- (g) State the following information for each contractor or subcontractor engaged to do electrical or plumbing work upon the building, structure, or project:
  - (1) Name;
  - (2) Address;
  - (3) Contractor's license number; and
  - (4) Particular phase or phases of work to be performed;
- (h) Be signed by the responsible managing employee or authorized employee of each contractor designated in subsection (g);
- (i) For applications contemplating the demolition of any building constructed as a residential dwelling and occupied in any habitable unit thereof, be accompanied by a duly notarized affidavit stating that the applicant has a proprietary interest in the subject property or has the written authorization of a person or entity with a proprietary interest in the subject property to submit the application. If the interest of the applicant or of the person or entity authorizing the applicant to submit the application is not a fee simple interest in the property, the affidavit must state the nature and the remaining term of the interest.

For purposes of this subsection, a person or entity has a "proprietary interest" if the person or entity has the right of control and dominion of the property being demolished, and a person or entity has "right of control and dominion" if the person or entity holds, possesses, and retains control of 51 percent or more of the property interest. If a person or entity holds, possesses, and retains less than 51 percent of the property interest, other persons or entities with an interest in the property must consent to the demolition of the building, such that the combined interests of the person or entity claiming the right of control and dominion and of the consenting persons or entities equal or exceed 51 percent;

(j) For applications for the construction of a one-family or two-family detached dwelling, duplex, or multifamily dwelling, be accompanied by a duly notarized affidavit executed by a person with a proprietary interest in the subject property, stating that:

(1) The proposed construction complies with all restrictive covenants relating to the maximum number of dwelling units permitted on the zoning lot, and the minimum yard (setback) requirements for the zoning lot; and

(2) The proposed use complies with this code and Chapter 21;

provided that an affidavit is not required for applications for construction of new one-family or two-family detached dwellings, duplexes, or multifamily dwellings that are part of a residential tract development. For purposes of this subsection, "residential tract development" means a project with three or more one-family or two-family detached dwellings or duplexes, or more than one multi-family dwelling, that is constructed or is to be constructed as a single development; [and]

(k) Give such other information as reasonably may be required by the building official. If the application proposes excavation and backfill work that does not require a grading permit under Section 14-13.5(b), the building official, if deemed necessary to protect or promote public safety, may require the submittal of an engineering slope hazard report. An engineering slope hazard report means the same as defined under Section 14-13.3. The report shall have the same information as that required for an engineering slope hazard report under Section 14-14.2(d)(2)[-]; and

(l) Contain a duly notarized signed affidavit from the applicant stating that the applicant has no outstanding fines payable to, or liens in favor of, the city. No permit application will be accepted or processed if the applicant has any such outstanding fines or liens; provided that a permit application will be accepted and processed if it is to correct a violation on the property."

SECTION 3. Ordinance material to be deleted is bracketed and stricken. New material is underscored. When revising, compiling, or printing this ordinance for inclusion in the Revised Ordinances of Honolulu, the Revisor of Ordinances need not include the brackets, the bracketed and stricken material, or the underscoring.
