<p>Testimony:</p> <p>Aloha Chair, Vice Chair & Members of the Committee,</p> <p>My name is Zhizi Xiong (Angela Melody Young). I'm testifying in strong support for the transfer of funds on behalf of my grassroots, CARES.</p> <p>I'm in strong support of the transfer of funds to procure 2 Advanced Life Support Training Manikins because it provides realistic training for emergencies. Manikins can be used for practicing CPR during simulated cardiac arrest training.</p> <p>Advanced manikins that are this expensive have iPad & recording capabilities. The recordings of the simulation can substantiate, or provide evidence for, a student's performance in medical school or in this particular situation, provide evidence to be used to assess emergency situations. Advanced manikins also have abdominal, heart & lung sounds as well as urine & blood output.</p> <p>Advanced manikins also have urinary catheterization where a tube is inserted to allow pee to drain. Advanced manikins also have interchangeable genitalia. It can be a male or female manikin. EMS will truly benefit from such a Manikin as an additional piece of training equipment to their practice. Thank you for the opportunity to testify.</p> <p>Sincerely, Zhizi Xiong</p>
