Written Testimony

Twenty plus years ago, in my first grade class, my teacher had done an experiment with us that I'll never forget. We were given an option to select a white name tag or a black name tag. She did not prepare or explain to us what was to come, just that we had to choose one name tag and use it for the rest of the day. I chose the black name tag thinking it would be fun and cool to write my name with a white crayon on to the black construction paper. Throughout the day, I noticed the unfavorable treatment she was imposing on all students who selected the black name tag and the favorable treatment upon those with the white tags. Those with the black name tags were isolated from those who chose the white name tags. Those with black name tags sat at the back of the class and were ignored by the teacher, waited at the end of the lunch line, were chosen last to play board games and/or was not allowed to play during recess, while those with the white tags were placed in front of the class and praised and recognized by the teacher, were the first in line to go to lunch, selected their choice of board games, and were able to play during recess. At the end of the day, my teacher gave out milk and cookies. I noticed she skipped handing out cookies and milk to those wearing black name tags, myself included. I began to cry and spoke up to the teacher... "This is not fair. What did we do to deserve this?" I screamed.

The teacher brought me to the front of the class and explained that this was what discrimination was and how it felt to be stripped from certain privileges.

At six years old, it was a rude awakening but it traumatized me enough to recognize what fair treatment looked like and what it feels like to be treated unjustly.

I myself has been vaccinated- not because I wanted to get it but because my job has mandated it. After much anxieties, I chose to take care of elderly folks and disabled niece who desperately depends on me. It was an act of charity, based on reasoning and my personal choice and freewill to do what I feel is right to provide a roof over our heads and food on the table. If given any other option, I'd chose not to take it but to be quite honest, it feels as if we've all been cornered.

I understand both aspects and see both arguments. Supporting and opposing points both have

absolute justifiable and valid reasons. I can't say I know what would be the best option for us all, but I do know that as Americans, we ought to have the freedom to choose and as humans, we're given freewill. Many have died for us in the past to fight for this freedom and to neglect and dismiss that would be an abomination to their legacy.

I feel that the state of Hawaii is undeniably taking our constitutional right of “my body, my choice”. Making hard working people who are just trying to survive either take the vaccine, have a negative covid test weekly, or not work for 2 months. The negative tests wouldn't be a problem if you guys make it more accessible and affordable (I.e. home testing kits done by employers) for non medical coverage people as myself. These are already hard enough times and there has been nothing done to make this a better situation for the LOCALS. You want to cut the covid number down again, then get the tourism back under control. Closed tourism= low number, open tourism= highest cases to date. Everything is a complete contradiction to what the mandates were months ago. People are tired of being worried about not being able to provide for their families due to the decisions of people who the shut downs or mandates won't affect.

Aloha,

I completely OPPOSE the implementation of Vaccination Passports or other segregating mandates allowing state intervention into private health decisions. Such violate medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidity with zero deaths under the age 18) .

Written Testimony All injections for this situation are redundant as there are many proven alternatives to treat and prevent hospitalization. Many people recover quickly and without medical assistance.

Remember even the CDC director has said publicly that NONE of these “ vaccines” stop infection or transmission. Implementation of a passport that would limit people’s ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous road ahead for the future of Hawaii’s people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023.

So far the CDC’s own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 14,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are severely under reported.

it has been estimated that those numbers could be up to 90-99% higher.

Even these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years.

Please do the RIGHT thing for the people of Hawaii , and vote NO to medical obedience passports and mandates. None is to be implemented for any person- lift the mandate on state workers, fire fighters, teachers and health workers.

We the People of this Republic oppose ALL violations to individual medical sovereignty. We refuse to comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you.

I am representing our establishment. We fully oppose this bill/mandate. It's is illegal and discriminatory among a plethora of reasons. We are still trying to recover from last year. We will lose more revenue and our employees as well as our patrons will lose their jobs, put more people in the homeless category, lose an iconic establishment, we will lose all our hard work, funds, livelihoods, our business which is the only business that we have, lose our customers, families and friends because of this ridiculous fear mongering, propaganda, and separation and divisions. All that we have is in our establishment as well as the rest of the small local businesses in this island. We highly OPPOSE AGAINST this unlawful possible mandate.

Dear Honorable Members,

My name is Alex Madrigal, and I live in Honolulu. I am testifying today in opposition of Resolution 21-194 - COVID-19 Health Card.

The reason for my testimony is because our business will be heavily affected if this mandate is passed. This issue is not only important to me, but to the clients we serve.

Our clients would be impacted in a negative way because they rely on our fitness studio for their physical health, mental health, and overall wellbeing.

Written Testimony We have had zero cases of COVID from our business, have followed mask mandates and social distancing guidelines, and have continued to service hundreds of clients each month who are becoming the best versions of themselves, better for their families, and living happier lifestyle than before they started their fitness journey with us.

If this mandate passes, it will put a massive strain on our clients, which will negatively impact our business and has a high chance of shutting our business down completely, which we fought extremely hard to keep alive throughout COVID lockdowns, shutting down our studio for months, and losing almost everything we worked for for the past few years.

Please consider what this mandate would be stripping away from studio owners and their clients and how much of a step backwards Hawaii would be taking.

Thank you for your time and efforts.

Sincerely,

Alex Madrigal

I adamantly OPPOSE this or any other vaccine mandate. We as citizens and human beings have natural fundamental and inalienable rights to our bodies , to our choices, our beliefs , and our freedom of speech. We have a constitution which upholds these rights as well. No individual or government representative or otherwise has a right to take them away. We also have a right to run our businesses and make a living for our families. This mandate or any other mandate of its nature would devastatingly impact our ability to do so. You must look at the science, data , and continually incoming research unbiased and uncensored and most importantly represent WE THE PEOPLE of which you are paid to serve.

This mandate with the unconstitutional and immoral beliefs around it would cause more jobs lost, more businesses to close, more economic hardship, more health concerns both physically, and mentally as well as emotionally and spiritually. Not to mention the divide this is perpetuated to cause. You, our representatives are to be doing what's right for all people in this state, county and entire country and without seeking to uphold morally sound and ethical procedures throughout all government processes and procedures, bills, resolutions and laws, You will NOT remain in your current rolls. WE THE PEOPLE ARE THE GOVERNMENT. Those in favor of this mandate are in favor of taking the rights and freedoms away of all people to start a new business of any kind leaving them with lack of ability to properly run a business in their communities. As a business owner in this community you are infringing on my rights to properly run my business, to hold meetings, and conduct business with my clients. You are trying to take the food right out of my mouth as well as my family's and our communities. This mandate would take away the ability for humanitarian efforts and non profit organizations to properly care for those in need. THIS IS NOT ALOHA. This mandate would affect way more then freedom of choice - it infringes on ALL of our freedoms, including the pursuit for happiness. This forced mandate is NOT healthy. IT IS NOT AMERICAN. IT IS NOT HUMANE. THIS MANDATE IS MORALLY WRONG ON ALL LEVELS. It is NOT looking out for the good of all. And not looking out for businesses, and free enterprise.

I adamantly OPPOSE.

Vicki Colt

Written Testimony COVID-19 passports should not be required; is the violation of our personal rights are individual freedom and the rights to choose what we put into our bodies!
Some of us including myself health medical reasons such as interactions with medication and complications which would be detrimental to take such a vaccine at any point in time! Requiring individuals to be forced to take this is it placing us in a totalitarian state we are supposed to live in the land of the free and home of the brave please don't force things on people!

Your position on the matter Support
Representing Organization
Organization Eggshell Lighting Company, Inc / Hawaii Events Coalition
My name is Jay Robert Harmon, I am the President of Eggshell Lighting Company, Inc. as well as the President of the Hawaii Events Coalition.

I am testifying in favor of the proposed digital Covid-19 Health Card.

This is a proven method of entry into Structured Live Events across the country.

In regard to vaccinations, we feel it is more effective to tell citizens what they will be able to do rather than what they cannot.

Written Testimony

To note, it is decidedly more dangerous to go out shopping where no checks are made, than to attend a Structured Event where proof of vaccination and, or an appropriate negative Covid test is presented.

And, of course, given a circumstance of concern, contact tracing is available as well.

We see digital Health Cards, particularly if aligned to Hawaii's Safe Travels Program, as a streamlined tool for structured live events.

Meeting Date 09-02-2021
Council/PH Council
Committee
Agenda Item RESOLUTION 21-194 – COVID-19 HEALTH CARD
Your position on the matter Oppose
Representing Self
Organization

My name is J. Mathias Bennett,

I am a leadership coach based in Kula, HI, as well as an advisor for the 13 Temples Indigenous Stewardship Fund. (<http://13temples.com>) partnering with Kānaka Maoli to help conserve and restore native Hawaiian land and help support Hawaiians who need it most.

I am deeply concerned with the implications of so called “vaccine passports” and the negative effect they could have for current and future generations of Hawaiians moving forward.

Written
Testimony

Hawaiians have already known and experienced what monied interests with an agenda can do, which, in my view, was the driving factor of the deeply unfortunate and completely unjust loss of the Hawaiian Kingdom itself in 1893 with the overthrow of Queen Lili’uokalani, and subsequent events.

Make no mistake, Pharma companies who have developed this so called vaccines worth BILLIONS will do everything they can to coerce and pressure people to get their faulty product, and try and squelch opposition from medical professionals who even *question* the dominant proposed narrative, and who want to start a dialogue. [REDACTED]

Likewise they have actively tried to suppress the efficacy of cheap but unprofitable drugs like Ivermectin which have been shown to be quite effect in treating the virus in all stages, for example, an 86%

improvement in 14 preventative (prophylaxis) randomized, controlled trials (1)

Just Recently, four pharma companies have agreed to pay out 26 BILLION dollars to avoid lawsuits from their faulty products. (2)

SO what recourse does someone have if they take a vaccine that causes them harm? NONE!

And the Pharma companies for the vaccines, as well as the FDA hold ZERO legal liability for the patients if anything goes wrong. ZERO! (3)

Am I the only one to think this is completely insane?!?

Futhermore the use of vaccine passports as a massive erosion of human rights in glaringly apparent:

According to Dr. Douglas Farrow: "...vaccine passports violate the principles of liberty, equality, and fraternity. They severely erode natural and constitutional rights while accomplishing nothing that protects the citizenry, for people without passports are often immune and people with passports are often not immune.

This suggests to any thinking person that such instruments are political not medical in nature; in short, that they are instruments of power not of faithful service to the public." (4)

Also, while the vaccines may have shown some limited effect, According to a recent study in Israel, "The variant was 27 times more likely to break through Pfizer protection from January-February and cause symptoms than it was to penetrate natural immunity from the same period." (5)

Finally, according to James Meadway "Far from being a simple solution to reopening society, vaccine passports are likely to automate discrimination, invite data-grabbing and, crucially, leave us unprotected from coronavirus." (5) With these kind of failure rates, and massive conflicts of interest from pharma companies, mandating vaccine passports or pressuring hawaiians to get a vaccine, while simultaneously ignoring other proven solutions is not only bad policy, but I see it as deeply, deeply unethical.

While these issues are complex, for the good of all Hawaiians, and the generations to come, I trust you will do the right thing and NOT create a vaccine passport for Honolulu, or Hawai'i moving forward.

Mahālo Nui Loa,
J. Mathias Bennett

Written Testimony

I oppose the vaccine passport because I believe it should be your own personal choice to get the vaccine or not. I have an autoimmune disease that the cdc itself says that there is not enough research to say how the vaccine will affect me. I do not feel like I should be forced to show a vaccine passport in order to keep my employment, to be able to go shopping at the grocery store or enter a restaurant as this is personal medical information.

It is unethical how only unvaccinated people are being scrutinized when vaccinated people are still catching and giving covid. I know you guys are using this "state of emergency" to push experimental vaccines on people. You're taking away freedoms. You guys are causing division within communities and pushing people against each other. Local businesses are closing while corporations are taking over Hawaii? Why are WE mandated while elected city officials aren't? You guys forget YOU work for US. Make it pono. Stop using native Hawaiian leaders to push you're agenda.

Aloha,

Written Testimony

I am opposed to this mandate because I believe that the people have the right to choose whether or not they want to get vaccinated and their freedom of going to places should NOT be taken from them. If this were the case why don't you just shut down the airport to everyone. Even if you are vaccinated you still have the ability to spread covid so why does it matter that we get the vaccine. This is getting way out of hand and the government needs to stop taking control over the people's rights!

Written Testimony I highly oppose the Vaccine Passport. What good is it to enforce a vaccine on the people IF EVERYONE, VACCINATED OR NOT, CAN STILL CONTRACT THE VIRUS AND SPREAD IT. This is stripping away the freedom of choice from the people!

This Vaccine Passport is only going to hurt the business that will have to enforce this dumb rule.

Written Testimony

This whole vaccine passport and future mandate is preposterous! Very stupid. It makes no sense and it'll do nothing but make things worse. Is every restaurant making all of their employees get vaccinated and if so is the general public allowed to ask for everyone's vaccine passport in return to ensure everyone in the facilities are "vaccinated"? You claim this is for the public's safety but there's nothing serious about it. 500 deaths in 18 months to date. If the hospitals were so Overran why is there not a significantly higher number of deaths? Why is there nurses being fired and quitting bc they don't want to take the vaccine? How are they keeping up with the demand if it's so overran? You claim it'll only be for 60 days but numbers are going to increase bc you're not testing any tourists coming in who are "vaccinated". Studies show that vaccination doesn't give you immunity. This ain't a joke. You're talking about everyone's livelihood. Not lives bc it ain't this serious. And to implicate that you're going to do mandatory vaccinations if the numbers is basically saying fuck you hawaii! Spitting in the face of the people. The ones who elected your monkey asses in office bc you all talk a good game and can talk shit well. Probably not even going to read any of these testimonies coming in bc you all a bunch of fucking clowns.

Written
Testimony

I am against this mandate & do not believe myself nor my children should be forced to make choices for my own body with no guarantee on the consequences for the long haul. We should have freedom to do as we choose, why are we not mandating healthy living, food choices & providing healthy foods, vitamins & supplementns so our bodies can fight against any of these viruses that come our way. What's next this will not be the last virus, are we going to continue to take the lazy way out and vaccinate against everything

I'm strongly opposed to all vaccine mandates or passports. Not only are such policies short sighted and non essential in addressing the problem of COVID-19, they also compound division among an otherwise lawful and free citizenship. Additionally, they impose themselves against the moral consciousness of citizens of equal standing, causing them to either become enemies of the state or of self. Many more arguments will be made clear in opposition to the passport or mandates. I ask that you please reconsider your baseline approach to how we address the societal problem of COVID-19. Defaulting to authoritarian tactics will not unite the residents in Hawaii and long-term it will only create a more distrusting citizenship.

Written Testimony I oppose to RESOLUTION 21-194 as it violates all rights as a law abiding citizen of this great state. We should not be subject to sharing any personal, medical information in order to be able to "live" in a free country. This is discrimination at its finest. The lives of the keiki are at stake by not being the example they need to see in this state. Please, reconsider and stop all vaccination mandates all throughout this state along with all employers.

Written Testimony The idea that citizens must undergo a medical treatment with an experimental vaccine just to simply enter a public establishment or keep their job is nothing short of Nazism in it's most basic form. This is discrimination beyond explanation. The fact that anyone thinks this is acceptable is nothing short of insane.

Mask mandates serve no purpose. Most masks are ineffective and worn improperly. There many studies that provide scientific evidence disproving their efficacy against spreading COVID-19. This should NOT be mandated.

Written Testimony Vaccine passports are a whole other issue. vaccine status is HIPPA. It is Illegal to even require this information be given. should not be a question. Discrimination and segregation are issues That we should not have to deal with when going to public places. Or at all. We really need to look at what we are doing here, and decide if this is what we should be teaching our children.

Written Testimony I am strongly against this bill!! This is a violation of our constitutional rights and medical freedoms. It is not fair to base the amount of freedom a person has on their medical decisions!! Bills like this are a breach of our government and have historically led to the segregation and mistreatment of people.

The methods of generating hospitalization statistics nationwide, particularly as they relate to a person's vaccination status, are entirely questionable. People that have received the vaccine and present symptoms within two weeks or are presented to the hospital within the same two weeks of initial vaccinations are counted as "unvaccinated". I'm sure city council members are more familiar with the controversial issue surrounding the use of the PCR test to pronounce a positive diagnosis as well., there are many more issues which are of concern but go outside of the scope of this testimony. The city has not been able to demonstrate sufficient grounds for going beyond the limits of the city Charter and the limited powers vested in them by the United States Constitution. The city should not set a precedent of impinging on individual liberties with such scanty and hardly acceptable statistics.

I oppose vaccination passports due to it stripping us of our constitutional rights.

I oppose vaccination passports because I AM A HUMAN BEING.

I oppose vaccination passports because I AM A FATHER AND MY KIDS CANT SPEAK FOR THEMSELVES. I will stand for my kids, and everybody else's kids. They are our future. We must protect our "future".

Written
Testimony

I oppose vaccination passports because I AM PERFECTLY HEALTHY and feel we don't need it to go into places and businesses.

I oppose vaccination passports because that is POWER that shouldn't be given to any man over anybody.

I oppose vaccination passports because IT ISN'T FAIR.

I OPPOSE VACCINATIONS PASSPORTS BECAUSE EVEN THOUGH FDA APPROVED IT ISN'T PROVEN TO BE 110% SAFE.

I OPPOSE VACCINATIONS PASSPORTS BECAUSE IF IT IS SAFE WHY DIDN'T OUR LEADERS TAKE IT? THINK ABOUT IT.

Please DO NOT PUSH THIS ON US! Please leaders DO NOT BE

SELFISH, Please hear our cry—Please defend us. Please ask yourself if you really deserve that seat you are sitting in! Please remind yourself WHY you wanted your jobs in the first place? Because if it wasn't to be an ALAKA'I—A "LEADER" and lead your people, the people of "HAWAII" than do us all a favor and "STEP DOWN" Please DO WHAT IS PONO! This is HEWA (WRONG). WE SHOULDN'T HAVE TO SUFFER FOR THIS VIRUS, IF WE ARE HEALTHY AND DONT WANT THE SHOT, PLEASE LET US BE!

Written Testimony

I stand in **STRONG OPPOSITION** to Vaccine Passport for the state of Hawaii! This movement to enforce a law for all Hawaii residents and visitors to obtain and present a vaccination passport in order to travel and enter into certain designated establishments are against the constitutional rights and civil rights of our freedoms and liberties granted us as born and raised United States citizens declared "American" residing, honoring and respecting our land and country to include its people of which we love. This bill will strip Americans of our rights to freedom of choice as in the freedom to chose what each individual declares to be morally and/or ethically right for oneself. No government should ever be given the right to enforce whether by law or by mandate an act that is against the will of its people individually or as a whole without the knowledgeable consent of such individual or persons. **STOP THE TYRANNICAL ATTEMPTS TO OVERTHROW THE PEOPLE OF HAWAII AND OF THE UNITED STATES OF AMERICA, THE REPUBLIC!!!**

Once again, I **STRONGLY OPPOSE** THE BILL TO ENFORCE VACCINE PASSPORTS WITHIN THE STATE OF HAWAII AND WITHIN THE UNITED STATES OF AMERICA! We are the **LAND OF THE FREE!!!**

Please do your due diligence in the research available to you with regard to your bill. There are more statistics showing that unvaccinated populations are a threat and health risk to society, studies are showing transmit ability is more factual with infected covid cases than those are unvaccinated.

With or without vaccination these variants are here to stay as they evolve. Here to stay, the stigmatized and not informed are derailing Miss information. Please do not do this as it will affect many problems cascading from Miss informed information back up with scientific evidence.

Here's what I wrote if you have a minute to do it quick and want to just copy and paste mine:

Written
Testimony

I AM STRONGLY OPPOSED TO THIS BILL. There is a risk of severe side effects from these vaccines, including death, and where there is a risk like this we must always have a choice, and that choice not to partake should not make us "less than" others or segregate us from those who do take it or keep us away from enjoying certain activities that is our right as American citizens. There are other therapies and medications that have been proven to be successful in combating covid19, and so those like myself who are healthy and do not have any comorbidities associated with a higher risk of death from this virus can choose to use these other options instead of the vaccine.

I strongly urge you to consider the welfare of ALL Hawaii residents, not just those who have chosen to take the vaccine, and DO NOT PASS THIS BILL.

As someone who is strongly against medical tyranny and equally as against discrimination of any kind, I STRONGLY OPPOSE the roll out of the proposed C-O-V-ID (C-ertificate O-f V-accination ID-entification) on O'ahu.

Forcing business owners and their employers to undergo an experimental medical procedure for a sickness that they do not have is absolute insanity.

Forcing business owners to discriminate against those who cannot or maybe simply do not want to take the so-called vaccine is disgusting.

Written
Testimony

This discrimination is very similar to Nazi tactics against Jewish people wouldn't you agree? Same, same but different. Jews had to wear a yellow star so they could be easily identified and discriminated against. In this case, the unvaccinated who don't have a C-O-V-ID (C-ertificate O-f V-accination ID-entification) will be discriminated against and, like the Jews, be made to be outcasts of society.

All for a virus that has an extremely high survival rate/low death rate!!

It's all very shady. Whatever your agenda is, it is very clear that it is NOT for the good health and protection of the people and residents of Hawai'i.

If you were doing this in the name of the good health and safety of the people then why are cigarettes still available to buy? Why are people allowed to drive cars around the roads of O'ahu? More people die from both of these things on the daily yet you have done nothing to protect us from either. You allow us to make our own choices as to whether we want to risk our own, and others lives by smoking or driving in public places so why can't we do the same with this virus that has an extremely high survival rate/low death rate??

You brainwash the masses with charged slogans such as "protect our kupuna" - threatening fines for those who don't wear a mask because then they could be directly responsible for spreading COVID to someone's granny or grandad. Yet here you are selling our kupuna lung-cancer causing cigarettes with zero restrictions in place to protect their lungs and good health.

During this so-called pandemic (the numbers don't lie - this was never a pandemic - the only life threatening virus apparent to me is you, the government officials and the mainstream media - fear mongering and lying to the people at every given opportunity to keep everyone hyper scared and under your strict control) you have done nothing but issue out non-sensical, irrational, dangerous rules that threaten the physical, mental, emotional and spiritual good health of the people and residents of Hawai'i.

Forcing private business to close because they do not want to discriminate against their employees and/or customers who do not have a C-O-V-ID (C-ertificate O-f V-accination ID-entification) is despicable and I OPPOSE this tyrannical bill to impose such communist, unjust measures on the people of Hawai'i.

Mandatory digital vaccine passports to be strict individual access to employment businesses venues in public accommodations or an infringement of basic human rights and makes zero sense based on recent science.
Covid Vaccines do not prevent infection or transmission and were never designed to do so. I have read many articles proving that natural immunity is far superior and longer lasting compared to vaccine immunity. Many scientists and doctors have noted through many studies that there are long term affects from the vaccine.
Written Testimony
I personally took the first vaccine and a week later in the opposite arm of where I received the shot I started getting joint pains for no reason. This was in February 2021 until today I still have that arm pain despite going through seven sessions of physical therapy, and x-rays that don't show any reason for the pains. I have a permanent weakness in my arm.
For these reasons, I OPPOSE this resolution.

Written
Testimony I am strongly opposed because not enough long term data has been collected through longitudinal studies on humans to know for certain the long term effects of COVID-19 vaccines on people across all age groups. Recently, new information has come to light that the mRNA vaccines have Graphine Oxide in them which is very concerning since this is regarded as a toxin.

Written Testimony

I, Jonathan DeHart, STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

During these trying times, it's totally understandable to see the government trying to make decisions on what they think is best for the people. While covid-19 is totally new, the science and statistics behind the covid-19 vaccines are showing that being vaccinated doesn't mean that covid-19 will just disappear. Israel is a country that has one of the highest vaccination rates in the world and they recently had a spike in covid-19, even amongst the vaccinated. They are now doing boosters in "hopes" that that will help improve the numbers. Duke university, which boasts 98% of its students and 92% of its employees as fully vaccinated, just released new covid restrictions after an increase in covid cases. Real life cases are showing that just because someone is vaccinated doesn't prevent them from catching or passing along covid. If Hawaii implements this passport, yes, they may make the vaccinated "feel" safer for a time, but it doesn't actually make them safer. If anything, it will encourage a larger division amongst the people. Seems like during these trying times, we would want people to come together as one and not push people further apart. My hope and prayer is that you will make the right decision, not the popular one. Thank you for your time.

I strongly oppose this bill. I believe in freedom of choice when it comes to my personal body. This 'vaccine' has only been approved for emergency purposes and the attached video describes in detail how it is killing people and the real science behind this 'vaccine' is being suppressed in favor of profits and population control. This is a deadly 'experimental medicine' and I for one am not putting anything in my body that has not been put through the rigorous testing it should be; I will not be part of the largest test group in history. We the people will hold you personally responsible for trying to force this 'vaccine' onto our persons. Our lives are more important than this agenda and we are still in America where we have freedom of choice and speech. Please stop trying to take that away from us.

As someone who is strongly against medical tyranny and equally as against discrimination of any kind, I STRONGLY OPPOSE the roll out of the proposed C-O-V-ID (C-ertificate O-f V-accination ID-entification) on O'ahu.

Forcing business owners and their employers to undergo an experimental medical procedure for a sickness that they do not have is absolute insanity.

Forcing business owners to discriminate against those who cannot or maybe simply do not want to take the so-called vaccine is disgusting.

This discrimination is very similar to Nazi tactics against Jewish people wouldn't you agree? Same, same but different. Jews had to wear a yellow star so they could be easily identified and discriminated against. In this case, the unvaccinated who don't have a C-O-V-ID (C-ertificate O-f V-accination ID-entification) will be discriminated against and, like the Jews, be made to be outcasts of society.

Written
Testimony

All for a virus that has an extremely high survival rate/low death rate!!

It's all very shady. Whatever your agenda is, it is very clear that it is NOT for the good health and protection of the people and residents of Hawai'i.

If you were doing this in the name of the good health and safety of the people then why are cigarettes still available to buy? Why are people allowed to drive cars around the roads of O'ahu? More people die from both of these things on the daily yet you have done nothing to protect us from either. You allow us to make our own choices as to whether we want to risk our own, and others lives by smoking or driving in public places so why can't we do the same with this virus that has an extremely high survival rate/low death rate??

You brainwash the masses with charged slogans such as "protect our kupuna" - threatening fines for those who don't wear a mask because then they could be directly responsible for spreading COVID to someone's granny or grandad. Yet here you are selling our kupuna lung-cancer causing cigarettes with zero restrictions in place to protect their lungs and good health.

During this so-called pandemic (the numbers don't lie - this was never a pandemic - the only life threatening virus apparent to me is you, the government officials and the mainstream media - fear mongering and lying to the people at every given opportunity to keep everyone hyper scared and under your strict control) you have done nothing but issue out non-sensical, irrational, dangerous rules that threaten the physical, mental, emotional and spiritual good health of the people and residents of Hawai'i.

Forcing private business to close because they do not want to discriminate against their employees and/or customers who do not have a C-O-V-ID (C-ertificate O-f V-accination ID-entification) is despicable and I OPPOSE this tyrannical bill to impose such communist, unjust measures on the people of Hawai'i.

I know these times are hard for everyone including our government representatives
I am here saying please support people's freedom.
I oppose the vaccine mandate based on the simple fact of freedom to choose.

Written Testimony I can be for something without requiring it to be mandatory ,and likewise I can be opposed to something without requiring it to be banned or censored. Yes I choose to embrace intelligence and free will. Our community is way too diverse for a one size fits all mandate Embrace Aloha. You are my voice as a Representative and I oppose this agenda item. Please hear my need for free choice, no need for vaccine passport.
Thank you, thank you, thank you!

This bill will not only place more burden on our businesses. You are indirectly forcing people to inject a drug that is still experimental (regardless of FDA approval), a drug that is causing injuries and deaths (around 40,000), and is absolutely not necessary for people who have developed natural immunity. The rate of vaccinated people catching Covid-19 and variant is accelerating, so the temporary efficiency of the drug is diminished greatly. These sort of mandates are obviously political since they are not present in Republican States, only emerging in Democratic. So this is not even an health issue anymore but a political one that will hurt our economy even more for the sake of playing ball with a party. You are infringing on civil rights. You cannot force an experimental drug in someone's body by threatening that person with their job, ability to support their family, give up their religious freedom, and more. In 1947, the Western world hung doctors and administrators for carrying the same tactics in Nazi Germany. Can't you see it. Stop this now.

Written Testimony

I strongly oppose vaccination passports for Hawaii. Each individual should have a choice as to what goes in their body, or the body of their own child. Every human being is not the same. Therefore there should not be an "across the board" mandate for all in terms of Health. All humans cannot simply eat the same foods, we cannot all take the same medications, what makes anyone think we could all inject the same concoction of pharmaceutical vaccinations. Harm can come from eating something your own person cannot tolerate, harm can come from medications your own person cannot tolerate, and harm can come from injections and vaccinations your own person cannot tolerate. Many times food and pharmaceutical companies are held liable for the harm they cause in humans that cannot tolerate them. No one is held responsible, or rarely held responsible, for the harm caused in various human participants in the case of vaccinations. Vaccination injection comes at a risk that not everyone is willing or able to take, because again we are all varied individual human beings. Those who can vaccinate, likely will through education. There is proof in this as almost 65% of Hawaii's residents have personally chosen to vaccinate, making Hawaii one of the top vaccinated states in the United States of America. There should never be a mandate on those individuals who have medical, religious or other personal reasons for not receiving a vaccine. We are all individuals first. On an aircraft, you must first put the oxygen mask on yourself before helping the person next to you. Each of us will help our neighbor once we've helped ourselves in the way that best serves our own person. Let Hawaii's people make our own decisions for our own body. We will weigh our options, make our choice and help our neighbors.

Pls consider and study countries who've vaccines program earlier than us. They found vaccines effective went down to 39%. There're more deaths and injuries than any other vaccines combined.

Written Testimony Also, new Israeli study found fully vaccinated people are at "Greater risk of Hospitalization" and 13 Times more likely to catch covid 19 than those who've recovered and have natural immunity.

Please consider early treatment. Japan, India, Africa ... found ivermectin and others worked.

Please do not suppress or divide our people further. Thanks!

Aloha,

I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

The implementation of a passport would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Written Testimony It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the RIGHT thing for the people of Hawaii , and vote NO to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for your consideration. May God protect these islands from medical tyranny.

Written Testimony I STRONGLY oppose this bill. It is unconstitutional, tyrannical and goes against everything our country once stood for.
You are no better then Nazi Germany if you go through with this. We the people demand freedom of choice!
Aloha.

9/2/21

Keeton Krause

To Whom it May Concern:

I strongly oppose Resolution 21-194 to implement a health card for residents of Hawaii. My name is Keeton Krause and I have been a resident of Hawaii for the past 5 years in Honolulu county. I originally moved to Hawaii to study for my Masters in Biomedical Sciences within the Department of Tropical Medicine, Medical Microbiology, and Pharmacology at the John A. Burns School of Medicine (JABSOM) at the University of Hawaii at Manoa. During the two years of my Masters program I produced two first author publications and two co-author publications in peer reviewed scientific journals which focused on viral pathogenesis and disease outcomes for flaviviral infections. Virology is my area of expertise and I have a great deal of knowledge in immunology and epidemiology.

Given all my background in infectious disease and given my work in the public health sector for the last four years of my career, I can truly say that this whole pandemic and COVID era is no longer about the good of the people and protecting public health. It is absolutely ridiculous that the local governments of Hawaii, both State Government and City and County Governments, have continued to impose such harsh restrictions on its citizens in the name of public health. None of these restrictions take into account true epidemiology, and are a form of control on law-abiding citizens.

A "health card" that allows only citizens who have received experimental FDA EUA approved vaccines to enter establishments is a complete violation of human rights. This is segregation based on health status, and for an experimental vaccine at that. Experimental vaccines that nobody can truthfully know what the long term effects will be. There is a reason – and I learned this in Grad School – there is a reason that in the history of medicine there has never been a fully approved mRNA vaccine before. Let that sink in.

Given my knowledge about virology, immunology, disease pathogenesis, epidemiology, and pharmacology I have made the very educated decision that I will never receive these COVID vaccines. What ever happened to my body my choice? Why are you all trying to strip the rights of the people and exert control over our physical bodies? What kind of work do you want to leave behind for you children? One with mandatory vaccines that have lead to a record number of vaccine related deaths? Go ahead look up the data on HHS.gov on the VAERS page. Go ahead, I'll wait.

Now decide what kind of world you want for your children. This is on you. Do the right thing. Mahalo

Vaccine mandates for the general public is irresponsible and unnecessary. The covid is not as virulent as the media hype portrayed. The vast majority of the world wide community has a recovery rate of 99.5% for people under the age of 70 and the vast majority of mortality etiology is due to several comorbidities.

Furthermore, the vaccines have been shown to have a statistically significant morbidity and mortality rate that actually surpasses the morbidity and mortality of covid alone.

Vaccine passports are a violation of privacy, the Ada, and equality under the law. To consider such a thing is abuse of power and government overreach.

Please do not consider vaccine passports. Thank you. Mary Mc.

Choosing to mandate a “vaccine passport” for a virus that has a 99.6% survival rate, as well as alternative treatments that are shown to work effectively is not only irresponsible and unfounded, it is a violation of our basic human rights and HIPAA medical privacy rights. It has been clearly stated by CDC since the beginning that this gene technology (which is not technically a “vaccine” by definition) will NOT prevent contraction OR spread of the virus. It merely lessens symptoms, which may actually allow “vaccinated” people to be more virulent vectors of the virus. To ban unvaccinated people from daily life activities and amendments with this as your backing is ignorant, discriminatory, and clearly adhering to an agenda that is more interested in making money for big pharma than serving it’s people. Instatement of these terms will harm residents, force them to leave Hawaii, and therefore harm our already struggling economy. Please use your power to serve the people, not the corporations. Please choose out of love and solidarity, not fear.

I deserve the right to choose what to put in my body and what I should use to protect my own health. I am and wish to stay unvaccinated and allowed to visit and support local business freely and safely. I had many close encounters with positive patients and not once tested positive. I believe in my healthy and natural life style and immune system. I would much rather accept the raw health matters I may face; if I ever do face the virus head on, rather than face the side affects of the vaccine I do not agree with for me personally. I think it's better for me to handle what I choose to be dealt, and a side note I'd rather take and handle the symptoms I maybe handed and KNOW I have it, so I won't spread it, rather than show no symptoms and go out spreading it like the vaccinated! MAHALO ☐ ☒

Please stop the insanity and do not implement a vaccine passport program for our state. I am a mother of a child who has a small business in Chinatown. They have already suffered throughout this pandemic and are barely hanging on. Implementing such a system will place a demand on them as small business owners that is unconscionable. Trying to find staff that want to work is hard enough. The daily changes in protocol are easy for you to mandate; the cost to implement is not considered.

I am a daughter. My mother lives outside the state of Hawaii and will be 86 years old in a few days. Her mind and general health are questionable. Trying to fly back and forth to get her into a care home has been next to impossible. I call her every day, order her food for delivery, and pray she doesn't fall or have anything bad happen to her. My sister who lives in a state neighboring my mom's has covid is ill and cannot help her. I should be able to travel freely to and from Hawaii and am willing to take a covid test upon return.

Written
Testimony

I operate a large food pantry that distributes food to the public. Many of those who come for food are retirees and those who are in the hospitality and tourism sector.

You say you are following the science, yet I see so many inconsistencies and contradictions in government regarding this flu virus. So much based on an emotional response instead of common sense, not even considering our Constitutional rights. There is a question among virologists/immunologists as to whether you can vaccinate to herd immunity. Dr. Robert Malone, a respected doctor and inventor of the MRNA tech used in this shot says that you cannot vaccinate to herd immunity, so why use this passport program to force people to accept the vax?

Thank you for taking the time to listen to my testimony. Mahalo

A vaccine passport is the next step in totalitarianism. Shame on all of you for even suggesting such a measure.

I strongly oppose a vaccine passport. Protocol and best scientific practices for the safety of those who choose to take the Covid Vaccine have been ignored. Swine Flu vaccine was banned after only 27 deaths. Class Action lawsuits are rolling out due to the multiple National and International laws broken. All those tied to manufacturing, distribution, marketing/promotion, administering vaccines as well as any attempt to cover up true numbers due to faulty tests, mislabeling deaths as Covid to receive greater payout from government will be implicated in these lawsuits which are crimes to humanity under the Nuremberg code.

I oppose this resolution as another ploy to force me to get vaccinated when I have been "naturally immunized" by having contracted the Covid-19 virus. Also I declare this is an extreme form of discrimination because only unvaccinated individuals are being forced to test for Covid but not vaccinated individuals who are also able to catch the virus and spread it just as well as the unvaccinated. The governor stated early on that the state lockdown would be opened up wildly when the state was at 70% vaccinated. They are declaring the state is currently at 85% but the Covid cases are still climbing, so it appears the push to vaccinate more isn't working....so why aren't they looking for the root cause instead of beating a dead horse? We were doing fine at the beginning of lockdown although we didn't like it, number of cases seemed low

Why didn't we "open up" businesses to the locals for a while to stimulate the economy before we let the world in without testing, without quarantine. Were we that desperate for money? Is that how the state officials show how they care about us - by letting hoards of tourists in who show no respect to our rules or our way of life? To vaccinate or not is a personal choice that is being violated by discriminately imposing this health card resolution. Furthermore I believe it will have a negative impact on the businesses that will be losing revenue from individuals who would have contributed to their business had they been given equal consideration. I feel this push to vaccinate is a bandaid attempt to fix the problem and so far is not working....at 85%. They need to search for an authentic fix, and be honest with us.

I strongly oppose the motion to implement mandatory "vaccination passport" program. This action would create an undue burden on both business owners and individual citizens. This would be an egregious form of mass manipulation and would force an individual to choose between their sovereign right to make choices about their own body and health and being able to function normally in their community. It is an outrageous expectation to hold that any community member show proof of negative test status in a 48 hour time frame, especially given the fact that many testing options do not provide results for 24-72 hours. Forcing private citizens to disclose their private health information (cover shot status) is a violation of their privacy. Coercing individuals into receiving any covid shot (none of which have completed their clinical trials - not even that which has been FDA approved) is an unconscionable overstep of governmental authority.

Written
Testimony

If government wanted to truly put in place a mandate to protect the health and wellness of their citizens it would implement health-focused rules mandating citizens to get adequate exercise, take supplements to increase the strength of their immune system, stay well hydrated, and partake in activities that would ensure their emotional well being. These have all been proven to increase vitality and lower the likelihood of severe adverse reaction to COVID and many other potential diseases.

However, no one looks to push a mandate of that nature because we respect the individual's right to choose what they do with their body.

I cannot support any resolution that would take away an individual's right to choose what is right for their body or their business. I ask that this resolution be struck down for good.

Written Testimony Aloha!
Truth is majority of the people in Hawai'i does not support discrimination and segregation for vax mandates and vax "health pass". Where is the public input for this unethical mandate?? Science is clear, tests are faulty and fully waxxed can spread covid just as easily unwaxxed. There is NO justification to put unethical restrictions on the people of Hawai'i. Allow antibody test to see natural immunity just like European Union allows. If we lose our rights of what goes in our bodies, we lose all our human rights and this should concern every single one of you. Aloha. Unite ALL people🙌

I oppose this vaccine mandate. We as sovereign citizens of humanity have the right to medical freedom. Let's focus more on uplifting public health by creating healthy eating and living habits instead of pushing a shot that was formulated for a variant which continues to change and mutate. Let's put our energy and resources into creating real health solutions instead of putting a bandaid on our wounds. A vaccine mandate is not the solution we are looking for and it will not create the change we need in this time. Mahalo for listening. Aloha, always.

Written Testimony

In light of numerous scientific studies, I oppose and any and all vaccine mandates.

1. Studies out of England Oxford University, Israel and more have detailed that the current Vaccine lacks efficacy. In fact, 60% of the Covid hospitalized in Israel are Fully Vaccinated.
2. Numerous Scientific and Medical Studies also show that people that have contracted and recovered from Covid 19, have a much more robust immunity than the that have been fully vaccinated. There should at least be a religious and medical exemption as well as an exemption for people that have had covid, due to their robust immunity.
3. If it is the goal of the Hawaii Government to decrease hospitalizations and serious and life threatening Covid infections, the State should provide prophylaxis medicines to it's citizens and/or open Therapeutic Clinics/Centers and provide life saving therapeutics when symptoms appear. These prophylaxis and Therapeutic Clinics have proven successful throughout the world.

Vaccines should not be an all or nothing option. If it is truly in the interest of the State to prevent the spread and dangers pf Covid, the State should utilize every tool available.

I am strongly Opposing these mandatory vaccine passports!!!!The poisons in this experimental shot and the science put into humans have never been done before in history. Vaers mention all the lives lost and adverse reactions due to this shot already!! This is also being hidden from mainstream media!!! They are pointing or putting attention on the unvaccinated !! The truth is that both vaccinated and unvaccinated are dying from the experimental shots!! Why has the very things that can heal this disease or virus been made hard to get by even physicians? Cause they have a plan to kill people literally!!! Leave our people alone and leave our children alone!!!You will be judged by an All Consuming God and Vengeance will surely be his!!!! Choose Life Not Death!!! God Created Us not Big Pharma , All they want us MONEY NOT TO HELP HUMANITY, ONLY CONTROL AND GENOCIDE!!! HOW BLIND OR SELFISH CAN OUR LEADERS BE!!!! THIS IS POISONS IN THIS SHOT (Graphene oxide being one in their special patent) Look up the ingredients in this experiment and who are we some lab rats to be experimented on and you guys are putting an okay to that what the heck kind of people are in office? Are you being paid off too as doctors are to Be to FALSIFY DEATHS in return of MONEY. Mrna putting in a recipe in our very cells to change our dna that god created what is up with that can imagine the wrath to come!!!

I strongly oppose this bill. It is a huge form of discrimination and bullying that will continue to destroy Hawaii's economy and people. The opportunity to CHOOSE should never be taken away from the American people regardless of what the government THINKS is best. People have their own justifiable reasons as to why they don't want the vaccine. Don't penalize all the hard working contributors and servants to the people of Hawaii that oppose the vaccine. They have a right to choose what they do with their bodies and health. The vaccine still doesn't prevent transmission and we will continue to see positive cases regardless. This is a huge mistake that will have a lasting negative impact our state and nation for years to come.

Written Testimony I strongly oppose passports of any kind. This is a resolution that is against freedom of travel. We don't want to turn into a China state where everyone is in a credit for our freedom. This is outrageous. Please vote against Resolution 21-194

Written Testimony This bill is in direct opposition to my US Constitutional Rights, and is very dangerous to mandate a vaccine that is unlike any previous vaccines, no long term safety data. And there is solid medical evidence of extreme adverse effects just after getting the vaccine, in thousands of people, including my own family. And at least 45,000 deaths in the US of healthy people getting vaccine. Also, there needs to be a legal exemption for people like me with extreme allergies to many medicines.

Written Testimony

The "vaccine passport" initiative is a violation of our most basic constitutional rights. Forcing this agenda is not going to build any trust with the people of Hawaii, which you have already lost by proceeding with this the way you have.

By pushing this initiative and all of your "mandates", businesses have already suffered significantly, some smooch that they were forced to close their doors. How is having a mandate (which is not law by the way) to keep people from employment, from supporting the local economy, and from living their every day life helping anyone? How? The only thing it's doing is removing choice and backing people into a corner, which is malicious and unconstitutional.

This virus has a 99.6% survival rate, why is that not being reported? Why is it not being reported that the vaccine (even though it's actually not technically a vaccine, it's a treatment) does not actually stop you from getting the virus? Or that it doesn't actually kill the virus? People are pleading for you listen because enough is enough. This is no longer about protection from a virus, it is about the livelihood of people. Just like with any other medical treatment, this shot should be a choice that people can make on their own. Just like the flu shot, because that's exactly what it's like.

People voted for you because they thought you would care for them and listen to them. Remember that. This mandate will change nothing, it will only make things worse and there is already enough opposition in the world and this state.
No more.

I oppose the mandate of vaccine (digital vaccine passport).

First it is against the science.
There are many Covid patients were healed by medications without vaccine. It's proven.

Second it is against the Freedom our forefathers fought hard for us to have and Generations to come.

Written Testimony We have to have our freedom to choose
What is right for our body, health and our family.

Let our spirit of Aloha perpetuate!

Thank you for your work that works for people of Land of Hawaii and people!
People will remember!

Aloha

Written Testimony I have been aware that the mayor will impose a mandatory vaccine passport for restaurants, gyms, stores etc. The fight for medical freedom is LITERALLY to protect the choice people made for themselves, and not against the vaccine itself. Whether you are vaccinated or not is irrelevant! we the people are witnessing the most sustained, unprecedented series of frontal attacks against our rights and freedoms in our life time. This is wrong, this is against our American Constitution!!! There are many studies and research by scientists that the vaccine itself does not prevent you from getting COVID!!! Vaccinated people should also be subject to testing just like the unvaccinated due to this fact that the vaccinated still can get the COVID virus. This Resolution needs to be dropped ASAP!!.

In Jacobson v. Massachusetts in 1905, the Supreme Court authorized States to compulsorily vaccinate it's residents.

Smallpox, with only human reservoirs, was eradicated since no insect or animal reservoirs were identified. On the other hand, all strains and variants of COVID have animal reservoirs which means there is NO "eradication" — only mutating variants that will continue to exist as long as vaccines are created for COVID.

What does this mean? It means that Jacobson v. Massachusetts decision is invalid in the 2021 Courts systems. It is not applicable to COVID as the vaccine treatment of human reservoirs v. animal reservoirs are tremendously different; therefore, Jacobson v. Massachusetts nullified.*

Written Testimony

I strongly disagree with the proposal for a vaccine passport. There is an abundance of information regarding & questioning the long term safety of this vaccine. Most pointedly, results from Israel showing that even amongst those who have the vaccine there has been a surge in cases as reported in the New York Times. Why are we proposing restricting mandates that limit the sovereignty of not only our individual health choices but also risk the well-being of the larger community in the name of a vaccine that does not have proven results in creating health nor any long-term studies on potential negative effects? This is a generational concern and we must not act from a place of immediacy or fear. We must consider future generations and act from careful consideration of the validity of this vaccine for the true well being of the people. It is in my opinion that a for-profit pharmaceutical company has questionable intentions in its push for this vaccine. There are more viable and sustainable solutions regarding health and immune support that need to be discussed before creating vaccine mandates. I urge our community representatives to research and seriously consider alternatives before passing a harmful vaccine passport mandate that will further divide our islands. Thank you for your time.

I write in strong opposition of Resolution 21-194 Urging the City Administration and the State of Hawaii to implement a COVID- 19 health card for establishments at higher risk of transmission of COVID- 19.

My position in light of all the reported incidents of rising cases and alleged deaths in Hawaii due to COVID-19 are following the pattern of a narrative that is skewed. Testimony has come forth that is contrary to what is widely reported. There are reports that never seem to reach main stream news that show, multiple deaths and adverse reactions to the vaccination: Moderna, AstraZeneca, Johnson & Johnson as well as Pfizer.

Written
Testimony

We are only being consistently inundated with fear tactics in order to push the narrative of "Get vaccinated and you will be helping the community, showing Aloha."

So in order to promote this push, "get vaccinated"; this is supposedly to show our support and of course our compliance. When shortly thereafter we will have to get a 2nd, then a 3rd, followed by booster shots. There is no end in sight when one bows to such medical tyranny. This is a clear violation of human rights; a literal 'setting myself on fire so that others may be kept warm.'

Furthermore using governmental mandates concerning our health is a bit much. We don't have a death wish, we certainly have sense enough to keep ourselves and our families safe and healthy without being coached. We have come to realize our government often operates in a copycat mentality. It now seems apparent the normal cases of flu are decreased and now COVID-19 is the culprit for literally all deaths these days. While families are being divided, businesses destroyed, communities stressed beyond limit, suicides rising to unheard levels. This fear campaign and need to present papers to prove we agree with this madness is unconstitutional and quite unnerving. I strongly oppose the proliferation and furtherance of

these measures. How about we utilize proven methods of approach like therapeutics being made available to the public.

We are all concerned about public health. However, one size fits all vaccine does not fix the problem. Public Health involves promoting and building public awareness and education on boosting our immune system,

Covid vaccines remain under Emergency Use Authorization. The FDA has approved Covid to Emergency Use Only. And as such, Emergency Use Authorization under Federal law cannot be forced upon Americans.

Mandating vaccine passports strongarms and bullies Hawai'i residents and visitors to submit to the vaccine in order to be socially accepted. This bill is fascist at best, steals Freedom of Choice from Hawai'i's citizens, breaches HIPAA laws, and is unconstitutional to every visiting American to our state of Hawai'i.

Written
Testimony

In light of the harm already perpetrated against the lives and livelihoods you took an oath to protect and support, I ask you do we have reason to question the sources upon which Covid and Covid vaccines rely upon in this article link below?

<https://www.lifesitenews.com/news/conflict-of-interest-faucis-wife-runs-bioethics-department-at-nih/>

Stop the misuse of the Emergency Use Authorization. You can stop harming the people of this State, our Nation you took an oath to protect including visitors from around the world simply by opposing this bill.

I urge you to oppose this bill.

Written Testimony

Aloha,
I am a mother in a family of four. We are all very healthy individuals and taking all precautions possible in order to contain the spread of the virus. Given the fact that questions are still being raised in regard to the long term effects of the virus and that cases of death have occurred, we are not comfortable getting the vaccine yet and not comfortable requiring our teenage children to get it. Also, given the fact that it is proven that vaccinated individuals still get the virus and can transmit it, a vaccine passport is illogical and discriminating against someone like us who are doing our very best to contain the virus and staying healthy while not yet ready to take the vaccine. At a minimum an option for taking an antibody test should be available, since our family was very sick in the beginning of 2020 and believe we already had the virus and therefore the antibodies. Please, please consider not discriminating especially against our young people where the long term risks of vaccine is not yet known.
Mahalo Nui Loa.

Written Testimony

Not only is this vaccine not proven to be safe, it is no longer effective. It is no coincidence that there is huge spike in cases and hospitalization in the summer time after the roll out of the vaccine. 2 top FDA members resigned recently, because they feel this vaccine should not be pushed on kids and boosters should not be pushed out. Japan has stopped the use of moderna vaccine due to metal nano particles being found in the vaccine. Our freedom does not depend on an injection into our arm, especially one that is in the trial phase. These covid passports will segregate people, as many native Hawaiians are very hesitant about this vaccine with good reason.
No vaccine passports!!

I strongly oppose this vaccine passport because it is unconstitutional to segregate people based on their medical decisions. Medical decisions are personal choice and should be kept confidential at all cost.

We now have reason to believe that these shots are not even protecting us because there is a new variant and people with the vaccine are still getting sick and spreading this virus... so it doesnt even protect us!

Written Testimony

Fourteenth Amendment Section 1

All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside.

No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

This is law, you are hereby working for the PEOPLE of the state of Hawaii. I urge you to stop this unconstitutional vaccine passport.

Aloha

I oppose the mandating of a vaccine passport by any level of government due to the violations of the Constitution of The United States of America. This country was founded on the principles that all men and women were created equal and have the right to choose how they want to live. The vaccine passport is a vessel in which the right of freedom of choice is being taken away by a government entity. It is a form of discrimination and it violates the Supreme Court's decision in *Roe vs Wade* of my body my choice. Look back five years to the Flu episodes that were occurring in our state and ask yourself were we behaving in this manner? Were we shutting down doctors that had a different opinion to the flu vaccine? There is data that shows that the flu is a much more deadly virus than this one and we were not mandated to wear masks in stores, take a test to go to work or be forced to get a vaccine in order to enjoy life's simple pleasures. We as a community did what the government asked last year to flatten the curve which took more than two weeks and look at where we are today. Your policies did not work then and there is no data to support what you are suggesting now will work either. On the contrary the CDC no longer is tracking the data of vaccinated people that are testing positive for this virus. This is another form of discrimination which does not give government officials all of the data needed to make the correct decision. If everyone were required to test before flying we would have a full picture of what is truly going on. This would give you and the public the data needed to make the correct decision on the policy of will vaccine passports work or how effective they would be at stopping the spread of this virus. If you only have half of a picture then how can you make the claim that this policy will work. This is a virus we must learn to live with and we should be looking to early treatments and therapies the same way we treated the flu outbreaks. Please remember that you were voted into the position you hold to represent the people and the people's beliefs.

Medical freedom for all is a fundamental right! no way to big pharma experimental synthetic drugs and procedures on us and our families, we do not agree with genetic minipulation with our bodies. We all were with a adaptive immune system divinely designed by our creator, most sickness can be traced back to chemicals in the food,water and phamacuticals, these chemical are being produced by some of the same companies that are pushing this experimental Frankenstein Jax concoction..Please don't mandate vaccine or any other drugs. A huge % of highly educated professional people and many others do not agree or believe in the official narrative that is being shoved down our throats by big Pharma and other corrupted centralized organizations that are profiting on suffering and sickness.

Aloha, I oppose resolution 21-194. Taking the vaccine should be an issue of choice, not one of force. Sure, it's easy to say, "oh, people can still choose", but this resolution is a form of manipulation aimed at forcing and shaming those who do not have the vaccine to take it. I urge you to value the freedom of choice, especially when taking something into one's body that has unknown FUTURE side effects. a person should not be manipulated or forced by punishment into making this weighted and personal decision, but resolution 21-194 is trying to do just that. Therefore I oppose resolution 21-194.

All in our government must watch this...Israel is the testing ground with many vaccinated and they are doing very poorly from taking the jab that has horrible ingredients in it. Other countries that have NOT made their citizens take the jab are doing well. The SCIENCE is on the side of NATURAL IMMUNITY and not the jab! These are Crimes against humanity and NOT based on science. I ask that you give us 90 days notice to leave Hawaii. I have lived here for 45 years but I will not live under this lying tyranny that is NOT based on real science. I ask that you allow those who have researched this horrible JAB and have natural immunity to allow them freedom with a natural immunity passport. It is all about the NWO agenda and this is the most diabolical crime in the history of our world. I ask that if you insist on going forward with this obvious crime, then give us 90 days to move away from this tyrannical govt. in Hawaii. Mahalo!

Written Testimony

The narrative is these mrna vaccines are safe and effective, until they are not and then you are on your own. When you die from them, no one cares or dares to report it and instead tell you it is coincidence. I lost two family members. They won't be coming back because they are dead.

The ideology that one size fits all and they are all safe for everyone is the true misinformation. I watched my mother and father take the shots and both immediately got sick, throwing up for 10 days straight. Chance? I don't think so as it happened twice because they doctors convinced my parents that it was just coincidence and to take the second shot later. I begged them not to do it based on their experience, but the Drs won. Same exact thing happened.... Both got sick and started throwing up for days on end. Shame on the Drs! My father pulled through as he was the stronger of the two, but my mother died after being completely dehydrated and going into organ failure. Now my father after 60 years of marriage is distraught beyond words. I lost my brother too from blood clots after his shot. Let me guess, that was a coincidence too. My nephew (my dead brother's son) took the vaccine as he was coerced by his school. He wanted to continue playing soccer on the scholarship that he received. He has undergone many health issues since, primarily inflammation of his heart. He now cannot play soccer, has lost his scholarship, and will no longer be able to go to school since they cannot afford it on his own. My daughter has previously been injured from vaccinations when she was in the military. After getting hepatitis vaccine, she developed autoimmune hepatitis; now her own body is killing her liver. A previously perfect healthy girl has developed extremely serious health issues after receiving numerous shots in the military. She is in the hospital as I write this with kidney and blood problems. Her outlook is bleak. She has a son, my grandson that will need to be cared for.

With all that has happened to my family, how am I to believe that all vaccines are safe and effective for everyone? Of course, there are people who will be just fine, but there are people that

won't, and big pharma is fully indemnified. There needs to be informed consent and we need to have the choice to choose without being alienated from society.

I oppose this bill for digital health passports in Hawaii because regardless of vaccination status each individual can still catch and spread covid 19.

Passing this bill would put a strain on local businesses and force them to discriminate against their own community members or have their businesses shut down by the government.

Written Testimony

If sex offenders do not need a digital passport to enter restaurants, bars and gyms then neither should any individual in Hawaii regardless of vaccination status.

Since the vaccines being administered in Hawaii are still under Emergency Use Authorization that means the choice to take it MUST remain voluntary! Enforcing a digital health passport violates the terms within its emergency use authorization and therefore, I strongly oppose this bill for digital passports in Hawaii.

I would like to state my opposition to Resolution 21-194

This is an EXPERIMENTAL medication! This is not a normal vaccine!

There is NO data for the long-term side effects of this injection. Even if we get past this "pandemic", if this injection have long-term harmful effects in the long run, what will happen then? No one who is "pro-vaccine" can provide an adequate explanation for this!

The manufacturers of these vaccines are not legally liable for any harmful effects of this medication!

Written
Testimony

According to the CDC's numbers, even if you get infected you still have a fairly high chance of survival providing if you don't have any underlying health problems!

If anything, the state should use any funding for COVID to offer more free testing clinics instead

This is going to add MORE financial hardships for the people and businesses of Hawaii! We NEED to get our economy going again after all the difficulties since this year and a half! This mandate could lead to more potential economic, social, AND health problems (Depression, stress, health related issues from these problems) in this State!

Written Testimony Medicine is an art based on science. Even doctors discuss disease variables with patients giving them choices based on their recommendations. This regulation makes light of Covid survivors who have superior natural immunity (see testimony). As a private, taxpaying citizen, this Covid Pass regulation is a coercive insult to our right to discuss, inform ourselves and choose. I oppose government regulation of our health choices and decisions because it denies informed choice based on paternalistic assumptions of what is best for me personally. This government regulation will destroy our economy and what is still a respectful, self-managing community. Stop! I oppose this bill.

Israeli Researchers:

Study: Natural immunity 'stronger, longer' than vaccine immunity

New Israeli study shows recovered patients tended to have better outcomes than vaccine alone – though vaccine can enhance natural immunity.

Tags: Vaccine Coronavirus

David Rosenberg , Aug 27 , 2021 11:38 AM

<https://www.israelnationalnews.com/News/News.aspx/312538>

COVID-19 vaccine

A new Israeli study on coronavirus immunity suggests that people who were previously infected with the virus benefit from significantly stronger and longer-lasting immunity than the immunity provided by vaccination alone.

The study, a retrospective observational study conducted by Maccabi Healthcare Services, Tel Aviv University, Ashdod University Hospital, compared Israelis from three groups: people who had received vaccine and were never infected (SARS-CoV-2 naïve), people who were previously infected and did not receive the vaccine, and people who were infected with SARS-CoV-2 and then vaccinated after recovering.

Researchers found that natural immunity is stronger and longer-lasting than vaccination, but also noted that a single-dose of vaccine likely can offer additional protection from the Delta Variant to those who recovered from SARS-CoV-2.

For the study, researchers analyzed anonymized Electronic Health Records, a database which covers records for 2.5 million people in Israeli, spanning March 1st 2020 to August 14th 2021.

The study grouped the subjects into categories based on vaccination status and previous infection, correcting for demographic factors including age, sex, location of residence, as well as the timing of infection or vaccination.

In the first analysis, which only compared natural immunity to vaccinated immunity among the SARS-CoV-2 naïve, two cohorts of 16,215 people each were studied, with equal representation of age, sex, location, and time of infection or vaccination.

This model showed 256 total cases of infection, 238 were 'breakthrough infections' of the vaccinated and COVID naïve, while 19 were reinfections among the unvaccinated, previously infected group. Adjusting for comorbidities, vaccinated COVID-naïve people had 13 times greater risk for infection than did the previously infected.

Of 199 symptomatic cases, 191 were among the vaccinated, just 8 were among the previously infected.

After adjusting for comorbidities, researchers found the vaccinated were 27 times more likely to suffer a symptomatic case of the virus in comparison to the risk previously infected people had of having symptomatic reinfection case.

A total of nine hospitalizations were reported, eight of them among the vaccinated COVID-naïve group, with one among the previously infected. No deaths were reported in either cohort. The researchers also compared two groups – each including 14,029 people –

one in which the subjects had been previously infected but never vaccinated, and one in which they were infected and then later vaccinated with a single dose.

This model found that vaccination with a single dose of the vaccine cut the risk of reinfection nearly in half, with the previously infected vaccinated group having a 0.53 risk factor compared to the unvaccinated recovered group. The vaccine appeared to make slightly less of an impact in cutting the risk factor for symptomatic illness, however. Sixteen of the recovered-and-vaccinated cohort reported symptomatic reinfection, compared to 23 subjects in the unvaccinated cohort. One unvaccinated patient was hospitalized, while none of the recovered-and-vaccinated patients were hospitalized.

Taking comorbidities into account, the study found that recovered-and-vaccinated subjects had a 0.65 risk factor, or 65% the risk of the unvaccinated recovered subjects, for developing a symptomatic case of the virus.

The authors concluded that when studying the effects of the Delta Variant, “natural immunity affords longer lasting and stronger protection against infection, symptomatic disease and hospitalization due to the Delta variant of SARS-CoV-2, compared to the BNT162b2 two-dose vaccine-induced immunity.”

But, they added, a single dose of the vaccine appears to boost the protection enjoyed by the previously infected. “Notably, individuals who were previously infected with SARS-CoV-2 and given a single dose of the BNT162b2 vaccine gained additional protection against the Delta variant. The long-term protection provided by a third dose, recently administered in Israel, is still unknown.”

The researchers suggested that the stronger and longer-lasting protection enjoyed by the previously infected “could be explained by the more extensive immune response to the SARS-CoV-2 proteins than that generated by the anti-spike protein immune activation conferred by the vaccine,” while adding “this remains a hypothesis.” The study appears to corroborate the data collected by Israel’s Health Ministry earlier this year which compared the likelihood of reinfection during the fourth wave of the pandemic to the likelihood of breakthrough infections among the vaccinated.

According to *Channel 13*, the data presented to the Health Ministry in July found that the vaccinated were 6.72 times more likely than the previously infected to be diagnosed with the virus, though no distinction was made between vaccinated patients who were COVID-naïve or previously infected, nor were comorbidities accounted for. A previous study, conducted in Cleveland, Ohio, found that there is likely little to no benefit for recovered SARS-CoV-2 patients in receiving vaccines against the coronavirus.

Written Testimony

I oppose this tyrannical bill for digital and paper health passports here in Hawaii. It is unethical and support segregation and is against all medical privacy. Putting something into your body should be a choice and has always been a choice. If you make us carry a vaccine passport then why not have peepholes and rapist carry an ide todo at ion card also, oh wait you are impeding on their human rights. This is a human rights issue and goes against all civil liberties in the U.S. Constitution and Nuremburg code. Vaccinated hold the same viral load as unvaccinated and vaccinated can equally spread the virus. I have been infected by vaccinated persons twice. I had Covid 19 in December 2019 and I have natural antibodies to the virus. Is there a card for my natural antibodies? What about the hundreds of thousands who have natural antibodies? Which are now scientifically proven way more effective than the vaccine. My other pony is not everyone can get the vaccine including myself who is immune compromised, so I cannot be part of society? My sister in law was hospitalized with convulsions right after getting the vaccine from Walgreens. She went in an ambulance from Walgreens to the hospital uncontrollable body convulsions. Her doctor said she cannot get second dose or he will die. So is she not allowed to be part of society? What about all my immune compromised friends and elderly unvaccinated by choice? There are two sides of science and only one side is being looked at. Everybody's bodies are different, everyone should have a choice!

Written Testimony

I strongly oppose bill 21-194 mandating Health pass/vaccinations, etc for Honolulu County. I have been advised by my doctor NOT to take the vaccine because of that fact that I have anaphylaxis twice due to my allergic reactions to drugs/medications/vaccines. My doctor said she can't advise me in good conscious to take the vaccine because it is still in it's trial phase, and she is not privy to all the ingredients in the vaccines that have been put out in the market to use. She told me by taking that vaccine, I could very well go into anaphylactic shock and die.

So because of this I strongly OPPOSE Bill 21-194. It could KILL ME.

thank you,
Erica Barrett
Honolulu, Hawai'i.

Written Testimony I oppose this vaccine passport because some people, including myself, are prone to severe allergic reactions to certain pharmaceutical medications and immunizations. I, myself, am allergic to penicillin. As well, I was hospitalized with pneumonia as an infant shortly after receiving my first influenza shot. Does your committee factor in people with these conditions when considering a mandatory vaccine passport for all? Please advise and consider alternative options on behalf of our fellow residents with sensitivities to vaccinations.

Written Testimony

I strongly oppose this bill! I understand the fear that many people have towards this virus. BUT there is still freedom to what we choose to put in our bodies. The vaccine does not prevent the body from getting Covid, but it helps protect the body from getting a severe reaction towards it. Now since the vaccine DOES NOT prevent the spread of Covid, it is the person responsibility towards getting the shot or not. The person who chooses not to get the vaccine will deal with the virus as it is their own freedom to participate in outside activities.

This is so twisted and sad. There is no mandation towards eating well, working with herbal medicine, learning where your body has inflammation, using accupunture, breathe work, drinking enough water, working out and exercising the lungs. Theres no other conversations about building your immune system. Both parties, vaccinated and not vaccinated has the chance of getting COVID, this is just so much deeper than getting a shot and not. People are allowed to work with natural ways of healing and strengthening the body, to submit to peer pressure and fear is such a sad and toxic way to deal with this. We are sadly so deeply woven into eating meat and starch, only eating fruits in ice cream or with sugar. When it truly boils down to, our body is extremely resilient when offered the right support. People who arent willing to take health into their hands can get the vaccine, people who want the extra immunity can get it. But those who still feel uncomfortable with it, for those who truly want to work with natural living and be role models and advocates for what the earth can support us in should.

DO NOT MAKE PASSPORTS and divide the people even worse!!!!

I am strongly opposed to this bill. Personally, I have contracted COVID-19 in late February 2020, and have since recovered and have gone back to providing essential transportation. Two weeks were spent alone in bed overcoming bouts of “lungs on fire” while discovering the benefits of sleeping on a warm bed in the sunlight and resting face down to ease the pressure of breathing on my lungs. I returned to work after Ige’s declaration of a COVID-19 emergency on March 5, 2020.

People like me were considered heroes for willingly providing to other’s needs during a pandemic with very little information available. I used the experience of my own recovery as a resource to assist in the recovery of others. I refused readily available pandemic unemployment assistance and PPP funds in order to retain a strong work ethic passed on from my parents.

Written Testimony

Natural immunity continues to provide me with an immune response almost on a daily basis considering the line of work. Any suspicion of exposure to COVID-19 would compel me to return home and rest. The guidance of a good night’s rest would later be given to vaccinated individuals who have come into exposure.

I have read the report of the approved BioNTech vaccine. The report included data on the risk of myocarditis and pericarditis particularly for healthy men under the age of 40. My father passed away at the age of 40 due to an unknown heart condition. Having since recovered from COVID-19, I continue to experience chest pain. This FDA approved vaccine constitutes too high of a risk for me to intake.

In closing, this resolution shows no aloha. This resolution allows no responsibility for self-restraint nor self-responsibility. This resolution offers no opportunity for diversity of thought.

On the precipice of declaring the heroes during the early stages of the pandemic as the villains of today, I implore this committee to not move forward with a COVID health pass.

Totally wrong to do this!! Isn't it unconstitutional to deny services due to vaxed vs unvaxed?? How can you even propose this??

Where's the therapeutic >>out patient treatments to keep people out of the hospitals??

Written Testimony

Vaxed can transmit and catch covid same as unvaxed people! I even read they have many more times the viral load in nose and throat and possibly a symptomatic as carriers!!

What about natural antibodies >>better than the vax fake ones!! Why is there no mention of this??

To whom it may concern,

Written
Testimony

I oppose Resolution 21-194. I do not consent to random workers and businesses knowing my vaccination status for privacy reasons. In addition, this resolution punishes all who have legitimate reservations for why they do not want to be vaccinated, from religious to medical exemptions. The resolution, in its current form, also does not afford people who have already contracted and recovered from COVID the ability to access these locations or receive the passport. Places like France, who are much more science forward than Hawaii, have allowed previously recovered persons the ability to receive the same passports as vaccinated persons. This will also be a financial and logistical mess for smaller businesses who are already struggling. The burden should not be on small businesses to enforce the will of the state government. They lack the ability to discern fake from real vaccination cards and COVID test results, so this will likely be an ineffective method in the long run. Finally, please consider the implications for our communities and the testing facilities if you force people to test so frequently. This will place thousands of unvaccinated and/or healthy individuals in areas with several people who may have COVID into overwhelmed testing centers already struggling to keep up with the testing demands from previous mandates from the government and local businesses. This will likely increase transmission and slow the testing and detection of COVID among the sick and symptomatic. These will, inevitably, lead to more cases in our communities. Although the intentions are good, the plan needs more work. I implore you to please think of better ways to deal with the pandemic.

Mahalo,
Christopher Kopp

Written Testimony

I am opposing this resolution because it will affect people greatly. Not only will it cause mental illness but it will all so increased those affected with mental illness. As a mental illness employee in a psychiatric hospital, I would hate to see the innocent patients of all ages, especially children affected by this as well. This will not allow hard-working employees to continue working with them. This will increase homelessness, debt, the availability of being able to purchase food to eat in order to sustain life, take away transportation, and not allow access to money at a bank. This will also increase numbers on mental illness and cause more suicide numbers. These are just a few of the consequences if this resolution passes. I am asking for myself as well as those who have no voice in this to please consider the horrific consequences to those affected by this.
Mahalo

Aloha,

I am writing in strong opposition to RES21-194 COVID-19 HEALTH CARD. The vaccine passport is an unproven and unethical measure with dire legal and societal consequences.

First, science has shown that both vaccinated and unvaccinated people can carry and transmit the COVID-19 virus. It is well known among researchers and the medical community that the COVID-19 vaccines were developed to reduce the risk of people experiencing symptomatic infections. It doesn't protect against asymptomatic infections and certainly doesn't prevent them from harboring and transmitting the virus to others. This is outlined in the clinical trials protocol of the pharmaceutical companies that developed the vaccines and is supported by research. Therefore, this measure will not be based on science but on politics.

Second, vaccine passports will promote discrimination. It will socially stigmatize people who are unvaccinated at a time when stress is already at an all time high due to the uncertain economy and struggles to make ends meet. This will contribute to the increasing rates of anxiety, depression, alcohol abuse, substance use, domestic and child abuse, obesity, and other chronic health conditions. Vaccine passports are not worth these lifelong consequences.

Third, vaccine passports will unfairly hurt sales of those businesses that will be required to comply with this mandate. For local people, dining out, going to the gym, visiting museums and the like are all luxuries considered categorical "wants" but not "needs". Right now only 63.4% of Hawaii's eligible population are vaccinated. That means potentially 36.6% of the population may forgo these activities and spend their money elsewhere that may not contribute to the local economy.

Fourth, vaccine passports may encourage fraudulent sales and purchase of these passports, especially among tourists. We are already seeing in the news and on social media reports of tourists purchasing or devising fake documentation for the sake of coming to Hawaii or avoiding quarantine. There are likely many more who have not been caught. Now consider the lengths they would go through to enjoy their experience here, such as visiting museums, aquariums, zoos, recreational boating, botanical gardens, etc. Vaccine passports would fuel the growth of blackmarket documents that sell to those willing and desperate.

Lastly, requiring people to submit vaccine passports forces them to disclose personal health information that they shouldn't have to. Doctors, hospitals, and medical clinics are required to comply with extensive HIPAA measures to maintain privacy and confidentiality of their patients' personal health information. It is government overreach to force people to forgo any sense of personal privacy for whatever reason.

I sincerely hope you take the stated facts above into consideration before passing the vaccine passport mandate.

Mahalo,
Tammy Leslie

Written Testimony

I oppose this bill on the grounds of freedom to choose our own personal health choice without the fear of retaliation from our government or threats of loosing or jobs and livelihood, I believe that the covid19 vaccines are not the answer to this global pandemic, but a scary look into our uncertain but near future. The amount of distrust in our government and political leaders here in Hawai'i and around the country scares not only me but people who share my same thoughts about not only this situation but many more the people of this State have to deal with.

Written Testimony

Per the Centers for Disease Control Director Rochelle Walensky own testimony: "Our vaccines are working exceptionally well. They continue to work well with delta with regard to severe illness and death, but what they can't do anymore is prevent transmission." A vaccine passport will not curb transmission, because the vaccine helps against serious illness but not against the transmission of the virus. We would be putting undo stress on businesses that will be limited in who they can serve. The very same businesses that have struggled over the past year and faced many hardships. We will also be discriminating against those that cannot get the vaccine due to health related issues or religious beliefs. We need to be a community that spreads aloha not one that discriminates especially when there is no scientific basis that a passport will curb the disease. We need to listen to the facts and science and they do not back the decision to have passports. Thank you for making the right decision for ALL of Hawaii and not putting this into place.

Written
Testimony This agenda item violates ones private medical record and strains our economy. With a survival rate of 99% we should all have the freedom to choose. This is not even a "cure all" vaccination, you can still get and spread covid. It is essentially a flu shot. Which is fine. I personally think the covid vaccines are fine and safe, and you should get one if you want one. However I do not support the loss of freedom in a free country. Mandates are a slippery slope. It should be left in the hands of the private business to make requirements or not.

Written
Testimony

I strongly oppose RESOLUTION 21-194. This bill does not take into account people who have already had COVID and have natural immunity. This bill does not account for the fact that vaccinated individuals can still spread the virus. This bill is an imposition on civil liberties, medical freedom, and constitutional rights to gather. The state or city attempting to mandate what chemicals and compounds can be injected into your body is a very slippery slope. How many mandatory vaccines will there be? Would you trust the pharmaceutical industry with your life even with them be the 3rd lead cause of death in the US? Please vote no to RESOLUTION 21-194!!!!

Written Testimony I oppose the covid passport. The vaccine is not working and the variants will never end. We do not need a COVID passport it will kill our economy and the flu and COVID kill about the same people every year. 650,000. We will never find a cure for the flu and will for Covid either

Written Testimony

I am a born and raised resident on the island of Kauai and a Paramedic First Responder who has served the county of Kauai for 19 years. I have successfully responded on the front lines and treated and rescued lives including patients with Covid 19 since the onset of Covid, without passing harm or infection onto others through careful protocols and use of safety gear and equipment. I am firmly opposed to any Vaccine Passport system. As a health care worker, I believe all Hawaii citizens should have the right to make their own health care choices without intervention, discrimination and loss of any freedoms, from the government. Please stand against mandating this kind of unjust legal enforcement, discrimination and control.

I pray to God for my State citizens, leader's, our World's citizens and leaders. That God will reach and speak to all hearts that give us life, so that sound decisions will be made for all of our children, families, and All citizens as We are all ONE under God. Everything is falling into place. Thank you all for your living sacrifices and service. God Bless our State of Hawaii.

Psalms 2:10-11 - Therefore, you kings, be wise; be warned, you rulers of the earth. Serve the LORD with fear and celebrate his rule with trembling.

Written Testimony

2 Chronicles 7:14 - if my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land.

16 It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, 17 so that they could not buy or sell unless they had the mark, which is the name of the beast or the number of its name.

18 This calls for wisdom. Let the person who has insight calculate the number of the beast, for it is the number of a man. That number is 666.

Written Testimony Totally opposed to any type of unconstitutional "vaccine passport" or mandatory vaccinations for anyone. Executive orders do not supersede our constitutionally protected rights. We the people know freedom is more important than safety, and that it must be fought for and protected in order for our constitutional republic to continue to be the land of the free. It also defies logic to only test the unvaccinated when vaccinated people still carry and spread the virus. Look at Israel. Also, Japan and India are having great success with ivermectin, the media can only suppress that for so long. There are other treatments, fda approved ones, for covid besides the vaccine.

Written Testimony

I strongly oppose to health cards or the use of vaccine passports to enter bars, restaurants, gyms, museums, and any other establishment now and in the future. The use of a vaccine passport is discriminatory, tyrannical, and inhumane. Preventing healthy people from participating in society is ethically, morally, and illegally abhorrent. This will not only effect individual lives, careers, and families, but the economic and social health of the island. Using divisive tactics, manipulation, and fear mongering is not “following the science”, unless you are following the science of propaganda. Local businesses and families will feel the greatest effect, and social discourse will reach even higher tensions. Implementing such tactics as a vaccine passport is not going to encourage more people to become vaccinated, it will only serve to alienate healthy people and possibly force people to move out of the beautiful island we call home. The precious tourism rates that seem to be the main driving force of political decisions will also suffer greatly, so you are not going to keep the island alive by relying just on vaccinated tourists to carry the weight. Forcing the resignation or firing of unvaccinated employees in hotels, restaurants, museums, and other tourist attractions will also impact their ability to be open and serve the vaccinated tourists that do come to the island, as well as vaccinated residents that want to enjoy our beautiful amenities. Vaccine passports will effect everyone negatively - vaccinated or unvaccinated.

More importantly, if this was really about health, safety, and science, you would realize that forcing vaccines upon people are not going to make the COVID-19 numbers decrease. The available vaccines for COVID-19 do not stop people from getting COVID-19 or transmitting it to others. In fact, it is just designed to lessen the symptoms, essentially creating asymptomatic carriers. Correct me if I’m wrong, but aren’t asymptomatic carriers what we spent most of 2020 afraid of and the reason for unlawful lockdowns? There is a clear correlation between ending COVID-19 testing for anyone flying to Hawai’i that is vaccinated in July 2021 and the surge of COVID-19 cases in the subsequent weeks. We kept the numbers under control in Hawaii for 18 months and within 3-4 weeks of ending testing for

vaccinated travelers, our numbers are out of control. Why may that be you ask? It is because vaccinated people can still have and transmit COVID-19, and that's exactly what they have done. If these vaccines were so powerful to actually stop spread and prohibit infection, the numbers would not be off the charts when over 60% of the state of Hawaii and over 50% of the USA is vaccinated. Personally, I flew back into Hawaii in August from the mainland and had to provide a negative COVID-19 test to do so. I know I did not have COVID-19, nor did I pose a risk to any other passenger on the plane or those I interacted with when I returned to the state. In contrast, all of the people on the plane with me that were vaccinated and did not test posed a risk to me and everyone else on the plane, as well as those they interacted with when they landed. Without testing, how are they to know if they have COVID-19, when in fact the vaccine is designed to only lessen symptoms.

A proper tactic to control the outbreak of COVID-19 we are experiencing in Hawaii, based on science and common sense, would be to reimplement the testing for everyone that is entering the state. We maintained low numbers for 18 months, with and without the vaccine. Forcing a vaccine mandate or vaccine passport for healthy people to abide by is ludicrous and criminal. Many people have legitimate medical and religious exemptions, further making this a real discrimination issue. As a country, I thought these sophomoric practices and hateful ideals were behind us. Please have compassion, common sense, and civil discourse when making decisions that effect people other than yourselves. May I remind you that you are elected officials, therefore public servants paid by our tax dollars. Everyone's tax dollars, not just the vaccinated.

In sovereignty, Chelsea

Written Testimony

I am a health practitioner and based on personal experiences with clients, friends, and family, I am seeing a trend of alarming side effects from the vaccine. The long term side effects we are still unable to determine, but I am almost certain there will be. The main difference with this Covid-19 vaccine is that it contains spike proteins and is directly distorting our DNA. For men it's seemingly affecting the heart and for women the uterus. I personally know people who have had really severe side effects from the Covid-19 vaccine including:

- A friend's 15 yr old nephew who got a heart attack after Covid vaccination and went into ICU at Queens Hospital where they found out 2 other teenage boys also got heart attacks from the Covid vaccine.
- My own father started to have chest pains and shortness of breath after receiving the Covid vaccination. One of his heart valves stopped working right after the vaccine and he has to have another open heart surgery to replace it.
- A very close friend of mine on Big Island of Hawaii lost her son a few weeks ago after a heart attack from the Covid vaccine. He died 3 days after receiving the vaccination!
- Many women I know have disrupted menstrual cycles after receiving the Covid vaccination including delayed menses, amenorrhea, heavy bleeding, bleeding after years of menopause, miscarriages, infertility etc.
- There are thousands of stories just like mine that are reported and unreported. But doctors and hospitals are covering them up or denying that they are related to the vaccines.

I believe in supporting people to make healthy choices for themselves. We are all born equal, amidst growing up and valuing different belief systems, perspectives, and opinions. We must

respect and honor each other in our differences. Those who choose the Covid-19 vaccine and feel more safe and protected from having received it should be treated no differently than those who feel more safe and protected by NOT choosing to get vaccinated. No matter which side of the fence one stands, this is about respecting our human rights to feel safe, protected, and well (mentally, emotionally, and physically). I DO NOT feel safe or protected by the Covid-19 vaccine. I DO NOT feel safe or protected by our government forcing everyone to get vaccinated. I DO NOT feel safe or protected by having my rights taken away. I will need to be able to continue to work and eat and provide for my family while I choose NOT to get the Covid vaccination.

Please consider all perspectives and allow for people to be empowered to protect themselves. Perhaps we should spend more time and energy teaching people to support their health and immunity? Before mandating a vaccine, perhaps we can consider instilling more balance and wellness for our communities? If we choose to eat healthy, exercise, breathe deeper, release stress, eliminate toxins, detox, be at ease, experience more love and more joy... this I believe can be much stronger than any vaccine can ever be.

Thank you for your time. Thank you for understanding and supporting Hawaii be a true example of Aloha

Written Testimony

I am a Veteran who is receiving a federal stipend for the rest of my life because of the Anthrax vaccine. I am the 1% 300k + recorded having severe reactions from the beginning on the invasion to 2010. These are just the soldiers that have seemed help because of similar symptoms the others are casualties of war. COVID-19 vaccine does not work forcing those who have taken health into their own arms and have little to no symptoms because of quality nutrition after seeing various doctors and getting there is no cure. Our daughter is a genetic makeup of me and my wife she looks like me. I flat lined within 2 minutes went unconscious about .45 secs. I oppose Resolution 21-194. Please use the facts that have already been presented I get it we're all trying to do the right thing but act in a way as if humanity was first not of greed social enrichment. Only god can judge us. I believe in everyone's innate systems and there should be mandates pollution for example our landfills are full weed control is poison control mandate the roundup being sprayed in commercial and private neighborhoods. The beautiful thing about science is just like surveillance the evidence are presented we need our external and internal environments to achieve the highest quality of anything. Don't pin the people of Hawaii against one another because of cooperate greed. If it's not working then it ain't why are you forcing. All COVID-19 cases are generated by tourists so we the people have to suffer penalties because of cases. What will you do when you destroy communities and force 100% and people end up dying and greedy companies with scientists create another shot and another and your people start to die will you take ownership for being wrong or make an excuse. The vaccines are not working ex. Who creates a bigger mutation? Someone who doesn't use chemicals and dies vs a vaccinated individual full of chemicals. Come on this is a no brainer stop playing god. Invest in science that is not restricted and stop investing in temporary fixes.

Thank you,
John M Tuakalau

We are stronger together and if we work together there will be a cure but if we don't and only take one route which is not the scientific approach we will all perish. Social enrichment is not sustainable. Human development is.

Written Testimony

I strongly disagree with the proposal for a vaccine passport. There is an abundance of information regarding & questioning the long term safety of this vaccine. Most pointedly, results from Israel showing that even amongst those who have the vaccine there has been a surge in cases as reported in the New York Times. Why are we proposing restricting mandates that limit the sovereignty of not only our individual health choices but also risk the well-being of the larger community in the name of a vaccine that does not have proven results in creating health nor any long-term studies on potential negative effects? This is a generational concern and we must not act from a place of immediacy or fear. We must consider future generations and act from careful consideration of the validity of this vaccine for the true well being of the people. It is in my opinion that a for-profit pharmaceutical company has questionable intentions in its push for this vaccine. There are more viable and sustainable solutions regarding health and immune support that need to be discussed before creating vaccine mandates. I urge our community representatives to research and seriously consider alternatives before passing a harmful vaccine passport mandate that will further divide our islands. Thank you for your time.

A policy that has a disparate impact on minorities, by accident or design, is discriminatory. Vaccine passports have a disparate impact on minorities who, for a number of reasons, have higher levels of vaccine hesitancy. If you support vaccination health cards (also publicly referenced to as vaccine passports), then you support discrimination.

Written Testimony Medical procedures should not be made, let alone mandated, by the government. These decisions should be made by the individual. The government also has no business being involved in discussions regarding such procedures, which should take place between the individual and their trusted medical professional.

I strongly oppose this resolution.

Written Testimony

There is a slippery slope when a government imposes injections in every citizen in order for them to participate in normal society. It used to be that our societies thoughts it best to quarantine the sick from the healthy so that life could continue for the vast majority of the population. Now we are moving towards segregating 40% of folks away from 60% of our population because of the mere potential for sickness. I believe that is bad policy. The problem that RES21-194 is advertised as the solution for will not be remedied by forcing out those that can't show the QR code proving receipt for the dictated injection, and the reason it won't work is because we are a large ohana society, and people have a fundamental need to relate. This is why the most severe punishment in our correctional facilities is solitary confinement, it is what's most crushing to the psyche, and I fear that if we continue to enact policies of segregation, we will push those who are most vulnerable among us, those on our fringes with increasingly fragile psyches, off the ledge of no return, to a place where the chaos in the brain is so loud the downward momentum cannot be reversed.

We can look to our past to two instances where Hawaii has been in favor of segregation and consider them in this present decision:

First is the isolating of those with leprosy to Kalaupapa on Molokai, where a severe disease was deemed unstoppable and the sick were left to suffer and die in remoteness.

Second is the internment of Hawaiian citizens into concentration camps because they were deemed a threat to public safety for "looking too much like the enemy" during WWII. In our not too distant past, the public outcry that leads to segregation on shallow grounds, to a society in which the only options are either forced compliance or "societal outcast" will only produce further social unrest. It is for these reasons that I strongly oppose the policy put forth in RES21-194.

Mandatory vaccines are instilling a fear into the people. The fears not about Covid-19 it's about living in the United States and not having freedom. There are fatal side effects from this vaccine and I'm supposed to be on board with taking this shot. I'm human and I have rights. Why has the state stopped requiring tourists be vaccinated or have a negative test to enter our Island? Now to go to the grocery store I must be vaccinated or have a negative test within 48 hours. Please make it make sense. Take care of your people before tending to these tourists. Show that you actual care about your people and not just the money.

Please do not further restrict businesses and families at a time when we are already stretched to our limit! As usual Hawaii is ahead of the curve in infringement of our constitutional rights, and behind the curve in real science. So many studies have shown the vaccines do little to stop TRANSMISSION of the virus and yet here we are using them as a benchmark of obedience. Physical distancing, travel testing and gathering size limits did much more to stop the spread. Vaccination has only led to an exponential increase in cases. Don't forward this anti-American, illegal, restrictive measure

I am strongly opposed to this bill because my 1st amendment is being violated freedom of speech. We shouldn't be forced to do something we don't want to do it's my body my choice. It's sad that our government is discriminating the unvaccinated because you can catch COVID even if your vaccinated. Also can you promise me if I take this vaccine and nothing will happen to me? If something happens to me who will take care of my children who will provide for them? Will my family be taken cared of financially if something happens to me. The government is willing to risk losing our first responders ,people being on unemployment because they can't work due to the vaccine mandate and people being homeless because they can't afford housing or food. That's what we have become today we forgot about Hawai'i we have become the puppets of the government. The lies the government is telling the public making us live in fear. I'm standing strong taking back what's ours I oppose this bill, the vaccine and the mandate.

Written
Testimony I strongly oppose Resolution 21-194. Hawaii should NOT require a vaccine passport for establishments. That is discrimination and a violation of rights. Vaccinated people can still spread COVID-19. If masks are required, then that should be enough protection. It is disgraceful to think that the state of ALOHA is going to turn their backs on people based on their personal, religious, or medical exemptions towards a vaccine.

I am a long-time resident of Honolulu, having spent over 51 years here on the island. I oppose Resolution 21-194 for more than one reason, but the reason I would like to focus on, in this discussion, is one that I rarely hear discussed.

Written
Testimony

What provision is being proposed in this resolution, for the thousands of us, both here in the islands, as well as incoming visitors, who have natural immunity from having had SARS-CoV-2, especially those that have had it within the last eight months? Many studies out of Israel (Maccabi Healthcare and Tel Aviv University) and the prestigious Cleveland Clinic show that COVID survivors have a much higher resistance to reinfection than do vaccinated individuals. On August 21, 2021, I read an article, citing an Israel study, published in medRxiv.org.: This study demonstrated that natural immunity confers longer lasting and stronger protection against infection, symptomatic disease and hospitalization caused by the Delta variant of SARS-CoV-2' the team of researchers wrote" and it continues, " Not just a little bit better either. People who have taken both doses of the Pfizer jab are 13 TIMES more likely to have a breakthrough infection, and are even at a "greater risk for Covid-19 hospitalizations".

This is only one of MANY articles I have read from MD's, scientists and others that concur with this position.

The CDC has stated "fully vaccinated people who get a Covid-19 breakthrough infection can transmit the virus", why does there seem to be a discriminatory policy, adversely affecting those survivors who do not want to take the vaccine, and have less of a chance of reinfection?

So far, none of the pharmaceutical companies who are making billions of dollars off these vaccines, are willing to compensate individuals that become sick or die from the vaccination, and the numbers of those people are rising daily. Further the CDC admits in a

Forbes article dated 6/26/21: "4,115 people have been hospitalized or died with Covid-19 despite being fully vaccinated". I am sure that number is much higher, as of today.

I am aware that the CDC's most current stance on reinfection is in conflict with many of these other verified, independent studies, but then you have to wonder, how many times has the CDC issued information that caused total upheaval in businesses, schools and the mental health of millions of individuals, only to reverse their position within days or weeks? I think it wise to examine the dozens of studies here in the US, as well as internationally, that don't necessarily agree with the ever-changing "guidance" from the CDC.

So, all of that said, what provision is being made for those of us with natural immunity that want to frequent businesses here, restaurants, gyms, etc, and want to see our lagging economy return to the robust, sustainable state it was in prior to these lockdowns and mandates?

I, for one, and dozens of others that I am acquainted with here in the islands, are in total opposition to this discrimination, and will in fact, take our business (and our appetites) elsewhere, to restaurants and other establishments that do not impose this discriminatory mandate.

Thank you for your time and attention to consider my point of view on this issue.

Aloha,

Christine K Lassley
Resident of Honolulu since 1969.

Written Testimony

I've attached the America's Frontline Doctor's White Paper on Experimental Vaccines for COVID-19. The America's Frontline Doctor's is a group of board certified doctors who are on the frontlines in this pandemic conducting their own research on the virus and treatment. They have also studied the effects of the vaccine on patients. More specifically, they outline the vaccine controversies that I'll list below:

1. The MRNA vaccine has been approved for any disease, or even entered final-stage trials until now. This technology is less stable than older technologies.
2. Scientists have NEVER been able to create a successful coronavirus vaccine. Whenever they think they have, the experimental coronavirus vaccine failed and the animals who got the vaccine died.
3. There are no published animal studies, which is critical because deadly effects are often not seen until this step. Vaccines that have been given to humans prior to animal trials have frequently resulted in deaths that caused the government to yank the vaccines.
4. Known complications such as Antibody Dependent Enhancement, in which the anti-COVID antibodies, stimulated by the vaccine, AMPLIFY the infection rather than prevent its damage. This has been seen repeatedly in other vaccines and animal development trials especially with coronavirus vaccine trials. Other known complications such as transverse myelitis, Bells Palsy, multiple sclerosis, autism and Guillain-Barre. For example, in 1976 the government attempted a mass vaccination of the population with a newly created Swine Flu Vaccine. it was aborted after 450 came down with Guillain-Barre, which is supposed to be a RARE disorder in which your bodies own immune system attacks its nervous system.

5. There are entire populations for whom we do not know the data. We do not know how it will effect the elderly, pregnant women or soon to be pregnant women. The MRNA vaccine may permanently interfere with a woman's ability to maintain a pregnancy.
6. The same companies that profit from this vaccine are immune from all liability.
7. There is no proof the Vaccine stops transmission of the virus.

Amongst these controversies, there is now proof of how the vaccine is currently showing up and affecting the body. Myocarditis and Pericarditis being two very serious complications that can lead to death and/or a serious disintegration of a person's quality of life. Specifically, the spike protein made from the vaccine is implanting itself in the ovaries of women, causing cancer and infertility. These are the type of risks you are asking everyone to take and yet, no one is held liable should those risks manifest. How is that right?

This is just a quick outline of what is in the paper and if you read it in depth there are many concerning finds regarding the vaccine that you are trying to make mandatory.

As time goes by, more studies are finding that even with the vaccine, COVID can still be caught and transmitted. We are one of the most vaccinated states in the US, but we still have high numbers. So, shouldn't that be an indication that the vaccine isn't as effective? There are studies being done in Israel right now, with the same type of results we are seeing here in Hawaii. Should we be mirroring a society that is already showing the ineffectiveness of the vaccine? What is the need to separate the vaccinated from the unvaccinated? You claim it is a public health crisis, but it is causing a divide that I don't believe our community will be able to come back from. It will encourage crime and hate on a level Hawaii hasn't seen yet. I am not against vaccine's, but I don't believe that a vaccine with these type of risks should be made mandatory. There should be more emphasis on early treatment options and using the campaign money to promote the vaccine on better treatment options such as ivermectin and hydroxychloroquine. There should also be an emphasis on healthy practices of sleep, water, exercise, and supplements. If every individual took accountability for their health we would naturally have a healthier community.

I am an American citizen and me and my family stand with other American citizens who choose not to take the Vaccine. In listening to many testaments from doctors who feel that the vaccine @ the spiked proteins in it will cause damage to our cells and possible death I am not willing to take that chance! I am deeply offended that our government, federal and state trying to force us to take the vaccine and is doing this by dividing us and making it a mandate that if we do not have proof of vaccination we will not be allowed in public places or restaurants or eventually grocery stores. As an American citizen I have rights and I have always followed the law most of all as a Catholic Christian our country was founded on Christian values and I know that my Lord & Savior Jesus will continue to bless and watch over us.

The suggestion to install a bill that segregates citizens based on medical preferences is illegal. Anyone supporting this Bill in public office is breaking the law and is suggesting that citizens break the law as well. I'm a law abiding citizen and public officials must honor my decision to take part in or refuse medical treatment for my own body. I suggest, like all great leaders in the US, that you find a constitutional way to address this problem. Requiring that citizens break the law or face consequences will incite panic. This Bill won't increase compliance, it will turn a very large voting body against you which will likely turn into legal action, your removal from office and investigation into the abuse of your position in office. We are happy to support you in discovering a constitutional way to "flatten the curve" as the residents of Hawaii.

Written Testimony A vaccine should without a doubt be a choice. It is the people's birthright and constitutional right to choose either to have or not to have any medical procedure that involves risk, for themselves and their children, without any coercion. It is the people's right to choose artificial or natural immunity.

Written Testimony

I do not support the mandate for require/force US citizens to get the Covid Shot. This is against my rights as a human being. People should have freedom of choice instead we are being discriminated against, harassed, blamed for what is not our blame, coerced, and now forced to do something to our bodies that we want to wait on or not do at all. It is not even a religious thing but people are being forced to find ways to keep their rights intact. I would Prefer to have my own natural immunity system to build natural antibodies to any virus. Staying healthy and strong is the key to beating any virus but the State dies not even promote that. People are getting sick because they are depressed and fighting amongst them selves over getting a covid shot

Or not. Families are being divided. Vaccinated people are still getting Covid and now it is spreading amongst them because they Are allowed to come and go in the community all because they got a so called vaccine. But they are still getting sick and passing it around because they can. The media and news is biased and not reporting all facts. I let all people make their own Choices. I should be allowed to make my own in return. Hawaii is feeling more like a socialistic and communist state. Taking away people's rights. This is so wrong on so many levels. Ruining our economy and the livelihoods of people.

Written Testimony I am strongly opposed to this bill because it infringes on my personal freedoms and liberties laid out by the Constitution of the United States of America. Why is there a need to set a precedent such as this in which we must show a "passport" to go about life? I do not believe this is the morally correct thing to do at all.

Written
Testimony I oppose of the vaccine passport/mandate because as US citizens we have the freedom to choose what we put in our bodies. I do not believe in forcing humanity to take something against their personal and religious belief. Title 7 of the civil rights act of 1964 which honors religious exemption.
I strongly oppose this decision that the City Council wants to pass.

I strongly oppose anything that would mandate a vaccine passport or people to be forced to vaccinate for jobs schools athletics patronage of establishments or any other matter. This is highly Unconstitutional and takes away peoples medical freedom. The vaccine has been shown to be dangerous for some and not effective in preventing or transmitting the virus to others.

Written Testimony

I oppose the vaccine passports. As a hawaii resident and a spouse of a doctor that has done a ton of research on the science of this virus I think it is detrimental to not force your people to have to inject themselves with something that has no long-term studies and could cause a lot of health issues more than the virus itself. We are a free nation which allows people to choose what is right for them and their families, by forcing people to choose is unlawful. If you choose to force this, many medical professional and teachers and other upstanding citizens will leave the state because of this. Do not be known as a state to not listen to the voices of its citizens but let people choose freely what is right for them and their families.

I implore you to let people choose freely, do not give them the hard decision to not be able to work, go to restaurants that they love and travel freely just because of fear for a virus that isn't as deadly as the influenza virus. Don't let fear take away logic. Please vote no for vaccine passports.

Written Testimony

I vehemently oppose Resolution 21-194. I am not anti-vax, I AM PRO - CHOICE. My kids suffered alarming side effects from having taken the questionable Pfizer and Moderna vaccines which prompted me to cancel my vaccine appointment. I am more susceptible to anaphylactic allergic reactions and do not want to put myself in a dire situation.

Individuals in America have the right to choose their standard of care - based on their individual situations and should not be penalized.

As the GF of a small business owner, I have seen what the inept leadership of our state and local governments have done to our island economy over the years of corrupt and illegally obtained leadership. I do not have confidence in current leadership of our state - moreso, I have no confidence in your mandate to tell me to vaccinate or lose my rights to patronize establishments.

I VEHEMENTLY OPPOSE RESOLUTION 21-194

I Strongly oppose all the propaganda and fear mongering and tyranny. Covid is real, flu is real, both deadly when not properly taken care of. With 99 % survival rate with covid, and known therapeutics that actually works but being hold to the public to push for vaccination, masking and staying home, that will actually deteriorate the health of the people. Please as a RN, let's follow the real Science. Not the pseudo fabricated Science that you all based your crappy policy. All this policy just promotes division and segregation. People are tired already. The world has suffer more from these toxic policies. For once let people breath and live their lives freely. Listen to one another. And at the end of the day choose truth, justice, and integrity. These will all set us free.

IP: 192.168.200.67
Written Testimony To impose a mandate for vaccination status in order to perform basic human rights is an assault on our constitutional rights. This is an experimental vaccine. Antibody dependent enhancement (ADE) of infection is a safety concern for vaccine strategies and proper research needs to be done. The research that has been done needs to be discussed and taken into account. For example this study titled "Infection-enhancing anti-SARS-CoV-2 antibodies recognize both the original Wuhan/D614G strain and Delta variants. A potential risk for mass vaccination?"

I am opposing this resolution because it will affect people greatly. Not only will it cause mental illness but it will all so increased those affected with mental illness. As a mental illness employee in a psychiatric hospital, I would hate to see the innocent patients of all ages, especially children affected by this as well. This will not allow hard-working employees to continue working with them. This will increase homelessness, debt, the availability of being able to purchase food to eat in order to sustain life, take away transportation, and not allow access to money at a bank. This will also increase numbers on mental illness and cause more suicide numbers. These are just a few of the consequences if this resolution passes. I am asking for myself as well as those who have no voice in this to please consider the horrific consequences to those affected by this.

Written Testimony I oppose of this because I believe it goes against our unconstitutional rights. We have the right to oppose a vaccine and we have the right to not put something into our bodies when we do not know what is in it or what kind of affect it will have on our bodies. It hasn't even been officially cleared or tested so this is not right in my opinion.

Written Testimony It is unlawful to require vaccinations! My family all had Covid and are fine. The long term affects of this vaccine are unknown. Natural immunity through several test studies show that it is 17 times better than the vaccine. The unknown affects of a person that had Covid and getting the vaccine can be detrimental.

Written Testimony I do NOT support having the vaccine being required for employment or being able to visit a restaurant/store/gym. You are doing more harm with this than covid could possibly do. For the sake of the local community, do NOT pass this. Are we ignoring the fact that vaccinated people can still get and spread covid???????? This is POINTLESS and INSANE.

I OPPOSE VACCINE PASSPORTS IN HAWAII!!

Written
Testimony

I want to say if this is about health why are you not exhausting all avenues to slow the spread of COVID instead of taking away my constitutional rights to choose what goes into my body. Also the right to work and provide for my family. Also the right to go to restaurants ,movies, ect. This is called segregation. Before the vaccine came out the state tested every visitor for COVID and our numbers were way down, Now you only test un-vaccinated and our numbers are uncontrollable. We all know that vaccinated can contact and spread COVID just like un-vaccinated. So you allow thousands upon thousands of visitors every day in to the islands spreading COVID , that's why our numbers are crazy. You not keeping us safe or stopping spread. Stop the mandates and use common sense.

Thank you for this opportunity to weigh in on this important matter. I have been keeping up with world events over the past year and 9 months. Never have I seen so much disinformation provided by media outlets we have trusted for years and decades. Responsible journalism? Hardly and not with covid. Our own mainstream media downplay significant issues and twist important facts into a different narrative that is misleading so much so that that it is causing the people of Hawaii to suffer significant injury to their families when deaths occur to those who contract covid. They follow the US mainstream media storyline which fosters and spreads disinformation about known therapeutic treatments that in truth draw 100% successful survival efficacy of patients treated with the onset of symptoms. To what end are these truths withheld from our Hawaii Ohana? What kind of Aloha is our own media imparting when they withheld information that could have prevented so many unnecessary deaths?

Written Testimony

Obviously, I am against the proposed vaccine passport. Why? I believe there are more effective methods than utilization of an already proven harmful toxic vaccine full of ingredients that somehow and amazingly remain largely unknown, that are still in experimentation mode, and is not even approved by the FDA. Additionally, the Sar CoV2 has never been isolated. If it's never been isolated - and am referring to the correct methods not some computer generated hoax - then how in the world could there be a vaccine created? You're right! It can't!

So I have questions:

(1) Why must we employ false methods with these still experimental covid vaccines that are now proven to not work when there exist other smart doctors around the world who have literally cured thousand of covid patients, helped them avoid lengthy recovery periods, and even avoid the need for a ventilator?

(2) Why are we not promoting a safety and health campaign that encourages island residents to take their vitamins including vitamin D, vitamin C, multivitamins, and zinc, to get plenty of outdoor sunshine, exercise, good sleep, and to eat good wholesome foods, and providing an SOP (standard operating procedure) outlining specific measures that help keep us all safe from covid?

How do I know that other safe strategies exist?

I am a training specialist with one of our city departments. For three months last year and before and after and even currently this year, we held and are holding mandatory city policy training for approximately 700 employees with rooms of 15-30 staff depending on room size. We were granted approval so long as 6' social distancing and mask wearing over both nose and mouth were observed. We took serious necessary precautions to prevent covid transmission. Using germicide, we wiped down the tops and sides of tables, entire tops of chairs, light switches, inside and outside door handles, each pencil along with the pencil cup, the entire sign-in sheet clip board; there was hand sanitizer for those using the clip board pen; papers collected from students were quarantined for a month; and the only person passing papers to students was me after wiping down my hands with a baby wipe and spraying them down with 70% isopropyl rubbing alcohol. We are proof that effective safety measures work.

Why are we allowing a vaccine still in its experimental stages that has not yet been approved by the FDA to be used on Hawaii residents when more effective treatments and therapies can be made available that at the onset of cold or flu symptoms prevent long recoveries and even hospitalization and need for ventilators?

When I vote for you guys, I expect sufficient representation from you in my interests. With the way that this has been going on, however, I really feel you have been representing interests beyond my own. Who do you represent? Deeply concerned Hawaii residents like me. What can you do to protect me? As it stands, I expect you all to take actions that do not cause me undue harm and to investigate what's really happening instead of just jumping into shortcut tactics sold by some nefarious drug company whose main goal is to sell to you as many shots and boosters as they can and lock us all own until we succumb to their tyranny so that they can all continue to get rich quick and cause you all to ultimately be responsible for the failure and cause of so many deaths within our Hawaii Ohana. Because, if the goal really is to keep everyone safe as you all are projecting, then a piece of paper touting a vaccination that only causes more problems than it solves means nothing if people are not taught the safer more effective ways to defeat covid and we together we avoid all that harms us all.

Thank you again for allowing the opportunity to have a say in this issue before it becomes enacted.

Written Testimony We should not be forced into something that we don't want to do . It is a freedom of rights for us to choose what's best for ourselves and the safety of are families. This virus is basically like any other virus that we have dealt with over the years living on earth. To me this reminds me of flu like how taking the flu vaccine and people dying from it and also not taking it but like I said it should be by choice and by force so it is our power to fight what's right for us and our choice

I am opposed to any form of vaccine passport. Mandating someone to inject a substance in their body, which has proven to have injured thousands of people according to the CDC VAERS website, in order to conduct normal daily activities, with no liability for the manufacturer of the product or the governing body forcing this action is criminal and against our country's principals.

I do not believe we should have to get the vaccine if we do not want to. I'm not opposed to the vaccine and I will support people who get it. We live in America, a free country. This is taking away our freedom to choose what we believe is best for our bodies. It's not right that my personal choice would have to be shown when walking into a restaurant. Or any other establishment that follows those rules. That's my personal information and I do not believe it's right to take that from the people. I am a law abiding citizen and as such I should continue to receive the freedoms that I have grown up with all my life. Please do not start taking these freedoms away from us.

Written Testimony

Mandating private citizens to acquire a vaccination in order to patronize a private business goes against everything our country stands for. We should have the freedom to do what we feel is right for our own health, both now and in the future (unknown long term effects). Furthermore, it makes no sense to have vaccine passports when even vaccinated individuals can get sick with COVID-19 and spread it to others. Please uphold our inalienable, constitutional rights to life, liberty, and the pursuit of happiness. Mahalo.

I strongly oppose the vaccine pass because It will bring much hardship and struggles to me and my Ohana's very way of life and as local business owners. With the vaccine we have our concerns on it's reported affects . With the vaccine passes this makes it all the more struggling to live. As well looking into many sources and reports on the vaccines passes and the vaccines and the recent covid infections. The numbers of infections seem to be people who are vaccinated which is appalling which makes it all the more to oppose both the vaccine and the vaccine pass.

Written Testimony I strongly oppose RESOLUTION 21-194. The creation and implementation of a digital vaccine passport program will hinder the God given rights and freedom of choice that our US Constitution stands for. This proposal will cause even more division in our state that has already begun with the recent vaccination mandates by our state leadership. Resolution 21-194 is not supported by all of the recent and updated data and research and should not be passed.

Written Testimony This is an effort to blatantly discriminate the people's right to medical freedom, bodily autonomy, religious freedom, and goes beyond race, gender, and sexual orientation. Passing this bill will usher in a new "legal" form of segregation. This is against The spirit of Hawaii and is not the essence of Aloha. People cannot be punished by a government "of the people" because they exercise their basic human rights.
As a woman my body is going to become property of the state of you mandate people to participate in society with these vaccine passport.
My health, my body, my spirit are not up for discussion or debate. My rights are endowed by my Creator and acknowledged and protected by the United States Constitution.
You are elected officials holding this hearing, which was kept out of the public news and sphere so you can push this tyrannical and discriminatory agenda.
You are segregating people of any race, gender, creed, and etc.
I oppose this resolution with every fiber in my being.

Written Testimony

The vaccine passport is a violation of human rights. Small businesses have already paid the price in 2020, many done for good and most suffering because of decisions they didn't make. Report that the virus is easily caught and spread between both vaccinated & unvaccinated and a vaccine card is not an equal replacement for regular testing. MANDATE IS NOT LAW. You know this and that is why you're pushing "emergency proclamation" because you know it will never hold up in court. Listen to what the people of Hawaii want and what will ACTUALLY HELP LOWER THE CASES! we both know after 60 days, letting the vaccinated go where they please will not stop the spread

Aloha,

My family & I have lived in Hawaii our entire lives (my mom was born in the Territory of Hawaii - and my grandparents before that!)

I love our state - yet, I do not agree with the legislation that is trying to be passed re: a vaccine passport.

Written Testimony

My husband & I are in the process of receiving the vaccination (we each had our first shot); however, I know several people who are not vaccinated - including our 6 year old son.

A vaccine passport would limit our ability to experience all our islands have to offer - as well as hurt our economy (as there would be less visitors, less spending in general because people can't go out, etc). It will also hurt families, as we can't get together the way we've done in the past (both local residents and some who live off-island).

I urge you to NOT pass this resolution mandating a vaccine passport in Hawaii.

Thank you for your consideration

Written
Testimony We are still in clinical trials until 2023. You cannot mandate an experimental medical procedure with no long term safety data. There are serious documented side effects, including death. Who will take the liability when people are injured or killed? Where there is a risk, there must be a choice. The vaccine does not prevent infection nor transmission.

Aloha. I am strongly opposed to the strategy, implementation, and execution of Resolution 21-194.

As documented by the Center for Disease Control (CDC), VACCINE BREAKTHROUGH CASES are occurring throughout our Nation. Please see the attached file from the CDC that discusses this topic in detail.

Written
Testimony As a result, requiring ONLY unvaccinated people to present a negative COVID test in 'high risk establishments' will NOT in and of itself minimize the spread of the coronavirus and its variants and decrease exposure to higher viral loads as it is clear and backed up by science and on-going statistics that vaccinated persons ARE carriers of the virus as well.

I respectfully ask that more research be performed. I also request that a strategy such as requiring all employees and patrons of 'higher risk establishments' be tested at a reasonable frequency rate at approved testing facilities using the \$193 million funding made available by the American Rescue Plan Act Fiscal Recovery Fund. This will give a true picture of the number of positive cases in Hawai'i.

Doing so will mitigate further hardship on our community, visitors, economy, etc.

While I support the vaccine, I do not support a vaccine passport. I fear that certain establishments could use it to discriminate and exclude certain persons. I believe this will potentially lead to a violation of civil rights. For those history buffs, this is reminiscent of the "star of david" before the Holocaust, which was less than 100 years ago.

Written Testimony

As a person who has studied Human Behavior and Evolution, psychology, (and now Behavior Analysis) for many years, I can testify that this will be used by some to exclude, not to include.

While the intent may be to simplify, human nature dictates that it can and will be misused to benefit or to discriminate against certain persons.

Hawaii has largely been pro-civil rights, freedom, and liberties. This would be a different and less "Hawaii" direction, in my opinion.

Thank you.

I am strongly opposed to this proposed resolution!

I also strongly encourage this government to stop misguiding the public that transmission of Covid is reliant on vaccination status.

Written Testimony The constant propaganda to support the agenda at hand of mass vaccination is directly correlated to the misinformation that is leading to this current outbreak.

As a health care professional I see not only the public but even other healthcare providers become slack in the standard safety protocols
Due to a false sense of security because they are vaccinated. Leading to an outbreak at my facility directly related to vaccinated staff abs residents.

This proposal is a violation of our civil rights and needs to be put to rest!

Written Testimony

I strongly oppose this resolution. It is not only a threat to both personal liberty and medical privacy, it is a way to segregate communities. A one size fits all approach with the vaccine is no good approach for the people of your state, let alone the world. Many adverse reactions have been recorded, many people with the vaccine have been passing on the virus, as well as getting sick. Natural Immunity has always been present in situations like this, why are we aiming to impose these regulations in this day and age, being the country that we are? It stands against everything the United States and the American people love and stand for. Just because only vaccinated people can get into restaurants, does not mean this will be a successful way to get the numbers down. Start with limiting the tourism industry, protect the people of your state and dont ignore the people's wishes to do as they see fit with their bodies. It is our birthright to decide what and how we keep ourselves healthy. Lets promote healthy lifestyles, the right vitamins, foods etc. to get people's immune systems strong again. This is not a solution, not even short term. It should be illegal.

I oppose this vaccine mandate. We as sovereign citizens of humanity have the right to medical freedom. Let's focus more on uplifting public health by creating healthy eating and living habits instead of pushing a shot that was formulated for a variant which continues to change and mutate. Let's put our energy and resources into creating real health solutions instead of putting a bandaid on our wounds. A vaccine mandate is not the solution we are looking for and it will not create the change we need in this time. Mahalo for listening. Aloha, always.

Written Testimony

I am strongly opposed to this bill because I believe this mandate is attacking our personal freedoms for a virus that has alternative treatments and a high survival rate. A state-wide mandated vaccine passport would further divide our state. We should not be forced to inject our bodies with a "vaccine" that is not classified as a traditional vaccine and is experimental in the sense that the FDA rushed the approval before the Covid-19 vaccine companies finished any of their clinical trials. Therefore, by enforcing a mandate that would exclude and restrict access for people that choose to be unvaccinated to private industries such as restaurants, gyms, and recreational activities is modern day segregation. I oppose this mandate of vaccine passports because they are not necessary because there is a high survival rate for this virus. What happened to the flu? Did we ever need a vaccine passport for the flu? No. Recently, in our local news, KGMB reported that only 3% of our state's Covid-19 deaths of 589 people were attributed to the virus. The other 97% of the state-wide deaths were classified as death by Covid-19, but they also had underlying causes. In contrast, the Hawaii state average for influenza season is approximately 600 deaths per year. This is not a pandemic. Also recently posted by John Hopkins, the fatality rate of Covid-19 in the United States is 1.7%, which means that 98.3% survive. Of the 1.7% that died, majority of those people also had underlying conditions. The survival rate of this virus is very high, whereas potential long-term effects of this vaccine are unknown. Please do not force these mandatory vaccine passports on us, the people of Hawaii. Please do not continue to segregate our state.

Written Testimony

We as Americans have a right to choose what we feel is right for ourselves and the members of our family we are responsible for. You hear that: we are responsible for! So we will have to deal with the effect of the vaccination and/or COVID-19 which are: the hospital and doctor bills, reactions to either one, or maybe even death of a loved one! We are responsible for keeping our families safe and healthy. You the government will not have to deal with that! So it should be my choice not yours. I choose to keep my family home during these crazy times, I chose to make sure my family take precautions to try to keep safe and COVID free because once again I am responsible for them and my self!

To me this is real suspect that you're pushing these vaccines and the flu kills just as many lives if not more, every flu season and that vaccine is not pushed at all!!! Something is wrong here and it is wrong for our government to put their people in harmful conditions! This vaccine haven't even gone through it's trial run yet and/or fully analyzed yet, but you want to inject it in individuals and have no idea how it will affect them. That is wrong, that should be against law! I'm not harming my children! This has been forced prematurely and it's hurting a lot of people and changing peoples lives... There is no guarantee either way vaccinated or not vaccinated, the virus still thrives.

I am aware of how hard it is and how crazy it is for the hospitals and medical staff, I understand how overwhelmed they are, but that still does not mean you can choose for me! It is unfortunate that this virus has taken over the world, but that still does not mean you choose for me. May God continue provide our doctors, nurses, EMTs, Firefighters, Police officers, and hospital staff the strength to continue in there line of work and do their jobs the best way they know how. And must of all May God have mercy on us all, and heal this world!

Your position on the matter Oppose
Representing Self
Organization

I strongly oppose vaccine passports.

It is unlawful, unconstitutional, unnecessary, segregating, communistic, and discriminates against natural immunity, religious beliefs, medical privacy, freedom, liberty, and our civil rights.

Covid vaccines have never been proven to be safe nor effective, in fact, the only proof is of vaccine adverse reactions causing permanent injury and death as listed on the VAERS website which is grossly unreported. Each week it increases, and the true numbers are being suppressed and censored. In fact, there are more deaths from Covid-19 vaccines in 8 months than there were from 70+ FDA approved vaccines in the past 30 years put together!

Written
Testimony

There is NO liability for these EUA experimental vaccines. So who will be held liable for all the injuries and deaths due to this vaccine passport?

Where is the informed consent with the ingredients listed and scientific data of risks?

I've been following this said pandemic and educating people about Covid-19 Virus and the vaccine dangers since the beginning. The evidence is overwhelming from thousand of Doctors and Scientists. In fact, when the former VP of Pfizer and the inventor of the mRNA technology warns against the vaccine people listen. If you actually saw it you would know there is no need for any of the mandates or vaccine passports whatsoever.

If there truly was a pandemic, there would be proof from autopsies and there would be no need to force, coerce and threaten people to get the said untested vaccine, from a virus that has never been isolated determined by a PCR test that is unreliable and can't tell the difference between flu viruses. Where is all the proof to even bring a vaccine passport to the

table?

Covid virus is treatable and preventable NATURALLY, and every person has the right to choose how they approach their health medically and what goes in their bodies.

There is 99.95% survival rate from the Covid-19 viral infection and near ZERO risk of death for people under 18 making vaccines completely unnecessary in the first place.

Vaccine passports are morally dubious for many reasons, not the least of which is that freedom of movement is a basic human right. However, vaccine passports become even more senseless in light of the new findings out of Israel and revelations from the CDC, some say.

Harvard Medical School professor Martin Kulldorff said research showing that natural immunity offers exponentially more protection than vaccines means vaccine passports are both unscientific and discriminatory, since they disproportionately affect working class individuals.

“Prior COVID disease (many working class) provides better immunity than vaccines (many professionals), so vaccine mandates are not only scientific nonsense, they are also discriminatory and unethical,” Kulldorff, a biostatistician and epidemiologist, observed on Twitter.

Natural immunity IS the only true immunity.

Nothing can stop a virus anyway except ones own immune system. In my field in Natural Health and Healing we use no Pharmaceutical medicine and are preventing and recovering from illness and disease naturally with nutritional support and healthy lifestyle choices.

There is NO need for a vaccine that does nothing to prevent or stop the virus from infecting people, so making a vaccine passport is clearly another way to mandate and coerce uninformed people.

Not to mention our Civil Rights to medical privacy, religious beliefs, and philosophical beliefs and the segregation it will cause.

Written Testimony

A health card will not stop the spread of the virus. A vax person can still spread the virus! Testing and masking of EVERYONE who wants to come into close with each other in closed spaces for over 15 minutes is the only way to address the spread. Whether vax or no vax, everyone can still spread it to each other, even vax to vax! A card will not prevent the spread. An accurate test will! Spend the time and money on getting a better test that is quicker and let people have access to the treatments that have already been tested and proven to work to treat NOT cure, but TREAT so people can avoid going to the hospital! It addresses the burdens on the hospitals, and addresses the spread. Stop trampling on our freedoms and focus on addressing the spread and guaranteeing treatment! Finally, if a council member refuses to meet with their own constituents because they are not vaxed is an outright discrimination on the citizens you represent and who trusted you to do the right thing, not trample on their freedoms that men and women of this country fought and died for!

Organization

Written Testimony No one should be forced to get a shot that is causing an alarming # of deaths and injuries. The CDC VAERS is reporting 13,000 deaths & 500,000 injuries/adverse events. Also rising # of break-thru Covid cases among vaccinated, not among those with natural immunity. Instead of mandates, advocate nutrition, exercise & immune-boosting supplements: Vitamin C, D3, zinc and quercetin. There are safe, effective preventatives & early treatments available for Covid...!!
Instill Trust, Restore Aloha, Maintain Freedom!!!

Written Testimony I oppose of the vaccine passport/mandate because as US citizens we have the freedom to choose what we put in our bodies. I do not believe in forcing humanity to take something against their personal and religious belief. Title 7 of the civil rights act of 1964 which honors religious exemption.

Testimony Attachment I strongly oppose this decision that the City Council wants to pass.

Written Testimony

I would like to ask the question, "what are we really accomplishing here?" Based on the list of events that began on March 4, 2020 up to the latest event on Aug. 26, 2021, Resolution 21-194 was introduced to utilize a health card. It states that this health card will be a resolve because it will allow higher risk establishments to be able to use a digital health card system, to "include" employees to be "physically" present at these establishments, for unvaccinated people to be able to show evidence that they are exempt, and to be able to use a portion of the \$193 million from the American Rescue Plan Act... for implementation of a health card. Is a digital health card the wisest solution to resolve the Whereas events, continuation of establishments to operate, employees to show up to work, to utilize a portion of the \$193 million, or to minimize the spread of covid-19 and other variants? "What are we really accomplishing here?" is what I would like to challenge the council. We all agree that there is a state of urgency to react, but please do not act without wise counsel. Covid-19 and other known and unknown variants are currently outside the scope of human understanding. So let's not deal with it impulsively. Instead, with a sound mind. Go to who is higher than human wisdom. Don't be afraid to ask God for wisdom, He freely gives to those who ask. Covid-19 is not going to have an answer, nor will a health card be a resolve. Will a health card be the best way to use a portion of the \$193 million? Are there other ways to access the Recovery Fund that will benefit all people of the State of Hawaii, who works at these establishments to make a living here in this high costing state? Let's not witness a continuation of division, segregation, and oppression. Let's witness leadership who thinks, seeks wisdom, acts with a sound mind, and who uses their leadership to bring success, good health, opportunity, choices, solution, and most importantly embodies ALOHA. This urgency shouldn't allow decisions to create forced anything. Rather, come together to discuss, brainstorm, and come up with solutions that will build our communities, our islands, and our state for sustainability. I oppose to Resolution 21-194 for a health card because I believe it's not the wisest choice for any of its said reasons.

Written Testimony

Thank you for the opportunity to submit written testimony in OPOSITION to RESOLUTION 21-194.

As a resident of the State of Hawai'i, it is my strong position that a digital vaccine passport is a violation my constitutional rights and freedoms.

Electing to take a Covid vaccination or not should be protected as a personal, autonomous, healthcare decision, which every individual citizen of the State of Hawai'i should have the freedom and right to choose.

I believe that the implementation of a vaccine passport creates undue division in our communities between those who choose not to be vaccinated and those who do. A vaccine passport incentivizes, coerces, and manipulates the public into taking the vaccine by restricting individual access to public and private business establishments and negatively penalizes individuals who have elected not to take the vaccine.

Therefore, for these reasons I strongly appose RESOLUTION 21-194. Thank you.

Written Testimony Do NOT create discrimination in Hawai'i aka Vaccine Passports!! NO one should be forced or coerced into receiving these dangerous experimental products. There are NO long term studies on the health effects of this RNA technology but already over 13,000 have died and over 600,000 serious injuries from the shots. This is insane that this is even being used at all let alone pushed on people. Bodily autonomy is the most basic right! Stop forcing these injections ! They are also creating the mutant variants making the covid worse!

Has the government forgotten what it means to be American? To be one nation under God. The government by the people for the people. Mandatory vaccines to enter into certain establishments is imposing on our right as Americans to be free. Freedom is what sets our country apart from any other in the world, and the men and women who have fought so hard to keep America standing are being faced with this decision. When it comes to a persons health, beliefs, and morals, the government has no power to force something like a experimental vaccine onto them. For those who still believe in our rights and freedoms as Americans, oppose this Resolution.

Written Testimony

This is a total infraction on our privacy and freedom. Do I have the right to ask if my waiter went through an Hepatitis A, or B test to serve my food? The answer is NO. Do I have the right to ask if the service person I am using ever was diagnosed with HIV? The answer is NO. You are discriminating against people who did not receive an experimental drug shot with undetermined health benefits and can cause adverse effects. Many people do not need it, such as the ones with natural immunity. The ones who caught Covid-19 and recovered have much better immunity than the shot give them, plus why would you want to reintroduce the virus dead cells in someone who has gone through the recovery process anyway. Many doctors and scientists know that is insanity. People who are under cancer treatment are at huge risks taking the shot. Christian who believe this is the beginning of introduction for the future mark of the beast may seem to you as a poor excuse, but freedom of religion is still allowed in this country governed mostly by atheists. I could go on with more reasons. Our body is our temple and government cannot violate that God given right. Needing a health passport to wonder around your own community is like the Nazis marking Jews during WWII. It is shameful to say the least and purely politically driven. Only Democratic States are going in that direction. This all idea has very little to do with health but a lot to do with political agenda. Stop it now.

I am opposed to this resolution as it borderlines on being discriminatory to certain individuals and groups. Having a digital health card will not prevent the spread of COVI-19. Studies and/or cases have shown that anyone, whether they are vaccinated or unvaccinated, are still carriers of COVID-19, so just saying that you are vaccinated does not prevent spread. People with the vaccine can still test positive for COVID and be asymptomatic, which is more of a public risk because they will show no symptoms and still spread it. What happens if the vaccinated infect the vaccinated under this resolution? Having a health card to enter places will not stop and/or eliminate a virus that will continue to evolve.

Written Testimony I vehemently oppose this resolution. As it is a direct violation of our constitutional, and god given rights to travel freely and unimpeded. This is an outrage, and a direct violation of the Nuremberg code, and well as the Geneva convention. Considering the lack of disclosure around this whole event. To my knowledge there are many alternate procedures to this unlawful approach

Aloha and mahalo for you attention
Andrew

P.S.

Written Testimony

"COVID Health Cards" do not take into account natural immunity after infection and recovery. Nobody can scientifically say with certainty that vaccine induced immunity to SARS-CoV-2 is better than natural immunity. Why would someone need a vaccine after recovering from an infection? It simply does not make sense. Antibody testing needs to be taken into account. This entire pandemic has skipped the antibody testing portion. During my time at the Hawaii Department of Health, State Laboratory Division, Biological Response Section I saw who was responsible for getting antibody testing off the ground and they simply dragged their feet and sat at their desk and argued with people on Facebook all day instead. Absolutely outrageous. Meanwhile my group was responsible for testing thousands and thousands of positive COVID samples. I was like all of you at one point in time - afraid of COVID - initially before we knew what it really was. I have encountered COVID, I have been exposed. I no longer live in fear of a virus with a 99% survival rate with very well characterized risk factors for severe disease and death. Isn't that what we are all trying to prevent? Severe disease and death? The idea that you are going to "stop COVID" is impossible at this point. 100% vaccination rates still don't prevent all the breakthrough cases from new variants, and this RNA genome virus evolves faster than we can make safe and effective vaccines for. WE need to focus on treatment of the disease with FDA approved therapeutics - Ivermectin and vitamin cocktails. Go ahead and look up the studies yourself, you politicians work for me the scientist after all, remember?

Many healthy people have been infected and recovered and now have natural immunity. Why are you punishing and discriminating against them? This is all a complete HIPAA violation and it will not hold up in court when it is challenged. Be on the right side of history for this one. This has all been one big social experiment and it has gone way too far. I don't know who is lining your pockets but its time to find your moral compass and do the right thing for

the people. We will no longer sit idly by and let this happen, it is time to stand up for what is right and for the truth.

Case Study:

By the way in 2017 when Hawaii had more Flu deaths than all of 2020 due to COVID, the state didn't declare a perpetual state of emergency due to a public health crisis.... so ask yourself, why are we doing this? I think you all know the answer all too well. People like me can see right through this emergency and know what is going on here.

There are extremely effective treatment protocols for early stage COVID and there is no need for a vaccine. Go ahead and do your own research here is the link

<https://pubmed.ncbi.nlm.nih.gov/>

And by the way this mask mandate clearly has done nothing to stop the spread, and I will tell you why. Aerosols. With an airborne virus like SARS-CoV-2 where the primary route of infection is aerosols the medical masks and cloth masks do nothing to prevent infection. It is a mere mental safety blanket and really hinders your health more than it helps. End the mask mandate as well. Nowhere else in the country besides New York has imposed such harsh restrictions on its citizens and I saw this first hand when I took a 6 week long trip across the mainland US. Life has gone back to normal over there, people can wear a mask and get vaccinated IF THEY CHOOSE TO DO SO. Mandates take away freedoms and this will not age well.

Here is my prediction: in the next 60 days of the Safe Oahu program, the numbers will not go down. They will remain the same, and that is enough for politicians like you to exert more power and control over the people.

P.S.S.

Virology 101 - a "case" does not mean "disease"

I would like to start this out with saying thank you so much for allowing me to speak. I know your time is your most valuable asset and I will not be waisting it.. Now to give you a little background on where I came from to where I am now. I was raised by an ICU RN that is very pharmaceutical minded. I started taking meds in the 1st grade. I use to think that anytime I had a twinge or a whatever, I needed to slap some meds on it and no pro-vaxxer or a person that was raised to take a doctor at their word, takes others personal reasons into account. I being one of them. I use to be a FIRM vaccinate your freaking kids type person and wouldn't consider or even hear others concerns because I didn't believe they could harm people or that medications could harm people. Even with my medicine allergies.

Written
Testimony

Now I know that I was so wrong. My symptoms showed up TWO months after I got the last dose of the HPV vaccine. My reaction included Migraines 2 to 4 times a week... migraines so severe I would have to clock out of work to go lay down or call into work all together, one migraine I had lasted 3 days, so naturally I went into the ER. they gave me IV meds, a migraine shot and Benadryl. This treatment did not even put a dent in it. I developed debilitating anxiety attacks to where I would stop breathing. Those would happen 2 to 4 times a week, I was on around the clock medication for those, I develop stomach ulcers. I developed more ovarian cysts. I would fall asleep at 3 o'clock in the afternoon, I would get tired out of no where to where I wouldn't even be able to drive home from work without needing to pull over on the side of the highway to take a 15 minute nap. The overwhelming fatigue was unreal and one of the worst parts of it all, paired with the migraines. Weight fluctuations, hair loss. Mood swings. Muscle and joint pain (still have fits of this occasionally). Random times of Difficulty breathing. I felt like I was dying. After multiple PCP appointments, pulmonology appointments, neurology appointments, 13 something medications, X-rays, CTs, and MRIs... bloodwork... they found nothing wrong. A FREE FDA approved vaccine cost me THOUSANDS.

•I would like to add a side note for you all to keep in mind. Just because it's FDA approved, doesn't mean anything. They literally only ban 11 or 13 chemicals while countries in Europe ban 1300 ingredients from being allowed in any product. They do not have our best interest at heart.

But after spending literally thousands of dollars, with good insurance on all of the tests and appointments, they found nothing!!!! if you read the side effects in the actual insert.... it lists what I went through for 3.5 years and so much more.

What I went through was excruciating and miserable. I would cry all the time praying to God that that couldn't be the life I live for the rest of my life. I would cry to the neurologist to run more tests because I was a single mom at the time and had no one who could love and take care of my child the way I do and I was so scared I was dying and they weren't catching it because I was a "healthy & fit 24 year old" like they said.

It was a huge wake up call and I almost feel like it was Karma telling me to rethink my thought process on forcing vaccines on others because I was directly impacted by said toxins. So please, I'm begging you, be careful in your stance because I would hate for you to go through even an ounce of what I did, or be the cause of someone to go through anything like that.

Also, I would like to point out that I was still very much a huge get your vaccines person up until about two years ago because I didn't realize what I went through was possibly related to the vaccine until a friend shared a long list of testimonies that were exactly like mine or way worse. She also provided links from medical professionals and their research. I was sitting on the couch reading through it all and I remember sitting up and looking at my husband with tears running down my face like WTFRIK this is everything I went through. This is what was wrong with me.

I am still not fully anti-vaxx even with that happening to me but I am pro-informed consent and pro-choice because what we are told is normal reactions. They are not. Any change to your body after a vaccine is not normal and we HAVE to change our thought process when talking about it. Both my children have had severe reactions to their vaccines as well. My son, turns fire red and his whole body feels like it's on fire for days after every single one of his vaccinations. My daughter, screams uncontrollably for days after every single one of hers. Though all the reading of research, I've found out that... no. These are not "normal" like doctors say they are. There is nothing normal about my sons body reacting that way. There is nothing normal about my daughter screaming uncontrollably. Which I found out the reason why she does that is because her brain is swelling from the chemicals that have been injected into her body.

We are not a small percentage or a minority. There are hundreds, thousands, and millions of us that do not want to be apart of this trial, which is still going on until 2027 according to the FDA. We are not a small percentage of people that have had adverse reactions/injuries to vaccines. I have had 3 people that I've known for years say to me, they had no idea that I had a reaction to one.. for goodness sake, I didn't know that I had had a reaction to one until 5 years AFTER the fact.

So far over 500k+ people have reported their reactions to the COVID vaccine 12k have reported death and its estimated that only 1% of people ever report their reactions to their provider. Some of the people I know that were down for three or more days after their

COVID vaccine DID NOT report their reactions... further proving that point.

No matter which side of the field you stand on you will always be able to find reason as to why you're right and I will always be able to find reasons as to why I'm right. Now, wall of this is said in love in hopes that you would open your mind and have compassion in understanding that vaccines are not one size fits all. before forcing known chemicals on someone, please take all perspectives into account because would you honestly wish all of that on me again? Would you wish to take the fun, energetic, 31yo, zero medicine taking mom that I am now and give my kids the mom above? I haven't spent the last 5 years of my life reading every. single. ingredient. label and being extremely selective of what goes in my body for my God given right to choose to be stripped away from me just so I can go grocery shopping to keep my children alive or to be able to fly so we can go see our family. My husband isn't currently fighting for our freedom so that our own country can strip our freedom from us. With all of that said. I STRONGLY oppose RESOLUTION 21-194 and vaccine passports of any kind as they are inhumane and do not support our American freedom that so many have died for.

A possible solution would be to require every single traveler coming to Hawaii regardless of vaccination status to have a negative Covid test. That seemed to work last year. Our numbers only started going up when we stopped requiring vaccinated people to test. The CDC even stated that vaccinated people can carry and spread the virus. So the common sense tells me we need to be testing vaccinated individuals for the virus as well.

Again, thank you for your time.

Written Testimony

I am writing to oppose proposed Resolution 21-194. There is overwhelming data that expresses the negative impact health cards/vaccination passports would have economically, and more importantly evidence that there have been many questionable calls being made for the general population to follow that has caused irreparable damage. However, I am writing to consider what it is doing to people just by focusing on an everyday interaction level. Just one example is the fact that I see families, including mine, being ripped apart because of all the uncertainty and fear that has been pushed upon us. I want to share one short story of what I am experiencing personally. I have a great-aunt that has become senile in recent years and my aunt has gone to live-in with her as a means of homecare. I am very appreciative that I have an aunt and uncle that would move-in with her to make sure she has someone to watch & care for her 24-7. I am also very close to my great-aunt and would get to visit and chat with her on a regular basis. With the constant push of uncertainty and fear through the news and mandates, she is now confined to the inside of her own home and I am not allowed to visit her because my aunt is "following the rules". Any day could be my great-aunt's last day on God's green Earth and I am "not allowed" to see her unless I am vaccinated. This breaks my heart. I literally stay in my house all day most days & in the event that I do leave home, I follow all other guidelines & regulations the state has put out thus far. There is a state of segregation that has emerged of "vaccinated vs unvaccinated". It has consumed people & I believe implementing a health card check will only worsen the mental and emotional state of people. It will tear people apart when, at a time like this, people should be supporting each other more than ever. Businesses, jobs, relationships -- people's lives have been more negatively impacted by the reaction to this virus than the virus itself. My plea is to not make things worse than they have already become. The quality of living has been severely downgraded. People are no longer living -- just trying to stay alive. What kind of existence is that?

Written Testimony (Fixing what my auto correct changed at the end...) Even if you're comfortable with the short timeframe of the virus and the vaccines, and you have no religious opposition to the vaccine, some people's natural immunity is going to serve them far better than a vaccine, and you still must acknowledge there are people who have medical reasons that prevent them from being able to get the vaccine. <> These two principles are fundamental in a free and thriving society.

Written Testimony A health information on a patient intake form in a health facility is protected by HIPAA, but when the same information gets recorded in a restaurant or a gym app, there's no strict regulations on protecting those information against improper use. Digital health passport carries a great privacy risks, which can lead to more problems in the community.

I oppose the mandate on COVID vaccine. The vaccine not prevent you from getting and or spreading Covid-19. Thus you are not protecting your community by getting it, it only protects yourself from the symptoms. Therefore if it only protects ones self it should be that person's personal choice to weight the risk of getting Covid-19 a highly recoverable virus versus being injected with a unknown substance with the risk of having a blood clot or unknown long term effects. Having the state 100% vaccinated is not going to stop the spread of Covid-19 so why force Americans against their will to take a vaccine. You can also argue that the reason there are some many cases in Hawaii right now is because the State is not requiring vaccinated individuals to test before flying here. Our cases where the lowest in the nation for months until we stopped mandating test for the vaccinated and now look at the situation we are in. I am all for keeping my country and community safe but because the vaccine does not stop me from getting or spreading the virus I don't see the point in forcing people to take it, it feels very wrong, Unjust, even UnAmerican. Mahalo for you time reading this.

Vaccination mandates set a precedent for a future I wish no child to inherit. This kind of segregation tool and system will lead to more discrimination, violence, and intolerance in our society. I believe in a way forward where we respect the choices of each individual and we do not exclude them from the community for such choices.

There are so many nuanced reasons why a person may choose not to get a vaccine and to deny such people the right to exist on equal ground with the rest of society is a low form of consciousness. This kind of discrimination is no better than racism, sexism, and hate toward other people for who they are.

The people of Hawaii should remain free to choose what is right for their bodies, their families, and their health.

I stand against mandating the covid vaccine and I do not consent to such invasive, divisive, and corrupt systems.

Please listen to the people and oppose this.

In Jacobson v. Massachusetts in 1905, the Supreme Court authorized States to compulsorily vaccinate it's residents.

Smallpox, with only human reservoirs, was eradicated since no insect or animal reservoirs were identified. On the other hand, all strains and variants of COVID have animal reservoirs which means there is NO "eradication" — only mutating variants that will continue to exist as long as vaccines are created for COVID.

What does this mean? It means that Jacobson v. Massachusetts decision is invalid in the 2021 Courts systems. It is not applicable to COVID as the vaccine treatment of human reservoirs v. animal reservoirs are tremendously different; therefore, Jacobson v. Massachusetts nullified.*

The natural immune protection that develops after a SARS-CoV-2 infection offers considerably more of a shield against the Delta variant of the pandemic coronavirus than two doses of the Pfizer-BioNTech vaccine, according to a large Israeli study that some scientists wish came with a 'Don't try this at home' label," the Scientific American reported Thursday. "The newly released data show people who once had a SARS-CoV-2 infection were much less likely than vaccinated people to get Delta, develop symptoms from it, or become hospitalized with serious COVID-19."

Put another way, vaccinated individuals were 27 times more likely to get a symptomatic COVID infection than those with natural immunity from COVID.

So a 2 tier health pass system makes no sense as it is no guarantee of providing additional protection!

I Lokelani Harshner fully oppose this. I am more than happy to continue wearing masks, social distance and take the usual procedures necessary to keep our community safe but I refuse to put some shot in my body that has only existed for one year. This mandate goes against my rights as a human being and I fear for my family and friends who also disagree with this. I believed in certain shots like the polio shots and other mandatory ones the we get as children but they have had extensive testing to make sure that there's a minimal amount of side effects and that process has been completely disregarded and it is sickening. I hope that our island bands together and thinks about our overall well being rather than our selfish desires.

Vaccination passport takes away our freedom and instills segregation and discrimination in America. We lost a son to cardiac arrest two days after the second Pfizer shot. (Rare side affect of Pfizer vac is heart failure) We lost close family and friends to COVID while fully vaccinated Pfizer and J&J. In my opinion these passports give a false sense of immunity and a sense of entitlement to the vaccinated over the unvaccinated.

I agree with wearing mask indoors irregardless of vaccination status.

*Disregard my previous written testimony. Error...shouldve said two days after second shot of Pfizer not 40 days.)

Shayna K.M. Toafe

45-265 William Henry Rd Apt F- 16

Kaneohe, HI 96744

I am a concerned citizen who is extremely concerned because of what has happened over the last year in a half in the State of Hawai'i. I don't agree with what Gov. Ige, Lt. Gov Green, & Mayor Blangiardi has drafted together for everyone in our state to follow & comply. Their Leadership has brought extreme heartache and chaos to all of us in this world regardless if we are vaccinated or not vaccinated. These decisions that they have been made has created a huge division upon families who have been vaccinated against the ones who aren't vaccinated. There is a lot of sadness, frustration, & can cause any individual to be very depressed because of these mandates that are being placed that we are all battling right now. These decisions that are being forced upon us shouldn't be forced as this isn't right and there is no law that state these mandates are true and that the mandates have to be followed!

We all have a freedom of choice to decide if we should want too or even agree to have an experimental drug be placed in our bodies. I believe that each and every one of us work different. We have different perspectives and our bodies react differently. With that being said no one should have to be forced or make a decision so soon or if they choose not to agree that were not even a 100% protected by this "Covid" shot. Our health for one isn't protected at all by an experimental vaccine and there is no legal document to say who will be taking care of our children should we die. People who have been vaccinated, have had medical problems that transpired when they have had no known medical problems before such as heart problems and blood clots. People have died from this Covid shot. Being vaccinated or not vaccinated we are all still able to catch this common cold the virus that is now said to be called "Covid" instead of the "flu".

I don't agree or understand why all these mandates have been placed if both the vaccinated and the unvaccinated are all still affected by Covid19. None of this makes any sense as there is no logic behind it. Vaccinated people don't have guidelines to follow, but yet all those who are unvaccinated have all these rules & regulations to follow and comply with ie. Covid tests. Which is not equitable for all people. I find myself now living in a tyrannical world when we should all be living in an enlightened society that bases its laws on our constitutional rights. I stand for "freedom of choice". Please vote down these terrible Resolutions R 21-193 & R 21-194.

In europe they are using antibody tests of those who had covid as an option to just getting the vaccine. Why are we ignoring this option. Italy does it. Why cant we? This is a medical decision that should be between the individual and their doctors. Every medicine has risks associated with it. We are still collecting data an analysizing adverse reactions. Yes blood clots and other adverse reactions might be rare but the cdc is still asking us to upload our experiences so they can figure out possible short and long term effects. Please reconsider this mandate.

Written Testimony I oppose a vaccine passport and vaccine mandates. Each individual person's health is different, and should be discussed with one's own doctor. Requiring vaccines for all removes individual liberty over one's personal health choices. Requiring a vaccine passport is discriminatory and should be struck down based on legal terms.

Written Testimony I'm highly opposed to the use of city funds to help institute a Digital Health Card program. Use of Honolulu businesses should not be contingent on personal health status of a consumer. Identifying individuals that are vaccinated or not, but not identifying individuals with Hep A, Hep B, Hep C, AIDS or HIV or STDs, all similarly contagious diseases is discrimination and punishing local businesses. I believe Resolution 21-194 is government overreach and I am OPPOSED.

I know we are all afraid, but the solution is not taking away freedom of choice of what we put in our bodies. We must preserve and continue to work towards a society that perpetuates critical thinking and freedom of choice. We must make choices that are not driven with fear. We must take measure to protect by taking good control, that is to preserve personal freedom as much as possible and not create more division among us, because that just makes things worse. We must unite in respect of different needs, wants, circumstances, and opinions whenever possible. I believe it is possible in this case to keep taking safety measures without making a vaccine mandate. There is so much we don't know about the pandemic and we must come to terms with that. Do not let fear of death, misinformation, and greed rule.

Myself and my family oppose the proposed vaccine passports! This will take away our amendment rights, medical freedoms, further hurt the economy in Hawaii. Close business that have complied and done all that they've needed to do to stay in business until now this would be the final straw that broke the camels back for a lot of businesses. This is not how to flatten the curve!! start testing everyone who enters Hawaii again including the vaccinated, they can be infected with covid and are just as contagious as a unvaccinated person. With no rules and a piece of paper...think back a couple of months ago when the daily case on Oahu was under 50 cases per day, Then vaccine passports were implemented free entry no testing for the vaccinated and all the sudden the numbers have skyrocketed. Also the CDC is not reporting the vaccinated breakthrough cases for almost 4 months. That's why it seems like it is a pandemic of the unvaccinated do your research the CDC says it right there on the website that they are not counting breakthrough infections of the vaccinated yet they are allowed freedom to roam around and come into Hawaii and spread infection to residents. vaccine passports to enter the movies a restaurant a gym etc. it is not going to change a thing other than hurt all the businesses and hurt the people of Hawaii & America. You are proposing to take away something that our country was built on by the forefathers. I do not support discrimination of any kind. Treat everyone the same with care, love and respect.

Written
Testimony All of the "vaccines" available are experimental and for emergency use only and should not be mandated. The FDA "approved" vaccine is not available. Currently some of the most "vaccinated" countries are experiencing rapid growth in cases and hospitalizations. COVID fatality is less than the flu and the total number of deaths in 2020 compared to 2019 do not indicate any pandemic. The virus will mutate again the vaccine may alter our body to be less effective in fighting any new variant.

I whole oppose this vaccine mandate and it's totalitarian implications. My grandparents did not escape Poland during WWII only to watch their great-grandson be placed under the same type of discrimination, persecution, and ultimately his isolation from normal society. They believed in what this country stood for-freedom from persecution, whether that be religious or medical. This vaccine passport is the modern day equivalent to "show me your papers". Will you make my son wear a medical version of the "Jew Star" on his arm that his great grandparents were required to?

The fact that there are persons in power willing to further damage our economy and rights to medical freedom of choice over a vaccination that is not guaranteed protection from this virus is absolutely ridiculous. To try to mandate such a thing on our islands is an absolute disgrace to everything that Queen Lili'uokalani stood for and the freedoms she wanted her people to have. How dare these politicians blatantly disrespect our knowledge and rights as Americans by denying access to basic needs through tyrannical methods such as having a vaccine card or being forced to test in order to enter these establishments. We are not foolish. We will not falter. We will be heard. WE THE PEOPLE.

Written Testimony

I, David Martin STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Aloha, I am a custodian at King Kamehameha 3 Elementary School and I do not feel comfortable with this mandate I don't want to be used as a phase 1,2,3. A phase 1,2 trias "Humans" can not being until the vaccine are tested After testing with 1,2 than Phase 3 begin with Large group if "Humans" to me it's Generally Modified Organisms " POPULATION CONTROL FOR GOVERNMENT GAIN. IT'S NOT EVEN FULLY APPROVE IT'S ONLY EMERGENCY APPROVED SO WHY IS IT A MANDATE IF IT'S NOT GUARANTEED SAFE? Cheryl Ann

PLEASE please hear us out. Please allow America's citizens and hawaii residents to have freedom of CHOICE over our bodies. If we take away free reign over our medical decisions we are heading into a tragic direction for our country. We are based off of freedom and our rights. Vaccines vs unvaccinated have the same rate of spreading the virus. Not just those who do not have the vaccines. I personally know over 10 people who have gotten incredibly sick and spread it to multiple people and are fully vaccinated. Please please from the bottom of my heart. Do not do this

Written Testimony I strongly oppose to health cards or vax pass.
It will prevent healthy people from participating in society, affecting the economy hugely.
Business will die because whoever is not getting the shot, will not get the shot anyways! and they will figure out ways to live without these luxuries.
This is going to affect tourism hugely! therefore affect the livelihood of the majority of people who sustain themselves from tourism.
Vaccinated people does not mean healthy people. Someone can be vaccinated and be sick.

Testimony Attachment Health cards or vax pass are discriminatory and violate the constitution. Stop the fear and educate people on how to remain healthy sustainably. The shot does not create healthy individuals, does not prevent anything. NO VAX PASS OR HEALTH PASS!!!! It makes no sense. Stop destroying the economy and the livelihoods of the people of Hawaii!

No Vaccine Passport mandates. Against constitutional, civil, human and health rights.

Written
Testimony

Government officials are required to hear testimonies from medical, health experts from both perspectives, not just from DOH, CDC, FDA and other mainstream institutions. There are effective therapeutics that are being censored due to tyrannical control. Please stop and listen, before moving on to more mandates!

What you have said 1.5 years ago has not happened! People who have strong immune systems recover. Look at statistics. People who have had covid have a better immune system. Previous COVID-19 Infection Protects Against Delta Variant Better Than Pfizer Vaccine is attached. Already Israel has discovered that the vaccines are not working yet you ignore that along with natural immunity for those of us who have already had covid.

How can you DISCRIMINATE against some businesses and not all. I have had friends (4 companies on Oahu-not counting the employees who lost their jobs) who have lost their livelihood due to YOU shutting down the state. This is wrong! Your job is to protect the freedom we are given. How has the government helped build and encourage people to build their immunity? Thousands have died from the vaccines and in the past the FDA has discontinued vaccines when under 100 people have died from them. Will you stop the sale of cigarettes,"If current rates continue, 5.6 million Americans younger than 18 years of age who are alive today are projected to die prematurely from smoking-related disease"-
<https://www.hhs.gov/surgeongeneral/reports-and-publications/tobacco/consequences-smoking-factsheet/index.html> . Yet this is not a concern to you. Alcohol-go back to prohibition? Are you trying to CONTROL us by not letting us live freely by attending events, shopping, eating out? OR let us choose when we do not feel safe to stay home during a hurricane or if not feeling well.

My body, my choice

This creates undo burdens on small business owners to have to police fellow citizens. It also violates the rights of individuals to keep their personal health issues private. This resolution would inhibit personal freedoms for citizens to go and do as they please. Government has no right to restrict the movement of healthy people. Govenrment needs to step back and allow the economy to run and citizens to go about their business with no outside interference.

Written Testimony

As a nurse and contributing citizen to the state of Hawaii, I stand in opposition to Safe Access and vaccine Mandates. I believe that placing mandates on businesses who are already struggling to recoup their losses from the economic typhoon- COVID19, by limiting patrons to enter their establishment will be detrimental. From a medical standpoint, requiring a negative COVID test within 48 hrs prior to entering an establishment is discriminative against those members of the community who are recovered from COVID and per state guidelines, as well as the CDC and their medical providers, are no longer contagious if they have quarantined for 14 days and are no longer symptomatic as PCR tests may continue to show a positive result, even when a person is no longer contagious. Mayor Blangiardi has mentioned that he does not want to do another lockdown as it poses risks to our economy. However, mandating vaccines where hundreds of people will lose their jobs or be forced to go on Quest or be forced to lose their homes or suffer food scarcity which brings about other socioeconomic determinants of health are even more deadly than this virus. Please rethink this through it's entirety and do what is right for the people of Hawaii.

I strongly oppose the vaccine passport as it inhibits my ability to participate in society. As a firefighter, from the beginning of the pandemic we have done our due diligence to protect ourselves and our community. Why are we being punished for not taking an experimental drug when there are clearly treatments that work. If the hospitals were actually treating patients with monoclonal antibodies, ivermectin, and other known treatments that are being used globally our hospitals wouldn't be at its capacity. There's something bigger at work here and we can all see it. There's no reason we should be in a vaccine passport or mandated vaccine community. As a Native Hawaiian this is against international law and this administration is making a big mistake. Think of the humanitarian view, what it will do to the minds of the community. The rift you will cause and the segregation that will be felt for generations to come. You know what you're doing and it's unacceptable.

Written Testimony

I am adamantly opposed to this bill. We have constitutional human rights to move about freely and buy and sell goods or other services. Creating a two class society of discrimination is reminiscent of the National Socialist (Nazi) party in 1940s Germany. They started by making the Jews wear gold stars so everyone knew and could discriminate. By allowing the government to do this the citizens of Germany got one step closer to allowing the government to shovel Jews into the gas chambers. One might say the government is creating this unconscionable vaccine passport for public health but that argument is totally disproven. When clinical trials of these experimental vaccines have shown that it does not prevent transmission, how exactly does barring the unvaccinated from entering establishments help in fighting this disease? This has never been explained... This creates a hole in the lie that anyone has some sort of social responsibility to take the shot. If you really want to improve the numbers, stop allowing the vaccinated to bypass the required testing at the airport. They are the carriers of the virus. I've seen the statistic that ~66% of new COVID cases in Hawai'i are among the vaccinated whilst only ~61% have taken both shots. Let's get real. And let's stop inflating the numbers. The number of COVID cases need to be reported as the real number, not multiplied by an estimated number of people per household. How is that statistically sound? How is that scientific? How is that ethical? I know politicians generally love power, no matter the cost, but let's ask ourself, is it worth turning Hawai'i into a fascist state?

Aloha Council Members,
I oppose the Council's appeal to the state to implement a two tiered system of treatment for our citizens.
Both vaccinated and unvaccinated individuals can contract and spread COVID-19. That means only exclusion and division will if this proposal is implemented.
This proposal will further divided our communities, harm local businesses, and the families that rely on them for their way of life.

Written
Testimony Mandating a digital vaccine passport is an infringement on my personal autonomy. Every aspect of the injection is an affront to my moral convictions including its development and distribution. The development included testing on fetal cell lines. The distribution utilized coercive measures such as social pressure and incentives. Additionally, the injections have been proven ineffective in the short-term and may even be harmful in the long-term. Please don't mandate something which is useless at best, possibly harmful, and thoroughly unethical.

I feel that mandatory digital vaccine passports to restrict individual access to employment, businesses, venues, and public accommodations is an infringement on basic human rights and it doesn't make any sense based on scientific research.

Also as confirmed by the CDC, Covid Vaccines do not prevent infection or transmission of the virus.

Written Testimony

I feel that I had an adverse reaction to the first Moderna shot that I took. I had a mysterious heart attack after I just had a clear bill of health including an EKG and sonogram.

Based on writings in scientific journals and real word data throughout the world, I believe that there are long term affects that have not been presented enough to the general public. I know of many people who have had adverse effects after the shots, but it is just being passed off as coincidences.

There are so many complex issues and justified reasons why people don't take the Covid shots, and that's why I oppose this resolution for its total infringement on my rights.

Aloha! Thank you for considering my testimony. First of all I am a little disheartened that, with a subject so invasive and sensitive, this meeting for public testimony wasn't more accessible to the public. We have to find out from watch dogs the morning of/night before. I would've liked to provide my verbal testimony but either this meeting has passed (meaning the watch dogs who are protecting our interests are too late) or the time for the meeting is set up wrong on webex. I am praying that this testimony is still valid and up for consideration.

I STRONGLY oppose this resolution. I know you'll hear this a lot, but I am not anti-vax. I have been fully vaccinated as a child all the way up until I was 13 and made my own choice to get the gardasil vaccine. I've had maybe a couple flu shots since then. But into my 20s I've found them irrelevant because I trust my body/immune system and my intuition.

Written Testimony

To start, we simply do not know enough about the long term risks and ramifications of the vaccines. Just because one has been fda approved, does not make it safe because we lack LONG TERM DATA on long term safety and efficacy. We are constantly learning every day about breakthrough cases. We are even seeing headlines like "science can't keep up with virus,creating worry for vaccinated" and new UCSF study: vaccine-resistant viruses are driving breakthrough covid infections." Even the CDC director is on video assaying "Israel have demonstrated a worsening of infections among vaccinated people." Please let that sink in! So what once was a 2 shot process or even with the j&j one and done is now turning into an every-6-month booster with no data about the long term safety and efficacy of these boosters. Meanwhile, the virus continues to evolve and the last jab is not effective in dealing with the new strain and so on and so forth.

With vaccine mandates you are literally telling people to choose against their own divine right to sovereignty and autonomy. You are telling them to choose unknown potential accute and long term risks OR not being able to support themselves and their families. THIS IS

HEWA on so many levels. This is a breach on medical privacy and is a slippery slope into the decades long “my body my choice” debate.

the bottom line is this is rushed “science.” Governments have long sided with corporations and this has had a detrimental and generational affect on public health. I’m talking DDT, tobacco, glyphosate. All things that took us decades to learn about. I am begging you to please stand on the right side of history. Please protect our right to choose what we put into our bodies.

Mahalo

Written Testimony Segregation via the form of vaccine passports will not stop the spread of COVID as proposed with this resolution. We are all aware that vaccine does not stop the spread, but rather lessens the symptoms. To deny one entry based on vaccination status will only create further division and conflict in our society. We need to seek out other options to stop the spread

I've been operating my business during this entire pandemic as well as following all the safety guidelines put in place and I have been a covid-free establishment.
I've shopped at the malls, big box stores and I finally went to see a movie in the theater...and no covid.

Written Testimony I do think the hospitals need to step it up and realize that covid is here to stay. If they continue to do business as usual pre-covid, we will always have a shortage of beds, ICU, etc.

Thank you for taking the time to read my testimony.

Written Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidity with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization (which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debilitated and suffering. It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the RIGHT thing for the people of Hawaii , and vote NO to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for taking this heart felt testimony into consideration.

The dichotomy that results from this bill creates a caste system. Those who are vaccinated and those who are not. All people should have the liberty to decide their own medical decisions without being severely penalized for their decision.

What this resolution essentially does is lock people out of society. The precedent being set here has long-term repercussions, which is unrelenting government over-reach. Why aren't we focusing on anti-virals and building our immune system through herd-immunity.

In 2019 about 1 Million people died from Tuberculosis despite all the treatments available today. Where was the initiative back then? Why didn't everything shut down due to TB?

Written Testimony
Once people lose access to society, lose the ability to travel, and are grieved via legal mandate to the point where they're significantly suffering.....will you celebrate that in the name of public health and safety?

Let me guess! In the near future when another variant pops up you will state that households which contains unvaccinated individuals is a danger to the public and that household will be penalized until they can pressure that individual into getting a vaccine.

This will go on until the entire populous gets vaccinated and I deduce that your final efforts will be quarantine camps for these individuals.

What you're bringing to our front steps is nothing short of Tyranny. You say you represent the people, but instead your represent political-corporates interests.

You support the business of Vaccines.

You support those who do not represent us.

- One day a platform will be introduced that contains the public sentiment levels of local leadership. It will also archive all the things that has been said and investigative journalists will fact check all of you who persistently lies. One day the people will be able to hold all of you accountable for everything you have said or done. Expect it.

That is all.

Written Testimony

This is absolutely unconstitutional and breaks my heart that in order for me to be a normal part of society I would be coerced to get something that's not yet proven effective (and potentially very dangerous) into my body, which affects not only my health but health of those around me and future generations to come. I have no problem with anyone who wishes to get vaccinated as that is their personal choice but to push this on others when there are natural remedies and who have natural immunity towards it is wrong and injustice. I already contacted covid last year and my body fought it off like any other sickness. Taking away basic rights such as going out to eat with friends is segregation and manipulation. It's divisive and basically forces people to adhere to something in order to "remain part of society". This is not what our founding fathers meant for our government to shift into. It's control and cohesion with agendas written all over it. I do not trust the ingredients in this vaccination nor do I feel a need for it. Once restaurants are banned what will be next? Grocery stores? Planes? You're telling me we will be starved if we do not adhere? Do you not understand how immoral and cruel that is. That is participating in mass genocide. So much for being America the "free". We live on an island...if we are not allowed our sovereignty with our body in order to leave the island we are trapped as prisoners. What happened to body sovereignty to personal power to freedom? Just because other large establishments are making these decisions doesn't mean Hawaii needs to follow suit. Remember the roots of Hawaii. When it was a sovereign land, how horrendous the history of its freedom being stripped in many ways that most of us will never truly understand. Why repeat this cycle? Why not end this now. Raise this land with respect and personal power and honor how beautiful, how powerful and how holy this special place truly is by honoring each and every one of us as the powerful, divine beings we are. We are all one. We are all loved. It's time to put differences aside and see the truth of our oneness. To let each person decide without casting others as wrong or "out of society" for not adhering. It's not too late to do the right thing. Protect our children, protect our youth, protect our sovereignty and protect our ina. Mahalo and wishing true Lokahi for all humans now.

Erin

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

Written Testimony I oppose this bill about implementing vaccine passport mandate in Honolulu because this goes against our freedom of our rights. A lot of owners of establishments don't agree with this mandate as well because not everybody wants to be vaccinated and a lot of local restaurants will close down due to that. People need to support their 'ohana and also stay healthy for themselves, and this is not the way to do it for all.

Written Testimony

I strongly oppose agenda item 21-194 because it goes against science, religion, ethics, and basic human rights. VAERS reports many side effects from the COVID-19 injection- including DEATH. With these known risks, people should have the choice of whether or not they want to receive this experimental injection. The fact that the government and many other organizations are marketing this injection by offering incentives is ethically immoral. If this injection truly worked, there would be no need to promote this drug in this way. Also, it is not FDA approved so why would people be coerced into getting it? It is known that these injections were developed on human fetal cells- something that goes against many religious practices. Please stop this madness.

Written Testimony

Aloha, my name is Anna & I am a resident of Honolulu, and I am submitting this written testimony today to let the government of Hawaii know that I vehemently oppose this Bill you are trying to pass that would require all citizens to present proof of vaccination passport just to enter all normal business establishments & live a free life. This is beyond tyrannical and unacceptable, especially considering other states in our country as well as other countries have already decided to stop issuing the Covid vaccines altogether & are not requiring such passports because the vaccine had been deemed unsafe & unfit to inject into human test subjects, which is exactly why everyone who has willingly taken this vaccine in Hawaii is, a test subject in the largest science experiment ever in history. It is not a fact that the FDA has approved the Pfizer vaccine, they only reissued another EUA for it, and per the Nuremberg code which this Bill would violate, you cannot force any individual to get an experimental substance injected into their body or show papers for it in order to enter a normal business establishment or to be able to live & live about freely. This is what they did in Nazi Germany that originally led to the Nuremberg Trials in the first place. It is a violation of all of our most basic human rights. This vaccine is not and has not been proven to be safe, and has not even reached the stage 3 clinical trials yet that will take at least another 2 years to complete if not more, in order to be deemed truly safe for human consumption. We also have no idea of the long term effects of this vaccine and what it will ultimately do to our bodies over the coming years, and thousands of people have already died from taking these vaccines, as it shows very clearly on the VAERS website. If you pass this Bill you will be violating the most basic human rights of every single citizen of these islands, and you can and will be tried for crimes against humanity. I seriously urge you to rethink this matter before pushing a bill through that would severely alter the lives of every one of Hawaii's citizens whether they are vaccinated or not, as you will also cause thousands of small businesses that keep our economy afloat to potentially go under permanently, just like what happened last year at the start of the lockdowns, and we still haven't even fully recovered from that. So please take a

moment to listen to the citizens of Hawaii before it's too late. We must stand up for ourselves and for our children. Thank you.

Written Testimony

I am opposed to any vaccine mandates for any reason. I am a healthcare worker and have worked directly with ICU covid patients for the past 18 months, I risk my health and well being for those battling covid. I adhere to all safety precautions and test regularly for the sake of everyone around me. Last year I was called a hero, now I am shunned, mocked and have had coworkers make passive aggressive comments towards me and other unvaccinated coworkers.

I live in America, LAND OF THE FREE!! To require vaccines for any reason is ridiculous! And it takes away our freedom of choice!!

Written Testimony

I am 65 years old and I understand the need for a strong immune system. I work at it everyday and when covid touched me (which it will touch everyone in different ways) I was not effected at all. It would be better to teach everyone to build there immune system. I don't agree with the vaccine passport, have the doctors give a written passport for their patients for those who don't want the vaccine like me.

Nutrition and Immunity

During the flu season or times of illness, people often seek special foods or vitamin supplements that are believed to boost immunity. Vitamin C and foods like citrus fruits, chicken soup, and tea with honey are popular examples. Yet the design of our immune system is complex and influenced by an ideal balance of many factors, not just diet, and especially not by any one specific food or nutrient. However, a balanced diet consisting of a range of vitamins and minerals, combined with healthy lifestyle factors like adequate sleep and exercise and low stress, most effectively primes the body to fight infection and disease.

What Is Our Immune System?

On a daily basis, we are constantly exposed to potentially harmful microbes of all sorts. Our immune system, a network of intricate stages and pathways in the body, protects us against these harmful microbes as well as certain diseases. It recognizes foreign invaders like bacteria, viruses, and parasites and takes immediate action. Humans possess two types of immunity: innate and adaptive.

Innate immunity is a first-line defense from pathogens that try to enter our bodies, achieved through protective barriers. These barriers include:

- Skin that keeps out the majority of pathogens
- Mucus that traps pathogens
- Stomach acid that destroys pathogens
- Enzymes in our sweat and tears that help create anti-bacterial compounds
- Immune system cells that attack all foreign cells entering the body

Adaptive or acquired immunity is a system that learns to recognize a pathogen. It is regulated by cells and organs in our body like the spleen, thymus, bone marrow, and lymph nodes. When a foreign substance enters the body, these cells and organs create antibodies and lead to multiplication of immune cells (including different types of white blood cells) that are specific to that harmful substance and attack and destroy it. Our immune system then adapts by remembering the foreign substance so that if it enters again, these antibodies and cells are even more efficient and quick to destroy it.

Other conditions that trigger an immune response

Antigens are substances that the body labels as foreign and harmful, which triggers immune cell activity. Allergens are one type of antigen and include grass pollen, dust, food components, or pet hair. Antigens can cause a hyper-reactive response in which too many white cells are released. People's sensitivity to antigens varies widely. For example, an allergy to mold triggers symptoms of wheezing and coughing in a sensitive individual but does not trigger a reaction in other people.

Inflammation is an important, normal step in the body's innate immune response. When pathogens attack healthy cells and tissue, a type of immune cell called mast cells counterattack and release proteins called histamines, which cause inflammation. Inflammation may generate pain, swelling, and a release of fluids to help flush out the pathogens. The histamines also send signals to discharge even more white blood cells to fight pathogens. However, prolonged inflammation can lead to tissue damage and may overwhelm the immune system.

Autoimmune disorders like lupus, rheumatoid arthritis, or type 1 diabetes are partly hereditary and cause hypersensitivity in which immune cells attack and destroy healthy cells.

Immunodeficiency disorders can depress or completely disable the immune system, and may be genetic or acquired. Acquired forms are more common and include AIDS and cancers like leukemia and multiple myeloma. In these cases, the body's defenses are so reduced that a person becomes highly susceptible to illness from invading pathogens or antigens.

What factors can depress our immune system?

- *Older age:* As we age, our internal organs may become less efficient; immune-related organs like the thymus or bone marrow produce less immune cells needed to fight off infections. Aging is sometimes associated with micronutrient deficiencies, which may worsen a declining immune function.
- *Environmental toxins (smoke and other particles contributing to air pollution, excessive alcohol):* These substances can impair or suppress the normal activity of immune cells.
- *Excess weight:* Obesity is associated with low-grade chronic inflammation. Fat tissue produces adipocytokines that can promote inflammatory processes. [1] Research is early, but obesity has also been identified as an independent risk factor for the influenza virus, possibly due to the impaired function of T-cells, a type of white blood cell. [2]
- *Poor diet:* Malnutrition or a diet lacking in one or more nutrients can impair the production and activity of immune cells and antibodies.
- *Chronic diseases:* Autoimmune and immunodeficiency disorders attack and potentially disable immune cells.
- *Chronic mental stress:* Stress releases hormones like cortisol that suppresses inflammation (inflammation is initially needed to activate immune cells) and the action of white blood cells.
- *Lack of sleep and rest:* Sleep is a time of restoration for the body, during which a type of cytokine is released that fights infection; too little sleep lowers the amount of these cytokines and other immune cells.

Does an Immune-Boosting Diet Exist?

Eating enough nutrients as part of a varied diet is required for the health and function of all cells, including immune cells. Certain dietary patterns may better prepare the body

for microbial attacks and excess inflammation, but it is unlikely that individual foods offer special protection. Each stage of the body's immune response relies on the presence of many micronutrients. Examples of nutrients that have been identified as critical for the growth and function of immune cells include vitamin C, vitamin D, zinc, selenium, iron, and protein (including the amino acid glutamine). [3,4] They are found in a variety of plant and animal foods.

Diets that are limited in variety and lower in nutrients, such as consisting primarily of ultra-processed foods and lacking in minimally processed foods, can negatively affect a healthy immune system. It is also believed that a Western diet high in refined sugar and red meat and low in fruits and vegetables can promote disturbances in healthy intestinal microorganisms, resulting in chronic inflammation of the gut, and associated suppressed immunity. [5]

The microbiome is an internal metropolis of trillions of microorganisms or microbes that live in our bodies, mostly in the intestines. It is an area of intense and active research, as scientists are finding that the microbiome plays a key role in immune function. The gut is a major site of immune activity and the production of antimicrobial proteins. [6,7] The diet plays a large role in determining what kinds of microbes live in our intestines. A high-fiber plant-rich diet with plenty of fruits, vegetables, whole grains, and legumes appear to support the growth and maintenance of beneficial microbes. Certain helpful microbes break down fibers into short chain fatty acids, which have been shown to stimulate immune cell activity. These fibers are sometimes called prebiotics because they feed microbes. Therefore, a diet containing probiotic and prebiotic foods may be beneficial. Probiotic foods contain live helpful bacteria, and prebiotic foods contain fiber and oligosaccharides that feed and maintain healthy colonies of those bacteria.

- **Probiotic foods** include kefir, yogurt with live active cultures, fermented vegetables, sauerkraut, tempeh, kombucha tea, kimchi, and miso.
- **Prebiotic foods** include garlic, onions, leeks, asparagus, Jerusalem artichokes, dandelion greens, bananas, and seaweed. However, a more general rule is to eat a variety of fruits, vegetables, beans, and whole grains for dietary prebiotics.

Chicken soup as medicine?

A warm bowl of chicken soup is a popular go-to when we're feeling under the weather. Is there scientific evidence that it aids in healing? The short answer is no; there aren't any clinical trials that show that chicken soup speeds healing any more than other foods. But when breaking down its ingredients, it does appear a worthwhile remedy to try. First of all, chicken soup is light and easy on the stomach when our appetite isn't great. Second, it provides fluids and electrolytes to prevent dehydration, which can easily occur with a fever. Lastly, a traditional chicken soup recipe supplies various nutrients involved in the immune system: protein and zinc from the chicken, vitamin A from carrots, vitamin C from celery and onions, and antioxidants in the onions and herbs. This is one tasty and soothing food to include when not feeling well and doesn't need a doctor's prescription.

Do Vitamin or Herbal Supplements Help?

A deficiency of single nutrients can alter the body's immune response. Animal studies have found that deficiencies in zinc, selenium, iron, copper, folic acid, and vitamins A, B6, C, D, and E can alter immune responses. [8] These nutrients help the immune system in several ways: working as an antioxidant to protect healthy cells, supporting growth and activity of immune cells, and producing antibodies. Epidemiological studies find that those who are poorly nourished are at greater risk of bacterial, viral, and other infections.

Spotlight on vitamin D

Vitamin D's role in regulating the immune system has led scientists to explore two parallel research paths: Does vitamin D deficiency contribute to the development of multiple sclerosis, type 1 diabetes, and other so-called "autoimmune" diseases, where the body's immune system attacks its own organs and tissues? And could vitamin D supplements help boost our body's defenses to fight infectious disease, such as tuberculosis and seasonal flu?

Eating a good quality diet, as depicted by the Healthy Eating Plate, can prevent deficiencies in these nutrients. However, there are certain populations and situations in which one cannot always eat a variety of nutritious foods, or who have increased nutrient needs. In these cases a vitamin and mineral supplement may help to fill nutritional gaps. Studies have shown that vitamin supplementation can improve immune responses in these groups. [8-10] Low-income households, pregnant and lactating women, infants and toddlers, and the critically ill are examples of groups at risk.

The elderly are a particularly high-risk group. The immune response generally declines with increasing age as the number and quality of immune cells decreases. This causes a higher risk of poorer outcomes if the elderly develop chronic or acute diseases. In addition, about one-third of elderly in industrialized countries have nutrient deficiencies. [8] Some reasons include a poorer appetite due to chronic diseases, depression, or loneliness; multiple medications that can interfere with nutrient absorption and appetite; malabsorption due to intestinal issues; and increased nutrient needs due to hypermetabolic states with acute or chronic conditions. Diet variety may also be limited due to budget constraints or lower interest in cooking for one person; poor dentition; mental impairment; or lack of transportation and community resources to obtain healthy food.

A general multivitamin/mineral supplement providing the recommended dietary allowances (RDA) may be used in these cases, unless otherwise directed by one's physician. Megadose supplements (many times the RDA) do not appear justified, and can sometimes be harmful or even suppress the immune system (e.g., as with zinc). Remember that vitamin supplements should not be considered a substitute for a good diet because no supplements contain all the benefits of healthful foods.

Several herbal supplements have been suggested to boost immune function. What does the research say?

- *Echinacea*: Cell studies have shown that echinacea can destroy influenza viruses, but limited research in humans has been inconclusive in determining echinacea's active components. Taking echinacea after catching a cold has not been shown to shorten its duration, but taking it while healthy may offer a small chance of protection from catching a cold. [11,12]

- *Garlic*: The active ingredient in garlic, allicin sativum, is proposed to have antiviral and antimicrobial effects on the common cold, but high-quality clinical trials comparing garlic supplements to placebo are lacking. A Cochrane review identified only one trial of reasonable quality following 146 participants. Those taking the garlic supplement for 3 months had fewer occurrences of the common cold than those taking a placebo, but after contracting the cold virus, both groups had a similar duration of illness. [13] Note that these findings are from a single trial, which needs to be replicated.
- *Tea catechins*: Cell studies have shown that tea catechins such as those found in green tea can prevent flu and some cold viruses from replicating and can increase immune activity. Human trials are still limited. Two randomized controlled trials found that green tea capsules produced less cold/flu symptoms or incidence of flu than a placebo; however both studies were funded or had author affiliations with tea industries. [14]

8 Steps to Help Support a Healthy Immune System

1. Eat a balanced diet with whole fruits, vegetables, lean proteins, whole grains, and plenty of water. A Mediterranean Diet is one option that includes these types of foods.
2. If a balanced diet is not readily accessible, taking a multivitamin containing the RDA for several nutrients may be used.
3. Don't smoke (or stop smoking if you do).
4. Drink alcohol in moderation.
5. Perform moderate regular exercise.
6. Aim for 7-9 hours of sleep nightly. Try to keep a sleep schedule, waking up and going to bed around the same time each day. Our body clock, or circadian rhythm, regulates feelings of sleepiness and wakefulness, so having a consistent sleep schedule maintains a balanced circadian rhythm so that we can enter deeper, more restful sleep.
7. Aim to manage stress. This is easier said than done, but try to find some healthy strategies that work well for you and your lifestyle—whether that be exercise, meditation, a particular hobby, or talking to a trusted friend. Another tip is to practice regular, conscious breathing throughout the day and when feelings of stress arise. It doesn't have to be long—even a few breaths can help. If you'd like some guidance, try this short mindful breathing exercise.
8. Wash hands throughout the day: when coming in from outdoors, before and after preparing and eating food, after using the toilet, after coughing or blowing your nose.

A note on COVID-19

The COVID-19 pandemic is creating a range of unique and individual impacts—from food access issues, income disruptions, emotional distress, and beyond. For more advice and discussion on coping during this difficult time, please see Harvard Chan's series of weekly interactive online forums.

Written Testimony I Adamantly oppose this resolution 21-194 as it violates citizens constitutional and medical rights. This is an overreach of our local and state government and violates the citizens that our government authorities are called to serve. I am outraged over this proposed "health card" and urge our local and county leaders to oppose this resolution!

Written Testimony The people of Hawaii regardless of vaccination status should have their own right to choose what they inject in their body! If they choose not to, they should have the option to get tested! WE THE PEOPLE DESERVE THAT CHOICE! This goes against our constitutional rights! We will not stand for this! We will keep coming back and fighting Till we have that right to choose! You can still catch covid regardless if you're vaccinated and wear a mask according to the CDC and science! The vaccinated are known to be "super spreaders" so then why mandate and force people to inject the vaccine in order to live and provide for themselves and families?? May God have mercy on you!

Written Testimony I oppose this bill about implementing vaccine passport mandate in Honolulu because this goes against our freedom of our rights. A lot of owners of establishments don't agree with this mandate as well because not everybody wants to be vaccinated and a lot of local restaurants will close down due to that. People need to support their 'ohana and also stay healthy for themselves, and this is not the way to do it for all.

Written Testimony

Since covid began I've felt my freedoms slowly being taken from me. Our country is not the one we all know and love anymore and it breaks my heart. I do not agree with a vaccine mandate because I believe once you take away the peoples freedom of choice, your taking away their freedom. We're becoming slaves to the system because we no longer have a voice. It's a dangerous thing to tamper with the peoples right to make decisions for themselves. I know from personal experience that when my kids have their freedoms taken from them such as their ability to use their phone, or their ability to hang out with their friends, they begin to resent me. Please don't make me hate the home I know and love. Thank you.

Written Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidityes with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization (which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debilitated and suffering. It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the RIGHT thing for the people of Hawaii , and vote NO to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for taking this heart felt testimony into consideration.

Aloha,

Written Testimony I am completely in opposition to this as it is un-Constitutional and would be extremely detrimental to the people of Hawai'i. We should all have the choice to decide what they want to put into their bodies, and the vaccination mandate would be a violation of our personal freedom. Not only will this hurt individuals, but it will severely harm small businesses of this state.

Mahalo,
Leann

Written Testimony Aloha,
I feel that the efforts being taken to restrict travel, access and any other forms of restriction to move freely because of COVID are reprehensible abuse to our constitutional rights as citizens of this country!
We are no longer fighting a war against this illness, and the decision to behave with such misunderstanding of this virus has gone beyond reasonable behavior!!
I do not support the closure or restrictions on the Big Island, as a resident of over 20 years here I feel that this is definitely having negative effects more & more. For myself/those of us who aren't seeking the vaccine much emphasis needs to be redirected so that of a private health matter can be assumed!!
Thank you

Written
Testimony I Strongly Oppose this Bill 21-194!
If you are truly representing the people's best interest and well being here in the state of Hawaii, You must be true first to the Constitution! Remember your oath and duty to the Constitution and the people's liberty, and freedom. Daniel Webster said, "It is hardly too strong to say that the Constitution was made to guard the people against the dangers of good intentions.... There are men, in all ages... who mean to govern well; but they mean to govern. They promise to be kind masters; but they mean to be masters.... They think there need to be but little restraint upon themselves.... The love of power may sink too deep in their own hearts...." Thomas Jefferson, "In question of power, then, let no more be heard of confidence in man, but bind him down from mischief by the chains of the Constitution" Please represent the people of Hawaii by abiding strictly only to the Constitution! Absolutely No to vaccine mandates! Absolutely No to vaccine passports! Thank you! Kim Tongg

Written Testimony

I, Zachary Wong STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms. People and businesses should have a RIGHT to decide, not controlled by government.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. The current effort of the government to censor and ignore contradicting evidence and studies is appalling. This only has led to more distrust in the government causing unnecessary fear and stress. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Written Testimony

I am a father of two adolescent children attending public school in Maui county. I am adamantly opposed to Resolution 21-194 as it prohibits, restricts, or violates inalienable freedoms, and liberties as outlined by the founding fathers of the United States of America Constitution, Declaration of Independence of July 4, 1776.

I hereby put you on notice that passing this resolution is a direct threat to me, my family and friends. I will hold you personally accountable and responsible for the passing of this or any other Law, Resolution, or Mandate that injures me or my family emotionally, physically, ethically or spiritually. I will not be Coerced or Forced by this Resolution as it is clearly in violation of Common Law.

Written Testimony As a Native Hawaiian, biologist, and Christian, I can not stand for anyone dictating the public places that an individual may enter based on whether or not that individual is vaccinated. This is an infringement on the rights of religious freedom and freedom of autonomy of one's body. It completely ignores the history of abuse of people's bodies and neglect to uphold educated independent, individual choices.

Testimony Re: Opposing Mandatory Medical Devices, Treatments & Passports

Dear Sir, or Madam,

I vehemently oppose vaccine passports.

Please refer to the following:

U.S. Title III of the U.S. Civil Liberties Act which prohibits discrimination based on medical condition.

U.S. Title 52, Civil Rights Act of 1964: Unlawful to Discriminate in place of Public Accommodations

U.S. Title 42, Section 12101: Unlawful to Deny Entry to Persons with Disability or perceived medical condition (ADA)

U.S. Americans with Disabilities Act: Unlawful to Deny Entry to Persons with Disability or perceived medical condition.

U.S. Constitution, 1st Amendment, Right to Assemble, Right to Freedom of Speech, Right to Religious Expression

U.S. Constitution, 4th Amendment, Right to Privacy

Hawaii Constitution, Article 1, Section 2

All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing and protecting property, and pursuing and obtaining safety, happiness and privacy. Therefore, attempting to deny a human from acquiring property by shopping at a business or to deny their access to services that they have the right to enjoy is unlawful and a violation of Constitutional liberties.

Hawaii Constitution, Article 1, Section 4

Every person may freely speak. A law may not restrain or abridge livery of speech. Therefore, denying entry due to a person refusing the use of a treatment, medical device, or medical passport is a violation of the Hawaii Constitution,

Hawaii Constitution, Article 1, Section 4

Free exercise and enjoyment of religious expression without discrimination. If the use of a treatment, medical device, or medical passport intrudes on the religious expression of an individual, that right to religious expression may not be denied.

Hawaii Professions and Occupations Code 453-2: Practicing medicine without a license

Requiring someone to the use of a treatment, medical device, or medical passport is a medical intervention. Unless you are a licensed medical professional of the man, woman or child in question, you have no authority to recommend such a practice. You have no legal authority, responsibility or liability to require that of the public.

No "emergency order" supersedes established law. Any "health order" is unlawful and unenforceable by law.

Hawaii Revised Statutes 710-1016.6: Impersonating a law enforcement officer

You are not a law enforcement officer and have no authority to enforce any such law or order. Impersonating a law enforcement officer is a crime in this state under Hawaii Revised Statutes 710-1016.6. This violation is a Class C felony and carries a penalty of up to 5 years in jail and fines up to \$10,000.

Hawaii Revised Statutes 489-3: Free and Equal Access to Public Accommodations

A business establishment is legally defined as a place of "public accommodation" and as such you may not prohibit entry by discriminating against someone for their medical condition, disability, or religious views. If someone is unable or unwilling to use medical devices or therapies for one of those reasons you may not prohibit their entry, nor may you file a charge of trespassing because of their legally protected status. Having someone else shop for them, or requiring curbside delivery is NOT a reasonable accommodation, as it denies the "full enjoyment and equal access to facilities, services and accommodations," as REQUIRED BY LAW

Hawaii Constitution Article 1 Section 5: Protection of equal rights

No person shall be denied the enjoyment of civil rights or be discriminated against in the exercise thereof because of race, religion, sex, or ancestry.

Hawaii Civil Rights Commission Chapter 368: Individuals with disabilities have the same rights as others

Having someone else shop for them, or requiring curbside delivery is NOT a reasonable accommodation, as it denies the "full enjoyment and equal access to facilities, services and accommodations," as REQUIRED BY LAW.

Hawaii Revised Statutes 489-8: Disabled have full and equal access

Individuals with disabilities or medical conditions have the same right as the general public to the full and free use of the streets, highways, sidewalks, walkways, public buildings, medical facilities, including hospitals, clinics, and physicians' offices, public facilities, and other public places. Just as you would not be able to deny entry to someone in a wheelchair, you may not deny entry to someone not using a treatment, medical device, or medical passport of any kind.

Individuals with disabilities or medical conditions have the same right as the general public in attaining full and equal access to all public accommodations and their advantages, facilities and privileges to places of public accommodation, amusement or resort; and to other places to which the general public is invited, including public modes of transportation private schools, hotels, hospitals and public buildings, such as courthouses, government buildings. Aggrieved persons may recover up to three times the actual damages or a minimum of \$1,000, injunctive relief and reasonable attorney's fees.

Hawaii Business and Professions Code 489-8b: Prohibits a licensed business to deny service based on disability or religion

Any person who holds a license pursuant to the business and professions code is subject to disciplinary action if that person discriminates in, restricts the performance of, or refuses to perform the licensed activity because of a consumer's race, color, sex, religion, ancestry, disability, marital status or national origin.

Hawaii Penal Code 707-721: Unlawful imprisonment

Attempting to prevent someone's entry to an establishment or to restrict, detain or confine their movement without their consent constitutes FALSE IMPRISONMENT, which can be a felony, with the penalty of three years in jail. If you deny someone's entry to your place of public accommodation based on their medical condition or religious beliefs, you are at risk for charged with false imprisonment.

Hawaii Penal Code 711-1101: Disorderly Conduct

A person commits the offense of disorderly conduct if, with intent to cause physical inconvenience or alarm by a member or members of the public, or recklessly creating a risk thereof, the person:

- (a) Engages in fighting or threatening, or in violent or tumultuous behavior; (b) Makes unreasonable noise;
- (c) Subjects another person to offensively coarse behavior or abusive language which is likely to provoke a violent response;
- (d) Creates a hazardous or physically offensive condition by any act which is not performed under any authorized license or permit; or
- (e) Impedes or obstructs, for the purpose of begging or soliciting alms, any person in any public place or in any place open to the public.

Hawaii Penal Code 711-1106: Harassment

A person commits the offense of harassment if, with intent to harass, annoy, or alarm any other person, that person:

- (a) Strikes, shoves, kicks, or otherwise touches another person in an offensive manner or subjects the other person to offensive physical contact;
- (b) Insults, taunts, or challenges another person in a manner likely to provoke an immediate violent response or that would cause the other person to reasonably believe that the actor intends to cause bodily injury to the recipient or another or damage to the property of the recipient or another;
- (c) Repeatedly makes telephone calls, facsimile transmissions, or any form of electronic communication as defined in section 711-1111(2), including electronic mail transmissions, without purpose of legitimate communication;

- (d) Repeatedly makes a communication anonymously or at an extremely inconvenient hour;
- (e) Repeatedly makes communications, after being advised by the person to whom the communication is directed that further communication is unwelcome; or
- (f) Makes a communication using offensively coarse language that would cause the recipient to reasonably believe that the actor intends to cause bodily injury to the recipient or another or damage to the property of the recipient or another.

Hawaii Revised Statutes 707-716: Terroristic threatening in the first degree

A person commits the offense of terroristic threatening in the first degree if the person commits terroristic threatening:

- (a) By threatening another person on more than one occasion for the same or a similar purpose;
- (b) By threats made in a common scheme against different persons;

Hawaii Revised Statutes 705-520: Criminal conspiracy

A person is guilty of criminal conspiracy if, with intent to promote or facilitate the commission of a crime:

- (1) He agrees with one or more persons that they or one or more of them will engage in or solicit the conduct or will cause or solicit the result specified by the definition of the offense; and
- (2) He or another person with whom he conspired commits an overt act in pursuance of the conspiracy.

Your inferred, or stated, mandatory vaccines and mandatory vaccine passports requiring free men, women, and children to accept medical treatment, and medical treatment passports as a condition of employment, shared use of public space, or to freely go about their lives without government or corporate interference is unlawful and constitute grounds for major remedies for wrongful coercion.

Furthermore, International law, Geneva conventions and the Nuremberg Codes, to which the United States of America, and therefore Hawaii, is a signator, prohibit coerced and forced medical treatments and any non-consensual medical treatment/s specifically including "vaccinations." This is especially true of experimental vaccines and vaccines that have not had full testing processes and have thereby not been proven safe. "Covid-19" vaccines are not vaccines, they are in fact experimental, are untested, and are not proven to be safe. In fact, there is overwhelming evidence that the contrary is true. Various other Constitutional and Statutory authorities also support public protection against non-consensual vaccination such as statutes covering: assault; public endangerment; unauthorized and unlicensed administration and practice of medicine; and protection of fundamental freedoms and rights guaranteed under the Bill of Rights.

You have failed in the requirement to show that:

- (a) You are a licensed physician of the men, women and children you are attempting to compel.
- (b) We have NOT consented to your recommended treatments.
- (c) MRNA treatments are NOT fully tested and proven safe.

Having so failed, your "requirement" that we submit to your imposed medical treatments, and violations of medical privacy, your attempts to compel us to accept medical passports are unlawful and cause for major actions against you as public servants, as well as any companies or agencies who participate; as you would all be complicit parties.

Unlawfully forcing medical experiments, and medical experiment passports upon the populace is tyranny. It's illegal, unlawful and a violation a private person's god-given, un-a-lieable rights as a human being...which is confirmed by our State and Federal Constitution; the Supreme law of the land.

NO emergency can suspend our God given rights.

Attempting to compel people to wear a mask, use any other medical device, accept treatments, or the use of treatment passports to participate in society is discrimination, harassment, intimidation and fraud.

Every American, every human, has sovereignty and sole authority over their own body.

A mask, vaccines, mRNA injections, other medical devices, other treatments or passports being required as a condition for participating in society is a violation of privacy, and the 4th Amendment; as well as a violation of people's religious liberties.

Requiring masks, other medical devices, medical/treatment, or medical/treatments passports violates our equal use of public resources, parks, transportation, as well as banks, restaurants, stores, etc. and the ability to otherwise freely go about our lives without government, or corporate interference.

It's completely unlawful to enforce codes, statutes and policies that violates our state and federal Constitutions. Any government official, or person acting in a public capacity to serve the private, attempting to compel, coerce, or enforce us to take vaccines, or use masks, or any other medical devices, or use medical passports is a perjurying their Oath of Office, which is a state and federal crime.

NO business, organization, government agency, or public servant has the authority to require medical procedures, the use of medical equipment, or medical passports. We cannot be denied services, or liberties provided to those who freely choose to wear masks, or take experimental gene therapies by their own free will.

Furthermore, any person, agency, civil servant, business or government that compels a private citizen to wear a mask, use medical equipment, etc., is liable under tort law to be subject to lawsuits for (but not limited to): deprivation of rights, loss, harm/injury, emotional distress, duress, financial loss, violation of privacy, coercion, etc. Legal action can and will be taken against them in both their personal and professional capacities.

Sincerely,

Cecelia Marrone

There are almost 800,000 registered sex offenders in the US and they don't carry a card because it violates their privacy!
If you have to carry a card in your pocket or pass on your phone proving you injected a drug into your body to gain access to grocery stores, receive medical care or to freely move about in society then you no longer live in a free country and you are no longer sovereign over YOUR OWN BODY!!
Regardless of political party, medical or religious beliefs... that should scare EVERYBODY!!!

MEETING DATE: September 2, 2021
COMMITTEE: Transportation, Sustainability and Health
AGENDA ITEM: RESOLUTION 21-194
RE: Oppose Covid -19 Health Card Bill
Testimony

I oppose to the Vaccine Passport Bill of any form at any time in the State of Hawaii.

I am 57 years old and I have a disability of respiratory problems, allergies and other underlying health issues that would detriment my health further if I were to take the Covid Vaccine. I also called to obtain the medical health exemption at several agencies, including the Mayor's office and no one has the form.

This mandate or requirement of a Vaccine Passport would discriminate and affect me as a disability resident and my rights not to be able to participate in my regular life activities and be barred to enter businesses.

I think this is the wrong move for Hawaii to enforce a Vaccine Passport or to Mandate any Vaccine in order to "Live Life". This will kill our economy further, hurt, and close more of our unique local businesses, create more depression and crime on our island. We won't have the manpower to enforce and stop the increase of crime. This will destroy the Aloha Spirit and our paradise. This will destroy our way of living. You do enjoy Hawaii right? Don't make our beautiful state Ugly.

Reverse this course of action and get life back to normal for the residents of Hawaii. This is a train wreck with NO RAIL.

I encourage and inspire you to do the "Right thing" and improve our islands and do not destroy it.

We, the People of Hawaii have complied from March 2020 to all these rules, health regulations and restrictions to know how to take care of ourselves and be cautious to Covid and any other virus variants.

With intensive research and education, the Covid Vaccine doesn't stop to contract the virus. It's not guaranteed and there are reports of adverse reactions of these different experimental vaccine options.

I encourage and inspire you to do the "Right Thing" to dismiss the thought of enforcing any type of mandates and to explore, include and offer other types of treatments to residents of Hawaii.

Thank you,

Krystal Van Putten

Written Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidity with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization (which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debilitated and suffering. It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the RIGHT thing for the people of Hawaii , and vote NO to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for taking this heart felt testimony into consideration.

I adamantly oppose this Resolution as it violates citizens' constitutional and medical rights. This is a gross overreach of government authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

Written Testimony In my opinion, it should be looked at what exactly caused the COVID numbers to go up. Which was allowing a vaccination card for vaccinated travelers. It was stated and proven by my medical professionals that you can still get the vaccine even if you are vaccinated. There should be a shutdown on travel as well. The state was doing well with the tier systems until the vaccination card came along and increased travel.

If the state is mandating COVID vaccine for certain workers, why not mandate every vaccine that is out there? It is outrageous. Why not have every sexual offender have a card to present wherever he/she goes to inform the business/individual they are around who they are. This is discriminating and is an embarrassment.

I oppose this vaccine passport mandate and any mandates that encourage segregation or ostracizing of any group of people which leads to and has already lead to discrimination of any people who do not follow the government agenda. We have the constitutional right to medical privacy, as well as the god-given right to choose what goes into our bodies. This passport mandate is comparable to the racial segregation and discrimination that has been proved in court as unconstitutional. I oppose this mandate as a person who is pro-choice, not anti-vaccination.

Written Testimony The government has the opportunity to encourage natural immunity and healthy lifestyle habits rather than offering people drawings for free fast food and other incentives if vaccinated, which do not increase a healthy lifestyle.

Many of the heroes who we have applauded during their frontline response of COVID-19, are now being forced to be vaccinated or fired or placed on leave without pay. With a huge shortage of first responders in Hawaii already, these mandates are forcing even more shortages in the most crucial areas of our society. Please do the right thing and STOP this mandate and discrimination against each person who chooses to follow what they believe is right for their own body.

Written Testimony You can't discriminate against a group of people because they don't have one thing. There still isn't enough facts or evidence of this COVID vaccine. We are all taking it seriously too but I'm not for being a quinea pig. There are still some deaths and severe side effects of this vaccine and even though it is little compared to the amount of people taking the vaccine; it's still not worth my life for an experiment. How can you mandate an experiment??

Written Testimony

I oppose the mandatory vaccination of all Hawaiian residents, workers, and children. Personally, I do not feel safe taking a vaccine that has only been out and administered to the public for about a year. We do not know all of the effects of this yet, and some of those effects could surface within the next 5 years. As a governing body, you should be for the people and if some people do not feel comfortable putting this into their bodies- you should not force it. I know my words will fall on deaf ears, if they even are read at all. I feel like no one cares or is listening to the minority, and we ALL deserve to be heard on this matter. What needs to be addressed is the fact that the government is essentially favoring tourists over residents. Trying to mandate stay at home orders for residents, and limiting gatherings for us- while tourists can still attend luau's at half capacity which is still well over 100+ people. They can also be out and about while I can only go to work and home? And now you are mandating I get vaccinated?? The double standards are insane.

This bill violates constitutional rights and Natural human rights on multiple levels. I strongly oppose this attack on medical freedom and the discrimination of those unvaccinated. We the people have an inalienable right to public facilities paid through our tax dollars. We the people have an inalienable right to travel. Living in Hawaii, airplanes are the only means on travel off island. This bill would directly violate the rights of patriotic law abiding citizens. Citizens whom stand for freedom, liberty, and justice for all. This is what this country was built to represent. This bill is anti-freedom, anti-choice, and will directly affect those who wish to exercise their medical freedoms. This is why I strongly oppose the vaccination passports. It is blatant discrimination.

Written
Testimony

Mandating the use of a shot being falsely called a vaccine that has the longest list of deaths and horrendous side effects every compiled by our Vaers system is wreckless, irresponsible and against all the laws of man and God.

The censorship surrounding this agenda of credible, reputable, and most importantly KNOWLEDGEABLE individuals in this field of science doctors, virologist and immunologist is now becoming what I believe to be a criminal endeavor. No bureaucrat, politician, or committee chairman has any right to stand between myself and my doctor. The fact that a meeting is even being held to consider this measure ought to keep you all from sleeping at night. This IS a crime against humanity which you might all know if the truth of doctors etc had not been removed entirely from the narrative. When the very inventor of MRNA technology says do NOT take this shot you must ask yourselves what has gone wrong and who is driving this "pandemic." He and many others who have spent lifetimes in the field of vaccines have stated that by vaccinating into a pandemic we are actually CAUSING the many variants.

Anecdotal evidence isn't fact but the sheer volume of evidence from heavily vaccinated countries shows without question that the very drugs we are not allowed to speak of could actually halt this in its tracks within literally days. If you want to be America. If you want to be Hawaiian. If you want to spread aloha, not covid... the way forward is to immediately stop the vaccines and allow doctors to prescribe the many drugs that we know based on decades of use are ACTUALLY safe, and effective, NOT the ones that are killing , maiming, and destroying lives, blood supplies and most likely future generations for years to come. Perhaps, instead of ostracizing Dr. Lorien Pang for his open mindedness (I though everything was on the table since this is an "emergency") and looking for actual answers to this problem, you might have listened to him or any of the tens of thousands of doctors and scientist around the world stating the same. Instead you double and triple down on something that is not only

clearly not working but will in fact be the downfall of our delicate healthcare systems. Shame on you all! I adamantly oppose this measure as should you.

On 2 Sep 21 at 10:30 AM there will be a hearing on the vaccine mandate. This is my testimony in regards to this matter.

I am strongly opposed to the vaccine mandate. The vaccine is a personal choice and there should not be any hardships placed on us if we choose not to get vaccinated. I disagree with the decision that on 13 Sep vaccines are required to dine in at restaurants, go to gyms, etc. I am asking the government to cancel that mandate.

The Mandate Will NOT Stop the Spread

COVID is already running rampant in Hawaii. Locals are infected and they are now spreading it to other locals. The vaccinated and unvaccinated can both spread it. So what difference does it make if only the vaccinated are going to restaurants? It's still going to spread! Daily case counts will NOT go down.

Written Testimony

Your Biggest Problem is Hospital Capacity

During the press conference Mayor Blangiardi said that we need a vaccine mandate because hospitals are overcrowded. If that's the problem, then why don't we ask the hospitals to increase capacity? Bring in more workers, erect temporary structures, etc. Instead of spending millions of dollars on vaccine rewards we should use it to increase hospital capacity. Put the federal money to good use.

FDA Approved Vaccines Are Not Available Yet

The Pfizer BioNTech vaccine only has Emergency Use Approval, it's considered an experimental drug. Per US law, the government CAN NOT force people to take experimental drugs. Only Pfizer Comirnaty is fully approved but it's not available right now, it's still being tested and won't be finished until 2024.

Restaurants Will Lose Business

People are being discriminated against because they chose not to take an experimental drug. For 60 days they will not be allowed to dine in at restaurants. Many people have decided to boycott restaurants for 60 days. Restaurants will not make money from me, their food suppliers will lose business and their employees will lose tips.

Vaccine Mandates From Other Countries

Cambodia: [https://www.khmertimeskh.com/50835003/cambodia-may-introduce-mandatory-covid-19-vaccination/?](https://www.khmertimeskh.com/50835003/cambodia-may-introduce-mandatory-covid-19-vaccination/?fbclid=IwAR0bLMKDMirvbuSCxanLLBMhjKaGZugJI-uH5IHEPRwhp4lAibOH4BGxgUs)

fbclid=IwAR0bLMKDMirvbuSCxanLLBMhjKaGZugJI-uH5IHEPRwhp4lAibOH4BGxgUs
President Hun Sen (5 star general, been president since the 80s) said "those who do not get vaccinated may find it difficult to find work and may also become discriminated against."

China: <https://www.cnn.com/2021/07/15/china/vaccine-china-restrictions-zhejiang-jiangxi-intl-hnk/index.html>

"Unvaccinated residents in parts of China will be banned from accessing public services including hospitals, schools and nursing homes..."

In many countries the government has flat out announced that the unvaccinated will be discriminated against. Hawaii needs to do better.

I followed All the Regulations For a Year and a Half

I wore a mask, washed my hands, sanitized everything, carried hand sanitizer, avoided bars/clubs/gatherings, didn't travel, worked from home and only ate take out for months. The assumption was that we would work together to beat COVID then get back to normal. But after a year and a half we're in more or less the same place we were in March 2020! Maybe even worse! I find it disappointing that after following all the rules we're still not back to normal, it feels like there are now more and more excuses to lock us down.

In conclusion, the vaccine mandate will not solve the problem. It will create unnecessary hardships to everyone in Hawaii, vaccinated and unvaccinated. For these reasons I'm asking that the government cancel the vaccine mandate and explore other ways to slow the spread.

Written Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I **OPPOSE** the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidity with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization (which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debilitated and suffering. It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the **RIGHT** thing for the people of Hawaii , and vote **NO** to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for taking this heart felt testimony into consideration.

Written Testimony

I strongly oppose. The government mandates and vaccine passports do not align with the data and the science. We know that this vaccine will not stop transmission. We know it is not a cure. We know whether you are vaccinated or not you can still become infected and spread. The only difference is when vaccinated, symptoms are lessened so it can be spread easily undetected -- which we are now seeing happen in countries like Israel who has 90% vaccinated population. Their numbers are rising and the vaccinated are getting really sick. So it doesn't really make sense to mandate something that is not a cure and is not stopping the spread. It also doesn't make sense to only test those are not vaccinated either... Also, vaccine injury and death is 100% real, and we are learning more about it everyday. There are many suffering from adverse effects and even dying from this vaccine. But these vaccine companies are liability-free if we do suffer an adverse injury... So how is that okay to mandate? When there is a risk, there must always be a choice. And if this is about saving lives, and slowing the spread + the overrun in hospitals we should be open to the alternative medication and treatments out there that are known to work successfully and safely. Ivermectin (for HUMANS) for example has saved so many lives of those infected with COVID. It is on the WHO's list of essential medicines and has won a Noble prize for globally solving not one, but two endemic diseases. So why can't it be something recommended and used more?? These mandates and vaccine passports are clearly hurting our people and causing a divide. And if they are implemented on Sept 13, we will see the detrimental impacts it will leave on our people. It will negatively impact the quality of life of our people, on businesses, and it will only cause more of a divide amongst our people without curing anything -- because again, this vaccine is not a cure. It's a shame it's come to this... We are Hawaii. We have always been known for having the "Aloha Spirit"... and right now it seems lost. Everyone is living in fear, everyone is pointing the blame. We need to be the change for our island, and be an example for the world. This is wrong and it doesn't make sense. It goes against Constitutional rights and basic human rights. Stop these mandates and vaccine passports.

Written Testimony I oppose vaccine passports. Now the government is segregating the unvax'd and the vax'd and stopping us from doing what we freely want to do. You can't go here or there because you didn't show me your passport. What a bunch of crock! What happened to the land of the free where we can choose for ourselves and not the government telling us what to do.

Since government has also decided not to report data on the vaccinated who get "breakthrough" covid isn't the data faulty and prejudice against the unvaccinated? How is it possible to factually state the number of covid cases from a test that does not identify the actual SAR2 covid virus? What happened to tracking the flu? Over the years hundreds of individuals have died annually from the flu, why is it we don't see those numbers now? Is no one getting the flu or because the test can't detect it, you have chosen to only report all positive test results as covid? You are using your freedom to choose what and how you want to report data. Why can't we choose what we put in our own bodies. Emphasis should be on educating people about how to stay healthy, build their own body immune system and focus on laws that help us to be healthy. For example: Work force law should support individuals who start to exhibit the first signs of being sick to stay home without fear of reprimand from employers, if work duties allow, let the worker work from home if possible. Allow parents or others who work the flexibility to care for their children, elderly or anyone they are responsible for who may become sick and need supervision, without losing their job, or benefits, etc. Do not take away the freedom we all cherish and live by under our Constitution of our United States. Thank you for considering my thoughts on this matter. I pray this Resolution will not pass. I oppose Resolution 21-194.

Written Testimony

Due to the fact that many reputable scientists, doctors and health care professionals, with nothing to gain and everything to lose, are speaking up about the dangerous side effects of the COVID-19 vaccine, that tells us it is not yet safe to take this vaccine, nor is it lawful to force people to do so. Additionally, due to the fact that the FDA has not yet approved this vaccine, it is unlawful to require that citizens take this drug. At this point, people around the world have no reason to trust their governments. There is substantial evidence that would lead us to believe that the US government and its elected officials contributed our tax dollars to the gain of function research that lead to this pandemic in the first place. And now you are asking us to trust their advice on how to take care of our health? They are trying to brainwash to believe that this is somehow OUR fault? And that the people who get the vaccine are the heroes! Wow, what a convenient narrative for these crooked individuals. Let's turn everyone against each other to distract them from the truth that this was all our fault in the first place for being reckless greedy psychopaths! People who have any common sense should be furious with the government and be demanding reimbursement for their tax dollars that went towards this illegal research, as well as for the loss of their incomes during the lock downs. Now here we are and I cant even believe we are having this conversation about taking away people's rights to access public amenities and businesses, and firing people from their jobs simply because they care enough about their health to refuse a highly suspect drug being injected into their bodies. If you pass this mandate you will see a collapse of the entire US. People will not stand idly by and watch as you strip them from their rights. This is INSANE. Robert Malone, the scientist who INVENTED mrna technology, says this vaccine is definitely not proven to be safe. It causes neurological breakdown, organ failure, infertility, miscarriage (to name a few). When it was tested on ferrets all the rats died once exposed to the virus. It caused a 16% miscarriage rate among mice - one of the most fertile creatures on earth. But we are supposed to trust that nothing happened to ANY of the first 30,000 people who took the shot? Yet all I hear is reports of horrible side effects within the community - people who I KNOW. I am going to trust people who have nothing to gain by speaking the

truth, and everything to lose. People who ACTUALLY care about others. Not those who would rather deny the truth and virtue signal because it is more convenient for them. If the government wants us to trust them its going to take them rebuilding that trust over many years - trust is EARNED - not bought or forced. If you take away people's rights you can trust that they will react with as much force as you present upon them. Think wisely on this counsel. Remember - you are hired BY us. You are fired BY us.

Written Testimony I do not support this idea of forcing people to have vaccine cards in order to go to certain businesses or restaurants. This is against the constitution. It will also cause discordance and prejudice among communities. This idea will set up people against one another and cause distrust and suspicion. This is not Aloha. This will cause hatred and strife among the communities. What people choose for their own health should not be information that businesses or individuals can access. I strongly oppose this Resolution 21-194.

To the Honorable City Council:

I strongly oppose the mandatory vaccine health cards. These health card mandates are used to discriminate against those who are unvaccinated.

They are used to restrict access to restaurants, theaters and other venues will not reduce covid hospitalizations. Eventually they will be used to restrict the ability to buy groceries and to be free to do other things which we take for granted as a God given and Constitutional right.

These restrictions are used to coerce people to get vaccinated which is wrong and unconstitutional.

Written
Testimony Hawaii has always been a special place where we do not condone any form of discrimination and respected the opinions of others who we do not agree with. I hope that you will consider the opinions of others even though you may not agree with them due to your own political beliefs.

For those of you who are practicing Christians, you should know what it means when governments start to restrict the right of people to buy or to sell, except the ones who have the government approved identification. If you have forgotten, you should look it up and decide whether you want to encourage and advocate for something like the vaccine health cards or passports.

The departments of health from other countries such as Israel have reported that vaccinated people get infected with covid and its variants and spread it to others. In fact, the vaccinated may be more likely to spread covid since they may only have mild symptoms which they will ignore. You have to wonder why the media and big tech censor physicians and scientists

around the world who want to discuss effectiveness and the risks and side effects of these vaccines.

American federal health officials refuse to discuss natural immunity developed by those who have recovered from covid. They only want to recognize drug related immunity but we need to ask ourselves why? Consider: The reports from other countries about natural immunity:

<https://townhall.com/tipsheet/spencerbrown/2021/08/31/natural-immunity-offers-better-protection-against-delta-variant-than-mrna-vaccines-study-n2595054>

The vaccination health card used to restrict access to activities will not reduce covid infections and hospitalizations. Early treatment is the key that is slowly being recognized again in other countries but ignored by our FDA. The question is why? Although this is a topic that is censored in the USA, ivermectin and hydroxychloroquine have been used for decades with minimal but known side effects. We can't say what the side effects are for the vaccines 5, 10, 15 years from now. Consider whether we should take the lead like other countries have in using off label treatments:

Australia:

<https://cairnsnews.org/2021/08/13/australian-gps-can-legally-prescribe-ivermectin-triple-therapy-protocol/>

Japan:

<https://www.lifesitenews.com/news/breaking-japanese-medical-association-chairman-tells-doctors-to-prescribe-ivermectin-for-covid/>

Mexico:

<https://principia-scientific.com/covid-deaths-plunge-after-mexico-city-introduces-ivermectin/>

If you really want to make a difference while maintaining people's constitutional rights, we should encourage rather than condemn patients and doctors who are willing to try other drugs which have been reported to work.

Social distancing and restrictions on number of people gathering was effective before we had the vaccines. Knowing that vaccinated can be infected and spread delta variants, we should do that rather than discriminating against the unvaccinated.

Thank you for considering my submission. Please do your own research instead of relying on media and those who have an agenda. Look fairly and honestly at the information being reported in other countries.

Sincerely,
Ed

Written Testimony

This is in opposition to our legal rights. It is NOT in the name of safety, but is an oppressive act of governmental control. The covid "vaccines" have NO long term safety data! The agenda is clearly in the name of pharmaceutical financial benefit and NOT in the name of public health and safety. There are FAR more effective and SAFE ways to help prevent and treat cases of covid and hundreds of doctors are willing to testify to that. Every human has a choice to decide what's best for their body when it comes to medicine. To threaten our livelihood in order to try to coerce this "vaccinate everyone" agenda is WRONG and manipulative! Do what is humane and fair if you want peace and cooperation from Hawaii residents in the name of public health and safety.

Written Testimony This mandate is just plain wrong. It infringes on our rights. This will affect businesses and turn us against one another. People have many different reasons to not take the vaccine and they are all legitimate. The mayor should not force us to do this against our will. It starts with this... next thing you know we're imprisoned in camps. NO VACCINE PASSPORT MANDATES!!!

Written Testimony

I am strongly opposed to this bill, as it allows government control to overstep my rights as a United States citizen, and Hawaii resident! But most importantly, this bill would be a detriment to our delicate economy, hurting the businesses that are still standing, especially after many had to close their doors for good during the covid lockdown last year. Remember, business owners are residents, too, and bring revenue into our State. Are you going to take away the rights of residents--the people of Hawaii--by rewarding those who have been vaccinated, but are transmitting the virus because of a vaccine that is actually causing more of the virus to spread giving the vaxxed the false impression that they are safe and immune (confirmed by Director of Health Dr. Libby Char; Dr. Lee Merrit, graduate of University of Rochester School of Medicine and Dentistry in New York, where she was elected to life membership in the Alpha Omega Alpha Honor Medical Society, completed Orthopaedic Surgery Residency in the United States Navy, serving 9 years as a Navy physician and surgeon before returning to Rochester, being the only woman to be appointed as the Louis A. Goldstein Fellow of Spinal Surgery; world vaccine expert and creator Geert Vanden Bosshe Ph.D, DVM, just to name a few)?

Maybe stricter policies should be in place for those going to gyms, and these other places, but please don't place this mandate over everyone.

Please understand, my family and I are upstanding citizens and we use care and caution whenever and wherever we go, not staying out long, and staying away from crowds, get-togethers, etc. This is punishing us--the people who want to do what is right! Please do not mandate this vaccine passport.

Thank you for your time and consideration.

Sincerely,

Stephanie Barber
Hawaii Resident, born and raised

I oppose the mandate of vaccine (digital vaccine passport).

First it is against the science.

There are many Covid patients were healed by medications without vaccine. It's proven.

Second it is against the Freedom our forefathers fought hard for us to have and Generations to come.

Written Testimony

We have to have our freedom to choose
What is right for our body, health and our family.

Let our spirit of Aloha perpetuate!

Thank you for your work that works for people of Land of Hawaii and people!
People will remember!

Aloha

I am strongly opposed to this resolution for vaccine passports as it is a direct violation of my civil rights as a citizen of this country.

Written Testimony

Continued efforts to support the agenda at hand for mass vaccination is leading to the worsening spread of this virus.

Transmission is related to unsafe behaviors not whether a person is vaccinated or not.

The current outbreak stems from loosing protocols related to vaccination status. Untested travelers brought delta to this island, vaccinated or not.

Written Testimony I oppose this vaccine passport. It discriminates against people like me who have got Covid and I now have antibodies which I tested and have. I have done my own research and have found a study specifically in Israel which has a 85% vaccination rate in their country. They've done studies with people who got the vaccine, no vaccine, & people who have caught Covid & have antibodies. And their research has shown that people who have antibodies from recovering from Covid. Has 13 times amount of immunity than from people that has been vaccinated. And more so than ones with no vaccine or antibodies. If you need more information I will gladly send it to you.

Written Testimony

As a mother and business owner I strongly oppose the introduced of a vaccination passport. Something like this would be highly discriminating against anyone who can not get this vaccine. Some people have underlying health conditions or have had adverse reactions to vaccines in the past and should not be pressured into taking this still experimental vaccine or any other vaccine. Others might just not be ready to take the risk. Every vaccine comes with risks and this particular one is still in trial. Even though the Pfizer one has been approved by the FDA, the trials are not finished yet and it will take years from now until we see the real effects from this rushed mass vaccination program in the midst of an outbreak.

Please keep in mind that not everything approved by the FDA is necessarily to be considered safe. FDA approved drugs are being recalled all the time. Fluoride (a neurotoxin), red dye 40 (toxic) and mammalian excreta (rodent poop) and much more are all FDA approved.

Last but not least, I think small local businesses who are going to be forced to enforce the vaccination passport will suffer and therefore the local economy will suffer. Personally I will not give my money to any business that stands for medical discrimination and I know many in my community who stand for the same.

Please stand up for the people in your community and vote against Resolution 21-194. For the future of our keiki.

Mahalo

Written Testimony

I oppose having to show medical records such as a vaccine card in order to access business, transportation, or otherwise. My private medical history should not relegate my ability to enter businesses or access transportation. We know covid mitigation protocols such as masking, physical distancing, proper air circulation, screening for fever and other symptoms, and obtaining contact info upon entering places where people congregate works to protect people from the spread of Covid. I have worked with the general public across the pandemic where these mitigation protocols have been effective regardless of vaccination records. A vaccine that has not been put through the standard testing protocols requiring years of scrutiny should be not be mandated upon the public; it is experimental. I understand why others don't want to assume that risk, plus a person has no legal recourse should the vaccine cause harm upon them. So to mandate a vaccine in light of the risks and lack of legal protections, and then try to establish a system which penalizes those who do not vaccinate I believe is entirely UNETHICAL. And the fact that we see Covid infecting some who are vaccinated, and we see some who are not vaccinated become ill but not severely, there are still so many variables to the pandemic that to mandate an experimental vaccine amidst the variables, or penalize those who choose to not be medical test subjects, restricting access and freedoms, and fire employees for not taking the new and less-than-standard testing protocols vaccine is UNETHICAL. Our kokua to each other to wear masks, socially distance, stay home when sick, health screen before entering buildings, and contact trace os EFFECTIVE and is ETHICAL. Mandating new vaccines and requiring people to show medical records is NOT ETHICAL. The precedence this would set for all kinds of possible scenarios in the future is frightening. I oppose resolution 21-194.

Written Testimony Aloha, I oppose Vaccine passports, on Oahu to be able to go into any business, establishment, restaurant, and gym. I believe it's against our rights. This would ruin businesses on Oahu. Having a major fallout of customers, having more businesses going out of business. Also vaccine passports would go against constitutional rights.

Written
Testimony

I have a Master's of Public Health (MPH) and have for many years established health programs in six Northern California counties for HIV, perinatal, Hepatitis C and many more health concerns. Changing the way things are done must be undergirded with facts obtained by examining carefully the raw data as well as understanding the overall needs of the community. Source data and understanding community needs do not undergird this proposed resolution. Passage would have profound effects on the lives of thousands of individuals and cause further division.

Though the vaccines started with excellent efficacy, it is waning even to the original strain. The vaccine has very poor efficacy to the delta virus.

Studies have been revealing that natural immunity has greater protection than the vaccines. This protection is for case counts, symptoms, hospitalizations and deaths.

SARS-COV2, the virus causing COVID-19 has been mutating into forms causing less death and hospitalizations. Because of the huge spike in cases on the islands it is hard to see this as the fact.

The VAERS database tracks adverse reactions for all vaccinations (hundreds of millions of childhood and flu vaccinations) showed more deaths related to the COVID-19 vaccinations in the first couple months than all the decades prior. Today, it shows 12,262 rows of data when requesting number of deaths attributed to the COVID-19 vaccine. It also shows non-death related adverse events serious; exceeds what would be expected. The UK data base as of August 25, 2021 shows 1,599 deaths reported (
<https://www.gov.uk/government/publications/coronavirus-covid-19-vaccine-adverse-reactions>
)

Japan suspended 1.63 million doses of the Moderna vaccine reportedly due to contamination. The mechanism of contamination has not been made know and is very concerning to many.

Written Testimony I do not approve of the vaccine passport in regards to COVID 19. The investigational vaccine, although approved by FDA, is not certain to be safe over a decade of research. All other precautionary measures (PPE) and negative test proof for all (vax or not) is a safe measure and most reliant.

Written Testimony Everyone should have the right to choose whether to be vaccinated or not and not be discriminated against if they don't feel comfortable to put a substance in their body that has not been tested long enough and in some cases even led to death as with my friend's healthy son who died one day after being vaccinated.

Written Testimony I strongly oppose this bill as it is against my constitutional rights and freedoms. Why should we be mandated to take a vaccine that hasn't proven to make a difference between getting Covid-19 or not. I am a military service member and I didn't sign my contract and risk my life to have my freedoms taken away. I oppose this and anything else that takes the basic rights of me and my family away from me.

While I support the vaccine, I do not support a vaccine passport. I fear that certain establishments could use it to discriminate and exclude certain persons. I believe this will potentially lead to a violation of civil rights. For those history buffs, this is reminiscent of the "star of david" before the Holocaust, which was less than 100 years ago.

As a person who has studied Human Behavior and Evolution, psychology, (and now Behavior Analysis) for many years, I can testify that this will be used by some to exclude, not to include.

While the intent may be to simplify, human nature dictates that it can and will be misused to benefit or to discriminate against certain persons.

Hawaii has largely been pro-civil rights, freedom, and liberties. This would be a different and less "Hawaii" direction, in my opinion.

Thank you.

This completely goes against the freedom to choose! There has been sickness and viruses since the beginning of time and it's a god given right to visit the places that we choose knowing fully well that there is a risk with making any transaction with life. To limit people from being able to choose for themselves where they can go is segregation. The power should stay in the peoples hands to choose if they want to go to an establishment that has vaccinated people or non vaccinated people and to create laws and restrictions around this right is asinine. This agenda is about controlling people and businesses and the government trying to overstep citizens' freedoms in an attempt to further their power and authority into people's lives and it's WRONG!

I am a stay at home mom of one (my daughter attends Waikeke Elementary) former active duty military family/wife (my husband is a disabled veteran) and we reside in beautiful Waikele.

You maybe a speaker, but you Do Not speak for me and many other residents across the islands. These vaccine passports that you suggest in order to just grab some noddles is unconstitutional, against the American Disability Act, and it is MEDICAL RACISM

Written Testimony

You see, I am ADOS, Black American. I can trace both sides to plananations in the south; one in South Carolina, and the other in Arkansas. I know the brutal experiments that were done my ancestors in the name of "science" and it secretly still happens today. I encourage you to read the book Medical Apathied. It was one of the most difficult books to get through.

I cannot imagine going around the corner to my local foodland to get apples for my daughters lunch and they ask me for my card/papers. That is equivalent to if someone caught you out minding your business as a black person, you would need to show them your freedom papers. Can you imagine the media blitz that that this state could receive not allowing a black mother to purchase fruit? You will no longer be seen as this utopia of diversity. Because if this nonsense pass, get ready for this. No cahsier should know MY personal medical business. What is next? The whole store knows when my last menses was? None of your business right? Exactly.

I have traveled to 27 nations and observed many cultures and governmental structures. Some I would deem beautiful and some I would never want to live under the oppression of.

Most of the things we know as rights in the United States are actually privileges unique to the United States and not universal rights.

One universal God given right that I observe wherever I go is the right to choose what happens to your own body. When one imposes their will against another's body we can universally feel the violation of a human right. When a person is raped or a child is beaten or a shooter enters a school we have a natural reaction to deeming that act wrong and in violation of basic God given rights.

Written Testimony

The act of forcing or punishing people into being vaccinated removes their ability to choose what happens to their body. Perhaps it is not as violent as rape or brutality but it does carry the same coercive nature of manipulation and control that happens in other relationships of dominant power differentials (children threatened into participating in acts they do not wish, men or women threatened by their partner to comply or miss out on a feeling of safety and security).

We can do better than this. We are US citizens and even more so... we are Hawaiian citizens ... the nature of Pono and Aloha is honor. Whenever you take away someone's ability to choose, you have removed honor and left off Pono and Aloha.

Hawaii without Aloha is a sad thought ... we are to lead ... we are to lead with honor.

To control the rate of infections you need to test people coming into the state, vaccinated or not. Recent published studies in Israel and Ireland show that vaccinated people can catch and transmit the Delta variant of COVID-19. With all the emergency funds from the federal government available to the state, why hasn't the state's testing capability been expanded? Your actions seem focused on punishing people who chose to protect themselves in ways different from your way. When fishing , sometimes to get the desired result you need to try a different bait. Written Testimony

Dear Representatives,

I am strongly oppose to mandating vaccines and our government imposing any type of "vaccine passports."

When an individual visits his or her healthcare provider, the professional and ethical provider will develop a plan of care tailored for the unique needs of the client. To use the logic "everyone needs this remedy" (vaccine) aka "Everyone is doing it" is unprofessional, unethical, irresponsible, and downright dangerous.

Vaccine Passports (cards, etc.) are wrong. They violate a person's right to privacy by coercing the individual to share his or her personal medical information with random, non-medical people, in order for that individual to continue to function normally in society. The individual is forced to "voluntarily" give up his or her right to privacy. Furthermore, the individual's Constitutional rights to Life, Liberty, and the pursuit of Happiness are impeded. It is interesting to note that it is this particular committee who will be reviewing resolution 21-194. Transportation: Vaccine Passports will restrict the freedom of some residents who may need public transportation to and from work and school. Sustainability: Hawaii's workforce will be impacted at a time when our economy is greatly suffering. Health: The vaccines have been used for less than a year and there is no conclusive intermediate or long term data to demonstrate that these vaccines are truly safe and effective. Short term data is not sufficient and therefore should not be the basis for making such vaccines mandatory, especially in order to allow individuals to participate in society. I strongly encourage all representatives to critically consider all viewpoints. There is always more to learn and we do not have data to understand the future impact of these vaccine on society's health.

Our officials have been expressing much concern about our families moving away from Hawaii, especially our Keiki. Personally, I know of at least six families who have moved to various places on the Mainland, this year alone, in large part due to the ongoing restrictions and economic hardships imposed on Hawaii's residents. One of those families has twelve children.

Is this the direction we want for Hawaii? I hope not.

Thank you for prayerfully considering not supporting Resolution 21-194, for the sake of Hawaii's future.

Kay Sooto

Written Testimony

I, LEA BRIGHT-ASUNCION STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Written
Testimony I strongly oppose of this bill. I believe everyone has a right to their bodies, it seems like you guys are trying to push your beliefs & how you feel on to others & thats not fair. Everyone should have a right to say whether or not they want to get the shot. So now you guys are requiring businesses to ask us for our vaccine passports & thats not righ! I feel like you guys are putting the unvaccinated in a category & making people that are vaccinated turn against us, & making us feel lile we have no right or are below all others that got the shot because now they can go into businesses freely. We all have rights & you guys are taking them away !!!

I have chosen for myself to get vaccinated, however, I believe it is an invasion of privacy and human rights to "require" someone to get vaccinated or to ask anyone to provide documentation of their personal health information in order to have access to public places and resources. I strongly oppose a mandate that would implement such restrictions on human rights and personal health choices. That said, I do believe we as citizens have a moral obligation to keep one another safe, so I am for wearing masks and providing a negative Covid test results when necessary, such as for travel.

Aloha,

I am opposed to resolution 21-194. I ask that you reconsider putting this resolution into motion. I don't feel that requiring everyone to be vaccinated is right. You are putting businesses and communities in danger.

I feel like you folks should be focused of vaccine safety and informing our community of the possible side effects. Focus on treatment options. Do more research!

People who have had covid have already built natural immunities towards it! The vaccine do more harm to these individuals. This is a 99% survivable virus. Why does it require such a drastic action?

Written
Testimony

Our islands are special and what makes it so is our people. The way we were raised is very different from elsewhere in the world. Implementing your program will discriminate against the unvaccinated individuals. You are causing segregation again yet instead of "black and white" it will now be "vaxxed and unvaxxed". This is tyranny!

Please do your due diligence and take the time to really research alternative ways to deal with this virus. You can lower the burden on hospitals if you allow different treatment alternatives such as antibodies and ivermectin. Even personal oxygen concentration devices will help to alleviate hospitals.

My household has been following your mask mandates, washing our hands and keeping socially distant. We have been staying indoors as much as possible. Why are we being punished?

I have 5 kids. You won't allow us to do activities because I choose not to disclose our vaccination status? Why? Because we're the cause of viral spread. It's already been proven that vaccinated or not; we're all spreaders.

Again, please do your research. Find alternative ways to resolve this issue. There's a better way than causing segregation amongst our communities. I am disappointed in the way leadership has been handling this. We voted for you leaders with Hope's you would protect us. This is not protecting. This is dividing.

Please. There's other ways. Resolution 21-194 is not the way.

Mahalo,

Lilinoe

Testimony

On behalf of myself and my 'ohana, I am against dividing and segregation in Hawaii. As stated in the bible Jesus says in Mark 3:25 "and if a house be divided against itself, that house cannot stand." We need to work together and unite to fight covid-19. Our family is pretty healthy and put our faith and trust in Jesus Christ. We stand firm on our beliefs and feel that it is unjust to impose another's beliefs on us. There is mutual respect and appreciate that in return. We live in the land of the free and home of the brave. Our people is what makes America great and we will unite to make it great again!!! Stop causing division by giving preference to the vaxxed. Science and evidence shows that both vaxxed and unvaxxed can get and spread Covid-19. I want my freedom and I want it now! I pay the same taxes as everyone else. Stop the discrimination!

I oppose the resolution because it is treating citizens differently based on policies which do not cite to scientific studies.

One only needs to look at Israel, which is now requiring a third booster for their vaccine passports. There will never be an end to this cycle. At the end, please see a statement from the Chief Epidemiologist of Iceland, a country with one of the largest percentage of fully vaccinated people indicating that "herd immunity" must be achieved by virus transmission. The vaccines do not prevent transmission of SARS-CoV-2. Israel has proven this as it is now requiring a booster for vaccine passports.

1. Many studies confirm that natural immunity from infection confers longer lasting and stronger protection against SARS-CoV-2 infection than the "vaccines." If a vaccine passport is required for entry, Covid-19 recovered should be exempt.

A team of international scientists identify natural SARS Cov-2 super immunity against 23 variants. The study is published in the Journal of Science.

<https://www.science.org/lookup/doi/10.1126/science.abh1766> (Document 1)

See Israeli preprint study showing natural immunity appears to confer longer lasting and stronger protection against SARS-CoV-2 infection, symptomatic disease and hospitalization from the Delta variant compared to Pfizer-VioNTech's two-dose vaccine-induced immunity. August 24, 2021

<https://www.medrxiv.org/content/10.1101/2021.08.24.21262415v1> (Document 2)

Antibody responses following SARS-CoV-2 infection are more potent than vaccine elicited ones.

See "Anti-body Evolution after SARS-CoV-2 mRNA Vaccination" by Cho et al July 29, 2021

<https://www.biorxiv.org/content/10.1101/2021.07.29.454333v1> (Document 3)

2. The CDC acknowledges "vaccinations" do not stop transmission of the virus. Therefore vaccinated are just as likely to transmit the SARS-CoV-2 virus as the nonvaccinated. Therefore, there is no basis for distinguishing between the two.

CDC Director Walensky stated herself "if you have one of those breakthrough infections, you can pass it to someone else." See Delta Variant: What We Know About Science August 6, 2021

<https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html> (Document 4)

A study by University of Oxford scientists has found that people who contract the Delta variant of COVID-19 after being fully vaccinated carry a similar amount of the coronavirus as those who catch the disease and have not been inoculated.

The survey of real-world U.K. data indicates, however, that vaccinated people with "breakthrough" infections could still pose a significant infection risk to those who have not been vaccinated.

"With Delta, infections occurring following two vaccinations had similar peak viral burden to those in unvaccinated individuals," the study, which has not yet been peer reviewed, concludes. Viral "burden" or viral load refers to how much coronavirus-infected people carry and thus "shed," or release into the environment around them, where it can potentially infect others.

The data used for the study do not show how likely it is that a fully vaccinated person with the Delta variant can pass on the infection to another individual, compared to an unvaccinated individual with the virus. But the high viral loads found in the study are a strong indicator that the risks of transmission from both vaccinated and unvaccinated people with the Delta variant could be similar.

<https://www.ndm.ox.ac.uk/files/coronavirus/covid-19-infection-survey/finalfinalcombinedve20210816.pdf> (Document 5)

3. CDC relied upon faulty data to indicate that being unvaccinated is associated with twice the risk of infection than those being fully vaccinated.

The Study the CDD relied upon recruited 246 people with no prior SARS-CoV-2 infection, then vaccinated them. The Study: Reduced Risk of Reinfection from SARS-CoV-2 After Covid-19 Vaccination - Kentucky May-June 2021

<https://www.cdc.gov/mmwr/volumes/70/wr/mm7032e1.htm> (Document 6)

However, the disclaimer in the study also indicated: "We conclude that memory antibodies selected over time by natural infection have greater potency and breadth than antibodies elicited by vaccination."

4. Herd immunity through vaccination is impossible

Professor Sir Andrew Pollard

"Delta variant has 'ruined hopes of herd immunity' experts say" August 11, 2021

<https://www.theguardian.com/world/2021/aug/10/delta-variant-renders-herd-immunity-from-covid-mythical>

Iceland Chief Epidemiologist: "Herd immunity must be achieved by transmitting the virus" Arni Saeberg August 8, 2021

<https://www.tigerdroppings.com/rant/politics/breaking-from-iceland--we-must-allow-allow-the-virus-to-spread--finally-honesty/97663121/>

<https://riotimesonline.com/brazil-news/covid-19/herd-immunity-must-be-achieved-by-transmission-of-the-virus-says-icelands-epidemiologist/>

I oppose the mandate of vaccine (digital vaccine passport).

First it is against the science.

There are many Covid patients were healed by medications without vaccine. It's proven.

Second it is against the Freedom our forefathers fought hard for us to have and Generations to come.

Written Testimony

We have to have our freedom to choose
What is right for our body, health and our family.

Let our spirit of Aloha perpetuate!

Thank you for your work that works for people of Land of Hawaii and people!
People will remember!

Please do not create another Elite Class by Segregation, Political Mistrust, Divide and Tension for a pointless Vaccine Passport. This vaccine does not protect from Contracting or Spreading Covid-19. The Vaccine Passport creates a dangerous false sense of security. I work on the healthcare frontline and see both vaccinated and unvaccinated test positive for the Delta variant. Though I am vaccinated, I feel no safer with another vaccinated person than with an unvaccinated person for a reason. This vaccine only helps those to not get as sick. Again, it does not protect from contracting or spreading COVID-19. It is unethical for the government to destroy personal freedom of choice. We are all in this together as Covid-19 is not going away by excluding a minority group.

Written
Testimony

I do not support this idea of forcing people to have vaccine cards in order to go to certain businesses or restaurants. This is against the constitution. It will also cause discordance and prejudice among communities. This idea will set up people against one another and cause distrust and suspicion. This is not Aloha. This will cause hatred and strife among the communities. What people choose for their own health should not be information that businesses or individuals can access. I strongly oppose this Resolution 21-194.

Written Testimony

I oppose this bill in order to protect the individuals' right to decide what is put in their body. This is the only place where individuals need to have their sovereignty protected by the constitutional declaration of our right to pursue life, liberty and happiness. At the very, very least there absolutely, definitely needs to be a religious or spiritual exemption to any mandate to vaccinate. People should not have to choose between this vaccine and their livelihood. I understand that the hospitals are being maxed out, but the hospitals are performing their function to the best of their abilities for the purpose they are here for in a democratic society where these mandatory regulations ought to reflect the 40% resistance in a population that still does not have unified understanding of what is happening due to misinformation of media, of the conflation of numbers of those affected by covid. There are many who distrust western medicines' expediency and fiscal bottom line focused pharmaceutical companies and their rushed response to make profit off of this pandemic. There is much still unknown about the nature of the disease and the vaccine's unintended effects. Mandatory vaccinations with an ongoing number of follow up boosters are not desirable to a large percentage of the population choosing to be very discerning of what they put in their bodies. The self regulation that is possible with masks and staying socially distant should be maximized to the full. Infringing upon the right of someone to take in an medicine into their bodies should not be taken even as a last resort in a free society. No medicine is good for all people. Those who the vaccine is not good for ought be be able to self select out without threat of losing their livelihood.

Written Testimony

As a native Hawaiian, and proud American, I do not support the instatement of a Covid19 vaccination mandate. The proposition to mandate vaccinations for Covid19 by executive order is not just unconstitutional, it destroys the fabric of our Hawaiian islands and what Hawaii represents - aloha and freedom. In addition to the health risks that I'm certain you already have many testimonies surrounding, I am concerned by what this mandate will do to the flow of tourism - both domestic and international, our local businesses - most of whom are already suffering from lack of revenue and staff, and our state "aloha-meter" for lack of a better term. Our communities and immediate families are seeing so much contention that is ripping apart bonds of friendship, family, and partnerships. Ultimately, this mandate has already begun to destroy the aloha spirit in our state. It is a vile attempt at control and it is ruining our once flourishing connections. I fear it will have catastrophic effects on our economy and people. It is time to start bringing people back together, resolve the tension in our homes and streets, not destroying our liberties and encouraging aggressiveness by leading with tyrannical motions.

Written Testimony I am strongly opposed to this tyrannical bill for digital health passports. It is unethical, invades my privacy and is against my HIPAA rights. This bill is going to cause segregation among the community and may lead to civil unrest. The government is not protecting the people, but causing people to choose sides and eventually turn against each other.

Written Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidity with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization (which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come. Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debilitated and suffering. It is NOT PONO to mandate such a medical intervention unilaterally with such an alarmingly high rate of death and damage.

Please do the RIGHT thing for the people of Hawaii , and vote NO to vaccine passports and mandates, including for state workers, fire fighters, teachers and health workers.

- We the People of this Republic will not stand for violations to our medical sovereignty and will not comply with unreasonable and dangerous infringement upon our God Given rights to safety, choice and personal Liberty.

Thank you for taking this heart felt testimony into consideration.

I OPPOSE BILL 21-194

I strongly oppose Bill 21-194. My Dr advises against me taking any Covid19 vaccine due to my health. I have had anaphylactic shock twice because of ingredients in other vaccines, anti-inflammatory meds, respiratory medications, etc. My Dr says she is not privy to all the ingredients in each vaccine to feel confident that I won't react adversely to them. and I could very well go into anaphylaxis again and die.

So I strongly OPPOSE bill 21-194, or any other bill making it mandatory for a health pass/health passport/being vaccinated to live my daily, patron establishments, or travel freely.

Thank you,
Erica Barrett

I strongly opposed to this bill, because it takes away my freedom of choice. These mandates are illegal, the vaccines should be a choice not forced upon, and it should absolutely not be used with the abuse of power, which the Mayor, Governor and many of our city and state officials has done. It needs to stop now, before many people will be out of work, and businesses will be completely run down into the ground. Please be compassionate and understanding!

Mahalo,
Chauncy Bermodez

Written Testimony

#1 - Counties all over the USA in all 50 states, including here in Hawaii, have navigated through the COVID 19 pandemic before the experimental shot was issued via EUA. There is no justification for government to overreach and dictate who may or may not patronize private businesses based on medical status. This is discrimination.

#2 It is difficult to agree with government officials who are pushing a experimental shot that is manufactured by a pharmaceutical company that made monetary contributions to their campaigns. This is public record and appears to be a conflict of interest, including both the Governor and Lt Governor.

#3 The only experimental shot from Pfizer, which officials are calling a 'vaccine' is still being administered under the EUA. Under the Nuremberg Code a person cannot be forced to receive an experimental shot issued under EUA. The so called 'vaccine' approved to be manufactured by the FDA on August 23, 2021 is called Comirnaty, which isn't even available yet.

#4 Based on #3 alone no one should be discriminated against for choosing not to receive an experimental shot issued under EUA

#5 There are treatments available that has been proven to battle COVID 19 that the County of Honolulu has failed to advertise and have disallowed physicians at our largest healthcare facilities to administer without fear of retaliation or being fired.

- Japan has recently approved use of Ivermectin as a treatment
- Monoclonal Antibody Treatment approved under the EUA
- Encourage exercise and intake of certain vitamins to combat this virus

#6 It has been scientifically proven that even the so called 'vaccinated' population is susceptible to illness from COVID-19. So in reality the products being forced upon the population isn't really operating as a true 'vaccine'. How can you mandate this with a passport?

Digital "health" passports are medical tyranny, imposed due to psuedo science, based on lies upon lies. It has nothing to do with health or safety. Why on earth would you want to do this to people? To yourselves and your own families? What are you doing? Do you understand what is happening here? Do you care? What happened to your common sense? How about your ethics, your moral conscience? I oppose ALL mandates related to a nonexistent emergency being created for the sole purpose if enslaving humanity, this passport being one of them. For God's sake, STOP this NOW.

I strongly oppose this bill. We do not need to take away people's freedom to exist in society based on their medical history. Vaccines are a helpful tool to get through this pandemic, but absolutely should not be forced on healthy people. This bill makes zero sense considering you can still contract and spread Covid-19 after vaccination. These type of divisive proposals are the very reason for vaccine hesitation. In this time we need unity, not segregation.

I will not take a vaccine still in the clinical stages of testing and peer review that has caused more injury and death than any other vaccine since 1990. The pushing of this is political. Therapies exist and I stand by my 14th amendment right that I have sovereignty over my body. This is unconstitutional and illegal. You are setting individual rights aside for a political agenda that I will be no part of. Should this pass, you will be dealing with class action law suits. You were elected to represent the people, and those in charge are not! Hawaii residents have been abused enough at the hands of dictators who forgot (or never really intended) that they are meant to protect and serve the people of this state. You have failed.

I oppose Resolution 21-194.

1) The ability for an individual (myself) to chose what to put inside or not inside my body is and should be my choice.

2) The vaccines have not been proven to be effective as stated by the most recent CDC board members. Vaccinated individuals are still contracting and dying from Covid 19 and its mutating variants proving the ineffectiveness of the vaccine. Vaccinated individuals are an additional source to increasing spread of the the Corona virus.

3) The mandate for Vaccine Passport is unconstitutional. This mandate takes away my right to go and get essential things like food, water, without the invasion of my privacy (medical status) for my family. Medical status should not prevent my access to resources and should not prevent a persons right for employment.

4) The Vaccine Mandate restricts me from doing something to promote my physical health, exercise, by preventing access to my health club. This is completed nonsense.

5) If the state representatives were really concerned about the health and safety of the Hawaii community, they would be more proactive with promoting health and incentivizing heathy living, like exercise, healthy diet, mental health emotional support, addressing obesity, addressing diabetes, etc. More importantly, they would stop the transportation of infected individuals through incoming travel to the State of Hawaii.

For these reason, I absolutely, strongly oppose RESOLUTION 21-194, mask mandates and feathering restrictions.

I've been operating my business during this entire pandemic as well as following all the safety guidelines put in place and I have been a covid-free establishment.
I've shopped at the malls, big box stores and I finally went to see a movie in the theater...and no covid.

Written Testimony I do think the hospitals need to step it up and realize that covid is here to stay. If they continue to do business as usual pre-covid, we will always have a shortage of beds, ICU, etc.

Thank you for taking the time to read my testimony.

This resolution would cause a greater divide in our community and is discriminating against unvaccinated individuals. It is a fact fully vaccinated people get sick from covid and unknowingly pass it on to others as misinformation leads them to believe they are safe. The system already is difficult to get a valid PCR covid test and lack of supplies and limits are on home test already. Why not also promote antibody testing which is the intent of vaccines and duration of test result would last longer than 48 hrs. Please promote community & not separation.

To whom it may concern,

I feel like this vaccine passport is discriminatory to those who have not got the vaccine. We live in the United I States of America- land of the free! These types of acts you are “mandating” are similar to the segregation of the African American people, Nazi Germany, just to name a few! Why are we repeating history? You know how detrimental these events were for those people living during those times.

Written
Testimony

Please ask yourself if this really about the virus. We have never done these extreme measures for any other virus, flu, sickness, etc! I’ve done research and one of the reasons this sickness has caused so much pain and suffering is because the media continues to promote it. The media has been promoting it for the past year and a half and that has to stop. People are watching this everyday of their lives and three times a day. The media has rarely ever promoted HEALTHY living and what people can do for that. The media constantly talks about the deaths and the ##### cases. You guys should require them to broadcast on this topic much less then they are. The promotion of this virus is causing unnecessary stress which in turn weakens the immune system.

1. Your Stress Level is Sky-High

It’s not a coincidence that you tend to get sick after a big project at work or following an emotional situation at home.

According to a report by the American Psychological Association, long-term stress weakens the responses of your immune system.

“That’s because stress decreases the body’s lymphocytes, the white blood cells that help fight off infection. The lower your lymphocyte levels, the more you’re at risk for viruses like the common cold,” explains Nadia Hasan, DO, a physician at Delancey Internal Medicine.

<https://www.pennmedicine.org/updates/blogs/health-and-wellness/2020/march/weakened-immune-system>

People are constantly thinking about this virus, now they're talking about it with family/friends and getting into unnecessary conversations. The media is dividing us. Please consider this. The solution is not this passport, the solution is to stop promoting this virus. In turn, people can ALSO stop consuming themselves with these topics as well. They also don't need to watch the news, but they choose to do so because they think the news has their best interest. THE MEDIA DOES NOT. Do something about that!

Thank you for your time.

Definitely Want the freedom to make a Choice to have the vaccine or not. My Daughter was considered exposed and Came into Close contact with a classmate who is FULLY Vaccinated but caught COVID. Now to the students that were exposed/came into close contact with the ACTIVELY infected, ONLY the Vaccinated were able to return to school and any student that was NOT VACCINATED and had NO symptoms along with a NEGATIVE test result, was REQUIRED to quarantine for the 10 days. Speaking for my Thriving Daughter/Student, this is UNFAIR because now it affects her education unnecessarily. How about all these elementary children who are NOT Vaccinated? They don't know of Personal space, which is why UKUs(Head lice) spread so easily among the elementary kids. It really comes down to allowing the people to make a choice for themselves and their families. Its not about anti-vaccines or Pro-Vaccinations, IT'S ABOUT CHOICE! and being able to RESPECT each other's CHOICES. PLEASE allow us to right to choose.

Written Testimony

Aloha,

We're writing to you out of concern over Governor Ige's August 5, 2021, Emergency Proclamation Related to the COVID-19 Response, in which state employees are being required to attest to their vaccination status. One of us is a state employee and the other works from home full time. One of us is vaccinated and the other is not vaccinated. We are parents to a beautiful and brilliant elementary-aged child. And not that it should be relevant to this topic, but for context, we do not identify as political conservatives or democrats, we are independent for many reasons. Becoming vaccinated was one of our rights and choice, and a decision one did not make lightly. The other is an elementary teacher with the Hawaii Department of Education and has for their own personal reasons and fully within their rights elected not to receive the vaccine at this time. However, based on Interim Superintendent Hayashi's August 13, 2021, memo outlining the requirements, it is clear that the enforcement of this proclamation within the Department of Education is actively discriminatory against individuals who are making this decision, or who are for medical reasons being advised by their healthcare providers not to receive the vaccine because of complications that can arise from it.

There is an inherent flaw in the logic of the proclamation in assuming that vaccinated individuals need not be regularly tested for COVID-19. These vaccines, though effective, are not a panacea, and we're seeing that prove out in what's happening in the schools right now. The now-FDA-approved Pfizer vaccine is by their own admission "Based on results from the clinical trial, [...] 91% effective in preventing COVID-19 disease." That percentage only considers the original version of the virus, and not its variants. One of us works for one of the largest elementary schools in the state, a student body whom because of the age requirements are ENTIRELY unvaccinated and unable to be. There are over 100 employees, substitutes, and volunteers there. For two weeks, the classroom in which one of us teaches in, with a roster of 24 children, had at most 8 in attendance due the propagation of the virus at the

school. By those numbers, even if every adult on that campus were vaccinated, roughly one in ten of them will get (and in some cases have already gotten) COVID-19 from being needlessly exposed due to woefully inadequate testing and reporting, unsafe and unsanitary working conditions, and overcrowded classrooms. Because of these factors, you have knowingly and willingly created this super-spreader event and put hundreds of people at risk of severe sickness, permanent injury, and death.

Mr. Hayashi's memo states, "Employees who do not choose to become COVID-19 vaccinated are required to be COVID-19 tested weekly at the employee's expense and during non-work hours." As I know you are aware, teachers in Hawaii are grossly underpaid compared to the rest of the United States, and HDOE employees are frequently the first state agency to be subject to layoffs, furloughs, and pay cuts when state finances are mismanaged or struggling. Yet here you are forcing them to get tested on their own time and their own dime. It's cruel and unfair. If schools are to remain open, and if you're interested in protecting ALL your employees, not just the ones who have chosen to get vaccinated, and showing true leadership in action during this pandemic, testing should be provided by the DOE on-campus and free of charge to all employees, regardless of vaccination status.

Though this vaccine is approved, tested, and widely deployed, its long-term effects are unknowable, and can only be proved out with time. Many people do not feel it is worth the potential risk. It's not a conspiracy theory; it's a choice, and one every human being has the God-given right to make, and a freedom you are obligated by your sworn oath to protect. But here, in an environment where educators are teaching our children how to deal with and dispel bullies, they themselves are being bullied by those same leaders into making a decision for their bodies they do not want and shouldn't have to make.

The teacher in this household is considered by their peers to be one of the best teachers in their school, an opinion corroborated by the performance reviews of their supervisors. Their natural talent, genuine empathy, and efficacy in their field are unparalleled. Yet because of this, you have threatened them with "disciplinary action, up to and including termination", an action that will have irrevocable impact on the lives of the children whose education they've been entrusted. It would be an utter travesty, and I urge you to reconsider your position on this proclamation. Protect your employees. ALL of your employees in ALL of the different branches. Protect our children. Do the right thing.

Sincerely,

Concerned spouses, parents, and citizens of Hawai'i

I am vehemently opposed to a covid passport mandate. This is a further infringement by the government on our civil liberties.

I am not alone in this opinion. For a more global perspective please peruse the following salient remarks found during a cursory online literature review:

"It's one thing to have a passport to travel internationally, that is a privilege, even a luxury, but participation in local community life is a fundamental right." Covid passports are "a recipe for bullying, it's a recipe for corruption, it's a recipe for discrimination and it's not what we sacrificed so much for as a community over the past year." Baroness Shami Chakrabarti

"As we start to get this virus properly under control we should start getting our freedoms back. Vaccine passports - essentially Covid ID cards - take us in the other direction." Sir Ed Davey

Written Testimony

The ostensible purpose of a passport is to speed up and simplify travel. However, the idea of a covid passport is "a threat to the choice and freedom of those who may choose not to get vaccinated, issues of freedom and issues of government overreach." Brian Castrucci and Frank Luntz

The World Health Organization and other experts say that's a terrible idea.

"So many flaws that it is hard to know where to begin," molecular biologist Natalie Kofler, founder of the global initiative Editing Nature, and Canadian bioethicist Françoise Baylis, said in a commentary published in Nature.

So many unknowns: For starters, they wrote, it's not clear whether people develop any kind of lasting immunity after a coronavirus infection. The World Health Organization has warned governments against issuing immunity passports, saying there's no evidence people who have recovered from Covid-19 are protected from a second coronavirus infection.

The tests can't be trusted: Then there's the fact that while antibody tests are crucial in

determining past exposure to coronavirus, not all available antibody tests are reliable. Some antibody tests had high rates of false positives in screenings performed by a consortium of California laboratories. A false positive means someone would be told they'd been previously exposed to coronavirus when they had not.

Nor are they available for everyone: There aren't enough tests for everyone who needs them. In the US, more than 1.5 million people have tested positive for coronavirus. The current calculation is almost certainly an undercount, said Dr. Peter Hotez, professor at Baylor College of Medicine.

There are not enough survivors: If only coronavirus survivors are allowed to contribute to the economy, there won't be enough manpower to keep it humming. "Low disease prevalence combined with limited testing capacity, not to mention highly unreliable tests, means that only a small fraction of any population would be certified as free to work," they wrote.

Privacy's a concern: There's also the issue of privacy. Ethically, they argued, monitoring erodes privacy.

So is marginalization: Monitoring people to see who's immune would affect already marginalized groups. We've already seen this during this pandemic when more blacks and Hispanics were arrested for violating physical distancing laws in New York. "With increased monitoring comes increased policing, and with it higher risks of profiling and potential harms to racial, sexual, religious or other minority groups," they wrote.

And labeling, too: It'll create even more divisions. "Labeling people on the basis of their Covid-19 status would create a new measure by which to divide the 'haves' and the 'have-nots,'" they added.

More discrimination: New forms of discrimination could emerge as any program for certifying immunity could be expanded to include other forms of personal health data. "The immunity passports of today could become the all-encompassing biological passports of tomorrow," they wrote.

Willful infections: Finally, immunity passports could encourage people to get infected on purpose. "If access to certain social and economic liberties is given only to people who have recovered from Covid-19, then immunity passports could incentivize healthy, non-immune individuals to willfully seek out infection — putting themselves and others at risk," they wrote.

Please vote no to covid passport mandates.

Mahalo,

Bill Melemai

It is illegal to ask for our medical records, it violates privacy and property rights as protected by state and federal law.. A retailer can not deny entry based on vaccination status. Specifically:

- 1.. The Fourth Amendment of the U.S. Constitution states, "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated."
2. Title III of the U.S. Civil Rights Act prohibits discrimination based on medical condition (i.e. unvaccinated) in private businesses such as grocery stores, banks, restaurants, hotels, retail stores and all public facilities including schools.

Written
Testimony

3. Any person who violates your rights can be held liable under Title 18 USC Section 242, deprivation of rights. Penalty for this crime can include life in prison or death penalty.
4. It is ILLEGAL to require proof of vaccination as a condition for entry or service to any private business or public establishment

In addition, this "shot" which is not a vaccine has killed 45k people according to a lawsuit filed in Federal Court, Hawaii District. Case 1:21-cv-00343-DKW-RT

The virus has never been isolated, there is no proof that it exists. Requiring a shot for something which doesn't exist is immoral and criminal. You are not serving the people who you are suppose to serve by even considering this shameful resolution, so I ask, who do you serve and protect, it's not the people. I submit that you follow the money and find out who is paying our government for this fraudulent action and behind it you will find Big Pharma.

Written Testimony I strongly believe that segregating American citizens based on their medical records is unjust, immoral, and dangerous. It also shows a strong semblance of government and medical tyranny based on fear and corruption. A step in this direction will open the flood gates of totalitarianism and unlawful persecution of the innocent dissenter. I strongly appose this unlawful resolution

Written Testimony

Hello. I opposed of the digital vaccine passport. I work in the health care field. Lots of my patients are vaccinated. I feel people will have a adjustment disorder. That a serious diagnosis with depression too. With more mandates. The digital vaccine passport. It a waste of tax payer money. Many of my patients would not don't know how to use there phones. Also my patients don't have smart phones. For my own experience. I have help patient getting health APP on there phone. I'm willing to help patient that ask. I'm sure not all clinic are like that to go up and beyond. To do all this types of requests. I live in a multi generation home. I have a elderly mother. We take all the safe protocols when we leave the house. For me at work. I work in the health care field as I stated. So I have to follow sanitize protocol at work. I apply at home too. When we come Hawaii. My family put our clothes in a garbage bag in the hamper. Take showers. We don't sit with my mom anymore. When we go outside I wear 2 mask and clear glasses. My son when he goes to highschool, he wear 2 mask. I ask him to wipe his desk. I bought him a box of the go wipes. He also sanitized his hands after each class. I also ask to wash his hand and arms using a surgeon technique at lunch time. I pray to god to protect my family and the whole world we don't get covid. Hawaii at 70% vaccination rate. That good. Also Hawaii one of the top states to be vaccinate. This past weekend, I drove by Waikele vaccine clinic. It look busy. With the upcoming mandates, I believe it will slow down the spread. Lots of homes are multi generations homes. Maybe setting quarantine quarters. Or hotel rooms. Another thing to consider is to make vaccinated incoming people coming to the island, take a PCR Covid 19 test. Doing another test on arrival setting at airport rapid PCR test. Charging the incoming traveler. State of Hawaii can spend there money better. I believe you need to add treatment center for covid, and testing. Please don't make a vaccine passport. Thank you for reading my testimony.

Written
Testimony I strongly believe that passing this bill into law is unnecessary and ineffective. You should allow more time to reevaluate the situation and open up to other opinions instead of suppressing the voice of the opposers. This bill will rob the freedom of choice and voice from most citizens and it would seem that our government is becoming a dictatorial government. I oppose to this bill for reasons that I've known personally many family and closed friends that are fully vaccinated and yet became very ill. If the vaccine didn't prevent or lessen the affect for these people, why would I believe that it would do the same for me? It is no different from me contracting the virus and became sick without getting vaccinated.

Written Testimony I oppose this resolution because many restaurants and businesses have already suffered economic hardship due to mandates by the state. Forcing a vaccine passport requirement will not only impact people emotionally and religiously, it also causes segregation and discrimination. Discrimination according to beliefs and medical choices. CDC has clearly stated that you can still get and transmit covid 19 even though you are vaccinated. Vaccination segregation creates false safety measures.

To the Constitutes of our Hawaii Government/Council:

You are the men and women who we put our trust and loyalty in for making the grand decisions for the best interest and well being of our community. It is concerning that our human right and civil liberties are being stripped and violated for highly bureaucratic motives. Not for the people!!!!!!

I am writing this letter in opposition to the Vaccine Pass program! This is more tyranny by creating absolute FEAR among communities and families enforcing a stigmatized division among the vaccinated and un-vaccinated people of Hawaii.

I want to share categories of FACTS that I know for the life of me you have heard more than once and have not consider the benefit of the doubt that the COVID-19 vaccine is not a viable solution but is the death wish for all humanity. I want to state factual categories why there are contradicting information on the COVID-19 vaccine, and it should have never ever been administered and later MANDATED!!!!

The experimental vaccine by the agenda driven Pharma's like Moderna, J & J, and Pfizer are criminal!!!

SCIENCE FACTS:

-Side Effects of the COVID vaccine (SARS 2)-

- *Fatal blood clots that commonly affects the heart and brain resulting IN cardiac arrest and a stroke

- *Increased of spike proteins migrating to the organs and especially productive organs, reducing sperm production and ovary disease.

- *Increases risk of Cancer

- *Severe side effects of Myopericarditis (inflammation around the heart) are being reported and confirmed on average teenagers. We are talking about teenagers that are now being mandated to take the shot with all this concerns or even fatal reports. This is LUDICROUS!!!! There are reports that the youth's immune system is 99.8% beats COVID 19 naturally. Why you want to change that?!

- *Auto immune diseases within 2- 3 years for the vaccinated

Studies that 80% Of women in their first trimester who were vaccinated miscarried up to the middle of their pregnancy. The cells that made up the placenta; life force for the baby is destroyed by the spike proteins. There is no conclusive study that COVID 19 is safe and affects fertility in women.

The vaccine produces a ADE (auto dependency). That means more variants are being produced by the vaccine. That will lead to more shots and boosters planned by false reports that the "variant" is deadly. How does that make sense?! Why have more shots when it is against us!!!

Medical experts, doctors, and scientists have come forward and made a point to disclose the horrific side effects of the vaccine to the Senate and absolutely nothing was done about it! There is suppression of information of the true side effects from this deadly vaccine.

WITH ALL HAVE BEEN SAID AND REPORTED ON SIDE EFFECTS—WHY WOULD YOU RISK IT!!!!

THERE ARE REPORTS OF WAYS TO PREVENT, EARLY TREAT COVID, AND SUSTAIN YOUR IMMUNE SYSTEM, BY CERTAIN DOSAGES OR ENZYME, VITAMIN C, A, D3.

LAWS:

The Nuremberg Code was established to carryout medical ethics for medical programs and experiments not forced or coerced toward human beings. There are 10 principles that were widely accepted by the World Health Organization (WHO) and the United Nations, Educational, Scientific and Cultural Organization (UNESCO). Ultimately, the ethical principles and guidelines of the Nuremberg Code

The vaccine is less than a year old and classified as experimental, can be considered by FDA for full licensure (adults only) is when the trials are expected to conclude on Oct 27, 2022, and January 31, 2021 for Moderna and Pfizer respectively. FDA approved the COVID SARS 2 vaccine for ages 16 years old and older. This contradicts all have been said about EUA versus FDA. Please see the LIGHT!

The EUA; Emergency Use Authorization is the mechanism to facilitate the availability and use of medical vaccines during public health emergencies. The FDA may allow unapproved vaccinations when certain criteria have been met to diagnose, treat, or prevent life-threatening diseases, to include there are no adequate, approved, and available alternatives. Thus, the contradiction that these products or vaccines are approved under an EUA means these products/vaccines are investigational and experimental, studies were not completed. There are available alternatives that were approved and went through medical trials for years such as Hydro chloroquine and Ivermectin.

Since EUA means the product/vaccine is investigational and experimental only and approved for emergency use, it is prohibited from being MANDATED by federal law, and individual consent to use the experimental product. Informed consent to individuals has the option to accept or refuse the product!

It is unlawful that the State of Hawaii is mandating a vaccine to the employees where either you take the vaccine, have tedious measures to take weekly covid-19 tests or it will be grounds for termination. It's hard enough a lot of employees work hard as civil servants servicing the public to honor the State, and we have no SUPPORT!!!! This is unlawful under the SCOTUS Law that protects the individual liberty to choose medical treatment.

. Is this MUTUALLY EXCLUSIVE OR OXYMORON!!!!

Record Keeping & Documentations:

CDC records on sites are skewed and not correlating with actual numbers of covid-19 patients who were admitted, treated, and died

The VAERS results are true to relate the deaths are 100x more a death rate by the COVID shot versus the Influenza shot.

Unvaccinated people are being misrepresented and mistreated in the workplace and in society!
Inconsistencies on what is and not allowed in the workplace and community as to exposure, quarantine,
and safe practices, PPE is so coagulated that it MAKES NO SENSE AND LOGIC!!!!!!

All of this is OPPRESSION, SUPPRESSION, STRESS AND DURESS!

This is human experimentation is next to genocide. There is ZERO justification why this deadly
vaccination still not pulled but now a MANDATE?!!!!!!

WE ARE THE PEOPLE OF HAWAII AND WE NEED TO BE AS ONE COMMUNITY HELPING EACH OTHER AND
WORKING ON COHESIVE AND COMPROMISED RESOLUTIONS. THE HAWAII PEOPLE MAKE HAWAII
WHAT IT IS...THE ALOHA STATE. WE WILL LOSE OUR HAWAII PEOPLE IF MORE MANDATES ARE
ENFORCED AND VIRUS PASSPORTS ARE CREATED. WE LOSE OUR PEOPLE WE LOSE HAWAII. IT WILL
NEVER BE THE SAME!

LOOK AT IT LOGICALLY AND MAKE A STANCE FOR OUR PEOPLE THAT ALL HAS BEEN SAID ABOUT THE
COVID VACCINE IS A LIE AND CORRUPTIVE!

SAVE OUR CHILDREN AND SAVE HAWAII!!!! IT IS YOUR DUTY TO EDUCATE AND RESEARCH FOR THE
PEOPLE.

STOP MEDICAL APARTHEID= A SYSTEM THAT DISCRIMINATES AGAINST OTHER HUMANS!!!!!!

Meeting Date 09-02-2021
Council/PH Committee Transportation, Sustainability and Health
Agenda Item RESOLUTION 21-194
Your position on the matter Oppose
Representing Self
Organization

Here are the reasons why I am opposed to this resolution:

1. This is medical discrimination against those who got advice from their medical doctor and cannot get the vaccine. According to Title III of the American With Disabilities Act (ADA) "Title III prohibits discrimination on the basis of disability in the activities of places of public accommodations (businesses that are generally open to the public and that fall into one of 12 categories listed in the ADA, such as restaurants, movie theaters, schools, day care facilities, recreation facilities, and doctors' offices) and requires newly constructed or altered places of public accommodation—as well as commercial facilities (privately owned, nonresidential facilities such as factories, warehouses, or office buildings)—to comply with the ADA Standards."

Written
Testimony

2. This is a violation of the United States Constitution. The Fourteenth Amendment of the United States Constitution clearly states "ALL persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. NO State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, LIBERTY, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

According to Cornell Law Legal Information Institute, "As used in Constitution, liberty means freedom from arbitrary and unreasonable restraint upon an individual. Freedom from restraint refers to more than just physical restraint, but also the freedom act according to ONE'S OWN WILL"

3. The vaccine was NOT designed to stop transmission or reduce your chance of getting the virus and it is not doing that currently. According to a press conference with Hawaii's

Department of Health Director, Elizabeth Char, you can still get COVID and the Delta strain even if you are fully vaccinated, especially if you are not wearing a mask. When we look at the data from Israel who has significantly higher vaccination rates, they had 27 times higher risk of symptomatic COVID infection. According to the CDC director, Rochelle Walensky, "High viral loads suggest an increased risk of transmission and raised concern that, unlike with other variants, vaccinated people infected with Delta can transmit the virus." While in Hawaii the media is claiming that a majority of those in the hospital are unvaccinated, we know of cities across America where it is the vaccinated that are filling the hospitals. There are reports of cruise ships with 100% of guests and staff are fully vaccinated and yet there are "breakthrough" cases on these ships. Proof that the vaccine does not guarantee anything.

4. The clinical trials for the vaccine are not over. According to the FDA fact sheet for Pfizer (the only approved FDA vaccine) clinical trials will not be over until 2023 or 2024. So why mandate something when the clinical trials are not complete. We should be waiting for ALL clinical trials to be completed so the people of Hawaii can make the best informed decision. The other two vaccines are still not FDA approved which means all citizens are required to receive informed consent about the risks, benefits and alternatives and make a decision after that.

5. There are no FDA approved COVID tests. Again this means every time someone receives a COVID test, they are required to receive informed consent about the risks, benefits and alternatives to the test.

ALTERNATIVE SOLUTION:

Focus on healthy choices instead of medical interventions. It is a well-known that many people who ended up in the hospital and died from COVID (not with COVID) also had at least 2-3 health conditions. We also know that weight and obesity plays a huge role in someone being able to fight COVID. Why don't we educate and encourage the people of Hawaii to stay healthy? Why don't we help people eat healthy, locally grown food instead of buying out at McDonalds or Zippys? Why don't we tell people to get sunshine everyday? Why don't we encourage physical activity like going for a walk around the block? Why don't we encourage people to stay hydrated and get good sleep? Since this virus has over a 99% survivability rate for anyone under 50, we can beat this by keeping our bodies health now!

We live in the United States of America, where we should have the medical freedom to make decisions for our own bodies. We believe in the opportunity to choose what is best for us in every aspect of our life. It is never right for the government to regulate what we do and where we can go.

Written Testimony

Please oppose this mandate for a digital vaccine passport program. We have human rights as to what can be put into our own bodies. Many of us have compromised immune systems that prohibit the introduction of anything that could cause a detrimental immune reaction. There are international laws regarding these types of mandates. The United Nations adopted the International Covenant on Civil and Political Rights in 1966 and the International Law Commission in 1950, adopted the Nuremberg Code. Please read these documents. This bill completely violates The American Disability Act. This bill violently violates our 1st and 4th Amendments.
Please oppose this dangerous bill.

Written Testimony

I oppose Vaccine passports. Requiring people to be vaccinated in order to stay at certain businesses for more than 15 minutes will not help Hawaii's economy or the local people. You should not have to put something in your body, the efficacy of which is still unclear, in order to eat at a restaurant or patronize a business. Deciding to take a vaccine is first and foremost a medical decision. Stop treating it like a social responsibility. This will only further the division in our community, the frustrations of the people in our community and harm the local economy.

I oppose the mandate of vaccine (digital vaccine passport).

First it is against the science.

There are many Covid patients were healed by medications without vaccine. It's proven.

Second it is against the Freedom our forefathers fought hard for us to have and Generations to come.

Written Testimony

We have to have our freedom to choose
What is right for our body, health and our family.

Let our spirit of Aloha perpetuate!

Thank you for your work that works for people of Land of Hawaii and people!
People will remember!

Aloha
Kwansuk Wong

Written Testimony

Aloha,
I am a mother in a family of four. We are all very healthy individuals and taking all precautions possible in order to contain the spread of the virus. Given the fact that questions are still being raised in regard to the long term effects of the virus and that cases of death have occurred, we are not comfortable getting the vaccine yet and not comfortable requiring our teenage children to get it. Also, given the fact that it is proven that vaccinated individuals still get the virus and can transmit it, a vaccine passport is illogical and discriminating against someone like us who are doing our very best to contain the virus and staying healthy while not yet ready to take the vaccine. At a minimum an option for taking an antibody test should be available, since our family was very sick in the beginning of 2020 and believe we already had the virus and therefore the antibodies. Please, please consider not discriminating especially against our young people where the long term risks of vaccine is not yet known.
Mahalo Nui Loa.

Written
Testimony The gov We are being denied "Blessing of liber to ourselves and our psterity.." from US constitution. Thought the vaccine was given emergent approvals sine it was voluntary...and most drugs take 10+ years before they are brought to market. Those I know who are sink have had the vaccine. Not a magical shield. Allow those w religious and medical reason to not take the vaccine. My hubby has sensitive heart muscle from open heart surgery, fancy pace maker, aplitic shock from blood/platets into his system and has had blood clots from groin to knee. He is not a candidate and now he is ostracized to live a life of his choice. Further drug companies have NO penalty for complications, and do not have to keep detailed info on complications. Follow the money??? Further dif between polio and measles it is was found in man, this virus is found in man/animals and is mutating and will until it expires.

Aloha, as you are a voice for me, I would like to share on whom's behalf you are speaking on.

I am submitting a written testimony to oppose "Vaccine Passports" of any kind or through any implementation.

I am a single mom, substitute teacher, and business owner.
These mandates and proposed vaccination passports will continue to hurt our economy and livelihoods.

Ua mau ke ea o ka aina i ka pono.

We are to perpetuate Hawai'i in Righteousness, and I believe we can be the model system and I pray God give you fresh ideas as to what that can look like.

Written
Testimony

I pray that God give you wisdom, peace, clarity, understanding... Lets pray
Dear Lord, I pray for whoever is reading this, I pray that they feel loved all around them.
They have had a hard day, I pray that they can rest in You. Please be with them and fill the entire building with Your presence. Help us in our faith. That when we have no idea how to fix things we CAN trust in You.

"Trust in the Lord with all your heart and lean not on your own understanding; in all your ways submit to him, and he will make your paths straight. Do not be wise in your own eyes; fear the Lord and shun evil. This will bring health to your body and nourishment to your bones."

Proverbs 3:3-8 NIV

Amen

We are founded as a country for the people. This virus has an extremely high recovery rate and it has been proven that getting COVID provides more immunity than this vaccine. We still DO NOT know the long-term effects of this vaccine and mandating it will not only take away informed medical consent but will set a precedent that other freedoms could be taken from us. We are not a socialist, totalitarian, or communist country nor were we found on any of those ideals- in fact, we were founded on the opposite- as a country FOR the people. Listen to us please and let there be a CHOICE for what we choose to put into our bodies- do not take this freedom away from us or restrict our other rights to try and force us to get a vaccine (by taking away our right to enter an establishment).

If this vaccine passport idea is allowed to progress, it will make Hawaii one massive SUNDOWN TOWN. Is that really the legacy legislators want to leave behind? Jews, Blacks, Asians and other groups have been historically marginalized by these types of measures for centuries.

Talk to an actual virologist or immunologist and you'll learn that 1) the pandemic was over a year ago, 2) this is the absolute worst time to vaccinate the public, 3) not everyone is a suitable candidate for ANY medication or vaccine and 4) the vaccine is causing the virus to spread like wildfire.

Written Testimony As a sufferer of Epstein Barr Virus and someone who has had negative health outcome from previous vaccines, my doctors and I agree that this experimental shot which has already killed at least 45,000 people that we know of is a bad idea.

The WHO does not recommend this shot for me.

We know from CDC data, that the vast majority of deaths had multiple comorbidities, why has Hawaii not encouraged people to fix their diabetes, hypertension and other conditions instead hinging everything on a vaccine.

The idea of a vaccine passport is criminal at best. No different than throwing people in jail for the color of their skin.

I support freedom of choice, scientific studies shows that those who have had covid have immunity and longer then those vaccinated. Many people who live in Hawaii have had covid and therefor immunity. Making it where people can't go into business without a passport will only hurt business. Mandating a vaccine that doesn't hold immunity and hasn't been around long enough to prove it even works is insanity. I have immunity, why force myself and my children to get a vaccine which may hold a adverse reaction? I will not support any business that enforced this or my family. Will be bad for the community. I don't agree with this and it should be stopped!

Written Testimony

I, Kacie Patterson STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

We the people should not be directly or indirectly forced to take the COVID-19 vaccine. Laws like this are nonsensical and tyrannical. Having a vaccine does not protect everyone around you, yet it is being sold to the public as if it is our duty to take the vaccine to save our neighbors. If our leaders have any common sense, they should realize this. Not only is it unconstitutional to force this vaccine, but it is downright dim witted. The “leaders” of this state must have been the children who kept trying to fit the square block in the round hole, and never learned their lessons.

Written Testimony We live in America and should have the right to chose what is administered to our bodies.
What has changed? Why the lack of freedom? Please give us the right to say no thank you!
Aloha, Dennis R

I oppose the mandate of vaccine (digital vaccine passport).

First it is against the science.

There are many Covid patients were healed by medications without vaccine. It's proven.

Second it is against the Freedom our forefathers fought hard for us to have and Generations to come.

Written Testimony We have to have our freedom to choose
What is right for our body, health and our family.

Let our spirit of Aloha perpetuate!

Thank you for your work that works for people of Land of Hawaii and people!
People will remember!

Aloha
Kwansuk Wong

I am writing to oppose the mandatory digital vaccine passports that will restrict individuals from access to restaurants, gyms, business and public accommodations. And will also restrict employment. This is a violation of the basic freedoms we have as citizens of the USA.

As an employee of the healthcare industry I am in daily contact with physicians and nurses. What I can attest to is that the physicians I work closely with are seeing positive cases of covid from their vaccinated patients at a higher rate than their unvaccinated patients.

Written Testimony

Research data on all the vaccines have never been shown to exhibit sustained immunity and therefore the current indication for the vaccines are to reduce the severe symptoms of the virus. Many physicians already have treatment protocols to reduce the symptoms once a patient receives a positive result. These treatments have keep nearly all their patients from requiring critical care in the hospital.

For these reasons, I am OPPOSED to this resolution.

This completely goes against the freedom to choose! There has been sickness and viruses since the beginning of time and it's a god given right to visit the places that we choose knowing fully well that there is a risk with making any transaction with life. To limit people from being able to choose for themselves where they can go is segregation. The power should stay in the peoples hands to choose if they want to go to an establishment that has vaccinated people or non vaccinated people and to create laws and restrictions around this right is asinine. This agenda is about controlling people and businesses and the government trying to overstep citizens' freedoms in an attempt to further their power and authority into people's lives and it's WRONG!
