Written Testimony	I support this bill. I wish we had it earlier when monster house permits were pending and then issued over a year later.

Written Testimony Excess concrete and bad permitting for Monster houses are some of the reasons this Flood and its \$\$\$ damage and pollution of our ocean was so severe. these kinds of Rain events would be mitigated if we Permitted for Permeable surfaces and more trees and landscapes, You know like how a Community and Neighborhood should be

Written Testimony

How were permits for these homes issued that clearly do not meet DPP regulations? Fifteen rooms in one structure, with FAR exceeding 0.6, no parking, and insufficient infrastructure should never be allowed. What "family" would live there? It will clearly be an illegal rental and a blight on the neighborhood. If a permit application was submitted to circumvent the moratorium or current rules, it should then it should expire after 365 days and a new permit should be submitted which complies with the current law.
