<p>Testimony:</p> <p>The current search for a police chief has been a joke thanks to the commission. If you really want to put some teeth in the commission, you must give them the power to do the selection of a chief, from start to finish, without consultants. if you don't do that there is no need for any changes to the charter. Alivado and Gibson were interviewed in depth by Civil Beat. It was clear from their comments that they do not have a clue as to how the public views the commissioners, the interim chief, or the officers. I got the impression they were only there because it would look good on their resume.</p>

<p>Testimony:</p> <p>support Bill 29 to remove fees to obtain public records related to voter data and election information. Election information and voter data should be accessible and available to the public at no cost.</p> <p>On principle, I oppose fees applied to:</p> <ol style="list-style-type: none"> 1. The City Clerk's certificates of voter registration; 2. Countywide voter data or any portion thereof (as may be available), or for a voter data subscription; 3. Election maps, including but not limited to, geographic information system (GIS) maps; 4. Voter match back files, which are ballot return data that include a list of voters in a current election that have returned a ballot; and 5. All other public voter documents, records, and data files.
