

A BILL FOR AN ORDINANCE

RELATING TO FIRE SAFETY.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose. The purpose of this ordinance is to update the Fire Code of the City and County of Honolulu.

SECTION 2. Section 20-1.1, Revised Ordinances of Honolulu 1990 ("Fire Code of the City and County of Honolulu"), as amended by Ordinance 21-3, Ordinance 21-14, and Ordinance 21-31, is amended by amending paragraph (18) to read as follows:

"(18) Amending Section 13.3.2.26.2. Section 13.3.2.26.2 is amended to read:

13.3.2.26.2 Compliance shall be with an automatic fire sprinkler system throughout the building or alternative fire prevention and fire safety systems in accordance with the requirements of a building fire and life safety evaluation as achieved by ~~[a passing]~~ receiving an acceptable score on a building fire and life safety evaluation pursuant to Ordinance 18-14. Existing high-rise residential buildings not protected throughout by an automatic fire sprinkler system shall be subject to building fire and life safety evaluations, which shall consist of an assessment of building safety features and fire protection systems in accordance with this code and the building code on a form prescribed by the AHJ in accordance with Section 20-4.4. Existing high-rise residential buildings that opt to install an automatic fire sprinkler system throughout the building shall not be required to undergo the building fire and life safety evaluation; provided all buildings continue to maintain ~~[a passing status]~~ an acceptable score on their respective building fire and life safety evaluation or maintain the codes and standards for automatic fire sprinkler systems that are current and applicable at the time the building permit application is submitted for approval. ~~[A passing score]~~ An acceptable score on the evaluation provides a minimum level of fire and life safety to fire fighters and occupants that is approved by the AHJ. A building fire and life safety evaluation shall be prepared by a licensed design professional or a building's authorized representative under the supervision of a licensed design professional, be stamped with the licensed design professional's authorized seal or stamp, and authenticated as provided under Hawaii Administrative Rules, Section 16-115-9. The licensed design professional shall provide the scores by each category of the building fire and life safety evaluation to the association of apartment owners of a

A BILL FOR AN ORDINANCE

condominium or the cooperative housing corporation. A building fire and life safety evaluation shall be conducted ~~[within four years from May 3, 2018,]~~ by no later than August 31, 2022, and the licensed design professional shall submit a copy of the authenticated building fire and life safety evaluation to the AHJ in accordance with Section 20-4.3~~[-]~~ , the aggregate score of which shall be published on the AHJ's website. Buildings shall comply by ~~[passing]~~ receiving an acceptable score on the building fire and life safety evaluation within [seven] 12 years from May 3, 2018, unless compliance is met with an automatic fire sprinkler system as indicated in Table 8 of the building fire and life safety evaluation form. The AHJ may grant an extension pursuant to Section 13.3.2.26.7 if automatic fire sprinkler systems are used to achieve compliance. All buildings must continue to maintain ~~[a passing status]~~ an acceptable score on their respective building fire and life safety evaluation assessments or maintain an automatic sprinkler system that complies with this chapter and the building code at the time of the evaluation. For the purposes of this section, "existing high-rise residential building" means the same as "existing ~~[high-rise]~~ highrise residential building" as defined in Section 20-5.1.

13.3.2.26.2.1 The association of apartment owners of a condominium or the cooperative housing corporation of an existing high-rise residential building may appeal the final building fire and life safety evaluation score, the resulting fire safety requirements for the building, as assessed by the licensed design professional, or the determination of the AHJ by filing a written request for an appeal to the director or the head of the AHJ within 45 days of the date of the completed building fire and life safety evaluation or the AHJ's determination of the building's fire and life safety requirements, whichever is later. The request for an appeal shall include a statement of the basis for appeal, supporting documentation, if any, and the relief requested. The director or head of the AHJ shall render a decision on the appeal no later than 30 calendar days from the receipt of the appeal. The AHJ shall submit an annual report to the City Council on the appeals filed for existing high-rise residential buildings and the disposition of the appeals.

13.3.2.26.2.2 Except as otherwise provided in this paragraph (18), which establishes the life safety evaluation system and authorizes owners of existing high-rise residential buildings to opt out of approved automatic sprinkler systems through a life safety evaluation process, existing high-rise residential buildings shall be protected throughout by an approved

A BILL FOR AN ORDINANCE

automatic fire sprinkler system in accordance with this chapter and the building code. Existing high-rise residential buildings that opt to install an automatic fire sprinkler system throughout the building shall not be required to undergo a building fire and life safety evaluation, but shall be required to apply for and obtain a building permit through a State-licensed specialty contractor for the automatic fire sprinkler system ~~[within three years from the date of notifying the AHJ of its option]~~ or ~~[selecting]~~ select the option on the building fire and life safety evaluation code assessment form, Table 8.

13.3.2.26.2.3 Notwithstanding any other provision of this paragraph (18), the association of apartment owners of a condominium or the cooperative housing corporation of an existing high-rise residential building 10 floors or higher may opt out of the automatic fire sprinkler system requirement; provided that, a majority of unit owners of a condominium or a majority of shareholders of a cooperative housing corporation decide to opt out of the requirement within ~~[four]~~ nine years of ~~[the completion of]~~ having received an acceptable score on the building fire and life safety evaluation, either by vote at a regularly scheduled or special meeting of the owners or shareholders, convened and noticed in accordance with the condominium's or cooperative housing corporation's by-laws, or by written consent in lieu of a vote at a regularly scheduled or special meeting; provided further, that the building receives ~~[a passing]~~ an acceptable score on the building fire and life safety evaluation through the implementation of alternative fire prevention and fire safety systems. An association of apartment owners of a condominium or a cooperative housing corporation that has opted out of the automatic fire sprinkler system requirement shall provide verifiable, public disclosure of its action to all current and future owners, shareholders, and residents. Verifiable public disclosure shall include ~~[signs posted in the building's public notification areas]~~ the posting of the aggregate score of the building fire and life safety evaluation on the AHJ's website and real estate sales disclosures as may be required by Hawaii real estate industry practices.

13.3.2.26.2.4 Each building owner shall, within 180 days from May 3, 2018, file a written statement of its intent to comply with this paragraph (18) with the AHJ for approval.

13.3.2.26.2.5 The AHJ shall review and respond to the written statement of the owner's intent to comply within 60 days of receipt of the statement of intent to comply.

A BILL FOR AN ORDINANCE

13.3.2.26.2.6 Subject to the exceptions in Section 13.3.2.26.2.7, the entire building shall be required to be protected by:

- a. An approved automatic fire sprinkler system; or
- b. Alternative fire prevention and fire safety systems as approved by the AHJ

within [43] 20 years of May 3, 2018, except where an extension is approved by the AHJ as provided in Section 13.3.2.26.2.7.

13.3.2.26.2.7 Compliance with the automatic fire sprinkler system throughout the building or alternative fire prevention and fire safety systems provisions of Section 13.3.2.26.2.2 shall be achieved as follows: Common areas for all buildings [~~20 floors and over shall be completed within nine years from May 3, 2018, common areas for buildings 10 to 19 floors shall be completed within 11 years from May 3, 2018, and all buildings, regardless of the number of floors,~~] shall be completed within [43] 20 years from May 3, 2018. An extension to [46] 21 years from May 3, 2018, may be approved by the AHJ; provided that, compliance using an automatic fire sprinkler system in the common areas related to building egress path has been achieved.

EXCEPTION: Existing high-rise residential buildings are exempted from the automatic fire sprinkler system requirements in Section 13.3.2.26.2.2 if all dwelling units have exterior access and a continuous egress path to exit the building and have no full-length interior corridors.

EXCEPTION: Existing high-rise residential buildings less than ten floors in height can receive [a] an acceptable score on the building fire and life safety evaluation [~~passing status~~] in lieu of the approved automatic sprinkler system requirements in Section 13.3.2.26.2.2.

EXCEPTION: Existing high-rise residential buildings may be protected throughout by an approved automatic fire sprinkler system per NFPA 13R when approved by the AHJ.

EXCEPTION: Private balconies that have at least one long side that is 50 percent open are not required to have automatic fire sprinkler protection.

A BILL FOR AN ORDINANCE

EXCEPTION: Elevator hoist ways and machine rooms are not required to have automatic fire sprinkler protection.

EXCEPTION: Class II wet standpipe systems may be removed when buildings are protected throughout by automatic fire sprinkler systems pursuant to Section 13.3.2.26.2.2.

EXCEPTION: Combined standpipe and automatic fire sprinkler systems using existing standpipes shall be permitted to utilize pump sizing for the fire sprinkler demand.

EXCEPTION: The time periods and deadlines for compliance set forth in ~~[Sections]~~ Section 13.3.2.26.2 and Section 13.3.2.26.2.7 shall be paused, tolled, or suspended where a building permit application, or other code application, for projects that relate to those sections or are required for the building to achieve compliance with the requirements of Section 13.3.2.26.2.2 for an automatic fire sprinkler system throughout the building or alternative fire prevention and fire safety systems, when the application is duly filed by a State-licensed specialty contractor for the design, installation, or upgrade of such system, and the review and issuance of the building permit or other code application has not been completed by the reviewing agency within 90 days of such submission to the reviewing agency. The period of time in excess of the 90-day period following timely filing of a complete application, but before issuance of the permit or approval of the application, shall constitute the period of time in which the time period and deadline are paused, tolled, or suspended. The reviewing agency shall process applications filed pursuant to Section 13.3.2.26.2 and Section 13.3.2.26.2.7 in a timely manner, provided that no penalties shall be imposed upon those buildings whose applications have not been processed by the reviewing agency before the deadlines to achieve compliance with the requirements set forth in Section 13.3.2.26.2 and Section 13.3.2.26.2.7 and were submitted to the reviewing agency at least 90 days prior to the respective deadline.

SECTION 3. Section 20-4.3, Revised Ordinances of Honolulu 1990 ("Compliance"), is amended by amending subsection (a) to read as follows:

- "(a) A building fire and life safety evaluation code assessment shall be prepared by a licensed design professional or a building's authorized representative under the supervision of a licensed design professional using the building fire and life safety evaluation prescribed by the AHJ in accordance with Section 13.3.2.26.2;

A BILL FOR AN ORDINANCE

provided that existing high-rise residential buildings that opt to install an automatic fire sprinkler system throughout the building shall not be required to undergo a building fire and life safety evaluation for initial compliance. The AHJ may grant an extension per Section 13.3.2.26.2.7 if automatic fire sprinkler systems in common areas are used to achieve compliance. All buildings that are required to undergo a building fire and life safety evaluation must continue to maintain ~~a passing status~~ an acceptable score on their respective building fire and life safety evaluation."

SECTION 4. Ordinance 19-4 is amended by amending Section 7 to read as follows:

"SECTION 7. The AHJ shall provide a report to the Council every three months for the first two years following the effective date of Bill 37 (2021), CD2. The report shall include the following: (a) information on the status of a building's Life Safety Evaluation ("LSE") scores in the six categories listed in Section 4: Mobility Status, Vertical Openings, Standpipe System – Class 1 Standpipe, Elevators – Emergency Power, Egress Routes – Compliant Stairwell Reentry, and Table 8; (b) a list of any buildings that are being added to the attachment to Ordinance 19-4 marked as Exhibit B and the criteria for the addition of the buildings; (c) a list of any buildings that are being removed from the attachment to Ordinance 19-4 marked as Exhibit B and the criteria for the removal of the buildings; (d) the number of appeals from AHJ determinations that the level of fire safety for a building is unacceptable; (e) the number of buildings that have submitted LSEs to the AHJ and the status of the buildings' progress in completing the LSE to achieve an "acceptable" score; (f) the number of Honolulu Fire Department ("HFD") outreach and training meetings conducted with design professionals and association of apartment owners representatives; (g) the number of HFD citations or inspections undertaken in relation to areas in which association of apartment owners organizations are not in compliance with the City's Fire Code; and (h) a list of buildings that have provided the AHJ with their building fire emergency plan that includes a listing and contact information of their frail and vulnerable residents who may require evacuation assistance in an emergency. Thereafter, the AHJ shall provide an annual report not less than 20 days from the end of the fiscal year on the progress of the implementation of Ordinance 18-14, which shall include the information listed above."

SECTION 5. In this ordinance, ordinance material to be repealed is bracketed and stricken, and new ordinance material is underscored. When revising, compiling, or printing this ordinance for inclusion in the Revised Ordinances of Honolulu, the Revisor of Ordinances need not include the brackets, the material that has been bracketed and stricken, or the underscoring.
