**A BILL FOR AN ORDINANCE**

---

RELATING TO USE REGULATIONS.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose. The purpose of this ordinance is to address the regulation of uses throughout Chapter 21, Revised Ordinances of Honolulu 2021 ("Land Use Ordinance" or "LUO"). The LUO is being amended to update and move provisions located in other articles of the LUO to a new Article 5, and for consistency purposes to amend other LUO articles to conform with term usage and cross-references.

SECTION 2. Chapter 21, Article 5, Revised Ordinances of Honolulu 2021 ("Specific Use Development Standards"), is repealed.

SECTION 3. Chapter 21, Revised Ordinances of Honolulu 2021 ("Land Use Ordinance"), is amended by adding a new Article 5 to read as follows:

**"ARTICLE 5: USE REGULATIONS**

**§ 21-5.10 Purpose and intent.**

The purpose of this article is to identify the permissible land uses in the various zoning districts and the conditions in which they may be conducted. Development standards and uses restrictions are imposed on certain uses in order to mitigate and prevent disruptive community impacts that might otherwise result if these specially regulated uses were permitted without restriction.

**§ 21-5.20 Use classification.**

- (a) *Permissible uses of property.* Permissible uses of land in each zoning district are identified in Table 21-5.1. Land uses that are allowed with a land use permit or special approval from the director or the council may only be conducted after obtaining all necessary permits and approvals. It is a violation of this chapter to use property in any manner prohibited by Table 21-5.1.
- (b) If a land use is not identified in Table 21-5.1, the use may only be conducted as an accessory use to a lawful principal use or after obtaining the director's approval to conduct the use under subsection (c).

**A BILL FOR AN ORDINANCE**

---

- (c) A person wishing to conduct a land use that is not permitted in Table 21-5.1 as a principal use must submit a written application to the director that describes the proposed land use, the property on which the land use is proposed, and the reasonably foreseeable impacts of the proposed land use on the surrounding areas. The director shall review the application and may require the submission of additional information relevant to the director's decision. After reviewing the application and any additional information requested by the director, the director may:
  - (1) Determine that the use falls within the definition of a land use identified in Table 21-5.1 and regulate the use according to the applicable requirements; or
  - (2) Determine that the use is not a land use regulated under Table 21-5.1 and require a zoning variance to allow for the proposed use.
- (d) Land uses that are subject to use specific development standards are identified with an asterisk (\*) in Table 21-5.1. Uses subject to use specific development standards must comply with the general development standards for the underlying zoning district and the use specific standards in this article. If there is a conflict between the general development standards for the underlying zoning district and the use specific standards in this article, the more stringent requirements will apply.
- (e) Notwithstanding any law to the contrary, land located in the State land use conservation district will be regulated by the State department of land and natural resources pursuant to HRS Chapter 183C.
- (f) Permitted uses for properties located in the Waikiki Special District are governed by Table 21-9.6(A).
- (g) In the event of any conflict between the text of this chapter and the following table, the text of this chapter shall control.

**§ 21-5.40 Agricultural uses.**

The following sections contain standards for the agricultural use categories.

**§ 21-5.40-1 Crop production.**

Uses in the crop production category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Urban agriculture – standards.*

- (1) The keeping and raising of livestock, poultry, and insects is prohibited.

---

## A BILL FOR AN ORDINANCE

---

- (2) Pedestrian walkways for customers must be provided on all-weather surfaces.
- (b) *Crop raising – standard.* Vertical farms are not permitted in the P-2 zoning district.
- (c) *Plant nursery – standards.* In the agricultural zoning districts:
  - (1) Retail sales are limited to plants sold directly from the greenhouse or open field where the plant was grown or cultivated, and only sales of the plant in its primary form are allowed.
  - (2) The sale of secondary products such as jams, juices, and baked goods is prohibited.
  - (3) Separate structures used primarily for retail sales are prohibited.

### **§ 21-5.40-2 Livestock and poultry keeping.**

Uses in the livestock and poultry keeping category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *Animal raising, major – standards.* Feedlots, poultry, or swine enclosures must be set back a minimum of 300 feet from the property line of any adjoining property within the residential, apartment, or apartment mixed-use zoning districts.

### **§ 21-5.40-3 Agricultural support.**

Uses in the agricultural support category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *Agricultural collection and storage.*
  - (1) *Minor:* The building area of all agricultural support facilities must not exceed 25 percent of the zoning lot area.

(2) *Major:*

- (A) All structures and activities must be set back a minimum of 100 feet from the property line of any adjoining property within the residential, apartment, or apartment mixed-use zoning districts;
- (B) The building area of all agricultural support facilities must not exceed 25 percent of the zoning lot area; and
- (C) In the AG-1, AG-2, and I-1 zoning districts, if the facility is within 300 feet of a zoning lot in the residential, apartment, or apartment mixed-use zoning district, pickup or drop-off of equipment between the hours of 10:00 p.m. and 7:00 a.m. is prohibited.

(b) *Agricultural equipment service – standards.*

- (1) All structures and activities must be set back a minimum of 300 feet from the property line of any adjoining property within the residential, apartment, or apartment mixed-use zoning districts.
- (2) In the AG-1 and AG-2 zoning districts, the building area of all agricultural support facilities must not exceed 25 percent of the lot area.

(c) *Agricultural processing – standards.*

- (1) *Minor:* All structures and activities must be set back a minimum of 50 feet from the property line of any adjoining property within the country, residential, apartment, apartment mixed-use, or resort zoning districts.
- (2) *Major:* All structures and activities must be set back a minimum of 1,500 feet from the property line of any adjoining property within the country, residential, apartment, apartment mixed-use, or resort zoning district, unless the director determines that potential impacts will be adequately mitigated by the manner of operations and natural conditions, such as prevailing winds and terrain. Where impacts are deemed adequately mitigated by the director, the minimum distance between a property used for agricultural processing and a property located in the country, residential, apartment, or apartment mixed-use (but not the resort) zoning district may be reduced to no less than 500 feet.

(d) *Feed store – standards.*

- (1) Only products that are clearly incidental to agricultural activities may be sold or stored.
- (2) The building area of all agricultural support facilities must not exceed 25 percent of the zoning lot area.
- (3) All structures and activities must be set back a minimum of 100 feet from the property line of any adjoining property within the residential, apartment, or apartment mixed-use zoning districts.

(e) *Sawmill – standards.* All structures and activities must be set back a minimum of 500 feet from the property line of any adjoining property within the residential, apartment, or apartment mixed-use zoning districts.

(f) *Minor and major composting – standards.*

(1) *Minor.*

- (A) Materials storage and composting activities must be located at least 50 feet away from all surface water, streams, and wetlands.
- (B) Controls to manage odors, vectors, surface contamination, and groundwater contamination are required. Odors from composting materials and activities may not be detectable from abutting properties or public areas, including streets and sidewalks.
- (C) Compost material must be securely stored; compost materials may not be allowed to leave the property as a result of wind, vehicular tracking, runoff, or other similar influences.
- (D) The director may require the implementation of mitigation measures to reduce impacts related to composting activities, including requirements for visual screening, odor control, and pest control. The failure to comply with mitigation measures required by the director under this subdivision will be a violation of this chapter.

(2) *Major.*

- (A) All incoming and outgoing loads must be covered and managed to prevent material from falling onto the ground and to mitigate odors while in transport.
- (B) Onsite areas where composting takes place must be located at least 50 feet away from all surface water, streams, or wetlands.
- (C) Controls to manage odors, vectors, surface contamination, and groundwater contamination are required.
- (D) Compost material must be covered in such a way that no material will leave or stray from the site.
- (E) Major composting may not occur on a zoning lot located within 1,500 feet of property within the country, residential, apartment, apartment mixed-use, or resort zoning district, unless the director determines that potential impacts will be adequately mitigated by the manner of operations and natural conditions, such as prevailing winds and terrain. Where impacts are deemed adequately mitigated by the director, the minimum distance between a property used for major composting and a property located in the country, residential, apartment, or apartment mixed-use (but not the resort) zoning district may be reduced to no less than 500 feet.

**§ 21-5.40-4 Accessory agricultural.**

Uses in the accessory agricultural category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Agricultural energy facility – standards.*

- (1) No more than 10 percent of the portion of the zoning lot or zoning lots used for crop production or livestock and poultry keeping may be used for the agricultural energy facility, consistent with the regulation of permissible uses within agricultural districts pursuant to HRS § 205-4.5(a)(17).

- (2) Structures associated with the agricultural energy facility must be set back a minimum of 300 feet from the property line of any adjoining property within the residential, apartment, or apartment mixed-use zoning district.

(b) *Agritourism minor and major – standards.*

- (1) Activities and improvements on the zoning lot may not diminish the long-term agricultural potential of the zoning lot. Improvements on the zoning lot used for agritourism must be capable of removal without unreasonable cost or effort.
- (2) Structures primarily dedicated to agritourism must not exceed 10 percent of the total zoning lot area.
- (3) Buildings and structures associated with agritourism that are not required as part of crop production or livestock and poultry keeping on the zoning lot are limited to 10,000 square feet of total floor area.
- (4) A minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production or livestock and poultry keeping for as long as the agritourism use is in operation, as evidenced by a farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping.
- (5) Accessory destination events, including weddings, are subject to the following:
- (A) Events must take place at a designated event space; and
- (B) Predominantly open-air physical improvements associated with destination events, such as a roofed pavilion, are allowed; provided that the total floor area must not exceed 1,000 square feet.
- (6) Bus, jeep, or off-road vehicle tours using motorized vehicles, including an all-terrain vehicle (ATV), quad, four-wheeler, off highway motorcycle, or any other all-terrain or four-wheel drive vehicle, may only be conducted on a currently operational farm or ranch engaged in crop production or

livestock and poultry keeping, and require a minor conditional use approval subject to the following standards:

- (A) Tours must have an educational purpose related to the agricultural use of the property; and
  - (B) Tours may not interfere with surrounding farm or ranch operations.
- (c) *Farm dwelling – standards.*
- (1) Each farm dwelling (including eaves, overhangs, carports, garages, trellised areas, stairways, decks, storage sheds that are not used in connection with agricultural activities, and swimming pools) must be contained within an area not to exceed 5,000 square feet, confined to a polygon for which no exterior angle is greater than 180 degrees.
  - (2) In the AG-1 zoning district, the number of farm dwellings must not exceed one for every 5 acres of zoning lot area; provided that a maximum of two farm dwellings are permitted on a zoning lot unless approved by the director through an agricultural site development plan or agricultural cluster permit.
  - (3) In the AG-2 zoning district, the number of farm dwellings must not exceed one for every 2 acres of zoning lot area; provided that a maximum of two farm dwellings are permitted on a zoning lot unless approved by the director through an agricultural site development plan or agricultural cluster permit.
  - (4) A minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production and livestock and poultry keeping, and valid agricultural dedication status must be maintained for as long as the farm dwelling use continues, as evidenced by:
    - (A) A farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping; or

- (B) Agricultural dedication documents used to obtain a Honolulu real property tax exemption.
- (d) *Farm stand – standards.*
  - (1) One farm stand for the growers and producers of agricultural products is allowed per zoning lot. More than one grower or producer is allowed at a farm stand.
  - (2) Enclosed floor area for the farm stand must not exceed 500 square feet. Additional unenclosed floor area may be roofed, but must otherwise be open to the elements.
  - (3) The farm stand must be located on private property and not on any public right-of-way.
  - (4) Hours of operation are limited to between 6:00 a.m. and 8:00 p.m.
- (e) *Farm worker housing – standards.*
  - (1) All structures and facilities associated with farm worker housing:
    - (A) Must occupy a contiguous total land area limited to 50 acres;
    - (B) The building area must not exceed 50 percent of the land area associated with the farm worker housing; and
    - (C) Impervious surface area must not exceed 75 percent of the land area associated with the farm worker housing.
  - (2) The farm worker housing plans must be supported by agricultural plans. The amount of labor necessary to farm the land must justify the number of dwelling units proposed, and the dwelling units must be dedicated to farm worker housing.
  - (3) Farm worker housing may be composed of multiple detached dwelling units or attached dwelling units, or may consist of multi-unit dwellings; provided that no more than one employee and the employee's family live in each dwelling unit, or up to three unrelated employees may share one

- (4) Each dwelling unit must not exceed 800 square feet of floor area.
  - (5) No more than eight dwelling units are allowed in any multi-unit dwelling.
  - (6) The landowner may not plan or develop a residential subdivision on the agricultural land, except in accordance with the plantation community subdivision regulations in HRS § 205-4.5(a)(12) (relating to permissible uses within the agricultural districts).
  - (7) When the associated farm is no longer in active production or no longer employing farm workers, no workers may be housed on the zoning lot. An exception is allowed to house one caretaker and the caretaker's immediate family.
- (f) *Agricultural farmers market – standards.*
- (1) Hours of operation are limited to between 6:00 a.m. and 8:00 p.m.
  - (2) A minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production or livestock and poultry keeping for as long as the agricultural farmers market is in operation, as evidenced by a farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping.

**§ 21-5.50 Residential uses.**

The following sections contain standards for the residential use categories.

- (a) *Duplex-unit dwelling – standards.* Each duplex-unit dwelling must be attached by a boundary wall for a minimum of 15 feet or 50 percent of the longer dwelling unit, excluding carports or garages, whichever length is greater (see Figure 21-10.3).
- (b) *Two-unit dwelling – standards.*
  - (1) Each two-unit dwelling must be surrounded by a yard.
  - (2) Dwelling units may be:
    - (A) On separate floors; or
    - (B) Attached by a solid wall a minimum of 15 feet in length, or attached by a carport or garage (see Figure 21-10.3).
  - (3) Dwelling units may not be connected solely by a covered open area, exterior hallway, or breezeway.
- (c) *Multi-unit dwelling – standards.*
  - (1) In the B-1 and B-2 zoning districts, multi-unit dwellings are permitted; provided that the following requirements are satisfied:
    - (A) All residential uses and occupancies must be located on consecutive floors that are located above all nonresidential uses and occupancies in the multi-family dwelling. A residential lobby of up to 1,500 square feet of floor area and other necessary points of ingress or egress may be located on the ground floor. A building must have at least one nonresidential use; or
    - (B) The multi-unit dwelling satisfies the following requirements:
      - (i) For multi-unit dwellings located on zoning lots of 3 acres or less, a minimum nonresidential floor area ratio of 0.2 must be developed on the lot;
      - (ii) For multi-unit dwellings located on zoning lots larger than 3 acres, but smaller than 7 acres, a minimum of 10,000 square

(iii) For multi-unit dwellings located on zoning lots larger than 7 acres, a minimum of 40,000 square feet or a floor area ratio of 0.05, whichever is greater, of nonresidential floor area must be developed on the lot.

(C) For purposes of this subdivision, nonresidential uses must be fully enclosed within a building and do not include areas used for parking.

**§ 21-5.50-2 Group living.**

Uses in the group living category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Group living, small, State regulated – standards.*

- (1) Must be licensed, certified, registered, or monitored by the State.
- (2) In the AG-2 zoning district, group living activities must be of an agricultural nature. A minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production or livestock and poultry keeping for as long as the small group living that is State regulated is in operation, as evidenced by a farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping.
- (3) If a zoning lot is developed with a principal dwelling unit and an accessory dwelling unit or an ohana unit, and each of the dwelling units is being used as a small group living that is state regulated, if the aggregate number of residents in both dwelling units exceed eight, the group living will be considered a large group living.

  - (2) Within the country, residential, and A-1 zoning districts, except for multifamily dwellings located in the A-1 zoning district that provide housing for students or staff of an educational institution with a total enrollment of 10,000 or more students and are within a one-half-mile radius of the educational institution, unless directly related to public health and safety, small group living that is not State regulated may not be located within 1,000 feet of the next closest group living.
  - (3) If a zoning lot that is developed with a principal dwelling unit and an accessory dwelling unit or an ohana unit, and each of the dwelling units is being used as a small group living that is not state regulated, if the aggregate number of residents in both dwelling units exceed eight, the group living will be considered a large group living.
- (c) *Group living, large – standards.*
- (1) Access roads must comply with the standards established by Chapter 22; provided that the director may waive or modify these requirements if, after consulting with the appropriate State or city agencies, the director determines that substandard roads or driveways provide reasonably safe access to the large group living.
  - (2) Minimum parking requirements will be determined by the director based on the number of residents and the nature of the proposed use.
  - (3) For special needs housing for the elderly, as defined in § 21-10.1, that are located in the apartment, apartment mixed-use, and business mixed-use zoning districts, the underlying zoning district standards may be modified under a conditional use permit as follows:

- (A) Density may be increased by a maximum of 25 percent of the maximum density permitted in the underlying zoning district;
  - (B) Height may be increased by a maximum of 25 percent of the maximum height permitted in the underlying zoning district, or 30 feet, whichever is less; and
  - (C) Off-street parking requirements may be reduced; provided that a minimum of one parking space per four dwelling or lodging units and a minimum of one guest parking space per 10 dwelling or lodging units is required.
- (4) The director may modify or waive the large group living standards in this subsection and other applicable requirements as necessary to comply with the federal Fair Housing Act or other laws with similar preemptive effect.
- (5) Within the country, residential, and A-1 zoning districts, except for multifamily dwellings located in the A-1 zoning district that provide housing for students or staff of an educational institution with a total enrollment of 10,000 or more students and are within a one-half-mile radius of the educational institution, unless directly related to public health and safety, large group living may not be located within 1,000 feet of the next closest group living.

**§ 21-5.50-3 Accessory residential.**

Uses in the accessory residential category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Accessory dwelling unit – standards.*

(1) *General.*

  - (ii) 1,000 square feet for zoning lots 5,000 square feet or more in area.
- (C) The construction or conversion of an accessory dwelling unit must meet all development standards for the principal use in the underlying zoning district.
- (D) An accessory dwelling unit may be created by:
  - (i) Building a new structure (attached to, such as a two-unit dwelling, or detached from the principal dwelling unit but located on the same zoning lot); or
  - (ii) Converting a legally established structure (attached to, such as a two-unit dwelling, or detached from the principal dwelling unit but located on the same zoning lot), attic, or basement.
- (E) Only one accessory dwelling unit is permitted on a zoning lot (including a zoning lot with existing multiple dwelling units); provided that an ohana unit that is otherwise permitted on a zoning lot is not considered to be an accessory dwelling unit for purposes of limiting the number of accessory dwelling units to one per zoning lot.
- (F) See § 21-6.30(b) for adjustments and exemptions to parking requirements for an accessory dwelling unit.
- (G) Accessory dwelling units are only permitted where there is sufficient infrastructure, including but not limited to wastewater treatment and disposal and water supply, as well as adequate roadways and first-responder resources to accommodate the accessory dwelling unit.

(2) *Conditions of approval.*

(A) *Covenant for accessory dwelling units.* The owners of the zoning lot shall record covenants running with the land with the State bureau of conveyances or the land court of the State of Hawaii, or both, as appropriate. The covenant must be recorded in a form approved by the director and may contain such terms as the director deems necessary to ensure its enforceability. The failure of an owner or of an owner's heirs, successors, or assigns to abide by such covenant will be deemed a violation of this chapter and will be grounds for enforcement by the director pursuant to § 21-2.150. At a minimum, the covenant must state:

- (i) The accessory dwelling unit may only be used for long-term residential occupancy and may not be used as a bed and breakfast home or transient vacation unit;
- (ii) The deed restrictions lapse upon removal of the accessory dwelling unit;
- (iii) All of the covenants are binding upon any and all heirs, successors, and assigns of the owners; and
- (iv) Neither the owners nor the heirs, successors, or assigns of the owners may submit the zoning lot or any portion thereof to a condominium property regime under the State of Hawaii Condominium Property Act to separate the ownership of an accessory dwelling unit from the ownership of its principal dwelling unit.

(B) *Removal.* The owners of an accessory dwelling unit shall notify the department upon removal of the accessory dwelling unit.

(b) *Home occupation – standards.*

- (B) The home occupation use may not significantly change the exterior appearance of the dwelling unit, zoning lot, or the surrounding neighborhood. Onsite signage or advertisements for the home occupation is prohibited.
  - (C) The outdoor storage of materials or supplies is prohibited.
  - (D) The indoor storage of materials or supplies must not exceed 250 cubic feet or 20 percent of the total floor area of the dwelling unit, whichever is greater.
  - (E) Noises and obnoxious odors associated with the home occupation must not be detectable from abutting streets or sidewalks. The director may order the mitigation of noise and odor impacts, or the cessation of a home occupation if noise and odor impacts are not able to adequately mitigated.
  - (F) The home occupation use may not create unreasonable risks of harm to persons or property or cause significant adverse impacts to local traffic or parking.
  - (G) In the B-1 and B-2 zoning districts, a home occupation use is permitted in a dwelling unit within a multi-unit dwelling.
- (2) *Limitations on home occupations:*
- (A) Commercial beekeeping may be a home occupation, subject to the standards of this subsection and the animal nuisance provisions in § 12-2.5(b).
  - (B) Items sold on the property are limited to items produced by the home occupation.
- (3) *Prohibited home occupations:* Activities that are prohibited as a home occupation use include but are not limited to:
- (A) Vehicle repair and painting that does not include the repair or painting of up to five vehicles owned by a household member per year;

  - (F) Use of dwellings or zoning lots as a headquarters for the assembly of employees for instructions or other purposes, or to be dispatched for work to other locations;
  - (G) Metal fabricating and cutting using welding or cutting torches, or other uses that involve the excessive or continuous use of loud tools;
  - (H) Commercial events and special events that involve the renting, for compensation, of any portion of the zoning lot for use by guests or invitees; and
  - (I) Animal care, treatment, boarding, or veterinary services. The occasional boarding and the occasional grooming of animals is permitted, so long as it involves no more than three animals that are not household pets on the property at any given time.
- (4) *Employees:*
- (A) In addition to the household member engaging in the home occupation, one employee of the home occupation who is not a household member may be on the property at any given time.
  - (B) For home-based childcare, in addition to the one non-household member employee of the home occupation who is allowed on the property at any given time under paragraph (A), if an emergency renders unavailable the principal caregiver who is a household member, an additional employee who is not a household member may be on the property on a temporary basis to substitute for the principal caregiver.

(c) *Ohana unit – standards.*

(1) *General.*

(A) The construction or conversion of an ohana unit must meet all development standards and requirements in the underlying zoning district for the principal dwelling unit and the ohana unit.

(B) An ohana unit may be created by:

(i) Building a new structure (attached to, such as a two-unit dwelling, or detached from the principal dwelling unit) on the same zoning lot; or

(ii) Converting a legally established structure (attached to, such as a two-unit dwelling, or detached from the principal dwelling unit), attic, or basement.

(C) An ohana unit may be permitted as accessory to a principal dwelling unit on a zoning lot that already includes one accessory dwelling unit; provided that all development standards and requirements in the underlying zoning district for the principal dwelling unit, the accessory dwelling unit, and the ohana unit are satisfied.

(2) *Occupants.* The ohana unit must be occupied by persons who are related by blood, adoption, guardianship, marriage, or other duly-authorized custodial relationship to the family residing in the principal dwelling unit; provided that ohana units for which a building permit was obtained prior to September 10, 1992, are not subject to this subsection and their occupancy by persons other than persons who are related to the family residing in the principal dwelling unit is permitted.

(3) *Covenant for ohana unit.* The owners of the zoning lot on which an ohana unit is located shall record covenants running with the land with the State bureau of conveyances or the land court of the State of Hawaii, or both, as

- (4) *Zoning lot limitations.* Ohana units are not permitted on zoning lots that are:
- (A) Within a zero lot line project;
  - (B) Within a cluster housing project;
  - (C) Within an agricultural cluster project,
  - (D) Within a country cluster project;
  - (E) Within a planned development housing project; or
  - (F) Within a duplex-unit project.

  - (2) Overnight accommodations provided for compensation must be for periods of 90 consecutive days or more in the same dwelling unit as that occupied by an owner, lessee, operator, or proprietor.
- (e) *Caretaker unit – standards.*
  - (1) In the P-2, AG-1, and AG-2 zoning districts, one caretaker unit per zoning lot is allowed only as a secondary supplemental use for cemeteries and Hawaiian fishponds, and the maximum total floor area for a caretaker unit is 1,000 square feet.
  - (2) Except in the P-2, AG-1, and AG-2 zoning districts, one accessory caretaker dwelling is permitted for each principal use; provided that:
    - (A) No more than four caretaker units are allowed per zoning lot;
    - (B) The accessory caretaker dwelling must be located in an area that does not interrupt or interfere with the principal use; and
    - (C) In the business, business mixed-use, industrial, and industrial mixed-use zoning districts, the caretaker dwelling must be above or behind the principal use.

Uses in the assembly category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Meeting facility, small, medium, or large – standards.*

- (1) Adequate ingress and egress must be provided with access to a street or right-of-way of a minimum width and sufficient street frontage as determined by the appropriate government agencies.
- (2) Kitchens are allowed as accessory to the meeting facility, but may not be used to support onsite or offsite commercial activities.
- (3) In the AG-2 zoning district:
  - (A) A minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production or livestock and poultry keeping for as long as the meeting facility is in operation, as evidenced by a farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping.
  - (B) The maximum capacity for a meeting facility is 500 individuals.
- (4) In the country, residential, and apartment zoning districts, noise and odors from the meeting facility use must not be detectable from public streets or sidewalks between the hours of 10:00 p.m. to 7:00 a.m.
- (5) In the I-1 zoning district:
  - (A) A meeting facility may not be located within 1,000 feet of another meeting facility, whether the other meeting facility is a permitted use or a nonconforming use.
  - (B) The owner or operator of the meeting facility shall file with the department and record with the State bureau of conveyances or the

land court of the State of Hawaii, or both, as appropriate, a declaration in a form acceptable to the department, stating that the owner or operator acknowledges that:

- (i) Structures formerly in industrial use may require upgrades to comply with various government regulations governing use of a structure as a meeting facility. These regulations include but are not limited to building, electrical, plumbing, fire, and occupancy code requirements; and
- (ii) Adjacent and neighboring zoning lots may, by right, include potentially annoying or toxic industrial uses at any time, including after the meeting facility use has commenced.

The declaration must also include provisions that preclude the meeting facility and its representatives from filing nuisance complaints against any industrial use operating in compliance with applicable laws.

- (C) No accessory uses are permitted unless otherwise permitted as an accessory use; provided that this paragraph does not prohibit the following accessory uses to a religious facility such as a church, temple, or synagogue:
  - (i) A school for the vocational training of adults for the priesthood, ministry, or rabbinate; or
  - (ii) Classes on religious subjects.
- (D) A parking area and landscaping plan demonstrating compliance with the minimum requirements of this chapter for off-street parking, loading, and landscaping and screening must be submitted to the director for review, and must be approved by the director prior to any use of the meeting facility.

(b) *Community-based recreation center – standards.*

- (1) In the P-2 zoning district, community-based recreation centers are only permitted if the community-based recreation center is being used to satisfy park dedication requirements, or is a part of a master planned community.

Uses in the communication category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *Dish antenna – standards.* All dish antennas must be located or screened to minimize visual impacts, especially from public rights-of-way or public places.
- (b) *Communication tower – standards.*
- (1) Communication towers must be set back from all property lines a minimum of 1 foot for every 5 feet of height.
- (2) Communication towers must be enclosed by fencing a minimum of 6 feet in height, and towers must be equipped with an anti-climbing device.
- (3) All communication towers in the residential zoning districts must use monotree (designed to blend in with surrounding trees) or other stealth design to minimize visual impacts.
- (4) In the industrial zoning districts, the communication tower must be set back a minimum of 100 feet from the property line of any adjoining zoning lot in the residential, apartment, or apartment mixed-use zoning districts.
- (5) Communication towers that qualify as eligible facility requests under 47 U.S.C. § 1455(a) and 47 C.F.R § 1.6100, as may be amended or superseded, do not require any additional land use permits or approvals under this chapter; provided that the communication tower complies with all conditions of the initial land use permit or approval.

(c) *Communication support structure – standards.*

- (1) At-grade equipment must be screened by a solid wall or fence, or by a landscape hedge of sufficient height and width to screen the equipment.
- (2) Antennas must be concealed within the communication support structure or designed to minimize visual impacts through architecture, landscaping, or other site solutions. Antennas are not considered to be concealed or designed to minimize visual impacts if the antenna extends above the top of the communication support structure or above the top of screening walls or features. Acceptable concealment may be accomplished through the use of one or more of the following design features:
  - (A) Antennas integrated into the architectural features of a structure, or placed in alignment with elements of the structure, such as corners or columns;
  - (B) Antennas hidden behind screening walls or features, where the screening walls or features are colored to match or otherwise blend in with the existing structure;
  - (C) Antennas mounted on screening walls or features that do not extend above the screening walls or features, where the antennas and visible mounting supports are colored to match the existing structure; or
  - (D) Antennas set back from the edge of the structure to minimize visual impacts from the ground level at the closest public right-of-way or public place.
- (3) If satisfying the concealment and integration requirements in subdivision (2) results in the antenna not being able to provide the service it was designed to provide in the desired coverage area, the director may allow for flexibility from the strict application of these requirements if the applicant demonstrates that:
  - (A) The communication support structure is not structurally capable of supporting the design under applicable codes;

- (B) The location of the antenna interferes with the existing use of the communication support structure, such as having to locate antennas on balconies or decks; or
- (C) The antenna is not able to properly transmit radio frequencies due to technology limitations, such as:
  - (i) Inability of the antenna to transmit radio frequencies through paint or screening walls or features;
  - (ii) To transmit properly, the antenna is required to be located close to or at the edge of the roof; or
  - (iii) Paint or screening walls or features compromise antenna functionality, such as overheating;

provided that the director shall first determine that there are no feasible alternatives to minimize the visual impacts of the antenna, including possible relocation of the antenna.

- (4) Communication support structures that qualify as eligible facility requests under 47 U.S.C. § 1455(a) and 47 C.F.R § 1.6100, as may be amended or superseded, do not require any additional land use permits or approvals under this chapter; provided that the communication support structure complies with all conditions of the initial land use permit or approval.
  - (5) In the I-1, I-2, and I-3 zoning districts, antennas need not satisfy the concealment and integration requirements in subdivision (2) unless the communication support structure is located within 100 feet of the property line of any adjoining zoning lot in the residential, apartment, or apartment mixed-use zoning districts.
- (d) *Accessory receive only antenna – standards.*

(B) For broadcasting antennas other than for TV:

- (i) At least one two-way radio antenna for every 10 feet of the tower; or
- (ii) At least one two-way radio antenna for every 20 feet of the tower and at least one microwave facility or one low power TV antenna;

provided that these requirements may be reduced if the Federal Communications Commission provides a written statement that no additional licenses for those broadcast frequencies will be available in the foreseeable future. These requirements may also be reduced if the height of the tower needed significantly exceeds the height of existing towers in the area and would therefore create an unusually onerous visual impact that would dominate and alter the visual character of the area when compared to the visual impact of existing towers.

- (6) Once a site for a broadcasting antenna is approved, additional antennas and accessory uses proposed within the approved envelope (within a specified height and distance) will be processed without requiring modification to the initial land use permit or approval, unless the broadcasting antenna site is within a special district.
- (7) Broadcasting antennas and associated facilities must be enclosed by fencing a minimum of 6 feet in height.
- (8) All requests for broadcasting antenna installations must be accompanied by a landscape plan.

The director may waive this requirement upon finding that the topography or landscaping makes a buffer unnecessary.
- (2) Schools must be located with access to a street or right-of-way of minimum access width and sufficient street frontage as determined by the appropriate government agencies.
- (3) *Parking and loading.*
  - (A) Schools with a design capacity of more than 25 students must provide an off-street drop-off area, with a minimum capacity equivalent to four standard-sized parking spaces. This number may be adjusted by the director as the design capacity of the school changes, or if a traffic management plan is approved. The pickup and drop-off spaces may be used as parking spaces outside of the designated pickup and drop-off time periods.
  - (B) Schools with a design capacity of more than 50 students must provide at least one multipurpose bay that is a minimum of 40 feet in depth by 14 feet in width to accommodate bus pickup and drop-off. This multipurpose bay may be used for other activities outside of pickup and drop-off hours. The director may adjust this requirement as the design capacity of the school changes.
- (4) In the AG-2 zoning district, a minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production or livestock and poultry keeping for as long as the PreK-12 school is in operation, as evidenced by a farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping.

  - (B) In the AG-1 and AG-2 zoning districts, vocational schools must involve agricultural education programs conducted on a farming or ranching operation that is accessory and secondary to the principal agricultural use of the zoning lot as described in HRS § 205-4.5(19).
- (2) Major: In the AG-1 and AG-2 zoning districts, vocational schools must involve agricultural education programs conducted on a farming or ranching operation that is accessory and secondary to the principal agricultural use of the zoning lot as described in HRS § 205-4.5(19).

**§ 21-5.60-4 Government.**

Uses in the government category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *Consulate - standards.* All structures and facilities must be set back a minimum of 20 feet from any adjoining zoning lot in the residential, apartment, or apartment mixed-use zoning districts, unless buffered by a solid wall, screening fence, or buffering hedge that is a minimum of 6 feet in height.

**§ 21-5.60-5 Parks and open space.**

Uses in the parks and open space category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *Cemetery – standards.*
- (1) Prior to approval of an application for a cemetery, a certificate of approval must be obtained from the Board of Water Supply indicating that there is no danger of contamination of the water supply.
  - (2) In the AG-2 zoning district, burials are prohibited within 50 feet from the property line of any adjoining zoning lot located in the country, residential, apartment, or apartment mixed-use zoning districts.

- (3) In the AG-2 zoning district, a minimum 50-foot landscaped buffer is required from the property line of any adjoining zoning lot located in the country, residential, apartment, or apartment mixed-use zoning districts.
- (4) In the P-2 zoning district, the following development standard flexibility may be permitted pursuant to the plan review use process:
  - (A) An increase of up to 25 feet above the maximum height limit; and
  - (B) An increase in the maximum building area.
- (b) *Park – standards.* Playgrounds, sport courts, or sport fields must be set back from all property lines a minimum of 20 feet.

**§ 21-5.60-6 Utility.**

Uses in the utility category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *Small – standards.*
  - (1) *General:*
    - (A) All equipment, including rooftop-mounted equipment, must be set back pursuant to the height setbacks for the underlying zoning district or special district, unless otherwise specified below.
    - (B) All clearances to utility facilities, including overhead lines and poles, must comply with all standards of the applicable utility provider.
    - (C) Small utilities will be deemed abandoned if operations cease for one continuous year, with the exception of periods related to necessary maintenance, transfer of ownership or operation, or repairs to the system. Upon determination by the director that a small utility has been abandoned, the structure must be dismantled and removed or repurposed within 90 days after receipt of written notice from the director, unless the small utility owner or operator demonstrates to the director's satisfaction the owner or operator's good faith efforts to sell, repurpose, dismantle, or remove the small

- (D) In an emergency, a utility may undertake corrective actions deemed necessary by the utility to avoid unacceptable hazard to life, significant loss of property, or significant economic hardship due to extended loss of power or service.

(2) *Solar energy generation.*

- (A) A solar energy generation facility of any size is considered a small utility if it is mounted to the roof of a permitted structure dedicated to a separate principal use permitted in the underlying zoning district.
- (B) A solar energy generation facility of up to 5 acres in size is considered a small utility if it is mounted on a structural support over existing surface parking dedicated to a use permitted in the underlying zoning district.
- (C) A ground-mounted solar energy generation facility is considered a small utility if it is less than 20 acres in area.
- (D) Notwithstanding paragraphs (A), (B), and (C), a solar energy generation facility is not considered a small utility, but rather a medium utility if:
- (i) There are proposed or existing solar energy generation facilities on the same zoning lot or abutting zoning lots, so that the total facility size exceeds 20 acres, excluding permitted rooftop solar energy generation facilities;
  - (ii) The zoning lot is within the State land use agricultural or conservation districts; or
  - (iii) The solar energy generation facility involves the use of a historic site listed on the Hawaii or National Register of Historic Places.

- (E) Applications for solar energy generation facilities must include a landscape plan that shows how the facility will be screened from surrounding uses and how displaced trees will be relocated or replaced elsewhere on the zoning lot or surrounding area.
  - (F) If a solar energy generation facility exceeds 50,000 square feet in area and is within 500 feet of the property line of any adjoining zoning lot in the country, residential, apartment, or apartment mixed-use zoning districts, the facility must be fully screened from the adjoining zoning lots in those zoning districts by a landscaped hedge, solid wall, or screening fence a minimum of 6 feet in height. If the provision of solid screening is not feasible, the solar energy generation facility will be considered a medium utility.
- (3) *Wind energy generation.*
- (A) A wind energy generation facility is considered a small utility if it is located within the agricultural, country, residential, apartment, apartment mixed-use, business, business mixed-use, resort, industrial, industrial mixed-use, or preservation zoning districts, and has a rated capacity of no more than 15 kilowatts.
  - (B) A rooftop wind energy generation facility is considered a small utility if it is accessory to a principal use permitted in the underlying zoning district on the same zoning lot.
  - (C) For a ground-mounted wind energy generation facility, the tower climbing apparatus and blade tips must not be lower than 15 feet from ground level, unless enclosed by a fence a minimum of 6-feet in height, and must not be within 7 feet of any roof or structure unless the blades are completely enclosed by a protective screen or fence.
  - (D) A small wind energy generation facility must be set back from all property lines at a minimum distance equal to the height of the facility. Height is measured from the farthest vertical extension of the tower, which includes the height of the tower or its vertical support structure and the farthest vertical extension of the blade tip from the tower.

The following sections contain standards for the commercial use categories.

**§ 21-5.70-1 Daycare.**

Uses in the daycare category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

**(a) Child daycare – standards.**

- (1)** All outdoor activity areas, such as playgrounds, toddler lots, play courts, and similar facilities, must be set back a minimum of 15 feet from the property line of any adjoining zoning lot within the country, residential, apartment, or apartment mixed-use zoning districts, and a minimum 6-foot high solid wall must be provided as a buffer. The director may waive this requirement upon finding that the topography or landscaping makes a buffer unnecessary.
- (2)** Facilities with a design capacity exceeding 25 care recipients must provide an onsite pickup and drop-off area equivalent to four standard-sized parking spaces. The pickup and drop-off spaces may be used as parking spaces outside of the designated pickup and drop-off time periods.
- (3)** In the AG-2 zoning district, a minimum of 51 percent of the zoning lot area suitable for crop production or livestock and poultry keeping must be dedicated to crop production or livestock and poultry keeping for as long as the child daycare is in operation, as evidenced by a farm plan that shows the area and percentage of the zoning lot to be in active agricultural use, and includes information about a farm or ranch's resources, goals, business plan, and timeline to engage in crop production or livestock and poultry keeping.

for the lease or rental of a bed and breakfast home or transient vacation unit, are subject to this subparagraph.

- (i) It is unlawful for any person to advertise or cause the advertisement of a bed and breakfast home or transient vacation unit without including in the advertisement a current registration certificate number obtained pursuant to this section, or a nonconforming use certificate number obtained pursuant to § 21-4.110-1 or § 21-4.110-2, and a tax map key number for the property on which the bed and breakfast home or transient vacation unit is located.
- (ii) It is unlawful for any person to advertise or cause the advertisement of a dwelling unit that is not a registered bed and breakfast home or transient vacation unit pursuant to this section or is not operating under a nonconforming use certificate pursuant to § 21-4.110-1 or § 21-4.110-2, for a term of less than 90 consecutive days. Any advertisement for the rental of a dwelling unit that is not a registered bed and breakfast home or transient vacation unit or is not operating pursuant to a nonconforming use certificate as aforesaid may not include daily or less than three-month rental rates, and must include the following statement: "This property may not be rented for less than 90 consecutive days. Rental prices will not be reduced or adjusted based on the number of days the rental is actually used or occupied."
- (iii) Within seven days after receipt of a notice of violation of paragraph (A) or (B), the owner or operator of a dwelling unit shall remove, or cause the removal of, the advertisement identified in the notice, including but not limited to any advertisement made through a hosting platform. If the advertisement is not removed within seven days after receipt of the notice of violation, the following civil fines will be levied against the owner or operator of the dwelling unit:

  - (ii) State all of the facts that cause the complainant to believe that a violation has occurred;
  - (ii) Identify the provisions of this section that the complainant believes are being violated; and
  - (iv) Provide the complainant's name and a mailing address where the director may respond to the complaint.
- (B) Within 30 days after receiving a written complaint reporting a violation of the provisions of this paragraph, the director shall provide a written response to the complainant either:
  - (i) Declining jurisdiction over the complaint, in which case the complainant may pursue judicial relief pursuant to HRS § 46-4(b);
  - (ii) Entering a finding of no violation, which may be appealed to the zoning board of appeals pursuant to Charter § 6-1516; or
  - (iii) Advising the complainant that the director has initiated an investigation of the complaint.
- (6) This subsection does not terminate or supersede private restrictive covenants or other restrictions that prohibit the use of real property as a bed and breakfast home or transient vacation unit.
- (7) Notwithstanding any contrary provisions in this chapter, bed and breakfast homes and transient vacation units that do not have a valid nonconforming use certificate or registration certificate are not permitted in areas where the applicable development plan or sustainable communities plan prohibits the establishment of new bed and breakfast homes or transient vacation units; provided that bed and breakfast homes or transient vacation units

### **§ 21-5.80-4 Resource extraction.**

Uses in the resource extraction category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

- (a) *General resource extraction – standards.*
- (1) Blasting operations are restricted to Mondays through Fridays between the hours of 8:00 a.m. and 5:00 p.m.
  - (2) The application for a conditional use permit must include a plan for the development of the property, which includes the exploitation and reuse of the property.
    - (A) The plan for the exploitation phase must show the proposed development as planned in relation to surrounding property within 300 feet, and include topographic surveys and other materials indicating existing conditions (including drainage) and the conditions (including topography, drainage, and soils) that will exist at the end of the exploitation phase. Contour intervals for topography must be 5 feet in areas where the slope is greater than 10 percent, or 2 feet in areas where the slope is 10 percent or less.
    - (B) The plan for the reuse phase must indicate how the property is to be left in a form suitable for reuse for purposes permissible in the underlying zoning district, and the relation between the reuse and the existing or proposed uses for surrounding properties. Among items to be included in the plan are:
      - (i) Feasible circulation patterns in and around the site;
      - (ii) The treatment of exposed soil or subsoil (including measures to be taken to replace topsoil or establish vegetation in excavated areas) in order to make the property suitable for the proposed reuse; and

**§ 21-5.80-5 Storage and warehousing.**

Uses in the storage and warehousing category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Self-storage – standards.*

- (1) No individual storage area may exceed 6,000 cubic feet in volume.
- (2) All buildings must have windows or architectural treatments that look like windows.
- (3) Storage spaces may not be used for activities other than the storage of personal property. Accessory uses are limited to the sale of boxes, tape, and other packing-related materials.

(b) *Storage yard – standards.*

- (1) Sale or processing of scrap, salvage, or secondhand material is prohibited.
- (2) Except for necessary openings for ingress and egress, storage yards must be completely enclosed by a fence or wall a minimum of 6 feet in height.

### **§ 21-5.80-7 Waste-related.**

Uses in the waste-related category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Salvage, scrap, or junk storage and processing – standards.*

- (1) All structures and activities must be set back a minimum of 1,500 feet from the property line of any zoning lot in the country, residential, apartment, apartment mixed-use, or resort zoning district.
- (2) If the director determines that potential impacts of the facility will be adequately mitigated due to prevailing winds, terrain, technology, or similar considerations, the setback requirement may be reduced; provided that under no circumstances may the distance be less than 500 feet.

(b) *Waste disposal and processing – standards.*

- (1) No waste disposal and processing facility may be located within 1,500 feet of any zoning lot in the country, residential, apartment, apartment mixed-use, or resort zoning districts. If it can be determined that potential impacts will be adequately mitigated due to prevailing winds, terrain, technology, or similar considerations, the 1,500-foot distance may be reduced; provided that the distance may not be less than 500 feet.
- (2) Solid waste landfills and construction and demolition landfills may not be constructed, modified, or expanded unless a minimum 0.5-mile buffer zone is provided around the waste or disposal facility from the property line of any zoning lot used for residential, school, or hospital purposes;
- (3) This subsection does not apply to the continued operation of an existing solid waste landfill or construction and demolition landfill that is properly permitted; provided that the continued operation does not require vertical

**§ 21-5.80-8 Accessory industrial.**

Uses in the accessory industrial category that are required to comply with specific standards are set forth in this section. Development standards required in other articles of this chapter apply to all uses.

(a) *Helistop – standards.*

- (1) Structures for rotorcraft storage are prohibited.
- (2) May include overnight parking of one rotorcraft.
- (3) Except for emergency medical operations and search and rescue operations:
  - (A) Helistops may not exceed one operation per hour.
  - (B) Takeoff and landing operations are restricted to the hours between 8:00 a.m. and 5:00 p.m.
  - (C) Rotorcraft are limited to a maximum gross weight of up to 7,000 pounds.

**§ 21-5.90 Miscellaneous uses.**

The following sections set forth the standards for uses in the miscellaneous use categories. Development standards required in other articles of this chapter apply to all uses.

**§ 21-5.90-1 Historic structure reuse.**

- (a) Any use is permitted in a structure listed on the Hawaii or National Register of Historic Places; provided that any proposed alteration, repair, or renovation beyond the structure's original design and the proposed use must be approved by the appropriate historic preservation entity, and may not result in the destruction or demolition of the structure.
- (b) The director may deny any historic structure reuse request upon determining that the reuse may result in adverse impacts on the surrounding neighborhood for which reasonable mitigative measures are not possible or practicable.

**§ 21-5.90-2 Joint development of two or more adjacent zoning lots.**

- (a) Whenever two or more adjacent zoning lots are developed jointly in accordance with this section, they will be considered and treated as one zoning lot; provided that whenever the zoning lots involve two or more zoning districts, the lots will be subject to § 21-4.50.
- (b) An owner, owners, duly authorized agents of the owners, or duly authorized lessees holding leases with a minimum of 30 years remaining in their terms of adjacent zoning lots who believe that joint development of their properties would result in a more efficient use of land shall apply for a minor conditional use permit to undertake the joint development.
- (c) When applying for a minor conditional use permit for joint development under this section, the applicants shall submit to the director a joint development agreement that binds themselves and their successors in title or lease, individually and collectively, to maintain the pattern of joint development proposed in such a way that there will be conformity with applicable zoning regulations. The development standards listed in § 21-2.90-2(c) may not be modified through a conditional use permit for joint development unless allowed through another discretionary approval. The right to enforce the agreement will also be granted to the city. The joint development agreement is subject to the approval of the corporation counsel of the city.
- (d) If the director finds that the proposed agreement assures future protection of the public interest and meets the requirements for issuance of a conditional use permit, the director shall issue the conditional use permit. Upon issuance of the permit, the joint development agreement, which must be one of the conditions of the conditional use permit, must be recorded as a covenant running with the land with the State bureau of conveyances or the land court of the State of Hawaii, or

**"§ 21-2.40-1 Minor permits.**

- (a) *Specific permits.* The minor permit category consists of the following permits and approvals:
- (1) Zoning adjustment;
  - (2) Waiver;
  - (3) Existing use permit;
  - (4) Conditional use permit (minor); and
  - (5) Special district permit (minor).
- (b) *Preapplication procedures.* Before submitting an application for a minor permit[, ~~except an existing use permit,~~] for the following uses:

- (B) The landowner ~~[must]~~ shall authenticate the nonconformity of the existing dwelling, carport, or garage, if necessary.

Any carport or garage covered by this subsection must not be converted to or be used for a use other than a carport or garage.

- (2) The maximum horizontal dimensions for the carport or garage generally must not exceed 20 feet by 20 feet; provided that the dimensions may be reasonably increased to accommodate an existing retaining wall or similar condition.
- (b) *Energy-saving rooftop designs.* Rooftop designs that incorporate energy-saving features, including but not limited to vented ceilings or louvered skylights, may extend above the height limit or height setback of the underlying zoning district by not more than 5 feet; provided that:

- (c) *Flag lot access width.* Where unusual terrain or existing development does not allow the required access drive, the director may:
- (1) Adjust the minimum access width to no less than ~~[ten]~~ 10 feet; and
  - (2) Allow more than dual access to an access drive; provided that the following criteria are met:
    - (A) The appropriate government agencies do not object to the proposal;
    - (B) No more than three flag stems or access drives are located adjacent to one another, the access drives do not serve more than five dwelling units, and the combined access drive pavement width does not exceed 32 feet; and
    - (C) If more than dual access to a flag stem or access drive is proposed, the design results in one common driveway and one curb cut to serve all lots adjoining the flag stems.

- (m) *Sign master plan.* A sign master plan is a voluntary, optional alternative to the strict sign regulations of this chapter, intended to encourage some flexibility in order to achieve good design (including compatibility and creativity), consistency, continuity, and administrative efficiency in the utilization of signs within eligible sites. Under this alternative, and subject to this subsection, the director may approve a sign master plan that permits the exceptions to the sign regulations of this chapter set forth in subdivision (2).
- (1) *Eligibility.* Developments with three or more principal uses on a zoning lot, other than ~~[one-family or two-family detached dwellings or duplex units,]~~ single-unit, two-unit, or duplex-unit dwellings, are eligible for consideration of a zoning adjustment for a sign master plan. An applicant must have the authority to impose the sign master plan on all developments on the zoning lot.
- (2) *Flexibility.* The following exceptions to the sign regulations of this chapter may be permitted pursuant to an approved sign master plan.
- (A) *Physical characteristics.* The maximum number of permitted signs, sign area, and the height and physical dimensions of individual signs, may be modified; provided that:
- (i) No sign may exceed any applicable standard relating to height or dimension by more than 20 percent;
- (ii) The total permitted sign area for signs that are part of a sign master plan may not be increased by more than 20 percent beyond the total sign area permitted by the underlying sign regulations for the site; and
- (iii) The total number of signs that are part of a sign master plan may not exceed 20 percent of the total number of signs permitted by the underlying sign regulations for the site; provided that when computation of the maximum number of permitted signs results in a fractional number, the number of allowable signs will be the next highest whole number.
- (B) *Sign types.* The types of business signs permitted for ground floor establishments may include hanging, marquee fascia, projecting, roof, and wall signs.

  - (C) *Sign illumination.*
    - (i) ~~[When]~~ Where direct illumination is not otherwise permitted by the underlying sign regulations for the site, sign copy or graphic elements of business or identification signs for ground floor establishments may be directly illuminated; provided that any remaining sign area must be completely opaque and not illuminated.
    - (ii) Signs for second floor establishments may be indirectly illuminated.
  - (D) *Sign location.* An appropriate, consistent pattern for the placement of regulated signs within the project site must be approved in the sign master plan; provided that all signs must be located on the building containing the identified establishment, and no ground sign may be located within a required yard except as may be permitted by this chapter.
  - (E) The standards and requirements for directional signs, information signs, and parking lot traffic control signs may be established by the director, as appropriate.
- (3) *Sign master plan approvals.* The director may approve a sign master plan only upon a finding that, in addition to the criteria set forth in § 21-2.140-2, the following criteria have been satisfied:

- (B) The size and placement of each sign will be proportional to and visually balanced with the building facade of the side of the building on which the sign is located;
- (C) All signs regulated by this chapter and maintained on the site will feature the consistent application of not less than one of the following design elements: materials, letter style, color, shape, or theme; and
- (D) Except as may be adjusted by the sign master plan, all signs regulated by this chapter and maintained on the site must conform to this chapter.

The director may impose appropriate conditions and additional controls on the approval of a sign master plan.

(4) *Implementation.*

- (A) The director shall maintain a copy of the approved sign master plan for each project to facilitate the expedited processing of sign permits for that project. The director shall review each sign permit application for an individual sign within an affected project for its conformity to the approved sign master plan. Upon determining that the sign permit application conforms to the approved sign master plan, the director shall issue the sign permit for the sign.
  - (B) Except as otherwise provided in this paragraph, no sign may be maintained on a site subject to an approved sign master plan unless the sign conforms to the sign master plan. If a site has existing signs that will not conform to the approved sign master plan, the master plan must specify a reasonable time period, as approved by the director, for conversion of all existing signs to the design scheme set forth in the approved master plan; provided that in no event may the time period for full conformance exceed one year from the date the sign master plan is approved.
- (n) *Conversion of accessory structures.* An existing, legally established accessory structure constructed before September 14, 2015, in the country or residential district may be converted to an accessory dwelling unit and allowed to exceed the maximum floor area established by § ~~[21-5.720(c)(1)]~~ 21-5.50-3(a), or be

- (a) Within the residential zoning districts, permitted uses and structures [~~shall be as enumerated~~] are as set forth in [Table 21-3.] Table 21-5.1.
- (b) Within the residential zoning districts, development standards [~~shall be as enumerated~~] are as set forth in Table 21-3.2.
- (c) *Additional development standards.*
  - (1) *Maximum height.* The maximum height of structures is determined by the building envelope created as the result of the intersection of two planes. The first plane is measured horizontally across the parcel at 25 feet above the high point of the buildable area boundary line. The second plane runs parallel to grade, as described in § 21-4.60(b), measured at a height of 30 feet. If the two planes do not intersect, then the building envelope is determined by the first plane (see Figure 21-3.10).

SECTION 24. Section 21-3.130, Revised Ordinances of Honolulu 2021, is amended to read as follows:

**"§ 21-3.130 Industrial zoning districts—Purpose and intent.**

- (a) The purpose of the industrial zoning districts is to recognize the importance of industrial uses to the welfare of city residents by providing areas for industrial uses without undue competition from other uses, and ensuring compatibility with nonindustrial areas. - (b) Heavy industrial uses such as ~~[refining of petroleum and manufacturing of explosives]~~ heavy general manufacturing and processing, and explosive or toxic chemical manufacturing, storage, and distribution will only be allowed under certain conditions and in areas well away from other zoning districts.
- (c) To minimize potential adverse impacts on property and persons in the same or neighboring districts, standards are established for the more noxious uses permitted in these zoning districts.
- (d) The intent of the I-1 limited industrial zoning district is to provide areas for some of the industrial employment and service needs of rural and suburban communities. It is intended to accommodate light ~~[manufacturing, including handcrafted goods as well as "high technology industries" such as telecommunications, computer parts manufacturing, and research and development.]~~ industrial uses including light general manufacturing and processing, linen supplier, and publishing facility. Uses in this district are limited to those that have few environmental impacts and ~~[those that]~~ complement the development scale of communities they would serve.
- (e) The intent of the I-2 intensive industrial zoning district is to set aside areas for the full range of industrial uses necessary to support the city. It is intended for areas with necessary supporting public infrastructure, near to major transportation systems, and with other locational characteristics necessary to support industrial centers. It ~~[shall]~~ must be located in areas away from residential communities where certain heavy industrial uses would be allowed.
- (f) The intent of the I-3 waterfront industrial zoning district is to set apart and protect areas considered vital to the performance of port functions and ~~[to]~~ their efficient operation. It is the intent to permit a full range of facilities necessary for successful and efficient performance of port functions. It is intended to exclude uses which are not only inappropriate but which could locate elsewhere."

SECTION 25. Section 21-4.60, Revised Ordinances of Honolulu 2021, as amended by Ordinance 22-28, is amended to read as follows:

**"§ 21-4.60 Heights.**

- (a) All structures ~~[shall]~~ must fall within a building height envelope at a height specified by this chapter, or as specified on the zoning maps. Exceptions are

specified under subsection (c), and ~~[others]~~ other exceptions may be specified under special districts.

- (b) The building height envelope ~~[shall]~~ must run parallel to existing or ~~[finished]~~ finish grade, whichever is lower (see Figure 21-4.3), except where ~~[finished]~~ the finish grade is higher than the existing grade in order to meet city construction standards for driveways, roadways, drainage, sewerage, and other infrastructure requirements, or to meet conditions of permits approved under this chapter. In these cases, height ~~[shall]~~ will be measured from ~~[finished]~~ finish grade.
- (c) The following structures and associated screening are exempt from zoning district height limits under the following specified restrictions:
- (1) Vent pipes, fans, roof access stairwells, and structures housing rooftop machinery, such as elevators and air conditioning, not to exceed 18 feet above the governing height limit; provided that structures housing rooftop machinery on ~~[detached dwellings and duplex units]~~ single-unit, two-unit, and duplex-unit dwellings are not exempt from zoning district height limits;
  - (2) Chimneys~~[-which]~~ that may also project into required height setbacks;
  - (3) Safety railings not to exceed 42 inches above the governing height limit;
  - (4) *Utility poles and antennas.* The council finds and declares that there is a significant public interest served in protecting and preserving the aesthetic beauty of the city. Further, the council finds that the indiscriminate and uncontrolled installation, location, and height of antennas are detrimental to the city's appearance and image; may result in significant damage to the community's sense of well-being, particularly in residential areas; and may have negative economic impacts to the city's tourism industry, which relies heavily on the city's physical appearance. However, the council also finds that there is a need for additional height for certain types of utility poles and antennas, and that there is a clear public interest served by ensuring that those transmissions and receptions providing the public with power and telecommunication services are unobstructed. Therefore, in accord with the health, safety, and aesthetic objectives set forth in § 21-1.20, and considering the public interest needs associated with certain types of power and telecommunication services:

SECTION 30. Section 21-4.110, Revised Ordinances of Honolulu 2021, is amended to read as follows:

**"§ 21-4.110 Nonconformities.**

Constraints are placed on nonconformities to facilitate eventual conformity with this chapter. In other than criminal proceedings, the owner, occupant, or user shall bear the burden to prove that a zoning lot, [a] structure, [a] use, [a] dwelling unit, or parking or loading space was legally established as it now exists. Nonconforming lots, structures, uses, dwelling units, commercial use density, and parking and loading spaces may be continued, subject to the following provisions.

(a) *Nonconforming lots.*

- (1) A nonconforming lot [~~shall~~] may not be reduced in area, width, or depth, except by government action to further the public health, safety, or welfare.
- (2) Any conforming structure or use may be constructed, enlarged, extended, or moved on a nonconforming lot [~~as~~] so long as all other requirements of this chapter are met.

(b) *Nonconforming structures.*

- (1) If that portion of a structure that is nonconforming is destroyed by any means to an extent of more than 90 percent of its replacement cost at the time of destruction, it may not be reconstructed except in conformity with this chapter. All reconstruction and restoration work must comply with building code and flood hazard regulations, and commence within two years [~~of~~] after the date of destruction.
  - (A) Notwithstanding the foregoing provision, a nonconforming structure devoted to a conforming use that [~~contains multifamily dwelling units~~] consists of a multi-unit dwelling owned by owners under the authority of the State of Hawaii Condominium Property Act or HRS Chapter 421H, or dwelling units owned by a "cooperative housing

- (B) A nonconforming structure that is required by law to be razed by the owner thereof may not thereafter be reconstructed and restored except in full conformity with this chapter.
- (2) If a nonconforming structure is moved, it must conform to this chapter.
- (3) Any nonconforming structure may be repaired, expanded, or altered in any manner that does not increase its nonconformity.
- (4) Improvements on private property[.] that become nonconforming through the exercise of the government's power of eminent domain may obtain waivers from this subsection, as provided by § 21-2.130.
- (5) Nonconforming commercial use density will be regulated under ~~[the provisions of]~~ this subsection. For the purposes of this section, "nonconforming commercial use density" means a structure that is nonconforming by virtue of the previously lawful mixture of commercial uses on a zoning lot affected by commercial use density requirements in excess of:
- (A) The maximum FAR permitted for commercial uses; or
- (B) The maximum percentage of total floor area permitted for commercial uses.
- (c) *Nonconforming uses.* Strict limits are placed on nonconforming uses to discourage the perpetuation of these uses, and to facilitate the timely conversion to conforming uses.
- (1) A nonconforming use may not extend to any part of a structure or lot that was not arranged or designed for such use at the time of adoption of ~~[the provisions of]~~ this chapter or subsequent amendment; nor may the nonconforming use be expanded in any manner, or the hours of operation

- (A) The recreational accessory use will be expanded or extended to a structure in ~~[that]~~ which a permitted use also is being conducted, whether that structure is on the same lot or on an adjacent lot; and
  - (B) The recreational accessory use is accessory to both the permitted use and the nonconforming use.
- (2) Any nonconforming use that is discontinued for any reason for 12 consecutive months, or for 18 months during any three-year period, may not be resumed; provided that a temporary cessation of the nonconforming use for purposes of ordinary repairs for a period not exceeding 120 days during any 12-month period will not be considered a discontinuation.
- (3) Work may be done on any structure devoted in whole or in part to a nonconforming use; provided that work on the nonconforming use portion ~~[of the structure must]~~ will be limited to ordinary repairs. For the purposes of this subsection, the term "ordinary repairs" ~~[means]~~ is only construed to include the following:

- (4) Any nonconforming use may be changed to another nonconforming use, subject to the prior approval of the director; provided that:
- (A) The change in use is only permitted if any adverse effects on neighboring occupants and properties will not be greater than if the original nonconforming use were to be continued; and
  - (B) The director may impose conditions on the change in nonconforming use necessary or appropriate to minimize impact or prevent greater adverse effects related to a proposed change in use. Other than for ordinary repairs as provided [~~as "ordinary repairs"~~] under subdivision (3), improvements intended to accommodate a change in nonconforming use or tenant are not permitted.
- (5) Any action taken by an owner, lessee, or authorized operator that reduces the negative effects associated with the operation of a nonconforming use, including but not limited to reducing hours of operation or exterior lighting intensity, [~~may~~] will not be reversed.
- (d) *Nonconforming dwelling units.* With the exception of ohana [~~dwelling~~] units, which are subject to [~~the provisions of~~] § 21-2.140-1(h), nonconforming dwelling units are subject to the following provisions:
- (1) A nonconforming dwelling unit may be altered, enlarged, repaired, extended, or moved; provided that all other provisions of this chapter are met;
  - (2) If a nonconforming dwelling unit is destroyed by any means to an extent of more than 50 percent of its replacement cost at the time of destruction, it may not be reconstructed; and

Failure to meet these conditions will result in the denial of the application for renewal of the nonconforming use certificate. The requirement for the 35 days of transient occupancies ~~[shall]~~ will be effective on January 1, 1995 and ~~[shall apply]~~ applies to renewal applications submitted on or after January 1, 1996.

- (c) The owner, operator, or proprietor of any transient vacation unit who has obtained a nonconforming use certificate under this section shall display the certificate issued for the current year in a conspicuous place on the premises. In the event that a single address is associated with numerous nonconforming use certificates, a listing of all units at that address holding current certificates may be displayed in a conspicuous common area instead.
- (d) The following additional provisions apply to transient vacation units operating under a nonconforming use certificate pursuant to this section:
  - (1) Section ~~[21-5.730(b)(3)]~~ 21-5.70-3(a)(2)(C) relating to restrictions and standards; and
  - (2) Section ~~[21-5.730(e)]~~ 21-5.70-3(a)(3) relating to advertisements.
- (e) In addition to the requirements in subsection (d), for transient vacation units operating under a nonconforming use certificate pursuant to this section that are located within the country, residential, or apartment zoning districts, transient occupants are prohibited from parking their vehicles on the public streets in the vicinity of the transient vacation unit.
- (f) A nonconforming use certificate for a transient vacation unit that has been issued and renewed pursuant to this section may be renewed by a new owner, operator,

  - (1) Open space is encouraged in the form of small-scaled interior landscaped courtyards and interior pedestrian walkways.
  - (2) Street trees ~~[shall not be]~~ are not required. ~~[Any trees planted]~~ The planting of trees within a front yard or sidewalk area ~~[shall]~~ must take into consideration the objectives of the precinct, especially the desire for continuous building frontages and sidewalk canopies, as well as traffic and pedestrian safety.
  - (3) Along Hotel Street, street trees may complement its strong retail character and public transit corridor function. They ~~[shall]~~ must be a minimum of 2-inch caliper. Species and spacing ~~[shall]~~ must be chosen from an approved tree list on file with the department and the department of parks and recreation.
- (c) *Required yards.*
  - (1) There ~~[shall be]~~ are no required yards.
  - (2) All buildings on the same block face ~~[shall]~~ must form a continuous street facade, except for necessary driveways, pedestrian entryways, and small open space pockets.
- (d) *Permitted uses.* Ground floor spaces should be used exclusively for retail commercial uses, or ~~[light]~~ food manufacturing of an ethnic nature such as noodle-making, compatible with the objectives for Chinatown. ~~[Notwithstanding the underlying zoning, one- and two-family dwellings are permitted, if located above the ground floor.]~~

SECTION 61. Section 21-9.80-4, Revised Ordinances of Honolulu 2021, ("General requirements and design controls"), is amended by amending subsections (c), (d), and (e) to read as follows:

"(c) *Design guidelines.*

- (1) *General guidelines.* All structures, open spaces, landscape elements, and other improvements within the district must conform to the guidelines for urban design controls specified in Exhibit 21-9.15; the design standards of this section; and other design guidelines adopted by the director to further define and implement these guidelines and standards.
- (2) *Yards.* Yard requirements will be as provided under the development standards for the underlying zoning precinct under Table 21-9.6(B).
- (3) *Car rental establishments.* Car rental establishments must comply with the following requirements:
  - (A) Side and rear yards must be a minimum of 5 feet; with a solid fence or wall at least 6 feet in height on the property line, and the required yard substantially landscaped with planting and maintained;

- (B) The car rental establishment must be illuminated so that no unshielded, unreflected, or undiffused light source is visible from any public area or private property immediately adjacent to the establishment;
  - (C) All areas not landscaped must be provided with an all-weather surface; and
  - (D) No water produced by activities on the zoning lot may fall upon or drain across public streets or sidewalks.
- (4) ~~[Utility installations.]~~ Small, medium, and large utilities. Except for antennas, ~~[utility installations]~~ small, medium, and large utilities must be designed and installed in an aesthetic manner so as to hide or screen wires and equipment completely from view, including views from above; provided that any antenna located at a height of 40 feet or less from existing grade should take full advantage of stealth technologies to be adequately screened from view at ground level without adversely affecting operational capabilities.
- (5) *Building materials.* Selection and use of building materials should contribute to a Hawaiian sense of place through the use of subdued and natural materials, such as plaster finishes, textured concrete, stone, wood, and limited use of color-coated metal. Freestanding walls and fences should be composed of moss rock, stucco-finished masonry, or architectural concrete whenever possible. Colors and finishes should be characterized as being absorptive rather than reflective. The use of shiny metal or reflective surfaces, including paints and smooth or plastic-like surfaces, should be avoided.
- (6) *Building scale, features, and articulation.* Project designs should provide a human scale at ground level. Buildings composed of stepped forms are preferred. Articulated facades are encouraged to break up building bulk. Use of the following building features is encouraged: sunshades; canopies; eaves; lanais; hip-form roofs for low-rise, freestanding buildings; recessed windows; projecting eyebrows; and architectural elements that promote a Hawaiian sense of place.
- (7) *Exterior building colors.* Project colors should contribute to a tropical resort destination. They should complement or blend with surrounding

colors, rather than call attention to the structure. Principal colors, particularly for high-rise towers, should be of neutral tones with more vibrant colors relegated to accent work. Highly reflective colors are not permitted.

(8) *Ground level features.*

- (A) Within a development, attention should be given to pedestrian-oriented ground level features. A close indoor-outdoor relationship should be promoted. Design priority should include the visual links through a development connecting the sidewalk and other public areas with onsite open spaces, mountains, and the ocean.
- (B) Building facades at the ground level along open spaces and major streets (including Kalakaua Avenue, Kuhio Avenue, Kapahulu Avenue, Ala Wai Boulevard, and Ala Moana Boulevard) must be devoted to open lobbies, arcade entrances, display windows, and permitted outdoor dining areas.
- (C) Where commercial uses are located at ground level, other than as required by paragraph (B), at least one-half of the total length of the building facade along streets must be devoted to open lobbies, arcade entrances, display windows, and permitted outdoor dining areas.
- (D) The street facades of ground level hotel lobbies should include wide, open entryways. Ventilation in these lobbies should primarily depend on natural air circulation.
- (E) Where buildings are situated between a street and the shoreline, or between a street and open spaces, ground level lobbies, arcades, and pedestrian ways should be provided to create visual links between the street and the shoreline or open space.
- (F) Where blank walls necessarily front a street or open space, they must be screened with heavy landscaping or appropriately articulated exterior surfaces.

- (G) Effective December 1, 2025, ground level parking facilities should not be located along any street, park, beachfront, public sidewalk, or pedestrian way. Where the site plan precludes any other location, the garage may front these areas if landscaping is provided for screening. Principal landscaping must include trees, and secondary landscape elements may include tall hedges and earth berms.
- (H) For the purposes of the Waikiki special district, an "open lobby" means a ground-floor lobby that is not enclosed along the entire length of at least two of its sides or 50 percent of its perimeter, whichever is greater, and that provides adequate breezeways and views to interior or prominent open spaces, intersecting streets, gateways, or significant pedestrian ways.
- (9) *Outdoor lighting.* Outdoor lighting must be subdued or shielded so as to prevent glare and light spillage onto surrounding properties and public rights-of-way. Outdoor lighting must not be used to attract attention to structures, uses, or activities; provided that indirect illumination that is integrated with the architectural design of a building may be allowed when it is utilized to highlight and accentuate exterior building facades, and architectural or ground level features. Rotating, revolving, moving, flashing, or flickering lights must not be visible to the public, except lighting installed by a public agency for traffic safety purposes or temporary lighting related to holiday displays.
- (d) *Planned development-resort (PD-R) and planned development-apartment (PD-A) projects.* The purpose of the PD-R and PD-A options is to provide opportunities for creative redevelopment not possible under a strict adherence to the development standards of the special district. Flexibility may be provided for project density, height, precinct, transitional height setbacks, yards, open space, and landscaping when timely, demonstrable contributions benefiting the community and the stability, function, and overall ambiance and appearance of Waikiki are produced.

Reflective of the significance of the flexibility represented by this option, it is appropriate to approve projects conceptually by legislative review and approval before more detailed review and approval by the department.

- (A) PD-R projects are only be permitted in the resort mixed-use precinct, and PD-A projects are only permitted in the apartment precinct; and
- (B) The minimum project size is 1 acre. Multiple zoning lots may be part of a single PD-R or PD-A project if the owners, lessees, developers, or other designated representatives, including but not limited to a board or association of homeowners, condominium owners, timeshare owners, or cooperative housing owners, in lieu of individual owners, consent. ~~[Lots]~~ Zoning lots may be added to or removed from existing PD-R or PD-A projects upon the application of the owners, lessees, developers, or other designated representatives of the zoning lots to be added or removed with the written consent of the original applicant for the existing PD-R or PD- A project, or ~~[its]~~ the original applicant's successor. Multiple zoning lots in a single project must be contiguous; provided that lots that are not contiguous may be part of a single project if all of the following conditions are ~~[met:]~~ satisfied:
- (i) The zoning lots are not contiguous solely because they are separated by a street or right-of-way that is not a major street as shown on Exhibit 21-9.15; and

Additional documentation may be required by the director as necessary. The following criteria will be used by the director to review applications:
- (i) The project must conform to the approved conceptual plan and any conditions established by the council in its resolution of approval;
  - (ii) The project also must implement the objectives, guidelines, and standards of the Waikiki special district and this subsection;

To achieve this, the following special district standards may be modified, subject to a major special district permit approval:

- (A) *Open space.* Minimum required open space may be adjusted, as follows:
- (i) For each square foot of public open space provided on the lot, the open space may be reduced by 1 square foot. If provided, front yards may be included as public open space;
  - (ii) For every 2 square feet of arcade space provided on the lot, the open space may be reduced by 1 square foot;

- (B) Adequate screening of building equipment or machinery is provided when necessary to protect the design intents of the special district;
- (C) The increase does not result in a net loss in required open space, arcades, or landscaping; and
- (D) Other than for dwelling units, existing onsite parking spaces may be removed; provided that:
  - (i) There are no feasible alternatives to the location of the equipment or utility room; and
  - (ii) The number of off-street parking spaces removed is less than:
    - (aa) Five percent of the total number of existing spaces, if the total number of existing spaces is 100 or less; or
    - (bb) Three percent of the total number of existing spaces, if the total number of existing spaces is more than 100;
- (6) Notwithstanding any ordinance to the contrary, nonconforming hotel units may be time sharing units, subject to applicable State law; and
- (7) Unless voluntarily abandoned, nonconforming uses that have been temporarily discontinued for purposes of redevelopment or renovation, as permitted by this subsection, ~~shall~~ must not otherwise be subject to the discontinuation of use provisions in § 21-4.110(c)(2)."

SECTION 69. Section 21-9.100 ("Transit-oriented development (TOD) special district"), Revised Ordinances of Honolulu 2021, is amended by amending subsection (c) to read as follows:

"(c) For the purposes of this section, the following definitions apply unless the context clearly indicates or requires a different meaning.

**Active Ground Floor Activities.** Those uses and activities that will encourage pedestrian movement and activate the ground floor of buildings, including retail establishments, restaurants, personal service establishments, offices, financial institutions, lobbies for hotels or ~~[multifamily]~~ multi-unit dwelling uses, galleries, theaters, and other similar uses and activities.

**Bike-Walk Greenway.** Shared-use paths or trails for pedestrians, cyclists, and other users of non-motorized transportation modes within or adjacent to a TOD special district. Certain development standards will apply only to those zoning lots that abut the bike-walk greenway. Bike-walk greenways are identified on the exhibits set forth at the end of this article.

**Community Benefits.** Those project elements that will mitigate impacts of greater heights or greater density or modifications to TOD special district development standards. Examples of community benefits include affordable housing, open space, parks, right-of-way improvements, financial contributions to existing community amenities or public uses, and facilities that enhance the pedestrian experience or improve multimodal transportation.

**IPD-T.** An interim planned development-transit project pursuant to § 21-9.100-5.

**Key Streets.** Streets within a TOD special district that are most vital to facilitating a walkable, vibrant, economically active neighborhood in the direct vicinity of a rail station. Certain development standards will apply only to those zoning lots fronting a designated key street. The key streets are identified on the exhibits set forth at the end of this article.

**Nonconforming Site Development.** A zoning lot with structures or uses that comply with underlying zoning district standards, but are not in conformance with all of the standards of the TOD special district, including but not limited to building location, yard and setback requirements, street facades, building orientation and entrances, parking lot design and location, and bicycle parking.

**PD-T.** A planned development-transit project pursuant to § 21-9.100-10.

**Rail Station.** An existing or planned rail station identified in the Honolulu Rail Transit Project Environmental Impact Statement, accepted by the Governor of the State of Hawaii on December 16, 2010.

**Setback.** The distance from the property line to the front facade of a building.

**Street Tree Plan.** A street tree planting plan approved in accordance with the city "Standards and Procedures for the Planting of Street Trees."

**TOD.** Transit-oriented development.

**TOD Development Regulations.** The regulations establishing the permitted uses and structures and development standards within a TOD special district, which will be established by the council by ordinance, pursuant to this section. TOD development regulations may include provisions specific to certain rail station areas.

**TOD Special District.** That area surrounding rail stations along the rail alignment and designated in § 21-9.100-12. Lands within a TOD special district are subject to TOD development regulations.

**TOD Station Area or Station Area.** The parcels of land around a rail station subject to the TOD development regulations. Generally, the TOD station area will consist of that land within approximately 0.5 miles of the related rail station, which is roughly the distance of a 5- to 10- minute walk from the station, as identified on the exhibits set forth at the end of this article."

SECTION 70. Section 21-9.100-5, Revised Ordinances of Honolulu 2021, ("Interim planned development-transit (IPD-T) projects"), is amended by amending subsection (d) to read as follows:

"(d) *Use regulations.*

- (1) Permitted uses and structures for all zoning districts other than the BMX-4 central business mixed-use zoning district may be any of those uses permitted in the BMX-3 community business mixed-use zoning district; [except] provided that [a hotel is] lodging uses are not permitted on any zoning lot unless [it is] they are otherwise in compliance with the standards enumerated by [§ 21-5.360,] § 21-5.70-3(b), or on a zoning lot

- (3) Ground floors and pedestrian-accessible spaces should be used to the extent feasible for active uses, including but not limited to outdoor dining, retail, gathering places, and pedestrian-oriented commercial activity. These spaces should also provide public accommodations, including but not limited to benches and publicly accessible seating, shaded areas through either trees or built structures, publicly accessible restrooms, trash and recycling receptacles, facilities for recharging electronic devices, publicly accessible telecommunications facilities, and Wi-Fi service."

SECTION 71. Section 21-9.100-7, Revised Ordinances of Honolulu 2021, is amended to read as follows:

**"§ 21-9.100-7 Use regulations.**

Permitted uses and structures are as enumerated in Table 21-3, except as provided below:

- (a) In the business mixed-use district, the ground floor of buildings facing a key street, public open space, or transit station must be designed and used for active ground floor activities, as defined in § 21-9.100(c), for at least 80 percent of the ground-floor building frontage. On corner lots, this requirement must be met on each key-street-facing facade.
- (b) In the apartment mixed-use district the ground floor of the building frontage facing any key street, public open space, or transit station must be designed and used as residential dwelling units or active ground floor activities, as defined in § 21-9.100(c). On corner lots, this requirement must be met on each key-street-facing facade.

SECTION 77. Section 8-7.5, Revised Ordinances of Honolulu 2021 ("Certain property dedicated for residential use"), is amended by amending subsection (d) to read as follows:

"(d) The approval of the petition by the director to dedicate ~~[shall constitute]~~ constitutes a forfeiture on the part of the owner of any right to change the use of such person's property for a minimum period of five years, automatically renewable thereafter for additional periods of five years subject to cancellation by either the owner or the director. Cancellation of the dedication by the owner must be in writing and submitted to the director by September 1 only within the fifth year of the date of the dedication, or the latest five-year renewal period.

Upon sale or transfer of the dedicated property, the dedication ~~[shall]~~ will continue for the remainder of the five year dedication or latest five-year renewal subject to all restrictions and penalties. Upon expiration of the fifth year, the dedication will not automatically renew and will be canceled by the director.

For the purpose of this dedication, there is no change in use if the owner demolishes and constructs or reconstructs one or more ~~[detached dwellings]~~ dwelling units or ~~[multi-family]~~ multi-unit dwellings; provided that such construction or reconstruction is permitted pursuant to Chapter 21, ~~[as amended,]~~ the replacement structure or structures are completed no less than 24 months after the building permit is issued, and at least the same number of dwelling or lodging units as those demolished are developed. The five-year dedication will be suspended during this period of demolition and construction or reconstruction, and the parcel and any improvements thereon will continue to be classified and assessed at their value in residential use during the suspension."

SECTION 78. Section 8-10.19, Revised Ordinances of Honolulu 2021 ("Exemption—Historic residential real property dedicated for preservation"), is amended by amending subsection (a) to read as follows:

"(a) For the purposes of this section, the following definitions apply unless the context clearly indicates or requires a different meaning.

- (1) A building permit application has been accepted as complete, and the application has been under review for at least 30 days;
  - (2) All applicable discretionary permits have been obtained; provided that if the only applicable discretionary permits are those issued by the building official and applications for the permits are pending with the building official, then the requirement of this subdivision may be met if the building official determines that the pending discretionary permits are achievable;
  - (3) Adequate documentation has been submitted showing the satisfaction of, or the intent to satisfy, all applicable requirements for flood hazard certification, stormwater quality compliance, and outstanding conditions of approval associated with discretionary permits;
  - (4) Except for notices of violation and notices of order that will be corrected by the building permit issued pursuant to the application, there must be no outstanding notices of violation, notices of order, or unpaid civil fines for the subject property;
  - (5) The building permit application must not involve a ~~[single-family or two-family detached]~~ single-unit or two-unit dwelling;
  - (6) The work allowed to proceed must not involve work in a public right-of-way;

- (8) The drawings used for the special assignment inspection, including the jobsite copy, must be identical to the drawings submitted with the building permit application, and the applicant shall ensure that all sets of drawings are consistent throughout the review period and construction phases;
- (9) The building official shall find that:
  - (A) It is reasonably likely that the building permit application, including all documents and materials submitted with or attached to the application, will be approved and the building permit issued;
  - (B) The construction poses no threat to public health and safety; and
  - (C) There is a sense of urgency to commence construction in a timely manner; examples include but are not limited to the impending lapse of funding, federal compliance deadlines, financing obligations, or lease obligations;
- (10) Special assignment inspections will be conducted as soon as practicable after the approval date of the initial request; if a building permit is not issued within an 18-month period, the applicant may submit a new request for a special assignment inspection, subject to the building official's approval; and
- (11) Special assignment inspections must not be used for purposes of obtaining a certificate of occupancy.

The building official may waive any or all of the requirements of this subsection if the building permit applicant demonstrates good cause; provided that the building official shall not approve a waiver that would result in any conflict with other requirements of this chapter.

A building permit applicant requesting to proceed with construction under a special assignment inspection proceeds at the applicant's risk without assurance that a building permit will ultimately be issued. Violations discovered during the special assignment inspection may result in suspension of the special assignment inspection, a notice of violation, a stop work order, or suspension of the review of the building permit application."

SECTION 86. Section 22-7.5, Revised Ordinances of Honolulu 2021 ("Land area required for parks and playgrounds"), is amended as follows:

1. By amending subsection (a) to read as follows:

"(a) *Country and residential zoning districts, excluding planned development housing projects.* The minimum land area in the country and residential zoning districts ~~[will be:]~~ is:

- (1) For subdivisions involving three or four zoning lots: 50 square feet per dwelling or lodging unit;
- (2) For subdivisions involving five zoning lots: 100 square feet per dwelling or lodging unit;
- (3) For subdivisions involving six zoning lots: 200 square feet per dwelling or lodging unit;
- (4) For subdivisions involving seven or eight zoning lots: 300 square feet per dwelling or lodging unit; and
- (5) For subdivisions involving nine or more zoning lots: 350 square feet per dwelling or lodging unit.

For subdivision actions involving eight or fewer zoning lots, the applicable rate will be based on the total number of potential lots.

A zoning lot that ~~[cannot]~~ is not able to be further subdivided will count as one potential lot. For a zoning lot that ~~[can]~~ may be further subdivided, the potential number of lots will be determined by dividing the area of the zoning lot by the minimum potential lot size for the zoning district.
