## UPDATE OF USER FEES AND CHARGES CITY AND COUNTY OF HONOLULU

### INTRODUCTION

It has been over 35 years since the last study of user fees and charges was conducted.<sup>1</sup> The Update of User Fees and Charges of the City and County of Honolulu has been prepared to provide a starting point for future proposed user fees and charges. This internal document has been compiled by the Department of Budget and Fiscal Services to assist in its annual review of user fees and charges of the City.

The setting of fees is a charter delegated responsibility in the City and County of Honolulu. Section 3-112 of the Revised Charter of the City and County of Honolulu 1973 (2017 Edition), as amended, provides that the City Council 1) shall fix the fees and charges for all services rendered by the City and for the use of City property and facilities, except as otherwise provided by this charter and 2) may specifically delegate this authority to the executive branch as it deems necessary or desirable.

Pursuant to the City Council's request in 1982, the executive branch conducted a comprehensive study of existing and potential user fees with the objective of formulating a broad based and equitable fee structure that would distribute the impact of cost increases among users of various services. The study "A Review of User Fees and Charges: City and County of Honolulu", March 1983, proposed user fee increases in such areas as building filing fees, golf course green fees, Honolulu Zoo admission fees, recreational programs, custodial and attendant services, refuse collection (businesses) and disposal, bus fares, off-street parking, handicapped bus service, and other fees.

<sup>1</sup> The City and County of Honolulu published "A Review of User Fees and Charges: City & County of Honolulu" in March 1983.

## GENERAL GUIDELINES

In general the following principles were used by City agencies to guide them in the review of their respective user fees costs.

- Fees and charges should generally equal costs of services or benefits provided.
- Fees and charges may not meet the costs of the service or benefit if the City determines that the use of a product, service or privilege, due to its nature and community impact or objective, should be encouraged because such use creates public benefits or promotes social goals.
- Costs of an activity or program should include all applicable costs.
- Fees charged for similar services in other governmental jurisdictions should be given consideration.
- Senior citizens, minors, physically and mentally challenged individuals may be given special consideration when appropriate.

## METHODOLOGY

The following steps were taken in updating the City's user fees and charges:

- The City's budget data base was utilized to identify the City's revenue sources. In general, intra-city reimbursements and most government grants were excluded.
- Where the legal authority and/or current fees were not listed in the data base, the information was obtained from the appropriate city agency.
- City agencies were asked to review the details of the updated user fees and charges.
- This report does not include certain fines that may be assessed but not collected by the City and therefore not included in City revenues.

## CONCLUSION

A user fee system which equitably and directly places the cost of providing certain services upon the persons enjoying the benefits of the services may be a revenue option acceptable to more and more local governments and citizens alike. When taxpayers are no longer willing to provide governments with unlimited tax dollars, service providers have little choice but to put programs on a “pay as you go” basis. User fees may be the only reliable resource available for keeping a facility open, continuing current programs, or offering new programs. In short, the tradition of “free” services supported by the general taxpayers appears to be shifting toward an era of user-supported services.

This shift in traditional attitudes and the need for greater fiscal austerity are major factors in arriving at user fees and charges for services. However, constant awareness must be maintained on many specific considerations while analyzing and determining individual fees. These considerations have various degrees of importance and each have to be held in the proper perspective. These considerations include the necessity, demand for, and the availability of the service or facility, the health and safety of the general public, the segment of the public that benefits from the service or facility, the costs to provide the service or facility, and the administrative costs to institute the fee. <sup>2</sup>

## APPENDIX 3 – LIQUOR LICENSE FEE

### LIQUOR COMMISSION RULES:

#### §3-81-17.5. LICENSE FEES; JUSTIFIED, METHOD OF CHANGE, GROSS SALES REPORTS.

##### §3-81-17.51 License Fees.

- (a) The fees for licenses shall be per annum except where specified. In addition to the basic license fee, an additional license fee will be assessed. This additional license fee will be assessed if the gross liquor sales achieve a certain threshold (hereinafter referred to as 'deductible'). The additional license fee assessment will be calculated on the net of the gross liquor sales less a deductible. The deductible will be prorated for licenses issued during the course of the fiscal year. For licenses that are cancelled or revoked during the course of a fiscal year but prior to the calculation of the deductible for that fiscal year, the prior year's deductible (prorated) will be used.

**\*The deductible will be calculated through the following formula:**

##### **1) Calculation of Additional Fees required for the next fiscal year**

**BFB = Estimated Beginning Fund Balance**

**LRF = Estimated License Renewals Fees**

**ALF = CALCULATED Additional License Fee**

**MR = Estimated Miscellaneous Revenue**

**BUD = Budget as submitted to Council for the next fiscal year**

**EFB = Ending Fund Balance (Twenty percent of BUD)**

**Basic Formula:  $BFB + LRF + ALF + MR - BUD = EFB$**

**ALF =  $EFB + BUD - BFB - LRF - MR$**

##### **2) Calculation of the DEDUCTIBLE**

The prior year's gross liquor sales of each licensee will be entered into a database. The gross liquor sales will be analyzed and based on the assessment rate of the respective class and additional license fees required (ALF), the deductible for the fiscal year will be calculated. The calculated deductible will be rounded to the nearest thousands of dollars.

A maximum additional assessment fee has been established for each class. The fees for licenses based on different classes, kinds, and categories shall be as follows:

- (c) Discount for Disposal of Residue from Recycling Operations. The unit charges for disposal of residue from recycling operations shall be discounted to 75 percent of the unit charges for disposal set forth in subsection (a). For the purposes of this subsection, a “recycling operation” is a facility that recovers post-consumer waste materials for use in new consumer products. To be eligible for the discounted unit charges for disposal, the following conditions must be met:
- (1) The recycling operation shall recover at least 2,000 pounds of recyclable materials per month;
  - (2) The recyclable material shall be shipped off-island, or the recyclable material shall be incorporated into a new consumer product directly by the recycling operation;
  - (3) The residue shall be a maximum of 25 percent of the weight of the recyclable materials recovered;
  - (4) The residue shall be a direct result of the recycling operation;
  - (5) The residue shall not be commingled with other waste at delivery;
  - (6) The residue shall not contain any recyclable material; and
  - (7) The recycling operation shall be in compliance with all applicable permits and licenses required by the City and County of Honolulu, State of Hawaii and the federal government; noncompliance will result in disqualification until compliance is resolved and certified.

Upon submission of a written request and supporting data from the recycling operation’s owner or the recycling operation’s owner’s designee, the director shall determine whether the recycling operation is eligible for the discounted unit charge for disposal. After such determination, the director shall either approve the application by proper endorsement or deny the application specifying in writing the cause or causes for such disapproval.

All vehicles used by the recycling operation to transport residue to disposal facilities shall be constructed so as to allow ready inspection of their load before disposal.

Disposal charges shall be charged directly to the recycling operation. The recycling operation’s owner or the recycling operation’s owner’s designee shall submit monthly reports to the director documenting types and quantities of the materials recycled and the residues resulting therefrom.

## APPENDIX 11 – Disposal Charges (Continued)

If the director determines that the residue from the recycling operation does not meet the conditions for the discounted unit charge for disposal as set forth in this subsection, the director shall not apply the discount and shall not apply the discount until such time that the director determines that the applicable conditions for such discount have been met.

(d) Exemption.

- (1) Any eleemosynary or charitable organization that has been determined by the Internal Revenue Service to qualify as a tax-exempt organization under the provisions of Section 501(c)(3) of the Internal Revenue Code and that recovers post-consumer waste materials for charitable use through a donated merchandise program, generating residue as a byproduct of its charitable function for disposal at a city disposal facility,  
and
- (2) Any one-day solid waste cleanup event or activity approved by the department of environmental services for the express, non-commercial benefit of the community that involves the collection of litter and other solid waste from non-commercial sources and that results in the disposal and recycling of that waste, shall be exempt from the disposal and special handling charges of subsections (a) and (b) and the fees of subsection (e). The residue generated from a donated merchandise program run by an eleemosynary or charitable organization, pursuant to subdivision (1), and waste collected through the event or activity described in subdivision (2), that are to be disposed of at any city disposal facility, shall be clearly marked as such residue or waste, as the case may be, and shall not be commingled with any other waste.

In the event that an eleemosynary organization contracts with a private business to dispose of residue in compacted form or otherwise, the private business shall be initially charged the standard disposal fees for the disposal of the residue. The exemption to disposal fees shall be applied to the private business's account after the eleemosynary organization submits a monthly report to the chief engineer documenting dates and numbers of loads of residue dispatched to the disposal sites.

- (e) In addition to the charges outlined in subsections (a) and (b), there shall be a surcharge of 12 percent on those charges. The 12 percent surcharge shall also be applied to the charge that the city pays for disposing of refuse and other solid wastes at the H-POWER facility. All charges collected in accordance with this subsection shall be deposited into the recycling account of the solid waste special fund established by Section 6-49.1.

## **APPENDIX 11 – Disposal Charges (Continued)**

- (f) Surcharge for Recovering State and Federal Fees. In addition to the disposal charges at municipal landfills, incinerators, and transfer stations delineated in this section, the department is authorized to impose a surcharge to recover the amount of any solid waste regulatory or permit fee imposed by the state or federal government together with any administrative cost to the city for imposing and collecting said fee.

NOTE: Pursuant to Ordinance 16-10 Section 2 and 3:

Notwithstanding any city ordinance, administrative rule, or departmental directive to the contrary, the unit charges for the disposal of all green waste generated by the United States Navy (“Navy”) as a result of the Navy’s efforts to eradicate the Coconut Rhinoceros Beetle on Oahu shall be discounted to 75 percent of the unit charges for disposal set forth in ROH Section 9-4.2(a).

### **ROH Sec. 18-7.3 Criminal prosecution.**

- (a) General. Any person, firm or corporation violating any of the provisions of this chapter shall be deemed guilty of a misdemeanor, and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of the provisions of this chapter is committed, continued or permitted, and upon conviction of any such violation such person shall be punishable by a fine of not more than \$2,000 or by imprisonment for not more than one year, or by both fine and imprisonment.
- (b) Procedure on Arrest -- Summons or Citation.
  - (1) Any officer or inspector designated by the building official, who has been deputized by the chief of police as a special officer for the purpose of enforcing the provisions of the building, plumbing, electrical or housing codes (hereinafter referred to as "authorized personnel"), may arrest without warrant alleged violators by issuing a summons or citation in accordance with the procedure specified in this section. Nothing in this section shall be construed as barring such authorized personnel from initiating prosecution by warrant or such other judicial process as is permitted by statute or rule of court.
  - (2) Procedure on Arrest. Any authorized personnel designated by the building official, upon making an arrest for a violation of the building, plumbing, electrical or housing codes, may take the name and address of the alleged violator and shall issue to such person in writing a summons or citation hereinafter described, notifying such person to answer the complaint to be entered against him or her at a place and at a time provided in said summons or citation.
- (c) Summons or Citation.
  - (1) There shall be provided for use by authorized personnel a form of summons or citation for use in citing violators of the building, plumbing, electrical or housing codes which does not mandate the physical arrest of such violators. The form and content of such summons or citation shall be as adopted or prescribed by the administrative judge of the district court and shall be printed on a form commensurate with the form of other summonses or citations used in modern methods of arrest, so designed to include all necessary information to make the same valid within the laws and regulations of the State of Hawaii and the City and County of Honolulu.
  - (2) In every case when a citation is issued, the original of the same shall be given to the violator; provided, that the administrative judge of the district court may prescribe the giving to the violator of a carbon copy of the citation and provide for the disposition of the original and any other copies.
  - (3) Every citation shall be consecutively numbered and each carbon copy shall bear the number of its respective original.

## **APPENDIX 23 – Violation and penalty – Fees and permits for building, electrical, plumbing and sidewalk codes (Continued)**

### **ROH Sec. 18-7.4 Administrative enforcement.**

In lieu of or in addition to enforcement pursuant to Section 18-7.3, if the building official determines that any person, firm or corporation is not complying with a notice of violation, the building official may have the party responsible for the violation served, by mail or delivery, with an order pursuant to this section.

- (a) Contents of the Order.
  - (1) The order may require the party responsible for the violation to do any or all of the following:
    - (A) Correct the violation within the time specified in the order;
    - (B) Except as provided in subsection (e)(2), pay a civil fine not to exceed \$2,000 in the manner, at the place and before the date specified in the order; and
    - (C) Pay a civil fine not to exceed \$2,000 per day for each day in which the violation persists, in the manner and at the time and place specified in the order.
  - (2) The order must advise the party responsible for the violation that the order will become final 30 calendar days after the date of its delivery. The order must also advise that the building official's action may be appealed to the building board of appeals.
- (b) Service of Notice of Order. A notice of order must be served upon responsible persons either personally or by certified mail. However, if the whereabouts of such persons are unknown and the same cannot be ascertained by the building official in the exercise of reasonable diligence and the building official provides an affidavit to that effect, then a notice of order may be served by publishing the same once each week for two consecutive weeks in a daily or weekly publication in the city pursuant to HRS Section 1-28.5.
- (c) Effect of Order – Right to Appeal. The provisions of the order issued by the building official under this section will become final 30 calendar days after the date of the delivery of the order. The party responsible for the violation may appeal the order to the building board of appeals as provided in Chapter 16. The appeal must be received in writing on or before the date on which the order becomes final. However, an appeal to the building board of appeals will not stay any provision of the order.
- (d) Judicial Enforcement of Order. The building official may institute a civil action in any court of competent jurisdiction for the enforcement of any order issued pursuant to this section. Where the civil action has been instituted to enforce the civil fine imposed by said order, the building official need only show that the notice of violation and order were served, that a civil fine was imposed, the amount of the civil fine imposed and that the fine imposed has not been paid.

## **APPENDIX 23 – Violation and penalty – Fees and permits for building, electrical, plumbing and sidewalk codes (Continued)**

- (e) Three Orders Within a Three-Year Period. If a person incurs three final orders under this section within a period of three years relating to a detached one- or two-family dwelling, as those terms are used in Chapter 16, then:
  - (1) For a period of three years from the date the third order becomes final, the building official may not accept any application for a permit under this chapter from the person; and
  - (2) The civil fine for any subsequent violation by the person within three years of the preceding violation will be \$10,000. The building official may not reduce or waive any portion of the civil fine issued pursuant to this subdivision.

Any person who has incurred three final orders under this section within a three-year period may not circumvent the application of this subsection through the use of third persons, including employees and agents, and any third person knowingly aiding a person in the circumvention of this subsection shall be subject to the fine prescribed in subdivision (2).
