Your position on the matter Oppose  
Representing Self  
Organization

Written Testimony It is a violation of the United States Constitutional freedoms and International standards to restrict the ability of individuals to conduct essential business based upon their vaccination status. There are many people in the community that have medical, or religious, reasons for not taking the COVID vaccine due to the side effects of the "FDA approved" and other EUA vaccines.

Written Testimony This vaccine passport violates people's freedom and is discrimination. This affects people's livelihood from all aspects. Creating segregation and putting a label on people whether they're vaccinated or unvaccinated won't stop this virus. Working together in unity or as a group can help fight this virus. Everyone has to do their part and be responsible to protect themselves, family members, friends, and others. This vaccine passport not only puts a stop in recreational use, but it also affects employment. More and more people will be out of jobs and will affect businesses. This will cause unemployment and homelessness. Please think what this will do to the people of Hawai'i and our children.

Written Testimony Given recent information from the Israeli study showing natural immunity much more effective than vaccination in defeating c19 and variants, vaccine mandates and passports are not necessary. Furthmore I personally find them highly immoral and grossly unconstitutional. Should these kinds of resolution be adopted, there will unintended consequences for our society as a whole. The people will not comply.

Written Testimony I do not support a digital vaccine passport program. It violates health privacy, discriminates against people who cannot or will not vaccinate, and makes it extremely difficult for people to work. No one should be forced to take a something that has undergone full testing and been approved by the FDA.

This is a direct a front to our bodily autonomy which is an inalienable human right.

This will lead directly to violence.

You are dooming all Hawaiians to a civil war and genocide.

The jabs cause infertility, blood clots, and even death.

### Written Testimony

Many of us believe it is the mark of the beast as prophesied in Revelations. We will never take the jab.

You are engaging and committing a genocide on the indigenous people of Hawaii, and everybody else who lives here.

If you continue on this path, it will lead to violence, and you will be the first victims.

Written  
Testimony

Vaccine passports take away business owners right to conduct business the way they see fit in our "free country."

This is discrimination at its finest pinning people against each other and taking away the freedom right of my body my choice. Vaccinated or not you should be mindful of others, practice self care, and start looking at nutrition and personal health.

For anyone to be forced to do something against their will is not freedom.

Again as long as businesses are requiring proper safety measures such as ppe and testing for their employees and tourists are being given a test vaccinated or not as part of their safety check before coming to island and actually following rules so they don't infect the community, there is no need to divide the state and create a loss in business and maybe closures in business if you let this passport happen. You will lose so many good workers and businesses will suffer. Again vaccinated or not we need to come together not divide.

### Written Testimony

The state should not mandate vaccines for employees or citizens. This violates our personal right to choose what enters our body. I do not want to risk my personal health by introducing an unproved foreign substance into my body.

The state should not institute vaccine passports. We cannot be forced to take a vaccine in order to travel or enter a business. Businesses should not be mandated to enforce a vaccine passport. Business owners have the right to provide and refuse service to whom they choose. The state should not require for weekly covid tests for those employees who are exempt from vaccination. These tests cost over \$100 and requires people to take the time to get tested. Testing sites have not been set-up for quick and efficient testing. The state-imposed financial and mental trauma from weekly testing is much more harmful than the potential chance for illness.

The state should not continue with travel restrictions and requirements. Residents who travel off island should not be prevented from returning home based on a positive (or false-positive) test result. Someone who is ill has the right to recover in their home with the support of family and their personal physician.

The state should not prevent student athletes from participating in sports. Children and their parents have the right to choose what they allow into their body. Children have suffered through isolation, inactivity, and mental trauma through the pandemic. In addition, many families do not have the ability to pay for twice weekly testing. This discriminates against those facing economic hardships.

The state needs to make decisions based on the foundational understanding that people have the freedom to make their own personal choices about their body and how they choose to live. The state should not create mandates that violate our personal freedom and rights. In your role in state leadership, I encourage you to stand up for the rights of all people. Act with courage.

Sincerely,  
A very concerned citizen

Written Testimony  
Vaccine passports take away business owners right to conduct business the way they see fit in our "free country."  
This is discrimination at its finest pinning people against each other and taking away the freedom right of my body my choice. Vaccinated or not you should be mindful of others, practice self care, and start looking at nutrition and personal health.  
For anyone to be forced to do something against their will is not freedom.  
Again as long as businesses are requiring proper safety measures such as ppe and testing for their employees and tourists are being given a test vaccinated or not as part of their safety check before coming to island and actually following rules so they don't infect the community, there is no need to divide the state and create a loss in business and maybe closures in business if you let this passport happen. You will lose so many good workers and businesses will suffer. Again vaccinated or not we need to come together not divide.

### Written Testimony

I Oppose Resolution 21-194. Amongst other things, Mandating a vaccine passport is Unconstitutional, Strips the people of their Freedom to Choose, and Pure Evil because Everything is based on Lies. Lying is the Devil's language. Even if you remove God from the equation, which I Oppose as well, the Proof is in the Science. Masks Absolutely Do Not Work to prevent the spread of coronavirus. And, this particular vaccine is Not a cure all. The vaccine does More harm to the human body than good. Also according to Science, Coronavirus is Never going away. Vaccinated people can Still contract the virus AND Spread it to others. Resolution 21-194 Needs to be tabled and shut down For the people. May God continue his blessings on all of us. Aaaloha

Written Testimony Vaccine passports are unnecessary and harmful to society. Segregating and discriminating against a portion of society is never the right way to go. There are people who are unable to get the vaccine due to medical conditions and other religious reasons. These people also deserve access to businesses and services across the state. There are other much more effective ways to keep our citizens safe and healthy.

Instituting a health pass to enter any establishment is a violation to our rights. This is discriminatory to anyone based on health status.

There have been data that shows the delta variant similarly shows high viral loads for both vaccinated and unvaccinated. This indicates increased risk of transmission of the virus from vaccinated as well as unvaccinated.

Written Testimony If the unvaccinated needs to show proof of a negative test to enter an establishment with other vaccinated individuals who may be carrying the virus (and not know) and possibly transmit it to others around them, how is this helping our community in being safe. Studies show both vaccinated and unvaccinated may carry and transmit the virus.

Please allow people to make decisions that are in the best interest for themselves and their families instead of implementing these mandates that dictate how we should live. People need to be heard, liberties preserved, vaccinated or unvaccinated, we should not segregate or discriminate against each other.

**Written Testimony**

I oppose the vaccine passport because it is discriminatory and modern day segregation. I believe in medical freedom and an individuals right to choose what is best for them as there is no "one size fits all solution." When there is risk of death or injury with the vaccine, a person should always have the right to choose if they want to take that risk. A person should not be punished and have their basic human rights taken away, especially when the vaccine does not provide immunity and it has been scientifically proven that the vaccinated are still carrying and transmitting the virus.  
Let's learn from history for once and NOT echo the mistakes of our past.

Written Testimony I believe that free people should have the freedom to choose and make their own medical choices. The Barr's reporting system has reported many deaths and permanent injuries from these genetic vaccine. It's unamerican to force people to put any drug in their bodies. You will lose citizenship in your state as well as visitors. You may not want visitors now, but you will need them in the future

**Written Testimony**

I, Meredith Cross, of Kapaa, HI strongly oppose this proposal. Vaccines, or any decision regarding personal health, should be an individual's personal choice with no government mandate. The failure of the government in regards to providing citizens with an inadequate health care system should not be put on to its citizens to personally sacrifice in receiving a vaccine that has no long term health studies. Do not pass this!

Written  
Testimony

1. Israel Gibraltar and Iceland have high vaccination rates and cases continue to surge. This method will not improve outcomes
2. Mandates violate human autonomy and create division in our community
3. The mandate does not take into consideration natural infection or immunity. Those who had childhood chickenpox or demonstrate postive mmr titers are not mandates to retake the vaccines. That's proof enough in the healthcare industry to be compliant for work. We should maintain the same standards.
4. You will hurt businesses.

Written Testimony I am opposing the vaccine passport program.  
I believe it is going against our rights as Americans and is using  
prejudice towards those that do not want to take the VAX for  
whatever reason.  
I believe we have gone too far here. This will ultimately separate  
the people instead of bringing together.

Thank You.

Organization

Written Testimony I oppose this vaccine passport because recent studies have come out proving that natural immunity is shown to be 13 times stronger then getting the Covid vaccine. I have had Covid and I have taken the right preconditions to quarantine to prevent from any others catching it from me. I respect everyone choice to choose and that is why I oppose.  
Below is a link to one of the many articles found to prove the studies are not made up. Look in to the science as they all say and see that this is true.

**Your position on the matter** Oppose  
**Representing Organization** Self

**Written Testimony**

Mandating vaccines to get into any public establishment or private establishment is completely unnecessary and unlawful. The COVID-19 vaccines have proven to have many adverse side effects and have proven that even if one gets the vaccine, they can still get sick from COVID, and even die. If you really care about people and their health then you would care about respecting their right of freedom of choice, which is what American was brought up upon and what true American values mean. If Hawaii continues to go through with mandating vaccine cards...business will suffer, people will lose their jobs and lively hood, and the people of Hawaii will not be able to sustain a good life here. Hawaii has already pushed out so much of our native Hawaiians and locals. This will only push them away more until Hawaii is no longer ours. Please don't do this to us.

### Written Testimony

With the new restrictions, I felt that it is within my rights and responsibility as a citizen to speak on this matter. First of all, I am fully vaccinated yet I have a problem with the restrictions. The most glaring issue is that it has singled out the unvaccinated and took away certain rights that I fully believe that they should have such as dining in restaurants and entering businesses if they wish to. This to me is firsthand segregation and I cannot idly stand by to support this. I have loved ones who have chosen not to get the vaccine and that is within their rights to do so. However, it is as if the choice is being made for them rather than them being able to choose for themselves. I ask respectfully to reconsider this choice to avoid any type of division amongst the people. There has to be a better way than this. I believe if we come together, we can figure out a solution that will benefit everyone.

Thank you for your time,

Codey Hirai

Subject: FW: Council/Public Hearing Speaker Registration/Testimony

Trying to get through. Our many many people in opposition to Resolution 21-194 has apparently crashed your website. See email below.

Dear City Council:

Please note that your website is crashing (slow) and refusing to accept hundreds of testimony in opposition to Resolution 21-194. This resolution is terrible. It completely ignores the undisputed FACT of SCIENCE that natural immunity obtained by having Covid-19 is BETTER and LONGER LASTING than immunity obtained from the mRNA vaccines. This is even more non-sensical than requiring people with the vaccine to get Covid-19 in order to get better immunity. Here is a DropBox link to 10 articles which confirm this:

<https://www.dropbox.com/sh/pdh9rs0jffj7cjd/AAC-P85VI7YJd5D3FgAV3WZUa?dl=0>

This testimony is submitted in strong opposition to Resolutions 21-193 and 21-194. We would like to be heard at the meeting.

Law Office of William H. Lawson

Written Testimony

I am an attorney trying to assist a large group number of Hawai'i citizens and businesses who oppose vaccine passports. Please allow them to briefly address the council when the resolution is heard - if that is possible. There will be many people outside City Hall protesting who need to be heard.

Aloha,

Bill Lawson

## Opposition To The Vaccine Passport

Kathleen Tanaka <ntykatz@gmail.com>

To: knightsofaloha@gmail.com

Cc: Rita Kama-Kimura <seeknfind@hawaii.rr.com>

Thu, Sep 2, 2021 at 4:28 AM

Dear Sir/Madam:

I am not in favor of the vaccine passport.

I have a family member and a friend who have passed away after being vaccinated.

Other friends' children now have cardiomyopathy due to the shot.

The one teenager took the shot because of the mandate requirement to participate in sports.

He was an avid athlete who will not be able to participate in any sports for the rest of his life.

It is tragedy. Their hearts are permanently damaged.

On August 19, 2021, Dr. Christine Parks who attained her PHD IN CELLULAR AND MOLECULAR BIOLOGY from the Michigan University Medical School testified regarding HB 4471 in Lansing, Michigan that vaccine mandates and requirements are based on the faulty assumption, and that the vaccine does not prevent transmission of the virus.

She further stated that it is being over simplified in the media to take away our FREEDOM OF CHOICE.

Dr. Janice Lindsey Second Director of Toxicology and Molecular Biology Toxicology Support Services states....

It is the vaccinated not the unvaccinated that are spreading the mutant virus.

She stated that she has warned the CDC in April 2021 of this and other scientists have warned the CDC also.

Dr. Lindsay states that the solution is to stop vaccinating and start treating people with cheap drugs like Hydroxychloroquine and Ivermectin. (Article by HI Children Health Defense)

Therefore I humbly implore you to not pass the vaccine passport.

Thank you for your time and consideration in this matter.

Kathleen Yamashiro

### Written Testimony

I grew up here in Kaneohe, my family all lives here, and love this place. I have been a pilot with Hawaiian Airlines for 13 years, and I'm so grateful to have this job. I know that the population is split in the vaccination issue. I am not anti-vaccin, personally. I am anti-vaccine mandate. Restricting the freedoms of peaceful civilians going about their day is absolutely unconstitutional. If this resolution goes through, it is setting a new precedent. Which is to say, "the government now decides what you must put in your body... or else..." In high school I first read about Nazi Germany, and have always wondered, "How could so many good people let this happen? They weren't all evil. Would I have let this happen?" This is a free state, a free country. I want to do my small part to protect our freedoms for future generations. That means staying true to my beliefs. If you mandate a vaccine card, My family will no longer be able to access indoor public facilities for food, restrooms, medicine, necessary household goods, etc. Also, I will not be able to travel freely, and will lose my job. I strongly oppose this mandate. Thank you for your consideration.

Written Testimony To implement a vaccine passport will only cause further segregation amongst the people. We will be going back into history where people were segregated on where and what they can do. This will cause more distrust in our government which I believe will cause even more of uprising for a stand for freedom of choice and for no segregation.

### Written Testimony

Testimony I strongly oppose implementing a health pass restricting access to any locations for individuals choosing not to take a covid-19 vaccine. We have never done this in the past for any other disease, let alone one with such a low fatality rate. And with good reason. Creating a caste system for the citizens of a free country is not a good idea. History has given us multiple examples of the violence and injustice that occur when government sponsors discrimination and division. Once implemented, where will it stop? Israel is now requiring three shots for entrance. Every shot adds risk. Where there is risk, there must be choice. It is a short road to medical tyranny and totalitarianism. And most importantly, a non-sterilizing vaccine such as this one doesn't even prevent transmission, so the logic is completely absent, uncovering this for what it really is because it's obviously not about public health. Do not be complicit.

### Written Testimony

The spread of SARS CoVid 2 will not be changed by this proposed ordinance and is very unfair. We all have the right to choose what we put in our body and if you do not allow that most basic of freedoms we don't have a free society. To require testing of those who choose not to put a shot that has been proven to be dangerous and ineffective is tyrannical and irrational. The tests are not accurate, the shots are not safe. All of the effort you are putting into ineffective controls should be put into educating how to be healthy and treat the virus effectively. Please do not impose this ordinance on us.

**Sent:** Thursday, September 02, 2021 9:35 AM  
**Subject:** resolution 21-194

Aloha,

I tried several times to input testimony on the county website and it keeps blocking me so I will send it to you.

My name is Paul Burns. My email is [pdburns@hawaii.edu](mailto:pdburns@hawaii.edu) and I oppose this bill.

Here is what I tried to submit as testimony

Vaccine Passports will take away our human rights that America stands for. It will lead to complete government oversight of everything we do in our lives and eventually our bank account will be linked to it and we will be punished if we do not consent to what we are being told. It will be easy for them to mandate more booster shots whenever they want and even if it is making us sick or die we will not have the choice to opt out. This is an act that can destroy our way of life and make us become like other countries where the government controls every aspect of our life. This is totally unnecessary because doctors have figured out how to stop viruses from replicating but CDC and FDA is not allowing this information out. There is a huge conflict of interest because CDC and FDA benefit greatly by the vaccine mandates so until there is an independent study that does not have a conflict of interest we need to protect our rights and hold this mandate off. Small businesses will suffer and our economy will suffer and our kids will suffer unnecessarily. Please vote against this so you go down in history for standing for our rights and freedoms and not handing them over. Mahalo and God Bless Hawai'i and the world. Aloha

Written Testimony As a mother of 5 sons and a active person in my community on the county of Kaua'i, I very much oppose this bill! This is wrong in so many ways and I cannot believe we are here!  
This would change everything that Hawaii and it's people are. I vote a huge NO on this bill!

**COMMITTEE ON TRANSPORTATION, SUSTAINABILITY, AND HEALTH**

Councilmember Radiant Cordero, Chair

Councilmember Brandon J.C. Elefante, Vice Chair

RE: RESOLUTION 21-194

Position: Oppose

Dear Chair Cordero, Vice Chair Elefante, and Committee Members:

My name is Maluhia Miller and I strongly oppose this resolution. I understand the councils' aim to protect Hawaii citizens but this resolution misses the mark entirely. This resolution brings segregation and discrimination into our communities. This resolution proposes isolating and excluding those who have either recovered from Covid and have developed natural immunity as well as those who don't currently see the vaccine as a safe option for themselves. These people are also citizens of Hawaii and equally deserve protection.

This resolution doesn't acknowledge information put out by the CDC and WHO stating that Covid-19 is also spread by vaccinated individuals. Again, this resolution does not protect Hawaii citizens. It only discriminates against those who choose not to take these vaccines at this time.

Furthermore, these vaccines seem to be almost obsolete according to the science put out about these variants. Where are the credible studies stating that 95% vaccination rate is needed for herd immunity as stated in this resolution? Who are the specialists that make this claim?

This resolution is an attempt to bully the people of Hawaii right into a vaccine syringe and that goes against the oath you each swore when you entered into office.

I urge you to vote NO to Resolution 21-194.

Thank you for your time and for the opportunity to provide testimony.

Sincerely,

Maluhia Miller

Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I am opposed to Resolution 21-194

I have not spoken out publicly about this nor has many of my friends and business owners as we are treated as pariahs and outcasts in our already segregated community.

I studied Psychology and Public Administration in college. One specific area of study I researched while attending college was specifically the FDA and the Drug Administration. This is where my concerns lay.

Written  
Testimony

1. Most people don't know that normally a drug only takes 6 months to get on the market.
2. Normal practice for Big Pharmaceutical companies that have billions is that they test at hundreds of independent labs, but are only required to turn in 1 test result. Obviously turning in best results. In turn side the percentage of side effects are much greater then listed.
3. It typically takes 10 years for long term side effects to show.
4. After side effects are noted (10yrs later) then it takes an additional 10 years for doctors to do research to prove in test cases that the side effects are from that particular drug.
5. At the time of my research the FDAs entire fiscal budget if used to test new products on the market would only be able to test 3% of all incoming new products.
6. Medications and Vaccines take more in-depth and longer term studies to be provided on younger children, but it none of the current vaccines have long term studies.

In addition I have had covid twice. The first while traveling out of country before it was announced. The second time we contracted covid was the Summer of 2020. Both times my family and survived. I had minimal illness. My youngest daughter the worst because she was only year old at the time and my husband was ill for 2 weeks. None of us required medication, assistance or hospitalization.

The second time my family was exposed to covid the baby was fine with no symptoms, my then 4 year old felt mildly ill for less than 12 hours same as myself (I recognized the symptoms immediately this time, even though much less intensity). Our children are young and we all stayed together as a family unit and the children sleep with us. My husband who was the most symptomatic has since then taken the vaccine only as a means to keep his employment.

At the time of the second contraction they were limiting tests and would only allow one person in our household a test although all were infected.

The members currently seem higher but the amount of tests previously administered was much less than the actual number infected.

Even with vaccinations you are able to pass along the virus. young children are not if vaccination age. Since I have the antibodies which is between 60-70% more protection than the vaccine I prefer to be able to tell when Im infected so that I may take the proper precautions to stay away from others.

How is it right for those that are vaccinated who could go about their daily lives as carriers and not symptomatic be free while others who you could tell were symptomatic be confined.

I humbly ask you to please do more research yourselves and do not use this vaccine passport to segregate out society.

I know so many people with small businesses that are struggling or permanently closed die to covid. I ask that you do not put more pressure on already struggling businesses in the private sector.

Please do the math, there are 61,800 cases of covid and 599 deaths which have been classified as Covid related. Which means less than more than <99.9% of people who have tested positive for covid has recovered. We know the number of infected Is much greater as many do not know they are ill or test.

I understand this is something unknown and scary but implore you to please remember on the basic rights in which we were founded to have the right to chose be free of political persecution.

I'm addition the stipulation of having a negative test within 48 hours is unreasonable.

If you are going to mandate tests then it is reasonable to included those whom are vaccinated as they can also be carriers and sick.

As a representatives of government office by mandating businesses to excluded those who do not provide their confidential medical record to be exiled for simply being more susceptible to the disease it is immoral and unconstitutional.

I am not anti-vaxx as I have many vaccinations, but I am pro-freedom and pro-choice.

I'm not saying I am will never take the shot, but I'm saying not at this time. This is my right as a citizen of the United Stars of America.

By implementing this mandate, forcing businesses to comply and forcing vaccines it's as bad as Nazi Germany and the internment camps.

I feel that you do not oppose this bill you are an accomplice. Although you do not have a needle you are forcing it into our arm against our will and feel this is the equivalent Medical Rape.

Please do the math and respect our Constitutional Rights.

I strongly oppose Resolution 21-194.

Are we in the United States or are we in Nazi Germany? Or maybe the Soviet Union? Or perhaps North Korea? Venezuela? China? NO, we are in the United States of America and this resolution is an infringement on our rights. It's an infringement on the businesses' rights too to make them require their customers to have the COVID-19 (C-19) Health Card especially when there is no obvious danger out there.

Written  
Testimony

First of all, let's be real. THERE IS NO PANDEMIC! If it were a pandemic, why would we have to be told over and over again that there is a pandemic over media (the news)? I think we wouldn't need to be told especially in the cities. We would know just from our neighbors. Hawaii is so small that we would KNOW. We have friends around the world, we would KNOW. There would be more videos going around social media of people falling sick and dying from C-19 as compared to all the videos of adverse reactions from the COVID "vaccines." If it were a real pandemic, why would first responders lose their jobs if they don't take the C-19 shot?

I know the rise in supposed cases are being used as an excuse to require these health cards. It's obvious that the numbers are being doctored. It is known that the people who have yet to receive their second shot is still considered unvaccinated so if they have an adverse reaction or get sick from the shot, they're included in the "unvaccinated" count. Those who received both their shots are not tested at all even if they have the supposed COVID symptoms (unless you work DoD but we know those numbers are not given to the state nor would they be used either). Only those considered "unvaccinated" are tested and therefore OF COURSE used so that the media can technically say that the unvaccinated are in the hospitals...whether or not they're at the hospital due to COVID. I won't get into the misuse of the PCR test that the inventor, Kary Mullis, said that it doesn't indicate that one is sick. It's pretty obvious that the

rise in cases started rising because of the rollout of AN EXPERIMENTAL “vaccine.” I also know about the guidelines that the American Medical Association gave out to the doctors on how to further push this so-called pandemic. We all know majority of the people here in Hawaii who ended up in the hospital had underlying health conditions like obesity. It is known that obese people have a higher risk for COVID complications. How many people in Hawaii are obese?

The “vaccine” is EXPERIMENTAL. It is also NOT a vaccine. It’s only called that so that it can have the same NO LIABILITY as tradition vaccines. Since forcing the vaccine IS an infringement on our rights, especially our right for informed consent, these C-19 health cards are an indirect way to ‘mandate’ these so-called vaccines. What would happen if the businesses realizes that they have the right to sue the Hawaii State Government? What would happen if employees realize that they can sue their places of employment for discrimination as well as for responsibility for any adverse reactions to the “vaccine.” Are you purposely trying to hurt Hawaii’s economy? Who do you really work for? Are you working for the Hawaii people or the same people that Fauci and Gates work for? Does America really want to be part of the New World Order? What about the Hawaiian Kingdom? I think NOT. What were you promised for pushing these? Are you all “Useful Idiots?” Are you so out of touch that you’re willing to sell out the lives of the people of Hawaii? Are you willing to sell out Hawaii? How many times has the mayor mentioned New World Order? What are you all trying to turn Hawaii into?

Now, these C-19 Health Cards are now infringing on our rights as a human being and as an American. It’s infringing on our security as well as our privacy. It’s infringing on our right to choose. We have the right to informed consent and it’s very telling that all the information that shows the adverse affects of the COVID-19 vaccines have been concealed or censored. All the information being put out by controlled media is one sided. The science you all are basing your information on is one sided. How can the masses make an educated decision if one side is censored? It is NOT science if there is no opposing data. Remember who you serve. Yes, you are servants of the people. You work for us, not for whomever has been paying you to push these so-called vaccines and health cards/passports.

Do you even know the laws you’re supposed to protect?

This is a violation of the US Constitution’s fourth amendment, Title III of the US Civil Rights Act, and the 1947 Nuremberg Code. It is also a violation of Hawaii’s Consitution Article I section 6 and 7. There is NO compelling state interest as I mentioned earlier, there is NO pandemic.

Lastly, why are you ignoring the various ways to stay healthy? Is the money the state or hospitals for COVID patients more important than the patients’ recovery? Why not use what has been working for people around the world? Anyone with a quarter of a brain can tell that something is not right if no health official is recommending natural ways to stay healthy such as getting enough exercise or getting enough sun, ignoring natural immunity, drugs like HCQ and Ivermectin are being banned, doctors professionally threatened if they give out too many medial waivers, that First Responders may lose their jobs for refusing this experimental “vaccine,” and everyone who speaks against the “vaccine” or offers alternative solutions are censored.

Remember who you really work for. You may say you’re doing it for your constituents who are crying for this but you know they too are making the decision based from faulty

information from the media. You also know that media has been purposely omitting all the information I mentioned earlier. How about including in the media reports on the adverse reactions to the “vaccines?” Oh what, there’s none? Maybe because many sites where people posted their own experiences have been deleted. That’s OK though, people like me know where to find them. I can send you screen captures and videos if you or anyone else who wants it. Everyone has the right to choose whether to take the “vaccine” or not. Everyone has the right to informed consent. It’s a shame that majority of the people who took the “vaccine” took it out of fear and false or lacking information instead of informed consent. Stop pushing what Bill Gates is pushing for.

I strongly oppose resolution 21-194.

Agenda Item Health Passport  
Your position on the matter Oppose  
Representing Self  
Organization

I am strongly opposed to this Health Passport.

Written  
Testimony

1. Vaccine makers and vaccine administrators and mandators are immune from liability in the event of adverse reaction including death
2. Pfizer paid out billions for bribing doctors and suppressing adverse trial results in 2009
3. Moderna has never brought a vaccine to market
4. Every previous coronavirus vaccine has failed.
5. Every previous mRNA vaccine has failed.
6. Anecdotal friends and family have had adverse reactions including death after vaccination.
7. ZERO long term safety testing and the short term trials that were conducted were abandoned because all the lab rats were dying.
8. Censorship of scientific debate
9. Censorship of Fauci funding gain-of-function
10. Censorship of Covid Treatments and the use of early treatment
11. Censorship of adverse reactions and deaths
12. Ignoring natural immunity. Got Covid and developed immunity.
13. 99.95% chance of survival if below age of 50
14. Bloated case counts and death numbers
15. The virus will continue to mutate
16. Vaccinated can still catch the virus.
17. FDA, CDC, WHO are captured institutions
18. Virus and vaccine efficacy measured by faulty PCR test
19. Never solved lipid nanoparticle delivery problem
20. Japanese Pfizer data shows LNP accumulating in organs
21. Vaccines must give you antibody immunity. This "vaccine" does NOT do that.
22. The doctors and nurses administering the inoculation are required by law to give informed consent and they cannot do this if they themselves are not informed

23. the 14th Amendment to the US Constitution explicitly directs states not to “deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws”
24. Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
25. Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: “Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product”
26. Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment
27. It is neither feasible nor safe to mandate experimental vaccination given the large number of COVID-19 recovered patients in the general population and the FDA/Pfizer/ Moderna protocols which excluded COVID-19 recovered patients
28. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States
29. Administration of the experimental COVID-19 vaccines according to guidelines established by the CDC’s Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations
30. The public is entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials
31. The SARS 2 Covid19 virus has never been isolated and there is no proof of it's existence.

According to the State's website at [health.hawaii.gov](http://health.hawaii.gov) updated 9/1 the positivity rate is 7.9% with 858 new cases STATEWIDE which calculates to 68 Positive cases STATEWIDE according to the website's definition and formula.

68 Positive cases Statewide with a total population of 1.46 million people is really 0.0004% chance of being positive with a 99.995% chance of survival.

Additionally, there were more flu deaths in 2017 than there are Covid deaths since April of 2020 and miraculously flu deaths disappeared.

The numbers don't make sense! Neither do your "New Case Count" numbers that are reported daily which include "Probable Cases." By definition on the State's website, "Probable case are cases that either have a positive antigen\* test result (without a follow up confirmatory test) or were symptomatic and had known exposure but did NOT get tested."

WE THE PEOPLE DEMAND THAT YOU PROVE THAT A PANDEMIC EXISTS by presenting material evidence of the isolated SARS-COV2 virus and data of actual deaths (FROM Covid, NOT with Covid)and Number of Positive cases Statewide.

the matter Oppose  
Representing  
Organization Self

### Written Testimony

I, Wayne Nakamura, **STRONGLY OPPOSE**, Resolution 21-194, urging implementation of a covid-19 health card ("vaccine passport") for establishments at higher risk of transmission of covid-19 for the following reasons:

(1) The "vaccines" for covid-19 were never intended to reduce the risk of contraction of covid-19 or transmission of covid-19, by the creators. Therefore, all covid-19 "vaccines" do not protect the person who has taken the "vaccine" from becoming ill from the virus. It was designed solely to reduce the symptoms caused by the virus. Since this, **INVALIDATES** the entire premise for Resolution 21-194, I request that Tommy Waters and Esther Kia'Aina produce the data and statements from the companies that created the covid-19 "vaccines" that their "vaccines" were designed and therefore actually reduce the risk of contraction or transmission of covid-19, if these two individuals disagree with the statement.

(2) These "vaccines" **DO NOT** have **APPROVAL** by the Food and Drug Administration (FDA). They only have an emergency use authorization, because these are not true vaccines, but experimental treatments. There is scientific evidence that these experimental treatments contain harmful ingredients. However, the creators of these experimental treatments have withheld the ingredients. It is unethical and illegal to try to coerce a citizen of the USA to take a harmful substance into their bodies. I request that Tommy Waters and Esther Kia'Aina produce the data of the ingredients contained in these "vaccines" they are pushing for residents of Hawaii to take.

(3) The proposed "vaccine passport" denies "we the people" the rights to protect our privacy regarding our medical choices.

(4) The proposed "vaccine passport" will harm the businesses who are being coerced to be the governments enforcement arm by denying service if the proper documentation is not provided. The USA still a country of laws which are our Constitution and Bill of Rights and these cannot be denied by over reaching politicians.

Written  
Testimony

**I OPPOSE VACCINE PASSPORTS!!!!!!!!!!!!!!**

This is discrimination at its worst!!! It is in violation with our rights as well as our health privacy. NO ONE should need to be treated differently for their choice to take the jab or not and mandatory passports ostracize those that want to support local businesses. Do you want people to have to shut their business down due to lack of support? Our economy is already hurting and I WILL NOT support any business who openly discriminates against anyone. We are a small state and even though almost 60% are vaccinated, most locals will tell you that they support freedom of choice. There will be boycotts to many of these businesses who are in support of vaccine mandates and passports. Putting these businesses in an awkward position to choose who their patrons are will scar them and they will eventually be sued and shut down due to discrimination. Having these mandates will only make our struggling economy worse and leave every suffering at the end. We the people are who makes the money and spends our money and believe you me, any business who participates in this vaccine passport will not get any of mine. Especially if they receive any monetary incentives for this. Stop coercing the vaccinated and unvaccinated and quit if you want our state to get ahead. Do what's pono.

Regarding the City & County of Honolulu RESOLUTION 21-194 – COVID-19 HEALTH CARD

I stand in strong opposition to this resolution. There's a saying that goes like this: "If the foundations are destroyed what can the righteous do."

Our own state motto says, ua mau ke ea o ka aina i ka pono, the ea or life and sovereignty of our land is perpetuated in righteousness. Unfortunately, and as illustrated in this council resolution at the most basic level of government, our basic and foundational rights of life and sovereignty are under attack.

At the heart of this is the erroneous foundation and basis of the resolution, the COVID-19 Pandemic. While COVID-19 is undeniably real, in the broader picture nationally and internationally, it is being politicized, utilized and manipulated to control us through fear.

Written  
Testimony

A recent Star Advertiser article was titled, "Hawaii flu season sees only 1 death amid coronavirus precautions."

Can the flu miraculously disappear in Hawaii and the nation? Read that article and it's not hard to realize that something is very fishy. The article's description of erroneously inflating flu death numbers in previous years sounds familiar, doesn't it? And how can it be that the whole nation in 2020-2021 had less flu deaths than in Hawaii alone in 2017? 'Auwe, do you really believe that the shutdowns and mandates wiped out the flu? Really? It's not hard to see that they replaced flu deaths with COVID-19 deaths, especially when the total number of deaths over the past few years have remained status quo. Yes, the flu and COVID-19, another nasty type of flu, is real and deadly, but this fear mongering and power grab is deadlier and even demonic as it's being used to change our political status quo of freedom to tyranny. Believing in God is much easier than believing any huMAN MANeuvering and MANdates got rid of the flu! I do, however, believe in MANipulations.

Though the main topic of this resolution is the aforementioned and politicized pandemic and its related vaccine passport and mandates, at its core, it is more so about ke ea o ka 'aina i ka pono, and IT IS NOT PONO! The resolution should instead be the exact opposite, urging the banning of such draconian measures!

I recently became aware of an effort to use Hawaiian culture and history as another attempt to support such mandates under the guise of "What would our ali'i do?" and using the historical anecdote of their support of vaccines. We must not, however, forget that the same western civilization and forces that used our ali'i to promote vaccines also coerced and manipulated them for a land grab and eventual overthrow of the Hawaiian Kingdom! This is a good place to also encourage all those who stood in opposition to kū'ē construction on Mauna Kea to kū'ē this attack on our personal ea / sovereignty. Isn't our choice of what we put on and in our kino, our body, as important, if not more important, than the right to choose what we put on or in our 'āina? (mahalo to my wife for this admonition.)

A concerned citizen recently posted this: "To those of you cheering for the mandates and passports: One day they will come to force something on you that you aren't comfortable with. And you won't be able to say a word because you supported our freedoms being taken away today." Just like after the Kingdom of Hawai'i was overthrown and they banned our 'olelo makuahine, Hawaiian language. The genocide of colonialism, authoritarianism, socialism or communism is many times more worse than any pandemic.

Our freedom of speech, thought, and religion are other foundational components of ea being destroyed, which contributed to this ill advised resolution. Media and government censorship has led to skewed and unbalanced info that has instilled fear and withheld viable and fundamental treatments that could significantly reduce COVID-19 / flu hospitalizations. Yes, our health care workers are to be appreciated and overworked. Unfortunately, they can't see the forest for the trees and how they are being exploited and used as political pawns to further the narrative of doom and gloom.

Think about it, before COVID-19, was there ever a time where you went to see a doctor for an illness where he'd send you home or even refuse to see or treat you? Or, how about being told to quarantine in your home without a treatment plan and to just stay home and go to the ER if it gets so bad that you no can handle?! Instead, to this very day, they continue to refute the work of frontline doctors successfully treating their COVID-19 patients despite the opposition. They disparage these heroes along with their treatment protocols and medicines that would alleviate the stress on hospitals. They suppress research, science and treatments that go against their narrative while also cherry picking ones that support it. By the way, such censorship is also promoting an immense amount of ignorance where many people don't even know what's happening in Australia or about the many people around the world pushing back and fighting against this attempted power grab as world governments are using the pandemic to drag its citizens to authoritarianism, socialism and communism.

The song Ka'ulana Na Pua about Hawaiian pride and resilience in the face of great injustice has two key words to identify the root of such injustice, pākaha, to cheat, plunder and rob, and nunu / 'ānunu , greed, covet and take by force. Those same issues are really at the heart of this current state of affairs where billions and even trillions of dollars are to be made for a vaccine, PPE and other related things for a manufactured illness that ironically replaces about the same amount of flu deaths which miraculously disappeared!

The manipulated virus used to breed fear has also been used to cause division, so much so that it is really not a case of republican versus democrat, black versus white, haole versus local, but vaccinated versus unvaccinated. While most unvaccinated don't want to force their point of view and are championing ea and freedom, many of the vaccinated are being used to breed an unimaginable level of animosity and hate, loko 'ino, another key word in that Kaulana Na Pua song.

Though this resolution and its supporters are promoting it under the guise of kuleana, care, and concern for others, at its core is really loko 'ino and vindictive hate to force and punish those who stand in opposition to them. It's very palpable, tangible and real; though hidden within a nicely packaged veneer, it's there; you can see, feel and hear it.

Finally, the very core of the issue is spiritual, truly a fight between good and evil, light and darkness. God is so patient, and it is said that His long suffering and patience is salvation. But there will come a time where He will need to intervene at the very last moment before we destroy ourselves. I hope and pray that we can halt this slide to destruction to prolong our ea and postpone this final destruction.

Over 2000 years ago it was prophesied that there would come a time where no one can buy or sell in the whole world without a mark. Over the past few decades, technological advances have made this somewhat plausible. Now, however, it's as clear as day, not only technologically, but politically, as clearly seen in this resolution.

I vehemently oppose it and hope you will too...

I OPPOSE MANDATORY VACCINES AND VACCINE PASSPORTS.

Written  
Testimony

This is medical apartheid. Segregation. And due to the fact, according to the CDC, that all of the COVID-19 shots that are CURRENTLY available on the market to use are still only approved under EUA, and NOT FDA approved, means that any government, and and government officials creating mandates for an experimental medical injection is in violation of the Nuremberg code, and should not only be held liable for death and damages caused to those who take the said experimental injections, they should also be tried for crimes against humanity and justice should be served to such people.

We, the people of Hawaii DO NOT CONSENT TO MANDATORY VACCINES OR VACCINE PASSPORTS and we assert our freedom to live freely under our God given rights!!!

I am strongly opposed to this bill!

Too many affected by vaccine side effects listed from various sources to be mandated to the people of Hawaii.

Written Testimony Also the World Health Organization's report of a high percentage of false positives from the PCR test, as well as the presence of Ethylene Oxide in the swabs does not make for a viable alternative and runs the risk of causing lymphoma, leukemia, stomach and breast cancer.

Therefore both options presented in this bill would be detrimental to the people of Hawaii.

Written  
Testimony

Requiring a vaccine passport is a gross misuse of government power and against my right to privacy and medical freedom. Since when does “my body, my choice” pertain only to abortion? Why does HIPAA not apply to this medical choice? The ability to travel within my own state and country is not a privilege, it is a right and asking me to “show my papers” is a disgusting demand, regardless of my vaccination status. Yes, Covid is a terrible thing, but this proposal is not about public safety, it is about government power and control. Find another way. You serve the people, all of them, not just the ones you agree or disagree with. What’s the greater good here? I believe my freedom, a tenet on which this country stands, is the greatest good we can defend. My freedom to care for my family and my body, my freedom to travel within my own country without providing medical and travel documents, my freedom in all things, which, with this single decision, could be affected forever. I vehemently oppose a vaccine passport.

### Written Testimony

I'm a 21-year-old essential worker strongly opposed to this bill. I've worked frontline since the start of covid-19 in February 2019, the last time I was sick (for 10 days) was October 2019 and my first covid test was last week, results were negative. The fact that forcing anyone to do something without or with their body isn't right. We all have human rights. If the state of Hawai'i really cared about the residents safety, the airport would be shut down or at least cut the amount of people traveling. Furthermore there isn't enough evidence behind the vaccine, everyone's symptoms vary, there could be short-term & long-term effects.

Representing Self  
Organization

I oppose this resolution. This is the grossest overreach of government thus far under the false and unending guise of public health. Once you start collecting health data on the public it becomes a privacy issue and worse. It also becomes a discrimination issue which could potentially be used in other harmful, clandestine ways unbeknownst to the public.

Further, you will have the capability to identify specific "violators" and target them, prevent them from entering any business at your discretion just as the Nazis did in Germany. Of course you will deny this but the capability will exist and become a possibility if the City decides more draconian measures must be taken. The Mayor has already threatened the public with mandatory vaccination in 2 months. What will be next, FEMA camps and illegal quarantine?

Written  
Testimony

Whether you believe in the Bible, it doesn't matter. Your proposed resolution is on the path already foretold;

In the Book of Revelation 13:17, ESV it says: "so that no one can buy or sell unless he has the mark, that is, the name of the beast or the number of its name."

The modern day mark is the vaccine. Even recovery from a prior covid status is not considered while the end result, the creation of antibodies, is NOT accepted while a serology test for measles IS acceptable for schools and college. Your resolution is completely illogical and will set a dangerous precedent.

There are millions of viruses in the world and you are proposing to spend \$200 million on a SINGLE virus. Be honest. This is no longer about public health. We all know it. It is about control.

This proposal will also have detrimental consequence on tourism. Negative publicity is already circulating to the broader media. This will mark the beginning of the end of everything good in Hawaii and will create despair, violence, untimely deaths, discrimination, hatred, division and utter chaos not to mention further erosion of your tax base and mass migration to other states.

Please consider the consequences of this resolution. It is unnatural, illogical and completely based on irrationality and fear, not on any science.

For these reasons, I vehemently oppose this resolution.

### Written Testimony

The lockdowns, mask mandates and now proposed vaccination mandates have done more damage to my family's lives than you can ever imagine, more than covid. The family wide long-term depression, threats of teen suicide as a result of lockdowns, masks and now school segregation, mental anguish, fear, division amongst family members and vaccinated vs unvaccinated, job loss, financial anguish, etc. has been for 19 months long! These are real families and humans suffering here!!! Not because of covid, but because of the mandates and unnecessary fear the government has placed upon us!!!! No human was meant to be in a state of fear and anguish for this long! YOUR MANDATES ARE KILLING US!! Our government is ruining our lives and dividing our people, not making us safer. You have NO AUTHORITY to make me put an EXPERIMENTAL medicine in my and my children's body that is killing and doing more more damage by getting people sick, killing some and spreading the disease worse. Don't you know the FDA discontinued PCR tests are that's what's creating false high numbers that are causing major fear and panic and irresponsible decision making from the top government officials. Masks (scientific studies show) do not work and are making kids sick! My sons can't breathe all day long in school! The FDA discontinued PCR test isn't even able to test for covid 19 nor the delta variant so how is it even being used to get these false numbers we see in the fake news everyday for variants it can't even test for?? Those false numbers are then used to create a narrative which gives the hospitals and governments perceived authority/permission to implement illegal mandates and kill people all under the guise of "public safety." Statistics show that it is those with underlying conditions that are getting sick with covid and being hospitalized, not healthy individuals, so why are we putting in crazy tyrannical mandates? They don't work. Why have we not looked into therapeutics (Ivermectin and Hydroxychloroquine)? Japan recently approved the use of Ivermectin and worldwide studies show it is working for people with covid! It's is inexpensive and doesn't make Pharma rich, that's why. Studies also show that unvaccinated people have a better chance of surviving covid than someone who is vaccinated and their immune system works. Learn from Israel: they have a vaccination rate of 80% a

large majority getting sick with delta are vaccinated! The vaccinated are super spreaders spreading covid, yet they get all the rights?? Does any of this make sense?? That is what is happening here in Hawaii. Why are red states without mandates and lockdowns thriving and are also providing therapeutics? Mayor Blangiardi's meeting yesterday revealed to me that our governing authorities are making decisions that govern our lives without even knowing the reality and truth for themselves. This is completely irresponsible and tyrannical. I'm scared for my life and for my children's lives and future. I feel like I'm living in the days of Nazism and the Jews being required to wear yellow stars because I don't want to get vaccinated, except it's the UV instead of the yellow star. We can't have the same rights to go into a restaurant, museum, bar or gym. What's next, grocery stores? My biggest fear is they will mandate vaccines and then not allow us to shop in grocery stores next. How will I feed my family??? My kids have to get segregated in school from the vaccinated if there's a covid case my sons have to leave school and quarantine, but the vaccinated kids go back to class. This makes no sense. The vaccinated are spreading it. I can't even access my kids' school information until I fill out a form disclosing their personal medical information. I have many friends who are being discriminated at work and threatened that they will lose their job because they won't get the vaccine. I pulled my kid out of public school because of the threat of vaccine mandate. When will this nightmare end? No masks mandates. No vaccination mandates. No testing. Treat sick people with therapeutics if ivermectin and HQ. Makes decisions based upon solid scientific research. Those at risk with underlying conditions should stay home and wear masks if they do choose. We have right to bodily autonomy to make medical decisions for ourselves. Please do your research and make these changes. Please govern with aloha not tyranny.

### Written Testimony

I oppose the Vaccine Passport as the Experimental Drug in which some refer to as the Vaccine does not prevent the spread of Covid-19 or any variants. In addition many unvaccinated people have built in natural immunity in which even Josh Green stated is valid as a Vaccinated individual. Like wise it is advised by medical professionals that if you have had the Covid-19 Virus and over came it you have natural immunity and medical experts advice that you should not get Vaccinated. So by trying to force people to become Vaccinated you are exposing people to undue harm. And that is an illegal crime.

Written  
Testimony We should not be forced "mandated" to take a vaccine. There is a high survival rate and instead of just quarantine, allow doctors to also offscript what other doctors have found to work. Instead of censoring doctors who have been trying to share what's been working for them, collaborate with them instead. Natural immunity I believe is the best way to get us to herd immunity.

The science does not back this sort of medical discrimination. It has been shown:  
A. Vaccinated people still contract and transmit (spread) the virus  
B. People who have had the virus have equal immunities to vaccinated people  
C. Death rate for people under the age of 60 is less than 1% from the virus  
D. Over vaccination of the population can lead to Antibody Dependent Enhancement and viral escape thus leading to more resilient variants  
E. Though Pfizer has been approved they still have 2 more years of safety trials

Written Testimony I recognize Hawaiians have a historical trauma around outsiders bringing viruses to the island. I respect the people and wish good health for all. I recognize that the state receives significant impact from tourists and wants to protect the people. I am opposed to these passports because they are an infringement on privacy and are a form of discrimination against those who do not need or choose this vaccination.

If the vaccines had shown to literally stop the spread that might be a different story, but they do not!

Please do not pass this legislation!

### Written Testimony

This is an unconstitutional measure that goes against human autonomy and the right to choose ones own structure of treating their health. There are too many recent studies that have shown that these guidelines are inconsistent and overreaching. There are no scientific studies that reflect whether masks are truly a benefit indoors; why would the CDC recommend the "15 Minute Rule" if masks actually truly protected. Also, these vaccines do not stop infection or the actual spreading of the virus; it makes absolutely zero sense to discriminate and or strip anyone of their rights to healthcare, their livelihood, or public services should they decide the vaccine is not in their own personal interest of health. There are good reasons not to take the vaccine, there have been severe reactions, injuries and deaths from these specific vaccines and not anyone could tell you if you would or would not have an adverse reaction upon inoculation. There was even a study from Israel from June 1st to August 14th, during the heat of the Delta wave; that showed people with a previous COVID infection were 13 times more protected against the Delta variant than if you were vaccinated; proving natural immunity is a reality. Just to point out how ridiculous the guidelines have been; The CDC was forced to announce that the vaccinated must wear masks at large events and indoors, because they were not accurately reporting breakthrough cases due to gaps in reporting and their own admitted focus on severe breakthrough cases and hospitalizations only. Previously, from Jan to May, the CDC openly admitted they were including all hospitalizations even unrelated to COVID during a time when a majority of vaccines hadn't even been distributed to the public to show their was a "Pandemic of the Unvaccinated" even though worldwide numbers were showing an increase in the fully vaccinated breakthrough cases and hospitalizations. Despite this information, airlines do not require any test result to get on a domestic flight, international flights only require a negative antigen (the least reliable test), concerts allow vaccinated entry without a negative test result (even though the can carry heavy viral loads and infect others) while unvaccinated have to provide negative tests within 48 hours to enter but only to be in jeopardy of being infected by the vaccinated who could be positive... if it was truly about keeping people out of the hospital

and grave sites then it would require negative tests. No, this is an agenda to push for a vaccine that is waning in defense; when natural immunity can be dominant along with medical treatments that have been suffocated. Please, let's discuss the giant elephant in the room; that the only ones being hospitalized and or dying f this virus are the immunocompromised, unhealthy, and elderly due to a myriad of concerning habits in a horrible diet and or exercise. This passport is nothing more than a power grab for information that demands privacy.

Here and attached -- thank you:

Greetings people of Aloha,

I am opposed to vaccine passports:

In general, you need identification to prove who you are -- your identity as a person.

A vaccine passport attempts to link your identity to a biological or medical characteristic / condition / classification.

That's discriminatory / discrimination and establishes the basis for medical apartheid.

Written  
Testimony

An extremely slippery slope -- in fact, it slides us directly into a pit of segregation and racist-like thought, speech, and behavior.

And that's actually happening right now -- racist-like thinking, speaking, and behaving!

You can see it on Main Stream / Social Media and directly experience it in person!

Vaccine passports will fuel division and rancor among the people of Aloha.

Where will it lead?

Nowhere good for sure -- there's absolutely no doubt about this leading us from bad to worse.

It's like racism, but it's actually worse -- the racist-like segregation is based on an intangible

characteristic, something that has been done inside one's body, which is not stable, like one's fingerprints or facial structure; which helps to identify oneself positively; but is volatile / ephemeral, subject to internal (i.e., bodily adaptation to inoculations and boosters) and environmental variables (e.g., viral variants).

A person presenting a vaccine passport cannot be positively "identified" as "clean" / free from "contamination" -- they may be "infected."

The inoculations do not neutralize / kill the original virus nor its variants.

They were designed to lessen the severity of symptoms.

They do not confer immunity nor do they confer non-transmissibility.

Inoculated persons can still get sick and still transmit virions / viral particles.

We are all in the same boat / on the same island in this regard.

Without a vaccine passport, segregated from society, one is left with subjecting oneself to, in the more or less standard technique, the intrusive medical procedure of a nasal swab that penetrates the nasal cavity up to and in some cases hitting the bone just under the brain, sometimes painfully, not once, but potentially every 48 hours, depending upon the schedule of social activities a person would like to engage in.

And being tested doesn't mean one is free from infection because the testing is and has been flawed -- false positives and false negatives have skewed infection-related statistics.

A person presenting test results that they have to pay for, quite possibly, every 48 hours may be infected as well as someone who has a vaccine passport.

So, in the absence of being able to positively "identify" / segregate people into the underlying categories of infected or not, what are we left with?

Racist-like thinking, speech, and behavior, which is unfounded -- just like it is for real racism!

People of Aloha, we are in the same boat / on the same island.

We are very vulnerable to what is happening in the world -- which goes way beyond the pandemic -- in terms of the implications of being cut off from the world along many different dimensions (e.g., supply-chain disruptions).

There are questions about each and every thing regarding this pandemic -- from bio-weapons to booster shots -- are we sure we know the truth regarding each aspect of this world-wide crisis?

We need to cut through the "fog" of this pandemic and focus on what really matters -- we need to prepare for worst-case scenarios!

Actually, being on this island is a blessing if we can come together in "The Gathering Place" and make self-sufficiency our goal.

People are going to continue to become sick and, unfortunately, some will die.

Eradicating a natural coronavirus, let alone a pathogen that escaped / was released from a Level 4 Bio Safety Lab, is not very likely because of how many coronaviruses there are (in general) and their ability to mutate.

They're here to stay -- and so are we!

This virus, whatever it is, like the yearly flu, cannot be defeated -- it's now part of the environment -- endemic.

We need to join together to help each other weather this storm and those in the future, like the upcoming flu season.

Analogy: When a hurricane hits our homeland, do we disregard / disparage people that didn't board up their house with plywood, didn't buy a generator, didn't stock up on water?

Do we penalize them for not having the wherewithal to prepare properly?

In the spirit of Aloha, we reach out and provide care and support -- sacrificing some of ourselves for our extended Ohana.

You can take analogies only so far, but hopefully that resonates with you.

Switching back to the pandemic, what really is the crux of the matter -- individuals presenting symptoms of infection that put them at risk.

This is the main thing and the main thing that needs to be addressed, ahead of preparing for global worst-case scenarios.

How can we address symptomatic infections?

Early treatment saves lives!

What is the early-treatment protocol that Primary Care Physicians are recommending to their patients?

What early-treatment protocols were used before members of our extended Ohana had to go the ERs?

Being inoculated or not, being tested or not, goes by the wayside once you or a loved one is presenting symptoms of infection, which is going to happen to some people, regardless of their vaccination status.

Early treatment saves lives is much more important than vaccine passports, and deserves much more attention than it has been given.

And a robust early response based on proven clinical protocols by front-line physicians will reduce the pressure on our ERs, hospitals, and our brave and courageous medical staffs.

Idea: Drop the passports and publish early-treatment protocols.

That is a high order value-added tradeoff and will (1) save lives, (2) relieve hospital-related stressors, and (3) reduce administrative / enforcement burdens and resources.

Worth repeating: #earlytreatmentsaveslives

Mahalo and God bless our island family with ever abundant Aloha :-)

Very truly yours,

Stephen L. Pappas

### Written Testimony

I strongly oppose any form of medical or vaccine passport for the following reasons:  
1. Vaccines DO NOT guarantee that you are not carrying or shedding the virus.  
2. This creates a clear line for segregation, division and discrimination within our Aloha state....everything we oppose!  
3. People who have natural immunity have no recourse.  
4. We are republic! We are free people. Please trust us to make the best decisions for our selves, our family and our community.

### Written Testimony

I'm a registered nurse, educated in Hawaii. Natural immunity from COVID recovery is being confirmed through research studies to be 7 times more effective against the Delta Variant than vaccination. At very least the public should be allowed to show proof of immunity through a titer rather than a ridiculously and unsustainable regimen of testing for COVID. Also, the Pfizer vaccine that was FDA approved is not the one available. It is unethical to force people or coerce them into participating in an experimental drug trial.

### Written Testimony

As representatives of the citizens of Hawaii your obligation is to vote to represent our wishes not to vote for laws that you think are best for us. Your were not given that authority!  
Vaccine passports are not wanted nor needed. Should this legislation be passed, our state economy will be crushed! Leave our state economy alone so that the thousands of small businesses might have a chance to survive. Passports will deal these businesses a blow they will never recover from!  
And your votes will be remembered on election day

Aloha Council Members,

I strongly OPPOSE resolution 21-94 in regards to a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation.

Written Testimony It is an infringement of our rights as human beings to subjected to these absurd mandates.

This mandate is unethical and unconstitutional as the state will never have rights over my body and the unvaccinated should not be treated as second class citizens. I support freedom of choice/informed consent and where there is risk there must be choice.

Again, I strongly oppose resolution 21-94. Mahalo.

Aloha,

Written  
Testimony

My name is Sasha Ellul and I oppose the mandate to provide a vaccination at any establishment whether you are vaccinated or not. This is a violation of rights and the freedom of choice. The unvaccinated are being segregated and isolated. It is being overlooked that vaccinations ARE NOT stopping the spread therefore why are they not being required to provide negative testing as well? It seems the more the vaccines are not working to stop the spread the more it is being forced on us. Please let me make this clear, I am not against THIS vaccine. I am against being forced into which makes me think it is unsafe. That being said no one can force me to get this shot before I am ready and if you continue to push it, the community will continue to move against it. I refuse to be a sheep and be told what to do OR voluntarily alter my body for convenience. The vaccine protects myself and ONLY myself but NO ONE ELSE. This is the land of the free not communism. Thank you!

Written Testimony	I oppose resolution 21-194. Mandating proof of vaccine by card or electronic verification only serves to create further divide and segregation among residents of Hawaii. Evidence shows that vaccinated individuals can develop COVID-19 and spread the virus, this serves as the most profound reason I Oppose 21-194. This evidence defeats the purpose of the verification card.

“Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and “mandate by executive order if necessary” a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written Testimony I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you.”

I oppose the proposed "vaccine passport". It is truly awful that there are city council members who are in support of this proposal which promotes segregation under the guise of protecting public health.

It is stated clearly on the CDC website that "[p]eople infected with the Delta variant, including fully vaccinated people with symptomatic breakthrough infections, can transmit the virus to others. CDC is continuing to collect data on whether fully vaccinated people with asymptomatic breakthrough infections can transmit the virus." ([https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html?s\\_cid=11511:can%20vaccinated%20people%20spread%20delta:sem.ga:p:RG:GM:gen:PT](https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html?s_cid=11511:can%20vaccinated%20people%20spread%20delta:sem.ga:p:RG:GM:gen:PT)) If vaccinated people have the same risks of transmitting coronavirus to others, including the highly transmissible Delta variant, what exactly is the point of a vaccine passport other than to treat the unvaccinated as second-class citizens?

**Written Testimony** City and council officials, state officials, and even the media like to focus on the number of unvaccinated people in the hospital, yet why is there no breakdown provided to the public regarding the number of vaccinated people who are contributing to the daily COVID positive case count? Where is the transparency?

This proposal encourages the use of fear tactics and reward systems to ramp up vaccination rates when we should instead provide relevant information to the public such as the role vaccinated people with "breakthrough infections" play in transmitting the virus and alternate medical treatments so that the everyone can make informed medical decisions for their individual selves.

Shame on all of the City Council members who took part in bringing this proposal to the floor. Shame on you who are burdening private businesses with being gatekeepers and turning away patrons who have supported them for the past 18 months when everyone was trying to stay afloat and survive during the pandemic. Shame on all of you who point fingers at the unvaccinated being the sole cause of our hospitals being overrun.

willingly turn a blind eye towards the vaccinated when the science says that they too are responsible for transmitting the coronavirus.

Bring back the testing of all transpacific passengers regardless of their vaccination status. Include the breakdown of the number of "breakthrough infections" in the vaccinated people who are included in the daily positive COVID case count. Start implementing policies that make sense and are actually enforceable. Stop proposing policies that are biased and clearly divisive.

You're infringing on constitutional rights, medical freedom, and it's discriminatory. If passed, I expect hundreds of thousand perhaps even millions of dollars will come out of the Hawaii state budget from lawsuits due to this potential legislation.

Written  
Testimony

Many of the people who oppose this are doing so on religious grounds so you are singling them out(lawsuit). Further, according to statistics, there are certain races that are more likely to take the vaccine then that are not for various reasons. These races are also being discriminated against since these are well-known statistics and the disparity is also public knowledge(more lawsuits). Individuals who suffer side effects (or the family should be individual die) from taking the vaccine based on the state enforced mandate may now skip suing their job and go straight to the state. This because the State has legally exposed itself by mandating a medical procedure.

Hawaii is Acting like New York! who would've thought Hawaii and New York had so much in common? (you should really think about that statement) only two states have or are considering the passport....New York and you guys.

My body, my choice.

The state's body, the state's choice.

Choose carefully which intention you vote to support.

I have served this community for almost 22 years as a Honolulu Police Officer. I am only about 3 years from being eligible to retire. I am currently a patrol sergeant in West O'ahu on the swing shift from 2-11 pm. Our workload is extremely high and at times often very dangerous. My officers and I have had repeated exposure to COVID-19 positives, currently, almost daily. We have been on the streets since day 1 of this pandemic. I have children and elderly persons in my household and under my care. I have risked my health and safety, swallowed ALL of my own personal fears regarding this virus, and reported FAITHFULLY to duty every scheduled work shift for years.

Written  
Testimony

When I took my oath of office, I swore to protect the Constitution of the State of Hawai'i and the Constitution of the United States. I put my right hand up and made the promise to perform "any and all duties devolving upon me" and I have, with genuine Aloha. From literally picking up trash and painting out walls, to testifying on behalf of violent crime victims, to countless incidents of consoling people who watched family members die in front of their eyes under all kinds of circumstances. I joined the PD at a time when we didn't get paid well, and I have never done this job for the money.

As recent events unfold in front of me- the line of duty deaths, the protests against my profession in defense of criminals, the recent attempt to prosecute three of my brothers who had to make a split second decision, this tyrannical mandate against us, and the most recent "Safe Access O'ahu" experiment... for the first time in my career, and something that is beyond my wildest imagination, I am wondering if I am on the wrong team! This mandate to force people to vaccinate, above and beyond all of the other aforementioned concerns, is grating on my moral fiber so much that the possibility of loosing my job which supports myself, my two elderly kupuna, and my three kids seems less offensive than the possibility of having to be part of the gestapo who enforces this government overreach. At what point is the "cure" more detrimental than the disease?

I acknowledge that Covid-19 causes severe illness and death in some people. It is a reality that our society will have to live and deal with. It will not go away and it will evolve.

Taking a vaccine that does not stop the transmission or prevent you from contracting the illness is not a solution. Preventing people from living freely, having bodily autonomy, earning wages, or outcasting a segment of our population (segregation) is not a solution. Suspending freedoms is not an American option. We are heading down a slippery slope for a virus that has such a high survivability rate.

The argument that our morgue is full and our hospitals are at capacity seems weak as our government has not insured the growth in these areas to keep in pace with our population expansion. The argument that we are trying to create a safer work environment is weak as there are antibody tests available that seem to make more common sense than what is currently being pushed upon us. The argument that the vaccine lessens symptoms makes little sense because amongst the vaccinated there are “breakthrough” cases and so many vaccinated people suffer from reinfection. The number of positives in relation to our population of about a million people is being given too much weight. And of those confirmed positive, how many actually end up in the ER? How many of them suffer from comorbidities? There are too many questions to ask in this forum.

As far as the safety of these vaccines- There is no data about the long term effects. That is absolutely undisputed. There is no way to have informed consent on a drug that has no safety sheet included in the packaging. The self-reported adverse affects can not be measured correctly because some of these happen over time and are probably being overlooked erroneously. The fact that telemedicine and the personal interaction between doctor and patient may contribute to the overlooking of symptoms is another point of concern. How can something that is known to directly cause death in more people in 3 months than all other vaccines combined in the last 15 years still be “safe?!” How can you ask anyone to mitigate their unknown reactions to an injection vs taking the chance of contracting it? Again, the “cure” can not/should not be more damaging than the illness!

I have been following this issue closely since the start, and I have much more to say, however, I believe the things I have written thus far are the meat and potatoes of my objections. Please, reconsider these mandates because if we keep going down this road of trying to force unproven “medicine” on individuals and their children, you won’t need to fire us. Many will leave not only their jobs, but the state. The direness of this current emergency will compound with the city trying to find qualified staffing to provide basic service. The amount of experience that those of us who leave will be massive. It will be sad that your seasoned personnel will not have had the chance to pass the wisdom of their experience to the next generation of first responders due to the sudden nature of our departure.

I respectfully submit this testimony and pray that it has not fallen on deaf ears or closed minds.

Written Testimony I oppose the mandatory vpassport, digital or otherwise. These vaccines have not been approved, only the EU versions have been and we do not have access to them in the US as of now. The efficacy of the vaccines are not as good as one's own natural immunity, and I have already had covid. I should not be made to get a vaccine and carry a card that states that. This violates my body autonomy, and is UNCONSTITUTIONAL. It also makes no sense when vaccinated people can be super spreaders. Treat sick people before it gets to the point of hospitalization, and you will see a drop in hospital stays.

Please do not mandate this. Your constituents are speaking loud and clear. Do the right thing. Do not allow this to go through.

I vehemently oppose attempts to coerce the Hawaiian population into yielding medical decisions to the state.

Implementing a vaccine passport discriminates against members of our community on basis of medical status as well as religious and personal beliefs, and broadcasts private personal information to the public. There are ample reasons as to why this proposal is both immoral and ineffective.

-Every medical intervention which exists has contraindications, yet the state will consider pressuring all people to get this shot whether or not a person is contraindicated; pressuring these community members to go against their personal doctors' orders in order to participate in society sets the state up for a liability nightmare.

Written  
Testimony

-Discriminating against full and equal access of public facilities to individuals based on medical disability/ condition or religious beliefs is expressly prohibited by the Hawaii Civil Rights Commission section 489-3.

-Residents have been leaving the state in droves, often due to economic hardship, and our economy is in dire straits as more businesses give up on the ever-changing restrictions being implemented and close their doors. If implemented, a vaccine passport would drive away a substantial portion of residents who are already fed up with government overreach and mishandling, and our economic problems will be exacerbated.

-Given the multitude of studies showing superiority of natural immunity to vaccine-induced immunity; well-established proof that the vaccinated still spread the virus; short-lived antibody response to the shots and tens of thousands of breakthrough cases countrywide; and the indisputable fact that the countries leading the way in vaccination rates have all experienced large surges in cases and hospitalizations; this proposal is not evidence-based.

-looking at our hospitalizations and mortality numbers from March 2020 to the present, compared with all causes statewide, simply does not warrant such extreme and draconian measures. If (for example), the state were to instead focus its energies on enacting an efficient system of crime enforcement and implement a 3-strike bail policy, we would easily reduce hospitalizations from violent crime and auto wrecks without destroying citizens' lives. Why the obsession with covid when there are so many areas where we have the ability to keep MORE of our community safe?

In summary, this proposal is an embarrassment. It's desired effect (to mitigate severe covid-19 cases) won't be achieved, but instead, our communities will be saddled with the burdens of unjust discrimination , a cascade of further negative economic impacts, and more division. A vaccine passport would be all show and no substance; under the guise of public safety it would be not only futile, but costly, discriminatory, ineffective,...sadly, it would be characteristic of what many of us consider to be the benchmark for Hawaii legislation.

We can do better.

We, the community, deserve better.

We are overdue to be lifting restrictions, not implementing more; it's time that our leaders treated we us with the respect to make our own life decisions, and in turn, regained our respect and trust.

Here and attached -- thank you:

Note: The first submission dropped the attachment because of a user error. Please use this submission with attachment. Sorry for any inconvenience!

Greetings people of Aloha,

I am opposed to vaccine passports:

In general, you need identification to prove who you are -- your identity as a person.

Written  
Testimony A vaccine passport attempts to link your identity to a biological or medical characteristic / condition / classification.

That's discriminatory / discrimination and establishes the basis for medical apartheid.

An extremely slippery slope -- in fact, it slides us directly into a pit of segregation and racist-like thought, speech, and behavior.

And that's actually happening right now -- racist-like thinking, speaking, and behaving!

You can see it on Main Stream / Social Media and directly experience it in person!

Vaccine passports will fuel division and rancor among the people of Aloha.

Where will it lead?

Nowhere good for sure -- there's absolutely no doubt about this leading us from bad to worse.

It's like racism, but it's actually worse -- the racist-like segregation is based on an intangible characteristic, something that has been done inside one's body, which is not stable, like one's fingerprints or facial structure; which helps to identify oneself positively; but is volatile / ephemeral, subject to internal (i.e., bodily adaptation to inoculations and boosters) and environmental variables (e.g., viral variants).

A person presenting a vaccine passport cannot be positively "identified" as "clean" / free from "contamination" -- they may be "infected."

The inoculations do not neutralize / kill the original virus nor its variants.

They were designed to lessen the severity of symptoms.

They do not confer immunity nor do they confer non-transmissibility.

Inoculated persons can still get sick and still transmit virions / viral particles.

We are all in the same boat / on the same island in this regard.

Without a vaccine passport, segregated from society, one is left with subjecting oneself to, in the more or less standard technique, the intrusive medical procedure of a nasal swab that penetrates the nasal cavity up to and in some cases hitting the bone just under the brain, sometimes painfully, not once, but potentially every 48 hours, depending upon the schedule of social activities a person would like to engage in.

And being tested doesn't mean one is free from infection because the testing is and has been flawed -- false positives and false negatives have skewed infection-related statistics.

A person presenting test results that they have to pay for, quite possibly, every 48 hours may be infected as well as someone who has a vaccine passport.

So, in the absence of being able to positively "identify" / segregate people into the underlying categories of infected or not, what are we left with?

Racist-like thinking, speech, and behavior, which is unfounded -- just like it is for real racism!

People of Aloha, we are in the same boat / on the same island.

We are very vulnerable to what is happening in the world -- which goes way beyond the pandemic -- in terms of the implications of being cut off from the world along many different dimensions (e.g., supply-chain disruptions).

There are questions about each and every thing regarding this pandemic -- from bio-weapons to booster shots -- are we sure we know the truth regarding each aspect of this world-wide crisis?

We need to cut through the "fog" of this pandemic and focus on what really matters -- we need to prepare for worst-case scenarios!

Actually, being on this island is a blessing if we can come together in "The Gathering Place" and make self-sufficiency our goal.

People are going to continue to become sick and, unfortunately, some will die.

Eradicating a natural coronavirus, let alone a pathogen that escaped / was released from a Level 4 Bio Safety Lab, is not very likely because of how many coronaviruses there are (in general) and their ability to mutate.

They're here to stay -- and so are we!

This virus, whatever it is, like the yearly flu, cannot be defeated -- it's now part of the environment -- endemic.

We need to join together to help each other weather this storm and those in the future, like the upcoming flu season.

Analogy: When a hurricane hits our homeland, do we disregard / disparage people that didn't board up their house with plywood, didn't buy a generator, didn't stock up on water?

Do we penalize them for not having the wherewithal to prepare properly?

In the spirit of Aloha, we reach out and provide care and support -- sacrificing some of ourselves for our extended Ohana.

You can take analogies only so far, but hopefully that resonates with you.

Switching back to the pandemic, what really is the crux of the matter -- individuals presenting symptoms of infection that put them at risk.

This is the main thing and the main thing that needs to be addressed, ahead of preparing for global worst-case scenarios.

How can we address symptomatic infections?

Early treatment saves lives!

What is the early-treatment protocol that Primary Care Physicians are recommending to their patients?

What early-treatment protocols were used before members of our extended Ohana had to go the ERs?

Being inoculated or not, being tested or not, goes by the wayside once you or a loved one is presenting symptoms of infection, which is going to happen to some people, regardless of their vaccination status.

Early treatment saves lives is much more important than vaccine passports, and deserves much more attention than it has been given.

And a robust early response based on proven clinical protocols by front-line physicians will

reduce the pressure on our ERs, hospitals, and our brave and courageous medical staffs.

Idea: Drop the passports and publish early-treatment protocols.

That is a high order value-added tradeoff and will (1) save lives, (2) relieve hospital-related stressors, and (3) reduce administrative / enforcement burdens and resources.

Worth repeating: #earlytreatmentsaveslives

Mahalo and God bless our island family with ever abundant Aloha :-)

Very truly yours,

Stephen L. Pappas

Greetings Mr. Daniels,

Per .pdf file name, the idea is to provide people with website-article takeaways they can print to influence family, friends, etc.

during conversations or as anonymous leave-behinds. Could also be pre-printed fact sheets, cards, and / or stickers.

One of the most important info-battles right now is the very dangerous unvaxxed-are-infecting-the-vaxxed-with-variants lie -- we know where this is going / will wind up!

Here's a draft example takeaway /  
leave behind:

Start draft example:

Conspiracy Theory or Science  
Fact?

Variants are caused by the  
unvaxxed.

SAR-Cov-2 is a coronavirus.

Coronaviruses are are also  
influenza viruses.

Influenza viruses mutate every  
year

Mutations / variants occur in people who are vaccinated or not, if they get infected.

Unvaccinated fight the strain they're infected with using their natural immune system, which is weaker than fighting the strain with a vaccine.

Variants are more likely to occur in the vaccinated because they are stronger in blocking the virus -- forcing the virus to mutate to beat the vaccine.

The vaccinated are creating more

variants that are stronger than the unvaccinated.

Stop draft example.

Will leave at that for now. More than happy to discuss the concept with you over the phone or via email.

Thank you and best regards,

Steve

### Written Testimony

I oppose on the grounds of a vaccine passport illegally segregating people. I oppose on the grounds that this removes an American citizens personal rights and liberties granted to them in the Constitution of the United States. I oppose on the grounds that this is against what America stands for and is discrimination and government forced oppression. I oppose on the grounds that the vaccine does not eradicate nor remove the threat of covid and poses a serious health risk to those who do take it. This is forced government oppression similar to the beginnings of other previous world regimes and against what we as Americans have fought for in other countries. I plead with you, DO NOT GO DOWN THIS ROAD. Let us keep our civil, medical, political, and religious freedoms.

I am fully vaccinated, and I strongly oppose the mandating of any type vaccine passports, and oppose any executive order that would require people to show proof of vaccination status. These vaccination passes only serve to provide a false sense of security.

These mandates are turning families and friends against each other. These mandates are only further dividing our people from getting to the root of the problem—how do we slow or stop the rise in COVID infections.

I am sure everyone is concerned of the increase in cases, but when you restrict a group people from certain institutions, places of employment, or places where a service is rendered, you are treating them as second class citizens. Segregating and demonizing a group of people does not solve the problem.

### Written Testimony

The people who remain unvaccinated, do not take such a decision lightly. Some remain unvaccinated because of legitimate medical reasons. These are people, who have spoken with their doctors, educated themselves and are already doing their best in every way possible. To demand proof of vaccination status or a negative result 48 hours prior to being able to access these places, is not only instilling additional undue stresses, but robbing people of their basic liberties, and threatening their ability to provide for their loved ones.

It is already common knowledge, that although someone is vaccinated they still have the ability to carry the virus or even become one of the breakthrough cases. Yes, the vaccinated may have milder to no symptoms. Yes, the vaccinated are less likely to be hospitalized. However, it does not change the fact that COVID positive is COVID positive, regardless of vaccination status.

There are instances where a fully vaccinated individual contracts COVID—although showing

mild symptoms, infects other vaccinated individuals. The line of infection keeps going until gets it to someone who is not vaccinated, then the blame is placed on them simply because they are unvaccinated.

I have seen and have heard of situations like this happening more often than not. So why is the burden of responsibility placed solely on the unvaccinated? Why are the vaccinated entitled to special privileges, when they can still contract and spread the virus? As I mentioned earlier, these vaccine passes only give an illusion of safety and security, therefore vaccine passports serve no purpose, since it does not stop the virus.

Everyone should have the right to make the best decisions for themselves and for their loved ones. They should not be made to feel like second rate citizens or feel coerced into making a decision.

The last 18 months have been hard on everyone. Not just the vaccinated, not just the unvaccinated, not just the health care heroes, not just the employees at essential businesses. It has been hard on everyone. The only way out of this, is to realize, that vaccinated or unvaccinated, we all want the same thing, a decrease in infection rates and some semblance of normalcy.

To the Committee of Transportation, Sustainability and Health,

First I would like to thank you for your part in navigating with us during these unprecedented times. I do believe we are all trying our best to look out for one another, and that your personal intentions are for the betterment of public health; however, I believe that this bill on vaccine passports will only further disrupt the peace and lead to more case numbers. I also feel that it is strongly discriminatory and I will attempt to point this out in a evidence based manner. Another point I would like to make is the further hardships this will put on businesses.

Written  
Testimony

1. Civil rights and liberties should be independent of health status. I would like to relate the discrimination of unvaccinated people to another facet of people that has been proven to carry more viral load and dispense more droplets. This relation is to show the offensive nature of this bill and the cherry picking of the science. Obesity has been linked to poor outcomes, reinfection and breakthrough cases. A research article titled, "Exhaled aerosol increases with COVID-19 infection, age, and obesity" studied particles per liter of air and categorized subjects based on a number of factors including sex, age and body mass index (BMI). This study found that there were significant positive correlations between exhaled aerosol, age, BMI—and particularly BMI-years. The group with the lowest BMI-years exhaled significantly less aerosol. They categorized participants less than 26, as well as all subjects under 22 BMI as low spreaders of exhaled bioaerosol. On the flip side they found that 18% of subjects with higher BMI & age accounted for 80% of the exhaled bioaerosol of the group, reflecting a superspreader distribution of bioaerosol. There you can see that people who are obese, or of advanced age, are proven to have the most output of droplets and were categorized into a "superspreader" category. Yet consider how obscene it would be to deny a overweight person, or a person of advanced age access to any indoor facilities without showing evidence they are not carrying covid. How about making them put on a mask while others aren't, or making them go to a marked pickup area where others can look on in shame or fear. Hopefully, you wouldn't

dream of segregating people by weight or age! Yet the media, and even our elected officials, continue to routinely demonize unvaccinated individuals in an unprecedented manner. If segregating obese people seems unfathomable to you when obesity is also largely a combination of lifestyle choices that is driving the covid pandemic, and is one of the highest co-morbidities, then you should ask yourself why the double standard for people that simply do not want a medical prevention?

[https://www.thelancet.com/journals/landia/article/PIIS2213-8587\(21\)00089-9/fulltext](https://www.thelancet.com/journals/landia/article/PIIS2213-8587(21)00089-9/fulltext)  
<https://www.pnas.org/content/118/8/e2021830118>  
<https://pubmed.ncbi.nlm.nih.gov/22429824/>  
<https://www.cdc.gov/mmwr/volumes/70/wr/mm7010e4.htm>  
<https://bestlifeonline.com/get-covid-again-news/>

## 2. Vaccinated people can carry and spread coronavirus.

The CDC's information page on breakthrough cases states that from May until August 23rd the, "CDC received reports from 49 U.S. states and territories of 11,050 patients with COVID-19 vaccine breakthrough infection who were hospitalized or died." Of these 2,645 were cases that were considered asymptomatic or non-COVID related. That is 24% of vaccinated individuals positive for covid and unaware, catching it by chance due to hospitals testing policy's. If we were to think about this in the context of the greater public, what percentage of vaccinated individuals could be carrying the virus and spreading it unintentionally?

<https://www.cdc.gov/vaccines/covid-19/health-departments/breakthrough-cases.html>

Israel is also a place to look at having the world's most vaccinated population and still grappling with a new surge of cases.

<https://www.businessinsider.in/science/news/israel-says-its-facing-a-new-covid-19-outbreak-fueled-by-the-delta-variant-despite-having-the-worlds-most-vaccinated-population/articleshow/83779168.cms>

Also the link to the study that follows stated that "With Delta, infections occurring following two vaccinations had similar peak viral burden to those in unvaccinated individuals."

<https://www.ndm.ox.ac.uk/files/coronavirus/covid-19-infection-survey/finalfinalcombinedve20210816.pdf>

This study found in their sample that effectiveness against infection after being fully vaccinated lowered to just 42% in the month of July.

<https://www.medrxiv.org/content/10.1101/2021.08.06.21261707v2>

## 3. Strain on businesses economically and socially.

Businesses have already taken a massive hit this year, asking them to now caterer to only vaccinated individuals will not only cut revenue but also put a strain and divide in the community that has never been seen before. You are asking business owners and their employees to turn on their employees and customers. Ones that have supported them with their work or patronage during their roughest hours. Asking people to comprise their own ethical standards and relationships in order to provide for their families is unjust and damning to these businesses and communities. Many restaurants in Hawaii have local, regular customers who become like family. How can they deny them a seat? What if someone they have to deny is a respected member of the community? How will it feel there? How you gonna tell Uncle he can't come to breakfast cause there's not enough time for him to go get a test before? Or think about the Auntie who can't afford to test. What about the anger that is bound to increase across the board, the divide between people? The potential for vandalism and looting? The kind of loss a business owner could endure because of these passes is irreversible because it is the loss of Aloha. You are asking people to choose money, over

people and threatening them that if they choose acceptance of all people they will get reported, fined and or shut down. How is this pono?

4. Natural Infection should be considered as having the same, if not more immune protection than vaccinated.

This is most often the case in viral infection with some exceptions. For example, with chicken pox, a natural infection can be noted instead of the varicella vaccination. Natural infection with coronavirus is showing to have a robust antibody as well as T cell response. The World Health Organization states that "Some variant SARS-CoV-2 viruses with key changes in the spike protein have a reduced susceptibility to neutralization by antibodies in the blood. While neutralizing antibodies mainly target the spike protein, cellular immunity elicited by natural infection also target other viral proteins, which tend to be more conserved across variants than the spike protein"

<https://apps.who.int/iris/bitstream/handle/10665/341241/WHO-2019-nCoV-Sci-Brief-Natural-immunity-2021.1-eng.pdf>

I believe that if these mandates and passports move forward, it will create a larger amount of cases. People are losing their jobs because of this, they will be ostracized from friends, family and coworkers and the only things they can do is plead to their representatives and stand together (in large crowds) to protest. I am strongly opposed to this discriminatory bill and ask for your consideration on the above points. Instead I propose you bring back the travel testing program for all travelers, vaccinated or not. Also ask the businesses you are attempting to apply this vaccine passport policy to, to instead implement a stricter policy of temperature taking upon entering.

Thank you for your time,  
Jamie McCready

This will creating two classes of citizens in this state, which is bringing back Jim crow laws. This vaccine (genetics therapy ) has been rushed and the long term effects are unknown. In fact phase three trials aren't complete until 2023. The VAERS reporting system has recorded more deaths caused by this shot than all the other vaccines combined for the last thirty years. You will lose citizens and business to other free states. This is medical tyranny

I highly oppose this item as it is an act of discrimination. You are not allowed to asked about other diseases such as HIV, AIDS. You aren't allowed to ask a woman if she is pregnant when it comes to jobs. This infringes on our rights as American citizens. The freedom of movement and to make a living, the freedom to chose what is best for you and your family. This vaccines have killed over 12,000 people and many people with the vaccine are still getting COVID. If you chose to take the vaccine, that is your personal choice. If you chose not to with any vaccine that is your choice. If the vaccines work, then the only people you are putting at risk are those that chose not to vaccinate.

### Written Testimony

I, Tina STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

### Written Testimony

Quo Warranto, by what authority can you require a person to share their private medical information?  
Will you provide We The People (us) with documentation that COVID-19 has been isolated (aka purified)?  
Will you provide us with the cycle threshold Hawaii is using for their PCR test in determining a "case"? Is Hawaii determining a case to be someone who has been in the same room or within 6 feet of someone who has tested positive?  
To date it appears the vaccinations are neither safe nor effective so it is unlikely they will achieve "herd immunity". Only those who catch the supposed "virus" have lasting immunity. How do you test for the "Delta variant"?  
Do you have a list of the "many medical professionals" you refer to in this resolution?  
Seeing as CDC spokesperson Jade Fulce said "the CDC recommends that laboratories use tests that can look for both viruses, as the CDC's Real-Time RT-PCR Diagnostic Panel can only detect SARS-Cov-2." Fulce said. "The SARS-CoV-2 (Flu SC2) Multiplex Assay tests for SARS-CoV-2 and for influenza, independently. The test will specify whether a sample tested positive for SARS-CoV-2, influenza or both."  
Wouldn't it be prudent to wait for the release & implementation of this new test to determine if there is an actual emergency or just an over-hyped Mainstream media fear mongering narrative? How do you know for sure folks are actually dying or being hospitalized due to SARS-CoV-2 or influenza?  
It appears to me you are following "Agenda 201" which as you hopefully are aware was funded by those who own patents for the vaccines you are in essence about to mandate we take. A Vaccine Passport is highly likely to morph into something akin to China's Social Credit System. I for one don't wish to live under a communist system and these passports you wish to mandate sure are a step in that very wrong direction. If more continue to die from the vaccines are you willing to pay the consequences, with ever growing taxes?  
Please, don't be in a hurry to pass this draconian measure. Please wait until the release and use

of The SARS-CoV-2 (Flu SC2) Multiplex Assay tests for SARS-CoV-2 and for influenza before ruining more lives.

Mahalo for your kokua.

Jeff Garland

For those of you who are unfamiliar with "Agenda 201":

### Written Testimony

I am strongly opposed to this bill! This is discriminatory especially to those with a medical or religious exemption. Businesses have no right asking about medical info before they serve the public. Also you will be considered fully vaccinated after a number of boosters so it is ridiculous that you would require a booster every 5 months to be up to date on your passport. This is not about public health. If it was you would promote healthy diet and lifestyle!

### Written Testimony

I am 100% oppose RESOLUTION 21-194. Basically that is Nazi Germany 2.0 segregation tactic, but this time instead of divided people by races(Jews). Now using people vaccination status to divide people, since we are in a health pandemic or PANDEMIC. Many people try to hold up the normal life in fear or stress, going day by day for the past 18 months with constant main stream media using 24 hrs fear tactic. Shown the problem but never shown the solution, until mRNA vaccine come out is life savior. But never mention other alternate methods like ivermectin or hydroxychloroquine can prevent and cure early stage COVID patients. By pushing the narrative massive vaccination is ONLY solution for this COVID pandemic drive me anger and fear by knowing people have being misinformed, end up slowly step by step guiding these people in fear of them to walk into a medical tyranny government. Under of slogan of "FOR THE GREATER GOOD". You know, that is very familiar to caution to me, since I am from a communist country. These tactics are exact copy and implement from communist country. Which RESOLUTION 21-194 violating HIPAA LAW and U.S. Constitution, the resolution contain limited people movement from access to certain business establishments, or even the worst cost people lost them jobs due to wasn't vaccine for COVID. On the other hand, normal business establishment don't have the legal right to ask for people health information, which violating HIPAA law. However, due to Hawaii State's Emergency Order, U.S. Constitution & other laws being straight throw of windows. Hawaii's state's straight into semi-dictatorship. There are also no science back up vaccine passport program, since the full vaccine individual still can catch and spread the delta variant COVID to other people. Obviously, this RESOLUTION 21-194 is not about public safety or health. Just other excuse for state government to have more power grab for control and to take away our medical freedom and rights. In the end, I 100% strongly oppose this RESOLUTION 21-194.

### Written Testimony

I am speaking out for myself and many in our community & all of Hawaii, not only the unvaccinated, but those who are vaccinated as well... just so you know, many vaccinated individuals also oppose this mandate too because it's an unlawful act against the citizens. As an official of a governing body, your job is to protect our rights, not take them away. This is discrimination & you're punishing people who can't be vaccinated for health reasons, children who can't be vaccinated, those who have certain religious beliefs against vaccination & especially those who have had a natural immune response due to previous SARS-Cov-2 or Delta infection. But by moving forward with this mandate & the digital vaccine passport program you are taking away the rights of the people. This is not just about the virus anymore, you obviously don't care about anyone's health or well being physically or mentally. You are already trampling our rights issuing the mandate among students to vaccinate or they have no access to school sports. By doing this, you think you are protecting our children & the community, but it's just the opposite. You are damaging our community, the children & everyone's mental health with coercion by masking, testing & vaccinating while choosing to ignore us all... literally trampling on our rights with your criminal actions to approve this passport program which will destroy the lives of many & their businesses. Are you not concerned about the small business owners who have already suffered enough by your previous shut down? You are committing a crime against the constitution, it's laws & denying the community of their rights as FREE American citizens. This mandate will violate the fundamental rights of all our citizens, it's abuse on the people & if you are not aware, there will be mental health consequences. You are violating the constitutional rights of the community with this criminal activity & ignoring national & state laws... what's even more concerning is once this unlawful mandate is passed, you will have no intention of ever lifting it, which is a crime itself. What happened to America the land of the FREE... do we no longer have a voice?

Written Testimony I love Hawaii. I am **STRONGLY OPPOSED** to vaccine mandates and vaccine passports for multiple reasons. The cons are so much worse than the pros. Vaccine passports are **UNCONSTITUTIONAL** under the 4th Amendment. Medically the statistics and doctors and countless medical professionals testify **AGAINST** vaccine effectiveness. Vaccine passports/mandates go against natural immunity, as getting a COVID-19 vaccine does no additional health benefits and adds only risk to those with natural antibodies! Natural antibodies provide more robust protection than any COVID-19 vaccine can provide. To group everyone under a tyrannical mandate as a one fit all medical procedure, will cause significant harm and death then the prevention of it! Do your job, support individual medical freedom and informed consent, do not pass this bill for vaccine passports and stop all mandates it is **NOT** the will of the people. As an American it is your duty to preserve the constitutional rights and fight **AGAINST DOMESTIC TYRANNY**, which if this passes, will be just that!

I oppose this bill because I believe it invades an individual's medical privacy whether vaccinated or unvaccinated.  
  
Written Testimony This bill also discriminates against people who do not choose to become vaccinated or who do not choose to subject themselves to a certain type of testing. This bill causes those people described above to be kept out of participating in normal society.

### Written Testimony

I am in opposition to this resolution because I am a server at a restaurant and feel that it is unfair that I would have to test for covid weekly to prove we are negative and a vaccinated individual, who can easily get and spread covid would be exempt from testing. I also believe and have seen proof of many, many adverse reactions to the covid vaccine and I don't think that it is fair to coerce or bully us into taking an experimental drug especially until it is FDA approved, which it is not, despite the news articles. Furthermore I think it is against our rights to have to show medical records. This is why I oppose the bill.

Written  
Testimony

I am a registered voter in Kauai, a mother and a Realtor. As a mother I feel nauseated to see this New World Order 1984 agenda that has taken over so many children's world. At this point it is important that you listen to those scientists who are not for sale. There are THOUSANDS of testimonies confirming that the issue called Covid is treatable with cheap generics if used early enough. We know this is a 99.99% recovery rate issue. We all know people being injured or DYING because of the experimental shots. A few days ago I met yet another person who tragically lost her mom to the shots. NUREMBERG determined that it was a CRIME to perform medical experiments on unwilling and /or uninformed humans. We have had ENOUGH. You work for us. You are public servants and you owe it to us to listen to the THOUSANDS of doctors telling us that this lock downs don;t work and that this so called vaccines , actually a never used in humans before, RNA technology shots are inuring and killing thousands and thousands of people. Non censored platforms are showing us the devastating results of this shots. You are trying to mandate this aberration. You have no right whatsoever to do this. It is clear that the intention is to enslave and control us as if you would really care about health and the good of the community you would close fast food restaurants for example or stop the sale of sodas in schools. How about dealing with the horrific fact that Hawaii ranks 6th on child TRAFFICKING? 800,000 children BANISH every year in the USA and what is being done about that? The most disgusting pedophiles are free and trading their degenerate merchandise on the the same platforms silencing the honorable doctors who truly want to save lives instead of just push shots to make a profit. We have seen so many new billionaires as a result of this lock downs and new shots and it is clear that the health of our families is not the focus,instead, their criminal pursue of profits is.

The Vaccine Passports AKA Health Pass are unacceptable. This is not Germany in the 1930s. We all know what happened to those demonized by the State by then and the NEVER AGAIN applies to this situation as well. Let it be. Those who had the shot made their choice .

The rest will use the immunity that God gave them. Discriminatory measure are amoral and unacceptable.

I oppose Resolution 21-194 as it is an infringement upon our civil rights and liberties as U.S. citizens. The thought of restricting our access to public facilities based on our vaccination status is very upsetting to me!

I feel that the unvaccinated residents in Hawaii are being punished and separated out from the vaccinated residents and that this treatment is unfair and unjust given our current policies for treating Covid.

I am an advocate for early treatment of this disease but unfortunately I am witnessing people being sent away from ERs and them being told that "there's no treatment for Covid" or to "go home, rest, and take Tylenol" when they are already coughing, have a high fever, as well as other symptoms.

### Written Testimony

I recently had to call an ER and advocate for one of my friends that was told this and fortunately I was able to get a chest x-ray ordered, cough medication, and antibiotics. Thankfully, my friend was able to improve and completely heal. However, if I had not called and advocated for her, she could have progressed to more severe illness requiring hospitalization. She could have even passed away.

I personally feel that we are doing a disservice by not treating Covid early. I also feel that early treatment could have stopped this pandemic earlier rather than later. People have the right to choose whether they get vaccinated or not and we should not be punishing them for their choices. Early treatment would prevent hospitalizations, healthcare worker burn-out, discrimination of the unvaccinated, and the unnecessary deaths. I feel that this resolution would not be necessary if we adjust the treatment for Covid patients by starting treatment earlier.

Thank you,  
Maile Harada, Ph.D., R.N.

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I, Eric Grebe, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it impinges on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

Written  
Testimony

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Thank you for your time.

### Written Testimony

It is an individuals inherent right as a human being to decide what is received into their body without coercion or threat on ones livelihood. As a person in object to the government attempting to take away our freedom to decide to abstain from this and other vaccines or else not be allowed to participate in society. I leave you with a quote from Martin Luther King, Jr., "Any nation or government that deprives an individual of freedom is in that moment committing an act of moral and spiritual murder. Any individual who is not concerned about this freedom commits an act of moral and spiritual suicide."

Data from Israel, the most highly vaccinated nation reveal the vaccine is not the end all and vaccinated individuals are still being hospitalized and dying from Covid-19.

Written Testimony Vaccine passports are unlawful and is unconstitutional. This method does not solve anything yet causes hostility, divide, exploitation, invasion of personal medical information, financial disaster, negative impact of all deficits, turmoil, high probability to permanent closure of many business, and all at the cost of the public's livelihood. Approaching today's infection control with a blind plan, of implementation of a vaccine passport, will prompt for failure beyond any chance of recovery.

### Written Testimony

I absolutely oppose this resolution. There is no way to staff restaurants etc that have access from all sides. Who would even check the passports? This is a complete and total violation of our constitutional rights. The segregation has to stop. It's our body, our health. I've known 2 people who had the vaccine and had covid-19 or the delta variant right after. So who's to say that just by showing a "vax passport" that you can't be a spreader or even have it or get it as seen multiple times. It won't work. It'll be a disaster...and whoever came up with this resolution needs a mental evaluation-it's INSANE.

### Written Testimony

I am strongly opposed to this resolution going into effect. I believe that this is a violation of our rights as an individual and infringed upon our rights to freedom. If this were to go through, many business are going to suffer more than they already do. Some people are unable to get the vaccine and this completely discriminates against so many different people. I feel as though this is also a violation of our personal health and well being. You are not only discriminating but now requiring people to disclose information about their personal health, which, up until recently was always deemed illegal/HIPAA violation. This should not be legal, you are trying to take away everyone's rights to freedom which is what this entire country is based on.

Written Testimony I Strongly Oppose! This is taking things too far. I am about ready to leave this state and move to a state that does not propose such oppressive measures on it's citizens. I don't struggle financially to live in Hawaii, I love my state, I love my family and community, but I also love my freedom. Enough already!

Written Testimony  
Vaccine passports are about control, not actual science. They usurp our God-given freedoms and are not about our health. We will not stand for this tyranny. We have known vaccine passports are merely a pretext for importing the Chinese Communist Party's social credit score system. The truth is, we already have safe, highly effective, and inexpensive treatments like Hydroxychloroquine and Ivermectin that were intentionally suppressed so that we could get to this place where vax passports would be proposed as a necessity. It is a farce, and shame on all those who are on the wrong side of history pushing this. It will not stand. But we will.

Written Testimony I oppose this resolution, because people have the right to decide what goes into their bodies WITHOUT suffering discrimination and limited access to places. This must STOP! United we stand, divided we fall. Do NOT divide your state into those with it without a vaccine pass. Never has it been a good thing to coerce people into a serious medical decision by denying them their right to access places unless they receive an injection. DO NOT PASS RESOLUTION 21-194!

Written Testimony I STRONGLY OPPOSE this bill. "My body, my choice" - right? We should have the fundamental right to choose what is best for our bodies and our families. Apparently, this works for abortions, which is an on-going PANDEMIC OF the MURDER of millions of babies - who can't even choose for themselves, and yet somehow, you want to take away the God-given, military-fought-for right of FREEDOM OF CHOICE away from those who have the cognizant ability to actually CHOOSE for themselves! Regardless of if you are PRO-Vaccine or ANTI-Vaccine, I support you! However, I will always STAND FOR and UPHOLD the FREEDOM OF CHOICE, because that is the right thing to do! May God grant you the wisdom to choose wisely!

Written Testimony I oppose health passes. It's a form of health status discrimination. Secondly, vaccinated individuals carry the same viral load as the unvaccinated with these newer variants. The vaccinated may be asymptomatic, but they can also be "silent spreaders," which is incredibly dangerous. The vaccines now only protect the individual and not others, as they initially did. These health passes have no bearing, except to punish those who do not want to be vaccinated. Normal FDA approval has an average of 4-7 years of data before a vaccine is approved. These vaccines do not and the public should not be forced into a health decisions with potential long term issues simply to be able to access businesses and services.

### Written Testimony

Aloha. Please, do not pass this agenda item. It can only further destabilize / divide our communities. Our liberties / Constitutional rights, as citizens of the United States Of America, has been under an unimaginable assault since covid-19 appeared, nearly 18 months ago. This is not right. Nor, is it justifiable. I'm born and raised here. Hawai'i is my home. Our unity and Aloha spirit, are what make us / have made us such a unique people. Over this past year and a half, I've seen a level of disunity and lack of Aloha, in our communities, that is disturbing. And this is due to the "mandates" that are being forced upon us. For these reasons, I oppose , and urge you, please DO NOT pass RESOLUTION 21-194. It can only create more harm to my already hurt / injured and fragile community. Mahalo!

### Written Testimony

I am opposed to R-21-194, I feel that a Governmental forced experimental gene pathogen by injection is of form of racism, humiliation, and segregation, and goes against our God given human rights and constitutional freedoms as a free society.  
The CDC confirmed the "covid vaccines" effectiveness is declining weekly and the vaccinated are just as able to get sick and infect others as the Unvaccinated ~ And cases are souring upward as the vaccinated rate increases.  
Why is Hawai'i's Governor, Lt Governor and Mayor refusing to listen to the science?  
Do they have something more sinister in mind in the guise of "health care?"  
One could only think!!!

### Written Testimony

From what I gather this bill is to establish a digital vaccine passport and mandate that a person present it to an establishment for entry. I highly oppose this bill. To mandate something like this clearly tells us we have an ultimatum. That means we don't really have a choice in the matter. Scenario: if someone is unvaccinated with no family or friends. Now imagine they need to go into a grocery store to buy food however they would be required to show a vaccine passport in order to enter. Every grocery store within a 5 mile radius is the same. They have no car. The ability to purchase basic necessities is stripped away because of a vaccine. Now from the establishments standpoint. They will need to assign someone at the door to execute checks before people enter. This could cause heavy traffic & congestion. Also, more tension will arise between the community that is already under high pressure. Scenario 2: if a person is vaccinated wanting to go to work but lost their card & isn't registered on this online app. Their employer denies their ability to come to work until they receive these. Now imagine this person is also alone without help. No access to internet & is not tech savvy. They also need the money & are on the verge of being kicked out of their home because of the pandemic. They lose money which further makes it difficult to pay their bills. The employer also falls short because of the persons inability to present a vaccination card.

This is unconstitutional & infringes on our rights. Stop the mandates requiring vaccination proof & find better ways. Thank you

Written Testimony It is unlawful for the state/government to require vaccination passport in order to enter a facility or place of work. This is tyranny and unjust! I am pro-vaccine, but it is not right for the government, who is supposed to protect the rights of its people, to toss those rights in order to push their agenda forward. People who do not vaccinate for religious or personal reasons should not be forced to get an EXPERIMENTAL vaccination in order to work and live.

Written  
Testimony

CDC director Rochelle Walensky recently stated that data shows alarming increased infection in the vaccinated population over time . This is contradictory to the mayors vaccine passport reasoning in slowing the spread.  
I have the right to choose what goes into my body and the consequences for that choice infringes on my right to life, liberty , and pursuit of happiness!

Written  
Testimony

I am in opposition of the vaccine passport as it is a gross over reach of government in the name of health and safety. Requiring a vaccine passport to dine in a restaurant, go to the movies, or go to any business without a covid vaccination is discriminatory. This vaccine passport mandate does not take into account:

- 1.) Those who have contracted covid and recovered with natural immunity which is 10x better than receiving two doses the the current covid vaccines.
- 2.) The current vaccine has not been tested for long term effects & has many recorded side effects. Pfizer is still currently in their "testing phase" according to the FDA.
- 3.) Those who are unable to take the vaccine due to medical issues.
- 4.) The fact that the majority of the population does not require this vaccine because they are not in the age or health bracket that would cause hospitalization if they were to contract Covid-19.

If the government truly cared for the health and safety of our community, the main focus would be educating the community on how to live a healthy lifestyle that requires a minimal pharmaceutical approach and a focus on building the immune system naturally. Rather than abuse of government power to coerce the public into accepting an experimental vaccine without allowing them to decide on their without the fear of discriminatory repercussions.

Mental health has also become more prevalent this last year, and more establishments that help people with mental health should be more easily accessible to the public.

As a citizen of the USA and a resident of the State of Hawaii, I strongly oppose and request that Resolution 21-194 be dismissed.

Written Testimony Strongly oppose to this. This is in direct violation of the Nuremberg Code Article 6, Section 3.... This is international law a Human Rights law.  
We the people shall not be forced to take anything against our will nor shall our liberties be withheld or restricted. This is the United States of America.... This is over reach and a clear violation.

Aloha,

The bill is illegal and it's beyond unlawful for the government or government entity to deny services, goods, basing on vaccine status, or an immunity passport. It's the violation of human rights. This is not the best solution for COVID-19. Another form of discrimination, which creates more division. The human liberty is threatened by this Resolution 21-194. No one was force to the get the flu vax.

### THE NUREMBERG CODE

Written Testimony	<p>1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision. This latter element requires that, before the acceptance of an affirmative decision by the experimental subject, there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person, which may possibly come from his participation in the experiment.</p> <p>The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be</p>
-------------------	---

delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study, that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the experiment to an end, if he has reached the physical or mental state, where continuation of the experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgement required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

["Trials of War Criminals before the Nuremberg Military Tribunals under Control Council Law No. 10", Vol. 2, pp. 181-182. Washington, D.C.: U.S. Government Printing Office, 1949.]

**Written Testimony**

You can pass or give COVID even with the vaccine. You can die or have lasting side effects with both Covid and the vaccine. Our numbers went up only since we stopped testing all travelers I, both residents and tourists. There is also no exemption for people who have recovered from Covid, considering the longevity of the level of antibodies. Simultaneously, the vaccine loses its efficacy but is still considered passable in the Oahu Safe Access plan. This extreme measure does not make logical sense. You are asking people to play Russian Roulette with their bodies with an arbitrary vaccine that has the potential for death. Go back to what worked, testing all travelers, no vaccine passport.

Written Testimony This bill goes against out personal and medical freedom rights. We know the vaccinated still can spread covid with all of the breakthrough cases so what will this bill even do? You have no right to control where people do to their private business. You will hurt businesses and segregate society. If this spreads then people will become fully disenfranchised just because they don't want to be a part of this medical experiment. I oppose this bill.

Aloha legislators,  
Thanks for this opportunity to testify.  
My job gives me a unique perspective on the covid and the covid VACCINE situation because I translate medical records for a living.  
I translate autopsy reports, adverse reaction reports – all kinds of documents having to do with medicine and pharmaceutical drugs.  
I have processed the records of many people getting the covid vaccine who have had bad side effects – some horrific, some fatal.

It is NOT TRUE that it is a harmless drug.

Written Testimony I will give testimony on a few cases I worked on (based directly from the pharmaceutical company internal records), as reported by doctors, that show how horrific the vaccine can be.

These examples are in young, healthy people with no history of co-morbidities or other risk factors, people who present a nil-to-no risk for succumbing to the covid virus.

A 19 year-old woman, who died within 3 days of the first injection from massive clots in her brain.

She started getting headaches on the day of the first injection, then seizures, then she went into coma on the 3rd day.

Brain surgery was performed to attempt to save her but it was unsuccessful.

A 30 year-old woman who got fever, amnesia, tachycardia, dyspnea, dry cough, and oxygen saturation decrease to 89% on the day of the second injection. The patient had not recovered at the time of reporting.

A 42 year-old man who had a stroke the same day as the second injection.

None of these people had any history of any disease.

The correlation to the vaccine is direct.

I've also seen headaches that don't ever go away, shingles, paralysis, and much more. Many young, healthy people will have lasting effects or will die if large-scale vaccination continues to be forced on us.

Whether to vaccinate or not should be a personal choice – I am pro-choice for the vaccine. If you want to get vaccinated, you should be able to, but it should not be forced on us. People should not have to die or be maimed because you enforce massive vaccination. Many lives will be on your hands.

I would also like to add that the covid infection itself generated very little, if any medical records for me to process, including autopsy reports and insurance claims.

Covid vaccine side effects, on the other hand, is generating mountains of records.

Please take the time to consider all perspectives, and stop being blinded by only covid.

Many mahalos for your time.

Carmen Lyman

I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements:

Can you please advise me of the approved legal status of any vaccine and covid test and if it is experimental?

Can you please provide details and assurances that the vaccine has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?

Can you please advise of the full list of contents of the vaccine I am to receive and if they are in any way toxic to the body?

Written  
Testimony

Can you please fully advise of all the adverse reactions associated with this vaccine since it's introduction?

Can you please confirm that the vaccine you are advocating is NOT 'experimental mRNA gene altering therapy'?

Can you please confirm that I will not be under any type of duress or coercion from yourselves as my employers, in compliance with the Nuremberg Code?

Can you please advise me of the likely risk of fatality, should I be unfortunate to contract Covid-19 and the likelihood of recovery?

Once I have received the above information in full and I am satisfied that there is NO threat to my health, I will be happy to accept your offer to receive the treatment, but with certain conditions - namely that:

You confirm that I will suffer no harm.

Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to myself, and/or from any interactions by authorized personnel regarding these procedures.

I would also advise that my inalienable rights are reserved. ALL RIGHTS RESERVED WITHOUT PREJUDICE (UCC 1-308).

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

### Written Testimony

I strongly oppose Resolution 21-194. Every citizen has the right to make their own medical decisions for their body. Citizens also have the right to keep their medical history private. This is discrimination against citizens who are making a choice for themselves on not to take a vaccine. Many people have valid medical reasons and religious reasons for not getting this vaccine, yet you will discriminate against them. I urge you not to pass Resolution 21-194

Written Testimony I strongly oppose vaccine passports.people are getting and transmitting covid after getting vaccinated. We have prophylactic treatment for covid which we should be looking into rather than forced vaccines that don't work.

### Written Testimony

There are treatments available that are effective. Vaccines are not the only option available. I have allergic reactions to so many different substances, I do not believe a vaccine is safe for me. In addition, scientific studies are stating that natural immunity is the most durable defense against the sars-v2 virus. I came down with covid back in October - went through. 5 day remdesevir treatment and have recovered since then. I now supplement with Vitamin D and melatonin (which most hospitalized patients had tested as low), K2 vitamin assists absorption of Vitamin D. Also Zinc with Quercetin provides immunity boosts as well.

Written Testimony I am 60, vaccinated, wear a mask when necessary and I wash my hands often, I don't gather in groups and I take time to research and educate myself my children and my grandchildren. I will not visit any business that requires any type of health card or health passport. I beg of our Hawaii government to support and listen to what the residents are saying. TICKET each member of the Large gathered groups, and impose fines on tourists as well. Stop with empty threats. And promote a HEALTHY lifestyle.  
  
Sincerely,  
  
KimAnn West

Written Testimony Her humanity is more important it's also the most scientific way to control viruses. Vaccines threaten our lives with mutating more variants it's basic science. Creating mandated vaccines will cause segregation, loss of income to businesses and a total upheaval in our communities. It's absurd! I do not agree to this is a citizen of hawaii

I strongly oppose any efforts to implement a Covid-19 passport for anywhere in Hawaii.

This would infringe on the rights, responsibilities and liberties of a free and independent people and society. This would mean local government overreaching to enforce on its' citizens and businesses strict policies/orders which disrespect and disregard the sovereignty of our individual freedoms. plus cause unnecessary further harm to our economy.

Vaccine passports are not necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities. Individuals must retain their right to vote and to participate with their dollars to support businesses which promote values and practices similar to their own.

### Written Testimony

The vaccines are widely available and those who want to receive it have already done so. The injections have not not been proven to stop the contraction or transmission of the virus. In fact they have been shown to have very little effect as the variants are changing. Now people need a third shot, so will those people be prohibited from participating in society until they get the third shot. Absurd!

By allowing vaccinated people only into places, you are creating a false sense of security and potentially creating super spreading events. The unvaccinated are not the reason this virus is spreading. absolutely not. No matter how much you blame this small percentage of people. You are punishing them for not being in lockstep with what you say.

Many people already have immunity. In fact, Josh Green said all the 100s of thousands of cases who caught covid have immunity. They should be allowed in everywhere. These are the people who supported restaurants and small businesses. Why discriminate against people who obviously have stayed healthy, washed their hands and followed protocol? Covid can be

killed with hot water and soap but I've noticed most public places don't even have hot water. The main thing is washing your hands. No need to go to such a strict vaccine passport.

There is only 16 percent of population Unvaccinated in Hawaii. Governor Ige said when we reached 70 percent the state would open completely with zero restrictions. We are there now! How can you completely deviate from promises made. and deceive your constituents like that?

We are not idiots and we know how to protect ourselves. Maui has had one of the most vaccinated populations and strictest rules in the nation. And yet the rest of the United States is wide open, Huge concerts of 100,000. Sporting events. Life goes on. We can't live in a bubble. Many people are unable to get vaccinated because of pre-existing health issues. It's discriminatory and segregationist. And now we are learning the vaccine can cause adverse effects, extreme heart issues and even death. More and more countries are outlawing vaccines every day. Why do you continue to coerce and basically force people who want to live a normal life?

Plus there are therapeutics being use world wide like monoclonal antibodies and other medicines. Most people recover from catching Covid. Most with mild symptoms. It is time to move on. We've had 18 months and Maui needs to open up completely. We can protect the vulnerable but the rest of us cannot live under tyranny and unlimited emergency powers. Plus in other countries, the cases go down just as quickly as they rose. In fact, I can see the downward trend already. And these positive cases include a lot of false positives.

Please DO NOT INSTITUTE a vaccine passport.

Sincerely,

Michelle Hollingsworth

### Written Testimony

I oppose the creation of a digital vaccine passport program. It creates segregation in society and also restricts people's medical choices. There are many that have health or religious reason why they can not take the vaccine. They should not be excluded from society because of it. It would be no different than not allowing people in wheel chairs to enter restaurants, buses, and other business based on their medical condition.

Written  
Testimony

Aloha kakou,

I am sending this testimony with hopes that it will be read and will not fall upon deaf ears.

"Freedom to choose" I am not a conspiracy theorist.

I'm in total opposition of mandates regarding covid passports. As an American citizen it is my constitutional right to choose.

I also choose to keep my medical information private, just as every person in this chamber has the right to medical privacy and the laws attached to that matter.

I'm not trying to buy a million dollar life insurance policy, so I give no one the privilege of seeing my medical history or records.

Having a vaccine passport will divulge privileged personal medical information which I have the right to keep private.

By mandating or implementing vaccine passports, you will all become a part of history repeating itself. In the horrible days of hitlers dictatorship there was mass segregation implemented as the Jews were considered sub human.

Unvaccinated people are not subhuman, and according to my sources of information, the majority of covid hospitalizations currently are those who are fully vaccinated.

I truly believe that a vaccine passport will cause mass segregation and mist likely a more divided country.

But the bottom line of my testimony is that I want to keep my freedom to choose and I will peacefully resist any and all who try to take my freedoms away from me and my ohana.

I'm not a anti vaccine guy, I'm a freedom to choose guy, who believes that it's everyone's right to choose, especially this EUA vaccine.

I also humbly plead with all of you in this chamber, please do your research and at least hear the other doctors, scientists, and vaccine developers, that have all been silenced by big tech and the MSM.

Respectfully and Sincerely  
Garrett Sur

### Written Testimony

I oppose the resolution due to concerns about the COVID-19 vaccine and the government's push for mandating it. The vaccines have endangered lives and put people's health at risk and has not proved to be the best treatment. WHY are there so many new cases of COVID-19 when such a large percentage of the population is vaccinated? WHY is the case count actually higher than it was before the vaccine was administered? WHY did the Delta and other variants appear after the vaccine was given? This does not prove the vaccine's effectiveness, it's actually the opposite. If the government legislates this, you are legislating the perpetuation of COVID-19, not the end of it. It makes me question what the government really cares about.

On behalf of our families small business we oppose the bill UNTIL the following questions can be sufficiently answered so that we may confidently share, educate, and help mandate this proposed bill in good faith that is truly essential in this time and is best for our lāhui.

"I write with regard to the matter of potential covid vaccine mandate /passport and my desire to be fully informed and appraised of ALL facts before I am mandated as an employer to impose this on my employees:

I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements.":

1. Can you please advise the approved legal status of which vaccine(s) will be administered in accordance to this mandate and if it/any are experimental?

2. Can you please provide details and assurances that the vaccine has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?

3. Can you please advise the entire list of contents of the vaccine(s) I am about to help mandate on behalf of the State to my employees and if any are toxic to the body?

4. Can you please fully advise of all the adverse reactions associated with these vaccines since it's introduction?

5. Can you please confirm that the vaccines you are advocating are NOT 'experimental mRNA gene altering therapy'?

6. Can you please provide proper documentation and proof for me to explain to my employees that natural immunity to those who have already contracted Covid-19 and fully recovered is not sufficient enough to qualify them as immune from virus whereas a vaccine is considered enough protection to make them exempt from regular testing. And can you please explain how this vaccine is superior to their natural immunity in the case that they question your answer?

6. Can you please provide me with statistics of the likely risk of fatality, should my

Written  
Testimony

employees be unfortunate enough to contract Covid 19 and the likelihood of recovery?

Once I have received the above information in full and I am satisfied that there is 0%/NO threat to my employees health, I will be happy to accept your offer to help mandate the treatment, but with certain conditions – namely that:

1. The State of Hawai'i will confirm in writing that my employees will suffer no harm.
2. Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to any of my employees and/or from any interactions by authorized personnel regarding these procedures.
3. In the event that they should still decline the the offer of free vaccination, please confirm that the option of testing will also be free and widely available and just as every bit acceptable as the option to vaccinate is in order to continue to live and work freely and without restrictions in the State of Hawai'i just as those who opt to vaccinate have been given.

I would also advise that my inalienable rights are reserved as a U.S. citizen and employer that does business within the United States of America and so are those that are employed with us who are also American citizens. We take their health very seriously and that includes all aspects- we expect nothing less coming from the State of Hawai'i government.

E Ola I ka Pono a me Aloha kekahi i kekahi ,

Mahalo Nui,  
Bridget Butler

### Written Testimony

These shots are not approved, they are not safe. And what your doing is segregation, discrimination and its illegal!!! You have committed treason against we the people of the United States!!! We make the rules!!! Our constitutional right is to oppose you if your wrong!!! I have every right to defend my rights and my body!!! Whether you believe in science or GOD ALLMIGHTY! what is happening around the world is BIBLICAL!! I suggest you read revelations and see your what's ruining this world!!! Ran by a bunch of greedy, sick, narcissistic wrong group of political officials! You protect the integrity of the vaccine not your own people?! Have any of you a soul or heart? What is happening is exactly how they got Germany to go against the Jews, brainwashing people giving them a tattoo number on their arm and making them wear the star of David, this is no different! You are discriminating against people who love this country and will fight for it! Our lost soldiers all died in wars to protect the people and now you guys in politics protect and serve a vaccine and are all bribed by money! You are all sick and worshipping false idols, this is satanic. You guys may have gotten this far, but the people are fed up and sick of this crap. Eventually we will all turn against you, it may be peaceful now but stuff will get very ugly if you guys don't stop forcing vaccines on us. Do what's right!!!

Written Testimony As we all know, ANYONE can spread Covid so a vaccine passport does not serve a purpose to reduce transmission. This rule is discriminatory and against people's rights. This is government overreach into people's freedom, as well as businesses freedom. People also have a right to privacy - businesses have no right asking for personal medical information.

Written  
Testimony

I STRONGLY OPPOSE this bill as this is complete discrimination of ones personal medical records. There is no need to provide proof of anything in a free society. Mandates do NOT belong in a free society. Vaccinated persons can STILL get the virus AND transmit it. It's completely irresponsible to require proof of vaccination when they can still get the virus. This isn't an opinion. That's a fact. Straight from the horses mouth (the cdc). Do not enact this bill as it goes against personal freedoms.

### Written Testimony

I am not against vaccines as our family is vaccinated with vaccines that have proven efficacy and safety. This new vaccine is just that NEW. No one should ever be forced to inject themselves with known carcinogens to a vaccine that doesn't even work. I personally know several people hospitalized with vaccine injuries and disorders that are permanent. I am not willing to sign myself or my family up to take anything that should technically still be in trials for long term safety. Also I have had COVID and I know my antibodies are keeping me safer than any vaccine ever could. please consider that this is my body and my choice.

Written  
Testimony

As a registered voter who was born and raised on Oahu, I strongly OPPOSE this resolution to tyrannically bully and manipulate the people of Hawaii to take an INVESTIGATIONAL vaccine that has no long-term safety data, but does have proven effective treatment options that many other states like Texas and countries like Japan are utilizing with great success. Science has shown (and the CDC states) that the vaccine DOES NOT PREVENT the spread of the SARS-CoV-2 virus, and vaccinated people can still carry and spread it to others, so vaccine mandates are completely illogical and ineffective. The current vaccines were only designed to reduce the severity of the original virus, which is practically non-existent now. Why aren't you listening to Dr. Robert Malone and hundreds of other doctors around the world (see the Great Barrington Declaration) who are advising against mass vaccinations because of pathogenic priming and other potential adverse side effects? Why are those speaking anything negative about the vaccine being censored? Why aren't the local news stations reporting the rising number of deaths and other adverse events following vaccination, as reported on VAERS and/or occurring on Oahu? Why aren't the White House and major vaccine manufacturers mandating the vaccine for their own employees? Why are the local doctors and hospitals turning away people testing positive for covid-19 with no advice or treatment options and telling them to just come back when they're sick enough to be hospitalized, instead of prescribing a treatment plan? Why are other states in without restrictive vaccine mandates doing much better than HI? Why does the data show that the states with the highest vaccination rates seeing the highest new delta variant infection rates? Why don't vaccinated people have to test when it's a proven fact that they can carry and spread the virus and still get covid-19 themselves??? This is nothing short of DISCRIMINATION!!!

I OPPOSE the proposed Honolulu City Council Resolution 21-194 "VACCINE PASSPORT"

Written  
Testimony

This mandate will further hurt businesses and individual livelihoods. The "vaccine passport" mandate takes away the freedom to run their businesses. It demeans business establishments and questions their ability and their integrity to do what is right. It's as if they are not capable of providing a safe environment for themselves, their families and the entire community. I trust that businesses have been and will continue to provide safety for all without mandating a vaccine passport.

The vaccinated and unvaccinated both can spread the virus. Why propose a mandate that will discriminate? I believe that unvaccinated individuals have done their research and are making educated decisions about their own health.

The vaccine passport is in violation of HIPPA and my right to protect my personal medical records and other personal health information.

This mandate is not pono!!!

To Whom This May Concern,

Written  
Testimony

I highly oppose this Resolution item 21-194. As a United States citizen, it is my right to keep my medical history and present records under the HIPAA privacy laws and rules. In my opinion, the vaccine passports could lead to an end to our rights and freedoms as citizens of America. It could begin an indoctrination to the government system granting encroachment on the peoples' rights predicated on an inoculation. The freedom and rights are essential from our US Constitution. We do not want our country to become The Communist China Party. I know the vaccine passports will link to things such as, digital currencies, facial recognitions, and traveling passports. If the person is not up-to-date on their vaccines, the person will not be allow to work, travel, or retrieve funds. This type of system can relegate to a former individual that will obtain power, wealth, and success in a society to a veer blip on a screen. The system can flip the screen and the person will no longer exist. We refuse to allow this kind of communist system to take control. Furthermore, citizens who believe in masks and/or inocualtion, they too, do not agree with the force vaccine passports because they understand our right to choose is essential. The vaccine works, we should have the CHOICE to take it or refuse. To the people who have taken the vaccination and it works for them, that is great! For others who have taken the vaccine and it does not work, it was their decision to choose. When THE GOVERNMENT TAKES AWAY OUR CHOICES, it becomes a big problem and that is something I, and others will not stand for. When the government does decide to take away our choice, there is always an ulterior motive. At this point, the narrative is no longer about "health and safety," it is to strip our Constitutional Rights viewed by the people and observe government control on the population.

Resident of Hawai'i,  
Sabrina Sumner

Written Testimony I oppose this bill because you are taking away our freedom. To mandate vaccines is inhumane. People should be given the option what to inject in their body. Mandating companies to reject those who aren't vaccinated starts the segregation process. This isn't the 1950s we dont need a divide a conquer period. People are fed up. You've already taken enough from us. This is ruining the lives of our keiki. This is wrong and you know it. Stop letting the money talk and come up with REAL solutions. These aren't REAL solutions.

### Written Testimony

There are other ways for the state to curb the spread of the virus rather than punishing those for not taking an experimental vaccine. We could promote exercise, healthy eating, sleep, vitamin supplementation, and other things that would pump up our immune system along with social distancing and other safeguards that do not ostracize. Why are we not talking about strengthening our immune system? Whatever the case, their push for a Nazi style card that separates vaccinated and unvaccinated is wrong! It's unconstitutional, unethical, and panders to those who want to collapse our economy for their nefarious purposes. The vaccines do not stop transmission, reception, and have proven themselves to be less than safe. Why push ineffective vaccines? Why divide our state? Why ostracize fellow Hawaiians? It's wrong on all levels. I absolutely oppose vaccine passports!

Written Testimony Aloha  
I as a resident and business owner in the state of Hawai'i, I strongly oppose the enactment of a "vaccine passport ". It is a violation of our basic constitutional rights.  
Many businesses and local people had to shut our doors last year and many are still closed. We are ready to serve the community and open our doors again. This mandate would be detrimental to our communities economic and mental well-being. It would encourage segregation and is a violation of basic rights. I do not consent to this type of "mandate".

My name is Reyanne Ramones and I am a college student. I am testifying against the vaccine passport and mandatory COVID vaccination in the State of Hawaii.

Reasons being:

-Both vax and unvax individuals have the same chance of being carries of the COVID virus. Why prohibit only the unvaccinated from places of business, restaurants etc.

-My body, my choice. If I have the choice to remain unvaccinated, I should be allowed that freedom. I have no health conditions, and hardly take medications unless completely necessary. If my natural immunity were to create enough antibodies and fight off the virus naturally that should be my choice. One should not be forced to be injected with an experimental drug without knowing the LONG term effects, Im talking 10+ years.

Written  
Testimony

-SEGREGATION! Are you trying to take away our civil rights. This passport is dividing the people just as they separated "colored"and "whites" bathrooms, schools, water fountains! Its unethical!

The Fourth Amendment of the US Constitution states "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated"

Title III of the US Civil Rights Act prohibits discrimination based on medical conditions in private businesses such as grocery stores, banks, restaurants, hotels, retail stores and all public facilities including schools.

**BUSINESSES CANNOT LEGALLY ASK FOR PROOF OF VACCINATION!**

This is a violation of my privacy rights as protected by STATE and FEDERAL LAW!

Testimony

We the people of Maui, who have elected YOU to be our voice, are saying NO TO THE VACCINE PASSPORTS! Our businesses have been through enough! Our citizens have been through enough! We have the rights to FREEDOM of choice! Do you want to inhibit tourism? Do you want small business owners to leave the island? What is the agenda here? When will the control stop? We the people do NOT consent!

Written Testimony As the daughter of a WWII POW who was held by Nazis, I am appalled and ashamed of this disgusting display of segregation and medical invasion by government (SCARY!!!!) officials. My father fought and was imprisoned for our freedoms as Americans and sovereign humans. In the name of my father I call out this gross overstepping of our humanity and ability to live free. Absolute the bottom of even the ever disappointing and criminal in his neglect of constituents, Tommy Waters. AUWE!!!!!!!!

I Oppose Resolution 21-194 based on the absence of actual “science” and lack of Information and transparency that the Resolution is based on.

First, before we begin Mayor Blangiardi, you mentioned in one of yr tv interviews the “New World Order” please explain in detail the definition and the source that you got this from.

I have broken down yr resolution by paragraphs (P) that I have questions about.

My questions are below: pls answer with detail of names of the professionals, studies with links, etc.

Written Testimony Re: Resolution 21-194  
A. This Resolution should be named what it’s Intention is: To mandate a “Digital Health Pass”  
B. Paragraph 1&2 (P1,2) March04,2020 signed Emergency Proclamation b/c of Covid  
C. P3-08.25.2020 “Covid case counts” used Stay@home order.WHAT testing usedPCR? @ what # of cycles? High # produced lots of false positives cases.  
D. P4 you state “Science-based & medically Informed Reformed Framework” to decide Direction 4tier plan. You cite “cases” for yr

Decision. Please "NAME the "science Based & medically informed" cites or the Studies used to make yr decision.

E. P5: May2021, you switched from cases to "vaccine rates". WHY? state yr source.

F. P6 you state "6 foot distance as a rule for gatherings? But exempt restaurants & Bars. But didn't exempt hospital ICUs. A neg. test. What test? PCR? List# of cycles

G. You mention "Delta" variant spreading

H. P9: First death of Fully vax person. Pls Advise the age, any comorbid disease & what the person died from.

I. P10: due to Delta variant, "new Covidcases" Now yr back to "cases" not vax count. Why Do you keep switching back n forth? Again. What test are u using? PCR? If so, are you using the correct cycles? Even cdc admits High cycles produce false positives.

J. P11: 08.17.21-Queens Hosp ICU beds Full. Did queens reduce their ICU beds to conform to the 6 ft distancing rule? How many ICU beds prior to Covid vs after?

K. P12: 08.23.21 Mayor basing decision on Overall hospitalizations.

L. P13: 08.26.21-first time City morgue has To use "3 Overflow refrigeration units" Did the morgue use all its original units & had so many deaths from Covid it had to use the overflow units? How many bodies does Per unit?

M. P14: you state "Medical Professionals now Agree that Herd immunity will not be reached at a 70% vax rate due to increase contagiousness & severity of Delta variant, & some specialist believe that up to 95% Of population needs to be vax'd to reach Reach herd immunity & protect the public.." Pls Name the medical professionals and Specialists and cite the sources for their recommendations.

N. P16: ..jurisdictions around the world & w/in  
U. S. hv begun implementing a “Health  
Pass, green pass, smart health pass card.  
You didn’t mention the word “Digital” before  
Health pass, green pass or smart pass.  
Cards is different from digital pass.  
Did you get yr info from the CDC’s website  
for their “GREEN ZONE PLAN”?! What is  
their “SHiELDING AUTHority?! Is that what’s  
next? After the digital health pass?  
Pls advs Where did you get yr info from.

O. P17-you cite NY city, San Francisco, New  
Orleans that mandates “PROOF of HEALTH  
“CARD”. A card is different than a “Digital”  
Heath pass. (Very misleading)

P. P21: Council supports Gov. Ige to develop  
A “DIGITAL Health Card SYSTEM!!

Q. P22: you want to “DEVELOP, IMPLEMENt  
& MANDATE (Force) by EXECUTiVE Order  
the use of a Digital Health Pass!

R. P22- “That makes available a portion of the  
193Million in American Resue Plan Act Fiscal Recovery Funds received june7.2021  
to implement the “Health CARD”...NOT a  
“Digital Health PASS” doesn’t mention  
anything about Digital!!!

Please answer the above questions with detailed names of professionals & the studies  
And sites that you gathered yr info from to make yr Executive Order proclamations.

Gov.Ige, LtGov.green & Mayor Blangiardi’s proclamations are affecting many lives and  
destroying lives because if this...

I believe that every Executive Order should be detailed and cite the exact  
Source that they get their info from. Transparency please.

By the way, Fauci has flip flopped so many times please don’t use him as a source.  
Base yr decisions on medical studies.

Start focusing on Early Intervention to “Prevent” people from going to the hospitals!

Dr.Peter McCullough has a study on early intervention of Covid:  
<https://doi.org/10.1016/j.anime's.2020.07.003>  
“Pathophysiological Basis & Rationale for Early Outpatient Treatment if SARS-Cov-  
2(Covid-29) Infection”

Thank you for yr time and please address the questions presented above.

September 1, 2021

City and County of Honolulu c/o

Committee on Transportation, Sustainability and Health Honolulu, Hawaii 968 13-3077

Chair Cordero, Vice Chair Elefante, Honorable Members of the Committee:

I'm writing in OPPOSITION to resolution 21-194 COVID-19 HEALTH CARD/Passport. After 20 plus months or more of dealing with COVID state directives and lockdowns, this much I we know:

COVID-19 is no more deadly than the annual flu and it will continue forever, variant after variant no matter how many injection are provided to the public.

Vaccine injection should do the following:

1. The injection must give antibody immunity to a virus or bacterium.
2. The antibody must give you protection from the virus or bacterium.
3. The injection must show it reduces hospitalizations, death or sever symptoms of the virus or bacterium.
4. The injection must show that stops you from carrying the virus or bacterium.
5. The injection must show that stops the transmission from one person to the next.

There is no scientific evidence whatsoever that masks presently being used filter the covid virus or any other virus or prevent the spread of any virus.

PCR test does not distinguish between SARS & influenza.

On July 21st, the CDC announced it was withdrawing emergency use of PCR tests in the U.S. beginning December 31 2021.

[https://www.cdc.gov/csels/dls/locs/2021/07-21-2021-lab-alert-Changes\\_CDC\\_RT-PCR\\_SARS-CoV-2\\_Testing\\_1.html](https://www.cdc.gov/csels/dls/locs/2021/07-21-2021-lab-alert-Changes_CDC_RT-PCR_SARS-CoV-2_Testing_1.html)

Implementing a vaccine passport to participate in society is not only discriminatory, violates our individual rights, this is medical tyranny.

What will be next? Will the State start a door-to-door campaign with the National Guard and round up all the unvaccinated people and take them to an internment camp?

Another important questions you might ask yourselves.

1. Why do registered sex offenders not have to carry a card and present it every time they frequent an individual business or establishment?
2. Why do convicted alcoholics not have to carry a card and present it every time they frequent bar?
3. Why do people of the LGBTQ community not have to carry a card and present it every time they frequent an individual business or establishment?

BECAUSE IT IS VIOLATION OF THEIR RIGHTS TO PRIVACY...

Restriction of individual rights based on potential threat to them leads to a regime communism.

One last note who really is benefiting from all the injections.

Sincerely

A handwritten signature in black ink, appearing to be 'Raymond' or similar, written in a cursive style.

Written  
Testimony

Seeing that people who are vaccinated CAN carry & transmit covid as per CDC guidelines (<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated.html> ... "If you are fully vaccinated and become infected with the Delta variant, you can spread the virus to others.")!

I don't know how this mandate will reduce the transmission of covid as stated & it obviously then discriminates & punishes a group who go against the governments vaccine program & agenda. Also where is the exemption for those with the innate immunity from already having covid (& surviving might I add...without or with the vaccines help).

<https://www.nih.gov/news-events/nih-research-matters/lasting-immunity-found-after-recovery-covid-19>

Why would we need a vaccine if we had covid including my daughter who just got over it this week- why would I subject her to a potentially sterilizing experimental vaccine that has killed numerous people when she is strong, 16 & would one day very likely be devastated to find out she can't bear a child because of a shot that the 'FDA approves' despite the obvious harmful risks & deaths that have occurred of huge proportion. Making life difficult for others to pressure compliance is not a democracy but the beginning of an aggressive government that is reminiscent of government systems that eventually snuffed out individuals for their differences in beliefs or religion & if people don't subscribe to the vaccine religion they should not be punished ESPECIALLY WHEN THE CDC STATES & SCIENCE PROVES THE VACCINATED CAN STILL SPREAD THE VIRUS. Mahalo.

Right to choose! Constitutional Freedoms! Censorship in the amount of adverse reactions to EU experimental shot is unprecedented! VAERS reports alone should have pulled the use of this so called vaccine. Public awareness has been blocked ! Ask yourself why?  
There are existing treatments already available to treat COVID patients, making it unnecessary to mandate experimental new "vaccines." In addition, research shows that those with natural immunity to COVID (they already had it) will see a 2 to 3 fold increase risk of adverse reactions from the COVID shots. Furthermore, there is no evidence to show the vaccine prohibits transmission of the virus, nor protects an individual from contracting the virus. Studies have shown the high viral load in those already vaccinated; thus, they continue to transmit the virus regardless of being fully vaccinated." **STRONGLY OPPOSE**

I am opposed to this bill that violates our individual privacy and rights. This COVID-19 Health Card will be ineffective as the vaccine does not prevent one from being infected by the virus, it does not prevent one who is vaccinated from transmitting the virus, and the PCR tests report false positives 97% of the time when it's dialed up to run at 35+ cycles, as documented by the CDC and reported by many doctors and scientists around the world.

Do not pass such a ridiculous bill that only serves the political agenda of corrupt politicians. This is not following true science about the virus and vaccines.

### Written Testimony

First present evidences that are peer reviewed and authentic about the effectiveness of the 1) PCR tests to accurately identify covid-19, Delta, lambda -specific viruses (not all flus, Influenza A/B, and Corona viruses), 2) each experimental vaccines, 3) the masks that people use (and there are many forms and fashion for these), and 4) the FDA-approved Comirnaty vaccine that will only be available for distribution in 2024. Also make sure the CDC and FDA and Hawaii State government are legally liable for the damages done to individuals that are required to be vaccinated.

Regards  
Jodi Trujillo

Written  
Testimony

I strongly oppose vaccine passport. It is irresponsible to say that this is a vaccine in the first place. It does not prevent anyone from being infected or infecting anyone else. It only reduces the effects of COVID. A vaccine passport is a very ignorant approach in thinking you are stopping or preventing anything from spreading. It is taking away our civil liberties and rights as Americans. You do not have the power to choose my health decisions nor how I deem my safety. You should be ashamed of yourselves for thinking of going this route. Let us remember, not so long ago, history showed us the dangers of the government mandating certain paperwork and taking away the rights and liberties of citizens.

Written Testimony Dear City Council-  
I strongly oppose any creation and implementation of a "vaccine passport" or requirement to prove vaccination status!  
As a person who has a medical issue which taking the vaccine would likely adversely trigger as well as having strong religious beliefs that stand contrary to this vaccination it would create a medical apartheid situation violating my first amendment rights to prohibit the exercise of religion and abridging my freedom of speech.  
There is no Aloha in this proposed statute nor will help flatten the curve of the disease and like i said earlier it will create a caste like social environment that is the opposite of our primary value of Aloha.  
Respectfully,  
Douglas Henderson

“Vaccine Passport” is in clear violation of our constitution rights!! This is clearly discrimination and segregation at it’s finest!! Risks to our personal privacy and freedom are serious concerns that YOU our elected officials have turned a blind eye to!!

Written  
Testimony

Providing proof of vaccination on demand will also create an additional means by which to exclude already marginalized individuals from society. I’m also very concerned about who is authorized to validate vaccine credentials. If front-line employees are responsible to check credentials, there is the risk of bias and discrimination on the part of workers on who they target. There is also the risk of verbal or other abuse directed at workers from potential patrons denied access.

Lastly and most importantly being vaccinated doesn’t fully prevent an individual from catching or spreading the virus to other’s!! This is a proven FACT!!! So tell me again why would you want this mandated???? In my opinion this is another dangerous message that you’re sending out to individuals who are vaccinated by giving them a sense that they’re so called “Safe” from spreading COVID to others!!! I OPPOSE VACCINE PASSPORTS!!!

Excerpts from an article written for Fee.org:

Vaccine passports are morally dubious for many reasons, not the least of which is that freedom of movement is a basic human right. However, vaccine passports become even more senseless in light of the new findings out of Israel and revelations from the CDC, some say.

Harvard Medical School professor Martin Kulldorff said research showing that natural immunity offers exponentially more protection than vaccines means vaccine passports are both unscientific and discriminatory, since they disproportionately affect working class individuals.

“Prior COVID disease (many working class) provides better immunity than vaccines (many professionals), so vaccine mandates are not only scientific nonsense, they are also discriminatory and unethical,” Kulldorff, a biostatistician and epidemiologist, observed on Twitter.

In Israel, vaccinated individuals had 27 times higher risk of symptomatic COVID infection compared to those with natural immunity from prior COVID disease [95%CI:13-57, adjusted for time of vaccine/disease]. No COVID deaths in either group.

Nor is the study out of Israel a one-off. Media reports show that no fewer than 15 academic studies have found that natural immunity offers immense protection from COVID-19.

Moreover, CDC research shows that vaccinated individuals still get infected with COVID-19 and carry just as much of the virus in their throat and nasal passage as unvaccinated individuals

Written  
Testimony

“High viral loads suggest an increased risk of transmission and raised concern that, unlike with other variants, vaccinated people infected with Delta can transmit the virus,” CDC Rochelle Director Walensky noted following a Cape Cod outbreak that included mostly vaccinated individuals.

These data suggest that vaccinated individuals are still spreading the virus much like unvaccinated individuals.

#### The Bottom Line

Vaccine passports would be immoral and a massive government overreach even in the absence of these findings. There is simply no historical parallel for governments attempting to restrict the movements of healthy people over a respiratory virus in this manner.

Yet the justification for vaccine passports becomes not just wrong but absurd in light of these new revelations.

People who have had COVID already have significantly more protection from the virus than people who’ve been vaccinated. Meanwhile, people who’ve not had COVID and choose to not get vaccinated may or may not be making an unwise decision. But if they are, they are principally putting only themselves at risk.

Hawaii never experienced a pandemic in 2020. 285 of supposedly covid deaths are not pandemic numbers!  
This year, two of your members want to require proof of vaccine pass. Why? What makes them think that that being vaccinated is going to solve anything when the vaccinated are the sickly ones clogging up the hospitals with reactions from their shots?  
STOP creating divisiveness among Hawaii's people.  
Vote NO for this asinine Resolution.

### Written Testimony

My name is Steven and I have lived in Hawaii for a little over 10 years now. The thing that separates Hawaii from the rest of America is how loving and kind everyone is to eachother. This Island is truly closer then any city/state in the main land. I am opposing this mandate not just because it's a violation of constitional rights as well as impeding on the 1947 Nuremberg code, but also because it's destroying what this Island is all about, ohana (family). This mandate will destroy small business even more then the struggle they're having now. Family's are already going against eachother. This mandate will cause division on a legal measure as well as a personal measure. The right to personal privacy will be exposed and finally we will no longer be a free nation. I for one also am against the weekly testing. The nasal testing swabs are cleaned with cancer causing chemical when you are exposed to them constantly, the chemical is (Ethylene Oxide). Also, it will rob my family of time with daddy because I would now have to wait a few hours to get a "weekly" test. How is this ok? It isn't! Below is my personal letter of religious exempt. I just now heard of this testimony and am really tired, but felt something is indeed better then nothing.

To whom it may concern,

First, does our company have specific data or analysis or legal grounds upon which it can require that I take an experimental drug? To date there have been Thousands, if not more, of deaths and hundreds of thousands of negative adverse physical reactions around the world from these shots. Therefore, I am curious as to whether our company will provide insurance for me or take care of my family should I have an adverse reaction or death due to a company required vaccine?

Please tell me when this requirement became a part of my employee policy? The conditions under which I was hired do not include sharing my personal medical information, or submitting to an experimental shot. The 1947 enactment of the internationally recognized Nuremberg Code protects us all from being forced to submit to any type of medical experimentation. After five or ten years of research and concrete results, I would be more inclined to hear more about this but even then I don't believe I would change my stance on this topic unless the ingredients change.

I am a healthy man in my 30's. I eat well and have been exercising more. I get adequate rest each day as well as plenty of sunshine. I trust my own GOD given immune system to battle any bacteria or virus which comes my way. From what the scientists report, my own natural immune system is much more effective than any chemical or unproven medication which I would take. The risks are simply too high and I feel uncomfortable to make this medical decision based on my age and health profile.

When asking for this "exemption" I also have my concerns in regards of taking the Covid test weekly. The Covid-19 swab tests have been sterilized in Ethylene Oxide. Evidence in humans indicates that long term exposure to ethylene oxide increases the risk of cancer of the white blood cells, including non-Hodgkin Lymphoma, myeloma, and lymphoma, myeloma, and lymphocytic leukemia. Studies also show that long term exposure to ethylene oxide increases the risk for breast cancer in women.

I would like to use my right to a religious exemption from a vaccination. I am a follower of Christ, a Christian who believes in what the Bible says. I have a Christian world view. This is to recognize that faith and conscience compel an individual to submit to the jurisdiction within the rule of law, in this case its Divine Law.

I object to the Covid vaccine because I believe in and I follow God. God lays out principles in the Bible and I have a deep belief that vaccines violate them, for my body is a temple and the Holy Spirit dwells within me.

"Know ye not that ye are a temple of God, and that the Spirit of God dwelleth in you? If any man destroyeth the temple of God, him shall God destroy; for the temple of God is holy, and such are ye." 1 Corinthians 3:16-17 (ASV) "Or know ye not that your body is a temple of the Holy Spirit which is in you, which ye have from God? and ye are not your own; for ye were bought with a price: glorify God therefore in your body." 1 Corinthians 6:19 (ASV)

My body is the temple of God and I am required to protect the physical integrity of my Body against unclean food and injections. Vaccines contain Neurotoxins, hazardous substances, attenuated viruses, animal parts, foreign DNA, albumin from human blood, carcinogens and chemical wastes that are proven harmful to the human body.

[Http://www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/b/excipient-table-2.pdf](http://www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/b/excipient-table-2.pdf).

"Howbeit there is not in all men that knowledge: but some, being used until now to the idol, eat as of a thing sacrificed to an idol: and their conscience being weak is defiled." 1 Corinthians 8:7 (ASV). Then the Bible again in 2 Corinthians 7:1 (ASV) it says "Having therefore these promises, beloved, let us cleanse ourselves from all defilement of flesh and spirit, perfecting holiness in the fear of God." The mandated vaccine, with its numerous additives and its mechanism for altering my body, is the equivalent of a prohibited "unclean food" that causes harm to my conscience. Furthermore, Johnson and Johnson use aborted fetuses in their vaccine and Moderna and Pfizer used Aborted fetuses in testing and cloned cells in their vaccine. I believe Vaccines are unclean and I will not have a part in this mandate. I believe in, and follow God and what is laid out in HIS word. I have a deeply held belief that vaccines violate what the Bible teaches.

My job here is important to me and I want to keep this job. As always, I follow sound advice that if ever I have a fever or am ill, that I would stay home until well. I plan to practice the suggested CDC protocol of good hygiene, social distancing, and taking my temperature while there is still a threat of any circulating virus in our area. Please Confirm that it will not compromise my position and that I will not suffer prejudice and discrimination as a result. I would also advise that my inalienable rights are reserve.

Respectfully Submitted  
Steven Contreras

Written Testimony As a Christian I see my body as God's temple..This is the vessel he gave me to navigate this life..I don't have tattoos, I respect, and treat it with care..I feel as though this vaccine( if that's what you want to call it) is a foreign chemical that my body doesn't need..I'm deeply saddened with the thought of my country, one that I served, is taking away my freedoms..I joined the military ready to fight and die for my freedoms. And I am still ready to fight and die for them.. I ask that you look deep into our countries foundation, based on Christian beliefs and make the right decisions..  
Aloha

### Written Testimony

I oppose this resolution as it is a gross violation of individual rights and an overreach of governmental authority by those whom we the citizens elected into office for public service. Additionally, there are MANY living in our islands who refuse to get vaccinated, and their restriction from local businesses will serve yet another potentially fatal blow to our small, family owned businesses.

Written Testimony I am against imposing health passports in Hawaii. It's goes against our rights to travel freely, provide food and shelter for our families, and violates our privacy. It creates a two tier system of oppression, segregation, and racism. It's unlawful under any circumstance. Governor Ige is not our king and does not have a right to rule over us based on his opinion. I reject health passports.

Having been a small business owner and knowing others who are small business owners, it is the right of the business owners to run their business in the way that they see economically profitable. Resolution 21-194, with its mandate on who can enter the business and who can be employed, takes away the rights of business owners.

### Written Testimony

Businesses are already struggling with restrictions that are established. Because many workers who are collecting unemployment make more on unemployment checks than going back to work, businesses cannot pay enough to attract these workers. At restaurants, there is clearly a shortage of staffing in all positions. Requiring businesses to have another person to check Health Cards, will only increase shortages, wait times, and services, discouraging diners from supporting businesses. In addition, only allowing businesses to hire individuals who have taken the vaccine is employment discrimination and does not allow equal opportunity. It makes no difference if money is given to employ more people; no one will take the work and more businesses will be forced to close their doors.

**Written Testimony**

I completely oppose this bill to mandate vaccine passports. It is unconstitutional and infringes on our rights to life, liberty and the pursuit of happiness. It infringes on bodily autonomy and our freedom to move about in this country. It's discriminatory, promotes segregation. It violates the Nuremburg code as an experimental vaccine and had not been tested for effects or impairment on fertility, carcinogenicity & mutagenicity. There are no long term studies on the side effects. Manufacturers are protected from lawsuits from injury, disability or death. It violates medical privacy, and 99.95 percent of those who contract covid fully recover.

Written Testimony I oppose any type of vaccine mandate/passport to visit an establishment. These businesses that have struggled through the past year and a half will struggle even more now. Also, it is discriminatory to impose such a law, as vaccinated citizens aren't demographically constant. This is a civil rights issue that undermines the most basic fundamentals of our constitution. Please think about this deeply and personally before making a decision that will affect Hawaii and it's people.

To Whom It May Concern,

Written  
Testimony

I unapologetically oppose any form of vaccine passport to be mandated in Hawai'i. There is nothing that could make people more divided than another nonsensical mandate with zero science to back it up. It is clear that the Delta variant of Covid 19 is infecting vaccinated individuals at a very high rate. Effectiveness studies show that individuals who have recovered from Covid 19 have antibodies that are 27x stronger than vaccines at repelling the virus. Having recovered within the month from Covid 19, I have no immediate plan to get vaccinated and I am much less likely to ever be sick or infect anyone around me, but a vaccine passport would discriminate against me? There is NO science that supports this behavior. This is wrong on way too many levels and whoever is making these decisions is not interested in public health. The is un-American to take our rights and freedoms away! Shame on you! It is our right to decide what we put into our own God given bodies! Especially a virus that has a 99.98% survival rate! Why don't they mandate the flu vaccine then that kills so many more kids and adults in the year?? This is all about big pharma money and we WILL NOT stand for it!! Shame on you!!

### Written Testimony

Hello, I am a concerned citizen  
I'm concerned about this bill as it will further lead to a two tier class system, further division and eventually, further down the line, it could lead to something worse. We are creating enemies out of hand puppet shadows.  
I've learned in my years on this planet that noting will ever satisfy someone who's looking to find safety, love or comfort outside of themselves. It will never be enough. This is not the way. I oppose this bill.

**Written Testimony**

If someone wants to get the vaccine that should be their choice. I am pregnant and there is absolutely no data to present the safety of this vaccine for unborn babies. I'm not willing to risk the health of my child without proper data to make an inform decision. I have high risk pregnancy and need to receive regular ultrasounds to protect the health of my child. I was comforted by a nurse and almost prevent from entering the hospital to receive my last ultra sound because she asked, without legal right, if I was vaccinated. She became hostile and confrontational with me. You are preventing people from being able to move able society freely and receive the services that we need. If a person wants to risk the vaccine that is their choice. But you have no right to force that choice upon others if they do not feel you have provided the adequate data to make that decision. I oppose you over reaching your power to prevent me from freely moving about society. It's my body, my choice.

## Testimony Re: Opposing Mandatory Medical Devices, Treatments & Passports

Dear Sir, or Madam,

I vehemently oppose vaccine passports.

Please refer to the following:

U.S. Title III of the U.S. Civil Liberties Act which prohibits discrimination based on medical condition.

U.S. Title 52, Civil Rights Act of 1964: Unlawful to Discriminate in place of Public Accommodations

U.S. Title 42, Section 12101: Unlawful to Deny Entry to Persons with Disability or perceived medical condition (ADA)

U.S. Americans with Disabilities Act: Unlawful to Deny Entry to Persons with Disability or perceived medical condition.

U.S. Constitution, 1<sup>st</sup> Amendment, Right to Assemble, Right to Freedom of Speech, Right to Religious Expression

U.S. Constitution, 4<sup>th</sup> Amendment, Right to Privacy

Hawaii Constitution, Article 1, Section 2

All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing and protecting property, and pursuing and obtaining safety, happiness and privacy. Therefore, attempting to deny a human from acquiring property by shopping at a business or to deny their access to services that they have the right to enjoy is unlawful and a violation of Constitutional liberties.

Hawaii Constitution, Article 1, Section 4

Every person may freely speak. A law may not restrain or abridge livery of speech. Therefore, denying entry due to a person refusing the use of a treatment, medical device, or medical passport is a violation of the Hawaii Constitution,

#### Hawaii Constitution, Article 1, Section 4

Free exercise and enjoyment of religious expression without discrimination. If the use of a treatment, medical device, or medical passport intrudes on the religious expression of an individual, that right to religious expression may not be denied.

#### Hawaii Professions and Occupations Code 453-2: Practicing medicine without a license

Requiring someone to the use of a treatment, medical device, or medical passport is a medical intervention. Unless you are a licensed medical professional of the man, woman or child in question, you have no authority to recommend such a practice. You have no legal authority, responsibility or liability to require that of the public.

No "emergency order" supersedes established law. Any "health order" is unlawful and unenforceable by law.

#### Hawaii Revised Statutes 710-1016.6: Impersonating a law enforcement officer

You are not a law enforcement officer and have no authority to enforce any such law or order. Impersonating a law enforcement officer is a crime in this state under Hawaii Revised Statutes 710-1016.6. This violation is a Class C felony and carries a penalty of up to 5 years in jail and fines up to \$10,000.

#### Hawaii Revised Statutes 489-3: Free and Equal Access to Public Accommodations

A business establishment is legally defined as a place of "public accommodation" and as such you may not prohibit entry by discriminating against someone for their medical condition, disability, or religious views. If someone is unable or unwilling to use medical devices or therapies for one of those reasons you may not prohibit their entry, nor may you file a charge of trespassing because of their legally protected status. Having someone else shop for them, or requiring curbside delivery is NOT a reasonable accommodation, as it denies the "full enjoyment and equal access to facilities, services and accommodations," as REQUIRED BY LAW

### Hawaii Constitution Article 1 Section 5: Protection of equal rights

No person shall be denied the enjoyment of civil rights or be discriminated against in the exercise thereof because of race, religion, sex, or ancestry.

### Hawaii Civil Rights Commission Chapter 368: Individuals with disabilities have the same rights as others

Having someone else shop for them, or requiring curbside delivery is NOT a reasonable accommodation, as it denies the “full enjoyment and equal access to facilities, services and accommodations,” as REQUIRED BY LAW.

### Hawaii Revised Statutes 489-8: Disabled have full and equal access

Individuals with disabilities or medical conditions have the same right as the general public to the full and free use of the streets, highways, sidewalks, walkways, public buildings, medical facilities, including hospitals, clinics, and physicians’ offices, public facilities, and other public places. Just as you would not be able to deny entry to someone in a wheelchair, you may not deny entry to someone not using a treatment, medical device, or medical passport of any kind.

Individuals with disabilities or medical conditions have the same right as the general public in attaining full and equal access to all public accommodations and their advantages, facilities and privileges to places of public accommodation, amusement or resort; and to other places to which the general public is invited, including public modes of transportation private schools, hotels, hospitals and public buildings, such as courthouses, government buildings. Aggrieved persons may recover up to three times the actual damages or a minimum of \$1,000, injunctive relief and reasonable attorney’s fees.

### Hawaii Business and Professions Code 489-8b: Prohibits a licensed business to deny service based on disability or religion

Any person who holds a license pursuant to the business and professions code is subject to disciplinary action if that person discriminates in, restricts the performance of, or refuses to perform the licensed activity because of a consumer’s race, color, sex, religion, ancestry, disability, marital status or national origin.

### Hawaii Penal Code 707-721: Unlawful imprisonment

Attempting to prevent someone's entry to an establishment or to restrict, detain or confine their movement without their consent constitutes FALSE IMPRISONMENT, which can be a felony, with the penalty of three years in jail. If you deny someone's entry to your place of public accommodation based on their medical condition or religious beliefs, you are at risk for charged with false imprisonment.

### Hawaii Penal Code 711-1101: Disorderly Conduct

A person commits the offense of disorderly conduct if, with intent to cause physical inconvenience or alarm by a member or members of the public, or recklessly creating a risk thereof, the person:

- (a) Engages in fighting or threatening, or in violent or tumultuous behavior; (b) Makes unreasonable noise;
- (c) Subjects another person to offensively coarse behavior or abusive language which is likely to provoke a violent response;
- (d) Creates a hazardous or physically offensive condition by any act which is not performed under any authorized license or permit; or
- (e) Impedes or obstructs, for the purpose of begging or soliciting alms, any person in any public place or in any place open to the public.

### Hawaii Penal Code 711-1106: Harassment

A person commits the offense of harassment if, with intent to harass, annoy, or alarm any other person, that person:

- (a) Strikes, shoves, kicks, or otherwise touches another person in an offensive manner or subjects the other person to offensive physical contact;
- (b) Insults, taunts, or challenges another person in a manner likely to provoke an immediate violent response or that would cause the other person to reasonably believe that the actor intends to cause bodily injury to the recipient or another or damage to the property of the recipient or another;
- (c) Repeatedly makes telephone calls, facsimile transmissions, or any form of electronic communication as defined in section 711-1111(2), including electronic mail transmissions, without purpose of legitimate communication;

(d) Repeatedly makes a communication anonymously or at an extremely inconvenient hour;

(e) Repeatedly makes communications, after being advised by the person to whom the communication is directed that further communication is unwelcome; or

(f) Makes a communication using offensively coarse language that would cause the recipient to reasonably believe that the actor intends to cause bodily injury to the recipient or another or damage to the property of the recipient or another.

#### Hawaii Revised Statutes 707-716: Terroristic threatening in the first degree

A person commits the offense of terroristic threatening in the first degree if the person commits terroristic threatening:

(a) By threatening another person on more than one occasion for the same or a similar purpose;

(b) By threats made in a common scheme against different persons;

#### Hawaii Revised Statutes 705-520: Criminal conspiracy

A person is guilty of criminal conspiracy if, with intent to promote or facilitate the commission of a crime:

(1) He agrees with one or more persons that they or one or more of them will engage in or solicit the conduct or will cause or solicit the result specified by the definition of the offense; and

(2) He or another person with whom he conspired commits an overt act in pursuance of the conspiracy.

Your inferred, or stated, mandatory vaccines and mandatory vaccine passports requiring free men, women, and children to accept medical treatment, and medical treatment passports as a condition of employment, shared use of public space, or to freely go about their lives without government or corporate interference is unlawful and constitute grounds for major remedies for wrongful coercion.

Furthermore, International law, Geneva conventions and the Nuremberg Codes, to which the United States of America, and therefore Hawaii, is a signator, prohibit coerced and forced medical treatments and any non-consensual medical treatment/s specifically including "vaccinations." This is especially true of experimental vaccines and vaccines that have not had full testing processes and have thereby not been proven safe. "Covid-19" vaccines are not vaccines, they are in fact experimental, are untested, and are not proven to be safe. In fact, there is overwhelming evidence that the contrary is true. Various other Constitutional and Statutory authorities also support public protection against non-consensual vaccination such as statutes covering: assault; public endangerment; unauthorized and unlicensed administration and practice of medicine; and protection of fundamental freedoms and rights guaranteed under the Bill of Rights.

You have failed in the requirement to show that:

- (a) You are a licensed physician of the men, women and children you are attempting to compel.
- (b) We have NOT consented to your recommended treatments.
- (c) MRNA treatments are NOT fully tested and proven safe.

Having so failed, your "requirement" that we submit to your imposed medical treatments, and violations of medical privacy, your attempts to compel us to accept medical passports are unlawful and cause for major actions against you as public servants, as well as any companies or agencies who participate; as you would all be complicit parties.

Unlawfully forcing medical experiments, and medical experiment passports upon the populace is tyranny. It's illegal, unlawful and a violation a private person's god-given, un-a-lieable rights as a human being...which is confirmed by our State and Federal Constitution; the Supreme law of the land.

NO emergency can suspend our God given rights.

Attempting to compel people to wear a mask, use any other medical device, accept treatments, or the use of treatment passports to participate in society is discrimination, harassment, intimidation and fraud.

Every American, every human, has sovereignty and sole authority over their own body.

A mask, vaccines, mRNA injections, other medical devices, other treatments or passports being required as a condition for participating in society is a violation of privacy, and the 4th Amendment; as well as a violation of people's religious liberties.

Requiring masks, other medical devices, medical/treatment, or medical/treatments passports violates our equal use of public resources, parks, transportation, as well as banks, restaurants, stores, etc. and the ability to otherwise freely go about our lives without government, or corporate interference.

It's completely unlawful to enforce codes, statutes and policies that violates our state and federal Constitutions. Any government official, or person acting in a public capacity to serve the private, attempting to compel, coerce, or enforce us to take vaccines, or use masks, or any other medical devices, or use medical passports is a perjuring their Oath of Office, which is a state and federal crime.

NO business, organization, government agency, or public servant has the authority to require medical procedures, the use of medical equipment, or medical passports. We cannot be denied services, or liberties provided to those who freely choose to wear masks, or take experimental gene therapies by their own free will.

Furthermore, any person, agency, civil servant, business or government that compels a private citizen to wear a mask, use medical equipment, etc., is liable under tort law to be subject to lawsuits for (but not limited to): deprivation of rights, loss, harm/injury, emotional distress, duress, financial loss, violation of privacy, coercion, etc. Legal action can and will be taken against them in both their personal and professional capacities.

Sincerely,

Cecelia Marrone

**Written Testimony** I am strongly opposed to this bill as it is a violation of my freedom of choice for my body. Furthermore, it has been empirically proven that vaccinated individuals still transmit and can become infected with SARS-CoV-2. Therefore, people who choose to delay or not receive the SARS-CoV-2 vaccine should not be treated like pariahs and excluded from community.

Written  
Testimony

I strongly oppose this bill to require a " vaccine passport " for entry into public areas ! The vaccine itself has not stopped the virus , so a " vaccine passport " will not stop it either . Also , we will not let the government break up our families . If we are a family of 5, and 2 are not vaccinated , we still want to go out to dinner & public places together . This is government overreach . I highly oppose .

Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

Written Testimony I oppose Hawaii and other states and the private industry from mandating vaccine passports as well as restricting the free movement of the unvaccinated, who may not have received the inoculation for reasons of underlying medical complexity or religious exemption. Vaccine passports violate the Americans with Disabilities Act and would be a step backward for the US Constitution and the rule of law.

**Written Testimony**

I strongly oppose Resolution 21-194. This resolution is in direct violation of citizens' constitutional rights, and I believe each and every member of our state and county governments is aware of this and is acting out of misguided judgement. This resolution is not only in violation of the constitution; it will also cripple businesses and cause undue harm and stress to citizens throughout Hawaii. Suicide, depression and debt are rising within our state at frightening levels, and further crippling our economy and violating citizens' rights with this harmful resolution will only make the issues far worse. I urge the state to oppose this resolution for the wellbeing of the citizens, and as protectors of our Constitutional liberties. This proposed resolution is one more dark step down a path to further government control and a loss of freedom for Hawaii's citizens.

### Written Testimony

I oppose the vaccine passport. Each individual should be able to decide what they want to do with their own body and health. This is discrimination at its finest we live in a democracy not a dictatorship. My family has fought for my freedom and so has many others so for Hawai'i and our corrupt government to try and take it away is ridiculous! By mandating and trying enforce this is an invasion of each individual's privacy and a HIPPA violation. This will impact individuals risking loss of income for their families which could possibly increase Hawai'i homeless rate.

Written  
Testimony

I oppose vaccine passports. My ohana and I are shocked at this attempt to force the people of Hawaii into making a choice against their rights to pick either to work, eat, provide with a proof of vaccine or have no vaccine-be without a job, can't provide for their ohana, be limited by socially and by society of our free rights. This is wrong by the US Constitution and can't be done. Our keiki suffers! Don't mandate vaccine passports or covid-19 vaccines for the state of Hawaii.

Written  
Testimony

The first amendment gives US residents FREEDOM OF SPEECH. This should also include freedom of choice. My best friend is still breastfeeding her 14 month daughter and would rather NOT be vaccinated, as there is not enough research that states the vaccination will NOT transfer to her daughter and give her an adverse reaction. The flu shot has been around for decades, and I fully support that vaccine. The covid vaccine, however, is still relatively new, and should not be mandated across business! This is a violation of our rights!

Written  
Testimony

I believe in an individual's right and freedom to choose what is best for their health. Even if I agree or disagree with their decisions, it is the God given right and right of every American to make that choice. I am against vaccine passports and am saddened that the state would even think its appropriate to mandate us to share private health information to conduct essential business and participate in recreational and leisure activities.

### Written Testimony

In 1936-1939 Nazi Germany, a group of people known as the brown shirts were responsible for checking travel documents. If there was a Star of David on the documents, they were separated from others in the name of safety and health. Those individuals were placed on a different train and received a one way trip to a concentration camp or Aushwitz. Approximately 6 million Jews were either gassed or cremated there. This is a lesson from history that we can not repeat. I 100 percent any type of restriction or mandate requiring travel restriction. Remember history! I also urge you to review the 1947 Nuremberg Code. And remember that you are not exempt from being jailed or other consequences for not following the Nuremberg Code

### Written Testimony

I completely oppose RESOLUTION 21-194. There is absolutely no good reason to impose a COVID passport on the people of Hawaii. The health committee has never pushed Ivermectin, Hydroxicloroquin (sp?), vitamins C, D3, and Zinc which combined at early stages gets rid of Covid successfully and helps keep people out of the hospitals. This has been proven in numerous studies. Furthermore, RESOLUTION 21-194 does not allow for anyone with natural immunization which last longer and is more effective then any vaccine. STOP THIS OVERREACH OF GOVERNMENT NOW!!!!!!!!!!

### Written Testimony

I strongly oppose the proposed vaccine passport for us Americans who have the freedom and right to choose for ourselves whether to vaccinate or not to vaccinate. The current government leadership for this great state of Hawaii who support the proposed mandate, is turning their "back" to "we the people". Mandating vaccines and Vaccine passports go against our basic liberties and freedoms and ignore core elements in the US constitution and bill of rights. Would this mandate implicate those administrators who knowingly, in violation of "we the people's" sovereign fundamental human rights, supported the very opposite? Forcing upon us a vaccine for a virus that has a 99% recovery rate? What about those who already had covid and recovered, why would they need a vaccine for something they've already recovered from? Is this administration heard of the Nuremberg Code? If not I have attached a file for your review.

**Written Testimony**

I am against vaccine passports. To mandate vaccines that are so new and not studied for long is reckless and irresponsible. People have a right to make choices for their own bodies. People can take noninvasive measures to promote safety for the community such as staying home when sick, washing hands, physical distancing and wearing proper medical grade masks, just to name a few. This mandate takes away our rights, discriminates unjustly and perpetuates fear and panic in the community.

"I do solemnly swear that I will support and defend the Constitution of the United States, and the Constitution of the State of Hawaii.....

Your mandates and restrictions are against our constitutional rights!

According to the CDC and what Dr Libby Char for the State Dept of Health reiterated was that BOTH unvaccinated and vaccinated can carry and spread the virus.

The vaccine only protects "the recipient" from severe illness or death.

Vaccination passports to stop or restrict the unvaccinated from entering an establishment will not stop the spread of the Coronavirus! A VACCINATED person can STILL CARRY AND SPREAD THE VIRUS!

### Written Testimony

You want to stop the spread? Test both, the unvaccinated AND the vaccinated.

You cannot duplicate what New Zealand did to control their Covid numbers. You left our state wide open! Not only locals, but also tourists continue to traverse in and out of our state to this date.

The seasonal flu kills 250,000 and 500,000 people every year.

Your concern is that there are no hospital beds left. My question is, where is all the money going from the Federal Government Cares Grant??? Hawaii is ranked #3 for highest amount received from the Cares Grant.

Is it being directed to unemployment? Your mandates and passports are only creating more

loss of jobs!!

Stop with this tyranny and do more research on the history of our past pandemics before implementing these outrages mandates!

### Written Testimony

I strongly oppose Resolution 21-194. The transparency behind covid and its cures have been nil and void. There is so much evidence that is being suppressed and no one in authority seems to want to have a reasonable conversation about this. It leads people to believe there's a hidden agenda. Can you really say at this point it's for our health, with a straight face? People are struggling, the stress level is running so high, small businesses are closing, neighbors are fighting amongst each other. We are becoming a two tiered society. Is this the democratic republic that I grew up in? How will a passport help when we know now that even people who are vaccinated can spread the virus and not even know they're sick. So many examples from other countries, Israel being one of the best ones. Most of the population are vaccinated and now getting covid. Now their getting their 3rd shot. If that doesn't work then what, 4th, 5th, etc. Its basically making big pharmaceutical and insurance companies richer by the minute. How about all the people that have had their vaccine and have been seriously hurt and so many have died from it but the government still pushes and bribes people, negating those poor souls who have been affected. I think we need to slow down and listen to all sides of this, there are many doctors and scientists, even the inventor of the Mrna technology Dr. Robert Malone and so many other reprimanded doctors and scientists who feel the same. Implementing a "show your papers" is so wrong and goes against everything this country is supposed to stand for. I ask you with much respect to listen to your constituents, so many have done the research that seems to be lacking on MSM and there is more to this story then the narrative that's being pushed. If there is nothing to hide then why not a town hall or the like to hear all sides. The voices of those who have been injured are being silenced. Many are hesitant to be part of an experiment that has no long term studies. My body, my choice. Absolutely no one should have to decide between feeding their family, keeping their job or now even going into a business to provide for their families or be a part of an experiment that may injure them for life or kill them. Please do the pono thing and let us decide along with our doctors what is right for our individual bodies, and not be coerced into doing something against our will in order to continue being a part of society. This

vaccine passport is wrong. Please think this through and listen to the voices whom are concerned, there's alot to learn from them.

Mahalo nui loa for listening.

Written Testimony Aloha,  
Requiring a vaccine mandate is against our constitutional rights. To be forced into taking a vaccine is criminal on the states behalf.  
The level of hypocrisy our governor Josh green and David Ige have displayed is disgusting, showing us to do as I say, not as I do.  
They fail to live the life they want us to live. Hidden behind a mask and not able to earn money.  
This is all about money and who is supporting our so called leaders. Own financial gain over the people they are supposed to represent.  
NO TO MANDATES.

This testimony is not submitted because of the "safe access" passport being suggested but the mayor's quote yesterday where he said he would make the vaccine mandatory if the passport didn't work.

Blangiardi: "If we don't see an improvement in 60 days, we will go to mandatory vaccinations."

I would suggest the passport is guaranteed to fail and to drive numbers up. Because...

The COVID "experimental vaccine" doesn't stop the acquisition of COVID. It is meant simply to temper the symptoms of COVID-19. (In practice, I'm not sure that is a reality when Biden is already in talks for boosters every 5 months. And I know of someone who was vaccinated and got COVID-19 who ended up in the hospital for over a week within the last month, locally.)

Written  
Testimony

However, when Pfizer, Moderna and J&J created their "experimental vaccines" they were created upon the Alpha (1st COVID-19) virus. Because the 'vaccines' actually promote the mutation of the virus, the dominant variant is now Delta...with many more on its heels. Therefore, the vaccine you all are mandating is, in fact, essentially obsolete.

Doctors have posited that the vaccinated might be more susceptible to severe disease because of the mutations and "vaccine". Some doctors say that the vaccines are resulting in the vaccinated being more susceptible to other illnesses, like cancer.

The City & County of Honolulu and the State of Hawaii do not understand science. They are following Federal Guidelines and the Feds don't even know what they are doing, except to push the lucrative "vaccines."

None of the "vaccines" that are available are approved for other than Emergency Use Authorization (EUA). None. Because Comirnaty is not technically Pfizer-BioNTech, without the marked labels saying "Comirnaty" with the proper package inserts. The way you can tell Comirnaty is not yet available, is because if it were, it would force Moderna and J&J (both still EUA) off the market.

Since the "vaccine" rollout, VEARS has received more reports of injury and death in 8 months than for the ENTIRE 30 years prior. The EUA "vaccines" should be taken off the market completely, not forced upon the public as the mayor is suggesting!

You all don't promote immunity boosters OR therapeutics. If you allowed for the use of therapeutics, you would find the case numbers would fall sooner and you wouldn't have so many end up in the hospitals.

I was once told by a driving instructor not to only look 5 seconds ahead but 15 seconds ahead to gauge what dangers are up ahead. Isreal is that dangerous "up ahead". Heavily vaxed. Uptick in cases and outcomes is severe. Look at our own graph in Hawaii. The uptick correlates to high vaccination rates. Wake up!

<https://dailyreckoning.com/are-vaccines-making-covid-worse/>

The Biden administration's strategy to universally vaccinate in the middle of the pandemic is bad science and badly needs a reboot.

This strategy will likely prolong the most dangerous phase of the worst pandemic since 1918 and almost assuredly cause more harm than good – even as it undermines faith in the entire public health system.

Four flawed assumptions drive the Biden strategy. The first is that universal vaccination can eradicate the virus and secure economic recovery by achieving herd immunity throughout the country (and the world). However, the virus is now so deeply embedded in the world population that, unlike polio and smallpox, eradication is unachievable. SARS-CoV-2 and its myriad mutations will likely continually circulate, much like the common cold and influenza.

The second assumption is that the vaccines are (near) perfectly effective. However, our currently available vaccines are quite "leaky." While good at preventing severe disease and death, they only reduce, not eliminate, the risk of infection, replication, and transmission. As a slide deck from the Centers for Disease Control has revealed, even 100% acceptance of the current leaky vaccines combined with strict mask compliance will not stop the highly contagious Delta variant from spreading.

The third assumption is that the vaccines are safe. Yet scientists, physicians, and public health officials now recognize risks that are rare but by no means trivial. Known side effects include serious cardiac and thrombotic conditions, menstrual cycle disruptions, Bell's Palsy, Guillain Barre syndrome, and anaphylaxis.

Unknown side effects which virologists fear may emerge include existential reproductive risks, additional autoimmune conditions, and various forms of disease enhancement, i.e., the vaccines can make people more vulnerable to reinfection by SARS-CoV-2 or reactivation of latent viral infections and associated diseases such as shingles.

With good reason, the FDA has yet to approve the vaccines now administered under Emergency Use Authorization.

The failure of the fourth “durability” assumption is the most alarming and perplexing. It now appears our current vaccines are likely to offer a mere 180-day window of protection – a decided lack of durability underscored by scientific evidence from Israel and confirmed by Pfizer, the Department of Health and Human Services, and other countries.

A mere six months of immunity? Will the authorities order us to take vaccination on a rotating six-month merry-go-round? But would not the risk of death or disability rise with each poke?

Here, we are already being warned of the need for universal “booster” shots at six-month intervals for the foreseeable future. The obvious broader point that militates for individual vaccine choice is that repeated vaccinations, each with a small risk, can add up to a big risk.

It’s an arms race with the virus.

The most important reason why a universal vaccination strategy is imprudent tracks to the collective risk associated with how the virus responds when replicating in vaccinated individuals.

Here, basic virology and evolutionary genetics tell us the goal of any virus is to infect and replicate in as many people as possible. A virus can’t efficiently spread if, like with Ebola, it quickly kills its hosts.

The clear historical tendency for viruses crossing over from one species to another is to evolve in a way that makes them both more infectious and less pathogenic over time. However, a universal vaccination policy deployed in the middle of a pandemic can turn this normal Darwinian taming process into a dangerous vaccine arms race.

Is Dr. Malone correct? Are the vaccines forcing a spiraling arms race with the virus? But how?

The essence of this arms race is this: The more people you vaccinate, the greater the number of vaccine-resistant mutations you are likely to get, the less durable the vaccines will become, ever more powerful vaccines will have to be developed, and individuals will be exposed to more and more risk.

Science tells us here that today’s vaccines, which use novel gene therapy technologies, generate powerful antigens that direct the immune system to attack specific components of the virus. Thus, when the virus infects a person with a “leaky” vaccination, the viral progeny will be selected to escape or resist the effects of the vaccine.

If the entire population has been trained via a universal vaccination strategy to have the same basic immune response, then once a viral escape mutant is selected, it will rapidly spread through the entire population – whether vaccinated or not.

### Written Testimony

I oppose Resolution 21-194 because it is unfair and puts undue burden on businesses and Honolulu residents. It will target only certain people and certain businesses, which is unfair. Implementing a vaccination card or passport requirement will not slow the spread of COVID-19. As vaccination rates in Hawaii have increased, the COVID-19 positive case count has also increased. Vaccinations have not been working to reduce the COVID-19 case count. Only safe practices such as masking, social distancing, and testing have been effective at maintaining a low COVID-19 case count. As vaccinated people can still contract COVID-19 and still transmit COVID-19, it is counter-intuitive to believe that mandatory vaccinations or a vaccine passport will lower the spread of COVID-19. Instead of a vaccine card, we need to implement more safe practices that have been proven to work in the past, such as masking requirements outdoors, social distancing requirements indoors and outdoors, pre-travel testing, post-travel quarantining, and limiting the size of social gatherings. Offer more free testing options instead of mandating vaccine cards. Mandate all people both vaccinated and unvaccinated to get tested to monitor the spread of the virus and track it. The vaccinated asymptomatic carriers of the virus may be spreading COVID-19 viruses and not know it because they have no symptoms, but we cannot determine how many vaccinated people are spreading the virus unless they are mandated to test as well. Making every resident test would be a more fair and prudent approach to curbing the spread of COVID-19. It makes absolutely no sense and is unfair that large gatherings such as last week's beach gathering of college students, which was in excess of 400 people was not punished with fines for each violator, and yet unvaccinated people are still being punished for not taking the vaccine. The spread of COVID-19 is still being attributed to unvaccinated people, which is unfair because even Lt. Governor Josh Green says that vaccinated people can still carry and spread the virus and not know it because they do not experience symptoms. The 400 students at the beach gathering were all vaccinated because they were required to be vaccinated to attend college. Yet, this was deemed a potential virus super-spreader event. This fact that the gathering of fully vaccinated college students was a possible super-spreader event is an admission to the

fact that the COVID-19 vaccines do NOT stop the spread of the virus. The COVID-19 vaccinations do not provide immunity to the virus, and should not be relied upon to slow the spread of COVID-19. Vaccination efforts should be redirected towards testing and education. Nobody should be mandated to vaccinate as this is a personal medical decision, and medical decisions should be a self-autonomous choice for each person. I am not against the COVID-19 vaccines, but the vaccination mandate and the vaccine card/passport requirement will not lower the spread of the virus and these efforts and resources should be re-directed towards practices that have been proven successful in the past, such as mask wearing, free testing sites, mandatory pre-travel testing, and post-travel quarantine or testing (which should be monitored and enforced). The government promised less restrictions once herd immunity was reached at 70% vaccination rate. The government lied, as this has not been the case and we have passed the 70% vaccination rate, yet even more of these restrictions are being placed upon us. Government officials need to prove their trustworthiness and make good on what they say, not impose more mandates when we were told restrictions would be loosened.

### Written Testimony

Aloha. I hold much shame and anger in our government officials for even allowing this matter to come to hand. We are human beings with rights of our own. It is unlawful, and inhuman to require "vaccine passports" to allow us into any establishment. It is dehumanizing to those who would like to have control over their own body and own health for you all to kick us out of society. This is wrong on so many levels. Business' WILL take a hit, I thought you were trying to rebuild and save our economy after all the trouble it's been through? Obviously that is not your wish. You do not care one bit for the livelihoods of local native people. I STRONGLY OPPOSE for this ridiculous mandate. We are all aware there is a deeper reason. If the vaccines worked as well as you all say, why are our numbers the highest it has EVER been? With over half the population vaccinated. Think with your brains people, not with your wallets. Ige, and all who support his choices, you are ALL a shame to this state.

### Written Testimony

I am strongly opposed to this bill being passed. This bill is infringing on our rights as citizens to make decisions about our own health. It is unjust to pass a bill that will strip us of our right to enter facilities without a vaccine or test. Tests are hard to come by and it is not easy to find a place that will perform them without symptoms and insurance will not cover if you don't have symptoms. You have also not given citizens enough time to get the vaccine even if they do. The process could take upwards of 8 weeks and that is not enough of an advance.

### Written Testimony

More and more the will of the government is imposed on the people. What ever happened free choice. Women are given free choice to murder there babies and nobody speaks against them I do believe it's called murder where's the voices to speak up against it. I'm starting to see our freedom slipping away. We are law abiding citizens who wear masks despite the proven fact it's not good for you I'm breathing in carbon dioxide mixed with oxygen or if I'm sick I'm keeping the sickness in with the oxygen where's the common sense in that yet I do what I'm told by people who think they know what's good for me. I hear people talking out of two sides of their mouth I know of false positives for my granddaughter was one. People who had this man made evilness of a sickness are told they have to get the vaccine what happened to the antibodies they build up in them because they had it? If you're telling me that's not true then why is it they gather their plasma to give to those that have this sickness how do I know you ask I know of atleast two people who recovered by receiving the plasma. I also know yes know of people who registered to take the test stood in line didn't want to wait left without taking the test and yet they were told they're positive how is that possible. Are we living in Russia or the land of the free USA? I know the seriousness of this man made disease I almost lost a dear friend to it my daughter in law is a nurse but I also know the numbers are not right. I see more and more freedom taken away from us I see fear put into the hearts of people I see a country being torn apart by false news I see lawbreakers coming over the border and given more rights then we the people the law abiding citizens and we'll be paying for them too out of our taxes that we worked hard to pay. What else are you folks who know what's best for us gonna impose on us? This is the United States of America the land of the free or is it. Think of what you're doing to our freedom once it's gone it may not come back this is the United States of America one nation under God indivisible with liberty and justice for all not not divided lost of freedom and the government telling us law abiding citizens what's best for us and where's the justice for we the unvaccinated law abiding citizens. Think people think

Written Testimony  
Per the CDC website, the regular flu has killed more people in the State of Hawaii each year for the last 6 years than Covid has. Where did the seasonal flu go? Eradicated perhaps? The recent hospitalizations are not because of the unvaccinated, it's THE vaccinated!! Vaxed by an experimental drug; A gene therapy!!!  
Those who wish to retain control over our lives will never provide sobering data that argues against the conclusion caused by FEAR.

### Written Testimony

I am a native kānaka maoli resident of Kailua, Oahu and I oppose Resolution 21-194. I am a shop owner. We have seen the economic response of the shutdowns, and have implemented all guidelines to ensure a safe and healthy environment for patrons and staff. This Safe Access program is unconstitutional for those who decide to not get Vaccinated for personal, religious, or health reasons. There wasn't an issue before with those dining in or visiting gyms without the vaccination, why now? Community outlets such as restaurants, coffee shops, gyms, and other indoor activities are vital for the health and well-being of communities and families. It is also the majority of both employers and employees are able to afford our already over-priced living situations. I oppose this unconstitutional program and believe as native to this land strongly urge all in the power to do so to reconsider the ways to make our islands safe that doesn't jeopardize the family owned businesses. I humbly ask you to consider the long-term effects of what this would do to local business, instead of trying to reach for a quick fix to a problem that several other solutions at hand to ensure the safety of all Hawaiians and those who call Hawai'i home.

Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I strongly oppose this resolution.

Much of it cites the sharp increase in cases. Anyone who knows the tests, which lead to the case counts, knows they are not only unreliable, but useless. The people who wrote this resolution are showing their ignorance of how cases are counted and bringing widespread discredit on the competence of the council to govern if this resolution passes.

The tests in Hawaii mostly use polymerase chain reaction (PCR) science, which its discoverer, the late Kary Mullis, said on video could not diagnose viral illnesses. Mullis won the Nobel Prize for his discovery. In other words, positive or negative, they tell us nothing.

But, positive tests are easily manipulated if that's what's desired: increase the cycles used (Ct). The higher the cycle, the more positive returns.

If the PCR tests are the ones primarily being used, one can imagine the inaccuracy of the other tests.

Hospitalizations and deaths have dramatically gone up, they say, since Covid inoculations have been introduced. It's just not politically correct to link the two together. People who have received the shot shed toxic spike proteins and the mRNA that manufacture them in copious amounts, putting the people around them at high risk.

Everyone has heard the accounts of people getting sick from the shot. Kupuna in care homes or in poor health have reportedly almost all received the shot, with many dying within minutes of receiving it. To see one health worker's account of that, see Abrien Aguirre's video of watching 32 kupuna die directly after receiving this "live-saving" shot.

Written  
Testimony

Those cases and deaths are counted as unvaccinated, I'm told by excellent sources, following the CDC guideline which specifies that a case is not counted as fully vaccinated until two weeks after the second shot.

If strong, healthy young people are laid flat by the shot, what do you think it's going to do to the sick and frail? They are dying, but the circumstances of their deaths as well as other "with Covid deaths" are being covered up as "private information." No investigations allowed by the mass media or anyone else. This is no way to run a state, much less a nation which used to be the shining light of the world.

This resolution, 21-194, coercing the ineffective but toxic Covid vax on everyone (it's so bad they're talking about quickly giving boosters), on pain of loss of employment, education and autonomy over the people's own bodies, is an abomination worthy of the Devil himself.

Anyone who votes for it has blood on his hands.

It has been said that there is no protection from any virus especially with a vaccine that is not a standard vaccine. Nothing protects better than our God given immunity!! This product has a lot of proven risks associated...including death. We have 13,627 deaths logged into the VAERS database and according to Harvard this reflects a mere 1 to 10% of actual number. Do you want to push "a treatment" that is more likely to kill people than the illness that has a 99.99x% survival rate??? If so, that shows me you are not smart enough to be running our community! You better do the right thing...God is watching you. This is your chance to stop this insanity and be on the right side of history!

Written Testimony

I strongly oppose the proposed bill to mandate (any sort of medical procedures including) vaccinations. It is illegal and unethical and plays right into the deep pockets of big pharma and corporate America. Both of which I do not trust nor offer consent on matters regarding the health of the public at large. Please see that this testimony gets to the proper committee. Thank you.

### Written Testimony

I oppose vaccine passports in the strongest possible terms. Hawaii State Government and Department of Health have already violated the US Constitution and the Bill of Rights on a daily basis for the past 1 1/2 years. The vaccine passport would put us squarely in 1938 Nazi Germany territory. How about actually following the real science instead of marching to the beat of Big Medicine, Big Pharma and Big Government? I am beyond irate.

### Written Testimony

I am against vaccine passport as this a form of discrimination and segregation. This will only cause more division in the state of Hawaii among its people. Vaccinated individuals are not exempt from carrying the virus and infecting people. There have been many vaccinated people that have been positive and infected others. Why would vaccinated people who still can carry the virus be treated better?

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!  
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code

Written Testimony As a vaccinated person I oppose the passport. The passport alienates, divides and causes discrimination of people with different beliefs. This is america and people should be free to decide what to do with their bodies and what they believe in. The people in Hawaii are still recovering from the past shut down and now will be hurting mentally and economically because of the actions of the current government officials. I feel that this passport will make it worse.

Council/PH  
Committee            Transportation, Sustainability and Health  
Agenda Item        Resolution 21-194  
Your position on  
the matter            Oppose  
Representing        Self  
Organization

Written  
Testimony            I strongly oppose the proposal of a digital vaccine passport to restrict employment and participate in society. The vaccine hasn't proven to prevent carrying or spreading the virus and the number of cases has had a huge spike since the number of vaccinations have risen and travel testing was no longer required for vaccinated people. I humbly ask that you vote no on this proposed resolution

Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

Aloha,  
I am in opposition of Resolution 21-194; the vaccine passport. This is just wrong. It is another overreach of government's long arm that they have no business doing. Implementing the vaccine passports or requiring everyone to only get "vaccinated" will not insure people from getting Covid. That's already been proven. Israel who has had 80% of their country "vaccinated" is proof because those being hospitalized have taken the vaccine. Yet, their Covid case count is up.  
Having the passports will only shut down more businesses, ruin Hawaii's economy and divide our community further.

Written Testimony I suggest that besides pushing the experimental vaccine, the government should offer us other forms of experimental treatments like monoclonal antibodies, convalescent plasma, ivermectin, HCQ, remdesivir and such. Why are all these forms of treatment being blocked? Why aren't individuals getting to choose what they think is best for them? What happened to "my body, my choice?" You are supposed to present and let us choose not force it down our throats. Because you don't, it only causes us to distrust what the government says and does. Change from issuing these draconian measures and truly do what is best for the people of Hawaii by giving us real options to choose what we think is best for us, our bodies and our health.

**Testimony to the Transportation, Sustainability and Health Committee**

I am strongly opposed to this bill. Freedom of movement within our State and country is a fundamental right not to be restricted by such regulation.

The rationale behind the approach has fundamental flaws:

- According to the CDC's own data, the vaccine itself has resulted in a disproportionately high (among vaccines) 95 hospitalizations and 25 deaths in Hawaii alone (13,000+ deaths nationwide) after just 18 months.
- Attempts to force the vaccine upon others (e.g., employer mandates, youth sports restrictions) has resulted in heart problems, miscarriages and other adverse effects, including death, among our kama'aina.
- There are many who have medical or religious exemptions to the vaccine.

It would therefore be unethical (and totalitarian) to impose a passport mandate that basically forces others to accept these unreasonably high risks and be vaccinated or be segregated from society as "unclean". And, as we are now learning, without a true benefit:

- The long term effects of the COVID vaccines are yet to be discovered, and emerging studies reveal that the vaccine actually increases susceptibility to infection in the vaccinated and increases the spread by the vaccinated.
- Highly reputable studies also show that the natural immunity of those who have recovered from COVID is more powerful than the vaccine.

Please look critically at the data - Governor Ige claimed victory when Hawaii attained 60% vaccination, and although we are now 2/3 vaccinated the spread is not contained. Israel is 85% vaccinated and the spread is not contained. Likewise in other countries with high vaccination rates.

The vaccine serves one purpose - the sole purpose for which it was tested - to reduce the symptoms of COVID. Thus its one potential usefulness is for those of advanced age with comorbidities, in order to reduce the burden on hospital ICU capacity.

Mahalo for your consideration and service to our State.

Sincerely,

Ayman El-Swaify

I greatly oppose this bill. I am also disappointed to see Tommy Waters is sponsoring this. Not only is this a slippery slope with no science backing it or reasoning and logic, it causes drastic segregation to those with medical complications who have serious risk to the vaccine and have medical exemption. You are telling them they cannot be allowed into normal society without constantly testing which is discrimination to them and putting many in jeopardy by risking the vaccination. It is also coercion plain and simple and trying to back people into a corner to force them to do something is wrong, and the mayor said that was the goal to force people to change their mind. There are another dozens of reasons why this is an awful, immoral idea that can only open up a can of worms but I will stick with that one because it's a pretty big reason. Thank you

Dear Council Members,

Written  
Testimony

I urge you to consider the proven fact that both Unvaccinated and Vaccinated people can both catch and pass on Covid 19 and its subsequent variants it is completely discriminatory to deny access to any venue, service, or employment based on vaccination status. Please be aware that you are on notice that the county and state will be held liable for any discrimination committed by local and or state governments. Since this resolution would disproportionately affect people, it would be a clear violation of Article I, Section 5 of the Hawai'i Constitution.

**Written Testimony** I oppose passing covid 19 mandate because it is unconstitutional to demand individuals put a substance in their bodies that has more than one way to manage their health (alternative medicine). It is exploitive, polarizing and dangerous to have people segregate from one another and deem them incapable of working thus placing bigger burden on our families and economy. What happened to earlier slogan: we are all in this together?

Aloha,

**Written Testimony** I oppose this passport because not everyone can physically endure the side effects of the vaccine, including me. I have pre-existing reproductive health issues and want to start a family someday, and this lessens my chances, and I want the choice to get the vaccine when it is more developed, but forced upon us at this early stage. Please don't take away my potential to have a family, and the many others who's bodies may not be compatible with this particular experimental drug.

Written  
Testimony

I oppose a mandatory experimental mRNA gene therapy and vaccine passport. It is against the Nuremberg Code to mandate or coerce an experimental vaccine that has no long term studies of the adverse reactions to it. Over 10,000 people have died from this gene therapy and over 2 million people have had adverse reactions including heart attacks, strokes, blood clotting, myocarditis and nerve damage. With over 14,000 of those injured, now permanently disabled. I DO NOT CONSENT.

**Written Testimony**

The freedoms that this country is built on is being taken away slowly and surely by allowing the fact of having a mandate of a vaccine and installing a vaccine passport. The freedom of choice of what goes in the body is being taken away. The transparency of the vaccine cooperations are lacking to show what's in the vaccine and the efficacy is showing that it does not work against the new variant. So until they show us some real results the state of Hawaii should not bring in this new 60 program of a vaccine passport, but to allow people to choose and to allow testing sites like aloha stadium to be open.

**Your position on the matter** Oppose  
**Representing Organization** Self

**Written Testimony** I strongly oppose this bill. It is absolutely Unconstitutional. Elected officials are not above the law. All elected officials take an oath to uphold the Constitution of the United States Republic. If our elected officials break the law, we will withdrawl our consent to be governed. We will not be governed by criminals.

Council/PH  
Committee         Council  
Agenda Item       Resolution 21-194  
Your position  
on the matter      Oppose  
Representing      Self  
Organization

"Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and "mandate by executive order if necessary" a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

### Written Testimony

I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you."

**Your position on the matter** Oppose  
**Representing Organization** Self

**Written Testimony** This is an infringement on our rights to freely move about the country as living souls. Please do your research as the the unconstitutionality of limiting movement to any human being in pursuit of life and liberty. You will be held responsible for this infringement. Hawaii as a nation or as part of the United States has championed life and liberty to move in aloha. This resolution goes against everything these islands have stood for in antiquity. Stop the madness. As a Kupuna, I oppose any limitations on ability to get groceries or pursuit of relationships outside the home for myself and other elderly regardless of whether or not an injection has been given. You have no legal right to do this.

Written  
Testimony

Aloha,  
My name is Will and I am a resident of Oahu, Hawaii. Firstly, I'd like to say I strongly oppose this bill for vaccine passports. (21-94)  
It is completely wrong and it sad that it is even up for discussion.  
Many lines are being crossed here with our freedom and I am afraid we won't be able to come back from it.  
On the other hand, these mRNA vaccines are completely new and we have no history or experience with it. Why would we want to say something changes and messes with our DNA? We are being totally and utterly used as lab rats.  
"These vaccines use mRNA that directs cells to produce copies of a protein on the outside of the coronavirus known as the "spike protein".

In conclusion, it is wrong to take the freedom of choice away from people. This goes against everything that America stands for. It is our body's, and we should be able to decide what we put in them. Thank you for the opportunity to speak up, I say this all with love and aloha.

Mahalo,

Will

### Written Testimony

This "resolution" request is against our constitutional rights, our civil liberties & our freedom of CHOICE. This is not how the government supports its people to require @ restrict their rights. This request is also DISCRIMINATION against a certain population. Replace the word vaccine with words like religion, race, gender, ethnicity, this resolution would be deemed ILLEGAL and that is exactly what it is.

Written  
Testimony

This is another undue burden on your constituent business owners and their patrons. This will do nothing but put Hawaii's economy into an even worse state. This will also harm tourism, unemployment, and normal lives of your residents. This amplifies the continued divide amongst the community. Our freedoms are continuing being trampled upon with not foreseeable end or benefit in sight. A people driven by fear is not a free people.

Written Testimony I strongly oppose this bill. Nobody should be able to mandate what gets put into my body or my kids body. That goes against our constitutional rights. What happened to our right to freedom, our right to choose? Now when it comes to the Pfizer vaccine being FDA approved, and you feeling you can mandate it now because of that, that whole debacle is not Pono and you know it. If nobody does their research they won't know that the Pfizer vaccine that is being distributed now in Hawaii is not the one that got approved. The people here are still being given the vaccine that is still under EUA and you know it. We cannot be mandated to take a vaccine that is not approved and still in trial, against our will.

### Written Testimony

If the vaccine was the magic bullet I would be thrilled and on board however, it is very clear to me that this shot is not the answer. Studies have shown that people who have gotten the experimental shot still carry and transmit Covid virus therefore how can you discriminate against People who have not gotten the experimental shot for the thought that they may transmit COVID-19. This experimental gene therapy Is not a traditional vaccine and there is not proper studies to show that it is safe. On the contrary one of the side effects for this experimental gene therapy is DEATH. How can you expect healthy people who have a 99.9% of surviving the sickness to take a shot that may cause serious health problems for the rest of their life or death? I can see clearly that this is not about safety, it's not about covid or even the shot. This is about control. There are many people who have received the shot and are very against vaccine mandates because they believe in freedom of choice. As our elected officials it is your duty to listen to the people . Go within your heart ask yourself do you want our freedoms stripped away? There are many people who cannot get the shot even if they wanted to how do you expect these people to be a part of society when they can't even get necessary items to live without this deathly jab. This is pure discrimination and control tactics. I am aware that the numbers have been inflated to bring us into a fear state I am aware that death could have been prevented with proper care and early treatment . We now know that there is other medicines that work just as well or better and treatment of Covid. Healthy lifestyle , healthy diet , immune boosting supplements , ivermectin , HCQ These are all examples of medicines that have been proven to work And naturally fight off this virus successfully. Please listen to the people I have elected you. We have elected you to stand up for our protection and safety it is your job. Please consider the extensive research that has been done now that the vaccine has been available we can see that it is actually very dangerous especially to young people. Please listen to your heart and do not be persuaded by the higher ups because your freedom is at stake as well. Thank you

Your position on the matter Oppose  
Representing Self  
Organization

I think the resolution is unfair and a violation of civil rights. Medical information is private and protected yet people will be required to disclose their private information in order to eat or perform some other basic need. What if you were infected and you cannot have a vaccine? What if you are not a candidate for the vaccine? What if the vaccine represents a greater risk to the individual? This resolution opens doors to discrimination and isolation to people who are not "the Norm".

I am a firm believer in pro-choice, regardless of what my beliefs are about vaccinations. At this point, vaccinations are not the issue at all. Freedom is the issue...and medical autonomy.

They have tried this type of resolution in other countries and failed. At this point, I believe it's more about control than health and safety. Is this what we want in our free country? Is this what we want for our beautiful Hawaii?

Written  
Testimony

I think time, energy, and money is far better spent finding a better solution for testing. I was exposed to Covid on Tuesday and it was reported to the department of health. I tested positive using an antigen test because the first test available was Saturday and I felt it was too long to wait to find out if I was contagious. I contacted the health department to notify them yet three weeks and a second negative test later, they have not only not responded to my call but they have also not instructed me on proper protocol. I did my own research. This is a problem.

I believe the biggest problem is people using "negative test" and "vaccinated" synonymously. The concentration should be there. I believe this is the reason for recent surges. There is too much responsibility put on the "vaccinated" label. "Vaccinated" does not mean negative nor does it mean 'cannot become infected' nor does it mean 'cannot pass the infection' and these are the true issues that should be addressed. This is a very dangerous way of thinking!

Written  
Testimony

I strongly OPPOSE this resolution to restrict access of private citizens to basic rights of living based on one's private medical decisions. This is discrimination. There is mounds of research and data that state a vaccinated individual is just as likely as an unvaccinated individual to catch and spread the COVID 19 virus which would make this resolution irrelevant and unnecessary.

Aloha,

It is unnecessary to mandate any type of verification notifying you've been vaccinated or unvaccinated. Everyone has the rights and liberties under HIPAA to keep their medical information private.

Written Testimony I oppose any bill, resolution, amendment or requirement needed for vaccination verification or Covid-19 test results (any variant thereof) to any place of business and travel or pre-travel testing. It's unnecessary. Everyone must choose to keep themselves healthy in every environment, it's not the government's nor an organizations responsibility / job to do so.

Thank you and aloha,  
Clint Chinen

### Written Testimony

As somebody who has worked in healthcare for several years, obtained a Bachelor's of Science in Microbiology, and religiously promoted the efficacy of vaccines, I am not speaking from a place of anti-vax fear and misinformation. I oppose this government mandate for a vaccine that is nothing more than an inoculation, not a cure, for the current global pandemic. I have been fully vaccinated against COVID-19 since April 2021, and made the choice to vaccinate myself after several months of deciding whether it was the right choice for me. In the meantime I continued to wear a mask, regularly wash my hands, and keep away from friends who were feeling sick, and in all that time of being unvaccinated and practicing kokua for myself and others I never took a positive covid test or even so much as had a cold. It is everybody's personal responsibility to follow cdc guidelines for stopping the spread of covid, and whether that includes getting vaccinated or not, the government has no place mandating a medical treatment that still hasn't proven able to stop the spread of covid without continuing to practice social distancing and proper PPE use. If the government cannot mandate respect for others and personal responsibility in following CDC directives for slowing disease transmission, then mandating a vaccine will simply yield more of the same distrust in public health advisors, friends unwilling to even discuss taking a COVID-19 vaccine, and the anti-masking "freedom" fighters that are desperate to feel bodily autonomy in the face of a mandated vaccine passport. Additionally, privately owned businesses already oppose this resolution and are beginning to sow deeper division between humans as "vaccinated vs. unvaccinated" which is directly in opposition to the goal of getting humans to care for each other like we are all in this pandemic together. America has bred a

very ugly variant of this virus through division of the people and their fear of a tyrannical government when all that was needed was non-pretentious public education and open dialogue with people about their responsibility for personal health and the health of others around them. Vaccines work, but are an ineffective tool without compassion, open discussions, and trust/respect of the people choosing to take them.

The most disgusting part of this resolution is how it will unfairly impact kanaka maoli, the true owners of these islands, because without U.S. military presence and over-tourism supported by the U.S., the islands would be a safe haven from COVID-19 and Hawaiians would not be facing a mandate for a Western-medicine-borne vaccine set in place by a government which unlawfully overthrew their own barely 100 years ago.

Council/PH Committee Council  
Agenda Item Digital health passports here in Hawaii  
Your position on the matter Oppose  
Representing Self  
Organization

I'm strongly opposed to this Bill.

Exposing medical information to those who do not have a need to know is unlawful and unjust, and doesn't support American freedom. To add, it's sick to understand that vaccines are used in human cells from aborted babies.

As a Christian and believing God's word, which never comes back void, the Word of God says:

Psalm 139:13-14 NIV

For you created my inmost being; you knit me together in my mother's womb. [14] I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well.

Written  
Testimony

How can we play God and abort babies, isn't that murder? Then to use those cells for profit to inject others in these so called vaccines being used today.

On top of that, many have already received this gene therapy mRNA and still contracting COVID-19. They're not subjected to being tested in airports because they carry a vaccine card but are still carriers as proof has shown to infect others. This doesn't make sense at all. God designed our bodies to heal itself as long as we get the proper nutrition in. There are proven studies as well as eating raw garlic that kills viruses. Why are we so focused on injecting healthy people? That is not right.

Under the CDC site it states the following:

MRC-5 cells Including DNA and protein, sucrose sorbital, monasodium I - glutamate, sodium phosphate, sodium barcarbonate, potassium phosphate monoba, phosphate dibasic, neodymium, bovine calf serum.

This matters to me because, I Believe that human beings are created by God and his image. Therefore every person, from conception to natural death, possesses inherent dignity and immeasurable worth - Including preborn children, elderly individuals, those with special needs and others marginalized by society. Christians, then, are called to defend, protect, and value all human life.

Jeremiah 1:5 NIV

"Before I (God) formed you in the womb I (God) knew you, before you were born I (God) set you apart; I appointed you as a prophet to the nations. "

Please watch the "Are fetal cells used to make vaccines? Under the Children's Hospital of Philadelphia website.

<https://www.chop.edu/centers-programs/vaccine-education-center/video/are-fetal-cells-used-make-vaccines>.

The vaccines are also in EUA not approved status per FDA. Corporations and service members are mandating individuals to get vaccinated when they are in Emergency USE Authorization and not at all approved plus do not prevent getting covid. We have a 99% of surviving the virus and only a 94% of making it through after being vaccinated. My brother n law had adverse effects from the vaccine along with my sister and unfortunately my brother n law passed away recently with a heart condition that his doctors started he never had heart issues prior in all his medical records. Whistle blowers have come forward from Pfizer and CDC reporting the 1000's of deaths from getting the vaccine and 100s of 1000s who have had an adverse reaction.

God will take down evil and has proven that many times in the Bible with Truth.

Please Fear God and not the world!

**Representing Organization** Self

We have all seen the benefits and the detriments of science in the wrong hands. I am very aware of how many assumptions and biases are employed when making large scale decisions without having to take into account variety and sample size.

I have both benefitted greatly from and been deeply traumatized and physically ruined by the medical industry. Many times over! what went wrong: removed a gland that did not have cancer in it, given a mislabeled prescription bottle ( was to be an anti-inflammatory but was Oxycodone), new laser surgery to remove my uterine lining (developed years later into a nightmare nobody could figure out), last but not least Wilcox Hospital released me with a pill rather than an IV with observation for 24-48 hours (summer 2019) which caused me paranoia for which I am still overcoming that emotional trauma.

### Written Testimony

Yet, through all these sad incidents, I have never sought retribution. I am no longer a professional engineer. I find design work out of my reach now. It is challenging to piece my life back together again. My life savings are almost gone. This is what human decisions done to other human beings without taking the time to investigate create in our world. Those of us that fall between the cracks and nobody looks back to see whatever happened to that lovely brilliant person.

I have a BS in civil engineering from the University of Vermont, worked as a civil engineer for more than 20 years, and obtained my license as a professional engineer. While I represent myself, I also speak on behalf of those whom are not aware and do not know they have the opportunity to submit testimony on this today.

There are many personal experience reasons that I oppose this. I am concerned about the pressure that is being exerted on those of us already vulnerable to get something that we have experience with being harmful to our bodies. I have been through enough with medical incompetence and being made a Guinean pig to further science.

I have heard many stories that say to me that people deserve to make their own decisions about what feels right for their body. Within the US, there are historical reasons for its citizens not to trust it. Therefore, I beg tolerance and understanding rather than belittlement and bullying when trying to sweep people's fears under the rug. You only embolden the leaders that are taking advantage of those fears and make them richer and more powerful.

I am 55, since the time I had a flu vaccine when I was under 40, I have often been a riddle to medical doctors. I nearly died quietly at home when a flu just days after the flu vaccine wreaked such havoc on my body. I got up in the middle of the night to go the bathroom, while on the stool, I passed out, I woke with my head between the tub and wall, lying in a puddle of vomit. No, this was not an allergic response but my immune system does not do well when injected with something. As proven by the next year when I was unable to work for more than five days with the flu after trusting that dam flu vaccine again.

Additionally, I am better immunized than those of you with the vaccine. I traveled during COVID from India in March 2020 to the UK. My companion and I got separated by planes and airports in order to return early. He is a Chinese Medicine practitioner. He had been reading of what was happening to his country (UK) and reading about how allopathic and traditional Chinese medicine were working together in China to save lives and rid the terrible symptoms that followed. He wanted to be near his own herbal dispensary to help his community and family should they need him. We cut our vacation short by a week. Despite being the only ones masked on planes and in the airports and sanitizing our hands often, we both came down with COVID (no testing was done at that time). I did better with it than he. Likely it is what I had when we thought I had walking pneumonia in Nepal, Jan 2020.

He had the classic symptoms and then some more. Spiking fever and labored, raspy breathing while he slept frightened me terribly. He instructed me on what herbs to give him and I did so. Then I got in and held him and prayed and pictured a white light coming in. That is all too woo-woo to mention likely, but it is my truth. Days later, he was complaining my cooked dinner had no taste. I do season lightly but he was burying it in salt and still complaining. We learned after that of the other symptom of COVID.

Please don't make me wear a yellow star or tattoo me. Haven't I been through enough? Hasn't the world? Can't we put more hospital beds

back in action? My sis is a director at a newborn nursery at Dartmouth Hitchcock. She is completely overworked with all the babies being born during COVID but she has been overworked for years. The smaller hospitals are shutting down and people have to come to the big University hospital that is now expanding in more buildings to keep up with capacity. Our world was going in the wrong direction before COVID. COVID shows us all the places where we went wrong.

Let's find ways to heal the problems rather than create more through separation and bullying. Thank you if anyone actually read all of this. I appreciate you.

Aloha,  
I am a resident and business owner in the state of Hawaii. I strongly oppose the enactment of a "vaccine passport". It is a blatant violation of our basic human and constitutional rights. Many businesses had to close their doors last year including me. Some have never been able to reopen. This is so devastating in so many ways. I've lost all employees and am struggling to keep my doors open. This is my only source of income and it is detrimental I not have to close my business. This mandate, not law, would destroy many people's economic and mental well being. Furthermore it would encourage segregation and is a direct violation of basic rights. I am seriously OPPOSED to this ludicrous mandate.

I strongly oppose Resolution 21-194.

Written  
Testimony

Vaccine passports are an act of segregation that goes against our medical freedom. It exempts the vaccinated from needing to get tested, but it has been proven that both unvaccinated & vaccinated individuals are getting covid.

This is dividing people to support a corrupt agenda. We, the people, have the right to choose what is right for our health! This bill does NOT respect nor protect our agency & autonomy.

### Written Testimony

I strongly oppose the implementation of or requirement of any vaccine mandates or passports as being proposed. It is a violation of my constitutional rights of freedom. I am responsible for my health, not any government entity or official. By the Constitution , as American citizens we have the right to freedom of movement, commerce and choice. Again, I strongly oppose the thought of, or the implementation of any requirement of a vaccine.

**Written Testimony** Vaccination status is a private health matter, denial of access to services such as grocery stores and restaurants is a violation of human rights. You are turning this from a public health crisis to a Us Vs Them issue. You have no problem with tens of thousands of tourists coming through and meeting at large luaus that bring in revenue for the state, but your are quick to target family gatherings. You serve the people not your own interests.

Written Testimony Never have I ever thought that it would come to this, where we have to stand for our rights as a Americans to decide what we want/don't want to put in our bodies. With all our the skepticism around this vax, I do not trust or want any of my family to be injected with something that is not our choice. Do what's right and let the people make their own decisions. Aole vax passports!

“Vaccine Passport” is in clear violation of our constitution rights!! This is clearly discrimination and segregation at it’s finest!! Risks to our personal privacy and freedom are serious concerns that YOU our elected officials have turned a blind eye to!!

Written  
Testimony

Providing proof of vaccination on demand will also create an additional means by which to exclude already marginalized individuals from society. I’m also very concerned about who is authorized to validate vaccine credentials. If front-line employees are responsible to check credentials, there is the risk of bias and discrimination on the part of workers on who they target. There is also the risk of verbal or other abuse directed at workers from potential patrons denied access.

Lastly and most importantly being vaccinated doesn’t fully prevent an individual from catching or spreading the virus to other’s!! This is a proven FACT!!! So tell me again why would you want this mandated???? In my opinion this is another dangerous message that you’re sending out to individuals who are vaccinated by giving them a sense that they’re so called “Safe” from spreading COVID to others!!! I OPPOSE VACCINE PASSPORTS!!!

Aloha. I feel incredibly betrayed and disappointed in the handlings of covid by the government. With no explanation or clarifications to where the increase of numbers are coming from, even without vaccinations, The numbers were not this high. The vaccinated are still catching covid.

It is ones choice, one right, what to do with their bodies. To segregate, mandate, force, bribe the public to vaccinate is wrong. Are you teaching children to allow people to do things to their bodies which is against their will? Is this the example you are setting?

It is nobody's business to know any health information of all individual. No one. This is a breach.

**Written Testimony**

Please have forward thinking. Hawaii is already in debt. There will be mass lawsuit against government officials, businesses who comply, establishments who comply. I see lawsuits from federal against city and state. Please.

This virus needs to run its course. We are teaching the world to be in fear.

You are putting establishments in a tough place where irreversible damage has occurred from the pandemic. You do not need to make things worse.

You are causing division.

Are you American? Tell me if all is this is American to you. Look at history. Have you forgotten?

I feel incredibly betrayed by government officials. Please fix this relationship because I know others feel the same.

Written  
Testimony

I oppose vaccine passports. You can't just ignore natural immunity and recent recovery from Covid. Everyone can spread this silently especially the vaccinated. How does that make sense? What is the passport for then? This is punishment and manipulation that hurts everyone. Segregation divides and businesses are forced to Gestapo their loyal customers. Why would anyone stand behind a mandate that sounds like the mark of the beast? Turn away from the need to control people's lives and dividing people. Satan wanted to rule by force. Heavenly Father gave us our free agency. We are accountable for ourselves and keeping our community safe. 2 Corinthians 3:17 Now the Lord is that Spirit: and where the Spirit of the Lord is, there is liberty. That's why this passport feels wrong.. no spirit of the lord in this bill... It takes away Liberty!!!

Written  
Testimony

First, I wanna express that the vaccine mandates are wrong. The public is misinformed about what the vaccine does. It doesn't stop infection and although may help with symptoms of covid is not safe to put in your body. How many people have to die? Swine flu vaccine was stopped after 53 deaths. I get that there is a power above you guys, but you have to cut your losses and stand up for what is right. Vaccine passport? Why? It won't stop infection. Let's get the truth out to the public. Yes, there will be a lot of angry people but what do we teach our children? It's always better to tell the truth. Don't do this. I'm unvaccinated but it's a choice. No more of a choice then to get vaccinated. My choice is from the Lord most high. I lost my promotion at work because of mandates. Be transparent and know the vaccine passport is out of the question. Thank you

Agenda Item Resolution 21-194: Covid Health Card  
Your position on the matter Oppose  
Representing Self  
Organization

I strongly opposed Resolution 21-194 which is suggesting that Covid health cards (aka vaccine passports) be implemented in Hawai'i.

### Written Testimony

This is just too extreme a measure to enforce upon the people. Covid is an upper respiratory infection. Over 99% of healthy people recover from it. There is a lot of evidence to support this.

There is absolutely no reason why our civil liberties are being stripped away. Please don't let fear rule out good-sense decision making. Please don't let monetary incentives be the reason we sell out our rights, liberties and freedom.

You, our elected leaders, must be willing to educate yourselves on the real truth and help to educate the people. Please take a stand with us to do the right thing. Enough is enough.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

**Written Testimony**

I strongly oppose to this unlawful activities that the unlawful government forces us to do such thing.  
I do not comply and I do not agree to it.  
The shot is not going to stop us from infecting to covid and delta.  
Even if you get the shot, you still get infected and you can carry it and spread it. It doesn't matter how your symptoms are mild or not. It doesn't matter.  
This shot passport is not going to help us from decreasing the numbers of infection cases on this island. all of you know that but still trying to push this irrational thing to people of Hawaii. Not acceptable. Many more small businesses will shut down for NO REASON. And that's such a sad thing.  
Please don't put our people to the edge where they have to quite and throw away everything they have. Why does it have to be mandatory. Why do you folks have to force this? Why?  
We all have our own choice to our body, our life, our right. Please stop this. Stop dividing people by vaxxed or not. It's not right. It's not right.

Written  
Testimony

My body my choice. Life has many risks, The so-called Covid vaccine has dangerous risks, in fact many have died soon after the injection. It has not been thoroughly tested overtime and the serious adverse side effects are very real. People have a right to make their own decisions with regards to such an injection of toxic foreign substance and should not be penalized if they decide against this so-called vaccination. To mandate this gene therapy experiment which is not a traditional vaccine is a crime against humanity and violates the Nurenberg code. To restrict residents from normal access to businesses, employment and activities unless they have a health card/vaccine passport is a serious offense against our freedom and civil rights. Just say no to this fascism!

Written  
Testimony

Covid recovery rate is 99.998% for age under 70 years old. And Covid vaccines already killed over 45000 people within 72 hours after the shots and nearly 200,000 died within a week after the shots only in USA.

Covid vaccines are killing more people than Covid itself and 72% of Delta variant positive patients are fully vaccinated but we don't hear those news on mainstream media since their biggest sponsors are the big pharma and vaccine is trillion dollar business.

Former Vice President of Pfizer, Dr. Yeadon says, "I'm a pro-vaccine but this is not a vaccine and gene therapy and not safe! It' 50% more likely kills children!"

mRNA vaccine was tested on animals for SARS but all animals die within 2 years so it was never approved to use for human body. Covid mRNA vaccine was skipped animal trials and first time used for human body and were the experimental. All Covid vaccines trials will be completed in 2023 and there are absolutely no guarantee for the safety especially for the children. I have all materials to support my arguments.

This bill against humanity rights and constitution and should be never granted in anywhere in the United States.

**Written Testimony**

I am in opposition of the vaccine passport as it is a gross over reach of government in the name of health and safety. Requiring a vaccine passport to dine in a restaurant, go to the movies, or go to any business without a covid vaccination is discriminatory. This vaccine passport mandate does not take into account:

- 1.) Those who have contracted covid and recovered with natural immunity which studies have shown are 10x better than receiving two doses the the current covid vaccines.
- 2.) The current vaccine has not been tested for long term effects & has many recorded side effects. Pfizer is still currently in their "testing phase" according to the FDA.
- 3.) Those who are unable to take the vaccine due to medical issues.
- 4.) The fact that there are large numbers of residents within an age bracket that on the whole, would not suffer major complications or require hospitalizations due to Covid-19.

If the government truly cared for the health and safety of our community, the main focus would be educating the community on how to live a healthy lifestyle that requires a minimal pharmaceutical approach and a focus on building the immune system naturally. Rather than abuse of government power to coerce the public into accepting an experimental vaccine without allowing them to decide on their without the fear of discriminatory repercussions.

Mental health issues have also become more prevalent this last year, and more establishments that help people with mental health should be more easily accessible to the public.

As a citizen of the USA and a resident of the State of Hawaii, I strongly oppose and request that Resolution 21-194 be dismissed.

Written Testimony I have been a visitor of the island for many many years. I would love to be able to visit family and friends on the islands and be able to see those loved ones. America is about freedom and the freedom to choose. I can not stress enough how much having those freedoms is so important to the people. That is why we left Britain in the first place. To walk away from a tyranny and a way of life that did not allow the choices of what goes in our bodies or what we can and can not do if we decide against something.

### Written Testimony

I am mortified that our state government is even considering these unconstitutional measures. There are numerous ways you as our representatives can 'do something' about this outbreak without removing our civil liberties and imposing discriminatory, ineffective draconian policies like this. NO vaccine passports! No interference with the rights of private citizens, and businesses! You do not get to decide what is best for me and my health, where I can go and what I can do based on your preferred political beliefs. Strongly, vehemently oppose, and I wonder what Hawaii you are trying to create with these tactics. No!

Do you know what's funny is you people think the government cares if you die from the flu. If you people were smart you would all resign and fight back with us against all of this ridiculous medical terrorism. Nobody in Washington DC cares if you die from the flu but you're willing to sell out your children's futures to create a dystopian hell for what are you getting that much money? Are you being bodily threatened? It's not normal to usher in your own slavery what is going on? You're going to be in the same boat real soon if you keep floating all this tyranny.

Written  
Testimony This is creating segregation within our community. Have we not learned from history? Discriminating against those who are unvaccinated is the new segregation. Those who are vaccinated can catch and spread the virus, but yet are allowed to have freedom while the unvaccinated are vilified and their rights are being taken away. I urge the committee to not make the same mistake of discrimination that was done in the past and not pass resolution 21-194.

Agenda Item RESOLUTION 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I oppose RESOLUTION 21-194 due to the fact that we, as American citizens, should have the freedom to make any and all health decisions in regards to our own individual health and safety. It is unconstitutional and unethical to not even suggest but to MANDATE medical decisions upon us as individuals. On top of not being able to make our own health decisions it infringes on our privacy.

### Written Testimony

As a DOE employee I already have to test weekly in order to keep my job. Many in education, health care, public safety do not want to receive the vaccine. Whether it's medical, religious, or strong personal beliefs, it should not matter.

On top of that, stated by CDC, healthcare workers, and other health organizations, the vaccine does not prevent either the spread of Covid or catching Covid. Alternative treatments, preventative measures, and testing for all should all be the main focus if we are all capable of catching and spreading Covid. This invalidates the vaccine passport. If a vaccinated person is asymptomatic and does not need to be tested, they will silently spread the virus within restaurants, bars, gyms, etc.

Again, I am strongly oppose this resolution due to the reasons stated above.

Written Testimony I strongly oppose vaccine mandates and passports!  
There are countless medical studies that say that natural immunity is better. Look at the country of Israel as an example.  
As a healthy person, that already had the COVID 19 virus (which was exactly like the flu), I strongly oppose taking this vaccine and am in extreme opposition to vaccine mandates and passports!!!

Tommy Waters,  
As a resident who voted for you, it is quite disappointing to see you mandating vaccine passports for business, employment, etc. Unvaccinated people have rights as much as the vaccinated. If you really search you'll find it's the vaccinated that are infecting the unvaccinated. Even if you block all unvaccinated people from these places, Covid will still thrive. Please don't segregate and divide our community more than it already is, you will be tearing our community apart, this is not what a steward of the taxpayers money should be doing. There has to be ways that are fair and reasonable. Please seek Jesus on your decisions, He will provide you with His wisdom. I voted for you because your Mother-in-law who came to my door, reminded me of a Mom who truly lived and supported her daughter's husband...I thought you'd have a heart for the minority folks. I pray you see how your resolution is affecting so many lives in our community.  
Thank you for your thoughtful consideration.

God Bless you and your family.  
Audra

Written  
Testimony

This resolution is unconstitutional, divisive, and against HIPPA. It does not promote health, safety or equity. It is discriminatory and will affect the mental and physical health of our Island by marginalizing those with valid concerns over accepting a drug that has proven side effects including death. Until there is transparency on actual covid numbers and actual efficacy of the “vaccines” people will continue to have valid concerns. It is time to discuss and offer early prevention and treatment instead of mandating something people are unwilling to accept. Are we now communist Hawai’i? Only in communist countries do people have to show papers to survive. Do the right thing!

### Written Testimony

We shouldn't segregate our community. We should be looking into other treatments for Covid. In other parts of the world and in the Continental US, Ivermectin has been used to rid people of Covid Symptoms. I know of a few friends that used Ivermectin here in Hawaii and their symptoms were gone in 2 days when taken as soon as they noticed symptoms. But if you were to ask for it for Covid you are told no. Pharmacies have told many, including myself, they would not fill prescriptions for Covid related issues. Causing more segregation will not solve problems. Looking for more ways to treat Covid, not segregation, will bring better solutions. It really seems like people are trying to force others to do something to their body that they do not agree with. It is like peer pressure but not just from adolescents, or friends, or family, but your own government and politicians that are supposed to stand up for all of its people not just a select group. Anytime there is pressure to do something that you do not agree with is called Bullying.

Written Testimony This is the most horrific proposal I have heard in my lifetime, turning us into a discriminatory and segregated population. It will not end well for the government officials who support this.

Written  
Testimony

I am against HR21-194 and a digital health card. It discriminates against someone who chooses not to be vaccinated and it puts undue hardship & costs on Hawaii's businesses to comply. By implementing a system like this it is taking away people's freedom of choice on how they handle their body. There are other alternatives that can be offered to the public that the state & city has not offered and given as much attention to and has only chosen one way to deal with covid-19. Our government is responding out of fear & is trying to take away our rights. Since when was power given to the government to decide what is best for our bodies. No doctor or study or even the FDA can guarantee that the vaccination will prevent or deter covid-19 being contracted. And higher percentage of vaccinated people doesn't mean covid-19 is going to decrease. There are other options that the hospitals have not offered or the state and city has not pursued. Please do not pass this Resolution HR21-194 until further research is done. Please listen/read reports by cardiologist & epidemiologist, Dr. Peter McCullough who has studied covid-19 and has successfully been treating his patients with other alternatives. Thank you.

There are approximately 800,000 registered sex offenders in this country that do not have to show any paperwork to anybody because it violates their rights to privacy. Please treat the residents of Hawaii with the same consideration shown to convicted criminals.

Written Testimony What happened to all restrictions terminating once Hawaii reached 70% and travel restrictions at 60% ?

My government is not in place to protect my health, it is in place to protect my rights.

My family and I are strongly opposed to this proposed resolution for many reasons that are directly related to the rights that are protected by the US Constitution, basic human rights afforded to ALL without prejudice.

It has never been the governments responsibility to manage the publics personal risk. Not to mention those who have natural immunity from having covid and/or have stayed healthy over the last 19 mos are almost certainly better off with longterm immunity while the vaccinated are not only getting covid, but they are dying too!

How is a vaccine passport justified if the injections DONT provide protection from infection? The messaging that the vaccinated dont get as sick has been debunked across the globe. Please shut this resolution down and allow the public their medical freedoms to manage their own health. The overstepping in Hawai'i must stop. It hasnt worked for the last 18+ months! From the Vaccinereaction.com:

"The new mantra: Vaccines may not prevent you from getting and spreading coronavirus, but at least they will keep you out of the hospital and save your life. But that is not necessarily true.

Vaccinated Americans are being hospitalized for Covid and dying of the breakthrough coronavirus cases in Massachusetts 445 cases resulted in hospitalization and 106 and death. Of the cases in Minnesota, 514 fully vaccinated people ended up going to the hospital and 57 died. Of the ones in Tennessee, 272 required hospitalization and 39 died.

These are only a few examples. Last week the New York Times published an article, which includes a chart that lists the number of hospitalizations and deaths for breakthrough cases by state. Judging by the numbers provided by Massachusetts, Minnesota, and Tennessee, the times chart is out of date. However, it serves as a reference Point. Here's a few more facts to ponder... Hospitalizations for breakthrough cases in California, Michigan, Illinois, Arizona

Written  
Testimony

and North Carolina – 843, 569, 563, 379, And 321 respectively. Deaths for breakthrough cases in those five states 88, 223, 151, 34 and 61 respectively you are so health officials in the main stream media will consistently try to remind the American public that these hospitalizations and deaths numbers for people of whom the vaccines failed to protect against infection with the SARS-coV-virus are rare, given the millions of people who have been vaccinated.

But where exactly is the line between rare and common? It is certainly not rare to the person who got vaccinated after trusting that he or she would at least be protected from serious illness or death only to discover otherwise.“

Mahalo for hearing our heartfelt cries to end these oppressive measures.

Written Testimony We virulently oppose vaccine passports!! They are farther reaching and an exponentially deep intrusion into the privacy of each citizen that by far outweighs the seeming practicality of them. Once instituted the exponential damage, intrusions and violations would be impossible to reverse. There are other equally practical solutions

Written Testimony Is this a free country? I'm not so sure these days. We all have a right to choose what goes into our body's and no one should tell you what to do with your body. Stop the tourism and covid numbers will go down for sure! You guys want to mandate vax for locals but let tourist come here with no test because they have the vax but they can still be covid positive and pass it around to our local people. This is how this got so bad if we only had all of us here how would covid keep spreading?? Stop punishing the local people and start doing your jobs! Stop trying to make as much money as you all can on this bs and change the things that need to actually change.. Stop tourism open Maui for the local people cut out mandatory vaccination because this is not the time of the Holocaust! People died to give us these rights over our own body's and rights in general remember our history and don't repeat it!

Organization

Written Testimony I pray for our leaders in the State of Hawaii and all Mayors in our counties. As much as I try to understand the decisions made by our leaders, I strongly oppose this bill. What's next, we need to be vaccinated to go grocery shopping. Go into corporate America stores, Costco, Sam's, Target, where is the social distancing and limiting the amount of people in their stores.

Elected officials,

This is a pivotal moment.

A vaccine passport will create a two tiered society, not one based on Aloha, not Pono.

From the beginning of this crisis elected officials, medical bureaucrats, the media, have orchestrated a campaign based on fear.

This infection has had several proven effective, safe, and low cost treatment since the early months of 2020.

**Written Testimony** The medical institutions made grave errors in only going with the cdc guidelines, which were largely to not treat people until they needed to be hospitalized and then with harmful drugs, such as Remdesivir, and the fatal ventilator.

Nebulized hydrogen peroxide, vitamin d levels, zinc with hcq the list goes on, but no, it was proclaimed to be an untreatable disease the likes we have never seen before, everyone pray for a miracle vaccine before it's too late.

Doctors with amazing track records of success, even within very old patient cohorts were summarily ostracized, censored, and sanctioned for going against the shortsighted cdc guidelines. What a shame what a sin.

People were never given guidance on the bigger picture of immune health. Surely you all realize how many unhealthy citizens there are. People who died had more than 2 comorbidities and were generally the very old. Many of these wonderful kipuna were on their way to die and in many places in the world they were sent to assisted living facilities with no effective treatments where the other patients also got the infection and there were huge death tolls. Death is an inevitable part of life and the end times should be experienced in a climate of peace, and love, surrounded by family, not isolated and in fear.

People were warned not to go outside, so they became more sedentary and avoided the life giving sunshine that has been the simplest free anti microbial on the earth.

People who know how to live a healthy lifestyle and who are equipped to treat themselves at the earliest sign of illness or prophylactically should never be coerced, shamed, or forced to have a pharmaceutical experimental substance put in their arm.

Take a good look at the world situation, Israel has now proven that the vaccinated are becoming infected at an astonishing rate.

If people want this chemical in their body, I suppose they have a right, but only after they have been clearly explained the risks, which are not a few.

And children? My god people, have you lost your minds? How could you ever justify this behavior to vaccinate the most robust among us? And without any idea of the long term effects. Remember that other vaccines take at LEAST 7 years before they are approved.

Stand up and make your voices heard, or at least ask the hard questions and don't just ask the other colleagues that are parroting the narrative. How boring and cowardly they are.

We demand medical sovereignty. This is a god given right.

Mahalo,

Francis Spalluto  
Makawao, Maui, Hawaii

Your position on the matter Oppose  
Representing Self  
Organization

### Written Testimony

I oppose this mandate because we have our Constitutional Rights as American Citizens. We should be able to have the freedom to make a choice for our overall health. Since the beginning of the pandemic I've been doing my responsible part by masking ,social distancing and clean hygiene. and been Blessed to be Covid Free. There are Medical alternatives for treatment and our Immune System is capable. The vaccine has not been working for some and in some cases made healthy people sick. It does more harm than good in my opinion. I oppose this Resolution 21-193.

Written Testimony I strongly oppose resolution 21-194. I personally am following all recommended guidelines. I wear my mask, I sanitize and I distance. Segregation was supposed to have ended a long time ago. Discriminating of vaccinated and unvaccinated is the same form of discrimination that was abolished. A lot of testimonies to side effects and death from taking vaccine proves it is unsafe.

Written Testimony

It is a violation of HIPAA. It also cause even more segregation in the community. Along with drastically damaging the local businesses that make Hawaii Hawaii. If protecting the community and keeping hospital beds empty were actually a priority, the state would have taken the initiative of provide better health education. Eating right, exercising. But no, we allow people to eat fast food, smoke cigarettes and vape. And the excuse in the past is oh people have the freedom to make those health choices for them selves. If they deserve the freedom to poison their bodies, we also deserve the freedom of what goes or does not go into ours.

Who made you my mother's keeper? Vaccination mandates should not be mandatory nor supported by a devisive tool such as Vaccine cards and/or proof of negative tests. It is my human right to choose what medical tests, optional therapies I wish to accept. Those that choose to remain unvaccinated should not have their privileges limited or taken away. the reality is, masks are being mandated for 'all' —CDC still doesn't know if vaccinated people can pass the virus to others, without testing none of us knows if we have the virus or a cold (when most people only have mild to moderate symptoms). Yes, that is still the case. There is no reason for this over-reaction to a virus that still has a 98% recovery rate. Let's change the focus! Masking up, social distancing, human behavior is the better focus and will keep our economy running and growing.

Written Testimony Aloha,  
I am a flight attendant for Hawaiian Airlines and am opposing the mandate for vaccine passports. I believe this will create segregation in the community and is a display of discrimination. I am pro freedom of choice not anti-vaccination. I also feel this mandate will cause many small-businesses to suffer.

Written  
Testimony

I am a local farmer who never gets involved in politics, but I have to speak out against this tyrannical "vaccine passport." As citizens we should have privacy about our individual health and medical choices, and these choices should not be the government's business. It's ironic that after months of tourists jam-packed into our islands, our politicians now want to "protect" us locals by denying us access to stores. Segregating the population and restricting who can go to local businesses is a slippery, dangerous slope to division and is a shocking overreach by our politicians. We each have the right to choose what we think is best for our health, and that freedom should be protected.

Written Testimony I oppose the mandatory force of utilizing vaccine passports to gain access to daily activities. This is discrimination and will not help in stopping or slowing the spread of COVID. Vaccinated ppl can still catch and spread COVID. Which deems this nonsense control tactic that infringes on our rights useless. You Mayor are creating and further fueling the divide between ppl in our community. With your distasteful hurtful rhetoric and ill thought out mandates. This type of mandate does not make us feel like we're in this together.

Organization Small businesses  
Written Testimony We, small businesses, strongly oppose this resolution for “digital vaccine passport” as it will put further insult to MANY small businesses by reducing the number of current customers we currently service. The key is appropriate ventilation via hepa/merv filter to reduce the spread of small particle that are recycling in enclosed areas.

Written Testimony This is discrimination in every level . We scientifically know that being vaccinated does not stop allowing you to carry and spread virus so why does the vaccinated population get more rights then the unvaccinated . Do you stop obese , diabetic or health compromised people access due to the fact that what they may be doing may in fact be compromising their health? Have any of you been affected by a vaccine injury that will forever affect your lives ? Well I have so never again will I feel forced or trapped into taking something I do not feel safe in taking . Will you be the ones paying for care if something God forbid was to happen to a loved one after feeling trapped into taking a vaccination ? By following through with this bill you are dividing a community . You are telling us locals that the american rights we are promised no longer exist .

### Written Testimony

A vaccine mandate especially in order to travel or needing it in order to prove to get into places goes against our rights. It is supposed to be voluntary yet mandates are the opposite of that. This virus won't be around forever and yet we are setting up laws that will be. I have the vaccine yet I don't believe we should need it to prove anything, what we getedically is personal, that goes for even this vaccine and yet we are forcing are medical information to be public in order to be able to travel which goes against many of our rights as Americans and as people

Written  
Testimony

I am against this resolution as it is affecting already over burdened citizens in our State. Just as the State needs to recover financially, so do our homes. The elderly are in need, yes health wise, but more so socially. I have seen my father deteriorate since this pandemic started. Locked in his home because he is so afraid to leave his room. He took the vaccine and he still lives in fear. In both of my parents, my mom who just recently retired at the age of 80, has been showing signs of depression. No one should be mandated to do something when it comes to their bodies, no one has that right. People are financially frantic because ALL of us needs our jobs. The government will not support us, the Unemployment office has not been fixed. People are still waiting for their money. I oppose this bill because the government has no right to take away my rights as an America Citizen.

Written Testimony Please say NO to the vaccine passports. Maui has elected you as our voice, not the voice of an underlying agenda. Our businesses, people and students have had enough of these mandates, which clearly aren't working for us.  
We do have the right of Freedom of choice.  
Local Families are leaving this island. You will not have enough workers to fill your work force. You have severe employee shortages already.  
When will you stop listening to your superiors and funders and start listening to the people who elected you.  
My family and every friend I know do not consent to the vaccine passport. We will not support it in any way including financially.

### Written Testimony

Please do NOT pass the vaccine passport mandate!  
I've now been told by now five (!!!) different medical doctors, that I should NOT take the second shot (I took the Pfizer) after I told them a bit of my medical history, told them my reaction to the first shot, and then shared my blood work three weeks after the first shot. It was not good.  
I'm open to sharing my story with you – my reaction, blood work, my past history with meningoencephalitis...  
Please. The vaccine is not a one size fits all shot. The vaccine is not a one size fits all shot.  
The vaccine is not a one size fits all shot.  
Given what happened to me, that second shot could potentially kill me, given my own personal medical history.  
Further, the vaccine passport mandate will only divide (perhaps irreparably). It will not help. It will cause further mental and emotional turmoil. It will ruin families and friends (it already has) and we will see many more suicides as a result.  
We can handle COVID better than this. We have to.

Written Testimony My body my choice. You will also destroy business In Hawai'i because everyone will not support the business that obey the mandate. Other than that, those with vaccine carry and transmit Covid as well and at a higher rate than not vaccinated. Those with the vaccine are still getting sick.

It's a basic human right to choose what goes into your body.

Written  
Testimony

I strongly Oppose this! I do not believe you or anyone else should have the right to try to segregate people based off of medical choices! You have no business mandating something that requires medical choices upon others. You have created so much fear around a virus that is 99m9% survivable and cdc has already announced the vaccine doesn't work and the ones who have recieved this vaccine can still catch covid and spread it! You allowing the vaccinated to continue on with life as normal yet they are walking viruses spreading it is insanity. Natural immunity is where it is at. Just like the flu which has been known to kill more people and be more deadly than covid. You need to stop playing GOD! YOU ARE NOT GOD!!!! I will continue to do what's best for my health and body as well as for my kids. I will not allow someone who knows nothing about me, my health or religion make medical choices for me. I'd you are going to force this vaccine you better be ready to assume 100% liability for me and my family. Should any of us have injuries or die I will be coming to you for compensation and I'm not talking the small amount that is set aside by the government. I'm talking I want full pay along with yearly increases due to a raise and cost of living. EXAMPLE: My husband gets this Shot because you mandate it and he has to provide for our family. He dies or becomes permanently disabled because this unfortunately is happening far more with this Shot than you are allowing to be put out in the media. OK, so he dies. He makes well say 100k with a yearly 15% raise yearly and bonus check. I will expect you to honor that every year for the rest of my life. Otherwise it'll be a cold day in hell before I allow you or anyone else to make a medical choice that can affect my livelihood and income for me and my family. If you want to mandate something you need to assume 100% responsibilities for said mandate. That includes my income... This tyranny needs to stop.

Hawaii is a deeply loving, supportive and diverse community. You have one of the most knowledgeable, compassionate, loving physicians here in your midst (Zach Bush MD among others) there ARE inclusive, compassionate and loving means right here in Hawaii to be taken advantage of. Why on Earth do you want to restrict EVERYTHING Hawaii has ALWAYS stood for?

Written Testimony Especially when you do not know and have not properly and thoroughly examined all the facts! Should you be held responsible because you moved forward with issues you do not know that you do not know?

I highly recommend you open your hearts, open your minds and resolve this issue in the Hawaiian Way!

Written Testimony I vehemently Oppose any form of vaccine "passport" or requirement to show proof of vaccination to enter Any establishment or public space. It's my God-given right to decide what I put into my body, and anything that restricts that right is a violation of my Constitutional rights! If you vote for this you're just as bad as what the Nazi's required in Germany in the 1930's. You swore an oath to uphold the Constitution and we expect you to abide by that oath. If you voted for a woman's right to choose an abortion, yet oppose this, you're being a Hypocrite. Not trying to be disrespectful, just stating the obvious. Thank you for taking the time to read this.

To those whom we have voted into office to serve the needs of the community. To those whom we trust will listen to their constituents over payouts.

I am a physician. I have taken care of Covid patients both vaccinated and unvaccinated. I have taken care of patients who have had complications from the vaccine in the hospital. I have taken care of vaccinated patients who have ended up hospitalized with Covid pneumonia. I have taken care of many vaccinated individuals who contracted Covid and unvaccinated who have contracted covid. I am well-versed in the needs of the community.

Written  
Testimony

I swore an oath to do no harm. Patient autonomy and informed consent are the ethical foundation for which I operate my practice. The psychological torture of forcing a vaccination on anyone is detrimental. The people who are being coerced into taking a vaccine at this point are doing so to buy their social freedoms and keep their employment not because they believe they will be safer. This is a violation of the Nuremberg Code. It is dangerous and it sets an ugly precedent that will lead to further segregation when we should be coming together in unity to understand that medicine is not cookie-cutter. Bodies are not cookie-cutter. Clinical judgment matters. Risk assessment matters. I did not realize that the government went to medical school. What is the need for my clinical judgment with mandates that put patients in cookie-cutter categories as though everyone's reaction to the vaccine is going to be the same —especially when we only have barely a years worth of data on humans with this vaccine.

I understand the dilemma of needing to keep the community safe. Not once have we stopped tourism over the last year and a half and now we are requiring vaccine passports? The science is conflicting - the CDC has confirmed that you are still likely and able to both contract and transmit coronavirus being vaccinated. It has given people a false sense of security and vaccination passports do nothing to further the welfare of the community in Hawaii. It will

shut down small businesses, it will hurt patients economically, psychologically, socially. These are the repercussions of faulty mandates.

I beg you -listen to your constituents and think about what you're doing - why the punitive measures to the people. I can attest to the fact that food insecurity due to a loss of income will only further poor public health outcomes. And that is only one example of the repercussions that will follow.

I oppose the vaccine passport mandate and am pro-informed consent. There also needs to be the allowance for choice where there is risk of death. Medical exemptions are stifled and limited to either anaphylaxis or previous injury to this vaccine. Religious exemptions are polarizing and the state of Hawaii does not allow for logical, philosophical exemption or scientific discussion - the voices of those scientists who cry out to object are blunted.

I fear that we are disposable.

Written Testimony Freedom of choice! This is absurd! Since this vaccine has come out, there have been way more cases of COVID than before the vaccine came out! To make it mandatory to have a vaccine passport to travel and to enter such places, will definitely put a dent in businesses and there might actually be a possibility for the business closure due to less customers.

Aloha,

I oppose Resolution 21-194 as I feel everyone should have a right to make their own decisions.

Written  
Testimony

Since the start of Covid, my family and I have cancelled all family events and gatherings and I'm very careful when I'm outside or at the store. To put this in place would make it worse for people to live their lives. How are people supposed to feel confident in their everyday lives when these added restrictions are implemented.

Covid can also be spread if a person is fully vaccinated so what will happen if the numbers don't go down, will the vaccinated be held accountable too?

Mahalo for allowing me to share,  
Lindy Lau

Written Testimony I STRONGLY oppose this bill, which is unfair and not scientifically based, as vaccinated people also spread the virus! And wearing masks, which we will all be doing indoors, greatly reduces transmission rate! Many people, such as myself, can not be vaccinated due to health reasons, and this is a violation of our rights to freedom! Please make good choices on our behalf- we depend on YOU to kee this country free.

### Written Testimony

I strongly oppose this agenda. How can we say this is the land of freedom when we can choose to abort or not abort a fetus but we cannot choose to put a vaccine in our body that we have every right to deny. My body, my choice, right? We are supposed to be “United” but we are being divided into vaccinated and unvaccinated. This is not what it means to share “aloha” or even to be “Ohana”. We need to be safe, I understand but to force people to put something in their bodies that they are unsure of or do not want is unlawful, unjust, and immoral. Let’s be the Hawai’i that we are meant to be and be a leader to the other states.

Question: how does proof of vaccination and a negative test within 48 hours stop the spread of covid?

Written Testimony A person could be vaccinated and still spread the virus. A person could take a test 48 hours ago, be negative, but contract the virus in the 48 hours since being tested.

Written Testimony Aloha. I hold much shame and anger in our government officials for even allowing this matter to come to hand. We are human beings with rights of our own. It is unlawful, and inhuman to require “vaccine passports” to allow us into any establishment. It is dehumanizing to those who would like to have control over their own body and own health for you all to kick us out of society. This is wrong on so many levels. Business’ WILL take a hit, I thought you were trying to rebuild and save our economy after all the trouble it’s been through? Obviously that is not your wish. You do not care one bit for the livelihoods of local native people. I STRONGLY OPPOSE for this ridiculous mandate. We are all aware there is a deeper reason. If the vaccines worked as well as you all say, why are our numbers the highest it has EVER been? With over half the population vaccinated. Think with your brains people, not with you wallets. Ige, and all who support his choices, you are ALL a shame to this state.

Written Testimony

We are taking away our individual rights and discriminating against those that choose not to take the vaccine for personal reasons. It has now been scientifically proven that prior exposure provides greater immunity without the vaccine. That the vaccine does not prevent transmission nor does it prevent getting infected again so it's a misnomer to even call it a vaccine. We need to stop and pause as to the effects of mandates without valid scientific reasoning, proof or even common sense.

### Written Testimony

The vaccine passport is 100% unjust and unconstitutional! You are trying to take away the right of choice and I will not stand for that. We all should be in control of what is in our bodies. Trying to pass this and make the passport a real thing is going directly against our amended rights. In stead of this why don't you encourage people to eat healthy and exercise? Everything this passport stands for is backwards and wrong, the fact that this is up for debate and even a possibility makes me lose all confidence in my elected officials. Tommy Waters, you will never get my vote again.

Written Testimony We the people of Maui, who have elected YOU to be our voice, are asking you to say NO TO THE VACCINE PASSPORTS!  
Our businesses have been through enough! Our citizens have been through enough!  
We have the rights to FREEDOM of choice!  
Do you want to inhibit tourism? Do you want small business owners to leave the island?  
We the people do NOT consent!  
Your focus needs to shift and start testing the visitors coming into Hawaii! People who are Vaccinated or not vaccinated are still getting sick and still able to transmit covid.

Written  
Testimony

In the matter of Vaccine Passports I stand in opposition, as I am highly concerned regarding the erosion of our civil liberties. This is a treacherous decline into the same social shame and tyranny of ideals which led us into genocide during world war 2. I stand in opposition to any measure which limits personal freedoms, free market society, and the right to choose what each puts in his or her body.

Written  
Testimony

Requiring a mandate to enforce vaccinations for COVID-19 is unconstitutional. The state will be setting it self up for law suits. Not everyone can take the vaccine because of age or medical issues. Furthermore, no one talks or reports all of the people who have been infected with Covid-19 and have immunity to the virus with out getting a vaccine. Why are they not counted towards the herd immunity? We will never be able to stop COVID-19 with vaccines. The virus can be spread from humans to animals and vice versa. Stop trying to enforce tyranny on the people of Hawaii. Shame on you!

Aloha and thank you for taking the time to read my response/testimony.

My family and I strongly oppose resolution 21-194 and any other resolution that implements the use of a vaccine passport or the likes of it.

### Written Testimony

I am stunned and in shock to be living in a time when our leaders; that we so carefully elected, would think a “vaccine passport” is even remotely an okay thing to implement on the people of Hawaii.  
This is evil and wrong for so many reasons.

### Written Testimony

Good morning,  
I'm writing to you today to oppose agenda item: Resolution 21-194. I feel as if this is all a bad nightmare, but each morning as I wake up & I realize it's not. Having your rights taken away and being coerced or bullied to do something that pertains to YOUR individual health seems straight out of another world like in those terrifying horror movies we have all seen at one time or another and were thankful when it ended cause we all thought, thank goodness it's just a movie and that would never happen here!?! I humbly ask that you please reconsider what you are wanting to put into action that will have devastating long term consequences for all humanity. You will be pushing the people more apart and into disunity more than ever before.

Thank you for taking the time to read my testimony. I would like to please pray for you or whoever is making this decision...Dear Heavenly Father, I ask for your wisdom and discernment to come upon all those in Hawaii and throughout the U.S.A. that have been given the authority by the people to serve, protect and to uphold the constitution for all humanity that will see like you see and beyond, to have the understanding to lead with integrity, wisdom, mercy, truthfulness and remembering to always turn back to you the Lords of Lords and King of Kings from the beginning of time till the end. I thank you for your protection over all of them and that you would bless them and their families in pursuit of a Godly nation under one God, in your precious son's name Jesus~Amen!

Written Testimony Aloha,  
I've never lived in a totalitarian society and I hope I never will. We are demanding protections so that Hawaii doesn't become a place where we have to carry papers in order to move around. That nowhere meets the definition of freedom. Others may go into more detail than this but I'll just close by saying that I own a business and there is no way we will be imposing these kinds of restrictions on any of our customers. At the same time I am requesting an immediate review of a recent study released by the Public Health England showing approximately two thirds of covid /delta fatalities were of vaccinated individuals. This deserves investigation and an immediate halt to all vaccine mandates is the right response to data like this.

Aloha City Council Representatives,

I write to you today to express my vehement opposition to Resolution 21-194.

Written  
Testimony

I am in strong opposition to the implementation of a vaccine passport. The concept of the vaccine passport created two new classes of people, the vaxxed and the un-vaxxed. I am not opposed to vaccines. I myself am fully vaccinated against infectious diseases as is my child. However, at this time, I am not ok administering an experimental vaccine that has no long term studies nor is truly approved by the FDA to myself or my child. I strongly adhere to the idea that what goes into my body and the body of my child is and should always be MY choice alone. The city council, mayor, lieutenant governor, and governor has absolutely no business involving themselves in personal medical choices. The mere sponsorship of this resolution by City Council Members Tommy Waters and Esther Kia'aina speaks volumes about how these council members truly feel about the concept of community and service. Resolution 21-194 only serves to hurt and divide our communities further. This resolution will significantly hurt our small local businesses that are already struggling to stay open. Does the city council not consider how many hundreds of local businesses shut their doors forever? In the next 60 days, have you considered how many employees will work less hours, earn less income, and perhaps need the assistance of the unemployment division. Will help be there if it is needed? Will people be able to find other opportunities to thrive with consistent work if vaccines are now a requirement of hire at many places of business? The discriminatory and segregating tone and intent of this resolution will not help our people and communities to heal from this past year. There has been so much suffering for many. When will enough be enough?

As public Servants, voted into your current positions by the people of your districts, I ask you to know your place. We put you there. We can vote you Out.

I implore you to do your civic duty and help communities to excel. Help individuals and local

businesses to thrive and be successful in their endeavors. Please consider how damaging the passing of the implementation of the vaccine passport will be. The vaccine passport is creating division and segregation. The vaccine passport is discriminatory. Encourage and foster Unity within your district's communities. Live Aloha Always. Thank you for your time.

Me kealoha Pumehana,

Michelle H Thompson

Good Morning,

As a state focused on the well-being of its local residents, the proposed resolution to require "a digital vaccine passport program for private industry to restrict individual access to Employment, certain business establishments, and other venues and places of public accommodation," is misguided, flawed and detrimental to our community. The proposed mandate negatively and disproportionately impacts Local community members, immigrants, blue collar and gig workers who have made our state function during these intense lock down times. This resolution is unprecedented in the United States and discriminatory to the above people, as well as at-risk populations who cannot get the shot.

Written  
Testimony

Requiring proof of a shot that has not endured the standard and rigorous five to ten year FDA approval process is Reckless and Draconian. The State of Hawaii and Federal Government cannot provide comprehensive data that proves the shot is safe and does not have long term negative health impacts. Mandating that all taxpaying and law abiding citizens be forced to get a novel and permanent pharmaceutical injected into them is unconstitutional, discriminatory and dangerous. The long-term health and well-being of our community members is at risk if you mandate vaccine proof. Digital proof is the same thing as mandating the shot for everyone; you are forcing it through removing all employment, consumer and enjoyment options. Not to mention the logistical and financial nightmare this mandate will cause for small businesses who have to enforce this Law.

Finally, I urge you to review history to understand the magnitude of such a mandate. For example, "On September 1, 1941, the Reich Minister of the Interior decreed that Jews over the age of six in the Greater German Reich were required to wear a yellow Star of David in public at all times." Why? The Star of David was mandated as a means to publicly identify, humiliate, and isolate Jews - eventually leading to the murder of over 6 million people. While

this seems unrelated to your proposed resolution it is not. The Nazi regime employed propaganda to impress upon Germans that the Jews were not only subhuman, but also dangerous enemies of the German Reich. A number of groups were also targeted as enemies or outsiders. They included Roma (Gypsies), homosexuals, and Political Dissidents. Also targeted were people the Germans viewed as genetically inferior and harmful to "National Health." The regime aimed to elicit support for policies designed to permanently remove these PEOPLE from areas of German settlement. These groups of people were defined into a cohesive group and publicly deemed enemies to NATIONAL HEALTH. National Health has regularly been used to divide and isolate groups of community members over the centuries. Please do not let history repeat itself. As a Jewish person, I am terrified to see how a vaccine mandate will be taken further to justify more medical modifications, group segregation and potential eradication. Having worked in the health field for 20 years, I know there are many ways to curb the impacts of diseases - a vaccine passport is an extreme measure that will not gain the desired public health benefits.

Mahalo.

### Written Testimony

A vaccine passport is totalitarian, segregation, and unconstitutional. You prove all suspicions of corruption right when you make moves like this—measures that have nothing to do with science and public safety, and everything to do with taking bribes from companies with trillion dollar budgets to pull government strings. Those of us who have survived COVID would like the simple respect of also being considered vaccinated, but that would make too much sense scientifically and makes zero money for you and your stakeholders. Your first responders worked FEARLESSLY all last year when there was no vaccine, just a need for them to be brave and professional. Now you threaten/bully those very professions? Telling them that they have no choice on what to do with their health when they are all quite capable of making informed decisions? You are not dictators. You are public servants PAID FOR BY US, THE PEOPLE—a complex collective that does not have one size fits all health. Those of us who still want to see the results of the longterm study, ready in May 2023, have the right to do so. Shutting us out of society will only crash your economy and cause chaos, riots, and mental health issues with subsequent violence that you cannot even fathom. Also, you don't have the bandwidth or the police force to oversee these mandates. In sum, your vaccine passport suggests an Orwellian reality that you might want to rethink.

### Written Testimony

Aloha,  
We are making you aware of Groundbreaking Research along with Basic Science Facts using the Gold Standard of the Bio-Psycho-Social Model that irrefutably prove that the Covid Vaccine Passport is actually an unneeded intrusive measure that is unjustified.  
We have completed a 35 year exhaustive Integrative Research Study irrefutably proving the following facts with Direct Observation, Evidence- Based Scientific Research, Natural Laws of Nature and Physics, Logic and Common Sense.  
Basic Evidence Based Science, Common Sense and Ethics only support the use of interventions in which the intervention's risks do not outweigh the risk of the disease that the intervention attempts to ameliorate.  
Statistics prove that approximately 2 out of 1000 die with Covid, or less than 1%, with the majority of those already having pre-morbid conditions that put them on an early path to mortality.  
Basic rational behavior does not support exposing people to the risk of "Warp Speed", less vigorously tested Vaccines, Economic Shut Downs and Quarantine measures when Excess Stress is proven to exhaust the Immune Response, trigger Auto Immune Response - Cytokine Response Reactions that increase Infection-Death Rates, while also directly creating and increasing Mental - Physical Illness, Addictions, Conflict, Divorce, Violence and Suicide.  
Why would any calm, logical, or scientific person risk certainly harming the short and long-term Health, Happiness, Unity and Survival of 99% of a healthier population, in an attempt to possibly save 1% of the sicker, weaker population?  
That is actually a proven attempt to defy the most basic Law of Nature of Natural Selection. As is irrefutably proven, such a Response is directly proven to be a Mismanaged Stress - Anxiety Assessment - Response to begin with.  
This is easily proven to have occurred in using the Spanish Flu as a Comparative Analysis Assessment - Response to create the most Optimum Response to the Covid - 19 Flu Event. A Bio-Psycho-Social Model is irrefutably proven to have not been accurately applied, as it

has been promoted that the Spanish Flu was a more Biologically Virulent Flu. Obviously, if a calm, logical, Non-Anxious Scientist, Medical Professional or Lay Person didn't rush hastily, they would have to first assess the Psycho-Social Environmental Interaction with the Biological Variable to make any accurate Bio-Psycho-Social Assessment - Response of any Flu first.

The Spanish Flu was during World War I which is the most Stressful event a human can experience, which thus creates exponential Immune Response Exhaustion chronically and Hyper-Immune Cytokine Storm Response acutely, thus directly, exponentially increasing Infection-Death Rates. This thus easily proves that the Spanish Flu was most certainly set up to be a highly Psycho-Socially Virulent Flu event with exponentially greater Infection and Death Rates than a normal Flu.

Some illogical Scientists would then try to still suggest that it was a Biologically Mutant Strain, as the Flu unusually killed a high amount of 20-40 year olds, instead of just the usual elderly and young infant population. Once again, "Warp Speed" rush job, overly anxious, illogical, Unscientific, false conclusions, not adhering to Basic Science and Common Sense. What age range are your soldiers in close quarters with poor sanitary conditions exponentially increasing Infection - Death Rates? 20-40 year olds, obviously. No mystery or "Mutant Strain" there.

It is tragic that such a core foundational error has irrefutably been proven to have been made in the entire Covid Stress - Assessment Response due to Industrialized Humans Baseline "Stressed Out" Rush Job - Hyper-Tension Response Pace, from a Mismanaged Stress - Assessment Response of the Scientists - Medical Practitioners - Political Leaders themselves. Obviously, your job as a Civic Leader with a "Duty to Inform" is to immediately cease any further harm to the Public Health and Safety by promoting any further Stressful Intrusive Unwarranted Contraindicated Measures from Misapplied Non-Science, that harm the constituents you are supposed to be protecting. You are obviously in a position in which you are set up to get defensive and close your mind to try irrationally deny the facts so as to selfishly protect your own image and ego and Anxiety Response, at the expense of those you took an oath to protect and serve. You can at least forgive yourselves, since you were misled by Scientists - Medical Practitioners that were using misapplied Science overridden by their own Stress-Anxiety Response.

I look forward to your immediate prevention of any further harm to the Health, Happiness, Unity, Safety and Survival of the Community by slowing down to actually live and give Aloha to the Community rather than feeding the Rush Job Response Invisible Silent Killer of Excess Stress-Fear-Anxiety Tension.

We look forward to further assisting and providing Free Optimum Health - Performance Leadership Training. Please contact us ASAP at 808-989-9849 as we want everyone to Co-Operate in a unified manner to "Reset" this Mismanaged Covid Response back to Aloha ... to promote Optimum Immune Response, Mental -Physical Health, Unity and Survival ... Not Illness, Infection, Death, Addiction, Conflict, Divorce, Violence and Suicide. "Stay more Hopeful and Relaxed than Fearful and Tense" to directly create the "Optimum Health - Performance Response" as designed for Optimum Health, Safety and Survival in Aloha."

This Bill and it's backers ate derelict in their duty to serve all the people of Hawaii. In fact the majority. If put to popular vote would be turned down. The percentage of actual Covid deaths and serious illness does not justify such segregation of the population. If so, you should do the same for the flu and the common cold. You cannot justify this measure with a .001% chance of severe illness. This pandemic has been over-blown and MANY are aware of the discrepancies, re-definitions and outright lies. You do not represent the majority of Hawaii if you pass this bill and would cause massive division, disruption, more harm, class action lawsuits and expense for the already over burdened tax payer.

### Written Testimony

I strongly oppose this horrific bill. I believe we as individuals should be given every right decide for ourselves what we want and what we don't want going into our bodies. Covid 19 can be spread by both vaccinated and unvaccinated people just as easily. Having any mandates requiring the vaccine or even having to show proof of a negative result test makes no sense and goes against our rights as AMERICANS. If women have the right to decide to do what they want with their body, "pro-life" or not— we all should be given the same right and space to decide what we want for ourselves as well as our children.

I Oppose the mandates.I choose for myself what's best for me.Nobody is going to tell me how/when/where/and why. It's my choice to do so.God gave me that & I will keep it. You cannot give that only "GOD" can & you ain't him.No government can take away either only GOD can and you ain't him.This is my suggestion. Pray for forgiveness for what you are doing.God is watching you destroy everything he gave to all of us.The breath of life, free will.God gives it all. Shame on you to try and take it from us for your selfish greed and control.Stop this while you can or forever have blood on your hands that you could've prevented.This tyranny is going to far! ENOUGH ALREADY! STOP IT!

Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

Written Testimony I strongly oppose resolution 21-194. This measure does not take into account the thousands of people who have natural immunity, which has been shown to be 13x more effective than the vaccine.  
Many other folks have valid medical and religious reasons to be exempt from this vaccine. Vaccinated people are still contracting, spreading, and dying from the virus.  
We have zero information on any possible long term side effects that receiving the vaccine may cause.  
Thousands of people have died after receiving the vaccine and the manufacturer's have zero liability.  
Our already fragile economy will suffer greatly if this measure passes.

Aloha,

I am writing in strong opposition to (insert alphanumeric code and title assigned to proposed legislation).

The vaccine passport is an unproven and unethical measure with dire legal and societal consequences.

First, science has shown that both vaccinated and unvaccinated people can carry and transmit the COVID-19 virus. Initiating a vaccine passport will falsely lull the public in believing that if they are vaccinated, they do not transmit the virus. Therefore, this measure will not be based on science but on politics.

Second, science has shown that the COVID-19 vaccine is not as protective against the Delta variant as it was on the earlier variants of the virus. Additionally, research has also shown vaccine effectiveness waning over time. This means that different vaccinated people will have varying levels of protection against severe infection. Instituting this measure will make vaccinated people and employees believe they are more protected than they truly are.

Third, vaccine passports will promote discrimination. It will unjustly socially stigmatize people who are unvaccinated, creating mental and physical health effects in time when stress is already at an all time high due to the uncertainty economy and cost of living. This will exacerbate health inequalities between families, communities, ethnic groups, and other social constructs that make up our society.

Fourth, vaccine passports may encourage fraudulent sales and purchase of these passports. We are already seeing in the news and on social media reports of tourists purchasing or devising fake documentation and information for the sake of coming to Hawaii or avoiding quarantine. Now consider the lengths tourists would go through so they can dine out in Hawaii. Realistically, tourists come here looking for an experience, including trying new restaurants. They do not come wanting to eat take out in their hotel room or car. Vaccine passports would promote fueling the growth of blackmarket passports, testing kits, and travel documents.

Lastly, requiring people to submit vaccine passports before dining in a restaurant forces them to disclose personal health information that they shouldn't have to. Doctors, hospitals, and medical clinics are required to comply with extensive HIPAA measures to maintain privacy and confidentiality of their patients' personal health information. It is government overreach to force people to forgo any sense of personal privacy for the sake of enjoying a meal.

I sincerely hope you take the stated facts above into consideration before passing the vaccine passport mandate.

Mahalo,  
Tammy Leslie

I strongly oppose this bill.

This is discrimination, segregation and not only hurtful to the people but the economy.

To think you can control a virus in this manner is ignorant. Especially when we know that people who receive the vaccine can spread the virus as well.

Written  
Testimony

There are many severe negative risks associated with receiving this vaccine. The CDC acknowledges that there are risks of blood clots and heart failure. Since I've been a teenager I've had a heart problem and have been to the doctors many times over the years to receive treatment and diagnosis. For me personally, I have a young child to care for and it does not make sense for me to take this vaccine and endure the potential deadly side effects. Yes, the CDC lists death as a possible side effect. My doctors recommend I do not receive this vaccine. Instead I have a lengthy wellness protocol to help prevent and/or treat Covid in the event that I become ill.

There are other solutions to prevent and treat this virus. There is also the fact that natural immunity is another way to have immunity to this virus.

This bill is discriminatory, hurtful and inconsiderate of so many facts and opportunities to find true health, peace and harmony among the people.

**I STRONGLY OPPOSE THIS BILL.**

Written  
Testimony

We know that the covid vaccine DOES NOT STOP TRANSMISSION. What is the purpose of this "COVID-19 Health Card"? Where does it put those individuals who acquired natural immunity from previous COVID-19 infection? People who have acquired natural immunity have better protection & are less of a threat to public health than those vaccinated individuals. The viral load in the respiratory tract of vaccinated people is upwards of 200X that of unvaccinated people. The data coming into the CDC proves that. It is unconstitutional. It is discrimination (there are residents who cannot, for medical reasons, or under 12 yrs old, receive the vaccine). Business who discriminate are setting themselves up for a lawsuit.

I am writing in opposition to Res 21-194.

Vaccine passports?

It could not be stated more directly or conclusively that citizens of the states have a common law right to travel, without approval or restriction (license), and that this right is protected under the U.S Constitution.

"The right to travel is a part of the liberty of which the citizen cannot be deprived without due process of law under the Fifth Amendment."

[Kent v. Dulles, 357 U.S. 116, 125 (1958)]

Written  
Testimony

"The right to travel, to go from place to place as the means of transportation permit, is a natural right subject to the rights of others and to reasonable regulation under law. A restraint imposed by the Government of the United States upon this liberty, therefore, must conform with the provision of the Fifth Amendment that 'No person shall be \* \* \* deprived of \* \* \* liberty \* \* \* without due process of law'."

[Schactman v. Dulles, 96 App DC 287, 225 F.2d 938, at 941]

Please remember, we live in America, not China or Nazi Germany. Shameful proposed legislation!

### Written Testimony

According to many reputable sources, including CDC director Rochelle Walensky MD and the well known molecular biologist Christina Parks; we now know that fully vaccinated people can still contract and spread the covid virus. We are also learning that fully vaccinated people are having worsened breakout infections with worsened complications. Due to this new information coming to light, requiring vaccination to be allowed in public spaces is wrong. Requiring vaccination when we now know it does NOT aid in preventing infection or even aid in limiting transmission is deceitful and wrong. Discriminating against those who wish to make their own health decisions for their own bodies is unlawful. As we also don't fully understand the long term health effects associated with vaccination, mandating and requiring vaccination is wrong. Discriminating against those who choose not to be vaccinated is unlawful. Not allowing people to be functioning members of their communities is wrong. And requiring vaccination or a negative PCR test is not an effective way to handle covid. Especially as we know the CDC is stopping use of PCR as soon as December due to false positives and ineffective testing. Requiring "papers" to be allowed in public spaces is unconstitutional. Please do not pass this unlawful, discriminatory resolution.

I strongly oppose any efforts to implement a Covid-19 passport for anywhere in Hawaii.

This would infringe on the rights, responsibilities and liberties of a free and independent people and society. This would mean local government overreaching to enforce on its' citizens and businesses strict policies/orders which disrespect and disregard the sovereignty of our individual freedoms. plus cause unnecessary further harm to our economy.

Vaccine passports are not necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities. Individuals must retain their right to vote and to participate with their dollars to support businesses which promote values and practices similar to their own.

Written  
Testimony

The vaccines are widely available and those who want to receive it have already done so. The injections have not not been proven to stop the contraction or transmission of the virus. In fact they have been shown to have very little effect as the variants are changing. Now people need a third shot, so will those people be prohibited from participating in society until they get the third shot. Absurd!

I can list 100s including personal friends, celebrities, politicians, movie stars, sports figures and sports teams who have contracted covid and been very ill. They are also transmitting when they are sick. By allowing vaccinated people only into places, you are creating a false sense of security and potentially creating super spreading events. The unvaccinated are not the reason this virus is spreading. absolutely not. No matter how much you blame this small percentage of people. You are punishing them for not being in lockstep with what you say.

Many people already have immunity. In fact, Josh Green said all the 100s of thousands of cases who caught covid have immunity. They should be allowed in everywhere. These are the

people who supported restaurants and small businesses. Why discriminate against people who obviously have stayed healthy, washed their hands and followed protocol? Covid can be killed with hot water and soap but I've noticed most public places don't even have hot water. The main thing is washing your hands. No need to go to such a strict vaccine passport.

There is only 16 percent of population Unvaccinated in Hawaii. Governor Ige said when we reached 70 percent the state would open completely with zero restrictions. We are there now! How can you completely deviate from promises made. and deceive your constituents like that?

We are not Idiots and we know how to protect ourselves. Maui has had one of the most vaccinated populations and strictest rules in the nation. And yet the rest of the United States is wide open, Huge concerts of 100,000. Sporting events. Life goes on. We can't live in a bubble. Many people are unable to get vaccinated because of pre-existing health issues. It's discriminatory and segregationist. And now we are learning the vaccine can cause adverse effects, extreme heart issues and even death. More and more countries are outlawing vaccines every day. Why do you continue to coerce and basically force people who want to live a normal life?

Plus there are therapeutics being use world wide like monoclonal antibodies and other medicines. Most people recover from catching Covid. Most with mild symptoms. It is time to move on. We've had 18 months and Maui needs to open up completely. We can protect the vulnerable but the rest of us cannot live under tyranny and unlimited emergency powers. Plus in other countries, the cases go down just as quickly as they rose. In fact, I can see the downward trend already. And these positive cases include a lot of false positives. How many positives do you encounter at a Kahulu Airport on secondary testing? Such a waste of time and money.

Please DO NOT INSTITUTE a vaccine passport.

### Written Testimony

Testimony I strongly oppose implementing a health pass restricting access to any locations for individuals choosing not to take a covid-19 vaccine. We have never done this in the past for any other disease, let alone one with such a low fatality rate. And with good reason. Creating a caste system for the citizens of a free country is not a good idea. History has given us multiple examples of the violence and injustice that occur when government sponsors discrimination and division. Once implemented, where will it stop? Israel is now requiring three shots for entrance. Every shot adds risk. Where there is risk, there must be choice. It is a short road to medical tyranny and totalitarianism. And most importantly, a non-sterilizing vaccine such as this one doesn't even prevent transmission, so the logic is completely absent, uncovering this for what it really is because it's obviously not about public health. Do not be complicit.

Written  
Testimony

You are mandating me to do something against my will and claiming it's in the best interest of public safety but your strategies against this pandemic from the beginning have caused nothing but distrust in our media and political system. Forcing me to inject something into my body that doesn't even stop the virus, the variant, or the lamda and mandating that I either take it or I can't work to support my family is the most unconstitutional form of control I've ever seen. Shame on each of you for taking away my right to choose. You claim safety when what you are really doing is dividing the community. How dare you claim this is in the best interest of public safety, when how many other things have been done for the better interest of political gain. It's disgusting our elected officials have taken it this far, absolutely disgusting.

## Vaccine Passport and mandating of the Vaccine:

To whom it may concern and our elected officials,

My name is Michael Scalera I am a United States Citizen and resident from Ewa Beach, Hawaii (born and raised) I love my country and I oppose this Vaccine Passport.

The reason why I oppose this Vaccine Passport is because I feel it is wrong on many levels and I will go over them in this Testimony. First, I would like to start with a prayer... "Dear heavenly Father God, please allow the person reading this testimony to be able to read it with an open heart and mind and if the person who reads this does not have the authority to make the decision to stop the Vaccine Passport, I pray that person helps this testimony find its way into the hands of the person who does have the authority to stop this Vaccine Passport and thru the grace of God it is able to touch their heart and help them see that the Vaccine Passport is wrong and mandating the Vaccine is wrong. Not my will, but, thy will be done. Jesus name I pray Amen".

Please know that I mean everything I am about to say with the utmost respect and with that I will begin with my opinion based on facts. Both Vaccinated and Unvaccinated can catch the virus, both can carry and spread the virus (this is a fact). If the Vaccine passport stopped the spread of the Virus that would be different, but it does not (this is a fact)... It simply just favors a Vaccinated person to have more privileges to go to places with the intent of coercing/forcing someone that is not Vaccinated to get Vaccinated by imposing hardships on them and that is wrong and according to the Nuremburg Code (1947) is illegal. Rather than stop the spread of the Virus the Vaccine Passport just makes it is easier for a Vaccinated person to spread the virus in a particular location vs. an Unvaccinated person and takes away a persons privacy by exposing if they are or are not Vaccinated which actually should not matter because natural immunity is the ultimate goal (this is a fact). Here's why I say that... The Vaccine Passport makes a Unvaccinated person confirm they have tested negative for the Virus in order to enter a venue... Only to allow a Vaccinated person to show proof of vaccination (who could very well be carrying the Virus and infect people at that location) to walk right in without having to show a negative test and infect people. How does that make any sense...? If you were truly trying to stop the spread of the Virus in a particular location, then, you would require everyone to have a negative test before entering.

From what I can see the Vaccine Passport is being justified based on numbers that are called cases and Hospitalizations for Covid-19, So, lets start with addressing the cases which, are numbers that are tallied up based on a household number, which, is labeled as probable cases, which, is based on an assumption that makes the cases number even bigger, then, that bigger number, which, could be off as much as 4 to 6 times or even more based on assuming... is then presented to the public in a way that does not determine/distinguish how many people of the total number of cases actually tested positive. (Example: 1 person test positive, but, they have 6 people in their household, the number that is being told to us is 6 even tho only 1 person tested positive. So lets look at this in real time. When Lt. Gov. Josh Green says there was 1,000 cases... It is possible that maybe only 250 of them are confirmed to have tested positive, but, yet we only hear the 1,000 number. That's lack of integrity. Here's what would be within integrity... having a breakdown like this... Today we have 1,000 cases to report. Of the 1,000 cases, 250 people actually tested positive and 750 is probable cases.

In addition to that there's the whole issue with the type of test being used to conduct the test and if it is the PCR test then, based on my research that test was not designed for the way it is being used which,

has a great potential for false positives, because of how the test is being conducted, which, really means that the 250 cases that "tested positive" could be less as well meaning that 1,000 number is bogus. But yet the 1,000 cases is what is being told to the public and being used to assist in justifying things like mandates and Vaccine Passports. Where's the integrity in that? With that being said, I would like to officially request to have the breakdown day by day that shows actual numbers based on the example I just gave on all the Cases recorded be put up online on a official website for everyone (the whole world) to see.

Now to the Hospitalization numbers can we have a breakdown in detail as well based on people who have received the Vaccine but are being labeled as Unvaccinated as based my research shows that being within or out of a time period can determine if you are Vaccinated or not, meaning... There could be people who have received the Vaccine but somehow are being labeled as Unvaccinated... Example of this is: We have 350 people in the Hospital for Covid of the 350 people, 75 of them got the Vaccine in the last 14 days and are now in the Hospital, but, because they received the Vaccine shot within the last 14 days they are being labeling them as Unvaccinated and 25 of them received the Vaccine 6 months ago and did not receive a booster shot so we are also labeling them as Unvaccinated and they are adding them to the 200 people who are in the Hospital that have not received the Vaccine at all making that total number 300 for Unvaccinated and the 50 people remaining who are in the Hospital who after 14 days but, within 6 months of receiving the Vaccine and have been labeled as vaccinated in the Hospital. This is the type of transparency needed to regain trust and truly make sure that data is not being skewed to push and agenda.

This Vaccine Passport is really in place to impose hardships on an unvaccinated person to force/coerce them into getting the Vaccine. It doesn't stop the virus from spreading and it only favors a Vaccinated person (who can still spread the Virus) to have the privilege of enjoying the venue over and unvaccinated person. This is wrong and is discrimination towards an unvaccinated person.

The Vaccine Passport is a disservice because it is taking everyone and only putting them in to one of two groups or classifications which are Vaccinated/Unvaccinated and that is wrong and brings me to my next point, which is Covid Recovered. There should be another classification or another group recognized... example: "Covid Recovered" This is a Unvaccinated person who has caught Covid-19 and has recovered from it... its scientifically proven that if they are alive after catching Covid-19 and have recovered, then, their body has already shown they don't need the Vaccine (this is a fact) and the likely hood of them going to the Hospital if they were to catch Covid-19 again is very slim (this is a fact). So why would someone who is Covid Recovered need to be Vaccinated and why would hardships be imposed on them if they chose not to be Vaccinated? The answer is... They don't need to be Vaccinated and No hardships should be imposed on them or anyone to coerce someone to put something in their body especially when its clear as day that this is still under experimental understandings, no one knows the long term effects yet and it did not go thru the normal confirmed process that warrants an FDA approval for a Vaccine and regardless of the FDA approval there is something already in place that says that this Vaccine Passport and mandating this Vaccine is Illegal and its called the Nuremburg Code (1947) (This is a fact). And just incase you don't know what it is... Please see below as I listed the first of 10 points of it, which, is all that is needed to prove my point.

*"1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or*

*other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity”.*

What is happening with this Vaccine Passport and/or Mandating the Vaccine is violating the Nuremburg Code (1947) and that is wrong.

A “Covid Recovered” person has already overcome the Virus and has reached the ultimate goal which is to have a level of Natural Immunity to the Virus that allows you to not die and overcome it when infected . Why would you want them to take a Vaccine when it is scientifically proven that they don’t need the Vaccine as Natural Immunity is better than a Vaccine. Why would someone put something in their body that could potentially have harmful side effects that include death that they already know they don’t need? Which brings me to the main point regarding this Vaccine which is it needs to be a personal choice and this Vaccine Passport and Mandating the Vaccine is wrong because it is forcing people to get the Vaccine when there are other options as well. Again, both Vaccinated and Unvaccinated can spread the virus all the same and the ultimate goal is for the human body to have natural immunity to the Virus (Covid-19) and respectfully to the person(s) who is making decisions on this if you dispute that natural immunity to the virus is the goal, then you are not competent to have the authority to make such decisions on or about things like a Vaccine Passport (this is a fact). This is the bottom line... It should not matter how someone achieves their Natural Immunity to Covid-19 whether it be thru the Vaccine or naturally catching it and recovering and with that being said and true It has to be a personal choice. The moment you start coercing, bullying or threatening people to induce them to take the Vaccine you are wrong. Period (this is a fact). To be able to control or force someone to put something into their body is wrong.

If we are gonna talk about anything then maybe a document that recognizes Vaccinated and/or Covid recovered like an “Immunity Card”. The reality is that Covid is here and it isn’t going away anytime soon as it is mutating into different variants and strains which a lot of my research shows is due to the Vaccine and people being vaccinated. We are all in this Together and at some point and time everyone is gonna get sick with this Virus, which, brings me to my next point... What if there are people in the Hospital that are there out of fear (not trying to discourage anyone from going to the Hospital) but peoples fear and anxiety can make them want to go to the Hospital even when they don’t need to be there. I know this first hand as one of my friends wanted to go to the Hospital because he was scared of the things he was hearing and not based on how he was feeling. He wanted to go to the Hospital just incase. Something to consider that maybe being overlooked and based on how the information is being presented on the media comes across a fear mongering when it could be presented differently. Why can’t the info being given be out more transparent and positive in addition to pushing the Vaccine equally teaching people how to be healthy, teaching people how to build and maintain their immune system and exploring other alternative options that have already been proven to work like Ivermectin, Hydroxychloroquine and Zinc?

HOSPITALS: If the Hospitals are claiming they are over capacity or overwhelmed,

- a. Why are we not building out Temp structures in parking lots or open areas at ALL hospitals to be able to accommodate specifically for ICU level Covid-19 patients state wide? IF this cant be done at the Hospitals why cant we use the Aloha Stadium parking lot to build temp structures to take care of people that are over crowding the Hospitals. As we are in a pandemic right? and if that is what we are facing, then we should accommodate for it. This would allow the Hospitals to have the beds, rooms, etc... they need, So they can accommodate the surgeries and procedures they are mentioning are not being able to be done due to over capacity.
- b. Do you agree or disagree that there could be people that are in the Hospital out of fear and really don't need to be there? (not trying to discourage anyone from going to the Hospital), but respectfully trying to help shed light on something that possibly might be being overlooked) Maybe if people weren't so scared then that could help with some of the overcrowding at the Hospital as little or as much as that maybe.
- c. Why are we not training more nurses to be able to be qualified to be able to help care for ICU/sever symptomatic Covid patients in light of this pandemic?
- d. What is being done to have more local nurses trained to be ICU qualified nurses here in Hawaii to help with this pandemic?
- e. Why does the Johns Hopkins report show that the Hospitals are not over capacity at all?

Respectfully too many things don't make sense and before we start imposing mandates we need to explore and confirm other options shared and look at things with more integrity as it really just seems like there's an agenda to vaccinate EVERYONE and that is wrong based on the facts I have shared.

This is my testimony and I appreciate your time in reading this and I pray that you stop the Vaccine Passport and mandating the Vaccine as there are other options that have been and are still being proven to work better than the Vaccine which are being suppressed and before mandates and the Vaccine Passport should even be considered all other options should be explored and confirmed first.

Thank you for your time, take care and God bless,

*Michael Scatera*

### Written Testimony

A vaccine passport is discrimination pure and simple. Government is treating Covid 19 as if it has a 99 % fatality rate while infection survival rate is actually over 99% thru age 69. Survival rate for those 70+ non institutionalized (not in a nursing home or care facility) is 97.6% and 94.5% for all people 70 and over. A few people are getting very rich pushing the vaccine and instituting "mandates" that limit our freedoms and in turn is giving this select few a lot of power and control. People who wanted the "vaccine" have already gotten the "vaccine". And we already see that it does not stop at the one or two doses; the booster is here thanks to the rushed FDA approval which means more profit, power, and control for the select few calling the shots and pushing the fear narrative. Trying to limit our access to resources in the community via a vaccine passport is wrong. People who get the vaccine on this alone are being coerced. coercion not consent. Consensus does not equal truth. Let's not forget there are two or more sides to every story and science is never settled. The government and mainstream media are telling one side of the story and working very hard to silence those who raise questions or even share hard data. For instance, all of the adverse reactions and deaths reported to VAERS (vaccine adverse event reporting) which has been estimated to only account for 1-10% of actual events as this is a passive reporting system. As of August 20th, 2021 total deaths reported post-covid vaccine is 13,627 which is MORE deaths from all vaccines combined in the last 30 years. Historical vaccine roll-outs have been halted after far fewer deaths and adverse reactions. Never before in history has a vaccine come to market so quickly. Logic is fast, science is slow. There is not long term data but the short term data is quite impressive and not in a good way. They also lied about the effectiveness of the vaccine during EUA approval. They reported 95% efficacy which is the Relative Risk Reduction, while the absolute risk reduction was far less impressive at 0.84% for pfizer, 1.2% J&J and Moderna, and 1.3% Astra Zeneca. This data can be found in a peer reviewed study in The Lancet. The trends world wide of those vaccinated coming down with Covid seem to fit with the Absolute Risk Reduction vs. the misleading Relative risk reduction. The least effective of all the vaccines is the pfizer which just received the speediest FDA approval in history. Lets

also not forget that the EUA only came because safe and effective treatments were censored. This is not science, in fact it is the exact opposite of science. This will hurt the economy. This is discrimination. Getting the vaccine to skirt this discrimination is coercion.  
COERCION IS NOT CONSENT

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

Written Testimony I strongly oppose implementing a health pass restricting access to any locations for individuals choosing not to take a COVID-19 vaccine.  
1) The vaccine doesn't prevent transmission so this mandate is unfounded.  
2) We have never done this in the past for any other disease, let alone one with such a low fatality rate.  
3) We should empower citizens in creating a healthy immune system instead of creating an environment of constant fear and discrimination.  
4) Creating a caste system for the citizens of a free country is dangerous. History has given us multiple examples of the violence and injustice that occur when government sponsors discrimination and division.

### Written Testimony

I am in utter disbelief that a vaccine passport is under consideration at this time. On the day after the 100 year anniversary of the German Reich Minister decreeing that Jews over the age of six in the Greater German Reich were required to wear a yellow Star of David on their outer clothing in public at all times. And now the Honolulu City Council is following in the same footsteps as Hitler and the Nazis. And the unbelievable part is that this is NOT hyperbole. This is a violation of the Right to medical privacy, the Right to freedom of movement, the Right to bodily autonomy, the Right to engage in commerce, and many other far reaching abuses of Rights and government overreach. You do not have the authority to require or force people to inject an untested, unsafe, and experimental foreign substance into their bodies in order to go about their lives. I STRONGLY OPPOSE this agenda item and demand that it voted DOWN and never brought up again. I cannot think of any idea more objectionable and offensive than this.

OPPOSE Resolution 21-194

Written Testimony I am against creating a digital vaccine passport. We should not be limiting the peoples choice. This is a decision for the individual, this between a person and their doctor. This is not the role of the government;. This is more of a punishment for those who have decided not to get the covid vaccine. this is their choice and I support everyones decision to choose.

### Written Testimony

I understand the bases of this resolution, safety. There are ways to mitigate risk without imposing on our freedoms. The business that will suffer will be the locally owned. Those supported by locals. Big hotels and chain restaurants will continue to thrive due to 100k+ visitors we have on our islands that frequent places where they are staying at or are already familiar with. If safety is purely the motivator why not limit the amount of visitors to our islands. Infrastructure can hardly keep up with locals. Invest the money that's being used to limit the freedoms of its citizens into to upgrading hospitals to accommodate more patients, pay the staff what they are really worth. COVID-19 is not going away anytime soon, it's a marathon not a sprint. Learn from other countries to see what works and what does not.

### Written Testimony

It is absolutely another anticonstitutional measure only aimed to push mandatory vaccination without any scientific fundamentals and false data from media and government organizations.  
If according the CDC the current 'vaccin' do not stop the transmission of the virus, what the Green-Pass will do?  
Why keep blaming unvaccinated healthy people for everything when millions of vaccinated people worldwide have been getting sick??  
Why Hawaii with the longest and most strict restrictions and the lowest cases in the nation still need to mandate something like this??  
Why States like Texas or Florida that never close completely are still facing this Pandemic like any other states?  
It is clear that the entire world corrupted governments are only aiming for global vaccination! Only goal here so to keep the entire world population chronically sick!  
Vaccines are something serious and everyone should have a choice!  
Unvaccinated people are the safest because undergo to a lot of testings and safety protocols while vaccinated people can freely gather in places without been checked!  
Get over people. This is not Ebola!!! Covid has a mortality rate like a flu.  
Stop the media to terrifying people and allow doctors to use proper therapeutic protocols and not criminal methods imposed by pharmaceutical corporations.  
Why you don't talk about Israel anymore like before??  
Vaccines do not work, people get sick.  
Why the CDC decided not to count positives on vaccinated people anymore??  
Why governments and Big-Pharma are immune from any legal controversy??  
Politicians.. i understand your hands are tied from your lobbies but if you want the good of your people, leave them to live freely.  
Nobody dies!

### Written Testimony

I humbly ask for reconsideration be taken as I STRONGLY OPPOSE the Bill for Digital Health passports here in Hawaii. 1) I want the choice to be vaccinated or not! It's my body, not yours 2) I DONT WANT A SYNTHETIC VIRUS SHOT INTO MY BODY 3) WHY IS NO ONE DIEING OF DIABETIES, CANCER, STROKES, HEART ATTACKS, ETC. 4) WHATEVER HAPPENED TO THE COMMON COLD AND SNIFFLES, OR EVEN THE REGULAR FLU 5) WHY ARE WE NOT ALLOWED TO USE OTHER FLU REMEDIES 6) WHY ARE PEOPLE FORBIDDEN TO HAVE MEDICATION, WHICH THEY HAVE ALWAYS USED, NO LONGER AVAILABLE TO THEM BECAUSE THE "PROTOCOL LIST" FROM THE CDC DISALLOWS THIS? IF THEY TAKE THE VACCINE, THEY CAN NO LONGER HAVE THAT MEDICATION. 7) WHY ARE PEOPLE BEING FORCED AGAINST THEIR WILL TO USE VENTILATORS IN HOSPITALS? 8) WHY ARE COVID DEATHS OVERSTATED TO CREATE FEAR SO THE VACCINE WILL BECOME A HOT SELLER. 9) THIS VACCINE CAN CHANGE YOUR DNA AND THOSE OF THE BORN CHILD. IS THERE PROOF IT WONT? 10) THIS VACCINE IS NOT ABOUT THE "COVID FLU", ITS ABOUT CONTROLLING THE MINDS OF THE PEOPLE.

My name Barbara Gatewood,

Written  
Testimony

Last time I checked this was the United States of America where we enjoy freedom and the government cannot tell us what to put into our bodies or restrict us because of our choices. We have the freedom over our own bodies. When did it become common place for the government to tell you what medicines or vaccines to put in your body? There is a lot of data that has not been properly reported about the long term, negative side effects from this vaccine. Why should we be penalized for choosing to not put something in our bodies that we feel is poison and then be restricted from living basic lives until we do what the government says?! The vaccinated are spreading this virus more than anything and they still have to mask and distance themselves. Nothing has changed for them. Nothing will change for us by getting vaccinated. This is about control from the White House and our local government is following suit. I refuse to get the vaccine until I am ready and feel it is safe.

Written Testimony There is no justification for this Nazi like overreach of power. As Americans we have rights to freedom of movement regardless of our health choices. The Nuremberg code needs to be followed or you will face trials in the future. You are killing local businesses and all the aloha. Let doctors treat those who get covid with the many known therapeutics available and save their lives. Early treatment with cheap, known drugs works. Ivermectin works. Hydroxychloroquine works. Do your homework and stop this madness. Please.

### Written Testimony

I am appalled that our local Government is caught up in the vaccine passport frenzy. This is a clear violation of our constitutional rights and the sad fact is that the vaccine efficacy will be totally negated by the new variant strains within months. Everyone always says follow the science - so please do that. The science shows the Covid mutations will make the vaccines ineffective so why would we require "passports" to disrupt our lives if we don't have it. Then there's the issue that there are over 400,000 CDC documented cases where the vaccines have harmed people more than the virus would have. Messenger RNA technology is a failed treatment that was repurposed to try and make a vaccine. There are too many problems with this delivery method to make everyone feel safe in taking it. The Government doesn't have the right to dictate that people put themselves at risk like that. Please oppose this requirement!

"Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and "mandate by executive order if necessary" a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written  
Testimony I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you."

I oppose the proposed "vaccine passport". It is truly awful that there are city council members who are in support of this proposal which promotes segregation under the guise of protecting public health.

It is stated clearly on the CDC website that "[p]eople infected with the Delta variant, including fully vaccinated people with symptomatic breakthrough infections, can transmit the virus to others. CDC is continuing to collect data on whether fully vaccinated people with asymptomatic breakthrough infections can transmit the virus." ([https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html?s\\_cid=11511:can%20vaccinated%20people%20spread%20delta:sem.ga:p:RG:GM:gen:PT](https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html?s_cid=11511:can%20vaccinated%20people%20spread%20delta:sem.ga:p:RG:GM:gen:PT)) If vaccinated people have the same risks of transmitting coronavirus to others, including the highly transmissible Delta variant, what exactly is the point of a vaccine passport other than to treat the unvaccinated as second-class citizens?

**Written Testimony** City and council officials, state officials, and even the media like to focus on the number of unvaccinated people in the hospital, yet why is there no breakdown provided to the public regarding the number of vaccinated people who are contributing to the daily COVID positive case count? Where is the transparency?

This proposal encourages the use of fear tactics and reward systems to ramp up vaccination rates when we should instead provide relevant information to the public such as the role of vaccinated people with "breakthrough infections" play in transmitting the virus and alternate medical treatments so that everyone can make informed medical decisions for their individual selves.

Shame on all of the City Council members who took part in bringing this proposal to the floor. Shame on you who are burdening private businesses with being gatekeepers and turning away patrons who have supported them for the past 18 months when everyone was trying to stay afloat and survive during the pandemic. Shame on all of you who point fingers at the unvaccinated being the sole cause of our hospitals being overrun.

willingly turn a blind eye towards the vaccinated when the science says that they too are responsible for transmitting the coronavirus.

Bring back the testing of all transpacific passengers regardless of their vaccination status. Include the breakdown of the number of "breakthrough infections" in the vaccinated people who are included in the daily positive COVID case count. Start implementing policies that make sense and are actually enforceable. Stop proposing policies that are biased and clearly divisive.

### Written Testimony

I love Hawaii. I am **STRONGLY OPPOSED** to vaccine mandates and vaccine passports for multiple reasons. The cons are so much worse than the pros. Vaccine passports are **UNCONSTITUTIONAL** under the 4th Amendment. Medically the statistics and doctors and countless medical professionals testify **AGAINST** vaccine effectiveness. Vaccine passports/mandates go against natural immunity, as getting a COVID-19 vaccine does no additional health benefits and adds only risk to those with natural antibodies! Natural antibodies provide more robust protection than any COVID-19 vaccine can provide. To group everyone under a tyrannical mandate as a one fit all medical procedure, will cause significant harm and death then the prevention of it! Do your job, support individual medical freedom and informed consent, do not pass this bill for vaccine passports and stop all mandates it is **NOT** the will of the people. As an American it is your duty to preserve the constitutional rights and fight **AGAINST DOMESTIC TYRANNY**, which if this passes, will be just that!

I oppose this bill because I believe it invades an individual's medical privacy whether vaccinated or unvaccinated.  
  
Written Testimony This bill also discriminates against people who do not choose to become vaccinated or who do not choose to subject themselves to a certain type of testing. This bill causes those people described above to be kept out of participating in normal society.

For the Committee on Transportation, Sustainability, and Health, Thursday, September 2, 2021, 10:30

Honorable Members of the Committee:

I am writing in **STRONG OPPOSITION** to Resolution 21-194 “Urging the City Administration and the State of Hawaii to implement a COVID-19 health card for establishments at higher risk of transmission of COVID-19”

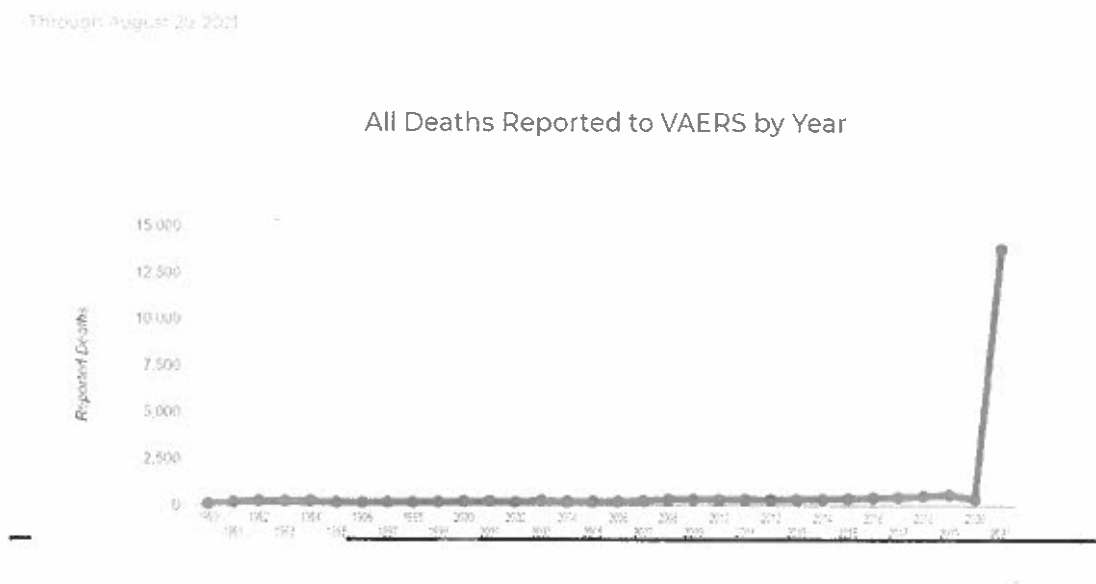

Information based on personal experience of individuals and professionals continues to amass regarding the dangers of Covid-19 and the efficacy of existing and emerging treatment options.

As we navigate this pandemic, an increasing number of medical studies are showing that natural immunity offers exponentially better protection against the virus than any of the available vaccines. These studies are also showing that vaccinated individuals are much more likely to get infected with covid than those with natural immunity.

A “Covid-19 Health Card” fails to acknowledge the power of natural immunity and falsely incentivizes emergency use vaccinations that may have detrimental effects on individual health.

Evidence shows that there is excessive risk of injury due to Covid-19 vaccination, that may also result in death.

As of August 20, 2021, the national emergency reporting system, VAERS (Vaccine Adverse Reporting System), administered by the CDC and FDA, has 623,341 adverse reports associated with the Covid-19 vaccines and includes **13,627 vaccine induced deaths**.

Never in the history of vaccination in the United States has a “vaccine” caused this much injury.

This evidence alone should cause us great pause.

Not doing so is blindly disregarding evidence and emerging medical science and facts.

**Not only does the proposed "health card" threaten to deny one of our most basic individual liberties - compliance with a vaccine mandate carries the risk of death!**

Using this type of coercion is immoral and unethical, and is a direct violation of the Nuremburg Code wherein 'voluntary consent is absolutely essential, and without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion.'

We fought World War II to destroy this type of governmental over reach and insanity.

As representatives of "We the people" you have been charged with an oath to uphold the Constitution of the United States and ensure that the government protects the "blessings of liberty" as guaranteed by the United States Constitution and the Bill of Rights.

Mandates via Executive Order that deny fundamental individual liberties equate to the exact type of government over reach and denial of the most basic principles of freedom and liberty that the United States of America was inspired and created to prevent.

With this evidence and statement, I STRONGLY OPPOSE Resolution 21-194.

Respectfully,

A handwritten signature in dark ink, appearing to read 'Doug Pasnik', with a stylized flourish at the end.

Doug Pasnik  
Colonel, USMC Retired

Written  
Testimony I am in opposition to this resolution because I am a server at a restaurant and feel that it is unfair that I would have to test for covid weekly to prove we are negative and a vaccinated individual, who can easily get and spread covid would be exempt from testing. I also believe and have seen proof of many, many adverse reactions to the covid vaccine and I don't think that it is fair to coerce or bully us into taking an experimental drug especially until it is FDA approved, which it is not, despite the news articles. Furthermore I think it is against our rights to have to show medical records. This is why I oppose the bill.

### Written Testimony

I am a registered voter in Kauai, a mother and a Realtor. As a mother I feel nauseated to see this New World Order 1984 agenda that has taken over so many children's world. At this point it is important that you listen to those scientists who are not for sale. There are THOUSANDS of testimonies confirming that the issue called Covid is treatable with cheap generics if used early enough. We know this is a 99.99% recovery rate issue. We all know people being injured or DYING because of the experimental shots. A few days ago I met yet another person who tragically lost her mom to the shots. NUREMBERG determined that it was a CRIME to perform medical experiments on unwilling and /or uninformed humans. We have had ENOUGH. You work for us. You are public servants and you owe it to us to listen to the THOUSANDS of doctors telling us that this lock downs don;t work and that this so called vaccines , actually a never used in humans before, RNA technology shots are inuring and killing thousands and thousands of people. Non censored platforms are showing us the devastating results of this shots. You are trying to mandate this aberration. You have no right whatsoever to do this. It is clear that the intention is to enslave and control us as if you would really care about health and the good of the community you would close fast food restaurants for example or stop the sale of sodas in schools. How about dealing with the horrific fact that Hawaii ranks 6th on child TRAFFICKING? 800,000 children BANISH every year in the USA and what is being done about that? The most disgusting pedophiles are free and trading their degenerate merchandise on the the same platforms silencing the honorable doctors who truly want to save lives instead of just push shots to make a profit. We have seen so many new billionaires as a result of this lock downs and new shots and it is clear that the health of our families is not the focus,instead, their criminal pursue of profits is.

The Vaccine Passports AKA Health Pass are unacceptable. This is not Germany in the 1930s. We all know what happened to those demonized by the State by then and the NEVER AGAIN applies to this situation as well. Let it be. Those who had the shot made their choice .

The rest will use the immunity that God gave them. Discriminatory measure are amoral and unacceptable.

I oppose Resolution 21-194 as it is an infringement upon our civil rights and liberties as U.S. citizens. The thought of restricting our access to public facilities based on our vaccination status is very upsetting to me!

I feel that the unvaccinated residents in Hawaii are being punished and separated out from the vaccinated residents and that this treatment is unfair and unjust given our current policies for treating Covid.

I am an advocate for early treatment of this disease but unfortunately I am witnessing people being sent away from ERs and them being told that "there's no treatment for Covid" or to "go home, rest, and take Tylenol" when they are already coughing, have a high fever, as well as other symptoms.

### Written Testimony

I recently had to call an ER and advocate for one of my friends that was told this and fortunately I was able to get a chest x-ray ordered, cough medication, and antibiotics. Thankfully, my friend was able to improve and completely heal. However, if I had not called and advocated for her, she could have progressed to more severe illness requiring hospitalization. She could have even passed away.

I personally feel that we are doing a disservice by not treating Covid early. I also feel that early treatment could have stopped this pandemic earlier rather than later. People have the right to choose whether they get vaccinated or not and we should not be punishing them for their choices. Early treatment would prevent hospitalizations, healthcare worker burn-out, discrimination of the unvaccinated, and the unnecessary deaths. I feel that this resolution would not be necessary if we adjust the treatment for Covid patients by starting treatment earlier.

Thank you,  
Maile Harada, Ph.D., R.N.

### Written Testimony

I, Eric Grebe, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it impinges on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Thank you for your time.

### Written Testimony

It is an individuals inherent right as a human being to decide what is received into their body without coercion or threat on ones livelihood. As a person in object to the government attempting to take away our freedom to decide to abstain from this and other vaccines or else not be allowed to participate in society. I leave you with a quote from Martin Luther King, Jr., "Any nation or government that deprives an individual of freedom is in that moment committing an act of moral and spiritual murder. Any individual who is not concerned about this freedom commits an act of moral and spiritual suicide."

Data from Israel, the most highly vaccinated nation reveal the vaccine is not the end all and vaccinated individuals are still being hospitalized and dying from Covid-19.

### Written Testimony

I absolutely oppose this resolution. There is no way to staff restaurants etc that have access from all sides. Who would even check the passports? This is a complete and total violation of our constitutional rights. The segregation has to stop. It's our body, our health. I've known 2 people who had the vaccine and had covid-19 or the delta variant right after. So who's to say that just by showing a "vax passport" that you can't be a spreader or even have it or get it as seen multiple times. It won't work. It'll be a disaster...and whoever came up with this resolution needs a mental evaluation-it's INSANE.

Council/PH Committee Transportation, Sustainability and Health  
Agenda Item 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I, Eric Grebe, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it impinges on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Thank you for your time.

### Written Testimony

It is an individuals inherent right as a human being to decide what is received into their body without coercion or threat on ones livelihood. As a person in object to the government attempting to take away our freedom to decide to abstain from this and other vaccines or else not be allowed to participate in society. I leave you with a quote from Martin Luther King, Jr., "Any nation or government that deprives an individual of freedom is in that moment committing an act of moral and spiritual murder. Any individual who is not concerned about this freedom commits an act of moral and spiritual suicide."

Data from Israel, the most highly vaccinated nation reveal the vaccine is not the end all and vaccinated individuals are still being hospitalized and dying from Covid-19.

### Written Testimony

I absolutely oppose this resolution. There is no way to staff restaurants etc that have access from all sides. Who would even check the passports? This is a complete and total violation of our constitutional rights. The segregation has to stop. It's our body, our health. I've known 2 people who had the vaccine and had covid-19 or the delta variant right after. So who's to say that just by showing a "vax passport" that you can't be a spreader or even have it or get it as seen multiple times. It won't work. It'll be a disaster...and whoever came up with this resolution needs a mental evaluation-it's INSANE.

### Written Testimony

The COVID19 vaccines do not create immunity, eliminate transmission, or hospitalizations so why are you mandating them. Follow the science and data from both this pandemic and historic pandemics. The COVID 19 Virus continues to evolve into new variants as all COVID virus's do and to chase the variants with new and improved vaccines is a fools errand and a deadly mistake. The vaccines you are mandating (that have very real and documented negative side affects) are already outdated against Delta (as hospitalization data from around the world and here shows) and new variants are already identified. There are at least 3 therapeutics that have been proven effective against COVID 19 in multiple studies and front line doctors experiences in U.S. and around the world. that are cheep, available, safe and importantly do not require hospitalization. Use your leadership to implement protocols that will help Hawaii thru this crisis and not hurt Hawaii. It took two years for the world to be thru the Spanish Flu pandemic (that was far more deadly and contagious) using our natural immune response (those who recover from COVID 19 have a complex, lasting immunity to the virus) and created herd immunity. The world can do the same with COVID 19, let Hawaii lead the way.

Written  
Testimony

From my point of view the proposed vaccine passports are designed as a way to coerce the non-vaccinated to be injected with a vaccine that is proving itself daily (not from the mainstream media or social media that "cancels" any opposing view) to not be effective. My contention is that the 3 Covid Vaccines in the US are not effective in stopping the spread of the Covid 19 virus.

1) Dr. Anthony Fauci: Fully Vaccinated Carry Same Viral Load As Unvaccinated With Delta Variant

"When you look at the level of virus in the nasopharynx of a vaccinated person who gets a breakthrough infection with delta it is EXACTLY the same as the level of virus in an unvaccinated person who is infected. That's the problem. So those data are very compelling."

2) CDC study shows three-fourths of people infected in Massachusetts coronavirus outbreak were vaccinated but few required hospitalization

<https://www.washingtonpost.com/health/2021/07/30/provincetown-covid-outbreak-vaccinated/>

3) People infected with Indian 'Delta' variant have a viral load 300 TIMES higher than the original COVID-19 strain and are twice as infectious, study finds

<https://www.dailymail.co.uk/health/article-9921789/Delta-cases-300-times-higher-viral-load-S-Korea-study.html>

The counts of adverse reactions are never discussed in any of our local media. The CDC's VAERS (Vaccine Adverse Event Reporting System) <https://wonder.cdc.gov/vaers.html> lists 13,627 Deaths due to one of the 3 vaccines and 623,341 reports logged in the system regarding adverse reactions. I personally have a friend here in Hawaii who had a miscarriage after getting injected. Her doctor logged it into VAERS as due to the injection. I have another friend who recently has taken her second shot and has never had high blood pressure, elevated heart rate or trouble catching her breath going up the stairs while masked. She has all of these symptoms now. This website summarizes the Covid related vaccine injuries.

<https://www.openvaers.com/covid-data> In it you will see the data about males (generally) under

20 who now have myocarditis after getting 1 or 2 vaccinations.

People receiving the vaccines are not receiving informed consent. Here is a definition from the American Medical Association: Informed consent to medical treatment is fundamental in both ethics and law. Patients have the right to receive information and ask questions about recommended treatments so that they can make well-considered decisions about care. The boxes that the vaccines come in have blank sheet of paper where the ingredients and warnings should be. Similar to how the TV ads for pharmaceuticals all list the side effects. Pfizer and Moderna are still considered under Emergency Use Authorization (EUA). The Approval was for Comirnaty which is not available in the US and also does not have the liability shield that Moderna, Pfizer and Johnson & Johnson do. The media has falsely reported that the Pfizer (which everyone assumes is what is being used in the US) is approved. The Pfizer-BioNTech COVID-19 vaccine has not been approved or licensed by the U.S. Food and Drug Administration (FDA), but has been authorized for emergency use by FDA under an Emergency Use Authorization (EUA) to prevent Coronavirus Disease 2019 (COVID-19) for use in individuals 16 years of age and older. <https://www.pfizer.com/products/product-detail/pfizer-biontech-covid-19-vaccine> BioNTech and Comirnaty are 2 different vaccines. Comirnaty FAQs <https://www.fda.gov/vaccines-blood-biologics/qa-comirnaty-covid-19-vaccine-mrna> Proof Pfizer Comirnaty and the currently available Pfizer BioNTech BNT162b2 vaccine are TWO DIFFERENT VACCINES - THIS IS WHY THE CURRENT PFIZER VACCINE, BNT162b2, IS NOT FDA APPROVED AND NOT RELEASED YET! Pfizer added different "ingredients" to improve antigen expression. It's right in their report.

From The FDA Comirnaty Approval Report

Toxicology (page 14) - "The repeat dose toxicity evaluations were conducted on COMIRNATY and a similar vaccine termed BNT162b2 (V8). COMIRNATY and BNT162b2 (V8) have identical amino acid sequences of the encoded antigens but COMIRNATY includes the presence of optimized codons to improve antigen expression. "

<https://www.fda.gov/media/151733/download>

With that being said the various vaccine mandates are not justified and thus the proposed Vaccine Passport being proposed has nothing to stand on.

In closing I'll leave you with this.

The Nuremberg Code of 1947 laid down 10 standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide.

I will outline 3 of the 10 points laid down in the code:

- 1) The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.
- 2) The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
- 3) During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

<http://www.cirp.org/library/ethics/nuremberg/>

If requested I would be happy to submit an Excel spreadsheet with

Thank you if you have read this to the end.

Written  
Testimony These mandatory enactments should they be allowed to pass, would violate our constitutional rights as American citizens. They are highly invasive, unwarranted, and unwelcome in this state of Hawaii and for the entire US. It is clearly stated by the CDC that those who are already vaccinated "are still at risk of contracting COVID 19". To mandate something that has already been proven as ineffective is not only counterintuitive, but highly impractical. My body my choice.

### Written Testimony

I oppose Resolution 21-194 as it violates my freedom of choice to care for my body as I determine is best for me. As the saying goes, "My body, My choice", which is a commonly used phrase by the pro-choice people who choose to kill their unborn babies in their bodies. Well, I say now, my body, my choice. I stand on the freedoms that we enjoy as Americans. However, this Resolution 21-194 strives to eliminate my freedom to chose what is right for my body by enforcing Health Passports that limits citizens who chose not to be vaccinated from patronizing restaurants, gyms, etc. What's next, grocery stores? This is discrimination, which results in factions of people (vaccinated vs vaccine-free). The potential for these factions to foster hatred and violence is frightening and real. To use punitive measures to force citizens against their free will to comply with the vaccine edicts is communistic and it is wrong. These control tactics shadows the Nazi regime by treating the vaccine-free group as second class citizens, like the new "Jews" using Health Passports as identification instead of the yellow armbands with the Star of David. Your efforts to control Hawaii's citizens from their everyday life activities is punitive and un-American. I am disgusted by this Resolution 21-194 proposed by Tommy Waters. If implemented, the Health Passports will have a lasting, negative impact that will spawn hatred and violence as groups are pitted against each other. The fabric of the Aloha spirit will be destroyed with the enforcement of this proposal, therefore, I propose banning Resolution 21-194 because it is wrong to take away our freedom to live as we choose regardless of government edicts.

I have a strong opposition towards the Vaccine Passport. It is discriminating and racist, in fact this is segregation and fear mongering not to mention how we are literally living communist ways.  
This is unlawful and we the people have the free agency to choose. Life is not a hundred percent, but we are all entitled to our freedom of rights.  
You can't force something that is not a hundred percent and expect COVID cases to decrease from it. The only thing certain in this life is your FREE WILL TO CHOOSE and you are taking that away from us.

Written  
Testimony Please hear us ALL out! I voted for you and I had faith you would help our home state to be better but I am not seeing it!

I am a mother of 5 and my husband can possibly lose his job over this. There are so many vaccine deaths and injuries that of course will not be shown on main stream media but guess what? its happening! My family and I do not want an adverse reaction to this shot, it is not for everyone!, its a risk! So I plead to you to please reconsider this passport mandate.

Aloha,  
Jan

### Written Testimony

A'ole pono! I submit this in opposition to RES21-194. This "passport" does not serve to benefit any good for the people of Hawaii. Business and individuals who are already suffering will only suffer more under your passport. Passports only serve to restrict the RIGHTS of the people to live and provide for themselves and their families with basic human needs. It's nothing but human cruelty and discrimination designed to inflict punishment on those who chose not to put an experimental drug in their body. The people of Hawaii have suffered enough by the hands of this government and its officials. David Ige, Rick Blangiardi, Elizabeth Char, and others in official capacities continue to rob the people of this state of their freedom of choice to make an understanding and enlightened decision. They do this through force, fraud, deceit, duress, over-reaching, and other ulterior forms of constraint or coercion such as vaccine mandates and now passports. This is a violation of the Nuremberg Code of 1947/1948 regarding the crimes against humanity through human experimentation. Make no mistake, these so called vaccines are experimental which is why the government forced it out through Emergency Use Authorization. They couldn't have done it any other way. Blangiardi, Ige, and Char also state that the FDA granted full approval of the Pfizer BioNTech (COMIRNATY) COVID-19 Vaccine. Yet, the Biologics License Application approval letter dated August 23, 2021 authorizes the manufacture of the COVID-19 vaccine mRNA product with REQUIREMENTS TO CONDUCT "STUDIES" to assess "KNOWN SERIOUS RISKS OF MYOCARDITIS AND PERICARDITIS". Unfortunately for all of us, the first reporting of the "STUDY" for COMIRNATY will not be out until October 2022 according to the FDA document. The entire study goes on till 2027. I don't understand how government officials continue to say that these vaccines are "safe and effective" when there are thousands of reports of deaths and adverse affects. They don't speak about one single death or adverse affect from the vaccines as if these incidents never happened. Now we want to coerce more people into taking a vaccine just so they can go to the store and buy food and provide basic needs for their families? For a vaccine that we knew from the start does not prevent you from

getting the virus, does not prevent you from spreading the virus, and as we now know from other countries like Israel and Iceland who have the highest reported number of vaccinated people, where the vaccinated are at a higher risk of contracting and spreading the Delta variant. The vaccines are not a cure and they were only reported to ease the symptoms of this flu virus. Yet vaccinated people are continuing to be reinfected and are reported to have a weakened immune system due to a vaccine only designed to fight the covid19 strain. But you'll never hear that from Char. These passports do not serve to protect the people. It only serves as a tool for government to over-reach its power and force the people to obey its unlawful rules. Where does this end? When the vaccine companies say that they are rolling out booster shots, what happens to those who willingly received the vaccine the first round? Are you going to take away their passport until they get their boosters? If vaccine companies say booster shots are needed every 6-8 months, then what happens? How long do we put up with this? Is this what you want for our state? Over a virus that has a 99.9% recovery rate? Over a virus in which doctors and scientist across the nation and the world agree that there are effective and safe alternative prophylaxis and treatments that have been used to treat thousands of patients without any side affects? There are alternative medicines that have been around for decades compared to the touted "new technology" in the current drugs being pushed by our government? Governments across the nation and the world who are mandating vaccinations and passports are the cause of the crisis happening in their states. Hear the plea of individuals and families who have suffered losses on both sides of the needle, vaccinated and not vaccinated. Leave emotions out of the decision process. Make decisions that benefit the most basic of human rights that are granted by GOD, not by mans governments. Somewhere along the way, we have forgotten that the People have a right to speak, worship, protect themselves, and be free from government over-reach into our life, liberty and pursuit of happiness. Governments forgot that they were granted by the People the Privilege of protecting those GOD given rights of the People. Please do not lead our Hawai'i down a path of no return. Do not pass Resolution 21-194. Thank you.

I oppose this Res21-194 on the basis that it infringes upon my inalienable rights as a citizen of the USA. This also applies to every other citizen equally. Your Oath of office requires you to protect and defend the Constitution of the United States. This is your primary responsibility individually and collectively as a Council Member.  
It is my responsibility to hold you to that path. It is also my responsibility to take the necessary action to protect my health and the community's. It is not your duty to mandate any health protocols or restrictions upon anyone especially if it violates the Constitution. I strongly oppose this resolution. Please do your job.

Respectfully  
Fenton Lee

Aloha,

I am a mother of 3. I am a Registered Nurse. I am a wife to a Honolulu Police Officer. We were both born and raised here in Hawaii and I am the first college graduate in my family. I am proud to be from Hawaii, and proud of my husband and I for working hard from the bottom up to accomplish both personal & career goals that allow us to raise our family here.

I have worked as a nurse in one of Honolulu's largest hospitals throughout this entire pandemic. My husband has worked as an HPD patrolman throughout this entire pandemic. We haven't been staying home collecting unemployment or stimulus checks. We haven't been hiding under a rock and relying on Hawaii News Now or Instagram to tell us how the pandemic is going. WE HAVE SEEN IT. FOR OURSELVES. EVERYDAY. SINCE THE START OF THIS.

We have worked harder than ever before. We have worked more hours than ever before. We have worked under more risky and uncertain conditions than ever before. We have sacrificed more time spent with each other and with our children than ever before *because* of the work we do. And we continue to work through it every day because we, like most in our fields, are DEDICATED, COMMITTED, & PASSIONATE about our mission – Serving others, protecting our community, improving the health and quality of life for the people of Hawaii.

I believe that EVERYONE should have the right to choose whether to accept or refuse medical therapies. But *this* population... this population of healthcare professionals and first responders who we've all relied so heavily on throughout this pandemic.... this population who are well aware and capable of making educated risk analysis assessments based off their *very own* experiences with COVID in both the hospital and community settings. How can this population be told they don't have the right to refuse a vaccine? To threaten our careers, families, livelihoods at a time like this is a complete slap in the face. We are essential workers. We are ESSENTIAL in getting our State, our Country, our Planet out of this pandemic. And we are EXHAUSTED.

As soon as the vaccine mandates for healthcare/city/state workers were announced, there was an instant prevalence of discrimination, judgment, and division in the workplace. People from both sides became heavily opinionated and over the past few weeks, this has negatively impacted the team dynamic and communication in a line of work where strong teamwork is a vital safety issue. This, in turn, dangerously impacts our own mental and physical health, as well as the care provided to the patients/community members we serve. As this continues, it will result in more adverse events, more harm done, prolonged hospitalizations, increased use of resources, and even more deaths.

We cannot ignore the fact that COVID is real and that it is a terrifying and widespread issue. Our hospitals are full, our frontline workers are burnt out, and people who should never have been so sick are dying. But we also cannot pretend as though the division these vaccine passports will create in our community will not become the even larger pandemic as its effects may negatively impact more lives than COVID itself.

I wholeheartedly disagree with implementing a vaccine passport program. In a State where so many local people are already distrusting of the government, forcing more power does not seem a wise tactic. Most people are not against the vaccine itself. They are against feeling blackmailed or forced into doing things they were already suspicious of. We have to remember that we all have the same goal at heart: to end this pandemic. Hawaii has the opportunity to share ALOHA and be an example to the rest of the world. We can prove that differences in opinions don't have to be threats. They can be opportunities to learn, collaborate, and overcome. Respect and understanding are what's essential for the wellbeing of us all.

Mahalo for your time and consideration.

### Written Testimony

I am strongly against the covid vaccine passport or mandatory vaccine requirements. I myself am vaccinated but do not feel that it should be mandated and should be a persons choice do be vaccinated or not. There is proof that you can still get covid and transmit covid if you have been vaccinated so obviously this vaccine is not effective and should not be mandated. There needs to be a different approach by the government to help stop the spread of covid such as encouraging people to eat healthy, exercise and if you do catch covid to provide preventive measures/medicines to recover from covid instead of just having them stay at home and get worse until they have to be hospitalized. We live in America where people should be free to choose what they put in their body and not forced by our government. I am also a police officer and foresee the state/county getting sued over mandatory vaccine/testing requirements, even police officers think and know this is wrong.

Dear Policy Makers-

I strongly oppose that the City Administration and State of Hawaii develop, implement, and "mandate by executive order" any form of a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation.

I believe in a free America, and a free Hawaii built upon freedom of choice. This is what America has been built upon and supports the very fabric of our constitution and our basic human right to move about freely without being discriminated against.

To develop this vaccine passport system that favors people of one status over the other, vaccinated over non-vaccinated, and provide privileges is discriminatory simply because one may have medical and or religious reasons to not take this vaccine. In addition, This vaccine is still under Emergency Use Authorization and NOT fully authorized. So it is an individual's choice to decide what is right for them when it comes to their personal health. Furthermore, studies out of Israel show that although they have the highest percentage of vaccinated population, they still have one of the highest rates of rising infections. Why aren't we looking at studies of proof, that these vaccines are not working?

The impacts that this discrimination of who can or can't enter businesses will only further cause division in our Hawaii culture, as some may choose to not patronize certain businesses if they feel discriminated against. Which in the long run may harm small businesses, that have already been impacted since this pandemic started.

I personally have already experienced discriminatory treatment because I am un vaccinated and believe in my body my choice. I only see this becoming extremely exacerbated between the two sides if vaccine passports are mandated for Hawaii. The Aloha spirit which once permeated our culture, will essentially erode, like our civil liberties if these vaccine passports

are allowed. It is for these very reasons, that I strongly oppose any form of digital vaccine passport program.

Thank you for your time and consideration in this matter.

Sincerely,  
Concerned resident of Hawaii

### Written Testimony

I strongly OPPOSE the use of vaccine passports. It is unconstitutional and a gross overreach of government power. Please give people the choice to govern over their own bodies and not be punished for it by being treated like a pariah of society; where they will not be able to enjoy the same equal quality of life as others who are vaccinated (ie: dining with family at a restaurant, exercising at a gym, or shopping). This is very short-sighted and puts a lot of people's health and livelihood at jeopardy. Thank you for your time.

Written Testimony I am against the digital vaccine passport program and the restriction of individual access to employment, certain businesses, and venues. This is ostracizing us individuals who are good, law abiding citizens, contributing members of society, who are very concerned about our health and well being. It is not right to be forced to take shots of an experimental vaccine in order to keep a job or enter an establishment. I don't feel comfortable in taking this "vaccine" right now since no one knows the long term effects it will have in our body since there's no data yet. We are Americans with rights. Where is our freedom to choose in all this? Thank you!

Written  
Testimony I am fully vaccinated however, I oppose having a mandate forcing individuals to have to put something into their body. Every individual should be able to make it their choice whether to have this vaccine, or any other medicine injected into their body. And the reason for this is it is the individual who ultimately suffers the consequences regardless of the outcome of the medicine. And they should have the majority say.

Written Testimony Aloha, I became deaf from a childhood vaccine injury. I have not taken any since and I will not take any now. I believe everyone should have the right to choose; indeed we do and it is the United States and Hawaii constitution, and the bill of rights, that dictate those protections and limitations on government power. Remember, you serve the people. You derive power from the consent of the governed, and we no longer consent. The people say no to mandates of any kind. Mahalo for listening.

Aloha and thank you for taking the time to hear my concerns.

I would first like to share that I am fully vaccinated with the Moderna vaccine. I got my vaccination the moment that it was open for me to do so. I am not an anti vaxer or in opposition of offering vaccinations that may aide in slowing down illnesses and the burden that they may carry on our community. I am very aware of the fact that the vaccine may have side effects and that those side effects are probably not well documented, as there is a much bigger dragon to slay currently. I was ok making the choice for the benefits that I may gain.

Having shared my personal stance on the vaccine and my willingness to get the vaccine, you may wonder why I strongly oppose the vaccine passport. And I very strongly oppose it, I will list my reasons here.

### Written Testimony

Asking us to share our medical information is unconstitutional and in violation of HIPAA.

Forcing or coercing a community or group to make any kind of change to their body or take a substance that they are not comfortable with is raping them of their rights as Americans.

Placing the burden of this mandate on already struggling businesses and communities is counterintuitive to a government that is trying to reestablish a flourishing economy.

Forcing one group to comply with the view of another group under the guise of public safety is dividing community and families. Our government should be working toward building communities not tearing them down. - in the last 24 hours after announcing the passport, I have personally witnessed 3 heated altercations in public between both friends and strangers alike, as well as heard neighbors fighting passionately, I have seen my own children crying about if they would be forced to vaccinate, I have come into work where a working senior

citizen is crying because they worry if they will lose her job because they've chosen not to vaccinate. - this is wrong.

You, our government, are not listening to your people, and we are scared. We need you to listen, yes to science, but also to your communities and to common sense and life's realities.

The vaccine may be a way to bat down Covid, but mandatory testing on incoming flights and forced quarantines for those who are Covid positive, can work too.

People who are vaccinated (like myself) are much more likely to unknowingly carry (and therefore spread) Covid, as we are much more likely to be asymptomatic.

Allowing vaccinated individuals (that potentially carry the illness) leniencies will increase the spread. And while vaccinated individuals are less likely to fall ill and take up a hospital bed, if they are the ones carrying the illness, they must also be mindful and minded.

Look at the date that we allowed vaccinated travelers to come to Hawai'i without negative testing, compare that date to when cases began rising.

The state, the city, and businesses should be more responsible. Our government should be sharing information that will truly keep our communities safe; those who are infected with Covid (vaccinated or not) should quarantine until they get a negative test result. This is not happening. Vaccinated individuals can fly without testing, therefore we can fly with covid. We can also return to work without testing negative as long as we feel well. And if this mandate goes through, we will be able to dine out, exercise, shop, gather, all while having covid. If we spread it, it will likely be our unvaccinated counterparts that will fall ill. And while, in my self interest, I got vaccinated, I am very aware of the risk I pose to others by being vaccinated and I take it seriously by wearing my mask and practicing social distancing. I cannot say that duty is clear to others, and I blame the government for sharing misinformation & demonizing those who choose to wait until they are comfortable with their choice to vaccinate.

I can speak to many instances of Covid spread from a vaccinated individual, some of which traveled here knowing they were Covid positive. I can first hand tell you that there are businesses that do not require their employees test negative to return to work after being Covid positive (and it is not required that businesses enforce a negative return to work test-yet they will now insist a test just to visit or... the vaccination). I know individuals that have had Covid and are ashamed to share that information. I know some that go out in public, a community threat. We all have to research and research to find out about viral loads and proper testing, and being outdoors for health, and air movement and circulation assisting in minimizing spread, and voluntary lock downs to help make it safe. We have to seek out the information and so often, it's not great information, they don't know, it's inconclusive, they haven't worked it out yet. All of this is shameful to me, it is infuriating. There is much work to be done by ourselves, our community, and most importantly our government.

The reason I most strongly oppose this passport? Because our government has not done everything in its power, much less, the simple things that can make such a huge difference. We are owed that by our government. When those things are done, when they are looking for all answers not just the ones at their feet, that is when I can support decisions that start to strip one of their freedom. Only then should it even be an option, when all else has been exhausted.

Perhaps if all of those steps take place and information is shared and documented, both about the pros and cons of vaccination, if affirmative answers are given rather than the current common “it’s inconclusive” “we’re working on it” “it’s safe”, perhaps then we wouldn’t even need to be mandating this, there may be many more willing.

I plead that you dig deep and do the hard work, be responsible, to us all, not just those that are in line with your beliefs. If we educate, mandate easy to follow practices, are transparent and caring, we can beat this together. We have a lot more to loose to than just Covid; freedoms and communities are being torn apart right now. Do what you’re called to do. Serve your people and lead.

Humbly  
Kanani Oury.

Your position on the matter Oppose  
Representing Self  
Organization

Written Testimony I oppose the vaccine passport for multiple reasons. It will demolish local business, it hasn't worked in other countries and natural immunity is proven better by Harvard epidemiologist who says the case for vaccine passport is destroyed. Anyone holding office that supports the passport will be voted out because it is wildly unpopular. See Justin Trudeau for examples.

I strongly oppose RESOLUTION 21-194.

### Written Testimony

My children who attend school have a religious exemption and are not vaccinated, neither am I. I am not picking and choosing which vaccines I want and do not want, and I am not discriminating this Covid 19 vaccine. I hold a sincere conviction and belief in not vaccinating myself or my children.

RESOLUTION 21-194 violates The Civil Rights Act of 1964 which prohibits discrimination on the basis of race, color, religion, sex or national origin. Provisions of this civil rights act forbade discrimination on the basis of sex, religion, as well as, race in hiring, promoting, and firing.

### Written Testimony

To whom it may concern,  
I vehemently oppose this back door bill that would take away the people of Hawaii's Freedoms and rights. One must ask oneself why is our government so strongly pushing this agenda? When COVID was at it's worse in 2020 we were able to come through it. We were even able to have our economy come back when everyone was saying it would be years! Now they want to FORCE mandates on our Children and take away our jobs, our medical choices, what's next? When everyone knows that Japan is using Ivermectin for COVID and it works. So why are you fighting the cure so strongly? Anyone who does not watch mainstream media knows the TRUTH! I thought Hawai'i was different and could trust our local news to tell the TRUTH. I was wrong!  
We are AMERICANS and we have rights that cannot be taken away! Or are we CHINA? What are you getting out of these mandates \$\$\$? How can you continually hurt the people of Hawaii who put you in office? We have all done the research we are not STUPID, maybe you need to research it so you can know the TRUTH also. God have mercy on your soul. God Bless you!

Organization

Mandating a person to take the Covid 19 vaccine in order to participate in society is not any different than handing them a loaded gun, (minus a few rounds), and forcing them to put it to their head and pull the trigger.

What are the long term effects of the Covid 19 vaccines? We do not know. We do not have any scientific data to support long term effects.

We do have scientific data that shows thousands of deaths after the first, or second shot from the Covid 19 vaccines, and now we are starting to see death on the rise after receiving the booster shot.

### Written Testimony

We do have scientific data that shows cancer, infertility, autoimmune diseases, heart disease, brain and neurological disorders are on the rise among the vaccinated. I personally know people that after taking the vaccine miscarried, developed rheumatoid arthritis, and Parkinson disease.

We do have scientific data that shows fully vaccinated individuals carry high amounts of the viral load and have become known as super spreaders. The higher number of vaccinated people, the higher the number of Covid 19 cases.

I do not support Resolution 21-194 Covid-19 health card as mandating the Covid 19 vaccination is a much greater risk to the health, safety and security of society.

### Written Testimony

I strongly oppose this unconstitutional abuse of government powers that segregates and creates a two-time society based on a personal health decision. This has the appearance of the classic Hegelian dialectic model of Problem-Reaction-Solution. Research easily uncovers the idea of a health pass, vaccine passport etc... has been in planning for years. This is the path to an authoritarian medical technocractic police state where God given rights are no longer unalienable, but instead contingent on one's obedience to the state on matters of personal health under the guise of public health in a never-ending state of emergency, thus turning free citizens into subservient slaves to government. This is completely at odds with the very core values thus country is founded upon. Our life, liberty and pursuit of happiness needs not a permission slip or Nazi era papers please requirement to exercise freely. You are all breaking the oaths you swore on. There is no medical emergency clause in the constitution. "Necessity is the plea for every infringement of human freedom. It is the argument of tyrants; it is the creed of slaves." — William Pitt the Younger The greater good always leads to the greatest misery and suffering. <https://youtu.be/gvPKTVK10JE>

### Written Testimony

History has shown that the removal of freedom is not safe at all, but very dangerous. Thus if we sacrifice freedom in the attempt to promote safety we lose both our freedom and our safety. All that in exchange for a meaningless sense of false security which fades into oblivion. I am a descendant of slaves. But we are past the time of slavery. Or are we? I wonder what my ancestors would think of this freedom. They lived through a time where they were barred from restaurants and public places because of their differences. Because of the difference of the color of the chemicals within them, they were faced with unspeakable discrimination. But we're past that. Or are we? As a descendant of slaves that were brought to America against their will, I hoped never to see large groups of people coerced and segregated in my lifetime. But the dust and grime of slavery in this country has barely settled and the scar it left is still apparent and already the government moves to remove freedom from its people. This is wrong. Many would say that the government is correct and they act in the best interest of the people. Of course many said that in the time of slavery too. Hopefully we can all agree that they were wrong then. Well they're wrong now too. I wholeheartedly oppose this resolution.

Your position on the matter Oppose  
Representing Self  
Organization

Written Testimony I, Alissa Tuumalo, strongly oppose vaccine mandates and vaccine passports. My medical decisions are my own to make. People should not have to seek validation of their beliefs or values from anyone to justify their reasons to make a medical decision that will affect their health and their future. Inforcing "vaccine verification" is in violation of my constitutional rights, medical freedom, and religious beliefs. Hawai'i officials are forcing the residents of Hawai'i to take the Covid-19 shot and if an individual does not comply then they must face repercussions such as forcing Covid test, or losing their jobs and freedoms to participate in society. These officials state, "We value freedom of choice" and "You have a choice". THIS IS NO CHOICE. This is cornering citizens to decide between their health or livelihood. This is clearly discrimination and unlawful.

Here below is a testimony that I 100% stand by and do not think I could have said it better.

# THE NUREMBERG CODE

## Permissible Medical Experiments

The great weight of the evidence before us is to the effect that certain types of medical experiments on human beings, when kept within reasonably well-defined bounds, conform to the ethics of the medical profession generally. The protagonists of the practice of human experimentation justify their views on the basis that such experiments yield results for the good of society that are unprocurable by other methods or means of study. All agree, however, that certain basic principles must be observed in order to satisfy moral, ethical and legal concepts:

1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.
3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.
4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.
6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probably cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Of the ten principles which have been enumerated our judicial concern, of course, is with those requirements which are purely legal in nature — or which at least are so clearly related to matters legal that they assist us in determining criminal culpability and punishment. To go beyond that point would lead us into a field that would be beyond our sphere of competence. However, the point need not be labored. We find from the evidence that in the medical experiments which have been proved, these ten principles were much more frequently honored in their breach than in their observance. Many of the concentration camp inmates who were the victims of these atrocities were citizens of countries other than the German Reich. They were non-German nationals, including Jews and "asocial persons", both prisoners of war and civilians, who had been imprisoned and forced to submit to these tortures and barbarities without so much as a semblance of trial. In every single instance appearing in the record, subjects were used who did not consent to the experiments; indeed, as to some of the experiments, it is not even contended by the defendants that the subjects occupied the status of volunteers. In no case was the experimental subject at liberty of his own free choice to withdraw from any experiment. In many cases experiments were performed by unqualified persons; were conducted at random for no adequate scientific reason, and under revolting physical conditions. All of the experiments were conducted with unnecessary suffering and injury and but very little, if any, precautions were taken to protect or safeguard the human subjects from the possibilities of injury, disability, or death. In every one of the experiments the subjects experienced extreme pain or torture, and in most of them they suffered permanent injury, mutilation, or death, either as a direct result of the experiments or because of lack of adequate follow-up care.

Obviously all of these experiments involving brutalities, tortures, disabling injury, and death were performed in complete disregard of international conventions, the laws and customs of war, the general principles of criminal law as derived from the criminal laws of all civilized nations, and Control Council Law No. 10. Manifestly human experiments under such conditions are contrary to "the principles of the law of nations as they result from the usages established among civilized peoples, from the laws of humanity, and from the dictates of public conscience."

Whether any of the defendants in the dock are guilty of these atrocities is, of course, another question. Under the Anglo-Saxon system of jurisprudence every defendant in a criminal case is presumed to be innocent of an offense charged until the prosecution, by competent, credible proof, has shown his guilt to the exclusion of every reasonable doubt. And this presumption abides with the defendant through each stage of his trial until such degree of proof has been adduced. A "reasonable doubt" as the name implies is one conformable to reason — a doubt which a reasonable man would entertain. Stated differently, it is that state of a case which, after a full and complete comparison and consideration of all the evidence, would leave an unbiased,

unprejudiced, reflective person, charged with the responsibility for decision, in the state of mind that he could not say that he felt an abiding conviction amounting to a moral certainty of the truth of the charge.

If any of the defendants are to be found guilty under counts two or three of the indictment it must be because the evidence has shown beyond a reasonable doubt that such defendant, without regard to nationality or the capacity in which he acted, participated as a principal in, accessory to, ordered, abetted, took a consenting part in, or was connected with plans or enterprises involving the commission of at least some of the medical experiments and other atrocities which are the subject matter of these counts. Under no other circumstances may he be convicted.

Before examining the evidence to which we must look in order to determine individual culpability, a brief statement concerning some of the official agencies of the German Government and Nazi Party which will be referred to in this judgment seems desirable.

### Written Testimony

I oppose this Res21-194 on the basis that it infringes upon my inalienable rights as a citizen of the USA. This also applies to every other citizen equally. Your Oath of office requires you to protect and defend the Constitution of the United States. This is your primary responsibility individually and collectively as a Council Member.

It is my responsibility to hold you to that path. It is also my responsibility to take the necessary action to protect my health and the community's. It is not your duty to mandate any health protocols or restrictions upon anyone especially if it violates the Constitution. I strongly oppose this resolution. Please do your job.

Respectfully  
Fenton Lee

### Written Testimony

A'ole pono! I submit this in opposition to RES21-194. This "passport" does not serve to benefit any good for the people of Hawaii. Business and individuals who are already suffering will only suffer more under your passport. Passports only serve to restrict the RIGHTS of the people to live and provide for themselves and their families with basic human needs. It's nothing but human cruelty and discrimination designed to inflict punishment on those who chose not to put an experimental drug in their body. The people of Hawaii have suffered enough by the hands of this government and its officials. David Ige, Rick Blangiardi, Elizabeth Char, and others in official capacities continue to rob the people of this state of their freedom of choice to make an understanding and enlightened decision. They do this through force, fraud, deceit, duress, over-reaching, and other ulterior forms of constraint or coercion such as vaccine mandates and now passports. This is a violation of the Nuremberg Code of 1947/1948 regarding the crimes against humanity through human experimentation. Make no mistake, these so called vaccines are experimental which is why the government forced it out through Emergency Use Authorization. They couldn't have done it any other way. Blangiardi, Ige, and Char also state that the FDA granted full approval of the Pfizer BioNTech (COMIRNATY) COVID-19 Vaccine. Yet, the Biologics License Application approval letter dated August 23, 2021 authorizes the manufacture of the COVID-19 vaccine mRNA product with REQUIREMENTS TO CONDUCT "STUDIES" to assess "KNOWN SERIOUS RISKS OF MYOCARDITIS AND PERICARDITIS". Unfortunately for all of us, the first reporting of the "STUDY" for COMIRNATY will not be out until October 2022 according to the FDA document. The entire study goes on till 2027. I don't understand how government officials continue to say that these vaccines are "safe and effective" when there are thousands of reports of deaths and adverse affects. They don't speak about one single death or adverse affect from the vaccines as if these incidents never happened. Now we want to coerce more people into taking a vaccine just so they can go to the store and buy food and provide basic needs for their families? For a vaccine that we knew from the start does not prevent you from

getting the virus, does not prevent you from spreading the virus, and as we now know from other countries like Israel and Iceland who have the highest reported number of vaccinated people, where the vaccinated are at a higher risk of contracting and spreading the Delta variant. The vaccines are not a cure and they were only reported to ease the symptoms of this flu virus. Yet vaccinated people are continuing to be reinfected and are reported to have a weakened immune system due to a vaccine only designed to fight the covid19 strain. But you'll never hear that from Char. These passports do not serve to protect the people. It only serves as a tool for government to over-reach its power and force the people to obey its unlawful rules. Where does this end? When the vaccine companies say that they are rolling out booster shots, what happens to those who willingly received the vaccine the first round? Are you going to take away their passport until they get their boosters? If vaccine companies say booster shots are needed every 6-8 months, then what happens? How long do we put up with this? Is this what you want for our state? Over a virus that has a 99.9% recovery rate? Over a virus in which doctors and scientist across the nation and the world agree that there are effective and safe alternative prophylaxis and treatments that have been used to treat thousands of patients without any side affects? There are alternative medicines that have been around for decades compared to the touted "new technology" in the current drugs being pushed by our government? Governments across the nation and the world who are mandating vaccinations and passports are the cause of the crisis happening in their states. Hear the plea of individuals and families who have suffered losses on both sides of the needle, vaccinated and not vaccinated. Leave emotions out of the decision process. Make decisions that benefit the most basic of human rights that are granted by GOD, not by mans governments. Somewhere along the way, we have forgotten that the People have a right to speak, worship, protect themselves, and be free from government over-reach into our life, liberty and pursuit of happiness. Governments forgot that they were granted by the People the Privilege of protecting those GOD given rights of the People. Please do not lead our Hawai'i down a path of no return. Do not pass Resolution 21-194. Thank you.

I have a strong opposition towards the Vaccine Passport. It is discriminating and racist, in fact this is segregation and fear mongering not to mention how we are literally living communist ways.

This is unlawful and we the people have the free agency to choose. Life is not a hundred percent, but we are all entitled to our freedom of rights.

You can't force something that is not a hundred percent and expect COVID cases to decrease from it. The only thing certain in this life is your FREE WILL TO CHOOSE and you are taking that away from us.

### Written Testimony

Please hear us ALL out! I voted for you and I had faith you would help our home state to be better but I am not seeing it!

I am a mother of 5 and my husband can possibly lose his job over this. There are so many vaccine deaths and injuries that of course will not be shown on main stream media but guess what? its happening! My family and I do not want an adverse reaction to this shot, it is not for everyone!, its a risk! So I plead to you to please reconsider this passport mandate.

Aloha,  
Jan

### Written Testimony

I oppose Resolution 21-194 as it violates my freedom of choice to care for my body as I determine is best for me. As the saying goes, "My body, My choice", which is a commonly used phrase by the pro-choice people who choose to kill their unborn babies in their bodies. Well, I say now, my body, my choice. I stand on the freedoms that we enjoy as Americans. However, this Resolution 21-194 strives to eliminate my freedom to chose what is right for my body by enforcing Health Passports that limits citizens who chose not to be vaccinated from patronizing restaurants, gyms, etc. What's next, grocery stores? This is discrimination, which results in factions of people (vaccinated vs vaccine-free). The potential for these factions to foster hatred and violence is frightening and real. To use punitive measures to force citizens against their free will to comply with the vaccine edicts is communistic and it is wrong. These control tactics shadows the Nazi regime by treating the vaccine-free group as second class citizens, like the new "Jews" using Health Passports as identification instead of the yellow armbands with the Star of David. Your efforts to control Hawaii's citizens from their everyday life activities is punitive and un-American. I am disgusted by this Resolution 21-194 proposed by Tommy Waters. If implemented, the Health Passports will have a lasting, negative impact that will spawn hatred and violence as groups are pitted against each other. The fabric of the Aloha spirit will be destroyed with the enforcement of this proposal, therefore, I propose banning Resolution 21-194 because it is wrong to take away our freedom to live as we choose regardless of government edicts.

Written  
Testimony These mandatory enactments should they be allowed to pass, would violate our constitutional rights as American citizens. They are highly invasive, unwarranted, and unwelcome in this state of Hawaii and for the entire US. It is clearly stated by the CDC that those who are already vaccinated "are still at risk of contracting COVID 19". To mandate something that has already been proven as ineffective is not only counterintuitive, but highly impractical. My body my choice.

### Written Testimony

From my point of view the proposed vaccine passports are designed as a way to coerce the non-vaccinated to be injected with a vaccine that is proving itself daily (not from the mainstream media or social media that "cancels" any opposing view) to not be effective.

My contention is that the 3 Covid Vaccines in the US are not effective in stopping the spread of the Covid 19 virus.

1) Dr. Anthony Fauci: Fully Vaccinated Carry Same Viral Load As Unvaccinated With Delta Variant

"When you look at the level of virus in the nasopharynx of a vaccinated person who gets a breakthrough infection with delta it is EXACTLY the same as the level of virus in an unvaccinated person who is infected. That's the problem. So those data are very compelling."

2) CDC study shows three-fourths of people infected in Massachusetts coronavirus outbreak were vaccinated but few required hospitalization

<https://www.washingtonpost.com/health/2021/07/30/provincetown-covid-outbreak-vaccinated/>

3) People infected with Indian 'Delta' variant have a viral load 300 TIMES higher than the original COVID-19 strain and are twice as infectious, study finds

<https://www.dailymail.co.uk/health/article-9921789/Delta-cases-300-times-higher-viral-load-S-Korea-study.html>

The counts of adverse reactions are never discussed in any of our local media. The CDC's VAERS (Vaccine Adverse Event Reporting System) <https://wonder.cdc.gov/vaers.html> lists 13,627 Deaths due to one of the 3 vaccines and 623,341 reports logged in the system regarding adverse reactions. I personally have a friend here in Hawaii who had a miscarriage after getting injected. Her doctor logged it into VAERS as due to the injection. I have another friend who recently has taken her second shot and has never had high blood pressure, elevated heart rate or trouble catching her breath going up the stairs while masked. She has all of these symptoms now. This website summarizes the Covid related vaccine injuries.

<https://www.openvaers.com/covid-data> In it you will see the data about males (generally) under

20 who now have myocarditis after getting 1 or 2 vaccinations.

People receiving the vaccines are not receiving informed consent. Here is a definition from the American Medical Association: Informed consent to medical treatment is fundamental in both ethics and law. Patients have the right to receive information and ask questions about recommended treatments so that they can make well-considered decisions about care. The boxes that the vaccines come in have blank sheet of paper where the ingredients and warnings should be. Similar to how the TV ads for pharmaceuticals all list the side effects. Pfizer and Moderna are still considered under Emergency Use Authorization (EUA). The Approval was for Comirnaty which is not available in the US and also does not have the liability shield that Moderna, Pfizer and Johnson & Johnson do. The media has falsely reported that the Pfizer (which everyone assumes is what is being used in the US) is approved. The Pfizer-BioNTech COVID-19 vaccine has not been approved or licensed by the U.S. Food and Drug Administration (FDA), but has been authorized for emergency use by FDA under an Emergency Use Authorization (EUA) to prevent Coronavirus Disease 2019 (COVID-19) for use in individuals 16 years of age and older. <https://www.pfizer.com/products/product-detail/pfizer-biontech-covid-19-vaccine> BioNTech and Comirnaty are 2 different vaccines. Comirnaty FAQs <https://www.fda.gov/vaccines-blood-biologics/qa-comirnaty-covid-19-vaccine-mrna> Proof Pfizer Comirnaty and the currently available Pfizer BioNTech BNT162b2 vaccine are TWO DIFFERENT VACCINES - THIS IS WHY THE CURRENT PFIZER VACCINE, BNT162b2, IS NOT FDA APPROVED AND NOT RELEASED YET! Pfizer added different "ingredients" to improve antigen expression. It's right in their report.

From The FDA Comirnaty Approval Report

Toxicology (page 14) - "The repeat dose toxicity evaluations were conducted on COMIRNATY and a similar vaccine termed BNT162b2 (V8). COMIRNATY and BNT162b2 (V8) have identical amino acid sequences of the encoded antigens but COMIRNATY includes the presence of optimized codons to improve antigen expression. "

<https://www.fda.gov/media/151733/download>

With that being said the various vaccine mandates are not justified and thus the proposed Vaccine Passport being proposed has nothing to stand on.

In closing I'll leave you with this.

The Nuremberg Code of 1947 laid down 10 standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide.

I will outline 3 of the 10 points laid down in the code:

1) The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.

2) The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

3) During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

The COVID19 vaccines do not create immunity, eliminate transmission, or hospitalizations so why are you mandating them. Follow the science and data from both this pandemic and historic pandemics. The COVID 19 Virus continues to evolve into new variants as all COVID virus's do and to chase the variants with new and improved vaccines is a fools errand and a deadly mistake. The vaccines you are mandating (that have very real and documented negative side affects) are already outdated against Delta (as hospitalization data from around the world and here shows) and new variants are already identified. There are at least 3 therapeutics that have been proven effective against COVID 19 in multiple studies and front line doctors experiences in U.S. and around the world. that are cheep, available, safe and importantly do not require hospitalization. Use your leadership to implement protocols that will help Hawaii thru this crisis and not hurt Hawaii. It took two years for the world to be thru the Spanish Flu pandemic (that was far more deadly and contagious) using our natural immune response (those who recover from COVID 19 have a complex, lasting immunity to the virus) and created herd immunity. The world can do the same with COVID 19, let Hawaii lead the way.

Written Testimony I fundamentally oppose to vaccine passports, vaccine mandates and the proposed requirements (proof of vaccination/ neg covid test) for the enjoyment and employment of/at restaurants/bars/gyms, etc. This is unethical, and unconstitutional AND not based on factual data or a worldly approach to research and scientific findings on said virus.

### Written Testimony

I strongly oppose this bill about digital passports. Hawaii is a small business economy and culture. These small businesses have been through so much over the past two years, and to continue to add stressful and heavy mandates on them is very hurtful to their physical and mental health. We need Hawaii to thrive within our local economy. I'm referring to locals helping locals, we support our small businesses. Adding more regulations on them will hurt them. They are already having a hard time hiring people. Now they'll have to hire more staff because some of their workers will have to quit because of these policies and they'll have to hire more staff because they need to regulate these new policies. Please, let us come up with a positive solution that helps Hawaii. A solution that brings us together instead of dividing us!!!!

Thank you for your time,  
Miray Mongeon

It is against the US Constitution.

The government has no legal jurisdiction over my body & medical rights. CDC shares 12,000 people PLUS have DIED in result of the COVID Shot. Other courts on the federal level have thrown out Covid mandates because it is against our constitutional rights. I choose FREEDOM to choose. Science does not support the shot, the tests or the masks. In fact science speaks against all three.

If mandates continue with Covid Vax Card / passport it is in direct violation of coercion & segregation. Please support the law!

Follow other Federal Court hearings around the US; avoid unnecessary tax payers money, time & energy. Let's refocus on our children, clean air, clean water & clean soil. Then we will see what happens to COVID....

Written Testimony Please see the most recent court ruling in LA:

Federal judge rules against COVID vaccine mandate at Louisiana

By William Patrick | The Center Square

Aug 18, 2021

(The Center Square) – A federal judge in Louisiana has issued a temporary restraining order preventing Edward Via College of Osteopathic Medicine from mandating COVID-19 vaccination as a condition of student enrollment.

The decision is the latest development in a dispute involving several students, the private medical college operating at the University of Louisiana-Monroe and Louisiana Attorney General Jeff Landry.

Landry actively opposes vaccine mandates, while VCOM asserts its mandatory vaccination policy is critical to keeping students, staff and patients safe.

“Even during a pandemic, we must protect the rights of our citizens,” Landry said immediately after the ruling. “I’m pleased with the court’s decision and glad these students can focus on what’s important; their education.”

Landry first approached the school when three students said they were retaliated against for refusing COVID-19 vaccinations.

“These complaints have included recordings of conversations with VCOM staff engaging in harassing and coercive conduct targeting students who have exercised their right to opt-out of receiving a COVID-19 vaccine,” Landry said in July.

The school rejected accusations of wrongdoing and maintains it has acted appropriately regarding health and legal obligations.

“The intention of VCOM’s coronavirus vaccine policy, is and always has been the safety of our students, the safety of our employees and workplace, as well as the safety of the patients being cared for by our students, faculty and staff,” VCOM said in an emailed statement.

The school granted the students religious exemptions after they filed a federal lawsuit, along with the attorney general, Aug. 4. Landry later backed out after Judge Terry Doughty of the U.S. District Court for the Western District of Louisiana questioned the state’s standing.

The students continued their lawsuit, in part, because of restrictions that came with the religious exemptions, such as required vaccine education trainings, a prohibition on activities involving patients and only working with student lab partners who agree to work with unvaccinated students.

“VCOM has responded to the Attorney General’s letters twice by making minor amendments to our policy, but vaccination remains a requirement. This requirement is important as our students become medical providers in their first year,” the school said.

“Physicians and VCOM students, as medical providers, also have no right to be a vector in spreading the virus or infecting the unknowing patients they will care for, who would naturally believe the students would be vaccinated,” VCOM said.

Doughty sided with the students in his Tuesday ruling, saying the restrictions attached to the school’s religious exemptions would cause “irreparable harm” to the students. He added all VCOM students share the same risks outlined by the school’s administration by virtue of being at the University of Louisiana-Monroe.

“Although VCOM has an interest in protecting its students, its students are allowed to attend ULM functions, participate in ULM intramural events, study in the ULM library and mingle with ULM students, who are not required to get the vaccine,” the decision said.

Michael DuBos, the attorney representing the aggrieved VCOM students, said he was happy with the legal outcome.

“We feel it is important to respect individual rights, especially in a time of crisis. If not, it sets a dangerous precedent,” DuBos said.

I oppose this due to the fact that this was never required before covid-19. Covid-19 should be evaluated and seen as a singular incident and all decisions due to travel and healthcare should be discussed over a 2-3 year period so we can see the actual effects of the virus on the health of people, the economy of hawaii and personal freedoms.

Written  
Testimony

On the specific topic of the digital health card I would like to know how this will prevent new infectious diseases similar to Covid-19 and prevent these new diseases that have no vaccines. Hawaii has always been an international melting pot and with that being said all other countries have different vaccine schedules and approved vaccines. This means not all people in the past have followed the most recent vaccine schedules and if so how would this change and protect us the people in Hawaii since it wasn't problem before this new virus was discovered. I do not see how this would protect us from new viruses???

### Written Testimony

This vaccine should not even be given to the human race let alone forced on us and children. When the Ex V.P of Pfizer and the creator of mrna comes out against it saying that not a single animal survived animal testing, and that unless humans respond differently than animals. People who took the vaccine will die off with in 6 months to 3 years. It is absolutely insane to give it to a single human let alone the island of Hawaii or the entire world. This is so wrong. If we are the ones who have to live with the consequences of what happens to our bodies we should be the that make the decision for ourselves. But with what has been said about it, it should not even be offered to people especially when there are other methods that actually work. Unlike this fraudulent vaccine

I am strongly opposed to these two resolutions. As a clinical and forensic toxicologist, it is my opinion that they are based on fear and misinformation not on science. They separate us by class distinction and define our freedoms on the basis of hypothetical health status. They are divisive and destructive to our citizens, they discriminate on the basis of fear and "profiling" innuendo and take away from the unity and aloha of our islands and our people. They line the pockets of the testing laboratories and do little to control the spread of COVID. They are no better than racial profiling. They are misguided, knee jerk reactions based on misinformation and fear, and worse expediency.

### Written Testimony

Council members ... please share your strengths with our community and not your fears. Please refrain from approving these misguided and draconian measures which will, more likely than not, result in far more destructive impacts on our community, its economy and our personal freedoms than the virus ever could on our public health.

Please be PONO and stop Fear from grabbing the "wheel and steering" our political process.

Dr. Mark R. Hagadone  
Kaimuki

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

### Written Testimony

Mandatory vaccination is discrimination by health care act. This does not implement safety for our public at all costs to have a vaccine for an excuse to be exempt from testing. Four of my coworkers in the restaurant business who are fully vaccinated all got covid. This is an example and proof that we need to reduce traveling and take care of our own people in Hawai'i first. Our health and safety regulations are being misled and taking action to assist our residents. Vaccinated does not mean you can't get covid. You are able to get covid and spread the variant to others within close contact. And with lessened symptoms they will go about freely to the public and therefore spreading it more. The issue is overflow of tourists in contact with residents and those residents bringing it back to their relatives. Tourism jobs as in restaurants in hotels and resorts are the highest in testing positive.

A resolution would be to reduce tourism to islands dramatically. With a limited number of entry allowed into state. Controlling the amount of group in contact with residents. All visitors must test before and after arrival to ensure proper testing measures through 48-72 hour gap.

### Written Testimony

I oppose the bill for the vaccine passport because it gives a false sense of security. At this moment there are 4 people that came to Hawaii on a vaccine passport, they have Covid right now and are being quarantined at the Kaaanapali Westin Hotel which is case and point. The CDC has now admitted that vaccinated people can get and transmit the Covid virus as well. They need to continue having tourist take the Covid test and show their negative test result not a vaccine passport. I got Covid in March of 2021 it lasted 11 days and the worse part was the headache. I had been taking what doctors have been saying to strengthen my immune system, Vitamin C, Zinc, Querticin and D3. I have not been sick since. Other countries like Japan and Germany are using what has been proven to work, Ivermectin. We should learn from the rest of the world of what's working and what is not. Israel one of the highest vaccinated countries trusted in the vaccine and let their guard down and now they are in a crisis. I believe the protocols of washing hands, using masks, social distancing is helpful but please don't allow vaccines to bring a false sense of security therefore continuing our cases to grow.

Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I am opposed to Resolution 21-194

I have not spoken out publicly about this nor has many of my friends and business owners as we are treated as pariahs and outcasts in our already segregated community.

I studied Psychology and Public Administration in college. One specific area of study I researched while attending college was specifically the FDA and the Drug Administration. This is where my concerns lay.

Written  
Testimony

1. Most people don't know that normally a drug only takes 6 months to get on the market.
2. Normal practice for Big Pharmaceutical companies that have billions is that they test at hundreds of independent labs, but are only required to turn in 1 test result. Obviously turning in best results. In turn side the percentage of side effects are much greater then listed.
3. It typically takes 10 years for long term side effects to show.
4. After side effects are noted (10yrs later) then it takes an additional 10 years for doctors to do research to prove in test cases that the side effects are from that particular drug.
5. At the time of my research the FDAs entire fiscal budget if used to test new products on the market would only be able to test 3% of all incoming new products.
6. Medications and Vaccines take more in-depth and longer term studies to be provided on younger children, but it none of the current vaccines have long term studies.

In addition I have had covid twice. The first while traveling out of country before it was announced. The second time we contracted covid was the Summer of 2020. Both times my family and I survived. I had minimal illness. My youngest daughter the worst because she was only year old at the time and my husband was ill for 2 weeks. None of us required medication, assistance or hospitalization.

The second time my family was exposed to covid the baby was fine with no symptoms, my then 4 year old felt mildly ill for less than 12 hours same as myself (I recognized the symptoms immediately this time, even though much less intensity). Our children are young and we all stayed together as a family unit and the children sleep with us. My husband who was the most symptomatic has since then taken the vaccine only as a means to keep his employment.

At the time of the second contraction they were limiting tests and would only allow one person in our household a test although all were infected.

The members currently seem higher but the amount of tests previously administered was much less than the actual number infected.

Even with vaccinations you are able to pass along the virus. young children are not if vaccination age. Since I have the antibodies which is between 60-70% more protection than the vaccine I prefer to be able to tell when I'm infected so that I may take the proper precautions to stay away from others.

How is it right for those that are vaccinated who could go about their daily lives as carriers and not symptomatic be free while others who you could tell were symptomatic be confined.

I humbly ask you to please do more research yourselves and do not use this vaccine passport to segregate out society.

I know so many people with small businesses that are struggling or permanently closed die to covid. I ask that you do not put more pressure on already struggling businesses in the private sector.

Please do the math, there are 61,800 cases of covid and 599 deaths which have been classified as Covid related. Which means less than more than <99.9% of people who have tested positive for covid has recovered. We know the number of infected is much greater as many do not know they are ill or test.

I understand this is something unknown and scary but implore you to please remember on the basic rights in which we were founded to have the right to chose be free of political persecution.

In addition the stipulation of having a negative test within 48 hours is unreasonable.

If you are going to mandate tests then it is reasonable to include those whom are vaccinated as they can also be carriers and sick.

As a representative of government office by mandating businesses to exclude those who do not provide their confidential medical record to be exiled for simply being more susceptible to the disease it is immoral and unconstitutional.

I am not anti-vaxx as I have many vaccinations, but I am pro-freedom and pro-choice.

I'm not saying I am will never take the shot, but I'm saying not at this time. This is my right as a citizen of the United Stars of America.

By implementing this mandate, forcing businesses to comply and forcing vaccines it's as bad as Nazi Germany and the internment camps.

I feel that you do not oppose this bill you are an accomplice. Although you do not have a needle you are forcing it into our arm against our will and feel this is the equivalent Medical Rape.

Please do the math and respect our Constitutional Rights.

DATE: Wednesday, September 1, 2021

**COMMITTEE ON TRANSPORTATION, SUSTAINABILITY, AND HEALTH**

**Councilmember Radiant Cordero, Chair**

**Councilmember Brandon J.C. Elefante, Vice Chair**

RE: RESOLUTION 21-194

Position: Oppose

Dear Chair Cordero, Vice Chair Elefante, and Committee Members:

My name is Maluhia Miller and I strongly oppose this resolution. I understand the councils' aim to protect Hawaii citizens but this resolution misses the mark entirely. This resolution brings segregation and discrimination into our communities. This resolution proposes isolating and excluding those who have either recovered from Covid and have developed natural immunity as well as those who don't currently see the vaccine as a safe option for themselves. These people are also citizens of Hawaii and equally deserve protection.

This resolution doesn't acknowledge information put out by the CDC and WHO stating that Covid-19 is also spread by vaccinated individuals. Again, this resolution does not protect Hawaii citizens. It only discriminates against those who choose not to take these vaccines at this time.

Furthermore, these vaccines seem to be almost obsolete according to the science put out about these variants. Where are the credible studies stating that 95% vaccination rate is needed for herd immunity as stated in this resolution? Who are the specialists that make this claim?

This resolution is an attempt to bully the people of Hawaii right into a vaccine syringe and that goes against the oath you each swore when you entered into office.

I urge you to vote NO to Resolution 21-194.

Thank you for your time and for the opportunity to provide testimony.

Sincerely,

Maluhia Miller

### Written Testimony

I am strongly opposed to this resolution going into effect. I believe that this is a violation of our rights as an individual and infringed upon our rights to freedom. If this were to go through, many business are going to suffer more than they already do. Some people are unable to get the vaccine and this completely discriminates against so many different people. I feel as though this is also a violation of our personal health and well being. You are not only discriminating but now requiring people to disclose information about their personal health, which, up until recently was always deemed illegal/HIPAA violation. This should not be legal, you are trying to take away everyone's rights to freedom which is what this entire country is based on.

### Written Testimony

I oppose the mandated required vaccine passport to enter establishments. This ridiculous requirement goes against our freedoms of choice. This vaccine does not protect an individual from getting nor spreading the virus. As the virus has a 99.8% survival rate, it strongly goes against my civil liberties to force a vaccination requirement. As the flu is also a virus and is not mandated to take you are subjecting individuals on a still in testing phase of the covid vaccine and is highly discriminatory to subject individuals to adhere to those demands to enter a store by forcing them to take it. this vaccine is still in its experimental stage for covid and has been proven over and over again that it does not eliminate a person from receiving or spreading the virus. As more and more health officials are coming forward and proving the vaccine does not stop the spread of the 99.8% survival rate virus. You are opening yourselves up for unwarranted civil litigation by this forced mandate.

## Written Testimony

Name Tiffany Lizares  
Phone  
Email tiffany.lizares@gmail.com  
Meeting Date 09-02-2021  
Council/PH Committee Transportation, Sustainability and Health  
Agenda Item Resolution 21-194  
Your position on the matter Oppose  
Representing Self  
Organization

I am opposed to Resolution 21-194

I have not spoken out publicly about this nor has many of my friends and business owners as we are treated as pariahs and outcasts in our already segregated community.

I studied Psychology and Public Administration in college. One specific area of study I researched while attending college was specifically the FDA and the Drug Administration. This is where my concerns lay.

Written  
Testimony

1. Most people don't know that normally a drug only takes 6 months to get on the market.
2. Normal practice for Big Pharmaceutical companies that have billions is that they test at hundreds of independent labs, but are only required to turn in 1 test result. Obviously turning in best results. In turn side the percentage of side effects are much greater then listed.
3. It typically takes 10 years for long term side effects to show.
4. After side effects are noted (10yrs later) then it takes an additional 10 years for doctors to do research to prove in test cases that the side effects are from that particular drug.
5. At the time of my research the FDAs entire fiscal budget if used to test new products on the market would only be able to test 3% of all incoming new products.
6. Medications and Vaccines take more in-depth and longer term studies to be provided on younger children, but it none of the current vaccines have long term studies.

In addition I have had covid twice. The first while traveling out of country before it was announced. The second time we contracted covid was the Summer of 2020. Both times my family and I survived. I had minimal illness. My youngest daughter the worst because she was only year old at the time and my husband was ill for 2 weeks. None of us required medication, assistance or hospitalization.

The second time my family was exposed to covid the baby was fine with no symptoms, my then 4 year old felt mildly ill for less than 12 hours same as myself (I recognized the symptoms immediately this time, even though much less intensity). Our children are young and we all stayed together as a family unit and the children sleep with us. My husband who was the most symptomatic has since then taken the vaccine only as a means to keep his employment.

At the time of the second contraction they were limiting tests and would only allow one person in our household a test although all were infected.

The members currently seem higher but the amount of tests previously administered was much less than the actual number infected.

Even with vaccinations you are able to pass along the virus. young children are not if vaccination age. Since I have the antibodies which is between 60-70% more protection than the vaccine I prefer to be able to tell when I'm infected so that I may take the proper precautions to stay away from others.

How is it right for those that are vaccinated who could go about their daily lives as carriers and not symptomatic be free while others who you could tell were symptomatic be confined.

I humbly ask you to please do more research yourselves and do not use this vaccine passport to segregate out society.

I know so many people with small businesses that are struggling or permanently closed die to covid. I ask that you do not put more pressure on already struggling businesses in the private sector.

Please do the math, there are 61,800 cases of covid and 599 deaths which have been classified as Covid related. Which means less than more than <99.9% of people who have tested positive for covid has recovered. We know the number of infected is much greater as many do not know they are ill or test.

I understand this is something unknown and scary but implore you to please remember on the basic rights in which we were founded to have the right to chose be free of political persecution.

In addition the stipulation of having a negative test within 48 hours is unreasonable.

If you are going to mandate tests then it is reasonable to include those whom are vaccinated as they can also be carriers and sick.

As a representative of government office by mandating businesses to exclude those who do not provide their confidential medical record to be exiled for simply being more susceptible to the disease it is immoral and unconstitutional.

I am not anti-vaxx as I have many vaccinations, but I am pro-freedom and pro-choice.

I'm not saying I am will never take the shot, but I'm saying not at this time. This is my right as a citizen of the United Stars of America.

By implementing this mandate, forcing businesses to comply and forcing vaccines it's as bad as Nazi Germany and the internment camps.

I feel that you do not oppose this bill you are an accomplice. Although you do not have a needle you are forcing it into our arm against our will and feel this is the equivalent Medical Rape.

Please do the math and respect our Constitutional Rights.

### Written Testimony

I am strongly opposed to this resolution going into effect. I believe that this is a violation of our rights as an individual and infringed upon our rights to freedom. If this were to go through, many business are going to suffer more than they already do. Some people are unable to get the vaccine and this completely discriminates against so many different people. I feel as though this is also a violation of our personal health and well being. You are not only discriminating but now requiring people to disclose information about their personal health, which, up until recently was always deemed illegal/HIPAA violation. This should not be legal, you are trying to take away everyone's rights to freedom which is what this entire country is based on.

"Thank you for the opportunity to submit written testimony in opposition to RESOLUTION 21-194.

As a resident of the State of Hawaii, I feel that this resolution, which requests that the City Administration and State of Hawaii develop, implement, and "mandate by executive order if necessary" a digital vaccine passport program, is a violation of my constitutional rights and freedoms.

Written Testimony I believe that electing to take a COVID-19 Vaccine should be a personal, autonomous healthcare decision, and every individual should have the right to choose. The implementation of a vaccine passport program restricts individual access to both public and private businesses establishments and negatively penalizes individuals who have elected not to move forward with vaccination. The restriction essentially prevents unvaccinated individuals from accessing the same resources as vaccinated individuals, and discourages the freedom of the individual to chose not to vaccinate at this time.

Therefore, for the above reasons, I stand in strong opposition to RESOLUTION 21-194, thank you."

I oppose the proposed "vaccine passport". It is truly awful that there are city council members who are in support of this proposal which promotes segregation under the guise of protecting public health.

It is stated clearly on the CDC website that "[p]eople infected with the Delta variant, including fully vaccinated people with symptomatic breakthrough infections, can transmit the virus to others. CDC is continuing to collect data on whether fully vaccinated people with asymptomatic breakthrough infections can transmit the virus." ([https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html?s\\_cid=11511:can%20vaccinated%20people%20spread%20delta:sem.ga:p:RG:GM:gen:PT](https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html?s_cid=11511:can%20vaccinated%20people%20spread%20delta:sem.ga:p:RG:GM:gen:PT)) If vaccinated people have the same risks of transmitting coronavirus to others, including the highly transmissible Delta variant, what exactly is the point of a vaccine passport other than to treat the unvaccinated as second-class citizens?

**Written Testimony** City and council officials, state officials, and even the media like to focus on the number of unvaccinated people in the hospital, yet why is there no breakdown provided to the public regarding the number of vaccinated people who are contributing to the daily COVID positive case count? Where is the transparency?

This proposal encourages the use of fear tactics and reward systems to ramp up vaccination rates when we should instead provide relevant information to the public such as the role vaccinated people with "breakthrough infections" play in transmitting the virus and alternate medical treatments so that everyone can make informed medical decisions for their individual selves.

Shame on all of the City Council members who took part in bringing this proposal to the floor. Shame on you who are burdening private businesses with being gatekeepers and turning away patrons who have supported them for the past 18 months when everyone was trying to stay afloat and survive during the pandemic. Shame on all of you who point fingers at the unvaccinated being the sole cause of our hospitals being overrun.

willingly turn a blind eye towards the vaccinated when the science says that they too are responsible for transmitting the coronavirus.

Bring back the testing of all transpacific passengers regardless of their vaccination status. Include the breakdown of the number of "breakthrough infections" in the vaccinated people who are included in the daily positive COVID case count. Start implementing policies that make sense and are actually enforceable. Stop proposing policies that are biased and clearly divisive.

Written  
Testimony

I love Hawaii. I am **STRONGLY OPPOSED** to vaccine mandates and vaccine passports for multiple reasons. The cons are so much worse than the pros. Vaccine passports are **UNCONSTITUTIONAL** under the 4th Amendment. Medically the statistics and doctors and countless medical professionals testify **AGAINST** vaccine effectiveness. Vaccine passports/mandates go against natural immunity, as getting a COVID-19 vaccine does no additional health benefits and adds only risk to those with natural antibodies! Natural antibodies provide more robust protection than any COVID-19 vaccine can provide. To group everyone under a tyrannical mandate as a one fit all medical procedure, will cause significant harm and death then the prevention of it! Do your job, support individual medical freedom and informed consent, do not pass this bill for vaccine passports and stop all mandates it is **NOT** the will of the people. As an American it is your duty to preserve the constitutional rights and fight **AGAINST DOMESTIC TYRANNY**, which if this passes, will be just that!

I oppose this bill because I believe it invades an individual's medical privacy whether vaccinated or unvaccinated.

Written Testimony This bill also discriminates against people who do not choose to become vaccinated or who do not choose to subject themselves to a certain type of testing. This bill causes those people described above to be kept out of participating in normal society.

### Written Testimony

I am in opposition to this resolution because I am a server at a restaurant and feel that it is unfair that I would have to test for covid weekly to prove we are negative and a vaccinated individual, who can easily get and spread covid would be exempt from testing. I also believe and have seen proof of many, many adverse reactions to the covid vaccine and I don't think that it is fair to coerce or bully us into taking an experimental drug especially until it is FDA approved, which it is not, despite the news articles. Furthermore I think it is against our rights to have to show medical records. This is why I oppose the bill.

Written  
Testimony I Oppose vaccine mandate and vaccine passport It is not necessary. The Hawaii Governor and mayor should allow doctors to use proper medications to save lives instead. The vaccine passport idea has been brought by bill gates for depopulation control. We know vaccine have killed many people amd has injured many with severe side effects. Vaccine was only tried on animals amd they all died. We are not an experiment. We elected you to do best for us not best for corrupt elites please stop the vaccine mandates in all summer weather Hawaii

I would like to state I'm a first responder for the City & County of Honolulu. My husband along with my father, my uncles, my brother and majority of my cousins are City & County workers! It is a shame to see this administration force mandate vaccinations to us that serve the public. We all continued to work through this whole pandemic without any type of hazardous pay & or accommodations, and yet we are treated like we are the bad ones.

### Written Testimony

I oppose Resolution 21-194 because in no way shape or form will a government under any circumstance tell me what to put into my body. It is my body, my choice. My constitutional rights along with everyone else's rights are being stripped away. My medical information should not be shown to anyone but my Doctor or professionals in the medical field. Not the waitress that is serving me at the restaurant i want to eat at, or my employer, or the grocery store clerk that is waiting for me at the check out line. This is ridiculous! If that's the case the same information that gets asked of me in public I can ask of the people servicing me! How would they feel about that? I'm most positive none of these people would want to share that type of information.

Not to mention a fully two dosed covid-19 vaccinated person can affect a non vaccinated person as well as another vaccinated person. This vaccine has a 99 percent survival rate so why do we have to get mandated to any of this?

It is a shame! And I sincerely oppose this resolution. All I can do is stand for what I believe in, pray for my family and pray for you!

To whom it may concern:

According to the CDC [<https://www.cdc.gov/nchs/pressroom/states/hawaii/hawaii.htm>], there were 438, 557, 507, and 637 deaths in Hawaii caused by the flu/pneumonia in 2014 to 2017. As of 9/1/21, there are 602 total coronavirus deaths in Hawaii [<https://www.staradvertiser.com/coronavirus/>]. Note that this total coronavirus death count started in March 2020, which is approximately 1.5 years until today. However, it is important to recall that there were 637 flu/pnemounia deaths in 2017 alone, but there weren't any flu vaccine mandates in 2017.

Written Testimony Ultimately, flu vaccines were never mandated despite how many flu deaths there were in Hawaii. Historically, it was up to the people to decide if they wanted to get vaccinated or not. People fundamentally still have the freedom to decide if they want to get vaccinated or not despite a vaccine's level of effectiveness. In my opinion, the medical emphasis should be placed on the number of deaths instead of the number of cases/transmission to measure how deadly coronavirus is compared to the flu.

Overall, based on these stats from the CDC, the flu/pneumonia is just as bad, yet there were no mandates, shutdowns, or lockdowns. The coronavirus pandemic seems equivalent to the flu, yet the flu has never been considered a pandemic. The flu never shut down schools, travel, businesses, or restaurants even if many people got the flu or died from it. Therefore, my position is in opposition to mandates, shutdowns, and lockdowns. Thank you for your time and consideration. I wish the best choice of actions is taken for the sake of Hawaii's health, keiki, economy, and aloha spirit. Mahalo!

### Written Testimony

1. Implementation of a Vaccine Passport system will likely hurt our economy – at a time when we need to do what we can to rebuild our economy.
2. The implementation of a Vaccine Passport system may not be effective at preventing the spread of COVID, especially the Delta variant. The director of the CDC has stated clearly that vaccination does not stop transmission and that data demonstrates a ‘worsening of infection among vaccinated people over time.’ She references Israel as an example. “There are so many ‘breakthrough’ infections that they dominate and most of the hospitalized patients are actually vaccinated” Uri Shalit, a bioinformatician , who consulted on COVID 19 for the government. Studies show that Vaccine Efficacy is at about 66% and that vaccinated people are still transmitting the disease- scientists at UH predict that 66% of silent cases in Hawaii are carried by vaccinated people. The vaccine is giving people a false sense of security and many are not taking other measures to prevent the spread , thereby actually worsening the spread of the disease.
3. It is unconstitutional for the government to give legal privileges to a certain group of people and systemically discriminate against another group. And the fact that natural immunity is not accepted makes this discrimination more concerning. Especially since data now shows that natural immunity is more effective at preventing re-infection and transmission than the vaccine is.
4. The passport will infringe on our rights to be free from unreasonable searches and seizures under the 4th Amendment of the Federal Constitution and people have the reasonable expectation of privacy in their medical records.
5. Implementation of a digital vaccine passport system will create issues around privacy and many hidden financial costs. See New York’s situation for example. In addition , it will require use of the State’s resources to ‘police’ compliance.

Written Testimony I STRONGLY OPPOSE this resolution to implement a "health pass" on the citizens of Hawaii. It is not the responsibility of the government to force any person to undergo any kind of medical procedure in order to participate in society, especially with limited data that is currently known re: the efficacy of the c19 vaccine. Please vote down this bill.

Aloha Kakou,

My Name is Rebecca Canevali and I vehemently opposed Resolution 21-194

I am here today to ask for the immediate cessation of any and all mandates that violate our unalienable rights and Civil Liberties.

Mandates are not laws. However, according to the Hawai'i Civil Rights Commission

- HRS Chapter 378 Part 1, is a law.
- HRS Chapter 489, is a law.
- HRS Chapter 368-1.5, is a law.

### Written Testimony

An individual's bodily autonomy, privacy, and integrity should never be eroded nor ripped from them for any reason. To do so would make one akin to the person who assaults, rapes, steals or murders.

The idea of having to disclose private medical information to establishments and people outside of the medical profession, who mind you aren't held to the same HIPPA standards is an invasion of privacy.

These draconian edicts are not forced upon those with HIV/AIDS, nor for those with Tuberculosis, or any other communicable disease or illness. What about those who have sexually transmitted diseases? Should they too have to show proof that they have been treated or cured before being allowed back into society? Is that not discriminatory?

I also have to ask if this will potentially cause unintended duress and consequences for

Hawai'i establishments if they discriminate against individuals because of a person's medical status.

The Declaration of Independence, The Constitution, and the Bill of Rights all exists to protect individuals from tyranny. Therefore, I ask that you all uphold the laws and the oaths you took and safeguard the rights, liberties, and freedoms of the people of the Hawai'i.

O wau no me ka ha'aha'a

Dear Leaders of Hawaii,

Written  
Testimony

I, Rhyece Makinano, hereby oppose Resolution 21-194. I oppose this bill because we have the right to choose what we put into our bodies. My father was fully vaccinated and also became the carrier that have exposed our whole household to COVID-19. I am currently under going a natural vaccination by exposure to the virus and I do not plan to get vaccinated. After first hand exposure of this virus from a vaccinated body, the big question is why? Why are these vaccinations being forced on the people in so many ways. These COVID-19 vaccinations does not work, does not prevent the spread of COVID-19 and that may very well have toxins that I do not want in my body. Please reevaluate and find other solutions to keep our beautiful islands safe.

Thank you very much for your time to understand my point of view. I pray that we can come together with a better plan that is both safe and considerable to everyone.

Ke akua pū,  
Rhyece Makinano

### Written Testimony

Are you crazy!! The Constitution for the State of Hawaii states in Article 2 section 8;  
"No citizen of Hawaii shall be disfranchised, or deprived of any of the rights or privileges secured to other citizens, unless by law of the land." This Resolution creates a separate and inferior class of people based on their private medical choices. That is UNCONSTITUTIONAL at both the state and federal levels.  
"All laws which are repugnant to the Constitution are null and void"  
Marbury vs Madison

### Written Testimony

I oppose vaccine mandates and segregation of those with different vaccination status. I view unequal treatment of those who hold different views of Covid19 to be discriminatory. Shutting out a third or more of the population from economic activities will further harm the economic well being of all citizens. Why has the government not meaningfully expanded hospital capacity in the 18 months since the pandemic started? Why were federally funds not used for this essential purpose? Scapegoating citizens who hold different views on the vaccine is undemocratic and illogical given the vaccine does not stop the spread of covid19. Vaccinated people are contracting and spreading the virus just like the unvaccinated. Look at how Israel, the most vaccinated country, now has the highest number of cases per capita.

Written  
Testimony

Aloha, I strongly oppose the vaccine mandates and passports. I experienced a vaccine injury in 1992 and was sick for years after that. At some point I almost died. Western medicine had and still has no way of helping me. The CDC website has a link to the VAERS site where doctors report vaccine injuries. In the USA over 6000 people have died from the covid vaccine within 48 hrs of immunization since Dec 2020, many thousands are permanently sick and disabled. Not everybody can be vaccinated!

### Written Testimony

Please don't mandate this vaccine passport program. This is total discrimination towards people who can't receive the vaccine due to past adverse reactions, who can't afford to test all of the time, or who have had covid 19 and have natural immunity which science is showing is more robust than vaccine induced immunity. why is it you won't allow people to show past positive covid tests to gain access? Regardless this is wrong. A person should have absolute body autonomy, but you are taking this away. this vaccine doesn't stop transmission anyways and efficacy is waning! No one should feel coerced into taking this shot. So sad what you guys are doing. it will only harm our economy and create resentment towards your authority.

### Written Testimony

I oppose this resolution. Vaccines do not prevent transmission. We know you are all getting paid by the pharmaceutical companies to push this agenda, and we the people do not agree. Our medical choices are private and we have the freedom to choose what we put in our bodies. This agenda will kill our economy and people. STOP. We will not allow our freedoms to be restricted. This is completely unconstitutional.

### Written Testimony

I am writing to oppose resolution 21-194. I am for vaccinations but i DO NOT want to nor appreciate being the government's experiment. I am an American citizen. Its against my constitution rights. Isn't this the "land of the free"? We are being FORCED to take it. Either getting vaccinated or test weekly is an ultimatum. It is still being forced upon us. There's endless, growing evidence of this vaccination adverse side effects. We keep LEARNING about the vaccination day by day but you don't hear about it in the media. Why is that?

Why is there nothing in the media about being proactive? There are scientists, doctors, and others in the medical field coming out against it, as well as them being shutdown. Its all one sided, political, and money driven!

Why are there more positive cases when when we have a vaccination? Why is the media not talking about Ivermectin? Why is there nothing about boosting your immunity? Vitamin D3. Why is it that vaccinated people can still catch and transmit the virus? There is evidence that the virus cannot even be isolated. So how can you develop a vaccination?

There is soooo many questions that they can not or will not answer. So how is the vaccine passport going to make it any better? It will probably make more businesses shut down. Nothing makes sense. STOP the vaccines and do PROPER, MORAL testing... Learn from others. Be open minded. Not biased.

### Written Testimony

I'm writing in opposition to vaccine mandates being required to enter establishments or even my place of work. I've worked in healthcare throughout this whole pandemic directly in contact with covid patients and specimens and have not contracted covid once. I do know people who have been vaccinated and contracted covid multiple times, unfortunately all they have to do is show their card and they still walk around spreading this virus. I do not understand the logic there. We do not know the long term effects of this vaccine (I.e infertility) there is also a risk of becoming ill or even dying, it is my hopes that you folks consider allowing workplaces and establishments to make their own decisions without threatening shutting down their businesses. I know many employees in healthcare feel they had no choice but to take this shot and had they been given a choice they WOULD NOT have gotten this vaccine and that is very sad!! The companies that created this vaccine have 0 liability, with that being said why not allow businesses to create waivers for their employees to sign saying they are working, dining, shopping etc at their own risk should they contract covid there is 0 liability on the companies part. Let the people choose, but the discrimination we unvaccinated people are facing as a minority is very upsetting. I'm sure we as a state have already met a sufficient percentage of people vaccinated to continue on living. The tourism is out of control right now, I can barely get in and out of Waikiki day and night without seeing hordes of people walking around and like I said regardless of being vaccinated they can STILL be carriers but you are allowing them to bypass testing and quarantine and they are actively spreading this virus (it's important to remember the vaccine is not a cure!!! And does not protect your ohana, these commercials of "I got vaccinated for my family is spreading false info. the vaccine only gives the recipient a "better" chance at survival not their ohana). DO NOT punish the residents by forcing vaccinations for failure to control the tourism industry which has brought in this delta variant, all for the sake of money. Let us choose for ourselves.

I oppose this unconstitutional bill! How did “two weeks to flatten the curve” turn into vaccine passports?!!!!

To me the issue is YOU all. YOU all can’t get your crap together and look at the actual science. You only look where it fits your narrative.

Written Testimony IF STOPPING THE SPREAD IS THE REAL GOAL? Why not test everyone?! Vaxxed and unvaxxed because the science is right-the vaccinated can still carry and spread the virus. Which is just like an unvaccinated person. So it makes no sense to only test one side.

Second the safe travel program is only giving people an incentive to comply to getting the vaccine.

Kill this bill!!!

### Written Testimony

I strongly oppose mandate for vaccination and vaccination passport programs. People must be given choice over their health. The information being suppressed about adverse reactions from this injection are reprehensible and mandating such is sentencing people to potential life altering health impacts including death. The risk of myocardial inflammation, stroke, neurological symptoms people are experiencing as side effects from this vaccination pose a greater risk to public health and trust in the government, scientists and doctors pushing these policies.

Please stop the mandates and the vaccination passports.

Thank you,  
Erica Villafuerte

### Written Testimony

I strongly oppose any attempt to mandate vaccine passports for the island of Oahu. This will not stop the spread of COVID-19 in the community and it has been proven in other states. This mandate will hurt many businesses and cause them to shut down. This bill only will vilify those who chose not to be vaccinated and will also create division amongst the people of Oahu and Hawaii.

I strongly urge you to not pass this bill. More resources will need to be brought in in order to stop the spread.

Mahalo

Written Testimony I am vehemently opposed to any form of health card (vaccine passport) or requirement to reveal personal medical decisions in order to freely function in society. It is fundamentally against everything we hold dear, and this Vietnam veteran is outraged that this is even being seriously considered. This Resolution is an attempt to bully/force citizens of Hawaii into compliance against their free will and personal convictions. Defeat this resolution or be defeated in your reelection effort. I have a large platform and a long memory.

I strongly oppose the vaccine passports for the citizens of Hawaii and the United States of America in general. A vaccine passport is against our constitutional rights as citizens. It is also medical tyranny.

Not only do people who have previously had covid-19 have strong immunities against future variants of the virus, they will fare better in the long run than citizens who are being forced and coerced to take vaccine after vaccine to try and appease their tyrannical government.

If you don't take the vaccine then you will lose your job! Your pensions! Maybe soon you will not be able to fly to visit your loved ones in the mainland. Next you won't be able to feed your children because you won't be able to go to the grocery store. WHERE DOES THE TRYANNY END? When we give a little you go for the throat!

### Written Testimony

The public can clearly see at this point that this has less to do with our health than the government trying to take complete control of our rights as American Citizens. You try and force an experimental vaccine on our KEIKI who have a higher risk of dying from the FLU than they do of COVID-19! Look it up and FOLLOW THE SCIENCE! In my own personal life experiences, I have witnessed far more harm done to friends and loved ones from the vaccine than covid. Our Government and the main stream media continue to turn a blind eye to it. WHY?

I have always been proud of being born and raised and living in the beautiful state of Hawaii, reinvesting my money in the state. Today I am ashamed of my local government. I am ashamed of Mayor Victorino and Governor Ige. You have disappointed the people of Hawaii.

I think in time the lies about covid 19 that the media and our government have spread over

the last two years will come to light. To pretend, at this point, that this Vaccine passport is not fueled by your own political agendas is fruitless. If you think the people of Hawaii cannot see thru the agenda you have in store for us you are wrong. I hope that those who have willingly committed these crimes against humanity will pay a heavy price for it.

Written Testimony Aloha, I am in full opposition to this mandate. Please honor all human beings and their choices. The fact that the vaccine doesn't stop the spread is enough logic to stand on. Human beings are free and sovereign. There will be negative repercussions if this is passed. Spiritually and socially it won't fly. I'm telling you those of us who don't want the vaccine will never budge. If you leave us to become menaces you society it will be on you. Please Malama the people of the Nei. Blessings to you and your ohana. May all beings be happy and free. Holo mua!
