Testimony: Aloha Councilmembers, I am glad to see this bill about to cross the finish line. Better and more public access to city financial data is crucial to better governance and better public financial management. When it comes to administration of taxpayer dollars, these transparency steps are very important. I strongly urge the Council to SUPPORT this bill over the final hurdle!

RE: Bill 76 (2025) — RELATING TO GOVERNMENT TRANSPARENCY

Aloha Chair Waters, Vice Chair Tupola and other members of the Council,

The Grassroot Institute of Hawaii **supports** [Bill 76 \(2025\)](#), which would require the Honolulu Department of Budget and Fiscal Services to create a free, online budget database accessible to the public.

This database would include information on every city expenditure, such as the amount of money spent, where the funds came from, the date of the expenditure, the department or agency that spent the money and the vendor or entity that received the funds.

Grassroot believes an online, searchable database would go a long way toward making Honolulu's government more transparent and accountable to island residents.

Right now, the public can access budget information through one of several annual and quarterly reports. However, there is no simple way to locate specific expenditures across a range of dates or departments. Furthermore, an online database would help the public determine whether funds are being allocated in accordance with their intended purposes.

Thank you for the opportunity to testify.
