SUMMARY OF PROPOSED COMMITTEE DRAFT:

RESOLUTION 25-93
AMENDING RESOLUTION 22-061, CD1, TO EXTEND THE DEADLINE TO OBTAIN A DEVELOPMENT PERMIT FOR A SINGLE-FAMILY DWELLING UNIT, A GYM, AND A GARAGE IN KĀHALA, OʻAHU.

The PROPOSED CD1 makes the following amendments:

A. Amends the resolution title to read as follows:

"AMENDING RESOLUTION 22-61, CD1, AS AMENDED BY MINOR MODIFICATION 2024/MOD-50, TO EXTEND THE DEADLINE TO OBTAIN A DEVELOPMENT PERMIT FOR A SINGLE-FAMILY DWELLING, DETACHED GARAGE, GYM, SWIMMING POOL, AND OTHER IMPROVEMENTS IN KĀHALA, OʻAHU."

B. Amends the fifth WHEREAS clause, to refer to Ordinances 23-3 and 23-4 (instead of Ordinances 23-3 and 23-5).

C. Replaces the seventh WHEREAS clause, relating to the DPP's approval of a Minor Modification of the Project, with a new WHEREAS clause to read as follows:

WHEREAS, on October 29, 2024, the DPP Director approved Minor Modification 2024/MOD-50, which amended the Project and certain conditions of approval as set forth in Resolution 22-61, CD1, to:

1. Account for plan revisions to remove one single-family dwelling; changing the orientation of the detached garage; and adding a recreation room (gym), package delivery kiosk, covered meditation pavilion, and in-ground swimming pool with expansive deck and lanai;

2. Address the 2023 regulatory changes under Ordinances 23-3 and 23-4 by moving the dwelling farther mauka to 81 feet (instead of 61 feet) from the certified shoreline, and including resiliency and adaptation elements into the Project design (elevating the building pad by an additional 1.5 feet above existing grade, and installing deep foundation elements to support the makai portion of the residence); and

3. Retain the conditions in Resolution 22-61, which remained in full force and effect, and impose additional conditions of approval relating to landowner acknowledgements of coastal hazards and minimizing the spread of invasive pathogens, pests, or plants.

D. Amends the eighth WHEREAS clause to add that on March 28, 2024, the State Historic Preservation Division ("SHPD") accepted an Archaeological Assessment for the Project site, which was based on a previously prepared Archaeological Inventory Survey; upon review of the Archaeological Assessment, SHPD issued a letter requiring that the Applicant prepare and submit to SHPD an Archaeological Monitoring Plan ("AMP"); on January 16, 2025, the Applicant submitted the AMP to SHPD, and SHPD concurrence of the AMP is currently pending.

E. Adds a new 10th WHEREAS clause to provide that the DPP's report indicates a two-year extension of the deadline to obtain a development permit for the Project is reasonable due to the change in ownership of the Project site and resulting Project revisions to address the needs of the current owner, Project revisions to increase the resiliency of the dwelling to coastal hazards, and archaeological requirements to prepare an AMP; the DPP's report also indicates that the Applicant has demonstrated progress in moving forward with the Project, and has informed the DPP of changes in the status of the Project.

F. Amends the BE IT RESOLVED clause to provide that Resolution 22-61, CD1, as amended by Minor Modification 2024/MOD-50, is further amended to extend the deadline to obtain a development permit for the Project from May 3, 2025 to May 3, 2027.

G. Amends the first BE IT FURTHER RESOLVED clause to provide that all other provisions of Resolution 22-61, CD1, as modified by Minor Modification 2024/MOD-50, are ratified and confirmed, and remain in full force and effect.

H. Makes miscellaneous technical and nonsubstantive amendments.
