The Honorable Val Okimoto, Chair
Committee on Budget
and Members
Honolulu City Council
530 South King Street, Room 202
Honolulu, Hawai'i 96813

Dear Chair Okimoto and Councilmembers:

SUBJECT: Bill 78 (2025), Relating to Parking

In response to a request made by your Committee members during the March 3, 2026 discussion item concerning Bill 78 (2025), the Department of Transportation Services (DTS) is providing two (2) maps from our presentation with enhanced legibility as additional testimony in support of the measure under consideration.

These maps demonstrate how our recent technology upgrade to the City's single-space parking meters, for which we are grateful of Council's funding support, allows for the collection and analysis of peak hour occupancy (see Attachment 1) and unpaid occupancy (Attachment 2) based on the observations during January through March of 2025.

Zones with peak hour occupancy (see Attachment 1) between 60-80 percent in green represent areas that DTS does not recommend a change in rates, areas in red are less than 60 percent occupied and DTS recommends rates be reduced if they are not already at the minimum rate. For January through March of 2025, there were no zones with average peak hour occupancy above 80 percent.

Zones with unpaid occupancy (see Attachment 2) between 24-45 percent in green represent areas that enforcement appears to motivate customer compliance and lawful payment, areas in yellow with 46-60 percent unpaid occupancy need additional education and enforcement, and areas in red between 61-78 percent unpaid occupancy suggest that enforcement appears not to motivate customer compliance and lawful payment.

These types of data analytics are an important resource to better manage the City's investments.

The Honorable Val Okimoto, Chair
and Members
Committee on Budget

Again, thank you for the opportunity to offer this testimony. Should you have any questions, please contact me at (808) 768-8303.

Very truly yours,

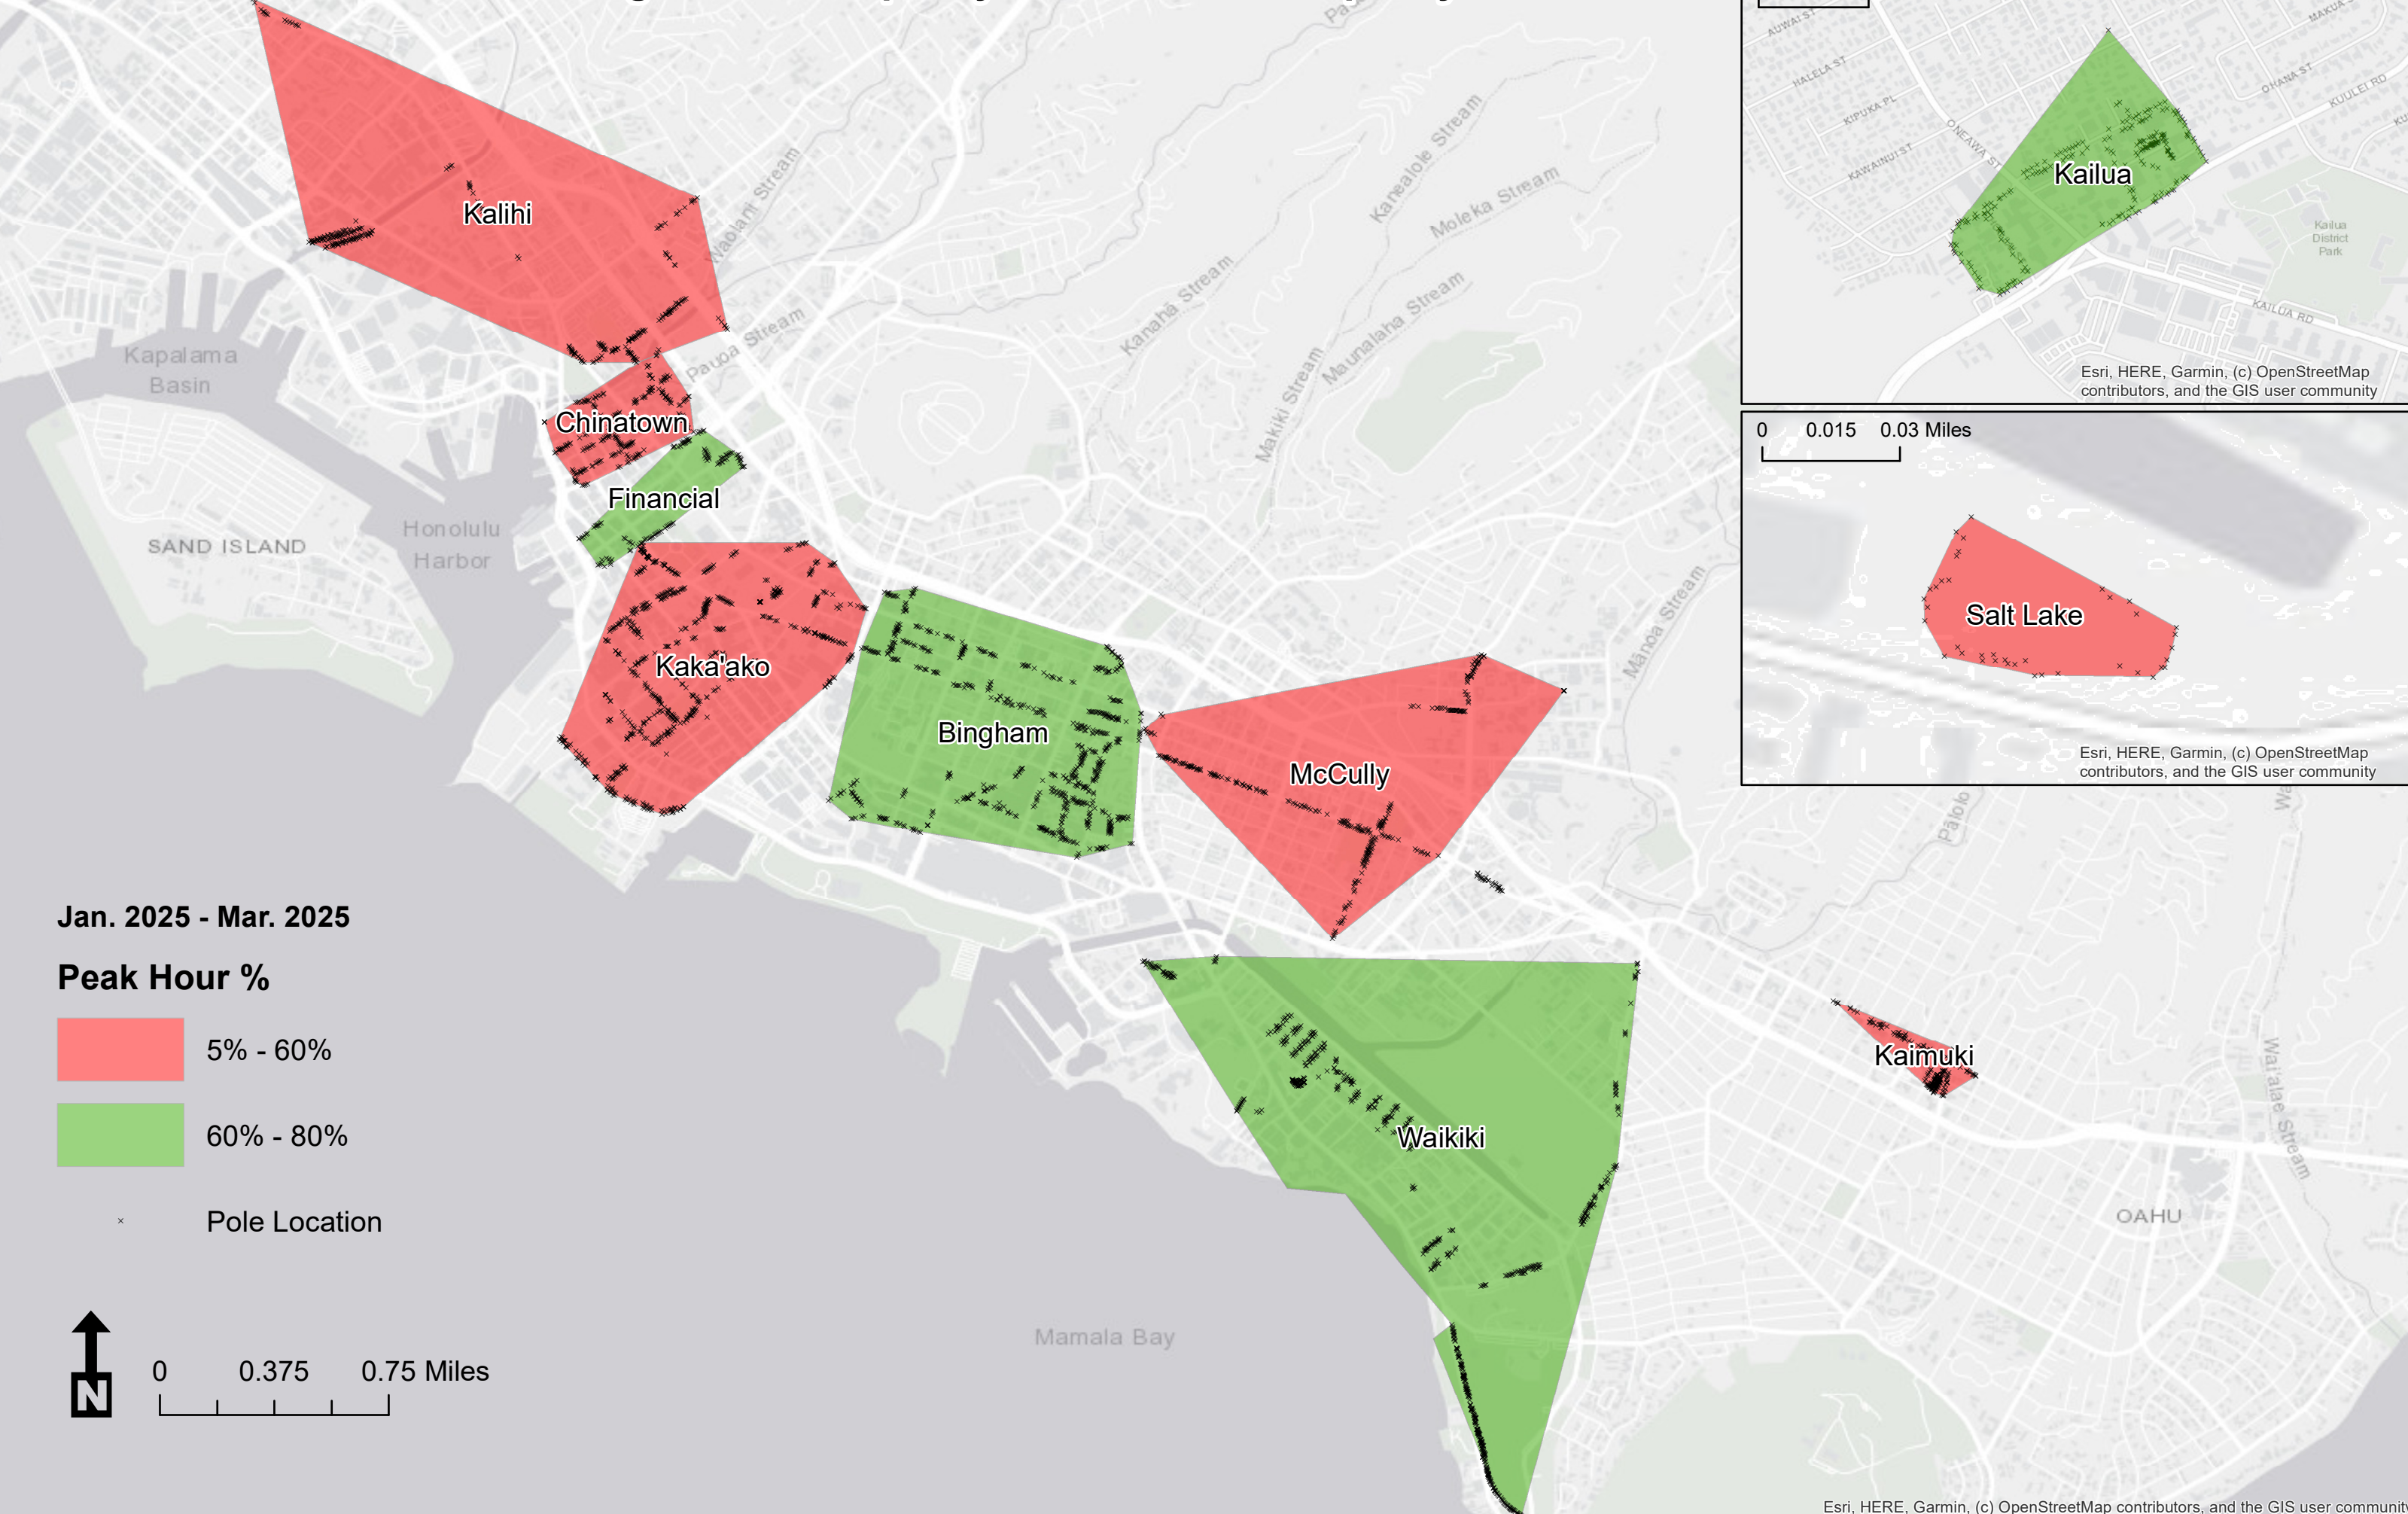

J. Roger Morton
Director
