTE NO on the mandates and Covid Passport as it violates everything aloha is about, and further divides our state by segregating. Aloha and Mahalo for taking the people's wishes to heart.

There are so many reasons why this should not be implemented and forced on the citizens and businesses of Hawaii. For one, we as citizens have the right to privacy of our medical information. There is a reason there is an HR department in offices, because medical information is private. Having this sort of system clearly points out who has a vaccine and who doesn't. We should be able to visit businesses without sharing this sort of information. Secondly, the vaccine is not the only option for fighting covid and people have a right to choose what medical directive is best for them. The fact that the vaccine is still in clinical trials while other options have been around for decades proves why some trust their immune systems or prefer alternative treatments. For the state to decide that everyone has to pick one form of treatment ignores the fact that we are all unique and require customized levels of care. Third, businesses are already struggling to find employees due to the government giving unemployment and even more for covid. Why are we putting even more stress and strain on employees and businesses by requiring them to check citizen's private health information. The businesses that have already survived an unconstitutional lockdown are struggling to stay afloat. With these backward policies, more will close. Look at countries that established vaccine passports... their businesses lost customers. Those restricting liberty have always fallen in the end. We have the inalienable right to life, liberty, and the pursuit of happiness as stated in the Declaration of Independence. Give us freedom and stand on the right side of history.

Written Testimony

I am a resident of Honolulu County and am submitting my testimony to be read at the hearing regarding Resolution 21-194. I find it extremely concerning that this Resolution has gone from submittal to hearing in record time. Reducing the likelihood of the people of Hawaii having access and time to submit testimony.

This resolution does not serve the people of Hawaii and is in fact excessive government overreach. The state has no lawful right to dictate that owners and employees of a private businesses ask medical information from their customers. For the customers, this violates the right to medical privacy. and is discrimination based upon their acceptance or ability to obtain an experimental drug injection.

By requiring that businesses only serve vaccinated clients, this resolution greatly reduces the revenue for businesses barely keeping above water due to previous lockdowns. The repercussions of this will likely be the loss of even more businesses in Hawaii. Notably, the big corporate businesses are once again free from restrictions.

Lastly, this makes absolutely NO logical sense. In every area where vaccinations are high, the rates of cases are high as well. We have seen an increase in cases since the roll out of the vaccines. The study printed by the Oxford University Clinical Research Group (August 10, 2021) showed fully vaccinated healthcare workers carry 251 times viral load, in their nasopharynx than their unvaccinated counterparts. There is extensive data and real time information indicating that the vaccinated are no less of a danger (perhaps even more so) than the unvaccinated. The CDC has also stated that those vaccinated are in fact in danger of severe cases and death.

The case for the vax passport is completely without warrant.

I strongly, vehemently oppose this Resolution

Written Testimony

Aloha I am in opposition of segregating the population and creating second class citizens, stripping their freedoms and rights, based on their willingness to take an experimental pharmaceutical product. No one should be forced into taking something with side effects that include permanent injury and death. Note that data and studies show that the vaccinated can easily acquire and transmit the virus, making this type of discrimination unnecessary and anti-science.

It also forces businesses to unwillingly segregate and discriminate against their own customers and will inevitably lead to another loss in sales and closures of small local businesses.

Please destroy this resolution and restore our humanity. Mahalo.

Written Testimony I'm 47 years old and have never had to have a passport to enter in a place of business. This is ridiculous. Vaccine or no vaccine you can still transmit to virus. It makes no sense. There is no Aloha in mandating this program. You'll kill business by driving them into bankruptcy.

Mandatory digital vaccine passports to restrict individual access to employment, businesses, venues, and public accommodation are an INFRINGEMENT of basic human rights, and make ZERO sense based on recent science.

Covid vaccines DO NOT prevent infection or transmission (as confirmed by the CDC), and were never designed to do so. Natural immunity is far superior and longer-lasting compared to vaccine immunity (as explained in several recently published peer-reviewed scientific journals, and as shown in real-world data throughout the world).

Written
Testimony

Known vaccine safety and efficacy is currently only based on a mean of 4.4 months of data (according to Pfizer's most recently published clinical study with a data end point of March 2021) and the vaccine DID NOT show a statistically significant reduction in severe covid, hospitalizations, or death. In fact according to Pfizer, more people died in the treatment group compared to the placebo group. In real world date, vaccine "efficacy" waned to 16% by the 6th month in Israel, and 0% by the 6th month in Qatar.

For all of these reasons, I OPPOSE this resolution, and I am very disappointed in Councilman Tommy Waters (who I am a constituent of).

It is absolutely unconstitutional to take away somebody's right to determine what they put in their body or for the government or any employer to dictate and decide their personal health choices.

Written Testimony

This mandate is putting unnecessary stress on those who are unable to take the vaccine for health reasons and or religious reasons.

You are forcing people to take something that you cannot guarantee safety from. If employers and the government wants to mandate vaccines and they should guarantee additional monetary benefits and insurance should something happen to the person they are requiring to get the vaccine.

What our government is doing is absolutely disgusting.

Written Testimony Please reject Resolution 21-194. Everyone has the right to choose whether to get vaccinated or not. People should not be put into classes based on their vaccination status. Besides, if vaccines protect you like the pharmaceutical industry states vaccines do, there's is no reason to be afraid of the unvaccinated and segregate them. Aloha for reading my testimony.

Where death is the number one risk, we must have choice. Restricting someones employment strips an individual of their basic human rights. This vaccine is NOT SAFE and should NEVER be forced upon anyone, let alone have a mandated one where people will lose employment if they do not take it. Please see attached.

Any bill to mandate the vaccines upon individuals is completely unethical !! This is an outrage and is being carried way too far. Taking away individuals freedom of choice and forcing vaccines that doesn't even stop spreading the virus. Let us not forget, not allowing medical professionals to use two drugs (hydroxychloroquine and Ivermectin) used for centuries and has proven a successful treatment for this virus. You're forcing the unvaccinated to be pushed out of society. I am ashamed Hawaii would allow such a thing to happen.

This vaccine passport is tyrannical, it takes us back in time to the period of Nazi Germany. Mandating a vaccine for entrance in to venues is discrimination. People should have the right to choose. The vaccines do not stop transmission nor do they prevent you from getting Covid, what they are doing is creating a huge divide in this already difficult time. We need to come together and support everybody's views on freedom of choice. We need to acknowledge people who have recovered naturally from Covid and will have robust natural immunity, and we should also promote the use of therapeutics and taking control of one's own health.

Honolulu City Council Chair Person Tommy Waters:

I strongly oppose Resolution 21-194 for the following reasons:

Written Testimony It will restrict the movement on the basis of biology which threatens our freedom, fairness and public health. It is unconstitutional to restrict human rights and this will increase discrimination. A digital vaccine passport will result in societal stratification labeling people on the basis of a shot and will fuel division and create new forms of discrimination. The jab that folks are getting is NOT a vaccine by definition! I strongly oppose this bill!

The vaccines have not been properly tested and should not be mandated. Thus no mandatory passport should not be put into place. If Pfizer on their own website states that there is no mandate for their own employees to take their product for employment, then why is the state trying to make it mandatory for going into a restaurant. The flu virus has been around for years it also causes death and is highly contagious yet we are not mandating anyone to take the flu vax. If you create a mandatory passport to enter establishment they will lose business. You will cause the economy to suffer just like it did in the lockdown because not only will those who don't take the shot not go in, but also those who have taken it but don't stand for what is going on will also boycott these places.

Written Testimony

The Committee on Transportation, Suitability and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms. Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own. The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice. Let the People Decide! With no proof the current inoculations stop contraction or

transmission,
a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people

I am a resident of Kailua, Oahu, and I oppose RESOLUTION 21-194. It appears to open the door to denying citizens their constitutional rights under the law. I stand by the basic human rights of every citizen, vaxed or unvaxed, and expect my elected officials to do the same. Do not use this current crisis to undermine everything that is good and decent that America stands for and create a society with second-class citizens. Show us your papers! I say NO to this wretched idea and the slippery slope it would send us down. Please support citizen's basic human and constitutional rights. Please support our businesses and workers. Do not inflict further suffering and hardship on our economy. Do what is righteous, just and moral and do not cave into fear. You will be held accountable for your actions.

Written Testimony

I have lived on the island of Oahu all of my life. In all of my 69 years I have never seen so much division between families and friends created by our government officials and media over this virus. When we had many different viruses that came through Hawaii, not once were we forced, coerced, bribed or paid to take a vaccine. Now our government is taking away our right to choose what we do with our own health. Now we will not be able to go into a restaurant to eat unless we have a vaccine passport or get a test done. Research from various medical sources have proven that the vaccinated can also spread this virus, get breakthrough covid, end up in the icu and die just like the unvaccinated, so please explain to me why the unvaccinated are being targeted? I live in a household where two people contracted covid, I took care of them 24/7 and did not get sick. You may say Im lucky I say I'm blessed. My faith sustains me daily. If I choose not to take a vaccine or take one that is my choice. If I get sick and die that is my choice.

Your position on the matter Oppose
Representing Self
Organization

Please take notice, as stated in the Constitution of the United States of America and The Hawaii State Constitution, that all living men and women are endowed by their creator with certain unalienable rights. And by these, no Man, government, corporation, organization, agency or agent appointed or elected has authority to trespass thereon. All people have the right to self-determination. Self-determination necessitates full disclosure of information free of coercion and censorship.

As one of the People, I affirm to be in the private realm, and not part of any government office.

Written
Testimony

As one of the People, I affirm that the Governor of the State of Hawaii has no authority to write orders, rules, or mandates which enforces taxes or duties which are binding to the living people. Rules and orders are not laws and cannot be enforced upon the People as such (see Cruden v. Neale, 2 N.C. 338 May Term 1796).

Whereas, Article 1 of the Hawaii State Constitution Rights of Individuals, precludes restrictions of access to public accommodation and work (see HRS489-3). The Government, its agencies or agents have no authority to create artifices which hinder access to work, employment, traveling or education without the consent of the People.

Please take notice that, "ALL laws which are repugnant to the Constitution are null and void" see Marbury vs. Madison, 5 US(2Cranch) 137, 174, 176 (1803)".

Please take notice that any mandate requiring a people to receive a COVID-19 vaccine as a condition for employment, for traveling freely, for participation in sports at school and/or university violates their inherent human rights. Enforcements on the People to participate in regular testing for COVID-19 without their fully informed, uncoerced consent violates the

Supreme Law of the Land.

Please take note, COVID-19 tests and vaccines are not licensed by the Food and Drug Administration. Pursuant to 15 U.S. Code § 41 mandates for vaccination and/or testing violate Federal Trade Commission's Deception Policy Statement for truth in advertising and therefore, any attempt to enforce aforementioned also violates Title 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(I-II) Authorization for Medical Products for use in Emergencies.

State of Hawaii, a private corporation, D-U-N-S #077676997, has no authority to enlarge or diminish any God-given unalienable right protected by the Constitution of the United States of America and the Hawaii State Constitution.

To protect against abuses and maladministration the People maintain the power to manage all affairs of government (see Virginia Bill of Rights references below);

Virginia Declaration of Rights

That government is, or ought to be, instituted for the common benefit, protection, and security of the people, nation, or community, of all the various modes and forms of government, that is best, which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of maladministration; and that whenever any government shall be found inadequate or contrary to these purposes, a majority of the community hath an indubitable, unalienable and indefeasible right, to reform, alter or abolish it, in such a manner as shall be judged most conducive to the public weal.

We the People expect our elected representatives to uphold their oath to the Hawaii Constitution and to act in accordance with protecting the constitutional rights of the People. Upon failure to act, you are abdicating your oath and knowingly acting in trespass of the People's rights.

The People, having all political power and electing servants to carry out their business, never granted authority for those servants to force the People through programs or provisions systems that are falsely presented as law. It is hereby my wish, order, and demand for all restrictive mandates be rescinded immediately and that you provide within 5 days by written reply, certified and true copies of all documentation as proof, under penalty of perjury, the following:

A response showing irrefutable and unbiased proof that there is in fact a health emergency;

A response showing the constitutional authority granted to you to issue prolonged emergency orders including but not limited to: quarantining the healthy, closing businesses, mandating COVID-related vaccinations/medical treatments and PCR testing, requiring masking, restricting freedom to travel via travel passports;

A response which shows clearly where the People have given authority to bring force upon the people in their private realm through lockdowns, mandates and aforementioned restrictions.

I hereby declare the above statements are true and correct to the best of my knowledge. Information and belief pursuant to the penalties of perjury to bring force upon the United States of America, and by the provisions of 28 USC § 1746

You have been elected by the People and as such the People have the power to ensure that you are defending our rights as a People. I DO NOT SUPPORT these measure that go against the Constitution of the United States and the Hawaii State Constitution.

I stand for my rights, Mahalo, Renee Vachow

Why aren't we talking immunity? It shouldn't be vaccinated vs unvaccinated but rather does one have immunity? Please answer this simple question... why does a person who has recovered from covid need to get the vaccine when that person has already developed natural immunity? Shouldn't that person receive an immunity card that carries the same weight as a vaccinated card??? Whether one is naturally immune or immune through the vaccine, they should be treated the same. I'm fact some studies show that a recovered covid patient is more protected than the vaccinated person. Also, shouldn't everyone get tested and show a negative test result? If a vaccinated person can still catch and spread the virus, why are they allowed to to move about untethered when they could be very well carrying and spreading the virus. Being vaccinated does not prevent infection but rather mitigates the symptoms. So why aren't they still being tested?? It makes zero sense.

The implementation of the "vaccine passports" is a violation of our constitutional rights. We have the right to medical privacy, and no person, entity, or government has the right to demand the disclosure of such medical information. To refuse service due to my medical choice is discrimination.

Your mandates are proof of your abuse of power and of the EUA. The vaccines that you push are not FDA approved. The Pfizer shot currently being administered is the Pfizer Biotech, which has not been FDA approved. It has only been approved for an EUA extension. And under the rules of an EUA, the government is not allowed to require the shot.

Written Testimony You are creating a divide amongst the people of Hawaii, and causing many native Hawaiians to leave the islands. Businesses have already suffered so much in the past year. How much more are you going to make them suffer?

I know for a fact that your reports are biased and not accurate. How do we have so many Covid cases with more than half the population vaccinated when just a few months ago, the numbers were very low when we didn't have the vaccine? Something just does not add up. And with vaccinated people still able to get Covid and spread it, it just does not make sense.

The people of Hawaii are tired of the lies and want to trust our leaders. But, if our leaders are going to keep making decisions without the input of the people, we can no longer support their efforts. You work

for us, and if you cannot do that--we will need to find someone that does.

Mahalo!

Our public officials in Hawaii are proving to be corrupt, bought, and following the NWO because they don't want to work with our citizens and make decisions that uphold our rights and liberties, or follow true science and review available data from other countries who are ahead of us with their mandates. Once it was proven that vaccinated people can still transmit and contract covid, that should have destroyed an idea of a vaccine passport. It just doesn't make sense if you're truly doing what's right for safety and health. I just can't wrap my head around requiring unvaxxed to get regular testing, yet the Vaxxed can get the virus just as easily, yet are exempt from testing. Please make it make sense!!

Written Testimony

I strongly oppose this bill for many reasons. The most important being that I stand for freedom of choice. Regardless, if I have or want the vaccine, I DO NOT believe myself or others should be forced, coerced, incentivized, or threatened to receive so that they can participate in life as residents of Hawaii and citizens of this Free country. This bill will kill this economy, divide our community, limit opportunity and education, sabotage businesses and their employees, and create disdain and anger towards government officials. I believe in medicine, I trust the facts, but this is wrong. Tourism is to blame for this covid surge. Allowing vaccinated individuals, who can still carry this virus, enter this state without due diligence in requiring a test prior to coming is negligent and unwise. PCR tests are continuing to be used despite recalls and a history of false negatives. Many of the places listed to soon check for vaccine passport are things my family and I frequent. The zoo, aquarium, bishop museum and local restaurants are places our family enjoy almost weekly and love supporting, And now we cannot. Will you allow those with a medical or religious exemption enter these establishments? I cannot support this bill. It's unlawful, ignorant, and punishes the residents of this state for negligence not of our doing. Thank you for your time.

My name is Robert Jeremiah. I was born and raised in Makakilo, Oahu. I've been a small business owner since 2006. Bad enough that we have to deal with expensive housing/everything, but it's all worth it because this is home. Now our freedom of choice is being stripped away from us as a native Hawaiian/proud American. Even if the cost of living is one of the highest in our country, it's totally worth trying to find a way to stay here. However, now you want me and my family to put a foreign, experimental vaccine into my body. I know many that have been negatively affected in some sort of way after receiving the vaccine, whether catching Covid, or having some other type of health complication. This is not about government policy/conspiracy theory nonsense. This is about my God given right to have a choice. Now you are threatening that choice and I am not OK with it. Hundreds of thousands Of Hawaii residents are not OK with it and we need to be heard. Please do what is right and let us keep our freedom of choice. Thank you for your time.

I strongly oppose this resolution. It makes no sense considering the data being released that vaccinated people pose the same risk as unvaccinated people to get and transmit Covid-19 to others. By segregating unvaccinated and denying them their freedom and constitutional right of movement does nothing to stop the spread of any virus when both groups can spread the disease. This is nazi Germany totalitarian type government overreach. There are 47 other states with far worse case numbers and deaths that oppose this type of mandate. This would be detrimental to businesses and people's livelihoods and the economy of Hawaii should this be implemented. People have the right to choose their medical choices. This is no different then making second class citizens like the nazis did to the Jews. Please please wake up! They are violating human rights And the Nuremberg code. Thank you

I STRONGLY OPPOSE the vaccine passport and mandates. This is discrimination against our civil rights. I support local businesses and this vaccine passport is making it hard on our economy especially for the businesses who is still recovering from 2020. By implementing vaccine passports this is DIRECT HIT to our economy and is a HARSHIP for ALL residents of Hawaii.

WE THE PEOPLE ARE THE LIFELINE OF THE HAWAIIAN ISLANDS. We should be working together and not putting the unvaccinated against the vaccinated. Vaccine passports will DIVIDE US more. This does not STOP the virus from infecting, the virus does not choose who to infect or where or what time to infect! The virus doesn't care about your vaccine status as CDC has already made that clear that vaccinated people still can spread it. A vaccine passport and mandates IS NOT the solution it's creating more problems within the government and private sector. It is absolutely unacceptable and goes against my freedom and liberties as an American.

Written Testimony People should be able to make their own choices regarding vaccination or not. Govt. should not be forcing us to take the vaccine. There have been numerous reports of side effects of vaccinated people from blood clots to amputation, neurological downfalls, and death. No to mandatory vaccinations. Also get rid of the masks mandates. We will never get to herd immunity w coercing the people to get vaxed. Vaxed people are the ones passing the virus. ★ ☐

Written Testimony

I don't believe in mandatory anything, it's unjust and in medical practice there is never a one size fits all solution. If getting a vaccine is right for me, but not right for my neighbor- who am I to force them? Forcing something and taking away rights unless you comply is a level of tyranny we haven't seen since 1940's Nazi Germany. The Nuremberg trials found those in compliance to those injustices guilty of crimes against humanity and they were hung for their compliance. Media, politicians, and more. I ask you act from your heart and hear God speak.

Testimony

I strongly oppose vaccine passports. It is unfair and unprecedented to require people to disclose personal information regarding their health decisions. As a medical professional who upholds HIPPA and respects the privacy of patients, I feel that people's vaccination status should be treated the same way. The vaccine status of one person should not be any one else's business besides that persons. The fact that employees of a business are not required to disclose whether or not they have hepatitis or HIV with every single person who enters, seems to be hypocritical, but yet exceptions are made for vaccination status. Where is the consistency here? All of these things are considered to be personal health information. The implementation of vaccine passports allow for segregation and discrimination amongst the people in our communities and takes away from our basic rights and freedoms as Americans. Vaccine passports pave the way for us to go back to the cruel and unlawful acts that Martin Luther King and Rosa Parks fought so hard to overcome. Equality amongst all. We are supposed to be a country that stands for freedom, and vaccine passports strip those basic freedoms away by encouraging discrimination amongst each other and within our communities. Whether you are vaccinated or unvaccinated, you can still transmit and/or contract COVID. So why punish those who do not share the same view? Why deny them the same right to enter a business based on a vaccination card and their own personal choice as to what they put into their bodies? Why treat those who are unvaccinated the same as Hitler with Jews? Why is the proposed solution making people feel forced into getting a vaccination and declaring their "status" in order to enjoy or participate in what should come rightfully to them as an American?

Written Testimony

Our economy has been hard hit from the covid lockdown It's been stated by Dr Anthony Fauci, Thé CDC, & WHO that those vaccinated still pose a threat to the community by spreading covid. Many hospitalized cases have been fully vaccinated. Please don't ignorantly support the vaccine passport to further divide the community. Those that are concerned can take more care or stay home. Let's move on to bigger better things rather than break our community down further & cause more derision, segregation, hate, suspicion, & fear. If this is your ultimate goal then by all means imua. This is between you & God

Written Testimony I oppose vaccine health cards as they are discriminatory and violate my privacy. This is clear government overreach. Government does not own my life, body or freedom. As a non white person, I have felt discrimination many times, and the discrimination here is clear. The vaccine health cards segregate people and strip them of their freedoms. I implore you to oppose this clear violation of my freedoms. This is bad for all people and a super bad idea for our great state.

Written Testimony

THIS TESTIMONY IS STRONGLY WORDED AND EMPHASIZED BECAUSE WE NEED YOU POLITICIANS TO LISTEN TO THE PEOPLE WHO YOU SWORE TO SERVE.
WE ARE STRONGLY OPPOSED TO VACCINE MANDATES AND "VACCINE PASSPORTS" OF ANY KIND!
WE ARE PRO-CHOICE AND ANTI-FORCE!
HUMAN BEINGS HAVE A RIGHT TO CHOOSE WHAT GOES INTO THEIR BODIES!
YOU SWORE AN OATH TO THE CONSTITUTION OF THE UNITED STATES OF AMERICA!
YOU ARE NOT UPHOLDING YOUR OATH WHEN YOU COERCE, BRIBE, PRESSURE, MANDATE OR FORCE CITIZENS TO INJECT SUBSTANCES INTO THEIR BODIES THAT COULD KILL THEM!
YOU ARE VIOLATING AMERICAN'S RIGHTS WHEN YOU CREATE ENDLESS MANDATES AND TRY TO FORCE PEOPLE TO DO THINGS AGAINST THEIR WILL.
YOU WERE ELECTED TO SERVE THE PEOPLE, NOT MANDATE THEM TO TAKE INJECTIONS THEY DON'T WANT! YOUR SALARIES ARE PAID BY THE TAXPAYERS, AND YOU ARE NOT SERVING THE CITIZENS BY VIOLATING THEIR RIGHTS AND DESTROYING THEIR TRUST IN YOU.
YOU WERE NOT ELECTED TO DESTROY SMALL BUSINESSES WITH ENDLESS SHUTDOWNS, MANDATES, CAPACITY AND HOUR REDUCTIONS, WHILE YOU LET BIG CORPORATIONS OPERATE AS USUAL.
YOU WERE NOT ELECTED TO MAKE SMALL BUSINESSES POLICE PEOPLE'S PERSONAL MEDICAL INFORMATION, OR IMPOSE BURDENSOME RECORD KEEPING ON THEM, WHICH

THEY NEED TO KEEP ON HAND IN CASE IT'S DEMANDED BY THE STATE.

YOU WERE NOT ELECTED TO THREATEN PEOPLE'S JOBS, EDUCATIONS, RESTRICT THEIR TRAVEL, DENY THEIR ABILITY TO SEE THEIR LOVED ONES, VIOLATE THEIR PERSONAL AUTONOMY, FORCE INJECTIONS ON THEIR CHILDREN AND RESTRICT THEIR FREEDOM!

YOU WERE NOT ELECTED TO "RESTRICT INDIVIDUAL'S ACCESS TO EMPLOYMENT, BUSINESSES AND OTHER PUBLIC VENUES."

YOU WERE NOT ELECTED TO TELL PEOPLE THEY MUST "SUBMIT," "SHOW PROOF OF" OR "COMPLY" WITH ANYTHING! THIS IS AMERICA FOR A REASON!

YOU WERE NOT ELECTED TO CREATE FEAR, STRESS, DIVISION, SEGREGATION AND DISCRIMINATION AMONG THE CITIZENS!

ENACTING SUCH PASSPORTS WOULD CREATE A SITUATION WHERE PEOPLE ARE TRAPPED ON THE ISLANDS, OR UNABLE TO TRAVEL HERE. WE HAVE A PREGNANT DAUGHTER WHOSE HUSBAND HAS BEEN DEPLOYED TO DEAL WITH THE INFLUX OF REFUGEES FROM AFGANISTAN. YOUR PASSPORT WOULD INFRINGE ON OUR RIGHTS AND ABILITY TO TRAVEL TO HELP HER OR FOR HER TO TRAVEL HERE WHILE ALLOWING NON-AMERICANS AND ILLEGAL PERSONS FREEDOM TO TRAVEL UNRESTRICTED, COVID POSITIVE AND UNVACCINATED. THAT IS JUST WRONG!

WE ARE NOT "ANTI-MASKERS" OR "SUPER-SPREADERS." WE HAVE NOT BEEN HAVING LARGE PARTIES OR FUNDRAISERS. WE HAVE BEEN BEHAVING RESPONSIBLY-WEARING MASKS, NOT HAVING LARGE GATHERINGS AND SANITIZING CAREFULLY. WE ARE NOT GOING AROUND SPREADING COVID AND SHOULD NOT BE LABELED AS "THE PROBLEM!" WE UNDERSTAND THE NEED TO STOP THE SPREAD OF THIS VIRUS AND HAVE TRAVELED SAFELY AND TAKEN COVID TESTS TO ENSURE WE ARE NOT CARRYING OR TRANSMITTING THE VIRUS.

REGARDING TREATMENTS: WE KNOW THERE ARE THERAPEUTICS FOR THIS VIRUS! WE KNOW THEY ARE ACTIVELY BEING SUPRESSED, WITHHELD, BANNED, AND DENIED ACCESS TO BY YOU, THE PEOPLE WHO ARE SUPPOSED TO BE HELPING US!

WE KNOW DOCTORS ARE BEING TARGETED, MALIGNED, AND PURSECUTED WHO EVEN DARE TO SAY THE WORDS, LET ALONE PRESCRIBE AND USE THESE MEDICATIONS!

YOU KEEP SAYING THIS "VACCINE" IS "SAFE AND EFFECTIVE." HOW CAN YOU KNOW THAT WHEN IT'S ONLY BEEN IN USE FOR NINE MONTHS AND HAS NO LONG-TERM DATA? YOU WILL NOT EVEN ACKNOWLEDGE THE CDC DATA SHOWING ALMOST 14,000 DEATHS AND 624,000 SEVERE ADVERSE REACTIONS AFTER RECEIVING THIS "VACCINE" AND THAT'S ONLY IN AMERICA, NOT COUNTING WORLD-WIDE!

YOU TRY TO BLOW IT OFF SAYING "THOSE ARE RARE."

REALLY, ARE 14,000 DEATHS AFTER A "VACCINE" RARE? ARE THERE ANY OTHER VACCINES THAT HAVE A RECORD OF THIS MANY DEATHS AND ADVERSE REACTIONS? WHY ARE THE DEATHS AND SIDE EFFECTS NOT BEING INVESTIGATED TO FIND THE CAUSE, AND FIX THE "VACCINE?"

NOW PEOPLE ARE DYING OR BEING HOSPITALIZED AFTER TAKING THE BOOSTERS WHICH YOU'RE SAYING ARE GOING TO BE NEEDED EVERY FIVE MONTHS! IF THE VACCINES ARE SO EFFECTIVE, WHY WOULD YOU KEEP NEEDING BOOSTERS? WHERE ARE THE STUDIES ON THE LONG-TERM EFFECTS OF THESE BOOSTERS?

WHY DOES NO ONE HAVE ANY LIABILITY FOR DEATHS OR ADVERSE REACTIONS? YET YOU WANT US TO SIGN CONSENT FORMS, AND THEN TELL US WE'RE LIABLE IF ANYTHING HAPPENS? THAT IS NOT INFORMED CONSENT. THAT IS COERSION! IF YOU THREATEN OUR LIVLIHOODS, THAT'S EXTORTION!

WE KNOW COVID IS BAD. WE KNOW PEOPLE DIE FROM IT. BUT HOW MANY DIED BECAUSE OF COLLUSION IN DENYING THEM TREATMENT? HOW MANY DIED WHO DID NOT HAVE COVID BUT DIED FROM SOMETHING ELSE? HOW MANY DIED BECAUSE OF ALL THE CONFUSION ABOUT WHETHER PEOPLE NEEDED TO WEAR MASKS? FIRST IT WAS DON'T WEAR A MASK! THEN WEAR A MASK OR YOU'LL BE ARRESTED! THEN WEAR TWO MASKS! THEN GET THE "VACCINE" AND YOU WON'T NEED TO WEAR A MASK! THEN GET THE "VACCINE" BUT YOU STILL NEED TO WEAR A MASK!

HOW MANY DIED BECAUSE YOU OPENED UP TRAVEL WITHOUT REQUIRING NEGATIVE TESTS TO COME TO HAWAII? HOW MANY GOT SICK WHEN YOU SENT THE KIDS BACK TO SCHOOL AND ASSURED EVERYONE IT WAS "SAFE?" WE WERE DOWN TO SINGLE DIGIT CASES AND HOSPITALIZATIONS BEFORE YOU ALL DID THIS!

IF YOU REALLY WANTED TO HELP PEOPLE, YOU WOULD BE DOING EVERYTHING IN YOUR POWER TO GET THE MEDICATIONS THAT WORK OUT TO THE PUBLIC. YOU WOULDN'T BE DENYING AND WITHHOLDING THEM!

JOSH GREEN EVEN SAID IN THE BEGINNING, "DON'T WORRY EVERYONE, WE HAVE IVERMECTIN." WHERE'S THE IVERMECTIN NOW?

THERE ARE NUMEROUS STUDIES THAT SHOW THE BENEFIT OF HYDROXYCHLOROQUINE, WHY IS IT NOT BEING USED???

JOSH GREEN SAID "HE WASN'T GETTING THE 'VACCINE' WHEN IT CAME OUT BECAUSE HE HAD NATURAL IMMUNITY." "YOU KNOW, THAT'S WHAT HAPPENS WITH VIRUSES, YOU GET GOOD NATURAL IMMUNITY." NOW HE SAYS "FORGET ABOUT IMMUNITY-YOU MUST GET THE VACCINE!"

THERE IS INFORMATION COMING OUT NOW SHOWING THOSE WHO HAD COVID HAVE STRONG NATURAL IMMUNITY. YET YOU

ALL KEEP TRYING TO FORCE PEOPLE WHO HAD IT TO TAKE A "VACCINE." SINCE WHEN DID IT BECOME NECESSARY TO TAKE A VACCINE FOR A VIRUS YOU ALREADY HAD? DO WE NOW NEED VACCINES FOR CHICKEN POX, EVEN THOUGH WE HAD IT ALREADY?

IF YOU WERE REALLY WORRIED ABOUT THE HOSPITALS BEING OVER FILLED, YOU WOULD BE GIVING PEOPLE THERAPEUTICS AS EARLY AS POSSIBLE, BEFORE THEY ARE TOO SICK FOR THEM TO WORK. THE HOSPITALS WOULD NOT BE SENDING SICK PEOPLE HOME WITH NOTHING AND TELLING THEM TO COME BACK WHEN THEY'RE REALLY SICK!

IF THE "VACCINE" WAS REALLY SAFE AND EFFECTIVE THERE WOULD BE FEW DEATHS AND SIDE EFFECTS. THERE WOULD BE A SUBSTANTIAL DROP IN CASES BECAUSE 70% OF THE POPULATION IS VACCINATED. IF IT WAS REALLY SAFE AND EFFECTIVE, THERE WOULD BE NO "BREAKTHROUGH" CASES. WE WERE TOLD "CHILDREN RARELY GET THIS VIRUS AND THEY HAVE LITTLE TO NO EFFECTS FROM IT." NOW WE'RE TOLD WE MUST VACCINATE EVERY CHILD, EVEN BABIES! WHERE ARE THE LONG-TERM STUDIES ON THIS? WHERE IS THE LONG-TERM SAFETY DATA ON THIS "VACCINE" AND WHAT IT WILL DO TO CHILDREN? WE'VE SEEN WHAT IT CAN DO TO YOUNG MALES IN THE FORM OF HEART PROBLEMS THAT CAUSE PERMANENT DAMAGE. YET AGAIN WE'RE TOLD "IT'S RARE" AS IF IT'S IRRELEVANT. WHAT IF THAT WAS YOUR CHILD THAT WAS PERMANENTLY DAMAGED BY THESE VACCINES? AND WHAT HAVE ALL THESE MANDATES DONE? WHAT HAVE ALL THESE VACCINATIONS DONE? OUR CASES ARE 351% HIGHER THAN THEY WERE LAST YEAR WITHOUT A VACCINE! WE KNOW THE CASE NUMBERS HAVE INCREASED. ANY DEATHS ARE TOO MANY BUT REALLY, THE DEATH NUMBERS ARE FEWER THAN AN AVERAGE YEAR OF FLU DEATHS. YET YOU DON'T MANDATE FLU SHOTS OR FLU PASSPORTS! WE KNOW THESE MANDATES ARE GOING TO LEAD TO MORE MANDATES, MORE SHOTS, MORE TRACKING AND MORE CONTROL, UNTIL WE HAVE NO FREEDOM LEFT.

WE ARE OPPOSED TO THESE MANDATES AND PASSPORTS AND REMIND YOU THAT ARE VIOLATING THE OATH YOU SWORE TO UPHOLD TO THE CONSTITUTION OF THE UNITED STATES AND TO THE PEOPLE WHO YOU SWORE TO SERVE. AS YOUR CONSTITUANTS WHO PAY YOUR SALARIES, AND PEOPLE WHO WILL BE FOREVER AFFECTED BY YOUR ACTIONS, WE DEMAND YOU DO EVERYTHING IN YOUR POWER TO BAN VACCINE MANDATES AND PASSPORTS.

THIS IS AN UNCONSTITUTIONAL DEPRIVATION OF LIBERTY WITHOUT DUE PROCESS AND IS A CRITICAL ISSUE TO US AND OUR FAMILY. IT IS UNCONSCIONABLE THAT AMERICAN'S FREEDOM OF MOVEMENT IS THREATENED IN AN ATTEMPT TO FORCE PEOPLE TO GET VACCINATED WITH WHAT COULD BE A LETHAL OR DEBILITATING INJECTION. WE WILL BE WATCHING HOW ALL OF YOU VOTE!

BE ADVISED, THERE MAY SOON BE A LOT OF UNEMPLOYED,
SMART PEOPLE WITH A LOT OF TIME ON THEIR HANDS WHO
WILL SEE TO IT THAT EVERY LAST ONE OF YOU IS REMOVED.
YOU MAY NOT IMPOSE SUCH MANDATES! THIS GOVERNMENT
OVERREACH HAS GONE TOO FAR AND NEEDS TO STOP NOW!

This is a recipe for totalitarian social monitoring. It is not only discrimination to those with medical or religious exemptions but this is a platform to remove liberty from all American citizens. I beg you to look at Israel. They surged back up in cases. The Vaccine Passport did no solve the problem. I beg you to reconsider this option. I personally know more people that have been killed or injured by the vaccine than from getting COVID. May the Lord give you discernment to chose to protect our freedoms and the American way of life.

I strongly oppose this resolution.

Hawaii State Constitution Article 1 Section 1 All political power of this State is inherent in the people and the responsibility for the exercise thereof rests with the people. All government is founded on this authority.

Written Testimony

No where in the constitution does it give you the power to force the people to do anything. And as government officials according to Article 16 section 4 you all swore an oath to support and defend the constitution of the United States and the constitution of the state of Hawaii. No where in these documents does it give you all as indentured servants of the people the right to mandate the people to do anything that infringes on their rights. And according to article 1 section 2 of Hawaii constitution it says that these rights shall not endure unless the people recognize their corresponding obligations and responsibilities. It is our responsibility and duty to let our trustees, the people we elected, of this indentured contract, Hawaii Constitution, know that you are exceeding your jurisdiction! Vaccine passports ARE NOT the will of the people!!

Testimony

I Strongly Oppose the vaccine passports. To impose something like this to simply participate in society is unacceptable and discriminating. This is a violation against my freedom and civil right. This is a hardship for local businesses everywhere and this will not help our economy but make it worst. Vaccine passports is a violation of privacy and health status. I am not comfortable with giving this type of information to anyone especially with all of the recent hacking going on, there's no security to know that my information is kept safe. This is not about the health and safety of the Hawaii residents anymore. Stop the Vaccine passports.

Written Testimony

The vaccine passport is discriminatory. Bullying citizens into getting a vaccine in order to allow them certain rights is criminal. It violates their civil rights and their choice to make decisions for their body, their family and their businesses. This is not about controlling spread within these establishments because none currently exists. If Covid is the number one concern then eliminating non-essential travel and keeping our kids at home and not in a space smaller than a restaurant is the solution. But I suspect the corruption of money and power is the the number one concern and that's why the priority shifts to making sure our tourists are fed in our restaurants and they get their "Hawaiian" experience over the people who pay to live here. Prisoners get set free while taxpaying, law-abiding citizens have theirs taken away. As much as I would like to believe this statement matters, I know my little voice and the voices of those standing alongside me mean nothing to you. Our American freedoms mean nothing to you. It starts here...and then what...what will you take next?

The vaccine and related mandates are illegal, immoral and against individual constitutional rights . As a nurse of 40 years, seeing our current situation is no surprise and we will continue to see consequences of the covid virus and serious side effects of the vaccine (which we are seeing now.) The poor predictions of "following the science" , poor efficacy and strategy of testing, poor reporting of disease and death is not following the science. Looking at worldwide open studies, treatments , discourse, open discussion of the above stated problems would be enlightening, potentially collaborative and more open to solutions . Mandates as a solutions is a fools journey .

Written
Testimony

I am strongly opposed to this bill. It divides and segregates the public into vaccinated and unvaccinated. There is a new study out of Harvard that proves that vaccine passports do not prevent the spread of COVID. Both vaccinated and unvaccinated people can carry large viral loads in their throats so preventing only the unvaccinated from freely exercising their rights to go anywhere is wrong.

Respectfully,
Patti

Why are we not taking into consideration people who have already had the virus and recovered naturally? The vaccine is NOT the only answer to this virus.

This bill is doing nothing to help with COVID - it's doing everything to destroy this beautiful island and community. You are using MEDICAL COERCION to try to get humans to inject themselves with something that they don't want to just to be a part of society.

Written
Testimony

This is America. The land of the free and home of the brave. We have a choice on this land. And you will not take that choice from me and my family. You will not shun us out of society because we have recovered and have natural immunity to a virus but won't take a vaccine that destroys the antibodies that we already have built up just so that we can "fit in" with society. That is WRONG and shows that this bill doesn't care about health and wellness. Stop allowing this corruption and control where it is not welcome.

You have a choice here as well, as the elected leaders that your community relies on and believes in. You can encourage vaccines but you cannot force people to take them or else rip away their community. Please reconsider pushing this through. There are so many people that have deep deep valid reasons for not wanting this vaccine. Please hear us out. Please do the right thing and do not force people to take this vaccine or make it difficult for them to function in society. This is not a no risk vaccine - there are so many reported vaccine injuries via vaers. This vaccine isn't for everyone and some people have NATURAL IMMUNITY!!!!

I Julia Starks a resident of Hawaii oppose the Resolution 21-194.

Written Testimony I believe that it is against our rights to have to declare with a card our personal health information. I believe that vaccines do not protect people from getting the virus.

Copy and paste this into the Written Testimony: "There is no justification in taking away individuals' freedom in the guise of public safety"
- Thomas Jefferson

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!

Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

I VEHEMENTLY Oppose this bill. You seek to further divide the community with this asinine proposal. Instead of believing what the Pharmaceutical companies who have bought and paid for Lt Gov. Green, Gov. Ige, and appearing to be Mayor Blangiardi as well, OPEN YOUR EYES AND EARS and do some REAL UNBIASED RESEARCH. Suggest you read testimony of Stewart Yeadon, ex Pfizer head, Dr. McCullough and so very many others. Read about Graphene Oxide found in vax now pulled from Japan. The D-Dimer test showing blood clotting in 1-2 weeks after the jab. This is a SHAM, A gain of function virus paid for by the US GOVT. with a patent from Fauci. You can NOT get a patent on a naturally occurring virus. This virus is NOT from Nature. This is NOT NATURALLY OCCURRING. IT is also a virus with an ANIMAL Reservoir. This VIRUS WILL NEVER BE GOTTEN RID OF. IT WILL BOUNCE FROM HUMAN TO ANIMAL AND BACK. AD INFINITUM. VAXINATED people are creating the Variants from their bodies. They shed the disease. It is the unvaxed who ARE HEALTHY. You are uninformed and so blinded in your narrow field of vision. But in the end, good surpasses all the evil. It won't be a pretty sight when all who perpetuate these lies and crimes against humanity are judged by the judge of the universe.

I oppose mandates, mandatory vaccination, mandatory vaccination passports! I am a Licensed Practical Nurse and I am using my freedom of choice to not get the Covid Vaccine. I am a mother of 4 and a grandmother of 4. My husband is a Federal Police Officer, who works hard to keep our community safe as first responder. We are not taking the vaccine because it is our right to decide for our health. We oppose being mandated or forced to take a vaccine. My husband's cousin recently passed away from Covid and she was fully vaccinated. So why would a state mandate a vaccine that IS NOT 100% protection or cure Freon Covid? Then why didn't they mandate the flu shot? The flu has been around for decades and people still die from the flu! Everyone's body handles different illnesses differently from the other person. We need to open our eyes to see the truth. And the truth is that they are trying to take away our freedom of choice for our own health, families, and ourselves. Please do not pass mandatory vaccination, or mandatory vaccination passports. We love our state. Hawaii is our home born and raised. We pay our taxes by working and providing for our family. Please hear us out. Mahalo!

Written
Testimony

I oppose vaccine passports!! We are free people w/ God given rights. No government can take away our mobility & segregate us. We are not Jews (having to wear the Star of David & show papers), nor are we blacks treated as less than (drink from separate water fountains, use different restrooms, etc), nor are we Japanese Americans that have to prove our loyalty (just like the 442nd) & to have everything taken away & placed in internment camps. Why are we repeating evil history?! Have we not learned anything?! What good will come out of segregating our beloved & already hurting Hawaii people?

Why hurt our mom & pop businesses even further by pushing this divide? All the people are struggling - emotionally & economically. How can this passport mandate scientifically stop the spread ?! This is the flu, it's a virus, it's going to take its course. If the vaccinated are protected, that's fine. But why punish the unvaccinated? Because we aren't doing what you want by taking the jab?! Is this America? Land of the free?

Our job market is unstable - we had nursing & teacher shortages for years!! Local hospitals don't hire our local graduate nurses because they have "no experience ", so they hire outside traveling nurses! Teachers are leaving their professions in droves, all because of forced mandates.

How is this helping the Hawaii people socially, economically, & physically?! So much has been taken away from us. The love of family gatherings. My 104 year old grandma passing away alone, we didn't get to see her for a year! Haven't we lost enough?? Why further

divide & segregate us more? What scientific evidence will show that this passport & segregation is the answer? COVID lives everywhere. Even in the vaccinated communities! Placing restrictions on people is not the answer!! Stop the oppression & tyranny, give freedom back to the people!! Everyone should be free to choose & protect themselves the best they are able. It is not the governments job to interfere with our God given rights.

Written Testimony I strongly oppose resolution 21-194. This vaccine passport sets out country back in time; discrimination against those who choose not to take a vaccine. This will cripple many businesses who are barely seeing the light at the end of the dark tunnel caused by the lockdowns. This is destructive. Stop this discrimination and huge overstep of government authority.

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.”

The purpose of Government is to ensure these rights. When Government takes away our rights, we must stand up, take action and speak out, just as our founding fathers did in the Declaration of Independence.

Resolution 21-194, urging the City Administration and the State of Hawai'i to implement a COVID-19 Health Card, tramples on the Rights of citizens. It is discriminatory against individuals who have the right to choose not to take the vaccine. It gives unequal access to restaurants, bars, gyms, clubs, etc. Businesses are forced to operate in a certain way, rather than allowing the owners to choose how they should operate their business.

Written
Testimony

The CDC admitted that the data shows that fully vaccinated people can spread the virus just as much as unvaccinated people. There was no difference in the viral load of vaccinated and unvaccinated persons. The CDC's recommendation was for everyone to wear masks indoors, which Hawai'i businesses had already implemented throughout this pandemic. Instead of being forced to comply with a Health Card, businesses should be free to choose to continue taking the proper precautions that they have already established.

Breakthrough infections and deaths do not justify making laws that restrict freedoms, allowing only vaccinated people to enjoy the pursuit of Happiness. Breakthrough infections and deaths are evidence instead that Life is fragile and that government cannot guarantee anyone will be safe from illness and death by taking a vaccine. Government should allow all individuals to take the risk of going out, keeping themselves safe through masks and

temperature checks. Thereby, government would fulfill its duty to protect the Liberty of everyone in their pursuit of Happiness.

Written Testimony I oppose this bill / idea because it supports governmental segregation/discrimination. I have both a medical condition and a sincere religious opposition to this matter. Freedoms both individually and economically are being sacrificed at the altar of governmental control. This is a TERRIBLE idea! This mandate, if passed, will be the beginning of totalitarianism in the state of Hawaii and it WILL DESTROY tourism, businesses, and individual liberties!

- Aloha ladies and gentleman my name is Nicholas Wehrly and I 100% Oppose the Vaccination Mandate (Resolution 21-194).

-As of June I am 30 years old and have lived with the challenge of having Asperger's and Tourette's Syndrome and I wholeheartedly believe that previous vaccinations administered to me (ones that were required to attend public school such as Measles/Mumps) are partially to blame for me developing these physical, social and mental disorders.

This being said I firmly stand against any COVID-19 vaccination and a passport requirement is in no way Ethical or American in any way, shape or form.

Written Testimony I was born and raised on Kauai and enjoy living a simple island life staying socially active at beaches, restaurants and public parks.

I enjoy working hard to pay off my USDA mortgage on a home that Kauai Habitat for Humanity blessed me with the opportunity to build back in 2016.

I know that by making this vaccine mandatory will hinder me to hold a sold job and successfully pay off my house on time.

The past island lockdowns have already made it very difficult to sustain a healthy source of income due to the lack of consistency and loss of bussiness that the tourism industry normally brings in on a daily basis.

I know for a fact that if this required vaccine mandate is passed it will hurt the livelihood of myself as well as many other Kauai residents!

Mahalo for the opportunity to share my thoughts on the subject and that I appreciate you taking the time to read my testimony.

I ask that you consider all the negative effects this will have on the lives of so many friends and families that "Work Hard on the Daily" to "Proudly Call This Beautiful Island HOME"

-From My Heart to Yours, Mahalo and Aloha!

Sincerely,

Nicholas Charles Wehrly

Agenda Item RESOLUTION 21-194
Your position on the matter Oppose
Representing Self
Organization

Dear Committee Members,

Thank you for the opportunity to submit testimony in regards to RESOLUTION 21-194 pertaining to a COVID-19 HEALTH CARD. I strongly oppose this measure for many reasons.

Written
Testimony

The first and foremost reason being that, as a local girl who was born and raised here on Oahu and now raising my own family here, I have never seen our state so divided and lacking true aloha for one another. Implementing a COVID-19 Health Card/digital vaccine passport program for entry into places of business, recreation, entertainment, and accommodation, and even as a requirement for employment - basically to be able to participate in every day activities as an equal member of society - will not only further divide our already fractured community, but also create a culture of a new kind of discrimination that goes entirely against many of our foundational Hawaiian values. Our people are being pit against one another, and incredibly, the leaders of our state have made it acceptable and even virtuous to blame and view those who are unvaccinated as the sole source of our current challenges with COVID-19. This inciting of intolerance and vitriolic rhetoric against the unvaccinated members of our community should be unequivocally condemned. Instead of equally valuing all lives and all opinions and beliefs, some lives are being dismissed without an ounce of compassion.

I've attached a few screenshots of comments I've seen on social media lately attacking the unvaccinated. Ironically, the ones who are preaching that we need to "save lives" are also saying that if you're unvaccinated, you should be denied hospital care. People are literally being denied treatment for non-covid related issues, including serious ones such as long-awaited organ transplant surgeries and heart complications, because they are not vaccinated. How is this caring about lives? Are we no longer advocates of tolerance? What happened to all the zero-tolerance for bullying policies?

The second reason I oppose this measure is because it does not make any scientific sense whatsoever. We all know that both vaccinated and unvaccinated people can get, transmit, and also potentially die of Covid-19. This has been confirmed by the CDC as well as numerous other outlets and medical studies. Since this is the case, why are only unvaccinated people being treated like they are the ones spreading the virus? If anything, vaccinated people should be required to test since they are less likely to show symptoms. A study recently came out from Vietnam showing that vaccinated hospital workers carry 251 times the viral load of Covid-19 virus compared to the unvaccinated. Also, world-reknown virologists and immunologists have stated that the vaccinated are creating the variants because of antibody dependent enhancement. Why are the vaccinated allowed to travel into Hawaii and go about all activities without being tested if they have a real potential for spreading the virus? This is the reason for the skyrocketing case counts and never-ending variants. The vaccinated are no longer being required to test. How do you know that an unvaccinated person is carrying and spreading the virus and a vaccinated person is not?

Thirdly, if we are trying to minimize hospitalizations, why are we not looking into the proven effective early treatment protocols and prophylactic measures that hundreds, if not thousands of doctors across our nation and the world have been using to treat Covid-19 with great success? Had we done this from the beginning, countless lives and cases of suffering would have been spared. The censorship, dismissal, and suppression of these treatments have been purely political and money-driven. The DOH was most unfortunately absolutely wrong to advertise Ivermectin and hydroxychloroquine as being ineffective. Additionally, since other health factors like obesity, heart disease, diabetes, and vitamin D deficiency are big factors in one's risk for serious illness with Covid-19, why are we not encouraging people to get healthy - exercise, eat healthy, take vitamin D, etc.?

A fourth reason I oppose this measure is because our leadership originally said all we need to do is get to a 70% vaccination rate and we'll be good. It obviously is not working, yet now we're being pushed for even more. Threatening and punishing people for not getting vaccinated will also not work.

Reason number five is that our mortality rate (both locally and nationally) continues to decrease even though cases are increasing. The overall mortality rate for Covid-19 is 2% at the very most, and it decreases significantly with age and good health. Why are we pushing vaccination on everyone when even without treatment, more than 98% of people who get the virus survive? Why aren't we instead focusing on targeted protection and care of those who are most vulnerable? Why do we continue to push fear when we should be encouraging the public with the fact that most people will survive and that there are effective treatments to increase the survival rate even more?

The sixth and final reason I submit to you for now (there are still many, many more) is that it has become more and more evident that the vaccines are absolutely NOT safe for all. Thousands of people have been reported to have died due to the Covid-19 vaccines and also have been severely injured because of them. A case just came out in the UK where a coroner has officially declared the death of a 44-year old woman as a result of the vaccine. Children are moreover being unnecessarily harmed from the vaccines when there is no reason for them to even get vaccinated with children having a 99.9% survival rate. There are NO long-term studies on the Covid-19 vaccines. We don't even know the potential devastating effects they can have, and especially on our children. Studies have shown that the toxic spike proteins being produced from the vaccines accumulate in organs and particularly concentrate on

reproductive organs. We don't know how the vaccines will affect fertility and natural immunity. The clinical trials for the vaccines will not be officially completed until over a year from now, and still those cannot be considered long-term. And now, Pfizer has misled the public in marketing their vaccine as FDA approved when in actuality, the vaccine that has been approved (Comirnaty) is not even on the market yet. People have been tricked into thinking that if you get the Pfizer shot now, that they are receiving an FDA approved vaccine when they are actually still receiving an EUA vaccine. This is a huge red flag as to the trustworthiness of the Big Pharma companies who are making billions from these vaccines. They already hold zero liability. If they believe their products are so safe, why won't they accept liability?

We can not be mandating these vaccines for people when there is even a very minimal risk of injury. And we simply MUST NOT push these vaccines on children until we have more information - a lot more information. It is a monumental problem that the public has not been given true informed consent with the vaccines. All we're being told is that they are safe and effective for ALL. When the truth is that no one knows who is going to have a serious adverse reaction to the vaccine and who won't. No one even knows who is going to get and spread Covid-19 and who isn't. But we do know who is most at risk of the virus, and we can all agree on and work together to protect those people. The end goal of all this was not that no one would ever get sick again. If that was the case, we should also have mandates against smoking, drinking, junk food, sleeping around, and the list goes on of choices that pose a risk to others as well as oneself. Yet we still let people manage their own risks when it comes to everything else.

We need a better solution than to simply require everyone to either get vaccinated or suffer the consequences. We need to work together to get good well-rounded information instead of just relying on the CDC and the WHO and the FDA (no one in these institutions by the way is on the frontlines treating Covid-19 patients). We need to listen to and look into the major concerns that many health care professionals and other citizens have instead of silencing and ostracizing them. They are speaking out not just for themselves, but out of concern for everyone. We need to mandate aloha.

Thank you for your time and taking all these testimonies to heart. I am praying that our whole state will choose to really consider everything that's at stake and that we can all move forward together.

Respectfully,
Joanna Chinen
Kaneohe, Hawaii

Written Testimony

I VEHEMENTLY Oppose this bill. You seek to further divide the community with this asinine proposal. Instead of believing what the Pharmaceutical companies who have bought and paid for Lt Gov. Green, Gov. Ige, and appearing to be Mayor Blangiardi as well, OPEN YOUR EYES AND EARS and do some REAL UNBIASED RESEARCH. Suggest you read testimony of Stewart Yeadon, ex Pfizer head, Dr. McCullough and so very many others. Read about Graphene Oxide found in vax now pulled from Japan. The D-Dimer test showing blood clotting in 1-2 weeks after the jab. This is a SHAM, A gain of function virus paid for by the US GOVT. with a patent from Fauci. You can NOT get a patent on a naturally occurring virus. This virus is NOT from Nature. This is NOT NATURALLY OCCURRING. IT is also a virus with an ANIMAL Reservoir. This VIRUS WILL NEVER BE GOTTEN RID OF. IT WILL BOUNCE FROM HUMAN TO ANIMAL AND BACK. AD INFINITUM. VAXINATED people are creating the Varients from their bodies. They shed the disease. It is the unvaxed who ARE HEALTHY. You are uninformed and so blinded in your narrow field of vision. But in the end, good surpasses all the evil. It won't be a pretty sight when all who perpetuate these lies and crimes against humanity are judged by the judge of the universe.

Written Testimony Aloha my name is 'Iolani Kuoha from Moloka'i and I OPPOSE resolution 21-194. I have many reasons why my opposition, first and foremost, my husband is on dialysis and communication with physicians or to coordinate a trip and travel to Oahu for doctors is very difficult and with the requirement of having a vaccination card to travel is making travel very difficult to travel because of the card.

Written Testimony

Aloha, my name is Allegra. I am a 29 year old woman born and raised on Kauai. I strongly oppose this bill because of the lack of medical and scientific research behind it, and also because it is extremely discriminatory against people who only want to be given the freedom to make their own personal health choices.

I got covid in the fall and I now have antibodies and natural immunity. Research shows that natural immunity is more effective than immunity via vaccine (which now we've seen isn't even guaranteed). I am healthy and I am planning on starting my family soon. Why should I be forced to take a vaccine that I have no need for and that could put myself and my future children at unnecessary risk? There is more and more data revealing adverse reactions and these big pharmaceutical companies are not liable for any damages. I will not give myself an experimental shot just to appease others when it is my responsibility to look out for my own health, it is not anyone else's responsibility.

Please do not enforce these discriminating vaccine passports. There are so many people with personal reasons of why they do not want to get vaccinated and no one should ever be forced to go against what they think is best for themselves just to be able to participate in society. It is so wrong and not at all based in science. I humbly ask that you give us the freedom to choose for ourselves, for us to be allowed to take responsibility for our own bodies, and that you do not pass any vaccine passports or mandates. Mahalo.

I strongly oppose Resolution 21-194 and I support a mandate free Hawaii. Freedom of choice is what our country is founded on and I can't believe something like this is being proposed to strip the rights of people away just because of their personal health choices. Please don't force vaccines on the people of Hawaii. There are no long term studies on the effects. Also science and doctors specifically virologists are now able to prove through medical studies with facts that people whom have already had the covid virus have sufficient immunity. Knowing this and still requiring vaccinations has allowed jobs / careers to be jeopardized as well as persons to be discriminated against unfairly. Please stop the discrimination and the divide. Let's all support freedoms for the people of Hawaii. Our country needs unity NOT division!

I would like to start by saying there is nothing more permanent than a temporary government policy.

My name is Ms. Price, I am a mother of 2 young children, I am currently unemployed due to your draconian measures and attempts to "mitigate" this pandemic. This pandemic of fear. This virus is no more deadly to the average person than the flu. It's on the CDC's website. Have you taken the time to compare the data? I have.

I am here to stand up for those that can't and those that don't know any better. I say NO! No to mandates regarding SARS-CoV-2/Covid-19 or any other disease should be given for any reason AS they violate our constitutional rights to bodily autonomy, our HIPPA rights to keep medical procedures elective and private and the Nuremberg Code of 1947 preventing government coercion and forcing medical procedures ESPECIALLY those which are experimental (which these vaccines still are) on unwilling participants.

Written
Testimony

These current experimental vaccines have caused thousands of deaths and millions of permanent side effects in adults as well as children. There is a Vaccine injury website called VAERS which has been studied by Harvard is said to be Recording only 1% of incidences. There are thousands of deaths & hundreds of thousands of injuries reported and nobody is investigating that!?. Why don't you do YOUR due diligence and investigate into that before you force your constituents to inject DNA altering substances into their bodies without having any knowledge of the consequences. It's called informed consent. I DO NOT CONSENT

The so called Delta variant came from India from people who have been fully vaccinated. Research shows that people who have been naturally infected with corona viruses still carry the antibodies to this DAY.

_There are medical treatments to prevent serious infection namely ivermectin, budesonide, hydroxycloquine and zinc. They are multi approach therapies but they work. And you all are just simply IGNORING them to further your political agendas.

Also, why impose these mandates when the survival rate is 99.76%, according to the CDC, in people who don't have underlying issues. _The vaccine only provides a waning percentage of protection in the 70's right now, because this virus is now ENDEMIC and we are vaccinating for last year's virus.

-Furthermore, according to the CDC, these vaccines don't prevent the spread, They only protect yourself from getting seriously ill. It is quite literally creating the asymptomatic spreaders that you were all afraid of last year. Which by the way AN Unvaccinated "asymptomatic spreader" is just called a healthy person. Research shows that a healthy, non-Covid-vaccinated person with NO SYMPTOMS cannot pass on this virus.

How come I, a simpleton, know all of this and you folks don't seem to? Isn't Josh Green a physician?!

Again, how much have you looked into the data on your own? ? Aside from just reading the guidelines that some UNELECTED officials are shoving down your throats along with their fear mongering?!

It's Just like the flu. Do you guys even think of any of this stuff? Do you care?

Also, once infected, those people don't need the vaccine because they already have full immunity.

So subjecting your constituents to unknown & dangerous life-altering outcomes for political reasons WITHOUT scientific evidence as to the experimental vaccine's safety, is subsequently dooming your people to a lifetime of unknown hardship.

LASTLY, Forcing businesses to do your coercive work for you shows you have no regard for the rights of human beings. We all know, once the government implements the Vaccine passports system, we will end up like the people of China who are enslaved to their government. This is just the beginning.

I would like to add that this tyrannical government overreach will be forcing families like mine to uproot and leave the islands as a refugees. That is what you will be creating with this bill. An exodus of REFUGEES from Hawaii in 2021.

Thank you.

Written Testimony Having to "show your papers" to exercise your rights and freedoms is un-Hawaiian, un-American and un-constitutional. Science shows that you cannot legislate away a virus. There are effective treatment protocols that help people recover from COVID and develop natural immunity, the only immunity that will be durable. This mandate ignores the science of those who have natural immunity or who are healthy and at near a zero risk from COVID. I oppose this mandate that tramples on my free rights and privacy.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

I Marinaomi Thomas, by do not approve of or support any policy or politician regarding the digital vaccine passport. It is huge infridgement on our rights to privacy of medical information and freedom and an even bigger violation of liberties for the business owners who have their hands tied being forced to go along with the procedure in order to run a business. This is America and this bill is not the American way. So many businesses and families are going to suffer if the bill passes. Our economy will suffer more.

As a member of the community I am strongly opposed to vaccine passports to enter establishments. My personal health choices are no ones business but mine and my doctors, not government. When death is an adverse reaction their should always be a choice and a vaccine passport to access basic needs (example a mall to buy new shoes for school for my children) is wrong. This is segregation, these are Jim crow laws. I highly suggest you do not move forward with this resolution to help business continue to be able to recover from the past almost two years. It would be a shame if Hawaii's economy suffered further when people are restricted from establishments based on their personal medical decisions, but the committee had the chance to stop this.

Businesses are being put in the middle of the people and the government. They'll have to endure boycotts from the people should they abide by the passports OR penalties from the state should they oppose. We need our local businesses to fuel the the economy and continue to provide residents with their JOBS. We CANNOT do this to them. I OPPOSE VACCINE PASSPORTS.

Start Safe Travels testing for vaccinated travelers again.

Written Testimony Leveraging private companies to make life inconvenient to those of us who chose to care for our health in different ways than a rushed and under researched vaccine is harmful to our health and unconstitutional. It extremely hinders our ability to chose what to do with our bodies and furthers the influence of large corporations and the entwined nature they have with our (the people who are supposed to have the freedom of choice) government.

Fwd:

I Dustin Ching, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I oppose the mandate for vaccine passports in Hawaii. It will take away free will and basic human rights of the Hawaiian residents and visitors. Everyone is different and has different side effects and or health issues one vaccine does not have the ability to cure or fix all the differences therefore is a HUGE risk to give to everyone or say everyone needs it. You can still contract the virus with the vaccine and the antibodies from contracting COVID are stronger than the actual vaccine. Makes no sense to force people to get something that doesn't even work 100%.

Written Testimony

Aloha and thank you for your continued representation.
In recent times it has become clear that the vaccinated carry no true immunity from the target COVID19 corona virus nor its variants, but rather have reduced symptoms or are asymptotic. The unvaccinated has the risk of catching the coronavirus or a variant of it carried by the vaccinated person. Each individual has the right to choose refusal of vaccination. I think that by separating the vaccinated and unvaccinated in private / public spaces we won't allow for the unvaccinated to reach herd immunity by natural exposure. At this point it seems clear that a large portion of your constituents will refuse the vaccine and to alienate that portion of the population seems unwise. Additionally consider that natural immunity has been proven to be more effective than mRNA vaccines, which means the unvaccinated population will eventually have stronger immunity than the vaccinated.
If complete lockdowns have not stopped the spread of coronavirus, and better than 50% vaccinations won't, I propose we search for response that allows people who choose to make a poor decisions about their personal health reap the produce of that decision without governmental intervention.

Forcing businesses to require its consumers to present a vaccination card is just a loop hole way of taking away people's rights to make their own medical choice. The majority of the public does not trust our government due to its history of being hypocritical, slow to action, self fulfilling agendas, and lack of transparency. I DO NOT TRUST THE COVID VACCINE. It was funded by a software tech billionaire and hundred of thousands of vaccines worldwide resulted in permanent damage to many parts of the body. You guys bully your way into everything. Starting with the illegal occupation of Hawai'i lands. You sit in your plush Hawai'i kai homes while entitled Hawaiians parish in the streets due to lack of housing and funding for the native Hawaiians. Also, many of you in the "Hawaiian Government" aren't even hawaiian so how could you ever have our best interests at heart? I can't even promote a healthy lifestyle by going to the gym because I first have to stick a foreign substance in my arm. Your agenda is rigged, so is your elections. Basically you all suck

I do not support vaccine passports here in Hawaii. My whole life growing up we were able to visit friends and family as free people. And because this is a part of our culture it helps bridge the islands. I am Hawaiian however, of all the countries in all the world I am so blessed that it was America that occupied us. We are able to live free under the Constitution and the bill of rights. Please don't take away our Liberty and yet again subject us to unlawful control and mandates. Do not let another injustice happen to the people of Hawaii.

Written
Testimony

Aloha to all, My name is Jessica Sanchez, I am 27 years of age. I live and work in Kalaupapa on the Island of Molokai for the Department of Health, Kalaupapa Settlement with Hansen's Disease Patients. I oppose the vaccination passport.

My testimony will probably be all over the place due to the fact that I have so much to say and not very much time to get my point across if I was to record myself and or join a zoom-call.

Personally, I am not against vaccines in general but this vaccine was created way too quickly. I was forced to take the vaccine because my employer failed to provide services for myself and this small community for both testing and vaccinations. Being that Kalaupapa is such a unique place, employees must travel in and out of settlement for medical care. DOH has had a few vaccine clinics but NEVER testing clinics. A lot of the workers took the vaccine so they could travel and or because they were scared that a Mandate would come one day and that they'd lose their jobs. With Kalaupapa being its own county and piggy back with Maui and Oahu County, our rules are very strict. For the past 16/17 months since the state shutdown in March of 2020 I have scarified myself to stay down in Kalaupapa without going out of the settlement, except 1 time to spend time with family during the holidays (all of 3 days) so that I wouldn't harm my coworkers as well with my exposure outside of the settlement (prior to vaccine).

Even when the vaccine was offered to Kalaupapa resident/workers of DOH and NPS, I still refrained from getting vaccinated because I needed to do more research for my personal learning. I had asked my employer if they would mandate the vaccine and they all said no, until the Governor misused his power and made it so. and now they are putting on business of all kinds. it just doesn't make sense. More than

half of the population is vaccinated, yet numbers are increasing and only the unvaccinated are being blamed for the spread. Ever since the vaccine came out its always been about getting that or the Delta Variant, everyone forgot about hygiene, and masking up, and social distancing, being Asymptomatic, etc. The Unvaccinated are spreading the virus!!! it doesn't work that way. Because we all know whether your vaccinated or not, you can still spread the virus. They have not given me a straight answer and HR can't give them answers for my case. They had a test available down here when the state started the mandate on August 23, 2021. I was refrained from working until I got results, and when I got my results which was NEGATIVE (which was NO SURPRISE, Because I don't travel out of the settlement, everyone I cruise with is vaccinated and also chooses to stay in) but then I was still unable to go to work and when they finally decided to call me in, half the day was gone and then they told me the test that was available for me to take before Sep.1, 2021, that I WAS UNABLE TO TAKE IT, BECAUSE ITS FOR THE PATIENTS AND NOT THE EMPLOYEES!!! And like I was saying about our rules being strict, I questioned my employer if I leave weekly to get tested and still receive a negative test will i be confined to work and being stuck in my residence down here! they never gave me a straight answer but said most likely. which means I can't see my coworkers, go to the gym, and or beach, etc. So to do away with the headache of it all I WAS FORCED TO TAKE THE VACCINE!!! And I regret every bit of me taking the vaccine just so I can work, that Is not right at all!!!!

This vaccine passport will hurt not only the people who chose to not get vaccinated but also business all in general (especially the mom/pop shops). This vaccine passport and virus all in general have segregated so many people. This is worse than elections! This is discrimination against someone's rights to choose.

Not everyone who is unvaccinated is selfish for not wanting to get a vaccine that they have no clue about. It is selfish of those who think they have a right over anyone's choices. We live in a country where we are able to choose and have those rights. to practice these rights and all! Everyone's reason on why they did or didn't take this vaccine is their own privacy.

Speaking of Privacy, what ever happened to HIPAA? Having this passport will violate sooo many HIPAA rules, and if that won't be accounted for, then not only shall the business be looking at everyone's vaccine passport but the customer and individuals should have the right to see the company's workers one as well (ALL OF THEIRS). This could create a much bigger issue than what it already is. If this happens, everyone might as well start sharing very private information with each other. This is a breach of PRIVACY all in all. If this goes through, we might as well give everyone our full medical history!

These vaccines that were created are the fastest vaccines in history to be created so fast. If the science was so quick to find a vaccine to subside on effects on this virus, then where are the medications and or vaccines that help with other sickness, diseases, cancers, etc.? I believe in science, I know science, but I also question science

because everything's an experiment and made of hypotheses until proven correct and or incorrect because it has to go through its experiment. with this vaccine, it is still in its trials stages (experiment). Everyone dropped the Gun way to quick before ever getting peoples opinions and thoughts.
Thank you again for your time in reading this and sorry again for my testimony being all over the place.
-Jessica Sanchez

I support a mandate free Hawaii. Freedom of choice. Please don't force vaccines on the people of Hawaii. There are no long term studies on the effects. Also science and doctors specifically virologists are now able to prove through medical studies with facts that people whom have already had the covid virus have sufficient immunity. Knowing this and still requiring vaccinations has allowed jobs / careers to be jeopardized as well as persons to be discriminated against unfairly. Please stop the discrimination and the divide. Let's all support freedoms for the people of Hawaii.

Council/PH Committee Council
Agenda Item Mandatory vaccine passports
Your position on the matter Oppose
Representing Self
Organization

Strongly opposed. This law is an unbelievable power grab by the City. Vaccines are readily available to all. If people want to take the Vaccine to protect themselves from Covid and subnect themselves to unknown risks, they should be able to choose.

Written Testimony If people want to take the relatively known risk of getting Delta and its adverse effects compared to the unknown risk of a vaccination, they should assess that as well.

The City has no business dictating access for either choice

Written Testimony

I oppose The vaccine passport initiative. It is a violation of basic constitutional rights. It is also a HIPAA compliance violation. People should not disclose their medical information nor should private businesses be in the position to ask for such information, let alone verify it. This bill will exclude, discriminate and segregate people from families, to workplaces, to businesses. This bill will not move us forward but backwards. People do not need to disclose their gender, they do not need to disclose whom they choose to love or marry, they do not need to disclose what diseases they are carrying nor what their political or religious affiliation is. This is all private and should remain as such.

Taking a shot that is not even a true vaccination does not prevent you from catching or spreading the virus.

Government is in place to protect the community from violence. The government is also in place to provide when a citizen is unable to provide for themselves. A vaccine passport does neither other than provide a false sense of security against nature.

Written Testimony

I strongly OPPOSE this bill. It violates our individual privacy and rights. There's not even enough information for me to make a decision that I'm comfortable with to take the vaccine. And it's my right to make that decision for myself. Doctors, people in healthcare, and first responders are willing to sacrifice their jobs because they don't want to take it. That speaks volumes to me. This bill only serves to further divide the people of Hawaii. How dare you impose punishment upon me by taking away my freedoms because I don't just "fall in line" with your agenda. This is so wrong. We should all have the same freedoms. This bill will affect people's livelihoods, their pursuit of happiness...even if that means a day at the movies with our families. Our local government has shown repeatedly that they are not for the people of Hawaii...at least not ALL the people. So it's my hope that my voice through this letter will not fall on deaf ears.

One more thing, if the problem is overcrowding in the hospitals...why not address that problem (Maybe you can get help from Councilwoman Andria Tupola). Instead you choose to put a chokehold on the people you claim to want to serve.

Thank you for your time.

I strongly oppose this Bill for a digital vaccine passport. This further divides our community, and places blame on a select few. More research is needed on cheaper, more effective treatments of this virus, and how to strengthen our own immune systems. In the few months that I've researched what is best for my health conditions, and personal beliefs, I've seen censorship, selective media pushing Big Pharma agendas, and greater confusion. This Bill is government overreach at its finest. This Bill is hewa. Shame on all of you who support it, without thinking of the dire consequences that will result.

Written Testimony This motion will significantly impair the operations of businesses throughout Hawaii and restrict the liberties of all Hawaiians and Hawaii residents. It is detrimental the well-being of all residents and non-residents to mandate a Emergency Use Authorization (EUA) COVID-19 vaccine (until 2023) for a virus that has a greater than 97% (conservative figure) survival rate across all age groups. Vaccine mandates are unconstitutional and the Privacy Act of 1974 protects all American citizens.

Vaccine passports are unlawful and is unconstitutional. This method does not solve anything yet causes hostility, divide, exploitation, invasion of personal medical information, financial disaster, negative impact of all deficits, turmoil, high probability to permanent closure of many business, and all at the cost of the public's livelihood. Approaching today's infection control with a blind plan, of implementation of a vaccine passport, will prompt for failure beyond any chance of recovery.

Written Testimony

This bill is against natural human constitutional rights. Personal medical choice should not be discriminated. We, the people of the state of Hawaii, are being forced into an ultimatum, not a choice; an ultimatum between our employment status, rights to enter private or public establishments which includes access to food and essential goods, access to places of recreational and health activities, etc. or submit to medical decisions that we do not want to pursue. All the while, those who have been vaccinated do not need to face that same ultimatum and are able to freely participate in whatever they please. It has been proven that those who are vaccinated are still able to catch, host, and spread the COVID-19 virus, which further makes mandatory vaccination an unnecessary strategy to slow the spread of the virus, and, unnecessary to withhold rights for those who choose not to be vaccinated. Please open your eyes, listen to the people, and revoke all mandates that discriminate and divide the community. Aloha and blessings.

Vaccine passports ARE WRONG!! You will be taking away OUR RIGHTS!! We can't enjoy activities like the zoo, family movie nights, family dining, our local kids will miss out on sports and activities in school because of this and a lot of local families are leaving to the mainland because of these mandates. Not to mention the suffering these businesses will go through that will force Hawaii into more of a depression. We should have the choice to what we put in our bodies and not be forced against our will! We deserve Medical Freedom!!!! NO testing or vaccine mandates!!!!!!

Written Testimony I oppose this bill as i feel it violates my rights. We don't ask papers to enter any establishment now and we should never have too!! Where does this madness stop? We had 636 flu/pneumonia deaths in 2019 in the state of Hawaii where was the out cry then ? There's been under 600 deaths for a population of 1.2 million people state wide in 18months and we continue to impose rules and regulations against the local residents meanwhile tourist flock to our state.

Written Testimony History has been recorded to learn from the previous generation's mistakes...therefore never having to repeat them. When I think of vaccine passports, I think of separate water fountains, divided buses, or the identifying badges that Jews were made to wear in 1939. To implement a vaccine passport is to, once again, divide our nation and separate our people even further.

Written Testimony

I oppose this bill as it is discriminatory. It also does not take into factors such as medical exemptions, natural immunity from previous infection or precedent being set. It has language that can be interpreted to indicate an innumerable number of vaccines or other medical mandates can be included at any point as deemed necessary by the authorities. It is not up to health departments to force individuals to take any kind of medical intervention and if jobs are going to require this, then it is being forced. There is also zero accountability or liability included for side effects or death as a result of taking a for-profit product that is not even finished with its clinical trials. Thank you for opposing this draconian and over-reaching piece of legislation.

Council/PH Committee Transportation, Sustainability and Health
Agenda Item RESOLUTION 21-194 – COVID-19 HEALTH CARD
Your position on the matter Oppose
Representing Self
Organization

Dear Committee Members;

I oppose mandatory COVID injections, vaccine passports, and tracking and tracing apps. I should have the free choice to determine if I want a COVID shot. Neither government nor private corporations have the right to force me to have a so-called "vaccine passport" to support their establishment. This is a direct violation of my rights to privacy, especially with my health care information! Secondly, no person shall be ordered to download an intrusive app that contains my private medical information and that tracks and traces my movement.

Written
Testimony

The idea of a "Vaccine Passport" did not begin with Covid and certainly will not end with Covid. Such a medical or health digital passport presents a serious threat to freedom and privacy. My private medical decisions are between my physician(s) and me. My vaccine status should not determine whether I can leave my home, continue employment, shop, dine or worship.

I strongly oppose any mandatory vaccine or so-called vaccine passports. The government cannot steamroll the US Constitution and all the rights it enumerates, even in a time of a health emergency.

To me, a vaccine passport is similar to a house arrest ankle monitor for criminals. Last I checked I haven't committed a crime.

Sincerely
Jan Casey

Written
Testimony

I oppose the Vaccine Passport because I honestly don't feel like the vaccine is safe for myself. I don't even take the flu vaccine because of adverse reactions and now I am being punished or being called selfish. would you willingly take something knowing full well you'll have a reaction and put your health in jeopardy so you can provide for your family!? It's sad! That this is the only option given. How am I to decide! This is putting your residents in a horrible position. It's outrageous and hurtful to even think our government doesn't care. Facts are everyone knows the risks for both taking and not taking the vaccine so it should be left up the individual to decide. Period! I understand hospitals are being over run. What are we doing for people who test positive while they are recovering at home? Nothing. Doctors are just telling us to ride it out and only come into the hospital if you can't breathe. Why not treat the symptoms? Why are we waiting until it's the worse case scenario? Before Covid if I took my children or myself to the hospital I would get pets rides everything under the sun. Something for my cough and something my sore throat, even Tylenol! Knowing full well that's something you can get over the counter. This isn't being done. Like I said people are just suffering at home. I have asked everyone I know that has gotten Covid "What did the doctors say when they called you after your positive result?" And every song one of them said they were told to ride it out. Take Tylenol when needed and only come in if you can't breathe!!! Let's do better Hawaii. We have always been a state of aloha, love and just looking out for one another. Hawaii is far from that now and it's very sad! We can do better! You can do better! Thank you.

Written Testimony Aloha Governor Ige, please oppose this resolution. We the people of Hawaii want to retain our freedoms and support the local businesses without being FORCED to vaccinate. My family, friends and clients are spread throughout the islands and with how much division this pandemic has brought to the people, I oppose supporting something to bring further division and difficulty to our personal and work lives. As a young woman with a chronic auto immune disease, I do not feel safe taking the vaccine yet but I do everything I can to respect and support my family and community regardless of their decision! Especially with my mom having 7 chronic lung diseases. We the people are doing what we can to work with how difficult these times are. Please do not make things more difficult. Mahalo.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

Written Testimony It's not fair to discriminate against the non-vaccinated. There was never a time where vaccine passports were required, throughout all the pandemics we've been in. People shouldn't be coerced into getting the vaccine just to live a normal life, such as providing for their family. It's wrong on so many levels!!! I OPPOSE THE MANDATES.

I strongly oppose Resolution 21-194 and urge you to oppose it also.

Hawaii is the land of Aloha. Not the land of judgment and medical apartheid. What are we the new Nazi Germany? Show me your papers or else?! Next are you going to brand us with stars and numbers?

I urge you to say NO to vaccine passports. This is not Pono or constitutional.

People have various reasons for being unable to, or not desiring to receive a vaccine. One being that the vaccine was rolled out in a hurry and there are no long term studies available. Period.

Six months is not enough time to know how this vaccine will affect the future of humanity. CDC website admittedly said currently there is no data for X, Y and Z. Because they do not know either! Please do not force this mandate upon the public. If you do you could be complicit for crimes against humanity if the long term data show it to be unsafe.

And what about the 12,000 deaths that have already been reported to VAERS and the 500,000 adverse reactions that have been reported. When is enough to fully investigate what is going on instead of forcing it upon the public even further!? This is concerning to my core.

Admitted by the CDC. The Vaccines do not stop transmission and do not stop a person from acquiring Covid. They only lessen the symptoms if someone gets sick.

So you want me to lose my job, my right to enter a public place to shop and to have my friends and neighbors ask me "where are my papers!?" this is what happened in Nazi Germany and its exactly what it feels like is now happening around the world. Do not support this getting any worse than it is. I urge you all to look into the science and learn why the

people that have not taken the Jab are waiting. They are waiting for the science. They are waiting for the safety data. And they are not wanting to be part of a global test upon humanity.

There is a reason that vaccines take years to develop – one is to learn if they are truly safe. What adverse reactions are there? How many people are dying from them? And what does the data tell us? This shot was rushed out in 6 months and now we have to play Russian roulette with our health so we can travel or shop? This mandate will only turn everyone against each other and completely lose the Aloha of the islands. Do NOT Force a vaccine passport upon us and do not separate our families even further. Unless that is what you truly desire? Dear Lord, I hope not.

Written Testimony

Vaccine mandates and vaccine passports are not the way to stop the spread of COVID-19. Lockdowns and mask mandates have not been successful in stopping this virus. Not allowing people to about there normal daily activities will only make things last longer. There are many issues here. The shot, in its early stages, has not been proven safe. When 56 people died from the Swine Flu shot, it was pulled from use. There are over 12,000 deaths attributed to the vaccines in the US alone. Not to mention all of the other side affects that have been reported. Mandating that people take this still experimental shot is wrong. Additionally, this mandate will violate the 14th Amendment to the United States Constitution which guarantees "nor shall any State deprive any person of life, liberty, or property, without due process of law". Liberty is defined as " the quality or state of being free:the power to do as one pleases". Vaccine mandates/passports would be in direct violation of this. Additionally there are more and more reports of fully vaccinated people, testing positively for COVID-19 and not knowing it. The science is finding that the viral loads of these people is just as high as those that are unvaccinated. This means that those vaccinated people are unknowingly spreading the virus. Mandating a vaccine passport will also end up hurting the businesses more than they are now.

It is shameful that such descrimination is even being considered. This is medical apartheid and is in violation of the Nuremberg Code.

The Nuremberg Code

1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental

Written
Testimony

physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill, and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

The Nuremberg Code is the most important document in the history of the ethics of medical research.¹⁻⁶ The Code was formulated 50 years ago, in August 1947, in Nuremberg, Germany, by American judges sitting in judgment of Nazi doctors accused of conducting murderous and torturous human experiments in the concentration camps (the so-called Doctors' Trial).⁷ It served as a blueprint for today's principles that ensure the rights of subjects in medical research. Because of its link with the horrors of World War II and the use of prisoners in Nazi concentration camps for medical experimentation, debate continues today about the authority of the Code, its applicability to modern medical research, and even its authorship.^{1,2,4,5,8} The chief prosecutor at the Doctors' Trial, General Telford Taylor, believed that one of the three U.S. judges, Harold Sebring, was the author of the Code.² Two American physicians who helped prosecute the Nazi doctors at Nuremberg, Leo Alexander and Andrew Ivy, have each been identified as the Code's author.^{5,8-11} A careful reading of the transcript of the Doctors' Trial, background documents, and the final judgment reveals that authorship was shared and that the famous 10 principles of the Code grew out of the trial itself.

Written Testimony

As a parent of a child with a prior vaccine injury that almost resulted in his death (he is now 13 and "old enough"), I am unable to submit to a mandate that could put him or any of my 'ohana at risk. It is my kuleana to take care of my 'ohana and my community and we do this by taking care of our bodies and our health. We care for the 'āina, we build pilina with our lāhui, we support local businesses and now we won't be able to participate in the society in which we live because of how we choose to care for our bodies? It is disheartening to see how these mandate will continue to divide and not unite our lāhui. What a disservice to our local businesses that have worked so hard to stay afloat, to thrive in light of the circumstances in which we've been living, mostly due to the poor choices of the leaders we elected to represent us, to stand up for our best interest. It is clear who these mandates will benefit, and it isn't the people of Hawai'i. I strongly opposed 21-194 and ask once again for our leaders to act with integrity, to know their kuleana, to listen to the voices of their community who are hurting and asking for them to do what they promised us when we chose them to represent us, the people. Mahalo.

I oppose vaccine passports for Hawaii county. Not everyone can get the vaccine due to personal health issues.

Written Testimony There is no one size fits all vaccine.

Everyone person should have sovereignty, and choose what gets put in their body and not be discriminated against when trying to buy groceries or go about daily life.

Vaccine passports are a violation of medical rights and human rights. We as human beings have the right to decide what we put into our bodies. You have no right, to punish humans who choose to not get this "vaccine". It is an experimental shot, in clinical trials. You do not know the possible long term effects of this drug. Many people have died and been injured after receiving the vaccine. This is tyranny. Everyone should be testing before travel (vaccinated and unvaccinated) This passport is the worst idea. Vaccinated people can still contract, and spread, and be hospitalized with covid. Do not give ultimatums to people who refuse this experimental drug.

Written Testimony

I oppose resolution 21-194 vaccine passport because it violates my constitutional right under the 14th amendment. You are taking away my liberty to go into certain establishments due to a requirement of a vaccine that is still under EUA. I have not been able to find a vile of the approved Pfizer comirnaty that has been approved. So you cannot force me to take something that is still under EUA and hold my freedoms hostage to this EUA vaccine.

No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Vaccine passports also creat segregation between the haves and the have nots. As in NYC where a very large percentage of the population of unvaccinated are from black and poor communities. Hawaii would also be segregating who could participate in their protected liberties and those that cannot. That is a form a racism that I don't think the Hawaii government would like to be a part of.

I did not serve bin out great military to protect these rights just bro have you take them away.

Written Testimony

I vehemently oppose this resolution. It is a gross overreach of government authority. Each and every elected official swears an oath to the constitution and this is a blatant disregard for those protected freedoms. This a violation of our HIPAA right to privacy in regards to our own healthcare data. This type of segregation is also reminiscent of tactics used by the Nazi's in WWII Europe to isolate and limit the services to an group of people deemed "undesirable". Furthermore, the threat of a potential vaccine mandate(after 60 days) is a direct violation of the Nuremberg Code. With all that aside, the passport really makes no sense. We know that people who are fully vaccinated can CATCH and SPREAD the virus, so really, what good is the vaccine passport then? It does not prevent in any way the spread of the virus. It does not help the medical system cope with an increase in patients. I implore you as elected officials to come up with proactive solutions that will help the situation. This segregation, limitation and overt control is not it.

Written Testimony It is our right as citizens to make our own health decisions. These "vaccines" are experimental- far too many people have already died or been injured after having them injected. They should have been pulled months ago. They are not effective and people who have the vaccine are getting and transmitting the virus. There is no logical reasoning to this. Do not punish those of us making a sound, logical decision not to get the "vaccine." This passport would unfairly exclude us from everyday participation in society!

Written Testimony

This bill opposes all constitutional rights to choose how individuals care for their health and welfare of their families. We still have yet to see research on the efficacy of these vaccines, but they're being mandated to be an active part of society? As an individual who chose to complete a doctorate program studying the human body and normal physiology, this entire Covid-19 protocol has proven to serve those manufacturing the shots, not the people. Those making policies have half the education in this field. Bring in some true HEALTH professionals to consult on how to move forward. We should have the right as a health professional, as a business owner, as a mother and a citizen of the US, to proceed with making decisions based on what is best for us individually. Pharmaceuticals are not a one size fits all. This vaccine requirement or passport will leave blood on the hands of the policy makers. It is not the answer.

I am NOT against vaccines, however I am extremely against any vaccine mandate. In the name of public health, this bill discriminates against the personal health choices of individuals. It is directly against our rights as humans to make very personal decisions without the government dictating our choices. In addition to striping Hawaii residents of personal rights, it will further exacerbate distrust in the government. There are other ways to encourage people to make the best health choices for themselves, but mandating it, is not the way.

Written
Testimony

I strongly OPPOSE the mandate of a digital vaccine passport program. I am a special education teacher in the DOE. I have worked IN PERSON this entire pandemic, since March 2020, because my students are not able to do school online. I was the only teacher on campus at one point, working IN PERSON with students with disabilities. I have served my community in this pandemic and continue to do so, now as a special education teacher for our military families, on the marine base.

I OPPOSE this bill because plainly stated, this is discrimination in another form. Those who choose to not get vaccinated due to religious beliefs, moral beliefs, or health reasons have the right to do so. Creating an ultimatum of to get tested or to simply not participate in society is unlawful. Testing is inconvenient, costs money, the CDC has recalled PCR testing after stating the tests cannot decipher between the flu and COVID-19. Some have a religious belief against ALL medical testing, and so forcing an individual to get tested to participate in any PUBLIC ACCOMMODATION is unlawful. Public accommodations are just that— open to the PUBLIC. Yet we are moving towards a discriminatory system in which participating in society is no longer a RIGHT for all people. The damage this will do on society far exceeds the possible benefits. Creating a system of SEGREGATION has emotional and mental as well as spiritual implications to those who are weary of submitting to a vaccine or a medical test. We are moving towards a state that is no longer in support of LIBERTY AND JUSTICE FOR ALL, as is our rights as Americans. We are forsaking the constitution. If this bill gets approved there WILL be push back from those who oppose and businesses may face further loss, instead of gain. Simply put, this bill fits more with a TOTALITARIAN government as opposed to a democracy. Controlling where people go, how they spend their free time, where they're allowed to be is NOT CONSTITUTIONAL.

I am completely AGAINST government-mandated vaccinations and digital vaccine passports.

Written
Testimony

Creating more restrictions and mandates on these local businesses will only hurt them and eventually run them OUT of business, if they're already not gone yet. These restrictions and mandates are killing our economy and making more people unmotivated to return to work because they've become so dependent on the government via unemployment. Creating more hurdles for businesses (and customers) to jump over will DECREASE business which will most likely cause another round of lay-offs.

Testimony
Attachment

Government has absolutely NO right to tell people what to put in their bodies. In addition, government (and major news outlets) should not MANIPULATE people to turn against those that are refusing this vaccine that was created and approved (Pfizer) within LESS than a year.

With all due respect, I am very disheartened with the proposal for Hawaii to implement a Covid-19 Health card for establishments at higher risk. This is absurd! Please correct me if I am wrong, but there are 2 facts/truths that have guided my decision to not be vaccinated and to not vaccinate my children:

1. MRNA technology has never been used in humans, until now with this Covid vaccine.
2. Being vaccinated does not make you immune to Covid and you can still get infected and transmit the virus.

Written
Testimony

I also think that this resolution has no strong evidence for it's statement: "...some specialists believe that up to 95 percent of the population now may need to be vaccinated to reach herd immunity and protect the public;..." (WHEREAS statement, line 14). It states "some specialists believe", there is no data that herd immunity will be reached, it is an assumption by some specialists. It doesn't have hard evidence that this is true! An assumption that requires American citizens to relinquish personal rights, if they are not vaccinated, but risk adverse or long term reactions from the vaccine. **THERE IS NOT ENOUGH EVIDENCE THAT THIS VACCINE IS 100% SAFE!!!** And I am not willing to risk my health or life!

These are enough facts for my decision to not be vaccinated right now. I am not an anti-vaccine advocate, but I am very concerned with being part of this world wide experiment.

Where is the long term research to ensure that my 13 year old and family is 100% safe taking this vaccine? If so - please share. If not, this should be basis enough to STOP this resolution. Why would we want to harm our children from adverse long term effects from the vaccine? Taking the vaccine will not even guarantee the stop of spreading this virus.

I kindly urge you to please reconsider this resolution, I thought we live in a "free" country? Please put a STOP to this madness that is happening in our beautiful homeland and dividing

our people. There are other ways to fight this virus, promote healthy life styles, urge everyone to take vitamins, test ALL incoming travelers, but please do not create this division, it is morally wrong!

Hi

Written Testimony

i am oppose to mandatory Vaccine passport to enter establishments.
i believe this will not prevent the spread of covid. it will be detrimental to businesses and consumers. it will cause division among the people of Hawaii.
According to the CDC the vaccine does not prevent transmission of covid. It gives people a false sense of security.
In addition, i also believe our govt has not implemented early treatment protocol which has proven bay many doctors to be effective to prevent hospitalization.

In short i oppose covid passports.

Mahalo

I strongly oppose any resolution that would restrict our freedoms by mandating a vaccine that is not fully tested, especially when there are other options for treatment available.

There is still much we do not know about the efficacy of the vaccines. CDC Director Rochelle Walensky recently stated that they are concerned about what the international vaccine data is showing in countries with higher vaccination rates. She stated that it shows, "A WORSENING OF INFECTIONS AMONG VACCINATED PEOPLE OVER TIME." The vaccines are not working as they had initially hoped. That's why the Delta variant emerged. The vaccinated have become the super spreaders, and yet you want to punish the healthy unvaccinated.

Written
Testimony

The fact that Hawaii is no longer requiring testing of fully vaccinated tourists flying into Hawaii, and the CDC acknowledges the vaccinated are increasingly having breakthrough infections is concerning.

Instead of vaccine passports, why not require all people visiting Hawaii to get the test once again and that way you will curb the entry of the fully vaccinated who test positive and are spreading the variant.

The recent FDA approval of Pfizer's vaccine Comirnaty was misleading. Comirnaty will not be available until 2025. So, the Pfizer vaccine approved under EUA is what continues to be administered and all of the vaccines have been shown to cause adverse side effects, such as blood clots, myocarditis and even death.

As of August 20, 2021, the CDC's Vaccine Adverse Event Reporting System (VAERS) now has over 623,000 reports of adverse reactions to the vaccines and 13,627 deaths! The CDC admits these numbers possibly only represent 1% of the real number of adverse injuries and

deaths. The CDC has also admitted they are months behind in logging the reports.

As long as there's a risk of death, people must be given a choice of what's injected into their bodies. The Nuremberg Code clearly states this and at present, these mandates are violating the Nuremberg Code!

Thousands of Hawaii's first responders and first responders around the world are demanding that choice as they are more aware than most of all the adverse reactions to the vaccines.

I'm opposing this resolution and ask that the city administration and State of Hawaii reject this resolution until such a time that further studies are done on these vaccines.

Thank you for your time.

Written Testimony

I oppose to vaccine passports. Hawaii's numbers have only gone up since vaccinated travelers were allowed entry without a Covid test. Vaccinated people can still catch and spread Covid. Vaccine passports are discriminatory and will cause segregation. It will also effect tourism immensely. Do you know that many states in America are banning vaccine passports and vaccine mandates. People from those states will stop traveling to Hawai'i.

Vaccine passports are not for health, they are political. Please don't destroy my homeopathic and cause me and my family to relocate to the mainland. So many people are upset about this.

Written Testimony I oppose this! I personally feel any vaccine should be a personal decision. If this vaccine would prevent every individual from being carriers and spreading this virus I would be more ap to agree.

As someone who has followed this entire clown show from the beginning, I STRONGLY oppose these these ridiculous tyrannical measures of forcing experimental, gene therapy, frankenshots.

We have no idea the long term effects these will have on peoples health, not to mnNtion the effects they are having as we speak. It is rarely talked about, but the amount of serious adverse reactions reported to the CDC's VAERS as well as the European unions equivalent are only growing...EnduroVigillance's recent study released showed close to 2 million serious adverse effects to these jabs and close to 15,000 people reported dead in connection from only January to May.... And that is just in the EU, not including the US's VAERS or any other countries around the world. Most people have no idea what these reporting systems are, how to find this information, or even how to report an adverse reactions so we can expect these numbers to be even higher. And women BY FAR make up a large majority of those negatively affected.

Israel, the most heavily vaccinated country in the world, just released a study where they came to the conclusion that natural immunity s 13x stronger and longer lasting than vaccine immunity.

Japan's government just recalled 1.63 million doses of Moderna jabs because they were found to be contaminated with heavy metals and were killing people and causing harm as well.

Ivermectin, which was discovered in part also by a Japanese doctor, won the Nobel Prize years ago, is being used in studies with huge success in Japan, Peru, Europe, India, and more. And and has been buried by big pharma beacsue it makes them no money. BUt you know what does.... the jabs and the new Bullshit booster jabs.

Is the leadership of Hawaii being bought off by these big pharma corporate machines? Are you all turning your backs on your own people? shame on you. i could go on and on and cite sources complete with a bibliography. BUt this likely wont even be read, only counted. WELL AT LEAST MY VOICE WILL BE COUNTED!! I OPPOSE!!

This is a globalist elite shadow play right out of the Operation Lockstep, pg 18, from The Rockefeller Foundation's Scenarious For the Future of Technology and International Development. We have been calling out their agenda since the beginning! Enough of this shit dont let darkness spread any more.

Our rights do not and have not come from the government. Neither the government nor any business has a right to know anyone's personal medical history. Why must vaccinated people carry a card stating such? Why should unvaccinated people be treated like second class citizens? Are sexual predators required to carry a card stating they're sexual deviants? No because that would be a violation of their civil liberties. Are you the council saying pedophiles have more rights than people who simply did not want to take a new vaccine? Why not implement this for all vaccines? You people are leading us down a very slippery slope.

I write in opposition to the vaccine passport program. First, the vaccine should not be required for any citizen to take based on data and the current status of its experimental research that won't be completed until a few years. It should be a person's choice of what they want to put into their body per our Constitutional rights.

Written Testimony Secondly, implementing a vaccine passport program is discriminatory and promotes segregation among the people of Hawai'i. It favors those who have taken an experimental shot against those who choose not to take it or can't due to health issues. Finally, the vaccine and PCR tests do not work. New implementations need to be sought, such as monoclonal therapy and preventative drug treatments to stop the spread.

Written Testimony I oppose any form of a vaccine mandate. Also, why is there not another option for people who had Covid already who do not need the vaccine such as showing proof of having Covid or antibody test etc. why is there a push for vaccines when it's proven that vaccinated people are spreading the virus as well.

I'm opposing to this merely because it is not nobody's right but the persons right to choose weather to inject anything in their body! Nobody should be forced to take anything that they do not wish to take! A shot shouldn't determine weather or not a person is eligible to access anything! Do better ! Be better ! Not only for now but for the generations to come! God bless you guys & may he touch your hearts to lift these mandates!

I demand material evidence or proof that there is a real isolated sars cov 2. Noone has ever isolated sarcov2 in any human and there is no such thing as a vaccine for a virus. Canada, Japan, Denmark and countries in Africa have already stopped vaccines as a crime against humanity. Who is the person who initiated an emergency? They will be arrested if you go through with this diabolical scheme. What gives them authority to require a human to be forced to take an experimental solution by injection against their will? That is a violation of the Nuremberg code and is a crime against humanity with a death sentence for this crime.

What is the this real Emergency? There is none.

Where's the isolated sarscov2 in any person called positive? The testing system can be callibrated to create positive for anyone. Even man who invented test says its not for testing viruses.

Why use false positive fraudulent test data? 96% of people we were told died of covid actually in 2020 died of other reasons. I know two people who were asked by hospital if they could say their loved one died of covid when they did not. They were offered their bill forgotten if they agreed. One died of brain tumor. Other died of meth overdose. Plus, the real medications to help bloodclots is being withheld. I could not get a prescription for hydrocloroquin, ivermectin or other remedies. There is over whelming proof sarscovic2 is actually a bioweapon that creates blood clots in lungs. Most who got infected by bioweapon were not treated properly at hospitals. Why?

With no excess deaths thru 2020- now I see evidence of my friends & family members harmed, disabled and dying from c19 injections. Who and why are you trying to intentionally harm humans? Over 45,000 have died from injection and many more have horrible symptoms. Its

killed babies in womb, made people infertile. Children should never get this injection. It is not a vaccine but a bioweapon. Demanding people who do not want injection is a crime against humanity and there will be justice in the end if this is forced upon all humans in Hawaii. Stop it now before you are arrested.

There are people who CANNOT get the vaccines. How are u going to accommodate for this?
This bill is unjust and does not take into account many factors. It is rash and not well thought through. You are rushing this through without proper consideration. What will be next, internment camps? I think protection and awareness are important but not forced mandates and passports. It creates further division and polarity and irreparably causes harm to those unable to get the vaccine. Please do not pass this bill. It is fundamentally wrong! Mahalo

I believe all these mandates and forcing for us the people take a vaccine that wasn't even tested enough to even put them in a human body !!! I feel that it should be our own choice to take it or not if your not safe while taking the vaccine then why have one ???? If you get tb do you have a vaccine for it NO and that's been around for years !!! Now all of a sudden we don't need medical for a vaccine but we need medical for everything else that makes no sense ! For the regular flu shot you need medical !!!! Something been fishy and skeptical from November 2020 ! Before all this BS I was a pro-vaccinated person I only refused the covid vaccine ! Even all the treats that's needs to stop and you guys need to chill take a rest and you guys acting up !!!!

Written Testimony

Covid recovery rate is 99.998% for age under 70 years old. And Covid vaccines already killed over 45000 people within 72 hours after the shots and nearly 200,000 died within a week after the shots only in USA.

Covid vaccines are killing more people than Covid itself and 72% of Delta variant positive patients are fully vaccinated but we don't hear those news on mainstream media since their biggest sponsors are the big pharma and vaccine is trillion dollar business.

Former Vice President of Pfizer, Dr. Yeadon says, "I'm a pro-vaccine but this is not a vaccine and gene therapy and not safe! It' 50% more likely kills children!"

mRNA vaccine was tested on animals for SARS but all animals die within 2 years so it was never approved to use for human body. Covid mRNA vaccine was skipped animal trials and first time used for human body and were the experimental. All Covid vaccines trials will be completed in 2023 and there are absolutely no guarantee for the safety especially for the children. I have all materials to support my arguments.

This bill against humanity rights and constitution and should be never granted in anywhere in the United States.

Written Testimony Please do not issue a mandate for a vaccine, this is Hawai'i and not Nazi Germany. The Hawaiian people have had enough taken away from them, so do not take their rights to decide what they want to do with their bodies. Everyone I know that has been vaccinated has gotten COVID and everyone I know without the vaccine has not gotten sick. If you really cared about the people then offer free healthcare and more affordable healthier, organic food and gym access. There are other ways to keep people healthy, the vaccine is not one of them. If you pass a mandate the economy will crash and the people will be enraged.

Written Testimony

We are a free country. We as the people should be able to choose what we put into and what happens to our bodies. My family and so many others work hard to be healthy, and we are not sick. Why should those who take responsibility of our health be segregated, punished and outcast from society because we continue to choose health over fear?

This is not a pandemic of the unvaccinated. 97% of hospitalizations in Hawaii due to Covid-19 infections have preexisting conditions. We need to address the health of our society from the root of the problem (diet, exercise, accessibility, education), not by forcing separation and segregation through mandates and identification of those who have and have not. The unvaccinated are not to blame, although I know that is the easiest story to tell.

Vaccine passports would cause irreparable damage to our community. We are a community of togetherness, of ALOHA, not of hate and fear. I ask you today to not buckle under fear for that legacy will stay with you for the rest of your life. Be brave, stand tall and please do what is right.

This is discrimination on people who, for personal reasoning, decide not to take the vaccination. Which first and foremost shouldn't be mandated. You guys are not hearing your people, you have forced many to get a vaccination in order to keep their a job. In the beginning of covid, I worked for premier medical, I was a frontline worker in airports, testing travelers coming into hawaii. I have encountered many covid patients & I was not vaccinated. nurses and doctors were treating patients, not vaccinated. But here we are. there are doctors out there who has expressed their concern with this vaccinations. So to me I believe you guys are moving blindly without even considering your people, and ignoring sources that are doctors who have been telling you vaccination don't make you immune, it don't protect nobody else but yourself from severe symptoms , not the virus because as said by those doctors , especially CDC, you can still contract covid vaccinated or not. My question is, what's the point in this mandate, if regardless of vaccination or not, you still can catch it and spread it. The only difference is the severity in symptoms. That's it. I have a lot more on this topic but this will be it for now.

Aloha,

Written
Testimony

This new mandate starting on the 13th will literally put me up against a wall and force me to go against my religious views. I am a single mom living in Hawaii and I am a yoga teacher. If I choose to not take this vaccine because it is MY body and MY rights then you as our government are choosing to take my job away and or food away from my son with not allowing me to work without getting tested (which i have to pay for) and or getting vaccinate (which I do not believe in). This is so unfair to do to your hard working citizens. We love Hawaii and I think it is wrong for you to not give us a choice in our own bodies by taking our simple rights to live freely (eat out, go to gyms, yoga, and the zoo for my son) unless we comply with this unrealistic mandatory vaccine. This vaccine is so new and I do not want myself or my son to be the long term study for it. This vaccine has been proven to only lessen the symptoms of covid and people can still spread it and contract covid. So, while you take my rights away as a tax paying citizen you as our government are going to continue to allow tourist to come into our islands and continue spreading the disease because they no longer have to test for covid (but they could still have it). There is no logic behind your rules, regulations, and laws. Vaccinated or not we all can still contract the disease and spread it. The government will ruin more businesses within Hawaii by doing this because now I will not go spend my money to go to dinner or at a gym because my money will now go to my weekly covid test. This is so unfair and sickening. Loosing all faith within this corrupt system.

Thank you,
Leah Paffie

I oppose mandatory vaccinations because it is a violation of our basic constitutional rights to determine what is best for our Health and wellness as individuals.

The CDC has released information stating that areas of high vaccination rates also have the highest rates of people who have contracted the Delta variant.

It does not make sense to mandate people to get vaccinated in order to decrease the spread of COVID-19 when you can contract it even if you've been vaccinated. It makes absolutely no sense at all.

Written Testimony

I think it's time to consider other options in safeguarding the public from further spread of COVID-19. Perhaps it would be wise to limit the amount of tourists who are allowed to enter the state altogether.

The people of Hawaii are frustrated and angry, The idea of having mandatory vaccination passports has disturbed the overall aloha and acceptance that we once held for one another as a strong community. It is causing division amongst friends family coworkers and the community at large.

Please reconsider for the health and overall wellness of our people and our islands.

I oppose the vaccine passport because it is discriminatory and modern day segregation. I believe in medical freedom and an individuals right to choose what is best for them as there is no "one size fits all solution." When there is risk of death or injury with the vaccine, a person should always have the right to choose if they want to take that risk. A person should not be punished and have their basic human rights taken away, especially when the vaccine does not provide immunity and it has been scientifically proven that the vaccinated are still carrying and transmitting the virus. Let's learn from history for once and NOT echo the mistakes of our past.

Gov Ige , Please oppose this resolution. We the people of Hawaii want to retain our freedom and support the local business' without being forced to vaccinate. It is completely ridiculous to be forced to take a covid 19 test every time I go to a restaurant or gym. This make no sense to me or any other person who has actually done research on this vaccine. There is no proof or evidence that shows that vaccinated people can not spread the virus . Actually, there is a lot of evidence that says the opposite. That vaccinated people are carrying the virus and transmitting it to others . In Isreal where the vaccination rate is very high the CDC has stated that the vaccinated people are getting more sick and dying than the unvaccinated . More research needs to be done. I fear this vaccine will cause more problems and death than the covid 19 virus. It saddens me that more people do not hear and see this truth. It is not too late to turn from these evil ways of forced vaccines, and death. Please Do Not let this continue.

Written
Testimony I am opposed to the new "safe access O'ahu" bill that discriminates against citizens who refuse or deny a vaccine. This is flat out tyrannical and discriminatory. Majority of COVID cases recover just fine and vaccinated persons can still get and transmit the virus, so to segregate one group of people is not something any state should be doing. This bill will backfire on you guys and businesses and companies will falter because of the discrimination and segregation this bill imposes.

Aloha,
I'm writing in opposition to Resolution 21-194.

When my friend sent me the link for this public hearing on Resolution 21-194, I immediately started to panic. My anxieties hit me like a ton of bricks and I was down for 2 days with a migraine.

Covid-19 has turned our lives upside down, I've lost loved ones to Covid, I have family members and friends who've had reactions to the vaccine and haven't been the same since, I know of people who were fully vaccinated and still got Covid. Now, adding to the already stressful situation, we're faced with vaccination passes.

Written
Testimony

I work for a privately run business who has taken every precaution to keep their employees and vendors safe since March 2020. However, there were still positive cases in our office and they were handled with the utmost care and sensitivity.

I believe that companies should be able to make their own decisions on how to run their business and implement their own policies and protocols. It'll be difficult for those who are unvaccinated to do anything with Mayor Blangiardi's vaccination pass mandate and now even harder if this is passed as well in the private sector.

I'm in tears while writing this as I don't feel like I have rights as a U.S. citizen or as a Native Hawaiian, born and raised to freely make decisions for myself as others are doing it for me. This is not PONO!

There's so much that I want to say but I'm very emotional right now. I'm going to close my testimony and ask you to please reconsider this resolution and show compassion for the

people of Hawai'i.

Mahalo Nui for your time,
Lei Ho'omalu

Dear government!

You are making decisions which impact our

freedoms. You are tearing apart communities right now and placing the burden of this mandate on already struggling businesses and communities.

Forcing or coercing a group to make any kind of change to their body or take a substance that they are not comfortable with is WRONG.

Mandatory testing on incoming flights and forced quarantines for those who are Covid positive, can work too.

People who are vaccinated are much more likely to unknowingly carry (and therefore spread) Covid, as they are much more likely to be asymptomatic.

Allowing vaccinated individuals (that potentially carry the illness) leniencies can increase the spread. And while vaccinated individuals are less likely to fall ill and take up a hospital bed, if they are the ones carrying the illness, they must also be careful.

The government should be more responsible and should be sharing information that will truly keep our communities safe; those who are infected with Covid (vaccinated or not) should quarantine until they get a negative test result. Is this happening?

Do what you're called to do.

Serve your people!

Written Testimony

I oppose mandating a passport to enable access to businesses and establishments depending on your medical status because this will negatively impact the business itself along with the communities that support the business that will be barred because they are unable to meet the demands to satisfy the eligibility of entering establishments, this type of policy will and has already created medical discrimination. For any establishment to require customers and employees to be subject to medical procedures should also be held to liability of injury because these measures are not 100% effective. If we are following the science we would know that eating healthy, and exercise indoor and outdoor is keys factors that help protect those who do happen to get Covid-19 lesson the risk of serious illness, a healthy diet will help with the recovery and with natural immunity there should be no need for an individual to take measures to protect themselves when they already had the virus, for example to place a passport on establishments that promote a healthy lifestyle such as gyms and restaurants is creating an unhealthy society more susceptible to health problems and increasing the risk of serious illness if they were to ever catch the virus for those who are unable to enter these establishments. It's also unethical to have a passport in place when this vaccine that those will be mandated to show proof of is not a cure, nor does it stop you from catching the virus or spreading the virus, nor does it protect you from death because it does not make you immortal, it's the equivalent of having a headache the taking Tylenol, it's suppressing the symptoms. Scientists in Israel have shown that for a country that has the highest vaccination rate it is also having the highest case count so to implement a passport with an ineffective vaccine is not following the science but coercion for those who chose to have control over their own health to be forced to undergo such medical procedure to participate in society. If you leave your house during a pandemic you are assuming the risks, there is no one to blame because it was a choice, this is called accountability. The Passports will be dividing the people because of their differences then encouraging passports is also entails encouraging medical procedures to be eligible for the passport without going over the risk which is also unethical and coercion. Personally I teach group fitness and our establishment hasn't had

anyone negatively affected because of my class so this passport would have a negative affect for my students because I won't be able to keep them healthy and strong because I won't be able to meet the demands to allow me into the establishment when I wasn't a risk to begin with, i may also be unemployed because I can't meet these requirements so this is actually an attack on those who practice self healing, because These mandates will keep be from living. These Mandates will have people losing their jobs, businesses shutting down, and ruining our state which will be moving us backwards not forward. I oppose this bill because it is Anti Freedom.

Written Testimony I strongly oppose this Resolution ,it only brings division pitting businesses against their faithful patrons . Highly vaccinated states and Nations like Israel have proven that stick vaccination mandates do not work . This Resolution is a bandaid solution on a gushing wound caused by the lack of competent leaders who had ample time and federal money to plan and prepare. Do not blame the people for your lack of leadership, we put you there and we will take you out if you do not listen to us.

There is enough evidence from all over the world (Israel for example) that shows vaccines do NOT stop infection, spread or death. Multiple reports are coming out PROVING natural immunity is much stronger than immunity with the vaccine. Immunity with vaccines is only temporary, hence the need for booster shots and now they're speaking of having to take pills along with booster shots every 5 months... when natural immunity itself will likely last a person a lifetime. So how would even keep up with knowing who got their booster shots, took their pills, etc.. These passports will discriminate against people with underlying conditions and people who have recovered from covid. And this is against the LAW!!! We have very clear laws that protect us against discrimination. These passports will open ground for legal action! Why are we not modeling our policies after countries like Sweden that stopped all mandates over a year and half ago and their covid cases have dropped dramatically BECAUSE of natural immunity. We know the data is being manipulated to show mostly unvaccinated people are filling hospitals when it has been revealed that if you're infected with virus and end up in hospital within 14 days of your final shot, you are considered unvaccinated. These passports will only create more divide and lead the way to segregation. They are completely unconstitutional and go against our basic human rights. Moreover, these passports allow for SEX OFFENDERS to roam the streets freely NOT having to show their papers to enter public spaces; but not HEALTHY people with no history of harming others? Make passports for predators, if you truly care about creating safer public spaces for all of us.

What about HIPPA? What about our rights to choose? It's proven that people who have received the vaccine are still able to contract and pass on this virus. No one talks about hydroxychloroquine + zinc, or ivermectin as a cheaper alternative drug to help prevent and cure covid patients. Instead the doctors and nurses who speak out about it are silenced, videos and information about it are censored and removed. There are no long term studies on humans for this mRNA shot! All the animals who were in virals with this died when re introduced to the virus. Enough of the tyranny! Lose the greed! This isn't for the well being of the people.

Dear Honolulu Mayor and City Council Representatives,

I testify against this mandate. RES21-194 COVID-19 HEALTH CARD.

Please uphold the Constitution of the United States. Let us be United and free. Freedom of choice is necessary to keep peace and uphold health. Please study the global results of mandates. In Sweden, there have been no mandates, and people are healthy. In Israel, where the government forced the people to receive the gene-based, experimental shots, people are dying and the numbers of covid cases continue to climb.

Written
Testimony

Please see attached the Mercola article, "Why Vaccine Passports Must Be Rejected." There are many reasons why this is a bad idea. Science is never settled. There are many scientists and medical doctors who disagree with pro-corporation and pro-gene-modification therapy (mRNA) agencies like the NIH and FDA. The CDC owns over 80 vaccine patents and it along with GAVI and other heavily Gates-influenced organizations have as a primary mission the expansion of pharmaceutical drug use worldwide. The CDC earns more than \$8 billion per year on vaccine sales.

Worldwide death rates have remained basically flat the past ten years. The average COVID death, if the attribution can be believed, is still 80 years old with 3 comorbidities. COVID survival rates are 99.8%, and even better for under 70s. I caught COVID this past June, as most of the USA has, and science has shown that natural immunity provides 500% better protection against future infection than that conferred artificially by Pfizer et al. Hence the required "boosters" coming our way. See how Israel is saying you are not even vaccinated (i.e, give green status) unless you have had the booster. Please stop this insane, wasteful, destructive medical boondoggle NOW.

Here is a Tucker Carlson piece on why vaccine passports don't work:
<https://rumble.com/vjfya9-tucker-carlson-vaccine-passports.html>.

Please do the right thing! Please stand up against this quickly metastasizing medical tyranny.

Derek Bishop, Public School Teacher, Big Island

My family and I do not support this bill. The state has no right to force especially private businesses, to require a vaccine passport. It is a violation of their rights. If a private business want to require it, it is their choice. Also the state is violating a persons right to liberty if they intend to restrict individual access to employment, business establishments, other venues and public accommodation. We all pay taxes for the state government and the state is in violation from certain rights that we have. You can't use that's it's a public risk because the factors of being unvaccinated or vaccinated are still unknown. The virus is changing. First we were told get the vaccine so you don't stress the virus but now they changed it and say get the vaccine but we can also spread it and still get it. Several months from now it could change again. Fear should not be a reason to violate persons due process and or rights that they've earned in this country. All I'm saying is that you cannot mandate privately owned businesses to require vaccine passports. You shouldn't require every business and or state/federal/public places from requiring it either.

Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and “mandate by executive order if necessary” a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written Testimony I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you.

I oppose the vaccine passport . We cannot single out certain people in our community. This is not hawaii. I am a fireman who worked thru the original spread with no vaccine , everyday showing up and doing my job. Many of us got it yet we are still here working everyday. By being safe we can keep this from spreading. But you politicians think the economy is more important than our freedoms and religious rights. Keep letting vaccinated local people travel in and out of our state to only return with the virus to spread. You want to really enforce large crowds and family party's ? Well do it , because your plans arent working. In our department we have had multiple cases of vaccinated firemen positive and spreading it to other vaccinated members . Where are those statistics. I totally oppose this bill and will make sure me and the rest of the fire dept remember who voted to pass this.

Written Testimony

I have been doing my research on the vaccination options and there are way too many red flags on these vaccines. They have not been thoroughly tested, people have had blood clots, and people have died shortly after receiving the vaccine. There are other ways to deal with this pandemic than to force an entire population to put poisons in our body. All of the companies who make the vaccines also make chemicals that cause cancer and many of these companies are tied up in lawsuits about their products harming people, like Johnson & Johnson for starters. All of these companies are owned by the same investors, Vanguard & BlackRock. All you have to do is look at the foods these companies sell, the chemicals they sell for weed control, etc. It is unethical for you to ask an entire population to subject themselves to this vaccine. You are crossing major boundaries of human rights. Not only does this cross my religious rights and beliefs, it also infringes on my rights to expression because you are taking away my right to choose what is right for me. You are considering forcing a rushed vaccine owned by bankers and biotech companies, that has know side effects on me although it goes against my personal beliefs, that is wrong, and a violation of my rights. I do not support this resolution for this reason, and I respectfully request that you reconsider. I am a law abiding citizen. I have followed all mask, sanitation, and quarantine rules, I have kept my family free from sickness, and I have put my faith in God. There is another way, please think this through.

Written Testimony

I am a Oahu resident born and raised. I oppose this bill. History of illnesses has shown that the COVID-19 virus is not the deadliest virus that we have had. It has a death rate of 1%. Also the ways were are classifying COVID-19 numbers are suspect as well. The fact that the state is requesting that vaccination be required goes against everything our Constitution stand for. Countless wars have been waged and more lives have been lost for the right we Americans should have- FREEDOM. The fact that we are now suggesting that privilege should be taken away is ridiculous. This is a subtle way that our rights are being stripped away for this virus that isn't as deadly as the numbers show. I can go on and on but I will leave you with this. Vaccinations help you to fight the virus if/when you contract it. Taking the vaccination increase your chances. People who don't get vaccinated are at more of a risk if/when they contract it. So if the vaccinations help you you then why are we worried about unvaccinated people? They have no say for people who took the vaccination yet we are SCARED of those who aren't?? That absolutely makes no sense to me.

Written I oppose the vaccine passport. It is restricting civil liberties and there is no good reason to do
Testimony this as the vaccine does not prevent the spread of COVID it only lessens the effect on the
 individual. A passport only rewards those who obey and punishes those who may have a
 medical, religious, or ideological reason for not vaccinating. This should be a crime.

Written
Testimony

Aloha,
I am in opposition of this vaccine passport mandate. It is unjust and promotes segregation, discrimination and public shaming. This is not the "Aloha" way of life. It is not pono and no one should have to face an ultimatum for basic human rights. This bill is forcing people to inject themselves with an experimental shot that has no guarantee of true benefits against the virus, yet risking the chance of major life changing side effects with no accountability or responsibility of those enforcing this mandate. I am not pro or anti vax, I believe in free choice. If someone feels safer taking the vaccine and are aware and ok with the risk, then they have every right to do so. If someone chooses not to get the vaccine because they want to wait for enough evidence of its safety and benefits, they shouldn't be forced to go against their will or values. This is a dangerous bill that will impact the future peace and Aloha of this beautiful place we get to call home.

Respectfully,
Leah

Written Testimony I am opposed to any Covid passports. This is against the Constitution and violates our rights under GOD to live as free people. I believe the people of Hawaii are paying close attention to who are the politicians pushing for this and we will no longer support or vote for them.
Thank you.

Written Testimony

As an Army Combat Veteran who has honorably served this country and defended the freedoms of these United States of America I strongly oppose this resolution. It goes against everything that I've ever stood for, everything that American stands for. We live in a society where we give our children the freedom to choose whether they want to be male, female or undecided. A nation where it is wrong for us to make pedophiles and rapists carry around a registered sex offender card because it is a violation of their constitutional right but now we are seriously talking about violating everyone's rights making them openly carry a medical document card without regard to their medical privacy? Shame on you! Shame on you all for even thinking this is okay! This is American land of the free because of the brave!!!

Written Testimony A digital vaccine program has to be one of the worst ideas. To have a digital imprint of everywhere I go is unconstitutional. And mandating a vaccine when I have an immune system that can fend off the disease.

Hello,

My name is Jennifer Waldeck and I oppose agenda item RESOLUTION 21-194.

Written
Testimony

I understand the severity of COVID 19. I am also in favor of adjusting my life style in order to protect my self, those around me, and prevent to spread. I am not in favor of not allowing individual Americans to not be able to make thier own choices as to where they are able to shop, or chose what goes on thier bodies.

Please do not enforce and encourage the American people to lose thier birth rights to chose for themselves. Thank you for your time.

Thank you,
Jennifer Waldeck

Written Testimony

I strongly oppose resolution 21-194. Not everything is one size fits all- you cannot mandate an experimental -non effective- vaccine to everyone when there has been proven cases of vaccine injury from the covid vaccine. As a mother of a vaccine injured child, I can speak for the trials and tribulations that come a long with vaccine injury. Years of doctors and specialists & never a full recovery. What is the very first question asked upon intake to an ER or doctors office- any known allergies? Because everything and This-is not one size fits all. There are many vax injuries reported on VAERS. This link is from the CDC website and will show you the vaccine injuries from the covid vax <https://www.openvaers.com/covid-data>. With a whole heart, we ask that you do not implement this vaccine passport- which will ultimately end in mandated vaccines for everyone. If your vaccine worked- than you we would not be in the spot that were in now with cases spiking and rising- coincidentally when the vaccines administered number has as well? There is a connection there. Once we give up our freedoms and have to show a "passport" to prove our medical status- one we're being forced into at that- we are no longer a free country. Consider your actions. This is greater than this. 2 weeks to flatten the curve?

Written
Testimony

I do not support this mandate to vaccinate. Being forced without the option to be test weekly instead. Is a dilemma for some people who love their job. I have reservations about what is in this vaccine. Many people who recieved a vaccine (supposed to free one from worry) had adverse reactions and became physically disabled. Or died. Many who have taken the vaccine, relapsed. I am not a doctor, but I do know that there are other medications that are proven to help in the healing process of covid. Which was shot down because of a certain politician (President Trump) CDC/FDA band the medical facilities from injecting this into a patient. I don't believe, neither do I trust the government these days. The way they have handled this plandemic is unrealistic n disrespectful to the People of the United States n Hawaii. Instilling FEAR to Control the population is not a way to be in office. Who is more fearful? Us or our Leaders? I see this as a pathway to socialism/Communism. I hate what's going on in government, all political.

I don't deny that this flu is a killer. Underlying factors too causes the decent of a group of people.

Please allow employees to choose vaccination or weekly testing to be OUR CHOICE.

Aloha and Mahalo for your time

Aloha 🌺 ,

Written
Testimony

This is an infringement on rights where I should not be forced to put something in my body that is still giving people COVID and also killing people after getting it. it is not 100% safe nor affective. I do not believe that Hawaiians should still suffer under laws made by the white man still having an agenda to control and manipulate us here. I am sovereign, natural and free and do not wish to have my lawmakers believe they can force me as a law abiding citizen to inject myself. I am against this and feel a pain deep in my heart for my ancestors as well as my children. PLEASE do not do this to us and stop this madness.

I oppose this bill. This would be devastating to our community. This bill goes against our constitutional rights and should be rejected immediately, it is segregation to the highest degree and violates our human rights. This would cause an even wider divide in our community and would cause a great backlash.

Written Testimony

Dear Counsel Members,
It is a violation of the Constitution to mandate the vaccine and a violation of our right to choose.
I strongly oppose pre travel testing as the COVID test does not differentiate from COBID or the flu.
This is a human rights abuse. Anyone forcing the vaccines should be prosecuted for crimes against humanity. And held responsible for any and all side effects, including murder of the forced vaccine results in daeth.
Sincerely
Ruth Niem, DC

I strongly oppose resolution 21-194. Vaccinated people at my job are testing positive for COVID and spreading the virus without regular testing mandates. Pfizer and Moderna vaccination are not vaccinations that prevent the spread of the virus and require boosters. For an aloha state this state has the most restrictions nation wide. Cut off tourism first. People are still allowed to enter our islands with dormant stages of the virus and spreading it. Especially those whom are vaccinated.

Written Testimony This "health" card is anything but that. Requiring this type of document to live in this free country is criminal. It is embarrassing to even have to write this testimony when there is science proving that you can still carry and transmit this "pandemic" virus to anyone you come in contact to.

I have MANY reasons why I highly oppose. But this would take forever. Before any mandate takes place or even considered, everyone should be educated about what the so called 'vaccine' is actually doing in a persons body AND the truth about the ingredients. The long term side affects alone should warn people and the efficacy of the so called 'vaccine' has dropped dramatically. Look at the data and scientific proof! People NEED their jobs and the economy still needs to go on. Instead of mandating the shot, everyone should be educated on prevention and early treatment.

Written Testimony

I oppose the vaccine passport because it is discriminatory and modern day segregation. I believe in medical freedom and an individuals right to choose what is best for them as there is no "one size fits all solution." When there is risk of death or injury with the vaccine, a person should always have the right to choose if they want to take that risk. A person should not be punished and have their basic human rights taken away, especially when the vaccine does not provide immunity and it has been scientifically proven that the vaccinated are still carrying and transmitting the virus.
Let's learn from history for once and NOT echo the mistakes of our past.

Written Testimony

I served my country for 21 years in the United States Air Force to protect the rights we have fought and died for. I am writing to express my disapproval to any form of vaccine passport. This violates our rights as granted under the Constitution and the Bill of Rights against illegal search and seizure and the right to privacy. Furthermore, while we talk about discriminations often in society to today against blacks, Asians, Pacific Islanders, and others, this resolution proposes to discriminate based on private health information. You have no right to impose this mandate on our society. We are not China – why do you insist on imposing this on our democracy?
You are forcing us to look at moving.

Written Testimony

I am strongly opposed to the unnecessary, constitution infringing vaccine mandates. History has shown that forcing healthy citizens against their will has led to disastrous outcomes. Mandates divide, segregate, and fuel more hate for one another. In a time when we need to come together, freely, to UNITE, we must focus on what can bring the community together instead of tearing us apart.

I urge you to stand for unity and togetherness. I implore you to reject any vaccine mandates.

Mahalo.

This is tyranny. Unvaccinated are looked at as an issue, the problem, creating a major segregation. History is repeating itself and I believe we are all here to fight for our rights. Even the masking must end, it is a punishment to children and adults. If a vaccine is so praised then why don't those who are worried about this infection take the vaccine (at their choice) and trust in that? I trust in my natural immunity and health. I do not look into vaccines for health. People will stop all together following any rules or laws if this continues because it is against human rights. And everybody is finally fighting back and standing together. If laws or "mandates" continue people will simply just not comply. It is starting to happen now, and I am proud. I am tired of people feeling the need to be scared of each other and some over hyped flu.

I am strongly opposed to City Council Resolution 21-194 re. Vaccine Passport.

Vaccine passports would change the very nature of citizenship and freedom for all of us.

Written Testimony To force a 'permission slip' officialdom would revoke any presumed rights of all citizens to participate in civic life. We would have sold our freedom for a presumption of safety. We would be walking down a slippery slope into tyranny where the rights of ordinary citizens are no longer respected and dictated to by legislators who do not necessarily understand the implications of vaccinations.

We deserve the right to choose what happens to our bodies without being prevented from utilizing services of society that we have paid for with our taxes (if we choose not to be vaccinated).

Written Testimony I humbly ask you to please look at and read and consider the other side of the many documented dangerous health concerns and incidents regarding this "can be" lethal shot.
We also don't want to lose our precious freedom for individual choices. Once we start we will sadly, in the end, lose our inalienable rights once granted to us.
Freedom is not free. Many fought and gave their lives so we could have this privilege.

Written Testimony I strongly oppose this legislation as government overstep. This strongly represents discrimination against a select group of society and will lead to further division in this state and the country. This is a very slippery slope. Do not cross the line. Are you completely ignoring the fact that vaccinated people are still carrying and passing along this virus. Why do you think our numbers have increased so much since opening up the safe travels program and allowing vaccinated people freely??? VOTE NO!!!

This is an animal vector virus like the corona virus common cold and there has not been an effective vaccine made for this type of virus. Your dogs and cats get this virus and can pass it to you. There is no talk of mandating animals the vacc. I believe in using diet and natural remedies over this type of vacc. The death rate supposed to this virus is .9-1.0 . I worked in the hospital and out patient setting during the SARS and MERS which were 3.0 and 10% death rates and we did NOTHING extra or shut down etc during this period along with Ebola etc.... I feel this is nothing more than total governmental control in our lives!!! Why has the government illegalized the more natural remedies that have been proven to work! Also if the state is mandating the vacc in gov jobs and alternative is weekly nose testing it should be at the governments expense NOT the person you are trying to control!!! I see no reason why this needs to be mandated from a medical and scientific perspective. Not to mention the 5K deaths from receiving this mandated vaccine. I have personally had 3 people I know die after taking this vaccine... no coincidence

Written
Testimony

In light of the recent clamoring of restrictions towards the unvaccinated, I feel that it is against the basic rights. As per the Constitution and the 9th amendment, "The enumeration in the Constitution, of certain rights, shall not be constructed to deny or disparage others retained by the people."
These restrictions not only single out those who are not vaccinated, it divides the people into two groups and causes more conflict than it does solving our issues. I kindly ask the council and board to reconsider these restrictions. To work with all people, rather than cause a divide among us.

Best regards,

Leiana Cabos-Perreira

This is absolutely disgusting what this state this island! is doing to it's people!!! Trying to force everyone to put something in their body. What is the difference between consensual and non consensual sex? This to me comes very close as a reference in comparison. This state and it's representatives who are trying to enforce this upon the people who mostly depends on tourism to make a living on this island will cause more harm than good.

Written Testimony

If I am healthy and know what to eat and drink to maintain my well being I do not need some vaccine. Why doesn't the media actually promote healthy lifestyle. Rather than a bandage for the weak! If you are scared stay home if you are healthy live!!! I am sad for Hawaii!!!! We need to stand up for our rights!!! Freedom is being taken from us!

You want to give everyone a free shot that nobody knows the long term effects or the current effects of the immediate injection! Well than love the people enough to give them all free healthcare and promote healthy lifestyle to prevent people from making it to the ICU EVER!!! THE FDA DOESN'T GIVE CARE ABOUT US OR THEY WOULDN'T LET HALF THE SHIT THEY FEED US ONTO THE MARKET SHELVES!!!!

Your position on the matter Oppose
Representing Organization Self

I strongly oppose Resolution 21-194 urging the city administration and the state of Hawai'i to implement a covid-19 health card for establishments at higher risk of transmission of covid-19. The covid-19 vaccines have NOT been proven to stop the virus. On the contrary, I know many friends and family who are fully vaccinated and have still contracted covid-19.

Those who have natural immunity from already having covid-19 are also being discriminated against as multiple studies have come out saying that the vaccine wipes out any antibodies that you would have from natural immunity.

Written Testimony

There are also therapeutics out there PROVEN to work and have been out for over 60 years, far longer than this experimental drug. They work and so does being healthy and naturally boosting your immune system. My 94-year-old grandmother contracted covid-19 and beat it. I myself have had it and beat it. So did my husband.

Let the people decide as it is their right and the passport is tyranny under the Nuremberg Code. What happened to my body my choice?

And what about all the people who have died or have contracted worse diseases from getting this vaccine? Why don't we talk about them.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution. Our laws are meant to not discriminate and this is disparate treatment.

Written Testimony

I oppose this resolution because it is a violation of our personal liberty guaranteed by our Constitution. This will hurt and destroy many of Honolulu's small businesses, which are just starting to make a comeback after the lockdown. There is no evidence that vaccinated people are less contagious than unvaccinated, and there is no evidence that the vaccine works at all. As our elected representatives, your job is to protect the people's rights as individuals, and if you don't protect our rights, we will remove you and replace you with leaders who will.

I am strongly opposed to this Health Passport.

Written Testimony

1. Vaccine makers and vaccine administrators and mandators are immune from liability in the event of adverse reaction including death
2. Pfizer paid out billions for bribing doctors and suppressing adverse trial results in 2009
3. Moderna has never brought a vaccine to market
4. Every previous coronavirus vaccine has failed.
5. Every previous mRNA vaccine has failed.
6. Anecdotal friends and family have had adverse reactions including death after vaccination.
7. ZERO long term safety testing and the short term trials that were conducted were abandoned because all the lab rats were dying.
8. Censorship of scientific debate
9. Censorship of Fauci funding gain-of-function
10. Censorship of Covid Treatments and the use of early treatment
11. Censorship of adverse reactions and deaths
12. Ignoring natural immunity. Got Covid and developed immunity.
13. 99.95% chance of survival if below age of 50
14. Bloated case counts and death numbers
15. The virus will continue to mutate
16. Vaccinated can still catch the virus.
17. FDA, CDC, WHO are captured institutions
18. Virus and vaccine efficacy measured by faulty PCR test
19. Never solved lipid nanoparticle delivery problem
20. Japanese Pfizer data shows LNP accumulating in organs

21. Vaccines must give you antibody immunity. This "vaccine" does NOT do that.
22. The doctors and nurses administering the inoculation are required by law to give informed consent and they cannot do this if they themselves are not informed
23. the 14th Amendment to the US Constitution explicitly directs states not to "deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws"
24. Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
25. Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: "Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product"
26. Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment
27. It is neither feasible nor safe to mandate experimental vaccination given the large number of COVID-19 recovered patients in the general population and the FDA/Pfizer/ Moderna protocols which excluded COVID-19 recovered patients
28. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States
29. Administration of the experimental COVID-19 vaccines according to guidelines established by the CDC's Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations
30. The public is entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials
31. The SARS 2 Covid19 virus has never been isolated and there is no proof of its existence.

According to the State's website at health.hawaii.gov updated 9/1 the positivity rate is 7.9% with 858 new cases STATEWIDE which calculates to 68 Positive cases STATEWIDE according to the website's definition and formula.

68 Positive cases Statewide with a total population of 1.46 million people is really 0.0004% chance of being positive with a 99.995% chance of survival.

Additionally, there were more flu deaths in 2017 than there are Covid deaths since April of 2020 and miraculously flu deaths disappeared.

The numbers don't make sense! Neither do your "New Case Count" numbers that are reported daily which include "Probable Cases." By definition on the State's website, "Probable case are cases that either have a positive antigen* test result (without a follow up confirmatory test) or were symptomatic and had known exposure but did NOT get tested."

WE THE PEOPLE DEMAND THAT YOU PROVE THAT A PANDEMIC EXISTS by presenting material evidence of the isolated SARS-COV2 virus and data of actual deaths (FROM Covid, NOT with Covid)and Number of Positive cases Statewide.

Written Testimony

I am against the vaccine passport and vaccine mandates. Vaccines are medical procedures and by law cannot be forced. The covid 19 vaccines are experimental drugs and not fully approved by the FDA. Their use as an EUA has been extended until 2023 only. Vaccine passports discriminate against children under 12, people who medically cannot take the vaccine - a violation of the ADA, and people who do not want to have an experimental drug be forced upon them, also illegal. It has never led to anything good to force medical procedures onto people, especially en masse.

Vaccine passports are also divisive and tear at our already ruptured society. They will negatively affect local businesses.

I stand in opposition to this draconian and illegal resolution.

By the way, Tommy Waters is just as unethical as a politician as he was as a public defender.

Written Testimony I really think that forcing a state wide mandate on verification of vaccination is wrong and not the correct way to tackle the issue. The vaccine helps those who get it not feel worse than they should feel, but you can still catch covid and the delta variant. So it would be more correct to just force everyone again to get a covid test before coming in the island, and stop letting people who just have a vaccination card.

I ***DO NOT*** support the vaccine passport. STATE AND FEDERAL GOVERNMENT NEED TO OPEN UO THEIR EARS AND LISTEN TO US THE PEOPLE AND NOT MONEY OR MEDIA! LISTEN CLOSELY BECAUSE WE ARE GETTING VERY TIRED OF REPEATING OURSELVES!!!

Written
Testimony

1. America was founded on the freedom of choice and religion. Those who want the vaccine should have the choice to do so and those who do not support it should not be forced into doing such. I DO NOT AND WILL NOT EVER NEED THE GOVERNMENT TO MAKE DECISIONS FOR ME OR ANY CITIZEN WHO DOES NOT DESIRE IT!

2. I'm a firm believer in the bible and I believe the vaccine passport is what Jesus warned about in the end times, that no one will be able to buy or sell without the mark of the beast. For religious regions I will not submit to being assigned such passport and will be extremely disadvantaged and become a second class citizen after serving in our country's armed forces on active duty tours to the Middle East in the United States Navy fighting for the very thing you punks think you can take away, FREEDOM BABY!

3. I am not harming those who support the vaccine by my refusal to get vaccinated. I do not believe the vaccine is for our health and wellness. Those who support the vaccine believe it is extremely effective and gives them a slim to none chance of dying from covid. If they fear I will expose them to covid by not being vaccinated they are not at risk I am. That is only logic based on pro vax beliefs.

4. I on the other hand, do not trust the government or big corporations enough to inject myself and my child with this vaccine. Covid has left us all with many questions. It is unlike any disease the world has seen

before. To me, it is not out of the realm of possibility that there are nefarious ulterior motives connected to what is going on in our world today. The government experimented on African Americans with the syphilis virus, experimented on our own military with agent orange, and numerous other covert operations that did not put the people and their health first. SECTION 201, BILL GATES, JOHN HOPKINS, FAUCCI, BIDEN, HILLARY, AND SO SO MANY MORE NEED TO BE SENT TO PRISON! Governor of Hawaii as should also be removed and face criminal and civil consequences! Our lives and for damn sure the children's lives are not yours to ever control. You as city, county, and state officials should be held for treason against the American people. I should not have to trust such government with my life.

4. I am not the only one who is opposed to the vaccine passport. Many people are willing to lose their job before getting this vaccine. Mandating the passport will push our already unstable economy into collapse, likely cause riots, and further devastate our state and nation. But government has never been good with money, hence fiat currency, credit bubble, inflation, and many other failures on state and federal government!

5. People are afraid and are entitled to feel this way. Our fear is founded on history. The vaccine passports open the door to much greater invasions of our privacy and brings us closer to communism that so many Americans have lost their lives to protect us but know this many more are willing to die for this cause.

Everyone around the world needs to see this for what it is! If there ever was a hill worth keeping, fighting, and even dying for if it is necessary, THIS IS IT FOLKS!!! WE THE PEOPLE NEED TO SET A HARD STANDARD OF WHAT WE WILL AND WILL NOT TOLERATE AND MAKE IT VERY CLEAR. EDUCATION, BIG PHARMA, POLITICS, FUNDING, FINANCES, PRISONS, BAIL, BIG CORP, TECH, OIL, TERM LIMITS, VOTING, DRUG LAWS, GOVERNMENT ACCOUNTABILITY, CURRENCY, AND MOST IMPORTANTLY THE FUTURE OF OUR CHILDREN ALL NEED TO BE CAREFULLY EXAMINED AND REFORMED TO PUT THE POWER BACK TO THE PEOPLE WHERE IT IS WRITTEN IN LAW! WHAT WORLD WILL WE GIVE OUR CHILDREN AND WHAT EXAMPLES ARE WE GOING TO SET. MYSELF, PERSONALLY... I WILL DIE ON MY FEET BEFORE I WILL EVER SERVE ON MY KNEES! BE JUDGED BY 12 BEFORE BEING CARRIED BY 6! GOD SPEED TO AMERICA, ITS NATION'S GREAT PEOPLE, AND TO ALL THE BADASS MILITARY MEN & WOMEN PAST & CURRENT THAT DIED AND SACRIFICED FOR THIS NATION! EVIL WILL ONLY WIN THE DAY GOOD MEN DO NOTHING! THIS IS THE WAY! I FIRMLY OPPOSE RESOLUTION 21-194 AND ANYONE WHO TRIES TO ENFORCE TRYANNY!
