**Representing Organization** Organization  
Mokuleia Community Association

Preserve the existing Oahu General Plan Map.  
Do not approve the revised DPP Map that has gaps on the KEEP THE COUNTRY COUNTRY Corridor. The revised DPP Map only adds more confusion.

**Written Testimony** We are at a tipping point for preserving what's left of rural Oahu and need to do everything possible to keep development out of the country and off of our dwindling agricultural lands. Any and all new development needs to be limited to the Kapolei Honolulu corridor where it has been planned to go for at least 50 years. While following this plan may be less lucrative for developers it is imperative that we maintain the guardrails on land use if we want to preserve and protect the natural resources of this island for its people and our children.

Council/PH Committee Zoning and Planning  
Agenda Item RESOLUTION 21-23  
Your position on the matter Comment  
Representing Self  
Organization

Hello City Council Members,

My name is Jessica dos Santos and I live in Kahuku. We have fought for many years to "Keep the Country, Country." We intend to keep on fighting to keep the country, country and oppose major developments along our rural coastlines which are unsustainable and do not align with the vision such as that outlined in the Ko'olauloa Sustainable Communities Plan.

Written Testimony

I am writing to request that the council preserve the existing Oahu General Plan Map. Please do not approve the revised DPP map that has gaps in the Keep the Country, Country corridor. The gaps/white spaces are confusing and do not clarify what areas will or will not be open to large-scale developments. The revised DPP map is confusing and we want to make sure that any such map does not allow for creative interpretation as allowing pockets of development where our communities have and will continue to fight to keep the rural character and ability to be the "breadbasket" of O`ahu. We request transparency and clarity with plans or maps before anything is set into stone so that the community is really able to know what the plans and maps truly mean/allow.

Thank you for your consideration,  
Jessica dos Santos

Representing Self  
Organization

Written Testimony I am in opposition of any amendment or changes to the Oahu General plan specifically with the Ko'olauloa area. We need to preserve and protect our lands by Keeping the Country COUNTRY. No gaps of DPP revised maps. Any changes that involve development will lead to a ripple effect that will cause huge concerns in the future.

HONOLULU CITY COUNCIL COMMITTEE ON ZONING AND PLANNING  
Thursday, November 18, 2021 — 9:00 a.m.

**Ulupono Initiative supports Resolution 21-23 Proposed CD 1, Adopting the Revised General Plan of the City and County of Honolulu (The O'ahu General Plan).**

Dear Chair Elefante and Members of the Committee:

My name is Micah Munekata, and I am the Director of Government Affairs at Ulupono Initiative. We are a Hawai'i-focused impact investment firm that strives to improve the quality of life throughout the islands by helping our communities become more resilient and self-sufficient through locally produced food; renewable energy and clean transportation; and better management of freshwater and waste.

**Ulupono supports Resolution 21-23 Proposed CD 1**, which adopts the revised O'ahu General Plan. By adopting this plan, the City and County of Honolulu is committing to local agricultural producers, multimodal and accessible transportation, clean and renewable energy generation, responsible use of water resources, and better waste management. With objectives and policies dedicated toward many critical, sustainable efforts across O'ahu, this plan highlights the importance of establishing a resilient foundation for our community's future.

We applaud the City for adopting this general plan and we look forward to working with both the Administration and the Council to implement these important community policies.

Respectfully,

Micah Munekata  
Director of Government Affairs

\*Note: Ulupono Initiative values this measure before the Council today and appreciates the opportunity to testify; however, we are unable to attend in person due to concerns around COVID-19. Thank you for your understanding.

*Investing in a Sustainable Hawai'i*

**Representing Organization** Self

**Written Testimony** Aloha,  
I am requesting that the Zoning and Planning Committee clarify NO DPP map changes are allowed now in the O'ahu General Plan. The years spent determining the specifics in the Ko'olauloa Sustainable Communities Plan could easily be wasted by this changed mapping. Why is it always a confusing hassle to get that Department to do things clearly, to follow their own rules even. I am for having this settled, but not with these glaring errors. Please correct the changes in mapping now.

Representing Self  
Organization Never Ending Growth is Not Sustainable

Zoning and Planning Chair Elephante and committee members:

Thank you and your staff for the outstanding work on the General Plan update. Thank you specifically for adding the climate crisis to the proposed list of examples of what sustainability means in practice.

Written Testimony A simple, succinct and widely accepted definition of sustainability would improve the Preamble. May I respectfully suggest that the following be included:

“Sustainability focuses on meeting the needs of the present without compromising the ability of future generations to meet their needs. Sustainability implies equilibrium and limits. Never ending growth is not sustainable, especially on an island.”

Sincerely,

Larry McElheny

ALOHA,

This see attached file. We've purposely broken up the information into different segments. In the past, we have not been able to submit because the system says the file is too big.

We then emailed. But the emailed attachments do not appear in the council public records.

This segmented testimony includes the following:

RESO 21-23: PRESERVE THE KEEP THE COUNTRY COUNTRY CORRIDOR in the MAP

Written Testimony

The critical Concepts of the O'ahu General Plan include providing diversification to different levels to our island home. The Plan has both Sustainable and Developmental Communities. Both are important. We need to preserve these critical concepts.

During COVID19, Food Sustainability, Economic Resilience, Mental Health and many other aspects came to the forefront. Many from high density areas of Oahu seek refuge in the rural areas for various reasons.

PHOTOS attached. Please print the entire file for the public records.

## RESOLUTION 21-23 – To adopt the Oahu General Plan

**PLEASE AMEND Item 65 Figure 3 to maintain the Oahu General Plan Concepts of Diversifications, Sustainability and to avoid more confusion and inconsistencies in the new revised map. PRESERVE THE RURAL CORRIDOR in the MAP.**

ITEM NO. OR 2019	MEASURE NO.	PLAN TITLE	AMENDMENT (Resolution/Plan)	SECTION or EXHIBIT or FIGURE	SECTION or EXHIBIT TITLE	PO NO.	AMENDMENT DESCRIPTION/ DETAILS	AMENDMENT TEXT (ADDS/REPLACES/REMOVES/DELETE)	CLARIFICATION/ COMMENTS
52	Resolution 21-23	O'ahu General Plan	Plan	Preamble	Implementation	15	Amends the 1st paragraph of the section.	By itself, the General Plan cannot bring about all of the changes and improvements which the City and County government considers to be desirable and attainable. It is, by design, a (very) broad policy document; and one of its purposes is to establish a comprehensive vision for the City and County of Honolulu and to identify a coherent set of guidelines, values, and principles (which can) that may be used in developing more specialized plans, programs, and legislation for guiding O'ahu's future.	DPP recommendation D-697. DPP recommendation D-715.
65	Resolution 21-23	O'ahu General Plan	Plan	Population	Figure 3. Overall Development Pattern on O'ahu	21	Amends Figure 3	Amend the Figure 3 title to read as follows: Figure 3 (Overall) Conceptual Development Pattern on O'ahu. Amend Figure 3 to be consistent with Exhibit 1-1 in the East Honolulu Sustainable Communities Plan (Ordinance 21-11), which removes portions of the Kaiwi Coastline from appearing as urban fringe. In the legend, add a white rectangle to indicate "Non-Designated Area." In the legend and map, change middle gray scale colors to patterns to more readily distinguish the different development areas. Amend the Figure 3 caption to read as follows: [O'ahu] Conceptual Development Pattern	DPP recommendation D-697.

Amend the Figure 3 title to read as follows: Figure 3.

[Overall] Conceptual Development Pattern on O'ahu. Amend to: " OAHU GENERAL PLAN " is a good compromise – (Note that the Oahu General Plan has 8 communities plans under it. Some are Sustainable Communities Plan and some are Development Plans. To be equitable to the entire Oahu, it should not be only focused on the "Development" context only. SUSTAINABLE COMMUNITIES concept must be an integral part of this over-arching plan.)

Amend Figure 3 to be consistent with Exhibit 1-1 in the East Honolulu Sustainable Communities Plan (Ordinance 21-11), which removes portions of the Kaiwi Coastline from appearing as urban fringe.

In the legend, DELETE add a white rectangle to indicate "NonDesignated Area." This contributes to confusion to the public. DPP is inconsistent in providing "non-designated area" markings to the entire Oahu map. Does DPP wish to remain conceptual or does it wish to be more specific which requires much more attention and work?

In the legend and map, change middle gray-scale colors to patterns to more readily distinguish the different development areas.

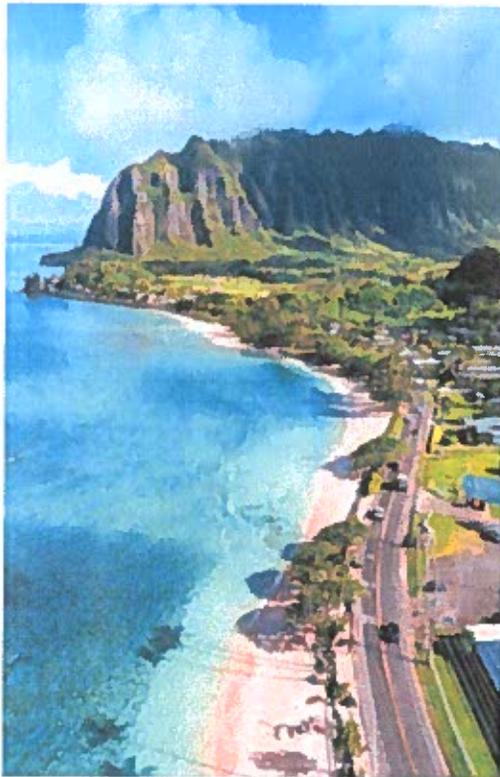

AMEND Amend the Figure 3 caption to read as follows: [O'ahu] Conceptual Development Pattern (DPP recommendation D-697.) "Oahu General Plan" is an encompassing concept in itself. It's broad and provides equity to all the 8 different plans throughout Oahu.

**RESO 21-23: PRESERVE THE KEEP THE COUNTRY COUNTRY CORRIDOR in the MAP**

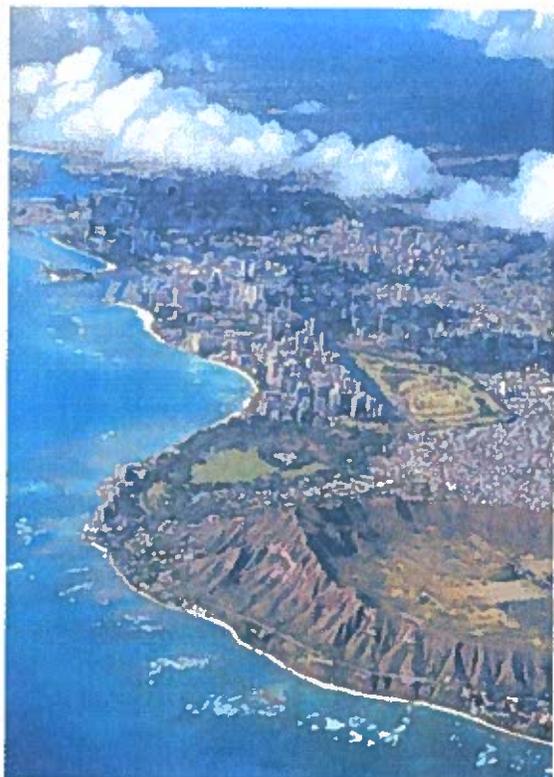

The critical **Concepts** of the **O'ahu General Plan** include providing diversification to different levels to our island home. The Plan has both **Sustainable** and **Developmental** Communities. Both are important. We need to preserve these critical concepts.

During COVID19, Food Sustainability, Economic Resilience, Mental Health and many other aspects came to the forefront. Many from high density areas of Oahu seek refuge in the rural areas for various reasons.

**RURAL**

**URBAN**

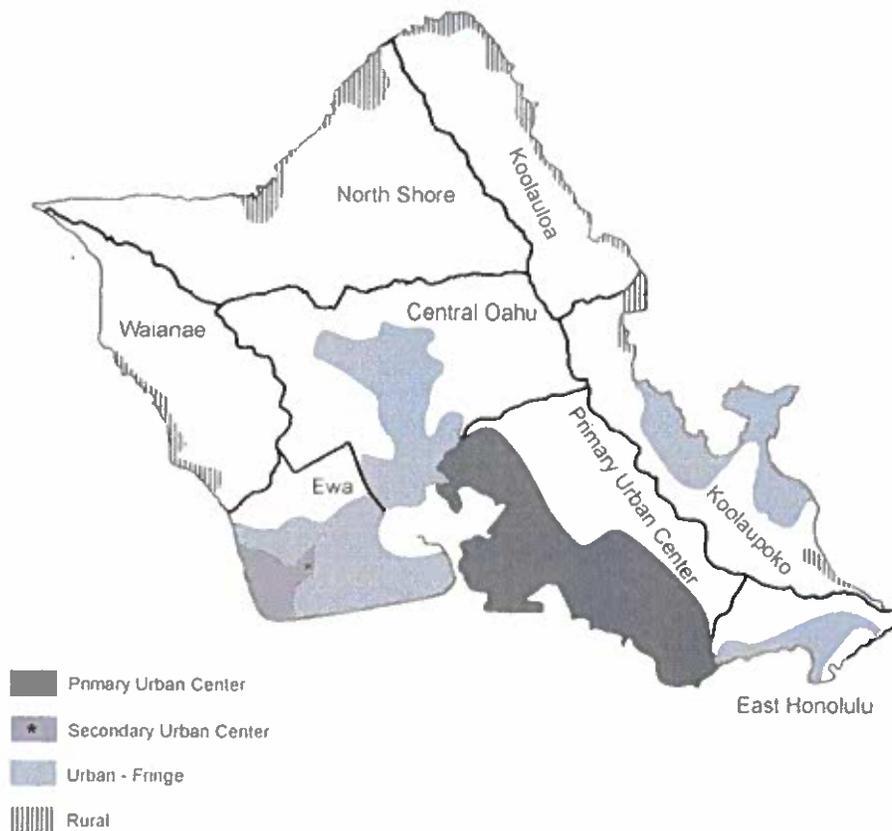

RESO 21-23 Oahu General Plan Concepts

**Map #1** is the EXISTING MAP that has been in the 2002 Oahu General Plan. It provides clear concepts of both the 8 separate **Development** and **Sustainable Communities Plan** for the entire Oahu.

### MAP # 1

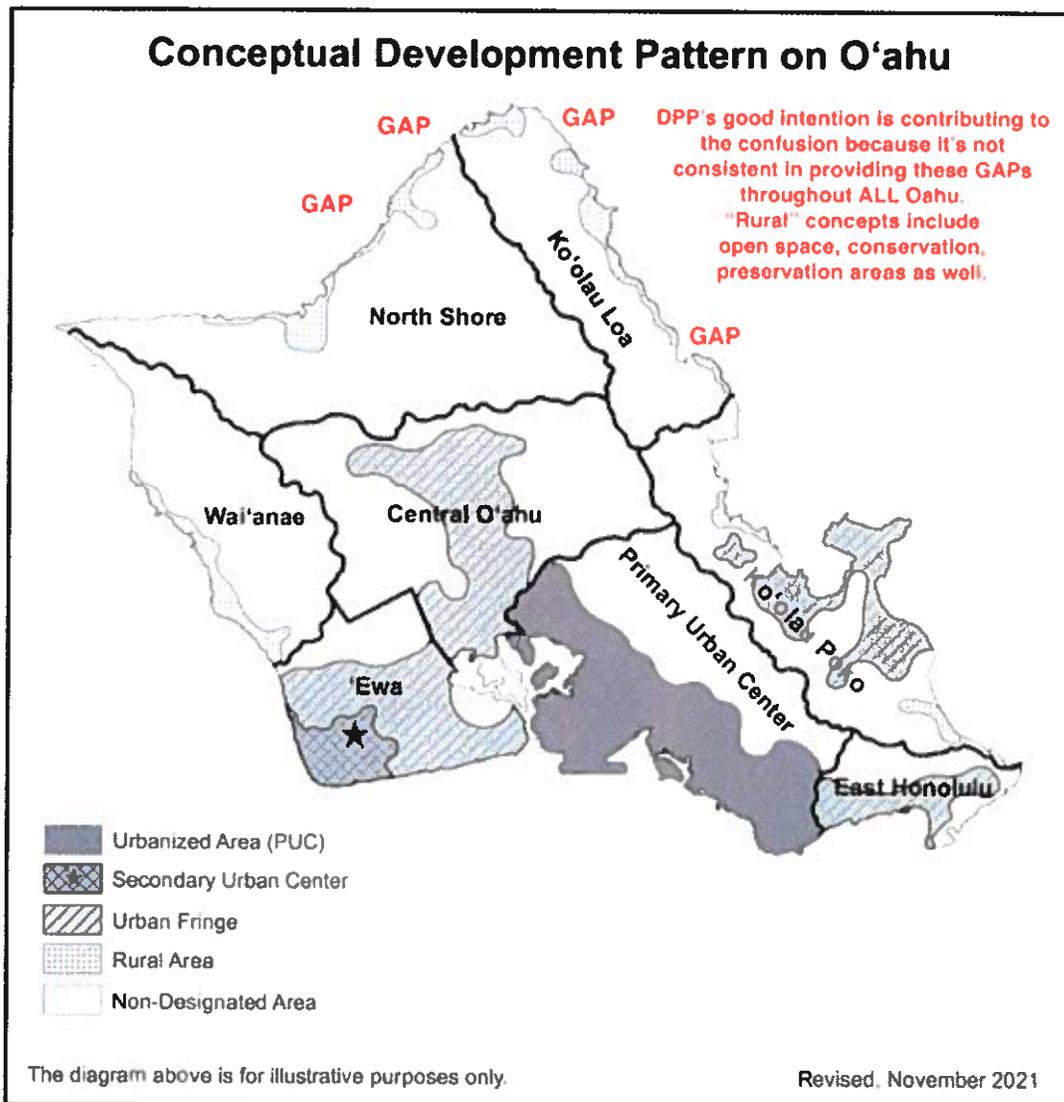

#### General Plan Development Pattern

**MAP #2 is DPP's latest proposed map.** There were various versions in 2017, April 2021, September 2021 and this one in November 2021. DPP insists that the Oahu General Plan is not regulatory document and that it's into "CONCEPTUAL" policies.

Preserving the RURAL CORRIDOR is exactly that. It's conceptual. Its concepts of diversification, sustainability, food resiliency, open space, farmlands, food sustainability, watersheds, Oahu's beauty and so forth are all conceptualized in this rural region. But, DPP created gaps that confuses the Rural Corridor. DPP calls its revised white Gaps as "Non-Designated Areas" which is confusing because this principle is not applied throughout ALL the Oahu areas.

### MAP #2

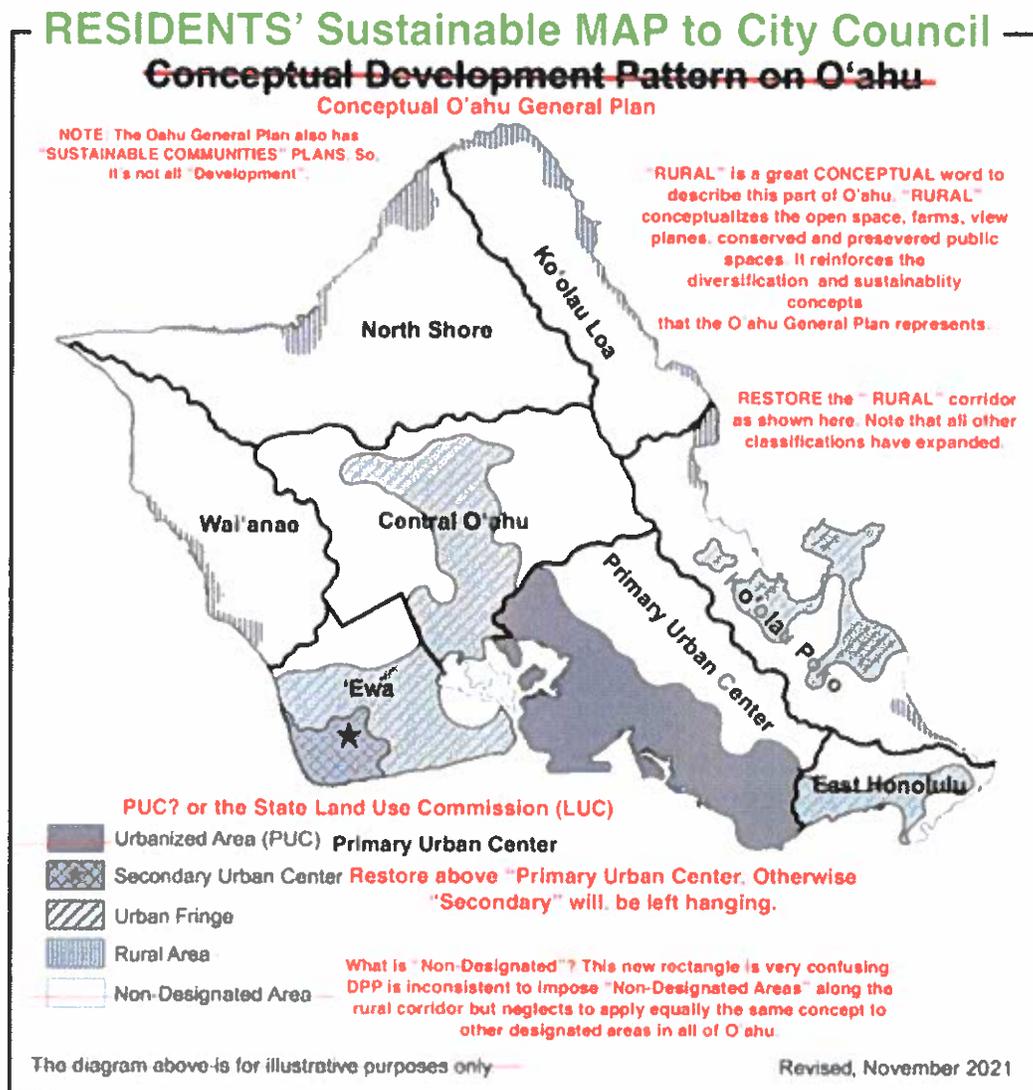

MAP #3 is the **grassroots residents** proposed Sustainable Map, including clarifications in red letters. We suggest retaining **PRIMARY URBAN CENTER**, rather than Urbanized Area ( PUC). Those polled thought PUC was Public Utilities Commission.

The city's PUC – **Primary Urban Center** – is almost an inhouse acronym known to only a few.

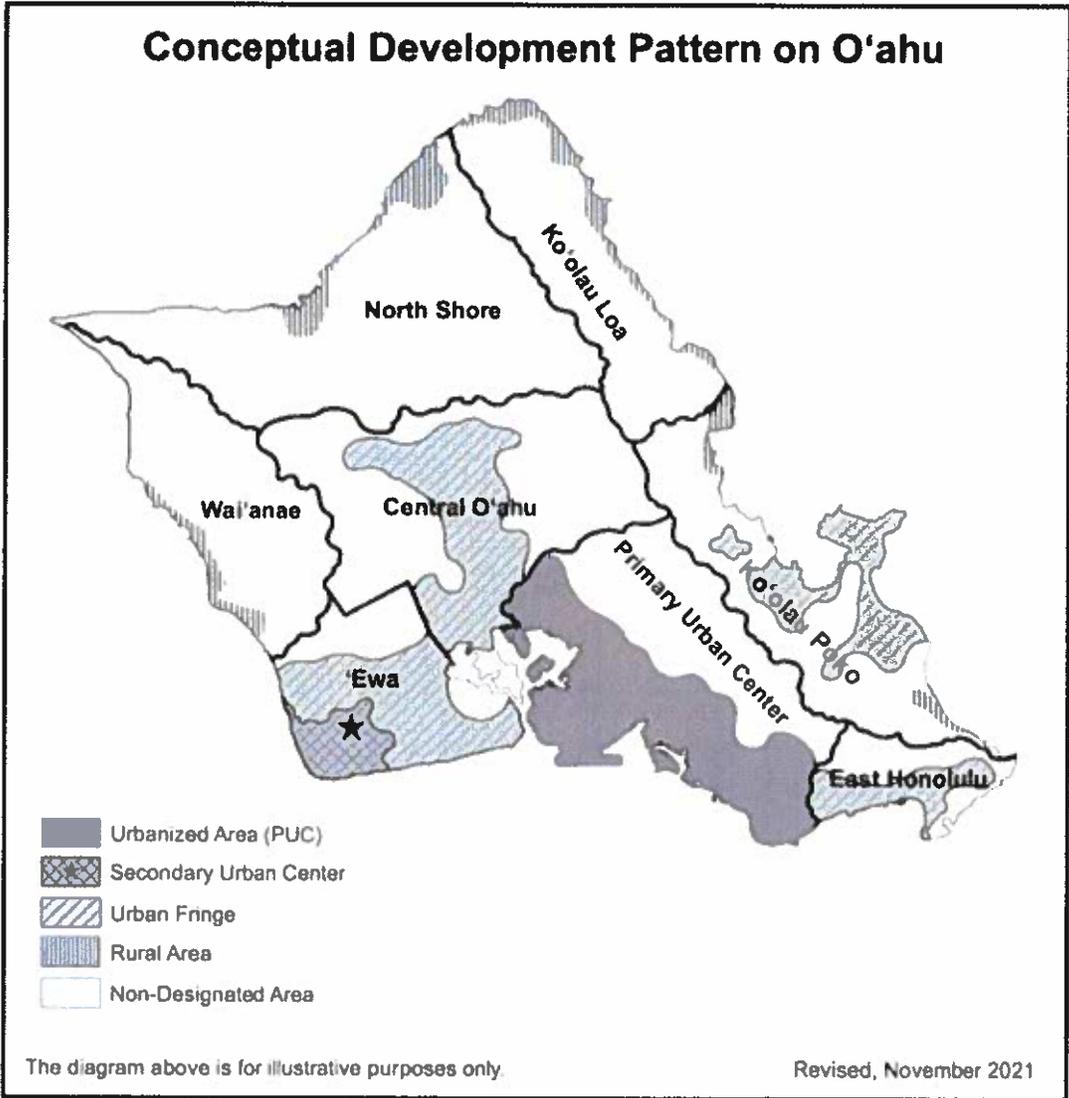

“ **Non-Designated Area**” was particularly confusing to all. Even 2 cartographers we talked with were confused.

**MAP #3 Please Adopt this MAP.**

**Map 3b** reflects the **restoration of the Rural Corridor (No Gaps)** to DPP's November 2021 Revised Map. This was completed by a young woman in the Ko'olau Loa. We're told that DPP is not using a cartographer but a worker is applying his/her best efforts. We're happy to work with DPP, if needed.

**Map #3b**

**MAP #4** is a GIS Map that shows Oahu being occupied by about 50% by the Ko'olau Loa/Ko'olau Poko Range and the Waianae Range. The Oahu General Plan, under the leadership of Governor George Ariyoshi in the 1970s realized that our island home needs strong and wise leadership to protect Hawaii's sense of place, sustainability, happiness and the general welfare into the future.

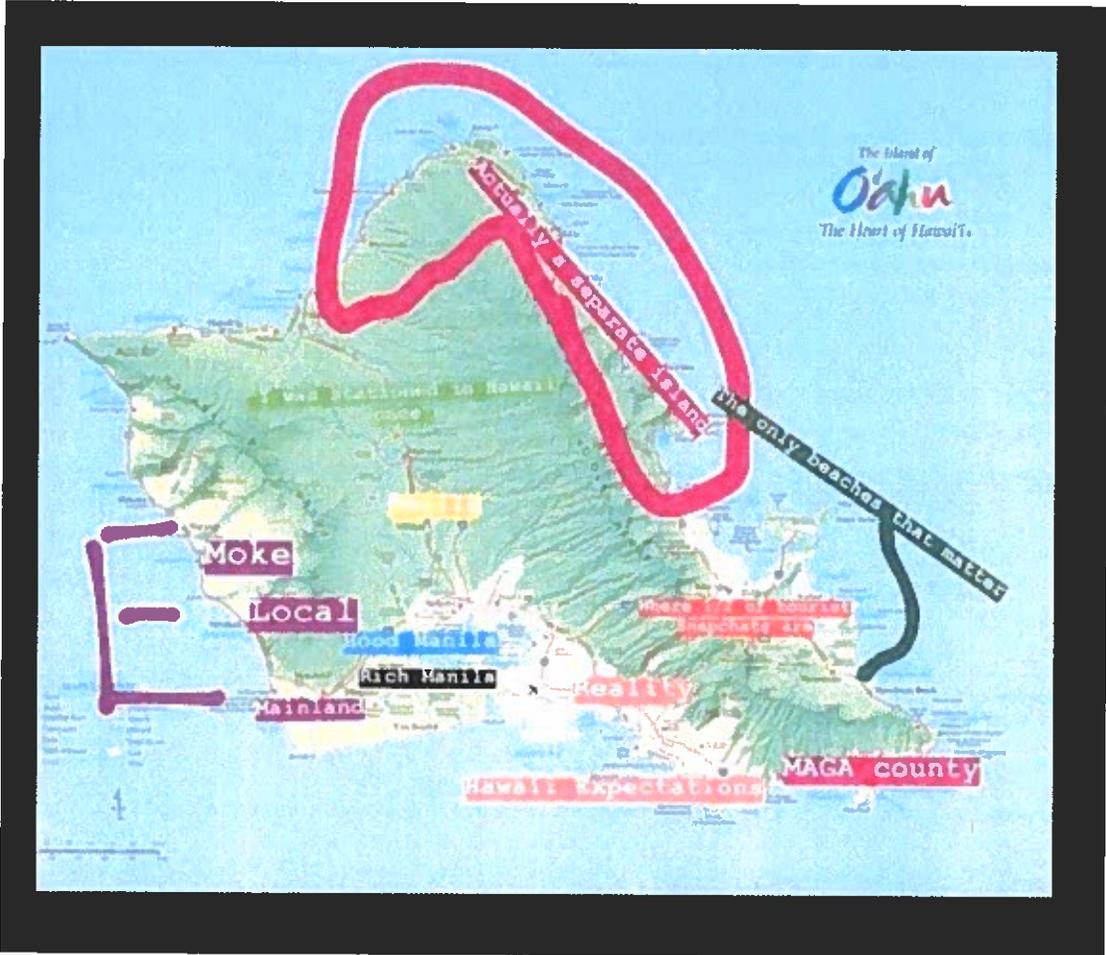

COVID19 has taught us much. We must not turn the entire Oahu into a big parking lot. We must protect diversified environment, resources, and economy. The City Council has through the years recognized the need to the *Keep The Country Country values* and have supported these values/concepts as part of the over-arching plan for Oahu.

**MAP #4**

**Map #5** is a SPOOF map sent by a grassroots resident. Please do not read any more into it than it's a satire.

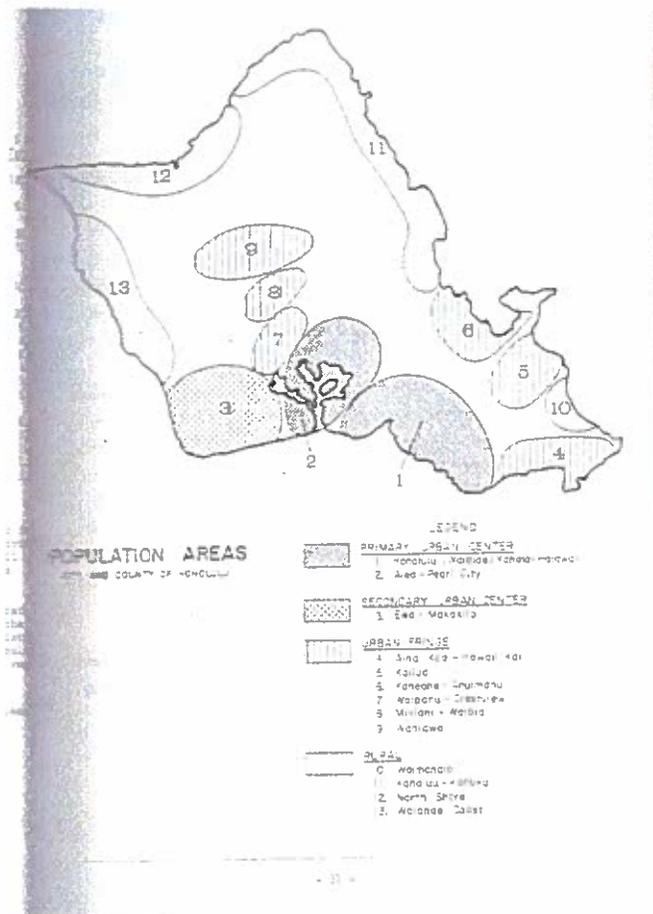

**MAP #5**

**Map #6** is real. It's an early attempt to create some organized vision for Oahu. We're lucky to have the Oahu General Plan to provide a vision – to keep all of us in checks and balances to protect our island home.

The Oahu General Plan can help prevent massive gentrification of Oahu and residents leaving Oahu in droves. We can plan, maintain, and preserve what is unique and best for our residents. This Honolulu City Council is at a pivotal time to exercise bold and thoughtful leadership for this planning map for the future.

**Map #6**

Every one is important. Every Community counts. We can work together. It's OUR ISLAND, OUR FUTURE.

We would like DPP to be magnanimous to the grassroots voices. The restoration of the RURAL CORRIDOR in the Oahu General Plan Map is no skin off DPP's back. The RURAL CORRIDOR continues the **conceptual plan** that has been accepted by Oahu residents through the decades. As DPP likes to claim, the Plan is not regulatory. So do not resist the grassroots wishes to restore the "RURAL CORRIDOR" in the MAP. Other designations that have expanded in the DPP's revised map remain intact.
