You have no business mandating what a PRIVATE business can and can't do and who they can and can't serve.

Written Testimony

Mandating a vaccine passport will inevitably cause many business to be forced to close or suffer heavily as many already have with your nonsensical shutdowns and mandates.

Enough is enough. Go ahead and do a passport for state run places. But not private business. If a business wants to serve people regardless of immunization status, let them. If people want to do business with a place that does not care about immunization status, let them. If a business wants to enforce a vaccine passport, let them. This shouldn't be your decision.

Your position on the matter Oppose
Representing Self
Organization

I am strongly opposed to this Health Passport.

Written
Testimony

1. Vaccine makers and vaccine administrators and mandators are immune from liability in the event of adverse reaction including death
2. Pfizer paid out billions for bribing doctors and suppressing adverse trial results in 2009
3. Moderna has never brought a vaccine to market
4. Every previous coronavirus vaccine has failed.
5. Every previous mRNA vaccine has failed.
6. Anecdotal friends and family have had adverse reactions including death after vaccination.
7. ZERO long term safety testing and the short term trials that were conducted were abandoned because all the lab rats were dying.
8. Censorship of scientific debate
9. Censorship of Fauci funding gain-of-function
10. Censorship of Covid Treatments and the use of early treatment
11. Censorship of adverse reactions and deaths
12. Ignoring natural immunity. Got Covid and developed immunity.
13. 99.95% chance of survival if below age of 50
14. Bloated case counts and death numbers
15. The virus will continue to mutate
16. Vaccinated can still catch the virus.
17. FDA, CDC, WHO are captured institutions
18. Virus and vaccine efficacy measured by faulty PCR test
19. Never solved lipid nanoparticle delivery problem
20. Japanese Pfizer data shows LNP accumulating in organs
21. Vaccines must give you antibody immunity. This "vaccine" does NOT do that.

22. The doctors and nurses administering the inoculation are required by law to give informed consent and they cannot do this if they themselves are not informed
23. the 14th Amendment to the US Constitution explicitly directs states not to “deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws”
24. Only authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only
25. Emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: “Authorization for medical products for use in emergencies ... require ... the option to accept or refuse administration of the product”
26. Decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki absolutely prohibits any form of coercion whatsoever to individuals to participate in a medical experiment
27. It is neither feasible nor safe to mandate experimental vaccination given the large number of COVID-19 recovered patients in the general population and the FDA/Pfizer/ Moderna protocols which excluded COVID-19 recovered patients
28. This Health Passport poses substantial risks to personal privacy and equal treatment before the law for all citizens of Hawaii as well as the United States
29. Administration of the experimental COVID-19 vaccines according to guidelines established by the CDC’s Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations
30. The public is entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials
31. The SARS 2 Covid19 virus has never been isolated and there is no proof of its existence

Written Testimony I STRONGLY OPPOSE RESOLUTION 21-194!
Do not allow this vaccine passport bill to pass. You are tearing away at the very foundation of our nation!
Freedom is the basis of which our nation was built upon. Many of us choose the freedom to not take this experimental vaccine. We have seen many side effects that this vaccine has done to many of our loved ones. Many resulting in strong, weakened heart, blood clots, and DEATH, to name a few!
Why won't you allow hospitals to use ivermectin and hydroxychloroquine as alternatives for healing!
These drugs have proven to have 100% effective rate! By not allowing this choice, you have dropped a death sentence on these people!
Once again I STRONGLY OPPOSE RESOLUTION 21-194

Amendment I of the Bills of Rights!

Congress shall make no law respecting an establishment of religion, Or Prohibiting the free exercise thereof; Or Abridging the Freedom of Speech, or of the press; or the Right of the people peaceably to Assemble, and to petition the Government for redress of Grievances.

This concerns of restricting freedom is by putting untold mandates and decrees on the Rights of the People of the Republic is Wrongfully Stealing Rights to Stand on Principles of Their Choice and Their Bodies!

Would this be a Republic Form of Government of Government?

Written Testimony State in Article IV. Section IV of The Constitution Of The United States of The Republic.

I Dare Say Not!

" I am committed against every thing which is my judgment , May Weaken, endanger, or destroy(The Constitution)....and Especially against All Extension of Executive Power; and I an committed Against any Attempt to Rule the Free people of his country by the Power and the Patronage of the Government itself."

-Daniel Webster

"Only a Virtuous people are capable of Freedom. As nations become Corrupt and Vicious, They have more need of Masters."

Quote by Benjamin Franklin

'Our Constitution was made only for moral and religious people. It is Wholly Inadequate to government of any other.' -President John Adams

Finally" It is hardly Too Strong to say that the Constitution was made to Guard the people against the Dangers of Good Intentions.....there are men in All Ages.....Who Mean to Govern Well: But They Mean To Govern. They Promise To Be Kind Masters.....They Think There Need Be but LITTLE REStraint Upon Themselves.....The Love of Power may Sink Too Deep in Their Own Hearts.....'
--Daniel Webster

These travel restrictions and fears is use in every century and regions of the world to take away the Freedoms That Made Us Such A Wonderful Country.

There Will always be in each generation events propel us Defend Our Rights and Freedoms! That We will need to Step up to The plate to Bat for the Old, young and defenseless!
! Will We Let Fears and Panic of the UnKnown Control Our Lives, Our Children Lives and Ours GrandChildren As Well!

Putting them into Horrible bondage to Good Intentions of New Style Masters!

The Rockets Red Glare Through perilous Night Bombs Bursting in the Air..... the The Greatest Generation(World War II), The 442- "Go For Broke", I Have A Dream.....(Reverend Martin Luther King Jr.), Daniel Boone Through the Wilderness Trails, Davy Crockett at the Alamo, George Washington at Valley Forge When All Hope Were Lost The Lord Almighty Bless Us With Hope!!!

Will Our Flag Still Be There? Waving For The Home of The Brave!

Sincerely
Mr. JC Anderson

Written Testimony

This bill will do two things that are unconstitutional immediately upon implementation. 1. It will create a second class citizenry, ones who are vaccinated and ones who are not, which violates "equal protection under the law" 2. You are removing a person's "right to move freely" both of these rights are guaranteed under the Constitution of the United States of America. The government is not allowed to infringe upon these rights without due process of the law.

Secondly, the vaccine is not safe for everyone. My daughter received it and the first shot she could not feel her hand or arm for a week. It was totally numb. She also had a terrible headache for three weeks. It was awful for her. With the second shot she shook uncontrollable for hours. My friend had it and immediately fell to the ground and suffered a stroke. He is still in recovery 9 month out.

Third, our country is built on freedom it is guaranteed under the Constitution, Freedom to choose our health care HIPA laws protect the health privacy of individuals so that employers cannot fire their employees for medical conditions. They are NOT allowed to discriminate based on any medical decisions made by the individual. Now you have decided that these laws and protections no longer exist? You are going to remove their right to work, provide for their family, travel freely, thus denying their right to life, liberty, and the pursuit of happiness, over a virus with a 99.9% survival rate. And make them take a drug that has been on the market less than a year and has already killed thousands not counting the ones who have been injured.

i don't feel that people who choose alternative means of boosting their immune systems and have spent their lives making health a priority should now be forced to put something in their body that has health risks in order to function in society and not be treated as a leper. the vaccines are not able to prevent transmission of this virus and the best thing we can do is protect the elderly and fragile health people and let the rest of us go out and get this virus and treat it with some of the medications being suppressed that are being successfully used around the world and work to get herd immunity. mahalo

Written Testimony I STRONGLY OPPOSE RESOLUTION 21-194!
Do not allow this resolution to pass!!
The foundation of our nation was built upon the freedom to choose! By taking this away, you are tearing away at the very foundation that our country was built upon!
The science behind this vaccine has also not been proven. If taken, you can still contract and pass on COVID to others.
Why not allow people to choose ivermectin or hydroxychloroquine as an alternative to healing?
I live alongside my boyfriend who got sick from covid twice, and both times I did not get sick at all.
Once again I STRONGLY OPPOSE RESOLUTION 21-194!

To whom it may concern,

I write to you today to urge you not to allow this vaccine passport to go into effect. I believe this will only add to the great divide we are currently facing as a state. Please listen to the concerns of the people that make up this great island. You wouldn't be in the elected position if it weren't for the people of this island so I beg you to listen to our voice. Bills like this have already begun to be retracted and halted elsewhere in the country. They have already started to see the destruction this segregation has on the community. Consider what this great country was founded on and what is now lost in our society.

Land of the free. Can't even do anything without being harassed about your mask and soon your vaccination status.

Written
Testimony

Home of the brave. They got Everyone living in fear! I never seen so many people afraid in my life. Guys wearing 2 masks while driving alone in their car. Somebody coughing or sneezing gets reactions like gunshots were ringing.

In god we trust. They are pushing science so damn hard. Trust the science. Trust the science. Then they tell you that you're not allowed to go to church. We need to come back to god.

Freedom of speech. They are censoring everything so hard right now. Everything about corona is fact checked and censored. MSM pushes a single sided narrative. Our last president is banned from social media while talibans leader is free to post. All the meanwhile we've had the esquire or whatever the fake news magazine is called is published with no trouble.

All people are created equal. Yet now we are dividing citizens according to their vaccination status. Forbidding free citizens from partaking in everyday social interactions.

Written Testimony

Born and raised in Hawaii, I have been fortunate enough to experience the “Aloha Spirit” and our unique culture and diversity of the Hawaiian people and our islands. Hawaii people are like family and are loving and friendly towards one another. When people from all over the world come to visit, they never forget about Hawaii and how they are treated like extended family. Majority of our visitors yearn to come back to visit. They often have pleasant experiences and are greeted with our friendly smiles and our hospitable personalities. However, since this whole pandemic started, it has changed in a noticeable negative way. People are not smiling, or are they? You can’t really tell now that the people are wearing face masks. People seem to be more stressed, more angry, more negative, more frustrated. To make matters worse, a Vaccine Passport Bill is being proposed on (9/2/21) with the Honolulu City Council! This is insane!! This is a HARD PASS NO!! NEGATIVE!! IRRESPONSIBLE!! DISGUSTING!! OUTRAGEOUS!! UNBELIEVABLE!! Who in their right mind would propose such a bill? I OPPOSE THIS BILL FOR ETERNITY!! This bill would cause more division and segregation among the people of Hawaii. There is already division now amongst the people. There are vaccinated people vs. the unvaccinated people fighting against one another. The media, radio, and propaganda is pushing the division even further with misinformation and half truths. They are blaming the unvaccinated for the fraudulent high case numbers of Covid at the hospitals. Testing sites, hospitals, and clinics continue to use faulty PCR test kits that have been FDA CLASS I recalled. However, the media continues to repeat that the unvaccinated people are the cause that the hospitals are overwhelmed. This bill promotes discrimination and the last time I looked, I thought we were living in the United States of America, not Communist China!! What is happening to our Hawaii and our “Aloha Spirit?” It has disappated and replaced with fear, anxiety, anger, frustration and hate! This is NOT ALOHA and this is NOT RIGHT! It is down right illegal and discrimination and we are NOT going to relive Auschwitz!! Whoever came together to collaborate with the introduction of this bill should be ashamed and should re-educate

themselves with the history refreshment of the Nuremberg Trials. ONCE AGAIN I OPPOSE
THIS BILL!!

Written Testimony

Medical freedom MUST be maintained in this country. We do not get to pick and choose which right to freedom we will allow. I strongly oppose any mandate requiring the administration of any of the COVID-19 "vaccines" to be able to conduct normal business and day to day activities. The idea that the unvaccinated people are the problem and should be denied medical freedom and access to sports, restaurants, enclosed spaces (to name a few of the restrictions being mentioned), is denying that vaccinated people are still carriers and spreaders of this virus. Every person must be accountable for the spread of this virus. Every person MUST be allowed the freedom to choose what happens with their own body. This country is a free country-many women and men have fought and died to protect. Now the enemy has turned to domestic-rather than foreign and the people are left to fight for their own freedoms. This mandate is unconstitutional and MUST not be allowed.

Written Testimony

I STRONGLY OPPOSE RESOLUTION 21-194!
Do not allow this resolution to pass. The very foundation of our country is built on the freedom to choose.
You are destroying peoples lives and businesses by allowing this to go through. I live with many people who have had COVID and have survived without any long term side effects. I am a healthy, young 27 year old man with a strong immune system. I have also lived alongside people who have gotten sick and not once have I gotten sick!
Do not force an experimental drug on us, with proven side effects!! Many resulting in death!
Allow proven alternatives, like ivermectin and hydroxychloroquine to be used as healing alternatives for this sickness!
Once again, I STRONGLY OPPOSE RESOLUTION 21-194

Aloha Honorable Representatives,

Written
Testimony

My family and I strongly oppose this resolution. The "vaccine passport" initiative is a direct violation of our basic constitutional rights. It is also a HIPPA compliance violation. Moreover, this resolution illogical, the reason being; The science has proven that Vaccinated People can still carry heavy viral loads and are capable of spreading COVID19 at the same rate as Unvaccinated people's. Therefore, implementing a "vaccine passport" would do nothing to lower the count of COVID19 cases and would instead create mass division and senseless discrimination. We the people have the right to choose what is best for us medically, and a vaccine may not be the healthiest choice for everyone. I believe it is safe to say that trying to coerce an individual into taking the Vaccine by isolating them is irresponsible and dangerous. The reason being, everyone's medical history and needs are different and the vaccine is not a safe option for everyone. For the sake of the People of Hawai'i please kill Resolution 21-194.

I strongly oppose this bill! How dare you even consider something like this when this 'Covid-19 virus' is still not proven to even exist! This so called 'vaccine' is still under EUA and not fully approved by the FDA, dispute what the media says. How is this even a pandemic when it is known to have a 99% survival rate? Please consider those 10's of thousands that cannot take the 'jab' due to religious, or medical reasons, you will ostracize them from Society. The mental, economic, and health impact will catastrophic. Bottom line is, this bill is taking away my constitutional freedoms.

I STRONGLY OPPOSE RESOLUTION 21-194. A vaccine passport is unconstitutional. It breaks down the very fiber of our democratic society. We live in a country that was built upon the freedom to choose!! We are choosing to not take an experimental drug. We have looked at the science behind these vaccines and have seen the harm and damage that it has done to many of our loved ones. Why would this state not look into ivermectin or hydroxychloroquine as an alternative? What do you have to lose? By not giving people an opportunity to choose these proven, safe, alternatives, you are KILLING MANY!!
Stop the vaccine passports!
Once again, I STRONGLY OPPOSE RESOLUTION 21-194

Aloha,
I am absolutely HORRIFIED by the vaccine passport program! I am writing about the 21-194 bill and absolutely oppose this bill!!!

Written Testimony

Discrimination Divides. This defies logic since vaccinated or unvaccinated, all can still contract and transmit covid. And this was possible from the get go if anyone bothered to read the EUA docs! What a civil rights nightmare. Have you thought about those with natural immunity? Those who have documented vaccine injuries? Those who are allergic to one or more of the ingredients? Those who care about what they put into their bodies and are concerned with the fact that clinical trials for these vaccines are NOT over and there is never a one size fits all product out there? Have you read Pfizer's rap sheet? Those who just want true informed consent? Those who have a loved one already injured or dead by this vaccine? Those who hold their body sacred? Those whose religious beliefs conflict with vaccination? Have you thought of the psychological ramification of this decision on individuals, families, friends? on CHILDREN? Or the economic hardship this places once again on businesses, individuals and families?

You are allocating money to push vaccines!!! Vaccines that are NOT effective against infection and transmission. Body autonomy is regarded as sacred and our own right. Please invest and push therapeutics to keep people OUT of the hospital. I encourage treating in-clinic rather than just at the hospital. If vaccines work against hospitalization and death, then a sick vaccinated or unvaccinated person should pose no differential health risk to the practitioner.

Every choice you make and impose is against the people of Hawaii. The very ones who may have voted you into office.

I literally can't believe I am experiencing this in my lifetime. At this point all I can do is voice my disappointment, vote only for those that support and uphold civil rights and liberties, protest, support those businesses that don't discriminate, and raise children that find your actions abhorrent who vow never to repeat the horrors of history.

I hope you can clear the lenses from which you have been viewing this all unfold. Think of the children and people who cannot take this vaccine or simply choose not to do so. It is our right to choose. A mandate and vaccine passports discriminate and will not be allowed in Hawaii.

Thank you for reading this,

Tamar Sprecher

I oppose RESOLUTION 21-194 for the following reasons:

1. I believe it violates our freedom of movement.
2. I believe it will promote segregation in our community between the COVID-19 vaccinated and the COVID-19 unvaccinated while failing to accurately depict each individual's current immunity status for COVID-19.
3. I believe it will create unnecessary hardships on certain small business owners in Hawai'i because they will be required to now screen patrons at the door, know how to spot a fake vaccination passport, be ready to address those that refuse, and possibly face negative reactions from those that would advocate for human rights when many small businesses are already just barely surviving.
4. I believe it violates our right to healthcare privacy. Vaccination is, and should remain, a personal decision between each person and their respective medical care professional(s) – not the state government nor the public. How does this privileged information stay a private matter in a public setting when any passerby or patron knows that only the vaccinated will be allowed to enter certain establishments while only the unvaccinated will be turned away? That once personal bit of information is no longer private in this scenario and in many cases it will not have been given via free will. Instead, it will have been given because of its requirement to be given in exchange for a good or service that is necessary to an individual's overall health and well being.
5. Should this resolution pass, the only alternative for those that wish to remain unvaccinated for COVID-19, which again is a personal choice, is the deprivation of certain goods and services at establishments across the state that will be requiring vaccination passports or else the reluctant subjection to segregation in a place that is known world-wide as "the Aloha state".

Written
Testimony

For these reasons mentioned above, I do not think RESOLUTION 21-194 should be passed.

Written Testimony

I strongly oppose this resolution. The resolution makes clear that its purpose is to increase vaccination rates--in other words, to compel people who have not already chosen to get vaccinated to receive the vaccine. It is wrong to try to coerce people to receive a medical intervention by restricting their access to public accommodations such as restaurants and gyms. What if someone who is unvaccinated is out with their children and forgot to pack lunch? Are they unable to feed their children at a restaurant because of their own personal medical decision not to receive the vaccine? This resolution also imposes too high a burden on businesses to enforce: businesses should not be responsible for policing their customers. Businesses will be harmed by a decrease in business, and that is unfair to businesses who have already suffered so much during this pandemic. The CDC and other health authorities acknowledge that this vaccine does not stop the spread of the delta variant--so pushing this vaccine, at the expense of individual freedom, does not make sense. Everyone has a right to make their own medical choices, and the Honolulu City Council must respect that right. This bill is outright coercion and should not pass the City Council.

Written Testimony

I am totally against a vaccine mandate. It is unconstitutional to tell us what to with our bodies. There isn't enough scientific studies to say that this vaccine is safe, it is still is under emergency use. The one that is approved won't be available for 2-3 years. It does not stop the Delta variant. The people that are vaccinated are the ones carrying the virus. The minute the Governor stopped letting vaccinated people not be tested is when cases spiked. Hawaii was fine until the influx of mainland people came without being tested! Business will suffer immensely if you let this happen which means economy will die again. More families on welfare, food stamps and more homelessness. Government should not control our freedom and livelihood. You can't dictate what our beliefs are, our body our choice! Don't punish small or large businesses, this is crazy!

Aloha no Kakou. My name is Sean George I was born and raised on the island of O'ahualua. I am writing this testimony in hopes that you folks stop resolution 21-194. We love to boast to the world that we are the land of Aloha and we accept all who come with open arms. No matter what your personal choice weather you chose to get vaccinated or not that is your choice and I respect it. The problem that I have as a Kanaka oiwi is when you want to shun those from society because they refuse to get the shot. That right there is pilau and hewa and we all know it. We midas well start carrying around health cards to make it fair. Since we in Hawai'i all know that heart disease and diabetes are a huge killer in our Hawai'i. If I'm selfish for not wanting to put a shot in my arm that has zero longterm studies then that means more than 65% of Hawai'i is selfish for not getting healthy for there ohana. At the end of the day no matter your choice I love you the same and will not treat others differently because of there personal autonomy and choice. Let's not head towards communism because that's exactly what this vaccine passport represents. Ask anyone who is from a communist country and they will say the same thing. Make the right decision for all not some. Aloha malama pono

Written Testimony

The vaccine does not stop the spread. Look at the science And look at Hawaii's numbers. This started AFTER we stopped testing vaccinated persons coming into the State and was carelessly blamed on unvaccinated persons. I personally know as many people who were vaccinated and caught this second round of Delta variant as who were not vaxed. I personally know no one who landed in the hospital vaxed or not. This is a very bad flu and vaccines are not going to stop the spread. There are now doctors out there willing to talk about this fact. Dr Christina Parks from Michigan, Dr Ryan Cole in Idaho has spoken openly about this (against this storm of misinformation) and our own Dr Nathan King here in Kona has publicly written to his patients about the misinformation about the vaccine to name a few I have come across. This is not an answer to the pandemic and believing that is it, won't make it so. The truth will come out in a year or several and this science will go down in history as looking pretty crazy like many things. Choose wisely.

As a citizen of Hawaii for over 30 years, I strongly oppose vaccine passports in Hawaii and in the USA. When does the local government supersede our Constitutional and God given human rights? I would like to address Mayor Victorino and Governor Ige with a few questions.

Do you remember at the peak of the COVID outbreak? There were no vaccines, and Hawaii survived just fine? Did you forget that God created us with an immune system to fight disease? I had covid and I treated myself with Vitamin D3, Vitamin C, and Zinc, and I was well within a week. Many other people I know have used drugs such as Ivermectin & Hydroxychloroquine and were 100% healed within days. These treatments are being hidden from the public, lied about, and as a result, our health freedom and medical rights are being infringed upon by your oppressive vaccine mandate.

The public is not given a choice, but only a mandate to subject their bodies to a vaccine or suffer consequences. Our Keiki's are being threatened from attending school or from participating in sports and other activities if they do not subject to the vaccine? Our young adults are being intimidated and bullied into participating into your vaccine mandate or they cannot attend college. The hard-working citizens of Hawaii are being forced to submit to your terrorizing vaccine demands, or they can lose their jobs and not to mention, their long-awaited pensions. The political leadership leading this vaccine campaign are a disgrace to the citizens of Hawaii.

Have you forgotten about the important historical document, The Nuremberg Code? This international document was established in 1947 and was specifically created to regulate the principles of conducting medical experiments and procedures on people. It provides protection from accepting any forced medical procedure or therapy according to Article 6, section 1 & 3.

Basically, The Nuremberg Code makes FORCED vaccination illegal – along with all other forced medical procedures and therapies. All forced medical procedures of any kind is outlawed according to the Nuremberg Code. The code has ten standards concerning medical procedures and I consider number one the most important. It states, "the absolutely necessary condition for conducting an experiment or medical procedure is the voluntary consent".

You politicians who are forcing vaccine mandates and vaccine passports on the people of Hawaii are guilty of medical tyranny. You are in violation of the Nuremberg Code, and you will be held accountable. You give freedoms, perks, and privileges to the vaccinated, while at the same time, you are oppressing the unvaccinated by threats depriving them of rights or privileges, including the right to travel and use public facilities. Your vaccine mandates and vaccine passports are crimes against humanity, and I oppose this evil and destructive plan.

Regarding the City & County of Honolulu RESOLUTION 21-194 – COVID-19 HEALTH CARD

I stand in strong opposition to this resolution which uses an embellished pandemic as a tool to coerce and force me to do something that I don't want to do and that will segregate and relegate individuals into classes, the vaccinated versus the unvaccinated.

A recent Star Advertiser article was titled, "Hawaii flu season sees only 1 death amid coronavirus precautions." Can the flu miraculously disappear in Hawaii and the nation? Read that article and it's not hard to realize that something is very fishy. The article's description of erroneously inflating flu death numbers in previous years sounds familiar, doesn't it? And how can it be that the whole nation in 2020-2021 had less flu deaths than in Hawaii alone in 2017? 'Auwe, do you really believe that the shutdowns and mandates wiped out the flu? Really? It's not hard to see that they replaced flu deaths with COVID-19 deaths, especially when the total number of deaths over the past few years have remained status quo. Yes, the flu and COVID-19, another nasty type of flu, is real and deadly, but this fear mongering and power grab is deadlier and even demonic as it's being used to change our political status quo of freedom to tyranny.

Our freedom of speech, thought, and religion are other foundational components of ea being destroyed, which contributed to this ill advised resolution. Media and government censorship has led to skewed and unbalanced info that has instilled fear and withheld viable and fundamental treatments that could significantly reduce COVID-19 / flu hospitalizations. Yes, our health care workers are to be appreciated and are overworked. Unfortunately, they can't see the forest for the trees and how they are being exploited and used as political pawns to further the narrative of doom and gloom.

Written
Testimony

Think about it, before COVID-19, was there ever a time where you went to see a doctor for an illness where he'd send you home or even refuse to see or treat you? Or, how about being told to quarantine in your home without a treatment plan and to just stay home and go to the ER if it gets so bad that you no can handle?! Instead, to this very day, they continue to refute the work of frontline doctors successfully treating their COVID-19 patients despite the opposition. They disparage these heroes along with their treatment protocols and medicines that would alleviate the stress on hospitals. They suppress research, science and treatments that go against their narrative while also cherry picking ones that support it. By the way, such censorship is also promoting an immense amount of ignorance where many people don't even know what's happening in Australia or about the many people around the world pushing back and fighting against this attempted power grab as world governments are using the pandemic to drag its citizens to authoritarianism, socialism and communism.

I recently became aware of an effort to use Hawaiian culture and history as another attempt to support such mandates under the guise of "What would our ali'i do?" and using the historical anecdote of their support of vaccines. We must not, however, forget that the same western civilization and forces that used our ali'i to promote vaccines also coerced and manipulated them for a land grab and eventual overthrow of the Hawaiian Kingdom! This is a good place to also encourage all those who stood in opposition to kū'ē construction on Mauna Kea to kū'ē this attack on our personal ea / sovereignty. Isn't our choice of what we put on and in our kino, our body, as important, if not more important, than the right to choose what we put on or in our 'āina?

A concerned citizen recently posted this: "To those of you cheering for the mandates and passports: One day they will come to force something on you that you aren't comfortable with. And you won't be able to say a word because you supported our freedoms being taken away today." Just like after the Kingdom of Hawai'i was overthrown and they banned our 'olelo makuahine, Hawaiian language. The genocide of colonialism, authoritarianism, socialism or communism is many times more worse than any pandemic.

Though this resolution and its supporters are promoting it under the guise of kuleana, care, and concern for others, at its core is really loko 'ino and vindictive hate to force and punish those who stand in opposition to them. It's very palpable, tangible and real; though hidden within a nicely packaged veneer, it's there; you can see, feel and hear it.

Finally, the very core of the issue is spiritual, truly a fight between good and evil, light and darkness. God is so patient, and it is said that His long suffering and patience is salvation. But there will come a time where He will need to intervene at the very last moment before we destroy ourselves.

I hope and pray that we can halt this slide to destruction to prolong our ea and postpone this final destruction.

Over 2000 years ago it was prophesied that there would come a time where no one can buy or sell in the whole world without a mark. Over the past few decades, technological advances have made this somewhat plausible. Now, however, it's as clear as day, not only technologically, but politically, as clearly seen in this resolution.

For these reasons, I strongly oppose this resolution.

I 100% STRONGLY OPPOSE THIS BILL!! This is against the will of We, the People. We resist tyrannical governmental overreach and control. You are to PROTECT & SECURE our God given rights and freedoms - NOT to trample them!!!

Hawaii State Constitution
Article 1 Section 1

All political power of this State is inherent in the people and the responsibility for the exercise thereof rests with the people. All government is founded on this authority.

Written Testimony No where in the constitution does it give them the authority to force the people to do anything. And as government officials according to Article 16 section 4 they swore an oath to support and defend the constitution of the United States and the constitution of the state of Hawaii.

No where in these documents does it give them as indentured servants of the people the right to mandate us to do anything that infringes on our rights.

And according to article 1 section 2 of Hawaii state constitution it says that these rights shall not endure unless the people recognize their corresponding obligations and responsibilities. It's our responsibility and duty to let them know that they are exceeding their jurisdiction! Vaccine passports ARE NOT the will of the people!!

Written Testimony I oppose vaccine passports as it is discrimination against those who choose not to participate in this global medical experiment. Please honor the Constitution of the United States. Let us be United and free. Freedom of choice is necessary to keep peace and uphold health. Please study the global results of mandates. In Sweden, there have been no mandates, and people are healthy. In Israel, where the government forced the people to receive the gene-based, experimental shots, people are dying and the numbers of covid cases continue to climb.

Written Testimony

Aloha, I write to you today as a concerned Hawaii resident. Opposed to the idea of a vaccine passport. I've lived in Hawaii my whole life, my wife is a kanaka maoli of this land and we call this place home. The idea of government making choices for me and my family and how we autonomously live completely abhors me. This issue simply comes down to one issue. Freedom. Freedom of choice and freedom to live. Never in the history of our beautiful nation has this type of effort been made to pressure and influence family's and communities alike to do something we're reluctant and uncomfortable doing. Every person should have a CHOICE weather they are for or against getting vaccinated. I'm am simply for CHOICE. We must not force people to choose one way or the other. I know it's been said "no one is forcing you to take it, only encouraging" but by putting us, the people of Hawaii, into an ultimatum of our families we'll being (our jobs, the ability to go into stores, to do daily things) and our free choice to live as an autonomous person, you have already chosen for us. By demanding and mandating these things your forcing a decision we don't want to make. You've backed the people into a corner. You by making these choices are taking our choice away and by so are taking our freedoms, liberties, and Rights away. The very rights you swore an oath to defend. The very people you were elected to defend. The constitution must be at the fore front of all decisions we make, if it's not, we are no longer living by the righteousness that built our great nation, we are no longer living as proud citizens of the USA. Make PONO choices for the people. Live by the oath you swore to. Live and spread Aloha to all people.

Why is our county, elected officials totally neglecting the protocols that have been successful in different parts of the world. Look at the different states in the US the different dynamics. When will the state as well as counties see the obvious differences from state to state? When will they see that this virus is not being managed from a scientific standpoint but a political? The media is not asking the hard questions. They are the mouthpiece that is fueling your agenda. It is blatantly obvious to some and oblivious to others. When will you be issuing your yellow stars? When is Hitler going to reveal his head. History shows that man never learns from history and it is obvious that you city council has failed history. Look for successful protocols and tell your medical individuals to stop playing politics and actually save lives.

I strongly oppose this motion.

1. It is not based on facts. Anyone who has received the vaccine is no less likely to get and give the virus to those they come in contact to. That is know, and proven, as with other vaccines.

It is not preventing transmission. The vaccine ONLY reduces symptoms for the carrier. This itself makes it unclear as to any reason to mandate.

2. This vaccine, as with all vaccine, presents risks for those taking it. Strokes, heart inflammation, auto immune disease, etc.

With zero affect on transmitting to our neighbors, we have every right to make our own decision as for what risk we prefer to take.

Written
Testimony

3. By segregating based on vaccine status, we are easily reverting back to racial segregation. Minorities are more vaccine hesitant, and even then, EVERYONE deserves the chance to learn about long term effects on health with any medical decision. Instead of forcing those who have concerns to inject themselves before they can be a part of society, try practicing empathy and creating opportunity for those to learn and educate themselves.

Although, that brings me back to point 1 which again takes away any factual motive for mandate. This (and all vaccines) DOES NOT PREVENT TRANSMISSION.

There is also developing information on the potential EXTRA risks for those vaccinated who are now being exposed to new variants.

Let people choose for their own bodies, we want freedom.

Written Testimony Aloha Kakahiaka
This new plan is not secure.
My neighbors from Honolulu came to visit their beach house for a week. They invited me over for dinner, however I didn't go, thank God.
A week later I get a text telling me they're sorry they cannot hang out with me because they tested positive for COVID
Now here is the clincher...
These 10 guys in their 50s to early late 70s are all previously vaccinated and still tested positive for Covid. So with that said, it is NOT SAFE to assume vaccinated people are OK just because they can show a card

Aloha,

As elected officials and people in positions of power, I am writing to pose some questions that I would like for you to consider and then respond to.

Do you believe in a person's right to Bodily Autonomy (i.e. freedom to choose ANY and ALL medical procedures including injections)?

Do you believe in a person's right to Medical Privacy?

Are you aware that more people have died annually from the flu in Hawaii than annually from Covid-19?

Do you believe that having a continual State of Emergency is psychological abuse to the citizenry?

Do you believe that the State of Emergency, constant media bombardment, and hyperbole have stressed the citizens of Hawaii and negatively affected their immune systems?

Written Testimony Please, please:

End the State of Emergency

End the Vaccine Passports (and pass legislation outlawing this practice in the private sector)

Allow parents to choose whether to mask their kids

Follow the lead of some other states such as Montana, South Dakota, etc..... and give people their freedoms back. Those who are afraid will find ways to enter back into society.

Think about the long-term implications of your decisions (especially for our kiki)!!

Remember that we live in a free country and you also have the right to stand up for that!

Do not fear the hive mind mentality. Be courageous and help change the course of this atrocity!

Mahalo for your time and please respond to these questions. Preferably "Reply All".

Dan Lanterman
Kona, Hawaii

Written Testimony I strongly oppose Resolution 21-194. Its against our human and living rights. This is absolute madness that this is even being considered! We as human beings have natural immunity which has been proven to be 13 times more effective than the vaccine. No government has the power to tell us what to do with our bodies. It should be a choice! This will also be a huge blow to our local businesses that survived the first shut down. Stop filling your pockets and start taking real care of Hawai'i and our people.

Written Testimony This is still a free country and will remain so as long as bullshit agendas such as this stay in countries like China and North Korea. Those in favor of this need to be removed from their position of authority because it is jeopardizing the livelihood of the good people in Hawaii. The vaccine doesn't work. Covid isn't as dangerous as people think it is. I fully oppose this agenda.

Written Testimony I STRONGLY OPPOSE RESOLUTION 21-194, vaccine passports!
This is discrimination at its best. This country is built upon the foundation of freedom!
TRUTH, LIBERTY AND FREEDOM!
Research the science behind these vaccines and see how you are killing people!
Allow people to have an alternative by allowing ivermectin and hydroxychloroquine to
be used as a way to heal the sick!!
Do not allow this to pass!!
Once again, I STRONGLY OPPOSE RESOLUTION 21-194!

Written Testimony I Helen Seiuli oppose this bill as it violates my rights and amendment, also I can't let the government tell me what's good for my body and what's not so if I can't have the vaccine then I can't have access to certain things? This type of control or tyrant is unexpected as a citizen we have rights and freedoms to choose and shouldn't be mandated or lose or jobs.

Written Testimony

As a breastfeeding mother there is no evidence that this vaccine or the tests are safe for me to pass on through my breast milk to my baby. It is absolutely horrendous to mandate I get either one of these and risk harming my baby. Hawai'i government should be ashamed at forcing anyone to do something to their body that they do not want to. It is unconstitutional. There is no long term safety data. There is data that the effectiveness wears off, does not stop infection or transmission, so why force us to get it?! There is also data that natural immunity is better and longer lasting than vaccine immunity, so why ignore people who are naturally immune?! There is also data that early treatment works at saving lives, so why are you allowing people to die in the hospital?! These are crimes against humanity!!

Written Testimony

I oppose this Bill!! It is our right as a human being to decide what is put into our bodies! As we know through human experience one thing that might be good for one will not be good for all. Since this experimental vaccines have started to be put into people I have witnessed first hand many vaccine injuries!! And why would I want to put something in my body that if I have any side effects from it the company is not responsible for it and it could possibly kill me! I trust my immune system 100 times more than I trust the vaccine and that is my personal feelings and I have a right to feel this way! I do not understand why this is not a choice. I think it's beyond fucked up to convince people that the unvaccinated are a threat to society! And now I might not be able to do countless activities indoors because I'm not vaccinated! If that's not taking our rights away I don't know what is! This has gone far enough! As people we will stand together and fight for rights and freedoms!

Written Testimony

I opposed this resolution. For one, it seems unconstitutional, against our rights as Americans. Also, it's as if we're requiring people to be vaccinated by force. I am fully vaccinated, but I really don't think that those who are unvaccinated should pay the price of not being able to use their gym membership or any other activities. Also, these places that require only people to be vaccinated will lose customers because of those who choose to be unvaccinated.

Written Testimony

According to the state DOH, the delta variant of Covid-19 is currently responsible for nearly 100% of new cases in the state of Hawaii. The current vaccines and in particular the Pfizer vaccine has been shown to be ineffective in preventing the infection or transmission of the delta variant. This has been attested to by the director of the CDC Rochelle Walensky, and has been confirmed by studies by the Mayo Clinic and Israel. Furthermore, it is now clear that vaccine efficacy decreases over time, which is why boosters for all three vaccines currently in use are now being recommended for certain groups. Based on the scientific evidence of decreased efficacy of the vaccine over time, and the ineffectiveness of the current vaccines to prevent the infection of or transmission of the delta variant, there should be no adoption of a vaccine mandate. Furthermore, the practice of treating vaccinated and unvaccinated groups differently by requiring additional testing or barring access to public and private business and services is unjustified discrimination, as both groups are able to be infected with and thus transmit the delta variant.

Written
Testimony

I oppose any vaccine passport as the vaccines remain in the experimental stage, lacks sufficient clinical trials and the long term side effects from the vaccines are not known. These experimental vaccines do not prevent the transmission of covid as they claim and have killed over 12000 people. Vaccinated people can still get and spread Covid therefore restricting unvaccinated people access to public spaces while allowing vaccinated people access in hopes of stopping of controlling Covid makes no sense. Administering these experimental vaccines are a crime against humanity . Mandating people get these vaccines or lose their job is a crime. No mandatory vaccines. No vaccine passports. Thank you.

Written Testimony I do not agree with the mandatory Covid-19 vaccination that the state of Hawaii is implementing on its residence! In addition, the Vaccine Passport allowing only vaccinated individuals in restaurants etc. This is unconstitutional and divides the people which will be devastating to our already fragile community!

Written Testimony

I am strongly opposed to this bill and so is the majority of Americans and even the majority of the worlds population. Recent polls have shown that 60% of Americans appose the vaccine. Tens of thousands of people have marched against the Covid-19 measures and government sanctions targeting the unvaccinated.

With this many people in opposition from around the world and with in our own communities, why are we trying to create such a divide amongst us, over nothing! I say nothing because that is what it is! Look at our recovery rates vs the death rates. It is simple math. 99% of people that contract the virus survive. Why are we ripping families apart and killing people's livelihood with sanctions with a less than 1% chance of death? We have been lied to! They said that this virus was deadly, and that there would be people dropping like flies! Why haven't the homeless been dying? Why are we bending to such a week virus to allow it to have such control on our lives? We need to wake up, we are loosing our freedoms. You may think that you are helping to rid the world of a virus when in actuality you are killing humanity by stripping us of our freedoms! Give us the choice to take care of ourselves, we are stronger than you think!

I Oppose resolution 21-194. I don't believe we should have to show proof of vaccination in order to participate in activities that everyone else gets to such as eating out and going to the gym. Not only is it discrimination but it doesn't make logical sense since those that are vaccinated also spread the virus just as easily as those that are not. If the unvaccinated have to be tested, it would only be fair that the vaccinated should show proof of negative tests as well since they could unknowingly spread the virus. This is just a way to punish those that aren't following the state's recommendation to get the shot. It's completely unconstitutional.

-Erika Daley

This is not beneficial to anyone nor right. This violates HIPAA and everyone's rights. It doesn't matter if you are vaccinated or not-I oppose this wholeheartedly as a health care professional, a citizen, and a contributed to Society. It also makes no sense that small biz have to deal with this and places like grocery stores or large stores like Home Depot Walmart are exempt. There is no evidence that restaurants and such are to blame for viral community spread. Let's not kill the economy or citizens freedom. At least let's have a vote!

Personall, I am not anti vax, I actually very much believe in the mRNA technology, and have been on a deep dive down the whole genomics revolution and where that science is taking us, and have invested a large portion of my net worth into the industry because I believe in its potential.

It's actually quite amazing and frightening at the same time on where the future of genomics ☐ will bring us.

That being said, even though I believe in the science, I personally chose not to

Written Testimony

Be vaccinated!! I make this choice not because I'm listening to some conspiracy theorist nut jobs social medias post (believe me I've read multiple books on the subject and have done my research); I chose not to be vaccinated though because of how hard this vaccine is being shoved down our throats, and that people are not being given the freedom to decide weather or not a experimental new treatment gets injected into their own bodies or not. Right or wrong the choice of what goes into your body is your individual choice, and is no one else's business. To shun people from society because they don't make the choice that you prefer will lead to much greater problems to come.

Personally, I am not scared of covid because I've had covid and it had minor effects on me. I have zero pre existing medical conditions, I am relatively young, I work out daily, eat healthy, and take lots of vitamins, and overall feel very healthy, and if you look at the data

fairly, I probably have less than a 1% chance of being severely effected from covid and that is scientific fact based off of data from my categorical risk. If the true risk were greater then yes I probably would feel the need to get vaccinated. But the risk is not so great for my self. Other people may feel differently and it's their choice to proceed as they see fit with what they do with their bodies.

I do though feel the need to stand beside those who chose to keep sovereignty over their bodies.. when you tell someone it's their choice, but if you don't make the choice I want you to then you can't travel, hold a job, go to a restaurant, or in some place can't even go to a grocery store, then that is not a free and fair choice at all. This is a very slippery slope we are headed down, and I will always side with Freedom.

As for your non argument of protecting others by vaccinating. If your vaccinated your up to 93% protected from becoming very ill, but you can still catch covid and spread covid either way. If your vaccinated then your protected from serious illness though, and you should have nothing to worry about. If I chose not to be vaccinated and I get really sick, or I spread it to another who is also unvaxed and they get really sick, then that's on us and you should feel no remorse for us if We should die, because We freely make this decision at our own risk.

So I guess my point to this post is to 1. Educate your self on the true science and stop listening to these media talking heads. 2. Make the medical decision you think is best for you 3. And then mind your own business

Because if you are vaccinated then you are protected from severe illness and death and what I chose to do does not effect you.

I oppose vaccine passports! I feel this is completely unacceptable for either our government or private sector to impose upon the people the requirement that we show proof of Vaccination to just simply be able to participate in a normal society. This is not giving one freedom nor does it give one, individual liberties to make decisions for themselves. Which i believe violates our 14th Amendment.

Written Testimony

I had terrible adverse reactions to all the vaccines that were given to me in the late 90s when I was at Boot Camp. I have not been the same person since. I have spent countless thousands of dollars trying to heal myself of autoimmune disorders. I'm homozygous for the MTHFR gene mutation, which makes it way more challenging for my body to detox, especially heavy metals. A normal person's body can eliminate these toxins through natural means, my body does not. I am also hyper-sensitive to any pharmaceuticals, including over-the-counter drugs. I have severe reactions to most everything I've ever taken, including antibiotics. I do not trust that I would be OK taking an experimental vaccine, even if the FDA says I would be OK. But because I am choosing not to get the vaccine I am selfish, I am dirty, I am a stupid anti-VAXer/conspiracy theorist. My daughters and I have had Covid, and it sucked, but I do not regret not getting the vaccine and I still will not get it. But now all the hard-core pro-VAXers are siding with politicians who want to revoke mine and my children's rights to live, to commerce, to interact with society, because we won't get the vaccine. To me, it really does resemble Nazi Germany and how they singled out the Jews. I wish people would acknowledge the fact that despite your vaccine status, you can and do spread Covid. It's not just the anti-VAXers spreading it; It's the vaccinated as well. We are all scared, thanks to the incessant fear mongering by politicians and the media, and I think we're all just trying to do the best we can to figure out what is best for our lives, and our families. We need to be imparting way more grace, understanding and compassion than we have been. The fact of the matter is we are all going to die at some point; that is the only guarantee life offers us. We are not guaranteed safety or protection. My heart is broken at the nonstop fear and judgment towards people choosing not to get the vaccine. It's not a cut and dry decision. There are numerous reasons why people will not get it, and it is perfectly legit not to trust vaccine manufacturers. I absolutely support a person's decision to get the vaccine and I support their decision not to. I am asking for the same support.

It saddens me to see the ALOHA being sucked out of the islands in an effort to segregate and divide humanity. We are all in this together, Vaxed or unVaxed, it is time to come together. The small businesses are the ones that get hit the hardest and as we know have been hurt tremendously this past 1 1/2 years. I have Vax and UnVax friends getting Covid so there is no proof this Vax is working to the capacity as was first stated when it was introduced in Jan. The small businesses will be held accountable for any mandated Vax with their employees having adverse affects, not the gov't nor the manufacturer. This will only continue to hurt our businesses, small and big in the long term. Let's focus on Health and Well-being vs restricting people based on private medical information.

Written Testimony

I STRONGLY OPPOSE Resolution 21-194; URGING THE CITY ADMINISTRATION AND THE STATE OF HAWAII TO IMPLEMENT A COVID-19 HEALTH CARD FOR ESTABLISHMENTS AT HIGHER RISK OF TRANSMISSION OF COVID-19.

The Committee on Transportation, Sustainability, and Health should immediately defer the above Resolution as it infringes on the rights, responsibilities and liberties of a free and independent people and society. The current resolution has local government overreaching to enforce on its citizens and businesses policies/orders which disrespect and disregard the sovereignty of our individual freedoms.

Vaccine passports ARE NOT necessary as businesses have the freedom to create and enforce their own health and safety policies based on their own principles and sensibilities and Individuals must retain their right to vote and participate with their dollars to support businesses which promote values and practices similar to their own.

The vaccines are widely available and those who want to receive it have already done so. The inoculations have not been proven to stop the contraction or transmission of the virus, only to mitigate negative health outcomes, as such they should remain optional. Large populations of Honolulu have contracted COVID-19 and recovered, granting them considerable immunity which is not addressed or accommodated for in the current Resolution, an omission which is equal to discrimination and natural/civil injustice.

Let the People Decide! With no proof the current inoculations stop contraction or transmission, a mandatory vaccine passport does nothing but hurt our economy and trust in local government. We do not want your mandates and we do not need your help to make decisions for ourselves, our families or our businesses. Let the people and local markets dictate the response to this pandemic and have the Mayor and City support the will of the people.

I make this testimony of my own free will with no undue influence. Thank you for your consideration.

Aloha, [SEP]

I am writing in opposition to the proposed Resolution 21-194, vaccine passport system and any further expansion of such a policy. First and foremost vaccine passports are a form of coercion, discrimination, and are a violation of human rights. These mandates infringe upon our 14th amendment rights as they are a direct deprivation of personal liberty.

To propose such a system given that the vaccines do not prevent the transmission of covid is dubious at best. For example considering the most vaccinated country Gibraltar, have recorded 5,332 covid cases and 97 deaths out of a population of 33,679; yielding a 16% infection rate and a .3% mortality rate from the total population. Gibraltar's vaccination rate is 116.3%, which should show less covid cases and deaths. [SEP]

Written
Testimony

Conversely, the one of the least vaccinated countries, Nigeria, with a much larger population of 212,390,779 has 193,013 covid cases and 2480 recorded covid deaths; yielding a percentage of .09% infection of the total population and a .001% mortality rate. Nigeria's vaccination rate is 0.7%.

Furthermore, here in Hawaii we are a state with a population of 1,360,301. Our covid cases are 63,957 with a 5% infection rate and covid mortality percentage of .04% of the population while we have a vaccination rate of 60.4%.

What do the numbers tell us? That the currently available vaccines have little positive benefit and possibly a detrimental effect on the populations that they are administered to. In Nigeria, they have used ivermectin for River Blindness which has also been effective against Covid-19 outbreaks. When administered it would lead to recovery from Covid-19 within 48 hours. Countries like Israel and Japan are now looking into alternative treatments and are studying

the use of Ivermectin because of the low case counts in densely populated countries like Nigeria. Ivermectin has been used for over 50 years, not only do we know the side effects, but we also know the long term effects.

As more information is revealed about covid vaccines, evidence suggests that they are much less effective at preventing covid mortality rates and illness than advertised by their manufacturers. Further more, a Pfizer BioNTech briefing document from December 2020 shows statistics of adverse effects being higher in the younger tested population. I would also like to note that they only did a follow up 2 months after the 2nd dose was administered. This makes one wonder what the long term effects are, but we have no data on them because there is no longer a control group available. Every person within that trial is now fully vaccinated, according to a few online sources.

Another thing to consider are the constant changes in guidelines. Masks are effective, and are no longer effective. Who is considered fully vaccinated when there are more booster shots? We are being guided by opinions, not facts. These are the opinions of the CDC, WHO, NIH, and more. Why are we not transparent with important scientific information? There are a lot of scientific articles that are available about early covid treatment, and the effects of the vaccines.

Leave medical decisions up to each individual. It is not prudent or wise to apply a blunt one-size-fits-all approach to medical treatments for which there is no long term data and a questionable safety profile. We should be able to decide what we put into our bodies without having our 14th amendment rights infringed upon. We are not a democracy, we are a constitutional republic.

Mahalo,
Mary Shields

Written Testimony

A vaccine passport will punish those with medical and religious exemptions, and all those not willing to get vaccinated. Essentially, the vaccine passport will segregate and divide people here in Hawai'i. Friends and family members have been divided based on different views of COVID-19 and its vaccines. Relationships are already deteriorating without the vaccine passport. If approved, this will be a stepping stone for disaster. It will surpass only being in restaurants and entertainment venues, then it'll be on flights, and all modes of transportation. You will be taking so much of people's rightful freedoms. Mayor Blangiardi's vaccine mandate for the employees of the City and County of Honolulu, had countless people that chose to be unvaccinated feeling alone, stressed and pushed aside despite the sacrifices they've made to their community over the many years. These emotions are currently running high. The Aloha Hawai'i birthed won't exist any longer, it will be a memory replaced with divisiveness and segregation. How would you feel knowing you were part of that? In all fairness, represent all people of Hawai'i, not just one group. Both the vaccinated and unvaccinated can get sick and pass the virus.

Mandating and forcing this vaccine is not the answer. There is zero data or science to uphold such a decision. If you actually LOOK at the data, you will see the even individuals that are vaccinated can get the virus AND spread the virus. There are even studies showing that some have a higher viral load than those who have yet to receive a vaccine. That aside, the vaccine is not for everyone and it should not be pushed or forced as it has been out for less than a year and there is no data as to how the human body will react long term. There are already adverse effects showing from the vaccine. Let the people who would like to give it time and make an informed decision retain the right to do so. Please find it in your hearts to understand that and not pass this draconian measure.

Written Testimony I oppose both of these resolutions. The emergency proclamation has long expired and the state legislature has not even filled vacant positions on the emergency council. There is no emergency and no need for the testing.
The alleged vaccinations are not vaccinations and if there was a virus these injections do nothing to prevent, treat, or anything to stop a spread of sickness.
cdc says there is no actual sample of the virus

Written Testimony I strongly oppose Resolution 21-194. This will really hurt businesses put a huge rift in our communities. Im born and raised on the Windward side most of my community(vaxed or unvaxed) has voiced that the businesses in Kailua, Waimanalo and Kaneohe that do follow thru with supporting this mandate, will NO LONGER be customers at all. I am not an anti-laxer, but I do feel that forcing and separating our people with a vaccine that is so new, is wrong. I oppose this bill.

“Vaccine passports” should not be utilized on Oahu.

Written Testimony It is a private, medical decision whether to take the COVID-19 shot, which is “fully approved” by the CDC but still within its clinical trial stage and will not be completed until 2023.

Coercing the public to get this shot by shutting them out of businesses will not change the minds of those that do not want to get the shot.

Aloha committee members,

I am in strong opposition to this resolution for several reasons. Please consider the facts in this matter.

1. The CDC has said that vaccinated individuals can catch and spread the virus now. They further said that vaccinated individuals could have a higher load of the virus than people who are not vaccinated. Going by this information alone, these mandates make no sense to protect anyone from the spread of this and upcoming viruses. Therefore people who are not vaccinated and having a negative test when entering an establishment with others who are untested does not assure that spread will not occur.

2. As a business owner, I do not discriminate against anyone for any reason. By the state trying to force me and thousands of others to establish a discrimination rule, you are essentially putting us out of business. Further more, creating a loss in revenue, employees, positive relationships with my clients and creating a divide within our communities.

3. There are new treatments for COVID that are now FDA approved so the hospital numbers will begin to get lower simply because there are life saving treatments that can and will be administered to our people now. We are already seeing a decline in numbers because of a decline in untested vaccinated tourist.

4. The vaccinations are a tool being used to curb the deaths and hospitalizations of COVID victims. It is not a cure! Vaccination cards are simply a piece of paper that can not protect anyone from spread or even death now, as we have seen with recent deaths of fully vaccinated ohana.

5. These rules lead down a very scary path that will divide our people to the point of possibly no return. Worse than that, it will establish a precedence for further invasive government control that is totally against our rights as US citizens! We have already gone down this road in history so please don't take us there again?

Sincerely, Brandi Corpuz

IP: 192.168.200.67 Do not mandate vaccines or a city passport. They're adults and can decide for themselves. If people want protection from the virus, let them voluntarily get the vaccine (it works) or let them wear an M-95.

Written Testimony But don't force people or punish them with a requirement to have a negative test.

How would you like it if there was a mandate to refuse getting a vaccine or to refuse the right to wear a mask?

Written
Testimony I am STRONGLY against the digital, vaccine passport program for private industry. COVID-19 HEALTH CARD will create a SECOND CLASS citizens from the people who cannot or will not take the vaccine. The same way as in Nazi Germany the Jews became the second class citizens or as in Comunist China and Nortn Korea those who did not comply with the totalitarian rules have been extermonated. Those who do not learn from History are doomed to repeat it.

Do NOT under any circumstances move forward with vaccine passports and mandatory vaccines! Under no circumstances should there be shutdowns and mask mandates to protect the people from anything! Covid-19 is a scam. Any and all government officials that support any actions infringing on the unalienable rights of the people should be immediately removed from office and, in the case of covid-19, be charged and convicted of genocide, treason, fraud, and many more violations. All public officials must be 100% liable for any and all damages their actions cause.

Written Testimony Why are We the People being subjected to this? Why must we show proof of vaccination to work and enter establishment's? Where is our freedom of choice for ourselves and our families?
Why must we comply to this, when not even pedophiles have to carry a card stating their status as offenders? It's widely argued it's because of their rights to privacy.
If the vaccine is supposed to work and Hawai'i is over 60% vaccinated, why are there such huge spikes in covid cases?
Why are we forced to minimize our gathering's and our keiki have to social distance on their school bus? Yet airline's do not have the same social distancing rules enforced on them?
Why are luau's allowed, yet we cannot celebrate the marriage, births and deaths of loved one's?
Everything that is being pushed on We the People, is not right and you, our elected officials should be listening to us.

Written Testimony It's is wrong and absolute madness that this is being considered! Thousands of people have natural immunity and alternative choices that have been proven to work by peered review scientific studies to be 13 xs more effective then the vaccine. I do not comply and I do not agree with this mandate. My body my choice. This is what being American is all about and should remain that way. Otherwise all who have fought in all the wars was in vain!
Freedom!!

Written Testimony

I oppose resolution 21-194. People of hawaii should still be able to participate in society regardless their vaccination status. We should be focusing on effective treatment for covid patients, and the vaccine has proven not to be the answer. Having survived covid only taking natural remedies, I know there are ways to heal from covid without the vaccine. I respect all people of our beautiful state and wish them good health. But we all are all responsible for our own health, not you. A lot of people aren't physically capable of taking a vaccine due to medical conditions/history. But we should not have to disclose such personal information just to get a bag of groceries . Organizing a covid test every other day is unrealistic solution given that most places have a "test limit" for the day. For my family and I this could make or break everything for us. Please be on the right side of history.

Written Testimony I support freedom of choice. People who are Vaccinated are still able to catch and spread the virus. I feel that we should decrease the amount of travelers coming in from the mainland. It has shown to be beneficial for the decrease in covid cases Late 2020 - early 2021.

Written Testimony

We are a free country. We as the people should always be able to choose what we put into and what happens to our bodies. My family and so many others work hard to be healthy, and we are not sick. Why should those who take responsibility of our health be segregated, punished and outcast from society because we continue to choose health over fear?

This is not a pandemic of the unvaccinated. 97% of hospitalizations in Hawaii due to Covid-19 infections have preexisting conditions. We need to address the health of our society from the root of the problem (diet, exercise, accessibility, education), not by forcing separation and segregation through mandates and identification of those who have and have not. The unvaccinated are not to blame, although I know that is the easiest story to tell.

Vaccine passports would cause irreparable damage to our community. We are a community of togetherness, of ALOHA, not of hate and fear. I ask you today to not buckle under fear for that legacy will stay with you for the rest of your life. Be brave, stand tall and please do what is right.

This is not a herd immunity.

Based on the scientific data available as well as an individuals' constitutional, civil and EEOC rights I strongly oppose this mandate. Vaccination does not stop transmission or infection, therefor the objective of public health and safety is not accomplished by mandating vaccinations. With the new data on robust natural immunity after infection it would be more effective to implement better treatment protocols to help people recover more quickly and easily. Your constituents also have rights that are being completely disregarded. This mandate is both dangerous and counterproductive to the state of Hawaii and will have very negative effects not only on the individuals that live there but the economy as a whole.

Written Testimony Vaccine passports are awful and wrong. The Constitutional freedoms are violated by this potential implementation. The unvaccinated and vaccinated are as capable of spreading and catching this virus. This is punishing people who have decided to forego the vaccine, instead of respecting their right/freedom to medically choose their best health protocol.

Organization We, the living men and women of Hawai'i

Written Testimony

On behalf of the living men, women, and their biological properties, within Hawai'i, I oppose everything about this unlawfully enforced tacit agreement. and demand immediate halt of any and all lawmaking attempts, orders, rules, mandates, and any other such limits, both current and future, which restrict our God-given, unalienable rights. The constitution, which all whom are present and able to redirect this matter with a vote, have sworn to uphold and defend. I repeat, you all have sworn an oath to uphold and defend the constitution. After talking to Honolulu County Mayor Rick Blangiardi yesterday, it was brought to the peoples attention, that he is completely unaware of the dangers of mandating class 1 recalled PCR tests, or the recommended CDC updates to stop vaccinating people under 30. This is criminal negligence on all involved with the introduction and implementation of these torts. That is irresponsible and sets a viable motion to immediately lift all the mandates, or at the least, continue these motions, with all the collected data and make a fully transparent agreement, after the meeting with Rick Blangiardi and Libby Char within the following 9 days, that Rick agreed to. I'm not requesting, I'm demanding, in my informed truth, all mandates are immediately lifted off that table today. You're committing tortuous actions against we, the people of Hawai'i and these are crimes against humanity. There is zero grounds for a Jacobsen v Massachusetts case from 1905, when the Nuremburg trials were the halfway point between now and then. We have rights that you will not remove, you will not coerce us out of and you will honor. Respectfully, govern yourselves accordingly. Aloha.

I am pro-vaccine. In fact, I've had every flu shot, and I'm current on all of my vaccines, except I have not had a COVID vaccine because I already have had COVID. My question is why are we now suddenly rejecting science by forcing vaccines on absolutely everyone?

Long established precepts of virology science demonstrate that the immunity provided by recovery from actual infection is at least as pronounced and effective, if not many times more so, than any immunity conferred by a vaccine.

HHS' own Assistant Secretary, Dr. Admiral Bret Diroir, stated on August 24, 2024: "So natural immunity, it's very important. . . There are still no data to suggest vaccine immunity is better than natural immunity. I think both are highly protective."

Written Testimony Multiple medical studies show that those with preexisting immunity have long lasting and robust natural immunity to COVID.

A recent Cleveland Clinic study demonstrates that natural immunity acquired through prior infection with COVID-19 is stronger than any benefit conferred by a Vaccine, rendering vaccination unnecessary for those previously infected.

A comparative study by Goldberg et al "questioned the need to vaccinate previously-infected individuals" and noted that previously infected individuals had 96.4% immune protection from COVID-19, versus 94.4% in those injected with the Vaccine.

The Israeli Ministry of Health (one of the most highly vaccinated countries in the world) has recently released data showing that Israelis who had been previously infected with COVID (and

were not also vaccinated) were far less likely to become re-infected with the virus than those in the population who had been injected with the Vaccines.

Of the more than 7,700 new cases detected during the recent wave that commenced in May 2021, only 72, or less than 1%, were people who had previously been infected with COVID-19 and were never vaccinated. By contrast, over 3,000 cases, or 40%, were people who became infected for the first time, in spite of being vaccinated. The 72 instances of re-infection represent a mere 0.0086% of the 835,792 who are known to have recovered from the virus.

In the largest study comparing natural immunity gained through previous COVID infection to vaccine-induced immunity afforded by the Pfizer vaccine, people who recovered from COVID were much less likely than never-infected, vaccinated people to get Delta, develop symptoms or be hospitalized. The study found in two analysis that people who had never been infected with COVID but were vaccinated in January & February were 6-to-13 times more likely to experience breakthrough infection with the Delta variant compared to unvaccinated people who were previously infected with COVID. <https://www.bloomberg.com/news/articles/2021-08-27/previous-covid-prevents-delta-infection-better-than-pfizer-shot?fbclid=IwAR2afW43jdbUE70y7UuRf6x1bKIFoNaEHhaRpsqygJrE5yuX9MR6DU0Xzio>

What is profoundly worrisome though is that Medical studies show severe Vaccine side effects in persons previously infected with COVID-19. A person who previously had COVID-19, and then receives a Vaccine, mounts an antibody response to the Vaccine that is between 10 and 20 times stronger than the response of a previously uninfected person.

A study published in the New England Journal of Medicine noted antibody titers 10-45 times higher in those with preexisting COVID-19 immunity after the first Vaccine injection, with 89% reporting adverse side-effects. The failure to protect a subpopulation at higher risk, such as this one, is unprecedented.

Dr. Richard Urso is a fully licensed, board certified, practicing medical doctor who has treated over 300,000 patients in his career, including over 450 COVID-19 recovered patients. In his professional medical opinion: "COVID recovered patients are at extremely high risk to a vaccine. They retain an antigenic fingerprint of natural infection in their tissues. They have all the requisite components of immune memory. Vaccination may activate a hyperimmune response leading to a significant tissue injury and possibly death."

Vaccine mandates fail to acknowledge that Millions of people have recovered from COVID-19 and possess natural immunity & injecting them with the Vaccine threatens them with immediate, potentially life-threatening harm.

The suggestion to install a bill that segregates citizens based on medical preferences is illegal. Anyone supporting this Bill in public office is breaking the law and is suggesting that citizens break the law as well. I'm a law abiding citizen and public officials must honor my decision to take part in or refuse medical treatment for my own body. I suggest, like all great leaders in the US, that you find a constitutional way to address this problem. Requiring that citizens break the law or face consequences will insight panic. This Bill won't increase compliance, it will turn a very large voting body against you which will likely turn into legal action, your removal from office and investigation into the abuse of your position in office. We are happy to support you in discovering a constitutional way to "flatten the curve" as the residents of Hawaii.

Written
Testimony This nation is a constitutional republic. This agenda to impose digital a digital passport is unconstitutional. What is happening to this country? Is this really America anymore? How we become a Marxist Nation? What has happened to individual rights and liberty? Where does this end? During the Spanish Flu of 1918 no one imposed draconian rules! The world survived. Once you go down this path, there's no turning back.

Written Testimony

Implementing and mandating a program for the use of a digital health card would be devisive, destructive and discriminatory to we the people living in this beautiful State of Aloha. Research shows that vaccinated individuals still get infected with COVID-19 and carry just as much of the virus in their throat and nasal passage as unvaccinated individuals. Vaccinated individuals can spread the virus much like unvaccinated individuals.

To immediately reduce the stress on the healthcare system and to avoid another stay-at-home order, the American Rescue Plan Act Fiscal Recovery Funds received on June 7, 2021, should be used for early treatment programs and treatment sites. It has been reported that Monoclonal antibody treatments if taken early, reduces the risk of severe disease, hospitalization and death.

Written Testimony This is criminal and anyone who supports it is in blatant violation of the Nuremberg code. Individuals health decisions are none of the governments business. Coercing healthy citizens to take a dangerous drug known to cause major irreversible health problems over the flu is insane, unjustified by any standard of measure, and highly suspicious of the governor to do. David Ige should be indicted and the hawaii governors election should be forensically audited.

Written Testimony I strongly oppose this bill. Humans must have choices and liberty to do what is best for their health and their businesses. Mandating one experimental vaccine will lead to a profitable vaccine business which will keep adding more and more vaccines to the passport list, with untold long term effects on individual and community health and economies.

Written Testimony

A "health passport" is a disgusting violation of basic human rights and is discriminatory. Not only have there been many Covid vaccine injuries so far, but the vaccines are not even effective at preventing infection or transmission. The health passport makes zero sense as a safety measure, because it literally puts people at risk from vaccine injury. Any person who votes for it is therefore hypocritical and does so out of complete disregard not only for medical freedom from coercion, but also for the health and well being of residents and visitors of Hawaii. Do what is right.

I AM NOT A SLAVE to the government, political party(ies), any elite entities/organization(s), nor to the “vaccinated privileged society,” where I am illegally prohibited from my freedom of movement, liberty, the pursuit of happiness, and self-determination as granted to me first by my creator, God, and as written in the U.S. Constitution. Therefore, I strongly **OPPOSE** the vaccine passport/pass or any other labeling/marketing strategy of any kind in order to have “privileged” entry/access into various businesses/establishments, as well as travel within and outside the state of Hawaii.

These mandates and vaccine pass/passport are an exuberant government overreach of “emergency power” enacted to violate our constitutional rights under the guise of a “pandemic” and/or “public health and safety.” Hawaii politicians and health officials have blatantly ignored the many esteemed physicians, researchers, and scientists worldwide who have demonstrated clinical studies/research regarding the dangers of mRNA vaccines, as well as, the effectiveness of natural immunity, and the use of Ivermectin and hydroxychloroquine in the treatment of COVID19, which are widely used in countries that have significantly lower infection rates and deaths. It is negligent to ignore these proven effective treatments for COVID19, to include Regeneron monoclonal antibody treatment. And to do so, is anti-science and pushing this agenda of a “vaccine pass/passport” and mandates are purely for the purposes of political dictatorship and control by knowingly and intentionally deceiving Hawaii’s people that vaccines are the only treatment, when it is NOT!

The inventors of Ivermectin, Dr. Satoshi Omura and Dr. William C. Campbell won the Nobel Peace Prize in 2015, and these inventors, as well as highly esteemed physicians worldwide who prescribe Ivermectin in the treatment and prevention of COVID19 are not “quack jobs,” “crazy,” “nut jobs”, and the many other deplorable labeling by ignorant, ill-informed people due to their baseless understanding of Ivermectin and its history – sadly, all due to censorship! In fact, there are several successful lawsuits nationwide filed against hospitals on behalf of families whose family member was suffering from COVID19 wherein judges have ordered these hospitals to prescribe Ivermectin as a treatment. These families are not “crazy”, “nut jobs”, or whatever name-calling by heartless neanderthal minds, especially when these families and survivors have attested that because of Ivermectin, they have recovered from their suffering and/or near-death experience.

Further, Dr. Haruo Ozaki, chairman of the Tokyo Metropolitan Medical Association, recently led an emergency press conference on August 13, 2021, for the use of Ivermectin for COVID19. According to an article on [gnews.org](https://www.gnews.org) dated August 18, “Dr. Ozaki declared that Ivermectin has demonstrated significant benefits in reducing infections and deaths where the regimen is prophylactically administered for another indication.” This is not a “Japan” pandemic, “Hawaii” pandemic, but a “global” pandemic, therefore, all of these findings in the effectiveness of Ivermectin cannot be dismissed as “misinformation”, “anti-science”, or “anti-vaxxer.” Further, the FDA authorized EUA for Regeneron monoclonal antibody (RMA) treatment have also been proven to be highly effective in the treatment of COVID19. I know this to be true because a family member was recently administered RMA treatment in Hawaii.

Are Hawaii politicians and health officials aware that Dr. Robert Malone, the inventor of mRNA has spoken out publicly against the use of vaccines? Therefore, it begs the basic common-sense question, why isn’t Hawaii politicians and doctors promoting these known effective treatments other than the vaccines? All this fear pandering due to rise in infections and unnecessary human suffering is completely preventable had politicians and health officials recognized and embraced the use of these known available effective treatments. It is imperative that Hawaii politicians and health officials set aside time in educating themselves rather than absorbing regurgitated information from the

mainstream media and CDC "guidance," and then claim you are doing your job as an elected official by simply spitting it back out to its people as the "only" factual truth, when it is NOT!

To any person, especially, politician(s) who willfully place blame on the "unvaccinated" as the cause in the rise of the infection rates are committing malice and slander since the accuser cannot demonstrate through scientific based evidence/clinical studies that such is the cause, when, in fact, several recent clinical studies/research published by esteemed researchers/institutions have demonstrated just the opposite. Further, CDC Director Rochelle Walensky have publicly announced that vaccinated persons are able to contract and transmit COV19, and admitted to the drastic reduction in the vaccine's effectiveness, thus, reinstating the use of masks and promoting the "booster" shots. Sadly, Hawaii politicians who have engaged in extremely divisive tactics of the "vaccinated" versus the "unvaccinated" certainly DO NOT embody the Hawaiian values of OHANA and are neither guided by the virtues of being PONO.

Has Hawaii become so barbaric, losing all human decency, morals, and ethics to help the sick, depriving its people of available medical treatment which have become the recent practice in our hospitals – engaging in willful negligence due to political dictatorship and medical tyranny, defying the Hippocratic Oath, promising – "first, do no harm", in their baseless claim that there is no other COV19 treatment other than vaccines, when it is NOT!

I AM NOT A LEPER! Has Hawaii become the land of the "lepers" where its politicians delight in the segregation and discrimination of its own people, the "unvaccinated" – the "unclean" - being shunned through isolation - unless you are vaccinated or tested you are not "privileged" to enter, subjected to public shaming by our elected officials maliciously blaming the "unvaccinated," subjected to forcible detainment in our homes and/or other confines, and ultimately, relinquished from our God given liberties and self-determination?

I AM NOT A SLAVE; I AM NOT A LEPER! I STRONGLY OPPOSE ANY/AND ALL VACCINE PASS/PASSPORT!

In God I trust, Evelyn Ramo

I strongly oppose this Resolution 21-94 for a digital vaccine passport.

Written Testimony

This will create a 'second-class' citizenry, who for medical or other reasons are unable to prove their 'Covid-secure' status. There would be two lines of people, two sets of rules, two different sets of rights. This is a real concern. It is also the case that vaccine passports violate medical ethics, pressuring people to undergo a medical procedure in order to participate in civic life.

A vaccine passport will have changed the nature of citizenship and freedom for all citizens, including those with Covid green status. This will revoke any presumed rights of citizens to participate in civic life. We will have sold our freedom, and will find out the consequences of this in the near future. Please do not pass this, it is wrong!

As an elementary special education teacher, foster mother, wife, daughter, and sister in our beautiful state of Hawaii, I strongly oppose this bill.

Written Testimony

Agreeing to the vaccine passport means that you have sold your freedom. You may be able to go to the restaurant, bar, movie theater, sports events, gyms or any public indoor activity but this will be a privilege and not a right. The vaccine status check on the door is not a formality; it tells you that your right to go to the restaurant, bar, movie or any other indoor event, to participate in civic life, has been taken away, and you can enter only with official approval. Today it is Covid, but tomorrow it might be another illness, or something else entirely.

Please reconsider dividing the community and let us come together to fight this pandemic in our own ways...please do not control the people who want to do what's right and yet decide how to do what's right for themselves and their families...no one wants covid...we want to do our part...these passports take away the ability for people to rise up, come together, and do our part...

Thank you for your time and God Bless

Written
Testimony

Greetings people of Aloha,

I am opposed to vaccine passports:

In general, you need identification to prove who you are -- your identity as a person.

A vaccine passport attempts to link your identity to a biological or medical characteristic / condition / classification.

That's discriminatory / discrimination and establishes the basis for medical apartheid.

An extremely slippery slope -- in fact, it slides us directly into a pit of segregation and racist-like thought, speech, and behavior.

And that's actually happening right now -- racist-like thinking, speaking, and behaving!

You can see it on Main Stream / Social Media and directly experience it in person!

Vaccine passports will fuel division and rancor among the people of Aloha.

Where will it lead?

Nowhere good for sure -- there's absolutely no doubt about this leading us from bad to worse.

It's like racism, but it's actually worse -- the racist-like segregation is based on an intangible characteristic, something that has been done inside one's body, which is not stable, like one's fingerprints or facial structure; which helps to identify oneself positively; but is volatile / ephemeral, subject to internal (i.e., bodily adaptation to inoculations and boosters) and environmental variables (e.g., viral variants).

A person presenting a vaccine passport cannot be positively "identified" as "clean" / free from "contamination" -- they may be "infected."

The inoculations do not neutralize / kill the original virus nor its variants.

They were designed to lessen the severity of symptoms.

They do not confer immunity nor do they confer non-transmissibility.

Inoculated persons can still get sick and still transmit virions / viral particles.

We are all in the same boat / on the same island in this regard.

Without a vaccine passport, segregated from society, one is left with subjecting oneself to, in the more or less standard technique, the intrusive medical procedure of a nasal swab that penetrates the nasal cavity up to and in some cases hitting the bone just under the brain, sometimes painfully, not once, but potentially every 48 hours, depending upon the schedule of social activities a person would like to engage in.

And being tested doesn't mean one is free from infection because the testing is and has been flawed -- false positives and false negatives have skewed infection-related statistics.

A person presenting test results that they have to pay for, quite possibly, every 48 hours may be infected as well as someone who has a vaccine passport.

So, in the absence of being able to positively "identify" / segregate people into the underlying categories of infected or not, what are we left with?

Racist-like thinking, speech, and behavior, which is unfounded -- just like it is for real racism!

People of Aloha, we are in the same boat / on the same island.

We are very vulnerable to what is happening in the world -- which goes way beyond the pandemic -- in terms of the implications of being cut off from the world along many different

dimensions (e.g., supply-chain disruptions).

There are questions about each and every thing regarding this pandemic -- from bio-weapons to booster shots -- are we sure we know the truth regarding each aspect of this world-wide crisis?

We need to cut through the "fog" of this pandemic and focus on what really matters -- we need to prepare for worst-case scenarios!

Actually, being on this island is a blessing if we can come together in "The Gathering Place" and make self-sufficiency our goal.

People are going to continue to become sick and, unfortunately, some will die.

Eradicating a natural coronavirus, let alone a pathogen that escaped / was released from a Level 4 Bio Safety Lab, is not very likely because of how many coronaviruses there are (in general) and their ability to mutate.

They're here to stay -- and so are we!

This virus, whatever it is, like the yearly flu, cannot be defeated -- it's now part of the environment -- endemic.

We need to join together to help each other weather this storm and those in the future, like the upcoming flu season.

Analogy: When a hurricane hits our homeland, do we disregard / disparage people that didn't board up their house with plywood, didn't buy a generator, didn't stock up on water?

Do we penalize them for not having the wherewithal to prepare properly?

In the spirit of Aloha, we reach out and provide care and support -- sacrificing some of ourselves for our extended Ohana.

You can take analogies only so far, but hopefully that resonates with you.

Switching back to the pandemic, what really is the crux of the matter -- individuals presenting symptoms of infection that put them at risk.

This is the main thing and the main thing that needs to be addressed, ahead of preparing for global worst-case scenarios.

How can we address symptomatic infections?

Early treatment saves lives!

What is the early-treatment protocol that Primary Care Physicians are recommending to their patients?

What early-treatment protocols were used before members of our extended Ohana had to go the ERs?

Being inoculated or not, being tested or not, goes by the wayside once you or a loved one is presenting symptoms of infection, which is going to happen to some people, regardless of their vaccination status.

Early treatment saves lives is much more important than vaccine passports, and deserves much more attention than it has been given.

And a robust early response based on proven clinical protocols by front-line physicians will reduce the pressure on our ERs, hospitals, and our brave and courageous medical staffs.

Idea: Drop the passports and publish early-treatment protocols.

That is a high order value-added tradeoff and will (1) save lives, (2) relieve hospital-related stressors, and (3) reduce administrative / enforcement burdens and resources.

Worth repeating: #earlytreatmentsaveslives

Mahalo and God bless our island family with ever abundant Aloha :-)

Very truly yours,

Stephen L. Pappas

Aloha members of the committee. Thank you for your time. As an individual who was raised in Hawaii and who currently has family in the state, I earnestly request that you oppose the vaccine passport program in Hawaii. The people should not be oppressed nor their personal medical rights infringed upon. My family is not anti-vaccine or anti-science but for years we have chosen to forego certain unmandated vaccine shots and have lived healthy lifestyles minimally affected by ailments and illnesses. Please do not revoke medical freedom and liberty or infringe upon HIPPA rights. I urge you to oppose the vaccine mandate program and stand for liberty and justice for all.

Written Testimony

This is as coercive as it can possibly get. Forcing me and my family to put an experimental drug into our bodies that we don't know what it will do to our bodies in the long term is so incredibly wrong. The typical vaccine development process takes between 10 and 15 years. All of the stages of testing for the COVID vaccines were compressed in time, overlapping, and abbreviated in substance, which dramatically increases the risks. Why were so many studies deemed unnecessary and not performed prior to administration in human subjects, such as single dose toxicity, genotoxicity, toxicokinetic, carcinogenicity, prenatal & postnatal development, offspring, teratogenic & postnatal toxicity & fertility? Why were COVID Vaccines studied for only 56 days in macaques, & 28 days in mice, and then animal studies halted. Why has the American public not been informed of the departures from the standard testing process, and the inherent risks generated from Trump's Operation Warp Speed? If the vaccine is so safe why do the pharmaceutical companies have complete immunity. If the Vaccines are so safe why does the VAERS system show so many reports of death and serious adverse events resulting from the Covid-19 vaccine. Before the introduction of Covid-19 vaccines in December 2020, the VAERS system had recorded a total for ALL prior vaccines of 5039 deaths and 12,053 permanent injuries. For the week beginning August 13, 2021, the VAERS system showed 13,068 reports of death and 1,031,100 Serious Adverse Events resulting from the Covid-19 vaccines alone. If the vaccine works so well, why are we now pushing a booster? It's clear COVID vaccine mandates won't stop 'Delta' variant. We already know the COVID vaccine doesn't prevent infection or transmission. In countries with the highest numbers of vaccinated individuals, we are seeing high numbers of infections. Iceland has one of the most vaccinated populations in the world (over 82 %) and is reporting that 77 % of new COVID cases are in fully vaccinated citizens, according to their Director General of the Ministry of Health. According to news reports, over 85 % of the Israeli adult population has been vaccinated. But a July report from Israel's Ministry of Health found that Pfizer's vaccine is only 39 % effective. Some scientists argue a mass vaccination campaign using vaccines that don't prevent infection or transmission can prolong the pandemic, by

creating the perfect conditions for more, & more transmissible, variants to evolve. If the COVID vaccines are so safe then why are physicians and scientists who express dissenting opinions regarding their safety/efficacy threatened with the loss of their licenses or censored?

Agenda Item Resolution 21-194
Your position on the matter Oppose
Representing Organization Self

Written Testimony I absolutely do not support Resolution 21-194 in any manner.
Forcing me or anyone to get vaccinated or require proof of such is
against everything I believe in.

Agenda Item Vaccine mandate
Your position on the matter Oppose
Representing Self
Organization

Written Testimony I do not agree with the forced vaccinations or the restriction of free movement in all public places to unvaccinated people.
I do not consent to any form of restrictions placed upon unvaccinated people.
This is discrimination and is illegal.

Written
Testimony

I adamantly oppose this resolution as it violates citizens constitutional and medical rights. This is a horrible over reach of governmental authority and it does not represent the citizens that our representatives are called to serve. I am outraged over this proposed "health card" and urge our state and county leaders to oppose this resolution.

Written Testimony Strongly oppose vaccine passport! Shame on you Blangiardi...thought you had common sense but guess not. Do your research what's in the vaccine and stop the fear mongering along with Ige and Greene. The basics...can't spread a virus and mask don't work.

Written Testimony We should only need to to take a temperature check to show we are not sick! The vaccinated and unvaccinated both can spread the virus so even if they vaccinated show you their card the could still be positive! It is also discriminating against unvaccinated!
