March 9, 2022

TO: All Councilmembers
FROM: Council Chair Tommy Waters
SUBJECT: Inventory of City Properties

A handwritten signature in black ink that reads "Tommy Waters".

22MAR 9 PM 3:36 CITY CLERK

Aloha Colleagues,

As part of the City's ongoing focus on addressing the housing crisis, Council Support Services staff have compiled an inventory of City properties to identify city-owned parcels in our districts that may be available for affordable housing initiatives. The attached hard copy includes the full island-wide inventory sorted by district.

As has been discussed in Council and committee meetings throughout the past year, there is a significant shortage of affordable housing on O'ahu, especially for rental housing. Given the myriad challenges to identifying, funding, and implementing the development of affordable housing, effort by all levels and branches of government, including Council, is necessary to develop sufficient affordable housing for O'ahu residents. The use of City property has been an effective strategy over the past 5 years to develop over 2,000 units of housing directly by the City for low-income households using a mix of federal and state funds, as well as making parcels available for long-term leases that allow developers to build affordable housing at scale, such as 'Aiea Sugar Mill and Kapolei Parkway.

I encourage you and your staff to review the attached inventory of City properties and support the administration's efforts by identifying parcels in your district that may be suited for affordable housing development. To note: our CSS staff have compiled information as best as possible from available sources, which may have some more recent updates or additional information they were unable to find. There will of course be additional planning and vetting to be done by the administration to determine site viability, but I hope this is one additional mechanism to support the City's needs and goals to develop sufficient housing on O'ahu.

COUNCIL COM. 83
