Testimony:

The reason why I, Johnnie-Mae L. Perry SUPPORT BILL 52 - RELATING TO THE MAINTENANCE OF STREAMS AND OTHER BODIES OF WATER is because the problem with "ocean sand build-up" at the mouth of Ulehawa Stream located on Farrington Hwy. in Nanakuli, O'ahu. City crew physically remove the sand build-up with heavy equipment, at least three or four times a year! It appears there's a "design flaws" causing the chronic ocean sand build-up!

The next problem is with Maipalaoa Stream located on Farrington Hwy. in Mai'li, O'ahu. Sand build-up on the mauka side of Farrington Hwy. after the completion of the bridge, 2025. City crew did come out to the stream and build the sand up on the mauka-side of Farrington Hwy. instead of transporting the sand to the ocean side of the newly constructed bridge.
