Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

The Aloha State is what you represent : NO discrimination based on race, religion or in this case medical choice. To segregate people based on this “vaccine” is unethical and immoral on every level. Those of us like myself who physically cannot have a spike-protein injection due to a heart condition will be unable to enter a restaurant in the place we were born and raised- for what end result? There is no option for people like myself and that is completely unjustified to claim “for your health” or “safety” at this point and you ALL know this. Dangerous to think this would benefit anyone in our communities except those paid off by the pharmaceutical companies who stand to profit off all this, so please do the right thing and oppose this resolution before history remembers Hawai’i in these difficult times as such a tyrannical & discriminatory place. We all deserve better.

I strongly oppose a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation!

This is medical discrimination and creates a two tiered society. We will no longer be equal. People who do not want to be injected should not be punished. We still don't know the long term side effects of these experimental vaccines.

I'd like to quote the Hawaii State Constitution ARTICLE I
BILL OF RIGHTS

Article I, see Act 60 on page 301 of the 2004 Session Laws of Hawaii.

Written
Testimony

POLITICAL POWER Section 1. All political power of this State is inherent in the people and the responsibility for the exercise thereof rests with the people. All government is founded on this authority. [Am Const Con 1978 and election Nov 7, 1978]

RIGHTS OF INDIVIDUALS Section 2. All persons are free by nature and are equal in their inherent and inalienable rights. Among these rights are the enjoyment of life, liberty and the pursuit of happiness, and the acquiring and possessing of property. These rights cannot endure unless the people recognize their corresponding obligations and responsibilities. [Am Const Con 1978 and election Nov 7, 1978]

EQUALITY OF RIGHTS Section 3. Equality of rights under the law shall not be denied or abridged by the State on account of sex. The legislature shall have the power to enforce, by appropriate legislation, the provisions of this section. [L 1972, SB No 1408-72 and election Nov 7, 1972; ren Const Con 1978 and election Nov 7, 1978]

Written Testimony "I am strongly opposed to this bill, because vaccinations have not had the time to be fully tested, among those with underlying medical conditions. Nor has it been proved to keep one from getting sick, but makes getting sick less serious. If vaccine doesn't prevent covid or delta from being caught, it shouldnt be force implemented to enter establishments.

I strongly oppose this resolution regarding mandated vaccine passports. It is an infringement on our basic rights and it goes against our medical privacy and HIPPA laws. It is a discriminatory practice that will incite increased disharmony within every community.

Inaccurate reports of casualties claimed to have been done solely by the virus without stressing the underlying illnesses only misinforms the public causing fear and panic. Blaming the unvaccinated for spreading the virus when they are the most susceptible now is too conspicuous; especially after the high number of vaccinated populace. It is the lie upon lie regarding the efficacy of this vaccine that deters so many from getting vaccinated and now to mandate vaccination or face job termination and ability to grocery shop or dine out, etc.

Written
Testimony

So many businesses were devastated during the shut down. Several small businesses even called it quits and closed their doors for good. Mandated vaccine passport will cause a "Shut Out" effect that will eradicate businesses that are still recuperating from the last wave of destruction.

Nobody likes a bully and nobody deserves to be bullied. The Government from its highest level down are bullying the people into submission or else. In a democracy there must be options. Without options it becomes a Socialist state. When the Government controls the people it is Communism. We need to see the Pros and Cons and realize that the opposite of Progress is Congress.

I oppose this resolution because I feel the Government needs to work with the people on what can be done and not impose their will on the people and say "this is how it will be done or else". Ultimately, a person's body is theirs and decisions regarding their body should be theirs to make. To forcefully infringe upon their decision regarding their body is a form of RAPE.

- To infringe upon their decision through forceful coercion is EXTORTION. Everyone knows that RAPE and EXTORTION is illegal.

Written Testimony I believe this bill should not be passed. Taking away peoples rights to be vaccinated freely or not to be vaccinated freely without fear of punishment or reprisals, such as being banned from places because of not having the vaccine. This is a big overstep in government, I strongly oppose

Written Testimony There are no studies which prove or provide evidence that justifies the discrimination against unvaccinated individuals.
They are not to blame as spreaders, any more than others, ALL people can be carriers, can become infected.
Many reasons why anyone would choose not to get vaccinated, especially this COVID jab. The vaccines available now are not even the approved version, nor has it been approved for anyone under 16.
Stop holding people hostage over their health and medical choices! This is tyranny!

It is illegal to ask for our medical records, it violates privacy and property rights as protected by state and federal law.. A retailer can not deny entry based on vaccination status.
Specifically:

- 1.. The Fourth Amendment of the U.S. Constitution states, "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated."
2. Title III of the U.S. Civil Rights Ac prohibits discrimination based on medical condition (i.e. unvaccinated)in private businesses such as grocery stores, banks, restaurants, hotels, retail stores and all public facilities including schools.

Written Testimony

3. Any person who violates your rights can be held liable under Title 18 USC Section 242,deprivation of rights. Penalty for this crime can include life in prison or death penalty.
4. It is ILLEGAL to require proof of vaccination as a condition for entry or service to any private business or public establishment

In addition, this "shot" which is not a vaccine has killed 45k people according to a lawsuit filed in Federal Court, Hawaii District. Case 1:21-cv-00343-DKW-RT

The virus has never been isolated, there is no proof that it exists. Requiring a shot for something which doesn't exist is immoral and criminal. You are not serving the people who you are suppose to serve by even considering this shameful resolution, so I ask, who do you serve and p protect, it's not the people. I submit that you follow the money and find out who is paying our government for this fraudulent action and behind it you will find Big Pharma.

There are no long term studies to show what the long term effects of the vaccine are. In addition, per the pfizer fact sheet, i have a choice to NOT get vaccinated AND still be able to receive medical care as normal, if needed. According to the pfizer fact sheet, there is no guarantee that the vaccine is safe for pregnant women and there are not enough studies to show how it affects female and male fertility. I understand this is a public health emergency but why not stop the sale of alcohol and cigarettes? what about fast food restaurants which cause obesity among those who can't control themselves? Obesity is the number one killer and is accompanied by several other diseases/illnesses and i don't see the government mandating anything regarding that. People can still get sick even if they're vaccinated, so why mandate a vaccine? why not mandate doctors teach the people how to take care of their immune system with supplements and vitamins and exercise instead? what about teaching people pre-pandemic how to have good hygiene instead of waiting for a pandemic to teach them to wash their hands and use hand sanitizer and that restaurants and other establishments should also adopt this before and after each patron? This vaccine passport is causing division instead of inclusion among the people and now it's starting to affect their livelihoods. This is segregation! If the state can require their employees to either get vaccinated or test at their own expense, WHY do private employer's have to pay for the testing if they choose, or are forced to, adopt the same mandate?

Written Testimony

Let's start with this, the basics. What's standard medical procedure when I come into the hospital or come in for a check up? You ask, why am I here. I state I am here for a routine check up or something is wrong. If I come in for a routine check up and nothing appears to be wrong you don't look for anything, you check the basics and i I am on my way. Now if I am there and state A, B, and C is wrong, you suggest I do/take A, B, and C. But the choice is mine to do it, you are not going to say that I need to do l/ take those things. You will say that those things are suggested but you cannot force me. I can walk out without getting treated. So I ask you when is it ok to force treatment without my consent?

Next scenario, someone calls an ambulance for me. I have the right to refuse treatment. So I ask again when is it ok to force treatment without my consent?

Now the scenario at hand, I am healthy, haven't been to the hospital in years, go to routine check ups and considered healthy. We are you forcing treatment on me. Where is my right to decline? Where did your standard medical procedures go?

Written Testimony I am Strongly OPPOSED to this bill. It restricts our constitutional Rights to be able to move about freely and buy and sell goods or other services. These mandates are not acceptable. I will happily vote out any position in our state legislation or persons that try to make this a mandate. Vaccination cards also violate my HIPA information.

You are asking to mandate a passport for vaccines that the CDC reports have confirmed that have caused over 12,000 deaths and nearly three quarters of a million debilitating physical ailments in the US in the past 6 Months. Is the City and County of Honolulu willing to pay for all of the medical bills of the Hawaii residents who have suffered and will suffer from these unapproved medical practices? Which by the way do not prevent COVID but spread it as we have seen with the Delta variant? This is not only an unconstitutional resolution, but illegal and morally irresponsible from an economical, constitutional, and health and safety standpoint. Look at the CDC data. You are safer having COVID than taking the vaccines.

Mahalo for your consideration regarding this and your opposition to such a disastrous resolution for our businesses and our Ohana and to own personal health. Mahalo for your time.

Written
Testimony I strongly oppose. We should be allowed to control our own health care decisions and not be limited to when and where we can go because of vaccination status.
We have scientific proof that the vaccine does not work! Vaccinated people can both spread and contract SARS-covid and Delta covid 19. Why continue to hinder the recovery of the economy by instituting a vaccine passport? That will hurt both the people and the business.

We have the right to choose not to get this vaccine for religious and medical reasons. We cannot be forced or limited by vaccine passports or mandated to get the vaccine.

My partner and I just recently started working out at a gym and it has been the best thing for our health and now this will jeopardize this.

Written Testimony The solution is for those who want to get the vaccine, to get the vaccine. The rest of us can socially distance and wear masks.

The solution is not to limit our exercising and Financial opportunities.

Another solution would be to limit the amount of tourists coming in since there was an upsurge in cases when tourists came without requirements to get tested.

Written Testimony I believe people have a right to choose. It's not fair for business to deny business from the unvaccinated when they don't agree on it. Local businesses are struggling with the option to be forced to comply or they lose their business and that's not right. Local business have struggle enough through this pandemic, and now to refuse service from those we need to be able to pay our bills is outrageous. This is going to hurt many businesses. I choose to oppose!

Written Testimony I oppose the vaccine mandate. The cdc has announced that the vaccine is incapable of preventing the spread and contraction of covid. It makes no sense to force people to take a vaccine based on what is advertised by the media and not basing the mandate on actual information from the cdc. This mandate also does not take into account natural immunity from people like me who have already had the covid sickness. Not to mention the blatant baseless discrimination and further division this mandate will cause.

Written Testimony The vaccinated still contract and spread covid. It'll spread more with vaccinated people if they feel little to no symptoms. When someone feels ill they'll stay home and away from others, spreading viruses less. This is discrimination and everyone should be tested. People with antibodies are the safest in every way. Having antibodies should be much more valid than anything else

Written Testimony It is against our basic human rights to be mandated , forced, and then discriminated against- for choosing not to receive a vaccine into our individual physical body. Further, there is no verification that this vaccine is safe for those who have already been sick with the virus, covid-19. I contracted it in November, of 2020. I do not trust, nor, is it guaranteed, that my body's safety and health would be intact if I were to be vaccinated with the covid-19 vaccine.

Dear Sir/Madam,

Written
Testimony

I'm writing to express my emphatic and staunch opposition to this proposed measure to implement vaccine mandates in order to participate in most of society. Additionally, I'm in opposition to digitizing this information. This is an extreme and unwarranted response to our COVID-19 problem here in Hawaii Nei. The CDC has acknowledged on public record that vaccinated individuals are just as capable of spreading the virus as non-vaccinated. Vaccination is not the only solution to our problem. By turning our sole focus to this instead of promoting healthy lifestyles and early treatment we are shooting our beloved state in the foot by putting an incredible burden on our economy, especially small business owners who have already suffered incredibly this pandemic. This proposition will turn our beloved state into a police state, further harming the credibility of law enforcement, health and government officials. It will segregate our culture in a time we need unity more than ever. It sends a strong message from the government to its people that "we don't respect your decisions, intellect, health privacy, personal circumstances and convictions". It sends a strong and blatant message that the government is concerned more with control and financial incentives, than health and well-being of it's citizens. A digitized vaccine passport will be a black mark upon Hawaii's history as it will oppress the entire population in a vain effort to do something that's never been done before - control the spread of a virus. I implore you to reconsider the myriad of tools available to strategically support the healthcare industry during this wave of COVID-19 infections. We haven't even reached the influenza death numbers reported for 2018-2019 flue season by the Hawaii Dept. Of Health which was 964 deaths, averaging 18.6 deaths per week. We desperately need prudent perspective in these times of media hysteria that induces public fear which then induces inappropriate and historically consequential public policy. Please consider the long term effects of such a drastic and restrictive policy like a digitized vaccine passport system for our beloved Hawai'i.

Sincerely,

Joy Wright

Written Testimony

I am strongly opposed to this bill because I believe in freedom of choice. You do not know why a person makes a choice for themselves unless you walk in their shoes. There are many of us, like me, who have children with vaccine injuries (like my daughter who has seizures to this day from a vaccine, determined after 2 years of testing) or just don't feel we should be forced to do anything against our will. Last I checked I lived in America and I have a choice. And I also know that people tend to oppose severely being told what to do when it just goes against everything they feel and know. We are being forced to make fast track decisions on a fast tracked medication that everything in my medical training and education tells me is wrong, and I am not the only medical professional out there that feels this way. This is not the answer. But if it's bloody revolution that you want, go ahead and pass this. Half the country at least is standing ready to oppose.

Written Testimony This is an effort to blatantly discriminate the people's right to medical freedom, bodily autonomy, religious freedom, and goes beyond race, gender, and sexual orientation. Passing this bill will usher in a new "legal" form of segregation. This is against The spirit of Hawaii and is not the essence of Aloha. People cannot be punished by a government "of the people" because they exercise their basic human rights.
As a woman my body is going to become property of the state of you mandate people to participate in society with these vaccine passport.
My health, my body, my spirit are not up for discussion or debate. My rights are endowed by my Creator and acknowledged and protected by the United States Constitution.
You are elected officials holding this hearing, which was kept out of the public news and sphere so you can push this tyrannical and discriminatory agenda.
You are segregating people of any race, gender, creed, and etc.
I oppose this resolution with every fiber in my being.

I strongly oppose the implementation of a vaccine passport of any kind. Please review each of these ve severe measure will have on Hawaii.

1) The covid vaccine is experimental and has NOT gone thru proper safety studies which normally tak which is severely under reported, there have been well over 13,000 deaths in the United States within 7 thousands of injuries. In 30 years of studies the covid vaccine has killed more people than all vaccines

<https://chemicalviolence.com/2021-08-03-vaers-hiding-actual-numbers-coronavirus-vaccine-deaths.htm>

2) The vaccines are ineffective, the vaccinated are being hospitalized at alarming rates. Those with nat protection than those vaccinated.

Written
Testimony

Written Testimony Aloha,
I wanted to testify to the illegitimacy of this bill. requiring Health cards for functioning in a society is unconstitutional and should not be supported. This is an act of medical segregation, only I and my doctor are allowed to know what is on my medical records. should any restaurant, gym or high potential infectious business be able to see into my medical choices. NO. Should anyone be able to ask you or know wether you have aids or not? Everyone should be responsible for their own body and own choices. If they feel that they need the vaccine then they should have a choice, not forced to do so. You are elected officials and should act as representatives of the people not acting for your own best interest.. People should have the choices!!

Written
Testimony

I do not wish to be forced to take the vaccination. It is unfair of the government to choose what drugs people put inside their bodies. Even in this "state of emergency", no one should be able to enforce a vaccine on the public that is especially unwanted for the specific reason of having a freedom and a choice to have a say with what we do with ourselves in this country. I believe it is incredibly unfair and the vaccination card system should be put to a halt as soon as possible.

I strongly oppose a travel passport for this or any virus or disease, especially one like this that will NEVER be eradicated. The draconian method in which this administration intends to further infringe on our rights is unconstitutional. Your intentions are clear. Force gene therapy shots into our families every 4-6 months into forever, and to ban everyone from their entitled freedoms.

There are many proven early prophylactic methods to help our citizens. They are just being ignored by our current administration.

Written Testimony

As a Daughter of the American Revolution and also a Daughter of Italy, I was steeped in the freedom and opportunity that the United States of America represents. My family has served in the Revolutionary War as well as both World Wars after that to protect the freedoms we are afforded in this country. My son is the last in my family line because my family lost 4 brothers/first cousins within 6 months of each other in WWII. My grandfather was sent home from war so I could be here. A vaccine passport goes against every single thing my family has fought and served for. I have a medical condition and religious belief that prevents me from being vaccinated. This passport is 100% RELIGIOUS AND MEDICAL DISCRIMINATION against those of us who choose natural immunity. My family of soldiers are rolling in their graves right now, knowing that everything they have fought for is being trampled upon. Laws are VOTED ON in a democracy. Get it right, politicians, the blood will be on your hands.

September 2, 2021

Dear Members of the Committee on Transportation, Sustainability and Health,

My name is Rebecca Pitney. I am a registered nurse with a background in medical/surgical nursing. I was cross-trained in the ICU last year to assist with covid patients. I have seen firsthand the effect this virus has had. I have lost patients to covid. But I've also had a unique view of the severe manipulation, disinformation, and fear-mongering pushed by the media and government. I am in strong opposition of vaccine mandates and vaccine passports.

I grew up in a pro-vaccine home and was taught in nursing school that vaccination should be done for the greater good as our moral and civil duty, to accomplish herd immunity and to protect the immunocompromised. That was really motivating to me, I never once questioned it. It sounds so caring and loving. Now that I'm on this other side of this, I realize how this belief demonizes people who choose not receive vaccinations, most of which are for well-researched and legitimate medical, personal, and religious reasons. Vaccine mandates follow a utilitarian philosophy and pushes "what's best for the greater good" or "greatest happiness for greatest number of people". Utilitarianism was not the principle upon which the United States of America was founded. When you use utilitarianism to buttress public health policy, you create what is known as tyranny of the majority. Individuals who choose not to be vaccinated, for biological, genetic, religious, or other reasons, are basically considered expendable. Sacrificed for the happiness of the rest. Once you say as a society that individual human life doesn't matter, where does it end? How many is too many to sacrifice in the name of the greater good?

For years we have been misled about the safety and efficacy of vaccines, resulting in a religious, cult-like worship of these pharmaceutical products. The truth is that vaccines have risks. This risk is ignored, even denied, by the vaccine industry because they don't want people to think rationally and scientifically about risk versus possible benefits.

As someone who used to wholeheartedly believe in vaccines and advocate for them, I know how hard it is to hear a different side when something is so heavily ingrained in who you are and what you believe. But we need to ask questions, be skeptical, and be willing to listen, because our medical system is based on layers of false mythologies that have blinded many of us for decades. Let's stop allowing the vaccine manufactures and those they fund to spoon feed us that these vaccines are safe and effective when the data suggests otherwise.

I wish I had time to delve into data and research, but I have limited time and space. I urge everyone to do research. Below I will list several concerns myself and many others have about the covid vaccine which directly affect our opposition to these mandates.

1. **The vaccines don't stop transmission or infection.** While good at preventing severe disease and death, covid vaccines only reduce, not eliminate, the risk of infection, replication, and transmission. This information can be found directly on the CDC website.
2. **People are getting COVID after being fully vaccinated.** This is happening at alarming rates all over the world. On Aug. 25, a large preprint study published by the Mayo clinic suggested the efficacy of vaccination against infection had fallen as far as 42%. Therefore, I have to ask, why are we pushing for vaccine mandates and passports and punishing those who have decided not get it? Vaccinated individuals are catching and spreading covid, and we're treating them like they are 100% immune. This is wrong.
3. **The virus continues to mutate.** As COVID—especially Delta variant—surges among fully vaccinated, many experts conclude that the more variant deviates from original sequence used for vaccine, the less effective vaccine will be on variant. Vaccine mandates and

vaccine passports will not remedy this problem. This is not the correct solution to the very real problem at hand.

4. **Natural immunity is robust and effective against the virus and mutations.** An Israeli preprint published Aug. 25 on medRxiv showed that natural immunity to covid is FAR superior to the artificial kind - people who had never been infected but were vaccinated were 6-13 times more likely to experience breakthrough infection with the Delta variant compared to unvaccinated people who were previously infected with SARS-CoV-2 and 27x to have symptomatic infections as a matched cohort that was previously infected showed. It is well-documented in medical literature that natural infection provides heterosubtypic immunity, giving you cross-protection against different strains. There is a lot more that could be said on this topic. **But I want to make a few important notes.** We need to recognize the significance of people with natural immunity and stop pretending like it is useless. We need to stop calling this a pandemic of the unvaxxed. There is simply too much data showing otherwise. As someone who was infected with and recovered from covid, who eats healthy, exercises frequently, and actively promotes my immune system, **I am appalled** that I will no longer be able to go to the gym, eat out, or enjoy social interactions because I am considered a threat and "less than" those who have subpar "immunity" from a vaccine.
5. **Overall death rate from COVID.** According to the CDC's own numbers, COVID has a 99.74% survival rate. When I look at data and see that something has a 0.1% change of killing me and 0.01% chance of killing my kids, shouldn't I decide if I want to take a risk on a product that doesn't even stop infection or transmission? Especially if I already have natural immunity?
6. **The only ones with 100% immunity are vaccine makers — no liability.** When I learned this I was appalled. When I did more research into it, I was even more so.
7. **No long-term safety testing.** I've heard many people dismiss this as a valid reason to be vaccine hesitant because "most of the adverse events happen within X amount of time". I would urge anyone to be cautious of thinking this way. Dr. Robert Malone, creator of mRNA vaccine technology, says there needs to be monitoring of vaccine recipients because things such as leukemia, lymphomas, and autoimmune disorders (to name a few) won't show up for from six months to three or more years down the road. We need more research. Period.
8. **Previous failed attempts at making a coronavirus vaccine.** This is a big one. Many experts have spoken on this in interviews. I urge you to look into the history and the results. You can read a summary of this history/science at <https://doi.org/10.3389/fmicb.2018.02991>.
9. **Concerning ingredients, new technology, and use of aborted fetal cells in development of vaccines.** Until this year, I was unaware of the ingredients used in vaccines or the process by which they were developed, which blows my mind because one would think a nurse would be taught these things. I had to do my own research, and when I did, my stance on vaccines quickly changed.
10. **Lack of true informed consent.** As mentioned earlier, the risks are often downplayed or ignored. We need to be able to have open conversations about the true risk and true benefit of the vaccines. Neither of these are being talked about, so we actually are not even receiving true informed consent.
11. **Under-reporting of adverse reactions and death.** According to a Harvard study (commissioned by our own government), less than 1% of all adverse reactions to vaccines are actually submitted to VAERS. Data released today by the Centers for Disease Control and Prevention (CDC) showed that between Dec. 14, 2020 and Aug. 20, 2021, a total of 623,343 total adverse events were reported to VAERS, including 13,627 deaths. You can do the math. We need a better reporting system.

As a medical professional, I want to stress that blanket medicine is bad medicine. Vaccines are not one-size-fits-all. It is the ultimate extension of bad medicine to administer and force medicine at gunpoint (aka losing ones job, paying fines, loss of participation in society). Each person has different medical history, genetics, vulnerabilities, risk factors, allergies, contraindications, and beliefs. And when there is risk, there must be choice. Government regulations such as vaccine mandates and vaccine passports don't acknowledge that there are different ways to approach and manage our health. The pharmaceutical approach is one way. Others want to choose a holistic path. This freedom of choice of treatment needs to be protected.

I also want to note that though I personally feel there are several concerns about the vaccine, I believe people should be able to make an informed decision for themselves if the vaccine is right for them. I have many friends and family who are vaccinated and I respect their choice. Also important in this conversation is that even IF this vaccine was 100% safe and 100% effective, I STILL believe people should have a choice. I think that is the most important takeaway from this conversation.

Mandatory vaccinations, vaccine passports, taking away of our exemptions, subjecting the unvaccinated to retaliation, punishment, and unrealistic testing and mask standards ... this is completely contrary to the founding principles of the United States of America. This is scientific totalitarianism. If we can no longer ask questions without being censored, if we are discouraged from thinking for ourselves, then we are being abused by paternalistic and authoritarian powers.

In America we cherish our freedom, our fundamental rights. Freedom of speech, freedom of thought, the ability to follow our conscience, the ability to hold religious beliefs. Individual autonomy, the right to protect bodily integrity, the human right to informed consent to medical risk-taking. These are fundamental rights that define what freedom really means. If the government takes that away from us, we're no better than slaves. We have to maintain the right to control what goes into our bodies. Medical intervention always has to be a choice.

Written Testimony I oppose the mandated vaccine passport for businesses. I myself am vaccinated, but I feel strongly that it is unamerican to ban unvaccinated individuals from entering any business. Freedom is what makes America a great place to live, and I believe vaccination is a choice we should all be able to make, without any type of restrictions on freedom of commerce. Please reconsider this bill.

Written Testimony My family members all have medical and philosophical objections to a vaccine passport. We cannot get vaccines due to medical exemptions. The vaccine does not stop transmission so it only protects those who have it. Therefore it would not protect the community any further and would just harm business and create social division.

Written
Testimony I strongly oppose. We should be allowed to control our own health care decisions and not be limited to when and where we can go because of vaccination status.
We have scientific proof that the vaccine does not work! Vaccinated people can both spread and contract SARS-covid and Delta covid 19. Why continue to hinder the recovery of the economy by instituting a vaccine passport? That will hurt both the people and the business.

As an unemployed citizen of Hawaii I find this to be the most degrading thing you can do. Your unemployment dept does not respond to inquiries or issues and has yet to solve my claims. Businesses on this island are hesitant to hire for fear of another government shutdown and now this!!!! I can't get anyone to hire me after being laid off in December and now you're trying to make it impossible to make a living in an already difficult time. I worked construction all through 2020 when everyone else was told to stay home...we all got the covid flu and kept working till getting laid off. Here we have another big SCREW YOU to all off us "essential" workers. Guess I'll have to move in with Mr. Tommy Waters seeing as he is still getting paid with my taxes from last year. You will leave many of us with no choice.

I oppose Resolution 21-194 on many different levels.

Firstly, it is an invasion of one's personal and medical privacy. We are not going around asking everyone if they have Hepatitis, TB, Norovirus, Polio, STDs, etc. We are not allowed to ask if someone is a Sexual Predator or violent felon. Why? Because to do so would violate their rights. We don't even ask if anyone has been vaccinated against influenza.

What if someone has already had COVID and is now "naturally" immunized? That is not addressed at all in your resolution.

What about persons medically unable to receive the vaccine? Will they be discriminated against and FORCED to get tested?

Written Testimony Who will pay for testing for those people who are financially unable to get tested?

.....
From the ACLU:

1. It is not exclusively digital. A system that is exclusively digital, whether by design or as a practical matter, would be a nonstarter because it would increase inequality. Many people don't have smartphones, including disproportionate numbers from some of our most vulnerable communities, such as people who are low-income, have disabilities, or are homeless, as well as more than 40 percent of people over age 65. As a result, any vaccine credential system would need to include a paper-based version for those who don't have a smartphone or simply don't want to use one. The paper option should not be a difficult or disadvantageous afterthought; a standardized credential should be primarily a paper-based system with an optional digital component, not the other way around. Our health care system is already ridden with inequities from top to bottom; we don't want to worsen that situation by

closing off even more societal benefits from those who can least afford it, or who have reason to fear such a system — including immigrant communities and communities of color who are already subject to over-policing and surveillance.

2. It is decentralized and open source. The quest for a digital identity and credentialing system has become an entire field unto itself. Numerous companies, technologists, and academics have already generated a variety of concepts, standards, and products that would let us use cryptographic files or “tokens” on our phones to prove things about ourselves across our lives. The best of these schemes — and the only ones that should be considered for any digital elements of a vaccine credential system — take a decentralized and open source approach that puts individuals in control of their credentials and identity data, which they would hold in a digital wallet. But given the difficulty of creating a digital vaccine passport, we could see a rush to impose a COVID credential system built on an architecture that is not good for transparency, privacy, or user control. That could lock us into a bad standard as other parties that need to issue credentials piggyback upon it to offer everything from age verification to health records to hunting licenses to shopping accounts, memberships, and web site logins.

3. It does not allow for tracking or the creation of new databases. Unless a vaccine credential system is completely decentralized and user-centric, it creates the potential for amassing new personal data. If some big company is getting notified any time someone reads one of your credentials, that would let them track your movements and interests — the stores, concerts, and transportation venues you visit, and much more. In the absence of airtight legal protections for privacy, any such information could then be sold for commercial purposes or shared with law enforcement. That would affect all of our freedoms, but will have a particular chilling effect on communities of color, including immigrant communities, that are already over-policed. Fear of tracking could lead people to opt out of participation, resulting in further marginalization as they are denied access to certain public spaces. Worse, without privacy protections strong enough to create public confidence, it could even deter people from getting vaccinated in the first place.

.....

Sarah Chan, a bioethicist at Edinburgh University: One of the main problems with vaccine passports as they are currently proposed is that they focus on the individual’s vaccination status as a binary indicator of risk, to self and others: Vaccinated equals “safe”, unvaccinated equals “unsafe”.

It is true that vaccination provides some protection against catching COVID, but it is not 100 percent effective in 100 percent of individuals; and, what is more important, we do not have enough evidence to say that vaccination prevents people from transmitting the disease to others.

So, while vaccination certainly reduces risk, both to the individual and across the population, issuing “passports” that divide us up into such black-and-white, binary categories and controlling what we can do and where we can go on that basis does not seem to be justified. In fact, giving people a passport that says they are “safe” might actually produce a false sense of security that could result in further spread of disease.

.....

Ana Beduschi, an associate professor of law at the University of Exeter: Digital health passports pose essential questions for the protection of data privacy and human rights, given that they use sensitive personal health information to create a new distinction between individuals based on their health status, which can be used to determine the degree of freedoms individuals may enjoy.

If digital health passports start to be required as proof of COVID-19 health status to access public and private spaces, some people could move freely – that would be the case of those

who would have tested negative for COVID-19 or would have been vaccinated.
By contrast, those who cannot access or afford COVID-19 tests or vaccines would not be able to prove their health status. Their freedoms would therefore be de-facto restricted.
Imagine, for example, the case of a pregnant woman who cannot be vaccinated and cannot afford to pay for private COVID-19 tests – she may be excluded from a variety of places and activities. Decades of progress on women’s rights could be reversed if governments do not think it through before providing guidelines for implementing digital health passports.

.....

These are but some of the reasons why I vehemently OPPOSE any and all vaccine passports or their equivalents

Written Testimony I oppose this or any mandate or bill that would force businesses to ask for a vaccine or test results passport it is unconstitutional it's against HIPPA it's a burden on the business and will effect the income and the employees and owners. We are already in a shortage of employees. I feel lawsuits will have to be filed because this goes against our rights as some people can not take the vaccine due to underlying health conditions so now that would discriminate against that population ... this creates so much burden on businesses to have to police their customers

Written
Testimony

I 100% oppose this resolution 21-194 because it's against my Constitutional and medical rights as a citizen of the United States. This is abuse and bullying of the government's authority. I didn't vote for officials in office to take away my rights, my choices and my beliefs. I believe in my freedom and this is America us, the land of the free and the home of the brave and I will stand up for what is right and just for myself, my children and for future generations. God gave me this life to live and he has chosen his children to be able to live their lives freely. No government official has any right to take away my rights to be free.

Written Testimony I as well as the rest of my community in Kona are appalled that a 'Resolution' like this is even considering being passed. Covid-19 is one issue and the answer is not to strip away the freedoms of the people of Hawaii for the sake of 'protecting' us. You take away free choice and it all crumbles. Bills like this create a communists state and uprising of people. Whoever put this 'Resolution' together should be ashamed of themselves

As a 21 year tax paying citizen of Big Island, I implore you to abandon this idea of a vaccine passport.
I can be for something without requiring it to be mandatory, and likewise I can be opposed to something without requiring it to be banned or censored.
Turn away from the fear model and embrace intelligence and free will. Our community is way too diverse for a one size fits all mandate.
This will destroy our island community. Embrace Aloha.
Embrace diversity of thought, lifestyle choices and wellness protocols.
You are here as my voice and Representative and I oppose this agenda item.
People with vaccine are still passing the virus around!
The passport is a silly idea.

Organization

Written Testimony

I respectfully oppose the Resolution to admit a mandated Vaccine Passport for any portion of the State of Hawai'i. As a resident of Hawai'i, I oppose on two accounts: Stewardship and Liberty.

The aspect of stewardship is considering our body in this situation. All testing considered, there is still not enough time to understand the effects of this vaccine on the human body. Additionally, this is stewardship for our island and for our communities. We need to steward the economy we have by not limiting service to only those with the vaccination. Secondly, this is a concern of our liberty. We have had the right to enjoy Hawai'i nei without concern that we will not be allowed to traverse normal borders of stores, communities and relationships. The admittance of a vaccination passport would now hinder those liberties we have always had.

Thank you for your time and consideration.

Written Testimony I adamantly oppose this Resolution as it violates citizens' Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

We the people should not be directly or indirectly forced to take the COVID-19 vaccine. Laws like this are nonsensical and tyrannical. Having a vaccine does not protect everyone around you, yet it is being sold to the public as if it is our duty to take the vaccine to save our neighbors. If our leaders have any common sense, they should realize this. Not only is it unconstitutional to force this vaccine, but it is downright dim witted. The "leaders" of this state must have been the children who kept trying to fit the square block in the round hole, and never learned their lessons.

Written Testimony

Several residents of Hawai'i have already gotten COVID19 and beat the virus without receiving a COVID19 vaccination. Having the virus would allow for individuals to create their own anti-bodies to beat future exposure to the virus. These individuals are not represented in this state proposed resolution. The residents who can prove they've had COVID19 should be considered vaccinated and better represented in this proposal. Furthermore, this mandate encroaches on our liberties outlined by the US Constitution. We should all be provided the same recreational opportunities regardless of vaccination choices as we are free citizens. This proposition's intention is clearly to encourage people to get vaccinated based on the ridiculous requirements for non-vaccinated residents. Since people use public facilities, like gyms, to keep up with their health. Disallowing anyone who hasn't been vaccinated access to these facilities will directly impact the health and wellbeing of non-vaccinated residents which I would hope is also a concern of city council representatives. This is not a just approach and I feel will not only negatively impact the states economy, but also outcast a large portion of society. I strongly hope the state officials reconsider and come up with a solution that will work for everyone (not just a margin of society), and will have freedom of choice in mind as "liberty and justice for all" should be the foundation of how we create our laws and regulations to keep society "safe."

Written Testimony Please do not pass this bill. It discriminates and restricts personal rights. Hawaii needs to stop stoking fears and panic in the population and overreacting to the virus by restricting liberties. It's one thing to encourage vaccinations, but to cut off those who choose not to from normal activities is sinister and represents massive government overreach.

Written Testimony

I am opposed to this bill because I do not believe that the government has the right or power to control what I put in my body. I should have the full right to choose for myself without having to deal with tyrannical laws. This bill isn't for the well-being of the people and to lower the Covid cases, it is solemnly to sell more Covid 19 vaccine doses and for the big pharmacy to make big money. It has been proven through and through that the Covid vaccine does not prevent people from catching the virus, nor transmuting it to others. Therefore, if our government was really worried about cases, Covid vaccines wouldn't be enforced, but rather free Covid tests would be available to everyone so we can make sure the sick people aren't transmitting the virus. This whole pandemic hasn't made any sense as far as health goes. We should promote healthy eating habits, daily movements and getting outside to breathe the fresh air and get some sunshine. Yet instead, we have been stuck in our homes, lowering our health and immunity day by day. Now, you want to make us believe that your vaccine is the right outcome? It is not, and people should have a choice. This is tyranny and abuse of power. This is not America, this is not the land of the free.

Written Testimony I believe there is better solution than straining our local economy, small business owners, and employees. Never once have u given options on how to support your immune system which is the very form of nature that science copies to create vaccinations. There are studies beginning to emerge from Isreal that should be considered. Acting and shaping guidlines fueled with fear is not beneficial. Now is not the time to be devisive and withhold ones ability to create and sustain a life.

Aloha Chief Vanic;

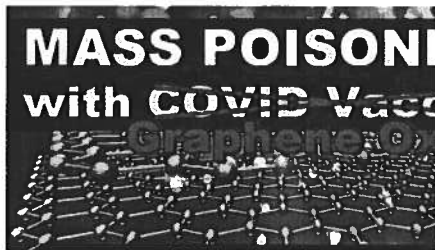

I am sharing some more updates which I received after my last email already had been sent as we are now receiving more and more evidence and warnings which need to be shared widely. Please dispatch them to all police officers.

This highly important information not only helps everybody to make the right decision it also saves their lives and their families ... (as proof was shown in my 1st email in the 1st link: about the **Toxin GRAPHENE OXIDE found in PCR-TESTS, VACCINES and MASKS.**

Questions arrived like: What really causes people's sickness and deaths if not a Cov-19 virus?

Here below are some answers in video clips which show quite a lot of proof and also contact addresses:

URGENT WARNING!! - Announcement of Biostatistician Ricardo Delgado - On this Radio/TV channel from Spain people get the hear and see the TRUTH:
<https://www.bitchute.com/video/gXHQahloPimY/>

The World's Population is Being Poisoned ||
La Quinta Columna (English)

This is an urgent communication from biostatistician Ricardo Delgado, from La Quinta Columna. We are witnessing MASS POISONING of the world's population with toxic graphene oxide. Share this video and information guide with everyone! *
Source: ...

www.bitchute.com

□

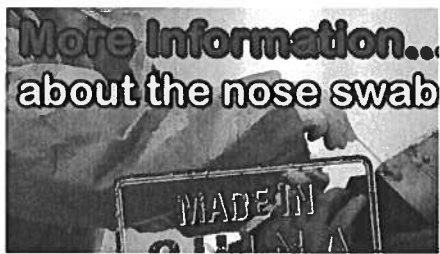

This website has the English translations and more reports of him incl. a very interesting **measurement** when it **RAINS...**(by scrolling down to the end
As well as a very informative speech of **Dr. Sevillano** (also at the end of this website)
<https://www.orwell.city/2021/07/COMUSAV-CONUVIVE.html>

Before posting more video clips about answers what really causes people's sicknesses and deaths and what's really going on

I would like to post this important link first about the **DANGER** of PCR-Tests and how **poisoned PCR Tests** are
incl. a **CLASS 1 RECALL** from the FDA on PCR-Tests!! (**right at the beginning** of this 14 min. report)

It also shows pictures of the **SWAB under a MICROSCOPE** with a lot of explanation...From **track 6.50 min.** on:

Globalist extermination window to wipe out humanity is rapidly closing - John Moore interviewed by Mike Adams

John Moore and Mike Adams talk about the kill shot that is coronavirus vaccines and the violent Earth changes that are about to happen. Interviewed by Mike Adams, John Moore said taking the coronavirus vaccines mean death. He told Adams that vaccination will kill the most number of people before the violent Earth changes kick in at some point. According to Moore, the people behind the vaccines are speeding up what they're doing because they want to get a shot at a new world order before the violent Earth changes take everything out – including them. Adams noted that, as they were recording the interview, President Joe Biden was about to announce mandatory vaccination for all federal workers. Meanwhile, the Department of Justice just announced that it's legal for all private sector companies to mandate the vaccination to their employees. Moore said he's been telling people that they can always get another job, but they've only got one life and that can't be changed. Moore proceeded to talk deeply ab

Dr. Stella Immanuel speaks about how doctors getting orders to NOT treat covid patients....

<https://www.brighteon.com/8b2f8dcd-2bfa-4189-a133-aa8cab015fec>

Dr Stella Immanuel warns about the covid vaccine: A LUCIFERIAN agenda targeting humanity

Dr. Stella Immanuel says doctors were told not to treat COVID-19 patients interviewed by Mike Adams. Dr. Stella Immanuel said one of the lessons she learned during these times is that doctors should start working more on keeping people healthy. She said physicians like her are spending more time treating diseases and that should change. Immanuel talked about the attacks she experienced when she promoted hydroxychloroquine as a treatment to COVID-19 patients after seeing it work on her own patients. She said it's the first time in her time as a medical practitioner that she'd seen doctors being told not to treat patients. Doctors know how to treat all the symptoms and illnesses associated with and caused by COVID-19, Immanuel said, but they've been told to do nothing. According to her, doctors were forced to follow for fears of getting fired and losing their license. Adams said that

the people behind it were basically running a terrorism campaign against doctors, adding that it was coordinated with Big T

Attached is an interesting article of Dr. Mercola "Missing Autopsies of People Dying Post Cov-19 Vaccines"

Thank you for your time and consideration in these now critical matters.

Warm aloha

Manuela Chamberlin

Where Are the Autopsies of People Dying Post COVID Vaccine?

Analysis by Dr. Joseph Mercola

✓ Fact Checked

STORY AT-A-GLANCE

- › Dr. Jane Orient published a commentary in July 2021, asking why there is no information from autopsies of healthy people who died unexpectedly from the COVID-19 jab
- › Information from death certificates is notoriously inaccurate; autopsies are needed to inform public health policy and help people decide how they want to proceed with the genetic therapy injection program
- › As the death toll numbers reported to VAERS mounts daily, it is well over the rate of more than the number reported for 70 vaccines combined over 30 years and 500 times deadlier than the flu vaccine
- › Treatment for COVID-19 improved after Germany released data from 12 autopsies showing ventilators were likely a contributing cause of death
- › If you or a loved one took the shot and now regret it, there are options to help protect your health

Dr. Jane Orient, executive director of the Association of American Physicians and Surgeons, published a commentary July 7, 2021¹ asking an important question about the rising number of deaths being reported to the U.S. Vaccine Adverse Events Reporting System (VAERS) in conjunction with the COVID-19 injection program.

Her credentials² are many: She's a clinical lecturer in medicine at the University of Arizona College of Medicine. She received her medical degree from Columbia University and is the author of several books. And, as president of Doctors for Disaster Preparedness and chairman of the Public Health Committee of the Pima County (Arizona) Medical Society, she asks: Why haven't there been autopsies of healthy people who are dying unexpectedly after receiving a COVID jab?

It's a reasonable and logical question since autopsies often reveal important information about diseases and illnesses — and it's information that can help guide future medical treatment to reduce the risk of long-term disability and death after the vaccine.³ After all, without autopsy results, the ability to treat cardiovascular diseases,⁴ cancers,⁵ hereditary diseases like hypertrophic cardiomyopathy⁶ and even catch murderers⁷ would be incompetent.

Dr. Dylan Miller chairs the autopsy resource committee for the College of American Pathologists. He spoke with a reporter from The Wall Street Journal, saying,⁸ "We think we always know what's going on inside our patients, but that's a fallacy. There's as much to be gained from an autopsy as ever."

The nature of an autopsy is diagnosis.⁹ It can help family members come to terms with what caused a loved one's death, identify unknown diseases and offer clinicians an opportunity for a greater understanding of what happened before a patient dies. It also can provide a valuable educational opportunity for health officials and even students, who study disease processes.

It's been over eight months since the first COVID-19 vaccine was administered in the U.S. in December 2020.¹⁰ Since then, VAERS reports show there have been over 12,000 people who have died after the shot.¹¹ Since autopsies are so incredibly important in the identification of disease and pathological processes, why haven't healthy people who have died after the COVID jab been autopsied?

Lack of Autopsy Results May Mean Data Are Hidden

At the time of Orient's published commentary,¹² she quoted a death toll after the COVID shot of nearly 7,000 people as reported in VAERS. This was in early July. By the end of July that number had risen to 12,366 people.¹³ That's a jump of over 5,000 people in less than 30 days who reportedly had died after the COVID injections.

Orient comments that while it's the best system available now for recording adverse events from vaccines, VAERS is likely missing 90% or more of the actual number of individuals who are hospitalized, have suffered anaphylactic reactions, have Bell's Palsy, had heart attacks or had life-threatening reactions. The lack of accurate recording also includes the actual number of people who have died after receiving an injection.

When it comes to death certificates, data from The Johns Hopkins Hospital were published in the Archives of Internal Medicine in 2001,¹⁴ demonstrating that the accuracy and reliability of the recorded cause of death, on death certificates, was a significant problem, indicating the continued need for autopsies to correctly identify the cause of death.

According to Orient, the death of a 45-year-old mother after receiving the COVID-19 shot that was required for her to start work at the same institution, Johns Hopkins University, will likely not be investigated by autopsy. Additionally, the hospital has not paused their demand for the injection program for mothers and potential mothers who want to work at the university.

In the past, when an individual died without significant medical illness, they were designated a case for the medical examiner, who would decide whether an autopsy was needed. Any evidence that was related to the death was gathered and considered along with the autopsy report.

The most important reason for requesting and performing an autopsy was to ensure quality health care and at one time was required for hospital accreditation.¹⁵ However, that requirement has been dropped, and dropped along with it the number of autopsies routinely performed on patients who have died inside or outside the hospital.

The average rate for autopsies in the 1940s was 50%. That dropped to 41% in 1970, just before the Joint Commission on Accreditation of Hospitals removed the requirement

that 20% of deaths in the hospital were to be autopsied to maintain accreditation.¹⁶

By 2018, experts estimated only 4% of in-hospital deaths were autopsied and only approximately 8% of all deaths. Since an estimated 700,000 die each year in the hospital, this means only approximately 28,000 of those deaths are autopsied. Experts have proposed three explanations for the falling rates, including:¹⁷

- Fear of finding mistakes leading to a malpractice lawsuit
- Lack of reimbursement for an autopsy
- The belief that medical technology has made autopsies obsolete

However, it's important to note that knowledge of why a person dies after vaccination will not help the family recover damages since the pharmaceutical industry is immune from liability.^{18,19} Even so, this information should be used to inform public health policy and help people decide how they want to proceed with the genetic therapy injection program.

Death Certificates Are Notoriously Inaccurate

Orient also notes that death certificates, which researchers use to gather statistics on the cause of death, "are known to be extremely unreliable."²⁰ An evaluation of 494 death certificates at The Johns Hopkins Medical Institutions²¹ in 2001 showed 41% had improperly completed forms and the reliability and accuracy of the death certificates listing cause of death was a significant problem.

A study published in the Southern Medical Journal²² also found "major discrepancies" between the death certificates issued in the hospital and the information gathered on autopsy.

In 25% of the cases, the death was erroneously attributed to acute myocardial infarction, while an autopsy showed the deaths were actually from sepsis, cerebral hemorrhage, pneumonia and cardiac tamponade. Autopsy showed there were 52 myocardial

infarctions that caused death, but death certificates accurately documented only 27. The researchers concluded:

"1) Death certificates are often wrong. 2) The time-honored autopsy is more valuable than ever. 3) Physicians need to write better death certificates and correct them. 4) Death certificate-based vital statistics should be corrected with autopsy results. 5) Vital statistics should note deaths confirmed by autopsy. 6) More autopsies would improve vital statistics and the practice of medicine."

According to the Centers for Disease Control and Prevention's document on understanding death data quality, hospitals and health care providers should use the following criteria when filling out cause of death on a patient's death certificate:²³

"When a person dies, the cause of death is determined by the certifier — the physician, medical examiner, or coroner who reports it on the death certificate.

Certifiers are asked to use their best medical judgment based on the available information and their expertise. When a definitive diagnosis cannot be made, but the circumstances are compelling within a reasonable degree of certainty, certifiers may include the terms "probable" or "presumed" in the cause-of-death statement."

In other words, data being reported about cause of death can be manipulated with a "probable" or "presumed" assumption if the certifier makes a subjective evaluation and believes the "circumstances are compelling." This poor degree of accuracy only adds to the already notoriously inaccurate information found on death certificates.

Treatment for COVID-19 Improved After Autopsy Results

As Orient points out, there were tens of thousands of patients who died from COVID disease after being placed on ventilators before a small series of 12 autopsies done in Germany showed that most of these patients had blood clots and using a ventilator may have caused more damage.²⁴

The improvement and treatment modalities for COVID-19 came after patients had been autopsied. Mechanical ventilation can easily damage lung tissue because it forces air into the lungs. Patients with COVID-19 who were ventilated had at best a 50-50 chance of surviving.²⁵

However, risk analysis being reported indicated this chance of survival was higher than what was being seen clinically. China reported²⁶ of 22 patients on ventilators, 86% of them did not survive the treatment. A British study found two thirds of patients on mechanical ventilation died and a study of 320 mechanically ventilated patients in New York showed 88% of them died.

COVID-19 Jab: More Death Reports Than All Vaccines Combined

Imagine if you would, a vaccine so "safe" officials are threatening those who won't take it for a disease so deadly most people must be tested to know if they have it. Autopsies and accurate death certificates are part of an evaluation of safety for treatment protocols. If a reasonable safety standard had been in place, the campaign to inject the world would have stopped in early January 2021.

The voluntary reported death rate from the shots now exceeds that of more than 70 vaccines combined over 30 years and shows that it's 500 times deadlier than the flu vaccine,²⁷ which historically has been the most hazardous.

Trial Site News²⁸ reports that Pfizer documents submitted to the European Medicines Agency [EMA] reveal the company "did not follow industry-standard quality management practices during preclinical toxicology studies ... as key studies did not meet good laboratory practice (GLP)."

Neither reproductive toxicity nor genotoxicity (DNA mutation) studies were performed, both of which are considered critical when developing a new drug or vaccine for human use. The problems now surfacing matter greatly, as they significantly alter the risk benefit analysis underlying the vaccines' emergency use authorization.

On the flip side of the risk-benefit analysis is the fact that effective treatment protocols have been developed by infectious disease specialists²⁹ who have a high rate of success and therefore negate the need for emergency use authorization of a dangerous gene therapy injection program.

Unfortunately, people not only are dying from the shot itself, but data now show countries that have launched a massive vaccination campaign have more cases of COVID-19.³⁰ In fact, data from the CDC show 74% of people who recently became sick with COVID-19 in Massachusetts were fully vaccinated.³¹

In a report from CNBC, the reporter announced that "public health experts" point out the majority of breakthrough cases in fully vaccinated people that lead to hospitalization and death are occurring in the elderly and those with comorbid conditions.³²

In other words, the shot has increased the risk for severe disease in the very populations of people the shot is supposed to protect. In addition, the CDC changed how they count breakthrough cases in vaccinated individuals:

"As of May 1, 2021, CDC transitioned from monitoring all reported vaccine breakthrough cases to focus on identifying and investigating only hospitalized or fatal cases due to any cause. This shift will help maximize the quality of the data collected on cases of greatest clinical and public health importance."

Autopsy on Vaccinated Man Raises Questions

The case³³ of an 86-year-old man who died after his first dose of the mRNA COVID-19 injection, but before he received the second, is posing questions about the safety, side effects, immunogenicity and possibility of antibody-dependent enhancement (ADE) after receiving just one dose.

Writing in the International Journal of Infectious Diseases, study authors said the man died from acute renal and respiratory failure. Although he tested positive for the virus two days before he died, his autopsy attributed his death to acute bronchopneumonia

and tubular failure. "These results might suggest that the first vaccination induces immunogenicity but not sterile immunity," study authors said.

In a Twitter feed, however, at least one doctor³⁴ questioned the circumstances under which the patient died, and suggested that the vaccine may set the stage for antibody dependent enhancement (ADE). ADE occurs when antibodies help a virus infect cells, rather than prevent it.

"This is a very important case, as it highlights the difference in the body's immune response to sarscov2 after vax but before fully neutralizing titers," AMM MD tweeted. "It also makes me wonder if this isn't what is happening in breakthrough covid cases (develop covid months after complete vaccination, when immunity is waning). This could all serve as evidence for antibody dependent enhancement."

What Can You Do if Someone You Love Dies Unexpectedly?

If someone you love dies unexpectedly after receiving the COVID shot, you have the right to ask for an autopsy. The medical examiner for your county is charged with maintaining public health.

If your loved one had no previous underlying medical conditions, there's a higher likelihood you can convince the medical examiner to do an autopsy that may reveal how the genetic therapy affected the vascular and organ systems of your loved one.

If you or a loved one received the vaccine and you're looking for information on how to protect yourself, please watch the video above. If you don't have a chance to watch it in its entirety search for it or bookmark it on BitChute under "How Covid-19 Shots Might Reduce Lifespan — Drs. Vladimir Zelenko And Joseph Mercola" In the interview we talk about the acute, subacute and long-term risks associated with the shot.

As you may know, this article will no longer be available 48 hours after being published. I would encourage you to copy and paste the information so you can share it with friends and family. Although I've published several steps you can take to help protect your health, because the information is no longer freely available, I'll share a list here:

In the first three months after the shot there is a higher risk of blood clots. A natural anticoagulant with great promise is n-acetyl cysteine (NAC), as it has anticoagulant³⁵ and antithrombotic effects.³⁶ This means it prevents clots and breaks up those that have formed.

In the subacute phase it's important to avoid antibody dependent enhancement (ADE). The key is to implement a prophylactic protocol. Any symptoms of upper respiratory infection should be treated immediately. COVID is a multiphase disease. The first phase lasts five to seven days and is most easily treated. After Day 7, it typically progresses to the inflammatory phase, which requires different treatment.

A combination of a zinc ionophore such as quercetin, hydroxychloroquine or ivermectin, plus zinc is an important component of early treatment and prevention. If you want to use either hydroxychloroquine or ivermectin and live in a state that restricts their use, look for online telehealth options.

The American Frontline Doctors is one resource. Most only charge \$90 for a consultation and you will be able to get the prescription that you need. Do not use Ivermectin from veterinary sources as it may be contaminated and is not designed for human use.

Optimize your vitamin D level in the range of 60 ng/mL to 80 ng/mL year-round. After a blood test to determine your current level, consider the Grassroots calculator to determine the necessary dose.

Vitamin C is another important component, especially if you're taking quercetin, as they have synergistic effects. To effectively act as a zinc ionophore, quercetin needs vitamin C.

The take-home message here is that if you've gotten the jab, consider yourself high risk for COVID and implement a daily prophylaxis protocol. This means optimizing your vitamin D, and taking vitamin C, zinc and a zinc ionophore daily, at least throughout the cold and flu season.

It would also be useful to do a daily sauna, ideally one that can heat up to 170 degrees Fahrenheit. Additionally, nebulized hydrogen peroxide may help. If you would like to watch a video on this protocol, you can view all of them here on Substack. If you're having post-vaccination symptoms, you could consider:

- Low-dose interferons such as Paximune, to stimulate your immune system
- Peptide T (an HIV entry inhibitor derived from the HIV envelope protein gp120; it blocks binding and infection of viruses that use the CCR5 receptor to infect cells)
- Cannabis, to strengthen Type I interferon pathways, which are part of your first line of defense against pathogens
- Dimethylglycine or betaine (trimethylglycine) to enhance methylation, thereby suppressing latent viruses
- Silymarin or milk thistle to help cleanse your liver

Dear Chair of the Transportation, Sustainability and Health Committee,

My name is Ramona Lariosa and I am a concerned citizen in opposition to HR 21-194.

This resolution is an infringement on our God given right to choose. It takes away the freedoms given to us as written in the Declaration of Independence, "that all men are created equal, they are endowed by the Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness..."

Written
Testimony

Implementing such restricts a certain group, who are those that choose to do what they believe to be the best for their health, from freedoms given to another group, those whom side with vaccinations. We should all have the abilities to make the choice of what goes into our bodies and not be singled out because of a freedom to choose. It is not fair for one group to have liberties and not offer those same to another that don't choose the same. Where is the equality in that? Are we not all equal?

Again, I stand in opposition and ask that it not pass your committee.
Thank you for your consideration of my testimony.

Thank you, Ramona Lariosa

Written Testimony

I am STRONGLY OPPOSED to this bill. This goes against our freedom of choice as American citizens. Why is "our body, our choice" only valid when it comes to killing other human beings? Why can't we make the choice concerning our own personal medical decisions? These are just a couple of the questions that will not/have not been given answers to from our current leaders. We cannot allow something that segregates our communities and people in the name of "health" when health is a personal and individual issue, not a government one. Please do not allow this bill to pass, it would open a door for so much hate and division to ruin our beautiful culture and land. Mahalo.

Written Testimony We all care about the health of our friends and those around us. However for those who are not getting vaccinated for health or various reasons this is personal and confidential decision. And should not be required to be verified in the public realm. I think this will cause more division and discrimination.

Written Testimony I am strongly opposed to this bill!
It will:
Kill private businesses by restricting their clientele
Discourage tourism
Create more division in our communities
Set a precedent for totalitarian regulations and create an incentive for officials to declare
[other] false emergencies in future.
Undermine mental health.
Put undue pressure on those who have science-based reservations about the efficacy of
the shots and the long-term auto-immune health effects that are beginning to show up.

Please do not take this drastic, un-American, anti-Aloha step!!

Written Testimony

My husband fought and died for our country's freedoms. As an American, I'm so grateful for the sacrifices so that we remain free. How can we be truly free if we are segregated for a personal choice on the refusal of medical care/vaccine? Both vaccinate and non vaccinated can be carriers of the variants. That has been scientifically proven. This means it does not matter if one are vaccinated or not, one can still pass on the variant. Vaccinated and non both are still susceptible to the variant. This also shows that being vaccinated should not make a difference if we as free people should be able to enter into establishments or not. Absolutely we should mask, stay home if symptomatic, use sanitizer and practice courtesy. Businesses and jobs will have a direct impact greater than the blow that has already taken place in this past year and a half. This will devastate our economy even greater!!! I'm a small business owner that has been affected greatly through this pandemic. Our constitution states "We the people, for the people..." please, hold true to this and help the people remain free and help small businesses stay in Production.

Written Testimony

It has not been proven that vaccination for COVID is effective in stopping the spread as evidenced by the increase in cases in the island. Also, the FDA approval is ONLY for the Comirnaty vaccine which is not available in Hawaii and forcing vaccination with EUA vaccines violates people's right to choose. Therefore, I believe a return to protocols of masking, social distancing, and disinfection would be better served than forcing businesses and people to adhere to restrictions that would not be effective and that allow the implementation of overreaching policies.

"There is no justification in taking away individuals' freedom in the guise of public safety"
- Thomas Jefferson

Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!

Written
Testimony

Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.
The fact that vaccinated people can still contract and TRANSMIT the virus wouldn't it be more prudent to TEST EVERYONE!!!

Written Testimony

I was born and raised here in Hawaii. I have never seen it worse like this. Our people here have always been loving and caring to each other. Everyone was treated with Aloha.

The fact that Mayor Rick even thinks that a vaccine passport to enter into establishments will help baffles me. The vaccinated can still spread covid so how will that help? This will continue to divide us further. We all know what happened in the past with segregation. This is exactly it and history is repeating itself again. So rather than moving forward we are going backwards.

You know who this will affect the most? all the businesses who have no choice but to abide by the rules so they don't get fined during these hard times just trying to stay afloat.

Are you guys are ok with more businesses closing and more chaos and people going against each other?

Written
Testimony

I strongly oppose any mandates for proof of vaccination for the people of Hawaii. As a clinical psychologist I see the psychological harm being caused to many of my patients who cannot or choose not to be vaccinated. We are now seeing that vaccinated are carrying as high a viral load and spreading the Delta variant as much as the unvaccinated, according to the CDC, as well as studies out of Israel. Please do not further divide our community by passing any legislation that is effectively modern day segregation. Mahalo, Dr. Larson

A digital passport program is not a resolution to this pandemic! Mandating this could be discriminatory. Has it been addressed how this may affect tourism? Especially for passengers who chose not to have a vaccination card ... will they now need to test every time they want to go to eat? Also, for those establishments that require a vaccination card - are all the employees vaccinated? Scenario: I have a vaccination card and I am able to dine in at a restaurant - my server is not vaccinated due to an exemption or the establishment doesn't mandate their employees to be vaccinated - how is this ok? Have this really been thought through before bringing this forward or are we pushing the red button?

Written Testimony

There are no long term studies to show what the long term effects of the vaccine are. In addition, per the pfizer fact sheet, i have a choice to NOT get vaccinated AND still be able to receive medical care as normal, if needed. According to the pfizer fact sheet, there is no guarantee that the vaccine is safe for pregnant women and there are not enough studies to show how it affects female and male fertility. I understand this is a public health emergency but why not stop the sale of alcohol and cigarettes? what about fast food restaurants which cause obesity among those who can't control themselves? Obesity is the number one killer and is accompanied by several other diseases/illnesses and i don't see the government mandating anything regarding that. People can still get sick even if they're vaccinated, so why mandate a vaccine? why not mandate doctors teach the people how to take care of their immune system with supplements and vitamins and exercise instead? what about teaching people pre-pandemic how to have good hygiene instead of waiting for a pandemic to teach them to wash their hands and use hand sanitizer and that restaurants and other establishments should also adopt this before and after each patron? This vaccine passport is causing division instead of inclusion among the people and now it's starting to affect their livelihoods. This is segregation! If the state can require their employees to either get vaccinated or test at their own expense, WHY do private employer's have to pay for the testing if they choose, or are forced to, adopt the same mandate?

I strongly oppose this bill. Not only do vaccine passports violate human rights, but they go against the Nuremberg Code (1947). As a woman of German-Jewish heritage, I will never forget the crimes of history. I stand for my, and every other free American's, right to CHOOSE. Mandates are NOT a choice. This is unlawful, unethical, discriminatory and just plain wrong. This bill could DEVASTATE the people of this state. Of this country. Be the leaders we need now the most. Don't let us down. Do NOT pass this! We will not go down without a fight.

Writing on behalf of medical freedom. I am a personal trainer and nutrition coach. I have dedicated my life and work to serve of my community, in helping them to better their health and wellness. Im am writing this letter in strong opposition of medical mandates and any other mandates that strips away our rights and freedom to choose what is best to go into our bodies. As somebody who survived drug addition and poverty, turned my life around and make the constant effort to build my body and immune system, I won't support anything or anybody who tried to take away my choice. Especially for something that is so politically charged and fuelled by money and control. Furthermore the division and segregation that It causes to our island home. To take away our right to choose and in turn giving hardships is not the way We will survive this. Many will oppose and lose their livelihoods. Many will oppose and stop supporting businesses that are implementing. Our economy will continue to suffer, we will be placing more stress and emotional detriment to our people as a result of. 2 weeks to slow the spread had turned into show me your papers. I believe we are witnessing history repeat itself and am deeply saddened by the way our leadership or lack thereof is choosing to push this agenda.

Strongly oppose this proposal. I have been a frontline worker for over 27 years for the Honolulu police department. We have continued to work on our frontlines daily since this pandemic began dealing with infected and high risk individuals. You're right to choose your own health care needs is an inherent right in this country. As a condition of employment this is wrong. Not enough research has been done on this vaccine to mandate it. Period. Unlike other vaccines, Covid vaccine was not required as a condition of employment. Any attempt to require it now needs to go before collective bargaining agreements to negotiate. As a registered voter, you can bet I will be watching and holding the appropriate elected officials responsible.

Written Testimony This is going to affect tourism and all economies here in a negative way. Someone can be vaccinated and be sick. Health cards or vax pass are discriminatory and violate the constitution. Stop the fear and educate people on how to remain healthy sustainably. The shot does not create healthy individuals, does not prevent anything. NO VAX PASS OR HEALTH PASS!!!! It makes no sense. Stop destroying the economy and the livelihoods of the people of HAWAII!

Written Testimony

I'm oppose to any kind of discriminatory actions that could potentially divide our society and turn people against one another. Please stop this! Invest in therapeutical medications that have been shown to work throughout the world. We're not treating covid patients soon enough. Once diagnosed they're just told to stay home and isolate. By the time they come to the hospital (symptom day #5,8,10 or even 2 weeks), they're extremely sick! Thousands or even hundreds of thousands of lives could've been saved if early treatment was available. I'm a medical professional and take care of covid patients in an acute setting almost daily. EARLY INTERVENTION is the solution!! Not a vaccine that decreases its effectiveness overtime and will require booster shots every 5-6 months

Written Testimony

Our God given, American freedoms can't/ shouldn't be stripped away like in Nazi Germany! That is what this is! This how it started there and anyone who says otherwise is completely incorrect. Segregating people who choose medical freedom &/or are not medically safe to get a shot. Keeping people from living daily life and treating them as if they're dangerous... it's not right. If anyone, vaccinated or not can still get & spread the virus, why are we resorting to treating each other like disgusting, mangy animals? Where is the Aloha spirit and compassion for humanity? The love?

Our children deserve to have a normal childhood, just like we did. To island hop & see Mickey Mouse on special occasion... or our National parks & the rest of our beautiful country.

Written Testimony
Aloha,
Good morning to all the committee members.
I am submitting this testimony in opposition to this measure.
I am a social worker. I work in both the macro and micro sectors of the field. This resolution is not in the best interest for the people, period. This resolution WILL IN FACT start a rippled process of change that will lead to the removal of rights for the people of Hawaii. This measure is designed to value consumers who participate in the current experimental vaccination trials. This measure is coercive and manipulative of power and resources.
I strongly oppose this measure!!!!

Written Testimony I strongly oppose the Health Pass that is planned to be trialled on Oahu. This is not a solution to the pandemic. It will only hurt the economy and make it more inconvenient for tourists, locals, and business owners. They tried to run this program in san francisco, however there was very little compliance among business and patrons. Enough with the regulations. Put effort towards making people healthy, not preventing the inevitable of spread and heard immunity. Aloha

Written Testimony I am opposed to this resolution. This will further damage businesses and the economy. This vaccine is proving it isn't working. Look at Israel a country with the most vaccinated people. Their vaccine effectiveness is at 39%. It is the fully vaccinated that are the rise of cases there. It isn't safe or effective. Passports are stepping over the line and violates the freedoms of every citizen of this great country.

I oppose to this mandate/agenda due to the fact that our civil rights as American Citizens are being violated.

Title II of the Civil Rights Act of 1964

You have the right to full and equal enjoyment of the goods, services, facilities, privileges, advantages, and accommodations of any place of public accommodation. You cannot be treated differently by a place of public accommodation because of your race, color, religion, or national origin.

Written
Testimony

Title III of the Civil Rights Act of 1964: Outlawed state and municipal governments from barring access to public facilities based off an individual's religion, gender, race, or ethnicity. If an agency violates this particular provision of the Civil Rights Act of 1964 will lose its federal funding.

I would like to include how much of an impact this would be to our economy and small businesses if they were to see less business. Many businesses, especially small businesses have been hurting since the start of the pandemic and areas where rail is being built.

Mahalo in advance!

Written Testimony

I strongly oppose this bill for a variety of reasons including but not limited to the fact that (1) vaccinations aren't yet available to all so it would be inherently discriminatory, (2) it is not yet clear whether the vaccines prevent transmission or are effective against all variants, possibly putting people at risk, (3) if it isn't done securely, fraud would likely be rampant, and (4) a mandatory vaccination passport that restricts individual access to employment, business establishments, and places of public accommodation is government overreach. Please vote no on resolution 21-194. Thank you for your time and consideration.

I am strongly opposed to this Health Passport.

Written
Testimony

1. Vaccine makers and vaccine administrators and mandators are immune from liability in the event of adverse reaction including death
2. Pfizer paid out billions for bribing doctors and suppressing adverse trial results in 2009
3. Moderna has never brought a vaccine to market
4. Every previous coronavirus vaccine has failed.
5. Every previous mRNA vaccine has failed.
6. Anecdotal friends and family have had adverse reactions including death after vaccination.
7. ZERO long term safety testing and the short term trials that were conducted were abandoned because all the lab rats were dying.
8. Censorship of scientific debate
9. Censorship of Fauci funding gain-of-function
10. Censorship of Covid Treatments and the use of early treatment
11. Censorship of adverse reactions and deaths
12. Ignoring natural immunity. Got Covid and developed immunity.
13. 99.95% chance of survival if below age of 50
14. Bloated case counts and death numbers
15. The virus will continue to mutate
16. Vaccinated can still catch the virus.
17. FDA, CDC, WHO are captured institutions
18. Virus and vaccine efficacy measured by faulty PCR test
19. Never solved lipid nanoparticle delivery problem
20. Japanese Pfizer data shows LNP accumulating in organs
21. Vaccines must give you antibody immunity. This "vaccine" does NOT do that.
22. The doctors and nurses administering the inoculation are required by law to give

- informed consent and they cannot do this if they themselves are not informed
23. the 14th Amendment to the US Constitution explicitly directs states not to “deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws”
 24. Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
 25. Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: “Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product”
 26. Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment
 27. It is neither feasible nor safe to mandate experimental vaccination given the large number of COVID-19 recovered patients in the general population and the FDA/Pfizer/ Moderna protocols which excluded COVID-19 recovered patients
 28. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States
 29. Administration of the experimental COVID-19 vaccines according to guidelines established by the CDC’s Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations
 30. The public is entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials
 31. The SARS 2 Covid19 virus has never been isolated and there is no proof of it's existence.

According to the State's website at health.hawaii.gov updated 9/1 the positivity rate is 7.9% with 858 new cases STATEWIDE which calculates to 68 Positive cases STATEWIDE according to the website's definition and formula.

68 Positive cases Statewide with a total population of 1.46 million people is really 0.0004% chance of being positive with a 99.995% chance of survival.

Additionally, there were more flu deaths in 2017 than there are Covid deaths since April of 2020 and miraculously flu deaths disappeared.

The numbers don't make sense! Neither do your "New Case Count" numbers that are reported daily which include "Probable Cases." By definition on the State's website, "Probable case are cases that either have a positive antigen* test result (without a follow up confirmatory test) or were symptomatic and had known exposure but did NOT get tested."

WE THE PEOPLE DEMAND THAT YOU PROVE THAT A PANDEMIC EXISTS by presenting material evidence of the isolated SARS-COV2 virus and data of actual deaths (FROM Covid, NOT with Covid)and Number of Positive cases Statewide.

I believe this bill isn't what's right for this situation. You are forcing not asking these establishments to basically "card" everyone for a vaccine passport or a negative covid test to enter. Taking away our freedom and rights. U are making it so unvaccinated people have a harder time doing things while vaccinated people, who can still carry covid and spread to each other, can go freely. This isn't right when both vaccinated and unvaccinated can carry and spread covid.

Some of these places are places where our kids go to have fun, kids. But if their parent isn't vaccinated or doesn't want to pay to test they suffer.

Passing this measure would be completely fascist/totalitarian and a threat to our privacy and liberty to medical freedom.
To give up freedom in the name of safety and security is creating a North Korea on our Aina.

We the people WILL NOT accept or comply with Fascism and discrimination under the guise of safety.

If you want health and safety, why don't you make McDonalds alcohol and cigarettes illegal.

Oh wait this is America.... People are supposed to have choice here to do whatever they want with their bodies.....Like having CHOICE to NOT inject a highly speculative chemical that does not prevent nor stop transmission of covid 19.

You might as well put a gun to our heads and pull the trigger. As a citizen with immunocompromised body due to side effects of other pharmaceutical drugs, injecting that into my body would be killing me.

That is what this measure would be : discrimination and a risk of death.

If you pass this you might as well start digging mass graves.

I hope you all really listen to the people you claim to represent and protect before you make this vote.

Much Aloha,
A Representative of We the People

Written Testimony

The Vax passport is unconstitutional. Fauci has just announced on the Cdc website that the vaccine does NOT protect humans from the virus, or prevent the spread of virus. We can NOT be forced to expose our bodies to the dangerous contaminants of a vaccine that was not properly tested, especially when there are other treatments out there which are non toxic and effective. We CANNOT be coerced to get this toxic untested vaccine in order to comply with the proposed Tax passport agenda. It is dangerous to humans and has been found to contain a substance which is toxic and deadly to humans called Graphene Oxide. This was slipped into the patent under "trade secrets" because it is too toxic to be disclosed in allowable ingredients. This VAX has caused massive reproduction problems already in our community. I have personally lost three people in one week to the second shot. This Vaccine has NO transparency and in my opinion is a war crime against humanity. All the animals died in the animal testing and NO proper human testing was done. This IS the human testing, which is totally illegal. This is illegal and criminal, and certainly can not be mandated get our basic necessities met. This is absurd, and doing such a thing will cause revolt, revolution and unrest.

Written Testimony It is wrong to coerce people to take a vaccine in order to enjoy liberties such as going out to eat, go to the gym, go to the museum. This goes against every American value we have. Please reconsider. This is the USA, not China! And besides, where does this end? What about boosters?? This is a slippery slope that has no end in right.

Written Testimony Aloha,
I wanted to testify to the illegitimacy of this bill. requiring Health cards for functioning in a society is unconstitutional and should not be supported. This is an act of medical segregation, only I and my doctor are allowed to know what is on my medical records. should any restaurant, gym or high potential infectious business be able to see into my medical choices. NO. Should anyone be able to ask you or know wether you have aids or not? Everyone should be responsible for their own body and own choices. If they feel that they need the vaccine then they should have a choice, not forced to do so. You are elected officials and should act as representatives of the people not acting for your own best interest.. People should have the choices!!

Written Testimony

Strongly oppose this proposal. I have been a frontline worker for over 27 years for the Honolulu police department. We have continued to work on our frontlines daily since this pandemic began dealing with infected and high risk individuals. You're right to choose your own health care needs is an inherent right in this country. As a condition of employment this is wrong. Not enough research has been done on this vaccine to mandate it. Period. Unlike other vaccines, Covid vaccine was not required as a condition of employment. Any attempt to require it now needs to go before collective bargaining agreements to negotiate. As a registered voter, you can bet I will be watching and holding the appropriate elected officials responsible.

I oppose vaccine passports!

"There is no justification for taking away individuals' freedom in the guise of public safety."
-Thomas Jeffereson.

Written Testimony

Our founding fathers believed it. I believe it. I Oppose vaccine passports because it will encourage more segregation, and it is illegal.

Also, it doesn't make sense to make the covid vaccine a requirement, and not check everyone to see if they are up to date with all immunizations.

This is just wrong. What happened to our body our choice? I am a good person who stays healthy and I'm not going out bothering anyone. I feel sick to my stomach that were being blamed and made to feel like scums of the earth. I am not comfortable being forced to take something that hasn't been around for a bit. That's just how I feel. I want to be able to have a choice. This doesn't feel like America, the land of the free anymore. Me and my family and friends are in tears because we will lose our jobs. We are good, honest hardworking people who will lose everything because of this? Something is not right.

Written Testimony

I strongly oppose this bill. There is no validity to requiring these vaccine passports. People who are vaccinated can still contract and transmit covid 19. Unvaccinated can still do their part to stop the spread by taking vitamins, social distancing, wearing a mask and washing their hand frequently. It is not ok to force poisons into our bodies with out extensive research (longer than a year) and knowing how it will affect our bodies. I stand firm in my opposition and know we (both vaxxed and unvaxxed) and get through this together WITH OUT a forced vaccine or vaccine passport.

Medical decisions are so personal and cannot be blanket mandated without suppressing individual rights.
As someone who has witness countless needless vaccine injuries I am not convinced this shot comes with any safety guarantees. There are studies coming out every day that recovery from the virus is stronger in immunity as well. Japan is now using ivermectin for treatment (a drug that leaves your system in days). If an outpatient treatment protocol is working around the world, we have a right to know and a right to use it! All we ask is that you Give us choices.

Written
Testimony

I was born and raised here in Hawaii. I have never seen it worse like this. Our people here have always been loving and caring to each other. Everyone was treated with Aloha.

The fact that Mayor Rick even thinks that a vaccine passport to enter into establishments will help baffles me. The vaccinated can still spread covid so how will that help? This will continue to divide us further. We all know what happened in the past with segregation. This is exactly it and history is repeating itself again. So rather than moving forward we are going backwards.

You know who this will affect the most? all the businesses who have no choice but to abide by the rules so they don't get fined during these hard times just trying to stay afloat.

Are you guys are ok with more businesses closing and more chaos and people going against each other?

Written Testimony

I am a concerned citizen who is extremely alarmed at what I am seeing transpire over the last 19 months in the State of Hawai'i. I do not recognize what these islands have become under the draconian leadership of Gov. Ige, Lt. Gov. Green, and in the last nine months under Mayor Blangiardi. Their leadership has brought heartache and disaster to the welfare and economy of the people of these islands. These men have relied upon, "the medical doctors and scientists that they have been working with" with regard to how they have led in the so called Covid19 pandemic. Honest people will recognize that we have been fed a bunch of lies under their leadership. The media is also to blame for not questioning their faulty logic, but has gone right along with the mantra of shaming and promoting fear so that the public will get in line for masks, distancing, lockdowns, and experimental shots. These are perilous times for our islands because of the failed policies of our leadership and now with the two resolutions put forth today.

Our State and our people have come to a crossroads where we are now faced with two awful resolutions under Governor Ige's Emergency Proclamation related to the Covid-19 Response. (1) Resolution 21-193 to reinstate pre-travel Covid-19 testing and (2) Resolution 21-194 to implement a Covid-19 vaccine health card for high risk establishments. If passed, both of these resolutions will continue to not only divide the people of our Aloha state, but also cripple our economy. This will effectively reduce our God given freedom, liberty, and constitutional rights in the name of "safety". To quote Benjamin Franklin: "Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety." Our State needs real leadership that can use common sense and real science with regards to public health and stop trying to micromanage the affairs of a free people. Please DO NOT pass these resolutions!

Written Testimony

The Vax passport is unconstitutional. Fauci has just announced on the Cdc website that the vaccine does NOT protect humans from the virus, or prevent the spread of virus. We can NOT be forced to expose our bodies to the dangerous contaminants of a vaccine that was not properly tested, especially when there are other treatments out there which are non toxic and effective. We CANNOT be coerced to get this toxic untested vaccine in order to comply with the proposed Tax passport agenda. It is dangerous to humans and has been found to contain a substance which is toxic and deadly to humans called Graphene Oxide. This was slipped into the patent under "trade secrets" because it is too toxic to be disclosed in allowable ingredients. This VAX has caused massive reproduction problems already in our community. I have personally lost three people in one week to the second shot. This Vaccine has NO transparency and in my opinion is a war crime against humanity. All the animals died in the animal testing and NO proper human testing was done. This IS the human testing, which is totally illegal. This is illegal and criminal, and certainly can not be mandated get our basic necessities met. This is absurd, and doing such a thing will cause revolt, revolution and unrest.

Written Testimony

I strongly oppose this bill for a variety of reasons including but not limited to the fact that (1) vaccinations aren't yet available to all so it would be inherently discriminatory, (2) it is not yet clear whether the vaccines prevent transmission or are effective against all variants, possibly putting people at risk, (3) if it isn't done securely, fraud would likely be rampant, and (4) a mandatory vaccination passport that restricts individual access to employment, business establishments, and places of public accommodation is government overreach. Please vote no on resolution 21-194. Thank you for your time and consideration.

Written Testimony Aloha,
I wanted to testify to the illegitimacy of this bill. requiring Health cards for functioning in a society is unconstitutional and should not be supported. This is an act of medical segregation, only I and my doctor are allowed to know what is on my medical records. should any restaurant, gym or high potential infectious business be able to see into my medical choices. NO. Should anyone be able to ask you or know wether you have aids or not? Everyone should be responsible for their own body and own choices. If they feel that they need the vaccine then they should have a choice, not forced to do so. You are elected officials and should act as representatives of the people not acting for your own best interest.. People should have the choices!!

Written Testimony

I strongly oppose to health cards or vax pass.
It will prevent healthy people from participating in society, affecting the economy hugely.
Business will die because whoever is not getting the shot, will not get the shot anyways! and they will figure out ways to live without these luxuries.
This is going to affect tourism hugely! therefore affect the livelihood of the majority of people who sustain themselves from tourism.
Vaccinated people does not mean healthy people. Someone can be vaccinated and be sick.
Health cards or vax pass are discriminatory and violate the constitution. Stop the fear and educate people on how to remain healthy sustainably. The shot does not create healthy individuals, does not prevent anything. NO VAX PASS OR HEALTH PASS!!!! It makes no sense. Stop destroying the economy and the livelihoods of the people of HAwaii!

We the people of this community, who have elected YOU to be our voice, are asking you to say NO TO THE VACCINE PASSPORTS!

Over the past year and a half our communities have been stressed and overworked both physically and mentally. We need support. We need elected officials to listen to our voices and support us more than ever.

Written Testimony These vaccine passports will only continue to divide our communities and further allow segregation and separation between business, individuals, and collective communities.

We need is a collective coming together of supportive individuals in order to move forward.

We the people do NOT consent!

Written
Testimony I am opposed to the forced vaccination of people. I am opposed to manipulating people by eliminating their ability to participate as a working member of their community unless they are vaccinated. There still needs to be research on the vaccine as it does not really work.

Written Testimony

I oppose the digital vaccine passport. Since the pandemic started, no employee or customer at my work place has come down with or shown any symptoms of COVID 19. We take precautions to make sure everyone is safe. It is not fair that only certain business/establishments are being targeted. I live in Hawaii, which is part of the United States. So doesn't that mean I have freedom to chose whether I want to get vaccinated or not? And not be forced to show a digital passport if I go to a restaurant, gym, bar, etc. We all have families, that need our support. Whether it be paying for rent, mortgage, putting food on the table, the list can go on and on. The price of living in Hawaii isn't cheap. A lot of us are working more than one job, just to get by. Plus if you take any of the COVID-19 vaccines you don't know what kind of foreign chemicals are being introduced into your body. And that is a scary thing. People that are vaccinated are still catching the virus. So that shows that the vaccine does not work. All I know is that I am against the any COVID-19 vaccine and digital vaccine passport!

Written Testimony

As Dr. Christine Parks, PhD, so eloquently testified to the MI House of Representatives recently, all COVID-19 vaccines currently available do not adequately protect against the Delta and future Covid variants. PhDs are the most vaccine hesitant group in our nation. For good reason. According to Dr. Peter McCullough, MD, MPH, who was formerly pro vaccine and is now vehemently opposed to the covid vaccine, in Australia it has been shown that for every life saved due to it, 3 lives are lost due to vaccine induced myocarditis, blood clot and heart problems. These risks are real and the "protection" is false. As a Hawaii resident I refuse to allow this toxin to be injected in my body or into my child's body. Digital passports are discriminatory and wrong. Strongly OPPOSED.

Written
Testimony

Do not pass. The majority of the people do not consent to this. This will violate so many laws and will create discord and division among the people of Hawaii. Case numbers have been inflated, hospital staff has been reduced, successful alternative treatment protocols have not been considered. There are other ways to handle this besides this bill which will destroy local business and families alike. This is not the way. May God give us wisdom to see the truth and have mercy on those that stand up for what is right.

Written Testimony I oppose having to disclose private medical information to be able to enter establishments. I oppose the mandates to restrict those who chose to make individual informed decisions for their own personal self and body to be pressured or pushed by a government official and not their own health care providers. We should not be subject to showing or medical information to strangers to enter businesses, these are our rights.

Opposed. No Vaccine Passport Mandate.

A proposal for mandated vaccines / vaccine passport mandate is asinine.

Individuals need to have the right to choose.

This vaccine and passport mandate and the Covid-19 situation is being manipulated in order to create more power against the American people.

The vaccine companies are making incredible profits while holding zero liability for the safety and efficacy of their vaccine.

Written Testimony The spike in Hawaii was caused after the state allowed travelers back into Hawaii. People with the vaccine can still carry/be a vector for the virus. You need to be BETTER about Testing.

“ If contracted, there is still a chance of spreading it to others, which could be extremely dangerous if the household is immunocompromised or unvaccinated.”

I oppose Vaccine Passports. It is our right as Americans to choose what medicines we ingest. You, the city and county of Honolulu are not my primary care physician and I believe you are opening yourself up to liability for those who will be vaccine injured for forcing someone to take an experimental treatment. The Comirnaty, "phiser" vaccine isn't even available to the public yet and thus you would be forcing an unapproved experimental treatment on people which has no liability shield. Please don't harm business in hawaii any more, there has been enough economic loss over the past year and a half.

Mahalo,

Alex

I oppose vaccine mandates. You are forcing people to get an experimental vaccine that is completely untested. You are forcing people to get a vaccine that is losing its efficacy rate daily. More and more fully, and I mean 3 shot vaccinated are getting sick. This is the United States of America. If I want to get a vaccine I will or will not, if I want to go a Restaurant I will or will not, I may want <https://mandatefreehawaii.org/testify/> to ride motorcycles, sky dive, bungee jump, surf big waves or do anything I can or can not because we are free people! Do not force me to get a vaccine for something I have a 99.65% percent chance of being just fine if I get it.

Written Testimony I would like to testify. This is a very bad idea. Resolution 21-193 as well. The fact is that being a Covid survivor provides better immunity and longer than the vaccine. I can provide 10 studies that say so. Vaccine mandates are discriminatory and scary fake science. Please STOP this awful stupidity!

Written Testimony

I am strongly oppose this resolution, all mandates, and vehemently vaccine passports! I am completely boggled by the fact that any politician would think that this is a good idea. This is 100% completely illegal and let against our constitutional and civil rights. There is no way that this could get past and not get repealed at some point. Montana has already banned any type of mandated vaccination for employees. This makes absolutely no sense! For starters, some people have been vaccine injured, or their children have been, or they know someone that has been, and so being of sound mind with the clear evidence that is reported on the CDC website VAERS, that there have been thousands upon thousands of deaths, severe injuries, and reactions. Other people have underlying conditions and are immunocompromised where this experimental emergency use medical technology would have grave effects on their health. Another portion of the population who live in faith and not fear and trust God, will never put this into their body, especially the fact that this technology has been developed using the fetal cells of aborted babies. What kind of human being would ever think that it's OK to kill a child and experiment on it sells and then inject themselves with it?! These shots were first given out to the ignorant and unresearched who were not given enough facts or information to make a conscious decision regarding their health And was voluntary. The pharmaceutical companies have no liability for anybody who dies or is injured from this brand new technology. Thousands of doctors are being censored for the truth regarding natural treatments that are widely available and safe and effective. It is known that the vaccine is the cause of the mutations and the variants. Those who have received the shot may have less symptoms but they carry 250 times more viral load. The vaccinated are known to still catch the virus, are contagious, Can still spread the virus, and they roam free untested with a false sense of safety and are the superspreaders, even according to your news stations. This is causing segregation and discrimination and undue distress and harm especially among children. The CDC it's self has reported that only 300 children died last year from Covid and only one of those was a healthy child with no underlying conditions. Here in Hawaii the number of deaths reflect the same amount of deaths that have occurred in

previous years from the flu. There is no pandemic! The only pandemic we see is that of the government acting in total tyranny! There are whistleblowers coming forward about how hospitals have renamed certain admissions to Covid in order to get a higher reimbursement! This has been reported across the country as well. Early treatment is what the focus should be on at this point. We have had 18 months to figure it out. It is known that if people are on certain supplements prior to infection their bodies are able to heal much quicker. When first symptoms arise that is the most important time to start treating themselves. The people going into the hospital do not have the information they need in regards to the nutritional supplements they need to fight off severe infection. We need to gather the information from survivors so we can create a protocol we know works for them that can be applied to others. It is known that 75 to 80% of those who go to the hospital and are into baited and a ventilator put down their throat's that they will die and not survive. It is the hospital treatment and protocol that are killing patients. Many people who are dying are already living there last days with underlying conditions and would have died even without the Covid. The PCR test cannot even distinguish whether it is Covid or the flu or a common cold coronavirus or even a bacterial infection. The creator of the PCR test clearly stated that it should not be used to diagnose anything. Other reports say that the virus has never been isolated. It is also known that the sequencing for the virus was created by a computer. All of this being said there are a high number of people who will never allow this to happen or take the shot and businesses will suffer. There will not be enough staff in hospitals, schools, stores, restaurants, hotels to meet the demand put on society by commercialism. I was born and raised here and I'm getting really sick and tired of the government overreach of authority and if it were as easy to uproot my children and sell my home and pack up my things to move to a more conservative state, I would. You are chasing people out of their homeland. The Hawaiians have already lost so much and you're continuing to keep trying to take more and more away from us and them. This needs to stop immediately. You all need to regroup and refocus on better means. I am not a child. I have done nothing wrong. I wear my mask even though it's proven they don't work and viruses can go straight through the fabric. I hand sanitize. I social distance. I never was big on going out before anyway. I have been super careful and I know how to take care of my health and my children. I have what I need to take care of myself if I get the virus. We know how to take care of ourselves and the hospitals need to come out with certain protocol and give it to everybody so everyone can stock up and be prepared when they come in to contact with the virus because it will happen eventually because it is not going away. Trying to stop the virus is like trying to stop lightning from falling from the sky! You need to start taking what we say seriously and admit that there is truth behind everything we are saying to you and stop this out of control train wreck you have created! There are no long-term studies and I am afraid for the future generations what kind of mutations may take place in the warms of our teenagers and 20-year-olds. This may be the end of humanity because of this RNA that has been injected and there is no way to get it out of the vaccinated bodies. Cytokine storm & antibody dependent enhancement as well as inflammation and micro blood clotting in 28 different organs of the body is clear enough evidence that we are going to see a lot of people die from the shot over the next several months to several years. You are all insane! Slow down, pullback, and recommend better ways of handling this. Stop trying to take away our freedoms and our rights! You will not get away with it! Everything you're doing is mute and a complete waste of time because it's all going to get reversed eventually and you are hurting everybody with the protocols that you have been putting in place.

Written Testimony

I am a concerned citizen who is extremely alarmed at what I am seeing transpire over the last 19 months in the State of Hawai'i. I do not recognize what these islands have become under the draconian leadership of Gov. Ige, Lt. Gov. Green, and in the last nine months under Mayor Blangiardi. Their leadership has brought heartache and disaster to the welfare and economy of the people of these islands. These men have relied upon, "the medical doctors and scientists that they have been working with" with regard to how they have led in the so called Covid19 pandemic. Honest people will recognize that we have been fed a bunch of lies under their leadership. The media is also to blame for not questioning their faulty logic, but has gone right along with the mantra of shaming and promoting fear so that the public will get in line for masks, distancing, lockdowns, and experimental shots. These are perilous times for our islands because of the failed policies of our leadership and now with the two resolutions put forth today.

Our State and our people have come to a crossroads where we are now faced with two awful resolutions under Governor Ige's Emergency Proclamation related to the Covid-19 Response. (1) Resolution 21-193 to reinstate pre-travel Covid-19 testing and (2) Resolution 21-194 to implement a Covid-19 vaccine health card for high risk establishments. If passed, both of these resolutions will continue to not only divide the people of our Aloha state, but also cripple our economy. This will effectively reduce our God given freedom, liberty, and constitutional rights in the name of "safety". To quote Benjamin Franklin: "Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety." Our State needs real leadership that can use common sense and real science with regards to public health and stop trying to micromanage the affairs of a free people. Please DO NOT pass these resolutions!

Re mandate vaccination cards

Mr. blangiardi

I'm writing this letter today to voice my opposition to your decision to require everyone to show vaccination cards to enter business, not only is it discrimination, a violation to privacy and it's also irrational!

Written
Testimony

This will only bring division between vaccinated and unvaccinated. This will also bring financial hardship to businesses owners that are to ask for the vaccinations cards, most businesses don't want to be caught up in this division they simple are just trying to provide a roof over their heads and provide for their families.

We voted for you as many others that thought you was for us the people, I am truly disappointed that you have come to support this vaccination cards. Please reconsider the vaccination card requirement, it's truly not in the best interest of the people of Hawaii.

Sincerely,
Kourtney Millies

Written Testimony

The covid-19 positive cases in the population which has taken the covid-19 vaccine are spreading the virus ALONG with the covid-19 positive cases in the population who has not taken the covid-19 vaccine. This does not go against any scientific data put forth, these are the findings. This is the science and this is based on statistics. The CDC, Dr. Fauci, and many more, if not all, have stated this. If we stay on a more basic level, the direct knowledge that we gather from people we know directly, I'm sure, this is also most of our experience with our friends, family, co-workers, neighbors, acquaintances and overall community. Both vaccinated and unvaccinated people are contracting covid-19. And both positive covid-19 cases in the vaccinated and the unvaccinated are spreading the virus. If we are strictly speaking of "public health" there should be a distinction between positive covid-19 cases and negative covid-19 cases, subsequently, contact tracing. Based on contact tracing: vaccinated and non-vaccinated contact cases should be isolated and tested equally. Where did the idea to discriminate come from? Against all scientific data? Our government, and businesses, despite all of this has decided to discriminate. It is being decided to grant freedom of movement and access to public, and private spaces, to covid-19 vaccinated people regardless of status (positive or negative for the virus, in which case positive vaccinated people are okay to spread the virus) and then simultaneously freedom is being taken away from non covid-19 vaccinated people regardless of their status. Vaccines do not protect the others, it may protect from more severe illness, and that is a different conversation where by taking the vaccine you can potentially be protecting yourself, that should be a medical choice left to each individual. There are risks associated with taking the vaccine as well. Bottom line is each individual should be able to make their own medical risk assessment and make their own choice. As for high hospitalizations and protecting the immune-compromised population who cannot be vaccinated even if they wanted to, the best protection so far proven in the last 18 months looking at all the different mitigation behavior and trends has been: masks, washing hands, sanitizing, social distancing and testing. No one is even addressing natural immunity. Why would that not be part of the vaccination status card, or better immunization status, and Safe

access Oahu Program?

I do not believe proof of vaccination for freedom of movements will fix the health crisis that we are in.

I strongly oppose the resolution 21-194.

Aloha,
Please OPPOSE RS 21-194, as this resolution will not solve the spreading of the corona virus. Instead it will spread division and segregation based on medical status. Is this the future of our civil society that we want our children and grandchildren to grow up in?

Even now, we know that vaccinated population can still get the virus and spread the illness. There is no science or any other evidence to support that implementing this process will create an environment safe from viruses or the spread thereof.

Written Testimony

It is time we stop implementing fear base mandates that hasn't worked to stop the spread of the virus since the beginning of this pandemic. We ought to put more energy and effort into finding other alternatives to help promote individual health. Since we are no longer at the beginning of the pandemic maybe it's time that leaders work with the people on both side of the spectrums to decide the best solutions for the people. We can't keep taking a few people's opinion to decide for the rest of the population. We are not living in a dictatorship country.

Mahalo for your consideration.

Written Testimony

I oppose this agenda. It goes against my freedom By having to disclose personal medical information. It goes against the constitution . Making the vaccine mandatory to get into places or travel and having to show proof of your medical choices is so unlawful, & disgusting. No one should have to be put into that position. This will cause discrimination between people and unnecessary problems. I DO NOT STAND FOR THIS! IT IS MY BODY MY CHOICE. MY RIGHT TO NOT DISCLOSE MY PERSONAL MEDICAL INFORMATION. & THIS SHALL NOT BE FORCED OR MANDATORY.

Dear Council Members,

I hope that you will keep an open mind and use your common sense and rationale thinking in deciding on resolution 21-194 and laws rather than succumb to the fear and panic spread by our national political leaders and the politically appointed health officials. We are Hawaii which is special and has always recognized the rights on the minority and been on the forefront of doing what's right.

I strongly oppose the vaccine health cards since they are being used to discriminate against those who are unvaccinated. The use of the health cards to restrict access to restaurants, theaters and other venues will not reduce covid hospitalizations. These restrictions are used to coerce people to get vaccinated which is wrong and unconstitutional.

Written Testimony

Many studies have shown, including CDC data, that vaccinated people can get and do spread covid. In fact, the vaccinated may be more likely to spread covid since they may only have mild symptoms which they will ignore. The present vaccines are developed specifically for covid-19, the initial corona virus. MRNA technology targets a specific variant and is not effective against the delta, lambda and the gamma variants.

Rather than imposing restrictions on the unvaccinated, what does work is limiting the number of people gathering based on social distancing. This works before we had vaccines and will work again without discriminating against people.

If the vaccine works and the vaccinated cannot transmit covid and its variants, why do we need to keep the vaccinated people away from the unvaccinated? Why are the vaccinated so afraid of getting covid? If the vaccinated are not afraid of getting covid because they believe the vaccine works, why do we need restrictions on where vaccinated and unvaccinated can

go? No one has answered these questions, may be you can answer them as part of your discussion on this covid health card resolution.

We are ignoring or have forgotten about the science concerning natural immunity developed by those who have recovered from covid. Many people have natural immunity here which is not being considered.

I urge you NOT to pass the resolution on the vaccine health cards. It is being used to discriminate against one segment of the population and creating fear and panic among the rest of the people.

Concerning the resolution on travel testing, I support vaccine testing for all travelers coming to Hawaii whether vaccinated or unvaccinated. Many studies have shown including CDC data that vaccinated people can get and do spread covid. So testing only unvaccinated people makes no sense.

Thank you for considering my opinions on these resolutions.

L. Maeda

I STRONGLY OPPOSE this.

People that gather in large groups illegally, defy orders, put themselves at risk as well as all the others. Then they leave the gathering and potentially spread it to family or just other people and ONLY A FEW gets cited? Why not all?

Then you want to severely hamper the rule following, mask wearing non vaxxed citizens? We follow the rules, we wear our masks, we follow distancing protocols.

Written Testimony All they get is shame on you and don't do it again.

You guys are so backwards. And then in the press conference the guy was begging people to please still come and do take out!

You don't see that you are hurting their lively hood also? You get to go home at night and still collect a paycheck while they struggle not knowing if they will make it to next month.

I STRONGLY OPPOSE this passport and need to stop punishing the rule followers like us and the establishments and punish the rule breakers!

I strongly oppose this vaccine passport. This is a violation of my rights as an American citizen. There are proven treatments that remedy Covid 19. As far as mandating this vaccine by threatening ones livelihood it is unconstitutional, overstepping, and an abuse of power. It still should be ones choice as a human being and an American citizen what gets injected into my body. My body, my choice. Especially, if there's other treatments and preventive measures that have been proven to work!! There are studies that show the possible long term damage these vaccines may cause and most likely be irreversible. Please represent our voices of opposition of this resolution to the government. Thank you for your time!

Copy and paste this into the Written Testimony: "There is no justification in taking away individuals' freedom in the guise of public safety"
- Thomas Jefferson

Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

Written Testimony I am Opposed to the Vaccine Passport. People vaccinated or unvaccinated should have the same rights given by the Constitution. This Vaccine Passport is not about keeping people safe, this is an abolishment and attempt to segregate and alienate people of their free choice and will to live as free citizens of the United States. Think of our children and their future, what are we doing and what legacy are our leaders leaving behind for them.

Written Testimony

I strongly oppose this resolution as it is unconstitutional and unethical. Not only does the resolution violate the Civil Rights Act of 1964 and HIPAA confidentiality laws, but there is no solid evidence that the vaccine is effective against SARS-CoV-2. There is however, evidence that natural immunity is superior to vaccine immunity.

The massive uptick in cases we're seeing in Hawai'i happened after 60% of the population became vaccinated, which proves the vaccine to be ineffective. There have also been a number of 'breakthrough' cases which also prove vaccinated people can still catch and spread SARS-CoV-2.

The basis of this resolution is discriminatory with the only reason being to incentivize getting vaccinated. This would force businesses to wrongly segregate and refuse service to people based on medical and personal decisions.

CORRESPONDENCE

Resurgence of SARS-CoV-2 Infection in a Highly Vaccinated Health System Workforce

TO THE EDITOR: In December 2020, the University of California San Diego Health (UCSDH) workforce experienced a dramatic increase in severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) infections. Vaccination with mRNA vaccines began in mid-December 2020; by March, 76% of the workforce had been fully vaccinated, and by July, the percentage had risen to 83%. Infections had decreased dramatically by early February 2021.¹ Between March and June, fewer than 30 health care workers tested positive each month. However, coincident with the end of California's mask mandate on June 15 and the rapid dominance of the B.1.617.2 (delta) variant that first emerged in mid-April and accounted for over 95% of UCSDH isolates by the end of July (Fig. 1), infections increased rapidly, including cases among fully vaccinated persons. Institutional review board approval was obtained for use of administrative data on vaccinations and case-investigation data to examine mRNA SARS-CoV-2 vaccine effectiveness.

UCSDH has a low threshold for SARS-CoV-2 testing, which is triggered by the presence of at least one symptom during daily screening or by an identified exposure, regardless of vaccination status. From March 1 to July 31, 2021, a total of 227 UCSDH health care workers tested positive for SARS-CoV-2 by reverse-transcriptase–quantitative polymerase-chain-reaction (RT-qPCR) assay of nasal swabs; 130 of the 227 workers (57.3%) were fully vaccinated. Symptoms were present in 109 of the 130 fully vaccinated workers (83.8%) and in 80 of the 90 unvaccinated workers (88.9%). (The remaining 7 workers were only partially vaccinated.) No deaths were reported in either group; one unvaccinated person was hospitalized for SARS-CoV-2–related symptoms.

Vaccine effectiveness was calculated for each month from March through July; the case definition was a positive PCR test and one or more symptoms among persons with no previous Covid-19 infection (see the Supplementary Ap-

pendix). Vaccine effectiveness exceeded 90% from March through June but fell to 65.5% (95% confidence interval [CI], 48.9 to 76.9) in July

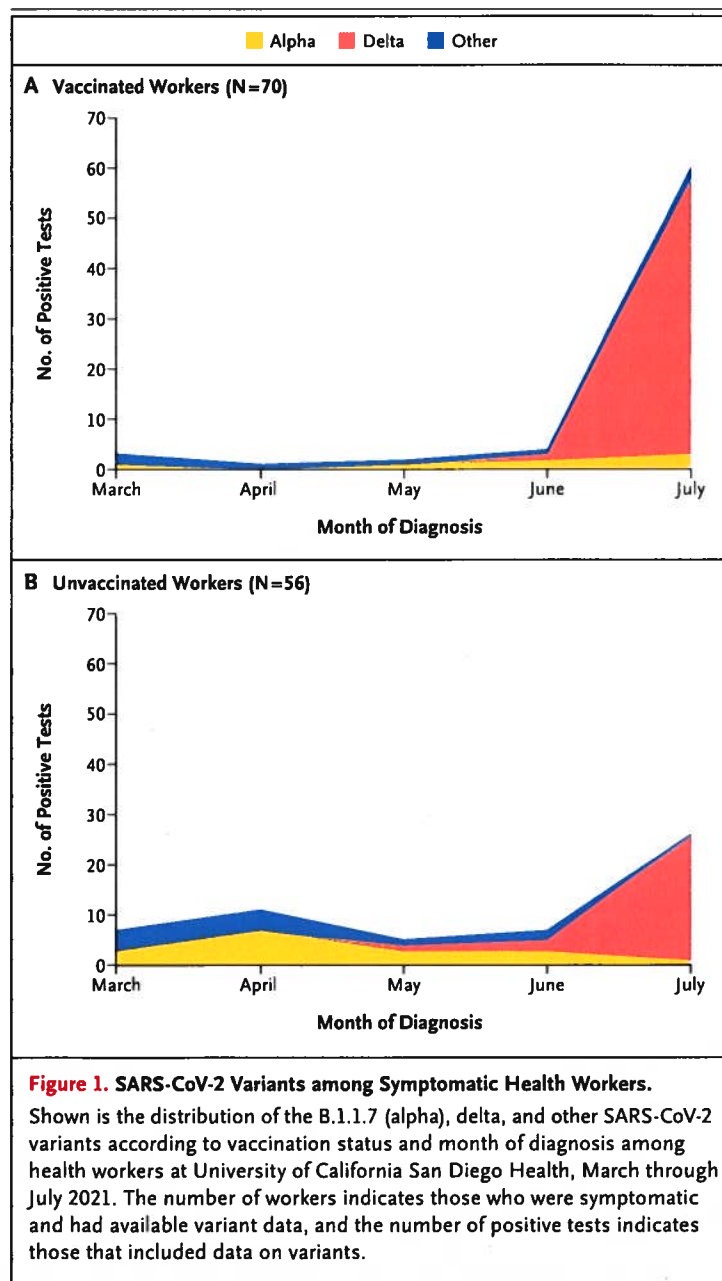

Table 1. Symptomatic SARS-CoV-2 Infection and mRNA Vaccine Effectiveness among UCSDH Health Workers, March through July 2021.*

	March	April	May	June	July
UCSDH workforce — no. of persons	18,964	18,992	19,000	19,035	19,016
Vaccination status — no. of persons					
Fully vaccinated†	14,470	15,510	16,157	16,426	16,492
mRNA-1273 (Moderna)	6,608	7,005	7,340	7,451	7,464
BNT162b2 (Pfizer–BioNTech)	7,862	8,505	8,817	8,975	9,028
Unvaccinated	3,230	2,509	2,187	2,059	1,895
Percentage of workers fully vaccinated	76.3	78.8	81.7	82.6	83.1
Symptomatic Covid-19					
Fully vaccinated workers	3	4	3	5	94
Unvaccinated workers	11	17	10	10	31
Percentage of cases in fully vaccinated workers	21.4	19.0	23.1	33.3	75.2
Attack rate per 1000 (95% CI)					
Fully vaccinated workers	0.21 (0.21–0.47)	0.26 (0.26–0.50)	0.19 (0.21–0.40)	0.30 (0.31–0.53)	5.7 (5.4–6.2)
Unvaccinated workers	3.4 (2.1–5.9)	6.8 (4.5–10.6)	4.6 (2.6–8.2)	4.9 (2.9–8.7)	16.4 (11.8–22.9)
Vaccine effectiveness — % (95% CI)	93.9 (78.2–97.9)	96.2 (88.7–98.3)	95.9 (85.3–98.9)	94.3 (83.7–98.0)	65.5 (48.9–76.9)

* UCSDH denotes University of California San Diego Health.

† Data are the total number of workers who had received two doses of an mRNA vaccine as of the last day of the month.

(Table 1). July case rates were analyzed according to the month in which workers with Covid-19 completed the vaccination series; in workers completing vaccination in January or February, the attack rate was 6.7 per 1000 persons (95% CI, 5.9 to 7.8), whereas the attack rate was 3.7 per 1000 persons (95% CI, 2.5 to 5.7) among those who completed vaccination during the period from March through May. Among unvaccinated persons, the July attack rate was 16.4 per 1000 persons (95% CI, 11.8 to 22.9).

The SARS CoV-2 mRNA vaccines, BNT162b2 (Pfizer–BioNTech) and mRNA-1273 (Moderna), have previously shown efficacy rates of 95% and 94.1%,² respectively, in their initial clinical trials, and for the BNT162b2 vaccine, sustained, albeit slightly decreased effectiveness (84%) 4 months after the second dose.³ In England, where an extended dosing interval of up to 12 weeks was used, Lopez Bernal et al. reported a preserved vaccine effectiveness of 88% against symptomatic disease associated with the delta variant.⁴ As observed by others in populations that received mRNA vaccines according to standard Emergency

Use Authorization intervals,⁵ our data suggest that vaccine effectiveness against any symptomatic disease is considerably lower against the delta variant and may wane over time since vaccination.

The dramatic change in vaccine effectiveness from June to July is likely to be due to both the emergence of the delta variant and waning immunity over time, compounded by the end of masking requirements in California and the resulting greater risk of exposure in the community. Our findings underline the importance of rapidly reinstating nonpharmaceutical interventions, such as indoor masking and intensive testing strategies, in addition to continued efforts to increase vaccinations, as strategies to prevent avoidable illness and deaths and to avoid mass disruptions to society during the spread of this formidable variant. Furthermore, if our findings on waning immunity are verified in other settings, booster doses may be indicated.

Aloha,

Written
Testimony

This testimony is in reference to your health pass requirement. It is a poorly conceived authoritarian violation of freedom and individual rights. If you educate yourself on the facts of this virus you will realize that transmission and contraction occur regardless of vaccination status. Vaccination saves high-risk populations, it does not eliminate spread. My immediate and extended family contracted COVID from vaccinated individuals—even those who were fully vaccinated and/or already had the virus still got it. Continuing along this course of restriction and discrimination will only be a detriment to our society, economy, and community—to state it mildly. We the people of Hawaii are intelligent, responsible, and capable of making our own decisions regarding personal health. We do not need nor require government overreach to compel us to act in our best interests—as if legislators and bureaucrats are more knowledgeable or qualified to protect us in matters of personal and public health. Your intentions, I expect, are positive, but this is a brazen step toward authoritarianism and away from the liberty that defines our country. I implore you, with all fervor and urgency, to please reconsider your health pass requirement in favor of freedom.

Mahalo for your time,

Jeremy Albano

I. INTRODUCTION

Plaintiffs move under Rule 65, Fed.R.Civ.P., for a preliminary injunction against Defendants enjoining them from continuing to authorize the emergency use of the so-called “Pfizer-BioNTech COVID-19 Vaccine,”¹ “Moderna COVID-19 Vaccine”² and the “Johnson & Johnson (Janssen) COVID-19 Vaccine”³ (collectively, the “Vaccines”)⁴ pursuant to their respective EUAs, and from granting full Food and Drug Administration (“FDA”) approval of the Vaccines:

- (i) for the under-18 age category;
- (ii) for those, regardless of age, who have been infected with SARS-CoV-2 prior to vaccination; and
- (iii) until such time as the Defendants have complied with their obligation to create and maintain the requisite “conditions of authorization” under Section 546 of the Food, Drugs and Cosmetics Act, 21 U.S.C. § 360bbb–3(e), thereby enabling Vaccine candidates to give truly voluntary, informed consent.

II. SUMMARY OF FACTS

Plaintiffs reference and incorporate herein the facts contained in their Complaint filed on June 10, 2021 (ECF 10).

A. The Unlawful Vaccine Emergency Use Authorizations

(1) 21 U.S.C. § 360bbb–3(b)(1)(C): There is No Emergency

On February 4, 2020, the Department of Health and Human Services (“DHHS”) Secretary declared, pursuant to § 360bbb–3(b)(1)(C), that SARS-CoV-2 created a “public health

¹ Emergency Use Authorization (“EUA”) issued December 11, 2020. See <https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/pfizer-biontech-covid-19-vaccine>.

² EUA issued December 18, 2020. See <https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/moderna-covid-19-vaccine>.

³ EUA issued February 27, 2021. See <https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/janssen-covid-19-vaccine>.

⁴ For the sake of clarity of reference, Plaintiffs are using the names given to the Pfizer and Moderna EUA medical products by their manufacturers and the Defendants. However, Plaintiffs reject the highly misleading use of the term “vaccine” to describe the Pfizer and Moderna EUA medical products, since they are not vaccines within the settled meaning of the term and instead are more precisely described as a form of genetic manipulation.

emergency.” This initial emergency declaration has been renewed repeatedly and remains in force today. The emergency declaration is the necessary legal predicate for the issuance of the Vaccine EUAs, which have allowed the mass use of the Vaccines by the American public, even before the completion of the standard regimen of clinical trials and FDA approval.

The emergency declaration and its multiple renewals are illegal, since in fact there is no underlying emergency. Assuming the accuracy of Defendants’ COVID-19 death data, SARS-CoV-2 has an overall survivability rate of 99.8% globally, which increases to 99.97% for persons under the age of 70, on a par with the seasonal flu. However, Defendants’ data is deliberately inflated. On March 24, 2020, DHHS changed the rules applicable to coroners and others responsible for producing death certificates and making “cause of death” determinations — **exclusively for COVID-19**. The rule change states: “COVID-19 should be reported on the death certificate for all decedents where the disease caused *or is assumed to have caused or contributed* to death.” In fact, DHHS statistics show that 95% of deaths classed as “COVID-19 deaths” involve an average of four additional co-morbidities. The CDC knew “...the rules for coding and selection of the underlying cause of death are expected to result in COVID-19 being the underlying cause more often than not.”

Similarly, the actual number of COVID-19 “cases” is far lower than the reported number. DHHS authorized the emergency use of the polymerase chain reaction (“PCR”) test as a diagnostic tool for COVID-19, with disastrous consequences. The PCR tests are themselves experimental products, authorized by the FDA under separate EUAs. PCR test manufacturers use disclaimers like this in their product manuals: “[t]he FDA has not determined that the test is safe or effective for the detection of SARS-Co-V-2.” Manufacturer inserts furnished with PCR test products include disclaimers stating that the PCR tests should NOT be used to diagnose

COVID-19. This is consistent with the warning issued by the Nobel Prize winning inventor of the PCR test that such tests are not appropriate for diagnosing disease.

The way in which the PCR tests are administered guarantees an unacceptably high number of false positive results. Cycle Threshold Value ("CT value") is essentially the number of times that a sample (usually from a nasal swab) is magnified or amplified before a fragment of viral RNA is detected. The CT Value is exponential, and so a 40-cycle threshold means that the sample is magnified around a trillion times. The higher the CT Value, the less likely the detected fragment of viral RNA is intact, alive and infectious.⁵

Virtually all scientists, including Dr. Fauci, agree that any PCR test run at a CT value of 35-cycles or greater is useless. Dr. Fauci has stated (emphasis below added):

What is now evolving into a bit of a standard is that if you get a cycle threshold of 35 or more that the chances of it being replication competent are miniscule... We have patients, and it is very frustrating for the patients as well as for the physicians... somebody comes in and they repeat their PCR and it's like 37 cycle threshold... you can almost never culture virus from a 37 threshold cycle. So I think if somebody does come in with 37, 38, even 36, you gotta say, you know, it's dead nucleotides, period. In other words, it is not a COVID-19 infection.⁶

A study funded by the French government showed that even at 35-cycles, the false positivity rate is as high as 97%. Despite this, a majority of the PCR tests for COVID-19 deployed under EUAs in the United States are run at 35-45 cycles in accordance with manufacturer instructions. Under the EUAs issued by the FDA, there is no flexibility to depart from the manufacturer's instructions and change the way in which the test is administered or interpreted. The chart below shows that all major PCR tests in use in the United States are run at cycles of up to 35 or higher.

⁶ <https://1027kearney.com/kpgz-news/2020/11/9/covid-tests-may-inflate-numbers-by-picking-up-dead-virus> (last visited July 15, 2021).

Manufacturer	Manufacturer's Recommended Cycle Threshold
Xiamen Zeesan SARS-CoV-2 Test Kit (Real-time PCR)	45 cycles
Opti Sars CoV-2 RT-PCR Test	45 cycles
Quest SARS-CoV-2rRT-PCR Test	40 cycles
CDC 2019-Novel Coronavirus Real Time (RT-PCR Diagnostic Panel) Test	40 cycles
Wren Labs COVID-19 PCR Test	38 cycles
LabCorp COVID-19 RT-PCR Test	35 cycles

Further, the Defendants and their counterparts in state governments used the specter of “asymptomatic spread” — the notion that fundamentally healthy people could cause COVID-19 in others — to justify the purported emergency. But there is *no credible scientific evidence* that demonstrates that the phenomenon of “asymptomatic spread” is real. On the contrary, on June 7, 2020, Dr. Maria Von Kerkhov, head of the WHO’s Emerging Diseases and Zoonosis Unit, told a press conference that from the known research, asymptomatic spread was “very rare.” “From the data we have, it still seems to be rare that an asymptomatic person actually transmits onward to a secondary individual.” She added for emphasis: “it’s very rare.” Researchers from Southern Medical University in Guangzhou, China, published a study in August 2020 concluding that asymptomatic transmission of COVID-19 is *almost non-existent*. “Asymptomatic cases were least likely to infect their close contacts,” the researchers found. A more recent study involving nearly 10 million residents of Wuhan, China found that there were no — zero — positive COVID-19 tests amongst 1,174 *close contacts* of asymptomatic cases, *indicating the complete absence of asymptomatic transmission*.

On September 9, 2020, Dr. Fauci was forced to admit in an official press conference:

[E]ven if there is some asymptomatic transmission, in all the history of respiratory borne viruses of any type, asymptomatic transmission has never been the driver of outbreaks. The driver of outbreaks is always a symptomatic person,

*even if there is a rare asymptomatic person that might transmit, an epidemic is not driven by asymptomatic carriers.*⁷

(2) § 360bbb-3(c)(1): There is in Fact no Serious or Life-Threatening Disease or Condition

Once an emergency has been declared and while it remains in force, the DHHS Secretary can issue and maintain EUAs “only if” (emphasis added) certain criteria are met. One of these criteria is that there is in fact (not simply perceived, projected or declared) “a serious or life threatening disease or condition.” For the reasons set forth above in the prior section, SARS-CoV-2 and COVID-19 do not constitute a “serious or life threatening disease or condition” within the meaning of the statute. It also bears noting that the legal purpose of an emergency declaration is to bypass checks and balances typically required under law due to a crisis and that the use of such a declaration for such an arbitrary purpose could undermine the balance of power between the various branches of government.

(3) § 360bbb-3(c)(2)(A): The Vaccines Do Not Diagnose, Treat or Prevent SARS-CoV-2 or COVID-19

The DHHS Secretary can issue and maintain the Vaccine EUAs “only if” they are “effective” in diagnosing, treating or preventing a disease or condition.

Centers for Disease Control and Prevention (“CDC”) data shows that the Vaccines are not effective in treating or preventing SARS-CoV-2 or COVID-19. Deaths from COVID-19 in those who have received the recommended dosages of the Vaccines increased from 160 as of April 30, 2021 to 535 as of June 1, 2021. Further, a total of 10,262 SARS-CoV-2 “breakthrough infections” of those who have already received the full recommended dosage of the Vaccines

⁷ <https://www.statnews.com/2021/01/23/asymptomatic-infection-blunder-covid-19-spin-out-of-control/> (last visited July 15, 2021).

were reported to the CDC from 46 states and territories between January 1, 2021 and April 30, 2021.

In studying the effectiveness of a medical intervention in randomized controlled trials (often called the gold standard of study design), the most useful way to present results is in terms of Absolute Risk Reduction (“ARR”). ARR compares the impact of treatment by comparing the outcomes of the treated group and the untreated group. In other words, if 20 out of 100 untreated individuals had a negative outcome, and 10 out of 100 treated individuals had a negative outcome, the ARR would be 10% ($20 - 10 = 10$). **According to a study published by the NIH, the ARR for the Pfizer Vaccine is a mere 0.7%, and the ARR for the Moderna Vaccine is only 1.1%.**

From the ARR, one can calculate the Number Needed to Vaccinate (“NNV”), which signifies the number of people that must be injected before even one person benefits from the vaccine. The NNV for the Pfizer Vaccine is 119, meaning that 119 people must be injected in order to observe the reduction of a COVID-19 case in one person. The reputed journal the *Lancet* reports data indicating that the NNV may be as high as 217.

There are several factors that reduce any purported benefit of the COVID-19 Vaccines. First, it is important to note that the Vaccines were only shown to reduce symptoms – not block transmission. For over a year now, these Defendants and state-level public health authorities have told the American public that SARS-CoV-2 can be spread by people who have none of the symptoms of COVID-19, therefore Americans must mask themselves, and submit to innumerable lockdowns and restrictions, even though they are not manifestly sick. If that is the case, and these officials were not lying to the public, and asymptomatic spread is real, then what is the benefit of a vaccine that merely reduces symptoms? There isn’t any.

Secondly, it appears that these Defendants either did lie about asymptomatic spread, or were simply wrong about the science. The theory of asymptomatic transmission — used as the justification for the lockdown and masking of the healthy — was based *solely* upon mathematical modeling. This theory had no actual study participants, and no peer review. The authors made the unfounded assumption that asymptomatic persons were “75% as infectious” as symptomatic persons. But in the real world, healthy false positives turned out to be merely healthy, and were never shown to be “asymptomatic” carriers of anything. Studies have shown that PCR test-positive asymptomatic individuals do not induce clinical COVID-19 disease, not even in a family member with whom they share a home and extended proximity. An enormous study of nearly ten million people in Wuhan, China showed that asymptomatic individuals testing positive for COVID-19 **never** infected others. Since asymptomatic individuals do not spread COVID-19, they do not need to be vaccinated.

(4) § 360bbb–3(c)(2)(B): The Known and Potential Risks of the Vaccine Outweigh their Known and Potential Benefits

The DHHS Secretary can issue and maintain the Vaccine EUAs “**only if**” (emphasis added) the known and potential risks of each Vaccine are outweighed by its known and potential benefits.

The typical vaccine development process takes between 10 and 15 years, and consists of the following sequential stages: research and discovery (2 to 10 years), pre-clinical animal studies (1 to 5 years), clinical human trials in four phases (typically 5 years). Phase 1 of the clinical human trials consists of healthy individuals and is focused on safety. Phase 2 consists of additional safety and dose-ranging in healthy volunteers, with the addition of a control group. Phase 3 evaluates efficacy, safety and immune response in a larger volunteer group, and requires two sequential randomized controlled trials. Phase 4 is a larger scale investigation into longer-

term safety. Vaccine developers must follow this process in order to be able to generate the data the FDA needs in order to assess the safety and effectiveness of a vaccine candidate.

This 10-15 year testing process has been abandoned for purposes of the Vaccines. The first human-to-human transmission of the SARS-CoV-2 virus was not confirmed until January 20, 2020, and less than a year later both mRNA Vaccines had EUAs and for the first time in history this novel mRNA technology was being injected into millions of human beings. As of June 7, 2021, 138 million Americans, representing 42% of the population, have been fully vaccinated.

All of the stages of testing have been compressed in time, abbreviated in substance, and are overlapping, which dramatically increases the risks of the Vaccines. Plaintiffs' investigation indicates that Moderna and Pfizer designed their Vaccines in only two days. It appears that pharmaceutical companies did not independently verify the genome sequence that China released on January 11, 2020. It appears that the Vaccines were studied for only 56 days in macaques, and 28 days in mice, and then animal studies were halted. It appears that the pharmaceutical companies discarded their control groups receiving placebos, squandering the opportunity to learn about the rate of long-term complications, how long protection against the disease lasts and how well the Vaccines inhibit transmission. A number of studies were deemed unnecessary and not performed prior to administration in human subjects, including single dose toxicity, toxicokinetic, genotoxicity, carcinogenicity, prenatal and postnatal development, offspring, local tolerance, teratogenic and postnatal toxicity and fertility. The American public has not been properly informed of these dramatic departures from the standard testing process, and the risks they generate.

Plaintiff America's Frontline Doctors' ("AFLDS") medico-legal researchers have analyzed the accumulated COVID-19 Vaccine risk data, and report as follows:

Migration of the SARS-CoV-2 “Spike Protein” in the Body

The SARS-CoV-2 has a spike protein on its surface. The spike protein is what allows the virus to infect other bodies. It is clear that the spike protein is not a simple, passive structure. The spike protein is a “pathogenic protein” and a toxin that causes damage. The spike protein is itself biologically active, even without the virus. It is “fusogenic” and consequently binds more tightly to our cells, causing harm. If the purified spike protein is injected into the blood of research animals, it causes profound damage to their cardiovascular system, and crosses the blood-brain barrier to cause neurological damage. If the Vaccines were like traditional *bona fide* vaccines, and did not leave the immediate site of vaccination, typically the shoulder muscle, beyond the local draining lymph node, then the damage that the spike protein could cause might be limited.

However, the Vaccines were authorized without any studies demonstrating where the spike proteins traveled in the body following vaccination, how long they remain active and what effect they have. A group of international scientists has recently obtained the “biodistribution study” for the mRNA Vaccines from Japanese regulators. The study reveals that unlike traditional vaccines, this spike protein enters the bloodstream and circulates throughout the body over several days post-vaccination. It accumulates in a number of tissues, such as the spleen, bone marrow, liver, adrenal glands and ovaries. It fuses with receptors on our blood platelets, and also with cells lining our blood vessels. It can cause platelets to clump leading to clotting, bleeding and heart inflammation. It can also cross the blood-brain barrier and cause brain damage. It can be transferred to infants through breast milk. The VAERS system includes reports of infants suckling from vaccinated mothers experiencing bleeding disorders in the gastrointestinal tract.

Increased Risk of Death from Vaccines

The government operated VAERS database is intended to function as an “early warning” system for potential health risks caused by vaccines. It is broadcasting a red alert. Of the 262,000 total accumulated reports in VAERS, only 1772 are not related to COVID-19. The database indicates that the total reported vaccine deaths in the first quarter of 2021 represents a 12,000% to 25,000% increase in vaccine deaths, year-on-year. In ten years (2009-2019) there were 1529 vaccine deaths, whereas in the first quarter of 2021 there have been over 4,000. Further, 99% of all reported vaccine deaths in 2021 are caused by the COVID-19 Vaccines, only 1% being caused by the numerous other vaccines reported in the system. It is estimated that VAERS only captures 1% to at best 10% of all vaccine adverse events.

Reproductive Health

The mRNA Vaccines induce our cells to manufacture (virus-free) “spike proteins.” The “spike proteins” are in the same family as the naturally occurring syncytin-1 and syncytin-2 reproductive proteins in sperm, ova and placenta. Antibodies raised against the spike protein might interact with the naturally occurring syncytin proteins, adversely affecting multiple steps in human reproduction. The manufacturers did not provide data on this subject despite knowing about the spike protein’s similarity to syncytin proteins for more than one year. There are now a very high number of pregnancy losses in VAERS. A study recently published in the New England Journal of Medicine, “Preliminary Findings of mRNA COVID-19 Vaccine Safety in Pregnant Persons,” exposes that pregnant women receiving Vaccines during their first or second trimesters suffer an 82% spontaneous abortion rate, killing 4 out of 5 unborn babies. There are worldwide reports of irregular vaginal bleeding without clear explanation. Scientists are concerned that the Vaccines pose a substantial risk to a woman’s reproductive system. This increased risk of sterility stems from an increased concentration of the spike proteins in various

parts of the reproductive system after vaccination. Not enough is known to determine the risk of sterility, but it is beyond question that the risk is increased.

A leaked Pfizer document (excerpted below) exposes that Pfizer Vaccine nanoparticles accumulate in the ovaries at an extraordinarily high rate, in concentrations orders of magnitude higher than in other tissues. Billions of aggressive spike proteins are accumulating in very delicate ovarian tissues, the one place in the human body where females carry a finite number of fertile eggs.

SARS-CoV-2 mRNA Vaccine (BNT162, PF-07302048)

PFIZER CONFIDENTIAL
Page 7

Each baby girl is born with the total number of eggs she will ever have in her entire life. Those eggs are stored in the ovaries, and one egg is released each month of a normal menstrual cycle. When there are no more eggs, a woman stops menstruating. The reproductive system is

arguably the most delicate hormonal and organ balance of all our systems. The slightest deviation in any direction results in infertility. Even in 2021, doctors and scientists do not know all the variables that cause infertility.

There is evidence to support that the Vaccines could cause permanent autoimmune rejection of the placenta. Placental inflammation resulting in stillbirths mid-pregnancy (second trimester) is seen with COVID-19 and with other similar coronaviruses. There is a case report of a woman with a normally developing pregnancy who lost the otherwise healthy baby at five months during acute COVID-19. The mother's side of the placenta was very inflamed. This "infection of the maternal side of the placenta inducing acute or chronic placental insufficiency resulting in miscarriage or fetal growth restriction was observed in 40% of pregnant women with similar coronaviruses." The mRNA Vaccines may instigate a similar reaction as the SARS-CoV-2 virus. There is a component in the vaccine that could cause the same autoimmune rejection of the placenta, but indefinitely. Getting COVID-19 has been associated with a high risk of mid-pregnancy miscarriage because the placenta fails. The mRNA Vaccines may have precisely the same effect, however, not for just the few weeks of being sick, but forever. Repeated pregnancies would keep failing in mid-pregnancy.

On December 1, 2020, a former Pfizer Vice President and allergy and respiratory researcher, Dr. Michael Yeadon, filed an application with the European Medicines Agency, responsible for approving drugs in the European Union, seeking the immediate suspension of all SARS-CoV-2 Vaccines, citing *inter alia* the risk to pregnancies. As of April 26, 2021, the VAERS database contains over 3,000 reports of failed pregnancies associated with the Vaccines.

Vascular Disease

Salk Institute for Biological Studies researchers in collaboration with the University of San Diego, published in the journal *Circulation Research* that the spike proteins themselves

damage vascular cells, causing strokes and many other vascular problems. All of the Vaccines are causing clotting disorders (coagulopathy) in all ages. The spike proteins are known to cause clotting that the body cannot fix, such as brain thrombosis and thrombocytopenia.

None of these risks has been adequately studied in trials, or properly disclosed to healthcare professionals or Vaccine subjects.

Autoimmune Disease

The spike proteins are perceived to be foreign by the human immune system, initiating an immune response to fight them. While that is the intended therapeutic principle, it is also the case that any cell expressing spike proteins becomes a target for destruction by our own immune system. This is an autoimmune disorder and can affect virtually any organ in the body. It is likely that some proportion of spike protein will become permanently fused to long-lived human proteins and this will prime the body for prolonged autoimmune diseases. Autoimmune diseases can take years to show symptoms and many scientists are alarmed at giving young people such a trigger for possible autoimmune disease.

Neurological Damage

The brain is completely unique in structure and function, and therefore it requires an environment that is insulated against the rest of the body's functioning. The blood-brain-barrier exists so the brain can function without disruption from the rest of the body. This is a complex, multi-layered system, using several mechanisms that keep nearly all bodily functions away from the brain. Three such systems include: very tight junctions between the cells lining the blood vessels, very specific proteins that go between, and unique enzymes that alter substances that do go through the cells. Working together, the blood-brain-barrier prevents almost everything from getting in. Breaching it is generally incompatible with life.

Most unfortunately, the COVID-19 Vaccines — unlike any other vaccine ever deployed — are able to breach this barrier through various routes, including through the nerve structure in the nasal passages and through the blood vessel walls. The resulting damage begins in the arterial wall, extends to the supporting tissue outside the arteries in the brain, and from there to the actual brain nerve cells inside. The Vaccines are programmed to produce the S1 subunit of the spike protein in every cell in every Vaccine recipient, but it is this subunit that causes the brain damage and neurologic symptoms. Elderly persons are at increased risk for this brain damage.

COVID-19 patients typically have neurological symptoms including headache and loss of smell and taste, as well as brain fog, impaired consciousness, and stroke. Researchers have published a paper in the *Journal of Neurological Sciences* correlating the severity of the pulmonary distress in COVID-19 with viral spread to the brain stem, suggesting direct brain damage, not just a secondary cytokine effect. It has been shown recently by Dr. William Banks, professor of Internal Medicine at University of Washington School of Medicine, that the S1 subunit of the spike protein — the part of the SARS-CoV-2 virus that produces the COVID-19 disease and is in the Vaccines — can cross the blood brain barrier. This is even more concerning, given the high number of ACE2 receptors in the brain (the ACE2 receptor is that portion of the cell that allows the spike protein to connect to human tissue). Mice injected with the S1 subunit of the spike protein developed direct damage to the perivascular tissue. In humans, viral spike protein was detected in the brain tissues of COVID-19 patients, but not in the brain tissues of the controls. Spike protein produces endothelial damage.

There are an excessive number of brain hemorrhages associated with COVID-19, and the mechanism suggests that it is the spike protein that is responsible. The federal government's VAERS database shows a dramatic increase in adverse event reporting of neurological damage following injection with the Vaccine.

Year	Dementia (reports following injection with Vaccine)	Brain Bleeding (reports following injection with Vaccine)
2000	4	7
2010	0	17
2015	0	17
2018	21	31
2019	11	17
2020	12 → (43)	4 → (11)
2021	17 → (251)	0 → (258)

While the full impact of these Vaccines crossing the blood-brain barrier is unknown, they clearly put vaccinated individuals at a substantially increased risk of hemorrhage, neurological damage, and brain damage as demonstrated by the increased instances of such reporting in the VAERS system.

Effect on the Young

The Vaccines are more deadly or harmful to the young than the virus, and that is excluding the unknown future effects on fertility, clotting, and autoimmune disease. Those under the age of 18 face statistically zero chance of death from SARS-CoV-2 according to data published by the CDC, but there are reports of heart inflammation — both myocarditis (inflammation of the heart muscle) and pericarditis (inflammation of the lining outside the heart) — in young men, and at least one documented fatal heart attack of a healthy 15-year old boy in Colorado two days after receiving the Pfizer Vaccine.⁸ The CDC has admitted that “[s]ince April 2021, increased cases of myocarditis and pericarditis have been reported in the United States after the mRNA COVID-19 vaccination (Pfizer-BioNTech and Moderna), particularly in adolescents and young adults.”

⁸ <https://archive.is/mEBcV> (last visited July 15, 2021).

The Vaccines induce the cells of the recipient to manufacture trillions of spike proteins with the pathology described above. Because immune responses in the young and healthy are more vigorous than those in the old, paradoxically, the vaccines may thereby induce, in the very people least in need of assistance, a very strong immune response, including those which can damage their own cells and tissues, including by stimulating blood coagulation.

See also infra Section II.B.

Chronic Disease

Healthy children whose birthright is decades of healthy life will instead face premature death or decades of chronic disease. We cannot say what percentage will be affected with antibody dependent enhancement, neurological disorders, autoimmune disease and reproductive problems, but it is a virtual certainty that this will occur.

Antibody Dependent Enhancement

Antibody Dependent Enhancement (“ADE”) occurs when SARS-CoV-2 antibodies, created by a Vaccine, instead of protecting the vaccinated person, cause a more severe or lethal case of the COVID-19 disease when the person is later exposed to SARS-CoV-2 in the wild.⁹ The vaccine *amplifies* the infection rather than *preventing* damage. It may only be seen after months or years of use in populations around the world.

This paradoxical reaction has been seen in other vaccines and animal trials. One well-documented example is with the Dengue fever vaccine, which resulted in avoidable deaths. Dengue fever has caused 100-400 million infections, 500,000 hospitalizations, and a 2.5% fatality rate annually worldwide. It is a leading cause of death in children in Asian and Latin American countries. Despite over 50 years of active research, a Dengue vaccine still has not

⁹ <https://www.nature.com/articles/s41564-020-00789-5> (last visited July 15, 2021).

gained widespread approval in large part due to the phenomenon of ADE. Vaccine manufacturer Sanofi Pharmaceutical spent 20 years and nearly \$2 billion to develop the Dengue vaccine and published their results in the *New England Journal of Medicine*, which was quickly endorsed by the World Health Organization. Vigilant scientists clearly warned about the danger from ADE, which the Philippines ignored when it administered the vaccine to hundreds of thousands of children in 2016. Later, when these children were exposed in the wild, many became severely ill and 600 children died. The former head of the Dengue department of the Research Institute for Tropical Medicine (RITM) was indicted in 2019 by the Philippines Department of Justice for “reckless imprudence resulting [in] homicide,” because he “facilitated, with undue haste,” Dengvaxia’s approval and its rollout among Philippine schoolchildren.¹⁰

ADE has been observed in the coronavirus setting. The original SARS-CoV-1 caused an epidemic in 2003. This virus is a coronavirus that is reported to be 78% similar to the current SARS-CoV-2 virus that causes the disease COVID-19. Scientists attempted to create a vaccine. Of approximately 35 vaccine candidates, the best four were trialed in ferrets. The vaccines appeared to work in the ferrets. However, when those vaccinated ferrets were challenged by SARS-CoV-1 in the wild, they became very ill and died due to what we would term a sudden severe cytokine storm. The reputed journals *Science*, *Nature* and *Journal of Infectious Diseases* have all documented ADE risks in relation to the development of experimental COVID-19 vaccines. The application filed by Dr. Yeadon with the European Medicines Agency on December 1, 2020 also mentioned the risk from ADE. ADE is discovered during long-term animal studies, to which the Vaccines have not been subjected.

Vaccine-Driven Disease Enhancement in the Previously Infected

See infra section II. C.

More Virulent Strains

Scientists are concerned that universal inoculation may create more virulent strains. This has been observed with Marek's Disease in chickens.¹¹ A large number of chickens not at risk of death were vaccinated, and now all chickens must be vaccinated or they will die from a virus that was nonlethal prior to widespread vaccination. The current policy to pursue universal vaccination regardless of risk may exert the same evolutionary pressure toward more highly virulent strains.

Blood Supply

Presently, the vaccinated are permitted to donate their spike protein laden blood into the blood supply, which projects all of the risks discussed *supra* onto the general population of unvaccinated blood donees.

Scientists and healthcare professionals all over the world are sounding the alarm and frantically appealing to the FDA to halt the Vaccines. They have made innumerable public statements. Fifty-seven top scientists and doctors from Central and South America are calling for an immediate end to all Vaccine COVID-19 programs. Other physician-scientist groups have made similar calls, among them: Canadian Physicians, Israeli People's Committee, Frontline COVID-19 Critical Care Alliance, World Doctors Alliance, Doctors 4 Covid Ethics, and Plaintiff America's Frontline Doctors. These are healthcare professionals in the field who are seeing the catastrophic and deadly results of the rushed Vaccines, and reputed professors of science and medicine, including the physician with the greatest number of COVID-19 scientific citations

¹¹ https://en.wikipedia.org/wiki/Marek%27s_disease (last visited July 15, 2021).

worldwide. They accuse the government of deviating from long-standing policy to protect the public. In the past, government has halted vaccine trials based on a tiny fraction — far less than 1% — of the number of unexplained deaths already recorded. The scientists all agree that the spike protein (produced by the Vaccines) *causes disease even without the virus*, which has motivated them to lend their imprimatur to, and risk their reputation and standing on, these public objections.

(5) § 360bbb–3(c)(3): There Are Adequate, Approved and Available Alternatives to the Vaccines

The DHHS Secretary can issue and maintain the Vaccine EUAs “**only if**” (emphasis added) there is no adequate, approved and available alternative to the Vaccines.

There are numerous alternative safe and effective treatments for COVID-19. These alternatives are supported by over 300 studies, including randomized controlled studies. Tens of thousands of physicians have publicly attested, and many have testified under oath, as to the safety and efficacy of the alternatives. Globally and in the United States, treatments such as Ivermectin, Budesonide, Dexamethasone, convalescent plasma and monoclonal antibodies, Vitamin D, Zinc, Azithromycin, Hydroxychloroquine, Colchicine and Remdesivir are being used to great effect, and they are far safer than the COVID-19 Vaccines.¹²

Doctors from the Smith Center for Infectious Diseases and Urban Health and the Saint Barnabas Medical Center have published an *Observational Study on 255 Mechanically Ventilated COVID Patients at the Beginning of the USA Pandemic*, which states: “Causal modeling establishes that weight-adjusted HCQ [Hydroxychloroquine] and AZM [Azithromycin] therapy improves survival by over 100%.”¹³

¹² Numerous studies can be reviewed here: <https://c19early.com> (last visited June 7, 2021).

¹³ <https://www.medrxiv.org/content/10.1101/2021.05.28.21258012v1> (last visited July 15, 2021).

Observational studies in Delhi and Mexico City show dramatic reductions in COVID-19 case and death counts following the mass distribution of Ivermectin. These results align with those of a study in Argentina, in which 800 healthcare professionals received Ivermectin, while another 400 did not. Of the 800, not a single person contracted COVID-19, while more than half of the control group did contract it. Dr. Pierre Kory, a lung specialist who has treated more COVID-19 patients than most doctors, representing a group of some of the most highly published physicians in the world, with over 2,000 peer reviewed publications among them, testified before the U.S. Senate in December 2020.¹⁴ He testified that based on 9 months of review of scientific data from 30 studies, Ivermectin obliterates transmission of the SARS-CoV-2 virus and is a powerful prophylactic (if you take it, you will not contract COVID-19). Four large randomized controlled trials totaling over 1500 patients demonstrate that Ivermectin is safe and effective as a prophylaxis. In early outpatient treatment, three randomized controlled trials and multiple observational studies show that Ivermectin reduces the need for hospitalization and death in statistically significant numbers. In inpatient treatment, four randomized controlled trials show that Ivermectin prevents death in a statistically significant, large magnitude. Ivermectin won the Nobel Prize in Medicine in 2015 for its impacts on global health.¹⁵

Inexplicably, the Defendants never formed or assigned a task force to research and review existing alternatives for preventing and treating COVID-19. Instead, the Defendants and others set about censoring both concerns about the Vaccines, and information about safe and effective alternatives.

(6) **§ 360bbb–3(e)(1)(A)(i) and (ii): Healthcare Professionals and Vaccine Candidates are Not Adequately Informed**

Once an EUA has been issued, § 360bbb–3(e) mandates that the DHHS Secretary “shall [] establish” conditions “designed to ensure” that both healthcare professionals and Vaccine candidates receive certain minimum required information that is necessary in order to make voluntary, informed consent possible. The required disclosures that the DHHS Secretary are designed to ensure include inter alia (i) that the Vaccines are only authorized for emergency use and not FDA approved, (ii) the significant known and potential risks of the Vaccines, (iii) available alternatives to the Vaccines, (iv) the option to accept or refuse the Vaccines.

The Vaccines are Not Approved by the FDA, but Merely Authorized for Emergency Use

Defendants have failed to educate the American public that the FDA has not actually “approved” the Vaccines, and that the DHHS Secretary has *not* in fact determined that the Vaccines are “safe and effective,” and on the contrary has merely determined, in accordance with the proverbial “weasel language” of the EUA statute, that “**it is reasonable to believe**” that the Vaccines “**may be**” effective and that the benefits outweigh the risks. Instead of being so educated, the public is barraged with unqualified “safe and effective” messaging from all levels of federal and state government, the private sector and the media. They hear from no higher authority than the President himself that: “The bottom line is this: I promise you they are safe. They are safe. And even more importantly, they’re extremely effective. If you’re vaccinated, you are protected.”

The public are also unaware of the serious financial conflicts-of-interest that burden Dr. Fauci, the National Institute of Allergies and Infectious Diseases, and the Vaccines and Related Biological Products Advisory Committee which advises and consults Defendants with respect to the Vaccine EUAs, as outlined in the Complaint (ECF 10, ¶¶ 250-256). Without the information

regarding conflicts-of interest, the public cannot assess for themselves the reliability and objectivity of the analysis underpinning the EUAs.

The Significant Known and Potential Risks of the Vaccines

Perhaps the first step in understanding the potential risks of the Vaccines is to understand exactly what they are, and what they are not. The CDC defines a “vaccine” as: “A product that stimulates a person’s immune system to produce immunity to a specific disease, protecting the person from that disease. Vaccines are usually administered through needle injections, but can also be administered by mouth or sprayed into the nose.”¹⁶ The CDC defines “immunity” as: “Protection from an infectious disease. If you are immune to a disease, you can be exposed to it without becoming infected.”¹⁷

However, the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine” do not meet the CDC’s own definitions. They do not stimulate the body to produce immunity from a disease. They are a synthetic fragment of nucleic acid embedded in a fat carrier that is introduced into human cells, not for the purpose of inducing immunity from infection with the SARS-CoV-2 virus, and not to block further transmission of the virus, but in order to lessen the symptoms of COVID-19. No published, peer-reviewed studies prove that the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine” confer immunity or stop transmission.

Further, the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine” are not “vaccines” within the common, lay understanding of the public. Since vaccines were first discovered in 1796 by Dr. Edward Jenner, who used cowpox to inoculate humans against smallpox, and called the process “vaccination” (from the Latin term *vaca* for cow), the

¹⁶ See <https://www.cdc.gov/vaccines/vac-gen/imz-basics.htm> (last visited July 9, 2021).

¹⁷ Id.

public has had an entrenched understanding that a vaccine is a microorganism, either alive but weakened, or dead, that is introduced into the human body in order to trigger the production of antibodies that confer immunity from the targeted disease, and also prevent its transmission to others. The public are accustomed to these traditional vaccines and understand them.

The public are fundamentally uninformed about the gene therapy technology behind the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine.” Referring to the “mRNA technology” in its Vaccine, Moderna admits the “novel and unprecedented nature of this new class of medicines” in its Securities and Exchange Commission filings.¹⁸ Further, it admits that the FDA classes its Vaccine as a form of “gene therapy.” No dead or attenuated virus is used in the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine.” Rather, instructions, via a piece of lab-created genetic code (the mRNA) are injected into your body that tell your body how to make a certain “spike protein” that is purportedly useful in attacking the SARS-CoV-2 virus.

By referring to the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine” as “vaccines,” and by allowing others to do the same, the Defendants knowingly seduce and mislead the public, short-circuit independent, critical evaluation and decision-making by the consumers of these products, and vitiate their informed consent to this novel technology which is being deployed in the unsuspecting human population for the first time in history.

Meanwhile, the federal government is orchestrating a nationwide media campaign funded with \$1 billion — not to ensure that the Defendants meet their statutory disclosure obligations, but solely to promote the purported benefits of the Vaccines. Simultaneously, the Associated Press, Agence France Press, British Broadcasting Corporation, CBC/Radio-Canada, European

¹⁸ See www.sec.gov/Archives/edgar/data/1682852/000168285220000017/mrna-20200630.htm (last visited July 6, 2021).

Broadcasting Union (EBU), Facebook, Financial Times, First Draft, Google/YouTube, The Hindu Times, Microsoft, Reuters, Reuters Institute for the Study of Journalism, Twitter, The Washington Post and The New York Times all participate in the “Trusted News Initiative” which has agreed to not allow any news critical of the Vaccines.

Individual physicians are being censored on social media platforms (e.g., Twitter, Facebook, Instagram, TikTok), the modern day “public square.” Plaintiff AFLDS has recorded innumerable instances of social media deleting scientific content posted by AFLDS members that runs counter to the prevailing Vaccine narrative, and then banning them from the platform altogether as users. Facebook has blocked the streaming of entire events at which AFLDS Founder Dr. Simone Gold has been an invited guest, prior to her uttering a word. Other doctors have been banned for posting or tweeting screenshots of government database VAERS.

The censorship also extends to medical journals. In an unprecedented move, the four founding topic editors for the *Frontiers in Pharmacology* journal all resigned together due to their collective inability to publish peer reviewed scientific data on various drugs for prophylaxis and treatment of COVID-19.

Dr. Philippe Douste-Blazy, a cardiology physician, former France Health Minister, 2017 candidate for Director of the WHO and former Under-Secretary-General of the United Nations, described the censorship in chilling detail:

The Lancet boss said “Now we are not going to be able to, basically, if this continues, publish any more clinical research data, because the pharmaceutical companies are so financially powerful today and are able to use such methodologies, as to have us accept papers which are apparently, methodologically perfect but in reality, which manage to conclude what they want to conclude.” ... one of the greatest subjects never anyone could have believed ... I have been doing research for 20 years in my life. I never thought the boss of The Lancet could say that. And the boss of the New England Journal of Medicine too. He even said it was “criminal” — the word was used by him. That is, if you will, when there is an outbreak like the COVID-19, in reality, there are people ... us,

we see “mortality” when you are a doctor or yourself, you see “suffering.” And there are people who see “dollars” — that’s it.

In many instances, highly publicized attacks on early treatment alternatives seem to be done in bad faith. For example, one study on Hydroxychloroquine overdosed study participants by administering a multiple of the standard prescribed dose, and then reported the resulting deaths as though they were not a result of the overdose, but from the medication itself administered in the proper dosages. The twenty-seven physician-scientist authors of the study were civilly indicted and criminally investigated, and still the Journal of the American Medical Association has not retracted the article.¹⁹

The Available Alternatives to the Vaccines

Information regarding available alternatives to the Vaccines has been suppressed and censored equally with information regarding the risks of the Vaccines, as aforesaid.

The Option to Accept or Refuse the Vaccines

The idea of using fear to manipulate the public is not new, and is a strategy frequently deployed in public health. In June 2020, three American public health professionals, concerned about the psychological effects of the continued use of fear-based appeals to the public in order to motivate compliance with extreme COVID-19 countermeasures, authored a piece for the journal *Health Education and Behavior* calling for an end to the fear-mongering. In doing so, they acknowledged that fear has become an accepted public health strategy, and that it is being deployed aggressively in the United States in response to COVID-19:

“... behavior change can result by increasing people’s perceived severity and perceived susceptibility of a health issue through heightened risk appraisal coupled by raising their self-efficacy and response-efficacy

¹⁹ <https://www.medrxiv.org/content/medrxiv/early/2020/04/16/2020.04.07.20056424.full.pdf> (last visited July 15, 2021).

about a behavioral solution. In this model, fear is used as the trigger to increase perceived susceptibility and severity."

In 1956, Dr. Alfred Biderman, a research social psychologist employed by the U.S. Air Force, published his study on techniques employed by communist captors to induce individual compliance from Air Force prisoners of war during the Korean War. The study was at the time and to some extent remains the core source for capture resistance training for the armed forces. The chart below compares the techniques used by North Korean communists with the fear-based messaging and COVID-19 countermeasures to which the American population has been subjected over the last year.

"COMMUNIST COERCIVE METHODS FOR ELICITING INDIVIDUAL COMPLIANCE".* The Biderman Report of 1956 and COVID-19	
Chart of Coercion	COVID-19
Isolation <ul style="list-style-type: none"> • Deprives individual of social support of his ability to resist • Makes individual dependent upon the captor • Individual develops an intense concern with self. 	Isolation <ul style="list-style-type: none"> • Social distancing • Isolation from loved ones, massive job loss • Solitary confinement semi-isolation • Quarantines, containment camps
Monopolization of Perception <ul style="list-style-type: none"> • Fixes all attention upon immediate predicament; • Frustrates all actions not consistent with compliance • Eliminates stimuli competing with those controlled by the captor 	Monopolization of perception <ul style="list-style-type: none"> • Restrict movement • Create monotony, boredom • Prevent gathering, meetings, concerts, sports • Dominate all media the 24/7, censor information
Induced Debility and Exhaustion <ul style="list-style-type: none"> • Weakens mental and physical ability to resist • People ...become worn out by tension and fear 	Induced debility <ul style="list-style-type: none"> • Forced to stay at home, all media is negative • not permitted to exercise or socialize
Threats <ul style="list-style-type: none"> • Cultivates anxiety and despair • Gives demands and consequences for non compliance 	Threats and Intimidation <ul style="list-style-type: none"> • Threaten to close business, levy fines • Predict extension of quarantine, force vaccines • Create containment camps
Occasional Indulgences <ul style="list-style-type: none"> • Provides motivation for compliance • Hinders adjustment to deprivation. • Creates hope for change, reduces resistance • This keeps people unsure of what is happening. 	Occasional Indulgences <ul style="list-style-type: none"> • Allow reopening of some stores, services • Let restaurants open but only at a certain capacity • Increase more people allowed to gather • Follow concessions with tougher rules
Demonstrate Omnipotence <ul style="list-style-type: none"> • Demonstrates futility of resistance • Shows who is in charge • Provides positive motivation for compliance 	Demonstrate Omnipotence <ul style="list-style-type: none"> • Shut down entire economies across the world • Create money out of nowhere, force dependency • Develop total surveillance with nanochips and 5G
Degradation <ul style="list-style-type: none"> • Makes resistance seem worse than compliance • Creates feelings of helplessness. • Creates fear of freedom, dependence upon captors 	Humiliation or Degradation techniques <ul style="list-style-type: none"> • Shame people who refuse masks, don't distance • Make people stand on circles and between lines • Make people stand outside and wait in queues • Sanitation stations in every shop
Enforcing trivial demands <ul style="list-style-type: none"> • Develops habit of compliance • Demands made are illogical and contradictory • Rules on compliance may change • Reinforces who is in control 	Enforcing trivial demands <ul style="list-style-type: none"> • Family members must stand apart • Masks in home and even when having sex • Random limits on people allowed to be together • Sanitizers to be used over and over in a day

www.beingfree.ca

The Chart of Coercion above is drawn from the Biderman Report on communist brainwashing techniques used by the Chinese and North Koreans on captured American servicemen to make them psychological as well as physical prisoners. Dr. Alfred D. Biderman M.A. and presented his Report at the New York Academy of Medicine Nov 13, 1956. Compare right column with your experience this year.

After a year of sustained psychological manipulation, the population is now weakened, frightened, desperate for a return of their freedoms, prosperity and normal lives, and especially vulnerable to pressure to take the Vaccine. The lockdowns and shutdowns, the myriad rules and regulations, the confusing and self-contradictory controls, the enforced docility, and the consequent demoralization, anxiety and helplessness are typical of authoritarian and totalitarian conditions. This degree of systemic and purposeful coercion means that Americans cannot give truly free and voluntary informed consent to the Vaccines.

At the same time, the population is being subjected to an aggressive, coordinated media campaign promoting the Vaccines funded by the federal government with \$1 billion. The media campaign is reinforced by a system of coercive rewards and penalties designed to induce vaccination. The federal government is offering a range of its own incentives, including free childcare. The Ohio Governor rewarded those Ohio residents accepting the Vaccines by allowing them to enter into the "Vaxamillion" lottery with a total \$5 million prize and the chance to win a fully funded college education, while barring entry for residents who decline the Vaccines. In New York, metro stations offer free passes to those receiving the Vaccine in the station. West Virginia is running a lottery exclusively for the vaccinated with free custom guns, trucks and lifetime hunting and fishing licenses, a free college education, and cash payments of \$1.5 million and \$600,000 as the prizes. Previously, the state offered a \$100 savings bond for each injection with a Vaccine. New Mexican residents accepting the Vaccines will be entered into weekly drawings to take home a \$250,000 prize, and those fully vaccinated by early August could win the grand prize of \$5 million. In Oregon, the vaccinated can win \$1 million, or one of 36 separate \$10,000 prizes through the state's "Take Your Shot" campaign. Other state and local governments are partnering with fast food chains to offer free pizza, ice cream, hamburgers and other foods to the vaccinated. Many people are desperate following the last year of economic

destruction and deprivation of basic freedoms, and they are especially vulnerable to this coercion.

The penalties take many forms, among them:

- Using guilt and shame to make unvaccinated children and adults feel badly about themselves for refusing the Vaccines.
- Threatening the unvaccinated with false fears and anxieties about COVID-19, especially children who are at no risk statistically.
- Removing the rights of those who are unvaccinated, including:
 - Being prohibited from working
 - Being prohibited from attending school or college
 - Being limited in the ability to travel in buses, trains and planes
 - Being prohibited from traveling outside the United States
 - Being excluded from public and private events, such as performing arts venues.

Most recently, the President has announced an aggressive campaign to visit the homes of the unvaccinated, not for the purpose of ensuring that they have all of the information they might need in order to make fully informed, voluntary decisions about the Vaccines (the information required by § 360bbb-3(e)(1)(A)(i) and (ii)), but instead for the purpose of pressuring them to be injected with the Vaccine so that the Administration can reach its goal of having 70% of the American population vaccinated. He said: “Now we need to go to community by community, neighborhood by neighborhood, and oftentimes, door to door — literally knocking on doors — to get help to the remaining people protected from the virus.”²⁰ The White House press secretary referred to the door-knockers who would enter our communities to pressure us to accept the Vaccines using the language of war, as “strike forces.” Then, after Dr. Fauci stated his opinion in mainstream media news outlets that “at the local level . . . there should be more mandates,

²⁰ See “Biden admin launching door-to-door push to vaccinate Americans, sparks major backlash,” <https://www.foxnews.com/media/biden-admin-door-to-door-coronavirus-vaccines> (last visited July 15, 2021).

there really should be”, the press secretary announced that the Biden Administration would support state and local Vaccine mandates.²¹

A study recently published in the International Journal of Clinical Practice, “Informed Consent Disclosure to Vaccine Trial Subjects of Risk of COVID-19 Vaccines Worsening Clinical Disease,”²² concludes:

COVID-19 vaccines designed to elicit neutralising antibodies may sensitise vaccine recipients to more severe disease than if they were not vaccinated. Vaccines for SARS, MERS and RSV have never been approved, and the data generated in the development and testing of these vaccines suggest a serious mechanistic concern: that vaccines designed empirically using the traditional approach (consisting of the unmodified or minimally modified coronavirus viral spike to elicit neutralising antibodies), be they composed of protein, viral vector, DNA or RNA and irrespective of delivery method, may worsen COVID-19 disease via antibody-dependent enhancement (ADE). This risk is sufficiently obscured in clinical trial protocols and consent forms for ongoing COVID-19 vaccine trials that adequate patient comprehension of this risk is unlikely to occur, obviating truly informed consent by subjects in these trials.

(emphasis added).

Plaintiffs’ expert Dr. Lee Merritt is a fully licensed, board certified surgeon, and has been actively engaged in medical practice for over 35 years. As Chief of Staff, Chief of Surgery and Chief of Credentialing at a regional medical center, she participated in hospital administration and education with respect to *inter alia* informed consent. She states: “I have read the Complaint and Motion for Preliminary Injunction in the above captioned matter, specifically the allegations related to informed consent. I agree with the informed consent allegations contained in the Complaint and Motion for Preliminary Injunction” (see Declaration of Dr. Lee Merritt at Exhibit A). Dr. Merritt has provided an example of some of the language that she would recommend using for the purpose of obtaining voluntary, informed consent to the Vaccines.

²¹ See “Biden will back local vaccine mandates,” <https://thehill.com/changing-america/well-being/prevention-cures/562622-biden-will-back-local-vaccine-mandates> (last visited July 15, 2021).

²² See <https://onlinelibrary.wiley.com/doi/epdf/10.1111/ijcp.13795> (last visited July 17, 2021).

The combined effect of (i) the suppression and censorship of information regarding the risks of the Vaccines, (ii) the failure to inform the public regarding the novel and experimental nature of the mRNA Vaccines, (iii) the suppression and censorship of information regarding alternative treatments, (iv) the failure to inform and properly educate the public that the Vaccines are not in fact “approved” by the FDA, (v) the failure to inform and properly educate the public that the DHHS Secretary has *not* determined that the Vaccines are “safe and effective” and on the contrary has merely determined that “it is reasonable to believe” that the Vaccines “may be effective” and that the benefits outweigh the risks, (vi) the sustained psychological manipulation of the public through official fear-based messaging regarding COVID-19, draconian countermeasures and a system of rewards and penalties, is to remove any possibility that Vaccine recipients are giving voluntary informed consent to the Vaccines. They have no real option to accept or refuse the Vaccines. They are unwitting, unwilling participants in a large scale, ongoing non-consensual human experiment.²³

(7) § 360bbb–3(e)(1)(A)(iii): Monitoring and Reporting of Adverse Events

VAERS was established in 1986 in order to facilitate public access to information regarding adverse events potentially caused by vaccines. This system is inadequate to the present circumstances, for the following reasons:

- neither healthcare professionals nor Vaccine recipients are being informed by the Defendants, and conditions do not exist ensuring that others will inform them, that the DHHS Secretary “has authorized the emergency use of the [Vaccines]” since they are not being informed of the true meaning of the EUAs, specifically, that the Secretary has *not* determined that the Vaccines are “safe and effective” (notwithstanding the President’s widely publicized statements to the contrary, which are amplified daily by countless other governmental and private sector statements that the Vaccines are “safe and effective”), and that instead the DHHS Secretary has only determined that he

²³ https://en.wikipedia.org/wiki/Unethical_human_experimentation_in_the_United_States (last visited July 15, 2021).

has “reason to believe” that the Vaccines “may be effective” in treating or preventing SARS-CoV-2 and COVID-19, based on trials of the Vaccines that are not being conducted like any previous trials and are compressed, overlapping, incomplete and in many instances conducted by the Vaccine manufacturers themselves;

- neither healthcare professionals nor Vaccine recipients are being informed by the Defendants, and conditions do not exist ensuring that others will inform them, of “the significant known and potential [] risks” of the Vaccines, since there is a coordinated campaign funded with \$1 billion to extol the virtues of the Vaccines, and a simultaneous effort to censor information about the inefficacy of the Vaccines in preventing or treating SARS-CoV-2 and COVID-19, Vaccine risks, and injuries and deaths caused by the Vaccine;
- Vaccine recipients are not being informed by the Defendants, who have a financial stake in the intellectual property underlying at least one Vaccine, and who have other financial conflicts of interest, and conditions do not exist ensuring that others will inform them, that there are alternatives to the Vaccines and of their benefits;
- Vaccine recipients are not being informed by the Defendants, and conditions do not exist ensuring that others will inform them, of their “option to accept or refuse” the Vaccines, since they have been saturated with unjustified fear-messaging regarding SARS-CoV-2 and COVID-19, psychologically manipulated, and coerced by a system of rewards and penalties that render the “option to [] refuse” meaningless; and
- Appropriate conditions do not exist for “the monitoring and reporting of adverse events” since only a fraction (as low as 1%) of adverse events are reported to VAERS by physicians fearing liability, and the Defendants have established a parallel reporting system for COVID-19 that is not accessible by Plaintiffs or the rest of the public.

A 2011 report by Harvard Pilgrim Healthcare for DHHS stated that fewer than 1% of all vaccine adverse events are reported to Defendants: “[F]ewer than 1% of vaccine adverse events are reported. Low reporting rates preclude or slow the identification of “problem” drugs and vaccines that endanger public health. New surveillance methods for drug and vaccine adverse effects are needed.”²⁴

To illustrate, while the CDC claims that “Anaphylaxis after COVID-19 vaccination is rare and occurred in approximately 2 to 5 people per million vaccinated in the United States

²⁴ Harvard Pilgrim Health Care, Inc., Electronic System for Public Health Vaccine Adverse Event Reporting System, *AHRQ* 2011.

based on events reported to VAERS,”²⁵ a recent study by Mass General Brigham found “severe reactions consistent with anaphylaxis occurred at a rate of 2.47 per 10,000 vaccinations.”²⁶ This is 50 to 120 times more cases than reported by VAERS and the CDC, meaning that only between 0.8% and 2% of all anaphylaxis cases are being reported by the Defendants. The underreporting is inexplicable, since it is mandatory for healthcare professionals to report this reaction to the Vaccines,²⁷ and the reactions typically occur within 30 minutes of vaccination.²⁸

Uniquely for COVID-19, the CDC has developed a parallel system called “V-Safe.” V-Safe is an app on a smart phone which people can use to report adverse events. Plaintiffs’ investigation indicates that vaccine subjects who are provided with written information are given the V-Safe contact information. Plaintiffs cannot access V-Safe data, since it is controlled exclusively by the CDC. Plaintiffs are concerned that the information in V-Safe exceeds that in VAERS, in terms of volume and kind, defying Congressional intent in creating VAERS.

In summation, VAERS is inaccurate, and the federal government is failing to provide data from other sources such as V-Safe, Medicare/Medicaid, the military, etc. Informed consent cannot be given without an understanding of risk and Plaintiffs cannot help but wonder why the Defendants would fail to disclose this critical information related to risk to the public, particularly in light of the fact that they have had the time and resources to study and extend the authorizations on the Vaccines, build an enormous Vaccine marketing machine, and roll out Vaccine clinics all over the nation.

B. The Under-18 Age Category

In the United States, those younger than 18 years of age accounted for just 1.7% of all COVID-19 cases.²⁹ Essentially no severe cases of COVID-19 were observed in those aged 10 through 18 years. This group accounted for just 1% of reported cases, almost all of which were very mild.³⁰ A study recently published in the British Medical Journal concludes: “In contrast to other respiratory viruses, children have less severe symptoms when infected with the novel severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).”³¹ Hospitalization due to COVID-19 is incredibly rare among youth, and overstated. The American Academy of Pediatrics³² reported:

...these studies underscore the importance of clearly distinguishing between children hospitalized with SARS-CoV-2 found on universal testing versus those hospitalized for COVID-19 disease. Both demonstrate that reported hospitalization rates greatly overestimate the true burden of COVID-19 disease in children.

Professor Hervé Seligmann, an infectious disease expert and biomedical researcher with over 100 peer-reviewed international publications, of the University of Aix-Marseille, has scrutinized the official COVID-19 statistics and figures of Israel, which has vaccinated 63% of its population, and fully vaccinated 57% of its population. Professor Seligmann sees no benefit in vaccinating those under 18, and significant risk of harm:

There are several theories about why the risk of death is so low in the young including that the density of the ACE2 receptors that the virus uses to gain entry into cells is lower in the tissue of immature animals and this is expected to be true also in humans. However, the vaccines induce the cells of the recipient to

³¹ Zimmermann P, Curtis N Why is COVID-19 less severe in children? A review of the proposed mechanisms underlying the age-related difference in severity of SARS-CoV-2 infections *Archives of Disease in Childhood* 2021;106:429-439.

³² Ioannidis, J.P.A. (2020) Infection fatality rate of COVID-19 inferred from seroprevalence data. *Bull. World Health Organ.* -:BLT.20.265892.

*manufacture trillions of spike proteins with the pathology described above. Because immune responses in the young and healthy are more vigorous than those in the old, paradoxically, the vaccines may thereby induce, in the very people least in need of assistance, strong immune responses, including those which can damage their own cells and tissues as well as by stimulating blood coagulation. Experts predict that vaccination will greatly increase the very low COVID-19 risks experienced by the younger population ... vaccination-associated mortality risks are expected at least 20 times greater below age 20 compared to the very low COVID19-associated risks for this age group.*³³

CDC data indicates that children under 18 have a 99.998% COVID-19 recovery rate with no treatment. This contrasts with over 45,000 deaths (*see below*) and hundreds of thousands of adverse events reported following injection with the Vaccines. The risk of harm to children may be as high as 50 to 1. Thus, children under 18 are at no statistically significant risk of harm from SARS-CoV-2 and COVID-19. Administering Vaccines to this age group knowingly and intentionally exposes them to unnecessary and unacceptable risks.

Plaintiffs' expert Dr. Angelina Farella is a fully licensed, board certified pediatrician, actively practicing for over 25 years, and has vaccinated in excess of 10,000 patients (*see Declaration of Angelina Farella, MD at Exhibit B*). Dr. Farella states, in her professional medical opinion: "There are 104 children age 0-17 who have died from Covid-19 and 287 from Covid + Influenza out of roughly 72 million children in America. This equals ZERO risk. There is NO public interest in subjecting children to experimental vaccination programs, to protect them from a disease that does not threaten them." Dr. Farella also opines, with respect to the lack of testing designed to ensure the safety of this subpopulation:

Vaccines take years to safely test. It's not only the number of people tested but the length of time that is important when creating new vaccines. Emergency Use Authorization was granted prematurely for adolescents, before ANY trials were completed. Moderna is scheduled to complete trials on October 31, 2022, and Pfizer is scheduled to complete trials on April 27, 2023. There were no trial

³³ Seligmann, H., (2021), Expert Evaluation on Adverse Effects of the Pfizer COVID-19 Vaccination. *See* https://www.researchgate.net/publication/351441506_Expert_evaluation_on_adverse_effects_of_the_Pfizer-COVID-19_vaccination (last visited July 8, 2021).

patients under the age of 18. The FDA and these pharma companies are currently allowing children 12 years old to receive this shot, when they were never studied in the trials. Never before in history have we given medications that were not FDA approved to people who were not initially studied in the trial.

Section 360bbb-3(c)(2) requires the Secretary to base decisions on “data from adequate and well-controlled clinical trials”. Clearly, the Secretary has exceeded his statutory authority with respect to the under-18 subpopulation.

Meanwhile, local governments are hastily passing laws eliminating the requirement for parental consent, and even parental knowledge, of medical treatments administered to children as young as 12. This is intended to pave the way for children to be vaccinated at school, without parental knowledge or consent.

Children in the 12-18 age group are not developmentally capable of giving voluntary, informed consent to the Vaccines. Their brains are rapidly changing and developing, and their actions are guided more by the emotional and reactive amygdala and less by the thoughtful, logical frontal cortex. Hormonal and body changes add to their emotional instability and erratic judgment. Children also have a well-known and scientifically studied vulnerability to pressure from peers and adults. This age group is particularly susceptible to pressure to do what others see as the right thing to do — in this case, to be injected with the Vaccine “for the sake of other people and society.”

Injecting this under-18 subpopulation with the Vaccines threatens them with immediate, potentially life-threatening harm. The documented risks of injecting this subpopulation with the Vaccines far outweigh the purported benefits.

C. Those Previously Infected with SARS-CoV-2

Medical studies show that those with preexisting immunity have long lasting and robust natural immunity to SARS-CoV-2.³⁴ A recent Cleveland Clinic study³⁵ demonstrates that natural immunity acquired through prior infection with COVID-19 is stronger than any benefit conferred by a Vaccine, rendering vaccination unnecessary for those previously infected. A comparative study by Goldberg *et al* “questioned the need to vaccinate previously-infected individuals” and noted that previously infected individuals had 96.4% immune protection from COVID-19, versus 94.4% in those injected with the Vaccine.³⁶

The Israeli Ministry of Health has released data showing that Israelis who had been previously infected with SARS-CoV-2 (and were not also vaccinated) were far less likely to become re-infected with the virus than those in the population who had been injected with the Vaccines.³⁷ Of the more than 7,700 new cases detected during the recent wave that commenced in May 2021, only 72, or less than 1%, were people who had previously been infected with SARS-CoV-2 and were never vaccinated. By contrast, over 3,000 cases, or 40%, were people who became infected for the first time, in spite of being vaccinated. The 72 instances of re-infection represent a mere 0.0086% of the 835,792 Israelis who are known to have recovered from the virus.

The immutable laws of immunology continue to function during COVID-19 (meaning those who are previously recovered from such an infection have acquired the ability to recognize disease and can effectively neutralize the infection before it takes hold), as evidenced by the fact

³⁴ See <https://www.nature.com/articles/d41586-021-01442-9>, and [https://www.thelancet.com/journals/lancet/article/PIIS0140-6736\(21\)00782-0/fulltext](https://www.thelancet.com/journals/lancet/article/PIIS0140-6736(21)00782-0/fulltext) (last visited July 14, 2021).

³⁶ See <https://www.medrxiv.org/content/10.1101/2021.04.20.21255670v1.full.pdf> (last visited July 13, 2021).

³⁷ See <https://www.israelnationalnews.com/News/News.aspx/309762> (last visited July 15, 2021).

that persons who have had SARS-CoV-1, a virus which is 22% dissimilar to the current strain, are still immune from SARS-CoV-2 18 years later.³⁸ Laypersons are misled to believe that when antibodies gradually diminish as expected, immunity is gone when in fact, immunity remains³⁹ quiescent deeper in the body, in the bone marrow⁴⁰, plasma, ready to be activated should the threat reemerge. This is normal immunology.

Not only is a Vaccine unnecessary in this subpopulation, it is more likely to cause harm. Scientists have observed vaccine-driven disease enhancement in the previously infected. The FDA admits that many people receiving a Vaccine either are or were previously infected with SARS-CoV-2, or have or previously had COVID-19.⁴¹ Upon injection with the Vaccines, this population has reported serious medical harm, including death.⁴² There is an immediately higher death rate worldwide upon receiving a Vaccine, generally attributed to persons having recently been infected with COVID-19. A person who previously had SARS-CoV-2, and then receives a Vaccine, mounts an antibody response to the Vaccine that is between 10 and 20 times stronger than the response of a previously uninfected person. The antibody response is far too strong and overwhelms the Vaccine subject. Medical studies show severe Vaccine side effects in persons previously infected with COVID-19.⁴³ A study published in the New England Journal of Medicine noted antibody titers 10-45 times higher in those with preexisting COVID-19 immunity after the first Vaccine injection, **with 89% of those seropositive reporting adverse side-effects.**⁴⁴ This substantial risk is suppressed in mainstream national news. Groups of scientists are demanding improved pre-assessment due to “Vaccine-driven disease enhancement”

in the previously infected, a subpopulation which has been excluded from clinical trials. The failure to protect a subpopulation at higher risk, such as this one, is unprecedented. Injecting this subpopulation with the Vaccines, without prescreening, threatens them with immediate, potentially life-threatening harm.

Plaintiffs' expert Dr. Richard Urso is a fully licensed, board certified, practicing medical doctor (see Declaration of Dr. Richard Urso at Exhibit C). Dr. Urso has treated over 300,000 patients in his career, including over 450 COVID-19 recovered patients. In his professional medical opinion:

COVID recovered patients are at extremely high risk to a vaccine. They retain an antigenic fingerprint of natural infection in their tissues. They have all the requisite components of immune memory. Vaccination may activate a hyperimmune response leading to a significant tissue injury and possibly death.

I have read the Complaint and Motion for Preliminary Injunction in the above captioned matter, specifically the allegations related to the dangers to members of the population who have already had Covid-19. I agree with the allegations contained in the Complaint and Motion for Preliminary Injunction.

Pre-screening can be accomplished in the traditional way by (1) obtaining relevant personal and family medical history including prior COVID-19 symptoms and test results, (2) obtaining antibody and T-Detect testing from indeterminate persons, (3) obtaining rapid PCR screening testing on all persons (using at least the standard cycle thresholds set forth *infra*). If the prescreening results are positive, the Vaccine candidate must be excluded. The documented risks of indiscriminately injecting this subpopulation with the experimental Vaccines far outweigh the purported benefits.

For additional support of the foregoing sections, and this Motion for Injunctive Relief generally, please see the duly sworn Declaration of Dr. Peter A. McCullough, attached hereto and incorporated herein with reference to Exhibit L.

D. Whistleblower Testimony: 45,000 Deaths Caused by the Vaccines

Plaintiffs' expert Jane Doe⁴⁵ is a computer programmer with subject matter expertise in the healthcare data analytics field, and access to Medicare and Medicaid data maintained by the Centers for Medicare and Medicaid Services (CMS) (*see* Declaration of Jane Doe at Exhibit D). Over the last 20 years, she has developed over 100 distinct healthcare fraud detection algorithms for use in the public and private sectors. In her expert opinion, VAERS under-reports deaths caused by the Vaccines by a conservative factor of at least 5. As of July 9, 2021, VAERS reported 9,048 deaths associated with the Vaccines. Jane Doe queried data from CMS medical claims, and has determined that the number of deaths occurring with 3 days of injection with the Vaccines exceeds those reported by VAERS by a factor of at least 5, indicating that **the true number of deaths caused by the Vaccines is at least 45,000**. She notes that in the 1976 Swine Flu vaccine campaign (in which 25% of the U.S. population at that time, 55 million Americans, were vaccinated), the Swine Flu vaccine was deemed dangerous and unsafe, and removed from the market, even though the vaccine resulted in only 53 deaths.

The gross and willful under-reporting of Vaccine-caused deaths, which is substantiated by Jane Doe's Declaration, and also by other independent data points considered as part of Plaintiffs' due diligence, is profoundly important on a number of levels. This evidence increases the likelihood of Plaintiffs' success on the merits by: (1) making it impossible (a) that the DHHS Secretary can reasonably conclude, as required by § 360bbb-3(c)(2)(B), that "the known and potential benefits of [the Vaccines] outweigh the known and potential risks of [the Vaccines]",

⁴⁵ Plaintiffs' expert Jane Doe is a whistleblower who fears for her personal safety and that of her family, and reprisal, including termination and exclusion from her chosen profession for the duration of her working life, for disclosing the evidence contained in her Declaration at Ex. D. Plaintiffs will present the Court with a motion for an appropriately tailored protective order seeking to preserve the confidentiality of Jane Doe's identity. In the meantime, Defendants are not prejudiced, since they can respond to the substance of Jane Doe's Declaration and challenge her expert qualification without knowing her true identity. Plaintiffs' counsel have in their possession a copy of this same Declaration of Jane Doe, signed by the witness in her actual name.

(b) that the DHHS Secretary has succeeded in creating conditions, as required by § 360bbb–3(e)(1)(A)(i)(II) and (ii)(II), that ensure that healthcare professionals and Vaccine candidates are informed of the “significant known and potential [] risks” of the Vaccines, and (c) that the DHHS Secretary has succeeded in creating conditions, as required by § 360bbb–3(e)(1)(A)(iii), for the monitoring and reporting of adverse events; and (2) sealing Plaintiffs’ argument that the FDA’s “citizen petition” process (discussed *infra* in section III(1)) is “inadequate and not efficacious” and that its pursuit by Plaintiffs would have been a “futile gesture” by showing Defendants’ bad faith. The evidence makes it irrefutable that Plaintiffs and others in the public will suffer irreparable injury (discussed *infra* in section III(2)) if this Motion is denied. Finally, the evidence tilts the balance of hardships and public interest (discussed *infra* in Section III(3)) decisively in favor of Plaintiffs.

III. LAW AND ANALYSIS

In the 11th Circuit, a district court may grant preliminary injunctive relief when:

“a party establishes each of four separate requirements: (1) it has a substantial likelihood of success on the merits; (2) irreparable injury will be suffered unless the injunction issues; (3) the threatened injury to the movant outweighs whatever damage the proposed injunction may cause the opposing party; and (4) if issued, the injunction would not be adverse to the public interest.”

Jones v. Governor of Fla., 950 F.3d 795, 806 (11th Cir. 2020). However, the court has “considerable discretion...in determining whether the facts of a situation require it to issue an injunction.” eBay, Inc. v. MercExchange, L.L.C., 547 U.S. 388, 391 (2006) (internal quotations and citations omitted).

A. Likelihood of Success on the Merits

As a threshold matter, parties seeking a preliminary injunction “are not required to prove their claim, but only to show that they [are] likely to succeed on the merits.” Glossip v. Gross, 135 S. Ct. 2726, 2792 (2015); Winter v. Nat. Res. Def. Council, Inc., 555 U.S. 7, 22 (2008).

While the burden of persuasion remains with the Plaintiffs, the “burdens at the preliminary injunction stage track the burdens at trial.” Gonzales v. O Centro Espírita Beneficente União do Vegetal, 546 U.S. 418, 428–30 (2006). For the purposes of a preliminary injunction, this burden of proof can be shifted to the party opposing the injunctive relief after a *prima facie* showing, and the movant should be deemed likely to prevail if the non-movant fails to make an adequate showing. *Id.*

(1) Plaintiffs Have Standing

Plaintiffs have standing to assert these claims. They have demonstrated that they have “(1) suffered an injury in fact, (2) that is fairly traceable to the challenged conduct of the defendant, and (3) that it is likely to be redressed by a favorable decision.” Lujan v. Defs. of Wildlife, 504 U.S. 555, 560-61 (1992).

Plaintiffs have alleged specific physical injuries caused by the Vaccines, death caused by the Vaccines, actual and threatened loss of employment, and violations of their constitutionally protected rights to personal autonomy, bodily integrity, and to work in a profession of their choosing, each of which constitutes “an invasion of a legally protected interest” that is “concrete,” “particularized,” and “actual or imminent, not conjectural or hypothetical” as required under Spokeo, Inc. v. Robins, 136 S.Ct. 1540, 1548 (2016). Their pleadings are supported by Declarations made under oath.

The participation of third parties in the chain of causation does not defeat Plaintiffs’ claims or their standing, since their injuries are “fairly traceable” to the Defendants. *See* Simon

v. Eastern Kentucky Welfare Rights Org., 426 U.S. 26, 45 n.25 (1976) (noting cases providing that privately inflicted injury is traceable to government action if the injurious conduct “would have been illegal without that action”); National Wildlife Federation v. Hodel, 839 F.2d 694, 705 (D.C. Cir. 1988) (“The Supreme Court’s decisions on this point show that mere indirectness of causation is no barrier to standing, and thus, an injury worked on one party by another through a third party intermediary may suffice.”); Telephone and Data Systems, Inc. v. FCC, 19 F.3d 42, 47 (D.C. Cir. 1994) (“injurious private conduct is fairly traceable to the administrative action contested in the suit if that action authorized the conduct or established its legality” . . . “the relief sought would constitute a ‘necessary first step on a path that could ultimately lead to relief fully redressing the injury’” . . . “the relief requested ‘will produce tangible, meaningful results in the real world.’”); Motor & Equip. Mfrs. Ass’n v. Nichols, 142 F.3d 449, 457-58 (D.C. Cir. 1998) (petitioner had standing to challenge government action based on the independent conduct of third parties where evidence demonstrated that the challenged action “resulted in an almost unanimous decision” by those third parties to take action that harmed the petitioner); America’s Community Bankers v. FDIC, 200 F.3d 822, 827-28 (D.C. Cir. 2000) (“an agency does not have to be the direct actor in the injurious conduct, but that indirect causation through authorization is sufficient to fulfill the causation requirement for Article III standing.”); Consumer Federation of America v. F.C.C., 348 F.3d 1009, 1012 (D.C. Cir. 2003) (“When an agency order permits a third-party to engage in conduct that allegedly injures a person, the person has satisfied the causation aspect of the standing analysis.”).

A favorable decision of this Court will likely redress Plaintiffs’ injuries. The Vaccine-injured Plaintiffs continue to suffer the adverse effects of the Defendants’ wrongdoing, and their physical injuries are still unfolding. Their personal injuries can be redressed in the usual way, by

an award of civil money damages for pain and suffering, emotional distress, economic loss and medical monitoring.

(2) Defendants' Actions are Reviewable

Plaintiffs have alleged that there is no real emergency as required by § 360bbb-3(b), that Defendants have willfully failed to satisfy the statutory criteria for issuing the Vaccine EUAs required by § 360bbb-3(c), and that Defendants have failed to create and maintain the conditions of authorization for the Vaccine EUAs required by § 360bbb-3(e) (Counts I, II, III and VI).

The Administrative Procedures Act ("APA") imposes four requirements that must be met before a federal court can review agency action: (1) the alleged injury must "arguably" be within the "zone of interests" protected or regulated by the statute in question, (2) no statute precludes judicial review, (3) the agency action is "final" and (4) the agency action is not "committed to agency discretion" by law.

i. Plaintiffs' Injuries are Within the Zone of Interests

The "zone of interests" test is "*not* 'especially demanding'" Lexmark Int'l, Inc. v. Static Control Components, Inc., 572 U.S. 118, 130 (2014) (quoting Match-E-Be-Nash-She-Wish Band of Pottawatomí Indians v. Patchak, 567 U.S. 209, 225 (2012)). The Supreme Court has "conspicuously included the word 'arguably' in the test to indicate that the benefit of any doubt goes to the plaintiff." Id. The test "'forecloses suit only when a plaintiff's interests are so marginally related to or inconsistent with the purposes implicit in the statute that it cannot reasonably be assumed that' Congress authorized that plaintiff sue." Collins v. Mnuchin, 938 F.3d 553, 574 (5th Cir. 2019) (quoting Lexmark, 572 U.S. at 130.). The Vaccine injuries and death, and the violations of the constitutionally protected right to bodily integrity and personal autonomy that Plaintiffs assert in the Complaint, are within the zone of interests protected by these statutory provisions, the purpose of which is to tightly limit the circumstances in which

potentially harmful medical products can be placed in the stream of commerce and used by the American public prior to their full approval by the FDA.

ii. No Statutory Preclusion

Plaintiffs can locate no valid statute purporting to preclude judicial review of this agency action, either categorically, or prior to the exhaustion of administrative remedies.

Defendants may cite to 42 U.S.C. § 247d-6d(b)(7), a provision of the Public Readiness and Emergency Preparedness Act (“PREP Act”), which states: “No court of the United States, or of any State, shall have subject matter jurisdiction to review, whether by mandamus or otherwise, any action by the Secretary under this subsection.” However, a “strong presumption in favor of judicial review of administrative action” governs the construction of potentially jurisdiction-stripping provisions like § 247d-6d(b)(7). INS v. St. Cyr, 533 U.S. 289, 298 (2001). “Even when the ultimate result is to limit judicial review, the Court cautions that as a matter of the interpretive enterprise itself, the narrower construction of a jurisdiction-stripping provision is favored over the broader one.” ANA Int’l Inc. v. Way, 393 F.3d 886, 891 (2004) (citing to Reno v. American-Arab Anti-Discrimination Committee, 525 U.S. 471, 480-482 (1999)); see also Patel v. United States AG, 917 F.3d 1319, Fn. 4 (11th Cir. 2019) (“We are also mindful that there is a strong presumption in favor of interpreting statutes to allow judicial review of administrative actions; consequently, jurisdiction stripping is construed narrowly.”), (citing to Kucana v. Holder, 558 U.S. 233, 251-252 (2010).

Thus the prohibition on judicial review in § 247d-6d(b)(7) must be construed narrowly so as to apply exclusively and specifically to declarations conferring the PREP Act “immunity” described in § 247d-6d(a), which are the only declarations made by the Secretary under “this subsection.” Section 247d-6d(b)(1) refers to the Secretary’s having first and beforehand made a declaration that a public health emergency exists (a declaration that is made under an entirely

different statute, 21 U.S.C. § 360bbb–3(b)), and states that if such a public health emergency declaration has been made, then the Secretary may confer PREP Act immunity by publishing a notice of same in the Federal Register.

Any broader interpretation of § 247d-6d(b)(7) — and in particular, any broader interpretation that purports to categorically eliminate judicial review of actions taken under § 360bbb–3 — is an unconstitutional delegation of legislative power by Congress to the executive branch. It is unconstitutional for three reasons. First, it is unconstitutional because it is devoid of any “‘intelligible principle’ on which to judge the conformity of agency action to the congressional grant of power.” Florida v. Becerra, 2021 U.S. Dist. LEXIS 114297 (M.D. Fl. 2021) (quoting J.W. Hampton, Jr., & Co. v. United States, 276 U.S. 394, 409 (1928)). Further, it purports to categorically exclude, rather than merely limiting, all judicial review. Finally, it is unconstitutional because it purports to eliminate judicial review in that most constitutionally perilous of situations, a state of emergency unilaterally declared and sustained by an executive branch official.

In Home Building and Loan Association v. Blaisdell, 290 U.S. 398 (1934), the U.S. Supreme Court stated: “Whether an emergency exists upon which the continued operation of the law depends is always open to judicial inquiry.” 290 U.S. at 442, citing Chastleton Corp. v. Sinclair, 264 U.S. 543 (1924). In Sinclair, the Supreme Court stated: “A law depending upon the existence of emergency or other certain state of facts to uphold it may cease to operate if the emergency ceases or the facts change.” 264 U.S. at 547. Both Blaisdell and Sinclair are clear authority that an emergency and the rules promulgated thereunder must end when the facts of the situation no longer support the continuation of the emergency. They also forbid this Court to merely assume the existence of a “public health crisis” based on the pronouncements of the Executive Defendants. They are clear authority that it is the duty of the court of first instance to

grapple with this question and conduct an inquiry. “[A] Court is not at liberty to shut its eyes to an obvious mistake when the validity of the law depends upon the truth of what is declared.” *Id.* The Sinclair court instructed lower court’s to inquire into the factual predicate underlying a declaration of emergency, where there appears to have been a change of circumstances: “the facts should be gathered and weighed by the court of first instance and the evidence preserved for consideration by this Court if necessary.” 264 U.S. at 549.

In Sterling v. Constantin, 287 U.S. 378 (1932), the Supreme Court reviewed the actions of the Texas Governor in declaring martial law and interfering with oil well production in a manner that impaired private drilling rights. In holding that the question whether an emergency existed justifying such interference with the plaintiffs’ property rights was subject to judicial inquiry and determination, the Court stated:

If this extreme position could be deemed to be well taken, it is manifest that the fiat of a state governor, and not the Constitution of the United States, would be the supreme law of the land; that the restrictions of the federal Constitution upon the exercise of state power would be but impotent phrases, the futility of which the state may at any time disclose by the simple process of transferring powers of legislation to the Governor to be exercised by him, beyond control, upon his assertion of necessity. Under our system of government, such a conclusion is obviously untenable. There is no such avenue of escape from the paramount authority of the federal Constitution. When there is a substantial showing that the exertion of state power has overridden private rights secured by that Constitution, the subject is necessarily one for judicial inquiry in an appropriate proceeding directed against the individuals charged with the transgression.

287 U.S. at 397-98.

Similarly, the actions of the Secretary must be subject to judicial review. Under 21 U.S.C. § 355(q)(1)(A), the DHHS Secretary

shall not delay approval of a pending application [] because of any request to take any form of action relating to the application, either before or during consideration of the request, unless — (i) the request is in writing and is a petition submitted to the Secretary pursuant to section 10.30 or 10.35 of title 21, Code of Federal Regulations . . .

21 C.F.R. § 10.30 in turn provides for so called “citizen petitions” which are a form of administrative redress. However, a close reading of the statutory language and due consideration of the underlying policies compel the conclusion that Congress did not intend to preclude judicial review of this particular agency action.

Section 355(q) could easily state that interested parties “shall not pursue” (or the equivalent) lawsuits prior to the completion of the citizen petition process. It does not. Instead, the only mandatory language in § 355(q) is directed at the Secretary, not at citizens, and it states that the Secretary “shall not delay”. This language is intended to target the predominant, anti-competitive mischief marring the FDA approval process at the time the statute was enacted. Entrenched market participants abused the citizen petition process by soliciting citizenry to file petitions for the improper purpose of delaying applications for new drug approval submitted by new market entrants.⁴⁶ Senator Edward Kennedy explained: “The citizen petition provision is designed to address attempts to derail generic drug approvals. Those attempts, when successful, hurt consumers and the public health.”⁴⁷ The statutory language should be read narrowly in accordance with that purpose, to apply only to the “approval of a pending application” which should not be delayed.

Plaintiffs here are seeking first and foremost the **revocation** or **termination** of the declared emergency and existing Vaccine EUAs, and not for anti-competitive purposes, but in order to respond to unlawful agency action driven by financial conflicts of interest, political pressure and fear, the substantial risk of widespread personal injury and death, and constitutional infractions.

⁴⁶ See *Citizen Petitions: An Empirical Study*, 34 Cardozo L. Rev. 249, 252 (2012) (“The study finds that brand drug companies file 68% of petitions, far more than generic firms or other parties such as universities, doctors or hospitals. Of the petitions by brand firms, more than 75% target generic entrants.”).

⁴⁷ 153 Cong. Rec. 25,047 (2007).

Further, neither 21 U.S.C. § 355 nor 21 C.F.R. § 10.30 expressly references § 360bbb–3, the statute pursuant to which the emergency has been declared and the Vaccines released to the public. Conversely, § 360bbb–3 does not expressly refer to 21 U.S.C. § 355 nor 21 C.F.R. § 10.30. If Congress had intended for the citizen petition process — designed to address the specific mischief of anti-competitive behavior — to apply to the very particular and very different circumstances of an emergency use authorization of highly experimental and potentially dangerous medical interventions with the potential to rapidly injure or kill large swathes of the American populace, surely it would have said so. Plaintiffs are the current and future Vaccine-injured in a time of purported emergency, complaining of gross agency malfeasance and conflicts of interest, not profit-seeking market participants.

Neither should the judicial doctrine of “exhaustion of administrative remedies” bar judicial review. “[J]udicially created exhaustion requirements are ‘subject to numerous exceptions.’” Georgia v. United States, 398 F.Supp. 1330, 1343 (S.D. Ga. 2019) (quoting Kentucky v. United States ex rel. Hagel, 759 F.3d 588, 599 (6th Cir. 2014)). In their discretion, the district courts

“...have recognized at least three prudential exceptions to exhaustion requirements. [] Exhaustion may be excused if a litigant can show: (1) that requiring exhaustion will result in irreparable harm; (2) that the administrative remedy is wholly inadequate; or (3) that the administrative body is biased, making recourse to the agency futile.”

Id. (quoting Kansas Dept. for Children and Families v. SourceAmerica, 874 F.3d 1226, 1250 (10th Cir. 2017) (“We permit district courts to excuse a failure to exhaust where ‘(1) the plaintiff asserts a colorable constitutional claim that is collateral to the substantive issues of the administrative proceedings, (2) exhaustion would result in irreparable harm, and (3) exhaustion would be futile.’”)).

Courts have recognized exceptions to the requirement of administrative exhaustion in the specific context of the FDCA and 21 C.F.R. § 10.30. *See, e.g., Biotics Research Corp. v. Heckler*, 710 F.2d 1375, 1378 (9th Cir. 1983) (“Biotics and Seroyal admit failing to take advantage of this available administrative remedy, but argue that the administrative remedy is ‘inadequate and not efficacious’ and that its pursuit would have been a ‘futile gesture.’ **Although we recognize an exception to the exhaustion requirement in these circumstances,** there is nothing in the record to indicate that a citizens petition to the Commissioner would have been ineffective or futile.” (emphasis added)) (citing to *AMP Inc. v. Gardiner*, 275 F.Supp. 410 (S.D.N.Y. 1967), *aff’d*, 389 F.2d 825 (2d Cir. 1968), *cert. denied*, 393 U.S. 825 (1968); *Premo Pharmaceutical Laboratories, Inc. v. United States*, 629 F.2d 795, 801 (2d Cir. 1980), *Natick Paperboard Corp. v. Weinberger*, 498 F.2d 125, 128-29 (1st Cir. 1974).

The record in this case contains abundant evidence that the citizen petition process is both “inadequate and not efficacious”. First and most importantly, the FDA need not respond to a citizen petition for 5 months, and in fact as a practical matter the “deadline” is more honored in the breach than the observance. When the FDA does respond, its response may be indeterminate. The chart below constructed from VAERS data shows that the American public cannot afford to wait for 5 months, while physical injuries and deaths due to the Vaccine skyrocket. Jane Doe’s expert testimony that the true number of deaths caused by the Vaccine is in excess of 45,000 (*see* Declaration at Ex. D) renders the Defendants’ likely argument that Plaintiffs must muddle through the citizen petition process before bringing this litigation not just legally absurd, but inhumane.

VAERS DATA		
APRIL 23, 2021	JULY 2, 2021	% INCREASE
118,902 ADVERSE EVENTS	438,441 ADVERSE EVENTS	72.88%
3,544 DEATHS	9,048 DEATHS	60.83%
12,619 INJURIES	41,015 INJURIES	69.23%

Plaintiff AFLDS' experience with the citizen petition process to date substantiates the argument. The Complaint alleges that Defendants are suppressing information regarding the availability of safe and effective alternative prophylaxis and treatments for COVID-19, including for example hydroxychloroquine (ECF 10, ¶¶ 219-228). Plaintiff AFLDS filed a citizen petition regarding hydroxychloroquine on October 12, 2020, requesting that the FDA exempt hydroxychloroquine-based drugs from prescription-dispensing requirements and make them available to the public over-the counter (*see* Citizen Petition at Exhibit E). The FDA acknowledged receipt of the petition on October 13, 2020. (*see* FDA Acknowledgment Letter at Exhibit F). Then on April 8, 2021, the FDA wrote to AFLDS to say that it "has been unable to reach a decision on your petition because it raises complex issues requiring extensive review and analysis by Agency officials." (*see* FDA Delay Letter at Exhibit G). As recently as June 21, 2021 the FDA has confirmed by email that it has no substantive response to the Citizen's Petition, responding to AFLDS' request for an update by referring back to the FDA's April 8 delay letter! The issues raised in the Complaint and in this Motion would almost certainly be claimed to be equally or more complex, and there is no reason whatsoever to believe that the FDA will respond substantively to them within the statutory deadline, or in any amount of time shorter than the 10 months that have passed since the hydroxychloroquine petition was filed. All of this becomes

even more relevant in light of the fact that while a response to a citizen's petition is put off for many months, the vaccines were approved with no delay.

Not only is the citizen petition process fatally slow, the FDA is ultimately powerless to award civil money damages for the physical injury and death that have invaded Plaintiffs' constitutional right to personal autonomy and bodily integrity. These are irreparable injuries. Winck v. England, 327 F.3d 1296, 1304 (11th Cir. 2003) (“[exhaustion] is not required where no genuine opportunity for adequate relief exists, **irreparable injury** will result if the complaining party is compelled to pursue administrative remedies, or an administrative appeal would be futile”) (emphasis added)).

The pursuit of a citizen petition is also a “futile gesture” since the FDA will not grant the relief requested by Plaintiffs. An empirical study has shown that the mean and median citizen petition grant rates fluctuated between 0% and 16% in the eight years from 2003 through 2010, and the mean and median denial rates were both 92%.⁴⁸ The real and substantial financial conflicts of interest compromising the Defendants and their key officials involved in the § 360bbb-3 process (*see* Complaint, ECF 10, ¶¶ 250-256), combined with the immense pressure⁴⁹ placed on the FDA by industry and politicians to fast track the approval process, and Jane Doe's revelation that the Defendants have intentionally concealed from the public that the true number of deaths caused by the Vaccines is at least 45,000 not the approximately 9,000 reported by VAERS (*see* Declaration at Ex. D), destroy any pretense that the FDA could adjudicate such a citizen petition with fairness and impartiality.

The policy justification traditionally cited by those courts that have required compliance with the citizen petition process do not apply here. *See, e.g.,* Garlic v. United States Food &

⁴⁸ *Citizen Petitions: An Empirical Study*, 34 Cardozo L. Rev. at 275.

⁴⁹ Gardner, L., “Calls Mount on FDA to Formally Endorse COVID Vaccines as Delta Surges” (July 8, 2021). *See* <https://news.yahoo.com/calls-mount-fda-formally-endorse-182622109.html> (last visited July 12, 2021).

Drug Administration, 783 F.Supp. 4, 5 (D. D.C. 1992) (“Allowing ‘interested parties’ to bypass the administrative remedies would undermine the entire regulatory process. Drug manufacturers could circumvent the FDA’s procedures by soliciting private citizens to sue for judicial approval new medications.”). Plaintiffs are not attempting to circumvent the substantive provisions of § 360bbb–3 in order to force the approval and release of a new experimental drug, rather they are trying to force the FDA, its officials riddled with serious conflicts of interests, to comply with these provisions in order prevent widespread personal injury and death and egregious violations of the constitutionally protected rights to personal autonomy and bodily integrity.

Count VI of the Complaint seeks mandamus, since there is “‘practically no other remedy.’” Collin v. Berryhill, 2017 U.S. Dist. LEXIS 78222 at *9 (quoting Helstoski v. Meanor, 442 U.S. 500, 505 (1979)). Courts have held that the perceived medical urgencies created by COVID-19 itself, and also those created by the decisions, orders and actions of authorities responding to COVID-19, can make it impractical and inappropriate to force a plaintiff seeking *mandamus* to wait for alternative processes to run their course:

Moreover, given the broader context of the COVID-19 pandemic, we agree with the Fifth Circuit that “[i]n mill-run cases, it might be a sufficient remedy to simply wait for the expiration of the TRO, and then appeal an adverse preliminary injunction. In other cases, a surety bond may ensure that a party wrongfully enjoined can be compensated for any injury caused. Those methods would be woefully inadequate here.”

In re Rutledge, 956 F.3d 1018, 1026 (8th Cir. 2020), quoting In re Abbott, 2020 U.S. App. LEXIS 10893 at *14.⁵⁰

⁵⁰ The Supreme Court subsequently vacated the judgment in In re Abbott, and remanded to the Fifth Circuit with instructions to dismiss the case as moot, following the Texas Governor’s relaxation of his order restricting abortion as a non-essential surgical procedure, however the decision did not turn on an analysis of mandamus. See, Planned Parenthood Ctr. for Choice v. Abbott, 2021 U.S. LEXIS 647.

iii. The Emergency Declaration and the EUAs are “Final” Agency Action

In order to be deemed “final”, an agency action (1) “must mark the consummation of the agency’s decision-making process — it must not be of a merely tentative or interlocutory nature” and (2) “must be one by which rights or obligations have been determined, or from which legal consequences will flow.” United States Corps of Eng’rs v. Hawkes Co., 136 S.Ct. 1807, 1813 (2016) (quoting Bennett v. Spear, 520 U.S. 154, 177-178 (1997)).

After fact-finding and consultation, the DHHS Secretary declared, under § 360bbb–3(b), that there is an emergency. Once issued, his declaration remained valid for a period of time and was serially renewed. The declaration is not merely “advisory in nature.” Id. It represents the “consummation of the decision-making process” with respect to whether or not an emergency exists. The declaration also gives rise to “direct and appreciable legal consequences.” Id. at 1814. The declaration paved the way for Pfizer, Moderna and Janssen to apply for EUAs for their experimental Vaccines, for the DHHS Secretary and his designee the FDA Commissioner to adjudicate and approve their EUA applications, and for the Vaccines to be released into interstate commerce and injected into millions of Americans.

The FDA Commissioner engaged in fact-finding and made vital determinations that the statutory criteria for issuing the Vaccine EUAs required by § 360bbb–3(c) were met, and that the conditions of authorization for the Vaccine EUAs required by § 360bbb–3(e) were also met. On that basis, the Vaccine EUAs were issued. The issuance of the Vaccine EUAs represents the “consummation of the decision-making process” with respect to whether or not EUAs will be granted, and also gave rise to “direct and appreciable legal consequences” since millions of people have been injected with these experimental Vaccines while their manufacturers have made billions of dollars in revenues under an immunity shield.

iv. Not “Committed to Agency Discretion”

The emergency declaration is not committed to agency discretion by law. Section 360bbb–3(b)(1) states that the DHHS Secretary “may” make a declaration, but then proceeds to enumerate in detail the limited bases upon which the declaration may be made, at least three of which prohibit unilateral declarations by the Secretary by requiring consultation with or the prior decisions of other cabinet-level executive branch officials. Section 360bbb–3(b)(3) prohibits the Secretary from unilaterally terminating the declaration. This is not a broad grant of discretion, but even if it were, “[t]he fact that a statute grants broad discretion to an agency does not render the agency’s decisions completely unreviewable unless the statutory scheme, taken together with other relevant materials, provides absolutely no guidance to how that discretion is to be exercised.” Louisiana v. Biden, 2021 U.S. Dist. LEXIS 112316 * 40-41 (W. D. La. 2021).

Section 360bbb–3(b)(1)(c) is the sole ground for an emergency that does not seem to require consultation with or the prior decisions of other cabinet-level executive branch officials, and it provides guidance to the Secretary by requiring him to make a 4-pronged finding that (parsing the statute): (i) there is a “public health emergency” (ii) that “affects, or has a significant potential to affect” (iii) (a) “national security” or (b) “the health and security United States citizens living abroad”, and (iv) that “involves” (a) “a biological, chemical, radiological, or nuclear agent or agents” or (b) “a disease or condition that may be attributable to such agent or agents.”

Similarly, the EUAs are not committed to agency discretion by law. Under § 360bbb–3(c), the Secretary “may issue an authorization” but “only if” after consultation with three other executive branch officials, he is able to make at least four different findings. Under § 360bbb–3(e), the Secretary “shall” ensure that certain “required conditions” of authorization, set forth in detail in the statute, are met. Since the Secretary does not have unfettered discretion to issue

EUAs, he must follow detailed guidance as to how any discretion granted to him by the statute is exercised. Id.

In addition to their Counts seeking judicial review of agency action and mandamus, Plaintiffs have also alleged physical injury, death and loss of employment proximately caused, aided and abetted by Defendants' actions, justifying an award of civil money damages under Bivens v. Six Unknown Named Agents of Federal Bureau of Narcotics, 403 U.S. 388 (1971) (Count VII). By issuing and maintaining the EUAs in these circumstances, the Defendants are enabling the shipment of the Vaccines in interstate commerce, and their use by third parties who actually administer them to the public. Defendants, as joint tortfeasors, are purposefully aiding and abetting the infliction of physical injury and death on Plaintiffs and countless other Americans, all in violation of their constitutionally protected right to personal autonomy and bodily integrity.

Guertin v. Michigan, 912 F.3d 907 (6th Cir. 2019) is a case arising out of the infamous Flint Water Crisis. 912 F.3d at 907-915. The City of Flint Michigan instituted cost-saving measures, and used outdated equipment to treat water before delivering it to residents. Id. Residents consumed the water, now contaminated with lead and *e coli* bacteria. Id. Their hair fell out and they developed rashes. Id. Some died from an associated spike in Legionnaire's disease. Id. Children tested positive for dangerously high blood levels. Id.

The 6th Circuit Court of Appeals upheld the district court's denial of defendants' motion to dismiss 42 U.S.C. § 1983 substantive due process claims based on qualified immunity, because plaintiffs had plead a plausible Fourteenth Amendment violation of their right to bodily integrity, where the City's knowing decision to use outdated equipment and mislead the public about the safety of its water shocked the conscience. Id. The Court admonished:

[K]nowing the Flint River water was unsafe for public use, distributing it without taking steps to counter its problems, and assuring the public in the meantime that it was safe “is conduct that would alert a reasonable person to the likelihood of liability.” [] [T]aking affirmative steps to systematically contaminate a community through its public water supply with deliberate indifference is a government invasion of the highest magnitude. Any reasonable official should have known that doing so constitutes conscience-shocking conduct prohibited by the substantive due process clause. These “actions violate the heartland of the constitutional guarantee” to the right of bodily integrity...

Id. at 933 (emphasis added).

The language of this decision ought to send a chill through each of the individually named Defendants, for their conduct — albeit distributing dangerous experimental Vaccines, rather than contaminated water — is effectively a mirror image. This is indisputably so with respect to the under-18 age category, and those previously infected with SARS-CoV-2. Since SARS-CoV-2 / COVID-19 present no statistically significant threat to these subpopulations, the Vaccines can have no therapeutic benefits for them. At the same time, the experimental Vaccines, which have known, dangerous side effects and in some cases are even fatal, expose them to unnecessary and dangerous risks.

B. Irreparable Injury

The test does not require that harm actually occur, or that it be certain to occur. *See Whitaker v. Kinosha Unified School District*, 858 F.3d 1034, 1044 (7th Cir. 2017). Rather, “[w]e have indicated that the injury suffered by a plaintiff is ‘irreparable only if it cannot be undone through monetary remedies.’” *Siegel v. LePore*, 234 F.3d 1163, 1191 at Fn. 4 (11th Cir. 2000), quoting *Cunningham v. Adams*, 808 F.2d 815, 821 (11th Cir. 1987).

The actual or threatened violation of core constitutional rights is presumed irreparable. Id., citing *inter alia Deerfield Med. Ctr. v. City of Deerfield Beach*, 661 F.2d 328 (5th Cir. 1981) (irreparable injury presumed based on threats to access to abortion services implicating the 14th Amendment right to privacy); *Robinson v. Attorney General*, 957 F.3d 1171, 1177 (11th Cir.

2020) (denying motion for stay of preliminary injunction enjoining public health order issued in response to COVID-19 pandemic because it invaded constitutionally protected 14th Amendment rights); Jolly v. Coughlin, 76 F.3d 468, 473 (2d Cir. 1996) (“In any event, it is the alleged violation of a constitutional right that triggers a finding of irreparable harm.”); Mitchell v. Cuomo, 748 F.2d 804, 806 (2d Cir. 1984) (““When an alleged deprivation of a constitutional right is involved, most courts hold that no further showing of irreparable injury is necessary.””).

In Planned Parenthood v. Casey, 505 U.S. 833, 857 (1992), the U.S. Supreme Court stated:

Roe, however, may be seen not only as an exemplar of Griswold liberty, but as a rule (whether or not mistaken) of personal autonomy and bodily integrity, with doctrinal affinity to cases recognizing limits on governmental power to mandate medical treatment or to bar its rejection. If so, our cases since Roe accord with Roe’s view that a State’s interest in the protection of life falls short of justifying any plenary override of individual liberty claims. Cruzan v. Director, Mo. Dept. of Health, 497 U.S. 261, 278, 111 L. Ed. 2d 224, 110 S. Ct. 2841 (1990); cf., e. g., Riggins v. Nevada, 504 U.S. 127, 135, 118 L. Ed. 2d 479, 112 S. Ct. 1810 (1992); Washington v. Harper, 494 U.S. 210, 108 L. Ed. 2d 178, 110 S. Ct. 1028 (1990); see also, e. g., Rochin v. California, 342 U.S. 165, 96 L. Ed. 183, 72 S. Ct. 205 (1952); Jacobson v. Massachusetts, 197 U.S. 11, 24-30, 49 L. Ed. 643, 25 S. Ct. 358 (1905).

To reiterate: “a State’s interest in the protection of life falls short of justifying any plenary override of individual liberty claims.” See also Washington v. Glucksberg, 521 U.S. 702, 720 (1997) (“the ‘liberty’ protected by the Due Process Clause [of the Fourteenth Amendment] includes the right[] . . . to bodily integrity”); Shillingford v. Holmes, 634 F.2d 263, 265 (5th Cir.1981) (“the right to be free of state-occasioned damage to a person’s bodily integrity is protected by the fourteenth amendment guarantee of due process.”); Doe v. Moore, 410 F.3d 1337, 1343 (11th Cir. 2005) (“The Supreme Court has recognized that fundamental rights include those guaranteed by the Bill of Rights as well as certain ‘liberty’ and privacy interests implicit in the due process clause and the penumbra of constitutional rights. These special

‘liberty’ interests include ‘the rights to marry, to have children, to direct the education and upbringing of one’s children, to marital privacy, to use contraception, to bodily integrity, and to abortion.’”).

Further, the Supreme Court has stated that the protected liberty claims inherent in personal autonomy and bodily integrity include both the right *to be free from* unwanted medical intervention, and the right *to obtain* medical intervention:

As the joint opinion acknowledges, ante, 505 U.S. at 857, this Court has recognized the vital liberty interest of persons in refusing unwanted medical treatment. Cruzan v. Director, Mo. Dept. of Health, 497 U.S. 261, 111 L. Ed. 2d 224, 110 S. Ct. 2841 (1990). Just as the Due Process Clause protects the deeply personal decision of the individual to refuse medical treatment, it also must protect the deeply personal decision to obtain medical treatment, including a woman’s decision to terminate a pregnancy.

Casey, 505 U.S. at 927.

In the Supreme Court’s seminal “right to die” case, Cruzan v. Director, Missouri Dept. of Health, 497 U.S. 261 (1990), it addressed whether an individual in a persistent vegetative state could require a hospital to withdraw life-sustaining medical care based on her right to bodily integrity. 479 U.S. at 265-69. Chief Justice Rehnquist noted that “[b]efore the turn of this century, [the Supreme Court] observed that ‘no right is held more sacred, or is more carefully guarded, by the common law, than the right of every individual to the possession and control of his own person, free from all restraint or interference of others, unless by clear and unquestionable authority of law.’” *Id.* at 269 (quoting Union Pacific R. Co. v. Botsford, 141 U.S. 250, 251 (1891)). He continued: “This notion of bodily integrity has been embodied in the requirement that informed consent is generally required for medical treatment,” *Id.* at 269, “generally encompass[es] the right of a competent individual to refuse medical treatment,” *Id.* at 277, and is a right that “may be inferred from [the Court’s] prior decisions.” *Id.* at 278-79 (citing Jacobson v. Massachusetts, 197 U.S. 11 (1905); Breithaupt v. Abram, 352 U.S. 432 (1957);

Washington v. Harper, 494 U.S. 210 (1990); Vitek v. Jones, 445 U.S. 480 (1980); Parham v. J.R., 442 U.S. 584 (1979).).

In Deerfield, the case relied upon by the 11th Circuit in Siegel, a medical group attempted to establish a medical facility to provide abortion services. 661 F.2d at 330-332. The city denied their application for an occupational license on various grounds. Id. The medical group sued the city alleging that the city's actions violated the "right to privacy" in the due process clause of the 14th Amendment by depriving women of access to abortion services, even though any potential constitutional violation was minimized by the presence of other abortion facilities operating in the area. Id. The medical group moved for a preliminary injunction, and the district court denied the motion. Id.

The 5th Circuit reversed, adopting an aggressive, prophylactic approach to the protection of the constitutional right to privacy. "[T]he right of privacy must be carefully guarded for once an infringement has occurred it cannot be undone by monetary relief." Id. at 338, citing to Kennan v. Nichol, 326 F. Supp. 613, 616 (W.D.Wis.1971), *aff'd mem.*, 404 U.S. 1055, 92 S. Ct. 735, 30 L. Ed. 2d 743 (1972) ("to withhold a temporary restraining order is to permit the (constitutional right of privacy) to be lost irreparably with respect to the physician and those women for whom he would otherwise perform the operation in the meantime."). It continued: "We have already determined that the constitutional right of privacy is 'either **threatened** or in fact being impaired', and **this conclusion mandates a finding of irreparable injury**" (emphasis added). Id. at 338, citing to Elrod v. Burns, 427 U.S. 347, 373 (1976).

The Defendants are both violating, and threatening the violation of, the core constitutional right to personal autonomy and bodily integrity held by Plaintiffs and all Americans. Plaintiffs Brittany Galvin (*see* Declaration of Brittany Galvin at Exhibit J), Aubrey Boone, Snow Mills, Angelia Deselle (*see* Declaration of Angelia Deselle at Exhibit H), Kristi

Simmonds, Vidiella A/K/A Shawn Skelton (*see* Declaration of Shawn Skelton at Exhibit I) and the Estate of Dovi Sanders Kennedy have alleged that their rights to personal autonomy and bodily integrity were violated when they were subjected to Vaccines without first having given voluntary, informed consent. Plaintiffs have also attached the Declaration of Diana Hallmark, a resident of Blount County, Alabama, containing the same allegations (*see* Declaration of Diana Hallmark at Exhibit K).⁵¹ These victims testify under penalty of perjury to their physical injuries caused by the Vaccines, and to facts and circumstances that establish that they did not give, and could not possibly have given, their voluntary, informed consent. By way of example, Plaintiff Deselle states (Ex. H):

No one ever provided me with any information regarding possible adverse reactions, nor did they provide me with any information regarding alternative treatments. I did not understand this was gene therapy rather than a traditional vaccine. Again, I also did not understand that the Vaccines were not “approved” by the FDA. No one told me, and I did not understand that the Vaccines were not determined to be “safe and effective” by anyone — only that it was “reasonable to believe” that they were.

In addition to constitutional infringements, physical injury and death may constitute irreparable harm justifying preliminary injunctive relief. *See Chastain v. Northwest Ga. Hous. Auth.*, 2011 U.S. Dist. LEXIS 135712 (N.D. Ga. 2011) (possibility of worsening health following eviction from public housing); *Garcia v. Google, Inc.*, 766 F.3d 929, (9th Cir. 2014), *aff’d* on rehearing en banc, 786 F.3d 733 (9th Cir. 2015) (“[I]t is not irrelevant that the harm Garcia complains of is death or serious bodily harm, which the dissent fails to mention. Death is an ‘irremediable and unfathomable’ harm, and bodily injury is not far behind. To the extent the irreparable harm inquiry is at all a close question, we think it best to err on the side of life.”); *Seniors Civil Liberties Ass’n v. Kemp*, 761 F.Supp. 1528, 1537 (M.D. Fla. 1991) (possibility of

⁵¹ Plaintiffs anticipate amending the Complaint for the purpose of *inter alia* adding Diana Hallmark to it as a named Plaintiff.

physical injury or death arising from police chokeholds). Plaintiffs Brittany Galvin (Ex. J), Aubrey Boone, Snow Mills, Angelia Deselle (Ex. H), Kristi Simmonds, Vidiella A/K/A Shawn Skelton (Ex. I) and the Estate of Dovi Sanders Kennedy have alleged that the Vaccines have caused them grave physical injury and, in the case of Dovi Sanders, also death. Diana Hallmark has made the same allegations (Ex. K).

The court may consider the harm to the public in assessing whether irreparable injury would result from the denial of an injunction. In Hornbeck Offshore Servs., LLC v. Salazar, 696 F.Supp. 2d 627 (E.D. La. 2010) the court granted a motion for preliminary injunction enjoining a federal agency decision to suspend drilling operations in the Gulf of Mexico, finding irreparable harm based on the harm to the public generally:

The defendants trivialize [Plaintiffs' losses] by characterizing them as merely a small percentage of the drilling rigs affected [] [C]ourts have held that in making the determination of irreparable harm, "both harm to the parties and to the public may be considered. The effect on employment, jobs, loss of domestic energy supplies caused by the moratorium as the plaintiffs (and other suppliers, and the rigs themselves) lose business, and the movement of the rigs to other sites around the world will clearly ripple throughout the economy in this region.

696 F.Supp. 2d at 638-639 (internal citations omitted).

In In re Northwest Airlines Corp., 349 B.R. 338, 384 (S.D.N.Y. 2006), aff'd, 483 F.3d 160 (2d Cir. 2007), the court granted a motion for preliminary injunction enjoining a flight attendants' union from carrying out threats to engage in a labor strike, finding irreparable harm based on the harm to the public generally:

*"[I]n making the determination of irreparable harm, both harm to the parties and to the public may be considered." * * * Here, the record also demonstrates that the public will be harmed: as the Bankruptcy Court found, Northwest carries 130,000 passengers per day, has 1,200 departures per day, is the one carrier for 23 cities in the country, and provides half all airline services to another 20 cities.*

349 B.R. at 384 (quoting Long Island R. Co. v. Int'l Ass'n of Machinists, 874 F.2d 901, 910 (2d Cir. 1989)).

Like Plaintiffs Brittany Galvin (Ex. J), Aubrey Boone, Snow Mills, Angelia Deselle (Ex. H), Kristi Simmonds, Vidiella A/K/A Shawn Skelton (Ex. I), and the Estate of Dovi Sanders Kennedy, and like Diane Hallmark (Ex. K), millions of Americans have already suffered an outrageous violation of their constitutionally protected right to personal autonomy and bodily integrity, and millions more are vulnerable. According to the VAERS data, there have been 438,441 reported adverse events following injection with the Vaccines, including 9,048 deaths and 41,015 serious injuries, between December 14, 2020 and July 2, 2021. The evidence suggests the VAERS system reports only between 0.8% and 2% of all Vaccine adverse events. Plaintiffs' expert and whistleblower Jane Doe has testified that the true number of deaths caused by the Vaccines is at least 45,000 not the approximately 9,000 reported by VAERS (*see* Declaration at Ex. D). By contrast, the Swine Flu vaccine was removed from the market even though it caused only 53 deaths.

C. Balance of Equities (Hardships) and Public Interest

In each case involving a request for pretrial injunctive relief, the court “must consider the effect on each party of the granting or withholding of the requested relief.” Winter, 555 U.S. at 24. The plaintiff “must establish . . . that the balance of hardships tips in his favor.” Id. at 20.

“‘[W]here the government is the party opposing the preliminary injunction, its interest and harm merge with the public interest.’ Thus the Court proceeds with analyzing whether the threatened injury to Plaintiffs outweighs the harm that the preliminary injunction would cause Defendants and the public.” Brown v. Azar, 497 F. Supp. 3d 1270, 1298 (N.D. Ga. 2020), quoting Swain v. Junior, 958 F.3d 1081, 1091 (11th Cir. 2020).

“[I]t is always in the public interest to prevent the violation of a party’s constitutional rights.” G & V Lounge, Inc. v. Mich. Liquor Control Comm’n, 23 F.3d 1071, 1079 (6th Cir. 1994). “The vindication of constitutional rights and the enforcement of a federal statute serve the public interest almost by definition.” League of Women Voters of Fla. v. Browning, 863 F. Supp. 2d 1155, 1167 (N.D. Fla. 2012). On the other hand, “[t]here is generally no public interest in the perpetuation of unlawful agency action.” League of Women Voters v. Newby, 838 F.3d 1, 12 (D.C. Cir. 2016).

Defendants themselves suffer no conceivable harm from the grant of the requested injunctions. A disease that has an overall survivability rate exceeding 99% — comparable to the seasonal flu and countless other ailments — does not create a public health emergency within the meaning of § 360bbb–3. SARS-CoV-2 and COVID-19 do not give rise to any countervailing public interest that justifies overriding the constitutionally protected right to personal autonomy and bodily integrity. This is so with respect to the entire American public, but even more acutely with respect to the under-18 age category and those previously infected with SARS-CoV-2.

IV. CONCLUSION

Accordingly, and for all of the foregoing reasons, Plaintiffs move under Rule 65, Fed.R.Civ.P., for a preliminary injunction against Defendants enjoining them from continuing to authorize the emergency use of the so-called “Pfizer-BioNTech COVID-19 Vaccine,” “Moderna COVID-19 Vaccine” and the “Johnson & Johnson (Janssen) COVID-19 Vaccine” pursuant to their respective EUAs, and from granting full FDA approval of the Vaccines:

- (i) for the under-18 age category;
- (ii) for those, regardless of age, who have been infected with SARS-CoV-2 prior to vaccination; and
- (iii) until such time as the Defendants have complied with their obligation to create and maintain the requisite “conditions of authorization” under Section 546 of the Food, Drugs and Cosmetics Act, 21 U.S.C. § 360bbb–

3(e), thereby enabling Vaccine candidates to give truly voluntary, informed consent.

Dated: July 19, 2021.

I strongly oppose this resolution. What is the goal of this system? Please answer this question. If vaccinated people cannot catch or spread Covid-19 why are such measures needed? If vaccines do not prevent the vaccinated from catching and infecting others with Covid-19 why is this passport system necessary? I think we need to take a step back. It is an individuals right to choose what medical treatments they would like to take. By implementing a vaccine passport the State of Hawaii and City and County Of Honolulu would be effectively be discriminating against the unvaccinated by removing their access to employment, recreation, and a host of other activities unspecified in your resolution. This is cruel considering the recovery rate of Covid-19 according to the CDC is 99.9% We need more transparency and information before proceeding with vaccine passports at any level. How many vaccinated people are testing positive for Covid? How many Covid deaths are in the vaccinated? How many Covid hospitalizations were brought to the hospital for reasons other than Covid? How many people catch Covid after being hospitalized? Are there other countries, states, and counties that have been successful at lowering Covid cases, hospitalization, and death using vaccine passports? The country with the best Covid rates so far is Sweden and they have done minimal restrictions. Please answer these questions.
Mahalo,
Sai

Written Testimony

Aloha and thank you for taking time to read this. I was born and raised in Kaneohe. My family is being raised in Kaneohe. I believe the generations after me, will be raised here in Kaneohe. But I want them to be raised knowing what FREEDOM is. This bill is NOT freedom. If this bill passes, where will it end? How can this be constitutional? I am not against the vaccine at all. Many of my loved ones have gotten it and I fully support them. But to segregate vaccinated from unvaccinated people is so wrong. Have we not learned from history? Especially because we all catch it and spread it the same. There have to be better ways and a better solution. Please don't take away our rights as Americans to decide what we want to do with our bodies. With our children's bodies. Help us protect our freedom and the generations to come. Thank you again.

Written Testimony	I am against any vaccine mandates for Hawaii. There are little to no flu cases or other types of illnesses/diseases recorded because people are testing positive for covid so they become a covid case. The numbers therefore are exaggerated. We need to approve HDQ and Ivermectin for covid and not punish doctors who give it to their patients.

I oppose this agenda. It goes against my freedom By having to disclose personal medical information. It goes against the constitution . Making the vaccine mandatory to get into places or travel and having to show proof of your medical choices is so unlawful, & disgusting. No one should have to be put into that position. This will cause discrimination between people and unnecessary problems. I DO NOT STAND FOR THIS! IT IS MY BODY MY CHOICE. MY RIGHT TO NOT DISCLOSE MY PERSONAL MEDICAL INFORMATION. & THIS SHALL NOT BE FORCED OR MANDATORY.

It is a violation of all health right. Hipa to be exact. Not only that but akin to Hitler. You are asking people to walk around with a number branded to them so that they can be identified then be subject to ostrication(don't know if I spelled that right) it should be a matter of choice. We were doing great when everyone was required to test...let's bring that back instead of taking away people freedoms. That is whole idea of America in the first place...FREEDOM!!! What are we going to do Nazi Germany now!!!! Comply or get thrown in a camp.

Written Testimony

I strongly oppose Resolution 21-194 and hope that you will find it in the best interest of our county to vote AGAINST this. Our country was based on the foundation that we the people have the right to freedom of choice which will be taken from us if you implement this! Forcing the public to get a vaccine that many are NOT comfortable with and has not gone through extensive research/studies yet is not ok. Implementing a law that would require people to get a vaccine to move freely throughout our county is NOT OK. Why is there such a big push to get this vaccine for a virus that has such a low mortality rate? People should have the right to choose and not feel forced to get the vaccine in order to live their lives freely. This cannot be something that is permanently implemented! Where is our freedom to decide whether we want to get the vaccine or not? You will be stripping thousands of Hawaii's people of their God-given right to move about freely in and out of establishments on Oahu by passing this resolution and that is wrong! Businesses will suffer because people who decide not to get the vaccine or pay for testing will not be patronizing their establishments. Not to mention those businesses that would like to welcome all customers but are being FORCED BY MANDATE to only allow those who are vaccinated or take a test to enter the establishment. What happened to their rights? What happened to ours? There are a lot of residents who do not wish to get the vaccine or adhere to rules/laws that strip our right to choose. You will be forcing the people of Oahu to take a stand and that will not end well for these businesses who are still trying to recover from 2020. Think about all the lives that will struggle because of this. It's time that you start listening to the people and what they have to say. In suggesting this resolution, you are implementing a form of segregation within the county that will have dire effects to all. Keep in mind that we live in a country that gives its people the freedom of choice! Where is the freedom of choice in all this? Why are you ignoring our freedom and pushing this agenda onto our people? This is not right and this resolution must not be passed!!!!

Written Testimony

I am opposing the mandatory vaccine passport for jobs and to be allowed in entertainment areas and restaurants. As a server myself, my job will be affected due to my personal choice of not getting the vaccine. I cannot risk that in these difficult times, but I will always stand by my belief that I have A CHOICE to do what I please with my body, including getting a vaccine that is not even fully proved to have helped anyone. I have had friends that have had terrible symptoms from the vaccine, worst than when they had Covid, and who have even got Covid after being vaccinated. You will be ruining more lives than saving if you go along with this control over the population of this state.

Aloha,

I strongly oppose the Covid-19 Health Card Passport.

This is a divisive, coercive, and ultimately violent attempt to force vaccination.

We KNOW that both the vaccinated and non-vaccinated can contract and transmit the virus. Therefore this initiative is nonsensical.

Written Testimony It is also unsustainable.

It will create more unnecessary hardship on our small businesses.

It is a violation of personal freedom, privacy and medical choice.

Thank you for your consideration of my testimony.

Ami Pearce

We need everyone who OPPOSE to use this link and provide a written testimony to OPPOSE the bill for digital health passports here in Hawaii. You can simply write "I am strongly opposed to this bill" and add a few sentences (or a book) why. It is due by 10am today. Please get these in STAT and send to others for immediate action.

<https://www.honolulu.gov/ccl-testimony-form.html?view=form>

We will meet at
I am strongly opposed to this Health Passport.

Written Testimony

1. Vaccine makers and vaccine administrators and mandators are immune from liability in the event of adverse reaction including death
2. Pfizer paid out billions for bribing doctors and suppressing adverse trial results in 2009
3. Moderna has never brought a vaccine to market
4. Every previous coronavirus vaccine has failed.
5. Every previous mRNA vaccine has failed.
6. Anecdotal friends and family have had adverse reactions including death after vaccination.
7. ZERO long term safety testing and the short term trials that were conducted were abandoned because all the lab rats were dying.
8. Censorship of scientific debate
9. Censorship of Fauci funding gain-of-function
10. Censorship of Covid Treatments and the use of early treatment
11. Censorship of adverse reactions and deaths
12. Ignoring natural immunity. Got Covid and developed immunity.
13. 99.95% chance of survival if below age of 50

14. Bloated case counts and death numbers
15. The virus will continue to mutate
16. Vaccinated can still catch the virus.
17. FDA, CDC, WHO are captured institutions
18. Virus and vaccine efficacy measured by faulty PCR test
19. Never solved lipid nanoparticle delivery problem
20. Japanese Pfizer data shows LNP accumulating in organs
21. Vaccines must give you antibody immunity. This "vaccine" does NOT do that.
22. The doctors and nurses administering the inoculation are required by law to give informed consent and they cannot do this if they themselves are not informed
23. the 14th Amendment to the US Constitution explicitly directs states not to "deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws"
24. Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
25. Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: "Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product"
26. Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment
27. It is neither feasible nor safe to mandate experimental vaccination given the large number of COVID-19 recovered patients in the general population and the FDA/Pfizer/ Moderna protocols which excluded COVID-19 recovered patients
28. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States
29. Administration of the experimental COVID-19 vaccines according to guidelines established by the CDC's Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations
30. The public is entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials
31. The SARS 2 Covid19 virus has never been isolated and there is no proof of it's existence.

According to the State's website at health.hawaii.gov updated 9/1 the positivity rate is 7.9% with 858 new cases STATEWIDE which calculates to 68 Positive cases STATEWIDE according to the website's definition and formula.

68 Positive cases Statewide with a total population of 1.46 million people is really 0.0004% chance of being positive with a 99.995% chance of survival.

Additionally, there were more flu deaths in 2017 than there are Covid deaths since April of 2020 and miraculously flu deaths disappeared.

The numbers don't make sense! Neither do your "New Case Count" numbers that are reported daily which include "Probable Cases." By definition on the State's website, "Probable case are cases that either have a positive antigen* test result (without a follow up confirmatory test) or were symptomatic and had known exposure but did NOT get tested."

WE THE PEOPLE DEMAND THAT YOU PROVE THAT A PANDEMIC EXISTS by

presenting material evidence of the isolated SARS-COV2 virus and data of actual deaths
(FROM Covid, NOT with Covid)and Number of Positive cases Statewide.

I'm strongly opposed to this Bill.

Exposing medical information to those who do not have a need to know is unlawful and unjust, and doesn't support American freedom. To add, it's sick to understand that vaccines are used in human cells from aborted babies.

As a Christian and believing God's word, which never comes back void, the Word of God says:

Psalm 139:13-14 NIV

For you created my inmost being; you knit me together in my mother's womb. [14] I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well.

Written
Testimony

How can we play God and abort babies, isn't that murder? Then to use those cells for profit to inject others in these so called vaccines being used today.

On top of that, many have already received this gene therapy mRNA and still contracting COVID-19. They're not subjected to being tested in airports because they carry a vaccine card but are still carriers as proof has shown to infect others. This doesn't make sense at all. God designed our bodies to heal itself as long as we get the proper nutrition in. There are proven studies as well as eating raw garlic that kills viruses. Why are we so focused on injecting healthy people? That is not right.

Under the CDC site it states the following:

MRC-5 cells Including DNA and protein, sucrose sorbital, monasodium l - glutamate, sodium

phosphate, sodium barcarbonate, potassium phosphate monoba, phosphate dibasic, neodymium, bovine calf serum.

This matters to me because, I Believe that human beings are created by God and his image. Therefore every person, from conception to natural death, possesses inherent dignity and immeasurable worth - Including preborn children, elderly individuals, those with special needs and others marginalized by society. Christians, then, are called to defend, protect, and value all human life.

Jeremiah 1:5 NIV

“Before I (God) formed you in the womb I (God) knew you, before you were born I (God) set you apart; I appointed you as a prophet to the nations. ”

Please watch the "Are fetal cells used to make vaccines? Under the Children's Hospital of Philadelphia website.

<https://www.chop.edu/centers-programs/vaccine-education-center/video/are-fetal-cells-used-make-vaccines>.

The vaccines are also in EUA not approved status per FDA. Corporations and service members are mandating individuals to get vaccinated when they are in Emergency USE Authorization and not at all approved plus do not prevent getting covid. We have a 99% of surviving the virus and only a 94% of making it through after being vaccinated. My brother n law had adverse effects from the vaccine along with my sister and unfortunately my brother n law passed away recently with a heart condition that his doctors started he never had heart issues prior in all his medical records. Whistle blowers have come forward from Pfizer and CDC reporting the 1000's of deaths from getting the vaccine and 100s of 1000s who have had an adverse reaction.

God will take down evil and has proven that many times in the Bible with Truth.

Please Fear God and not the world!

Written Testimony

A vaccine passport is medical apartheid that leads to segregation and discrimination. No government, person or institutions have the right to mandate such a pass. This is about bodily autonomy. Health freedom. The freedom of CHOICE.
The vaccine passport is useless as the CDC and WHO admit that it does not limit transmission, infection, confer immunity or decrease death. All the trials looked at were if this shot reduces symptoms. Many top medical experts are warning against this shot. Robert Malone, Peter McCullough, Micheal Yeadon, Geert Vandenbossche, Sucharit Bhakdi, John Ioannidis, the list is endless. These are all top medical professionals - some are the most cited in the world. Why are they being silenced?
The Pfizer trials are on going until 2023. This is not a vaccine. It is experimental gene therapy.
Stop this insanity. Stand up for humanity and freedom. Enough is enough.

Please VOTE NO ON RESOLUTION 21-194.

I STRONGLY OPPOSE VACCINE PASSES AND ANY DISCRIMINATION BASED ON VACCINE STATUS.

FOOD INSECURITY, MALNUTRITION, AND POVERTY are inevitable outcomes of vaccine passes.

Written Testimony

Israel was the first country to require a vaccine pass. Please read about how it has failed terribly there.

Please don't starve over 400,000 Hawaii residents. Prepare to be voted out if you support this bill.

Thank you for considering my testimony and please understand the negative impact this resolution would have on Hawaii residents whom you represent. Mahalo!

Written Testimony A vaccine mandate is unethical and evil. The benefits of the vaccine are being greatly exaggerated, the risks being ignored, and the unknowns are being brushed aside. The fact that it is a medical experiment is being severely downplayed. A one size fits all approach with vaccines is not a safe approach. Health needs to be tailored to the individual. All lives matter. Most importantly, we reserve the right to make our own decisions.

Please Stop...
First it was 6 ft. then masking, then lockdowns, then shutdowns all in the name of Health and Welfare of our community. It DID NOT WORK. Then it was, "get vaccinated... then we have to hit 70% and so on" Why can you not see there is no end till you tear apart siblings, families, and our entire community. My three sons have suffered enough under this maddening guidance at school and due to lock downs. Please stop this madness, do not do this.

Written Testimony

The PCR tests HAVE BEEN RECALLED because they DO NOT DETECT SARS-CORONAVIRUS aka COVID-19. The PCR tests creator stated the PCR tests should never be used to detect an illness because the tests CAN NOT DESIFFER TB, INFLUENZA or ANY OTHER TYPE OF VIRUS including if the material is DEAD OR ALIVE. They have never isolated the virus and they used INFLUEZA within the PCR tests and it has been proven that A-symphonic is a lie.

The shots (Gene Therapy being pushed as “vaccine” which it is not or approved by the FDA as a vaccine) are what is killing and severely injuring people and is the reason for the increased hospitalizations and deaths. The vaccinated are “shedding” a virus that is infecting the unvaccinated. The VACCINES ARE causing the blood clots, cardiac arrest, seizure, vomiting, unconsciousness, aching muscles, fatigue, and or sudden death. These so called vaccines are also causing sterilization which is alarming that the government is pushing children to take the vaccine with or without parental consent. Doctors and other whistleblowers have been warning the public since July 2020 however they have been censored by media and big tech who are also under investigation.

Big Pharma in the past tried to get these vaccines approved however the clinical studies all failed BECAUSE ALL THE ANIMALS DIED. Some of the animals did not die immediately but in time later once they were exposed to a virus, the auto immune systems overreacted, and the results were DEATH. This is exactly what we are seeing with the increase of hospitalizations and deaths now which will continue for the next 24 months and longer depending on when the government officially “recalls” the “Vaccines under Emergency Use”. There intent is to kill as much of the population as they can and to force vaccination PASSPORTS which is believed to be microchipped in the vaccinated already. All doctors following orders of the WHO to “mistreat” this with the wrong medicines and ventilators are committing CRIMINAL NEGLUEGENCE AND MALUPRACTIC. There are known cures which are also being censored.

These vaccines violate the NUREMBERG CODE and currently there are International

Criminal Courts cases actively going on with Germany, US and Canada which are holding the WHO, CDC, FAUCI, GATES, CHINA accountable for the SCAMDEMIC they imposed on the world. Hawaii's local government seems to be marching forward to vaccinate as many people as possible as they are compromised and working for the CCP to push the NWO ANGENDA.

WE THE PEOPLE SAY NO TO MANDATORY VACCINES, PASSPORTS, MASKS & QUARANTINE and we demand the corrupt government officials cease this EVIL ACTIVITY and step down. We demand all COVID protocols be lifted due to the fraud immediately.

I oppose vaccine passports. This is discrimination and will hurt businesses and Hawaii's economy.

I am a healthy young man and myocarditis/pericarditis. This is inflammation of the heart muscle. Damaged heart muscle does not regenerate like liver and other organs. Damaged heart muscle turns into scar tissue. Infection survival rate for may age group 0-19 years is 99.9973%

I will not be coerced into taking a medical product for what is most likely to be no more than a common cold for me.

This is Discrimination. I have the freedom to choose what medical procedures/products to put in my body.

I do not consent

Written Testimony To whom this may concern,
I am strongly opposed to requiring a vaccine passport. It will segregate our community and may be a death sentence to many local businesses since they will lose a significant number of customers. The community moral will drop and it will likely lead to more protests and push back. Hawai'i is #5 in the country for the highest rate increase for diabetes and almost a quarter of the states population is obese. Instead of passing a unconstitutional vaccine passport, use your resources to educate and provide support into making the community overall healthier! The answer is natural strong immune systems and strong healthy bodies.

I believe we all should have a choice on what we want and don't want in our bodies . Neither one of us should be forced, threatened, or mandated to do anything such as wearing mask (it's proven that it doesn't work) , and getting vaccinated!!!! Nobody or business should be forced to refuse service for such thing THATS DISCRIMINATION ! That's wrong ! Shame on you people who chooses money over the people who voted you guys to be serving US not us serve you ! We pay your taxes !!!! There's so much to add to this bs cause the past 18months we've been dealing with the same shit and now it's getting worse cause all these mandates and forcing going on ! God created us as soldiers ! He created our immune systems to be as strong as possible that if anything enters our bodies we'd be able to fight it off ! By the way I am fully vaccinated up until this covid shot that I'll forever refuse unless it's studied more ! Not me or my family will be contributing or supporting any business who states that we need to be vaccinated to be in the facility!!! Nor will we get this vaccine! Treat us better !!!! THANK YOU

I TOTALLY and STRONGLY oppose this resolution. It's unconstitutional and it violates my individual religious and medical rights. It's infringing, restricting and limiting my freedom to patronize our local establishments and punishing our local businessmen. Remember the vaccines for COVID-19 are only experimental drugs. Although the vaccine has been CDC approved it did not have the long term testing for harmful side effects. The passport card is ABSOLUTELY DISCRIMINATORY! What's next a 21st century leper colony? Shame on the creators of this resolution!

Written Testimony

I'm not sure exactly where to start because there are so many reasons I oppose this resolution. Today, my husband came home from work and said to me "I feel like a Jew living in Germany in the 1940's at work anymore. Everyone treats the unvaccinated like we're beneath them." I almost cried because although he said it casually it felt like a gut punch. What world are we living in? How did we get to this point? The idea of a vaccine passport restricting people's every day lives and treating those who chose not to get this vaccine like they're some third class citizen, someone diseased, someone not deserving of the same accessibilities that others have is not just wrong it's outright disgusting. Those who have introduced and support this measure are palpable in the wrongdoing and I urge you to reconsider the ramifications of this action. I don't have all the answers but I do know that THIS isn't it. Get alternative solutions, create other options, give people choice, do not strong arm anyone into anything. This is the land of the free, but that is only because it is the home of the brave. Be brave, don't cower to this "new normal" because it is anything but. Aloha, Chelsea Genova

Written Testimony I strongly oppose vaccine mandates, vaccines passports, or any discrimination or segregation based on something that is an individual choice. The Constitution of the United States was put together by great minds for an even greater reason—to protect the rights of the people. We have unalienable rights that should NOT be violated by another human being. Please reconsider your stance on this issue. Remember your humanity. Remember your job description—to serve the people of Hawaii.

This bill would allow discrimination in a time where we should be fighting for unity. It would allow the truly vulnerable (immune compromised who have been informed by doctors to NOT get the vaccine) to not be able to live a life of choices, in a country that was FOUNDED on choice.

There are a large majority of individuals who can not get a vaccine, and can not afford the covid tests/can not afford to take the time to get the covid tests and miss work.

This is about choice. This is about body autonomy. This is about our grandchildren. We will fight for our rights and theirs. Our body, our choice.

Written
Testimony

We have one of the highest vaccination rates in the county, have had masks mandated for A YEAR AND A HALF, yet our numbers are "the highest they've ever been". Why? If the vaccine is the answer, like you are obviously claiming by even try to introduce a vaccine passport, then why would the numbers be going up?

Use logic. Use common sense. Use your God given immune system.

Stop spreading fear. Stop with the coercion.

We DO NOT stand with vaccine passports. That is not the answer.

Kailua, HI 96734

I am a concerned citizen who is extremely alarmed at what I am seeing transpire over the last 19 months in the State of Hawai'i. I do not recognize what these islands have become under the draconian leadership of Gov. Ige, Lt. Gov. Green, and in the last nine months under Mayor Blangiardi. Their leadership has brought heartache and disaster to the welfare and economy of the people of these islands. These men have relied upon, "the medical doctors and scientists that they have been working with" with regard to how they have led in the so called Covid19 pandemic. Honest people will recognize that we have been fed a bunch of lies under their leadership. The media is also to blame for not questioning their faulty logic, but has gone right along with the mantra of shaming and promoting fear so that the public will get in line for masks, distancing, lockdowns, and experimental shots. These are perilous times for our islands because of the failed policies of our leadership and now with the two resolutions put forth today.

Our State and our people have come to a crossroads where we are now faced with two awful resolutions under Governor Ige's Emergency Proclamation related to the Covid-19 Response. (1) Resolution 21-193 to reinstate pre-travel Covid-19 testing and (2) Resolution 21-194 to implement a Covid-19 vaccine health card for high risk establishments. If passed, both of these resolutions will continue to not only divide the people of our Aloha state, but also cripple our economy. This will effectively reduce our God given freedom, liberty, and constitutional rights in the name of "safety". To quote Benjamin Franklin: "Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety." Our State needs real leadership that can use common sense and real science with regards to public health and stop trying to micromanage the affairs of a free people. Please DO NOT pass these resolutions!

I am Strongly opposed to this historically in-humane and evil legislation. Look at history, what has been proclaimed for the health and safety of the community has been absolutely corrupted and will be again if you move forward with this draconian and discriminatory health pass. This no different on its face than any other segregation and discrimination we have fought against throughout history. This is no different than what we did as country in Japanese internment, in the Jim Crow laws, in the Tuskegee experiment, and what came about in the Nuremberg Codes. Do not be a pawn in moving in the direction again. STOP! Do not pass this thru and into our ever more divided community. Hawaii is hurting, this will not help us heal.

I strongly oppose this resolution. What is the goal of this system? Please answer this question. If vaccinated people cannot catch or spread Covid-19 why are such measures needed? If vaccines do not prevent the vaccinated from catching and infecting others with Covid-19 why is this passport system necessary? I think we need to take a step back. It is an individuals right to choose what medical treatments they would like to take. By implementing a vaccine passport the State of Hawaii and City and County Of Honolulu would be effectively be discriminating against the unvaccinated by removing their access to employment, recreation, and a host of other activities unspecified in your resolution. This is cruel considering the recovery rate of Covid-19 according to the CDC is 99.9% We need more transparency and information before proceeding with vaccine passports at any level. How many vaccinated people are testing positive for Covid? How many Covid deaths are in the vaccinated? How many Covid hospitalizations were brought to the hospital for reasons other than Covid? How many people catch Covid after being hospitalized? Are there other countries, states, and counties that have been successful at lowering Covid cases, hospitalization, and death using vaccine passports? The country with the best Covid rates so far is Sweden and they have done minimal restrictions. Please answer these questions.
Mahalo,
Sai

I am strongly opposed to this bill. I am not opposed to people taking vaccines if they feel it is the best choice for their own personal health. However, this is a brand new vaccine and there are no studies on the long term effects of this "vaccine." It takes at least 5 to 10 years for a vaccine to get approved, these are still in the trial stages. I do not feel safe putting this experimental shot into my body, there have been many detrimental adverse affects and deaths due to this shot. There are other safer ways to treat the Covid virus (vitamins, supplements, hydroxychloroquine, ivermectin, etc.). Please do your research and look at the evidence that supports the facts mentioned above.

It doesn't matter that they have been pushed this shot through for approval, it is not safe. You know in your heart the truth and that pushing this bill on the people of Hawaii is not right. Please don't push this VAX Pass...

Please do not move this resolution forward. These policies are not based in epidemiological science, and unnecessarily divide our people. This course of action would bring us dangerously close to what many have described as medical apartheid. There are treatments, medicines, and therapeutics that drastically increase survivability of this infection. As well, and perhaps most importantly; it has been accepted now that vaccinated individuals still contract and transmit the infection that they are vaccinated against. So predicated access for ALL to services and day-to-day opportunities on whether or not you have received a Pfizer investigational vaccine only makes sense to the private corporation selling the product for profit. Please do not do this to the Aloha State.

Written Testimony

As someone with a level headed perspective on the issue, I am appalled at the idea of vaccine cards being used to allow entry into parts of society. Regardless of the excuse, this is segregation. And it is not even necessary at all, nor is it effective. There is much data showing that fully vaccinated individuals are spreading Covid-19 more than the unvaccinated. There is also a plethora of evidence that natural immunity is far stronger than vaccinated immunity. A recent Israeli study showed that people with natural immunity to Covid-19 are 13x LESS likely to contract the respiratory virus. And there is much data available on the internet, that is verifiably NOT false information, showing the harmful effects these vaccines have had on hundreds of thousands of people already, from myocarditis, blood clots, seizures, strokes, bells palsy, and much more including death in thousands of people. So with all of that being said, it makes absolutely zero sense to require others to put this into their body and possibly in fact weaken their immune protection, and put themselves at risk of a serious adverse reaction, where even death is a possible side effect. That has to be up to everyone's individual discernment. If the vaccines work, then the vaccinated are protected and should not have to worry about the unvaccinated. And if they don't, and the idea is that they require 100% of people on the planet to be vaccinated to prevent virus mutation, then the problem all along has been the government's expectation that all of humanity is willing to comply, when I assure you, for many, many people that will never happen - and that is absolutely their human right, as it is their sovereign body. If you violate that with this bill and all bills alike, you are a violator of human rights altogether. This becomes medical rape. The segregation and coercion that this bill is trying to create is a disgrace, and shows how out of touch these officials are from the people, and from human rights and personal sovereignty.

Written Testimony I highly oppose this bill. It has been documented and confirmed and covid 19 in any variant can be spread by both vaccinate and non-vaccinate which makes this bill absolutely ridiculous and useless. It is clearly just another way to segregate the people and it is wrong and unconstitutional. One name....Rosa Parks. We did away with segregation years ago and nothing, not even a so called "highly deadly virus" can take away our God given freedom to choose.

I oppose a digital vaccine card or passport. The science shows that we need to quarantine if show symptoms. This is just a means of government control when society is in a state of fear-mongering, and it is an overstep of rights and privacy. If you get vaccinated, there is no need to worry about other people and their business if the belief is in that shot as what will keep you safe. If you have an exemption or experience with vaccine injury, it isn't the business of others or the government's business. If you already got Covid, there is also natural immunity when you research other vaccines like chicken pox. This is how it has been done in past history. I oppose segregating people. Please stop this, open your eyes, and be kind to people.

I'm disappointed at the government. Using vaccine passport to force people to take the vaccine? I'm not even against the vaccine but why would the government so adamant of getting everyone to take it and forcing every single one? Let people have their choice. If today is mandatory vaccine then in future any mandatory from the government will be worst! This is just like Obama care when the young and healthy people had to pay a penalty because they did not have healthcare. This is unfair for the religious exempt, unfair for the people that have don't want to put it on their bodies, unfair for the people that has medical conditions that might affect them. I've heard people had problems after taking it and I wonder too why my dad lungs got worse after the first dose of the vaccine and he ended up in hospital for 2 weeks to the point we're he had to get surgery for his lungs. My point is forcing people is not answer, forcing the government agenda is not the answer, have the people make their own choice.

Aloha,

Written Testimony

I do not agree with the vaccine passport or vaccine mandate. Please let everyone make decisions for themselves and don't penalize individuals who have differing opinions than the masses. The vaccine does not ensure an individual immunity from the virus and for that particular reason the vaccine should be option. I acknowledge that it is "believed" an individual who takes the vaccine and contracts the virus will experience less severe symptoms than those unvaccinated but that is not guaranteed and cannot be proven. Businesses should have their own choice whether they want to implement the vaccine passport and individuals should be also allowed the choice if they want to support that business or not. Withholding access to businesses because an individual doesn't have a vaccine passport is absolutely wrong. It's ridiculous and wrong.

Please think these decisions thoroughly and respond accordingly. The people of Hawai'i want freedom of choice - let us choose.

Written Testimony

I SUPPORT Resolution#21-193.
Please come up with an effective way to ensure visitors and/or returning residents who need to be quarantined are quarantining. If it means they'll need to quarantine in a hotel used to help quarantine individuals who have tested positive for Covid.
Visitors who tested positive shouldn't be allowed to come into our state.

I STRONGLY OPPOSE Resoulution #21-194
I've seen the effects of what Covid does and what the Covid Vaccines does. People have recovered from Covid. Unfortunately the healthy people I know who have taken the vaccine nearly died and are no longer able to return to work to provide for their families. They are now on dialysis.
Your body, your choice. My body, my choice.

I am 100% agree with every one of the testifiers that oppose this tyrannical resolutions! The very point of the vaccine passports are even more of a reason why we will never get this shot. It has convinced me that it applies to the book of revelations 13:16-17.

16 It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, 17 so that they could not buy or sell unless they had the mark, which is the name of the beast or the number of its name.

Written Testimony

Also I request financial records to be audited and made public of Governor Ige, LT Josh Green, and Roz Baker. How are people not concerned that he is worth \$300,000,000? Also LT Josh Green and Roz Baker have also been paid by PFIZER. This should be made public and they should address why they are accepting contributions from a medical company and also forcing a vaccine mandate on people made by that pharmaceutical company. This is a conflict of interest. I did extensive research and attached below is one screen shot of what I found. Others are circulating also this information as well.

I am testifying on behalf of myself in opposition to this resolution.

I am a resident in Hawai'i and I vehemently oppose this legislation as it infringes on my rights as a citizen of the United States. This legislation will also fail to prevent the spread of covid-19 based on scientific evidence.

I am the only unvaccinated member of my household. My husband (forced by his job) and my children (too young) are exempt. If someone in our household were to have covid-19, technically my husband and children could walk into establishments carrying the virus and no one would know. It has been proven by the CDC that vaccinated people carry just as much of the viral load as unvaccinated. The data coming from Israel represents the same findings.

Written
Testimony

I also object to no amendments for natural immunity and those with religious and medical exemptions. I had a medical exemption as a child for certain vaccines therefore I will not subject myself to this one until there are more long term studies.

It is absolutely abhorrent that the government would establish a blanket rule of law without considering all the exceptions. I

The only goal this law will accomplish is hurting local businesses even more so.

The people will continue to gather in their homes, on beaches and in retail stores or will they will resort to making fraudulent vaccine

records. Blanket government mandates do nothing to address the actual science.

Reevaluate your positions before it's too late.

I'm writing to you today not only for myself but for my family. As someone who has had COVID and continue to have lasting affects since February, I live in the United States of America with the freedom to choose if I want to continue with my natural immunity or not. I will wear a mask, I will keep up with health and sanitization to avoid spread, but I will not get the vaccine.

I have health issues, sever nasal polyps and am a cancer survivor, which is probably why I had such an adverse reaction to COVID unlike my sphere around me who had the sniffles and fine the next day. I have a dear friend of mine in the hospital now who is young and out of no where going on a ventilator (today) due to COVID and is scared. But as he said, he made the choice to travel, gather, and continue living, and he will make that choice all over again.

Written Testimony

There is no recourse to the pharmaceutical industries should I have an adverse reaction to the vaccine. I know too many who had a stroke hours later, with chronic seizures for months now. A classmate who now has GBS (Guillain-Barré syndrome). You don't hear about those on the news. No one publicized my friend here in Kailua who had a stroke three hours after the vaccine. There's only one side of the information being pushed to the public and that's always a concern. That classmate who got GBS And was sharing her journey, was censored on social media. Censorship is always a concern. None of the nurses I know even knew how or where to document adverse reactions to the vaccine on the CDC website, so how could all the data be presented to the public when it's not even being properly documented?

I can't help be feel like the downfall to our democracy. Pushing health and fear in exchange for our freedom.

The day there is recourse available, and the pharmaceutical company will pay for claims to

serious adverse side effects to the vaccine, I might get it. Until then people should have the right to chose what they put into their body.

“Freedom is not defined by safety. Freedom is defined by the ability of citizens to live without government interference. Government cannot create a world without risks, nor would we really wish to live in such a fictional place. Only a totalitarian society would even claim absolute safety as a worthy ideal, because it would require total state control over its citizens’ lives. Liberty has meaning only if we still believe in it when terrible things happen and a false government security blanket beckons.”

Ron Paul

Written Testimony

Name Christie Adams
Phone
Email ChristieAdams.Hawaii@Hawaiiantel.net
Meeting Date 09-02-2021
Council/PH Committee Transportation, Sustainability and Health
Agenda Item Digital 'Vaccination' Cards and/or Forced 'Vaccinations'
Your position on the matter Oppose
Representing Self
Organization

My name is Christie Adams. I am a fifth-generation resident of Hawaii from a family with eight generations here dating back to the Kingdom of Hawaii.

I STRONGLY OPPOSE digital 'vaccination' cards and/or forced 'vaccinations.'

I never have consumed a Pepsi Cola.

I never have downed a beer.

I never have taken even one puff of a cigarette, cigar, pipe, marijuana or anything else that can be smoked.

Written I never have taken an illegal drug.

Testimony I haven't consumed any alcohol for about 35 years.

I haven't eaten any red meat for about 35 years. That means no steak, no hamburgers, no hot dogs, no ham, no lamb, no bacon, no spam!

I haven't eaten any ice cream for about 17 years.

Following two hip replacement and pipe implantation major surgeries that were necessitated following a freak accident, I never took any opioid drugs.

I DO try to eat a healthy diet of whole foods, and take vitamins and supplements, such as a multivitamin, vitamin C, vitamin D3, zinc, selenium, apple cider vinegar capsules, etc.

I frequently wash my hands with soap and water.

I'm very careful about what I put in my body. Perhaps that's why at nearly 72 years of age, I never have had to wear eyeglasses or contact lenses, never have had cancer, never have had heart trouble, never have had diabetes, etc., and I still have all my teeth.

And now you want to FORCE me to put a POISON in my body, allegedly to protect me? No thank you. I already am protected by my immune system.

Any proposal to mandate digital 'vaccine' cards and/or mandatory 'vaccines' is a blatant violation of my personal rights, including my right to medical privacy!

Thank you for considering my viewpoint.

Written
Testimony If you want to completely KILL the economy and tourism, this bill will do it. It is an overreach of government and a violation of our basic freedoms as American citizens. Please, if you love Hawaii, do NOT vote for this tyrannical bill. It is morally wrong to impose this on our citizens. What happened to “ my body, my choice “ which Democrats have been defending for decades ? Of does this only apply to murdering the unborn?

I oppose the health card or the vaccine passport being proposed. On August 6th, 2021, Dr. Rochelle Walensky, the CDC director went on CNN to say that the vaccine does not stop transmissibility of the virus.

The premise behind the vaccine passport is under the false assumption that people who are vaccinated cannot spread the virus. In fact the CDC director, herself said vaccines will not stop transmission. For this reason, the idea of a vaccine passport serves no purpose other than dividing the community into two groups - the vaccinated and unvaccinated. I urge you to reconsider such a move.

I also urge you to look at other studies beyond the USA. Israel was one of the first countries to be vaccinated, yet studies out of Israel are showing break through cases at an alarming rate. The vaccines do not stop transmissibility.

Thank you for your time.

I strongly oppose this measure. As a business owner I have suffered enough over the last 18 months. What started as "two weeks to slow the spread" has turned into all out assault on every day people living and working in Honolulu. We demand better solutions, we demand more conversations, not arbitrary rules that are barked at us with no end game, no clear plan. When does this end? How long will it go on? Where do we draw the line? We are being told what we can and cannot do without seeing any tangible plans, any real timelines, all the while the goalpost keeps moving further and further away. Turn down this measure now.

This would not recognize the superior immunity offered by natural immunity, vaccinated individuals still spread the virus at similar rates to unvaccinated, vaccinated individuals can still become ill or hospitalized, and that this is a medical apartheid. This has been demonstrated in several studies some references:

<https://www.medrxiv.org/content/10.1101/2021.08.24.21262415v1>

<https://www.medrxiv.org/content/10.1101/2021.06.01.21258176v2>

Written Testimony <https://www.israelnationalnews.com/News/News.aspx/309762>

There vaccinated patrons will not have decreased transmission of the virus, and may still become ill or hospitalized with infection:

<https://www.medrxiv.org/content/10.1101/2021.07.31.21261387v1.full.pdf>

<https://www.cdc.gov/mmwr/volumes/70/wr/mm7031e2.htm>

Any society that wants to create a second class citizen should reflect on the errors of apartheid, segregation, and other measures similar. These were always thought to be for purposes of societal good and later have been judged as wrong.

I am respectfully requesting the voters of this resolution to thoroughly research ALL the science relating to this decision. Please, please listen to the hundreds of testimonies of families who have been **NEGATIVELY IMPACTED BY THIS EXPERIMENT!!** There are dozens of Doctors and scientists who are deeply concerned. I personally know persons who have been adversely affected and don't wish to enter the booster phase. A good place to start is VAERS. This is a very respected council. **PLEASE RESEARCH ALL THE SCIENCE.** The pharmaceutical companies and their shareholders are making **BILLIONS** on this experiment. Follow the money... The Constitutional Rights of citizens **WORLDWIDE** are being revoked yet we are forced to the internet for information on world news. I do appreciate your work and service and sincerely hope you serve all your constituents. Thank you so much for your consideration. A **VERY CONCERNED** citizen.

Written Testimony I oppose the mandate for vaccine passport. Those unvaccinated should have the same access to the services in the community and not be penalized. It is our choice and freedom. This is not what America stands for. Both the vaccinated and unvaccinated are equal. And should be able to go to a restaurant, entertainment, gym and etc.

Written Testimony

The implementation of a “vaccine passport” is unethical, discriminatory and a detriment to Hawaii’s economy. First, the state economy, businesses and thousands of families already went through the inadequate and unsuccessful lockdowns that promised to keep people safe but didn't delivered. Many businesses closed and the few that survived are still trying to recover. A mandate of this magnitude will be lethal for those who are still trying to get their heads out of the water.

Second, the promising “vaccine” have also proven to be a failure in preventing the spread of infections. There is insufficient evidence of vaccine safety.

Third, the vaccine passport is a discriminatory action based on the fact that an individual is deprived of participating in society due to its “vaccination status”.

Fourth and last, the mandatory vaccine passport will only hurt Hawaii’s economy and business even more, digging the state's own grave. We can not allow another inadequate and unfitted action like the “vaccine passport” to be implemented.

The state needs to be Pro-Active in “supporting the health care system” and invest a large portion of the 193 million dollars recovery funds received on June 7, 2021 in growing our state instead of forcefully mandating more inefficient actions that suppress our economy growth.

Written Testimony

I DO NOT support the vaccine passport. It makes absolutely no sense, when vaccinated people are still carrying and passing the virus, but do not have to be tested. We would not be in the precarious situation that we are currently in, if we had continued mandatory testing for vaccinated people entering the island. We have allowed tourism to overrun the island, but restrict local citizens and businesses. I will not allow the government to force me to put something into my body, that has no long term studies behind how it actually effects. This is CLEARLY not a public health issue, and has everything to do with a corruption in our government. Please prove me wrong.
Sincerely,
Bonnie Delgado

Written Testimony

“I strongly oppose to health cards or vax pass.
It will prevent healthy people from participating in society, affecting the economy hugely.
Business will die because whoever is not getting the shot, will not get the shot anyways! and they will figure out ways to live without these luxuries.
This is going to affect tourism hugely! therefore affect the livelihood of the majority of people who sustain themselves from tourism.
Vaccinated people does not mean healthy people. Someone can be vaccinated and be sick.
Health cards or vax pass are discriminatory and violate the constitution. Stop the fear and educate people on how to remain healthy sustainably. The shot does not create healthy individuals, does not prevent anything. NO VAX PASS OR HEALTH PASS!!!! It makes no sense. Stop destroying the economy and the livelihoods of the people of HAwaii! “

Written Testimony

Aloha,
I strongly oppose vaccine passports. As a mother of three and pregnant with another on the way I strongly oppose this complete violation of our rights as citizens. It has been proven time and again that the only person this vaccine has the potential to help is the person taking it. Vaccinated individuals can still spread the virus at the same rate as unvaccinated individuals. Therefor everyone's choice is an individual one:
I personally have dedicated the last 20 years of my life to a healthy lifestyle, I eat clean and healthy food, exercise daily, take vitamins, don't take pharmaceuticals, don't do drugs and pay an enormous amount of taxes to this state. I believe in my immune system. I also wear my mask and have social distanced from the beginning of this pandemic: my children have had their childhood shots. I am not an antivaxer.. I am not a republican or a democrat. I vote for the person with the strongest moral compass and qualifications.
I have several generations of ancestors that died fighting for this countries freedom. And it is wrong to force people to put experimental drugs into their bodies. Especially when there's no benefit to the public. Please put these resources into madatory testing. In Kau alone there is only one location that offers free testing once a month and the numbers are spreading. Test us!! Stop the spread by isolating it: aloha

Written Testimony In The Wealth of Nations, economist Adam Smith said that there must be free movement for all in the system so that each man might seek the best opportunity for his labor or resources. This is a basic economic principle and human right. If you are not free to move and seek safety, resources, or the best opportunity for yourself you are not truly free.

Opposing as it is against our constitutional rights.

This is a breach of my civil liberties to govern my own health and make decisions concerning my health and safety. This vaccine has not gone through enough vigorous testing to understand long term effects, I have conditions which make my body highly sensitive to foreign agents. I have lost faith in the government to be transparent about the viability of other treatments for Covid and the general censorship of very well trained good hearted doctors who are trying to help their patients with early at home treatment (something the government was not interested in) and get information out about side effects. Why is the media silent about these side effects and who is more prone to getting them and the actual extent of them? Why is there no open dialogue about that and the fact that mutations are a result of the vaccine just as much as through natural carriers? Science used to be a beautiful network of exploration and now it is a closed door to anyone who thinks differently. I do not trust this approach and believe it has an agenda that is not entirely altruistic. There are many legal implications to what you are trying to do now and into the future but I will leave that to the professionals. The fact that the FDA completely bypassed a critical step of the licensing process for the approval of the Pfizer vaccine just makes me more skeptical. Somebody in your organization should be questioning that! Please do not make knee jerk decisions without taking all the information into account. This virus will be with us for a long time in whatever form. Why don't you spend more time and energy on educating the public how to improve their immune system and health in general. I respectfully submit this as my testimony to oppose this resolution. Please consider all viewpoints. We are all equal citizens under the law.

Written
Testimony I strongly oppose vax passport because I believe it infringes on my freedoms as a consumer and it doesn't take into account various health situations people may have to not vaccinate, for me personally (religious, and presence of anti ones in my blood equivalent to vaccine). There's thousands of Hawaii residents who have successfully recovered and over come covid and their voices are ignored.

Written Testimony I oppose vaccine passports. I personally know people who have had an indoor gathering of 50+ people since the limit changed to 10. I personally know people who were vaccinated, travelled to the mainland, contracted covid, had symptoms and still took their flight home sick because they were able to due to their vaccine cards. Enforce and regulate these issues. Restaurants, gyms, etc. are already being regulated and shouldn't be regulated even more. This doesn't make sense.

This vaccine passport idea is so communistic!
Look at history and how Jews had to show papers in order to shop, get around and travel!
And look what happened to them
If you can't see this and learn from history we are all doomed.
It's our right as an American to be able to choose what goes in our body.
Respect people's choices!
Why don't we find treatments that work BEFORE someone gets so bad that he needs to be
hospitalized. Educate people on how to take care of themselves instead of mandating a
vaccine that no one knows what the long term effects are yet
They can come up with a vaccine in 1 year but no treatments?

Written Testimony

I stand in STRONG OPPOSITION to Vaccine Passport for the state of Hawaii! This movement to enforce a law for all Hawaii residents and visitors to obtain and present a vaccination passport in order to travel and enter into certain designated establishments are against the constitutional rights and civil rights of our freedoms and liberties granted us as born and raised United States citizens declared "American" residing, honoring and respecting our land and country to include its people of which we love. This bill will strip Americans of our rights to freedom of choice as in the freedom to chose what each individual declares to be morally and/or ethically right for oneself. No government should ever be given the right to enforce whether by law or by mandate an act that is against the will of its people individually or as a whole without the knowledgeable consent of such individual or persons. STOP THE TYRANNICAL ATTEMPTS TO OVERTHROW THE PEOPLE OF HAWAII AND OF THE UNITED STATES OF AMERICA, THE REPUBLIC!!!

Once again, I STRONGLY OPPOSE THE BILL TO ENFORCE VACCINE PASSPORTS WITHIN THE STATE OF HAWAII AND WITHIN THE UNITED STATES OF AMERICA! We are the LAND OF THE FREE!!!

Additionally, the survival rate of this virus is 99.6%, greater than the "vaccine" experimental drug. There are several known and proven treatments that work.

I STRONGLY OPPOSE THESE BILLS!!!

192.168.200.67 I strongly oppose Resolution 21-194. It is an intrusion into personal medical information, discriminatory, and leads to segregation. Vaccination is a personal decision that is made between each citizen and their doctor, not the government. These health decisions made by each citizen should be left up to the individual without risk of limiting day to day activities or punishment. I believe that this resolution would change the nature of citizenship and freedom for all citizens. The nature of virus mutates, and the science is fluid. has been proven that natural immunity is 13 times more effective then the vaccine which thousands of people have.

I oppose any type of health passport, digital or card. The people that are not surviving are those that are elderly and those that are obese or have other serious comorbidities. Where is the data? What are the real numbers? Who is in the hospital? We don't want names, we want numbers. We know the tests are skewed and we know that the test results are based on the number of resolutions and that even the number of resolutions is based on whether or not you have had the vaccine. You want to deny access to the gyms to the unvaxxed, but these are the people who are taking care of their bodies! How many people have gotten covid from people in the gym? If you truly cared about the health and safety of the people of Hawaii, your advertisements would be focused on taking care of your body! Why don't you tell people to get out and walk or go swimming. Right now the ads tell people to stay home, don't go out...this makes no sense.

As it is, the FDA has approved a shot that has not even been manufactured yet! The "media" and the state are telling the public that they should now take the shot since it's been approved! No, the shot you are giving these people is NOT the approved shot.

Please meet with doctors from the opposing view, listen to them. Why are the doctors that are speaking out being silenced? This is NOT a political matter.

There is a growing concern about safety and efficacy especially with long term effects. The FDA approved injection is not technically a vaccination it is a experimental Covid-19 gene therapy that has shown to cause blood clots, strokes, heart attacks and more.

Also important to note that just recently TWO senior FDA officials resigned over Biden administration boost shot plan. Marion Gruber director of the FDA's office of vaccines research and review and deputy director Phil Krause are set to leave the agency this fall because of discontent with the roles of CDC decisions vs what should be handled by the FDA.

The short term results may look promising for reducing symptoms of Covid & variants as well reduce severe symptoms and hospitalisations however there are growing cases of increased levels of cancers, rare illnesses, and the list goes on.

Written Testimony

The Israel study recently shows that natural immunity is 13x more effective compared to the two shots. Please refer to these studies.

Also please note Japan had to send back over 2million Moderna vaccinations because their labs found liquid metal within the moderna.

Even Europe's own CDC has decided not to enforce the booster shots on their own population.

Once the state of Hawaii starts to mandate these experimental gene therapies, then it may lead to further fall out and the medium and long term effects of this solution.

These shots might be a good idea for immunocompromised citizens from the more infectious Delta Variant but in the long run we as human society may have better results with a stronger

natural immunity.

Please review the stats and health conditions of the last year for hospitalisations. Patients with heart disease, obesity, diabetes, and other diseases are at higher risk of severe illness. Let's get to the root and focus on shifting way of life towards healthier lifestyles promote weight loss, better food solutions, less inflammatory oils, and put a mandate on diet sodas and high sugar items this will help with diabetes obesity heart disease towards a better health for the herd. Let's not settle for an experimental vax/gene therapy. Thank you for your time.

Written Testimony I am strongly opposed to this bill because it limits rights of the un-vaccinated. To allow vaccinated to sit in restaurants and attend events when vaccinated person can still carry the virus and spread it to others invalidates the whole purpose.
thank you,

Written Testimony I cannot in good and reasonable conscience sit by while you implement such a disgusting mandate onto ppl in a free society. Not only is there no scientific cause for what you are doing, you are violating human dignity, liberty of body, and killing medical freedom. Making a person choose between their livelihood and providing for themselves and an experimental, ineffective shot is inhumane. shame. a'ole.

Written Testimony

The state wants us to believe what they want us to believe (you and the CDC are not even tracking the breakthrough cases) and based on your personal agenda and gain, you are imposing your own beliefs on us. Therefore, I strongly oppose this Resolution. We live in America where we have the freedom of choice, we are the land of the free and the brave! Apparently this Resolution and the people who created it do not believe that American citizens should have the freedom to choose. You are basically trying to strip everyone from their basic right to live. There is no freedom when you state that you are not able to work if you are not vaccinated or you can't leave your home for basic necessities. You are trying to force people to get the shot by taking away their livelihood. I pay taxes which essentially goes to your salary. We the people voted for many of you that are making this terrible decision to take away our rights. You were hired by the very people you wish to strip of every constitutional rights given to us because we are American citizens. What gives you the right to make your own personal decisions and choices and to force us to do something we don't want to do. We live in a democracy but you are trying to turn our state/country into communism. You work for us and our voices should be heard. I don't understand how it can even get to this point when the Governor, Lt. Governor & mayor are not mandating themselves to take the shot. It has now been documented that many Covid variants are able to evade immunity from the vaccines such as the new "MU" variant. If that's the case then what good is the vaccine. Viruses will continue to mutate no matter what. How many shots/boosters must 1 person take before their body is riddled with the vaccine. Obviously if it takes more than 1 shot, something must be wrong. It has also been proven that the efficacy of the vaccine doesn't last long. I have a co-worker who took the vaccine and was exposed to her son who is living with her and had Covid but she was allowed to go about her normal activities only because she had the vaccine, per the DOH. This doesn't make sense because the vaccinated can still catch Covid and spread it. The hypocrisy of all of this is unbearable. The powers that be don't have to take the shot and the exposed vaccinated can keep spreading Covid to others. I had to work during the lockdowns and I kept myself safe the entire time.

You are not GOD and only GOD can tell me what to do with my body and how to live my life. Do what you were hired to do and listen to the people. We were fine all this time up until now and I strongly believe that the system you have set up and changed has made it easier for Covid to spread. We were on lockdown and it still didn't change the fact that people died from the virus nor does it change the fact that people die from the flu. We don't have mandates that will strip away our livelihood from the flu or other infectious diseases (SARS had no mandates or lockdowns). People die everyday, why would I want to get a vaccine that has not been proven (it takes years for a vaccine to be proven safe) it's basically committing suicide and that is against my religion. Give people the freedom of choice they deserve. No one kicked me out of a store or asked me not to work or to buy groceries before this mandate and I have been Covid free this entire time. Basically do the job we the people hired you to do. Unless your the 2nd coming of Christ, you have no right to tell me what I should do or put in my body. End this madness now!

I am respectfully requesting the voters of this resolution to thoroughly research ALL the science relating to this decision. Please, please listen to the hundreds of testimonies of families who have been **NEGATIVELY IMPACTED BY THIS EXPERIMENT!!** There are dozens of Doctors and scientists who are deeply concerned. I personally know persons who have been adversely affected and don't wish to enter the booster phase. A good place to start is VAERS. This is a very respected council. **PLEASE RESEARCH ALL THE SCIENCE.** The pharmaceutical companies and their shareholders are making **BILLIONS** on this experiment. Follow the money... The Constitutional Rights of citizens **WORLDWIDE** are being revoked yet we are forced to the internet for information on world news. I do appreciate your work and service and sincerely hope you serve all your constituents. Thank you so much for your consideration. A **VERY CONCERNED** citizen.

I oppose the "vaccination passport"! It is a violation of our constitutional rights and also a violation of HIPAA!!! Getting vaccinated should be a personal choice, not a government force! With 80% vaccinated, shouldn't the numbers be lower than last year when there were no vaccine?! Things don't add up here! Stop the lies and hiding behind close doors. The people of Hawai'i has the right to know the truth!!!!!!!!!!!!!! You work for us not the other way around!!!
You say you're complying with CDC, but are you really?! If you were you would know that VACCINATED PEOPLE CAN STILL CATCH AND SPREAD THE VIRUS JUST AS EASILY!!!!!!!!!!!!!!!!!!!!!! Even the DOH director Char said in a news conference! So bring back the travel testing and test all those who are coming into Hawai'i not just the unvaccinated!!!!!!

"I am strongly opposed to this bill Because I am a law abiding American citizen. I do not yet feel confident in this new vaccine. My decisions are made when God Gives me peace to proceed. I am a stay at home mom caring for 3 children. It is so sad I cannot take them to eat if this bill passes. If I'm sick I will stay home. Vaccinated people are spreaders too. I will take the risk of not being vaccinated until I see more long term research and when I have more trust in this vaccine. In the meantime, this is my one God Given body and I should be able to choose what I allow inside. Especially if this alters my natural God Given immunity. This is very discriminating and intrusive in my personal freedoms and liberties.

Written Testimony I oppose vaccine passports. This is discrimination.
Vaccination status is private health information just like ones HIV status. Covid is over
99% survivable and only a small fraction of those who contract end up hospitalized. Please
quit acting like this has a 99% fatality rate
The economy will suffer

Written Testimony

After a year & a half the burden is on the authority . The person or office that has declared a public health medical emergency. They must show themselves to the people. They must provide material evidence of sarscov2 causing COVID-19 disease. This isolated novel sarscov2 virus extrapolated from a deceased or sick 'unvaccinated' persons claimed to be infected by c19. Here in our state.

The people of Hawai'i have trusted public elected or appointed or hired public officials for 18 months now. We have performed as directed participating in hazardous,harmful even deadly actions. We were asked to trust. Then we were told to trust. We have been treated like naughty bad dirty dogs. These officers blame the good beautifull free people of Hawai'i for the devastation they have caused with these known hazardous mandates. We participated under duress. The media has hammered us with terrorizing words & visuals. We are all for good health & good life. Don't twist that.

Provide material evidence of isolated novel sarscov2 virus extrapolated from the deceased or sick 'unvaccinated' persons claimed to be infected with COVID-19 disease. Of to be imperially correct rule out the 50 other known diseases that could be causations of the very general long list of c19 signs & symptoms.

The pcr technology is not a test. It is a forensic magnifying tool. This is accepted fact. Even declared by Nobel laureate inventor Kary mullis.

The cdc has stated the virus they have is a model. All the 60 or so virus they've used for emergency use authorized pcr genetic sequencing have been models. (where is the isolated sarscov2 - not a partial virus with other human,bovine, monkey serums)

The pcr is only capable of matching genetic sequences at huge magnifications. Pcr cannot identify a virus. Pcr cannot quantify or qualify a virus. Pcr cannot diagnose. Why are we using it? This data is all patently FALSE. Throw out inaccurate not related data.

An antibody test can't determine the specific virus or pathogen it's protecting against. These are broad & general. Bodies can & do develop antibodies with out even contacting pathogens. This is accepted & known action is called herd immunity. It's a GOOD thing.

Natural immunity is good. Some bodies are incapable of making antibodies. These bodies still have immunity. These tests are FALSE positives. They must be discarded.

The (harmful to pineal gland - brain) temperature checks intrusive questionnaires are meaningless. FALSE assumptions are not diagnostic tools. The contact tracing is punitive. It's an intrusive surveillance. ESP since we have no material evidence of isolated novel sarscov2 virus causing c19 disease.

Demand the author of this emergency show the material evidence. Not a simulation of a possibility. Reality.

The mandates have no material evidence of stopping sarscov2.(the invisible sarscov2)

We are past time of hoping & believing. Those are for God are gambling. Where are the imperical studies masking swabbing injections lockdowns stop (the invisible) sarscov2? Or these mandates stop any respiring virus? There is NONE. These mandates are emergency use authorized. They are illegal unapproved medical interventions. FDA eua defines this as informed consent. There are hundreds of studies on dangers of masking. Why are they hidden? There are studies of harms from these deep problems swab- there are harms from ingredients on swab, there are harms from losing patent rights on your own biology due to collection of dna. Why is this hidden?

The fda & manufacturer of injections know of the adverse events including death. Why is this hidden? There are also well established legal terms. The injections don't meet them. From their own words these are operating systems. It's known & established in medical patent law - application of patented interventions are exactly that- patented. Why is this hidden?(USA Supreme Court has past opined up to 40% of mans body could be owned by corporations due to patented medical interventions)

This is not informed consent.

This is FRUAD !!! The officers of authority of emergency & mandates are tittering on criminality. Or just criminals. Or does ignorance & mis thinking make these officers innocent?

What would all the financial ,spiritually , physically harmed judge them.

Or we could be polite & say the people in trusted political offices mandating - jus didn't know.

Or do any of the many hidden financial gains that require these mandates to prosper cloud good sense & reality?

the "lockdowns" are extremely harmful physically & emtionally. It's isolation torture. This is backed up by countless studies during wartime. How to break people- to make them slaves. The only period of time a quarantine works is at the onset of illness - the only group quarantined would be the ill. So healthy people build antibodies & ill convalescent into health.

In closing the positions of trust ,the officers of authority declaring emergency & mandates- the burden is on them to provide material evidence of past & currently & locally isolating from deceased or sick persons sarscov2 causing c19disease. Now is the time.

The evidence of known & probable harm is indisputable. The evidence the super super rich would like to depopulate, stop all travel, block access to nature ,create digital id by first establishing vaccine passports,merge man & machine ,full spectrum spectrum dominance. This is openly written about by United Nations, world economic forum, bank of international settlements, International Monetary Fund, royal society institute, council on foreign relations, trilateral commission, & many governments.

" we've worked for 50 yrs on the COVID action platform, merging man & machine, bringing the 'great reset' the 4th industrial revolution. You will own nothing & be happy" . These are dangerous plans to all existence all creation. Is this where the trusted officers want & plan to implement for the good beautifull free people of Hawai'i?

The time is now!

Show us. Use mutually agreed definitions. No ambiguous simulated possibilities.

I believe any city or state that enacts a vaccine passport program is not looking out for the best interest of the people. According to an Israeli study of over 800,000 natural immunity to covid means you are almost 700 % more likely to not get covid again. What does this mean? Aural immunity puts an end to the perpetual pandemic.

<https://www.israelnationalnews.com/News/News.aspx/309762>

Even without the numbers above that show the vaccine to be worse for reinfection, the reality is that just as abortion for women is my body my choice. The government and employers have no right to choose what goes into my body. Coercion is not consent. Maui is not a police state. People will not stand for this!

Just a reminder of the Declaration of Independence

Written
Testimony

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, --That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.

The vaccine is not about safety, it is about CONTROL.

Written
Testimony My name is Danica Smith. I am a Kauai County resident. I strongly oppose bill
RESOLUTION 21-194.
Mandating a new vaccine is cruel and against many laws on human rights. It creates forms of
segregation and further aggravates an already fragile society, creating more "us vs. them"
mentalities. Some individuals cannot take this vaccine for personal health reasons. Why
segregate them from society and community because they're doing what they believe is best
for themselves? Please do not go through with this.

Written Testimony I STRONGLY OPPOSE vaccine passports. There is no justification for taking away GOD given individuals freedoms. The science has shown that VACCINATED PEOPLE SPREAD THE VIRUS EVEN MORE THAN UNVACCINATED. STOP EXPERIMENTING ON THE PEOPLE OF HAWAII. PEOPLE ARE DYING FROM THE VACCINE, STOP LYING TO THE PEOPLE OF HAWAII. THIS IS A CRIME AGAINST HUMANITY!

I'm strongly opposed to this Bill.

Exposing medical information to those who do not have a need to know is unlawful and unjust, and doesn't support American freedom. To add, it's sick to understand that vaccines are used in human cells from aborted babies.

As a Christian and believing God's word, which never comes back void, the Word of God says:

Psalm 139:13-14 NIV

For you created my inmost being; you knit me together in my mother's womb. [14] I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well.

Written
Testimony

How can we play God and abort babies, isn't that murder? Then to use those cells for profit to inject others in these so called vaccines being used today.

On top of that, many have already received this gene therapy mRNA and still contracting COVID-19. They're not subjected to being tested in airports because they carry a vaccine card but are still carriers as proof has shown to infect others. This doesn't make sense at all. God designed our bodies to heal itself as long as we get the proper nutrition in. There are proven studies as well as eating raw garlic that kills viruses. Why are we so focused on injecting healthy people? That is not right.

Under the CDC site it states the following:

MRC-5 cells Including DNA and protein, sucrose sorbital, monasodium l - glutamate, sodium

phosphate, sodium barcarbonate, potassium phosphate monoba, phosphate dibasic, neodymium, bovine calf serum.

This matters to me because, I Believe that human beings are created by God and his image. Therefore every person, from conception to natural death, possesses inherent dignity and immeasurable worth - Including preborn children, elderly individuals, those with special needs and others marginalized by society. Christians, then, are called to defend, protect, and value all human life.

Jeremiah 1:5 NIV

“Before I (God) formed you in the womb I (God) knew you, before you were born I (God) set you apart; I appointed you as a prophet to the nations. ”

Please watch the "Are fetal cells used to make vaccines? Under the Children's Hospital of Philadelphia website.

<https://www.chop.edu/centers-programs/vaccine-education-center/video/are-fetal-cells-used-make-vaccines>.

The vaccines are also in EUA not approved status per FDA. Corporations and service members are mandating individuals to get vaccinated when they are in Emergency USE Authorization and not at all approved plus do not prevent getting covid. We have a 99% of surviving the virus and only a 94% of making it through after being vaccinated. My brother n law had adverse effects from the vaccine along with my sister and unfortunately my brother n law passed away recently with a heart condition that his doctors started he never had heart issues prior in all his medical records. Whistle blowers have come forward from Pfizer and CDC reporting the 1000's of deaths from getting the vaccine and 100s of 1000s who have had an adverse reaction.

God will take down evil and has proven that many times in the Bible with Truth.

Please Fear God and not the world!

Written Testimony

I am strongly opposed to this bill Because I am a law abiding American citizen. I do not yet feel confident in this new vaccine. My decisions are made when God Gives me peace to proceed. I am a stay at home mom caring for 3 children. It is so sad I cannot take them to eat if this bill passes. If I'm sick I will stay home. Vaccinated people are spreaders too. I will take the risk of not being vaccinated until I see more long term research and when I have more trust in this vaccine. In the meantime, this is my one God Given body and I should be able to choose what I allow inside. Especially if this alters my natural God Given immunity. This is very discriminating and intrusive in my personal freedoms and liberties.

Written Testimony

Aloha

My name is Ryan Watanabe. I am writing this message hoping the right years hear this. As Somebody personally affected by the vaccine which killed my father. I want you to understand that there is no way that I could give it to anybody else I love after watching his demise. I do not feel that I should be against because the medicine you're pushing killed someone I love. You refuse to see the damage is doing because it's not happening to you but the fact is there's a lot of Vaccine deaths occurring. I hope you rescind this action because it's going to hurt local businesses as well. Being a business owner I took a poll Amongst my customers if anybody would be returning if I refuse them business due to their vaccination status.

99.9% of people said they would not return to my establishment ever again if I discriminated against them. Please understand you're going to create a divide in our community worse than racism.

And lastly I leave you with 2 questions.

Would you give your child or your mother a medicine that killed the person you love most. Also is a virus that killed 600 people in state over the last 17 months, Worth ruining the livelihood of millions of your people .

I adamantly oppose this Resolution. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card."

Written Testimony This is discrimination! If we start here, where does this end? Is Costco going to be next? Will we not be able to shop where we want?
Government was never ever intended to be used in this way.
People are not getting the virus by sitting down and eating in restaurants or going into stores that are using social distancing and masks! This is just another layer of Government overreach

Written Testimony

As a practicing primary care physician, I strongly advocate for medical right to choose, particularly in the situation of covid vaccines that have known health hazards. I see more cases of vaccine adverse reactions than I do of serious covid infection. Multiple factors contribute to under reporting of adverse covid vaccine reactions, such as: VAERS system is very difficult to use; and situations where physicians unreasonably deny that reactions are due to vaccine.

The choice offered by some employers to decline vaccine and test weekly is hardly a choice when the individual cannot afford the expense put on them of weekly testing.

I have many other concerns about vaccine mandate and would write more if I had found out about this opportunity to oppose it earlier, but must stop here as I am in the middle of clinic day.

Written
Testimony

I oppose mandatory COVID injections, Vaccine Passports and tracking and tracing apps.

I should have the FREEDOM to CHOOSE to determine if I want a COVID shot. Neither government nor private corporations have the right to FORCE me to have a so-called "Vaccine Passport." Nor should an app that contains my private medical information and that tracks and traces my movement be permitted.

The idea of a Vaccine Passport did not begin with COVID and will not end with COVID. Such a medical or health digital passport presents a serious threat to freedom and the civil rights of the people of Hawaii. My private medical decisions regarding a COVID shot or other vaccine should not determine whether I can leave my home, workout at a gym, shop, dine or worship.

I stand firmly opposed to ANY mandatory vaccines or vaccine passports. We do not not require proof of vaccination for ANY OTHER vaccine, disease, or virus to enter public facilities, retail establishments, or restaurants ANYWHERE in America! This is a politically driven proposition. It has nothing to do with SAFETY!

I urge you to fight against any direct or indirect effort to make COVID shots mandatory, to require a Vaccine Passport or to electronically track and trace my movements.

Sincerely,
Brian Lauro

Written Testimony I am strongly opposed to this vaccine passport bill. It is wrong. Segregating those who choose to get the vaccine or not is wrong. It takes away my freedom of choice. These establishments that don't service us based on our vaccination don't deserve my business anyways. Therefore, I still am strongly opposed to the vaccine passports.

I am writing to express complete and utter disapproval of this bill. The requirement that this bill poses, being that we must prove our choice to or to not acquire this medical indoctrination at every door we face in the city of Honolulu is absurd. This intrudes upon our medical privacy and allows for medical discrimination. Whether there was a choice for a business to require such or not, it is our right to choose whether or not we wish to receive such medical indoctrination.

Written Testimony

Every available vaccine is under emergency use authorization. The medicine that was licensed by the FDA has not been released to the public, nor will for a long time. Due to the EUA status of this (available) medicine, you cannot legally in force this upon the people. The lack of development and safety this medicine poses to each and every one of us is too large to force in any regard upon any single person. It is our choice to choose which medicines to take, even more so considering that this medicine is under EUA.

I plea to each and everyone of you who holds power in Hawaii, do NOT pass this bill. It impedes upon our rights as human beings let alone citizens of the US. The medicine is not nearly safe enough to be forced upon human beings. The status of the medicine also does not allow you to force it upon people. This bill also allows for a system of social profiling which is illegal in the United States of America. I plea to all of you with great passion, do not reprimand people for their choice to or to not take this medical intervention. Allow people their God-given choice without consequence.

Thank you for your time. Please take into consideration the very

negative consequences of such a bill and how it affects the population as a whole. Take into consideration our passionate opposition and heed our requests.

Written
Testimony

Aloha,

As a concerned citizen of Hawaii, I would like to inform the committee that I OPPOSE the implementation of Vaccination Passports or other segregating mandates that require state intervention , violating medical privacy and constitutionally protected rights.

Not only are these mandates unnecessary due to the low death rate due to Covid-19 (only 285 over the span of 17 months, considering an average flu season sees approximately 600 deaths and that 97% of said Covid deaths also had an average of 4 co -morbidityes with zero deaths under the age 18) , and that there are many proven alternatives to treat and prevent hospitalization (which are being intentionally repressed by Big Pharma and their allies in the media and governmental institutions), that the CDC director has said publicly that not only does the Jab NOT stop infection or transmission, and that implementation of a passport that would limit people's ability to make a living, operate a business or take part in normal Society is not only a blatant violation of natural Law and our US constitution, but also a very dangerous path to take for the future of Hawaii's people and the generations to come.

Furthermore, these experimental gene therapies have not even completed human safety trials, and will not be completed until the year 2023. So far the CDC's own reporting system - VAERS - (vaccine adverse effects reporting system- has officially listed over 10,000 deaths here in the US as well as hundreds of thousands of serious adverse effects. These numbers are also severely under reported, and

it has been estimated that those numbers could be up to 90-99% higher! Even at the current report rate, these numbers are nearly double the deaths in 6 months than all vaccine deaths reported , combined, over the last 30 years! I personally know people who have perished after taking these injections as well as others who were injured and are now debil

I wanted to visit Hawaii but because of the vaccination mandates I will travel other places. Two people in my town dropped dead after the shot. My client has breast cancer after he took the shot. Oahu Covid cars increased sine so many took the shot. Please educate you people to build their immunities. I had Covid and I took Ivermectin and got over it.

We are not against proven vaccine but these vaccines are rushed out and at risk people to shots are not suppose to take them. We have reacted to vaccines with two of in hospitals, several unconscious and others reacting with 104.5 to 105 fevers even last year.

Written Testimony

Recent studies have show that people with vaccines spread the virus days 2 to 6 days. People without vaccines spread the virus 1 to 2 days. People without shots are less likely in spreading the disease because they know they have it earlier and people who are vaccinated less likely to have severe symptoms. The rate of spread in the the UK and Israel among vaccinated is above 50% with the new variant Covid viruses. We are buying more spread not less with this policy.

How can you mandate a blanket requirement for all businesses to require a vaccine card exemption when vaccinated people have a longer period to spread the disease which could be why the rise in increased rates. This policy will spread the virus more not less. I believe that all should wear masks inside for the same reason.

There is a more conventionally produced vaccine in Europe that for some reason is not being allied to be used in US.

We clearly oppose this mandate as going the wrong direction.

I am in opposition to this proposed resolution to develop, implement, and mandate digital vaccine passports for private industries to restrict employment and access to business establishments and other public accommodations.

Written
Testimony

My view is simple: we should not have mandates. That means no mask mandates, no vaccine mandates, and of course, no vaccine passports. This resolution is illegal, violates HIPPA and the Americans with Disabilities Act. Private businesses, restaurants and gyms have no right to know a patron's personal medical history. And barring access based on medical discrimination is a direct violation of the ADA. This would further divide the community by legalizing medical segregation, which target citizens who have exercised their right and freedom of choice.

These vaccines have no long term efficacy and safety data. This alone makes it impossible for any citizen to have full informed consent. And it has been shown that vaccinated individuals are not immune to infection and have the ability spread disease. In fact, researchers Maccabi Healthcare Services' database in Israel observed that "natural immunity confers longer lasting and stronger protection against infection, symptomatic disease and hospitalization caused by the Delta variant of SARS-CoV-2, compared to the BNT162b2 two-dose vaccine-induced immunity" (doi: <https://doi.org/10.1101/2021.08.24.21262415>). The fact that natural immunity provides more benefits than vaccinations destroy the argument and necessity for vaccine passports.

Written Testimony I oppose vaccine passports, as they are a violation of human rights. Vaccine passports are a tool of oppression and control it is an intrusion into peoples private medical records and freedoms. I believe in the right to choose what is right for your body and your health. If we take away medical freedoms what's next.

Written Testimony

I am very opposed to vaccine passports. New information is coming out daily about covid and ways to resolve this health issue. Vaccinations are not the only solution. This bill is in direct violation of individual rights and medical freedoms. My family and I already had covid and carry antibodies stronger than any vaccine could provide for us. In fact we are able to give plasma to help with this virus whereas those we'd have the vaccine may not do so. Please consider the damage that will take place if you implement this dangerous action.
Thank you

Written Testimony

I oppose the proposed legislation on the basis of discrimination and classism. Showing your papers has a long and significant history of oppression of disadvantaged groups. Vaccine passports that only allow vaccinated or partially vaccinated individuals into public and private places is unethical. The CDC has already established that the transmission of the virus can occur from anyone infected whether they have been vaccinated or not. This measure has little to do with public health and safety but more to do with political posturing, control and prejudice. Those with medical disabilities, and religious objections to vaccination will be excluded from participating in society because of this biased resolution.

Written Testimony I oppose the resolution 21-194. Mandating proof of vaccine by card or electronic verification only serves to create further segregation among residents of Hawaii. Evidence shows that vaccinated individuals can develop COVID-19 and spread the virus., this serves as the main reason I oppose 21-194. This defeats the purpose of the verification card. Also, this takes the rights of the American people away from them to decide if this vaccine is safe for them.

I have very little reason to believe that this current Hawaii government is even remotely competent enough to handle the ENORMOUS system that it would take to operate such an UNCONSTITUTIONAL act against its citizens.

Written Testimony Ask Josh Green how many kids died from his heroic measles vaccine efforts. Hawaii needs to run him out just like they did in Samoa.

A muppet could do a significantly better job than Ige. Where is the true leadership that is needed right now? Time to wake up, your killing the economy.

Written Testimony I do not believe vaccine passports make any sense given evidence from the CDC showing vaccinated individuals can still catch and transmit Covid to others. What about natural immunity for those who have already had the illness? This is against medical freedom and privacy and will result in more harm than good for the businesses and people of Hawaii.

Written
Testimony This bill is not based on science, and simply damaging the local economy and segregating the unvaccinated people. There is no scientific data proves that the unvaccinated are dangerous to the community. If you really want to mitigate the virus, bring back the testing to the tourists prior to arrival. Vaccine travel pass is the reason we have high numbers of cases here on the island. CDC clearly stated that vaccinated CAN carry and spread the virus. So this is not the way to control the infection.

Organization

Written Testimony Hi my name is Kenric Odani, and I am a concerned citizen about this vaccine mandate. First I'd like to say that I myself am a vaccinated individual but yet I completely oppose the vaccine mandate. This should be a matter of choice for all citizens of the United States of America. Matters of health have been in the past and should continue to be a private matter and no one should have to disclose if they took the vaccine or not. This mandate goes against all that America has stood for from the very beginning which is freedom of choice!

Aloha. I am writing to you today to ask you to please OPPOSE Resolution 21-194. What this resolution proposing is destructive, racist, divisive, unconstitutional and illegal. This resolution would set us on a dangerous path. It is taking away freedom of choice, and thereby, our freedoms. Besides that, women have been fighting for many decades for freedom of choice worth abortion: "My body, my right". This is no different. Individuals, not the government, should make their own medical decisions. We elected you to protect our freedoms and uphold the constitution; not demolition them. I urge you to OPPOSE this resolution.

Thank you.
Sam Keanaaina

**PUBLIC TESTIMONY ATTACHMENT
SEPTEMBER 2, 2021
RESOLUTION 21-194
COMMITTEE ON TRANSPORTATION, SUSTAINABILITY, AND HEALTH**

I, Ahukini R. Kupihea **STRONGLY OPPOSE** Resolution 21-194; **URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.**

The Committee on Transportation, Sustainability, and Health should **immediately defer** the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports **ARE NOT** necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals **must** retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I contracted COVID-19 as well as my 'ohana, my mother-in law who is 80 years old with underlying conditions and we all are healthy and ALIVE.

I make this testimony of my own free will with no undue influence. Mahalo for your consideration.

Written Testimony I strongly appose this bill. This is America where we are supposed to have freedom of choice as we should have especially in regards to this covid vaccine which has not been properly tested as others had been in the past for years before release to the public. i don't appose someone taking this vaccine if they want to but for myself and my family i do not feel comfortable with the choice to take this vaccine, i've seen many adverse effects and have seen that many still get the virus even though they've been fully vaccinated.

Written Testimony

I do not support the resolution put forth by the proposed sponsor's. I believe that the resolution is in direct violation of our constitutional rights as American citizen's. These resolutions create further discrimination and segregation of the vaccinated vs unvaccinated. We are a society that believes in the freedom of choice and should perpetuate that even above the fear of a so called health crisis. For those that wish to be vaccinated and believe it is beneficial for their protection that is there right. It should also be equally fair for those that wish to remain unvaccinated to have the same right to choose and not feel coerced or threatened with their jobs/livelihood. This is no longer about the health and well-being of the public but a political divide. We will never create a world let alone a country or state where the threat of a virus can be totally eliminated. We must learn to live with these threats and allow each person the right to choose what is best for them and their family without compromising on the freedoms established by our forefathers and those that have fought and died to keep these freedoms reserved for future generations. Aloha

Written Testimony this is unfair! 🙄🙄🙄 we have a right to decide what we do to/put in our bodies! please remember this. this is our basic human right. this vaccine is experimental and TOO many people have already suffered and or died because of it's effects. there are many ways to be safe and care for our immune systems and prevent the spread of covid. our bodies are designed to fight off viruses and build immunity naturally. a vaccine and booster should not be mandatory but access to proper health education should!

When did we lose our freedoms over a disease with a 99.95% survival rate, much less for those under 60 years of age. All we hear about is # of cases. We hear nothing about the overwhelming majority of deaths resulting from an average of 4 co-morbidities. The CDC and Dr. Fauci have contradicted themselves from the start and we went from 2 weeks to flatten the curve to where we are at now.

Written Testimony

I am completely against a vaccine passport. if the vaccines work, those at risk are the unvaccinated. Shouldn't the unvaccinated be allowed to have the freedom to analyze the risks for themselves rather than have their government take away their inalienable right to choose?

This whole concept of a vaccine passport will further go to divide the population between vaxxed and un-vaxxed. That is the real sickness of this disease. A vaccine passport will further create the divide.

Written
Testimony I object to our gov't requiring a vaccine that has undergone none of the extended rigorous testing that previous vaccines have. There are substantial medical issues that arise. More people have died from the vaccine than all previous vaccines combined. I strongly object to this mandate, especially when there are well tested proven treatments and prophylactics that can substantially mitigate symptoms. Thank you.

Written Testimony

I strongly oppose this resolution. It is without reason and makes no sense. It's totalitarian in nature and is a dangerous and ineffective measure for your desired goal. What is the purpose? To minimize the spread? It will not be effective. All you are doing is creating a 2 tiered society and breeding a culture of hate from vaccinated individuals directed towards unvaccinated. It's what they did in Nazi Germany: convince an entire nation to not associate with one group of people (Jews) that they managed to make people believe were sickly and less than. We all know how that ended. If the vaccine works, then why do we need all this? If the vaccine doesn't work, then why enforce it?

The CDC reporting system for Vaccine related injuries (VAERS) records over 13,000 deaths associated with the vaccine. A Harvard study conducted in 2009 concluded that the events recorded in VAERS represents only 1-10% of actual events. That's between 1.3 Million and 130,000 deaths. Injuries from the vaccine are much greater in number. The vaccine is dangerous. People need to be able to make this choice of whether to receive the shot or not by their own voluntary free will, not because they're being put in an impossible situation of choosing between their own conscience and being able to work, study, leisurely enjoy life, etc.

We've had the vaccine for over 6 months, and cases are spiking, likely having to do with the study showing that fully vaccinated individuals can carry up to 251 times the viral load than an unvaccinated person. We've done masks and distancing and lockdowns for 18ish months now, and cases are spiking worse than before, because these measures are ineffective.

Not only are they ineffective, but they're unnecessary. We have treatment that is cheap and effective whether it be HCQ, Ivermectin, or both. I know a plethora of people who have used them in combination with vitamin D and zinc for either early treatment or as prophylactics...no one has been hospitalized, let alone died. All have recovered, no side

effects. They work. I also personally know a family doctor who has been practicing for 40 years, I've known him my whole life (34 years), he uses these medicines for treatment...he hasn't had one patient end up in the hospital, let alone die. There are hundreds if not thousands of other doctors that have the same testimony. The overwhelming majority of people dying have underlying conditions, per the CDC, and those that don't aren't being given treatment in the early stages. I know a few people who went to the hospital and they said go home and call an ambulance when you can't breathe. One of them died because he couldn't get treatment in time. This is what is happening. It is criminal. You say you want to save lives, then start listening to both sides of the aisle, search for the truth, and stop pencil pushing ineffective totalitarian tyrannical control measures upon the people of Hawaii.

Also, we're Americans. And we have the constitutional right to live freely and to make our own health choices. If you're vaccinated then you shouldn't care about anyone else's status because you're covered. And if you're unvaccinated, then you likely don't care whether I am. If you're using the argument about the unvaccinated using up the hospital beds then you should consider that most of them have underlying conditions and you should consider banning fried foods, sugary drinks, and pastries/desserts as well because they clearly lack the ability to exercise self control to have good health and not end up in the hospital. I hope you are catching on to my sarcasm here. I am being facetious because it would be ludicrous to do such a thing. We are responsible for our own health and it is not your job to keep us out of the hospital. This virus has over a 99.5% survival rate for most of the population. Hawaii News now just reported that there was a study showing 1 in 3 Americans have had Covid, that would put the IFR at .0058%, the flu is .1%. We are not dealing with a disease like Smallpox or Measles. This is a respiratory virus that has a very high survival rate and we have effective and cheap treatment available for it. Receiving the vaccine should be a matter of free will and a private decision between you, your doctor, and anyone else you personally want to talk to about it. It's not for public discourse.

Lastly, I find it strange that recovered Covid patients aren't included in this because their immunity is greater than that of the vaccinated and are less likely to spread the virus. That alone tells me this really has nothing to do with saving lives or minimizing the spread of Covid.

City council, your job is not to intrude upon our personal health decisions. Your job is to protect our rights given to us by our constitution to ensure that we still have those rights.

Please do not do this.

Mahalo for taking the time to read and consider this testimony.

Alana

This is the FDA approval letter dated August 23.
<https://www.fda.gov/media/150386/download>

Here are two excerpts I'd like to highlight. Both of these excerpts can be found on page 2 of this document.

"On August 23, 2021, FDA approved the biologics license application (BLA) submitted by BioNTech Manufacturing GmbH for COMIRNATY (COVID-19 Vaccine, mRNA) for active immunization to prevent COVID-19 caused by SARS-CoV-2 in individuals 16 years of age and older."

This next excerpt also includes a footnote. Both are copied and pasted here together:

Written
Testimony

"COMIRNATY (COVID-19 Vaccine, mRNA) is the same formulation as the Pfizer- BioNTech COVID-19 Vaccine and can be used interchangeably with the Pfizer-BioNTech COVID-19 Vaccine to provide the COVID-19 vaccination series.⁸

⁸ The licensed vaccine has the same formulation as the EUA-authorized vaccine and the products can be used interchangeably to provide the vaccination series without presenting any safety or effectiveness concerns. The products are legally distinct with certain differences that do not impact safety or effectiveness."

According to this FDA approval letter, the only FDA approved Covid-19 vaccine is the Comirnaty Vaccine. However, the Comirnaty Vaccine is not available in the state of Hawaii. When I contacted the Covid-19 vaccine clinics, they informed me that they do not plan to offer the Comirnaty Vaccine.

Therefore, all of the available Covid-19 Vaccines are still EUA and any attempt by the government to

require citizens to receive an EUA product, including this proposed digital vaccine passport program, is in violation of the Nuremberg Code.

Written Testimony I am strongly opposed to this bill. It is a form of discrimination and bullying that will only continue to erode the economy in Hawaii and negatively impact small businesses. Stop making COVID political and pretending it's about health. Better yet start testing the vaccinated that will completely destroy your rhetoric that only unvaccinated people continue to spread COVID. WE ALL KNOW THE VACCINE DOESNT STOP TRANSMISSION. TRUST THE SCIENCE RIGHT?

Written Testimony I strongly appose this bill. This is America where we are supposed to have freedom of choice as we should have especially in regards to this covid vaccine which has not been properly tested as others had been in the past for years before release to the public. i don't appose someone taking this vaccine if they want to but for myself and my family i do not feel comfortable with the choice to take this vaccine, i've seen many adverse effects and have seen that many still get the virus even though they've been fully vaccinated.

I strongly oppose any bill that isolated a certain group of people from society.

Written Testimony

We have the right to sovereignty over the choices concerning our own bodies - and no one should be forced out of society participation based on how they choose to live in their own skin.

I oppose strongly vaccine passports in order to participate in society.

Please have empathy for those who may suffer job losses, travel ability to see their families, and extrication from society.

Written
Testimony

I oppose this vaccine passports! Have you read the history books about Nazi Germany and the Holocaust.
Have you had the privilege of going through the Holocaust Museum? Do you have any Jewish family members? Well maybe not but I do and I have. Seeing what you elected government officials are hoping to put in place is like watching history all over again. Watching this unfold is no different of an imagine than that of previous history... this kind of kind of band, symbol or passport that adds electronic tracking and all electronic data that you could combine with it is discrimination. Data and science shows that being vaccinated does not stop spread of this virus. It was never meant to be made for this. Please know that you officials are elected. There will come a time when your term is up. It is up to the people who will decide if you are to be elected again.
So remember when you are making a decision as to a vaccine passports in Hawaii Nei, you're also deciding which side of history you want to be on 20 years from now. People will remember, Hawaii will remember. We are not going to stand down and participate in your Nuremberg Code war crimes. We do not consent. The last time I checked Hawaii was considered part of the US by illegal annexation. That being said Hawaii therefore is a democratic state. We are not under laws or a dictatorship or under laws of communism or socialism. So please remember this.
Respectfully Submitted ,
Christanne Summers

Written Testimony

I am strongly opposed to this resolution as it creates division amongst citizens, hinders business, and most importantly is based on a narrow view of science. Assuming the unvaccinated population is to blame for surging case numbers omits the fact that fully vaccinated individuals can also carry and transmit the virus. That is a fact confirmed by the CDC and FDA. The vaccine is not a cure and while "breakthrough cases" are supposedly rare, the CDC also stopped counting cases of the vaccinated population a few months ago. I don't understand why that decision was made or why it is not something you hear about on the news. Our elected officials are entrusted with a responsibility to protect our freedoms and civil rights while upholding principles of truth and justice. I have compassion for anyone whose opinion is different than my own, but it is wrong to deny any citizen the right to participate in society when the science shows unvaccinated individuals are also able to carry and transmit the virus. Social mitigation efforts must continue, but I believe there should be a campaign to educate our community about becoming healthier, not blaming or suppressing the rights of any people due to a shared risk of being exposed to a virus.

Good Day Ms./ Sirs.

This is my truth, we do not need “a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation.”

Written
Testimony

This is absurd, overreach and suppression of our moral and constitutional rights. What’s next? Grocery stores, parks and public roadways? This will create wide spread pushback from ‘We The People’ and look what is happening overseas. You are drinking someone else’s Kool-Aid, I caution you of the social repercussions, just look at our recent and past history. The ‘King’ paid the ultimate price (Life) for his belief and his people, is that what we are doing in this situation?

Written Testimony

My earlier submission was "timed out" by your system, I strongly oppose the vaccine passport. these are still experimental drugs with no long term effect studies done, yet some people assume they are safe and people are dying from these drugs.

Stop providing financial incentives for classifying "cases" as covid and watch the real count come out lower.

let the market place determine where consumers feel safe spending their money at or not at.

government does not get to decide who is non-essential or not, that is a consumer decision in a free market system.

Written Testimony

I am strongly opposed to this bill. It takes away the rights of our citizens if one chooses not to put a biological agent in his/her body. There are many other ways to keep us safe and I truly believe that this is not the way. People who are vaccinated against COVID-19 can still get and transmit the virus just as much as the unvaccinated, so allowing them to go into public places will not stop spread of the virus. Also, the original vaccine cannot account for other variants such as delta or any newer strains. It is inhumane to single out those who are not vaccinated. A vaccine pass leads to segregation, discrimination, and an end to basic human rights. I understand that the main concern is overwhelming the healthcare system, however, there are therapeutics for early intervention and care for those who have covid. This would greatly help keep the healthcare system from becoming overwhelmed. I implore you to consider the short term as well as long term harm that this vaccine passport will cause socially, economically and ethically. Thank you for taking to time to read and consider the reproductions of what this vaccine passport could do.

Written Testimony As per the CDC, those vaccinated for Covid-19 can still spread and catch covid just as easily as those without a vaccine. New data from Israel shows that the fully vaccinated population is making up the majority of Covid cases. Believing that limiting specific indoor establishments to just the vaccinated would do anything to mitigate the spread of Covid is to completely disregard science.

Written Testimony The vaccine passport doesn't make sense and isn't fair unless it includes people who have natural immunity from surviving covid. If people can prove they've already had covid somehow, it should be as good as a vaccine as far as anyone is concerned. Getting a vaccine should always be a personal choice, and ostracizing people who are skeptical about it does not help the division we see rampant in our country today.

Written Testimony According to the FDA approval letter, the only FDA approved Covid -19 vaccine is the Comirnaty Vaccine, which is currently not available in the state of Hawaii. When we contacted Covid 19 Vaccination Clinic we were told that the Comirnaty Vaccine we not be available on Maui. How can we be mandated to take a vaccine that is not available?

I oppose this vaccine passports! Have you read the history books about Nazi Germany and the Holocaust.

Have you had the privilege of going through the Holocaust Museum? Do you have any Jewish family members? Well maybe not but my wife does and I have. Seeing what you elected government officials are hoping to put in place is like watching history all over again. Watching this unfold is no different of an imagine than that of previous history... this kind of kind of band, symbol or passport that adds electronic tracking and all electronic data that you could combine with it is discrimination. Data and science shows that being vaccinated does not stop spread of this virus. It was never meant to be made for this. Please know that you officials are elected. There will come a time when your term is up. It is up to the people who will decide if you are to be elected again.

So remember when you are making a decision as to a vaccine passports in Hawaii Nei, you're also deciding which side of history you want to be on 20 years from now. People will remember, Hawaii will remember. We are not going to stand down and participate in your Nuremberg Code war crimes. We do not consent. The last time I checked Hawaii was considered part of the US by illegal annexation. That being said Hawaii therefore is a democratic state. We are not under laws or a dictatorship or under laws of communism or socialism. So please remember this.

Respectfully Submitted ,
Stephen Darko

Written Testimony

I, andrea silva STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

Written Testimony I am strongly opposed to this bill. What happened to our rights of choice? My body my choice! It's obvious this vaccine doesn't work. It's poison! Japan halted all vaccinations because of that. They are telling their people to use ivermectin. Why can't we choose to use that too?! Please do the right thing if you really care about your people. I respectfully oppose.

Written Testimony

I oppose vaccine passports & mandatory vaccines. I believe in the freedom we are so grateful to have in the United States and believe it should be our choice to get this vaccine, and if we decide not to we should not be punished for it. Our lives must go on and these mandates need to be stopped. As you can see none of what you folks are doing is working. Over 75% of our population is vaccinated and those people are still contracting and carrying covid. Please stop blaming the unvaccinated for such cause...it's obvious that these vaccines are working and it's only right for a person to decide for themselves. Thank you for your time

I am strongly opposed to this bill. I am not opposed to people taking vaccines if they feel it is the best choice for their own personal health. However, this is a brand new vaccine and there are no studies on the long term effects of this "vaccine." It takes at least 5 to 10 years for a vaccine to get approved, these are still in the trial stages. I do not feel safe putting this experimental shot into my body, there have been many detrimental adverse affects and deaths due to this shot. There are other safer ways to treat the Covid virus (vitamins, supplements, hydroxychloroquine, ivermectin, etc.). Please do your research and look at the evidence that supports the facts mentioned above.

It doesn't matter that they have been pushed this shot through for approval, it is not safe. You know in your heart the truth and that pushing this bill on the people of Hawaii is not right. Please don't push this VAX Pass...

Written Testimony

I oppose this vaccine passport for so many reasons. Here are just a few:

- As an entrepreneur I would never turn away customers based on their preventative health decisions, especially when that decision doesn't effect me or my other customers and workers. Everyone vaccinated, or not, can spread this virus.
- Many people, like myself, face more harm by getting this shot vs. facing covid without it. I have an autoimmune disease and I've seen several others with the same autoimmune disorder become crippled and can't walk, immediately after taking this vaccine. This vaccine is obviously not a one for all solution.
- This vaccine doesn't stop the spread at all, unlike other great vaccines that I've gladly taken to prevent catching and spreading the disease they are used for. And I've gladly taken them even though they aren't mandated to enter and support local businesses.
- It is my American right to participate with businesses in the economy.

Written
Testimony I respectfully oppose to this bill, because it is not based on science. The CDC said the Vaccinated can transmit the virus and carry. So letting the vaccinated roam around without testing is not going to solve the pandemic. Bring back the testing for tourists again instead of making the locals to suffer. This bill will damage the local economy and they shouldn't be given any more restriction after what they have went through last year.

Written Testimony

I strongly oppose mandatory vaccines/health pass. I have already got covid and based on the new studies am actually 6-13 times less likely to get covid again than a fully vaccinated individual. I support our constitutional right to choose what we put in our body. Its sad to see that there is no accountability for peoples actual health, a vaccination has nothing to do with health. Vaccination does not prevent the spread of the virus, it just reduces symptoms. So trying to stop the virus from spreading by mandating vaccination is actually not getting the result that you are attempting to get.

Written
Testimony

I oppose Resolution 21-194. This mandate goes against our unalienable rights and takes away our freedom of choice. Please revisit the laws under the Nuremberg Code and ask yourself if this mandate is right and just.

Looking at the available public information given by the CDC. I have to question if this mandate is effective when there are numerous accounts on the adverse effects from the vaccine. As of August 20, 2021, here is the COVID-19 VAERS (VACCINE ADVERSE EVENTS REPORTING SYSTEM) data from the CDC website:

Deaths: 13,627
Hospitalizations: 55,821
Urgent Care: 74,368
Office visits: 100,966
Anaphylaxis: 5,721
Bell's Palsy: 4,785
Miscarriages: 1,671
Heart Attack: 6,071
Myocarditis/Pericarditis: 5,093
Permanently Disabled: 17,794
Thrombocytopenia/Low Platelet: 2,831
Life Threatening: 14,105
Severe Allergic Reaction: 25,921
Shingles: 7,324

Considering this data, please reevaluate this mandate and its effectiveness and safety. There must be alternative solutions to our COVID crisis. Vaccine mandates are not the way to go.

Written Testimony

I oppose this resolution because similar types of measures in other cities have already proven that a vaccine passport program does not have a measurable impact in achieving the stated goal of preventing the further spread of COVID. There is absolutely no data to support that a vaccine passport program would be or has been effective in stopping the spread of COVID-19. At this point public officials are just taking a guess, which has real world effects on the residents of Honolulu. From my research and observations of other cities that have attempted to implement this type of program, many of which have pulled back due to the negative social, financial and health impact these measures have on the society. These types of measures have had a negative impact on the owners and employees of local small businesses, which are an important part of our Honolulu community. As the Governor recently stated, COVID is not going anywhere and we must learn to live with it. I feel this measure is a misguided attempt to deal with the reality that we must learn how to treat people who are infected with COVID and develop therapeutics that are designed to help keep people healthy so that COVID does not cause hospitalizations. Focusing time, energy and money on a passport program in my opinion is a waste of money that could be spent in other ways to better adapt to this new reality. Again, I oppose this measure. Thank you for your time and consideration.

Written
Testimony I oppose vaccine passports. It's a form of medical segregation and everyone deserves the right to choose what is best for them medically. Nobody will be held liable for adverse reactions therefore nobody should be forced to get vaccinated. Survival rate is 99% in hawaii. Not everyone is in the same health bracket and not everyone is afraid as the media wants us to be. Again I am pro choice and oppose vaccine passports.

Written Testimony

I Completely oppose this agenda item requiring vaccines to be employed and enter businesses.
This is a violation of our human right to Choose what goes into our bodies.
There are many known side effects from the vaccine injection including blood clots, heart attack, long term cellular dysfunction, and death.
People have the Right not to participate in this medical experiment and put themselves at risk.
IN Addition , this vaccine has been proven NOT to be effective at preventing the spread or transmission of the covid19 virus or delta variant virus.
There fore mandating this vaccine as a strategy to prevent the spread is NOT a valid plan at all.
I have 2 friends who died after getting the vaccine injection... one from a heart attack and one from a blood clot in the brain.
OPPOSE!!!!!!

I am opposed to the Digital Vaccine Passport for a multiple of reasons . The MOST OBVIOUS is we Live in the United States of America and we have the freedom to choose and make our own decisions. The Government officials Governor IGE, Lt. Gov. GREEN, Mayor BLANGIARDI are pushing a FALSE NARRATIVE saying by implementing this Vax passport to go to places that this will keep us safe. The fact is the Fully vaccinated and the unvaccinated people can Spread COVID, Have COVID and die from COVID. By implementing this Digital Vaccine Passport is causing a Division and unnecessary Anxiety, Fear among the people of Hawaii and throughout the Nation. This IS NOT A SOLUTION. We do not live in a communist/Dictatorship Country. GOVT OFFICIALS SHOULD NOT BE ALLOWED TO TELL US WHERE AND WHEN AND HOW WE SHOULD LIVE BY IMPLEMENTING THIS MANDATE. We the People stand together in Unity saying WE OPPOSE this digital Vaccine Passport. MAHALO

Written
Testimony As 20-year cancer survivor, I strongly OPPOSE this resolution. Although recently approved by the FDA, I am concerned about the speed in which the Covid vaccines were rolled out, and the integrity of the trials conducted, both domestically and globally. Considering it takes YEARS for other vaccines/drugs to receive FDA approval, I fear that the results and proof of the Covid vaccine are, to date, insufficient. I cannot afford to have questionable, foreign, unnatural matters enter my body. I feel it's far safer for my body to fight the virus in it's natural manner, rather than subject it to a vaccine that could potentially be more harmful / dangerous to me.

Written Testimony

While I do understand the spread of the virus has increased, I feel that if it is an issue and continues to be an issue, then ALL arrivals regardless of vaccine status should be tested. Our numbers have increased greatly since testing for vaccinated arrivals was discontinued. My household consists of ages 11 up to age 61. We are all healthy with no underlying medical issues. We are careful and cautious and practice good hygiene and have not been infected with the virus and have been faithfully supporting our local restaurants since they reopened. These establishments still have capacity and distance limits imposed on them which leads to reduced income. Instituting this mandatory health card to enter is absurd, we are no more/no less of a risk now than we have been the entire last 18 months. This is a punishment for healthy cautious folks that either choose not to get the vaccine yet or cannot for other reasons. A family can no longer grab a last minute dinner out and now has to pay (not cheap) 2 days in advance just to get a meal? Never once have we received a call from contact tracing regarding a case related to our dining experience, not once! This vaccine should be a choice, we should not be ostracized from society for being healthy, cautious community members.

Mandating proof of receiving an experimental (or ANY) drug injected into one's body is ILLEGAL and UNCONSTITUTIONAL. HOW DARE government - who WORKS FOR the People - create a situation where people are REFUSED services because of a PERSONAL MEDICAL CHOICE! This is NOT for the government to decide. If Public HEALTH and SAFETY were REALLY the issue, then the government would be promoting healthy diets, exercise, stress reduction, cigarettes would be illegal, etc. NOT mask wearing, lock-downs, and forced use of experimental drugs.

What happened to the flu? Heart attacks? Strokes? All the other reasons why people die? Where did those go? People all of a sudden magically ONLY die from covid??

Written
Testimony

Depression and suicides have caused more deaths, especially in youths, than covid-19. In a FREE SOCIETY, people are given the CHOICE to live as they wish. Obviously there are necessary laws in place that are reasonable. This mandate is NOT. Most people are hard-working, respectful, and generally good-natured, but to demonize them for making a personal medical decision is ludicrous.

I STRONGLY OPPOSE ANY mandates that forces people to do ANYTHING to their body that they do not wish. I further oppose the fear-mongering and division of the people that the government and media are promoting. How dare you go against the people. How much have you been paid? Bribed? Threatened? Stand up for the People of Hawaii, the People of the United States of America. Put on your big-kid pants and FIGHT for OUR FREEDOM instead of cowering in your offices taking orders from the CCP. ENOUGH.

"There is no justification in taking away individuals' freedom in the guise of public safety"
- Thomas Jefferson
Written Testimony Our founding fathers believed it. I believe it. I STRONGLY OPPOSE vaccine passports!
Vaccine passports are NOT the answer to stop the spread of Covid! I strongly believe we are failing to meet the classic tenets of bioethical medical research and in particular, not being given the full breadth of information of the adverse event risks. In addition, these vaccines have failed all 10 tenets of the Nuremberg Code.

Written Testimony

I am strongly opposed to this bill. It strips away the rights of our citizens if one chooses not to put a biological agent into his/her body. There are other ways to keep us safe and I strongly believe that this is not the way. People who are vaccinated against Covid 19 can still acquire and transmit the virus just as much as the unvaccinated, so allowing only them to go to public places does not prevent spread. It makes no sense to single out the unvaccinated. A vaccine pass leads to segregation, discrimination and an end to basic human rights. I understand the focus to protect the health care system, namely our hospitals. But there are therapeutics for early intervention that would contribute to keeping our hospitals from reaching over capacity. I urge you to consider the short term and long term harm this vaccine passport/proof of will cause socially, economically and ethically. Thank you for your time

Written Testimony This is unconstitutional, and we the people oppose this bill which violates every Americans unalienable rights. As written in 1776, this bill is in direct violation of life, liberty, and persuit of happiness via violating privacy rights, free will, life itself, segregation via discrimination, and many more. This bill is destructive as outlined in our constitution and written by founding fathers such as, Thomas Jefferson, and it should be abolished completely.

Written
Testimony I oppose Vaccine passports because they are a form of government corecion as they limit access to basic privileges given to me by my creator and the constitution of the USA and of the Hawaiian constitution. The decision to vaccinate is a private decision that should be made by the individual and their own doctor. The recent approval of the Pfizer Vaccine by the FDA this week is not applicable here as the vaccine they approved - Comirnaty is not available in the US or Hawaii at this time which means folks are going in thinking that they are getting an approved vaccine when they are getting a non approved experimental vaccine! This is an individual decision private decision and should remain that way.

This is the most disgusting form of tyranny I have ever seen out of Hawaii. My family will not be subject to a digital passport like they did in the Nazi days.

Written Testimony Nobody should have to be segregated from moving around in public spaces as per our constitutional rights.

This is tyranny at the highest level.

With all due respect to all of our esteemed public servants of Hawaii; Resolution 21-194 is ill-advised for the following reasons:

Written Testimony

1. Segregating and restricting healthy Americans according to their medical history has the dangerous potential to become a form of medical tyranny. Healthy, law abiding, Americans are entitled by constitutional law to basic human rights such as LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS. This proposed resolution is a direct affront to this GOD given humanitarian principle.
2. There are many legitimate medical, religious, and conscientious reasons for healthy Americans to decline mass vaccination efforts. Mass discrimination of these groups would be an assault of many U.S. laws and principles; including the Americans with Disabilities Act, Equal Employment Opportunity Act, and the Religious Liberty Protection Act.

As a healthy, American citizen I am opposed to any law or proposed government mandate that unjustly, and unfairly restricts or removes the God-given freedoms of healthy, law abiding, American citizens. To remove or restrict these God-given rights requires due process of law and justice. Government mandates are NOT above State or Federal Constitutional jurisprudence. We must not allow fear to override freedom and basic human rights. EVER!

No one should be forced to take the vaccination. It is unconstitutional and should always be a choice. This act violates and restricts our freedom further. I understand people want to be safe and want to defeat this virus, but thinking that this is the only solution to it is comical. There are other ways to be safe and we should look at other states that are doing well. At the end of the day, it is our body and our choice to take the vaccination.

192.168.200.67 This is a violation of civil liberty and a gross overreach of power. The vaccines do not prevent the transmission or contraction of COVID-19. To exclude persons who do not choose to get the vaccine from basic access to public places is non-sense when you realize the vaccine does not prevent the spread of the virus. This would cut off the life force of persons doing their best to provide for themselves and their families, it would destroy their livelihoods and deteriorate their quality of life completely. Think about what truly matters, there are other ways to enforce health and safety than the non ethical force of mandating people take a vaccine that does not prevent the spread of covid 19.

Aloha,

I am writing to **oppose** the proposed Vaccine Passport. My opinion is that the proposal represents a narrative of a fascist society. In addition:

- It is an infringement on one's civil liberties.
- It will create divide between community members and social classes.
- Treat those who are not vaccinated (or have proof of a negative test) like second class citizens.
- **Affect the income of business and professionals working in these industries.** Many of their clientele may avoid these establishments altogether because of the passport requirements.

This also sets a precedent for things to follow. What is next? Are you going to extend the passport so that people cannot shop for necessities like groceries without having the passport or showing proof of a negative test? In addition, the CDC is acknowledging that the RT-PCR test cannot differentiate between SARS-CoV-2 and influenza viruses and will they withdraw the request to the FDA for its emergency use on 12/31/21. It makes no sense to show proof of negative test results if the tests themselves are faulty or questionable.

In regard to the vaccine... If an individual chooses to get vaccinated, that is their choice. If an individual chooses not to get vaccinated, that should be their choice and constitutional right. Those who are not vaccinated **should not** be treated like second class citizens based on many false narratives portrayed in the media.

I am sure that our government officials are aware of these facts (this is not addressed in the media) regarding the dangers of the vaccines. I have resources for these facts and would *gladly* provide them to you upon your request:

- Dr. Robert Malone, the inventor of the mRNA and DNA vaccine expressed his concerns about the spike protein used in COVID-19 vaccines to the FDA last fall, but was dismissed.
- In its native form in SARS-CoV-2, the spike protein is responsible for the pathologies of the viral infection, and in its wild form it's known to open the blood-brain barrier, cause

cell damage (cytotoxicity) and other problems.

- In the UK, 60% of those older than 50 who die from COVID are double vaxxed. And, a new study shows that vaccinated individuals are up to 13 times more likely to get infected with the new Delta variant than unvaccinated individuals who have had a natural COVID infection. As of August 15, 2021, 68% of COVID patients admitted to hospital in the U.K. who were over the age of 50 had received one or two doses of COVID injections.
- Japanese researchers submitted a recent study showing that mRNA vaccines may actually enhance the infectivity of the Delta variant, making it completely resistant to the vaccine.
- Ordinarily, the FDA holds a formal hearing and allow for public and expert input before a drug is moved from emergency use authorization to full approval but in the case of COVID 19, no such hearing was held.

I thank you allowing me to submit my testimony and I hope that you to hear the testimony of all of those who are opposed of the Vaccine Passport and listen their testimony with an open mind and an open heart. I ask you to please terminate the proposal of the Vaccine Passport.

I am strongly opposed to this bill. This is medical tyranny. And totally illegal. We should all have the right to choose what goes in to our bodies. Medical studies and publications show that vaccines are actually causing the stronger variants. Vaccinated people have a higher viral load and can be even more contagious. Why aren't we focusing on treatments if someone tests positive? There are treatments especially if started early. There is no common sense here. Shame on you for even considering this bill. The karma you are creating is real.

Good Day Ms./ Sirs.

This is my truth, we do not need “a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation.”

Written
Testimony

This is absurd, overreach and suppression of our moral and constitutional rights. What's next? Grocery stores, parks and public roadways? This will create wide spread pushback from 'We The People' and look what is happening overseas. You are drinking someone else's Kool-Aid, I caution you of the social repercussions, just look at our recent and past history. The 'King' paid the ultimate price (Life) for his belief and his people, is that what we are doing in this situation?

Written
Testimony this vaccine is experimental! Too many people have already suffered from its adverse effects.
There are many ways to be safe, build our immunity and prevent the spread of Covid
naturally. Our bodies are designed to fight viruses and diseases and build immunity naturally.
A vaccine and boosters should not be mandatory for travel, employment etc. but proper
health and nutrition education should be!

Written
Testimony

This would be a huge infringement on our privacy, rights and freedom. The constitution was written for a reason, to protect American people from the exact tyranny that you are imposing. People fled from the oppression of Britain, found America and Finally, after freeing themselves from the dictatorship of the king, they wrote the constitution, so we the people would not be controlled by the exact dictatorship (government) you are suggesting In your proposed bill to mandate an experimental vaccine. We have no long term proof that this vaccine is safe. We have no idea what the long term affects will be. If the vaccine works, why would it matter if people who aren't vaccinated go in to a place with those vaccinated. Also, why would Our numbers be at an all time high, after the vaccine was rolled out? Are those who are vaccinated spreading the virus? It doesn't make sense for people to be getting it at these rates, unless the people who are supposedly safe due to vaccination are going around giving it to everyone they come in to contact with, including those people who Are vaccinated. It's a false sense of safety to say vaccinated people are going to stop the virus when they, in fact, can spread it and get it. This bill, would be unconstitutional and should not even be considered.

Written Testimony

I am opposed to this resolution because there is immense data that this experimental vaccine is harmful to people and is responsible for more than 12,000 deaths according to VAERS reporting agency which is co-sponsored by the CDC and the FDA. See attachment. In addition a 3rd party firm, Mclachlian took the data from VAERS and ran an independent analysis and found that "86% of those deaths had no other explanation of than the vaccine". The 3rd photo is directly from the CDC showing data that the virus broke through those who had received the vaccine. Final attachment is from Israel the world leader in administering these vaccines on their people. Their data shows even After most of their population is vaccinated, they still had the same number of positive cases as when the virus first hit and there was no vaccine yet.

Thank you for taking the time to read this very eye opening information. We know you are all men and woman who love the Hawaii people and want to do the right thing. Please do not let Hawaii be the guinea pigs in this experimental gene therapy. There are other ways and protocols to treat people. Please look into Front Line Doctors. Also the FLCCC Alliance. Both have amazing doctors who have come up with protocols that have been successful in treating Covid without any harmful experimental vaccine. Please do the right thing and protect our Hawaii.

Written Testimony I STRONGLY OPPOSE RESOLUTION 21-194. As an American Citizens of the United States of America, each individual has the freedom to make their own health decisions regarding their health and safety. It is against our constitutional rights to even suggest a mandate of medical decisions be placed upon us as citizens. As a Christian I follow ONE GOD and if the government tells me to do something that goes against what HE tells me to do, it infringes on my religious freedoms. Again, I strongly oppose Resolution 21-194.

Please know this is causing teachers , 1 in 8 nurses to quit their career jobs !
Quit the division, your numbers are swayed.
We will lose all inter island local travel moneys as well!!
I cannot take any of the drugs.
I've always had reactions. My records clearly show. I call ask for half doses, different choices , to sooth my medical issues.
I had Cov and trust in my own immunity before I trust in am experiment that clearly says it's not trusting in itself in the bottom of the release form.
The approved wasn't even the first shots , but a booster. By a company with so many lawsuits for hurting people they can't even afford another.
I appose in Unity with those among us who are God fearing.
It's not about Left or Right - but American Democracy.

Agenda Item RESOLUTION 21-194
Your position
on the matter Oppose
Representing
Organization Self

Written
Testimony I adamantly oppose this Resolution as it violates citizens' First amendment Constitutional and medical rights. Government authority is bound to protect citizens' rights. This Resolution degrades all that our forefathers worked so hard to built this great nation. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

Written Testimony I strongly oppose vaccine passports of any kind. Vaccine passports would be discriminatory and nothing more than a punitive measure against people who don't want to get vaccinated especially because we now know that the vaccinated can and do spread this virus. Vaccine passports will only serve to hurt and destroy small and local businesses that have been the foundation of the Hawaiian islands and keep the culture alive. Please reconsider vaccine passports before you destroy these islands and force Hawaiians off their own land.

I strongly oppose this bill! This is against our constitution rights as Americans. To buy, sell, live, and soon go grocery shopping for food to feed our families! Are you kidding me!?! This is segregation, what we have left in the past. We have rights to choose what we allow in our bodies and not be penalized for not doing so. This is an experiment shot(vaccine) and has not been proven and gone through rigorous years of testing that usually vaccines need to go through. We all don't know the side effects of this longterm! I choose not to be a test subject! There have been a lots of side effects and also deaths around the world that the news is not letting out. This vaccine passport is a horrible idea and the government needs to stop this! You can still spread and get COVID while vaccinated. It is not the end all be all. Also stop telling people that aren't vaccinated to get a test to show proof! Stop the tyranny, stop the mandates! Mahalo!

As a vaccinated resident and first responder, I oppose vaccine passports. Besides being a complete violation of a persons health freedom, I do not feel this measure is warranted. Masks, social distancing, and lowered facility capacity mandates have already been put in place. The vaccine helps but it's no where near 100% effective. I do not believe by mandating vaccine passports you are eliminating much risk, you are however, violating the rights of citizens of this country and residents of this state. You are also putting more stress on local business owners and our local economy. They have already been stressed enough by the other mandates you have passed. This mandate does more harm than good (if any).

Written
Testimony

I oppose this draconian Resolution for the following logical reasons. A "Vaccine Passport Program" is no longer useful because the majority of new COVID-19 cases are from people who were fully vaccinated. Those with COVID-19 with or without the human experimental vaccine spread the virus equally. The human experimental vaccine does not prevent you from getting COVID-19 or prevent you from spreading the virus. Also, for those people who fully recovered from COVID-19 have the natural anti-bodies unlike the those who have received the human experimental vaccination which is trying to mimic the anti-bodies. Furthermore, why are you taking away people's liberties with what we can see a government failure to prevent COVID-19 from spreading through the human experimental vaccine. Additionally, medical care is between a patient and their doctor, NOT the government. Is this a HIPAA violation? There are plenty of studies throughout the world that clearly indicate how to take care for yourself with medications to assist in fully recovering from COVID-19 sickness. Please promote those medications which work.

Another fact on the human experimental vaccine is well documented that almost 10,000 deaths occurred from receiving the shot which is clear violation of FDA policy that if 25 people die from a vaccine or medication that it will be pulled from the market. So, why are you willing to take that Russian roulette risk on a human experimental vaccine that has never been tested on animals as like ALL previous vaccines or medications?

It is a human right to work, a human right to purchase food to survive whether from a grocery store or a restaurant. Stop taking our Liberty and Freedom away on a failed government illogical program. We need to care for our most vulnerable not punish the healthy or those who have recovered from COVID-19 who have the natural antibodies.

Although I strongly support vaccines and am fully vaccinated myself, I adamantly oppose Resolution 21-194 as it infringes on essential American rights and aims to create segregation amongst citizens on the basis of beliefs regarding the vaccine. Should the state choose to proceed with Resolution 21-194, I strongly worry about the control of our government as well as the direction that our government would be heading. This country was built on the basic principal of freedom of choice with not only religion but with all facets of life. What a poor display of choice and freedom Resolution 21-194 would be. I strongly oppose Resolution 21-194.

I AM STRONGLY OPPOSED TO THIS BILL. There is a risk of severe side effects from these vaccines, including death, and where there is a risk like this we must always have a choice, and that choice not to partake should not make us "less than" others or segregate us from those who do take it or keep us away from enjoying certain activities that is our right as American citizens. There are other therapies and medications that have been proven to be successful in combating covid19, and so those like myself who are healthy and do not have any comorbidities associated with a higher risk of death from this virus can choose to use these other options instead of the vaccine.

I strongly urge you to consider the welfare of ALL Hawaii residents, not just those who have chosen to take the vaccine, and DO NOT PASS THIS BILL.

Written Testimony this vaccine is experimental! Too many people have already suffered from its adverse effects. There are many ways to be safe, build our immunity and prevent the spread of Covid naturally. Our bodies are designed to fight viruses and diseases and build immunity naturally. A vaccine and boosters should not be mandatory for travel, employment etc. but proper health and nutrition education should be!

Written Testimony

Myself along with my household are Covid survivors, no symptoms before during or after plus 2 asthmatics. Both myself and my husband are essential workers. Him providing service to the community and myself providing the air travel safety for passengers. We both have worked diligently through this pandemic and successfully and naturally beat Covid along with our 3 children. I am opposed to the vaccine for the reasons as stated. If a vaccine was able to prevent transmission of a virus then I would support it. This one does not. Therefore restricting those in the state who chose not to get it is not fair, against our freedom of choice and rights. A vaccine that still allows a person to catch the virus with or without symptoms and transmit it. So how does enforcing this vaccine passport actually create a safe Hawai'i? It doesn't.

Aloha,
I am here to state that I oppose this vaccine passport program. It is unconstitutional! It is discrimination!! It is wrong! You are costing the people of our islands their livelihood!!
Written Testimony Local businesses are finally thriving again after having to recover from last years shut downs and now they are stuck again, between a rock and a hard place, having to force their employees to be vaxxed or tested and customers as well? Let it be up to the business owners on how they chose to run THEIR business. This is no better than another lock down. Enough is enough!

Written Testimony I oppose this bill. First of all it does not make any sense. Vaccinated individuals can still get and transmit COVID. Why is this only targeting small and local businesses? What about large companies such as Target, Walmart, and Costco? Is it not possible to catch COVID in these places? This is discrimination at its finest.

Written Testimony I oppose the vaccine passport/ and or mandatory vaccine of any kind for Hawaii. I believe we all should have freedom to choose, a good alternative would be to allow people to get their anti bodies tested, and if you have built an immunity, you should be able to receive something similar to vaccine card.

Written Testimony

A passport also violates privacy act because it disclosing medical information about vaccination status. If someone is unvaccinated, they have to make an effort to get tested which doesn't make sense because vaccinated individuals can also catch and transmit the virus. If you want to make a passport, make everyone get tested if you really want to stop the spread. Tourism should be limited if you want to stop the spread to Hawaii. Enacting a passport goes against personal choice. People should be able to choose what is put into their bodies. The flu vaccine isn't even mandated and it kills many people every year. If the government really cares about Hawaii's economy, they wouldn't pass a vaccine passport program because it'll force those unvaccinated to stay home and businesses will not make as much as money. Also those employees who aren't vaccinated will not be able to work. You are forcing people to inject themselves with a vaccine by inconveniencing them. This is wrong. We as a country and a state are suffering already as it is amidst a pandemic and suffering economy. This will only create more hardships and division.

I vehemently oppose this restriction as it oversteps governments reach, restricting with great harm, an individuals constitutional right to freedom to pursue their lives. You are creating yet an even deeper divide amongst the public with your one sided view on this health issue. EVERY individual has the right to choose whether to inject themselves or not. It IS NOT an issue of "the greater good" for mankind because The data does not support this kind of terroristic and tyrannical mandate. This was created years ago by Fauci and others and has politicized to such a great extent to spread the narrative that people must, MUST get vaccinated even though it has already been proven that it is failing and that some individuals should simply not get it! NO to such a horrific mandate. NO, NO, NO!!!

Written
Testimony this vaccine is experimental! Too many people have already suffered from its adverse effects. There are many ways to be safe, build our immunity and prevent the spread of Covid naturally. Our bodies are designed to fight viruses and diseases and build immunity naturally. A vaccine and boosters should not be mandatory for travel, employment etc. but proper health and nutrition education should be!

Written
Testimony The vaccine passport is a violation of human rights. Small businesses have already paid the price in 2020, many done for good and most suffering because of decisions they didn't make. Report that the virus is easily caught and spread between both vaccinated & unvaccinated and a vaccine card is not an equal replacement for regular testing. MANDATE IS NOT LAW. You know this and that is why you're pushing "emergency proclamation" because you know it will never hold up in court. Listen to what the people of Hawaii want and what will ACTUALLY HELP LOWER THE CASES! we both know after 60 days, letting the vaccinated go where they please will not stop the spread.

Thank you for taking the time to read my concerns over this resolution as I feel perhaps some of you may not have heard from the many citizens who are in opposition to a “vaccine passport” program. While I believe it may be in the rights of private business owners to enforce certain requirements on their staff and customers, I whole heartedly believe that it is NOT in the power or interests of any government body to enforce such requirements. In fact, it is expressly prohibited to do so in the 14th Amendment to the US Constitution which guarantees equality of the law for ALL citizens. Verbatim-

“ No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.”

Written Testimony

For the government to require a citizen to show proof of vaccination against COVID in order to eat at a restaurant, go to a movie, or gym or show proof of a negative test for COVID essentially segregates the population into different groups, those vaccinated and those who are not and places unfair and UNLAWFUL requirements on one of those groups. This Resolution also ignores the fact that those who chose to be vaccinated can still contract, spread, get sick from and die from COVID, making the argument that it is to promote health and safety invalid. Someone who is vaccinated and has COVID going to a dinner at a restaurant is potentially EVEN MORE DANGEROUS to health and safety than someone who is unvaccinated and tests negative for COVID going to eat at the same restaurant. How does this Resolution RESOLVE that problem?!

The only conclusion i can draw is that this Resolution is meant to place an unjust, unlawful, Unconstitutional burden on those who’ve chosen to remain unvaccinated with the purpose being to so inconvenience them and burden them with extra financial and social pressure’s in

hopes that they acquiesce to the majority's mistaken belief that this vaccine will stop the spread and mutation of COVID. It has already been proven that this vaccine cannot do that. Even vaccinated you can still catch, spread, get ill from and die from COVID. And some may say that the possibility of someone developing serious illness and dying from COVID is lessened by being vaccinated. The SCIENCE has also shown that someone who is in better overall health, who exercises regularly, eats responsibly, doesn't smoke, drink alcohol or do recreational drugs has a SIGNIFICANTLY lower chance of getting seriously ill and dying from COVID, WITH OR WITHOUT A VACCINATION!

These powers you seek to legislate into the hands of government were NEVER what government was intended for. And once these powers are assumed, they immediately become vulnerable to continued misuses. Imagine what a future Governor or Mayor may use these same powers to enforce on the population, perhaps a Governor or Mayor whose ideals and beliefs you do not subscribe to. They can wield these same powers to enforce something on YOU that you don't want to do. This is a dangerous Pandora's box you are playing with.

The impact this Resolution will have on businesses which are still recovering from THE LAST MISGUIDED ATTEMPT by government to control a health crisis caused by nature, will also be debilitating. Regardless of your views on the Resolution, these businesses will FOR CERTAIN have a smaller population of potential customers than they do now. What right does government have to artificially and arbitrarily limit the customer base of independently owned businesses? Again, what further restrictions could FUTURE government administrations impose with even more nefarious intentions? Again, if a private restaurant, movie or gym believes it is in their best interest to place restrictions on their employees or customers, they MAY have the rights to do so, and it will eventually be litigated in the courtroom I'm sure. But in the interim, it is that business that will suffer any consequences to their profits. They may enjoy a boom from customers who believe they have an extra layer of safety when they patronize there. Or they may suffer losses from a smaller pool of potential clients, further shrunk by others who may be vaccinated but do not agree with the policy or do not wish to go to eat without their unvaccinated family members or friends. They may also face boycotts, protests and the like from citizens who remember a time in the not too distant past when the civil liberties of certain groups of Americans were likewise curtailed by government policies of segregation. But in the end, it is the individual business making that choice, NOT THE GOVERNMENT MAKING IT FOR THEM. You legislators suffer NONE of these potential consequences. Yet you believe you know what's best for these business owners. The unintended consequences for this Resolution will be felt by these businesses, NOT BY YOU. At least not until the next election cycle that is, when I, people who share my views, and those business owners who you are hurting with these misguided legislations will be sure to remember you.

Some of you are under the misguided belief that your power as an elected official allows you to legislate your way out of any crisis, including a nature based health crisis. I will remind you that your position exists first and foremost to guarantee the FREEDOMS of ALL of your constituents, particularly from being marginalized and oppressed by their very government. I'm sure that given enough power and with enough citizens relinquishing their God given and inalienable rights, you could legislate and mandate us into total safety. To never again have to worry about getting sick, dying in a car crash from a drunk driver, being shot at work during a robbery, being murdered at home by an abusive spouse, hit by a bus crossing the street. It will only cost us the rights to LIFE, LIBERTY, AND FREEDOM that this great country was founded upon.

For over a year and a half we have been dealing with this health situation. Our Governor and Mayors have used wide ranging executive powers (intended for short term responses to natural disaster emergencies) to restrict the behaviors and require the obedience of citizens. I would remind you that over that 18 month period since March 2020, less than 600 people have died with COVID, the vast majority of them with underlying health conditions and comorbidities. While ANY death is heartbreaking to the surviving families and friends, that number over 18 months hardly justifies the gross overreach of this government into restricting the sacred civil rights of all American citizens.

Have any of these measures so far made anyone feel safer? Guaranteed anyone even one more day on this earth? Feel happier? Feel this situation is being handled correctly by those who know better than me what's best for my family?

We must judge a policy by its outcome, including the unintended consequences, not by its good intentions.

As a Police Officer on HPD's elite SWAT team, with an impeccable record over a decade of serving the City and County of Honolulu, I have come to believe fully that more important to a free and just society than the laws that govern the behaviors of citizens are the laws that restrict the power of government.

Written Testimony I oppose this! Vaccinations should be a private, personal choice! There is not e ought evidence of long term affects. My family all had Covid, was not hospitalized and are fine. Several studies show that Natural immunity is 17 times greater than a vaccine! And the dangers of vaccinating previous Covid patients can be dangerous!

Written Testimony I oppose vaccine passports! There are many people who don't need or want a vaccine and who have survived Covid-19 without it. The vaccines are ineffective against stopping the spread of Covid-19, and it's wrong to try to force people to take any medicine or enforce laws toward that end.

I believe any city or state that enacts a vaccine passport program is not looking out for the best interest of the people for both financial and health reasons. The financial part is obvious; there will be less people coming to anywhere that has these restrictions enabled.

According to an Israeli study of over 800,000 natural immunity to covid means you are almost 700 % less likely to get covid again. What does this mean? Natural immunity puts an end to the perpetual pandemic.

<https://www.israelnationalnews.com/News/News.aspx/309762>

Even without the numbers above that show the vaccine to be worse for reinfection, the reality we have a choice what happens to our body. Women have a right to abortion, everyone has a right to what goes in it. I am up to date on every shot; I say that to make a point that I am NOT anti-Vax. Even the creator of the mrna vaccine Dr. Robert Malone had his LinkedIn Account deleted for casting doubts on what was happening with the covid vaccine.

Written
Testimony

I am pro choice. The government and employers have no right to choose what goes into my body. Coercion is not consent. Hawaii is not a police state. People will not stand for this!

Just a reminder of the Declaration of Independence

...

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, --That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.

The vaccine passport is not about safety, it is about control.

Written Testimony

Aloha on behalf of the Cummings Ohana. We are here to share our concerns and speculations about the covid 19 vaccine and vaccine pass and as well the states government handling of the covid pandemic. To start off we would like to question the effectiveness of the vaccine it's as we know there are nearly 63.4% fully vaccinated state wide. Taking this information in we must also mention the recent infections of the virus. In the past 14 days as of Sep 1, 2021 there were 10,908 cases reported looking at the numbers both logically and mathematically the majority of the infections are fully vaccinated people. Taking a report from the CDC "Getting vaccinated yourself may also protect people around you". I would also like to mention the numerous reports during the vaccines rollout such. For example request on halts with vaccination of children under 12 numerous deaths because of administering vaccines. Also to account for the very late approval of the vaccine by the FDA as well. Seeing the information displayed is clearly saying that the vaccine is both ineffective of preventing infection and also ineffective of preventing spreading of the virus. Which also brings up its usefulness, if the vaccine can't prevent both spreading and becoming infected while having the vaccine what real usefulness dose it really have? This also brings to light other concerns and questions. For example is it safe? Dose the vaccine and it's administers have other intentions? Is it experimental? This brings me to my next point the handling of the virus by the states government. As residents on the island of Oahu we know first hand what hardships the lockdowns and restrictions brought as local business owners. To first mention the closing of local businesses which to mention may only be the only source of income in many local family's. It may be understandable due to the pandemic but what makes it hard to swallow that choice by the state officials is still allowing big corporations like Costco, Walmart, Target, Etc to operate with minor limitations. Adding on which we're hardly ever enforced in these stores. This also hurled the economy into a great decline which kept on declining due to lack of tourism. On the topic of tourism with tourist coming back and vacationing in the state. The reason this concerns us and question the state officials is not because the breaking of many restrictions it's because the of the blame put on us locals for the recent of the virus.

Even though we have been abiding by the restrictions for over a year and not ever were there cases this high during that time. Now to explain my thought on the vaccine pass I believe it will push locals to there financial and mental limits. To also see the vaccines pass purpose and reasoning is also dull. In conclusion the covid 19 pandemic could've been handled more efficiently if the state officials had put more thought into us locals. As well as the discrimination we feel as people who oppose the vaccine is also very distressing. With all the info I've provided I hope people and the state officials see through there blindness and really look at the what is happening in the real world and not relying on certain sources to give them info.

Written
Testimony I strongly oppose covid vaccine passports. There should be no reason to create a system of segregation based on what should be a personal choice. The science doesn't back up this madness of a passport. The logic behind these decisions doesn't make sense. If vaccinated people can still carry/transmit the virus, what difference does it make for people who are unvaccinated? Aren't the unvaccinated the same as the vaccinated in the sense that they can carry/transmit this virus? We need to put self accountability and responsibility back on the people as it should be here in AMERICA. Forcing people into choices is what authoritarian and dictatorships do.

Let first say I am not antivax. I'm a retired/disabled US Air Force veteran who believes in the constitution. I did not serve and defend the constitution for it to be disregarded the way its been in the last 18 months. The government should never have authority over it's citizens choice for medical freedoms. This is a clear overreach and down right tyrannical move on behalf of the state to try and impose a vaccine passport. I STRONGLY OPPOSE the vaccine passport. This is anti-American, anti-constitution and down right ANTI-HUMANE! This cannot happen!!!

Written Testimony To whom it may concern,
I strongly strongly OPPOSE! The way this entire situation in Hawaii has been handled by our elected officials has been poorly executed! In fact it has been handled in an elementary fashion with no logic or common sense behind closures and "proclamations".
No elected official by the constituents should have any rights to talk down to the people, which has been happening,
NOBODY should be given an ULTIMATUM to get a vaccine or lose a job. People lose a job and then cannot feed their families or pay for the housing which supports the family unit.
NO TO THE BILL!!!!

I strongly oppose the digital vaccine passport program.

Not only is it a gross overstep of constitutional rights it also lacks common sense. Mandating proof of this inoculation will do nothing but but hurt local businesses and local people.

Written Testimony

These inoculations do not fit the accepted medical definition for a vaccine. They do not provide immunity! While fully vaxxed, an individual can still contract COViD , transfer it to others, and become ill and symptomatic. Even if it can “reduce” symptoms there have been no studies supporting that claim. Both the WHO and the CDC have acknowledged and are on record highlighting these points.

Bottom line a virus with a 99% survival rate doesn't require a mandated inoculation that has contributed to the highest reported adverse events that the VAERs catalog has ever seen.

Please reconsider this unconstitutional approach.

Written Testimony Would prefer if the state and the feds were not involved in our personal lives and do not need someone telling us what our bodies need. Life should be a freedom of my choice. Please reject any mandates when it comes to vaccinations or even testing. There is too much information available qualifying that the vaccinations are not safe nor do they have any affect on a virus that doesn't exist.

Written Testimony

I oppose this vaccine passport! Have you read the history books about Nazi Germany and the Holocaust.
Have you had the privilege of going through the Holocaust Museum? Do you have any Jewish family members? Seeing what you elected government officials are hoping to put in place is like watching history all over again. Watching this unfold is no different of an imagine than that of previous history... this kind of kind of band, symbol or passport that adds electronic tracking and all electronic data that you could combine with it is discrimination. Data and science shows that being vaccinated does not stop spread of this virus. It was never meant to be made for this. Please know that you officials are elected. There will come a time when your term is up. It is up to the people who will decide if you are to be elected again. So remember when you are making a decision as to a vaccine passports in Hawaii Nei, you're also deciding which side of history you want to be on 20 years from now. People will remember, Hawaii will remember. We are not going to stand down and participate in your Nuremberg Code war crimes. We do not consent. The last time I checked Hawaii was considered part of the US by illegal annexation. That being said Hawaii therefore is a democratic state. We are not under laws or a dictatorship or under laws of communism or socialism. So please remember this.
Respectfully Submitted ,
Heather Sanders

Written Testimony I am in absolute opposition to any bill that abrogates the right of individuals to choose their own health and well-being. My personal lifestyle is totally healthy, and vaccines have nothing to do with my personal health, in fact they are a severe threat to my health. Therefore I respectfully request that this resolution be denied and that the freedom of human beings to choose their own health remain intact.

Written Testimony Aloha,
My name is Hoku Acevedo, born and raised here in Hawaii. I'm thankful to be a part of the United States of America where we can and should experience liberty and justice for all. I oppose this resolution not because I am anti-vaccine but because a mandate as such would invalidate the Constitution upon which our nation was founded. I believe every individual must have the freedom and opportunity to choose whether or not they will be vaccinated and not suffer negative consequences if they choose to abstain. Also, every business and institution (public and private) should have the freedom to set their own parameters for safety and health. Only in a communistic/socialist society would the government control the economy and impose a system to limit/negate private or public industry productivity. I firmly oppose this mandate for the sake of our Aloha State.
Mahalo

I strongly oppose Resolution 21-194 urging the city administration and the state of Hawai'i to implement a covid-19 health card for establishments at higher risk of transmission of covid-19. The covid-19 vaccines have NOT been proven to stop the virus. On the contrary, I know many friends and family who are fully vaccinated and have still contracted covid-19.

Those who have natural immunity from already having covid-19 are also being discriminated against as multiple studies have come out saying that the vaccine wipes out any antibodies that you would have from natural immunity.

Written Testimony

There are also thereaputics out there PROVEN to work and have been out for over 60 years, far longer then this experimental drug. They work and so does being healthy and naturally boosting your immune system. My 84-year-old grandmother contracted covid-19 and beat it. I myself have had it and beat it. So did my husband.

Let the people decide as it is their right and the passport is tyranny under the Nuremberg Code. What happened to my body my choice?

And what about all the people who have died or have contracted worse diseases from getting this vaccine? Why don't we talk about them.

Written Testimony

Aloha, I oppose resolution 21-194. Taking the vaccine should be an issue of choice, not one of force. Sure, it's easy to say, "oh, people can still choose", but this resolution is a form of manipulation aimed at forcing and shaming those who do not have the vaccine to take it. I urge you to value the freedom of choice, especially when taking something into one's body that has unknown FUTURE side effects. a person should not be manipulated or forced by punishment into making this weighted and personal decision, but resolution 21-194 is trying to do just that. Therefore I oppose resolution 21-194.

Written
Testimony

I strongly oppose vaccine passports!!! This is supposed to be a free country! We have only seen forced vaccines and medical dictatorship, when the Nazis were trying to take over. And Hitler was creating segregation in the communities, just as YOU are doing now with the vaccinated and unvaccinated. This is not right, especially in Hawaii where we are supposed to have and show Aloha and yet we cannot even embrace our Ohana without the vaccinated scrutinizing us. The survival rate of COVID does not compute to losing freedoms!!! KEEP HAWAII FREE!

Written Testimony

I am opposed to resolution 21-194 for many reasons. First, studies have found that in countries that have higher injection (vaccination) rates, there are a larger number of cases of covid. Shouldn't rates be declining? I was always told that if you get vaccinated, you are protected against against the disease you are getting vaccinated against. If we look at people in Israel where the delta variant is the dominant strain (nearly all are vaccinated) they found that in a sample of 5000 reported cases with covid, 84% of the fully vaccinated individuals had covid. Another report from Israel found that the covid vaccine is only 39% effective. I thought we were told it would be 90% effective. Now politicians and others want to inject people with a third booster. Why would you give anyone another chance? Another problem can be seen by looking at the number of people dying from these covid vaccines. There are more deaths associated with covid vaccines that all 70 vaccines administered in the last 30 years. The tetanus vaccine produced 36 deaths since 1968. But if you look at the CDC VAERS website, there have been over 13,000 deaths and over 500,000 adverse reactions. Second, why are doctors who are speaking out against the covid vaccine being censored? Many are being threatened with the license being removed or fired from their hospitals they work at. Something is wrong. Third, the Bill of Rights guarantees our right to assemble and to travel where ever we want. We don't need your permission nor restrictions imposed on us. If the framers of the Constitution wanted to to restrict our rights, they would have included a clause that said that if there was a pandemic, it would be okay to restrict our movement. They had pandemics back then but they never included any restrictions.

Written Testimony

Choosing to mandate a “vaccine passport” for a virus that has a 99.6% survival rate, as well as alternative treatments that are shown to work effectively is not only irresponsible and unfounded, it is a violation of our basic human rights and HIPAA medical privacy rights. It has been clearly stated by CDC since the beginning that this gene technology (which is not technically a “vaccine” by definition) will NOT prevent contraction OR spread of the virus. It merely lessens symptoms, which may actually allow “vaccinated” people to be more virulent vectors of the virus. To ban unvaccinated people from daily life activities and amendments with this as your backing is ignorant, discriminatory, and clearly adhering to an agenda that is more interested in making money for big pharma than serving it’s people. Instatement of these terms will harm residents, force them to leave Hawaii, and therefore harm our already struggling economy. Please use your power to serve the people, not the corporations. Please choose out of love and solidarity, not fear.

Written Testimony I adamantly oppose this Resolution as it violates citizens Constitutional and medical rights. This is a gross overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose.

****REVISED FROM PREVIOUS TESTIMONY****

Written Testimony i don't believe this is ILLEGAL. it fringes our rights as a citizen of the united states. it discriminates small businesses to show a vaccine card where as BIG businesses don't have too. Businesses should be able to choose. vaccinated and unvaccinated people should have the same right. whatever happen to the HIPPA??? So think about this and please reconsider and listen to the people.

Written Testimony

Unfortunately this is illegal and unscrupulous on a multitude of levels. US citizens have a right to travel freely. It's against HIPAA. And you will destroy remaining small businesses. Vaccination does not equate to being 100% safe nor safe from transmitting. In fact, all of us who were vaccinated need to take responsibility for traveling without testing, locals and visitors, which led to spike in cases. 600+ DEAD in Honolulu alone 2018 from influenza - why were people not concerned about everyone's health then? Local hospitals have been taxed before Covid ever existed. We should have spent this time the past year with that influx of shutdown monies helping improve people's health and well being, building up hospitals and improving Hawaii's health care system. People introducing this bill are disgraceful and obviously have ulterior motives then health. Those who chose to take a shot as well as those who didn't will eventually come together to decry this blatant tyranny. You are on the wrong side of history.

I oppose vaccine passports in Hawaii in any shape or form. First and foremost, it is discrimination. The division that the government is creating between vaccinated and unvaccinated is outrageous. Secondly it infringes on our American freedom. Medical freedom includes the FREEDOM to accept or deny any medical intervention including vaccines.

Written Testimony
Implementing vaccine passports into the economy will in turn, runt the economy into the ground. Businesses will lose customers/business, and will eventually be forced to shut down because they will not be able to stay open.

The residents of Hawaii already do not trust the government. You have not listened to us all these years - please listen to us NOW! Do not infringe on the freedom and rights of the people!

Written
Testimony I oppose resolution 21-194. This is medical segregation at its worst. I cannot believe that our leaders think it's ok to force its citizens to inject themselves with a vaccine that they do not fully understand or trust. The poorly thought out method of fascism will do more harm then good. Those of us who are trying to better our health by exercising at the gym will be forced to cancel membership because of this silly regulation. I will not be sticking that stick up my nose every 48 hours so I can access my gym. Please reconsider this legislation.

Written
Testimony The vaccine passport is a violation of human rights. Small businesses have already paid the price in 2020, many done for good and most suffering because of decisions they didn't make. Report that the virus is easily caught and spread between both vaccinated & unvaccinated and a vaccine card is not an equal replacement for regular testing. MANDATE IS NOT LAW. You know this and that is why you're pushing "emergency proclamation" because you know it will never hold up in court. Listen to what the people of Hawaii want and what will ACTUALLY HELP LOWER THE CASES! we both know after 60 days, letting the vaccinated go where they please will not stop the spread

Written Testimony I strongly oppose this bill! It is discriminatory & unconstitutional. I had COVID & recovered without the vaccine. I now have strong natural immunity & do not pose a threat to my community. We are seeing people with the vaccine getting COVID & spreading COVID. I actually got COVID from a vaccinated person. To say that the vaccinated pose less of a threat is ridiculous! They are more likely to be asymptomatic & spread the virus whereas the unvaccinated are more likely to experience symptoms & stay home to recover & stay out of the community while contagious. Please consider how much this will alienate good people in our community!

Written Testimony I am strongly opposed to this bill. Everyone's body is different and health is personal not for everyone to know about unless they personally choose to share it.
We would be going backwards if we allow this bill to pass. We have come so far from segregation.
We live in a FREE country, the beauty about that is we get to CHOOSE what's best for our bodies and it's no one else's business to ask or discriminate.
Mahalo for understanding that and NOT allowing this bill to pass.

I strongly oppose this resolution.

Never before have I felt so unsafe, unheard, and untrusting of our leaders, both at the state and federal level. Our politicians, the ones who were elected to protect and serve their communities have turned their backs on thousands of their constituents. They have chosen to hear only one side of the conversation, ignoring and censoring other established doctors and scientists who have been treating patients since the start of the pandemic. PHD's who been calling on the implementation of protocols to treat patients early in their sickness, which **WOULD HAVE PREVENTED THOUSANDS OF DEATHS**. Instead, politicians have chosen to dismiss the experiences and research of these brave PHD's, and instead ruthlessly and cowardly move forward with pushing a vaccine that has yet to be studied long-term in humans and are already proving to be not as effective, with effectiveness decreasing every month.

Written Testimony

Ask yourselves, why are we and other countries such as Israel, now in another state of crisis? Over 60% of our population are vaccinated and thousands have already achieved immunity through natural infection. Why do we still have a crisis on our hands? Why are we in worse shape now than we were before the rollout of the vaccine? It doesn't make sense....it doesn't add up.

Treatment...why are our politicians not willing to treat the sick with safe drugs before patients are admitted to hospitals? You say you fear our hospitals are overwhelmed. Lies! If you were truly fearful, then you would seek EVERY option available to us. There are a few PHDs that have put together protocols to treat the sick, with overwhelming success. These protocols and testimonies have been heard in senate and house hearings, evidence have been brought forward by hundreds of practitioners who have actually treated and seen first-hand that these protocols save lives. Why is this being ignored???? Why are you irresponsibly

coercing us to inject a vaccine into our bodies that may have profound short and long-term effects????

I have friends who have had to seek medical attention due to the stress of losing their jobs and livelihood. You do not understand the consequences of these mandates, both to individuals and businesses. People truly fear the effects of the vaccines....they fear for their lives. We have a tyrannical government threatening our lives and wellbeing when there IS another and safer way to navigate through this crisis.

I implore the politicians of this state to not take part in what could possibly be genocide of their people. Do not make us sick with this forced vaccination. Protect and hear our people and listen to the other side of the conversation. Take a risk and go against big government and big pharma, who have been censoring and preventing world renowned doctors to speak out. Do not be cowards and let this continue. Stand up for the people of Hawaii. Be a light to the rest of the world...let Hawaii be the outlier that found a way, a better way, that guided us through this pandemic. THERE IS ANOTHER WAY...THERE ARE OPTIONS! HEAR US!

Segregation of the vaccinated and unvaccinated is not the way for a united Hawaii. Media and words of reckless leaders have divided our people and pinned one against the other. Passing this resolution will only create more division, anger, and mistrust.

strongly oppose the states suggestion to implement vaccine passports. I'm not antivax but am a retired/disabled Air Force vet who understands the importance of freedom and medical autonomy. What a disgrace it would be to all those that served and gave their lives so that we can have the freedoms we have today. Implementing a vaccine passport is anti American and unconstitutional. This cannot happen. Give people the freedom to choose! The government should never be given authority over a person's body. Stop the tyranny, stop the mandates. You are killing freedom, killing America, our constitution and all that has established this great country. God bless America!

To make a vaccine passport does in fact go against my rights as a citizen . This is not the same as simply showing your I.D. This virus is here to stay, just like the flu. I should have a choice, last time I checked I still live in the United States! Shame on those that have put segregation into this mess. I myself fear the vaccine I am prone to blood clots and a heart problem and this vaccine can kill or lame me, and yet I'm to be penalized because you the politician feel that you know better than me . I am neither for nor against this vaccine, but you're going to penalize me by making me get a covid-19 test or take this vaccine to possibly enter businesses or restaurants, and that is the way you're going to force me to "COMPLY" to meet your agenda!

As a citizen of the United States of America, i joshua cordero do not approve of this mandate. It is unconstitutional, and it goes against every right of every citizen of the city of honolulu, we the people do not want to experimented on! yet Phifer was appoved, but has not made or started to make any approved vaccines! What is offered is still under emergency orders only, and is not approved, who is going to be held accountable for the deaths and adverse reactions happening to the people of hawaii! Under The Nuremberg Code (1947) is states

Written
Testimony

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by

which it is
to be conducted; all inconveniences and hazards reasonably to be
expected;
and the effects upon his health or person which may possibly come
from his
participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent
rests
upon each individual who initiates, directs, or engages in the
experiment. It is
a personal duty and responsibility which may not be delegated to
another with
impunity.

2. The experiment should be such as to yield fruitful results for the
good of
society, unprocurable by other methods or means of study, and not
random
and unnecessary in nature.

3. The experiment should be so designed and based on the results of
animal
experimentation and a knowledge of the natural history of the disease
or other
problem under study that the anticipated results justify the
performance of the
experiment.

4. The experiment should be so conducted as to avoid all unnecessary
physical
and mental suffering and injury.

5. No experiment should be conducted where there is an a priori
reason to
believe that death or disabling injury will occur; except, perhaps, in
those
experiments where the experimental physicians also serve as
subjects.

6. The degree of risk to be taken should never exceed that determined
by the
humanitarian importance of the problem to be solved by the
experiment.

7. Proper preparations should be made and adequate facilities
provided to
protect the experimental subject against even remote possibilities of
injury,
disability or death.

8. The experiment should be conducted only by scientifically qualified
persons.

The highest degree of skill and care should be required through all
stages of
the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment the human subject should be at
liberty to

bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible. 10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Which means who is going to be held responsible for the deaths and the force cohesion of this experimental vaccines.

How about the officials of hawaii, control what we can control, that's the rights of the people of hawaii. This bill goes against the freedom of the citizens, which you the elected officials are spouse to be protecting. The constitutional rights!

Written Testimony There must be Freedom of Choice! To restrict the movement of Healthy People and impose a Vaccine Passport is Tyranny and violates my Civil Rights and is discriminatory. For those who choose to not take the vaccine due to medical and moral issues, this is an affront and violation of our medical rights to choose what we put into our bodies for wellbeing.

I think its a great injustice to shame, force and isolate a community of Citizen who choose to not be vaccinated. Personally i have been vaccinated, that was a choice i made after long and thoughtful consideration. I am concern for myself and others still who made that choice because of the immediate and ling term effects this vaccine may have on us.

Written Testimony I don't believe that our government should mandate this unconscionable force, punish and shame upon citizens of this country who fought so hard and have lost millions of lives to stand for freedom and equality. Health, personal health is a personal right! It's absurd the government thinks this vaccine passport will improve the lives of our community, and businesses. Even vaccinated are dying!!!

I adamantly oppose this Resolution as it violates the peoples' Constitutional and medical rights. The "health pass" is discrimination and a vilolation of HIPAA. This is an overreach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our State and County leaders to oppose this Resolution.

DIVIDE & CONQUER
seems to be the theme repeated generation after generation to destruct our connection we have to one another as a people; for the people and by the people. What happened to the people's opinion? We all know the governments in charge are getting paid a pretty penny to puppet away our human rights. When we are masked from our freedoms of speech and even to take a breath of our God given air—I will not watch my country go down like this. How could we neglect that sunlight, fresh air, clean water, and organic sustainably grown food is the answer? Instead we are “forced” neglect our life force to lockdown, stay inside, and hide out from a pandemic that has a 99.9% survival rate... oh come on. We see through you. The TRUTH will prevail. I am just hear to warn you that God is on our side.

Even if you're comfortable with the short timeframe of the virus and the vaccines, and you have no religious opposition to the vaccine, some people's natural immunity is going to serve them far better than a vaccine, and you still must acknowledge there are people who have medical reasons that prevent them from being able to get the vaccine. Citizens must maintain their freedom to choose what is done to their body. Business is also most hang their freedom to operate as private entities. These two principles are fundamental in a free and thriving society.

I am strongly opposed to this bill. The micromanaging is not going to make any better changes but in fact worst. We are already struggling to get by as it is because the government is so focused on the wrong things. Fix the problems we have now like homeless etc. before you start creating new ideas and changes.

You're not supposed to just keep covering up and sweeping things to the side with new ideas. You're supposed to find solutions first.

I oppose the mandatory vaccine passport.

This will be stripping every human of their natural rights to have choice what goes in our bodies. Just like the food we choose to consume. Some cause cancer, heart disease, blood sugar issues, etc. We aren't told what we are and are not allowed to consume in our diets. We still have a choice to put into our bodies what we chose. I feel this vaccine goes deeper than caring about our overall health as a society because clearly we are still allowed to consume extremely toxic and deadly chemicals, etc everyday.

Written Testimony

I believe it's blatantly horrifying that we will be forced to receive a vaccine that hasn't gone fully through testing trials. We are not 100% certain of long term effects. Especially in women who wish to have children in the future.

I've seen multiple counter reactions to the vaccines including a relative of mine. And witnessing what she has experienced knowing that it's my blood, I'm afraid to receive the vaccine because I don't want to end up forever ill and unable to use my body.

All people deserve a choice. And that's that. It is inhumane to force a drug into peoples bodies in order for them to be active in the world. It's twisted, sick, and horrifying.

Please do what you know is right.

Written Testimony I oppose Vax Passports. It's not going to solve the Covid transmission problems, it will only cost business lost revenue. Efforts should be focused on treatment!! Nobody seems to be looking at that. Why is treatment being censored?? Additionally, those vaccinated are still catching COVID, and spreading variants. Not the unvaxed as this state claims.

Written Testimony

A vaccine passport is unconstitutional. Each individual should have a choice of what goes into their own bodies. It is now documented that those who take the vaccine are also getting and spreading the virus. This is why CDC, Fauci, etc. wants everyone to go back to wearing masks; vaccinated or not. To withhold access to places/events identified in this Resolution is simply wrong. It sends a message of hate and separation among the people. To hear the Mayor say and to read editorials in the newspaper about how unvaccinated who get covid should not get medical treatment is inhumane. Alcohol kills people in many ways through car accidents, fights, liver damage, etc. but you allow individuals to make a choice to put alcohol in their body or not. So if someone chooses to drink and get cirrhosis of the liver, should they be denied medical treatment? People who consume alcohol kill many innocent people annually, so for the betterment of society, the greater good shouldn't alcohol be banned or those who choose to consume alcohol should not be allowed to drive at all because you can't control when or how much they will consume. This may sound ridiculous but this is what is being said about the unvaccinated. How foolish it is to think that only the unvaccinated are spreading the virus, especially when data you cite indicate that vaccinated can be carriers of the virus and they also can get covid even though already vaccinated.

Since government has also decided not to report data on the vaccinated who get "breakthrough" covid isn't the data faulty and prejudice against the unvaccinated? How is it possible to factually state the number of covid cases from a test that does not identify the actual SAR2 covid virus? What happened to tracking the flu? Over the years hundreds of individuals have died annually from the flu, why is it we don't see those numbers now? Is no one getting the flu or because the test can't detect it, you have chosen to only report all positive test results as covid? You are using your freedom to choose what and how you want to report data. Why can't we choose what we put in our own bodies. Emphasis should be on educating people about how to stay healthy, build their own body immune system and focus on laws that help us to be healthy. For example: Work force law should support individuals who start to exhibit the first signs of being sick to stay home

without fear of reprimand from employers, if work duties allow, let the worker work from home if possible. Allow parents or others who work the flexibility to care for their children, elderly or anyone they are responsible for who may become sick and need supervision, without losing their job, or benefits, etc.

Do not take away the freedom we all cherish and live by under our Constitution of our United States.

Thank you for considering my thoughts on this matter. I pray this Resolution will not pass. I oppose Resolution 21-194.

As a practicing RN who is married to another healthcare professional, I strongly oppose! This is discrimination and an invasion of privacy. In my lifetime I have never witnessed this kind of abuse of power. "Absolute power corrupts absolutely." I am sad for Hawaii. Community leaders like Waters and Kia'Aina are taking away our freedoms. Are these leaders truly listening to the community? I'm sad to say that we are rethinking keeping our family in Hawaii. We will take our skills/talents with us along with our large ohana. Why punish residents? There are others options to keep us safe. This is extreme!

Written Testimony I oppose to this bill. No vaccines should be mandated as government should not be practicing medicine. The decision should be up to each individual based on the consultation with his/her medical advisors who know and understands the medical history of the patient. Vaccines also contain ingredients such as aborted fetal cells that are against some religious beliefs and/or one's conscience.

Agenda Item RESOLUTION 21-194
Your position on the matter Oppose
Representing Self
Organization

I oppose this resolution. Mandating by executive order if necessary is wrong for Hawaii, as is any vaccine passport program or a digital vaccine passport program for private industry to restrict individual access to employment, certain business establishments, and other venues and places of public accommodation.

Written
Testimony

It is apparent that any attempt to implement controls in hawaii is pointless if vaccinated people carrying the covid virus are allowed entry into the state without having to test negative beforehand, like every other traveler. it is apparent from statistics that once the testing requirement was waived for vaccinated people, local cases started rising. check the graphs starting at july 10th 2021 to see the rapid rise beginning.

mandating a vaccine passport is overreaching. let people wear masks if they choose and be responsible for their health. require testing of all travelers as before. your attempts to control will have negative impacts on the state and will not make anyone safer.

Written Testimony

Aloha
I am a physician and oncologist on the big island. I am writing to you in opposition of this drastic and unjust measure to mandate vaccine passports for basic privileges that should be afforded to all citizens. Firstly, we are seeing that the science has many holes and unanswered questions. The vaccine effectiveness dwindles from 35-65% after 6 months, fully vaccinated are now up to 45% of the total spreaders. Additionally, natural immunity confers 13x greater immunity than vaccination and is not being accounted for. That aside there are citizens who have valid religious and medical reasons for not getting the vaccine. This measure would essentially segregate our population in a way that mimics the time of Jim Crow laws. It is widely known that minority groups including the native Hawaiians have a history of mistrust of the medical system and the government and are therefore on average the lowest in vaccination numbers. What will we be setting the precedent for if we can allow any "emergency" to disregard basic principles of equal rights, non-discrimination, personal liberties? Do we want businesses filled with only patrons of a certain economic, political, religious, racial orientation? Hawaii has always been a state of inclusion, being one of the first states to allow for gay marriage, a state that recognizes alternative educational systems, welcomes members from all cultures to work and live together. Please do not enact this resolution, and set us back to a time of prejudice, discrimination and injustice.

Written
Testimony

I adamantly OPPOSE this or any other vaccine mandate. We as citizens and human beings have natural fundamental and inalienable rights to our bodies , to our choices, our beliefs , and our freedom of speech. We have a constitution which upholds these rights as well. No individual or government representative or otherwise has a right to take them away. You must look at the science, data , and continually incoming research unbiased and uncensored and most importantly represent WE THE PEOPLE of which you are paid to serve. This mandate with the unconstitutional and immoral beliefs around it would cause more jobs lost, more businesses to close, more economic hardship, more health concerns both physically, and mentally as well as emotionally and spiritually. Not to mention the divide this is perpetuated to cause. This mandate would take away the rights for all people to start a new business of any kind leaving them with lack of ability to properly run a business in their communities. It would take away the ability for humanitarian efforts and non profit organizations to properly care for those in need. THIS IS NOT ALOHA. This mandate would affect way more then freedom of choice - it infringes on ALL of our freedoms, including the pursuit for happiness. This forced mandate is NOT healthy. IT IS NOT AMERICAN. IT IS NOT HUMANE. THIS MANDATE IS MORALLY WRONG ON ALL LEVELS. It is NOT looking out for the good of all.
I adamantly OPPOSE.

Vicki Colt

Written Testimony

Is this still America? Are the members who support this resolution truly ready to declare that the rights of their fellow citizens (and their own) are null and void? That is exactly what this resolution is - an edict that claims authority to deny our rights and freedoms.

It is claimed that this is "for health and safety reasons", but I ask you all to consider this fact: Vaccinated people DO contract Covid. Yet this resolution does not require testing of those individuals. Why is that?

I believe the reason vaccinated people do not have to prove negative tests is because this isn't about a covid virus, this is about a virus sweeping the globe that is the very government representatives who were elected (and bureaucrats who are charged with) to PRESERVE our rights and freedoms have gotten a taste of dictatorial powers and they intend to continue to feast on us as any parasite would until we are dead or diminished to the point of uselessness to them.

People need to wake up. I do not blame citizens who have been terrorized by these "officials" for your fears, but I implore you all to ask yourself these questions:

1. Does this make any sense?
2. Whose benefit does this serve?
3. Do you really think that these people care if you live or die?

Reflect on that third one as you consider your answers.

There are treatments available that YOUR government denies you - yet Japan is using them with excellent results.

The future of ALL of our ohanas depends on us at THIS moment to stand against the tyranny being imposed on us. Do you want your grandchildren to be enslaved to this system? Do you really think this power is ever going to be ceded back to the people? It isn't. They've got you where they want you.

I have a medical exemption and a religious exemption that I could assert against this. I instead assert that as an American citizen, I retain my RIGHT to say NO, and I support others who wish to do the same.

Aloha Council/PH Committee,

I 100% oppose vaccine cards and or passports, and or 60-day trial periods.

They're not for public health. Not only are they illegal mandates but they're ruining our economy, the middle class, and small business.

You absolutely must abolish any type measures and illegal mandates now.

I require the government to I immediately cease and desist all mandates and the fake emergency state.

Written Testimony I seek for all involved to keep your oath of office to the United States of America's Constitution.

You are held accountable to the highest courts of our nation for treason.

Written Testimony

I would like to ask the question, "what are we really accomplishing here?" Based on the list of events that began on March 4, 2020 up to the latest event on Aug. 26, 2021, Resolution 21-194 was introduced to utilize a health card. It states that this health card will be a resolve because it will allow higher risk establishments to be able to use a digital health card system, to "include" employees to be "physically" present at these establishments, for unvaccinated people to be able to show evidence that they are exempt, and to be able to use a portion of the \$193 million from the American Rescue Plan Act... for implementation of a health card. Is a digital health card the wisest solution to resolve the Whereas events, continuation of establishments to operate, employees to show up to work, to utilize a portion of the \$193 million, or to minimize the spread of covid-19 and other variants? "What are we really accomplishing here?" is what I would like to challenge the council. We all agree that there is a state of urgency to react, but please do not act without wise counsel. Covid-19 and other known and unknown variants are currently outside the scope of human understanding. So let's not deal with it impulsively. Instead, with a sound mind. Go to who is higher than human wisdom. Don't be afraid to ask God for wisdom, He freely gives to those who ask. Covid-19 is not going to have an answer, nor will a health card be a resolve. Will a health card be the best way to use a portion of the \$193 million? Are there other ways to access the Recovery Fund that will benefit all people of the State of Hawaii, who works at these establishments to make a living here in this high costing state? Let's not witness a continuation of division, segregation, and oppression. Let's witness leadership who thinks, seeks wisdom, acts with a sound mind, and who uses their leadership to bring success, good health, opportunity, choices, solution, and most importantly embodies ALOHA. This urgency shouldn't allow decisions to create forced anything. Rather, come together to discuss, brainstorm, and come up with solutions that will build our communities, our islands, and our state for sustainability. I oppose to Resolution 21-194 for a health card because I believe it's not the wisest choice for any of its said reasons.

Aloha,
I strongly oppose a vaccine mandate being implemented. As a scientist I am not comfortable getting the vaccine, or having my teenage children getting it, until we know more about the long term effects. It is discriminatory to limit individual's freedoms due to not receiving a vaccination that has many side effects still being reported. Please don't do this in our state, not even socialist countries are requiring this of their citizens. The United States is supposed to be a land of freedom. Please let people and employers decide for themselves.
Thank you for your consideration.
Dr. West

Written Testimony I am strongly opposed to this tyrannical bill for digital health passports. It is unethical, invades my privacy and is against my HIPAA rights. This bill is going to cause segregation among the community and may lead to civil unrest. The government is not protecting the people, but causing people to choose sides and eventually turn against each other.

Written Testimony

This is absolutely unconstitutional and breaks my heart that in order for me to be a normal part of society I would be coerced to get something that's not yet proven effective (and potentially very dangerous) into my body, which affects not only my health but health of those around me and future generations to come. I have no problem with anyone who wishes to get vaccinated as that is their personal choice but to push this on others when there are natural remedies and who have natural immunity towards it is wrong and injustice. I already contacted covid last year and my body fought it off like any other sickness. Taking away basic rights such as going out to eat with friends is segregation and manipulation. It's divisive and basically forces people to adhere to something in order to "remain part of society". This is not what our founding fathers meant for our government to shift into. It's control and cohesion with agendas written all over it. I do not trust the ingredients in this vaccination nor do I feel a need for it. Once restaurants are banned what will be next? Grocery stores? Planes? You're telling me we will be starved if we do not adhere? Do you not understand how immoral and cruel that is. That is participating in mass genocide. So much for being America the "free". We live on an island...if we are not allowed our sovereignty with our body in order to leave the island we are trapped as prisoners. What happened to body sovereignty to personal power to freedom? Just because other large establishments are making these decisions doesn't mean Hawaii needs to follow suit. Remember the roots of Hawaii. When it was a sovereign land, how horrendous the history of its freedom being stripped in many ways that most of us will never truly understand. Why repeat this cycle? Why not end this now. Raise this land with respect and personal power and honor how beautiful, how powerful and how holy this special place truly is by honoring each and every one of us as the powerful, divine beings we are. We are all one. We are all loved. It's time to put differences aside and see the truth of our oneness. To let each person decide without casting others as wrong or "out of society" for not adhering. It's not too late to do the right thing. Protect our children, protect our youth, protect our sovereignty and protect our ina. Mahalo and wishing true Lokahi for all humans now.

Erin

Written Testimony

Aloha,

I am a 34-year old single mother of two school aged children. I was born & raised on the island of Oahu & am proud to call Hawaii my home.

I have raised my children to take care of their bodies & health- both physically & mentally/emotionally. We take care of ourselves by ensuring we have proper diets rich in whole foods, exercise regularly & get sufficient water intake and rest.

We go to regular doctor appointments & love our doctors that have played a vital role in helping to keep us in top condition- whether taking preventative or corrective measures. We also talk about our mental health and emotional wellbeing often within our family as this is just as important through our daily lives.

As you can see I believe in doctors and medical intervention greatly & am grateful for the technology and knowledge we have today. While I am not against vaccinations, I am against the discrimination that has been rampant against AN INDIVIDUALS CHOICE to vaccinate or not. No governing body, business, or entity shall have the power to determine what is in the best interest for an individual's health and well-being. Furthermore, it shall not force these beliefs on an individual or people through coercion- threatening, withholding, or using basic daily living to punish/reward those who do not comply or comply respectively.

The government shall support its people by providing accurate & relevant information on the known & studied case references. It shall provide the people with resources & means of communication to those who have questions and need assistance. It shall openly include details with pros and cons- known side-effects and/or benefits, long term effects and other relevant information. The people can then educate themselves and make the best-informed decision for their health and that of their families.

Does this vaccine that is being forced on people prevent individuals from catching COVID-19? Does it cure or prevent spreading of the virus? Can you guarantee that those who take it will not suffer any short-term or long-term side effects? If you cannot answer these questions,

it is senseless to be forcing people to take it.

Government & health officials should be working together to come up with solutions for outpatient treatment, instead patients are left with no guidance & become so severe they overwhelm hospitals, emergency medical services & first responders.

Businesses should not have to shoulder a burden of verifying these medical mandates. Nor should they have to turn people away from supporting their livelihood. What support will you offer businesses if they cannot cover expenses due to a decrease in sales/revenue?

I do not support the push to mandate vaccinations or testing of any kind- now or in the future.

I do not support having to show any proof of such in order to participate in any type of activity- recreational, businesses, educational venues, medical facilities or areas of employment. I do not support the government, businesses or schools requiring any vaccination or testing in order to access any of these services. I do not support mask mandates, shut-downs or lock-downs.

I support free choice and an individuals right & responsibility to do such. I support equality & non-discriminatory treatment in any case of their choosing. Thank you for your time.

The people can then educate themselves and make the best-informed decision for their health and that of their families.

Does this vaccine that is being forced on people prevent individuals from catching COVID-19? Does it cure or prevent spreading of the virus? Can you guarantee that those who take it will not suffer any short-term or long-term side effects? If you cannot answer these questions, it is senseless to be forcing people to take it.

Government & health officials should be working together to come up with solutions for outpatient treatment, instead patients are left with no guidance & become so severe they overwhelm hospitals, emergency medical services & first responders.

Businesses should not have to shoulder a burden of verifying these medical mandates. Nor should they have to turn people away from supporting their livelihood. What support will you offer businesses if they cannot cover expenses due to a decrease in sales/revenue?

I do not support the push to mandate vaccinations or testing of any kind- now or in the future. I do not support having to show any proof of such in order to participate in any type of activity- recreational, businesses, educational venues, medical facilities or areas of employment. I do not support the government, businesses or schools requiring any vaccination or testing in order to access any of these services. I do not support mask mandates, shut-downs or lock-downs.

I support free choice and an individuals right & responsibility to do such. I support equality & non-discriminatory treatment in any case of their choosing. Thank you for your time.

Written Testimony Aloha,
I am strongly opposed to this bill. Any mandate that takes the health and welfare of a citizen of Hawaii out of their control is not acceptable. It is the definition of tyranny. This is not a slippery slope, this is already tyranny. If you do not have control over your own body then you have lost freedom and will be ruled by others. I stand against any legislation that forces the will of government over the will of the people.

Respectfully
Jamin Hiebert

I only speak for myself, my husband and kids.

We choose to not vaccinate ourselves for covid-19. We do not believe these vaccines are being studied well enough and do not want to be the generation experimented on. I will not deny that the vaccination of some individuals (ie. elders and sickly), have benefited from vaccination, but I personally believe that those of us who are younger need to become resilient to the virus by creating a natural antibody. There are so many cases where people have successfully recovered. Those people have just become stronger and their bodies are more likely to understand how to better fight future infections from future mutations.

The vaccine is already proving to be not as effective over time and I can only assume that those in positions like yourselves have very tough decisions to make.

Written Testimony

I personally choose to get the virus and go through the symptoms and create an antibody, becoming one of the "cases that recover". Some people look at this as gambling, but we can view those who take the vaccine as gamblers too. I just wish the proper time and procedures were taken. Again, this vaccine has not been properly tested and we do not know what the effects truly are. We should all have the freedom to choose.

(Side note: the statistics need to be more clear in media because it is causing false realities and the conclusion of deaths need to be better documented because there are too many deaths that occurred because of other underlying diseases.)

I hope that more people will turn their TVs off and read the real data that is out there. This vaccine is not necessary for everyone.

Thank you

I am a life-long Big Island resident who strongly opposes vaccine mandates. My family and I place the well-being of our keiki and future generations above all else, and this mandate will completely change our family oriented, friendly and easy going lifestyle here in Hawaii and instead create an oppressive, high-anxiety, medical lockdown culture that will rob our children of the freedom we all once took for granted. This mandate will allow mainland corporations and pharmaceutical companies unprecedented control over our lives and bodies. I urge anyone reading this to protect our state's population and oppose any vaccine mandates.

According to the cdc. Vaccinated people carry the same viral load as unvaccinated people therefore it is discriminatory to require vaccines or testing to have access to anything. We are having our Job's threatened and are spending hours every week trying to get appointments for tests which themselves carry chemicals that are dangerous. Please look at the actual science instead of following the rhetoric and vote no on vaccine passport requirements. Employers are already having a hard time finding workers. Schools are disrupted because of teachers that are not allowed to work. Show your pono and aloha by respecting the rights of everyone to choose what happens with their own bodies.

September 2, 2021

As Captain Kaimi Pelekai of the Honolulu Fire Department put it... Who has the right and the authority to make judgement or approval on our personal religious beliefs? How is that legally possible? And who has the right to coerce us to inject a dangerous substance into our bodies?

What is happening now is Wrong. Turning our lives upside down is Wrong. Compromising our Religious Rights, Human Rights, Civil Rights, the Nuremburg Code, our Health, is causing extreme stress and anger and it is all Wrong. Supporting Totalitarian Government is Wrong. We are exercising our given Rights to refuse an experimental substance that has now CONCEALED PROVEN NEGATIVE EFFECTS. To put us in harms way is Wrong. To inform us our "Bread n Butter" will be taken away is Wrong. To put hardship on us is Wrong. And after our years of dedicated service.

This vaccine mandate is a farse. mRNA is not a vaccine, the effects are Accelerated Auto Immunity which causes Paradoxical Immune Enhancement, which takes two to three years to develop erroneous antibody. Some of us have done Due Diligence. "Live with CDC's Comfortable Lies or realize the Uncomfortable Truths". The entire suspicious behavior over the past 10 years of our Government and Country is a (RED FLAG!). Attorney Michael J Greene gave an interview with KHON2 News stating 45,000 people immediately died from these vaccines and he believes this reported number is 'fudged' on the low side. All reported numbers for the general public are 'fudged'. The Entity that introduced Covid-19 is the same Entity that introduced the Vaccine and that is the reason we are 'out of control'. The CDC has done a wonderful job at convincing a fraction of the world that the Unvax'd are the problem, when in reality we have no pathogens to release, however, the 'Injected' do create new pathogens for release.

The CDC has sent Covid-19/Variant script to every Hospital, Doctor, Care Home, etc in the US+ on how to describe the vaccine. Unfortunately, it's the description for Yesterday's vaccine, not Today's. The FDA has been approving poisons and toxins in our foods, drinks, body care, and drugs for decades. In a year or so the CDC and NIH will have a plausible excuse of "Biological Threat" for needing to take more vaccines.

Can you promise and guaranty that the nanotechnological substance in these alleged vaccines will not harm us in any way 2 - 5 years from date of injection?????

Respectfully,

Lahilahi Heen

Aloha
I am letting you know I am OPPOSING theses vaccine passports that will go into effect for oahu 9/13. It is wrong and not fair for those who choose not to get vaccinated be discriminated on not being able to dine in or enter such facilities you are putting in place of showing proof of vaccinations. This will only hurt these businesses and eventually force these businesses to close down. Remove this mandate and allow us to freely choose what is best for our individual self, our kids, our families and also for our business.

Written Testimony You're acting like unvaccinated is a disease carrier. Vaccinated individuals can spread it, why do they think they are immune to this virus? The message you are sending is absurd. It's like turning on a light switch. Vaccinate and it's done, you are ok. Well, they are not okay, can you tell a vac person from a non vac person. Do not ethically discriminate. We are law abiding citizens and pay our share of the cost to live in Hawaii.

I strongly oppose this bill! It is not right to force people to get vaccinated to have access to restaurants and gyms.. and other social places when each individual responds differently to these vaccines...like the senior at Leilehua high school who got vaccinated to wrestle only to get heart problems that never existed prior, and NOW, no longer has the option to wrestle because of what the vaccination did to him..

So I have to chance my health on a vaccine to go to the gym that keeps me healthy and in shape (and I'm covid free) because of this bill?

NO thank you this is wrong on every level

I am strongly opposed to this bill. Hawaii State Constitution
Article 1 Section 1

All political power of this State is inherent in the people and the responsibility for the exercise thereof rests with the people. All government is founded on this authority.

Where do they get the power to mandate a vaccine passport when we the people have all the power according to a document (state constitution) that they swore to support and defend (Article 16 Section 4)?

Written Testimony Article 1 Section 2
All persons are FREE by nature and are equal in their INHERENT and INALIENABLE rights. Among these rights are the enjoyment of life, liberty and the pursuit of happiness, and the acquiring and possessing of property.

If we have the right to the enjoyment of life and liberty, why are you mandating a vaccine passport that infringes on those rights? Please state from Hawaii state constitution where you get this power to exceed your jurisdiction.

If our rights are INALIENABLE then where do you get your power from to mandate anything to the people?

I am a resident of Hawaii Island. I don't not support mandatory vaccines. People as in myself have other underlying medication difficulties and will not choose to make the decisions for other people. Medical decisions are between patient and doctor not between government. People don't need the government to protect them from them selves. Medical. Informations is personal and private and against HIPPA to share openly and freely. Putting people in the positions to check these passports are going to hurt local business and local people. I don't get paid enough at my job to ask medical information of every client I see. It's none of my business. It's isn't constitutional to require this of the people in any state. Please stand up for medical freedom and independence.

I DO NOT support the vaccine passport. It makes absolutely no sense, when vaccinated people are still carrying and passing the virus, but do not have to be tested.
We would not be in the precarious situation that we are currently in, if we had continued mandatory testing for vaccinated people entering the island.
We have allowed tourism to overrun the island, but restrict local citizens and businesses.
I will not allow the government to force me to put something into my body, that has no long term studies behind how it actually effects. This is CLEARLY not a public health issue, and has everything to do with a corruption in our government.
Please prove me wrong.
Sincerely,
Erika elmore

Written Testimony I oppose mandated vaccines. The vaccine has been experimental, only reason Pfizer was FDA approved is because money talks and people in power can influence whatever they see fit in their eyes. Let people have the RIGHT to choose, and don't segregate those that choose against the mold. Alcohol is way more dangerous and yet we sell it legally here.

Written Testimony You cannot for me to put something in my body, that's borderline rape. I don't care if someone make a personal choice but the government has no power to force the people to put something in their body

Written Testimony I highly oppose passing this bill to be passed that we must carry a vaccine passport in order to go places of business. It's discriminating if our doctor has advised us to not or it goes against our religion.

Written Testimony

Aside from religious and health concerns many have, myself included, determining how people live and what to put in their bodies should not be a governmental choice forced upon them. The CDC is continuing to gather new information and changing their view on a number of covid related items. Until there is more information and undeniable evidence and LONG TERM research, I 100% oppose. All this does is create a tool for discrimination and oppression for all people, and unfortunately many minority groups who already question the governments motives (as they should if they know their history).

Written Testimony Before you decide to take away our rights PLEASE prove that this virus exists
Since it's never been isolated except by the media spewing fear over common old!!
This is unconstitutional as well
How much \$ have you all accepted from Big Pharma to LIE?? This is a socialist
agenda leading to communism
Honor my god given right to breathe and travel !!!!!

Written Testimony Where are our constitutional rights going? Since when does the government force vaccines like this? We had a tuberculosis pandemic last year.. Where were the masks or mandatory vaccines then? What happened to everyone pushing "my body, my choice"? Give us our freedom back

Agenda Item Mandated vaccines

Your position on
the matter Oppose

Representing
Organization Self

Written
Testimony I oppose mandated vaccines. The vaccine has been experimental, only reason Pfizer was FDA approved is because money talks and people in power can influence whatever they see fit in their eyes. Let people have the RIGHT to choose, and don't segregate those that choose against the mold. Alcohol is way more dangerous and yet we sell it legally here.
