Testimony:

Aloha Councilmembers,

I strongly support this proposed resolution to incorporate heat hazards into our emergency planning. With man-driven climate change accelerating all kinds of weather changes, we as a tropical island in the Central Pacific are more vulnerable by the day. We've got to be ready for all kinds of extreme and unusual weather. That includes extreme heat, especially during the day and especially during the summer months.

I applaud Councilmember Cordero for introducing this measure and a well written companion resolution (RES25-202) that will enhance the resiliency of our city. I strongly urge this Committee to SUPPORT this resolution!
