1	SECTION 3	§ 21-5.60-5(a) Public, civic, and institutional uses Parks and open space Cemetery - standards	34	Amend cemetery standards	(a) Cemetery— standards. (1) Prior to approval of an application for a cemetery, a certificate of approval must be obtained from the Board of Water Supply indicating that there is no danger of contamination of the water supply. (2) In the AG-2 zoning district, burials are prohibited within 50 feet from the property line of any adjoining zoning lot located in the country, residential, apartment, or apartment mixed-use zoning districts. (3) In the AG-2 zoning district, a minimum 50-foot landscaped buffer is required from the property line of any adjoining zoning lot located in the country, residential, apartment, or apartment mixed-use zoning districts. (4) [Density] Height, density, and building area flexibility may be permitted pursuant to the plan review use process.	Allowing for vertical development will facilitate the efficient use of existing cemeteries and reduce the demand for limited lands available for new cemeteries.
