No. 25 - 105

RESOLUTION

PROPOSING AN AMENDMENT TO CHAPTER 21, REVISED ORDINANCES OF HONOLULU 2021 (THE LAND USE ORDINANCE), RELATING TO THE DEVELOPMENT STANDARDS FOR THE APARTMENT AND APARTMENT MIXED-USE DISTRICTS.

WHEREAS, a lack of affordable housing has become one of the most significant and challenging social problems in the City and County of Honolulu ("City"); and

WHEREAS, the disruptive social and economic effects resulting from the lack of affordable housing are becoming more pronounced, including: an alarming increase in the City's homeless population; an increased strain on the resources of social service agencies, relief and support non-profit entities, and churches; and a growing population that struggles to cover basic, cost-of-living expenses; and

WHEREAS, according to the 2019 Hawai'i Housing Planning Study published by the Hawai'i Housing Finance and Development Corporation (the "2019 HHFDC Housing Planning Study"), O'ahu needs an additional 22,168 housing units over a five-year period to meet the projected demand for housing, with 12,046 (54 percent) of those units needed for low-income households earning 80 percent or less of the area median income, as determined by the U.S. Department of Housing and Urban Development; and

WHEREAS, in March of 2024, the City Council ("Council") considered Resolution 24-65, which contemplated the impacts of House Bill 1630, H.D. 1 and Senate Bill 3202, S.D. 2 (hereinafter together "the State bills"), both of which relate to "urban development"; and

WHEREAS, the intention of the State bills appears to be to create opportunities for the provision of additional residential housing on residentially zoned property by requiring the counties to allow, subject to certain exceptions, additional accessory dwelling units on residentially zoned properties and to allow further subdivision of such properties; and

WHEREAS, the State bills, although well-meaning, were met with stark community opposition, driven in part by concerns about the proliferation of undesirable "monster homes" in residential neighborhoods on O'ahu; and

RESOLUTION

WHEREAS, certain versions of the State bills would have allowed significantly more density in neighborhoods that have historically been reserved for single-family dwellings—a potentially catastrophic change that could reduce the availability of on-street parking; increase traffic congestion; and overburden public sewer, water, and other infrastructure—without allowing adequate time or means for the City to mitigate these impacts; and

WHEREAS, recognizing these community concerns, on March 25, 2024, the Council passed Resolution 24-65, CD1, which, among other things:

1. Expressed the Council's opposition to the enactment of the State bills, including, among other things, the substantial impact of the bills on the City's existing zoning districts and corresponding development standards for structures therein, and the character and nature of the neighborhoods and communities throughout the City; and
2. Acknowledged that the Council agrees with the purported intent of the State bills and that it supports some of the policy ideas considered in the State bills, as reflected in the policies recently adopted and actively being considered by the Council, while noting that these policies should be considered in accordance with the City's planning process, which provides City residents and businesses with ample opportunity for engagement and input; and

WHEREAS, the Council believes that, while there may be a need for increased density to address the City's existing housing crisis, increasing density in residential districts must be considered carefully to ensure the higher density is consistent with the O'ahu General Plan and the City's Development Plans and Sustainable Communities Plans (collectively, the "City plans"); and

WHEREAS, the City plans, which incorporate extensive input from affected communities as well as from federal, State, and local officials, further indicate the need for reasonable and sustainable growth; and

WHEREAS, for example, in Section IV, Objective A of the O'ahu General Plan, Policy 12 indicates that the City will seek to "[p]romote higher-density, mixed-use development *where appropriate* . . . to increase the supply of affordable and market housing in convenient proximity to jobs, schools, shops, and public transit" (emphasis added); and

No. 25 - 10.5

RESOLUTION

WHEREAS, the Council further finds that these units would be built in districts that, through extensive community planning and engagement, have been deemed appropriate for the construction of additional housing, as set forth in the City plans—unlike the mandates imposed by the State bills, which are contrary to the objectives of the City plans to direct growth to preserve and protect residential districts from higher-density development; and

WHEREAS, Section 6-1513, Revised Charter of the City and County of Honolulu 1973 (Amended 2017 Edition), as amended ("Charter"), provides that "[a]ny revision of or amendment to the zoning ordinances may be proposed by the council and shall be processed in the same manner as if proposed by the director [of planning and permitting]"; and

WHEREAS, the term "zoning ordinances," as used in Charter Section 6-1513, includes both amendments to the LUO and to ordinances designating particular parcels of property in terms of the LUO; and

WHEREAS, ROH Chapter 2, Article 24, Part A, establishes procedures and deadlines for the processing of Council proposals to revise or amend the general plan, a development plan, a zoning ordinance, and the subdivision ordinance, and clarifies the responsibility of the Director of Planning and Permitting to assist the Council in adequately preparing its proposals for processing; now, therefore,

BE IT RESOLVED by the Council of the City and County of Honolulu that the Director of Planning and Permitting and the Planning Commission are directed, pursuant to Section 6-1513, Revised Charter of the City and County of Honolulu 1973 (Amended 2017 Edition), as amended, and Chapter 2, Article 24, Part A, Revised Ordinances of Honolulu 2021 ("ROH"), to process the proposed amendment to ROH Chapter 21 (the "Land Use Ordinance"), attached hereto as Exhibit A, in the same manner as if the proposal had been proposed by the Director of Planning and Permitting; and

BE IT FURTHER RESOLVED that the Director of Planning and Permitting is directed to inform the Council upon the transmittal of the Director of Planning and Permitting's report and the proposed Land Use Ordinance amendment to the Planning Commission; and

No. 25 - 105

RESOLUTION

BE IT FINALLY RESOLVED that, pursuant to ROH Chapter 2, Article 24, Part A, the City Clerk shall transmit copies of this resolution and the exhibit attached hereto to the Director of Planning and Permitting and the Planning Commission of the City and County of Honolulu, and shall advise them in writing of the date by which the Director of Planning and Permitting's report and accompanying proposed ordinance are required to be submitted to the Planning Commission.
