Organization EAH Housing

Written Testimony EAH Housing is in strong support of doubling the allocation of funds from the County's real property tax to the County's Affordable Housing Fund (AHF) from one-half of one percent to a full one percent. These funds are used to support the development of affordable rental housing to serve those with incomes at or below 60% of the area median income, provided the housing is affordable for at least 30 years. These monies will serve those most in need of housing. The City should establish a competitive process to allocate AHFs to developers prepared to move forward with projects that meet the AHF requirements.
Mahalo for the opportunity to share our thoughts.
Kevin Carney, (PB) Vice President, Hawaii

Written Testimony People are getting vaccinated to go on vacation not because they care about our residents, or business , or our children's education. I just traveled and am vaccinated and now doing a quarantine in my home to be safe and then getting tested. I care about the safety of the people in Hawaii. People must get tested before they come to hawaii. Yet the cost should not be so high for residents as this adds greater economic strain to people who are already suffering with the current situation. SHut this tourism down and give our children and people a chance against this covid. Tourism over human life has been a shame to watch being played out. Shut it down and watch local economy and people thrive and yes pre travel testing should be applied within an equity framework and not an elitism framework
