ORDINANCE _____

BILL 46 (2023), CD2, FD1

A BILL FOR AN ORDINANCE

RELATING TO FLAVORED TOBACCO PRODUCTS.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose and findings. The purpose of this ordinance is to define and prohibit the sale of flavored tobacco products within the City and County of Honolulu.

The escalating use of electronic smoking devices, commonly known as "vapes," has led to a significant rise in youth nicotine addiction. A 2019 State of Hawai'i Department of Health study revealed that over 30 percent of high school students in Hawai'i regularly use electronic smoking devices. These devices have been linked to severe lung disease, potential harm to brain development, and acute nicotine poisoning.

Act 206, Session Laws of Hawaii 2018 ("Act 206"), declared the sale of cigarettes, tobacco products, and electronic smoking devices a matter of statewide concern, and nullified any existing local ordinances or policies that restricted the sale of these products. The tobacco industry has historically used preemption as a tactic to prevent local governments from adopting stronger tobacco control measures, thereby protecting its interests at the expense of public health.

According to the American Academy of Pediatrics, across a range of tobacco products, flavorings are one of the main reasons that youth initiate tobacco use. More than 80 percent of adolescents and young adults who have tried tobacco report that their first product was flavored. When asked why they use tobacco, young people consistently say it is because they like the flavors. E-cigarette solutions are often flavored, with thousands of unique flavors advertised. The 2016 Surgeon General's report on e-cigarettes concluded that flavors are among the most commonly cited reasons for using e-cigarettes among youth and young adults. In 2021, flavored e-liquids were used by 84.7 percent of youth who reported current e-cigarette use.

Flavorings (other than menthol) have been banned in conventional cigarettes since the Family Smoking Prevention and Tobacco Control Act of 2009 because flavorings encourage cigarette experimentation and regular use, which can lead to tobacco use disorder. The cigarette flavor ban appears to be working, as it has been associated with a 58 percent decrease in the number of cigarettes smoked among youth and a 17 percent decrease in the likelihood of smoking cigarettes overall in this age group. However, these effects are likely diminished by the continued availability of menthol cigarettes and other flavored tobacco and nicotine products. Small cigars, e-

A BILL FOR AN ORDINANCE

cigarettes, and similar devices often contain flavors, but are not subject to the same regulations as cigarettes. To fully protect youth from the harms of tobacco, it is necessary to prohibit all flavor ingredients, including menthol, in all tobacco and nicotine products. Emerging evidence suggests that focusing on "characterizing" flavors rather than any flavor ingredient creates potential policy loopholes that are exploited by tobacco companies to circumvent tobacco flavor bans. Tobacco companies have historically used flavored products to target youth and, in particular, youth from communities that have experienced high levels of discrimination and stigma; for example, the targeting of Black communities with menthol cigarette advertising and promotions. Thus, prohibiting all flavors in all tobacco and nicotine products is a policy approach that promotes social justice and racial equity.

The City Council finds that the detrimental health effects and the addictive nature of these products necessitate a comprehensive approach to regulate their sale and distribution. It is therefore proposed that a trigger ban on flavored tobacco products be implemented to protect public health, particularly the health of our youth, and to prevent the further spread of nicotine addiction. While the preemption of the counties regulating the sale of tobacco has not yet been overturned, this ordinance will initiate a trigger ban on flavored tobacco products should Act 206 be overturned or suspended.

SECTION 2. Chapter 41, Revised Ordinances of Honolulu 2021 ("Public Health and Safety"), is amended by adding a new article to be appropriately designated by the Revisor of Ordinances and to read as follows:

"ARTICLE __: PROHIBITION OF FLAVORED TOBACCO PRODUCTS

For the purposes of this article, the following definitions apply unless the context clearly indicates or requires a different meaning:

- (b) *Presumption of flavor.* Any communication by or on behalf of the manufacturer or retailer of a tobacco product that such tobacco product imparts a taste or odor other than the taste or odor of tobacco, or that imparts a cooling or numbing sensation, constitutes presumptive evidence that the tobacco product is a flavored tobacco product. There is a rebuttable presumption that a tobacco product is a flavored tobacco product if a tobacco retailer, manufacturer, or any employee or agent of a tobacco retailer or manufacturer:
- (1) Has made or makes a public statement or claim that the tobacco product is a flavored tobacco product;

 - (3) Has taken or takes action directed at consumers that would be reasonably expected to cause consumers to believe the tobacco product is a flavored tobacco product; or
 - (4) Has made or makes a public statement or claim that a product has a minty or cooling effect, such as describing the product as "chill," "ice," "fresh," "arctic," or "frost."
- (c) Any flavored tobacco product found in a retailer's possession that violates this section may be considered contraband, seized by an inspector, or subject to immediate destruction or disposal by the retailer in accordance with the Hawaii Administrative Rules.
